VIEW SYSTEMS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED JUNE 30, 2001 AND 2000

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

View Systems, Inc. (the "Company") designs and develops computer software and hardware used in conjunction with surveillance capabilities. The technology utilizes the compression and decompression of digital inputs. Operations, from formation to June 30, 1999, have been devoted primarily to raising capital, developing the technology, promotion, and administrative function. As of July 1, 1999 the Company was no longer considered to be in the development stage.

Basis of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, Real View Systems, Inc. ("Real View"), Xyros Systems, Inc. ("Xyros") and Eastern Tech Manufacturing, Inc. ("ETMC"). All significant intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates

Management uses estimates and assumptions in preparing financial statements in accordance with accounting principles generally accepted in the United States. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could differ from the estimates that were used.

Edgar Filing: VIEW SYSTEMS INC - Form 10QSB

Revenue Recognition

The Company and its subsidiaries recognize revenue and the related cost of goods sold upon shipment of the product.

In December 1999, the Securities and Exchange Commission ("SEC") issued Staff Accounting Bulletin No. 101 ("SAB 101"), "Revenue Recognition in Financial Statements". SAB 101 summarizes certain of the SEC's views in applying accounting principles generally accepted in the United States to revenue recognition in financial statements. The Company adopted SAB 101 in the fourth quarter of 2000. The adoption of SAB 101 had no impact on the Company's financial position or results of operations.

Inventories

Inventories are stated at the lower of cost or market. Cost is determined by the last-in-first-out method (LIFO).

Property and Equipment

Property and equipment is recorded at cost and depreciated over their estimated useful lives, using the straight-line and accelerated depreciation methods. Upon sale or retirement, the cost and related accumulated depreciation are eliminated from the respective accounts, and the resulting gain or loss is included in the results of operations. The useful lives of property and equipment for purposes of computing depreciation are as follows:

Equipment	5-7 years
Software tools	3 years

5

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS

The following discussion should be read and reviewed in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations set forth in the Company's Annual Report on Form 10-QSB for the year ended December 31, 2000. In addition to historical information, this Form 10-QSB contains forward-looking statements that involve risks and uncertainties, such as statements of the Company's plans and expectations. The Company's actual results could differ materially from management's expectations.

Since start-up of operations in September 1998, we have devoted most of our resources to the development, sale and marketing of digital video surveillance and security products. We have generated limited revenues from our security products to date, but are rapidly expanding our sales and distribution network. At the same time we are working on delivering new products to market and enhancing and upgrading our product line. Until we more fully develop our product line and our sales and distribution network, we expect our operating losses to continue. We have provided contract manufacturing services since May, 1999, when we acquired ETMC. ETMC had provided such services for more than 15 years and had an established customer base. We have continued the contract manufacturing business line, while increasing ETMC's manufacturing capacity to permit production of our products.

Six Months Ended June 30, 2001 Compared With the Six Months Ended June 30, 2000

Edgar Filing: VIEW SYSTEMS INC - Form 10QSB

Revenue

For the six months ended June 30, 2001, revenues from sales of our products increased \$317,229 or 275% to \$432,489 from \$115,260 in the same period last year, and revenues from sales of our services decreased \$216,720 or 96% to \$9,512 from \$226,232 in the same period last year. Of the \$442,001 in total revenue during the six month period ended June 30, 2001, \$432,489 or 98% was derived from sales of systems and \$9,512 or 2% from sales of contract manufacturing services. The ratio of security systems sales to contract manufacturing is increasing.

Gross Profit

Gross profit on sales for the six months ended June 30, 2001, increased \$92,365 or 61% to \$243,101 compared with \$150,736 in the same period last year. Gross profit margin for the six months ended June 30, 2001, was 55% compared with 44% in the same period last year. Because of low net sales we achieved in the period last year ended June 30, 2000, we do not believe gross profit margin comparisons are meaningful at this state of our operations.

Operating Expenses

Operating expenses for the six months ended June 30, 2001, decreased to \$921,869 from \$927,051 for the comparable period in 2000. The decrease is principally due to decreased expenditures in sales promotions.

As a result of the foregoing, net loss was \$(678,768) for the six months ended June 30, 2001, compared to a net loss of \$(776,315) for the six months ended June 30, 2000.

Costs and Expenses

Costs of Products and Services Sold. The cost of products and services sold, was \$198,900 for the six months ended June 30, 2001 and represented 45% of revenue for the period, compared to \$190,756 for the six months ended June 30, 2000 which represents 56% of revenues for that period. Because of our low sales volume in the same period last year, we do not consider the costs of goods sold in the same period last year to be a good measure of our true cost of goods sold. As our product sales increase and account for a larger percentage of our overall sales, we expect that our costs of goods and services sold will decline and stabilize as a percentage of total revenue. We anticipate that our profit margins on sales of security systems will exceed our profit margins on sales of services. We are continually working on engineering changes in our security products that we expect will lower component costs for these products. We do not determine our inventory on a quarterly basis, instead we do it on an annual basis. Therefore, our cost of goods sold calculations are based on estimates of inventory used in products sold.

Research and Development Expense. We spent \$0 on research and development for the six months ended June 30, 2001, as compared with \$109,302 in the same period last year. Our R&D expenditures in six months ended June 30, 2001, represented 0% of gross profit margin for this period.

Salaries and Benefits. We spent \$305,217 on salaries and benefits for the six months ended June 30, 2001, as compared with \$282,929 for the same period last year. We have increased expenditures on salaries and fees, including consultants, and we have incurred \$24,105 of sales and promotional expenses for the six month period ended June 20, 2001, as compared with \$48,254 in the same

Edgar Filing: VIEW SYSTEMS INC - Form 10QSB

period a year ago.

Net Operating Loss. We incurred approximately \$(678,768) of net operating loss carry forwards for the six-month period ended June 30, 2001, which may be used to offset taxable income and income taxes in future years.

LIQUIDTY AND CAPITAL RESOURCES

Since the start-up of our operations in 1998, we have funded our cash requirements primarily through equity transactions. We received \$7,637,259 since inception through the issuance of our common stock. We are not currently generating cash from our operations in sufficient amounts to finance our business and will continue to need to raise capital from other sources. We used the proceeds from these sales of equity to fund operating activities, including, product development, sales and marketing, and to invest in the acquisition of technology, assets and business. As of June 30, 2001, we had total assets of \$2,032,015 an increase of approximately \$144,591 over last year's \$1,887,424 at December 31, 2000. Total liabilities were \$557,730, at June 30, 2001, resulting in stockholders' equity of \$1,474,285 an increase of \$196,232 from the December 31, 2000 balance of \$1,278,053.

During the six months ended June 30, 2001, our cash decreased from \$265,245 at December 31, 2000, to \$90,807 at June 30, 2001. Net cash used in operating activities was \$906,995 for the six months ended June 30, 2001, including increases in accounts receivable to \$156,454, increases in inventory of \$148,672, and increases in accounts payable of \$410.

Net cash generated from financing activities during the six months ended June 30, 2001 was \$766,811, consisting of proceeds received from sales of stock of \$850,000, less \$58,189 advanced to stockholders, less payments on \$25,000 made on a promissory note to Columbia Bank with an outstanding principal balance of \$17,083 at June 30, 2001.

As a result of the foregoing at June 30, 2001 we had working capital of \$88,559, including \$311,471 in net trade accounts receivable and \$244,011 in inventory. We have provided and may continue to provide payment term extensions to certain of our customers from time to time. As of June 30, 2001 we have not granted material payment term extensions.

Our inventory balance at June 30, 2001, was estimated to be \$244,011. We do not take inventory on a quarterly basis, and we made inventory estimates based on annual inventory determinations. With expected increased product sales, we will need to make increased inventory expenditures. However, the terms of our product sales requires a twenty five percent (25%) deposit on order. In addition, we endeavor to keep inventory levels low. Therefore, we do not believe that increased product sales, associated materials purchases and inventory increases, will adversely affect liquidity.

We anticipate further expenditures for fiscal year 2001 of approximately \$100,00 for test equipment.

Under our outstanding employment and consulting agreements, we are obligated to pay Mr. Than \$96,000 per year, Mr. Lesniak \$84,000 per year and Mr. Bruggemean \$85,000 in salary and fees during calendar year 2001. If we terminate the employment of Mr. Than without cause or because of merger, acquisition or change in control, we will be obligated to pay him approximately \$350,000 in severance payments on a three year period.

We believe that cash from operations and funds available will not be sufficient to meet anticipated operating capital expenditure and debt service requirements for the next twelve months and that we will be dependent on raising additional capital through equity sales or debt financing.

We also have outstanding warrants with various investors with an exercise price of \$.40 per share. If the warrant holders exercise all of their warrants, at the exercise price of \$.40 per share, we will receive \$800,000, which we will use for additional working capital.

Plan Of Operation

The amount of capital that we need to raise will depend upon many factors primarily including

- o the rate of sales growth and market acceptance of our product lines;
- o the amount and time of necessary research and development expenditures;
- o the amount and time of expenditures to sufficiently market and promote our products; and
- o the amount and timing of any accessory product introductions.

We intend to use the cash raised from the private sale of shares and the exercise of warrants held by the Selling Stockholders to the following:

- o bring our ViewStorage, WebView and CareView products to market;
- o continue our product development efforts;
- o expand our sales, marketing and promotional activities for the SecureView line of products; and
- o increase our engineering, production management, quality control, and customer support staff.

We operate in a very competitive industry that requires continued large amounts of capital to develop and promote our products. We believe that it will be essential to continue to raise additional capital, both internally and externally, to compete in this industry.

In addition to accessing the public and private equity markets, we will pursue bank credit lines and equipment lease lines for certain capital expenditures. We currently estimate we will need between \$3 million and \$4 million to fully develop all our products and launch our expanded business operations in accordance with our current business plan.

RISK FACTORS AND CAUTIONARY STATEMENTS

Statements within the 10-QSB which are not historical facts, including statements about strategies and expectations for new and existing products, technologies, and opportunities, are forward-looking statements that involve risks and uncertainties. Our actual results may differ substantially from such forward-looking statements. Forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from those expressed or implied by the statement, including, but not limited to, risks detailed in our other securities filing, including our Annual Report on form 10-KSB for the year ended December 31, 2000, and registration statement, as amended, filed on Form SB-2

PART II. OTHER INFORMATION

Edgar Filing: VIEW SYSTEMS INC - Form 10QSB

ITEM 1. LEGAL PROCEEDINGS

We are not aware of any material pending legal proceeding against us or our property.

ITEM 2. CHANGES IN SECURITIES

There are no changes in securities other than such changes reported in our SB-2 filed on August 1, 2001, registration number 333-66482.
