Item 8.01: Other Events

The Monthly Servicer's Certificate for the Monthly Period ended July 29, 2006, the Monthly Collateral Certificateholders' Statement for the Monthly Period ended July 29, 2006 and the Monthly Administrator's Statement for the Monthly Period ended July 29, 2006, with respect to the Floating Rate Class A Asset Backed Notes, Series 2005-1, and the Subordinated Interests, Series 2005-1, issued by the Target Credit Card Owner Trust (the "Trust"), were delivered to the Trustee on August 22, 2006.

The above described Monthly Servicer's Certificate is filed as Exhibit 20.1 to this Report. The above described Monthly Collateral Certificateholders' Statement is filed as Exhibit 20.2 to this Report. The above described Monthly Administrator's Statement is filed as Exhibit 20.3 to this Report.

The total number of accounts in the Trust is included in our monthly 8-K for the purpose of calculating the percentage of non-US accounts in the Trust. The total number of accounts, as reported in our previously filed Monthly Certificateholders' Statement, was understated by approximately 2 million for November 2005 and June 2006 and approximately 5 million for December 2005 through May 2006. The percentage of non-US accounts previously reported for each of these months was not materially misstated as a result of the error in the number of accounts.

The understatement in total number of accounts reported was caused by an administrative error in adjusting for inactive accounts which had been purged from our proprietary card database. Historically, we have maintained two database systems, one for our proprietary card and the other for Target Visa. In preparation for the shift to a single card portfolio management system, in November 2005 we began to remove certain inactive accounts from the proprietary database to minimize the number of inactive accounts that would be moved to the new system. Both our proprietary card and the Target Visa were moved to a single card portfolio management system in August 2006.

This administrative reporting error had no impact on previously reported revenues, expenses, receivables or any other financial metric or operational function.
