**Item 2.02. RESULTS OF OPERATIONS AND FINANCIAL CONDITION.**

On February 22, 2006, IHOP Corp. issued a press release announcing its fourth quarter and fiscal 2005 financial results. A copy of the press release is attached as Exhibit 99.1, and incorporated herein by reference.

Also on February 22, 2006, IHOP Corp. held a conference call to discuss its fourth quarter and fiscal 2005 financial results. A copy of the prepared remarks of management is attached as Exhibit 99.2, and incorporated herein by reference.

The prepared remarks of management accompanying management's discussion during the conference call include references to the non-GAAP financial measures free cash flow and free cash flow per share. The Company defines free cash flow for a given period as cash provided by operating activities for such period, less capital expenditures for such period. The Company defines free cash flow per share for a given period as free cash flow divided by diluted weighted average shares outstanding. Management utilizes free cash flow and free cash flow per share as measures of operating efficiency to determine the amount of cash remaining for general corporate and strategic purposes after funding operating activities and capital expenditures. Management believes this information is helpful to investors to determine the Company's cash available for these purposes. Free cash flow and free cash flow per share for any given period may be affected by a variety of factors, including but not limited to, changes in assets and liabilities and the timing of purchases and payments. Free cash flow and free cash flow per share are supplemental non-GAAP financial measures and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with generally accepted accounting principles.

The following table reconciles the Company's free cash flow and free cash flow per share to the Company's cash provided by operating activities for each of the years ended December 31, 2005 and 2004:

	Year Ended December 31, 2005		Year Ended December 31, 2004	
	(dollars in thousands)		(dollars in thousands)	
Cash flows from operating activities:	\$	55,353	\$	66,981
Capital expenditures		(7,365)		(16,631)
Free cash flow	\$	47,988	\$	50,350
Diluted weighted average shares outstanding		19,603		20,791
Free cash flow per diluted share	\$	2.45	\$	2.42
