NOTE 1. ORGANIZATION AND PRINCIPAL ACTIVITIES

Kandi Technologies, Corp (Formerly Stone Mountain Resources, Inc.) was incorporated under the laws of the State of Delaware on March 31, 2004. On August 29, 2007, the Stone Mountain Resources, Inc changed its name to Kandi Technologies, Corp.

On June 29, 2007, pursuant to a share exchange agreement between Stone Mountain Resources, Inc. (“Stone Mountain”), Continental Development Limited, (“Continental”) and Excelvantage (Continental’s sole shareholder), Stone Mountain issued 12,000,000 shares of its common stock to Excelvantage, in exchange for 100% of the common stock of Continental. As a result of the share exchange, Continental became a wholly-owned subsidiary of Stone Mountain. The Company conducts its operations through its wholly owned subsidiary, Zhejiang Kandi Vehicles Co. Ltd (“Kandi”), a People’s Republic of China (“PRC”) company.

The exchange transaction was accounted for as a reverse acquisition in accordance with SFAS No. 141.” Business Combinations”. The acquisition is accounted for as the recapitalization of Kandi. Accordingly, the condensed consolidated statements of income include the results of operations of Kandi from January 1, 2007 and 2006, and the results of operations of Kandi Technologies, Corp from the acquisition date through September 30, 2007.

The primary operations of the Kandi Technologies, Corp and subsidiaries (the “Company”) is developing, manufacturing, and commercializing all-terrain vehicles, Go- karts, and specialized automobile related products in the PRC. Sales are also made to dealers in the PRC, Europe, North America and Southeast Asia.

NOTE 2. BASIS OF PRESENTATION

The unaudited condensed consolidated financial statements of the Company have been prepared in accordance with generally accepted accounting principles for interim financial information and pursuant to the requirements for reporting on Form 10-QSB and Item 310(b) of Regulation S-B. Accordingly, they do not include all the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. However, such information reflects all adjustments (consisting solely of normal recurring adjustments), which are, in the opinion of management, necessary for the fair presentation of the condensed consolidated financial position and the condensed consolidated results of operations. Results shown for interim periods are not necessarily indicative of the results to be obtained for a full year. The condensed consolidated balance sheet information as of December 31, 2006 was derived from the audited consolidated financial statements included in the Form 8-K, filed with the Securities and Exchange Commission on July 6, 2007.

NOTE 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Principles of Consolidation

The unaudited condensed consolidated financial statements include the accounts of Zhejiang Kandi Vehicles Co., Ltd. and Zhejiang Yongkang Import & Export Co., Ltd. (“Dingji”), its wholly owned subsidiary.

All significant inter-company accounts and transactions have been eliminated in consolidation.

NOTE 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(b) Cash and Cash Equivalents

For financial reporting purposes, the Company considers all highly liquid investments purchased with original maturity of three months or less to be cash equivalents.

Restricted cash represents time deposits on account to secure notes payable. See Note 11. These balances are subject to withdrawal restrictions and totaled \$8,666,535 and \$9,092,423 as of September 30, 2007 and December 31, 2006 respectively.

(c) Use of Estimates

The preparation of financial statements in conformity with the Generally Accepted Accounting Principles of the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported periods. Management makes these estimates using the best information available at the time the estimates are made; however, actual results could differ materially from those estimates.

(d) Earnings Per Share

Basic earning per share is computed by dividing income available to common shareholders by the weighted-average number of common shares outstanding during the period. Diluted earnings per share is computed in a manner similar to basic earnings per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. There were no dilutive securities outstanding for the periods presented.

(e) Accounts Receivable

Trade receivables are recognized and carried at the original invoice amount less allowance for any uncollectible amounts. An estimate for doubtful accounts is made when collection of the full amount is no longer probable. Bad debts are written off as incurred.

Trade receivables due from three customers comprise of 43% and 66% of total accounts receivable at September 30, 2007 and December 31, 2006 respectively.

(f) Inventories

Inventories are stated at the lower of cost, determined on a weighted average basis, or net realizable value. Net realizable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated costs necessary to make the sale.

When inventories are sold, their carrying amount is charged to expense in the year in which the revenue is recognized. Write-downs for declines in net realizable value or for losses of inventories are recognized as an expense in the year the impairment or loss occurs. There were no declines in net realizable value of inventory for the three and nine months ended September 30, 2007 and 2006.

During the nine months ended September 30, 2007 and 2006, approximately 31% and 41% of total inventory purchases were from four major suppliers respectively.

(g) Revenue Recognition

Revenue represents the invoiced value of goods sold recognized upon the delivery of goods to customers. Revenue is recognized when all of the following criteria are met:

- Persuasive evidence of an arrangement exists,
- Delivery has occurred or services have been rendered,
- The seller's price to the buyer is fixed or determinable, and
- Collectibility is reasonably assured.

(h) Foreign Currency Translation

The accompanying condensed consolidated financial statements are presented in United States dollars. The functional currency of the Company is the Renminbi (RMB), the official currency of the PRC. The consolidated financial statements are translated into United States dollars from RMB at balance sheet date exchange rates as to assets and liabilities and average exchange rates of the quarter as to revenues and expenses. Capital accounts are translated at their historical exchange rates when the capital transactions occurred.

	September 30, 2007	December 30, 2006	September 30, 2006
Period end RMB: US\$ exchange rate	7.5108	7.8087	7.9087
Average period RMB:US\$ exchange rate	7.6598	7.935	7.9895

(i) Income taxes

The Company adopted the provisions of Financial Accounting Standards Board (“FASB”) Interpretation No. 48, “Accounting for Uncertainty in Income Taxes - an Interpretation of FASB Statement No. 109,” (“FIN 48”), on January 1, 2007. The Company did not have any material unrecognized tax benefits and there was no effect on its financial condition or results of operations as a result of implementing FIN 48.

The Company files income tax returns in the PRC jurisdictions. The Company does not believe there will be any material changes in its unrecognized tax positions over the next 12 months.

The Company's policy is to recognize interest and penalties accrued on any unrecognized tax benefits as a component of income tax expense. As of the date of adoption of FIN 48, the Company did not have any accrued interest or penalties associated with any unrecognized tax benefits, nor was any interest expense recognized during the quarter. The Company's effective tax rate differs from the federal statutory rate primarily due to non-deductible expenses, temporary differences, and preferential tax treatment.

On March 16, 2007, the National People's Congress of the PRC determined to adopt a new corporate income tax law. Under the new CIT law, the corporate income tax rate applicable to the Company starting from January 1, 2008 will be 25%, replacing the current applicable tax rate of 33%. The new CIT Law has an impact on the deferred tax assets and liabilities of the Company. As there are still no detailed implementation rulings released, the Company adjusted deferred tax balances as of September 30, 2007 based on their best estimates and will continue to assess the impact of such new law in the future. Effects arising from the enforcement of the new CIT Law were reflected into the accounts by the best estimation method.

(i) Fair Value of Financial Instruments

The Company's financial instruments include cash and cash equivalents, restricted cash, notes receivable, accounts receivable, other receivables and prepaid expenses, due from employees, prepayments for goods, accounts payable, other payables and accrued liabilities, debt, tax payables, customer deposits, due to employees and due to related parties. Management has estimated that the carrying amount approximates fair value due to their short-term nature.

NOTE 4. NEW ACCOUNTING PRONOUNCEMENTS

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements," which provides enhanced guidance for using fair value to measure assets and liabilities. SFAS No. 157 provides a common definition of fair value and establishes a framework to make the measurement of fair value in generally accepted accounting principles more consistent and comparable. SFAS No. 157 also requires expanded disclosures to provide information about the extent to which fair value is used to measure assets and liabilities, the methods and assumptions used to measure fair value, and the effect of fair value measures on earnings. SFAS No. 157 is effective for financial statements issued in fiscal years beginning after November 15, 2007 and to interim periods within those fiscal years. The Company is currently in the process of evaluating the effect, if any, the adoption of SFAS No. 157 will have on its consolidated results of operations, financial position, or cash flows.

In September 2006, the Securities and Exchange Commission issued Staff Accounting Bulletin ("SAB") No. 108, "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements." SAB No. 108 was issued in order to eliminate the diversity in practice surrounding how public companies quantify financial statement misstatements. SAB No. 108 requires that registrants quantify errors using both a balance sheet (iron curtain) approach and an income statement (rollover) approach then evaluate whether either approach results in a misstated amount that, when all relevant quantitative and qualitative factors are considered, is material. SAB No. 108 is effective for fiscal years ending after November 15, 2006. The Company has adopted the bulletin during 2006. The adoption did not have a material effect on results of operations, financial position, or cash flows.

In February 2007, the FASB issued FASB Statement No. 159, The Fair Value Option for Financial Assets and Financial Liabilities -- Including an amendment of FASB Statement No. 115 ("FAS 159"). FAS 159, which will become effective for the Company on January 1, 2008. This standard permits companies to choose to measure many financial instruments and certain other items at fair value and report unrealized gains and losses in earnings. Such accounting is optional and is generally to be applied instrument by instrument. The Company does not anticipate that election, if any, of this fair-value option will have a material effect on the consolidated results or operations or financial position.

NOTE 13. INCOME TAXES

(a) Corporation Income Tax (“CIT”)

In accordance with the relevant tax laws and regulations of PRC, the applicable CIT rate of the Company is 33%. However, in accordance with the relevant taxation laws in the PRC, from the time that a company has its first profitable tax year, a foreign investment company is exempt from corporate income tax for its first two years and is then entitled to a 50% tax reduction for the succeeding three years. The Company’s first profitable year for income tax purposes as a foreign investment company was 2006. Dingji is a subsidiary of the Company and its applicable corporate income tax rate is at progressive from 18% to 33%.

On March 16, 2007, the National People's Congress of the PRC adopted a new corporate income tax law. Under the new CIT law, the corporate income tax rate applicable to the Company starting from January 1, 2008 will be 25%, replacing the current applicable tax rate of 33%. The new CIT Law has an impact on the deferred tax assets and liabilities of the Company. As there are still no detailed implementation rulings released, the Company adjusted deferred tax balances as of September 30, 2007 based on the Company’s best estimates and will continue to assess the impact of such new law in the future. Effects arising from the enforcement of the new CIT Law were reflected into the accounts by the best estimation method.

Income tax expense for the nine months ended September 30, 2007 and 2006 are summarized as follows:

	For the Nine Months Ended September 30,	
	2007	2006
	(Unaudited)	
Current:		
Provision for CIT	\$ -	\$ -
Deferred:

(b) Value Added Tax ("VAT")

Enterprises or individuals, who sell commodities, engage in repair and maintenance or import or export goods in the PRC are subject to a value added tax in accordance with Chinese Laws. The value added tax standard rate is 17% of the gross sale price. A credit is available whereby VAT paid on the purchases of semi-finished products or raw materials used in the production of the Company's finished products can be used to offset the VAT due on the sales of the finished products.

On January 1, 2002, the export policy of VAT "Exemption, Credit and Refund" began to apply to all exports by manufacture-based enterprises. In accordance with this policy, exported goods are exempted from output VAT and the

input VAT charged for purchases of the raw materials, components and power consumed for the production of the exported goods may be refunded. Beginning July 1, 2007, the refund rates of vehicle related products applicable to the company were changed to 9%.

The refundable VAT of \$1,154,297 and \$2,171,195 at September 30, 2007 and December 31, 2006, respectively, is included in "Other Receivables" in the accompanying consolidated balance sheet.

NOTE 14. CONTINGENCIES

(I) In 2006, the Company brought a legal action against Zhejiang Yuegong steel Structure Co. and Zhejiang Jinhua No.1 Construction Co., Ltd. for their delay in the construction in the Jinhua Industrial district. The court ruled in favor of the Company on December 5, 2006, ordering Zhejiang Yuegong Steel Structure Co. and Zhejiang Jinhua No.1 Construction Co., Ltd. to pay \$186,331 to the Company. However, the two defendants have appealed the ruling and the Company has not received the judgment award as of November 14, 2007. Considering the uncertainties of the legal proceeding, the Company did not record a contingent gain for this for the quarter ended September 30, 2007.

(II) In 2006, the Company brought a legal action against Weifang Rongda Automobile Trading Co., Ltd. (“Rongda”) for goods returned from Rongda that were damaged. The Court ruled in favor of the Company on December 8, 2006, ordering Weifang Rongda Automobile Trading Co., Ltd. to pay \$26,408 to the Company. However, the defendant has appealed the ruling and the Company has not received the judgment award as of November 14, 2007. Considering the uncertainties of the legal proceeding, the Company did not record a contingent gain for this for the quarter ended September 30, 2007.

NOTE 15. FORFEITURE OF CUSTOMER DEPOSIT

The forfeitures of customer deposits result from the customers’ breach of the mutual contracts. As of the date this report is filed, the Company did not receive any claims from the customers.

NOTE 16. SUBSEQUENT EVENT

In November 2007, the Company entered into an agreement with the shareholders of Kandi Investment Group, Mr. Hu Xintao and Mr. Lang to purchase 100% of the outstanding shares of Kandi Investment Group. The consideration for acquisition was \$9,740,470. The amount was recorded as a deposit at September 30, 2007. The agreement was rescinded on November 7, 2007 by all parties. The deposit will be refunded to the Company.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This report contains certain “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Exchange Act of 1934, as amended, which are based on management’s exercise of business judgment as well as assumptions made by and information currently available to, management. When used in this document, the words “may”, “will”, “anticipate”, “believe”, “estimate”, “expect”, “intend” and words of similar import, are intended to identify any forward-looking statements. You should not place undue reliance on these forward-looking statements. These statements reflect our current view of future events and are subject to certain risks and uncertainties as described in this Report on Form 10-QSB as well as other periodic reports, filed with the Securities and Exchange Commission, and as noted below. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, our actual results could differ materially from those anticipated in these forward-looking statements. We undertake no obligation, and do not intend, to update, revise or otherwise publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date hereof, or to reflect the occurrence of any unanticipated events. Although we believe that our expectations are based on reasonable assumptions, we can give no assurance that our expectations will materialize.

Overview

Stone Mountain Resources, Inc. was originally incorporated on March 31, 2004. As a result of the share exchange transaction that was completed on June 29, 2007, Stone Mountain issued 12,000,000 shares of Stone Mountain’s common stock (the “Stone Mountain Shares”) to Excelvantage, the sole Continental Shareholder, in exchange for 100% of the common stock of Continental. Continental conducts its business operations through its wholly owned subsidiary, Zhejiang Kandi Vehicles Co. Ltd. (“Kandi”), a PRC company. As a result of the Closing, Continental became a wholly owned subsidiary of Stone Mountain. From and after the Closing Date, the business of the Company is that of Continental’s wholly owned subsidiary, Kandi.

The transaction was accounted for as a reverse merger. In accordance with the Accounting and Financial Reporting Interpretations and Guidance provided by the staff of the U.S. Securities and Exchange Commission, Stone Mountain (the legal acquirer) is considered the accounting acquiree and Continental (the legal acquiree) was considered the accounting acquirer. The consolidated financial statements of the combined entity are in substance those of Continental, with the assets and liabilities, and revenues and expenses, of Stone Mountain included as of the date of consummation of the share exchange transaction. Stone Mountain is deemed to be a continuation of the business of Continental. The outstanding stock of Stone Mountain prior to the share exchange transaction was accounted for at its net book value and no goodwill will be recognized. On August 29, 2007, the Stone Mountain changed its name to Kandi Technologies, Corp.

Revenues. For the three months ended September 30, 2007, our revenues increased approximately 470% from \$1,552,217 to \$8,854,668 relative to the same period ended September 30, 2006. The biggest factor in the increase of our revenues was the increased sales of the Go-kart, the beach vehicles developed and introduced by the Company.

Cost of Sales. Cost of sales increased from \$1,129,089 for the three months ended September 30, 2006 to \$7,389,605, or approximately 554%, for the same period in 2007, reflecting the increase in production manufacturing associated with the manufacturing of the beach vehicles during the quarter as discussed above.

Gross Profit. Gross profit increased approximately 246% from \$423,128 for the three months ended September 30, 2006 to \$1,465,063 for the three months ended September 30, 2007. This increase in gross profit was primarily due to the increase in revenues.

Selling and Marketing Expenses. For the three months ended September 30, 2007, selling and marketing expenses increased approximately 439% from \$54,140 to \$292,074 relative to the three months ended September 30, 2006. The increase was primarily due to an increase in the expansion of the sales department because of the sharp increase in sales revenue.

General and Administrative Expenses. For the three months ended September 30, 2007, general and administrative expenses increased approximately 280% from \$65,501 to \$248,992 relative to the three months ended September 30, 2006. The increase was primarily due to increase in headcount of the admin department as the company went public in June 2007.

Research and Development Expenses. For the three months ended September 30, 2007, research and development expenses decreased approximately 57% from \$37,777 to \$16,122 relative to the three months ended September 30, 2006. The decrease was attributed to the significant research and development expenses required in the initial stage of product development, while such expenses were gradually decreased due to improvements on its existing products.

Income Tax Provision. On March 16, 2007, the National People's Congress of the PRC determined to adopt a new corporate income tax law in its fifth plenary session. The new corporate income tax law unifies the application scope, tax rate, tax deduction and preferential policy for both domestic and foreign-invested enterprises. The new corporate income tax law take effect on January 1, 2008. According to the new corporate income tax law, the applicable income tax rate for our operating subsidiaries may be subject to changes. As the implementation detail has not yet been announced, we cannot be sure of the potential impact of such new corporate income tax law on our financial position and operating results. Under the new law, the Company had a tax expense of \$212 for the three months ended September 30, 2007, compared to a tax expenses of NIL for the same period of 2006.

Net Income. Net income increased approximately 587% from \$126,908 for the three months ended September 30, 2006 to \$871,498 for the three months ended September 30, 2007. This increase in net income was due primarily to the increase in both our revenues and gross profits.

Comparison of Nine Months Ended September 30, 2007 and September 30, 2006.

The following table sets forth the amounts and percentage relationship to revenue of certain items in our consolidated statements of income and comprehensive income for the nine months ended September 30, 2007 and 2006:

Revenues. For the nine months ended September 30, 2007, our revenues increased approximately 311% from \$6,338,562 to \$26,022,205 relative to the same period ended September 30, 2006. The main reason in the increase of our revenues was the increase in sale of the beach vehicles developed and launched by the Company.

Cost of Sales. Cost of sales increased from \$5,440,601 for the nine months ended September 30, 2006 to \$20,666,981 for the same period in 2007, reflecting the increase in production manufacturing associated with the manufacturing of the beach vehicles during the nine months as discussed above. However, in terms of cost of sales as a percentage of net revenues, our cost of sales for the nine months ended September 30, 2007 was approximately 79% of net revenues as compared to approximately 86% of net revenues for the same period in 2006 due to lower raw material costs as purchase volume increased sharply and due to better cost control.

Gross Profit. Gross profit increased approximately 496% from \$897,961 for the nine months ended September 30, 2006 to \$5,355,224 for the nine months ended September 30, 2007. This increase in gross profit was primarily due to the increased revenues.

Selling and Marketing Expenses. For the nine months ended September 30, 2007, selling and marketing expenses increased approximately 371% from \$139,480 to \$657,342 relative to the nine months ended September 30, 2006. The increase was primarily due to increase in the expansion of the sales department as sales increased sharply.

General and Administrative Expenses. For the nine months ended September 30, 2007, general and administrative expenses increased approximately 115% from \$285,757 to \$614,615 relative to the nine months ended September , 2006. The increase was primarily due to increase in headcount of the admin department as the company went public in June 2007.

Research and Development Expenses. For the nine months ended September 30, 2007, research and development expenses decreased approximately 21% from \$87,538 to \$68,925 relative to the nine months ended September 30, 2006. The decrease was attributed to the heavy incurred of research and development expenses in the initial stage, while such expenses was gradually decreased due to the improvement on its existing products.

Income Tax Provision. On March 16, 2007, the National People's Congress of the PRC determined to adopt a new corporate income tax law in its fifth plenary session. The new corporate income tax law unifies the application scope, tax rate, tax deduction and preferential policy for both domestic and foreign-invested enterprises. The new corporate income tax law will be effective on January 1, 2008. According to the new corporate income tax law, the applicable income tax rate for our operating subsidiaries may be subject to change. As the implementation detail has not yet been announced, we cannot be sure of the potential impact of such new corporate income tax law on our financial position and operating results. For the nine months ended September 30, 2007, the Company incurred a tax expense of \$2,111 as compared to NIL for the same period of 2006.

Net Income. Net income increased approximately 9,929% from \$37,165 for the nine months ended September 30, 2006 to \$3,727,193 for the nine months ended September 30, 2007. This increase in net income was due primarily to the increase in both our revenues and gross profits, and reduction in cost of sale.

Liquidity and Capital Resources

Cash Flows

Nine Months ended September 30, 2007 and 2006

Net cash flow provided by operating activities was \$4,337,081 for the nine months ended September 30, 2007 as compared to \$591,390 in cash flow used in operating activities in the same period of 2006. The increase of net cash flow used in operating activities was mainly due to increased sales, the collection of outstanding loans and cash inflows generated by incremental operations.

Net cash flow used in investing activities was \$11,925,129 for the nine months ended September 30, 2007 as compared to \$100,417 in cash flow provided by investing activities in the same period of 2006. Uses of cash flow for investing activities in the nine month period ended September 30, 2007 included the construction of manufacturing facilities and the purchase of associated machinery and equipment, deposit for acquisition, insurance and repayment of notes receivables.

Net cash flow provided by financing activities was \$6,968,591 in the nine months ended September 30, 2007, as compared to net cash flow provided by financing activities of \$120,662 in the same period in 2006. The increase in net cash flow used in financing activities was mainly due to the collection of loan payments and interest owed to the Company. Uses of cash flow included payments of notes payable, interest and premiums payable on loans.

Working Capital

Our working capital increased by \$3,093,467 to \$820,621 at September 30, 2007, as compared to \$(2,272,846) at December 31, 2006. The increase in working capital at September 30, 2007 was mainly attributed to our increase in accounts receivables and deposit for acquisition and increase in short term bank loans. The deposit for acquisition was a reclassification from advances from suppliers and thus had no cash impact.

The Company currently generates its cash flow through operations and the Company believes that its cash flows generated from operations will be sufficient to sustain operations for the next twelve months. Also, from time to time, the Company may require extra funding through financing activities and investments for expansion. Also, from time to time, the Company may come up with new expansion opportunities for which our management may consider seeking external funding and financing. However, as of September 30, 2007, the Company did not have any plan for

additional capital through external funding and financing.

Contractual Obligations and Off-Balance Sheet Arrangements

Contractual Obligations

We have certain fixed contractual obligations and commitments that include future estimated payments. Changes in our business needs, cancellation provisions, changing interest rates, and other factors may result in actual payments differing from the estimates. We cannot provide certainty regarding the timing and amounts of payments. We have presented below a summary of the most significant assumptions used in our determination of amounts presented in the tables, in order to assist in the review of this information within the context of our consolidated financial position, results of operations, and cash flows.

Bank indebtedness consists of secured and unsecured borrowings from Industrial and Commercial Bank of China Limited, ICBC Jinhua Economic Exploration Zone Branch, Shanghai Pudong Development Bank, and Commercial Bank, Jiangnan Branch.

Other indebtedness includes short-time loans, and loans from individuals.

Off-balance Sheet Arrangements

Other than the arrangement described above, we have not entered into any other financial guarantees or other commitments to guarantee the payment obligations of any third parties. We have not entered into any derivative contracts that are indexed to our shares and classified as shareholder's equity or that are not reflected in our consolidated financial statements. Furthermore, we do not have any retained or contingent interest in assets transferred to an unconsolidated entity that serves as credit, liquidity or market risk support to such entity. We do not have any variable interest in any unconsolidated entity that provides financing, liquidity, market risk or credit support to us or engages in leasing, hedging or research and development services with us.

Related Party Transactions

For a description of our related party transactions, please see the section of this Current Report entitled "Certain Relationships and Related Transactions."

Accounting Policies

Revenue Recognition

Revenue represents the invoiced value of goods sold, recognized upon the shipment of goods to customers. Revenue is recognized when all of the following criteria are met:

-
- Persuasive evidence of an arrangement exists,
-
- Delivery has occurred or services have been rendered,
-
- The seller's price to the buyer is fixed or determinable, and
-
- Collectibility is reasonably assured.

The Company does not provide any warranty for the goods sold to customers.

Use of Estimates

The preparation of the consolidated financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods.

Management makes these estimates using the best information available at the time the estimates are made. Actual results could differ materially from those estimates.

Recent Accounting Pronouncements

In June 2006, the Financial Accounting Standards Board ("FASB") issued FIN 48, "Accounting for Uncertainty in Income Taxes--an interpretation of FASB Statement No. 109," which seeks to reduce the diversity in practice associated with the accounting and reporting for uncertainty in income tax positions. This Interpretation prescribes a comprehensive model for the financial statement recognition, measurement, presentation and disclosure of uncertain tax positions taken or expected to be taken in an income tax return. FIN 48 presents a two-step process for evaluating a tax position. The first step is to determine whether it is more-likely-than-not that a tax position will be sustained upon examination, based on the technical merits of the position. The second step is to measure the benefit to be recorded from tax positions that meet the more-likely-than-not recognition threshold, by determining the largest amount of tax benefit that is greater than 50 percent likely of being realized upon ultimate settlement, and recognizing that amount in the financial statements. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company is currently evaluating the impact that the adoption of FIN 48 will have on its results of operations, financial position, and cash flows.

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements," which provides enhanced guidance for using fair value to measure assets and liabilities. SFAS No. 157 provides a common definition of fair value and establishes a framework to make the measurement of fair value in generally accepted accounting principles more consistent and comparable. SFAS No. 157 also requires expanded disclosures to provide information about the extent to which fair value is used to measure assets and liabilities, the methods and assumptions used to measure fair value, and the effect of fair value measures on earnings. SFAS No. 157 is effective for financial statements issued in fiscal years beginning after November 15, 2007 and to interim periods within those fiscal years. The Company is currently in the process of evaluating the effect, if any, the adoption of SFAS No. 157 will have on its results of operations, financial position, or cash flows.

In September 2006, the Securities and Exchange Commission issued Staff Accounting Bulletin ("SAB") No. 108, "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements". SAB No. 108 was issued in order to eliminate the diversity in practice surrounding how public companies quantify financial statement misstatements. SAB No. 108 requires that registrants quantify errors using both a balance sheet (iron curtain) approach and an income statement (rollover) approach then evaluate whether either approach results in a misstated amount that, when all relevant quantitative and qualitative factors are considered, is material. SAB No. 108 is effective for fiscal years ending after November 15, 2006. The Company has adopted the bulletin during 2006. The adoption did not have a material effect on results of operations, financial position, or cash flows.

In February 2007, the FASB issued FASB Statement No. 159, The Fair Value Option for Financial Assets and Financial Liabilities -- Including an amendment of FASB Statement No. 115 ("FAS 159"). FAS 159, which becomes effective for the Company on January 1, 2008. This standard permits companies to choose to measure many financial instruments and certain other items at fair value and report unrealized gains and losses in earnings. Such accounting is optional and is generally to be applied instrument by instrument. The Company does not anticipate that election, if any, of this fair-value option will have a material effect on the consolidated results or operations or financial position.

The implementation of the above pronouncement is not expected to have a material effect on the Company's consolidated financial statements or disclosures.

Off-Balance Sheet Arrangements

We have no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to stockholders.

Item 3. Controls and Procedures

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) and Rule 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended (Exchange Act), as of September 30, 2007. Based on this evaluation, our principal executive officer and principal financial officer have concluded that our controls and procedures are not effective in ensuring that the information required to be disclosed is recorded, processed, summarized and reported, within the time periods specified in the Commission's rule and forms and is accumulated and communicated to the Company's management, including its Chief Executive Officer (the principal executive officer) and Chief Financial Officer (the principal accounting and financial officer) as appropriate to allow timely decisions regarding required disclosure, due in particular to the lack of appropriate resources dedicated to external financial reporting. There have been no changes in our internal controls over financial reporting during the quarter ended September 30, 2007.

The Company will continue to monitor and evaluate the effectiveness of its disclosure controls and procedures and its internal controls over financial reporting on an ongoing basis and is committed to taking further action and implementing additional enhancements or improvements, as necessary. The Company is responsible for the effectiveness of its disclosure controls and procedures and will make the appropriate effort to comply with the requirements relating to internal controls and procedures.
