#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

#### 1. BASIS OF PRESENTATION

The unaudited financial statements presented herein have been prepared in accordance with the instructions to Form 10-Q and do not include all of the information and note disclosures required by generally accepted accounting principles. These statements should be read in conjunction with the consolidated financial statements, and notes thereto, included in the Form 10-K for the

## Edgar Filing: CAPITAL PACIFIC HOLDINGS INC - Form 10-Q

fiscal year ended February 28, 2001, of Capital Pacific Holdings, Inc. (the "Company"). In the opinion of management, the financial statements presented herein include all adjustments (which are solely of a normal recurring nature) necessary to present fairly the Company's financial position and results of operations. The results of operations for the three month period ended May 31, 2001, are not necessarily indicative of the results that may be expected for the year ending February 28, 2002. The consolidated financial statements include the accounts of the Company, wholly owned subsidiaries and certain majority owned joint ventures, as well as the accounts of Capital Pacific Holdings, LLC ("CPH LLC"). All other investments are accounted for on the equity method. All significant intercompany balances and transactions have been eliminated in consolidation.

### 2. RECLASSIFICATIONS

Certain items in prior period financial statements have been reclassified in order to conform with current year presentation.

### 3. COMPANY ORGANIZATION AND OPERATIONS

The Company is a regional builder and developer with operations throughout selected metropolitan areas of Southern California, Nevada, Texas, Arizona and Colorado. The Company's principal business activities are to build and sell single-family homes and to develop and build commercial and mixed-use projects. The Company's single-family homes are targeted to entry-level, move-up and luxury buyers.

In fiscal year 1998, the Company consummated an equity and restructuring transaction whereby the Company and certain of its subsidiaries transferred to Capital Pacific Holdings, LLC ("CPH LLC") substantially all of their respective assets and CPH LLC assumed all the liabilities of the Company and its subsidiaries. An unaffiliated investment company, California Housing Finance, L.P. ("CHF") then acquired a 32.07% minority interest in CPH LLC as a result of a cash investment in CPH LLC. From fiscal 1998 through fiscal 2001, the Company expanded its operating strategy to encompass the acquisition and development of commercial and mixed-use projects, as well as ownership of existing commercial properties, primarily through non-majority investments in limited liability companies, with approximately 99% of the capital for these projects being provided by CHF.

Effective February 23, 2001, the Company and CHF consummated an interest exchange transaction (the "Exchange Transaction"), whereby the Company exchanged its interests in the majority of the joint ventures capitalized by CHF, including certain entities which were previously consolidated, (the "Divested Joint Ventures") for approximately 78% of CHF's interest in CPH LLC and all of CHF's interests in certain residential joint ventures. At February 28, 2001, and during the three month period ended May 31, 2001, the Company had a 93% interest in CPH LLC and CHF held a 7% minority interest. The Company and CHF both had an option to convert CHF's remaining 7% interest in CPH LLC into 1,235,000 shares of non-voting Common Stock of the Company for the period extending from 90 to 180 days following the closing of the Exchange Transaction. This option was exercised by the Company on May 31, 2001, thus, as of this date, the Company owned 100% of CPH LLC. In addition, Capital Pacific Homes, Inc., a subsidiary of the Company, has entered or expects to enter into construction, management and marketing agreements relating to certain of the Divested Joint Ventures with residential components, (the "Managed Projects"), whereby the Company is compensated for performing such services through a management fee arrangement.

# Edgar Filing: CAPITAL PACIFIC HOLDINGS INC - Form 10-Q

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) (UNAUDITED)

The Exchange Transaction has been accounted for as the simultaneous acquisition of CHF's minority interest in CPH LLC and certain other residential joint ventures and the disposition of the Company's interest in the Divested Joint Ventures. As a result, no gain has been recognized, the remaining balance of the Company's property and equipment was adjusted to zero at February 28, 2001, and again at May 31, 2001, and the balance of the transaction was recorded as negative goodwill. Negative goodwill is being accreted over five years, which accretion is included in selling, general and administrative expenses.

Assets under management, including assets owned by unconsolidated joint ventures and Managed Projects, totaled \$465 million at May 31, 2001 in 52 residential properties. At May 31, 2001, CPH LLC had \$240 million in assets and a net worth of \$109 million. The Company maintains certain licenses and other assets as is necessary to fulfill its obligations as managing member and under management agreements. The Company and its subsidiaries perform their respective management functions for CPH LLC and the Managed Projects, pursuant to management agreements, which include provisions for the reimbursement of Company and subsidiary costs and a management fee. CPH LLC, the Managed Projects and certain other project-specific entities indemnify the Company against liabilities arising from the projects owned by such entities.

References to the Company are, unless the context indicates otherwise, also references to CPH LLC and the project-specific entities in which the Company has an equity ownership interest. At the current time, all material financing transactions and arrangements are incurred either by CPH LLC or by the project-specific entities.

#### 4. INVESTMENTS IN AND ADVANCES TO UNCONSOLIDATED ENTITIES

The Company is a general partner or a direct or indirect managing member and has a 50 percent or less ownership in 6 unconsolidated entities at May 31, 2001. The Company's net investment in and advances to unconsolidated entities are as follows at May 31, 2001 and February 28, 2001 (in thousands):

	MAY 31, 2001 -----	FEBRUARY 28, 2001 -----
Unconsolidated Joint Ventures:		
JMP Canyon Estates, L.P.....	\$ 161	\$ 162

	-----	-----
Divested Joint Ventures.....	45	1,486
	-----	-----
	\$3,824	\$5,273
	=====	=====

The Company's ownership interest in the unconsolidated joint ventures varies. Generally, the Company receives a portion of any earnings, although a preferred return on invested capital is provided. Typically, the majority of

## Edgar Filing: CAPITAL PACIFIC HOLDINGS INC - Form 10-Q

capital is provided by capital partners. The Company is typically a general partner or managing member in each of the above entities and is the managing entity pursuant to terms in each venture's agreement. In the case of Divested Joint Ventures which are also Managed Projects, the Company or its subsidiaries manage the development of the project under a management contract. The Company's carrying amount in each of the unconsolidated joint ventures (and the Divested Joint Ventures prior to the Exchange Transaction) equals the underlying equity in the joint venture, and there are generally no significant amounts of undistributed earnings. The Company provides for income taxes currently on its share of distributed and undistributed earnings and losses from the investments.

#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED) (UNAUDITED)

The Company uses the equity method of accounting for its investments in the unconsolidated 50 percent or less owned entities. The accounting policies of the entities are substantially the same as those of the Company.

Following is summarized, combined financial information for the unconsolidated entities at May 31, 2001 and February 28, 2001 and for the three month periods ended May 31, 2001 and May 31, 2000 (in thousands). The balance sheet information at both dates and the income statement information for the period ended May 31, 2001 does not include the Divested Joint Ventures, but the income statement information for the period ended May 31, 2000 does reflect the results of the Divested Joint Ventures because the Company held an ownership interest in those entities during that period:

stockholders by the weighted average number of common shares outstanding. Diluted net income per share includes the effect of the potential shares outstanding, including dilutive securities using the treasury stock method. The table below reconciles the components of the basic net income per share calculation to diluted net income per share (in thousands, except per share data):

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

### FORWARD-LOOKING INFORMATION IS SUBJECT TO RISK AND UNCERTAINTY

Certain statements in the financial discussion and analysis by management contain "forward-looking" information (as defined in the Private Securities Litigation Reform Act of 1995 and within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, as amended) that involves risk and uncertainty, including projections and assumptions regarding the business environment in which the Company operates. Actual future results and trends may differ materially depending on a variety of factors, including the Company's successful execution of internal performance strategies; changes in general national and regional economic conditions, such as levels of employment, consumer confidence and income, availability to homebuilders of financing for acquisitions, development and construction, availability to homebuyers of permanent mortgages, interest rate levels, the demand for housing and office space and commercial lease rates; supply levels of land, labor and materials; difficulties in obtaining permits or approvals from governmental authorities; difficulties in marketing homes; regulatory changes and weather and other environmental uncertainties; competitive influences; and the outcome of pending and future legal claims and proceedings.

### RESULTS OF OPERATIONS -- GENERAL

As is noted in footnote 1 to the financial statements presented herein, the Company is reporting its results on a consolidated basis with the results of CPH LLC. References to the Company in this Item 2 are, unless the context indicates otherwise, also references to CPH LLC. At the current time, all material financing transactions and arrangements are incurred either by CPH LLC or by project-specific entities.

The following table illustrates the actual and pro forma results of the Company's operations for the three months ended May 31, 2001 and 2000. The pro forma results reflect the inclusion of the operating results of the Company's unconsolidated joint ventures, including the portion attributable to the Company's joint venture partners, and are used throughout this discussion for comparative purposes wherever the phrase "pro forma" is utilized.

FIRST THREE MONTHS OF FISCAL 2002 (ENDED MAY 31, 2001) COMPARED TO FIRST THREE MONTHS OF FISCAL 2001 (ENDED MAY 31, 2000)

The Company reported net income of \$1.4 million or \$0.10 per share, in the first quarter of fiscal 2002, as compared to net income of \$2.3 million or \$0.17 per share, in the first quarter of fiscal 2001. Income for the quarter ended May 31, 2000 included an extraordinary gain of \$945,000, or \$0.07 per share, as a result of the retirement of debt at less than face value. Excluding the extraordinary gain, operating net income increased from \$1.3 million in the first quarter of fiscal 2001 to \$1.4 million in the corresponding quarter of fiscal 2002.

On a consolidated basis, sales of homes and land increased to \$77.5 million from \$65.0 million for the respective quarters. This increase is due to an

## Edgar Filing: CAPITAL PACIFIC HOLDINGS INC - Form 10-Q

increase in Company's average sales price per home to \$306,000 in the first quarter of fiscal 2002 (which, in turn, is due primarily to a higher number of home closings in the California market) from \$256,000 in the first quarter of fiscal 2001, offset by a decrease in total home closings. Sales of homes and land including unconsolidated joint ventures were \$78.6 million for the first quarter of fiscal 2002 compared to \$85.1 million for the first quarter of fiscal 2001. Total home closings decreased from 326 in the first quarter of fiscal 2001 to 253 in the first quarter of fiscal 2002, including 18 and 4 homes, respectively, closed in unconsolidated joint ventures. The decrease in the Company's backlog is primarily due to the exclusion of backlog in the Divested Joint Ventures at May 31, 2001, as well as the reduction in backlog units in Nevada in connection with the buildout of that market and a decrease in demand in certain of the Company's other markets. In addition, the number of actively selling projects has decreased from 37 at May 31, 2001 to 24 at May 31, 2002, which affected both backlog and net new orders.

The Company's actual gross margin on home and lot closings increased to 25.3% for the first quarter of fiscal 2002 as compared to 22.3% for the first quarter of fiscal 2001. The Company's pro forma gross margin on home and lot closings also increased to 25.2% during the first quarter of fiscal 2002 as compared to 19.3% for the first quarter of fiscal 2001. These substantial increases are due in part to stronger demand experienced in the Company's markets for homes which closed in the current year.

As a percentage of revenue, selling, general and administrative expense increased from 11.9% for the first quarter of fiscal 2001 to 12.9% for the first quarter of fiscal 2002. Selling, general and administrative expense of \$10.0 million for the first quarter of fiscal 2002 increased \$2.2 million or 28.7% as compared to the first quarter of fiscal 2001, primarily due to a higher level of sales activity and certain additional compensation expense recorded in connection with the Exchange Transaction.

Income from unconsolidated joint ventures decreased from \$11,000 in the first quarter of fiscal 2001 to \$4,000 in the first quarter of fiscal 2002, due to a minimal level of profit participation in the active joint ventures in both periods.

Interest and other income increased from \$445,000 in the first quarter of fiscal 2001 to \$619,000 in the first quarter of fiscal 2002.

Minority interest of \$159,000 for the first quarter of fiscal 2002 and \$724,000 for the first quarter of fiscal 2001 primarily represents the share of CPH LLC's income attributable to CHF. The decrease between years is due to the lower percentage ownership in CPH LLC held by CHF during fiscal 2002 as compared to fiscal 2001.

Interest incurred was \$5.1 million in the first quarter of fiscal 2002, as compared to \$6.2 million in the first quarter of fiscal 2001, while interest expensed was \$7.7 million during the first quarter of fiscal 2002, as compared to \$4.8 million in the first quarter of fiscal 2001.

The Company recorded a provision for income taxes of \$1.0 million in the first quarter of fiscal 2002, utilizing an effective tax rate of 41.5 percent, as compared to \$336,000 in the first quarter of fiscal 2001, with an effective tax rate of 20 percent. The increase in the effective tax rate was due primarily to the utilization of the remaining net operating loss carryforwards during fiscal 2001.

### LIQUIDITY AND CAPITAL RESOURCES

At the current time, all material financing transactions and arrangements are incurred either by CPH LLC or by certain project specific entities. As of

## Edgar Filing: CAPITAL PACIFIC HOLDINGS INC - Form 10-Q

May 31, 2001, the Company has in place several credit facilities totaling \$255 million (the "Facilities") with various bank lenders (the "Banks"), of which \$98 million was outstanding. The Facilities are secured by liens on various completed or under construction homes and lots held by CPH LLC, CPH Newport Coast, LLC and CPH Yucaipa I, LLC, which are consolidated subsidiaries. Pursuant to the Facilities, the Company is subject to certain covenants, which require, among other things, the maintenance of a consolidated liabilities to net worth ratio, minimum liquidity, minimum net worth and loss limitations, all as defined in the documents that evidence the Facilities. At May 31, 2001, the Company was in compliance with these covenants. The Facilities also define certain

events that constitute events of default. As of May 31, 2001, no such event had occurred. Commitment fees are payable annually on some of the Facilities.

Homebuilding activity is being financed out of CPH LLC cash, bank financing, and the existing joint ventures, including joint ventures with institutional investors. In addition, development work undertaken in certain of the Company's joint ventures is financed through various non-recourse lending arrangements. The Company anticipates that it will continue to utilize both third party financing and joint ventures to cover financing needs in excess of internally generated cash flow.

In May, 1994 the Company completed the sale of \$100 million of 12 3/4% Senior Notes ("Senior Notes") including 790,000 warrants to purchase common stock. The proceeds from the offering were used to repay certain debt of the Company, acquire certain properties and for general working capital and construction purposes. The obligations associated with the Senior Notes have been transferred from the Company to CPH LLC. The Senior Notes mature in May, 2002 and are callable at the option of CPH LLC at par. As of May 31, 2001, Senior Notes with a face value of \$44.4 million have been repurchased by the Company.

The indenture to which the Senior Notes are subject (the "Indenture") contains restrictions on CPH LLC on the incurring of indebtedness, which affect the availability of the Facilities based on various measures of the financial performance of CPH LLC. Subject to such restrictions, the Facilities are available to augment cash flow from operations and joint venture financing to fund CPH LLC's operations.

Management expects that cash flow generated from operations and from additional financing permitted by the terms of the Indenture will be sufficient to cover the debt service and to fund CPH LLC's current development and homebuilding activities for the reasonably foreseeable future, and expects that capital commitments from its joint venture partners and other bank facilities will provide sufficient financing for the operation of its joint ventures.

### MARKET RISK EXPOSURE

The "Market Risk Exposure" paragraphs are presented to provide an update about material changes to the "Quantitative and Qualitative Disclosures about Market Risk" paragraphs included in the Company's 2001 Annual Report on Form 10-K filed with the Securities and Exchange Commission and should be read in conjunction with those paragraphs.

The Company is exposed to market risks related to fluctuations in interest rates on its debt. The Company does not use interest rate swaps, forward or option contracts on foreign currencies or commodities, or other types of derivative financial instruments.

## Edgar Filing: CAPITAL PACIFIC HOLDINGS INC - Form 10-Q

The Company uses debt financing primarily for the purpose of acquiring and developing land and constructing and selling homes. Historically, the Company has made short-term borrowings under its revolving credit facilities to fund those expenditures. In addition, the Company has previously issued \$100 million in fixed-rate Senior Notes to provide longer-term financing. At May 31, 2001, \$55.6 million of the Senior Notes remain outstanding.

For fixed rate debt, changes in interest rates generally affect the fair market value, but not the Company's earnings or cash flows. Conversely, for variable rate debt, changes in interest rates generally do not impact fair market value, but do affect the Company's future earnings and cash flows. The Company does not have an obligation to prepay fixed rate debt prior to maturity, and as a result, interest rate risk and changes in fair market value should not have a significant impact on such debt until the Company would be required to refinance such debt. Based upon the amount of variable rate debt outstanding at the end of the first quarter, and holding the variable rate debt balance constant, each one percentage point increase in interest rates occurring on the first day of an annual period would result in an increase in interest incurred for the coming year of approximately \$950,000.

The Company does not believe that future market interest rate risks related to its debt obligations will have a material impact on the Company's financial position, results of operations or liquidity.
