RESULTS OF OPERATIONS

CORPORATE COSTS AND OTHER INCOME

GENERAL AND ADMINISTRATIVE EXPENSES

The Company's operating expenses for the nine months ended September 30, 2004 were \$3,316,698 (excluding \$339,516 of operating expenses to June 30, 2004 which have been reclassified as Loss Allocated to Spin-Off Assets). This is an increase of \$2,210,638 from the comparable 2003 period. A significant portion of the increase for 2004 is attributed to the Company's application of the fair value method of accounting for stock options granted to its employees and directors. In the nine months ended September 30, 2004 the Company recorded a non-cash expense of \$1,871,360. During 2003 the Company a non-cash expense of \$346,080 and disclosed a pro-forma charge for stock options granted to its employees and directors of \$910,578. Had the Company applied retroactive treatment it would have recorded this amount as an expense in the 2003 period. Other increases in the operating expenses can be attributed to the Company's increase in staff and activities driven by Navidad. The Company has added staff and new office space and has incurred additional operating expenses as a result of this increase in activity. Administrative and management services increased \$94,756, corporate development and investor relations increased \$48,002, office expense increased \$27,857. Travel increased \$115,207 due to the attendance and participation in various conferences. The increase in salaries of \$148,967 includes a retiring allowance for the Company's former CFO, William Lee, and the addition of personnel. The increase of \$309,532 in professional fees is primarily due to legal costs incurred in connection with the Aquiline legal action and substantially increased costs of compliance with reporting requirements. General exploration increased \$33,884 as activities have been focused on areas around the Navidad property. Cost recoveries from Amera increased \$75,062. Cost recoveries from Golden Arrow, which commenced in July 2004, were \$27,500. A portion of the operating expenses for the first six months of 2004 (\$339,516) and the nine months in 2003 (\$502,054) have been reclassified as Loss Allocated to Spin-Off Assets as discussed in Note 2. This has had the effect of reducing the General and Administrative expenses reported in the

Edgar Filing: IMA EXPLORATION INC - Form 6-K

September 30, 2004 consolidated financial statements.

OTHER ITEMS

During 2004 the Company recorded a gain of \$313,801 from the farm out of interests in its mineral properties and a provision for the write down of the carrying value of marketable securities of \$132,000 to reflect a reduction in the current market value. In 2004 the Company received marketable securities from Tinka Resources Limited (300,000 shares, deemed value \$147,000) and Consolidated Pacific Bay Minerals Ltd. (900,000 shares, deemed value \$180,000) from sale or farm out of its interests in mineral properties. The amounts reported in the September 30, 2004 consolidated financial statements represent farm outs which remained with the Company. In 2003 no gains, losses or provisions for losses were recorded. Marketable securities are received by the Company as a result of the joint venturing of certain of its non-core properties. The Company's intent is to sell these securities to maximize return to the Company, not to trade its holdings. Interest and other income increased \$31,633 primarily as a result of an increase of funds on deposit. The Company also recorded an increase in a gain from foreign exchange of \$41,039 in this period. Cost of \$341,603 for fees and expenses related to the Reorganization have been recorded in this period. The Loss Allocated to Spin-Off Assets represents the allocated expenses of the assets transferred to Golden Arrow as discussed in Note 2.

LIQUIDITY AND CAPITAL RESOURCES

The Company's cash position at September 30, 2004 was \$6,718,622, compared to \$4,454,241 at December 31, 2003. The increase in cash is primarily due to the completion of a financing and exercise of warrants from previous financings. In February 2004 the Company completed a brokered private placement of 1,500,000 units at \$3.10 per unit, for proceeds of \$4,238,763 net of costs of \$411,237. In addition, through September 30, 2004, the Company has received \$4,466,392 from the exercise of warrants and stock options. Subsequent to September 30, 2004 the Company has received a further \$257,500 from the exercise of stock options and warrants.

The Company considers that it has adequate resources to maintain its ongoing operations but currently does not have sufficient working capital to fund all of its planned exploration work and property commitments. A Phase III budget for the Navidad project has been approved in the amount of \$2,200,000. The Company will continue to rely on successfully completing additional equity financing and/or conducting joint venture arrangements to further exploration on its properties. There can be no assurance that the Company will be successful in obtaining the required financing or negotiating joint venture agreements. The failure to obtain such financing or joint venture agreements could result in the loss of or substantial dilution of its interest in its properties.

IMA EXPLORATION INC.

PAGE 3

The Company's management may elect to acquire new projects, at which time additional equity financing may be required to fund overhead and maintain its interests in current projects, or may decide to relinquish certain of its properties. These decisions will be based on the results of ongoing exploration programs and the response of equity markets to the projects and business plan.
