PROSPECTUS SUMMARY

The following is only a summary of the information, financial statements and the notes included in this Prospectus. You should read the entire Prospectus carefully, including "Risk Factors" and our Financial Statements and the Notes thereto before making any investment decision.

OUR COMPANY

BUSINESS HISTORY AND DEVELOPMENT

Transax International Limited, was incorporated under the laws of the State of Colorado in 1999 under the name "Vega-Atlantic Corporation".

Previously, we were engaged in the business of minerals and oil and gas exploration, acquisition and development within the United States and worldwide.

During August 2003, we completed the acquisition of Transax Limited, a Colorado private-held corporation ("Transax Limited"), pursuant to a reverse merger and changed our name to "Transax International Limited" by filing an amendment to our Articles of Incorporation.

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

Together with our wholly-owned subsidiary, Medlink Conectividade em Saude Ltda. f/k/a TDS Telecommunication Data Systems LTDA and referred to herein as "Medlink"), we are an international provider of information network solutions, products and services specifically designed for the healthcare providers and health insurance companies (collectively, the "Health Information Management Products").

SUBSIDIARIES

Our wholly-owned subsidiary Medlink was incorporated under the laws of Brazil on May 2, 1998. Medlink assists us in providing information network solutions, products and services within Brazil.

Our wholly-owned subsidiary Transax Australia Pty Ltd. ("Transax Australia") was incorporated under the laws of New South Wales, Australia on January 19, 2003. Transax Australia assists us in seeking marketing opportunities to provide information network solutions, products and services within Australia and regionally.

Our wholly-owned subsidiary MedLink Technologies, Inc. ("MedLink Tech") was incorporated under the laws of Mauritius on January 17, 2003. MedLink Tech holds the intellectual property developed by us and is responsible for initiating research and development.

CURRENT BUSINESS OPERATIONS

As of the date of this Prospectus, through Medlink, we are an international provider of health information management products (collectively, the "Health Information Management Products"), as described below, which are specifically designed for the healthcare providers and health insurance companies. We are dedicated to improving healthcare delivery by providing to hospitals, physician practices and health insurance companies with innovative health information management systems to manage coding, compliance, abstracting and record management's processes.

Our strategic focus is to become a premier international provider of health information management network solutions for the healthcare providers and health insurance companies, enabling the real time automation of routine patient transactions. We believe that our unique combination of complimentary solutions is designed to significantly improve the business of healthcare. Our Health Information Management Products and software solutions are designed to generate operational efficiencies, improve cash flow and measure the cost and quality of care. In general, the Health Information Management Products and software solutions, including the MedLink Solution, fall into four (4) main areas: (i) compliance management; (ii) coding and reimbursement management; (iii) abstracting; and (iv) record management.

1

We believe that hospitals and other healthcare providers must implement comprehensive coding and compliance programs in order to minimize payer submission errors and assure the receipt of anticipated revenues. We believe that an effective program should include clear, defined guidelines and procedures, which combined with our Health Information Management Products, will enhance an organization's system and effectively increase revenues and reduce costs. Our Health Information Management Products will include compliance management and coding and reimbursement products and software, which are designed to conduct automated prospective and retrospective reviews of all in-patient and out-patient claims data. Management tools include internally designed targets aimed to provide data quality, coding accuracy and appropriate

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

reimbursement. These tools work in conjunction with an organization's coding and billing compliance program to (i) identify claims with potential errors prior to billing; (ii) screen professional fees and services; and (iii) identify patterns in coding and physician documentation. Results of the auditing and monitoring activities are represented in executive reports summarizing clinical and financial results as well as detailed reports providing information needed to target specific areas for review. Billing practices for health care services are under close scrutiny by governmental agencies as high-risk areas for Medicare fraud and abuse. We believe that the Health Information Management Products will increase an organization's progress in reducing improper payments and ensuring that medical record documentation support services are provided.

The Health Information Management Products are also designed to include abstracting solutions, which enable healthcare facilities to accurately collect and report patient demographic and clinical information. We believe that the Health Information Management Products will provide the organization with the ability to calculate in-patient and out-patient hospital reimbursements and customize data fields needed for state, federal or foreign governmental regulatory requirements. Standard and custom reports will provide the customer with the ability to generate facility-specific statistical reporting used for benchmarking, outcomes and performance improvement, marketing and planning. We believe that the Health Information Management Products will further provide healthcare organizations the flexibility to customize abstracting workflow to meet data collection reporting and analysis needs. The Health Information Management Products will provide the organization with the ability to customize workflow by creating fields and rules and designing screen navigation.

We also believe that the Health Information Management Products will provide record management, which will automate the record tracking and location functions, monitor record completeness and facilitate the release of information process within health information management departments. The Health Information Management Products will assist healthcare organizations in properly completing records pursuant to state, federal, foreign governmental and medical staff requirements. The management tools are designed to monitor a facility's adherence to patient privacy, disclosure and patient bill of rights requirements, if applicable.

GOING CONCERN

Since inception, the Company has incurred cumulative net losses of \$12,872,724, and at June 30, 2006 has a stockholders' deficit of \$3,717,316 and has a working capital deficit of \$3,858,138. Since its inception, the Company has funded operations through short-term borrowings and equity investments in order to meet its strategic objectives. The Company's future operations are dependent upon external funding and its ability to increase revenues and reduce expenses. Management believes that sufficient funding will be available from additional related party borrowings and private placements to meet its business objectives, including anticipated cash needs for working capital, for a reasonable period of time. Additionally, under the current roll out schedules with its clients, the Company expects to increase its revenues significantly during 2006 with the expectation of the Company becoming a profitable entity. However, there can be no assurance that the Company will be able to obtain sufficient funds to continue the development of its software products and distribution networks. Further, since fiscal 2000, the Company has been deficient in the payment of Brazilian payroll taxes and Social Security taxes. At June 30, 2006, these deficiencies (including interest and fines) amounted to approximately \$816,000. This payroll liability is included as part of the accounts payable and accrued expenses (short-term and long-term) within the consolidated balance sheet. As a result of the foregoing, there exists substantial doubt about the Company's ability to continue as a going concern. These consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

FORWARD-LOOKING STATEMENTS

This Prospectus contains certain forward-looking statements regarding management's plans and objectives for future operations including plans and objectives relating to our planned marketing efforts and future economic performance. The forward-looking statements and associated risks set forth in this Prospectus include or relate to, among other things, (a) our projected sales and profitability, (b) our growth strategies, (c) anticipated trends in our industry, (d) our ability to obtain and retain sufficient capital for future operations, and (e) our anticipated needs for working capital. These statements may be found under "Management's Discussion and Analysis Plan of Operation" and "Business", as well as in this Prospectus generally. Actual events or results may differ materially from those discussed in forward-looking statements as a result of various factors, including, without limitation, the risks outlined under "Risk Factors" and matters described in this Prospectus generally. In light of these risks and uncertainties, there can be no assurance that the forward-looking statements contained in this Prospectus will in fact occur.

The forward-looking statements herein are based on current expectations that involve a number of risks and uncertainties. Such forward-looking statements are based on assumptions that there will be no material adverse competitive or technological change in conditions in our business, that demand for our products and services will significantly increase, that our President and Chief Executive Officer (one individual) will remain employed as such, that our forecasts accurately anticipate market demand and that there will be no material adverse change in our operations or business or in governmental regulations affecting us or our manufacturers and/or suppliers. The foregoing assumptions are based on judgments with respect to, among other things, future economic, competitive and market conditions, and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond our control. Accordingly, although we believe that the assumptions underlying the forward-looking statements are reasonable, any such assumption could prove to be inaccurate and therefore there can be no assurance that the results contemplated in forward-looking statements will be realized. In addition, as disclosed elsewhere in the "Risk Factors" section of this Prospectus, there are a number of other risks inherent in our business and operations which could cause our operating results to vary markedly and adversely from prior results or the results contemplated by the forward-looking statements. Growth in absolute and relative amounts of cost of goods sold and selling, general and administrative expenses or the occurrence of extraordinary events could cause actual results to vary materially from the results contemplated by the forward-looking statements. Management decisions, including budgeting, are subjective in many respects and periodic revisions must be made to reflect actual conditions and business developments, the impact of which may cause us to alter marketing, capital investment and other expenditures, which may also materially adversely affect our results of operations. In light of significant uncertainties inherent in the forward-looking information included in this Prospectus, the inclusion of such information should not be regarded as a representation by us or any other person that our objectives or plans will be achieved.

Some of the information in this Prospectus contains forward-looking statements that involve substantial risks and uncertainties. Any statement in

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

this Prospectus and in the documents incorporated by reference into this Prospectus that is not a statement of an historical fact constitutes a "forward-looking statement". Further, when we use the words "may", "expect", "anticipate", "plan", "believe", "seek", "estimate", "internal", and similar words, we intend to identify statements and expressions that may be forward-looking statements. We believe it is important to communicate certain of our expectations to our investors. Forward-looking statements are not guarantees of future performance. They involve risks, uncertainties and assumptions that could cause our future results to differ materially from those expressed in any forward-looking statements. Many factors are beyond our ability to control or predict. You are accordingly cautioned not to place undue reliance on such forward-looking statements. Important factors that may cause our actual results to differ from such forward-looking statements include, but are not limited to, the risk factors discussed below. Before you invest in our common stock, you should be aware that the occurrence of any of the events described under "Risk Factors" below or elsewhere in this Prospectus could have a material adverse effect on our business, financial condition and results of operation. In such a case, the trading price of our common stock could decline and you could lose all or part of your investment.

THE OFFERING

This offering relates to the sale of 33,631,429 shares of our common stock by certain persons who are selling stockholders, consisting of (1) Cornell Capital Partners, who intends to sell up to 30,060,000, shares of common stock, 25,000,000 of which may be issued from time to time upon the conversion of shares of preferred stock held by Cornell Capital Partners pursuant to the Investment Agreement and up to 5,000,000 shares of common stock of which may be issued upon the exercise of the Warrants; and (2) Investor, who may sell up to 3,571,429 shares of common stock, 3,171,429 of which may be issued upon the conversion of the Debenture and 400,000 shares underlying the SHG Warrant.

On January 13, 2006, Transax entered into an Investment Agreement with Cornell Capital Partners (Cornell Capital Partners and the Company are also collectively referred to herein as the "Parties"), pursuant to which the Company sold to Cornell Capital Partners up to 16,000 shares of Series A Convertible Preferred Stock, no par value per share ("Series A Preferred Shares") which shall be convertible, at Cornell Capital Partners' discretion, into shares of the Company's common stock, par value \$0.00001 per share, for a total price of up to \$1,600,000. The Series A Preferred Shares are senior to all common stock and all series of preferred stock of the Company. The holders of Series A Preferred Shares are entitled to receive dividends or distribution on a pro rata basis in the amount of seven percent (7%) per year. Dividends shall be paid in cash and shall be cumulative. Each share of Series A Preferred Shares may be converted into shares of the Company's common stock equal to the sum of the Liquidation Amount, defined as an amount equal to \$100 per share of Series A Preferred Shares, plus accrued but unpaid dividends thereon, divided by the Conversion Price. The Conversion Price is defined to be equal to the lower of (i) \$0.192 or (ii) eighty percent (80%) of the lowest daily volume weighted average price of the Company's common stock, as determined by price quotations from Bloomberg, LP, during the ten (10) trading days immediately preceding the date of conversion. Of the 16,000 Series A Preferred Shares sold to Cornell Capital Partners, 8,000 Series A Preferred Shares equal a purchase price of \$800,000, which consists of \$255,237 from the surrender of a promissory note (the "Promissory Note") and \$544,763 consisting of new funding.

The Company completed the Closing (as such term is defined in the Investment Agreement) by issuing to Cornell Capital Partners the remaining 8,000 Series A Preferred Shares for a purchase price equal to \$800,000 on May 8, 2006,

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

prior to the date that the registration statement of which this Prospectus is made a part was initially filed with the SEC (the "Registration Statement").

In connection with the Investment Agreement, the Company and Cornell Capital Partners entered into an Investor Registration Rights Agreement (the "IRRA"), dated January 13, 2006, pursuant to which the parties agreed that, in the event the Registration Statement is not filed within thirty (30) days from the date the Company files its Annual Report 10-KSB for the year ended December 31, 2005 (the "Filing Deadline") or is not declared effective by the SEC within ninety (90) days of the date of the IRRA (the "Effective Deadline"), or if after the Registration Statement has been declared effective by the SEC, sales cannot be made pursuant to the Registration Statement, then as relief for the damages to any holder of Registrable Securities (as defined in the IRRA) by reason of any such delay in or reduction of its ability to sell the underlying shares of common stock (which remedy shall not be exclusive of any other remedies at law or in equity), the Company will pay as liquidated damages to the holder, at the holder's option, either a cash amount or shares of the Company's common stock equal to two percent (2%) of the Liquidation Amount (as defined above) outstanding as liquidated damages for each thirty (30) day period or any part thereof after the Filing Deadline or the Effective Deadline as the case may be. Any liquidated damages payable hereunder shall not limit, prohibit or preclude the Investor from seeking any other remedy available to it under contract, at law or in equity. The Company shall pay any liquidated damages hereunder within three (3) business days of Cornell Capital Partners making written demand. It shall also become an event of default under the IRRA if the Registration Statement is not declared effective by the SEC within one-hundred twenty (120) days from the date of the IRRA. The Company initially filed its Registration Statement (of which this Prospectus is made a part) on May 9, 2006.

In connection with the sale of the Series A Preferred Shares, on January 13, 2006, Cornell Capital Partners surrendered the Promissory Note issued by the Company to Cornell Capital Partners on May 17, 2005, in the principal amount of \$255,237, in exchange for \$255,237 of Series A Preferred Shares. As of January 13, 2006, the full amount outstanding under the Promissory Note was \$255,237, plus accrued and unpaid interest of zero dollars (\$0). As a result, the Promissory Note was retired and cancelled. The Parties also agreed to terminate the Securities Purchase Agreement and the Investor Registration Rights Agreement, each dated as of October 25, 2004, as well as the Pledge and Escrow Agreements, each dated as of October 21, 2004, that were entered into by the Parties in connection with the issuance of the Promissory Note.

4

Certain negative covenants in the Investment Agreement could substantially impact our ability to raise funds from alternative sources in the future. For example, so long as any Series A Preferred Shares are outstanding, the Company shall not, without the prior written consent of Cornell Capital Partners (a) directly or indirectly consummate any merger, reorganization, restructuring, reverse stock split consolidation, sale of all or substantially all of the Company's assets or any similar transaction or related transactions; (b) incur any indebtedness for borrowed money or become a guarantor or otherwise contingently liable for any such indebtedness except for trade payables or purchase money obligations incurred in the ordinary course of business; (c) file any other registration statements on any form (including but not limited to forms S-1, SB-2, S-3 and S-8); (d) issue or sell shares of common stock or preferred stock without consideration or for a consideration per share less than the bid price of the common stock determined immediately prior to its issuance or issue any preferred stock, warrant, option, right, contract, call, or other security or instrument granting the holder thereof the right to acquire common stock without consideration or for a consideration per share less than the bid price of the common stock determined immediately prior to the issuance of such

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

convertible security or (e) enter into any security instrument granting the holder a security interest in any and all assets of the Company.

On January 13, 2006, the Company also issued to Cornell Capital Partners the Warrants to purchase up to 5,000,000 shares of common stock. The first Warrant issued to Cornell Capital Partners for 2,500,000 shares of common stock, at an exercise price of \$0.30, shall terminate after the five (5) year anniversary of the date of issuance. The second Warrant issued to Cornell Capital Partners for 2,500,000 shares of common stock, at exercise price of \$0.20, shall terminate after the five (5) year anniversary of the date of issuance.

On April 1, 2005, Company entered into a Securities Purchase Agreement (the "Securities Purchase Agreement") with Scott and Heather Grimes, Joint Tenants - with Rights of Survivorship (the "Investor"). Pursuant to the Securities Purchase Agreement, the Company issued a convertible debenture to the Investor in the original principal amount of \$250,000 (the "Debenture"). The Debenture is convertible at the holder's option any time up to maturity at a conversion price equal to the lower of: (i) one hundred twenty percent (120%) of the closing bid price of the common stock on the date of the Debenture or (ii) eighty percent (80%) of the lowest closing bid price of the Company's common stock for the five (5) trading days immediately preceding the conversion date. The Debenture has a two (2) year term and accrues interest at five percent (5%) per year. At maturity, the Debentures will automatically convert into shares of common stock at a conversion price equal to the lower of: (i) one hundred twenty percent (120%) of the closing bid price of the Company's common stock on the date of the Debenture or (ii) eighty percent (80%) of the lowest closing bid price of the common stock for five (5) trading days immediately preceding the conversion date. On July 17, 2006, the Investor converted \$15,000 of the Debenture into 104,167 shares of the Company's common stock.

Certain negative covenants in the Securities Purchase Agreement could substantially impact our ability to raise funds from alternative sources in the future. For example, for as long as the convertible debenture remains outstanding and without the written consent of the debenture holder, the Company (a) shall not directly or indirectly consummate any merger, reorganization, restructuring, reverse stock split consolidation, sale of all or substantially all of the Company's assets or any similar transaction or related transactions; (b) shall not issue or sell shares of common stock or preferred stock without consideration or for a consideration per share less than the bid price of the common stock determined immediately prior to its issuance or issue any warrant, option, right, contract, call, or other security or instrument granting the holder thereof the right to acquire common stock without consideration or for a consideration per share less than the bid price of the common stock determined immediately prior to the issuance of such convertible security; (c) shall not enter into any security instrument granting the holder a security interest in any or all assets of the Company; (d) shall not file any registration statement on Form S-8 except the Company may file one registration statement on Form S-8 for up to 2,500,000 shares of common stock and provided however, anyone receiving shares pursuant to such permitted Form S-8 registration shall be restricted from selling such shares for a period of ninety (90) days after the registration statement becomes effective and (e) shall not, and shall cause each of its subsidiaries not to, enter into, amend, modify or supplement, or permit any subsidiary to enter into, amend, modify or supplement any agreement, transaction, commitment, or arrangement with any of its or any of its subsidiary's officers, directors, person who were officers or directors at any time during the previous two years, stockholders who beneficially own five percent (5%) or more of the Company's common stock, or Affiliates (as defined in the Securities Purchase Agreement) or with any individual related by blood, marriage, or adoption to any such individual or with any entity in which any such entity or individual owns a five percent (5%) or more beneficial interest, except for (i) customary employment arrangements and benefit programs on

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

reasonable terms, (ii) any investment in an Affiliate of the Company, (iii) any

5

agreement, transaction, commitment, or arrangement on an arms-length basis on terms no less favorable than terms which would have been obtainable from a person other than such related party and (iv) any agreement transaction, commitment, or arrangement which is approved by a majority of the disinterested directors of the Company.

On February 1, 2006, the Company and the Investor mutually agreed to extend the term of the Debentures until December 1, 2007. In addition, the Company issued the SHG Warrant to purchase 400,000 shares of the Company's common stock. The SHG Warrant has a term of two (2) years and is exercisable at \$0.20 per share. The Company is registering 3,171,429 shares of its common stock underlying the conversion of the Debenture and 400,000 shares underlying the SHG Warrant.

Cornell Capital Partners may from time to time convert its shares of preferred stock under the Investment Agreement and Investors may from time to time convert the Debenture into shares of our common stock at a discount to the market price and each may, in turn, sell their shares of common stock to investors in the market at the market price. This will likely cause our stock price to decline and would result in substantial dilution to the interests of other holders of common stock.

RISK FACTORS

WE ARE SUBJECT TO VARIOUS RISKS THAT MAY MATERIALLY HARM OUR BUSINESS, FINANCIAL CONDITION AND RESULTS OF OPERATIONS. YOU SHOULD CAREFULLY CONSIDER THE RISKS AND UNCERTAINTIES DESCRIBED BELOW AND THE OTHER INFORMATION IN THIS FILING BEFORE DECIDING TO PURCHASE OUR COMMON STOCK. IF ANY OF THESE RISKS OR UNCERTAINTIES ACTUALLY OCCURS, OUR BUSINESS, FINANCIAL CONDITION OR OPERATING RESULTS COULD BE MATERIALLY HARMED. IN THAT CASE, THE TRADING PRICE OF OUR COMMON STOCK COULD DECLINE AND YOU COULD LOSE ALL OR PART OF YOUR INVESTMENT.

RISKS RELATING TO OUR BUSINESS

TRANSAX HAS BEEN THE SUBJECT OF A GOING CONCERN OPINION FROM ITS INDEPENDENT AUDITORS, WHICH MEANS THAT TRANSAX MAY NOT BE ABLE TO CONTINUE OPERATIONS UNLESS TRANSAX OBTAINS ADDITIONAL FUNDING

Our independent auditors have added a "going concern" statement to their audit report for fiscal years ended December 31, 2005 and 2004, which states that we will need additional working capital to be successful and to service our current debt for the coming year and, therefore, our continuation as a going concern is dependent upon obtaining the additional working capital necessary to accomplish our objectives. Our inability to obtain adequate financing will result in the need to curtail business operations and you could lose your entire investment. Our financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

Our management anticipates that we will incur net losses for the immediate future, and expect our operating expenses to increase significantly, and, as a result, we will need to generate monthly revenue if we are to continue as a going concern. To the extent that we do not generate revenue, that we do not obtain additional funding, that our stock price does not increase, and that we are unable to adjust operating expense levels accordingly, we may not have the ability to continue on as a going concern.

TRANSAX HAS A WORKING CAPITAL DEFICIT AND IF WE ARE UNABLE TO RAISE ADDITIONAL CAPITAL WE WILL NEED TO CURTAIL BUSINESS OPERATIONS

We had a working capital deficit of \$2,068,956 and \$3,858,138 at December 31, 2005 and June 30, 2006, respectively, and continue to need cash for operations. We have relied on significant external financing to fund our operations. As of June 30, 2006, we had \$482,813 of cash on hand and total current assets were \$1,085,530, and our total current liabilities were \$4,943,668. We will need to raise additional capital to fund our anticipated operating expenses and future expansion. Among other things, external financing may be required to cover our operating costs. Unless we achieve profitable operations, it is unlikely that we will be able to secure additional financing from external sources. If we are unable to secure additional financing, we believe that we will not have sufficient funds to continue operations. We estimate that we will require \$1,000,000 to \$3,000,000 of financing to fund our anticipated operating expenses for the next twelve (12) months. The sale of our common stock to raise capital may cause dilution to our existing shareholders. Our inability to obtain adequate financing will result in the need to curtail business operations. Any of these events would be materially harmful to our business and may result in a lower stock price. Our inability to obtain adequate financing will result in the need to curtail business operations and you could lose your entire investment. Our financial statements do not include any adjustments that might result from the outcome of this uncertainty.

TRANSAX WILL REQUIRE ADDITIONAL FUNDING, AND FUTURE ACCESS TO CAPITAL IS UNCERTAIN AND TRANSAX MAY HAVE TO DELAY, REDUCE OR ELIMINATE CERTAIN BUSINESS OPERATIONS

It is expensive to develop and commercialize Health Information Management Products. Transax plans to continue to conduct research and development, which is costly. Transax's product development efforts may not lead to new commercial products, either because Transax's products fail to be found effective or because Transax lacks the necessary financial or other resources or relationships to pursue commercialization. Transax's capital and future revenues may not be sufficient to support the expenses of its business operations and the development of commercial infrastructure. Transax may need to raise additional capital to: (i) fund operations; (ii) continue the research and development of Health Information Management Products; and (iii) commercialize its products.

Management believes that the Standby Equity Distribution Agreement will provide some of the necessary capital. However, Transax may need additional financing within this time frame depending on a number of factors. Transax may not be able to obtain additional financing on favorable terms or at all. If Transax is unable to raise additional funds, Transax may have to delay, reduce or eliminate certain business operations. If Transax raises additional funds by issuing equity securities, further dilution to Transax's existing stockholders will result.

MEDLINK, A WHOLLY-OWNED SUBSIDIARY OF THE COMPANY, OWES TO THE BRAZILIAN GOVERNMENT MONEY FOR PAYROLL TAXES AND SOCIAL SECURITY TAXES. FAILURE TO PAY SUCH PAYROLL AND SOCIAL SECURITY TAXES TO THE BRAZILIAN AUTHORITIES

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

WHEN REQUIRED TO DO SO COULD RESULT IN LIABILITY

Since fiscal 2000, the Company has been deficient in the payment of Brazilian payroll taxes and social security taxes. At December 31, 2005, these deficiencies (including interest and fines) amounted to approximately \$755,100.

This payroll liability is included as part of the accounts payable and accrued expenses (short-term and long-term) within the consolidated balance sheet.

During 2004 and 2005, the Company entered into a number of payment programs with the Brazilian authorities whereby the social security taxes due, Severance Fund Taxes due, plus other taxes and applicable penalties and interest will be repaid over periods of between eighteen (18) and sixty (60) months. At December 31, 2005, the Company's has negotiated approximately \$546,400 of tax liabilities under these programs. The payment program requires the Company to pay a monthly fixed amount of the four taxes negotiated. Discussions are currently ongoing for the Company to enter into a similar payment plan for the remainder of the payroll tax liabilities. The Company made the first payment as per the plan in April 2004 and continues to make the required payments. However, there is no certainty that the Brazilian authorities will enter into a similar plan in the future.

TRANSAX MAY EXPERIENCE PRICE REDUCTIONS, REDUCED GROSS MARGINS AND LOSS OF MARKET SHARE IF TRANSAX IS UNABLE TO SUCCESSFULLY COMPETE

Competition for Transax's products and services is intense and is expected to increase. Increased competition could result in reductions in Transax's prices, gross margins and market share, and could have a material adverse effect on Transax's business, financial condition and results of operations. Transax competes with other providers of healthcare information software and services, as well as healthcare consulting firms. Some competitors may have formed business alliances with other competitors that may affect Transax's ability to work with some potential customers. In addition, if some of Transax's competitors merge, a stronger competitor may emerge. Some principal competitors include: Polimed, Connectmed and Salutia, major software information systems companies, including those specializing in the healthcare industry, may not presently offer competing products but may in the future enter Transax's market. Many of Transax's competitors and potential competitors have significantly greater financial, technical, product development, marketing and other resources, and market recognition than Transax has. Many of these competitors also have, or may develop or acquire, substantial installed customer bases in the healthcare industry. As a result of these factors, our competitors may be able to respond more quickly to new or emerging technologies, changes in customer requirements, and changes in the political, economic or regulatory environment in the healthcare industry. These competitors may be in a position to devote greater resources to the development, promotion and sale of their products than Transax can. Transax may not be able to compete successfully against current and future competitors, and such competitive pressures could materially adversely affect Transax's business, financial condition and operating results.

MARKET VOLATILITY MAY AFFECT TRANSAX'S STOCK PRICE, AND THE VALUE OF A SHAREHOLDER'S INVESTMENT IN TRANSAX'S COMMON STOCK MAY BE SUBJECT TO SUDDEN DECREASES

The trading price for the shares of common stock of Transax has been, and Transax expects it to continue to be, volatile. The price at which Transax's common stock trades depends on a number of factors, including the following, many of which are beyond Transax's control: (i) Transax's historical and anticipated operating results, including fluctuations in financial and operating results; (ii) the market perception of the prospects for health information

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

management network solutions companies as an industry sector; (iii) general market and economic conditions; (iv) changes in government regulations affecting product approvals, reimbursement or other aspects of Transax's and/or competitors' businesses; (v) announcements of technological innovations or new commercial products by Transax or its competitors; (vi) developments concerning Transax's contractual relations with its executive officers, executive management and intellectual property rights; and (vii) announcements regarding significant collaborations or strategic alliances.

In addition, the stock market has from time to time experienced extreme price and volume fluctuations. These broad market fluctuations may lower the market price of Transax's common stock and affect the volume of trading in the stock. During periods of stock market price volatility, share prices of many health information management network solution companies have often fluctuated in a manner not necessarily related to their individual operating performance.

Accordingly, Transax's common stock may be subject to greater price volatility than the stock market as a whole.

8

THE HEALTHCARE INFORMATION MANAGEMENT AND TECHNOLOGY MARKET IS HIGHLY FRAGMENTED AND CHARACTERIZED BY ON-GOING TECHNOLOGICAL DEVELOPMENTS, EVOLVING INDUSTRY STANDARDS AND RAPID CHANGES IN CUSTOMER REQUIREMENTS AND TRANSAX MAY NOT SUCCESSFULLY, OR IN A TIMELY MANNER, DEVELOP, ACQUIRE, INTEGRATE, INTRODUCE OR MARKET NEW PRODUCTS OR PRODUCT ENHANCEMENTS

The healthcare information management and technology market is highly fragmented and characterized by on-going technological developments, evolving industry standards and rapid changes in customer requirements. Transax's success depends on its ability to timely and effectively: (i) offer a broad range of software products; (ii) enhance existing products and expand product offerings; (iii) respond promptly to new customer requirements and industry standards; (iv) remain compatible with popular operating systems and develop products that are compatible with the new or otherwise emerging operating systems; and (v) develop new interfaces with healthcare provider organizations to fully integrate Transax's products and services in order to maximize features and functionality.

Transax's performance depends in large part on its ability to provide the increasing functionality required by its customers through the timely development and successful introduction of new products and enhancements to existing products. Transax may not successfully, or in a timely manner, develop, acquire, integrate, introduce or market new products or product enhancements.

Product enhancements or new products developed by Transax may not meet the requirements of hospital or other healthcare providers or health insurance companies or achieve or sustain market acceptance. Transax's failure to either estimate accurately the resources and related expenses required for a project, or to complete its contractual obligations in a manner consistent with the project plan upon which a contract is based, could have a material adverse effect on Transax's business, financial condition, and results of operations. In addition, Transax's failure to meet a customer's expectations in the performance of its services and products could damage Transax's reputation and adversely affect its ability to attract new business.

FAILURE TO ACCURATELY ASSESS, PROCESS OR COLLECT HEALTHCARE CLAIMS OR ADMINISTER CONTRACTS COULD SUBJECT TRANSAX TO COSTLY LITIGATION AND FORCE TRANSAX TO MAKE COSTLY CHANGES TO PRODUCTS

It is anticipated that some of Transax's products and services will be used in the payment, collection, coding and billing of healthcare claims and the

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

administration of managed care contracts. If Transax's products and services fail to accurately assess, possess or collect these claims, customers could file claims against Transax. As of the date of this Prospectus, Transax does not carry insurance coverage to cover such claims or, if it does carry such insurance coverage in the future, such insurance coverage may not be adequate to cover such claims. A successful claim that is not covered by or is in excess of insurance coverage could adversely affect Transax's business, financial condition, and results of operations. Even a claim without merit could result in significant legal defense costs and could consume management time and resources.

In addition, claims could increase insurance premiums such that appropriate insurance cannot be found at commercially reasonable rates. Furthermore, if Transax were found liable, Transax may have to significantly alter one or more of its products, possibly resulting in additional unanticipated research and development expenses.

THE NATURE OF OUR PRODUCTS MAKES OUR COMPANY VULNERABLE TO UNDETECTED ERRORS THAT COULD REDUCE REVENUES, MARKET SHARE OR DEMAND

Health Information Management Products may contain errors or failures, especially when initially introduced or when new versions are released. Although Transax conducts extensive testing of its products and services, software errors could be discovered in certain enhancements and products after their introduction. Despite such testing by Transax and by its current and potential customers, products under development, enhancements or shipped products may contain errors or performance failures resulting in, among other things: (i) loss of customers and revenue; (ii) delay in market acceptance; (iii) diversion of resources; (iv) damage to Transax's reputation; or (v) increased service costs. Any of these consequences could have a material adverse effect on Transax's business, financial condition and results of operations.

TRANSAX MAY BE REQUIRED TO MAKE SUBSTANTIAL CHANGES TO ITS PRODUCTS IF THEY BECOME SUBJECT TO GOVERNMENTAL REGULATION

None of Transax's Health Information Management Products are subject to regulation by the United States' federal government. Computer products used or intended for use in the diagnosis, cure, mitigation, treatment or prevention of disease or other conditions or that affect the structure or function of the body are subject to regulation by the U.S. Department of Health. In the future, however, the U.S. Department of Health could determine that some of Transax's products (because of their predictive aspects) may be clinical decision tools and subject them to regulation. Compliance with U.S. Department of Health regulations such as HIPPA could be burdensome, time consuming and expensive.

9

Other new laws and regulations affecting healthcare software development and marketing could also be enacted in the future. If so, it is possible that Transax's costs and the length of time for product development and marketing could increase and that other unforeseeable consequences could arise.

GOVERNMENT REGULATION OF CONFIDENTIALITY OF PATIENT HEALTH INFORMATION COULD RESULT IN REQUIRED PRODUCT MODIFICATIONS WHICH WOULD REQUIRE SIGNIFICANT EXPENDITURE OF CAPITAL RESOURCES

There is substantial U.S. federal and state and foreign regulation of confidentiality of patient health information and the circumstances under which such information may be used by, disclosed to or processed by Transax as a consequence of any contracts with various health care providers or insurance companies. Although compliance with these laws and regulations is presently the principal responsibility of the hospital, physician or other healthcare

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

provider, regulations governing patient confidentiality rights are dynamic and rapidly evolving. Changes may be made which would require Transax to change its products and systems and methods which could require significant expenditures of capital and decrease future business prospects. Additional federal and state legislation governing the dissemination of individually identifiable information have been proposed in the United States and may be adopted, which may also significantly affect Transax's business.

GOVERNMENT REGULATION OF HEALTHCARE INFORMATION DELIVERY SYSTEMS MAY AFFECT HEALTHCARE PROVIDERS' DECISIONS WHICH COULD RESULT IN UNPLANNED PRODUCT ENHANCEMENTS, DELAYS, OR CANCELLATIONS OF PRODUCT ORDERS OR SHIPMENTS, OR REDUCE THE NEED FOR CERTAIN SYSTEMS

During the past several years, the healthcare industry within the United States and other countries has been subject to changing political, economic and regulatory influences and to increasing levels of governmental regulation. Certain proposals to reform the U.S. healthcare systems have been and are being considered by Congress. These proposals, if enacted, could change the operating environment for any of Transax's customers within the United States that could have a negative impact on Transax's business, financial condition and results of operations. However, the U.S. federal government recently mandated the use of electronic transmissions for large Medicare providers, which may positively affect the marketability of Transax's products in the U.S. Transax is unable to predict what, if any, changes will occur.

Changes in current healthcare financing, reimbursement systems and procurement practices could result in unplanned product enhancements, delays, or cancellations of product orders or shipments, or reduce the need for certain systems. A portion of Transax's revenues is expected to be derived from sales of its Health Information Management Products to hospitals in the United States.

Consolidation in the healthcare industry, particularly in the hospital and managed care markets, could decrease the number of potential purchasers of Transax's Health Information Management Products and adversely affect Transax's business. In addition, the decision to purchase such products generally involves a committee approval. Consequently, it is difficult for Transax to predict the timing or outcome of the buying decisions of Transax's potential customers.

THERE ARE POLITICAL AND ECONOMIC RISKS IN FOREIGN MARKETPLACES WHICH COULD AFFECT THE OPERATIONS OF TRANSAX

As of the date of this Prospectus, the Health Information Management Products are sold by Transax principally in Brazil. Transax intends to enter the global marketplace which includes, but is not limited to, the marketplaces within the United States, Australia, South America and Europe. During the fiscal year ended December 31, 2005 and 2004, international sales accounted for one hundred percent (100%) of Transax's total revenue. As a result, Transax faces certain risks associated with international sales. International sales may be subject to political, economic, legal and other uncertainties occurring within these countries. Changes in policies by the respective governments may result in changes in laws, regulations or the interpretation thereof, confiscatory taxation, restrictions on imports and sources of supply, import duties, corruption, economic reforms, and currency revaluation, all of which may materially and adversely affect Transax. The continuation or increase of any such disparities could affect the political and social stability of the country, and thus the operations of Transax. Moreover, future controversies could arise which would threaten trade relations between the United States and the respective country. In any of such eventualities, the business of Transax could be adversely affected.

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

TRANSAX MAY FACE SCRUTINY FROM GOVERNMENTAL AGENCIES

As a result of the rising healthcare costs, U.S. federal and state governments and foreign governments have placed an increased emphasis on detecting and eliminating fraud and abuse in healthcare programs. Numerous laws and regulations now exist within the U.S. and other foreign countries to prevent fraudulent or abusive billing, to protect patients' privacy rights, and to ensure patients' access to healthcare. Violation of the laws or regulations governing Transax's operations could result in the imposition of civil or criminal penalties, including temporary or permanent exclusion from participation in government healthcare programs, such as Medicare and Medicaid in the U.S., the cancellation of any contracts with Transax to provide managed care services, and the suspension or revocation of any of Transax's governmental licenses. Transax intends to conduct routine internal audits in an effort to ensure compliance with all applicable laws and regulations. If errors, discrepancies or violations of laws are discovered in the course of these internal audits or otherwise, Transax may be required by law to disclose the relevant facts, once known, to the appropriate authorities.

THE INABILITY TO PROTECT INTELLECTUAL PROPERTY COULD LEAD TO UNAUTHORIZED USE OF TRANSAX'S PRODUCTS

Transax relies on a combination of trade secrets, copyright and trademark laws, nondisclosure, non-compete and other contractual provisions to protect its proprietary rights. Measures taken by Transax to protect its intellectual property may not be adequate, and its competitors could independently develop products and services that are substantially equivalent or superior to Transax's products and services. Any infringement or misappropriation of Transax's proprietary software and databases could put Transax at a competitive disadvantage in a highly competitive market and could cause Transax to lose revenues, incur substantial litigation expense, and divert management's attention from other operations. Intellectual property litigation is increasingly common in the software industry. Therefore, the risk of an infringement claim against Transax may increase over time as the number of competitors in the industry segment grows and the functionality of products overlaps. Third parties could assert infringement claims against Transax in the future. Regardless of the merits, Transax could incur substantial litigation expenses in defending any such asserted claim. In the event of an unfavorable ruling on any such claim, such an infringement may result in significant monetary liabilities that could have a material adverse effect on the business.

In the event of an unfavorable ruling on any such claim, a license or similar agreement may also not be available to use on reasonable terms, if at all.

Transax may not be successful in the defense of these or similar claims.

TRANSAX IS DEPENDENT UPON THE LICENSE AGREEMENT TO FURTHER DEVELOP AND COMMERCIALIZE ITS PRODUCTS EFFECTIVELY OR AT ALL

To further develop and successfully commercialize the Health Information Management Products and related services, Transax and Medlink entered into a license agreement (the "License Agreement") to carry out development and commercialization of the MedLink Solution within Brazil. Under the terms of the License Agreement, Transax will receive certain royalties once its subsidiary in Brazil has entered cash flow status.

The risks associated with the License Agreement include, but are not limited to, the following: (i) Medlink may not apply the expected resources or required expertise in developing the MedLink Solution resources and systems or other systems necessary to successfully commercialize the MedLink Solution

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

products; and (ii) disputes may arise between Transax and Medlink that delay the commercialization of the MedLink Solution or adversely affect its sales or profitability. Transax's success will depend on the successful introduction and marketing of the MedLink Solution and other products which, in turn, is dependent on the continued existence of favorable contractual relations with Medlink. Transax's business operations may be materially affected in the event Medlink fails to honor the terms and provisions of License Agreement.

11

FAILURE TO RETAIN KEY PERSONNEL COULD IMPEDE TRANSAX'S ABILITY TO COMMERCIALIZE ITS PRODUCTS, MAINTAIN THE LICENSE AGREEMENT OR OBTAIN SOURCES OF FUNDS

Transax depends, to a significant extent, on the efforts of Mr. Stephen Walters, our President, Chief Executive Officer and a director, and on the efforts of its research and development personnel. The development of Health Information Management Products requires expertise from a number of different disciplines, some of which are not widely available. The quality and reputation of Transax's research and development personnel, including its executive officers, and their success in performing their responsibilities, may directly influence the success of Transax. In addition, Mr. Walters is involved in a broad range of critical activities, including providing strategic and operational guidance. The loss of Mr. Walters, or Transax's inability to retain or recruit other key management and research and development personnel, may delay or prevent Transax from achieving its business objectives. Transax faces intense competition for personnel from other companies, public and private research institutions, government entities and other organizations. Transax does not employ management on a full-time or part-time basis and does not have a written employment agreement with Mr. Walters. In addition, Transax does not maintain any key man life insurance policies on Mr. Walters.

RISKS RELATED TO THIS OFFERING

FUTURE SALES BY OUR STOCKHOLDERS MAY ADVERSELY AFFECT OUR STOCK PRICE AND OUR ABILITY TO RAISE FUNDS IN NEW STOCK OFFERINGS

Sales of our common stock in the public market following this offering could lower the market price of our common stock. Sales may also make it more difficult for us to sell equity securities or equity-related securities in the future at a time and price that our management deems acceptable or at all. Of the 31,980,726 shares of common stock outstanding as of October 4, 2006, 11,465,112 shares are, or will be, freely tradable without restriction, unless held by our "affiliates". The remaining 20,515,614 shares of common stock which will be held by existing stockholders, including the officers and directors, are "restricted securities" and may be resold in the public market only if registered or pursuant to an exemption from registration. Some of these shares may be resold under Rule 144. In addition, we shall issue 3,171,429 shares underlying the Debenture, up to 5,400,000 shares underlying warrants (including the SHG Warrant and the Warrants) and up to 25,000,000 shares pursuant to the Investment Agreement with Cornell Capital Partners.

THE SELLING STOCKHOLDERS INTEND TO SELL THEIR SHARES OF COMMON STOCK IN THE MARKET, WHICH SALES MAY CAUSE OUR STOCK PRICE TO DECLINE

The selling stockholders intend to sell in the public market 33,631,429 shares of common stock being registered in this offering. That means that up to 33,631,429 shares may be sold pursuant to this Registration Statement. Such sales may cause our stock price to decline. The officers and directors of Transax and those shareholders who are significant shareholders as defined by the SEC will continue to be subject to the provisions of various insider trading

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

and rule 144 regulations.

THE PRICE YOU PAY IN THIS OFFERING WILL FLUCTUATE AND MAY BE HIGHER OR LOWER THAN THE PRICES PAID BY OTHER PEOPLE PARTICIPATING IN THIS OFFERING

The price in this offering will fluctuate based on the prevailing market price of the common stock on the Over-the-Counter Bulletin Board.

Accordingly, the price you pay in this offering may be higher or lower than the prices paid by other people participating in this offering.

THERE ARE A LARGE NUMBER OF SHARES UNDERLYING OUR SERIES A PREFERRED SHARES THAT MAY BE AVAILABLE FOR FUTURE SALE AND THE SALE OF THESE SHARES MAY DEPRESS THE MARKET PRICE OF OUR COMMON STOCK

As of October 4, 2006, we had 31,980,726 shares of common stock issued and outstanding and 16,000 Series A Preferred Shares outstanding. In addition, the number of shares of common stock issuable upon conversion of the outstanding Series A Preferred Shares may increase if the market price of our stock declines. All of the shares, including all of the shares issuable upon conversion of the Series A Preferred Shares, may be sold without restriction. The sale of these shares may adversely affect the market price of our common stock.

12

THE CONTINUOUSLY ADJUSTABLE CONVERSION PRICE FEATURE OF OUR SERIES A PREFERRED SHARES COULD REQUIRE US TO ISSUE A SUBSTANTIALLY GREATER NUMBER OF SHARES, WHICH WILL CAUSE DILUTION TO OUR EXISTING STOCKHOLDERS

The number of shares of common stock issuable upon conversion of our Series A Preferred Shares will increase if the market price of our stock declines, which will cause dilution to our existing stockholders. Our obligation to issue shares upon conversion of our Series A Preferred Shares is essentially limitless if the trading price per common share declines towards zero as the number of Series A Preferred Shares convertible into common stock is based on the trading price per common share of our Company.

THE CONTINUOUSLY ADJUSTABLE CONVERSION PRICE FEATURE OF OUR SERIES A PREFERRED SHARES MAY ENCOURAGE INVESTORS TO MAKE SHORT SALES IN OUR COMMON STOCK, WHICH COULD HAVE A DEPRESSIVE EFFECT ON THE PRICE OF OUR COMMON STOCK

The Series A Preferred Shares are convertible into common stock at any time by dividing the dollar amount being converted by the lower of \$0.192 or eighty percent (80%) of the lowest daily volume weighted average of the Company's common stock, as determined by price quotations from Bloomberg, LP, during the ten (10) trading days immediately preceding the date of conversion.

The significant downward pressure on the price of the common stock as the selling stockholder converts and sells material amounts of common stock could encourage short sales by investors. This could place further downward pressure on the price of the common stock. In addition, not only the sale of shares issued upon conversion of preferred stock, but also the mere perception that these sales could occur, may adversely affect the market price of the common stock.

THE HOLDER OF THE DEBENTURE HAS THE OPTION OF CONVERTING THE PRINCIPAL OUTSTANDING UNDER THE DEBENTURE INTO SHARES OF OUR COMMON STOCK. IF THE HOLDER CONVERTS THE DEBENTURE, THERE WILL BE DILUTION OF YOUR SHARES OF OUR COMMON STOCK

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

The conversion of the Debenture will result in dilution to the interests of other holders of our common stock since the holder may ultimately convert the full amount of the Debenture and sell all of these shares into the public market.

The following table sets forth the number and percentage of shares of our common stock that would be issuable if the holder of the Debenture converted at conversion prices of \$0.25, \$0.20, \$0.15, \$0.10 and \$0.05 (the conversion price shall be equal to the lesser of (i) one hundred twenty percent (120%) of the closing bid price of the Company's common stock on April 1, 2005 and (ii) eighty percent (80%) of the lowest closing bid price of the common stock for five (5) trading days immediately preceding the conversion date):

CONVERSION PRICE	NUMBER OF SHARES ISSUABLE ON CONVERSION OF DEBENTURE (1)	PERCENTAGE OF ISSUED AND OUTSTANDING (2)
-----	-----	-----
\$0.25	1,000,000	3.13%
\$0.20	1,250,000	3.91%
\$0.15	1,666,667	5.21%
\$0.10	2,500,000	7.82%
\$0.05	5,000,000	15.69%

-
- (1) Represents the number of shares issuable if the principal amount of the Debenture was converted at the corresponding conversion price.
- (2) Represents the percentage of the total outstanding common stock that the shares issuable on conversion of the Debenture without regard to any contractual or other restriction on the number of securities the stockholder may own at any point in time (including a 4.99% ownership limitation set forth in the Debenture). Based on 31,980,726 shares issued and outstanding on October 4, 2006.

OUR COMMON STOCK IS SUBJECT TO THE "PENNY STOCK" RULES OF THE SEC AND THE TRADING MARKET IN OUR SECURITIES IS LIMITED, WHICH MAKES TRANSACTIONS IN OUR STOCK CUMBERSOME AND MAY REDUCE THE VALUE OF AN INVESTMENT IN OUR STOCK

The SEC has adopted Rule 15g-9 which establishes the definition of a "penny stock", for the purposes relevant to us, as any equity security that has a market price of less than \$5.00 per share or with an exercise price of less than \$5.00 per share, subject to certain exceptions. For any transaction involving a penny stock, unless exempt, the rules require:

13

- o that a broker or dealer approve a person's account for transactions in penny stocks; and
- o the broker or dealer receive from the investor a written agreement to the transaction, setting forth the identity and quantity of the penny stock to be purchased.

In order to approve a person's account for transactions in penny stocks, the broker or dealer must:

- o obtain financial information and investment experience objectives of the person; and

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

- o make a reasonable determination that the transactions in penny stocks are suitable for that person and the person has sufficient knowledge and experience in financial matters to be capable of evaluating the risks of transactions in penny stocks.

The broker or dealer must also deliver, prior to any transaction in a penny stock, a disclosure schedule prescribed by the SEC relating to the penny stock market, which, in highlight form:

- o sets forth the basis on which the broker or dealer made the suitability determination; and
- o that the broker or dealer received a signed, written agreement from the investor prior to the transaction.

Generally, brokers may be less willing to execute transactions in securities subject to the "penny stock" rules. This may make it more difficult for investors to dispose of our common stock and cause a decline in the market value of our stock.

Disclosure also has to be made about the risks of investing in penny stocks in both public offerings and in secondary trading and about the commissions payable to both the broker-dealer and the registered representative, current quotations for the securities and the rights and remedies available to an investor in cases of fraud in penny stock transactions. Finally, monthly statements have to be sent disclosing recent price information for the penny stock held in the account and information on the limited market in penny stocks.

HISTORICAL DEFICIENCIES IN THE EFFECTIVENESS OF OUR DISCLOSURE CONTROLS AND PROCEDURES MAY POSE A MATERIAL RISK TO INVESTORS

On July 6, 2006, we announced that we were restating our Consolidated Balance Sheets at June 30, 2005, September 30, 2005, December 31, 2005 and March 31, 2006 and our Consolidated Statements of Operations and Statements of Stockholders' Deficit as of and for the year ended December 31, 2005 and for the periods ended June 30, 2005, September 30, 2005 and March 31, 2006 to properly reflect an embedded derivative conversion liability related to our debenture payable. The change in presentation of the Company's embedded derivative feature associated with its debenture payable had the effect of increasing assets by \$19,131, increasing liabilities by \$208,117, increasing the stockholders' deficit by \$188,986 as of March 31, 2006, and increasing the Company's net loss by \$30,038 for the three (3) months ended March 31, 2006. This change in presentation of the Company's embedded derivative feature affected some of the items within the Company's consolidated statement of cash flows for the three (3) months ended March 31, 2006 but did not impact cash at the end of the year.

As a result of the restatement of our Consolidated Balance Sheet, Consolidated Statement of operations and the Consolidated Statements of Stockholders' Deficit, our management determined that there had been a significant deficiency in our internal control over financial reporting as of December 31, 2005 and March 31, 2006 related to the presentation of derivative liabilities.. Although management believes that the Company has corrected our presentation and recording of the derivative liabilities and have determined that such significant deficiency did not rise to the level of a material weakness in our internal control over financial reporting, a material risk to investors may exist due to the fact that recent changes have been made to our disclosure controls and procedures to address such significant deficiencies.

We have implemented additional measures as part of changes to our internal controls to determine and ensure that information required to be disclosed in reports filed under the exchange Act was recorded, processed, summarized and reported within the time periods specified in the rules and forms including, but

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

not limited to, the following: (i) documentation of processes, performing testing and reviewing our internal control over financial reporting in connection with our assessment under Section 404 of the Sarbanes-Oxley Act; (ii) evaluation and implementation of improvements to our accounting and management information systems; and (iii) development and implementation of a remediation plan to address any perceived deficiencies identified in our internal control over financial reporting. The costs of these additional measures did not have a material impact on our future results or operations liquidity.

14

Our management, including our CEO and CFO, do not expect that our disclosure controls and internal controls will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Our disclosure controls and procedures are designed to provide reasonable assurance of achieving our objectives and our certifying officers have concluded that our disclosure controls and procedures are effective at a reasonable assurance level as of June 30, 2006.

Pursuant to provisions in the Investment Agreement and the warrants, Cornell Capital Partners does not have the right to acquire within sixty (60) days, through the conversion of the Series A Preferred Shares or through the exercise of the warrants such number of shares which after giving effect to such exercise or conversion would cause the aggregate number of shares beneficially owned by Cornell Capital Partners and its affiliates to exceed 4.99% of the total outstanding shares of the Company. As a result of this limitation on its percentage beneficial ownership, we do not consider Cornell Capital Partners to be an affiliate.

Each share of Series A Preferred Shares may be converted into shares of the Company's common stock equal to the sum of the Liquidation Amount, defined as an amount equal to \$100 per share of Series A Preferred Shares, plus accrued but unpaid dividends thereon, divided by the Conversion Price. The Conversion Price is defined to be equal to the lower of (i) \$0.192 or (ii) eighty percent (80%) of the lowest daily volume weighted average price of the Company's common stock, as determined by price quotations from Bloomberg, LP, during the ten (10) trading days immediately preceding the date of conversion. Of the 16,000 Series A Preferred Shares to be sold to Cornell Capital Partners, 8,000 Series A Preferred Shares equal a purchase price of \$800,000, which consists of \$255,237 from the surrender of the Promissory Note (as described below) and \$544,763 consisting of new funding. The Company completed the Closing (as such term is defined in the Investment Agreement) by issuing to Cornell Capital Partners the remaining 8,000 Series A Preferred Shares for a purchase price equal to \$800,000 on May 8, 2006, prior to the date that the Registration Statement (which this Prospectus is made part) was initially filed with the SEC.

Any liquidated damages payable hereunder shall not limit, prohibit or preclude the holder from seeking any other remedy available to it under contract, at law or in equity. The Company shall pay liquidated damages hereunder within three (3) business days of the holder making written demand. It shall also become an event of default under the IRRA if the Registration Statement is not declared effective by the SEC within one-hundred twenty (120) days from the date of the IRRA. The Company initially filed its Registration Statement (of which this Prospectus is made a part) with the SEC on May 9, 2006.

CRITICAL ACCOUNTING POLICIES

Our financial statements and accompanying notes are prepared in accordance with generally accepted accounting principles in the United States. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses. These estimates and assumptions are affected by management's applications of accounting policies. Critical accounting policies for Transax International Limited include the useful lives of property and equipment, accounting for stock based compensation and revenue recognition.

We review the carrying value of property and equipment for impairment at least annually or whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of long-lived assets is measured by comparison of its carrying amount to the undiscounted cash flows that the asset or asset group is expected to generate. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the property, if any, exceeds its fair market value.

Under the criteria set forth in SFAS No. 86, "Accounting for the Costs of Computer Software to be Sold, Leased or Otherwise Marketed", capitalization of software development costs begins upon the establishment of technological feasibility of the software. The establishment of technological feasibility and the ongoing assessment of the recoverability of these costs require considerable judgment by management with respect to certain external factors, including, but not limited to, anticipated future gross product revenues, estimated economic life, and changes in software and hardware technology. Capitalized software development costs are amortized utilizing the straight-line method over the estimated economic life of the software not to exceed three years. We regularly review the carrying value of software development assets and a loss is recognized when the unamortized costs are deemed unrecoverable based on the estimated cash flows to be generated from the applicable software.

Accounting for Stock Based Compensation - Effective January 1, 2006, we adopted Statement of Financial Accounting Standards No. 123 ("SFAS No. 123R") (revised 2004), Share Based Payment. SFAS No. 123R establishes the financial accounting and reporting standards for stock-based compensation plans. As required by SFAS No. 123R, we recognize the cost resulting from all stock-based payment transactions including shares issued under its stock option plans in the financial statements. The adoption of this pronouncement may have a material effect on our results of operations.

Revenue Recognition - Our revenues, which do not require any significant production, modification or customization for the Company's targeted customers and do not have multiple elements, is recognized when (1) persuasive evidence of an arrangement exists; (2) delivery has occurred; (3) the Company's fee is fixed and determinable, and; (4) collectibility is probable.

Substantially all of our revenues are derived from the processing of applications by healthcare providers for approval of patients for healthcare services from insurance carriers. Our software or hardware devices containing our software are installed at the healthcare provider's location. We offer

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

transaction services to authorize and adjudicate identity of the patient and obtain "real time" approval for any necessary medical procedure from the insurance carrier. Our transaction-based solutions provide remote access for healthcare providers to connect with contracted insurance carriers. Transaction services are provided through contracts with insurance carriers and others, which specify the services to be utilized and the markets to be served. Our clients are charged for these services on a per transaction basis. Pricing varies depending type of transactions being processed under the terms of the contract for which services are provided. Transaction revenues are recognized in the period in which the transactions are performed.

RECENT ACCOUNTING PRONOUNCEMENTS

In February 2006, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 155, "Accounting for Certain Hybrid Financial Instruments--an amendment of FASB Statements No. 133 and 140" ("SFAS 155"). SFAS 155 permits fair value re-measurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation and clarifies which interest-only strips and principal-only strips are not subject to the requirements of Statement 133. SFAS 155 establishes a requirement to evaluate interests in securitized financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an embedded derivative requiring bifurcation and clarifies that concentrations of credit risk in the form of subordination are not embedded derivatives. Lastly, SFAS 155 amends SFAS 140 to eliminate the prohibition on a qualifying special-purpose entity from holding a derivative financial instrument that pertains to a beneficial interest other than another derivative financial instrument. SFAS 155 is effective in the first fiscal year that begins after September 15, 2006. We are still assessing the impact, if any, on its consolidated financial position, results of operations and cash flows.

Management does not believe that any recently issued, but not yet effective, accounting standards if currently adopted would have a material effect on the accompanying financial statements.

EFFECT OF RECENT ACCOUNTING PRONOUNCEMENTS

In December 2004, the FASB issued SFAS No. 123R, "Share-Based Payment, an Amendment of FASB Statement No. 123". SFAS No. 123R requires companies to recognize, in the statement of operations, the grant-date fair value of stock options and other equity-based compensation issued to employees. SFAS No. 123R is effective for the Company on January 1, 2006. The adoption of this standard did not have a material impact on our financial statements.

In December 2004, the FASB issued SFAS Statement No. 153, "Exchanges of Non-monetary Assets". The Statement is an amendment of Accounting Principles Board ("APB") Opinion No. 29 to eliminate the exception for non-monetary exchanges of similar productive assets and replaces it with a general exception for exchanges of non-monetary assets that do not have commercial substance. We believe that the adoption of this standard will have no material impact on our financial statements.

RESULTS OF OPERATIONS

The significant increase in revenues is due to the continued installation of our software and/or hardware devices containing our software at the healthcare providers' locations in Brazil. Upon installation, we begin the processing of applications submitted by healthcare providers for approval of patients for healthcare services from the insurance carrier. We charge for these services on a per transaction basis. We undertook approximately 3.75 million "real time" transactions during the six (6) month period ended June 30, 2006 compared to 3.00 million "real time" transactions during the period ended June 30, 2005.

Although there can be no assurances, we anticipate that during fiscal year 2006, our ongoing marketing efforts and product roll-out will result in an increase in our net sales from those reported during fiscal year 2005. To support these increased sales, we anticipate that our operating expenses will also increase during fiscal year 2006 as compared to fiscal year 2005. We are, however, unable to predict at this time the amount of any such increase in operating expenses.

PLAN OF OPERATION

Since our inception, we have funded operations through short-term borrowings and equity investments in order to meet our strategic objectives. Our future operations are dependent upon external funding and our ability to increase revenues and reduce expenses. Management believes that sufficient funding will be available from additional related party borrowings and private placements to meet our business objectives including anticipated cash needs for working capital, for a reasonable period of time. However, there can be no assurance that we will be able to obtain sufficient funds to continue the development of our software products and distribution networks.

On January 13, 2006, we entered into an Investment Agreement with Cornell Capital Partners, LP ("Cornell") and together with the Company, (the "Parties"), pursuant to which we shall sell to Cornell up to 16,000 shares of Series A Convertible Preferred Stock, no par value per share, (the "Series A Preferred Shares") which shall be convertible, at Cornell's discretion, into shares of the Company's common stock, par value \$0.00001 per share (the "Common Stock") for a total price of up to \$1,600,000.

Of the 16,000 Series A Preferred Shares to be sold to Cornell, 8,000 Series A Preferred Shares had a purchase price of \$800,000, which consisted of \$255,237 from the surrender of a Promissory Note (as described below) and \$544,763 consisting of new funding of which the Company received net proceeds of \$470,734 after the payment of placement fees and expenses of \$74,029. On May 8, 2006, we sold the remaining 8,000 shares of Series A Preferred Shares to Cornell, for the purchase price of \$800,000 and received net proceeds of \$728,000 (net of placement fees of \$72,000).

In connection with the Investment Agreement, the Parties entered into an Investor Registration Rights Agreement (the "IRRA"), dated January 13, 2006, pursuant to which the parties agreed that, in the event the Registration Statement is not filed within thirty (30) days from the date the Company files its Annual Report on Form 10-KSB for the year ended December 31, 2005 (the "Filing Deadline") or is not declared effective by the SEC within ninety (90) days of the date of the IRRA (the "Effective Deadline"), or if after the Registration Statement has been declared effective by the SEC, sales cannot be made pursuant to the Registration Statement, then as relief for the damages to any holder of Registrable Securities (as defined in the IRRA) by reason of any such delay in or reduction of its ability to sell the underlying shares of common stock (which remedy shall not be exclusive of any other remedies at law or in equity), the Company will pay as liquidated damages to the holder, at the holder's option, either a cash amount or shares of the Company's common stock

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

equal to two percent (2%) of the Liquidation Amount (as defined in the Certificate of Designation of Series A Convertible Preferred Shares) outstanding as liquidated damages for each thirty (30) day period or any part thereof after the Filing Deadline or the Effective Deadline as the case may be. Any liquidated damages payable hereunder shall not limit, prohibit or preclude the holder from seeking any other remedy available to it under contract, at law or in equity. The Company shall pay any liquidated damages hereunder within three (3) business days of the holder making written demand. It shall also become an event of default under the IRRA if the Registration Statement is not declared effective by the SEC within one-hundred twenty (120) days from the date of the IRRA. The Company initially filed its Registration Statement (of which this Prospectus is made a part) with the SEC on May 9, 2006.

In connection with the sale of the Series A Preferred Shares, on January 13, 2006, the Parties agreed that Cornell Capital Partners will surrender the Promissory Note issued by us to Cornell on May 17, 2005, in the principal amount of \$255,237, in exchange for \$255,237 of Series A Preferred Shares. As of January 13, 2006, the full amount outstanding under the Promissory Note was \$255,237, plus accrued and unpaid interest of \$0. As a result of the Parties' agreement, the Promissory Note was retired and canceled. The Parties also agreed to terminate the Securities Purchase Agreement and the Investor Registration Rights Agreement, each dated as of October 25, 2004, as well as the Pledge and Escrow Agreements, each dated as of October 21, 2004, that were entered into by the Parties in connection with the issuance of the Promissory Note.

Certain negative covenants in the Investment Agreement could substantially impact our ability to raise funds from alternative sources in the future. For example, so long as any Series A Preferred Shares are outstanding, the Company shall not, without the prior written consent of Cornell Capital Partners (a) directly or indirectly consummate any merger, reorganization, restructuring, reverse stock split consolidation, sale of all or substantially all of the Company's assets or any similar transaction or related transactions; (b) incur any indebtedness for borrowed money or become a guarantor or otherwise contingently liable for any such indebtedness except for trade payables or purchase money obligations incurred in the ordinary course of business; (c) file any other registration statements on any form (including but not limited to forms S-1, SB-2, S-3 and S-8); (d) issue or sell shares of common stock or preferred stock without consideration or for a consideration per share less than the bid price of the common stock determined immediately prior to its issuance or issue any preferred stock, warrant, option, right, contract, call, or other security or instrument granting the holder thereof the right to acquire common stock without consideration or for a consideration per share less than the bid price of the common stock determined immediately prior to the issuance of such convertible security or (e) enter into any security instrument granting the holder a security interest in any and all assets of the Company.

On January 13, 2006, the Company also issued to Cornell warrants to purchase up to 5,000,000 shares of Common stock. The first warrant issued to Cornell for 2,500,000 shares of Common Stock at an exercise price of \$0.30 per share, shall terminate after the five (5) year anniversary of the date of issuance. The second warrant issued to Cornell was for 2,500,000 shares of Common Stock at an exercise price of \$0.20 per share, and shall terminate after the five (5) year anniversary of the date of issuance.

As of the date of this Registration Statement, there is substantial doubt regarding our ability to continue as a going concern as we have not generated sufficient cash flow to fund our business operations and material commitments. Our future success and viability, therefore, are dependent upon our ability to develop, provide and market our information network solutions to healthcare

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

providers, health insurance companies and other end-users, and the continuing ability to generate capital financing. We are optimistic that we will be successful in our business operations and capital raising efforts; however, there can be no assurance that we will be successful in generating revenue or raising additional capital. The failure to generate sufficient revenues or raise additional capital may have a material and adverse effect upon us and our shareholders.

We anticipate an increase in operating expenses over the next three years to pay costs associated with such business operations. We may need to raise additional funds. We may finance these expenses with further issuances of our common stock. We believe that any anticipated private placements of equity capital and debt financing, if successful, may be adequate to fund our operations over the next twelve months. Thereafter, we expect we will need to raise additional capital to meet long-term operating requirements. If we raise additional funds through the issuance of equity or convertible debt securities other than to current shareholders, the percentage ownership of our current shareholders would be reduced, and such securities might have rights, preferences or privileges senior to our existing common stock. In addition, additional financing may not be available upon acceptable terms, or at all. If adequate funds are not available, or are not available with acceptable terms, we may not be able to conduct our business operations successfully. This eventuality could significantly and materially restrict our overall business operations.

Based upon a twelve (12) month work plan proposed by management, it is anticipated that such a work plan would require approximately \$1,000,000 to \$3,000,000 of financing designed to fund various commitments and business operations.

27

In April 2005, we entered into a financing agreement with Scott and Heather Grimes, Joint Tenants with Right of Survivorship (the "Investor"). Under the terms of the financing arrangement with the Investor, we issued convertible debentures to the Investor in the original principal amount of \$250,000. The debentures are convertible at the Investor's option any time up to maturity at a conversion price equal to the lower of: (i) 120% of the closing bid price of our common stock on the date of the debentures, or (ii) 80% of the lowest closing bid price of our common stock for the five trading days immediately preceding the conversion date. The debentures have a two-year term and accrue interest at 5% per year. At maturity, the debentures will automatically convert into shares of our common stock at a conversion price equal to the lower of: (i) 120% of the closing bid price of our common stock on the date of the debentures, or (ii) 80% of the lowest closing bid price on our common stock for five trading days immediately preceding the conversion date. On July 17, 2006, the Investor converted \$15,000 of the Debenture into 104,167 shares of the Company's common stock.

Certain negative covenants in the Securities Purchase Agreement could substantially impact our ability to raise funds from alternative sources in the future. For example, for as long as the convertible debenture remains outstanding and without the written consent of the debenture holder, the Company (a) shall not directly or indirectly consummate any merger, reorganization, restructuring, reverse stock split consolidation, sale of all or substantially all of the Company's assets or any similar transaction or related transactions; (b) shall not issue or sell shares of common stock or preferred stock without consideration or for a consideration per share less than the bid price of the common stock determined immediately prior to its issuance or issue any warrant, option, right, contract, call, or other security or instrument granting the holder thereof the right to acquire common stock without consideration or for a

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

consideration per share less than the bid price of the common stock determined immediately prior to the issuance of such convertible security; (c) shall not enter into any security instrument granting the holder a security interest in any or all assets of the Company; (d) shall not file any registration statement on Form S-8 except the Company may file one registration statement on Form S-8 for up to 2,500,000 shares of common stock and provided however, anyone receiving shares pursuant to such permitted Form S-8 registration shall be restricted from selling such shares for a period of ninety (90) days after the registration statement becomes effective and (e) shall not, and shall cause each of its subsidiaries not to, enter into, amend, modify or supplement, or permit any subsidiary to enter into, amend, modify or supplement any agreement, transaction, commitment, or arrangement with any of its or any of its subsidiary's officers, directors, person who were officers or directors at any time during the previous two years, stockholders who beneficially own five percent (5%) or more of the Company's common stock, or Affiliates (as defined in the Securities Purchase Agreement) or with any individual related by blood, marriage, or adoption to any such individual or with any entity in which any such entity or individual owns a five percent (5%) or more beneficial interest, except for (i) customary employment arrangements and benefit programs on reasonable terms, (ii) any investment in an Affiliate of the Company, (iii) any agreement, transaction, commitment, or arrangement on an arms-length basis on terms no less favorable than terms which would have been obtainable from a person other than such related party and (iv) any agreement transaction, commitment, or arrangement which is approved by a majority of the disinterested directors of the Company.

On February 1, 2006, we and the debenture holder mutually agreed to extend the term of the debentures until December 1, 2007. In addition, we granted a warrant to purchase 400,000 shares of our common stock to the debenture holder. The warrant has a term of 2 years and is exercisable at \$0.20 per share. We agreed to register 3,571,429 shares of our common stock underlying the conversion of the Debentures and the exercise of the warrant on a best efforts basis not later than 30 days after we filed our Annual Report on Form 10-KSB/A for the fiscal year ended December 31, 2005. On May 9, 2006 a registration statement was filed with the Securities and Exchange Commission.

We believe that we can satisfy our cash requirements for the next twelve (12) months based on our ability to enter into additional financing arrangements as necessary. Our future success and viability are primarily dependent upon our current management to generate revenues from business operations and raise additional capital through further private offerings of our stock or loans from private investors. There can be no assurance, however, that we will be able to raise additional capital. Our failure to successfully raise additional capital will have a material and adverse affect upon us and our shareholders.

A significant material liability for us for fiscal year 2006 is the aggregate principal amount of \$175,000 and \$32,035 in accrued interest due and owing to a related party in accordance with two convertible promissory notes (collectively, the "Convertible Promissory Note(s)"). Previously, the aggregate principal amounts of the Convertible Promissory Notes were \$200,000 and \$100,000, respectively. During March 2005, we modified the terms of the Convertible Promissory Notes: (i) \$200,000 is due on March 31, 2007 and convertible into shares of our common stock at \$0.125 per share together with a warrant per share to purchase our common stock at \$0.25 per share for a period of two years; and (ii) \$100,000 is due on April 30, 2007 and convertible into shares of our common

stock at \$0.125 per shares together with a warrant per share to purchase our common stock at \$0.25 per share for a period of two years. On June 28, 2005 and September 30, 2005, the holders of the Convertible Promissory Notes partially exercised the respective conversion rights. As at June 30, 2006, an aggregate principal amount of \$175,000 and interest in the amount of \$32,035 remains due and owing under the Convertible Promissory Notes.

LOAN - RELATED PARTY

A significant material liability for us for fiscal year 2006 is the aggregate amount of \$144,336 in principal due and owing to a related party (the "Loan"). The \$144,336 Loan is evidenced by a promissory note with an interest rate of 0.8% per month compounded and was repayable during March 2006. As of the date of this Quarterly Report, the Loan due date is being negotiated. Additionally, during 2005, we borrowed \$85,000 from this officer, which amount was repaid during the six-month period ended June 30, 2006. At June 30, 2006, \$3,455 in interest was accrued on this loan.

CONSULTING AGREEMENT

A significant and estimated material liability for us for fiscal year 2006 is the aggregate amount of \$209,869 due and owing to Stephen Walters, our President. In accordance with the terms of an agreement, effective April 2006, we pay monthly to Mr. Walters an aggregate amount of \$15,000 as compensation for managerial and consulting services he provides.

CONVERTIBLE DEBENTURE

A significant material liability for us for fiscal year 2006 is the convertible debenture payable in the amount of \$250,000. On April 1, 2005, we entered into a financing agreement with Investor. Under the terms of the financing arrangement with the Investor, we issued convertible debentures to the Investor in the original principal amount of \$250,000. The debentures are convertible at the Investor's option any time up to maturity at a conversion price equal to the lower of: (i) 120% of the closing bid price of our common stock on the date of the debentures, or (ii) 80% of the lowest closing bid price of our common stock for the five trading days immediately preceding the conversion date. The debentures have a two-year term and accrue interest at 5% per year. At maturity, the debentures will automatically convert into shares of our common stock at a conversion price equal to the lower of: (i) 120% of the closing bid price of our common stock on the date of the debentures, or (ii) 80% of the lowest closing bid price on our common stock for five trading days immediately preceding the conversion date. On February 1, 2006 we agreed to extend the term of the debentures to December 1, 2007 and issued 400,000 warrants at 0.20 per share valid for two (2) years.

ACCRUED TAXES AND RELATED EXPENSES

A significant and estimated material liability for us for fiscal year 2006 is the aggregate amount of approximately \$755,100 due and owing for Brazilian payroll taxes and Social Security taxes.

Effective April 1, 2004, we entered into a payment program with the Brazilian authorities whereby the Social Security ("INSS") taxes due and applicable penalties and interests will be repaid over a period of up to 60 months. At December 31, 2005, approximately \$297,000 of our INSS taxes are to be repaid over periods from 20-50 months. The payment program requires us to pay a monthly fixed amount of approximately \$9,000. During February 2006 we entered into a payment program for \$30,000 of other taxes to be repaid over a period of 60 months. Discussions are currently ongoing for us to enter into a similar payment plan for approximately \$213,000 of tax liabilities. We made the first payment as per the plan in April 2004 and have continued to make the required

payments.

29

PURCHASE OF SIGNIFICANT EQUIPMENT

We do not intend to purchase any significant equipment during the next twelve (12) months with the exception of replacing and upgrading hardware during the normal course of business.

OFF BALANCE SHEET ARRANGEMENTS

As of the date of this Registration Statement, we do not have any off-balance sheet arrangements that have or are reasonably like to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors. The term "off-balance sheet arrangement" generally means any transaction, agreement or other contractual arrangement to which an entity unconsolidated with us is a party, under which we have: (i) any obligation arising under a guarantee contract, derivative instrument or variable interest; or (ii) a retained or contingent interest in assets transferred to such entity or similar arrangement that serves as credit, liquidity or market risk support for such assets.

CURRENT BUSINESS OPERATIONS

Through our wholly-owned subsidiary Medlink Conectividade em Saude Ltda (formerly f/k/a Telecommunication Data Systems Ltda. and referred to herein as "Medlink"), we are an international provider of health information management products (collectively, the "Health Information Management Products"), which are specifically designed for the healthcare providers and health insurance companies. We are dedicated to improving healthcare delivery by providing hospitals, physician practices and health insurance companies with innovative health information management systems to manage coding, compliance, abstracting and record management processes. We have developed a proprietary software trademarked (Brazil only) "MedLink Solution", which was specifically designed and developed for the healthcare and health insurance industry enabling the real time automation of routine patient eligibility, verifications, authorizations, claims processing and payment functions that were previously performed manually (the "MedLink Solution").

Our strategic focus is to become a premier international provider of health information management network solutions for the healthcare providers and health insurance companies, enabling the real time automation of routine patient transactions. We believe that our unique combination of complimentary solutions is designed to significantly improve the business of healthcare. Our Health Information Management Products and software solutions are designed to generate operational efficiencies, improve cash flow and measure the cost and quality of care. In general, the Health Information Management Products and software solutions, including the MedLink Solution, fall into four main areas: (i) compliance management; (ii) coding and reimbursement management; (iii) abstracting; and (iv) record management.

We believe that hospitals and other healthcare providers must implement comprehensive coding and compliance programs in order to minimize payer submission errors and assure the receipt of anticipated revenues. We believe that an effective program should include clear, defined guidelines and procedures, which combined with our Health Information Management Products, will enhance an organization's system and effectively increase revenues and reduce costs. Our Health Information Management Products will include compliance management and coding and reimbursement products and software, which are designed to conduct automated prospective and retrospective reviews of all in-patient and out-patient claims data. Management tools include internally designed targets aimed to provide data quality, coding accuracy and appropriate reimbursement. These tools work in conjunction with an organization's coding and

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

billing compliance program to (i) identify claims with potential errors prior to billing; (ii) screen professional fees and services; and (iii) identify patterns in coding and physician documentation. Results of the auditing and monitoring activities are represented in executive reports summarizing clinical and financial results as well as detailed reports providing information needed to target specific areas for review. Billing practices for health care services are under close scrutiny by governmental agencies as high-risk areas for Medicare fraud and abuse. We believe that the Health Information Management Products will increase an organization's progress in reducing improper payments and ensuring that medical record documentation support services are provided.

The Health Information Management Products are also designed to include abstracting solutions, which enable healthcare facilities to accurately collect and report patient demographic and clinical information. We believe that the Health Information Management Products will provide the organization with the ability to calculate in-patient and out-patient hospital reimbursements and customize data fields needed for state, federal or foreign governmental regulatory requirements. Standard and custom reports will provide the customer with the ability to generate facility-specific statistical reporting used for benchmarking, outcomes and performance improvement, marketing and planning. We believe that the Health Information Management Products will further provide healthcare organizations the flexibility to customize abstracting workflow to meet data collection reporting and analysis needs. The Health Information Management Products will provide the organization with the ability to customize workflow by creating fields and rules and designing screen navigation.

We also believe that the Health Information Management Products will provide record management, which will automate the record tracking and location functions, monitor record completeness and facilitate the release of information process within health information management departments. The Health Information Management Products will assist healthcare organizations in properly completing records pursuant to state, federal, foreign governmental and medical staff requirements. The management tools are designed to monitor a facility's adherence to patient privacy, disclosure and patient bill of rights requirements, if applicable.

MEDLINK SOLUTION/MEDLINK WEB SOLUTION

We have developed a proprietary software trademarked (Brazil only) "MedLink Solution", which was specifically designed and developed for the healthcare and health insurance industry enabling the real time automation of routine patient eligibility, verifications, authorizations, claims processing and payment functions that are currently performed manually (the "MedLink Solution"). A transaction fee is charged to the insurer for use of the MedLink Solution. The MedLink Solution hosts its own network processing system (the "Total Connectivity Solution"), whereby we are able to provide an insurer with the ability to cost effectively process all of the transactions generated regardless of location or method of generation.

During fiscal year 2005, we released a new version of MedLink Solution that is Health Insurance Portability and Accountability Act ("HIPAA") compliant, which was developed in-house by our professional using the Microsoft.NET platform (the "MedLink Web Solution"). Medlink became a member of the Microsoft Partnership program, therefore, the initial design and specification of the MedLink Web Solution was undertaken in collaboration with engineers from the Microsoft Development and Training Center in Brazil. Our new MedLink Web Solution offers all functionalities already available in our other capture solutions, but in an Internet-based application that can be accessed by providers through a standard Internet browser. The MedLink Web Solution allows

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

providers to capture medical and dental exams, procedures, therapies, visits, laboratory tests and doctor referrals without complicated software conversion, utilizing an existing Internet connection. MedLink Web Solution contains a number of important security procedures following international standards, utilizing an intrusion detection system and SSL security to encrypt transactions. Additional security features are available at the application level to individual users.

We believe that the MedLink Solution and the MedLink Web Solution solves technological and communication problems within the healthcare systems by creating a virtual "paperless office" for the insurer and total connectivity, regardless of method, for the health provider. The MedLink Solution replaces manual medical claims systems and provides insurance companies and healthcare providers significant savings through a substantial reduction in operational costs. The MedLink Solution allows users to collect, authorize and process transaction information in real-time for applications including, but not limited to, patient and provider eligibility verification, procedure authorization and claims and debit processing. Participants of the MedLink Solution include private health insurance companies, group medical companies, and healthcare providers.

During fiscal year ended December 31, 2005 and 2004, we installed approximately 1,850 and 2,500 MedLink Solutions, respectively, into healthcare provider locations throughout Brazil. At the end of 2005 we had approximately 5,350 solutions installed into healthcare provider locations throughout Brazil.

We anticipate that upon completion of compliance testing by an independent third-party in the United States and subsequent certification, we will launch our MedLink Web Solution to the United States market under our current arrangements with Union Dental Corp. and to the general market. See "--Product Market Target Strategy - Product Target Market - Union Dental Corp."

MEDLINK SOLUTION ARCHITECTURE AND DESIGN

We believe that the MedLink Solution is the total connectivity system that will allow hospitals, clinics, medical specialists and other healthcare providers to easily capture, route, and authorize medical, hospital, and dental claims in "real time". The MedLink Solution will address pre-existing technological and communication problems by creating a universal virtual link between the insurer and the care provider.

The MedLink Solution's architecture and design is as follows: (i) seven capture methods; (ii) a network processor; and (iii) an authorizer.

CAPTURE METHODS. The MedLink Solution is tailored to the specific care provider's environment and needs usage based upon its technological resources, physical installation and volume of claims. The MedLink Solution offers seven different methods to capture data. The health care provider can select which of these seven methods best suit its operational needs and technological abilities.

32

Regardless of the capture method chosen, transactions are seamless and efficient. The MedLink Solution's capture methods are:

- o MedLink Solution POS Terminal;
- o MedLink Solution Phone;
- o MedLink Solution PC Windows

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

- o MedLink Solution PC Net
- o MedLink Solution Server Labs
- o MedLink Solution Server Hospitals
- o MedLink Solution Web

NETWORK PROCESSOR. The MedLink Solution network processor routes the transactions captured by the MedLink Solution (the "Network Processor") to the authorization system of the healthcare plan (the "Authorization System"). For example, in Brazil this process is carried out either using Embratel's Rempac service or the Internet. The Network Processor offers uninterrupted twenty-four (24) hour, seven days a week operation and service.

The Network Processor is secured from the Rempac and Internet communication channels to the communication channels with the Authorization System, passing through the elements of local network, processors and unities of storage of data. It is implemented on a RAID5 disk array architecture.

AUTHORIZATION SYSTEM. The Authorization System's software is composed of a control module and a group of storage procedures that validate the specific rules of the health plan or insurer. It is responsible for: (i) receiving and decoding the messages sent by the Network Processor, containing the solicitations of the MedLink Solution installed at the provider; (ii) identification of the kind of the message (claim, refund, settlement, etc) and of the service provider; (iii) validation or denial of the transaction; (iv) updating the historical database of the claims; and (v) replying to the request by sending a message to the Network Processor.

PRODUCT TARGET MARKET STRATEGY

MARKET STRATEGY

Our key marketing strategy is to position ourselves as a market leader in providing total information management network processing solutions for the healthcare industry worldwide. We believe that its Health Information Management Products encompass a variety of solutions for healthcare provider locations, a complete network processing service for the health insurance companies, and in-house software and systems development to address specific and unique customer requirements, and the ability to operate the systems through a variety of communication methods.

The promotional and marketing strategy is based on creating a proactive "push pull" effect on the demand for the Health Information Management Products and services within the healthcare industry. We have been focusing on the promotion and marketing of its products to the Brazilian healthcare providers and insurance companies by demonstrating: (i) the benefits of the MedLink Solution application and services; (ii) real-time cash visibility; (iii) nominal to no capital investment; (iv) the established Network Processor facility; (v) custom software development support; and (vi) option of immediate payment of outstanding claims.

We believe that this commonly used marketing and promotional model will be suitable and used for initial market penetration. However, international marketing and promotional strategies will be developed and adapted on a country-to-country basis to meet different market environments and governmental requirements, build business and political relationships, and obtain domestic media exposure and high visibility within the local healthcare industry to establish credibility.

During fiscal year 2005, we attended the ValueRich Small Cap Financial Expo

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

held at the Jacob Javits Center in New York City. Our management made a presentation during which our current operations, proprietary technology, including our new cost-saving software MedLink Web Solutions, and growth strategies were discussed. We believe that investment conferences are also an important opportunity to connect with potential clients and the financial community in a way that allows them to appreciate the benefits of our software solutions up close. In addition, as of the date of this Prospectus, we are in the process of scripting and producing a feature to be aired on CNN's Lou Dobbs Show for a "Business Odyssey/Business & Beyond" and on Alexander Haig's Health Journal Television series.

33

PRODUCT TARGET MARKET

We have identified two initial target markets for our products. They are: (i) healthcare providers, such as physicians, clinics, hospitals, laboratories, diagnosis centers, emergency centers, etc.; and (ii) health insurance and group medicine companies.

We have previously been successfully short-listed by the Australian Federal Government through its Health Insurance Commission (the "HIC"), to supply an authorization and eligibility solution for the Australian health insurance market. On January 19, 2003, we established our wholly-owned subsidiary, Transax Australia, to seek additional opportunities within Australia and New Zealand.

We are currently focused primarily on the marketing and sale of our Health Information Management products in Brazil and have commenced to seek other opportunities in certain South American countries. We believe that there is a significant global market opportunity for our Healthcare Information Management Products and services and software technology.

UNION DENTAL CORP.

During fiscal year 2005, we developed and demonstrated a "real time" solution for authorization and adjudication of dental claims for Union Dental Corp. ("UDC"), for the United States market. The solution we demonstrated in association with UDC and on behalf of the Communication Workers of America Union will be developed in three phases. Phase I consisted of: (i) processing of certain business rules in order to guarantee that error free claims are generated; (ii) real time calculation of the proper co-pay according to the existing and future schedules as negotiated; and (iii) generation of the electronic claims files to be submitted to the insurer in real-time transactions standards. The final stage of the project is expected to lead to a real time payment option for union dental providers following the adjudication process. As of the date of this Prospectus, UDC is testing our product and, when completed, we anticipate that it may lead to contract in the United State to provide "real time" authorization and auto-adjudication of health claims within the expanding union dental network of dental providers throughout the United States.

STRATEGIC ALLIANCES

We have developed key strategic alliances with the following technology providers to support the MedLink Solution's unique system architecture and design. We believe that the establishment of these strategic alliances has given us a significant competitive advantage in Brazil.

CENTRO BRASILERIO DE INFORMATICA MEDICA S/A

On February 14, 2006, we entered into an agreement (the "CEBIM Agreement") with Centro Brasilerio De Informatica Medica S/A, a Brazilian company ("CEBIM").

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

CEBIM is the developer of Brazil's Amigo premier medical practice management system ("Amigo PMS"). Pursuant to the terms and provisions of the CEBIM Agreement, CEBIM will integrate our MedLink Web Solution real time online claims adjudication with the Amigo PMS software to provide users with a new version of the Amigo PMS, including connectivity. As of the date of this Prospectus, we anticipate that integration of the MedLink Web Solution is expected to be completed by the end of second quarter 2006. We anticipate significant benefits as a result of this strategic relationship. We believe we will obtain a minimum of 2,000 additional capture solutions, which would represent an approximate 40% increase. As a result of the anticipated increased solutions, we estimate up to 400,000 transaction per month may be generated through the Amigo PMS once the integration is complete and rollout becomes fully operational. We believe that this strategic partnership will generate additional revenue of approximately \$2,000,000 annually.

GENS INFORMATION - PMS/ASP

On February 19, 2001, we entered into an operating agreement (the "GENS Operating Agreement") with GENS Information ("GENS"). Pursuant to the terms and provisions of the GENS Operating Agreement: (i) GENS will provide to us a basic product called "Personal Med", which is a Windows client-server application, running with Delphi front-end and Paradox and Oracle DB; and (ii) we will incorporate the MedLink Solution transaction services within the Personal Med allowing for its users to use the MedLink Solution services from within their PMS.

We believe that GENS is the leading Brazilian developer of practice management software with over 50% of the market share. Personal Med is the name of GENS basic product, with some thirty variations according to doctor's specialization. The variations are designed around specific exams data to be acquired and stored in each medical specialization.

34

We estimate that current installed basis is approximately 10,600 copies sold directly to doctors, plus approximately 500 copies sold to corporations. We believe that GENS has approximately 50% of the Brazilian market in practice management systems. The current structure sells an average of 200 copies a month, plus special events.

GENS is currently implementing versions to its Personal Med based on SQL server, and is further developing a web enabled version, which will allow doctors to select patients they want to have access through the Internet, and a tool to access the database of each patient for this centralized base. GENS is also implementing access to doctor's agenda and some direct news to be directed to Internet enabled doctors.

VIDALINK, INC. - DRUG MANAGEMENT

On August 29, 2001, we entered into an operational agreement (the "Vidalink Operational Agreement"), with Vidalink, Inc. ("Vidalink"), to allow the Vidalink Health Portal access to the MedLink Solution connectivity services, creating the first authorization and claims processing Internet service in Brazil. The Vidalink Health Portal offers doctors, the most extensive set of information on pathologies and medication practices, with complete drug interaction analysis and alert functionality. It offers also extensive continuous education programs, with selection of doctor's areas of interest and automatic issuing news in selected subjects.

Pursuant to the terms and provisions of the Vidalink Operational Agreement, the MedLink Solution connectivity capabilities will be added to the Vidalink

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

Health Portal, which will give the MedLink Solution access to Vidalink's drug management services and Internet content, thus creating a synergic relationship between the two portals and allow doctors access to each portal reaching a much broader range of services.

Vidalink is a health portal focused in offering the premier drug management service package in Latin America, with operations in Mexico and Brazil. Through Vidalink, health plans have access to drug discount programs, as well as an extensive drug usage management service, capable of monitoring consumption of specific drugs by patients. We believe that the Vidalink programs are supported by agreements with approximately twenty-two of the largest pharmaceutical industries in Brazil, offering discount packages for drugs covering over 85% of total chronic diseases. We further believe that Vidalink also offers a drug delivery scheme from an extensive network of pharmacies reaching over 5000 points of presence nationwide.

MOSAIC SOFTWARE, INC. - NETWORK PROCESSOR SYSTEM

On November 25, 2002, we entered into supplier agreement (the "Mosaic Supplier Agreement") with Mosaic Software, Inc. ("Mosaic"), to develop the Network Processor software package, known as the "Positllion", for use in the MedLink Solution. We believe that Mosaic is the supplier of the most modern technology for network control software, based on a low cost hardware platform (PC's) and Windows NT software. Management believes the Position software is the best cost /effect solution for this kind of system. During 2005 Mosaic Software, Inc. was acquired by S1 Corporation of Atlanta, Georgia.

HYPERCOM CORPORATION

On December 1, 2003, we entered into a servicing agreement (the "Hypercom Service Agreement") with Hypercom Corporation, a publicly traded multinational company ("Hypercom"). Pursuant to the terms and provisions of the Hypercom Service Agreement Hypercom would provide leasing arrangements for POS (Point of Sale) terminals in Brazil.

On April 30, 2002, we entered into a service agreement with Netset, Inc. ("Netset"), a wholly-owned subsidiary of Hypercom (the "Service Agreement"). Pursuant to the terms and provisions of the Service Agreement, Netset will (i) provide to us installation, servicing, training, customer service and technical support (Call Center) for its terminal network in Brazil; and (ii) allow us to use the entire Hypercom structure to serve its clients.

RESEARCH AND DEVELOPMENT

Our research and development department is responsible for the definition, design and implementation of our products. This comprises three main areas of activity: research of electronic transaction product trends both in Brazil and around the world as it applies to the healthcare industry, definition of products and services required for MedLink Solution services and implementation of the hardware and software products to support MedLink Solution services. Products to be offered by MedLink Solution involves interactive discussions with the marketing and sales team in order to identify the market needs, costs and timing to introduce such products and solutions. We have entered into agreements with Hypercom and Dione PLC, of the United Kingdom, to utilize their terminals for the MedLink Solution.

During fiscal year 2005, we developed a biometric (fingerprint reader) version of our MedLink Solution on behalf of a major health insurance group in Brazil, which is currently piloting the solution in that region (the "Biometric

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

Solution"). The Biometric Solution is a new biometric security technology, which is rendered from the first time a patient visits a medical provider location.

The patient passes a magnetic card through a reader for verification and then provides a fingerprint and his/her biometric identity is stored in the MedLink Solution authorizer. The Biometric Solution will be used in conjunction with magnetic stripe or smart cards issued by the health insurer to its policyholders in such a way that through the MedLink Solution real time adjudication system, information on the magnetic stripe card and fingerprint recognition must match each time a patient requires authorization and adjudication of medical claims. We believe that this additional security for the MedLink Solution will expedite patient authentication processes while significantly enhancing the security of customer information transfer between the health care provider and the insurer. As of the date of this Prospectus, upon certification of the Biometric Solution, we will make the Biometric Solution available as an option to our current and future clients.

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

Current roll out plans indicate that we will install up to 3,500 solutions into the Bradesco provider's network in order to achieve Bradesco's initial target of 1,000,000 transactions per month. During fiscal years ended December 31, 2005 and 2004, we processed 3,200,000 and 570,000 transactions, respectively, for Bradesco.

CORNELL CAPITAL PARTNERS

On October 13, 2004 and May 17, 2005, we entered into two (2) respective Standby Equity Distribution Agreements, (collectively, the "Standby Equity Distribution Agreements"), and associated documentation, including a promissory note, with Cornell Capital Partners. The Standby Equity Distribution Agreements were terminated on May 17, 2005 and January 13, 2006, respectively (collectively, the "Termination Agreement(s)"). In accordance with the terms and provisions of the Standby Equity Distribution Agreements we: (i) issued to Cornell Capital Partners 1,202,779 shares of our common stock; and (ii) issued to Monitor Capital, Inc. On January 13, 2006, we entered into the Investment Agreement with Cornell Capital Partners. In accordance with the terms and provisions of the Investment Agreement: (i) we sold to Cornell Capital Partners 16,000 shares of our Series A Preferred for a total price of up to \$1,600,000; (ii) the Series A Preferred Shares are senior to all common stock and all series of preferred stock; (iii) the holders of Series A Preferred Shares are entitled to receive dividends or distribution on a pro rata basis in the amount of seven percent (7%) per year which shall be paid in cash and shall be cumulative; and (iv) each Series A Preferred Share can be converted into shares of our common stock equal to the sum of the Liquidation Amount, which is defined as an amount equal to \$100 per shares of Series A Preferred, plus accrued but unpaid dividends thereon, divided by the conversion price (which conversion price is defined to be equal to the lower of (a) \$0.192 or (b) eighty percent (80%) of the lowest daily volume weighted average price of our common stock as determined by price quotations from Bloomberg, LP during the ten (10) trading days immediately preceding the date of conversion.

In connection with the Investment Agreement, the Parties entered into an Investor Registration Rights Agreement (the "IRRA"), dated January 13, 2006, pursuant to which the parties agreed that, in the event the Registration Statement is not filed within thirty (30) days from the date the Company files its Annual Report on Form 10-KSB for the year ended December 31, 2005 (the "Filing Deadline") or is not declared effective by the SEC within ninety (90) days of the date of the IRRA (the "Effective Deadline"), or if after the Registration Statement has been declared effective by the SEC, sales cannot be made pursuant to the Registration Statement, then as relief for the damages to any holder of Registrable Securities (as defined in the IRRA) by reason of any such delay in or reduction of its ability to sell the underlying shares of common stock (which remedy shall not be exclusive of any other remedies at law or in equity), the Company will pay as liquidated damages to the holder, at the holder's option, either a cash amount or shares of the Company's common stock equal to two percent (2%) of the Liquidation Amount (as defined above) outstanding as liquidated damages for each thirty (30) day period or any part

It shall also become an event of default under the IRRA if the Registration Statement is not declared effective by the SEC within one-hundred twenty (120) days from the date of the IRRA. The Company initially filed its Registration Statement (of which this Prospectus is made a part) with the SEC on May 9, 2006.

For example, so long as any Series A Preferred Shares are outstanding, the Company shall not, without the prior written consent of Cornell Capital Partners (a) directly or indirectly consummate any merger, reorganization, restructuring, reverse stock split consolidation, sale of all or substantially all of the Company's assets or any similar transaction or related transactions; (b) incur any indebtedness for borrowed money or become a guarantor or otherwise contingently liable for any such indebtedness except for trade payables or purchase money obligations incurred in the ordinary course of business; (c) file any other registration statements on any form (including but not limited to forms S-1, SB-2, S-3 and S-8); (d) issue or sell shares of common stock or preferred stock without consideration or for a consideration per share less than the bid price of the common stock determined immediately prior to its issuance or issue any preferred stock, warrant, option, right, contract, call, or other security or instrument granting the holder thereof the right to acquire common stock without consideration or for a consideration per share less than the bid price of the common stock determined immediately prior to the issuance of such convertible security or (e) enter into any security instrument granting the holder a security interest in any and all assets of the Company.

37

In addition, we granted a warrant to purchase 2,000,000 shares of the Company's common stock. The warrant has a term expiring January 31, 2009. 1,000,000 of the warrants are exercisable at \$0.20 per share and 1,000,000 of the warrants are exercisable at \$0.25 per share. COMPETITION

The information network solutions market for the healthcare providers and health insurance companies is characterized by rapidly evolving technology and intense competition. Many companies of all sizes, including a number of large technology companies, such as IBM, Siemens, Visanet and EDS, as well as several

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

specialized healthcare information management companies, are developing various products and services. There may be products on the market that do or will compete directly with the products and services that we are seeking to develop. These companies may also compete with us in recruiting qualified personnel. Many of our potential competitors have substantially greater financial, research and development, human and other resources than we do.

Furthermore, the larger companies may have significantly more experience than we do in developing such products and services. Such competitors may: (i) develop more efficient and effective products and services; (ii) obtain patent protection or intellectual property rights that may limit our ability to commercialize our products or services; or (iii) commercialize products and services earlier than we do.

We expect technology developments in the healthcare information management and technology industry to continue to occur at a rapid pace.

Commercial developments by any competitors may render some or all of our potential products or services obsolete or non-competitive, which could materially harm our business and financial condition.

We believe that the following Brazilian companies, which have developed or are developing various types of similar products or services, could be our major competitors: (i) Polimed, which offers two modalities for the authorization software; (ii) Connectmed, which offers Internet connectivity services; and (iii) Salutia, which offers a connectivity system with software to be installed and integrated to the management systems, similar to our MedLink Solution Web and MedLink Solution Server and related technologies.

We believe, however, that our Health Management information Products and related services and solutions for the healthcare providers and health insurance companies represent a unique approach and has certain competitive advantages as follows: i) the MedLink Solution significantly reduces medical administrative procedures and costs through connecting in real time individual healthcare provider locations to health insurance companies; (ii) irrespective of the choice of connectivity or the method of transmission, MedLink provides a secure and reliable service where healthcare providers can automatically verify patient eligibility, receive authorization for the performance of approved medical procedures and process a paperless claim electronically with each insurance provider it interacts with, provided they are subscribed to the network; (iii) once connected to the network, MedLink Solution provides numerous benefits to doctors and private health insurance companies including the automation of their paper-based clerical duties; and (iv) by using MedLink Solution, many of these cumbersome tasks can be processed electronically in seconds, virtually eliminating processing costs, paperwork, and the high risks associated with fraud.

38

GOVERNMENT REGULATION

As of the date of this Prospectus, none of our software products or services are regulated by the U.S. Department of Health. However, there is substantial state and federal regulation of the confidentiality of patient medical records and the circumstances under which such records may be used, disclosed to or processed by us as a consequence of our contacts with various healthcare providers and health insurance companies. Although compliance with these laws and regulations is presently the principal responsibility of covered entities, including hospitals, physicians or other healthcare providers, regulations governing patient confidentiality rights are rapidly evolving.

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

Additional federal and state legislation governing the dissemination of medical record information may be adopted which could have a material affect on our business. Those laws, including HIPAA and ICD 10 implementation, may significantly affect our future business and materially impact our product and service development, revenue and working capital. During the past several years, the healthcare industry also has been subject to increasing levels of governmental regulation of, among other things, reimbursement rates and certain capital expenditures. We are unable to predict what, if any, changes will occur as a result of such regulation.

Patents and other proprietary rights are vital to our business operations. Our policy is to seek appropriate copyright and patent protection both in the United States and abroad for our proprietary technologies and products. We have acquired the license to certain intellectual property as follows:

(ii) Source code for all of the MedLink Solutions, source nodes and Network processor source code.

We have hired appropriate counsel in the United States to apply for copyright protection of our products in the United State. We intend to apply for a process patent in the near future.

EMPLOYEES

Our subsidiary, Medlink, employs approximately thirty-six (36) staff and contract personnel. As of the date of this Registration Statement, we do not employ management on a full-time or on a part-time basis. Our President/Chief Executive Officer and Chief Financial Officer are primarily responsible for all day-to-day operations. Other services are provided by outsourcing and verbal management contracts. As the need arises and funds become available, however, management may seek employees as necessary in our best interests.

DESCRIPTION OF PROPERTIES

Except as described above, we do not own any other real estate or other properties. We lease office space in several locations as follows:

(i) United States: 8th Floor, 5201 Blue Lagoon Drive, Miami, Florida, 33126 USA;

(ii) Brazil: Praia de Botafogo # 440, 4 andar, Botafogo 22250 - 040, Rio de Janeiro, RJ Brazil;

(iv) Australia: Suite 22, Old Northern Road, Baulkham Hills, NSW 2153, Australia; and

LEGAL PROCEEDINGS

On March 14, 2005, X-Clearing Corp, a Colorado corporation ("X-Clearing"), our former transfer agent, initiated legal proceedings against us by filing a complaint and verified motion for replevin and for temporary order to preserve property in the District Court of the City and County of Denver, State of Colorado, civil action no. 05 CV 1980 (the "Complaint").

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

On August 9, 2006, we entered into a Settlement Agreement with X-Clearing, releasing all claims and counterclaims of the complaint without any admission of liability for an out of court settlement of \$37,250.

39

Other than as disclosed above, we are not aware of any legal proceedings contemplated by any governmental authority or other party involving us or our subsidiaries or our properties. None of our directors, officers or affiliates are: (i) a party adverse to us in any legal proceedings; or (ii) has an adverse interest to us in any legal proceedings. We are not aware of any other legal proceedings pending or that have been threatened against us, our subsidiaries or our properties.

Management has instructed counsel to vigorously defend all claims against Transax and to aggressively pursue all counterclaims on behalf of the company. While the result of litigation is difficult to predict, counsel has advised Transax that the likelihood of sustaining any significant damages at trial is minimal. Counsel has further advised management that there is a significant likelihood that the case could settle prior to trial without significant financial exposure to Transax.

Other than as disclosed above, we are not aware of any legal proceedings contemplated by any governmental authority or other party involving us or our subsidiaries or our properties. None of our directors, officers or affiliates are: (i) a party adverse to us in any legal proceedings; or (ii) has an adverse interest to us in any legal proceedings. STOCK OPTION PLAN

On July 22, 2003, our Board of Directors unanimously approved and adopted a stock option plan, and during fiscal year 2004, our Board of Directors unanimously approved and adopted a 2004 incentive stock option plan (collectively, the "Stock Option Plan"). The purpose of the Stock Option Plan is to advance our interests and those of our shareholders by affording our key personnel an opportunity for investment and the incentive advantages inherent in stock ownership. Pursuant to the provisions of the Stock Option Plan, stock options (the "Stock Options") will be granted only to our key personnel, generally defined as a person designated by our Board of Directors upon whose judgment, initiative and efforts we may rely including any of our directors, officers, employees or consultants. The Stock Option Plan provides authorization to our Board of Directors to grant Stock Options to purchase a total number of shares of our common stock not to exceed 4,500,000 shares and, in accordance with the provisions of the 2004 incentive stock option plan, a further 2,500,000 shares.

The Stock Option Plan is to be administered by our Board of Directors, which shall determine (i) the persons to be granted Stock Options under the Stock Option Plan; (ii) the number of shares subject to each option, the exercise price of each Stock Option; and (iii) whether the Stock Option shall be exercisable at any time during the option period of ten (10) years or whether the Stock Option shall be exercisable in installments or by vesting only. At the time a Stock Option is granted under the Stock Option Plan, our Board of Directors shall fix and determine the exercise price at which shares of our common stock may be acquired; provided, however, that any such exercise price shall not be less than that permitted under the rules and policies of any stock exchange or over-the-counter market which are applicable.

In the event an optionee who is one of our directors or officers ceases to serve in that position, any Stock Option held by such optionee generally may be exercisable within up to ninety (90) calendar days after the effective date that his position ceases, and after such 90-day period any unexercised Stock Option shall expire. In the event an optionee who is one of our employees or consultants ceases to be employed by us, any Stock Option held by such optionee generally may be exercisable within up to sixty (60) calendar days (or up to thirty (30) calendar days where the optionee provided only investor relations services to us) after the effective date that his employment ceases, and after such 60- or 30-day period any unexercised Stock Option shall expire.

No Stock Options granted under the Stock Option Plan will be transferable by the optionee, and each Stock Option will be exercisable during the lifetime of the optionee subject to the option period of ten (10) years or limitations described above. Any Stock Option held by an optionee at the time of his death may be exercised by his estate within one (1) year of his death or such longer period as our Board of Directors may determine.

Unless restricted by the option agreement, the exercise price shall be paid by any of the following methods or any combination of the following methods: (i) in cash; (ii) by cashier's check, certified check, or other acceptable banker's note payable to us; (iii) by net exercise notice whereby the option holder will authorize the return to the Stock Option Plan pool, and deduction from the option holder's Stock Option, of sufficient Stock Option shares whose net value (fair value less option exercise price) is sufficient to pay the option price of the shares exercised (the fair value of the shares of the Stock Option to be returned to the pool as payment will be determined by the closing price of our shares of common stock on the date notice is delivered); (iv) by delivery to us

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

of a properly executed notice of exercise together with irrevocable instructions (referred to in the industry as 'delivery against payment') to a broker to deliver to us promptly the amount of the proceeds of the sale of all or a portion of the stock or of a loan from the broker to the option holder necessary to pay the exercise price; of (v) such other method as the option holder and our Board of Directors may determine as adequate including delivery of acceptable securities (including our securities), set-off for wages or invoices due, property, or other adequate value. In the discretion of our Board of Director, we may grant a loan or guarantee a third-party loan obtained by an option holder to pay part of all of the exercise option price of the shares provided that such loan or our guaranty is secured by the shares of common stock.

INCENTIVE STOCK OPTIONS

The Stock Option Plan further provides that, subject to the provisions of the Stock Option Plan and prior shareholder approval, our of Board of Directors may grant to any one of our key personnel who is an employee eligible to receive options one or more incentive stock options to purchase the number of shares of common stock allotted by our Board of Directors (the "Incentive Stock Options").

The option price per share of common stock deliverable upon the exercise of an Incentive Stock Option shall be no less than fair market value of a share of common stock on the date of grant of the Incentive Stock Option. In accordance with the terms of the Stock Option Plan, "fair market value" of the Incentive Stock Option as of any date shall not be less than the closing price for the shares common stock on the last trading day preceding the date of grant.

The option term of each Incentive Stock Option shall be determined by our Board of Directors, which shall not commence sooner than from the date of grant and shall terminate no later than ten (10) years from the date of grant of the Incentive Stock Option, subject to possible early termination as described above.

INDEMNIFICATION OF DIRECTORS AND EXECUTIVE OFFICERS AND LIMITATION ON LIABILITY

Under Section 7-109-102 of the Colorado Business Corporations Act (the "Colorado Act") a corporation may indemnify a person made a party to a proceeding because the person is or was a director, against liability incurred in the proceeding. Indemnification permitted under this Section in connection with a proceeding by or in the right of the corporation is limited to reasonable expenses incurred in connection with the proceeding.

Indemnification is only possible under this Section 7-109-102, however, if: (a) the person conducted him/herself in good faith; and (b) the person reasonably believed: (i) in the case of conduct in an official capacity with the corporation, that his or her conduct was in the corporation's best interests; and (ii) in all other cases, that his or her conduct was at least not opposed to the corporation's best interests; and (c) in the case of any criminal proceeding, the person had no reasonable cause to believe his or her conduct was unlawful. It should be noted, however, that under Section 7-109-102(4), a corporation may not indemnify a director: (i) in connection with a proceeding by or in the right of the corporation in which the director is adjudged liable to the corporation; or (ii) in connection with any other proceeding in which a director is adjudged liable on the basis that he or she derived improper personal benefit.

Under Section 7-109-103 a director is entitled to mandatory indemnification, when he/she is wholly successful in the defense of any proceeding to which the person was a party because the person is or was a director, against reasonable expenses incurred in connection to the proceeding.

Under Section 7-109-105, unless restricted by a corporation's Articles of Incorporation, a director who is or was a party to a proceeding may apply for indemnification to a court of competent jurisdiction. The court, upon receipt of the application, may order indemnification after giving any notice the court considers necessary. The court, however, is limited to awarding the reasonable expenses incurred in connection with the proceeding and reasonable expenses incurred to obtain court-ordered indemnification.

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

Under Section 7-109-107, unless restricted by the corporation's Articles of Incorporation, an officer of a corporation is also entitled to mandatory indemnification and to apply for court-ordered indemnification to the same extent as a director. A corporation may also indemnify an officer, employee, fiduciary or agent of the corporation to the same extent as a director.

Under Section 7-109-108 a corporation may purchase and maintain insurance on behalf of a person who is or was a director, officer, employee, fiduciary or agent of the corporation against liability asserted against or incurred by the person in that capacity, whether or not the corporation would have the power to indemnify such person against the same liability under other sections of the Colorado Act.

Our officers and directors are accountable to our shareholders as fiduciaries, which means such officers and directors are required to exercise good faith and integrity in handling our affairs. A shareholder may be able to institute legal action on behalf of himself and all other similarly situated shareholders to recover damages where we have failed or refused to observe the law. Shareholders may, subject to applicable rules of civil procedure, be able to bring a class action or derivative suit to enforce their rights, including rights under certain federal and state securities laws and regulations.

Shareholders who have suffered losses in connection with the purchase or sale of their equity interest due to a breach of a fiduciary duty by one of our officers or directors in connection with such sale or purchase including, but not limited to, the misapplication by any such officer or director of the proceeds from the sale of any securities, may be able to recover such losses from us. We may not be liable to its shareholders for errors in judgment or other acts or omissions not amounting to intentional acts.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers and controlling persons pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by us of expenses incurred or paid by one of our directors, officers or controlling persons in the successful defense or any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, we will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

53

We have has no agreements with any of our directors or executive officers providing for indemnification of any such persons with respect to liability arising out of their capacity or status as officers and directors.

At present, there is no pending litigation or proceeding involving any of our directors or executive officers as to which indemnification is being sought.

At present, there is no pending litigation or proceeding involving a director or executive officers of Transax as to which indemnification is being sought.

TRANSAX INTERNATIONAL LIMITED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2006 (UNAUDITED)

NOTE 1 - BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB and Item 310(b) of Regulation S-B. Accordingly, the financial statements do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments considered necessary to make the interim financials not misleading have been included and such adjustments are of a normal recurring nature. These consolidated financial statements should be read in conjunction with the financial statements for the year ended December 31, 2005 and notes thereto contained in the Report on Form 10-KSB/A of Transax International Limited ("our Company" or the "Company") as filed with the Securities and Exchange Commission (the "Commission"). The results of operations for the six months ended June 30, 2006 are not necessarily indicative of the results for the full fiscal year ending December 31, 2006.

The consolidated financial statements are prepared in accordance with generally accepted accounting principles in the United States of America. The consolidated financial statements include the Company and its wholly-owned subsidiaries, Transax Limited, Medlink Conectividade em Saude Ltda ("Medlink") (formerly TDS Telecommunication Data Systems Ltda.), Transax (Australia) Pty Ltd., and Medlink Technologies, Inc. All material intercompany balances and transactions have been eliminated in the consolidated financial statements.

Organization

Transax International Limited was incorporated in the State of Colorado in 1999. The Company, primarily through its wholly-owned subsidiary, Medlink Conectividade em Saude Ltda ("Medlink") (formerly TDS Telecommunication Data Systems Ltda. through April 4, 2006), is an international provider of information network solutions specifically designed for healthcare providers and health insurance companies. The Company's MedLink Solution (TM) enables the real time automation of routine patient eligibility, verification, authorizations, claims processing and payment functions. The Company has offices located in Miami, Florida and Rio de Janeiro, Brazil.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. Estimates used in the preparation of the accompanying financial statements include the allowance for doubtful accounts receivable, the useful lives of property, equipment and software development costs, variables used to determine stock-based compensation, and the valuation of derivative liabilities.

TRANSAX INTERNATIONAL LIMITED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2006 (UNAUDITED)

NOTE 1 - BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value of Financial Instruments -----

The fair value of our cash and cash equivalents, accounts receivable, accounts payable and accrued expenses approximate carrying values due to their short maturities. The fair values of our debt instruments approximate their carrying values based on rates currently available to us.

Concentrations of Credit Risk -----

Financial instruments that potentially subject us to significant concentrations of credit risk consist principally of cash and accounts receivable.

The Company performs certain credit evaluation procedures and does not require collateral for financial instruments subject to credit risk. The Company believes that credit risk is limited because the Company routinely assesses the financial strength of its customers, and based, upon factors surrounding the credit risk of its customers, establishes an allowance for uncollectible accounts and, as a consequence, believes that its accounts receivable credit risk exposure beyond such allowances is limited.

Revenue recognition -----

The Company's revenues, which do not require any significant production, modification or customization for the Company's targeted customers and do not have multiple elements, is recognized when (1) persuasive evidence of an arrangement exists; (2) delivery has occurred; (3) the Company's fee is fixed and determinable, and; (4) collectibility is probable.

Substantially all of the Company's revenues are derived from the processing of applications by healthcare providers for approval of patients for healthcare services from insurance carriers. The Company's software or hardware devices containing the Company's software are installed at the healthcare provider's location. The Company offers transaction services to authorize and adjudicate identity of the patient and obtains "real time" approval for any necessary medical procedure from the insurance carrier. The Company's transaction-based solutions provide remote access for healthcare providers to connect with contracted insurance carriers. Transaction services are provided through contracts with insurance carriers and others, which specify the services to be utilized and the markets to be served. The Company's clients are charged for these services on a per transaction basis. Pricing varies depending type of

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

transactions being processed under the terms of the contract for which services are provided. Transaction revenues are recognized in the period in which the transactions are performed.

Comprehensive Loss

Other comprehensive loss currently includes only foreign currency translation adjustments.

Foreign Currency Translation

The assets and liabilities of the Company's foreign subsidiaries are translated into U.S. dollars at the year-end exchange rates, equity is converted historically and all revenue and expenses are translated into U.S. dollars at the average exchange rates prevailing during the periods in which these items arise. Translation gains and losses are deferred and accumulated as a component of other comprehensive income or loss in stockholders' deficit. Transaction gains and losses that arise from exchange rate fluctuations on transactions denominated in a currency other than the functional currency (Medlink - Brazilian Real, Transax Australia, - Australian dollar and Transax and the Company - USD) are included in the Statement of Operations as incurred.

Stock-based compensation

Effective January 1, 2006, the Company adopted Statement of Financial Accounting Standards No. 123R (revised 2004), Share Based Payment ("SFAS No. 123R"). SFAS No. 123R establishes the financial accounting and reporting standards for stock-based compensation plans. As required by SFAS No. 123R, the Company recognizes the cost resulting from all stock-based payment transactions including shares issued under its stock option plans in the financial statements. The recognition of this cost will be made on the modified prospective basis, which applies to new stock-based awards issued after December 31, 2005, and for awards modified, purchased or cancelled after that date.

Prior to January 1, 2006, the Company accounted for stock-based employee compensation plans (including shares issued under its stock option plans) in accordance with APB Opinion No. 25 and followed the pro forma net income, pro forma income per share, and stock-based compensation plan disclosure requirements set forth in the Statement of Financial Accounting Standards No. 123, Accounting for Stock-Based Compensation ("SFAS No. 123"). Had compensation cost for the stock option plan been determined based on the fair value of the options at the grant dates consistent with the method of SFAS 123, "Accounting for Stock Based Compensation", the Company's net income and income per share would have been changed to the pro forma amounts indicated below for the six months ended June 30, 2005:

Loss per common share

Basic loss per share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period. Diluted income per share is computed by dividing net income by the weighted average number of shares of common stock, common stock equivalents and potentially dilutive securities outstanding during each period. Diluted loss per common share is not presented because it is anti-dilutive, although the common stock equivalents may dilute earnings in the future. The Company's common stock equivalents at June 30, 2006 include the following:

Options	3,425,000
Warrants	16,902,500
Preferred stock	10,204,082

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

The Company performs certain credit evaluation procedures and does not require collateral for financial instruments subject to credit risk. The Company believes that credit risk is limited because the Company routinely assesses the financial strength of its customers, and, based upon factors surrounding the credit risk of its customers, establishes an allowance for uncollectible accounts and, as a consequence, believes that its accounts receivable credit risk exposure beyond such allowances is limited. The Company recognizes an allowance for doubtful accounts to ensure accounts receivable are not overstated due to uncollectibility and are maintained for all customers based on a variety of factors, including the length of time the receivables are past due, significant one-time events and historical experience. An additional reserve for individual accounts is recorded when the Company becomes aware of a customer's inability to meet its financial obligation, such as in the case of bankruptcy filings or deterioration in the customer's operating results or financial position. If circumstances related to customers change, estimates of the recoverability of receivables would be further adjusted. As of June 30, 2006, the allowance for doubtful accounts was \$0.

The Company's principal business activities are located in Brazil. Although Brazil is considered to be economically stable, it is always possible that unanticipated events in foreign countries could disrupt the Company's operations.

The Company had net revenues to two major customers during each of the six month periods ended June 30, 2006 and 2005. These revenues accounted for approximately 91%, or \$1,844,500 and 94% or \$1,414,000 of the total revenues for the six months ended June 30, 2006 and 2005, respectively. For the six months ended June 30, 2006, these two major customers accounted for 52% and 39% of net revenues, respectively. At June 30, 2006, these two major customers accounted for 52% and 39%, respectively, of the total accounts receivable balance outstanding.

NOTE 1 - BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Concentrations of Credit Risk (continued)

The Company maintains its cash in accounts with major financial institutions in the United States, Australia and Brazil in the form of demand deposits and money market accounts. Deposits in these banks may exceed the amounts of insurance provided on such deposits. As of June 30, 2006, the Company had no deposits subjected to such risk. We have not experienced any losses on our deposits of cash and cash equivalents.

Accounting for Conversion Features and Warrants Issued with Preferred Stock

The Company issued \$1,600,000 of convertible series A preferred stock, which contained an Embedded Conversion Feature ("ECF") and warrants to purchase common stock. In accordance with the guidance in paragraph 12 of Statement of Financial Accounting Standards ("SFAS") No. 133, "Accounting for Derivative Instruments and Hedging Activities," it was necessary to evaluate separation of the conversion option from the debt host and account for it separately as a derivative if the conversion option met certain criteria. The Conversion option

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

met all three criteria of paragraph 12: (1) the conversion feature is not clearly and closely related to the host component, (2) the convertible instrument is not accounted for at fair value, and (3) the embedded conversion option meets the definition of a derivative in paragraph 6 of SFAS No. 133.

To assess whether or not the ECF would be classified as stockholders' equity if it were freestanding, management considered the guidance in EITF 00-19, "Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock." In assessing whether or not the conversion option would be classified as equity or a liability if it were freestanding, management determined whether or not the series A convertible preferred stock is considered "conventional." EITF 00-19 and EITF 05-2, "The Meaning of Conventional Convertible Debt Instruments in issue No. 00-19," defines conventional convertible debt as debt whereby the holder will, at the issuer's option, receive a fixed amount of shares or the equivalent amount of cash as proceeds when he exercises the conversion option. Management determined that series A convertible preferred stock was not "conventional," and the Company considered all aspects of EITF 00-19, paragraphs 12-33.

This caused the ECF of the series A convertible preferred stock to be classified as a derivative financial instrument under SFAS No. 133. In addition, all warrants to purchase common stock issued with the preferred stock were then deemed to be classified as derivative instruments under SFAS No. 133. The accounting treatment of derivative financial instruments requires that the Company record the ECF and warrants at their fair values as of each reporting date. Any change in fair value is recorded as non-operating, non-cash income or expense at each reporting date. The derivatives were valued using the Black-Scholes option pricing model and are classified in the consolidated balance sheet as current liabilities at June 30, 2006.

Reclassifications

Certain prior periods' balances have been reclassified to conform to the current period's financial statement presentation. These reclassifications had no impact on previously reported financial position, results of operations or cash flows.

TRANSAX INTERNATIONAL LIMITED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2006 (UNAUDITED)

NOTE 1 - BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Recent accounting pronouncements

In February 2006, the Financial Accounting Standards Board ("FASB") issued SFAS No. 155, "Accounting for Certain Hybrid Financial Instruments - an amendment of FASB Statements No. 133 and 140" ("SFAS 155"). SFAS 155 permits fair value re-measurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation and clarifies which interest-only strips and principal-only strips are not subject to the requirements of Statement 133. SFAS 155 establishes a requirement to evaluate interests in securitized financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an embedded derivative requiring bifurcation and clarifies that concentrations of credit risk in the form of subordination are not embedded derivatives.

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

Lastly, SFAS 155 amends SFAS 140 to eliminate the prohibition on a qualifying special-purpose entity from holding a derivative financial instrument that pertains to a beneficial interest other than another derivative financial instrument. SFAS 155 is effective in the first fiscal year that begins after September 15, 2006. The Company is still assessing the impact, if any, on its consolidated financial position, results of operations and cash flows.

NOTE 2 - RELATED PARTY TRANSACTIONS

Convertible Loans Payable

At June 30, 2006, the Company had aggregate loans payable for \$175,000 to a related party whose officer is an officer of the Company. On March 23, 2005, the Company modified the terms of its convertible loans to this related party. Under the modified terms, \$75,000 of principal due under the convertible loans is due on March 31, 2007 and is convertible into the Company's common stock at \$.125 per share. The remaining principal of \$100,000 is due on April 30, 2007 and is convertible into the Company's common stock at \$.125 per share. For each common share received upon conversion of the principal balance, the related party is entitled to receive one warrant to purchase the Company's common stock at \$.25 per share for a period of two years from the conversion date. The interest rate of the loan is 12% per annum compounded monthly. At June 30, 2006, interest due on these two loans amounted to \$32,035 and the aggregate principal amount due is \$175,000. During the six months ended June 30, 2006 and 2005, the Company incurred \$10,414 and \$17,852, respectively, in interest expense related to these two loans. In the 2005 period, the Company did not incur beneficial conversion charges on these convertible loans because the conversion price was equivalent to the average offering price for equity when these loans became convertible.

Due to Related Parties

For the six months ended June 30, 2006 and 2005, the Company incurred \$86,250 and \$82,500 in management fees to an officer/director of the Company, respectively. Effective April 2006, the Company's board of directors agreed to increase the compensation of this officer/director from \$13,750 per month to \$15,000 per month. At June 30, 2006, \$209,869 in management fees and other expenses was outstanding to this officer/director and is included in due to related parties on the accompanying balance sheet. The amounts due is unsecured, non-interest bearing and is payable on demand.

For the six months ended June 30, 2006, the Company incurred \$25,902 in accounting fees to a company whose officer is an officer of the Company. At June 30, 2006, \$12,552 in these fees was outstanding to this officer and is included in due to related parties on the accompanying balance sheet. The amount due is unsecured, non-interest bearing and is payable on demand.

consulting fees to an officer of the Company. At June 30, 2006, \$7,345 in these fees was outstanding to this officer and is included in due to related parties on the accompanying balance sheet. The amount due is unsecured, non-interest bearing and is payable on demand. Additionally, the Company granted this officer 100,000 options to purchase 100,000 shares of the Company's common stock at \$0.15 per share. The options expire on February 5, 2011. The fair value of this option grant was estimated at \$12,834 on the date of grant using the Black-Scholes option-pricing model. In connection with these options, the Company recorded stock-based compensation expense of \$12,834, which has been included in management and consulting fees - related party on the accompanying consolidated statement of operations (See note 4).

For the six months ended June 30, 2006, the Company incurred \$60,000 in consulting fees to a director of the Company.

Loan Payable - Related Party

On March 5, 2004, the Company borrowed Euro 115,000 (\$144,366 at June 30, 2006) from an officer of the Company for working capital purposes. The loan accrues 0.8% interest compounded monthly, had an initial term of twelve months, and is repayable quarterly in arrears. The officer agreed to extend this loan for an additional twelve months until March 2006. The due date of this loan is currently being negotiated and is payable on demand. Additionally, during 2005, the Company borrowed \$85,000 from this officer, which was repaid in 2006. This loan accrued interest at 9.6% per annum. For the six months ended June 30, 2006 and 2005, the Company incurred \$7,330 and \$7,425, respectively, in interest related to these loans. At June 30, 2006, \$3,455 in interest was accrued on these loans and the aggregate principal and interest amount due is \$144,336 and is included in loan payable - related party on the accompanying balance sheet.

NOTE 3 - FINANCING ARRANGEMENTS

Loan Payable

On October 25, 2004, the Company and Cornell Capital Partners ("Cornell") entered into a Securities Purchase Agreement, pursuant to which Cornell purchased two 5% secured convertible debentures. The initial convertible debenture in the original principal amount of \$125,000 was dated October 25, 2004 and the second convertible debenture in the original principal amount of \$125,000 was dated January 4, 2005 (collectively, the "Original Debentures"). In connection with the terms of the original debentures, for the six months ended June 30, 2005, the Company recorded a beneficial conversion amount of \$31,250 as interest expense since the debentures were immediately convertible.

On May 17, 2005, the Company and Cornell entered into a \$255,237 Promissory Note (the "Note"), whereby the Original Debentures were terminated. This Note represents the outstanding principal balance of \$250,000 on the Original Debentures, plus accrued but unpaid interest through April 30, 2005 equal to \$5,237. In January 2006, in connection with a preferred stock offering, this note was repaid.

The Company's subsidiary, Medlink, has several loans and credit lines with financial institutions. The loans require monthly installments, bear interest at rates ranging from 30% to 50% per annum, are secured by certain receivables and assets of Medlink, and are due through November 2007. At June 30, 2006, loans payable to these financial institutions aggregated \$298,119.

NOTE 3 - FINANCING ARRANGEMENTS (CONTINUED)

Convertible Debenture Payable

On April 1, 2005, the Company entered into a Securities Purchase Agreement with Scott and Heather Grimes, Joint Tenants - with Rights of Survivorship (the "Investor"). Pursuant to the Securities Purchase Agreement, the Company issued convertible debentures to the Investor in the original principal amount of \$250,000. The debentures are convertible at the holder's option any time up to maturity at a conversion price equal to the lower of (i) 120% of the closing bid price of the common stock on the date of the debentures or (ii) 80% of the lowest closing bid price of the common stock for the five trading days immediately preceding the conversion date. The debentures have a two-year term and accrue interest at 5% per year. At maturity, the debentures will automatically convert into shares of common stock at a conversion price equal to the lower of (i) 120% of the closing bid price of the common stock on the date of the debentures or (ii) 80% of the lowest closing bid price of the common stock for five trading days immediately preceding the conversion date.

The Company determined that the conversion feature of the convertible debentures represents an embedded derivative since the debentures are convertible into a variable number of shares upon conversion. Accordingly, the convertible debentures are not considered to be conventional debt under EITF 00-19 and the embedded conversion feature must be bifurcated from the debt host and accounted for as a derivative liability. The Company believes that the aforementioned embedded derivative meets the criteria of SFAS 133 and EITF 00-19, and should be accounted for as separate derivative with a corresponding value recorded as a liability. Accordingly, the fair value of this derivative instrument has been recorded as a liability on the consolidated balance sheet with the corresponding amount recorded as a discount to the debentures. Such discount will be accreted from the date of issuance to the maturity date of the debentures. The change in the fair value of the liability for derivative contracts will be credited to other income/(expense) in the consolidated statements of operations. On February 1, 2006, the Company and the debenture holder mutually agreed to extend the term of the debentures until December 1, 2007. In addition, the Company granted a warrant to purchase 400,000 shares of the Company's common stock to the debenture holder. The warrant has a term of 2 years and is exercisable at \$0.20 per share. The fair value of this warrant grant was estimated at \$46,686 on the date of grant using the Black-Scholes option-pricing model. In connection with these warrants, on February 1, 2006, the Company initially recorded debt settlement expense of \$46,686 and a warrant liability of \$46,686. At the end of each reporting period, the Company revalues the warrant and convertible feature derivative liabilities. For the six months ended June 30, 2006, after adjustment, the Company recorded a loss on valuation of the derivative liability of \$19,022. Amortization of debt discount for the six months ended June 30, 2006 was \$62,500 and is included in interest expense. Amortization of debt offering costs for the six months ended June 30, 2006 was \$9,566 and is included in interest expense. At June 30, 2006, the estimated fair values of the convertible feature derivative liabilities and warrants were \$268,918 and \$65,302, respectively, and are reflected as liabilities on the accompanying consolidated balance sheet.

The Company agreed to register, on a best efforts basis, 3,571,429 shares of its common stock underlying the conversion of the Debentures and the exercise of the warrant not later than 30 days after the Company files its annual report on Form 10-KSB for the fiscal year ended December 31, 2005.

Standby Equity Distribution Agreement

On October 25, 2004, the Company entered into a Standby Equity Distribution Agreement with Cornell. Pursuant to the Standby Equity Distribution Agreement, the Company could, at its discretion, periodically sell to Cornell shares of common stock for a total purchase price of up to \$5.0 million. On May 17, 2005, the Company entered into a Termination Agreement with Cornell, whereby the Standby Equity Distribution Agreement, dated October 25, 2004, and the related Registration Rights Agreement, Placement Agent Agreement and Escrow Agreement were terminated.

Upon execution of the Termination Agreement, the Company entered into a new Standby Equity Distribution Agreement with Cornell on May 17, 2005. On January 13, 2006, the Company entered into a Termination Agreement with Cornell (the "SEDA Termination Agreement") pursuant to which the Parties terminated the Standby Equity Distribution Agreement, the Registration Rights Agreement and the Placement Agent Agreement, each dated as of May 17, 2005. In connection with the Standby Equity Distribution Agreement, in December 2004, the Company issued to Cornell 1,202,779 shares of the Company's Common Stock (the "Investor's Shares") and in connection with the Placement Agent Agreement, the Company issued to Monitor Capital, Inc., as Placement Agent, 125,000 shares of the Company's Common Stock (the "Placement Agent's Shares").

In December 2004, the Company valued the common shares issued to Cornell at the fair market value on the dates of grant of \$0.1664 per share, or \$200,000, based on the quoted trading price for the stock. At December 31, 2005, the commitment fee was deemed to be a deferred offering cost on the accompanying balance sheet. Pursuant to the SEDA Termination Agreement, Cornell shall retain 600,889 of the Investor's Shares and return the other 601,890 of the Investor's Shares to the Company to be cancelled. NOTE 6 - GOING CONCERN

Since inception, the Company has incurred cumulative net losses of \$12,872,724, and at June 30, 2006 has a stockholders' deficit of \$3,717,316 and has a working capital deficit of \$3,858,138. Since its inception, the Company has funded operations through short-term borrowings and equity investments in order to meet its strategic objectives. The Company's future operations are dependent upon external funding and its ability to increase revenues and reduce expenses. Management believes that sufficient funding will be available from additional related party borrowings and private placements to meet its business objectives,

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

including anticipated cash needs for working capital, for a reasonable period of time. Additionally, under the current roll out schedules with its clients, the Company expects to increase its revenues significantly during 2006 with the expectation of the Company becoming a profitable entity. However, there can be no assurance that the Company will be able to obtain sufficient funds to continue the development of its software products and distribution networks. Furthermore, since fiscal 2000, the Company has been deficient in the payment of Brazilian payroll taxes and Social Security taxes. At June 30, 2006, these deficiencies (including interest and fines) amounted to approximately \$815,850. This payroll liability is included as part of the accounts payable and accrued expenses (short-term and long-term) within the consolidated balance sheet. As a result of the foregoing, there exists substantial doubt about the Company's ability to continue as a going concern. These consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 7 - SUBSEQUENT EVENT

On July 17, 2006, in connection with the conversion of \$15,000 of the convertible debenture outstanding, the Company issued 104,167 shares of common stock.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders'
of Transax International Limited.

We have audited the accompanying consolidated balance sheet of Transax International Limited and Subsidiaries as of December 31, 2005 and the related consolidated statements of operations and comprehensive income, stockholders' deficit, and cash flows for each of the two years in the period then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purposes of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amount and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Transax International Limited and Subsidiaries as of December 31, 2005 and the results of their operations and their cash flows for each of the two years in the period then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

the Company will continue as a going concern. As discussed in Note 3 to the consolidated financial statements, the Company has accumulated losses from operations of approximately \$9.2 million, a working capital deficiency of approximately \$2.1 million and a net capital deficiency of approximately \$1.6 million at December 31, 2005. These conditions raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 3. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

As described in Note 14 to the consolidated financial statements, the Company restated its consolidated financial statements as of and for the year ended December 31, 2005.

TRANSAX INTERNATIONAL LIMITED AND SUBSIDIARIES Notes to the Consolidated Financial Statements December 31, 2005

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Company

Transax International Limited ("TNSX" or the "Company") (formerly Vega-Atlantic Corporation) was incorporated in the State of Colorado in 1999. The Company currently trades on the OTC Bulletin Board under the symbol "TNSX" and the Frankfurt and Berlin Stock Exchanges under the symbol "TX6".

On June 19, 2003, as amended on July 22, 2003 and effective August 14, 2003, the Company entered into a Merger Agreement (referred to as the "Agreement" or the "Merger") with Transax Limited ("Transax"), a Colorado private corporation, whereby the Company issued 11,066,207 restricted common shares of the Company in exchange for all of its outstanding shares of Transax. For financial accounting purposes, the exchange of stock was treated as a recapitalization of Transax with the former shareholders of the Company retaining 1,406,710, or approximately 11%, of the outstanding stock. The stockholders' equity section reflects the change in the capital structure of Transax due to the recapitalization.

On August 8, 2003, the shareholders of both TNSX and Transax held meetings. TNSX's shareholders approved the following ratifications: (i) name change from Vega-Atlantic Corporation to Transax International Limited; (ii) the Stock Option Plan, and; (iii) the reverse Stock Split. Moreover, on August 8, 2003, the shareholders of Transax approved the terms and conditions of the Agreement in Principle and of the Merger Agreement.

Pursuant to the terms of the Merger Agreement and a corresponding

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

contribution agreement, Transax has contributed to the Company 4,500,000 stock options and 4,100,000 share purchase warrants. Pursuant to further terms of the Agreement, the Company; (i) exchanged with the Transax option holders an aggregate of 4,500,000 stock options to acquire up to 4,500,000 shares of TNSX's common stock to replace all stock options outstanding in Transax; and (ii) exchanged with the Transax warrant holders an aggregate of 4,100,000 share purchase warrants to acquire up to 4,100,000 shares of TNSX's common stock to replace all share purchase warrants that were outstanding in Transax.

The Company, primarily through its wholly-owned subsidiary TDS Telecommunication Data Systems Ltda. ("TDS"), is an international provider of information network solutions specifically designed for healthcare providers and health insurance companies. The MedLink Solution (TM) enables the real time automation of routine patient eligibility, verification, authorizations, claims processing and payment functions. The Company has offices located in Miami, Florida, and Rio de Janeiro, Brazil.

TRANSAX INTERNATIONAL LIMITED AND SUBSIDIARIES Notes to the Consolidated Financial Statements December 31, 2005

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of presentation

The consolidated financial statements are prepared in accordance with generally accepted accounting principles in the United States of America. The consolidated financial statements include the Company and its wholly-owned subsidiaries, Transax Limited, TDS Telecommunication Data Systems Ltda., Transax (Australia) Pty Ltd., and Medlink Technologies, Inc. All material intercompany balances and transactions have been eliminated in the consolidated financial statements.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates. Estimates used in the preparation of the accompanying financial statements include the allowance for doubtful accounts receivable, the useful lives of property, equipment and software development costs and variables used to determine stock-based compensation.

Fair Value of Financial Instruments

The fair value of our cash and cash equivalents, accounts receivable, debenture and loans payable, accounts payable and accrued expenses approximate carrying values due to their short maturities. The fair value of our debt instruments approximate their carrying values based on rates currently available to us.

Concentrations of Credit Risk

Financial instruments that potentially subject us to significant concentrations of credit risk consist principally of cash and accounts receivable.

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

The Company performs certain credit evaluation procedures and does not require collateral for financial instruments subject to credit risk. The Company believes that credit risk is limited because the Company routinely assesses the financial strength of its customers, and based upon factors surrounding the credit risk of its customers, establishes an allowance for uncollectible accounts and, as a consequence, believes that its accounts receivable credit risk exposure beyond such allowances is limited.

F-26

TRANSAX INTERNATIONAL LIMITED AND SUBSIDIARIES Notes to the Consolidated Financial Statements December 31, 2005

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Concentrations of Credit Risk (continued)

The Company recognizes an allowance for doubtful accounts to ensure accounts receivable are not overstated due to uncollectibility and are maintained for all customers based on a variety of factors, including the length of time the receivables are past due, significant one-time events and historical experience. An additional reserve for individual accounts is recorded when the Company becomes aware of a customer's inability to meet its financial obligation, such as in the case of bankruptcy filings or deterioration in the customer's operating results or financial position. If circumstances related to customers change, estimates of the recoverability of receivables would be further adjusted. As of December 31, 2005, the allowance for doubtful accounts was \$0.

The Company's principal business activities are located in Brazil. Although Brazil is considered to be economically stable, it is always possible that unanticipated events in foreign countries could disrupt the Company's operations.

The Company had net revenues to 2 major customers during each of the years ended December 31, 2005 and 2004. These revenues accounted for approximately 94%, or \$3,100,000 and 91% or \$1,100,000 of the total revenues for the years 2005 and 2004, respectively. In 2005, these 2 major customers accounted for 50% and 44% of net revenues, respectively. At December 31, 2005, these 2 major customers accounted for 52% and 40%, respectively, of the total accounts receivable balance outstanding.

The Company maintains its cash in accounts with major financial institutions in the United States, Australia and Brazil in the form of demand deposits and money market accounts. Deposits in these banks may exceed the amounts of insurance provided on such deposits. As of December 31, 2005, the Company had no deposits subjected to such risk. We have not experienced any losses on our deposits of cash and cash equivalents.

Cash and Cash Equivalents

The Company considers all highly liquid investments with original maturities of three months or less when purchased to be cash equivalents. The Company had no cash equivalents at December 31, 2005.

Property and Equipment, net

Property and equipment is stated at cost less accumulated depreciation and amortization. Depreciation and amortization is recorded on a straight-line

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

basis over the estimated useful lives (approximately 2 - 10 years) of the assets. Expenditures for maintenance and repairs that do not improve or extend the lives of the related assets are expensed to operations, while major repairs are capitalized.

TRANSAX INTERNATIONAL LIMITED AND SUBSIDIARIES Notes to the Consolidated Financial Statements December 31, 2005

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Impairment of Long-Lived Assets

The Company reviews its long-lived assets and identifiable intangibles for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. When such factors and circumstances exist, we compare the projected undiscounted future cash flows associated with the future use and disposal of the related asset or group of assets to their respective carrying amounts. Impairment, if any, is measured as the excess of the carrying amount over the fair value, based on market value when available, or discounted expected cash flows, of those assets and is recorded in the period in which the determination is made. As of December 31, 2005, management expects those assets related to its continuing operations to be fully recoverable.

Income Taxes

The Company files federal and state income tax returns in the United States for its domestic operations, and files separate foreign tax returns for the Company's foreign subsidiaries in the jurisdictions in which those subsidiaries operate. The Company accounts for income taxes under Statement of Financial Accounting Standards ("SFAS") No. 109, "Accounting for Income Taxes." Under SFAS No. 109, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between their financial statement carrying amounts and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under SFAS No. 109, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Foreign Currency Translation

Transactions and balances originally denominated in U.S. dollars are presented at their original amounts. Transactions and balances in other currencies are converted into U.S. dollars in accordance with SFAS No. 52, "Foreign Currency Translation," and are included in determining net income or loss.

For foreign operations with the local currency as the functional currency, assets and liabilities are translated from the local currencies into U.S. dollars at the exchange rate prevailing at the balance sheet date. Revenues and expenses are translated at weighted average exchange rates for the period to approximate translation at the exchange rates prevailing at the dates those elements are recognized in the financial statements. Translation adjustments resulting from the process of translating the local currency financial statements into U.S. dollars are included in determining comprehensive loss. As of December 31, 2005, the exchange rate for the Brazilian Real (R\$) was \$1.00 US for 2.3407 R\$.

F-28

TRANSAX INTERNATIONAL LIMITED AND SUBSIDIARIES
Notes to the Consolidated Financial Statements
December 31, 2005

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Foreign Currency Translation (continued)

Although the economic situation in Brazil has remained relatively stable in recent years, a return to higher levels of inflation, and currency fluctuations could adversely affect the Company's operations. The devaluation or valuation of the Brazilian Real in relation to the U.S. dollar may have significant effects on the Company's consolidated financial statements.

Revenue Recognition

The Company's revenues, which do not require any significant production, modification or customization for the Company's targeted customers and do not have multiple elements, is recognized when (1) persuasive evidence of an arrangement exists; (2) delivery has occurred; (3) the Company's fee is fixed and determinable, and; (4) collectibility is probable.

Substantially all of the Company's revenues are derived from the processing of applications by healthcare providers for approval of patients for healthcare services from insurance carriers. The Company's software or hardware devices containing the Company's software are installed at the healthcare provider's location. The Company offers transaction services to authorize and adjudicate identity of the patient and obtains "real time" approval for any necessary medical procedure from the insurance carrier. The Company's transaction-based solutions provide remote access for healthcare providers to connect with contracted insurance carriers. Transaction services are provided through contracts with insurance carriers and others, which specify the services to be utilized and the markets to be served. The Company's clients are charged for these services on a per transaction basis. Pricing varies depending type of transactions being processed under the terms of the contract for which services are provided. Transaction revenues are recognized in the period in which the transactions are performed.

Loss per Share

Basic loss per share is computed by dividing net loss by weighted average number of shares of common stock outstanding during each period. Diluted loss per share is computed by dividing net loss by the weighted average number of shares of common stock, common stock equivalents and potentially dilutive securities outstanding during each period. Diluted loss per common share is not presented because it is anti-dilutive. At December 31, 2005, there were options and warrants to purchase 13,726,070 shares of common stock and 1,400,000 shares issuable upon conversion of outstanding debt, which could potentially dilute future earnings per share.

Stock Based Compensation

The Company accounts for stock options issued to employees in accordance with the provisions of Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees," and related interpretations. As such, compensation cost is measured on the date of grant as the excess of the current market price of the underlying stock over the exercise price. Such compensation amounts are amortized over the respective vesting periods of the option grant. The Company adopted the disclosure provisions of SFAS No. 123, "Accounting for Stock-Based Compensation" and SFAS 148, "Accounting for Stock-Based Compensation -Transition and Disclosure", which permits entities to provide pro forma net income (loss) and pro forma earnings (loss) per share disclosures for employee stock option grants as if the fair-valued based method defined in SFAS No. 123 had been applied. The Company accounts for stock options and stock issued to non-employees for goods or services in accordance with the fair value method of SFAS 123.

Had compensation cost for the stock option plan been determined based on the fair value of the options at the grant dates consistent with the method of SFAS 123, "Accounting for Stock Based Compensation", the Company's net loss and loss per share would have been changed to the pro forma amounts indicated below for the years ended December 31, 2005 and 2004:

	Year ended December 31,	
	2005	2004
Net loss as reported	\$ (764,484)	\$ (1,792,255)
Add: total stock-based employee compensation expense determined under fair value based method, net of related tax effect	(156,786)	(109,568)
Pro forma net loss	\$ (921,270)	\$ (1,901,823)
Basic loss per share:		
As reported	\$ (.03)	\$ (.10)
Pro forma	\$ (.03)	\$ (.11)

The valuation of the option grants is estimated as of the date of grant using the Black-Scholes option-pricing model with the following assumptions used for grants during the year ended December 31, 2005: expected volatility of 205% to 218%; risk free interest rate ranging from 3.25% to 3.75%; expected life of 2-5 years and annual dividend rate of 0%.

Advertising

Advertising costs are expensed when incurred. For the years ended

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

December 31, 2005 and 2004, advertising expense was not material.

Comprehensive Loss

The Company has adopted SFAS No. 130, "Reporting Comprehensive Income". Other comprehensive loss, which currently includes only foreign currency translation adjustments, is shown net of tax in the Statement of Changes in Stockholders' Deficit.

Recent accounting pronouncements

In December 2004, the Financial Accounting Standards Board ("FASB") issued SFAS No. 123R, "Share-Based Payment, an Amendment of FASB Statement No. 123" ("SFAS No. 123R"). SFAS No. 123R requires companies to recognize, in the statement of operations, the grant-date fair value of stock options and other equity-based compensation issued to employees. SFAS No. 123R is effective for the Company on January 1, 2006. The Company believes the adoption of this pronouncement may have a material impact on its financial statements.

In May 2005, FASB issued SFAS 154, "Accounting Changes and Error Corrections -- a replacement of APB Opinion No. 20 and FASB Statement No. 3". SFAS 154 changes the requirements for the accounting for and reporting of a change in accounting principle. The provisions of SFAS 154 require, unless impracticable, retrospective application to prior periods' financial statements of (1) all voluntary changes in principles and (2) changes required by a new accounting pronouncement, if a specific transition is not provided. SFAS 154 also requires that a change in depreciation, amortization, or depletion method for long-lived, non-financial assets be accounted for as a change in accounting estimate, which requires prospective application of the new method. SFAS 154 is effective for all accounting changes made in fiscal years beginning after December 15, 2005. Management does not believe the adoption of this pronouncement will have a material effect on its financial statements.

Reclassifications

Certain prior periods' balances have been reclassified to conform to the current period's financial statement presentation. These reclassifications had no impact on previously reported results of operations or stockholders' equity.

=====

For the years ended December 31, 2005 and 2004, depreciation expense amounted to approximately \$250,000 and \$56,000, respectively.

NOTE 3 - GOING CONCERN

Since inception, the Company has incurred cumulative net losses of \$9,244,420 has a stockholders' deficit of \$1,627,640 at December 31, 2005 and has a working capital deficit of \$2,068,956. Since its inception, the Company has funded operations through short-term borrowings and equity investments in order to meet its strategic objectives. The Company's future operations are dependent upon external funding and its ability to increase revenues and reduce expenses. Management believes that sufficient funding will be available from additional related party borrowings and private placements to meet its business objectives, including anticipated cash needs for working capital, for a reasonable period of time. In January 2006, the Company entered into an investment agreement to sell 16,000 shares of its preferred stock for approximately \$1,600,000. As of the filing of these financial statements 8,000 of the preferred shares have been sold (see Note 13). Additionally, under the current roll out schedules with its clients, the Company expects to continue to increase its revenues during 2006. However, there can be no assurance that the Company will be able to obtain sufficient funds to continue the development of its software products and distribution networks.

Further, since fiscal 2000, the Company has been deficient in the payment of Brazilian payroll taxes and Social Security taxes. At December 31, 2005, these deficiencies (including interest and fines) amounted to approximately \$732,000. This payroll liability is included as part of the accounts payable and accrued expenses (short-term and long-term) within the consolidated balance sheet.

As a result of the foregoing, there exists substantial doubt about the Company's ability to continue as a going concern. These consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

F-32

TRANSAX INTERNATIONAL LIMITED AND SUBSIDIARIES Notes to the Consolidated Financial Statements December 31, 2005

NOTE 4 - SOFTWARE DEVELOPMENT COSTS

The Company established the technological feasibility of its MedLink Solutions in the year ended December 31, 2002. Therefore, from Inception to December 31, 2002, all costs incurred in establishing the technological feasibility of the MedLink Solutions were charged to expense when incurred, as required by SFAS No. 2, "Accounting for Research and Development Costs."

Under the criteria set forth in SFAS No. 86, "Accounting for the Costs of Computer Software to be Sold, Leased or Otherwise Marketed," capitalization of software development costs begins upon the establishment of technological feasibility of the software. The establishment of technological feasibility and the ongoing assessment of the recoverability of these costs require considerable judgment by management with respect to certain external factors, including, but not limited to, anticipated future gross product revenues, estimated economic life, and changes in software and hardware technology. Capitalized software development costs are amortized utilizing the straight-line method over the

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

estimated economic life of the software not to exceed three years. The Company regularly reviews the carrying value of software development assets and a loss is recognized when the unamortized costs are deemed unrecoverable based on the estimated cash flows to be generated from the applicable software.

For the years ended December 31, 2005 and 2004, amortization of development costs amounted to approximately \$154,000 and \$84,000, respectively, and has been included in cost of product support services on the accompanying consolidated statements of operations.

NOTE 5 - RELATED PARTY TRANSACTIONS

Convertible Loans Payable - Related Party

At December 31, 2004, the Company had loans payable for \$200,000 and \$100,000 to a related party whose officer is an officer of the Company. The interest rate of the loan is 12% per annum compounded monthly

TRANSAX INTERNATIONAL LIMITED AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

December 31, 2005

NOTE 5 - RELATED PARTY TRANSACTIONS

Convertible Loans Payable - Related Party (continued)

On March 23, 2005, the Company modified the terms of its convertible loans to this related party. Under the modified terms, \$200,000 of principal due under the convertible loans is due on March 31, 2007 and is convertible into the Company's common stock at \$0.125 per share. The remaining principal of \$100,000 is due on April 30, 2007 and is convertible into the Company's common stock at \$0.125 per share. For each common share received upon conversion of the principal balance, the related party is entitled to receive one warrant to purchase the Company's common stock at \$0.25 per share for a period of two years from the conversion date.

On June 28, 2005, the holder of the notes partially exercised the conversion feature. Accordingly, the Company issued 400,000 shares and 400,000 warrants to purchase common stock of the Company at \$0.25 per share for the conversion of principal balance of \$50,000. The Company also issued 35,770 shares of common stock to settle \$4,471 in interest due on these loans. The fair value of these warrant grants were estimated at \$0.078 per warrant on the date of grant using the Black-Scholes option-pricing model. In connection with these warrants, for the year ended December 31, 2005, the Company recorded interest expense of \$31,200.

NOTE 6 - FINANCING ARRANGEMENTS (CONTINUED)

Debenture Payable

On April 1, 2005, the Company entered into a Securities Purchase Agreement with Scott and Heather Grimes, Joint Tenants - with Rights of Survivorship (the "Investor"). Pursuant to the Securities Purchase Agreement, the Company issued convertible debentures to the Investor in the original principal amount of \$250,000. The debentures are convertible at the holder's option any time up to maturity at a conversion price equal to the lower of (i) 120% of the closing bid price of the common stock on the date of the debentures or (ii) 80% of the lowest closing bid price of the common stock for the five trading days immediately preceding the conversion date. The debentures have a two-year term and accrue interest at 5% per year. At maturity, the debentures will automatically convert into shares of common stock at a conversion price equal to the lower of (i) 120% of the closing bid price of the common stock on the date of the debentures or (ii) 80% of the lowest closing bid price of the common stock for five trading days immediately preceding the conversion date.

The Company determined that the conversion feature of the convertible debentures represents an embedded derivative since upon conversion the debentures are convertible into a variable number of shares. Accordingly, the convertible debentures are not considered to be conventional debt under EITF 00-19 and the embedded conversion feature must be bifurcated from the debt host and accounted for as a derivative liability in accordance with SFAS 133 and EITF 00-19. The change in the fair value of the liability for derivative contracts will be credited to other income/ (expense) in the consolidated statements of operations.

The embedded derivative included in this debenture resulted in an initial debt discount of \$250,000 and an initial loss on the valuation of derivative liabilities of \$44,299. The debt discount is being amortized over the term of the debenture. At the end of each reporting period, the Company revalues this derivative liability. For the year ended December 31, 2005, after adjustment, the Company recorded a loss on valuation of derivative liability of \$18,512.

The amount allocated as a discount on the debenture for the value of the conversion option is being amortized to interest expense, using the effective interest method, over the term of the debenture. Additionally, the Company paid fees of \$38,262 in connection with this debenture. These fees are recorded as deferred offering costs on the balance sheet and are being amortized over the debenture term.

Amortization expense for the year ended December 31, 2005 for both the discount on the debenture and the deferred offering costs was approximately \$108,100 and is included in interest expense.

At the date of inception and at the valuation date of December 31, 2005, the

As of December 31, 2005, the Company had approximately \$3,800,000 of U.S. federal and state net operating loss carry forwards available to offset future taxable income which, if not utilized, begin expiring in 2011. In addition, the Company has approximately \$4,097,000 of foreign net operating loss carry forwards related to the Company's Brazilian subsidiary. Current Brazilian tax legislation imposes no time period for the utilization of the losses, although it does limit the annual usage of the losses to 30% of taxable profits. Transax files its income tax return on a consolidated company basis with TNSX, its legal parent, as U.S. tax rules prohibit the consolidation of its foreign subsidiaries.

F-39

TRANSAX INTERNATIONAL LIMITED AND SUBSIDIARIES Notes to the Consolidated Financial Statements December 31, 2005

NOTE 8 - INCOME TAXES (CONTINUED)

Under the Tax Reform Act of 1986, the utilization of a corporation's net operating loss carry forward is limited following a greater than 50% change in ownership. Due to prior transactions, the Company's net operating loss carry forwards are subject to an annual limitation. Any unused annual limitation may be carried forward to future years for the balance of the net operating loss carry forward period. The Company has not yet determined the limitation as defined by the Tax Reform Act of 1986. Additionally, because U.S. tax laws limit the time during which these carry forwards may be applied against future taxes, the Company may not be able to take full advantage of these attributes for Federal income tax purposes.

Deferred income taxes reflect the net tax effects of operating loss and tax credit carry forwards and temporary differences between carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which temporary differences representing net future deductible amounts become deductible. Due to the uncertainty of the Company's ability to realize the benefit of the deferred tax assets, the deferred tax assets are fully offset by a valuation allowance at December 31, 2005 and 2004.

The Company's tax expense differs from the "expected" tax expense for the years ended December 31, 2005 and 2004 as follows:

	2005	2004
	-----	-----
Computed "expected" tax benefit	\$ (59,700)	\$ (636,000)

NOTE 14 - RESTATEMENT

After reviewing certain accounting principles the Company has applied in previously issued financial statements, management has determined that the Company's accounting for the embedded derivative option related to the Company's debenture payable should have been classified as a liability on the accompanying balance sheet and revalued at the end of each period in accordance with SFAS No. 133 and EITF 00-19. Consequently, management is restating its annual financial statements as of December 31, 2005 and for year then ended. The change in presentation of the Company's embedded derivative feature associated with its debenture payable has the effect of increasing total assets by \$23,914, increasing liabilities by \$136,176, increasing the stockholders' deficit by \$112,262 as of December 31, 2005, and increasing the Company's net loss by \$49,762 for the year ended December 31, 2005. This change in presentation of the Company's embedded derivative feature affected some of the items within the Company's consolidated statement of cash flows for the year ended December 31, 2005 but did not impact cash at the end of the year. Accordingly, the adjustments to the balance sheet, statement of operations, and statement of cash flows are summarized as follows:

INFORMATION NOT REQUIRED IN PROSPECTUS

ITEM 24. INDEMNIFICATION OF DIRECTORS AND OFFICERS

Under Section 7-109-102 of the Colorado Business Corporations Act (the "Colorado Act"), a corporation may indemnify a person made a party to a proceeding because the person is or was a director, against liability incurred in the proceeding. Indemnification permitted under this Section in connection with a proceeding by or in the right of the corporation is limited to reasonable expenses incurred in connection with the proceeding.

Indemnification is only possible under this Section 7-109-102, however, if: (a) the person conducted him/herself in good faith; and (b) the person reasonably believed: (i) in the case of conduct in an official capacity with the corporation, that his or her conduct was in the corporation's best interests; and (ii) in all other cases, that his or her conduct was at least not opposed to the corporation's best interests; and (c) in the case of any criminal proceeding, the person had no reasonable cause to believe his or her conduct was unlawful.

It should be noted, however, that under Section 7-109-102(4), a corporation may not indemnify a director: (i) in connection with a proceeding by or in the right of the corporation in which the director is adjudged liable to the corporation; or (ii) in connection with any other proceeding in which a director is adjudged liable on the basis that he or she derived improper personal benefit.

Under Section 7-109-103 a director is entitled to mandatory indemnification, when he/she is wholly successful in the defense of any proceeding to which the person was a party because the person is or was a director, against reasonable expenses incurred in connection to the proceeding.

Under Section 7-109-105, unless restricted by a corporation's Articles of Incorporation, a director who is or was a party to a proceeding may apply for indemnification to a court of competent jurisdiction. The court, upon receipt of the application, may order indemnification after giving any notice the court considers necessary. The court, however, is limited to awarding the reasonable expenses incurred in connection with the proceeding and reasonable expenses

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

incurred to obtain court-ordered indemnification.

Under Section 7-109-107, unless restricted by the corporation's Articles of Incorporation, an officer of a corporation is also entitled to mandatory indemnification and to apply for court-ordered indemnification to the same extent as a director.

A corporation may also indemnify an officer, employee, fiduciary or agent of the corporation to the same extent as a director.

Under Section 7-109-108 a corporation may purchase and maintain insurance on behalf of a person who is or was a director, officer, employee, fiduciary or agent of the corporation against liability asserted against or incurred by the person in that capacity, whether or not the corporation would have the power to indemnify such person against the same liability under other sections of the Colorado Act.

The officers and directors of the Company are accountable to the shareholders of the Company as fiduciaries, which means such officers and directors are required to exercise good faith and integrity in handling the Company's affairs. A shareholder may be able to institute legal action on behalf of himself and all other similarly situated shareholders to recover damages where the Company has failed or refused to observe the law. Shareholders may, subject to applicable rules of civil procedure, be able to bring a class action or derivative suit to enforce their rights, including rights under certain federal and state securities laws and regulations. Shareholders who have suffered losses in connection with the purchase or sale of their interest in the Company due to a breach of a fiduciary duty by an officer or director of the Company in connection with such sale or purchase including, but not limited to, the misapplication by any such officer or director of the proceeds from the sale of any securities, may be able to recover such losses from the Company. The Company and its affiliates may not be liable to its shareholders for errors in judgment or other acts or omissions not amounting to intentional acts.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Company pursuant to the foregoing provisions, or otherwise, the Company has been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the

II-1

payment by the Company of expenses incurred or paid by a director, officer or controlling person of the Company in the successful defense or any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Company will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

The Company has no agreements with any of its directors or executive officers providing for indemnification of any such persons with respect to liability arising out of their capacity or status as officers and directors.

At present, there is no pending litigation or proceeding involving a director or executive officers of the Company as to which indemnification is being sought.

ITEM 28. UNDERTAKINGS

(a) The undersigned registrant hereby undertakes to:

(1) File, during any period in which it offers or sells securities, a post-effective amendment to this registration statement to:

(i) Include any prospectus required by section 10(a)(3) of the Securities Act;

(ii) Reflect in the prospectus any facts or events which, individually or together, represent a fundamental change in the information in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the SEC pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a twenty percent (20%) change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and

(iii) Include any additional or changed material information on the plan of distribution.

(2) For determining liability under the Securities Act, treat each post-effective amendment as a new registration statement of the securities offered, and the offering of the securities at that time to be the initial bona fide offering.

(3) File a post-effective amendment to remove from registration any of the securities that remain unsold at the end of the offering.

(4) For determining liability of the undersigned small business issuer under the Securities Act to any purchaser in the initial distribution of the securities, the undersigned small business issuer undertakes that in a primary offering of securities of the undersigned small business issuer pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned small business issuer will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

(i) Any preliminary prospectus or prospectus of the undersigned small business issuer relating to the offering required to be filed pursuant to Rule 424 (ss.230.424 of this chapter);

(ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned small business issuer or used or referred to by the undersigned small business issuer;

(iii) The portion of any other free writing prospectus relating to the

Edgar Filing: TRANSAX INTERNATIONAL LTD - Form SB-2/A

offering containing material information about the undersigned small business issuer or its securities provided by or on behalf of the undersigned small business issuer; and

(iv) Any other communication that is an offer in the offering made by the undersigned small business issuer to the purchaser.

(b) Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the small business issuer pursuant to the foregoing provisions, or otherwise, the small business issuer has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable.

(c) Each prospectus filed pursuant to Rule 424(b) (ss.230.424(b) of this chapter) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A (ss.230.430A of this chapter), shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.
