## **RISK FACTORS**

An investment in our securities involves a high degree of risk. Before making any investment decision, you should carefully consider the risk factors set forth in this prospectus supplement, the accompanying prospectus and the information incorporated by reference herein and therein, including under the caption "Risk Factors" in our most recent annual report on Form 10-K and our subsequent quarterly reports on Form 10-Q, which are incorporated by reference in this prospectus, as well as in any applicable prospectus supplement, as updated by our subsequent filings under the Securities Exchange Act of 1934, as amended (the "Exchange Act").

These risks could materially affect our business, results of operation or financial condition and affect the value of our securities. Additional risks and uncertainties that are not yet identified may also materially harm our business, operating results and financial condition and could result in a complete loss of your investment. You could lose all or part of your investment. For more information, see "Where You Can Find More Information."

### **Risks Related to This Offering**

***Management will have broad discretion as to the use of the proceeds from this offering, and we may not use the proceeds effectively.***

Subject to certain limited exceptions set forth in the offering documents, we have agreed to use the net proceeds from this offering solely for general corporate purposes. Our management will have significant flexibility in applying the net proceeds of this offering for general corporate purposes. You will be relying on the judgment of our management with regard to the use of these net proceeds, and subject to any agreed upon contractual restrictions under the terms of the subscription agreements, you will not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately. It is possible that the net proceeds will be invested in a way that does not yield a favorable, or any, return for us. The failure of our management to use such funds effectively could have a material adverse effect on our business, financial condition, operating results and cash flow.

***You will experience immediate dilution in the book value per share of the common stock you purchase.***

Because the price per share of our Common Stock being offered is higher than the book value per share of our Common Stock, you will suffer substantial dilution in the net tangible book value of the common stock you purchase in this offering. Based on the initial offering price of \$17.20 per Share, if you purchase the Shares offered in this offering, you will suffer immediate and substantial dilution per Share in the net tangible book value of the common stock.

***There is no public market for the warrants to purchase common stock in this offering.***

There is no established public trading market for the Warrants being sold in this offering, and we do not expect a market to develop. In addition, we do not intend to apply to list the Warrants on any securities exchange. Without an active market, the liquidity of the warrants will be limited.

***Future sales or other dilution of our equity could depress the market price of our Common Stock.***

Sales of our Common Stock, preferred stock, warrants, debt securities or any combination of the foregoing in the public market, or the perception that such sales could occur, could negatively impact the price of our Common Stock. We have a number of institutional and individual shareholders that own significant blocks of our Common Stock. If one or more of these shareholders were to sell large portions of their holdings in a relatively short time, for liquidity or other reasons, the prevailing market price of our Common Stock could be negatively affected.

In addition, the exercise by the investors of their option to purchase an additional \$30 million of Shares and the accompanying Warrants or any other issuance of additional shares of our Common Stock, securities convertible into or exercisable for our Common Stock, other equity-linked securities, including preferred stock or warrants, debt securities or any combination of the securities pursuant to this prospectus will dilute the ownership interest of our common shareholders and could depress the market price of our Common Stock and impair our ability to raise capital through the sale of additional equity securities.

S-5

---

We may need to seek additional capital. If this additional financing is obtained through the issuance of equity securities, debt convertible into equity or options or warrants to acquire equity securities, our existing shareholders could experience significant dilution upon the issuance, conversion or exercise of such securities.

***Holder of the Warrants will have no rights as common stockholders until they acquire our Common Stock.***

Until you acquire shares of our Common Stock upon exercise of any of the Warrants, you will have no rights with respect to our Common Stock. Upon exercise of any Warrants held, you will be entitled to exercise the rights of a common stockholder only as to matters for which the record date occurs after the exercise date.

### **USE OF PROCEEDS**

We estimate that the net proceeds we will receive from this offering will be \$71,000,000, after deducting estimated offering expenses of approximately \$200,000. If all the Investors fully exercise their option to subscribe for additional shares during the Option Period, we would receive additional aggregate proceeds of \$30,000,000. We will not receive any proceeds from the sale of common stock issuable upon exercise of the Warrants that we are offering unless and until such Warrants are exercised.

If all of the Warrants (warrants to purchase 949,419 Shares, including the Placement Agent warrant to purchase 206,395 Shares) issued in connection with the initial closing are fully exercised for cash, would receive additional aggregate proceeds of \$20,412,500. If all of the Warrants (warrants to purchase 401,163 Shares, including the Placement Agent warrant to purchase 87,209 Shares) to be issuance upon a full exercise of investor options during the Option Period, we would receive additional aggregate proceeds of \$8,625,500.

We intend to use the net proceeds from this offering for general corporate purposes and working capital, including for research and development, general and administrative expenses, and potential ordinary course acquisitions of technologies that complement our business. In the Securities Purchase Agreement we have entered into with the institutional investors in this offering, we have, subject to certain exceptions, specifically agreed not to use the proceeds of this offering to satisfy any existing debt (other than ordinary course trade payables), to redeem any of our outstanding securities, or to settle any litigation.

We have not specifically identified the precise amounts we will spend on each of these areas or the timing of these expenditures. The amounts actually expended for each purpose may vary significantly depending upon numerous factors, including assessments of potential market opportunities and competitive developments. In addition, expenditures may also depend on the establishment of new collaborative arrangements with other companies, the availability of other financing, and other factors. Subject to any agreed upon contractual restrictions under the terms of the purchase agreement, our management will have some discretion in the application of the net proceeds from this offering. Our stockholders may not agree with the manner in which our management chooses to allocate and spend the net proceeds. Moreover, our management may use the net proceeds for purposes that may not result in our being profitable or increase our market value.

### **DESCRIPTION OF THE SECURITIES**

In this offering, we are offering a 4,127,908 units, which consists of 4,127,908 Shares and 743,024 Warrants to purchase, in the aggregate, an additional 743,024 shares of our common stock, and an option to subscribe for, and the securities underlying, an additional \$30 million in shares, or 1,744,186 Shares of our common stock (and up to 313,954 additional warrants). The Warrants may be exercised in whole or in part, and any portion of a warrant not exercised prior to the termination date shall be and become void and of no value. ### **Limitations on Exercise**

The exercisability of the Warrants may be limited in certain circumstances if, upon exercise, the holder or any of its affiliates would beneficially own more than 4.99% of our Common Stock.

Without an active market, the liquidity of the Warrants will be limited. In addition, in the event our Common Stock price does not exceed the per share exercise price of the Warrants during the period when the Warrants are exercisable, the Warrants will not have any value.

In connection with this offering, the Placement Agent may distribute this prospectus supplement and the accompanying prospectus electronically.

The placement agent may be deemed to be an underwriter within the meaning of Section 2(a)(11) of the Securities Act of 1933, as amended, or the Securities Act, and any fees or commissions received by it and any profit realized on the resale of securities sold by it while acting as principal might be deemed to be underwriting discounts or commissions under the Securities Act. As an underwriter, the placement agent would be required to comply with the requirements of the Securities Act and the Exchange Act, including, without limitation, Rule 415(a)(4) under the Securities Act and Rule 10b-5 and Regulation M under the Exchange Act. These rules and regulations may limit the timing of purchases and sales of shares of common stock and warrants by the placement agent. Under these rules and regulations, the placement agent: (i) may not engage in any stabilization activity in connection with our securities; and (ii) may not bid for or purchase any of our securities or attempt to induce any person to purchase any of our securities, other than as permitted under the Exchange Act, until it has completed its participation in the distribution.

## **Fees**

In exchange for these placement agent services, we have agreed to pay the Placement Agent upon the closing of this offering (including any additional closings resulting from the investors exercising their right to purchase additional units pursuant to this prospectus supplement) a cash fee equal to 5% of the aggregate purchase price of the units sold under this prospectus supplement and accompanying prospectus. In addition, we agreed to pay additional compensation in the form of warrants (the Placement Agent Warrants) to purchase that number of shares which equals 5% of the aggregate number of Shares included in the units sold in this offering at an exercise price of 120% of the Purchase Price. Under the Placement Agent Agreement, the placement agent is also entitled to additional tail compensation for any financings consummated within the twelve (12) month period following August 29, 2014 to the extent that such financing is provided to us by investors that the Placement Agent had introduced to us. The Placement Agent Warrants issuable to the placement agent shall generally be on the same terms and conditions as the Warrants offered pursuant to this prospectus supplement, provided that the Placement Agent Warrants will not provide for certain anti-dilution protections included in the Warrants in accordance with FINRA Rule 5110, will not be exercisable for a period of six months and will expire seventeen months after they become exercisable. The Placement Agent Warrants and the shares of common stock underlying the Placement Agent Warrants are being registered pursuant to this prospectus supplement.

Pursuant to FINRA Rule 5110(g), with limited exceptions, neither the Placement Agent Warrants nor any shares issued upon exercise of the Placement Agent Warrants shall be sold, transferred, assigned, pledged, or hypothecated, or be the subject of any hedging, short sale, derivative, put, or call transaction that would result in the effective economic disposition of the securities by any person for a period of 180 days immediately following the date of effectiveness or commencement of sales of this offering.

We have agreed to indemnify the Placement Agent and purchasers against liabilities under the Securities Act and to contribute to payments that the Placement Agent may be required to make in respect of such liabilities.

The following table shows the per unit and total placement agent fees we will pay to the Placement Agent in connection with the sale of units offered pursuant to this prospectus supplement assuming the purchase of all of the units initially offered hereby:

S-9

---

	Total
Aggregate Offering Price of units	\$ 71,000,000
Placement agent fees*	\$ 3,550,000

\* Does not include any Placement Agent Warrants or any compensation that would be received if the investors exercise their rights to purchase additional units pursuant to this prospectus supplement.

Because there is no minimum offering amount in this offering, the actual total placement agent fees are not presently determinable and may be substantially less than the maximum amount set forth above.

We estimate the total offering expenses of this offering that will be payable by us, excluding the placement agent fees, will be approximately \$200,000, which include legal and printing costs, various other fees and reimbursement of the placement agents' expenses. At the closing, our transfer agent will credit the Shares to the respective accounts of the purchasers. We will mail the Warrants directly to the purchasers at their respective addresses set forth in the Securities Purchase Agreement.

The foregoing does not purport to be a complete statement of the terms and conditions of the Placement Agent Agreement and the Securities Purchase Agreement. Copies of the each have previously been included, or will be included, as exhibits to our current reports on Form 8-K that have been or will be filed with the SEC and incorporated by reference into the Registration Statement of which this prospectus supplement forms a part.

## **RISK FACTORS**

An investment in our securities involves a high degree of risk. Before making any investment decision, you should carefully consider the risk factors set forth below, the information under the caption Risk Factors in any applicable prospectus supplement, any related free writing prospectus that we may authorize to be provided to you and the information under the caption Risk Factors in our annual report on Form 10-K and quarterly report on Form 10-Q that are incorporated by reference in this prospectus, as updated by our subsequent filings under the Securities Exchange Act of 1934, as amended, or the Exchange Act.

These risks could materially affect our business, results of operation or financial condition and affect the value of our securities. Additional risks and uncertainties that are not yet identified may also materially harm our business, operating results and financial condition and could result in a complete loss of your investment. You could lose all or part of your investment. For more information, see Where You Can Find More Information.

**Risks Related to Our Securities and the Offering*****Future sales or other dilution of our equity could depress the market price of our common stock.***

Sales of our common stock, preferred stock, warrants, rights or convertible debt securities, or any combination of the foregoing, in the public market, or the perception that such sales could occur, could negatively impact the price of our common stock. We have a number of institutional and individual shareholders that own significant blocks of our common stock. If one or more of these shareholders were to sell large portions of their holdings in a relatively short time, for liquidity or other reasons, the prevailing market price of our common stock could be negatively affected.

In addition, the issuance of additional shares of our common stock, securities convertible into or exercisable for our common stock, other equity-linked securities, including preferred stock, warrants or rights or any combination of these securities pursuant to this prospectus will dilute the ownership interest of our common shareholders and could depress the market price of our common stock and impair our ability to raise capital through the sale of additional equity securities.

We may need to seek additional capital. If this additional financing is obtained through the issuance of equity securities, debt securities convertible into equity or options, warrants or rights to acquire equity securities, our existing shareholders could experience significant dilution upon the issuance, conversion or exercise of such securities.

***Our management will have broad discretion over the use of the proceeds we receive from the sale our securities pursuant to this prospectus and might not apply the proceeds in ways that increase the value of your investment.***

Our management will have broad discretion to use the net proceeds from any offerings under this prospectus, and you will be relying on the judgment of our management regarding the application of these proceeds. Except as described in any prospectus supplement or in any related free writing prospectus that we may authorize to be provided to you, the net proceeds received by us from our sale of the securities described in this prospectus will be added to our general funds and will be used for general corporate purposes. Our management might not apply the net proceeds from offerings of our securities in ways that increase the value of your investment and might not be able to yield a significant return, if any, on any investment of such net proceeds. You may not have the opportunity to influence our decisions on how to use such proceeds.

### Delaware Anti-Takeover Provisions

We are subject to Section 203 of the Delaware General Corporation Law, which prohibits a publicly-held Delaware corporation from engaging in a business combination, except under certain circumstances, with an interested stockholder for a period of three years following the date such person became an interested stockholder unless:

before such person became an interested stockholder, the board of directors of the corporation approved either the business combination or the transaction that resulted in the interested stockholder becoming an interested stockholder;

upon the consummation of the transaction that resulted in the interested stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding shares held by directors who also are officers of the corporation and shares held by employee stock plans; or

at or following the time such person became an interested stockholder, the business combination is approved by the board of directors of the corporation authorized at a meeting of stockholders by the affirmative vote of the holders of 66 2/3 % of the outstanding voting stock of the corporation which is not owned by the interested stockholder.<sup>3</sup>

The term interested stockholder generally is defined as a person who, together with affiliates and associates, owns, or, within the three years prior to the determination of interested stockholder status, owned, 15% or more of a corporation's outstanding voting stock. The term business combination includes mergers, asset or stock sales and other similar transactions resulting in a financial benefit to an interested stockholder. Section 203 makes it more difficult for an interested stockholder to effect various business combinations with a corporation for a three-year period. The existence of this provision would be expected to have an anti-takeover effect with respect to transactions not approved in advance by our board of directors, including discouraging attempts that might result in a premium over the market price for the shares of common stock held by stockholders. Presently, we have not opted out of this provision.

## DESCRIPTION OF PREFERRED STOCK

As of June 16, 2014, no shares of preferred stock had been issued or were outstanding.

Our board of directors has the authority to issue up to 10,000,000 shares of preferred stock in one or more series and to determine the rights and preferences of the shares of any such series without stockholder approval. Our board of directors may issue preferred stock in one or more series and has the authority to fix the designation and powers, rights and preferences and the qualifications, limitations or restrictions with respect to each class or series of such class without further vote or action by the stockholders, unless action is required by applicable law or the rules of any stock exchange on which our securities may be listed. The ability of our board of directors to issue preferred stock without stockholder approval could have the effect of delaying, deferring or preventing a change of control of us or the removal of existing management. Further, our board of director may authorize the issuance of preferred stock with voting or conversion rights that could adversely affect the voting power or other rights of the holders of our common stock. Additionally, the issuance of preferred stock may have the effect of decreasing the market price of our common stock.

We will file as an exhibit to the registration statement of which this prospectus is a part, or will incorporate by reference from reports that we file with the SEC, the form of any certificate of designation that describes the terms of the series of preferred stock we are offering before the issuance of that series of preferred stock.
