Total Registration Fee				\$1667 ⁽⁴⁾

(1) Estimated solely for purposes of calculating the registration fee pursuant to Rule 457(c) promulgated under the Securities Act of 1933, based upon the average of the high and low sale prices of our common stock on October 24, 2005.

(2) Issuable upon exercise of warrants to purchase shares of our common stock issued in connection with our private placement of units consisting of common stock and warrants which closed on October 14, 2005, as described in the selling securityholders section of this registration statement.

(3) The registration fee for such securities has been calculated based on the exercise price of such warrants in accordance with Rule 457(g) promulgated under the Securities Act of 1933.

(4) Previously paid.

Pursuant to Rule 416 of the Securities Act of 1933, this registration statement also relates to such additional indeterminate number of shares of common stock as may become issuable by reason of stock splits, dividends and similar adjustments, in accordance with the antidilution provisions of the warrants.

The registrant hereby amends this registration statement on such date or dates as may be necessary to delay its effective date until the registrant shall file a further amendment which specifically states that this registration statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933 or until the registration statement shall become effective on such date as the Commission, acting pursuant to said Section 8(a), may determine.

The information contained in this preliminary prospectus is not complete and may be changed. These securities may not be sold until the registration statement filed with the Securities and Exchange Commission is declared effective. This preliminary prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any state where the offer or sale is not permitted.

**SUBJECT TO COMPLETION, DATED APRIL 5, 2006
PRELIMINARY PROSPECTUS**

NETSMART TECHNOLOGIES, INC.

1,092,738 Shares of Common Stock

This prospectus relates to the disposition, from time to time, of up to 1,092,738 shares of our common stock by the holders of these shares named in this prospectus, whom we refer to as the “selling securityholders,” and their transferees. The shares may be offered directly, through agents on behalf of the selling securityholders and their transferees, or through underwriters or dealers.

The shares being offered by the selling securityholders were issued by us in three transactions:

- o In a private placement of units consisting of shares of our common stock and warrants to purchase shares of our common stock, on October 14, 2005, we issued 490,000 shares of our common stock and warrants to purchase up to an aggregate of 147,003 shares of our common stock to the investors and the placement agent in that private offering.
- o In connection with our acquisition by merger of CMHC Systems, Inc., on September 28, 2005, we issued an aggregate 435,735 shares of our common stock to former securityholders of CMHC.
- o In connection with our acquisition of the business of ContinuedLearning, on April 28, 2005, we issued 20,000 shares of our common stock.

We are registering the shares to provide the selling securityholders with freely tradable securities.

We will not receive any of the proceeds from the sale of the shares. We will receive the exercise price upon exercise of the warrants. We have agreed to bear the expenses in connection with the registration and sale of the shares, except for selling commissions. We estimate these expenses to be \$40,000.

Our common stock is currently traded on the NASDAQ SmallCap Market under the symbol “NTST.” On March 31, 2006, the closing price for our common stock, as reported by NASDAQ, was \$13.86 per share.

RISK FACTORS

The securities offered in this prospectus are speculative and involve a high degree of risk. Only those persons able to lose their entire investment should purchase any of the securities. Prior to making an investment decision, you should carefully read this prospectus and consider, along with other matters referred to herein, the following risk factors.

Because we are particularly dependent upon government contracts, any decrease in funding for entitlement programs could result in decreased revenue.

We market our health information systems principally to behavioral health facilities, many of which are operated by state and local government entities and include entitlement programs. During 2005, 2004 and 2003, we generated 44%, 49% and 57%, respectively, of our revenue from contracts that are directly or indirectly with government agencies. Government agencies generally have the right to cancel certain contracts at their convenience. Our ability to generate business from government agencies is affected by funding for entitlement programs, and our revenue would decline if state agencies reduce this funding.

Changes in government regulation of the health care industry may adversely affect our revenue, operating expenses and profitability.

Our business is based on providing systems for behavioral and public health organizations in both the public and private sectors. The federal and state governments have adopted numerous regulations relating to the health care industry, including regulations relating to the payments to health care providers for various services, and our systems are designed to provide information based on these requirements. The adoption of new regulations can have a significant effect upon the operations of health care providers, particularly those operated by state agencies. Furthermore, changes in regulations in the health care field may force us to modify our health information systems to meet any new record-keeping or other requirements and may impose added costs on our business. If that happens, we may not be able to generate revenues sufficient to cover the costs of developing the modifications. In addition, any failure of our systems to comply with new or amended regulations could result in reductions in our revenue and profitability.

If we are not able to take advantage of technological advances, we may not be able to remain competitive and our revenue may decline.

Our customers require software which enables them to store, retrieve and process very large quantities of data and to provide them with instantaneous communications among the various data bases. Our business requires us to take advantage of recent advances in software, computer and communications technology. This technology has been developing at rapid rates in recent years, and our future may be dependent upon our ability to use and develop or obtain rights to products utilizing such technology. New technology may develop in a manner which may make our software obsolete. Our inability to use or develop new technology would have a significant adverse effect upon our business.

We may have difficulty competing with larger companies that offer similar services, which may result in decreased revenue.

Our customers in the human services market include entitlement programs, managed care organizations and specialty care facilities which have a need for access to information over a distributed data network. Each of the software industry, in general, and the health information software business in particular, is highly competitive. Other companies have the staff and resources to develop competitive

systems. We may not be able to compete successfully with such competitors. The health information systems business is served by a number of major companies and a larger number of smaller companies. We believe that price competition is a significant factor in our ability to market our health information systems and services, and our inability to offer competitive pricing may impair our ability to market our systems and services.

If we are unable to protect our intellectual property, our competitors may gain access to our technology, which could harm our ability to successfully compete in our market.

We have no patent protection for our proprietary software. We rely on copyright protection for our software and non-disclosure and secrecy agreements with employees and third parties to whom we disclose information. This protection does not prevent our competitors from independently developing products similar or superior to our products and technologies. To further develop our services or products, we may need to acquire licenses for intellectual property. These licenses may not be available on commercially reasonable terms, if at all. Our failure to protect our proprietary technology or to obtain appropriate licenses could have a material adverse effect on our business, operating results or financial condition. Since our business is dependent upon our proprietary products, the unauthorized use or disclosure of this information could harm our business.

We cannot guarantee that in the future, third parties will not claim that we infringed their intellectual property. Asserting our rights or defending against third party claims could involve substantial costs and diversion of resources, which could materially and adversely affect our financial condition.

Government programs may suggest or mandate initiatives that could impact our ability to sell our products.

A major initiative being pushed by President Bush and the Department of Health and Human Services is the National Electronic Health Record. The federal government is promoting this platform and technology which is based on supplying "freeware" to any agency who desires; however, support is not supplied. This initiative competes with the private for profit Health Information Systems vendor community and could adversely affect our ability to sell our products and our financial results.

The covenants in our loan agreement restrict our financial and operational flexibility, including our ability to complete additional acquisitions, invest in new business opportunities, pay down certain indebtedness or declare dividends.

Our term loan agreement contains covenants that restrict, among other things, our ability to borrow money, make particular types of investments, including investments in our subsidiaries, make other restricted payments, swap or sell assets, merge or consolidate, or make acquisitions. An event of default under our loan agreement could allow our lender to declare all amounts outstanding to be immediately due and payable. We have pledged substantially all of our consolidated assets to secure the debt under our loan agreement. If the amounts outstanding under the loan agreement were accelerated, the lender could proceed against those consolidated assets. Any event of default, therefore, could have a material adverse effect on our business. The loan agreement also requires us to maintain specified financial ratios. Our ability to meet these financial ratios can be affected by events beyond our control, and we cannot assure you that we will continue to meet those ratios. We also may incur future debt obligations that might subject us to restrictive covenants that could affect our financial and operational flexibility or subject us to other events of default.

We have only paid one cash dividend after getting our lender's consent and we do not anticipate paying any further cash dividends on our common stock in the foreseeable future. We presently intend to retain future earnings, if any, in order to provide funds for use in the operation and expansion of our business. Consequently, investors cannot rely on the payment of dividends to increase the value of their investment in us. In addition, our loan agreement prohibits us from paying cash dividends without the prior consent of the lender.

Our growth may be limited if we cannot make acquisitions.

A part of our business strategy is to acquire other businesses that are related to our current business. These acquisitions may be made with cash or securities or a combination of cash and securities. To the extent that we require cash, we may have to borrow the funds or issue equity, which could dilute our earnings or the book value per share of our common stock. Our stock price may adversely affect our ability to make acquisitions for equity or to raise funds for acquisitions through the issuance of equity securities. If we fail to make any acquisitions, our future growth may be limited. As of the date hereof, we do not have any agreement or understanding, either formal or informal, as to any acquisition.

We may be unable to effectively integrate CMHC Systems, Inc. or any other acquisitions, which may disrupt or have a negative impact on our business.

In September 2005, we consummated a merger with CMHC Systems, Inc., pursuant to which CMHC has become our wholly-owned subsidiary. We may have difficulty integrating CMHC's personnel and operations with our own and we may have the same difficulty with any other acquisitions we may make. In addition, the key personnel of any acquired business may not be willing to work for us, and its officers may exercise their rights to terminate their employment with us. We cannot predict the effect expansion may have on our core business. Regardless of whether we are successful in making an acquisition, the negotiations could disrupt our ongoing business, distract our management and employees and increase our expenses.

Because we are dependent on our management, the loss of key executive officers could disrupt our business and our financial performance could suffer.

Our business is largely dependent upon our senior executive officers, Messrs. James L. Conway, our chief executive officer, and Anthony F. Grisanti, our chief financial officer. Although we have employment agreements with these officers, the employment agreements do not guarantee that those officers will continue as our employees, and each of those officers has the right to terminate his employment on 90 days notice. Our agreements with Messrs. Conway and Grisanti are scheduled to expire on December 31, 2006. Our business may be adversely affected if any key management personnel or other key employees left our employ.

The employment contracts with our executive officers and provisions of Delaware law may deter or prevent a takeover attempt and may reduce the price investors might be willing to pay for our common stock.

The employment contracts between us and each of James Conway and Anthony Grisanti provide that in the event there is a change in control of our company, the employee has the option to terminate his employment agreement. Upon such termination, each of Messrs. Conway and Grisanti has the right to receive a lump sum payment equal to his compensation for a 48 month period.

In addition, Delaware law restricts business combinations with stockholders who acquire 15% or more of a company's common stock without the consent of the company's board of directors.

These provisions could deter or prevent a takeover attempt and may also reduce the price that investors might be willing to pay in the future for shares of our common stock.

Any issuance of preferred stock may adversely effect the voting power and equity interest of our common stock.

Our certificate of incorporation gives our board of directors the right to create new series of preferred stock. As a result, the board of directors may, without stockholder approval, issue preferred stock with voting, dividend, conversion, liquidation or other rights which could adversely affect the voting power and equity interest of the holders of our common stock. The preferred stock, which could be issued with the right to more than one vote per share, could be utilized as a method of discouraging, delaying or preventing a change of control. The possible impact on takeover attempts could adversely affect the price of our common stock. Although we have no present intention to issue any shares of preferred stock or to create any series of preferred stock, we may issue such shares in the future. If we issue preferred stock in a manner which dilutes the voting rights of the holders of our common stock, our listing on The Nasdaq SmallCap Market may be impaired.

Shares may be issued pursuant to options and warrants which may adversely affect the market price of our common stock.

We may issue stock upon the exercise of options to purchase shares of our common stock pursuant to our long term incentive plans, under which options to purchase 935,047 shares were outstanding at March 31, 2006 and upon the exercise of the warrants registered by the registration statement of which this prospectus forms a part. The exercise of these options and the sale of the underlying shares of common stock may have an adverse effect upon the price of our common stock.

FORWARD-LOOKING STATEMENTS

Statements in this prospectus contain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include, but are not limited to, statements that express our intentions, beliefs, expectations, strategies, predictions or any other statements relating to our future activities or other future events or conditions. These statements are based on current expectations, estimates and projections about our business based, in part, on assumptions made by management. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. Therefore, actual outcomes and results may, and probably will, differ materially from what is expressed or forecasted in the forward-looking statements due to numerous factors, including those described above and those risks discussed from time to time in this prospectus, including the risks described in this prospectus under "Risk Factors," and those described under "Management's Discussion and Analysis of Financial Condition and Results of Operations" in other documents which we file with the Securities and Exchange Commission. In addition, such statements could be affected by risks and uncertainties related to product demand, market and customer acceptance, competition, government regulations and requirements, pricing and development difficulties, as well as general industry and market conditions and growth rates, and general economic conditions. Any forward-looking statements speak only as of the date on which they are made, and we do not undertake any obligation to update any forward-looking statement to reflect unanticipated events or circumstances after the date of this prospectus.

USE OF PROCEEDS

The proceeds from the sale of the shares by the selling securityholders will belong to the individual selling securityholder. We will not receive any of the proceeds from the sale of the shares. We will, however, receive the exercise price of the warrants upon their exercise. If all of the warrants are exercised in full, we will receive gross proceeds of \$1,617,033. We cannot assure you that any warrants will be exercised. We expect to utilize any amounts that we receive upon the exercise of the warrants for new product development, sales and marketing expenditures, potential acquisitions and general corporate purposes. Our management will have broad discretion to determine the use of any proceeds.

PRICE RANGE OF OUR COMMON STOCK

Our common stock is traded on The Nasdaq SmallCap Market under the symbol NTST. Set forth below is the reported high and low sales prices of our common stock for each quarterly period set forth below:

<u>Quarter Ended</u>	<u>High</u>	<u>Low</u>
March 31, 2006	\$ 13.86	\$ 10.48
December 31, 2005	15.00	12.17
September 30, 2005	12.50	8.94
June 30, 2005	9.74	8.50
March 31, 2005	10.27	8.28
December 31, 2004	9.25	7.30
September 30, 2004	10.00	6.07

March 31, 2004	18.70	11.49
December 31, 2003	19.85	8.45
September 30, 2003	10.90	5.15
June 30, 2003	5.53	4.00
March 31, 2003	6.00	3.53

As of March 1, 2006, there were approximately 2,900 beneficial owners of our common stock. The closing price of our common stock was \$13.86 per share on March 31, 2006. These quotations reflect inter-dealer prices, without retail mark-up, mark-down or commission and may not represent actual transactions.

DIVIDEND POLICY

In July 2003, with our lender's consent, we paid a one-time cash dividend of \$.10 per share. We do not anticipate paying additional cash dividends on our common stock in the foreseeable future. We intend to retain any future earnings for the development and expansion of our business and for acquisitions. In addition, we are a party to a loan agreement which prohibits us from paying cash dividends without the prior consent of our lender.

SELLING SECURITYHOLDERS

We have agreed to register 490,000 shares of common stock and 147,003 shares of common stock underlying warrants issued to certain investors and the underwriter in our private placement offering consummated on October 14, 2005. The warrants have an exercise price of \$11.00 per share.

Griffin Securities, Inc. acted as placement agent in connection with our private placement. As compensation, Griffin received cash placement agent fees and warrants to purchase 24,500 shares of our common stock, which is equal to 5% of the common stock issued to the investors that they introduced to us. Griffin's warrant has the same terms as the investors' warrants. Griffin is selling the shares of common stock issuable upon the exercise of its warrant.

We have also agreed to register 435,735 shares of common stock issued to former securityholders of CMHC Systems, Inc. and 20,000 shares of common stock issued to the owner of ContinuedLearning. The registration of these shares is required by the terms of those acquisitions.

None of the selling stockholders, nor any of their respective officers or directors, has had any position, office or other material relationship with us or our predecessors or affiliates within the past three years, except as described in the preceding paragraphs. None of the selling securityholders, other than Griffin Securities, is a registered broker-dealer or an affiliate of a broker-dealer.

We have agreed to pay all of the expenses in connection with the registration and sale of common stock (other than underwriting discounts and selling commissions) and the fees and expenses of counsel and other advisors to the selling securityholders. We will not receive any proceeds from the sale of any of the securities by the selling securityholders, except for the exercise price paid in connection with any exercise of warrants.

The information included below is based upon information provided by the selling securityholders. Because the selling securityholders may offer all, some, or none of their shares, the "after sale" column of the table assumes the sale of all of their shares offered by this prospectus; however, we do not know that this will actually occur. Information concerning the selling securityholders may change from time to time. Any such changed information will be set forth in amendments or supplements to this prospectus, if and when required.

PLAN OF DISTRIBUTION

Our shares are traded on the Nasdaq SmallCap Market under the symbol "NTST." On behalf of the selling securityholders, we are registering the shares of common stock issued or issuable to the selling securityholders. The distribution of the shares by the selling securityholders is not subject to any underwriting agreement. The shares of common stock may be sold in one or more transactions at fixed prices, at prevailing market prices at the time of sale, at prices related to the prevailing market prices, at varying prices determined at the time of sale, or at negotiated prices. These sales may be effected at various times in one or more of the following transactions, or in other kinds of transactions:

- o transactions on The Nasdaq Stock Market or on any national securities exchange or U.S. inter-dealer system of a registered national securities association on which the warrants and our preferred stock and common stock may be listed or quoted at the time of sale;

- o in the over-the-counter market;

- o in private transactions and transactions otherwise than on these exchanges or systems or in the over-the-counter market;

PRO FORMA FINANCIAL INFORMATION

The unaudited pro forma condensed consolidated statement of operations reflects the results of operations of Netsmart Technologies, Inc. ("Netsmart") for the twelve months ended December 31, 2005 and for CMHC Systems, Inc. ("CMHC") for the nine months ended September 30, 2005, as if the merger of CMHC with a subsidiary of Netsmart occurred at the beginning of the period. The unaudited pro forma condensed consolidated statement of operations also reflects the results of operations of Addiction Management Services, Inc. ("AMS") for the six months ended June 30, 2005. The AMS acquisition closed on June 20, 2005; the operating results for the nine-day period between the date of the acquisition and June 30, 2005 were negligible and, as a result Netsmart has elected to use the full six-month period ended June 30, 2005 for pro forma purposes.

The unaudited pro forma condensed consolidated statement of operations is presented for illustrative purposes only and is not necessarily indicative of Netsmart's consolidated financial position or results of operations in future periods or the results that actually would have been realized if the merger and acquisitions occurred during the specified periods. We have not presented a proforma balance sheet since the acquisitions occurred prior to December 31, 2005, and are included in our actual consolidated balance sheet as of December 31, 2005. The pro forma adjustments are based on available financial information and certain estimates and assumptions set forth in the accompanying notes. The unaudited pro forma condensed consolidated statement of operations, including the notes thereto should be read in conjunction with, historical consolidated financial statements and the related notes thereto of Netsmart included in its Form 10-K for the year ended December 31, 2005 which is on file with the SEC, and the audited financial statements for the year ended March 31, 2005 and the reviewed financial statements for the three months ended June 30, 2005 of CMHC included in Netsmart's Report on Form 8-K dated September 28, 2005, as amended by Form 8-K/A dated December 9, 2005, January 10, 2006 and April 5, 2006.

NETSMART TECHNOLOGIES, INC. AND SUBSIDIARIES
 NOTES TO UNAUDITED PRO FORMA CONDENSED
 CONSOLIDATED FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION

Pursuant to the merger agreement dated September 20, 2005, Netsmart Technologies, Inc. (“Netsmart”) acquired 100% of the equity of CMHC Systems, Inc. The purchase price totaled \$19,565,956 as follows: 435,735 shares of Netsmart’s common stock (valued at \$4,915,091), \$12,994,758 in cash plus additional cash consideration currently estimated to be \$792,024 as required by the “working capital adjustment” calculated and payable as defined in the merger agreement (subject to adjustment, see Note 2), and acquisition costs of \$864,083. The cash consideration was paid utilizing the working capital of Netsmart. The acquisition has been accounted for under the purchase method of accounting in accordance with SFAS No. 141 by which the acquiring company records at its cost the acquired assets less liabilities assumed.

Pursuant to the asset purchase agreement dated June 20, 2005, Netsmart acquired certain assets and liabilities and rights to the intellectual property and customer contracts of AMS. The purchase price was \$3,590,778, which consisted of \$948,833 of liabilities assumed for pre billed services plus \$2,641,945 in cash. The source of the cash consideration was the working capital of Netsmart. The purchase has been accounted for under the purchase method of accounting in accordance with SFAS No. 141.

On October 7, 2005, Netsmart entered into a Loan Agreement consisting of (i) a \$2,500,000 Revolving Credit Loan and (ii) a \$2,500,000 Term Loan. On October 7, 2005, Netsmart borrowed the full amount of the \$2,500,000 Term Loan. On October 14, 2005, Netsmart issued 490,000 shares of common stock and 147,003 common stock purchase warrants in a private placement generating net proceeds of \$4,115,128.

2. PRO FORMA ADJUSTMENTS

CMHC Merger

Netsmart purchased 100% of the equity of CMHC. Netsmart did not purchase 570 Metro Place North Limited Partnership, an entity that is majority-owned by CMHC’s former majority stockholder and owns the land and the building where CMHC conducts most of its operations. The breakdown of the allocation of the assets is subject to adjustment. The total acquisition cost is based upon certain estimates and is also subject to adjustment.

The following are the details of the total acquisition cost:

Cash paid	\$ 12,994,758
Market value of common stock issued	4,915,091
Estimated working capital adjustment *	792,024
Other acquisition costs	864,083
Total acquisition	\$ 19,565,956

The total cost of acquisition was allocated as follows **:

Current assets	\$ 7,098,000
Property and equipment	464,000
Customer lists	5,300,000 (to be amortized over 20 years) (to be amortized over 1
Backlog	502,000year) (to be amortized over 4
Capitalized software costs	3,300,000years)
Goodwill	18,736,000
Deferred tax long-term	1,381,000
Other assets	26,000
Total assets	36,807,000
Current liabilities	(14,032,000)
Long-term obligations	(38,000)
Deferred tax liability long-term	(3,171,000)
Total liabilities	(17,241,000)
Total acquisition allocation	\$ 19,566,000

* The working capital adjustment of an estimated \$792,024 is based upon the terms of the merger agreement whereby the purchase price will include an amount equal to the amount that the final net working capital of CMHC is greater than a negative \$7.5 million. This estimate is based upon the unaudited balance sheet of CMHC as of September 30, 2005 and is subject to adjustment.

** The primary fair value adjustments made to CMHC's historical cost balance sheet were to increase the value of CMHC's software to fair value, and to record customer lists, contract backlog and goodwill and the related deferred tax liability as well as to adjust the fair value of deferred revenue. For all other assets and liabilities, historical cost approximated fair value.

- In order to value CMHC's software, management considered the historical costs incurred as well as projected costs to recreate the software. However, since there is a specific earnings stream that can be associated exclusively with the existing software, management applied a discounted cash flow model in its estimation of the fair value of the software. CMHC's software consists of management information systems used by behavioral and public health organizations; the systems include financial, client administration, clinical assessment and administration. The estimated useful life of the software is four years. Such estimate considered the following: (i) the software is an integral part of each customer's operations and is not easily replaced, (ii) however, the underlying architecture of the software is based on unsupported programming language and character-based screens (not the graphical interfaces used today) and will need to be updated, and (iii) the results of the discounted cash flow analysis.
- The customer list has been valued using a discounted cash flow model. CMHC provides computer-based management information systems for approximately 400 behavioral and public healthcare organizations. CMHC's relationships with its customers are long-term in nature, indicating that the customer relationships are an important intangible asset to Netsmart. CMHC has been in business since 1978, and based upon their historical attrition rate, and the 30 year projections used for the cash flow analysis, the useful life of the customer lists is estimated to be 20 years.
- The contract backlog represents the fair value of various customer contracts and purchase orders that have already been billed to the customers, but for which services have not yet been performed. The value was determined using a discounted cash flow model. The contract backlog is being amortized over 12 months, since the services to be performed with respect to the underlying customer contracts are expected to be completed within one year.

- The deferred tax liability represents a long term deferred tax liability related to the above fair valuation adjustments for the capitalized software, customer list and contract backlog intangible assets. These intangibles are not deductible expenses for tax purposes. The tax effect has been calculated utilizing Netsmart's blended statutory tax rate of 42%.
- Goodwill represents the excess of the cost of CMHC over the net of the amounts assigned to tangible and identifiable intangible assets acquired and liabilities assumed. The goodwill is not amortized for book or income tax purposes.
- Deferred revenue was adjusted for revenue for which there is no performance obligation and to eliminate future gross profit related to sales efforts incurred prior to the acquisition date.

Netsmart only recently purchased CMHC, and accordingly, is still gathering data related to the allocation of the purchase price. As such, the purchase price allocation is subject to change. Changes could include a reallocation of intangible assets which would likely have the effect of increasing or decreasing future amortization expense, since the intangible assets have initially been assigned varied lives ranging from no amortization (for goodwill) to 20 year amortization (for the customer list). Additionally, the lives assigned to the identifiable intangible assets represent management's best estimates of the time period in which it will continue to receive benefits from these assets. The useful lives may need to be adjusted in the future based upon changes to the expected useful lives of such assets. As a result, future amortization expense could be materially different from the pro forma amortization expense presented herein.

Strategic headcount adjustments related to the CMHC merger decreasing cost of sales, selling and general and administrative expenses have not been reflected in the pro forma adjustments to the statement of operations. These adjustments are the result of planned strategic employee terminations that occurred on and shortly after the closing date of the merger.

Consulting contracts were entered into with several senior executives of CMHC ranging in duration from day-to-day to up to six months. These contracts, in effect, replace the salaries of the executives and, as a result, do not have a significant impact on operations going forward.

As a result of the merger, Netsmart assumed the lease agreement on the premises located at 570 Metro Place North in Dublin, Ohio. The subject building is owned by CMHC's former majority stockholder who is a current employee of Netsmart. Netsmart has reviewed Fin 46 R and has determined that the consolidation is not required. The lease ends on October 31, 2013 and, based upon research of comparable rental property, Netsmart has determined that the current rent being paid under the terms of the lease represents a fair market price for leases currently being negotiated in that market. In addition, the rental payments that are required for the next twelve months approximate the rental payments that have been made over the past year by CMHC and, as a result, no pro forma adjustment has been made.

Subsequent to the acquisition of CMHC, Netsmart sold to investors, pursuant to a private placement agreement, an aggregate 490,000 shares of common stock and warrants to purchase 122,504 shares of common stock. Netsmart has received \$4,493,104 in gross proceeds and paid commissions of \$275,000 and \$102,976 in professional costs related to the private placement. Netsmart has also issued a warrant to purchase 24,500 shares to the placement agent. The private placement agreement requires Netsmart to file a registration statement within 30 days of the closing of the private placement, and to use its reasonable best efforts to have such registration statement declared effective by the SEC within 90 days of the closing. Generally, the private placement agreement further provides for a penalty to be paid to the investors should Netsmart fail to meet its registration obligations. Such penalty is payable to the investors in cash at the rate of 2.5% of the gross proceeds per month, up to a maximum penalty of 20% of the gross proceeds. Netsmart has accounted for the proceeds of the private placement as equity in accordance with View A of EITF 05-04. Any potential penalties incurred pursuant to the registration rights agreement will be recorded in earnings when and if incurred as per SFAS 5.

Addiction Management Systems, Inc. Asset Purchase

Netsmart did not purchase any of the assets on the AMS balance sheet other than the purchase of certain inventory items utilized to resell to then-existing clients, the value of which has been recorded as \$32,048, certain accounts receivable in the amount of \$127,698 and a lease security deposit in the amount of \$3,334. Netsmart did not assume any of the liabilities reflected on the AMS balance sheet other than for contract performance related to revenue collected from clients in advance of performance of work contracted for in the amount of \$948,833.

The following are the details of the total acquisition cost:

Cash paid	\$ 2,641,945
-----------	--------------

Liabilities assumed	948,833
Other acquisition costs	19,904
Total acquisition	\$ 3,610,682

The total cost of acquisition was allocated as follows:

Customer lists	\$ 1,396,902	(to be amortized over 8 years)
Software purchased	2,050,700	(to be amortized over 8 years)
Accounts Receivable purchased	127,698	
Inventory purchased	32,048	
Lease security deposit	3,334	
Total acquisition allocation	\$ 3,610,682	

Pro forma adjustments were made to the unaudited condensed consolidated statements of operations for the year ended December 31, 2005 to reflect amortization of \$215,474 for customer lists and software purchased related to the AMS acquisition. This amount represents amortization for the six months ended June 30, 2005

Pro forma adjustments were made to the unaudited condensed consolidated statement of operations for the year ended December 31, 2005 to reflect changes resulting from the merger that are directly attributable, factually supportable and are expected to have continuing impact on the combined operations. The following are the notes explaining such pro forma adjustments:

(B1a) The adjustment increasing cost of sales is due mainly to the amortization of the of the acquired software related to the CMHC merger and the amortization of the acquired software related to the AMS acquisition. The amounts specific to each acquisition are as follows:

	Year ended December 31, 2005	
CMHC	\$	995,250
AMS		128,168
Total	\$	1,123,418

(B1b) The adjustment decreasing cost of sales is the result of eliminating amortization of the acquired software of CMHC that is already reflected in the CMHC historical statements of operations.

(B1c) The adjustment increasing selling, general and administrative expenses is due mainly to the amortization of the customer list related to the CMHC merger and the amortization of customer list related to the AMS acquisition. The amounts specific to each acquisition are as follows:

	Year ended December 31, 2005	
CMHC	\$	198,750
AMS		87,306
Total	\$	286,056

(B2) The adjustment to the income tax provision is to reflect the overall 42% normal tax rate for Netsmart.

(B3) This adjustment represents interest expense on the Term Loan entered into on October 7, 2005.

(B4) The pro forma adjustment to the number of common shares outstanding is a direct result of:

1. The issuance of 435,735 shares related to the CMHC merger.
2. The shares issued pursuant to the private placement contracts resulting in the issuance of 490,000 shares of common stock and warrants to purchase 122,504 shares of common stock plus an additional warrant to purchase 24,500 shares of common stock issued to the placement agent.

The common shares issued have been reflected in both the basic and diluted earnings per share calculation and the warrants issued to purchase common stock have not been reflected in the diluted earning per share calculation as the result would be anti dilutive.

Item 17. Undertakings.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers or controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement;

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

II-2

provided, however, that paragraphs (1)(i) and (1)(ii) above shall not apply if the information required to be included in a post-effective amendment by such clauses is contained in periodic reports filed with or furnished to the Commission by the registrant pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof; and

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

The undersigned registrant hereby undertakes to deliver or cause to be delivered with the prospectus, to each person to whom the prospectus is sent or given, the latest annual report to securityholders that is incorporated by reference in the prospectus and furnished pursuant to and meeting the requirements of Rule 14a-3 under the Securities Exchange Act of 1934; and, where interim financial information required to be presented by Article 3 of Regulation S-X is not set forth in the prospectus, to deliver or cause to be delivered to each person to whom the prospectus is sent or given, the latest quarterly report to securityholders that is specifically incorporated by reference in the prospectus to provide such interim financial information.

The undersigned registrant hereby undertakes that, for the purpose of determining liability under the Securities Act of 1933 to any purchaser:

(1) Each prospectus filed by the registrant pursuant to Securities Act Rule 424(b)(3) (§230.424(b)(3)) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

(2) Each prospectus required to be filed pursuant to Securities Act Rule 424(b)(2), (b)(5), or (b)(7) (§230.424(b)(2), (b)(5), or (b)(7)) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii), or (x) (§230.415(a)(1)(i), (vii), or (x) of this chapter) for the purpose of providing the information required by section 10(a) of the Securities Act of 1933 shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date; or

(3) Each prospectus filed pursuant to Securities Act Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Securities Act Rule 430B or other than prospectuses filed in reliance on Securities Act Rule 430A (§230.430A), shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.
