COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION*

Executive Compensation Philosophy

The Compensation Committee of the Board of Directors is responsible for setting and administering the policies and programs that govern compensation for the executive officers of the Company. The committee also administers the Company's 1995 Stock Option Plan (renamed, and alternately referred to as, the Amended and Restated Stock Option Plan) and 2004 Stock Option Plan (collectively, the Option Plans). The goal of the Company's executive compensation policy is to ensure that an appropriate relationship exists between compensation and corporate performance, while at the same time attracting, motivating and retaining executive officers and other key employees.

The key components of the Company's compensation program are base salary, bonuses and potential long-term compensation through stock options. These components are administered with the goal of providing total compensation that is competitive in the marketplace, rewards successful financial performance and aligns executive officers' interests with those of shareholders. The Compensation Committee reviews executive compensation on an annual basis, or more often if necessary, and determines, subject to the Board's approval, base salary for executive officers, as well as option grants.

Equity Participation

The Company uses stock options granted under its Option Plans both to reward past performance and to motivate future performance, especially long-term performance. The Compensation Committee believes that through the use of stock options, executive interests are directly tied to enhancing shareholder value. The stock options provide value to the recipients only when the market price of the Company's Common Stock increases above the option grant price and only as the shares vest and become exercisable. The Compensation Committee considers these grants in making its cash compensation decisions.

Compensation of Chief Executive Officer

The Chief Executive Officer's compensation is set using the Compensation Committee's general philosophy as described above. In Fiscal 2006, Wayne A. Case received a base salary of \$193,546, a performance bonus of \$37,500, \$57,600 related to consulting fees from PulverDryer and received no stock option grants.

Deductibility of Executive Compensation

The Compensation Committee has considered the impact of Section 162(m) of the Internal Revenue Code adopted under the Omnibus Budget Reconciliation Act of 1993, which section disallows a deduction for any publicly held corporation for individual compensation exceeding \$1 million in any taxable year for the CEO and the four other most highly compensated executive officers, unless such compensation meets certain exceptions to the general rule. Compensation paid by the Company to each of its executive officers during the relevant period was below \$1 million, and therefore Section 162(m) did not affect the tax deductions available to the Company. The Committee will continue to monitor the applicability of the section to the Company's compensation programs and will determine at a later date what actions, if any, the Company should take to qualify for available tax deductions.
