Principal Global Investors To Acquire Majority Stake in Finisterre Capital

Acquisition expands its emerging market investment capabilities

(Des Moines, Iowa) Principal Global Investors, LLC, a leading global asset manager and a member of the Principal Financial Group® (NYSE:PFG), today announced a definitive agreement to acquire a majority stake in Finisterre Capital, LLP, and Finisterre Holdings Limited, (together Finisterre Capital), an established emerging markets investor based in London.

Finisterre Capital is a top-class emerging markets fixed income specialist with a strong investment performance track record, said Jim McCaughan, chief executive officer of Principal Global Investors. We are excited about the opportunity to help the business develop further and expand our capabilities in this growing market segment. There is already an enormous appetite to invest in emerging economies and we firmly believe the demand will continue as these markets develop.

Founded in 2002, Finisterre Capital has approximately \$1.63 billion¹ in assets under management primarily across three funds: Global Opportunity Fund, Sovereign Debt Fund and Credit Fund. The five partners (Frode Foss-Skiftesvik, Paul Crean, Rafaël Biosse Duplan, Xavier Corin-Mick and Yan Swiderski) will retain a significant minority stake in the business and have agreed to put a significant share of their consideration into funds managed by the firm. They will continue to direct the day-to-day operations and will retain authority over fund investment decisions.

The strategic partnership with Principal offers us the very attractive combination of continued autonomy and long-term stability for our clients, said Paul Crean, chief investment officer at Finisterre Capital. It will enable us to expand our capabilities while preserving our business focus, organizational structure and unique investment culture.

Through this transaction, The Principal will enhance its emerging market investment capabilities, with an opportunity to develop a wider platform through the launch of complementary

Page 4

new emerging market products and strategies, and further strengthen its well-established multi-boutique model. Finisterre Capital will benefit from access to The Principal's global presence and strong distribution network, as well as leveraging Principal's product development expertise and best-practice support infrastructure.

The transaction is expected to close early in third quarter, pending regulatory approval. It is part of the Principal Financial Group's 2011 capital deployment strategy of spending approximately \$700 million on executing attractive M&A opportunities and a share repurchase program. Excluding transaction and integration costs, The Principal estimates the acquisition will be EPS neutral in 2011 and accretive in 2012.

Sandler O'Neill + Partners advised The Principal on the transaction and Fenchurch Advisory Partners advised Finisterre Capital.

Forward looking and cautionary statements

This press release contains forward-looking statements, including, without limitation, statements as to

operating earnings, net income available to common stockholders, net cash flows, realized and unrealized losses, capital and liquidity positions, sales and earnings trends, and management's beliefs, expectations, goals and opinions. The company does not undertake to update or revise these statements, which are based on a number of assumptions concerning future conditions that may ultimately prove to be inaccurate. Future events and their effects on the company may not be those anticipated, and actual results may differ materially from the results anticipated in these forward-looking statements. The risks, uncertainties and factors that could cause or contribute to such material differences are discussed in the company's annual report on Form 10-K for the year ended Dec. 31, 2010, filed by the company with the Securities and Exchange Commission, as updated or supplemented from time to time in subsequent filings. These risks and uncertainties include, without limitation: adverse capital and credit market conditions that may significantly affect the company's ability to meet liquidity needs, access to capital and cost of capital; continued difficult conditions in the global capital markets and the economy generally that may materially adversely affect the company's business and results of operations; the risk from acquiring new businesses, which could result in the impairment of goodwill and/or intangible assets recognized at the time of acquisition; impairment of other financial institutions that could adversely affect the company; investment risks which may diminish the value of the company's invested assets and the investment returns credited to customers, which could reduce sales, revenues, assets under management and net income; requirements to post collateral or make payments related to declines in market value of specified assets may adversely affect company liquidity and expose the company to counterparty credit risk; changes in laws, regulations or accounting standards that may reduce company profitability; fluctuations in foreign currency exchange rates that could reduce company profitability; Principal Financial Group, Inc.'s primary reliance, as a holding company, on dividends from its subsidiaries to meet debt payment obligations and regulatory restrictions on the ability of subsidiaries to pay such dividends; competitive factors; volatility of financial markets; decrease in ratings; interest rate changes; inability to attract and retain sales representatives; international business risks; a pandemic, terrorist attack or other catastrophic event; and default of the company's re-insurers.
