PATHFINDER BANCORP, INC. ANNOUNCES FOURTH QUARTER EARNINGS

Oswego, New York, February 22, 2005 Pathfinder Bancorp, Inc., the mid-tier holding company of Pathfinder Bank, (NASDAQ SmallCap Market; symbol: PBHC, listing: PathBcp) reported net income of \$1.4 million, or \$0.58 per share, for the year ended December 31, 2004 as compared to \$1.7 million, or \$0.68 per share, for the same period in 2003. For the three months ended December 31, 2004, the Company reported net income of \$200,000, or \$0.08 per share, compared to \$309,000, or \$0.13 per share, for the same period in 2003.

Total assets grew \$24.1 million, or 9%, during 2004, primarily within the investment securities portfolio. The loan portfolio decreased by just under \$2.0 million as loan sales, amortization and payoffs outpaced new loan production of \$30.0 million. Deposits grew \$29.8 million, or 14%, over the past year.

"The Company has experienced significant deposit growth over the last year and a

Edgar Filing: PATHFINDER BANCORP INC - Form 8-K

40% increase over the last four years as we have expanded our markets and diversified our services," according to Thomas W. Schneider, President and Chief Executive Officer. "We believe that deposit growth with our branch structure and our market is a primary driver of franchise value. Earnings, however, have been hampered by a combination of higher costs associated with that growth and expansion of delivery channels, margin compression caused by assets repricing at significantly lower rates over the past two years and softer loan demand not keeping pace with deposit growth. During 2005, we will be focused on diversifying and more actively selling our loan offerings, and controlling costs while we look forward to entering a new market with the expected opening of our Central Square branch in the spring."

Net interest income for the year ended December 31, 2004 decreased \$432,000 when compared to the same period during 2003. Interest income decreased \$807,000, or 5%, partially offset by a decrease in interest expense of \$375,000, or 6%. Net interest rate spread decreased to 3.22% for the year ended December 31, 2004 from 3.53% for the same period in 2003. Average interest-earning assets increased 6% to \$270.6 million for the year ended December 31, 2004 as compared to \$256.0 million for the year ended December 31, 2003, while the yield on those assets decreased 60 basis points to 5.41% compared to 6.01% for the same period in 2003. The increase in average earning assets is primarily attributable to a \$12.1 million increase in investment securities and a \$4.1 million increase in interest-earning deposits. Average interest-bearing liabilities increased \$15.1 million, while the cost of funds decreased 30 basis points to 2.18% from 2.48% for the same period in 2003. The increase in the average balance of interest-bearing liabilities resulted primarily from a \$20.7 million, or 11%, growth in average deposits. The growth in deposits primarily resulted from attracting new municipal deposit customers.

Provision for loan losses for the quarter ended December 31, 2004 increased 23% to \$738,000 from \$598,000 for the same period in 2003. The increase in the provision primarily resulted from the charge-off of two commercial relationships during the fourth quarter of 2004. The Company's ratio of allowance for loan losses to period end loans has increased to 0.98% at December 31, 2004 from 0.91% at December 31, 2003. Nonperforming loans to period end loans decreased to 0.99% at December 31, 2004, compared to 1.59% at December 31, 2003.

Non-interest income, net of gains and losses from the sale of securities, loans and foreclosed real estate, increased to \$2.0 million for the year ended December 31, 2004 compared to \$1.7 million for the same period in the prior year. The increase in non-interest income is primarily attributable to a \$149,000 increase in service charges on deposit accounts and a \$129,000 increase in other charges, commissions and fees, partially offset by a \$26,000 decrease in loan servicing fees. The increase in service charges on deposit accounts is attributable to an increase in the number of demand accounts and their related fees. The increase in other charges, commissions and fees is primarily attributable to \$54,000 of New York State grant income received related to a Company-wide leadership training initiative and an increase in debit card fee income. The training expenses associated with the grant are recorded separately as an operating expense. Net gains and losses from the sale of securities, loans and foreclosed real estate increased \$183,000 to \$1.1 million for the year ended December 31, 2004, compared to \$868,000 for the same period in the prior year.

Operating expenses increased only 2% from the prior year to \$9.3 million from \$9.1 million. During 2004, salary and employee benefits, building occupancy, and data processing expenses increased \$343,000, \$27,000 and \$113,000, respectively. These increases were offset by an \$88,000 decrease in professional and other services and an \$181,000 decrease in other expenses. The increase in salaries and employee benefits was primarily due to the salaries and benefits associated with an increase in staffing and an increase in employee benefit costs. The decrease in other expenses primarily resulted from costs

Edgar Filing: PATHFINDER BANCORP INC - Form 8-K

associated with personnel realignment in 2003 not recurring in 2004.

Pathfinder Bancorp, Inc. is the mid-tier holding company of Pathfinder Bank, a New York chartered savings bank headquartered in Oswego, New York. The Bank has six full service offices located in its market area consisting of Oswego County. Financial highlights for Pathfinder Bancorp, Inc. are attached.
