GAAP EPS of US\$0.24, or Non-GAAP EPS of US\$0.19, Exceeds Consensus Estimates
GAAP Net Margin of 78.9%, or Non-GAAP Net Margin of 62.2%
Board Approves a New Round of Employee Incentive Stock Award

SHANGHAI, PRC — November 1, 2011 — Giant Interactive Group Inc. (NYSE: GA) (“Giant” or the “Company”), one of China’s leading online game developers and operators, announced today its unaudited financial results for the third fiscal quarter ended September 30, 2011.

Third Quarter 2011 Highlights:

Net revenue was RMB457.9 million (US\$71.8 million), an increase of 5.0% from the second quarter 2011 and an increase of 35.2% from the third quarter 2010.

Gross profit was RMB394.6 million (US\$61.9 million), an increase of 5.8% from the second quarter 2011 and an increase of 36.8% from the third quarter 2010. Gross profit margin for the third quarter 2011 was 86.2%.

Net income attributable to the Company’s shareholders was RMB361.3 million (US\$56.6 million), an increase of 3,452.1% from the second quarter 2011 and an increase of 73.1% from the third quarter 2010. The margin of net income attributable to the Company’s shareholders for the third quarter 2011 was 78.9%.

Basic and diluted earnings per American Depositary Share (“ADS”) or one ordinary share were RMB1.54 (US\$0.24) and RMB1.53 (US\$0.24), respectively, compared to basic and diluted earnings per ADS of RMB0.04 and RMB0.04, respectively, for the second quarter 2011, and basic and diluted earnings per ADS of RMB0.92 and RMB0.89, respectively, for the third quarter 2010.

Non-GAAP net income attributable to the Company’s shareholders excluding non-cash share-based compensation, recognition of additional deferred tax assets, and foreign exchange gains for payment of a special dividend, was RMB284.9 million (US\$44.7 million), an increase of 3.8% from the second quarter 2011 and an increase of 28.9% from the third quarter 2010. The margin of non-GAAP net income attributable to the Company’s shareholders excluding non-cash share-based compensation, recognition of additional deferred tax assets, and foreign exchange gains for payment of a special dividend, was 62.2%.

Basic and diluted non-GAAP earnings excluding non-cash share-based compensation, recognition of additional deferred tax assets, and foreign exchange gains for payment of a special dividend, per ADS were RMB1.22 (US\$0.19) and RMB1.21 (US\$0.19), respectively, compared to basic and diluted non-GAAP earnings per ADS of RMB1.19 and RMB1.17, respectively, for the second quarter 2011, and basic and diluted non-GAAP earnings per ADS of RMB0.97 and RMB0.95, respectively, for the third quarter 2010.

Active Paying Accounts (“APA”) for online games was 2,087,000, an increase of 4.7% from the second quarter 2011 and an increase of 39.4% from the third quarter 2010.

Average Revenue Per User (“ARPU”) for online games was RMB217.0, an increase of 2.5% from the second quarter 2011 and a decrease of 3.3% from the third quarter 2010.

FOR IMMEDIATE RELEASE

Average Concurrent Users (“ACU”) for online games was 661,000, an increase of 1.1% from the second quarter 2011 and an increase of 22.9% from the third quarter 2010.

Peak Concurrent Users (“PCU”) for online games was 2,297,000, an increase of 8.2% from the second quarter 2011 and an increase of 56.7% from the third quarter 2010.

Mr. Yuzhu Shi, Giant’s Chairman and Chief Executive Officer commented, “We are pleased to report another quarter of continued top- and bottom-line growth. The strong performance of our core online games was highlighted by our new flagship game ZT Online 2 which launched open beta testing in September and reached a new high of over 435,000 PCU. This achievement, along with the game’s consistent growth throughout 2011, demonstrates the strength of our internal game development capabilities in an increasingly competitive environment. The Chinese online game industry continues to grow, and our core competency, hardcore MMORPGs, remains the most profitable genre of games. While capitalizing on these industry-wide growth trends, we also continue to diversify our product portfolio. During the fourth quarter 2011, we plan to introduce our first action casual game, Elsword, which was licensed from South Korea. In addition to MMORPGs, we have also initiated additional internal web game projects and are preparing our self-developed first-person-shooter game. We will continue to focus on making innovative and fun games, and we believe these new projects will help further diversify our user base going forward.”

“People are the life of our company and we have been doing an excellent job in retaining our key employees since the inception of the company. In an effort to continue to attract and retain our key employees and particularly the best R&D talents, our board of directors has approved the issuance of additional restricted shares and the repricing of the existing options due to the recent decrease in the Company’s share price following our special cash dividend.”

Mr. Shi continued, “After the payment of the US\$3 per share special cash dividend, we still have approximately US\$300 million in cash on our balance sheet as of September 30, 2011, providing us with significant flexibility to finance our daily operations and to fund potential future investments. We will continue to look for investment opportunities in the Chinese online game industry that complement our existing products and services, such as developers of web, social, and mobile games, as well as opportunities in overseas online game markets. With our strong and growing online game business, high profitability and healthy cash flows, we are confident about our future prospects.”

Third Quarter Fiscal 2011 Unaudited Financial Results

Net Revenue. Net revenue for the third quarter 2011 was RMB457.9 million (US\$71.8 million), representing a 5.0% increase from RMB436.2 million in the second quarter 2011 and a 35.2% increase from RMB338.7 million in the third quarter 2010.

Revenue from online games in the third quarter totaled RMB443.9 million (US\$69.6 million), representing a 7.4% increase from RMB413.4 million in the second quarter 2011 and a 35.6% increase from RMB327.4 million in the third quarter 2010. Online game net revenue increased sequentially primarily due to the growth of ZT Online 2 after the commencement of official closed beta testing with marketing campaigns during the second quarter 2011 and open beta testing towards the end of the third quarter 2011. The year-over-year quarterly increase was primarily due to the growth of ZT Online 2 and the ZT Online 1 Series, which primarily includes - ZT Online, ZT Online Green Edition, and ZT Online Classic Edition.

FOR IMMEDIATE RELEASE

ACU for the Company's online games in the third quarter 2011 was 661,000, representing a 1.1% sequential increase compared to the second quarter of 2011 and a 22.9% increase over the third quarter 2010. PCU for the Company's online games in the third quarter 2011 was 2,297,000, representing an 8.2% sequential increase and a 56.7% increase over the third quarter 2010. The ACU and PCU increases on a sequential basis were due to the continued ramp up of ZT Online 2, while the year-over-year increases in ACU and PCU were due to the continued growth of ZT Online 1 Series and ZT Online 2. ARPU for the Company's online games in the third quarter 2011 increased 2.5% sequentially and decreased 3.3% from the third quarter of 2010 to RMB217.0. ARPU fluctuated sequentially and year-over-year, but remained at lower than historic levels as Giant's newer games target a wider variety of audiences with a broader range of spending habits. APA for the Company's online games in the third quarter 2011 increased 4.7% sequentially and increased 39.4% from the third quarter 2010 to 2,087,000. The sequential increase in APA was due to the growth of ZT Online 2, while the year-over-year increase in APA was attributable to the increase in paying accounts within the Company's ZT Online 1 Series and ZT Online 2 games.

Cost of Services. Cost of services was RMB63.3 million (US\$9.9 million), representing a decrease of 0.1% from the second quarter 2011 and a 26.1% increase from the third quarter 2010. While the third quarter 2011 online game revenue increased, cost of services remained flat compared to the previous quarter due to effective cost controls. The increase in cost of services in the third quarter 2011 as compared with the same quarter last year was primarily due to the incremental operational costs mainly related to the growth of ZT Online 1 Series and ZT Online 2 games.

Gross Profit and Gross Margin. Gross profit for the third quarter 2011 was RMB394.6 million (US\$61.9 million), representing a 5.8% sequential increase and a 36.8% from the third quarter 2010. Gross margin for the third quarter 2011 was 86.2%, which is an increase from 85.5% in the second quarter 2011 and 85.2% in the third quarter 2010.

Operating Expenses. Total operating expenses for the third quarter 2011 were RMB113.7 million (US\$17.8 million), representing a decrease of 2.8% from RMB117.0 million in the second quarter 2011 and an increase of 20.6% from RMB94.3 million in the third quarter 2010. The year-over-year quarterly increase in operating expenses is mainly attributable to the marketing expenses for ZT Online 2 and XT Online.

Research and product development ("R&D") expenses for the third quarter 2011 decreased 17.7% sequentially to RMB48.9 million (US\$7.7 million) from RMB59.4 million in the second quarter 2011 and decreased 7.0% from RMB52.6 million in the third quarter 2010. The sequential and year-over-year decreases in R&D expenses were mainly due to higher bonuses accrued in the preceding quarter and in the same quarter last year.

Sales and marketing expenses were RMB49.6 million (US\$7.8 million) in the third quarter 2011, representing a sequential increase of 23.9% from RMB40.1 million in the second quarter 2011, and an increase of 32.6% from RMB37.4 million in the third quarter 2010. The sequential and year-over-year quarterly increases were due to marketing campaigns for the open beta testing of ZT Online 2 and XT Online during the third quarter 2011.

FOR IMMEDIATE RELEASE

General and administrative expenses (“G&A”) for the third quarter 2011 were RMB25.2 million (US\$3.9 million), down 8.4% from RMB27.5 million in the second quarter 2011, and down 25.3% from RMB33.7 million in the third quarter 2010. The sequential decrease was mainly due to higher G&A expenses caused by the relocation to a new office building and related maintenance expenses incurred during the second quarter 2011. The year-over-year quarterly decrease was mainly caused by incremental compensation expenses recorded in the third quarter 2010 in connection with the repricing of certain incentive based share options and the Company’s granting of restricted shares to certain select employees and management members.

Financial Incentive. In the third quarter 2011, the financial incentive, which mainly relates to sales tax refunds received from the municipal government, remained flat compared to last quarter at RMB10.0 million (US\$1.6 million). This refund mainly relates to the sales tax accounted for in the Company’s cost of services and is treated as a deduction in operating expenses.

Interest Income. Interest income for the third quarter 2011 was RMB39.5 million (US\$6.2 million), compared to RMB41.1 million in the second quarter 2011 and RMB37.1 million in the third quarter 2010.

Income Tax. Income tax benefit for the third quarter 2011 was RMB19.3 million (US\$3.0 million), compared to income tax expense of RMB286.5 million in the second quarter 2011 and income tax expense of RMB21.8 million in the third quarter 2010. Income tax expense decreased significantly both sequentially and year-over-year due to (a) a one-time withholding tax accrued in the second quarter 2011 in connection with the repatriation of cash for a special cash dividend paid during the third quarter 2011, and (b) the recognition of RMB63.0 million in deferred tax assets (an increase in deferred tax asset on the balance sheet and a corresponding income tax benefit on the income statement).

Net Income Attributable to the Company’s Shareholders. Net income attributable to the Company’s shareholders for the third quarter 2011 was RMB361.3 million (US\$56.6 million), an increase of 3,452.1% from RMB10.2 million in the second quarter 2011 and an increase of 73.1% from RMB208.7 million in the third quarter 2010. Net income attributable to the Company’s shareholders increased sequentially and year-over-year due to (a) the increase in online game revenue, (b) effective cost control that caused operating expenses to decrease sequentially and to increase at a slower rate than the increase of net revenue on a year-over-year quarterly basis, (c) an increase in other income of RMB25.6 million which was mostly due to foreign exchange gains as we obtained a more favorable exchange rate for the repatriation of cash for a special cash dividend paid during the third quarter 2011, and (d) a significant decrease in income tax expense. The margin of net income attributable to the Company’s shareholders was 78.9% for the third quarter 2011, compared to 2.3% in the second quarter 2011 and 61.6% in the third quarter 2010.

Cash, Cash Equivalents and Short-Term Investments. As of September 30, 2011, Giant’s cash, cash equivalents and short-term investments totaled RMB1,914.8 million (US\$300.2 million), compared to RMB5,218.7 million as of June 30, 2011. The sequential decrease was primarily due to the payment of a significant special cash dividend of US\$707.9 million in September 2011.

FOR IMMEDIATE RELEASE

Business Highlights and Outlook

ZT Online 1 Series — During the third quarter 2011, Giant released a new ZT Online expansion pack to introduce various new gameplay features and in-game activities, such as a unique PK and ranking server. ZT Online Classic Edition also introduced a selection of new gameplay features, such as border battles and mount ornaments. The Company plans to release an expansion pack for ZT Online Classic Edition in the fourth quarter 2011. ZT Online Green Edition celebrated its second anniversary by introducing new functions in an expansion pack released during the third quarter 2011.

ZT Online 2 — Giant commenced open beta testing for its second flagship game, ZT Online 2, on September 16, 2011 and reached over 435,000 PCU. To prepare for the open beta testing, the Company gathered a large quantity of feedback from gamers and industry media during the closed beta testing in the second quarter and then enhanced the game based on the feedback. New features included both PK-oriented and community-based functions, such as improvements in large-scale PK battles, in-game voice chat, casual mini-games, and the in-game micro-blog system. The Company will continue to adjust existing gameplay features according to user preferences and feedback.

Giant Online — During the third quarter 2011, Giant released a new player-versus-environment dungeon and continued to enhance and expand existing player-versus-player dungeons. The newly added functions facilitated more interactions among gamers and kept them engaged in the game. The Company plans to introduce a new expansion pack in the fourth quarter 2011.

XT Online — The Company initiated open beta testing for XT Online in September 2011 and has gained positive feedback from users. Giant will continue to enhance the game and plans to release the first expansion pack in December 2011.

The Golden Land — During the third quarter 2011, Giant incorporated new gameplay features into The Golden Land and continued to optimize previously released functions. The Korean version commenced open beta testing in September 2011 and has been well-received by Korean gamers. The Golden Land remains popular in Taiwan and Japan. The U.S. and European versions are expected to enter open beta testing in October 2011, while localization is underway for the Spanish and Russian versions, with closed beta testing expected to commence in the fourth quarter 2011 in these regions.

Spirits of the Warriors — Spirits of the Warriors is a self-developed 3D MMORPG based on the Three Kingdoms period in ancient Chinese history. During the third quarter 2011, the Company conducted the second round of engineering testing, the purpose of which is to test the gameplay features and modify the game based on user feedback. The Company plans to continue testing and fine tuning the game in preparation for its commercial launch in 2012.

Elsword —Elsword is a 3D side-scrolling, action casual game developed by KOG Co., LTD. of South Korea. During the third quarter 2011, the Company conducted the last round of engineering testing. The closed beta testing is scheduled to commence in November 2011.

FOR IMMEDIATE RELEASE

Allods Online — Allods Online is a 3D free-to-play MMORPG developed by Astrum Nival, LLC, a game studio owned by Mail.Ru Inc. of Russia. The Company initialized a two-week long engineering testing during the third quarter 2011 and received positive feedback from gamers and media. The game is undergoing further optimization and a new round of engineering testing is planned for the fourth quarter 2011.

Option Repricing and Restricted Share Grants — At a meeting held on Monday, October 31, 2011, the Company's board of directors approved an amendment to the Company's 2007 Performance Incentive Plan (the "2007 Plan") to increase the number of ordinary shares available for issuance under such plan by 13,000,000 ordinary shares to a total of 23,700,000 ordinary shares, and authorized the issuance of up to 14,000,000 restricted shares to certain select employees and management members of the Company pursuant to the 2007 Plan and subject to a five year vesting schedule. In addition, in light of the recent decrease in the Company's share price following the payment of a special cash dividend to its shareholders in September 2011, the board of directors approved the amendments of 1,098,600 stock options previously granted under the 2007 Plan to establish a new exercise price for such stock options equal to US\$4.07 per ADS, which was the closing price of the Company's ADSs on Friday, October 28, 2011.

Fourth Quarter 2011 Guidance — For the fourth quarter 2011, the Company expects ZT Online 2 to continue to grow following its open beta testing at the end of the third quarter. As a result, the Company expects continued top-line growth in the fourth quarter 2011.
