ITEM 2.05 Costs Associated with Exit or Disposal Activities.

On December 26, 2008, the Company committed to a restructuring plan intended to reduce costs across its worldwide operations, and more closely align the Company's operations with the current demand levels. The plan primarily consists of ceasing manufacturing operations at its facility in Belleville, Canada, and reducing its worldwide employee base by a total of approximately 530 employees in the areas of manufacturing, sales and administration. In connection with the restructuring plan, the Company expects to report a pre-tax restructuring charge in the fourth quarter of 2008 of approximately \$11 million. The expected restructuring charge is comprised of employee severance expense of approximately \$8 million, impairment of assets of approximately \$2.5 million, and other exit costs of approximately \$0.5 million. Approximately \$8.5 million of the restructuring charge will be future cash expenditures, primarily severance expense. The restructuring plan is expected to be completed in the first quarter of 2009, and is expected to yield annualized cost savings of approximately \$30 million.
