Class A Common Stock

All of the 6,900,000 shares of Class A Common Stock, par value \$.001 per share, offered hereby are being sold by the Selling Shareholders named in this prospectus. We will not receive any of the proceeds from the sale of shares of Class A Common Stock by the Selling Shareholders. See "Selling Shareholders."

Edgar Filing: MSC INDUSTRIAL DIRECT CO INC - Form S-3/A

The Selling Shareholders may use this prospectus to offer and sell, from time to time, up to 6,900,000 shares of our Class A Common Stock. The Selling Shareholders may offer for sale the shares of Class A Common Stock covered by this prospectus from time to time directly to purchasers or through underwriters, broker-dealers or agents, in public or private transactions, at prevailing market prices, at prices related to prevailing market prices or at privately negotiated prices. For additional information on the methods of sale, see "Plan of Distribution."

We have two classes of common stock. Holders of our Class A Common Stock, which is offered by this prospectus, are entitled to one vote per share, and holders of our Class B Common Stock, par value \$.001 per share, are entitled to ten votes per share. See "Description of Capital Stock." Upon completion of this offering, our principal shareholders will own approximately 37.9% of the outstanding shares of our capital stock and will control approximately 80.6% of the combined voting power of all outstanding shares of our capital stock. Consequently, these shareholders will remain in a position to elect all of our directors and to determine the outcome of any matter submitted to a vote of our shareholders for approval. See "Selling Shareholders."

The Class A Common Stock is listed on the New York Stock Exchange under the symbol "MSM." On December 23, the last reported sales price for the Class A Common Stock on the New York Stock Exchange was \$26.75.

See "Risk Factors" beginning on page 7 for certain information that should be considered by prospective investors.

THE COMPANY

MSC Industrial Direct Co., Inc. (together with its consolidated subsidiaries, "MSC" or the "Company" or "we") is one of the largest direct marketers of a broad range of industrial products to industrial customers throughout the United States. We distribute a full line of industrial products intended to satisfy our customers' maintenance, repair and operations ("MRO") supplies requirements. We offer over 500,000 stock-keeping units ("SKUs") through our master catalogs, weekly, monthly and quarterly specialty and promotional catalogs, newspapers and brochures and service our customers from approximately 90 branch offices and four distribution centers. Most of our products are carried in stock, and orders for these in-stock products are typically fulfilled the day on which the order is received.

Our business strategy is to provide an integrated, low cost solution to the purchasing, management and administration of our customers' MRO needs. We believe we add value to our customers' purchases by reducing their total MRO supplies costs, taking into account both the direct cost of products and the administrative, personnel and financial cost of obtaining and maintaining MRO supplies. We try to achieve this reduction in MRO supplies costs in the following manner:

Our extensive product offerings allow customers to reduce the administrative burden of dealing with many suppliers for their MRO needs.

We guarantee same-day shipping of our core business products, which enables our customers to reduce their inventory investment and carrying costs.

We consolidate multiple purchases into a single order, provide a single invoice relating to multiple purchases over varying periods of time and offer direct shipments to specific departments and personnel within a single facility or multiple facilities, allowing our customers to reduce administrative paperwork, costs of shipping and personnel costs related to internal distribution and purchase order management.

We have extensive E-commerce abilities that enable our customers to lower their procurement costs. This includes many features such as swift search and transaction abilities, access to real time inventory, customer specific pricing, workflow management tools and other features. We can also interface directly with many purchasing portals such as ARIBA and I-Procure. In addition we offer Vendor Managed Inventory ("VMI") systems that can lower customers' inventory investment, reduce sourcing costs and out of stock situations and increase business efficiency.

Our customers include a wide range of purchasers of industrial supply products, from one-person machine shops to Fortune 1000 companies, to government agencies including the United States Postal Service ("USPS"). Our core business focuses on selling relatively higher margin, lower volume products and had an average order size of approximately \$224 in fiscal 2003. We have in excess of 343,000 combined active customers (companies that have purchased at least one item during the past 12 months). Our customers select desired products from MSC's various publications and place their orders by telephone, the Internet, direct computer link or facsimile.

We operate primarily in the United States, with customers in all 50 states, through a network of four regional distribution centers and approximately 90 branch offices. MSC's distribution centers are located near Harrisburg, Pennsylvania; Atlanta, Georgia; Elkhart, Indiana and Reno, Nevada. The strategic locations of MSC's distribution centers allow for next day ground delivery via low cost ground carriers in 36 states. Our experience has been that areas accessible by next day ground delivery generate significantly greater sales than areas where next day ground delivery is not available. Accordingly, our long-term strategy is to expand our geographic coverage of next day ground delivery throughout the

continental United States which at some point in the future may require the expansion of existing facilities or the opening of new facilities.

Business Strategy

Our business strategy is to reduce our customers' total cost of procurement for obtaining and maintaining MRO supplies. The strategy includes the following key elements:

a broad selection of in-stock products;

offering both name brand and generic products;

prompt response and same-day shipping;

superior, value-added customer service;

competitive pricing;

targeted direct mail marketing; and

a commitment to technological innovation.

Broad Selection of Products. We believe that our ability to offer customers a broad spectrum of brand name and generic MRO products and a "good-better-best" product selection alternative has been critical to our success. We offer similar products with varying degrees of name recognition, quality and price, thus permitting the customer to choose the appropriate product based on cost, quality and the customer's specific needs. Our customers are increasingly purchasing from fewer suppliers to reduce the administrative burden of ordering from multiple suppliers. By offering for sale over 500,000 products, most of which generally are in stock and available for immediate shipment, we aim to provide a broad range of merchandise in order to become our customers' preferred supplier of MRO products.

Same-Day Shipping. Our guaranteed same-day shipping of products results in delivery the next day or second day for customers in most of the continental United States. This prompt delivery allows customers to reduce the administrative burden of dealing with many suppliers and reduces their inventory investment and carrying costs. We fulfill our same-day shipment guarantee more than 99% of the time. Our experience has been that areas accessible by next day ground delivery will generate significantly greater sales than areas where next day ground delivery is not available. The strategic locations of our distribution centers allow next day ground delivery via low cost ground carriers in 36 states.

Superior Customer Service. Customer service is a key element in becoming a customer's preferred provider of MRO supplies. Our commitment to customer service is demonstrated by our investment in sophisticated information systems and extensive training of our associates. Utilizing our proprietary customer support software, our in-bound sales representatives implement the "one call does it all" philosophy. In-bound sales representatives are able to inform customers on a real time basis of the availability of a product, recommend substitute products, verify credit information, receive special, custom or manufacturer direct orders, cross-check inventory items using customer product codes previously entered into our information systems and arrange technical assistance. We believe that our simple, one-call method of fulfilling all purchasing needs of a customer through highly-trained customer service representatives, supported by our proprietary information systems, results in greater efficiency for customers and increased customer satisfaction. To complement our customer service, we seek to ease the administrative burdens on our customers by offering customized billing services, customer savings reports and other customized report features, electronic data interchange ordering, e-commerce capabilities, bulk discounts and stocking of specialty items specifically requested by customers.

Targeted Direct Mail Marketing Strategy. Our primary tools for marketing and product reference are the annual master catalogs used to showcase over 500,000 items. In fiscal 2003, our master catalogs were supplemented by 91 specialty and promotional catalogs and brochures covering such specialty areas as cutting tools, measuring instruments, tooling components and maintenance and repair,

industrial supply, and hose and tubing. We use our database of approximately 1.5 million companies with 1.9 million individual contacts, and also purchase mailing lists of prospective customers, to target the distribution of these various publications to specific individuals within an organization whose purchasing history or other criteria suggest receptiveness to mailings of specific publication titles. The use of specialty and promotional publications, which are produced in-house, has resulted in increased productivity through lower costs, increased response rates and more efficient use of advertising space. MSC's publication circulation decreased from 37.7 million in fiscal 2001 to approximately 33.5 million in fiscal 2003. This planned decrease in mailings is in line with our continuing strategy to increase the productivity of our direct marketing efforts and increase overall return on advertising dollars spent.

Commitment to Technological Innovation. We take advantage of technological innovations to support growth, improve customer service and to reduce our operating costs through more effective buying practices, automated inventory replenishment and efficient order fulfillment operations. MSC's proprietary software tracks all of the SKUs (over 500,000) and enables the customer and the sales representatives to determine the availability of products in stock on a real-time basis and to evaluate alternative products and pricing. MSC's website MSCDirect.com is a searchable on-line catalog with electronic ordering capabilities designed to take advantage of the opportunities created by Internet commerce. The MSCDirect.com site offers a broad array of products, services, workflow management tools and related information to meet the needs of customers seeking to reduce process costs through Internet e-commerce-enabled solutions. For those customers who do not have internet access, we continue to offer our Customer Direct Access Plus System which allows a customer to order products directly, set purchase limits for particular buyers, run customized reports of purchasing history and select from a variety of billing options. Our information systems have been designed to enhance inventory management and turnover, customer service and cost reduction for both MSC and our customers. In addition to internal and customer information systems, we continually upgrade our distribution methods and systems to improve productivity and efficiency. We also provide a comprehensive EDI ordering system to support our customer based purchase order processing. We have recently introduced our Vendor Managed Inventory ("VMI") system. Each bin item in the customer's on site stockroom is bar coded and scanned into our VMI system. The customer monitors the inventory levels and replenishes any item simply by scanning the bar code. The order is then electronically downloaded into our Sales Order Entry system thereby enabling the customer to lower their procurement costs and maintain lower inventory levels.

Growth Strategy

Our objective is to become the preferred supplier of industrial products for companies throughout the United States. We intend to increase sales to existing customers and diversify our customer base by:

expanding next day ground delivery into new markets;

targeting the circulation of the master catalog and our direct mail campaign;

developing government and national account programs;

increasing the number of product lines and SKUs offered including generic and imported products;

continually developing technological innovations employing modern technologies to reduce our customers' costs and utilizing extensive e-commerce capabilities, making it even easier and more appealing to do business with MSC;

maintaining excellent customer support service; and

increasing the productivity of our direct sales force.

Expanding next day ground delivery. Our experience has been that sales in areas accessible by next day ground delivery are significantly greater than in areas with second day delivery. Accordingly, our long-term goal is to expand our geographic coverage of next day ground delivery throughout the United States, which at some point in the future may require the expansion of existing facilities or the opening of new facilities.

Targeted circulation of our master catalog and direct mail campaign. We have accumulated a buyer database of approximately 1.5 million companies with 1.9 million individual contacts, and industry expertise within specific markets. We utilize empirical information from this database to prospect for new customers, thereby increasing the circulation of our master catalogs. We supplement our master catalogs with direct mailings of specialty and promotional publications to further increase customer response and product purchases. Industry specific expertise is used to target customer growth areas and focus sales and marketing campaigns.

Develop Government and National Account Programs. The Company has developed internal government and national account programs to meet the specific needs of these types of customers. We believe that significant growth opportunities exist within these segments and that they are an integral part of our customer diversification program. This allocation of resources will allow the Company to better support these customers, expand our customer acquisition activities and is a key component of our overall growth strategy.

Increasing the Number of Product Lines and SKUs. We believe that continuing to increase the breadth of our product line and providing high levels of customer service are effective methods of increasing sales to current customers and attracting new customers. By expanding the product lines and SKUs offered within existing product categories, we seek to satisfy an increasing percentage of the supplies purchases of our customers and to attract new customers. To continue to provide a diverse product line and maintain profit margins in our competitive market place, the Company has sought out vendors to supply higher margin generic and imported products. In fiscal 2003, we added approximately 30,000 SKUs, which is the net result of new SKU additions reduced by deletions of older slow moving SKU items, and currently have over 500,000 SKUs in total. We generally add SKUs in response to the feedback we receive from our existing customers.

E-commerce capabilities. MSCDirect.com is a proprietary business-to-business horizontal marketplace serving the industrial market that offers customers full access to our catalog, and all orders placed online at MSCDirect.com are backed by our same-day shipping guarantee. MSCDirect.com utilizes the same highly trained sales force and support services as MSC's traditional business, emphasizing MSC's values of placing customers needs first. It is available 24 hours a day, seven days a week providing real-time inventory availability, superior search capabilities, on-line bill payment, delivery tracking status and a number of other enhancements including work flow management tools. The user-friendly search engine allows customers to order by description, vendor or brand. We believe MSCDirect.com is a key component of our strategy to reduce customers' MRO transaction costs and internal requisition time. The site also allows customers to control which of their staff are entitled to purchase products online, how much they are entitled to spend and which staff require secondary approval. The process is fully automated and integrated into our back-end systems. Most orders move directly from the customers' desktop to the distribution center floor, removing human error, reducing handling costs and speeding up the transaction flow. MSC continues to evaluate our site and solicit customer feedback, making on-going improvements targeted at allowing MSCDirect.com to remain one of the premier sites in its marketplace. Our MSCDirect.com marketing campaign continued in fiscal year 2003 to raise awareness and drive volume to the website. MSCDirect.com generated revenue of more than \$90 million in fiscal year 2003, a 49% increase over the prior year.

E-commerce portals sell a suite of e-commerce products designed to meet the needs of businesses seeking reduced costs and increased effectiveness of their MRO/direct materials process by using

Internet-enabled solutions. We have associations with many of these portals including, among others, Ariba, Perfect Commerce, Oracle, SAP and I-Procure. We continue to evaluate and expand our capabilities in these areas, when they can provide value for our customers.

Maintain Excellent Customer Support Service. Our goal is to anticipate a customer's service needs. We are continuing to proactively expand the services that we provide and respond and build programs at customer requests. Our "one call does it all" philosophy continues to be the cornerstone of our service model even as the complexity of the needs of our customers continues to grow. This focus on our customers' needs provide a market differentiator, which enables us to retain existing customers and grow our customer base.

Increasing the productivity of our direct sales force. We believe that improving sales force productivity can have a positive effect on our sales per customer. The focus is to enable our sales force to spend more time with our customers and provide increased support during the MRO purchasing process thereby capturing more of their MRO spend.

Our principal executive offices are located at 75 Maxess Road, Melville, New York 11747 and our telephone number is (516) 812-2000.

RISK FACTORS

In addition to the other information in this Prospectus, the following factors should be considered in evaluating the Company and its business before purchasing the shares of Class A Common Stock offered hereby. Our future operating results depend upon many factors and are subject to various risks and uncertainties. The known material risks and uncertainties which may cause our operating results to vary from anticipated results or which may negatively affect our operating results and profitability are as follows:

Changes in our customer and product mix could cause our gross margin percentage to fluctuate.

Edgar Filing: MSC INDUSTRIAL DIRECT CO INC - Form S-3/A

From time to time we have experienced changes in our customer mix and in our product mix since our formation. Changes in our customer mix have resulted from geographic expansion, daily selling activities within current geographic markets, and targeted selling activities to new customer segments. Changes in our product mix have resulted from marketing activities to existing customers and needs communicated to us from existing and prospective customers. Although we have been successful in incrementally increasing our gross margin percentage by varying our customer and product mix over the last several years and our strategy has emphasized higher margin, lower volume orders, changes in our customer and product mix could cause our gross margin percentage to fluctuate or decline from time to time in the future.

Our industry is consolidating which could cause it to become more competitive.

The business of selling MRO supplies in North America is currently undergoing some consolidation. This consolidation is being driven by customer needs and supplier capabilities, which could cause the industry to become more competitive as greater economies of scale are achieved by suppliers.

Traditional MRO suppliers are attempting to consolidate the market through internal expansion, through acquisition or merger with other industrial and construction suppliers, or through a combination of both. This consolidation allows suppliers to improve efficiency and spread fixed costs over a greater number of sales, and to achieve other benefits derived from economies of scale.

Customers are increasingly aware of the total costs of fulfillment, and of their need to have consistent sources of supply at multiple locations. Consistent sources of supply provide not just reliable product quantities, but also consistent pricing, quality, services and engineering capabilities. We believe these customer needs could result in fewer suppliers as the industry consolidates, and as the remaining suppliers become larger and capable of being a consistent source of supply.

The trend of our industry toward consolidation could make it more difficult for us to maintain our operating margins. There can be no assurance that we will be able to take advantage of the trend or that we can do so effectively.

In addition, as various sectors of the industrial and construction customer base face increased foreign competition and in fact lose business to foreign competitors, or shift their operations overseas or outsource manufacturing requirements to foreign manufacturers, or source supplies from foreign vendors in an effort to reduce expenses, we will face increased difficulty in growing and maintaining our market share and growth prospects.

We operate in a highly competitive industry.

The MRO supply industry is a large, fragmented industry that is highly competitive. We face competition from traditional channels of distribution such as retail outlets, small dealerships, regional or national distributors utilizing direct sales forces, manufacturers of MRO supplies, large warehouse stores and larger direct mail distributors. We believe that sales of MRO supplies will become more

7

concentrated over the next few years, which may make the industry more competitive. Our competitors challenge us with a greater variety of product offerings, financial resources, services or a combination of all of these factors.

Although we have recently had success in diversifying our customer base, which we believe will assist us to better manage periodic downturns in the manufacturing industry, there can be no assurance that sales to these additional customers will offset the adverse effects of other competitive trends in our industry, including those discussed above.

The risk of cancellation or rescheduling of orders may cause our operating results to fluctuate.

The cancellation or rescheduling of orders may cause our operating results to fluctuate. Although we strive to maintain ongoing relationships with our customers, there is an ongoing risk that orders may be cancelled or rescheduled due to fluctuations in our customers' business needs or purchasing budgets. Additionally, although our customer base is diverse, ranging from one-person machine shops to Fortune 1000 companies and large government agencies, the cancellation or rescheduling of significant orders by larger customers may still have a material adverse effect on our operating results from time to time.

Work stoppages and other disruptions at transportation centers or shipping ports may adversely affect our ability to obtain inventory and make deliveries to our customers.

Edgar Filing: MSC INDUSTRIAL DIRECT CO INC - Form S-3/A

Our ability to provide same-day shipping of our core business products is an integral component of our overall business strategy. Disruptions at transportation centers or shipping ports, such as the severe winter weather experienced during the third quarter of fiscal 2003 and the longshoreman's strike on the West Coast in fiscal 2002, affect both our ability to maintain core products in inventory and deliver products to our customers on a timely basis, which may in turn adversely affect our results of operations.

The risks of war, terrorism, and similar hostilities may adversely affect our operating results.

In addition to having an impact on general economic conditions, events of war, terrorism or other similar occurrences such as the attacks of September 11, 2001 and the recent conflict in Iraq may materially adversely affect our revenues and our ability to service our customers. We believe that both the events of September 11, 2001 and the Iraq conflict had a material adverse effect on our results of operations, although the impact of such events can be difficult to quantify.

Disruptions of our information systems could adversely affect us.

We believe that our computer software programs are an integral part of our business and growth strategies. We depend upon our information systems to help process orders, to manage inventory and accounts receivable collections, to purchase, sell and ship products efficiently and on a timely basis, to maintain cost-effective operations, and to help provide superior service to our customers. Any disruption in the operation of our information systems, including widespread power outages such as those that affected the northeastern and midwest United States in August 2003, could have a material adverse effect on our business, financial condition and results of operations. Although we utilize disaster recovery techniques and procedures, which we believe are adequate to fulfill our needs, and we believe that planned enhancements and upgrades to the next generation of our existing operating platforms will be sufficient to sustain our present operations and our anticipated growth for the foreseeable future, there can be no assurance that disruptions of our information systems will not occur.

8

Our success is dependent on certain key personnel.

Our success depends largely on the efforts and abilities of certain key senior management. The loss of the services of one or more of such key personnel could have a material adverse effect on our business and financial results. We do not maintain any key-man insurance policies with respect to any of our executive officers.

Distribution Center Expansions

In the future, as part of our long term strategic planning, we may open new distribution centers to improve our efficiency, geographic distribution and market penetration. Moving or opening distribution centers requires a substantial capital investment, including expenditures for real estate and construction, and a substantial investment in inventory. In addition, new distribution centers will have an adverse impact on distribution expenses as a percentage of sales, inventory turnover and return on investment in the periods prior to and for some time following the commencement of operations of each new distribution center. Additionally, until sales volumes mature at new distribution centers, operating expenses as a percentage of sales may be adversely impacted. Further, substantial or unanticipated delays in the commencement of operations at new distribution centers could have a material adverse effect on our geographic expansion and may impact results of operations.

Availability of and Integration of Prospective Acquisitions

Acquisitions have played a limited role in our recent growth. From time to time in the future, we may pursue selected acquisitions that either expand or complement our business in new or existing markets. There can be no assurance that we will be able to identify and to acquire acceptable acquisition candidates on terms favorable to us and in a timely manner. The failure to complete or successfully integrate prospective acquisitions may have an adverse impact on our growth strategy. We are not currently a party to any oral or written acquisition agreement or engaged in any negotiations with respect to any material acquisition candidate.

Our common stock price may be volatile.

We believe factors such as fluctuations in our operating results or the operating results of our competitors, changes in economic conditions in the market sectors in which our customers operate (notably the durable and non-durable goods manufacturing industry, which accounted for 73% of our revenue in fiscal 2003), and changes in general market conditions, could cause the market price of our Class A Common Stock to fluctuate substantially. In addition, sales of a substantial number of shares of our common stock in the public market, whether by purchasers in this offering or other shareholders, could adversely affect the prevailing market price of our Class A Common Stock.

Edgar Filing: MSC INDUSTRIAL DIRECT CO INC - Form S-3/A

Our principal shareholders exercise significant control over us.

Our Chief Executive Officer, his sister, certain of their family members and related entities collectively own 100% of the outstanding shares of Class B Common Stock, and will control approximately 80.6% of the combined voting power of the Company's capital stock upon the closing of this offering. Consequently, such shareholders will be in a position to elect all of the directors of the Company and to determine the outcome of any matter submitted to a vote of the Company's shareholders for approval. See "Selling Shareholders" and "Description of Capital Stock."

Shares Eligible for Future Sale

Sales of a substantial number of shares of Class A Common Stock in the public market, whether by purchasers in this Offering or other of our shareholders, could adversely affect the prevailing market price of the Class A Common Stock and could impair our future ability to raise capital through an

9

offering of its equity securities. As of December 23, 2003, there were 34,756,868 shares of Class A Common Stock outstanding. There will be 41,656,868 shares of Class A Common Stock outstanding immediately after completion of this offering, substantially all of which will be freely tradeable. In addition, there were 6,549,000 shares of Class A Common Stock reserved for issuance (i) upon the exercise of options granted under the Company's 1995, 1998, and 2001 Stock Option Plans, (ii) under the 1995 Restricted Stock Plan, and (iii) under the Company's 1998 Associate Stock Purchase Plan. Options to purchase an additional 3,608,000 shares of Class A Common Stock may be granted under the Company's 2001 Stock Option Plan.

Our Class B Common Stock is convertible, on a one-for-one basis, into our Class A Common Stock at any time. Simultaneously with this offering, the selling shareholders may convert up to 6,900,000 shares of Class B Common Stock. As of December 23, 2003, there were 31,937,294 shares of Class B Common Stock outstanding. There will be 25,037,294 shares of Class B Common Stock outstanding immediately after completion of this Offering. All of the shares of Class B Common Stock (and the shares of Class A Common Stock into which such shares are convertible) are "restricted securities" for purposes of the Securities Act. Subject to the volume and other limitations set forth in Rule 144 promulgated under the Securities Act, all of such restricted securities are eligible for public sale. See "Selling Shareholders."

FORWARD-LOOKING STATEMENTS

This prospectus includes or incorporates by reference discussions of future expectations and contains projections of results of operations or financial condition or other "forward-looking" statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, and we intend that such forward-looking statements be subject to the safe harbors created thereby. Such forward-looking statements included in, or incorporated by reference into this prospectus, involve known and unknown risks and uncertainties and include, but are not limited to, statements regarding future events and our plans, goals and objectives. Such statements are generally accompanied by words such as "believe," "anticipate," "think," "intend," "estimate," "expect," or similar terms. Our actual results may differ materially from such statements. For a discussion of important factors that could cause actual results to differ materially from the forward-looking statements, see "Risk Factors." Given the significant risks and uncertainties inherent in the forward-looking statements included in, or incorporated by reference into, this prospectus, the inclusion of these statements is not a representation by us or any other person that our objectives and plans will be achieved.

USE OF PROCEEDS

The Company will not receive any of the proceeds from the sale of the shares of Class A Common Stock offered by the Selling Shareholders.

Relationships with Selling Shareholders

Mitchell Jacobson was appointed Chairman of the Board of Directors of the Company in January 1998, served as President of the Company from October 1995 until November 2003, and has served as Chief Executive Officer of the Company since its formation in October 1995. Mr. Jacobson was President of Sid Tool Co., Inc., a wholly-owned and the principal operating subsidiary of the Company (the "Operating Subsidiary") from June 1982 until November 2003, and has served as Chief Executive Officer of the Operating Subsidiary since 1982.

Marjorie Gershwind is Mitchell Jacobson's sister. She holds no office with the Company and has never served as a director.

Sidney Jacobson, a director of the Company and a co-founder and Chairman of the Operating Subsidiary, is the father of both Mitchell Jacobson and Marjorie Gershwind. There are no family relationships among any of the other directors or executive officers of the Company.

PLAN OF DISTRIBUTION

Edgar Filing: MSC INDUSTRIAL DIRECT CO INC - Form S-3/A

We are registering shares of Class A Common Stock on behalf of the Selling Shareholders. As used in this prospectus, "Selling Shareholders" includes donees, pledgees, transferees or other successors-in-interest selling shares of Class A Common Stock received after the date of this prospectus from a Selling Shareholder as a gift, pledge, distribution or other non-sale related transfer.

The Selling Shareholders may sell the shares of Class A Common Stock covered by this prospectus from time to time in any legal manner selected by the Selling Shareholders, including directly to purchasers or through underwriters, broker-dealers or agents, who may act as agent or as principal, and who may receive compensation in the form of discounts, concessions or commissions from the Selling Shareholders or the purchasers. These discounts, concessions or commissions as to any particular underwriter, broker-dealer or agent may be in excess of those customary in the types of transactions involved. The Selling Shareholders will act independently of us in making decisions with respect to the timing, manner and size of each sale of the shares of Class A Common Stock covered by this prospectus.

The Selling Shareholders have advised us that the shares may be sold in one or more transactions at fixed prices, at prevailing market prices at the time of sale, at prices related to the prevailing market prices, at varying prices determined at the time of sale and/or at negotiated prices. These sales may be effected in one or more transactions, including:

on The New York Stock Exchange or in any other securities market on which our Class A Common Stock is then listed or traded;

in the over-the-counter market;

in negotiated transactions;

to underwriters for resale to the public or to investors;

in a combination of any of the above transactions; or

through any other available transaction.

Sales on or through The New York Stock Exchange will be effected at such prices as may be obtainable and as may be satisfactory to the Selling Shareholders.

The Selling Shareholders may enter into hedging and/or monetization transactions. For example, a Selling Shareholder may:

enter into transactions with a broker-dealer or affiliate of a broker-dealer or other third party in connection with which that other party will become a Selling Shareholder and engage in short sales or other sales of our Class A Common Stock under this prospectus, in which case the other party may use shares of our Class A Common Stock received or borrowed from or pledged by the Selling Shareholder or others to settle those sales or to close out any related open borrowings of Class A Common Stock, and may use securities received from the Selling Stockholder in settlement of those derivatives to close out any related borrowings of Class A Common Stock;

itself sell short our Class A Common Stock under this prospectus and use shares of our Class A Common Stock held by it to close out any short position;

enter into options, forwards or other transactions that require a Selling Shareholder to deliver, in a transaction exempt from registration under the Securities Act, our Class A Common Stock to a broker-dealer or an affiliate of a broker-dealer or other third party who may then become a Selling Shareholder and publicly resell or otherwise transfer our Class A Common Stock under this prospectus; or

loan or pledge our Class A Common Stock to a broker-dealer or affiliate of a broker-dealer or other third party who may then become a Selling Shareholder and sell the loaned shares or, in an event of default in the case of a pledge, become a Selling Shareholder and sell the pledged shares under this prospectus.

The Selling Shareholders may sell any or all of the shares of our Class A Common Stock offered by them pursuant to this prospectus. In addition, the Selling Shareholders may transfer, devise or gift the shares of Class A Common Stock by other means not described in this prospectus. Any shares of Class A Common Stock covered by this prospectus that qualify for sale under Rule 144 under the Securities Act may be sold under that rule rather than under this prospectus.

If the Selling Shareholders use underwriters for a sale of securities, the underwriters will acquire the securities for their own account. The underwriters may resell the securities in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. The obligations of the underwriters to purchase the securities will be subject to the conditions set forth in the applicable underwriting agreement. Any public offering price and any discounts or concessions allowed or paid to dealers may be changed from time to time. The Selling Shareholders have advised us that they have not entered into any agreements, understandings or arrangements with any underwriters or broker-dealers regarding the sale of their securities, nor is there an underwriter or coordinating broker acting in connection with the proposed sale of 6,900,000 shares of Class A Common Stock by the Selling Shareholders.

The Selling Shareholders and any underwriters, broker-dealers or agents that participate in the sale of the shares may be deemed to be "underwriters" within the meaning of Section 2(11) of the Securities Act. As a result, any profits on the sale of the shares of Class A Common Stock by the Selling Shareholders and any discounts, commissions or concessions received by any broker-dealers or agents may be deemed to be underwriting discounts and commissions under the Securities Act. If a Selling Shareholder is deemed to be an "underwriter" within the meaning of Section 2(11) of the Securities Act, that Selling Shareholder will be subject to the prospectus delivery requirements of the Securities Act (including delivery through the facilities of the NYSE pursuant to Rule 153 under the Securities Act). We have informed the Selling Shareholders of their obligations to comply with the provisions of the Exchange Act and the rules under the Securities Exchange Act of 1934 relating to stock manipulation, particularly Regulation M.

14

We and the Selling Shareholders may agree to indemnify any broker-dealer, agent or underwriter against certain liabilities related to the selling of the shares of Class A Common Stock, including liabilities under the Securities Act.

To the extent required, the shares to be sold, the names of the Selling Shareholders, the respective purchase prices and public offering prices, the names of any agent, dealer or underwriter, the specific terms of any underwriting or other agreement and any applicable commissions, discounts or concessions with respect to a particular offering will be set forth in an accompanying prospectus supplement or, if appropriate, a post-effective amendment to the registration statement of which this prospectus is a part. If a third party in any monetization or hedging transaction is an underwriter, such underwriter will be identified in the applicable prospectus supplement (or post effective amendment). In addition, upon our being notified by a Selling Shareholder that a donee, pledgee, transferee or other successor-in-interest intends to sell more than 500 shares, we will file a supplement to this prospectus.

In order to comply with the securities laws of some states, if applicable, the shares of Class A Common Stock may be sold in these jurisdictions only through registered or licensed brokers or dealers. In addition, in some states the shares of Class A Common Stock may not be sold unless they have been registered or qualified for sale or any exemption from registration or qualification requirements is available and is complied with.

Expenses of this offering related to this registration statement, estimated at \$59,889, will be borne in full by the Selling Shareholders. Commission expenses and brokerage fees, if any, will be paid by the Selling Shareholders.

DESCRIPTION OF CAPITAL STOCK

Edgar Filing: MSC INDUSTRIAL DIRECT CO INC - Form S-3/A

The following description of our capital stock and certain provisions of our Certificate of Incorporation, or our "Certificate" and the By-Laws is a summary and is qualified in its entirety by reference to the provisions of the Certificate and the By-Laws, copies of which have been filed with the Securities and Exchange Commission, and are incorporated by reference as exhibits to our registration statement of which this prospectus is a part.

The authorized capital stock of the Company consists of (i) 100,000,000 shares of Class A Common Stock, \$.001 par value, (ii) 50,000,000 shares of Class B Common Stock, \$.001 par value, and (iii) 5,000,000 shares of preferred stock, \$.001 par value ("Preferred Stock").

Class A and B Common Stock

On December 23, 2003, there were approximately 586 holders of record of Class A Common Stock and 34,756,868 shares of Class A Common Stock were issued and outstanding. On December 23, 2003, there were 14 holders of record of Class B Common Stock and 31,937,294 shares of Class B Common Stock issued and outstanding.

Subject to the rights of the holders of any Preferred Stock which may be outstanding, each holder of Class A Common Stock and Class B Common Stock on the applicable record date is entitled to receive such dividends as may be declared by the Board of Directors out of funds legally available therefor, and, in the event of liquidation, to share pro rata in any distribution of our assets after payment or providing for the payment of liabilities and the liquidation preference of any outstanding Preferred Stock. Each holder of Class A Common Stock is entitled to one vote for each share held of record on the applicable record date on all matters presented to a vote of shareholders, including the election of directors. The holders of Class B Common Stock are entitled to ten votes per share on the applicable record date and are entitled to vote, together with the holders of the Class A Common Stock, on all matters which are subject to shareholder approval. Holders of Class A Common Stock and Class B Common Stock have no cumulative voting rights or preemptive rights to purchase or subscribe for any stock or other securities and there are no conversion rights or redemption or sinking fund provisions with respect to such stock. The Class B Common Stock is convertible into Class A Common Stock on a one-for-one basis at the option of the holder and upon transfer of such shares to persons other than existing shareholders or certain of their family members.

The shares of Class A Common Stock offered hereby, when issued, will be fully paid and nonassessable.

The Class A Common Stock is listed on the NYSE under the symbol "MSM."

The transfer agent for the Class A Common Stock is American Stock Transfer & Trust Company.

Preferred Stock

Our Certificate authorizes 5,000,000 shares of Preferred Stock. The Company's Board of Directors has the authority to issue shares of Preferred Stock in one or more series and to fix, by resolution, the voting powers, full or limited or no voting powers, and such designations, preferences and relative, participating, optional or other rights, if any, and the qualifications, limitations or restrictions thereof, if any, including the number of shares in such series (which the Board may increase or decrease as permitted by New York law), liquidation preferences, dividend rates, conversion rights and redemption provisions of the shares constituting any series, without any further vote or action by the shareholders. Any shares of Preferred Stock so issued would have priority over the Class A Common Stock and Class B Common Stock with respect to dividend or liquidation rights or both. There are currently no shares of Preferred Stock outstanding and the Company has no current intention to issue any shares of Preferred Stock.

Dividend Policy

On July 10, 2003, the Board of Directors instituted a policy of regular quarterly cash dividends to shareholders. The Board of Directors established a quarterly dividend rate of \$0.05 per share, or \$0.20 per share annually. This policy is reviewed regularly by the Board of Directors. The first dividend was paid on August 11, 2003 for approximately \$3.3 million to shareholders of record at the close of business on July 31, 2003. On October 29, 2003 the Board of Directors approved a second dividend of \$.05 per share which was paid on November 26, 2003 to shareholders of record at the close of business on November 17, 2003. The dividend resulted in a payout of approximately \$3.3 million based on the number of shares then outstanding. The provisions of our revolving credit agreement limit the payment of dividends in each fiscal year to 50% of net income in the immediately preceding fiscal year plus \$10.0 million.

Certain Provisions of By-laws Affecting Shareholders

Edgar Filing: MSC INDUSTRIAL DIRECT CO INC - Form S-3/A

Special meetings of the shareholders may be called by resolution of the Board of Directors or by the president and shall be called by the president or secretary upon the written request (stating the purpose or purposes of the meeting) of a majority of the Board of Directors or of the holders of a majority of the outstanding shares entitled to vote. Only business related to the purposes set forth in the notice of the meeting may be transacted at a special meeting.

Business Combination Statute

As a New York resident domestic corporation, we are subject to the provisions of Section 912 of the New York Business Corporation Law. Section 912 provides, with certain exceptions, that a New York resident domestic corporation may not engage in a "business combination" (such as merger, consolidation, recapitalization or disposition of stock) with any "interested shareholder" for a period of five years from the date that the person became an interested shareholder unless: (a) the transaction resulting in a person becoming an interested shareholder, or the business combination was approved by the board of directors of the corporation prior to that person becoming an interested shareholder; (b) the business combination is approved by the holders of a majority of the outstanding voting stock not beneficially owned by the interested shareholder; or (c) a business combination that meets specified valuation requirements for the stock of the New York resident domestic corporation. An "interested shareholder" is defined as any person that (a) is the beneficial owner of 20% or more of the outstanding voting stock of the New York resident domestic corporation or (b) is an affiliate or associate of the corporation that at any time during the five years prior was the beneficial owner, directly or indirectly, of 20% or more of the then outstanding voting stock. These provisions are likely to impose greater restrictions on an unaffiliated shareholder than on the existing shareholders who will continue to own all of the Class B Common Stock after this Offering.

17

LEGAL MATTERS

The validity of the shares of Class A Common Stock offered hereby and certain other legal matters in connection with this Offering will be passed upon for the Company by Katten Muchin Zavis Rosenman, New York, New York.

Certain members and associates of the firm of Katten Muchin Zavis Rosenman own an aggregate of approximately 4,100 shares of Class A Common Stock.

Item 15. Indemnification of Directors and Officers.

Article EIGHTH of the Company's Certificate of Incorporation and Section 722 of the New York Business Corporation Law, as amended, the law of the state in which the Company is incorporated, empowers a corporation, within certain limitations, to indemnify any person who served in any capacity at the request of the corporation, by reason of the fact that he, his testator or intestate, was a director or officer of the corporation, or served such other corporation, partnership, joint venture, trust, employee benefit plan or other enterprise in any capacity, against judgments, fines, amounts paid in settlement and reasonable expenses, including attorneys' fees actually and necessarily incurred as a result of such action or proceeding, or any appeal therein, if such director or officer acted, in good faith, for a purpose which he reasonably believed to be in, or, in the case of service for any other corporation or any partnership, joint venture, trust, employee benefit plan or other enterprise, not opposed to, the best interests of the corporation and, in criminal actions or proceedings, in addition, had no reasonable cause to believe that his conduct was unlawful.

Article SEVENTH of the Company's Certificate of Incorporation, provides:

No director of the Corporation shall be personally liable to the Corporation or its shareholders for damages for any breach of duty in such capacity, provided that nothing contained in this Article SEVENTH shall eliminate or limit the liability of any director if a judgment or other final adjudication adverse to him or her establishes that his or her acts or omissions were in bad faith or involved intentional misconduct or a knowing violation of law or that he or she personally gained in fact a financial profit or other advantage to which he or she was not legally entitled or that his or her acts violated Section 719, or its successor, of the New York Business Corporation Law.

The Company has obtained insurance for the protection of its directors and officers against any liability asserted against them in their official capacities.

 - (i) to include any prospectus required by Section 10(a) (3) of the Securities Act;
 - (ii) to reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any

deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and

(iii) to include any material information with respect to the plan of distribution not previously disclosed in this registration statement or any material change to such information in this registration statement;

provided, however, that the undertakings set forth in clauses (a)(i) and (a)(ii) do not apply if the information required to be included in a post-effective amendment by those clauses is contained in periodic reports filed with or furnished to the Commission by the registrant pursuant to Section 13 or Section 15(d) of the Exchange Act that are incorporated by reference in the registration statement;

The undersigned registrant hereby undertakes that, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

The undersigned registrant hereby undertakes to remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to section 13(a) or 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration

statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act of 1933 and will be governed by the final adjudication of such issue.

The undersigned registrant hereby undertakes that:

(1) For purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act of 1933 shall be deemed to be part of this registration statement as of the time it was declared effective.

(2) For the purpose of determining any liability under the Securities Act of 1933, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
