**Item 1. Business**

Simon Property Group, Inc., or Simon Property, is a Delaware corporation that operates as a self-administered and self-managed real estate investment trust, or REIT, under the Internal Revenue Code. To qualify as a REIT, among other things, a company must distribute at least 90% of its taxable income to its stockholders annually. Taxes are paid by stockholders on ordinary dividends received and any capital gains distributed. Most states also follow this federal treatment and do not require REITs to pay state income tax. Simon Property Group, L.P., or the Operating Partnership, is a majority-owned partnership subsidiary that owns all of our real estate properties and other assets. In this discussion, the terms "we", "us" and "our" refer to Simon Property, the Operating Partnership, and its subsidiaries.

We own, develop and manage retail real estate properties, which consist primarily of regional malls, Premium Outlets®, The Mills®, and community/lifestyle centers. As of December 31, 2011, we owned or held an interest in 326 income-producing properties in the United States, which consisted of 151 regional malls, 58 Premium Outlets, 66 community/lifestyle centers, 36 properties in the Mills Portfolio, and 15 other shopping centers or outlet centers in 41 states and Puerto Rico. Of the 36 properties in the Mills portfolio, 16 of these properties are The Mills, 16 are regional malls, and four are community centers. Internationally, as of December 31, 2011, we had an ownership interest in a joint venture which owned 45 shopping centers in Italy. On January 9, 2012, we sold our entire ownership in this venture to our venture partner. Additionally, we had ownership interests in eight Premium Outlets in Japan, two Premium Outlets in South Korea, one Premium Outlet in Mexico, and one Premium Outlet in Malaysia.

For a description of our operational strategies and developments in our business during 2011, see the "Management's Discussion and Analysis of Financial Condition and Results of Operations" section of the 2011 Annual Report to Shareholders filed as Exhibit 13.1 to this Form 10-K.

**Other Policies**

The following is a discussion of our investment policies, financing policies, conflict of interest policies and policies with respect to certain other activities. One or more of these policies may be amended or rescinded from time to time without a stockholder vote.

***Investment Policies***

While we emphasize equity real estate investments, we may invest in equity or debt securities of other entities engaged in real estate activities or securities of other issuers. However, any of these investments would be subject to the percentage ownership limitations and gross income tests necessary for REIT qualification. These REIT limitations mean that we cannot make an investment that would cause our real estate assets to be less than 75% of our total assets. In addition, at least 75% of our gross income must be derived directly or indirectly from investments relating to real property or mortgages on real property, including "rents from real property," dividends from other REITs and, in certain circumstances, interest from certain types of temporary investments. At least 95% of our income must be derived from such real property investments, and from dividends, interest and gains from the sale or dispositions of stock or securities or from other combinations of the foregoing.

Subject to REIT limitations, we may invest in the securities of other issuers in connection with acquisitions of indirect interests in real estate. Such an investment would normally be in the form of general or limited partnership or membership interests in special purpose partnerships and limited liability companies that own one or more properties. We may, in the future, acquire all or substantially all of the securities or assets of other REITs, management companies or similar entities where such investments would be consistent with our investment policies.

***Financing Policies***

Because our REIT qualification requires us to distribute at least 90% of our taxable income, we regularly access the debt markets to raise the funds necessary to finance acquisitions, develop and redevelop properties, and refinance maturing debt. We must comply with the covenants contained in our financing agreements that limit our ratio of debt to total assets or market value, as defined. For example, the Operating Partnership's line of credit and the indentures for the Operating Partnership's debt securities contain covenants that restrict the total amount of debt of the Operating Partnership to 65%, or 60% in relation to certain debt, of total assets, as defined under the related arrangement, and secured debt to 50% of total assets. In addition, these agreements contain other covenants requiring

Table of Contents

compliance with financial ratios. Furthermore, the amount of debt that we may incur is limited as a practical matter by our desire to maintain acceptable ratings for our equity securities and the debt securities of the Operating Partnership. We strive to maintain investment grade ratings at all times, but we cannot assure you that we will be able to do so in the future.

If our Board of Directors determines to seek additional capital, we may also raise such capital by offering equity or debt securities, creating joint ventures with existing ownership interests in properties, retaining cash flows or a combination of these methods. If the Board of Directors determines to raise additional equity capital, it may, without stockholder approval, issue additional shares of common stock or other capital stock. The Board of Directors may issue a number of shares up to the amount of our authorized capital in any manner and on such terms and for such consideration as it deems appropriate. Such securities may be senior to the outstanding classes of common stock. Such securities also may include additional classes of preferred stock, which may be convertible into common stock. Existing stockholders have no preemptive right to purchase shares in any subsequent offering of our securities. Any such offering could dilute a stockholder's investment in us.

We expect most future borrowings would be made through the Operating Partnership or its subsidiaries. We might, however, incur borrowings that would be reloaned to the Operating Partnership. Borrowings may be in the form of bank borrowings, publicly and privately placed debt instruments, or purchase money obligations to the sellers of properties. Any such indebtedness may be secured or unsecured. Any such indebtedness may also have full or limited recourse to the borrower or cross-collateralized with other debt, or may be fully or partially guaranteed by the Operating Partnership. Although we may borrow to fund the payment of dividends, we currently have no expectation that we will regularly be required to do so.

On October 5, 2011, the Operating Partnership entered into a new unsecured revolving credit facility, or Credit Facility, providing an initial borrowing capacity of \$4.0 billion, which can be increased at our option to \$5.0 billion during its term. The Credit Facility will initially mature on October 30, 2015 and can be extended for an additional year at our sole option. The Credit Facility replaced a \$3.9 billion unsecured revolving credit facility. We issue debt securities through the Operating Partnership, but we may issue our debt securities which may be convertible into capital stock or be accompanied by warrants to purchase capital stock. We also may sell or securitize our lease receivables. The proceeds from any borrowings or financings may be used for one or more of the following:

financing acquisitions;

developing or redeveloping properties;

refinancing existing indebtedness;

working capital or capital improvements; or

meeting the taxable income distribution requirements applicable to REITs, if we have taxable income without the receipt of cash sufficient to enable us to meet such distribution requirements.

We may also finance acquisitions through the following:

issuance of shares of common stock or preferred stock of Simon Property;

issuance of additional units of limited partnership interest in the Operating Partnership, or units;

issuance of preferred units of the Operating Partnership;

issuance of other securities including unsecured notes and mortgage debt; or

## Edgar Filing: SIMON PROPERTY GROUP INC /DE/ - Form 10-K

sale or exchange of ownership interests in properties.

The ability of the Operating Partnership to issue units to transferors of properties or other partnership interests may permit the transferor to defer gain recognition for tax purposes.

We do not have a policy limiting the number or amount of mortgages that may be placed on any particular property. Mortgage financing instruments, however, usually limit additional indebtedness on such properties. Additionally, our unsecured credit facility and unsecured note indentures, contain limits on mortgage indebtedness we may incur.

Typically, we invest in or form special purpose entities to assist us in obtaining permanent financing at attractive terms. Permanent financing may be structured as a mortgage loan on a single property, or on a group of properties, and generally requires us to provide a mortgage interest on the property or properties in favor of an institutional third

Table of Contents

party, as a joint venture with a third party, or as a securitized financing. For securitized financings, we create special purpose entities to own the properties. These special purpose entities, which are common in the real estate industry, are structured so that they would not be consolidated in a bankruptcy proceeding involving a parent company. We decide upon the structure of the financing based upon the best terms then available to us and whether the proposed financing is consistent with our other business objectives. For accounting purposes, we include the outstanding securitized debt of special purpose entities owning consolidated properties as part of our consolidated indebtedness.

***Conflict of Interest Policies***

We maintain policies and have entered into agreements designed to reduce or eliminate potential conflicts of interest. We have adopted governance principles governing the function, conduct, selection, orientation and duties of our Board of Directors and the Company, as well as written charters for each of the standing Committees of the Board of Directors. In addition, we have a Code of Business Conduct and Ethics, which applies to all of our officers, directors, and employees. At least a majority of the members of our Board of Directors must qualify as independent under the listing standards for New York Stock Exchange companies and cannot be affiliated with the Simon family who are significant stockholders and/or unitholders in the Operating Partnership. Any transaction between us and the Simons, including property acquisitions, service and property management agreements and retail space leases, must be approved by a majority of our non-affiliated directors.

The sale by the Operating Partnership of any property that it owns may have an adverse tax impact on the Simons and/or other limited partners of the Operating Partnership. In order to avoid any conflict of interest between Simon Property Group and the Simons, our charter requires that at least six of our independent directors must authorize and require the Operating Partnership to sell any property it owns. Any such sale is subject to applicable agreements with third parties. Noncompetition agreements executed by Herbert Simon and David Simon contain covenants limiting their ability to participate in certain shopping center activities in North America.

***Policies With Respect To Certain Other Activities***

We intend to make investments which are consistent with our qualification as a REIT; unless the Board of Directors determines that it is no longer in our best interests to so qualify as a REIT. The Board of Directors may make such a determination because of changing circumstances or changes in the REIT requirements. We have authority to offer shares of our capital stock or other securities in exchange for property. We also have authority to repurchase or otherwise reacquire our shares or any other securities. We may issue shares of our common stock, or cash at our option, to holders of units in future periods upon exercise of such holders' rights under the Operating Partnership agreement. Our policy prohibits us from making any loans to our directors or executive officers for any purpose. We may make loans to the joint ventures in which we participate. Additionally, we may make or buy interests in loans for real estate properties owned by others.

**Competition**

The retail industry is dynamic and competitive. We compete with numerous merchandise distribution channels including regional malls, outlet centers, community/lifestyle centers, and other shopping centers in the United States and abroad. We also compete with internet retailing sites and catalogs which provide retailers with distribution options beyond existing brick and mortar retail properties. The existence of competitive alternatives could have a material adverse effect on our ability to lease space and on the level of rents we can obtain. This results in competition for both the tenants to occupy the properties that we develop and manage as well as for the acquisition of prime sites (including land for development and operating properties). We believe that there are numerous factors that make our properties highly desirable to retailers including:

the quality, location and diversity of our properties;

our management and operational expertise;

our extensive experience and relationships with retailers and lenders; and

our mall marketing initiatives and consumer focused strategic corporate alliances.

Table of Contents

**Item 1A. Risk Factors**

*The following factors, among others, could cause our actual results to differ materially from those contained in forward-looking statements made in this Annual Report on Form 10-K and presented elsewhere by our management from time to time. These factors, among others, may have a material adverse effect on our business, financial condition, operating results and cash flows, and you should carefully consider them. It is not possible to predict or identify all such factors. You should not consider this list to be a complete statement of all potential risks or uncertainties and we may update them in our future periodic reports.*

**Risks Relating to Debt and the Financial Markets**

*We have a substantial debt burden that could affect our future operations.*

As of December 31, 2011, our consolidated mortgages and other indebtedness, excluding the related premium and discount, totaled \$18.4 billion. We are subject to the risks normally associated with debt financing, including the risk that our cash flow from operations will be insufficient to meet required debt service. Our debt service costs generally will not be reduced if developments at the property, such as the entry of new competitors or the loss of major tenants, cause a reduction in the income from the property. Should such events occur, our operations may be adversely affected. If a property is mortgaged to secure payment of indebtedness and income from this is insufficient to pay that indebtedness, the property could be foreclosed upon by the mortgagee resulting in a loss of income and a decline in our total asset value.

*Disruption in the credit markets or downgrades in our credit ratings may adversely affect our ability to access external financings for our growth and ongoing debt service requirements.*

We depend on external financings, principally debt financings, to fund the growth of our business and to ensure that we can meet ongoing maturities of our outstanding debt. Our access to financing depends on our credit rating, the willingness of banks to lend to us and conditions in the capital markets. We cannot assure you that we will be able to obtain the financing we need for future growth or to meet our debt service as obligations mature, or that the financing available to us will be on acceptable terms.

*Adverse changes in our credit rating could affect our borrowing capacity and borrowing terms.*

Our outstanding senior unsecured notes and preferred stock are periodically rated by nationally recognized credit rating agencies. The credit ratings are based on our operating performance, liquidity and leverage ratios, overall financial position, and other factors viewed by the credit rating agencies as relevant to our industry and the economic outlook in general. Our credit rating can affect the amount of capital we can access, as well as the terms of any financing we obtain. Since we depend primarily on debt financing to fund our growth, adverse changes in our credit rating could have a negative effect on our future growth.

*Our hedging interest rate protection arrangements may not effectively limit our interest rate risk.*

We selectively manage our exposure to interest rate risk by a combination of interest rate protection agreements to effectively fix or cap a portion of our variable rate debt. In addition, we refinance fixed rate debt at times when we believe rates and terms are appropriate. Our efforts to manage these exposures may not be successful.

Our use of interest rate hedging arrangements to manage risk associated with interest rate volatility may expose us to additional risks, including a risk that a counterparty to a hedging arrangement may fail to honor its obligations. Developing an effective interest rate risk strategy is complex and no strategy can completely insulate us from risks associated with interest rate fluctuations. There can be no assurance that our hedging activities will have the desired beneficial impact on our results of operations or financial condition. Termination of these hedging agreements typically involves costs, such as transaction fees or breakage costs.

**Factors Affecting Real Estate Investments and Operations**

*We face risks associated with the acquisition, development, redevelopment and expansion of properties.*

We regularly acquire and develop new properties and expand and redevelop existing properties, and these activities are subject to various risks. We may not be successful in pursuing acquisition, development or redevelopment/

Table of Contents

expansion opportunities. In addition, newly acquired, developed or redeveloped/expanded properties may not perform as well as expected. We are subject to other risks in connection with any acquisition, development and redevelopment/expansion activities, including the following:

construction costs of a project may be higher than projected, potentially making the project unfeasible or unprofitable;

we may not be able to obtain financing or to refinance loans on favorable terms, if at all;

we may be unable to obtain zoning, occupancy or other governmental approvals;

occupancy rates and rents may not meet our projections and the project may not be profitable; and

we may need the consent of third parties such as anchor tenants, mortgage lenders and joint venture partners, and those consents may be withheld.

If a development or redevelopment/expansion project is unsuccessful, either because it is not meeting our expectations when operational or was not completed according to the project planning, we could lose our investment in the project. Further, if we guarantee the property's financing, our loss could exceed our investment in the project.

***Real estate investments are relatively illiquid.***

Our properties represent a substantial portion of our total consolidated assets. These investments are relatively illiquid. As a result, our ability to sell one or more of our properties or investments in real estate in response to any changes in economic or other conditions is limited. If we want to sell a property, we cannot assure you that we will be able to dispose of it in the desired time period or that the sales price of a property will exceed the cost of our investment.

**Environmental Risks**

***As owners of real estate, we can face liabilities for environmental contamination.***

Federal, state and local laws and regulations relating to the protection of the environment may require us, as a current or previous owner or operator of real property, to investigate and clean up hazardous or toxic substances or petroleum product releases at a property or at impacted neighboring properties. These laws often impose liability regardless of whether the property owner or operator knew of, or was responsible for, the presence of hazardous or toxic substances. These laws and regulations may require the abatement or removal of asbestos containing materials in the event of damage, demolition or renovation, reconstruction or expansion of a property and also govern emissions of and exposure to asbestos fibers in the air. Those laws and regulations also govern the installation, maintenance and removal of underground storage tanks used to store waste oils or other petroleum products. Many of our properties contain, or at one time contained, asbestos containing materials or underground storage tanks (primarily related to auto service center establishments or emergency electrical generation equipment). The costs of investigation, removal or remediation of hazardous or toxic substances may be substantial and could adversely affect our results of operations or financial condition but is not estimable. The presence of contamination, or the failure to remediate contamination, may also adversely affect our ability to sell, lease or redevelop a property or to borrow using a property as collateral.

***Our efforts to identify environmental liabilities may not be successful.***

Although we believe that our portfolio is in substantial compliance with federal, state and local environmental laws, ordinances and regulations regarding hazardous or toxic substances, this belief is based on limited testing. Nearly all of our properties have been subjected to Phase I or similar environmental audits. These environmental audits have not revealed, nor are we aware of, any environmental liability that we believe will have a material adverse effect on our results of operations or financial condition. However, we cannot assure you that:

existing environmental studies with respect to the portfolio reveal all potential environmental liabilities;

Edgar Filing: SIMON PROPERTY GROUP INC /DE/ - Form 10-K

any previous owner, occupant or tenant of a property did not create any material environmental condition not known to us;

the current environmental condition of the portfolio will not be affected by tenants and occupants, by the condition of nearby properties, or by other unrelated third parties; or

Table of Contents

future uses or conditions (including, without limitation, changes in applicable environmental laws and regulations or the interpretation thereof) will not result in environmental liabilities.

**Retail Operations Risks**

*Overall economic conditions may adversely affect the general retail environment.*

Our concentration in the retail real estate market means that we are subject to the risks that affect the retail environment generally, including the levels of consumer spending, seasonality, the willingness of retailers to lease space in our shopping centers, tenant bankruptcies, changes in economic conditions, increasing use of the internet by retailers and consumers, consumer confidence, casualties and other natural disasters, and the potential for terrorist activities. The economy and consumer spending appear to be recovering from the effects of the recent recession. We derive our cash flow from operations primarily from retail tenants, many of whom have been and continue to be under some degree of economic stress. A significant deterioration in our cash flow from operations could require us to curtail planned capital expenditures or seek alternative sources of financing.

*We may not be able to lease newly developed properties and renew leases and relet space at existing properties.*

We may not be able to lease new properties to an appropriate mix of tenants or for rents that are consistent with our projections. Also, when leases for our existing properties expire, the premises may not be relet or the terms of reletting, including the cost of allowances and concessions to tenants, may be less favorable than the current lease terms. To the extent that our leasing plans are not achieved, our cash generated before debt repayments and capital expenditures could be adversely affected. Changes in economic and operating conditions that occur subsequent to our review of recoverability of investment property and other assets could impact the assumptions used in that assessment and could result in future charges to earnings if assumptions regarding those investments differ from actual results.

*Some of our properties depend on anchor stores or major tenants to attract shoppers and could be adversely affected by the loss of or a store closure by one or more of these tenants.*

Regional malls are typically anchored by department stores and other large nationally recognized tenants. The value of some of our properties could be adversely affected if these tenants fail to comply with their contractual obligations, seek concessions in order to continue operations, or cease their operations. Department store and larger store, also referred to as "big box", consolidations typically result in the closure of existing stores or duplicate or geographically overlapping store locations. We do not control the disposition of those department stores or larger stores that we do not own. We also may not control the vacant space that is not re-leased in those stores we do own. Other tenants may be entitled to modify the terms of their existing leases in the event of such closures. The modification could be unfavorable to us as the lessor and could decrease rents or expense recovery charges. Additionally, major tenant closures may result in decreased customer traffic which could lead to decreased sales at other stores. If the sales of stores operating in our properties were to decline significantly due to closing of anchors, economic conditions, or other reasons, tenants may be unable to pay their minimum rents or expense recovery charges. In the event of default by a tenant or anchor store, we may experience delays and costs in enforcing our rights as landlord to recover amounts due to us under the terms of our agreements with those parties.

*We face potential adverse effects from tenant bankruptcies.*

Bankruptcy filings by retailers occur regularly in the course of our operations. We continually seek to re-lease vacant spaces caused by tenant bankruptcies. However, our efforts to release the vacated space may not be successful. Additionally, the bankruptcy of a tenant, particularly an anchor tenant, may make it more difficult to lease the remainder of the affected properties. Future tenant bankruptcies could adversely affect our properties or impact our ability to successfully execute our re-leasing strategy.

**Risks Relating to Joint Venture Properties**

*We have limited control with respect to some properties that are partially owned or managed by third parties, which may adversely affect our ability to sell or refinance them.*

As of December 31, 2011, we owned interests in 164 income-producing properties with other parties. Of those, 20 properties are included in our consolidated financial statements. We account for the other 144 properties under the

Table of Contents

equity method of accounting, which we refer to as joint venture properties. We serve as general partner or property manager for 85 of these 144 properties; however, certain major decisions, such as approving the operating budget and selling, refinancing and redeveloping the properties require the consent of the other owners. Of the properties for which we do not serve as general partner or property manager, 57 are in our international joint ventures. The other owners also have other participating rights that we consider substantive for purposes of determining control over the properties' assets. The remaining joint venture properties are managed by third parties. These limitations may adversely affect our ability to sell, refinance, or otherwise operate these properties.

***The Operating Partnership guarantees debt or otherwise provides support for a number of joint venture properties.***

Joint venture debt is the liability of the joint venture and is typically secured by a mortgage on the joint venture property. As of December 31, 2011, the Operating Partnership has loan guarantees to support \$30.2 million of our total \$6.5 billion share of joint venture mortgage and other indebtedness. A default by a joint venture under its debt obligations may expose us to liability under a guaranty or letter of credit.

**Other Factors Affecting Our Business**

***Our Common Area Maintenance (CAM) contributions may not allow us to recover the majority of our operating expenses from tenants.***

CAM costs typically include allocable energy costs, repairs, maintenance and capital improvements to common areas, janitorial services, administrative, property and liability insurance costs, and security costs. We have leases with variable CAM provisions that adjust to reflect inflationary increases. We have converted a substantial portion of our leases to a fixed payment methodology which fixes our tenants' CAM contributions and should in turn reduce the volatility of and limitations on the recoveries we collect from our tenants for the reimbursement of our property operating expenses. However, with respect to both variable and fixed payment methodologies, the amount of CAM charges we bill to our tenants may not allow us to recover all of these operating costs.

***We face a wide range of competition that could affect our ability to operate profitably.***

Our properties compete with other retail properties and other forms of retailing such as catalogs and e-commerce websites. Competition may come from regional malls, outlet centers, community/lifestyle centers, and other shopping centers, both existing as well as future development projects. The presence of competitive alternatives affects our ability to lease space and the level of rents we can obtain. New construction, renovations and expansions at competing sites could also negatively affect our properties. We also compete with other retail property developers to acquire prime development sites. In addition, we compete with other retail property companies for tenants and qualified management.

***Our international expansion may subject us to different or greater risk from those associated with our domestic operations.***

As of December 31, 2011, we held interests in joint venture properties that operate in Italy (our interests in which were sold in January 2012), Japan, South Korea, Mexico, and Malaysia. We also hold a minority investment in two U.K. real estate companies. We may pursue additional expansion opportunities outside the United States. International development and ownership activities carry risks that are different from those we face with our domestic properties and operations. These risks include:

adverse effects of changes in exchange rates for foreign currencies;

changes in foreign political and economic environments, regionally, nationally, and locally;

challenges of complying with a wide variety of foreign laws including corporate governance, operations, taxes, and litigation;

differing lending practices;

differences in cultures;

changes in applicable laws and regulations in the United States that affect foreign operations;

difficulties in managing international operations; and

Table of Contents

obstacles to the repatriation of earnings and cash.

Although our international activities currently are a relatively small portion of our business (international properties represented approximately 5.4% of the gross leasable area of all of our properties at December 31, 2011), to the extent that we expand our international activities, these risks could increase in significance which in turn could adversely affect our results of operations and financial condition.

***Some of our potential losses may not be covered by insurance.***

We maintain insurance coverage with third party carriers who provide a portion of the coverage for specific layers of potential losses including commercial general liability, fire, flood, extended coverage and rental loss insurance on all of our properties in the United States. The initial portion of coverage not provided by third party carriers is either insured through our wholly-owned captive insurance companies, Rosewood Indemnity, Ltd. and Bridgewood Insurance Company, Ltd., or other financial arrangements controlled by us. The third party carrier has, in turn, agreed to provide evidence of coverage for this layer of losses under the terms and conditions of the carrier's policy. A similar policy written through our captive insurance entities also provides initial coverage for property insurance and certain windstorm risks at the properties located in coastal windstorm locations.

There are some types of losses, including lease and other contract claims, which generally are not insured. If an uninsured loss or a loss in excess of insured limits occurs, we could lose all or a portion of the capital we have invested in a property, as well as the anticipated future revenue it could generate.

We currently maintain insurance coverage against acts of terrorism on all of our properties in the United States on an "all risk" basis in the amount of up to \$1 billion. The current federal laws which provide this coverage are expected to operate through 2014. Despite the existence of this insurance coverage, any threatened or actual terrorist attacks where we operate could adversely affect our property values, revenues, consumer traffic and tenant sales.

**Risks Relating to Federal Income Taxes**

***We have elected to be taxed as a REIT.***

We have elected to be taxed as a REIT under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended, or the Internal Revenue Code. We believe we have been organized and operated in a manner which allows us to qualify for taxation as a REIT under the Internal Revenue Code. We intend to continue to operate in this manner. However, our qualification and taxation as a REIT depend upon our ability to meet, through actual annual operating results, asset diversification, distribution levels and diversity of stock ownership, the various qualification tests imposed under the Internal Revenue Code. REIT qualification is governed by highly technical and complex provisions for which there are only limited judicial or administrative interpretations. Accordingly, there is no assurance that we have operated or will continue to operate in a manner so as to qualify or remain qualified as a REIT.

If we fail to comply with those provisions, we may be subject to monetary penalties or to possible disqualification as a REIT. If such events occurs, and if available relief provisions do not apply:

we will not be allowed a deduction for distributions to stockholders in computing our taxable income;

we will be subject to corporate level income tax, including any applicable alternative minimum tax, on our taxable income at regular corporate rates; and

unless entitled to relief under relevant statutory provisions, we will also be disqualified from treatment as a REIT for the four taxable years following the year during which qualification was lost.

**Item 2. Properties**

*United States Properties*

Our U.S. properties primarily consist of regional malls, Premium Outlets, The Mills, community/lifestyle centers, and other properties. These properties contain an aggregate of approximately 242.2 million square feet of gross leasable area, or GLA, of which we own approximately 153.9 million square feet. A total estimated retail sale at the properties in 2011 was approximately \$65 billion.

Regional malls typically contain at least one traditional department store anchor or a combination of anchors and big box retailers with a wide variety of smaller stores connecting the anchors. Additional stores are usually located along the perimeter of the parking area. Our 151 regional malls are generally enclosed centers and range in size from approximately 400,000 to 2.4 million square feet of GLA. Our regional malls contain in the aggregate more than 17,500 occupied stores, including approximately 692 anchors, which are predominately national retailers. For comparative purposes, we separate the information in this section on the 16 regional malls in the Mills portfolio from the information on our other regional malls.

Premium Outlets generally contain a wide variety of designer and manufacturer stores located in open-air centers. Our 58 Premium Outlets range in size from approximately 150,000 to 850,000 square feet of GLA. The Premium Outlets are generally located near major metropolitan areas and tourist destinations including New York City, Los Angeles, Boston, Palm Springs, Orlando, Las Vegas, and Honolulu.

The Mills generally range in size from 1.0 million to 2.2 million square feet of GLA and are located in major metropolitan areas. They have a combination of traditional mall, outlet center, and big box retailers and entertainment uses. The Mills regional malls typically range in size from 800,000 to 1.3 million square feet of GLA and contain a wide variety of national retailers.

Community/lifestyle centers are generally unenclosed and smaller than our regional malls. Our 66 community/lifestyle centers generally range in size from approximately 100,000 to 950,000 square feet of GLA. Community/lifestyle centers are designed to serve a larger trade area and typically contain anchor stores and other national retail tenants, which occupy a significant portion of the GLA of the center. We also own traditional community shopping centers that focus primarily on value-oriented and convenience goods and services. These centers are usually anchored by a supermarket, discount retailer, or drugstore and are designed to service a neighborhood area. Finally, we own open-air centers adjacent to our regional malls designed to take advantage of the drawing power of the mall.

We also have interests in 15 other shopping centers or outlet centers. These properties range in size from approximately 85,000 to 700,000 square feet of GLA, are considered non-core to our business model, and in total represent less than 1% of our total operating income before depreciation and amortization.

As of December 31, 2011, approximately 94.8% of the owned GLA in regional malls and Premium Outlets and the retail space of the other properties was leased, approximately 95.0% of the owned GLA for The Mills and 88.6% of owned GLA for the Mills regional malls was leased, and approximately 93.4% of owned GLA in the community/lifestyle centers was leased.

We hold a 100% interest in 219 of our properties, effectively control 20 properties in which we have a joint venture interest, and hold the remaining 87 properties through unconsolidated joint venture interests. We are the managing or co-managing general partner or member of 324 properties. Substantially all of our joint venture properties are subject to rights of first refusal, buy-sell provisions, or other sale rights for all partners which are customary in real estate partnership agreements and the industry. Our partners in our joint ventures may initiate these provisions (subject to any applicable lock up or similar restrictions) which will result in either the use of available cash or borrowings to acquire their partnership interest or the disposal of our partnership interest.

The following property table summarizes certain data for our regional malls and Premium Outlets, The Mills, the Mills regional malls and community/lifestyle centers located in the United States, including Puerto Rico, as of December 31, 2011.

Table of Contents**International Properties**

Our ownership interests in properties outside the United States are primarily owned through joint venture arrangements. However, we have direct minority investments in certain real estate companies within the U.K. as further described below.

***European Investments***

Gallerie Commerciali Italia, S.p.A., or GCI, is a fully integrated retail real estate developer, owner and manager of 45 properties in Italy with approximately 10.1 million square feet of GLA. At December 31, 2011, we had a 49.0% ownership interest in GCI. Substantially all of these properties are anchored by the hypermarket retailer Auchan S.A., who is also our venture partner in GCI. We sold our entire ownership interest in GCI to our venture partner on January 9, 2012.

***Other International Investments***

We also hold real estate interests in eight operating joint venture properties in Japan, two operating joint venture properties in South Korea, one operating joint venture property in Mexico, and one operating joint venture property in Malaysia. The eight Japanese Premium Outlets operate in various cities throughout Japan and are held in a joint venture with Mitsubishi Estate Co., Ltd. These Japanese centers comprise over 2.6 million square feet of GLA and were 100.0% leased as of December 31, 2011.

The following summarizes our holdings in these international joint ventures and the underlying countries in which these joint ventures own and operate real estate properties as of December 31, 2011:

<b>Holdings</b>	<b>Ownership Interest</b>	<b>Properties open and operating</b>	<b>Countries of Operation</b>
Chelsea Japan Co. Ltd.	40.0%	8	Japan
Shinsegae Chelsea (Seoul)	50.0%	2	South Korea
Premium Outlets Punta Norte (Mexico City)	50.0%	1	Mexico
Genting Simon Sdn Bhd (Johor)	50.0%	1	Malaysia

On March 17, 2011, Paju Premium Outlets, a 328,000 square foot center located in Seoul, South Korea, opened. On July 14, 2011, Tosu Premium Outlets Phase III, a 52,000 square foot expansion to the Tosu Premium Outlet located in Fukuoka, Japan, opened. On December 2, 2011, Johor Premium Outlets, a 190,000 square foot center located in Johor, Malaysia, opened on December 8, 2011, Ami Premium Outlets Phase II, a 90,000 square foot expansion to the Ami Premium Outlet located in Ami, Japan, opened.

We hold investments in two U.K. companies, Capital Shopping Centres Group PLC, or CSCG, and Capital & Counties Properties PLC, or CAPC. CSCG operates regional shopping centers and is the owner of other retail assets primarily located in the United Kingdom. CAPC is predominantly focused on property investment and development in central London. Our interest in CSCG and CAPC is adjusted to their quoted market price, including a related foreign exchange component. Our interests in CSCG and CAPC are approximately 4% and 5% of their outstanding shares, respectively.

We have interests in two European outlet centers, La Vallée Village near Paris, France, and Ingolstadt Village near Munich, Germany. We own direct interests in the centers and indirect interests through a minority ownership interest in Value Retail PLC.

The following property table summarizes certain data for our properties located in Japan, South Korea, Mexico, and Malaysia at December 31, 2011.

Table of Contents

***Land***

We have direct or indirect ownership interests in approximately 550 acres of land held in the United States for future development.

***Sustainability and Energy Efficiency***

Due to the size of our portfolio, we focus on energy efficiency as a core sustainability strategy. Through the continued use of energy conservation practices, energy efficiency projects, and continuous monitoring and reporting, we have reduced our energy consumption at comparable properties every year since 2003. As a result, excluding new developments and expansions, we reduced the electricity usage over which we have direct control by 299 million kWhs since 2003. This represents a 26% reduction in electricity usage across a portfolio of comparable properties and reflects an annual value of over \$32 million in avoided operating costs. Our documented reduction in greenhouse gas emissions resulting from our energy management efforts is 210,000 metric tons CO<sub>2</sub>e.

In 2011, we were awarded *NAREIT's Leader in the Light Award* for the seventh year in a row, and *NAREIT's Leader in the Light Long Term Achievement Award*. We are the only company to have achieved the Leader in the Light distinction every single year since NAREIT launched the program in 2005. We were included in the 2011 Carbon Disclosure Leadership Index published by the Carbon Disclosure Project. We scored 96 points out of 100 for transparency in environmental-impact reporting and were the only REIT to earn a place on the index.

***Mortgage Financing on Properties***

The following table sets forth certain information regarding the mortgages and other indebtedness encumbering our properties, and the properties held by our domestic and international joint venture arrangements, and also our unsecured corporate debt. Substantially all of the mortgage and property related debt is nonrecourse to us.

There is no established public trading market for Simon Property's Class B common stock. Dividends on the Class B common stock are identical to the common stock.

***Holder***

The number of holders of record of common stock outstanding was 1,847 as of December 31, 2011. The Class B common stock is subject to two voting trusts as to which Herbert Simon and David Simon are the trustees. Shares of Class B common stock convert automatically into an equal number of shares of common stock upon the occurrence of certain events and can be converted into shares of common stock at the option of the holders.

***Dividends***

We are required to pay a minimum level of dividends to maintain our status as a REIT. Our dividends typically exceed our net income generated in any given year primarily because of depreciation, which is a "non-cash" expense. Our future dividends will be determined by the Board of Directors based on actual results of operations, cash available for dividends and limited partner distributions, and what may be required to maintain our status as a REIT.

Common stock dividends during 2011 aggregated \$3.50 per share, including a special common stock dividend of \$0.20 per share paid in December. Common stock dividends during 2010 aggregated \$2.60. All 2011 and 2010 dividends were paid entirely in cash. On February 3, 2012, our Board of Directors approved a cash dividend of \$0.95 per share of common stock for the first quarter of 2012 payable on February 29, 2012 to stockholders of record on February 15, 2012.

We offer a dividend reinvestment plan that allows our stockholders to acquire additional shares by automatically reinvesting cash dividends. Shares are acquired pursuant to the plan at a price equal to the prevailing market price of such shares, without payment of any brokerage commission or service charge.

***Unregistered Sales of Equity Securities***

During the fourth quarter of 2011, we issued 19,514 shares of common stock to limited partners in exchange for an equal number of units. The issuance of the shares of common stock was made pursuant to the terms of the Partnership Agreement of the Operating Partnership and was exempt from registration provided by Section 4(2) of the Securities Act of 1933, as amended, or Section 4(2).

On December 30, 2011, we sold 6,857 shares of common stock to David Simon at a price of \$130.5725 per share, the same price used to purchase shares on that date under our dividend reinvestment plan. The shares were acquired by David Simon to satisfy the terms of his Series CEO LTIP Unit Award Agreement which awarded

**Item 9A. Controls and Procedures**

**Evaluation of Disclosure Controls and Procedures.** We maintain disclosure controls and procedures (as defined in Rules 13a-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) that are designed to provide reasonable assurance that information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosures. Because of inherent limitations, disclosure controls and procedures, no matter how well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of disclosure controls and procedures are met.

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures are effective at a reasonable assurance level.

**Management's Report on Internal Control Over Financial Reporting.** Our management's report on internal control over financial reporting is set forth in our 2011 Annual Report to Stockholders filed as Exhibit 13.1 to this Form 10-K and is incorporated herein by reference.

**Changes in Internal Control Over Financial Reporting.** There was no change in our internal control over financial reporting (as defined in Rule 13a-15(f)) that occurred during the fourth quarter of 2011 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**Simon Property Group, Inc. and Subsidiaries****Notes to Schedule III as of December 31, 2011****(Dollars in thousands)****(1) Reconciliation of Real Estate Properties:**

The changes in real estate assets for the years ended December 31, 2011, 2010, and 2009 are as follows:

	2011	2010	2009
Balance, beginning of year	\$ 27,192,223	\$ 25,023,715	\$ 24,907,970
Acquisitions and consolidations (5)	2,068,452	2,200,102	
Improvements	552,455	273,255	315,928
Disposals	(479,800)	(304,849)	(200,183)
Balance, close of year	\$ 29,333,330	\$ 27,192,223	\$ 25,023,715

The unaudited aggregate cost of real estate assets for federal income tax purposes as of December 31, 2011 was \$23,502,281.

**(2) Reconciliation of Accumulated Depreciation:**

The changes in accumulated depreciation and amortization for the years ended December 31, 2011, 2010, and 2009 are as follows:

	2011	2010	2009
Balance, beginning of year	\$ 7,485,821	\$ 6,806,670	\$ 6,015,677
Depreciation expense	906,554	874,450	893,139
Disposals	(244,205)	(195,299)	(102,146)
Balance, close of year	\$ 8,148,170	\$ 7,485,821	\$ 6,806,670

Depreciation of our investment in buildings and improvements reflected in the consolidated statements of operations and comprehensive income is calculated over the estimated original lives of the assets as follows:

Buildings and Improvements typically 10-40 years for the structure, 15 years for landscaping and parking lot, and 10 years for HVAC equipment.

Tenant Allowances and Improvements shorter of lease term or useful life.

- (3) Initial cost generally represents net book value at December 20, 1993, except for acquired properties and new developments after December 20, 1993. Initial cost also includes any new developments that are opened during the current year. Costs of disposals and impairments of property are first reflected as a reduction to cost capitalized subsequent to acquisition.
- (4) Not developed/constructed by us or our predecessors. The date of construction represents the acquisition date.
- (5) Initial cost for these properties is the cost at the date of consolidation for properties previously accounted for under the equity method of accounting.
- (6)

Amounts represent preliminary purchase price allocation and are subject to change upon finalization.

(7)

Our interests in the property were sold effective January 1, 2012.
