<sup>(</sup>a) Income from this issue is considered a preference item for purposes of calculating the alternative minimum tax ( AMT ).

<sup>(</sup>b) Bonds are escrowed to maturity by government securities and/or U.S. government agency securities and are considered by the manager to be triple-A rated even if issuer has not applied for new ratings.

<sup>(</sup>c) Pre-Refunded bonds are escrowed with U.S. government obligations and/or U.S. government agency securities and are considered by the manager to be triple-A rated even if issuer has not applied for new ratings.

- (d) Variable rate security. Interest rate disclosed is as of the most recent information available.
- (e) Maturity date shown represents the mandatory tender date.
- (f) Residual interest bonds coupon varies inversely with level of short-term tax-exempt interest rates.
- (g) Variable rate demand obligations have a demand feature under which the Fund can tender them back to the issuer or liquidity provider on no more than 7 days notice.
- (h) Maturity date shown is the final maturity date. The security may be sold back to the issuer before final maturity.
- # Aggregate cost for federal income tax purposes is substantially the same.

See pages 8 through 10 for definitions of ratings.

<sup>\*\*</sup> The ratings shown are based on each portfolio security s rating as determined by Standard & Poor s, Moody s or Fitch, each a Nationally Recognized Statistical Rating Organization (NRSRO). These ratings are the opinions of the NRSRO and are not measures of quality or guarantees of performance. Securities may be rated by other NRSROs, and these ratings may be higher or lower. In the event that a security is rated by multiple NRSROs and receives different ratings, the Fund will treat the security as being rated in the highest rating category received from a NRSRO.

#### **Bond ratings**

The definitions of the applicable rating symbols are set forth below:

#### Long-term security ratings (unaudited)

Standard & Poor s Ratings Service (Standard & Poor s) Long-term Issue Credit Ratings Ratings from AA to CCC may be modified by the addition of a plus (+) or minus () sign to show relative standings within the major rating categories.

AAA	An obligation rated	AAA	has the highest rating assigned by Standard & Poor	s. The obligor s capacity to meet its financial

commitment on the obligation is extremely strong.

AA An obligation rated AA differs from the highest-rated obligations only to a small degree. The obligor s capacity to meet

its financial commitment on the obligation is very strong.

A An obligation rated A is somewhat more susceptible to the adverse effects of changes in circumstances and economic

conditions than obligations in higher-rated categories. However, the obligor s capacity to meet its financial commitment

on the obligation is still strong.

BBB An obligation rated BBB exhibits adequate protection parameters. However, adverse economic conditions or changing

circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the

obligation.

BB An obligation rated BB is less vulnerable to nonpayment than other speculative issues. However, it faces major ongoing

uncertainties or exposure to adverse business, financial, or economic conditions, which could lead to the obligor s

inadequate capacity to meet its financial commitment on the obligation.

 $B \hspace{1cm} \text{An obligation rated} \hspace{0.2cm} B \hspace{0.2cm} \text{is more vulnerable to nonpayment than obligations rated} \hspace{0.2cm} BB \hspace{0.2cm} \text{, but the obligor currently has the} \\$ 

capacity to meet its financial commitment on the obligation. Adverse business, financial, or economic conditions will

likely impair the obligor s capacity or willingness to meet its financial commitment on the obligation.

CCC An obligation rated CCC is currently vulnerable to nonpayment, and is dependent upon favorable business, financial, and

economic conditions for the obligor to meet its financial commitment on the obligation. In the event of adverse business, financial, or economic conditions, the obligor is not likely to have the capacity to meet its financial commitment on the

obligation.

CC An obligation rated CC is currently highly vulnerable to nonpayment.

The C rating may be used to cover a situation where a bankruptcy petition has been filed or similar action has been taken,

but payments on this obligation are being continued.

D An obligation rated D is in payment default. The D rating category is used when payments on an obligation are not made

on the date due, even if the applicable grace period has not expired, unless Standard & Poor s believes that such payments will be made during such grace period. The D rating also will be used upon the filing of a bankruptcy petition or the

taking of a similar action if payments of an obligation are jeopardized.

Moody s Investors Service (Moody s) Long-term Obligation Ratings Numerical modifiers 1, 2 and 3 may be applied to each generic rating from Aa to Caa, where 1 is the highest and 3 the lowest ranking within its generic category.

Aaa Obligations rated Aaa are judged to be of the highest quality, with minimal credit risk.

Aa Obligations rated Aa are judged to be of high quality and are subject to very low credit risk.

A Obligations rated A are considered upper-medium grade and are subject to low credit risk.

Baa	Obligations rated Baa are subject to moderate credit risk. They are considered medium grade and as such may possess						
	certain speculative characteristics.						
Ba	Obligations rated Ba are judged to have speculative elements and are subject to substantial credit risk.						
В	Obligations rated B are considered speculative and are subject to high credit risk.						

#### Long-term security ratings (unaudited) (cont d)

Caa Obligations rated Caa are judged to be of poor standing and are subject to very high credit risk.

Ca Obligations rated Ca are highly speculative and are likely in, or very near, default, with some prospect of recovery for

principal and interest.

C Obligations rated C are the lowest rated class and are typically in default, with little prospect of recovery for principal and

interest.

Fitch Ratings Service (Fitch) Structured, Project & Public Finance Obligations Ratings from AA to CCC may be modified by the addition of a plus (+) or minus () sign to show relative standings within the major rating categories.

AAA Obligations rated AAA by Fitch denote the lowest expectation of default risk. They are assigned only in cases of

exceptionally strong capacity for payment of financial commitments. This capacity is highly unlikely to be adversely

affected by foreseeable events.

AA Obligations rated AA denote expectations of very low default risk. They indicate very strong capacity for payment of

financial commitments. This capacity is not significantly vulnerable to foreseeable events.

A Obligations rated A denote expectations of low default risk. The capacity for payment of financial commitments is

considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than

is the case for higher ratings.

BBB Obligations rated BBB indicate that expectations of default risk are currently low. The capacity for payment of financial

commitments is considered adequate but adverse business or economic conditions are more likely to impair this capacity.

Obligations rated BB indicate an elevated vulnerability to default risk, particularly in the event of adverse changes in

business or economic conditions over time; however, business or financial flexibility exists which supports the servicing

of financial commitments.

B Obligations rated B indicate that material default risk is present, but a limited margin of safety remains. Financial

commitments are currently being met; however, capacity for continued payment is vulnerable to deterioration in the

business and economic environment.

CCC Default is a real possibility.

BB

CC Default of some kind appears probable.

C Default is imminent or inevitable, or the issuer is in standstill.

NR Indicates that the obligation is not rated by Standard & Poor s, Moody s or Fitch.

#### Short-term security ratings (unaudited)

Standard & Poor s Municipal Short-Term Notes Ratings

SP-1 A short-term obligation rated SP-1 is rated in the highest category by Standard & Poor s. Strong capacity to pay principal and interest. An issue determined to possess a very strong capacity to pay debt service is given a plus (+) designation.

SP-2 A short-term obligation rated SP-2 is a Standard & Poor's rating indicating satisfactory capacity to pay principal and

interest, with some vulnerability to adverse financial and economic changes over the term of the notes.

SP-3 A short-term obligation rated SP-3 is a Standard & Poor s rating indicating speculative capacity to pay principal and

interest.

A-1 A short-term obligation rated A-1 is rated in the highest category by Standard & Poor s. The obligor s capacity to meet its financial commitment on the obligation is strong. Within this category, certain obligations are designated with a plus sign (+). This indicates that the obligor s capacity to meet its financial commitment on these obligations is extremely strong.

9

#### Short-term security ratings (unaudited) (cont d)

A-2	A short-term obligation rated A-2 by Standard & Poor s is somewhat more susceptible to the adverse effects of changes in	
	circumstances and economic conditions than obligations in higher rating categories. However, the obligor s capacity to	

meet its financial commitment on the obligation is satisfactory.

A-3 A short-term obligation rated A-3 by Standard & Poor s exhibits adequate protection parameters. However, adverse

economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its

financial commitment on the obligation.

B A short-term obligation rated B by Standard & Poor s is regarded as having significant speculative characteristics. Ratings of B-1, B-2 and B-3 may be assigned to indicate finer distinctions within the B category. The obligor currently has the

capacity to meet its financial commitment on the obligation; however, it faces major ongoing uncertainties which could

lead to the obligor s inadequate capacity to meet its financial commitment on the obligation.

Moody s Variable Rate Demand Obligations (VRDO) Ratings

VMIG 1 Moody s highest rating for issues having a variable rate demand feature VRDO. This designation denotes superior credit

quality. Excellent protection is afforded by the superior short-term credit strength of the liquidity provider and structural

and legal protections that ensure the timely payment of purchase price on demand.

VMIG 2 This designation denotes strong credit quality. Good protection is afforded by the strong short-term credit strength of the

liquidity provider and structural and legal protections that ensure the timely payment of purchase price on demand.

VMIG 3 This designation denotes acceptable credit quality. Adequate protection is afforded by the strong short-term credit

strength of the liquidity provider and structural and legal protections that ensure the timely payment of purchase price on

demand.

Moody s Short-Term Municipal Obligations Ratings

MIG 1 Moody s highest rating for short-term municipal obligations. This designation denotes superior credit quality. Excellent

protection is afforded by established cash flows, highly reliable liquidity support, or demonstrated broad-based access to

the market for refinancing.

MIG 2 This designation denotes strong credit quality. Margins of protection are ample, although not as large as the preceding

group.

MIG 3 This designation denotes acceptable credit quality. Liquidity and cash flow protection may be narrow, and market access

for refinancing is likely to be less well-established.

SG This designation denotes speculative-grade credit quality. Debt instruments in this category may lack sufficient margins

of protection.

Moody s Short-Term Obligations Ratings

ve a superior

ability to repay short-term debt obligations.

P-2 Have a strong ability to repay short-term debt obligations.

P-3 Have an acceptable ability to repay short-term debt obligations.

NP Issuers do not fall within any of the Prime rating categories.

Fitch s Short-Term Issuer or Obligations Ratings

Fl	Fitch s highest rating indicating the strongest intrinsic capacity for timely payment of financial commitments; may have
	an added + to denote any exceptionally strong credit feature.
F2	Fitch rating indicating good intrinsic capacity for timely payment of financial commitments.
F3	Fitch rating indicating intrinsic capacity for timely payment of financial commitments is adequate.
NR	Indicates that the obligation is not rated by Standard & Poor s, Moody s or Fitch.

------------------------------------	------------	---

#### 1. Organization and significant accounting policies

Western Asset Intermediate Muni Fund Inc. (the Fund ) was incorporated in Maryland on December 19, 1991 and is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the 1940 Act ). The Board of Directors authorized 100 million shares of \$0.001 par value common stock. The Fund s investment objective is to provide common shareholders a high level of current income exempt from regular federal income taxes consistent with prudent investing.

The following are significant accounting policies consistently followed by the Fund and are in conformity with U.S. generally accepted accounting principles ( GAAP ).

(a) Investment Valuation. The valuations for fixed income securities and certain derivative instruments are typically the prices supplied by independent third party pricing services, which may use market prices or broker/dealer quotations or a variety of fair valuation techniques and methodologies. Short-term fixed income securities that will mature in 60 days or less are valued at amortized cost, unless it is determined that using this method would not reflect an investment s fair value. Equity securities for which market quotations are available are valued at the last reported sales price or official closing price on the primary market or exchange on which they trade. If independent third party pricing services are unable to supply prices for a portfolio investment, or if the prices supplied are deemed by the manager to be unreliable, the market price may be determined by the manager using quotations from one or more broker/dealers. When reliable prices are not readily available, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded, but before the Fund calculates its net asset value, the Fund values these securities as determined in accordance with procedures approved by the Fund s Board of Directors.

The Fund has adopted Financial Accounting Standards Board Codification Topic 820 ( ASC Topic 820 ). ASC Topic 820 establishes a single definition of fair value, creates a three-tier hierarchy as a framework for measuring fair value based on inputs used to value the Fund  $\,$ s investments, and requires additional disclosure about fair value. The hierarchy of inputs is summarized below.

- Level 1 quoted prices in active markets for identical investments
- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Fund s own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The Fund uses valuation techniques to measure fair value that are consistent with the market approach and/or income approach, depending on the type of security and the particular circumstance. The market approach uses prices and other relevant information generated by market

transactions involving identical or comparable securities. The income approach uses valuation techniques to discount estimated future cash flows to present value.

The following is a summary of the inputs used in valuing the Fund s assets carried at fair value:

### **ASSETS**

DESCRIPTION	QUOTED PRICES		OTHER SIGNIFICANT OBSERVABLE INPUTS	SIGNIFICANT UNOBSERVABLE INPUTS	TOTAL
DESCRIPTION	(LEVEL 1)		(LEVEL 2)	(LEVEL 3)	TOTAL
Municipal bonds		\$	178,547,807		\$ 178,547,807
Short-term investments			8,100,000		8,100,000
Total investments		\$	186,647,807		\$ 186,647,807
See Schedule of Investments for additional	al detailed categorization	ons.			

<sup>(</sup>b) Security Transactions. Security transactions are accounted for on a trade date basis.

#### 2. Investments

At August 31, 2011, the aggregate gross unrealized appreciation and depreciation of investments for federal income tax purposes were substantially as follows:

Gross unrealized appreciation	\$ 9,383,573
Gross unrealized depreciation	(683,207)
Net unrealized appreciation	\$ 8,700,366

#### 3. Derivative Instruments and Hedging Activities

Financial Accounting Standards Board Codification Topic 815 requires enhanced disclosure about an entity s derivative and hedging activities.

During the period ended August 31, 2011, the Fund did not invest in any derivative instruments.

ITEM 2.	CONTROLS AND PROCEDURES.	
of a date within 90 da	The registrant s principal executive officer and principal financial officer have concluded that the registrant s disclosure (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the 1940 Act )) are effective (sys of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the d procedures required by Rule 30a-3(b) under the 1940 Act and 15d-15(b) under the Securities Exchange Act of 1934.	e a
	There were no changes in the registrant s internal control over financial reporting (as defined in Rule 30a-3(d) under the ed during the registrant s last fiscal quarter that have materially affected, or are likely to materially affect the registrant inancial reporting.	
ITEM 3. EX	CHIBITS.	
Certifications pursual	at to Rule 30a-2(a) under the Investment Company Act of 1940, as amended, are attached hereto.
