GSI TECHNOLOGIES USA, INC.
(A COMPANY IN THE DEVELOPMENT STAGE)

NOTES TO THE CONDENSED FINANCIAL STATEMENTS
(UNAUDITED)
APRIL 30, 2003

NOTE 1 -BASIS OF PRESENTATION

The accompanying unaudited condensed financial statements of GSI Technologies USA, Inc. have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB and Article 10 of Regulation S-X. The financial statements reflect all adjustments consisting of normal recurring adjustments which, in the opinion of management, are necessary for a fair presentation of the results for the periods shown. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

These financial statements should be read in conjunction with the audited financial statements and footnotes thereto included in GSI Technologies USA, Inc.'s 10-KSB as filed with the Securities and Exchange Commission.

Edgar Filing: GSI TECHNOLOGIES USA INC /DE - Form 10QSB

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and that effect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 - NET EARNINGS (LOSS) PER SHARE

Earnings (Loss) per common share are calculated under the provisions of SFAS No. 128, "Earnings per Share," which establishes standards for computing and presenting earnings per share. SFAS No. 128 requires the Company to report both basic earnings (loss) per share, which is based on the weighted-average number of common shares outstanding during the period, and diluted earnings (loss) per share, which is based on the weighted-average number of common shares outstanding plus all potential dilutive common shares outstanding. Options and warrants are not considered in calculating diluted earnings (loss) per share since considering such items would have an anti-dilutive effect.

NOTE 3 - IMPAIRMENT AND WRITE OFF OF LICENSING RIGHTS

The Company's only intangible asset, licensing rights, were reviewed for impairment and determined to be impaired since the software and technology behind the licensing rights would no longer be available due to financial difficulties and constraints associated with the licensor. The unamortized amount of \$164,872 of licensing rights has been written off and reflected in the statement of operations as a loss for the current period.

NOTE 4 - GOING CONCERN

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. The Company reported a net loss of \$670,843 for the six months ended April 30, 2003 (unaudited). As reported on the statement of cash flows, the Company incurred negative cash flows from operating activities of \$584,451 for the six months ended April 30, 2003 (unaudited). Continuation of the Company as a going concern is dependent upon obtaining sufficient working capital for its planned activity. Additional capital and/or borrowings will be necessary in order for the Company to continue in existence until attaining and sustaining profitable operations. The Company is aggressively pursuing strategic alliances which will bring a cash infusion, restructuring and forward looking business plan.

6

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS

FORWARD LOOKING STATEMENTS.

This report contains forward-looking statements that are based on the Company's beliefs as well as assumptions made by and information currently available to the Company. When used in this report, the words "believe," "expect," "anticipate," "estimate," and similar expressions are intended to identify forward-looking statements. Such statements are subject to certain risks, uncertainties and assumptions, including without limitation, the overall strength of the national securities markets, the Company's present financial condition and the risks and uncertainties concerning the availability of additional capital as and when required, technological changes, increased competition, international war and terrorism and general economic conditions. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from

Edgar Filing: GSI TECHNOLOGIES USA INC /DE - Form 10QSB

those anticipated, estimated, or projected. The Company cautions potential investors not to place undue reliance on any such forward-looking statements, all of which speak only as of the date made.

OVERVIEW

GSI Technologies USA Inc. is an Information Technology Company that offers products and solutions to the Out-of-Home Digital Signage Industry. The Company has developed a proprietary, enterprise scale, Digital Signage Network Management Software Suite. The Company is a Value Added Reseller for various related hardware products that make up its end-to-end Digital Signage Solution. The Company also offers various services related to the installation, management, operation and maintenance of large Digital Signage Networks worldwide.

Research firm iSupply/Stanford Resources sees the worldwide Digital Signage market growing from just over \$ 3 billion this year to about \$ 5 billion in 2006 and about \$ 7 billion in 2008. CAP Ventures Inc., a research firm that tracks retail digital signage as a separate category, sees this niche growing still faster, from North America revenue of \$ 388 million this year to nearly \$ 2 billion in 2006; an increase of more than 400 percent.

GSI Technologies USA Inc. is particularly well positioned to exploit this growth as it offers one of the only true enterprise scale solutions in the world. The technology is being field tested by Clear Channel International, which is the largest player in the Industry.

RESULTS FROM OPERATIONS

Three and six months ending April 30, 2003 and 2002

During GSI's second quarter from February 1, 2003 to April 30, 2003, GSI USA incurred a loss of \$546,181 versus a loss of \$105,246 in the same period in 2002.

During GSI's six months from November 1, 2002 to April 30, 2003, GSI USA incurred a loss of \$670,843 versus a loss of \$232,479 in the same period in 2002.

REVENUES

\$15,000 in revenue was recognized during the current quarter, versus zero for the same period in the prior year. This is related to sub-licensing agreements realized over the respective terms.

\$15,000 in revenue was recognized during the current six-month period versus \$23,750 for the same period in the prior year. This is related to sub-licensing agreements realized over the respective terms.

7

OPERATING EXPENSES

During the three months ended April 30, 2003, GSI USA has incurred \$501,082 in operating expenses versus 76,300 for the same period in 2002. The increase was mainly attributable to software costs, consulting and the write off of unamortized impaired licensing rights.

During the six months ended April 30, 2003, GSI USA has incurred \$613,876 in operating expenses versus 220,876 for the same period in 2002. The increase was mainly attributable to software costs, consulting and the write off of

Edgar Filing: GSI TECHNOLOGIES USA INC /DE - Form 10QSB

unamortized impaired licensing rights.

LIQUIDITY AND CAPITAL RESOURCES

At April 30, 2003 GSI USA had \$2,103 in cash. Cash used in operating activities during the six months ending April 30, 2003 was 584,451, which was mainly attributable to the net cash loss from operations plus changes in net operating assets and liabilities.

Cash used by investing activities during the period reflects an amount of \$22,871, which was for purchases of business equipment

Net Cash provided from financing activities during the period was 609,425.

The result of all activities during the six-month period ending April 30, 2003 was a net increase of \$2,103 in our cash position.

MANAGEMENT DISCUSSION AND ANALYSIS

GSI Technologies USA Inc. was created in 1998, as a sister company to GSI Canada created in 1995, with goals of supplying complete turn-key solutions to out-of-home advertising network operators. The company's offering went from digital signage network management software to installed screen, displays or street furniture, interacting with targeted audiences. GSI was then offering integration of network services but dealing with hardware suppliers for integration of computers and screens (plasma, LCD, LED or plain TV set).

GSI participates in the information technology industry, specializing in broadcasting solutions principally for media operators, advertisers and others seeking to reach the greatest number of "viewers per day" at the street level. Street level advertising is the strategic placement of signage so they are readily visible to pedestrians and motorists. In addition to addressing potential consumers in busy urban and suburban settings, public service messages can also be conveyed using our technology.

The Company's initial years were primarily spent on extensive R&D, building products that were expected to capitalize on the Internet and multimedia boom and the increase of last-mile bandwidth. However, the great promises of the technology and Internet golden age of the late 90's did not materialize as foreseen. For GSI specifically, the techno bubble burst, the cost and availability of bandwidth not improving fast enough, the economic down turn, and the cost of plasma screens still considered too high, all contributed to the near disappearance of the company.

Since then, we have been continuously involved in research and development in an effort to innovate and deliver appropriate products to the marketplace. Equally, the company has been present in the marketplace, building a solid foundation of industry contacts both as potential partners and business clients.

The market currently continues to present a mixed picture. The primary issue has been the overall slow economic climate in our major market areas of Canada, the USA and Europe. Budgets for digital media products have suffered from the overall economic conditions as well as generally reduced IT spending across the board. As such, we have assumed a cautious approach to develop a

cost-effective solution, and to exploit the areas of clearest opportunity. We see signs of recovery in certain key market areas.

Edgar Filing: GSI TECHNOLOGIES USA INC /DE - Form 10QSB

During the period of this downturn in purchasing in the marketplace, we have continued our product development, with emphasis on developing and launching an entirely new suite of products and services known as the GSI Digital Media Logistics Suite (DMLS), Version 3.0. Development of the end product is nearing completion, and our current focus is on finalizing development activities. GSI's DMLS software enables users to accept, store, inventory, deliver and organize the playing of digital content to all kinds of digital display products such as, plasma screens, LCD screens, LED screens, TV monitors, multi media projectors etc.

At the same time, the Company re-evaluated its overall market approach and decided to focus more heavily on developing and selling digital network operations software rather than actually developing networks, installing and managing physical hardware, and actually selling and managing the digital content. With the re-focus of GSI in mid-2002, came a new philosophy and re-positioning of the company's activities. GSI is returning to the core expertise of its past, focusing on its original concept and vision, building the software that will help users store, inventory, deliver and use visual digital content on a variety of devices in a variety of applications. The Company now has a much clearer product and sales vision.

Previously, we had operated under a master license acquired in October 1999 from our Canadian affiliate, (3529363 Canada Inc., also know as GSI Canada). GSI Canada experienced severe financial difficulties, which resulted in it being put under the supervision of a trustee in May 2001. We subsequently notified the GSI Canada Trustee and principals that we believe they can no longer realistically fulfill the terms and conditions of the Master License Agreement and we therefore consider that agreement null and void. No response has been received.

As a result of such events, the Company made a strategic decision to undertake an entirely new proprietary solution development program using a third party, LTS Networks. LTS Networks, a Montreal-based Corporation, is specialized in Network Management and R&D software development. GSI has given LTS a mandate to develop an entirely new family of digital distribution products from the ground up. The Company has also purchased a 40% equity interest in LTS Networks.

GSI will now focus on conceiving, developing and selling the world's most effective and user-friendly digital signage network management software directly to network integrators, screen manufacturers or to out-of-home digital network owners/operators. We believe that we now possess some of the most advanced technology currently available in the field of electronic advertising and interactive information display.

GSI, over the past couple of years, has acquired valuable field experience in serving digital network operators through various pilot projects. Therefore, we have revised technical specifications that will be well served to meet our customers' current and evolving needs. On May 5, 2003, we released our newly designed proprietary solution.

The Company will also, in some cases, offer Network Software Managed Services, Integration Services and Hardware through various partnerships and strategic alliances. GSI will no longer supply or manufacture street furniture. We will continue to leverage our market knowledge to provide strategic consultant services for turnkey digital signage solutions.

Our GSI Digital Media Logistics Suite offers a complete range of products designed around the concept of providing specific digital images for advertising and information on multiple digital devices that will address current market needs and attract significant commercial interest.

Edgar Filing: GSI TECHNOLOGIES USA INC /DE - Form 10QSB

Our business model has changed considerably based on our relationship with Clear Channel International (CCI), a long-standing strategic partner and customer. CCI is one of the world's largest out-of-home media and advertising groups, with operations in over 60 countries around the globe. We have been supporting two special projects in the Cities of Bristol and Swindon in England and the City of Nantes in France. Our working relationship with CCI has allowed us to redesign a new digital signage software solution for enterprise scale application.

9

In May 2003, GSI delivered to Clear Channel International its newly released version of DMLS. Based on our working relationship, we have agreed to design a specific content manager application in conjunction with CCI's specifications. We have organized a working focus group, including LTS Networks' R&D team, CCI's R&D Managers and GSI's Product team, to participate in weekly revision meetings in order to refine the interface of our new module application. At end of June 2003, GSI is scheduled to deliver the content manager application to CCI for the purpose of test application in the unique "City of Nantes (France) pilot project", involving a variety of Digital Signage products including LED screens, interactive busshelter kiosks and Plasma screens. After completing the market test of the content manager application, we are scheduled to deliver our fully functional Digital Media Logistics Suite, including specific Content Manager Application at the end of August 2003. CCI is currently waiting for GSI's August release to roll out a comprehensive development plan for Digital Signage implementation in many other countries.

We have totally revised our pricing and licensing structure. We will now sell and distribute our software product on a per player software license basis. Our comprehensive software package includes: Digital Media Logistics Player, Digital Media Logistics Server and Digital Media Logistics Administrator.

In April 2003, GSI signed a special agreement with MCSI, a publicly traded corporation specializing in Technology Integration, for the sale of 12,000 licenses to be utilized for customers such as Bank of America and Bed Bath & Beyond, etc. We are currently developing, with the participation of LTS Networks, a small form factor player at very low cost to respond to our customers' special implementation needs. Our agreement is valid for a special term of 24 months.

In July 2002, we completed a Letter of Intent with a California-based corporation specializing in Internet market content. The Agreement calls for the client to install a network of full motion video plasma screens in approximately 200 preferred locations in the United States. We have been informed that our client has succeeded in securing over 100 locations. In July 2003, our client will start implementing the first phase for 35 locations and will continue to build up the network till end of year 2003. We have negotiated a 10-year licensing agreement starting when the Network begins its operations. Network management and content production contracts are currently been negotiated.

During the month of May 2003, our sales management team has been negotiating a common development agreement with Petters Group LLC, in regards to their new suite of Digital Signage Products, branded under the name of Polaroid. GSI has currently concluded sales of 42" Digital plasma screens for an approximate quantity of 600 units, subject to financing approval of the customers.

We are currently negotiating a team co-marketing agreement with Polaroid to offer a turnkey solution to large enterprise scale customers that

Edgar Filing: GSI TECHNOLOGIES USA INC /DE - Form 10QSB

integrate the hardware and software products. We anticipate completing the agreement by end of June 2003.

In May 2003, we initiated negotiations with Arcanes Technologies, a France based corporation to act as sales agent to distribute our new line of products in France.

In May 2003, we received a Letter Of Intent from TSA, a France based corporation, specialized in Network Integration and Satellite Transmission to act as Technology Integrators and service corporation for our European based customers. We are currently negotiating contract agreements and anticipate conclusion by the end of July 2003.

ITEM 5. OTHER INFORMATION

On February 4th, 2002, we became delinquent because we were late filing our annual 10-KSB report. On March 5th, 2002, we were temporarily delisted from the OTCBB. On March 8th, 2002, we filed our 10-KSB report for the period ending October 31, 2001. Since then, we have filed all of our reports on time. We have appointed a new market maker who expects to file a form 2-11 by end of June 2003, so our securities can become relisted on the OTCBB.

In May 2002, GSI entered into a loan agreement with a private party for a sum of \$330,000.00, bearing interest at prime rate + 2%. In March 2003, GSI issued 1,000,000 shares as a penalty on this loan. In May 2003, GSI authorize the issuance of 2,000,000 shares at a price per share of \$0.25 plus 500,000 warrants exercisable at \$0.25 and 516,000 warrants exercisable at \$1.00 in consideration of the conversion of this loan plus a supplementary investment of \$165,000. The investor is Mr. Craig Perry who became a Director on April 28, 2003.

In September 2002, Sogepar SA, a European investment corporation, agreed to invest a total of \$300,000 to be injected from September 2002 to February 2003. The investment has been completed. In June 2003, Sogepar SA will receive 6,000,000 shares at a price per share of \$0.05 plus 2,000,000 options exercisable at a price of \$0.10 and 2,000,000 warrants exercisable at a price of \$1.20.

In November 2002, Worldwide Business Consultants S.A., agreed to invest a total of \$125,000 to be injected from November 2002 to February 2003. The investment has been completed. In June 2003, Worldwide Business Consultants SA

Edgar Filing: GSI TECHNOLOGIES USA INC /DE - Form 10QSB

will receive 2,500,000 shares at a price per share of \$0.05 plus 2,000,000 options exercisable at \$0.05.

In December 2002, GSI entered into a loan agreement with a non-US corporation for an amount of \$320,000.00 which could be converted into equity, subject to approval of regulatory authorities.

In March 2003, a non-US private investor invested \$100,000.00 for 2 Million shares at \$0.05 per share.

In March 2003, First Mercantile Investments, Corp., agreed to invest a total of \$200,000 to be injected from March 2003 to April 2003. The investment has been completed. In June 2003, First Mercantile Investments, Corp. will receive 2,000,000 shares at a price of \$0.10 per share plus 500,000 options exercisable at \$0.10 per share and 500,000 options exercisable at \$0.25 per share.

In June 2003, GSI entered into a purchase agreement to acquire 40% equity of LTS Networks for 500,000 shares.

11

In June 2003, GSI will issue 1,336,800 shares to 4136306 Canada Inc. for conversion of outstanding promissory notes dated June 2002.

The Company's CEO was not hired until after the period covered by this report. Accordingly, he is not in a position to sign any certifications related to this report. Therefore, the Board of Directors authorized, by way of resolution, the Chairman of the Board, Mr. Craig Perry, to sign all necessary filing documents for the period ending April 30, 2003.

MANAGEMENT

On February 7, 2003 Mr. Rene Arbic resigned from his position as Chief Executive Officer of GSI Technologies USA Inc.

In May 2003, Mr. Rene Arbic resigned from his position as Chairman of the Board of GSI Technologies USA Inc.

In May 2003, the Board of Directors appointed Mr. Craig Perry, who is currently General Manager of InMetal and a shareholder of GSI, to join the Board of Directors as a Director and Chairman.

In June 2003, the Board of Directors appointed Mr. Gilles Addison to the position of President and Chief Executive Officer.

In June 2003, GSI Board of Directors appointed an Executive Advisory Board to manage and build the value of the Corporation on a day to day basis with the input of experienced individuals in various field of activities. We believe our Corporation will grow in a team environment and deliver positive results to the benefit of our shareholders. The Executive Advisory Board will report to the Board of Directors through the CEO, Mr. Addison. GSI's management is seeking to identify a Chief Financial Officer that will suit the needs of our Corporation. The Executive Advisory Board is composed by the following individuals:

- Mr. Gilles Addison, President and CEO
- Mrs. Marie El-Ahmar Eid, Business Development and Investor Relations Director
- Glen Pearson, Operations Director
- Michel de Montigny, Product, Sales and Marketing Director
- Paola Salcedo, Administration Director

CERTIFICATION

I, Craig Perry, hereby certify that:

I have reviewed this quarterly report on Form 10-QSB of GSI Technologies USA Inc.;

Based on my knowledge, this report does not contain any untrue statement of a material fact, or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report; and

Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial position, results of operations, and cash flows of the issuer as of, and for, the periods presented in this report.

I am responsible for establishing and maintaining disclosure controls and procedures for the issuer and have:

Designed such disclosure controls and procedures to ensure that material information relating to the issuer is made known to me, particularly during the period in which the periodic reports are being prepared;

Evaluated the effectiveness of the issuer's disclosure controls and procedures as of April 30, 2003; and

Presented in the report our conclusions about the effectiveness of the disclosure controls and procedures based on my evaluation as of the Evaluation Date;

I have disclosed, based on my most recent evaluation, to the issuer's auditors and the audit committee of the board of directors (or persons fulfilling the equivalent function):

All significant deficiencies in the design or operation of internal controls which could adversely affect the issuer's ability to record, process, summarize and report financial data and have identified for the issuer's auditors any material weaknesses in internal controls; and

Any fraud, whether or not material, that involves management or other employees who have a significant role in the issuer's internal controls; and

I have indicated in the report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
