ITEM 5. Other Events

On October 16, 2002, the Company issued the following press release:

Puget Energy announces third quarter earnings; increases 2002 earnings guidance

Bellevue, Wash. (October 16, 2002)-- Puget Energy (NYSE: PSD) today reported 2002 third-quarter income for common stock of \$6.6 million, or 7 cents per share. In the same period a year ago, Puget Energy's third quarter results were \$4.7 million, or 5 cents per share.

This quarter continues to reflect our disciplined progress toward restoring the financial health of Puget Energy, said Puget Energy President and CEO Stephen P. Reynolds. While this has been a tumultuous period for the energy industry and financial markets in general, we re pleased to be able to increase Puget Energy s 2002 earnings guidance

by 5 cents a share, to a range of \$1.20 to \$1.25 per share. The company also affirmed its current earnings guidance for the full year 2003, which remains unchanged at \$1.75 to \$1.90.

The primary reason we are able to increase our earnings target for the calendar year 2002 is the continued strong performance of our utility operations, said Reynolds. The utility is exceeding our expectations, primarily due to successful settlement of regulatory issues earlier in the year, lower net power costs, continued operational efficiencies and federal income tax benefits. We expect this trend to continue in the fourth quarter, assuming normal weather. Year-to-date income for Puget Energy common stock was \$60.5 million, or 69 cents per share, compared with income of \$92.2 million, or \$1.06 per share, in the year-ago period. The reduction in year-to-date 2002 earnings compared with the same period one year ago is primarily attributable to the first quarter under-recovery of Puget Sound Energy s (PSE) net power costs prior to PSE s rate case settlement in the second quarter. Year-to-date income for the nine months ended September 30, 2001 included a one-time net benefit of 5 cents per share resulting from the asset sale of a former PSE subsidiary, net of an operating loss at that subsidiary through the date of the sale. Also included in that period is a benefit of \$0.20 per share from the sale of two properties by a PSE real estate subsidiary.

PSE contributed 3 cents per common share in the third quarter of 2002. Puget Energy s unregulated utility infrastructure services subsidiary, InfrastruX Group, continued to deliver on its plan, contributing 4 cents per common share in the third quarter of 2002. We are pleased that the quality of InfrastruX s operating companies and its geographic and business line diversity has enabled it to withstand the cyclical downturn in market conditions and other factors that have more severely affected many of its peers. added Reynolds.

Puget Energy will provide more detail on third-quarter results during a conference call for analysts scheduled at 10 a.m. ET (7 a.m. PT) tomorrow, Thursday, October 17, 2002. The call will be broadcast live through a Web cast at www.pse.com by accessing the Investors section of the Web site. The Web cast will be archived and available for replay following the live call. A tape-recorded replay of the call will be available two hours after completion of the conference on October 17 through midnight (ET) Tuesday, October 22, 2002 by dialing 1-800-428-6051 and entering the conference identification number at 263530.

Cautionary Statement: Certain statements contained in this news release are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, among which include statements regarding estimates of earnings per share. In some cases, you can identify forward-looking statements by terminology such as anticipates, believes, estimates, expects, intends, plans, projects, will likely result, will continue or similar expressions. Forward-looking statements are based on the opinions and estimates of management at the time the statements are made and are subject to risks and uncertainties that could cause actual results to differ materially from those anticipated in the forward-looking statements. Factors that could affect actual results include, among others, governmental policies and regulatory actions, including those of the FERC and the WUTC, with respect to financings, industry and rate structures, acquisition and disposal of assets and facilities, operation and construction of plant facilities, recovery of purchased energy and other capital investments, and present or prospective wholesale and retail competition; weather, which can have a serious impact on retail energy sales and on PSE s ability to procure adequate supplies of gas, fuel or purchased power to serve its customers and on the cost of procuring such supplies; hydroelectric conditions, which can have a serious impact on electric capacity and PSE s ability to generate electricity; wholesale energy prices; industrial, commercial and residential growth and demographic patterns in the service territories of PSE; and the ability of Puget Energy and PSE to access the capital markets to support requirements for working capital, construction costs and the repayment of maturing debt. More information about these and other factors that potentially could affect Puget Energy s financial results is included in the Company s Annual Report on Form 10-K for the fiscal year ended December 31, 2001, Quarterly Report on Form 10-Q for the second quarter of 2002 and in their other public filings with the Securities and Exchange Commission. Readers are cautioned not to place undue reliance upon these forward-looking statements that speak only as to the date of this release. Except as required by law, Puget Energy and PSE undertake no obligation to update any forward-looking statements.
