Item 4.02 Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review.

On November 6, 2012, pursuant to a comment letter issued by the Staff of the Securities and Exchange Commission (the "SEC") relating to the Form 10-Q for the three and six months ended June 30, 2012 ("Form 10-Q") filed by usell.com, Inc. (the "Company"), management of the Company, after discussions with the Company's independent registered public accounting firm and the Staff of the SEC, concluded that the previously-issued consolidated financial statements for the three and six months ended June 30, 2012 contained in the Company's Form 10-Q (the "Financial Statements") should no longer be relied upon based on the restatement described below.

The discussions with the Staff of the SEC related to a grant of 2,500,000 fully vested shares of common stock to the Company's then Co-Chairman that was recorded as a prepaid expense on the Company's balance sheet which was being amortized over a one-year period for services to be provided to the Company. The Company believed that even though the shares were vested, the services were not yet provided and should be capitalized and amortized over the one year service term.

Following discussions with the Staff of the SEC, the Company's management recommended to the Company's Audit Committee that the Company restate the previously issued Financial Statements to remove the prepaid asset and expense the full amount of the vested stock grant as of June 20, 2012. The Audit Committee approved the restatement on November 6, 2012.

The resulting effect of the restatement in the second quarter is: (1) a decrease in prepaid expenses and other current assets of \$459,375, (2) an increase of \$459,375 in general and administrative expenses, (3) an increase of \$459,375 in net loss (increase of \$0.04 and \$0.05 loss per share for the three and six months ended June 30, 2012, respectively), and (4) an increase in total stockholders' deficit of \$459,375. There was also an increase in stock based compensation expense on the statement of cash flow of \$459,375 and a corresponding increase in net loss resulting in no net change of cash used in operating activities.
