-

*Statements made in this Report that are not historical facts may constitute forward-looking statements that are subject to risks and uncertainties that could cause actual results to differ materially from those discussed. Such risks and uncertainties include but are not limited to those discussed in this report and in BioTime's other reports filed with the Securities and Exchange Commission. Words such as "expects," "may," "will," "anticipates," "intends," "plans," "believes," "estimates," and similar expressions identify forward-looking statements.*

## **Section 8 - Other Events**

### **Item 8.01 - Other Events.**

On August 1, 2012, we issued a press release announcing that our subsidiary Cell Cure Neurosciences Ltd. ("Cell Cure") has been awarded a grant for 2012 in the amount of 5.04 million Shekels, or approximately \$1.33 million, from Israel's Office of the Chief Scientist ("OCS") to help finance the development of *OpRegen* a cell-based therapeutic product in development by Cell Cure for the treatment of age-related macular degeneration. Age-related macular degeneration is a severe form of acute vision loss, and the leading cause of blindness in an aging population.

The OCS has previously provided grants to Cell Cure. Cell Cure will pay a 3.5% royalty to the OCS on revenues from *OpRegen*® until total royalties paid equal 100% of the amount of the grants plus interest at a LIBOR rate.

A copy of the press release has been filed as an exhibit to this report.

## **Section 9 - Financial Statements and Exhibits**

### **Item 9.01 - Financial Statements and Exhibits.**
