NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2012 (UNAUDITED)

NOTE 1 ORGANIZATION AND ACCOUNTING POLICIES

UMH Properties, Inc. (we , our , us or the Company) owns and operates forty-one manufactured home communities containing approximately 9,000 developed homesites. The communities are located in New Jersey, New York, Ohio, Pennsylvania, Tennessee and Indiana. The Company, through its wholly-owned taxable subsidiary, UMH Sales and Finance, Inc. (S&F), conducts manufactured home sales in its communities. S&F was established to enhance the occupancy of the communities. The consolidated financial statements of the Company include S&F and all of its other wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation. The Company also invests in securities of other REITs.

The Company has elected to be taxed as a real estate investment trust (REIT) under Sections 856-860 of the Internal Revenue Code (the Code), and intends to maintain its qualification as a REIT in the future. As a qualified REIT, with limited exceptions, the Company will not be taxed under Federal and certain state income tax laws at the corporate level on taxable income that it distributes to its shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code. The Company is subject to franchise taxes in some of the states in which the Company owns property.

The interim consolidated financial statements furnished herein have been prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP) applicable to interim financial information, the instructions to Form 10-Q, and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by US GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months ended March 31, 2012 are not necessarily indicative of the results that may be expected for the year ending December 31, 2012. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2011.

Use of Estimates

In preparing the consolidated financial statements in accordance with US GAAP, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as contingent assets and liabilities as of the dates of the consolidated balance sheets and revenue and expenses for the years then ended. Actual

results could differ significantly from these estimates and assumptions.

Stock Based Compensation

The Company accounts for awards of stock options and restricted stock in accordance

with ASC 718-10, Compensation-Stock Compensation. ASC 718-10 requires that compensation cost for all stock awards be calculated and amortized over the service period (generally equal to the vesting period). The compensation cost for stock option grants is determined using option pricing models, intended to estimate the fair value of the awards at the grant date less estimated forfeitures. The compensation expense for restricted stock is recognized based on the fair value of the restricted stock awards less estimated forfeitures. The fair value of restricted stock awards is equal to the fair value of the Company's stock on the grant date. Compensation costs of \$107,972 and \$49,200 have been recognized for the three months ended March 31, 2012 and 2011, respectively.

On January 19, 2012, the Company awarded to Samuel A. Landy a restricted stock award of 25,000 shares in accordance with his employment agreement. The grant date fair value of this restricted stock grant was \$239,000. This grant vests over 5 years.

As of March 31, 2012, there were options outstanding to purchase 725,000 shares and 632,188 shares were available for grant under the Company's 2003 Stock Option and Stock Award Plan, as amended. As of March 31, 2011, there were options outstanding to purchase 731,000 shares and 735,188 shares were available for grant under the Company's 2003 Stock Option and Stock Award Plan, as amended.

Derivative Instruments and Hedging Activities

In the normal course of business, the Company is exposed to financial market risks, including interest rate risk on our variable rate debt. We attempt to limit these risks by following established risk management policies, procedures and strategies, including the use of derivative financial instruments. We do not use derivative financial instruments for trading or speculative purposes.

On February 2, 2012, the Company entered into an interest rate swap agreement that has the effect of fixing interest rates relative to a specific mortgage loan as follows:

<u>Mortgage</u>	<u>Due Date</u>	<u>Mortgage</u>		<u>Balance</u> <u>3/31/12</u>
		<u>Interest Rate</u>	<u>Effective</u> <u>Fixed Rate</u>	
Allentown/Clinton	2/1/2017	LIBOR + 3.25%	4.39%	\$11,347,774

The Company's interest rate swap is based upon 30-day LIBOR. The repricing and scheduled maturity dates, payment dates, index and the notional amounts of the interest rate swap agreements coincide with those of the underlying mortgage. The interest rate swap agreement is net settled monthly. The Company has designated this derivative as a cash flow hedge and has recorded the fair value on the balance sheet in accordance with ASC 815, Derivatives and Hedging (See Note 7 for information on the determination of fair value). The effective portion of the gain or loss on this hedge will be reported as a component of Accumulated Other Comprehensive Income in our Consolidated Balance Sheets. To the extent that the hedging relationship is not effective or do not qualify as a cash flow hedge, the ineffective portion is recorded in interest expense. Hedges that received designated hedge accounting treatment are evaluated for effectiveness at the time that

they are designated as well as through the hedging period. As of March 31, 2012, the Company has determined that this interest rate swap agreement is highly effective as a cash flow hedge. As a result, the fair value of this derivative of (\$29,892) was recorded as a component of Accumulated Other Comprehensive Income, with the corresponding liability included in Accrued Liabilities and Deposits.

Recent Accounting Pronouncements

In May 2011, the FASB issued ASU 2011-04, Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs. The pronouncement was issued to provide a uniform framework for fair value measurements and related disclosures between U.S. GAAP and IFRS. ASU 2011-04 changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. This pronouncement is effective for interim and annual reporting periods beginning after December 15, 2011. The adoption of ASU 2011-04 did not have a material impact on our financial position, results of operations or cash flows.

In June 2011, the FASB issued ASU 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income. ASU 2011-05 allows an entity the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In both choices, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income, and a total amount for comprehensive income. ASU 2011-05 eliminates the option to present the components of other comprehensive income as part of the statement of changes in stockholders' equity. The amendments to the Codification in the ASU do not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income and are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. In December 2011, the FASB issued ASU 2011-12, Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05. The provisions of ASU 2011-12 indefinitely defer portions of ASU 2011-05 related to the presentation of reclassifications of items out of accumulated other comprehensive income. The adoption of ASU 2011-05 and ASU 2011-12 did not have a material impact on our financial position, results of operations or cash flows.

NOTE 2 NET INCOME PER SHARE

Basic net income per share is calculated by dividing net income by the weighted average shares outstanding for the period. Diluted net income per share is calculated by dividing net income by the weighted average number of common shares outstanding plus the weighted average number of net shares that would be issued upon exercise of stock options pursuant to the treasury stock method. Options in the amount of 58,292 and 58,658 shares for the three

months ended March 31, 2012 and 2011, respectively, are included in the diluted weighted average shares outstanding. As of March 31, 2012 and 2011, options to purchase 522,000 and 518,000

shares, respectively, were antidilutive.

NOTE 3 INVESTMENT PROPERTY AND EQUIPMENT

On January 12, 2012, the Company acquired Countryside Estates, a 90-site manufactured home community situated on approximately 64 acres, located in Muncie, Indiana, for a purchase price of \$2,100,000. This community was originally licensed for over 200 sites and is being built in phases. Upon completion, it will ultimately be approximately 200-210 sites.

Accounting Standards Codification (ASC) 805-10, Business Combinations, requires most identifiable assets, liabilities, noncontrolling interests and goodwill acquired in a business combination to be recorded at full fair value.

Accordingly, acquisition costs incurred, which would have previously been capitalized, are expensed currently. The Company has recognized \$82,657 and \$-0- in professional fees and other acquisition costs in our results of operations for the three months ended March 31, 2012 and 2011, respectively.

NOTE 4 SECURITIES AVAILABLE FOR SALE

During the quarter ended March 31, 2012, the Company sold securities with an adjusted cost of \$3,211,439 and recognized a gain on sale of \$1,212,712. The Company also made purchases of \$3,483,571 in securities available for sale.

As of March 31, 2012, the Company had eight securities that were temporarily impaired. The Company considers many factors in determining whether a security is other than temporarily impaired, including the nature of the security and the cause, severity and duration of the impairment. The following is a summary of temporarily impaired securities at March 31, 2012:

	Less Than 12 Months		12 Months or Longer

The Company has determined that these securities are temporarily impaired as of March 31, 2012. The Company normally holds REIT securities long term and has the ability and intent to hold securities to recovery. As of March 31, 2012, the Company had total net unrealized gains of \$6,551,894 in its REIT securities portfolio.

The Company has an investment in one common security which was at a loss of 38% as of December 31, 2011. This security has increased in value and was at a loss of 29% as of March 31, 2012. The Company believes that this security is temporarily impaired. The Company continues to monitor this security for other than temporary impairment under its policy.

NOTE 5 LOANS AND MORTGAGES PAYABLE

On February 2, 2012, the Company obtained an \$11,400,000 mortgage on Allentown and Clinton Mobile Home Resort from Bank of America, N.A. This mortgage is at a variable rate of LIBOR plus 3.25% and matures on February 1, 2017. The Company may extend this mortgage for an additional two years. To eliminate the variability of the interest expense, the Company simultaneously entered into an interest rate swap agreement, having identical terms to the mortgage, with Bank of America, N.A. This results in a net fixed interest rate on the mortgage of 4.39%.

On February 28, 2012, the Company repaid its 7.36% mortgage on Port Royal Village in the amount of approximately \$4,700,000.

NOTE 6 - SHAREHOLDERS EQUITY

On March 2, 2012, the Company transferred the listing of its common and preferred stock to the New York Stock Exchange (NYSE) from the NYSE Amex. The Company has retained its stock tickers (NYSE: UMH) for the common shares and (NYSE: UMH Pr A) for the preferred shares.

NOTE 7 - FAIR VALUE MEASUREMENTS

Included in accrued liability and deposits

The Company is required to disclose certain information about fair values of financial instruments, as defined in ASC 825-10, Financial Instruments. Estimates of fair value are made at a

14

specific point in time, based upon, where available, relevant market prices and information about the financial instrument. Such estimates do not include any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. All of the Company's securities available for sale have quoted market prices and are therefore classified in Level 1 of the fair value hierarchy. A quoted market price is indirectly available for our interest rate swap. This price is determined using widely accepted valuation techniques, including discounted cash flow analysis on the expected cash flows, and reflects the contractual terms of the derivative, including the period to maturity, and uses observable market-based inputs. As such, we have determined that the valuation of this interest rate swap is classified in Level 2 of the fair value hierarchy.

For a portion of the Company's other financial instruments, no quoted market value exists. Therefore, estimates of fair value are necessarily based on a number of significant assumptions (many of which involve events outside the control of management). Such assumptions include assessments of current economic conditions, perceived risks associated with these financial instruments and their counterparties, future expected loss experience and other factors. Given the uncertainties surrounding these assumptions, the reported fair values represent estimates only and, therefore, cannot be compared to the historical accounting model. Use of different assumptions or methodologies is likely to result in significantly different fair value estimates.

The fair value of cash and cash equivalents and notes receivables approximates their current carrying amounts since all such items are short-term in nature. The fair value of variable rate mortgages payable and loans payable approximate their current carrying amounts since such amounts payable are at approximately a weighted-average current market rate of interest. As of March 31, 2012, the fair and carrying value of fixed rate mortgages payable amounted to \$94,963,567 and \$96,307,346, respectively. The fair value of mortgages payable is estimated based upon discounted cash flows at current market rates for instruments with similar remaining terms.

NOTE 8 - CONTINGENCIES AND COMMITMENTS

From time to time, the Company may be subject to claims and litigation in the ordinary course of business. Management does not believe that any such claim or litigation will have a material adverse effect on the financial position or results of operations.

On March 21, 2012, the Company entered into a definitive agreement to acquire eleven manufactured home communities, ten located in Pennsylvania and one located in New York. These all-age communities total 966 developed homesites situated on 200 acres. The average occupancy for these communities is approximately 92%. The aggregate purchase price to be paid in this transaction is approximately \$28.25 million. The transaction is expected to be completed during the third quarter of 2012. This acquisition is subject to due diligence and other customary closing conditions and therefore there can be no assurance that this acquisition will take place by the end of the third quarter 2012 or at all.

ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and notes thereto included elsewhere herein and in our annual report on Form 10-K for the year ended December 31, 2011.

The Company is a self-administered, self-managed, real estate investment trust (REIT) with headquarters in Freehold, New Jersey. The Company's primary business is the ownership and operation of manufactured home communities leasing manufactured home spaces on a month-to-month basis to private manufactured home owners. The Company also leases homes to residents and, through, its taxable REIT subsidiary, UMH Sales and Finance, Inc. (S&F) sells and finances homes to residents and prospective residents of our communities. The Company owns forty-one communities containing approximately 9,000 developed homesites. These communities are located in New Jersey, New York, Ohio, Pennsylvania, Tennessee and Indiana. The Company also invests in securities of other REITs.

The Company's income primarily consists of rental and related income from the operation of its manufactured home communities. Income also includes sales of manufactured homes.

Although current economic indicators show the US economy to be improving, the rate of recovery has been much slower than anticipated. Conventional home ownership rates continue to fall. However, activity in our communities has recently increased. We have seen an increase in sales during the first quarter. We are also seeing increased demand for rental units and since the first quarter of 2011, have added a net of approximately 140 rental units to selected communities. Occupied rental units represent approximately 14% of total occupied sites at quarter end. We hope to convert renters to new homeowners in the future.

The Company also holds a portfolio of securities of other REITs with a fair value of \$47,660,935 at March 31, 2012, which earns dividend and interest income. The dividends received from our securities investments were at a weighted-average yield of approximately 6.7% as of March 31, 2012. During the quarter ended March 31, 2012, the Company recognized gains on sales of securities of \$1,212,712. At March 31, 2012, the Company had net unrealized gains of \$6,551,894 in its REIT securities portfolio. The Company invests in REIT securities on margin from time to time when the Company can achieve an adequate yield spread. The REIT securities portfolio provides the Company with liquidity and additional income and serves as a proxy for real property investments.

The Company intends to continue to increase its real estate investments. Over the past two years, we added twelve manufactured home communities, encompassing approximately 2,100 developed homesites, to our portfolio. We have been positioning ourselves for future growth and will continue to seek opportunistic investments. On January 12, 2012, we acquired Countryside Estates, a 90-site manufactured home community situated on approximately 64 acres, located in Muncie, Indiana, for a purchase price of \$2,100,000. This community was originally licensed for over 200 sites and is being built in phases. Upon completion, it will ultimately be approximately 200-210 sites. In March, 2012, we entered into an agreement to acquire eleven manufactured home communities, ten located in Pennsylvania and one located in New York. These all-age communities total 966 developed homesites situated on 200 acres. The average occupancy for these communities is approximately 92%. The aggregate purchase price to be paid in this transaction is approximately \$28.25 million. The transaction is expected to be completed during the third quarter of 2012. This acquisition is subject to due diligence and other customary closing conditions and therefore there can be no assurance that this acquisition will take place by the end of the third quarter 2012 or at all.

On April 10, 2012, the Company issued 1,075,000 shares of its 8.25% Series A Cumulative Redeemable Preferred Stock at an offering price of \$25.292 per share in an underwritten public offering. The Company received net proceeds from the offering of approximately \$26.1 million and intends to use the net proceeds to purchase additional properties, including its pending acquisition, and for other general corporate purposes.

See PART I, Item 1 Business in the Company's 2011 annual report on Form 10-K for a more complete discussion of the economic and industry-wide factors relevant to the Company and the opportunities and challenges, and risks on which the Company is focused.

Changes In Results Of Operations

Rental and related income increased 10% from \$7,930,210 for the quarter ended March 31, 2011 to \$8,760,043 for the quarter ended March 31, 2012. This was primarily due to the acquisitions made during 2011 and the first quarter of 2012, and an increase in rental home income. Occupancy remained relatively stable at 77%.

Sales of manufactured homes amounted to \$2,130,903 and \$1,086,244 for the quarters ended March 31, 2012 and 2011, respectively. Cost of sales of manufactured homes amounted to \$1,972,326 and \$984,371 for the quarters ended March 31, 2012 and 2011, respectively. Selling expenses amounted to \$431,063 and \$385,096 for the quarters ended March 31, 2012 and 2011, respectively. These increases are directly attributable to the increase in sales. Loss from the sales operations (defined as sales of manufactured homes less cost of sales of manufactured homes less selling expenses) amounted to \$272,486 or 13% of total sales, and \$283,223 or 26% of total sales for the quarters ended March 31, 2012 and 2011, respectively. The gross profit was 7% and 9% for the quarters ended March 31, 2012 and 2011, respectively. Activity in our communities has increased. The Company believes that sales of new homes produces new rental revenue and is an investment in the upgrading of the communities.

Community operating expenses increased 13% from \$4,234,976 for the quarter ended

19

March 31, 2011 to \$4,794,270 for the quarter ended March 31, 2012. This was primarily due to the acquisitions made during 2011 and the first quarter of 2012 and an increase in personnel and related costs. General and administrative expenses increased 30% from \$966,053 for the quarter ended March 31, 2011 to \$1,254,094 for the quarter ended March 31, 2012. This was primarily due to an increase in compensation and related costs. Acquisition costs relate to transaction and due diligence costs associated with the acquisitions of the communities. Depreciation expense increased 15% from \$1,395,634 for the quarter ended March 31, 2011 to \$1,609,291 for the quarter ended March 31, 2012. This was primarily due to the acquisitions made during 2011 and the first quarter of 2012. Amortization of financing costs remained relatively stable for the quarter ended March 31, 2012 as compared to the quarter ended March 31, 2011.

Interest and dividend income increased 20% from \$1,043,215 for the quarter ended March 31, 2011 to \$1,254,815 for the quarter ended March 31, 2012 primarily due to an increase in securities available for sale. The average balance of the securities portfolio was approximately \$45,500,000 and \$29,700,000 at March 31, 2012 and 2011, respectively.

Gain on securities transactions, net amounted to \$1,212,712 and \$1,541,856 for the quarter ended March 31, 2012 and 2011, respectively. The market for REIT securities has continued to improve. At March 31, 2012, the Company had net unrealized gains of \$6,551,894 in its REIT securities portfolio. The dividends received from our securities investments continue to meet our expectations. It is our intent to hold these securities long-term.

Interest expense remained relatively stable for the quarter ended March 31, 2012 as compared to the quarter ended March 31, 2011.

Changes in Financial Condition

Total investment property and equipment increased 2% or \$4,429,500 during the quarter ended March 31, 2012. This increase was primarily due to the acquisition of Countryside Estates for a purchase price of \$2,100,000. The Company also added approximately 140 rental units.

Securities available for sale increased 10% or \$4,362,721 during the quarter ended March 31, 2012. The increase was primarily due to an increase in the unrealized gain of \$4,090,589. During the quarter, the Company also purchased \$3,483,571 of securities available for sale, which was offset by sales with an adjusted cost of \$3,211,439.

Inventory of manufactured homes decreased 6% or \$650,283 during the quarter ended March 31, 2012 primarily due to the increase in sales. Because conventional home ownership rates continue to decline, the Company is optimistic about future sales and rental prospects.

Mortgages payable increased 7% or \$6,025,336 during the quarter ended March 31, 2012. This increase was due to a new \$11,400,000 mortgage partially offset by principal repayments of \$5,374,664, including the payoff of our mortgage on Port Royal Village in the amount of approximately \$4,700,000.

Loans payable decreased 26% or \$6,338,546 during the quarter ended March 31, 2012.

This decrease was primarily due to proceeds of the new mortgage being used to pay down the margin loan.

The Company raised \$5,234,763 from the issuance of shares in the DRIP during the quarter ended March 31, 2012, which included dividend reinvestments of \$341,218. Dividends paid on the common stock for the quarter ended March 31, 2012 were \$2,809,868 of which \$341,218 was reinvested. On April 17, 2012, the Company declared a dividend of \$.18 per share to be paid June 15, 2012 to common shareholders of record as of May 15, 2012.

Dividends paid on the preferred stock for the quarter ended March 31, 2012 were \$690,319. On April 17, 2012, the Company declared a preferred dividend of \$.515625 per share to be paid on June 15, 2012 to preferred shareholders of record as of May 15, 2012.

Liquidity And Capital Resources

The Company's principal liquidity demands have historically been, and are expected to continue to be, distributions to the Company's stockholders, acquisitions, capital improvements, development and expansions of properties, debt service, purchases of manufactured home inventory, investment in securities of other REITs and payments of expenses relating to real estate operations. The Company's ability to generate cash adequate to meet these demands is dependent primarily on income from its real estate investments and securities portfolio, the sale of real estate investments and securities, refinancing of mortgage debt, leveraging of real estate investments, availability of bank borrowings, proceeds from the DRIP, and access to the capital markets.

Current economic indicators show the US economy to be slowly improving. The affordability of our homes should enable the Company to perform well despite the challenging economy. While the recent recession has proven difficult, the manufactured housing community property type has been more stable than other commercial property types.

Net cash provided by operating activities amounted to \$2,755,502 and \$2,375,966 for the quarter ended March 31, 2012 and 2011, respectively. As of March 31, 2012, the Company had cash of \$8.8 million, securities available for sale of \$47.7 million, subject to a margin loan of \$9.7 million, \$5 million available on its unsecured line of credit, and \$7 million available on its revolving lines of credit for the financing of home sales and the purchase of inventory. The Company owns 41 properties, of which 22 are unencumbered. These marketable securities, non-mortgaged properties, and lines of credit provide the Company with additional liquidity. The Company has been raising capital through its DRIP and through public offerings of its preferred stock.

On April 10, 2012, the Company issued 1,075,000 shares of its preferred stock at an offering price of \$25.292 per share in an underwritten public offering. The Company received net proceeds from the offering of approximately \$26.1 million and intends to use the net proceeds to purchase additional properties, including its pending acquisition, and for other general corporate purposes.

The Company uses a variety of sources to fund its cash needs in addition to cash generated through operations. The Company may sell marketable securities, borrow on its lines of credit, finance and refinance its properties, or raise capital through the DRIP and capital markets. The Company believes that funds generated from these sources will provide sufficient funds to adequately meet its obligations over the next several years.

The Company has one mortgage with a balance of approximately \$2,000,000 maturing in July 2012. We are anticipating repaying this mortgage.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements.

Funds From Operations

Funds from Operations (FFO) is defined as net income excluding gains (or losses) from sales of depreciable assets, plus depreciation. FFO should be considered as a supplemental measure of operating performance used by real estate investment trusts (REITs). FFO excludes historical cost depreciation as an expense and may facilitate the comparison of REITs which have different cost basis. The items excluded from FFO are significant components in understanding and assessing the Company's financial performance. FFO (1) does not represent cash flow from operations as defined by generally accepted accounting principles; (2) should not be considered as an alternative to net income as a measure of operating performance or to cash flows from operating, investing and financing activities; and (3) is not an alternative to cash flow as a measure of liquidity. FFO, as calculated by the Company, may not be comparable to similarly entitled measures reported by other REITs.

The Company's FFO for the quarter ended March 31, 2012 and 2011 is calculated as follows:

	2012	2011
Net Income	\$1,749,697	\$2,124,864
