Item 1.01. Entry into a Material Definitive Agreement.

On August 30, 2010, Rowan Companies, Inc., a Delaware corporation (the “Company”), completed the public offering of \$400 million aggregate principal amount of 5% Senior Notes due 2017 (the “Notes”). The offer and sale of the Notes was registered with the Securities and Exchange Commission (the “Commission”) pursuant to the Company’s Registration Statement on Form S-3 (File No. 333-160579), which became effective upon filing with the Commission on July 15, 2009. The material terms of the offering are described in the prospectus supplement dated August 19, 2010, which was filed by the Company with the Commission on August 20, 2010.

The Notes constitute a new series of debt securities under an indenture dated as of July 21, 2009 (the “Base Indenture”), between the Company and U.S. Bank National Association, as trustee, as amended and supplemented by the second supplemental indenture dated as of August 30, 2010 (the “Second Supplemental Indenture”) between the Company and U.S. Bank National Association, setting forth the specific terms applicable to the Notes.

The information included in Item 2.03 of this Current Report on Form 8-K is incorporated by reference into this Item 1.01 of this Current Report on Form 8-K. The description of the Base Indenture and Second Supplemental Indenture contained in this Current Report on Form 8-K does not purport to be complete and is qualified in its entirety by reference to the full text of the Base Indenture and Second Supplemental Indenture, a copy of each filed herewith as Exhibits 4.1 and 4.2 and incorporated by reference herein.

Item 2.03 Creation of a Direct Financial Obligation or an Obligation Under an Off-Balance Sheet Arrangement of a Registrant.

On August 30, 2010, the Company successfully completed the issuance and sale of the Notes. Interest on the Notes is payable semi-annually on March 1 and September 1 of each year, commencing March 1, 2011. The Notes will mature on September 1, 2017. The Base Indenture, as amended and supplemented by the Second Supplemental Indenture, is referred to herein as the “Indenture.”

The Company intends to use the net proceeds from the offering of approximately \$395 million, after deducting the underwriting discount and estimated offering expenses, for general corporate purposes, including the potential repayment of indebtedness of Skeie Drilling & Production ASA.

The Company may, at its option, redeem all or part of the Notes at any time at a make-whole price. The Notes are the Company’s senior unsecured obligations and rank effectively junior to all existing and future secured debt, including indebtedness under the Company’s secured notes issued and guaranteed by the U.S. Department of Transportation’s Maritime Administration, or MARAD, pursuant to the provisions of Title XI of the Merchant Marine Act of 1936, as amended, with respect to the financing of several of the Company’s offshore drilling rigs, to the extent of the value of the Company’s assets constituting collateral securing such indebtedness. The Notes rank equally in right of payment with all of its existing and future unsecured debt that is not by its terms subordinated to the Notes, including any indebtedness under the Company’s senior revolving credit facility (other than letter of credit reimbursement obligations that are secured by cash deposits), and senior to any subordinated debt that the Company may incur. The Notes will not be guaranteed by any of the subsidiaries of the Company.

The following are events of default with respect to the Notes:

- (1) default in the payment of any interest upon the Notes when due and payable that continues for 30 days;
- (2) default in the payment of principal of or premium, if any, on the Notes when due at its maturity, declaration of acceleration, call for redemption or otherwise;

(3) default in the performance, or breach, of any covenant set forth in Article Ten of the Indenture (other than a covenant for which default or breach is specifically addressed within these events of default) that continues for 60 days after there has been given written notice from the trustee or holders of at least 25% in principal amount of the Notes outstanding specifying such default or breach and requiring it to be remedied and stating that such notice is a “Notice of Default” under the Indenture;

(4) default in the performance, or breach, of any covenant of the Indenture (other than a covenant in Article Ten of the Indenture and any other covenant for which default or breach is specifically addressed within these events of default) that continues for 120 days after there has been given written notice from the trustee or holders of at least 25% in principal amount of the Notes outstanding specifying such default or breach and requiring it to be remedied and stating that such notice is a “Notice of Default” under the Indenture;

(5) certain events of bankruptcy, insolvency or reorganization with respect to the Company;

(6) default in the deposit of any sinking fund payment when due; or

(7) default under any mortgage, indenture or instrument under which there may be issued or by which there may be secured or evidenced any current or future debt of the Company or any of its Significant Subsidiaries (as such term is defined in Article I, Rule 1-02(w) of Regulation S-X, promulgated pursuant to the Securities Act of 1933, as amended), or the payment of which is guaranteed by the Company or any of its Significant Subsidiaries, if such default (a) is caused by a failure to pay principal of or premium, if any, or interest on such debt prior to the expiration of the grace period for such debt on the date of such default, or payment default, or (b) results in the acceleration of such debt prior to its express maturity and in each case described in (a) or (b), the principal amount of such debt, together with the principal amount of any other such debt under which that has been a payment default or the maturity of which has been so accelerated, aggregates at least \$35.0 million.

---

If an event of default occurs and is continuing, the trustee or the holders of not less than 25% in principal amount of the Notes outstanding may declare the principal amount of the Notes to be due and payable. Upon such a declaration, such principal amount will become due and payable immediately. If an event of default relating to certain events of bankruptcy, insolvency or reorganization with respect to the Company occurs and is continuing, the principal amount of the Notes outstanding will become immediately due and payable without any declaration or other act on the part of the trustee or any holders of the Notes. Under certain circumstances, the holders of a majority in principal amount of the Notes outstanding may rescind any such acceleration with respect to the Notes and its consequences.

Item 7.01. Regulation FD Disclosure

The following information is furnished pursuant to Item 7.01:

The attached Exhibit 99.1 is a slide presentation that will be used with investors.

Item 9.01. Financial Statements and Exhibits
