CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This 2005 Annual Report on Form 10-KSB, including the sections entitled "Risk Factors," "Management's Discussion and Analysis or Plan of Operation" and "Business," contains "forward-looking statements" that include information relating to future events, future financial performance, strategies, expectations, competitive environment, regulation and availability of resources. These forward-looking statements include, without limitation, statements regarding: statements concerning projections, predictions, expectations, estimates or forecasts for our business, financial and operating results and future economic performance; statements of management's goals and objectives; and other similar expressions concerning matters that are not historical facts. Words such as "may," "will," "should," "could," "would," "predicts," "potential," "continue," "expects," "anticipates," "future," "intends," "plans," "believes" and "estimates," and similar expressions, as well as statements in future tense, identify forward-looking statements.

Forward-looking statements should not be read as a guarantee of future performance or results, and will not necessarily be accurate indications of the times at, or by which, that performance or those results will be achieved. Forward-looking statements are based on information available at the time they are made and/or management's good faith belief as of that time with respect to future events, and are subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in or suggested by the forward-looking statements. Important factors that could cause these differences include, but are not limited to:

- o our failure to implement our business plan within the time period we originally planned to accomplish; and
- o other factors discussed under the headings "Risk Factors," "Management's Discussion and Analysis or Plan of Operation" and "Business."

Forward-looking statements speak only as of the date they are made. You should not put undue reliance on any forward-looking statements. We assume no obligation to update forward-looking statements to reflect actual results, changes in assumptions or changes in other factors affecting forward-looking information, except to the extent required by applicable securities laws. If we do update one or more forward-looking statements, no inference should be drawn that we will make additional updates with respect to those or other forward-looking statements.

ITEM 1. DESCRIPTION OF BUSINESS

OVERVIEW

We design, develop, market and distribute high end fashion jeans, apparel and accessories under the brand names "Antik Denim," "Yanuk," "U" and "Taverniti So Jeans." We also plan to design, develop, market and distribute jeans and accessories under other brands that we may license or acquire from time to time. Our products currently include jeans, jackets, belts, purses and T-shirts. We currently sell our products in the United States, Canada, Japan and the European Union directly to department stores and boutiques and through distribution arrangements in certain foreign jurisdictions. We are headquartered in Commerce, California and maintain two showrooms in New York and Los Angeles. We opened a retail store in Los Angeles during August 2005.

We operate in the high end fashion denim industry. Our competitors are companies such as Levi Strauss, Calvin Klein, Joe's Jeans, True Religion Apparel, Seven For All Mankind and Citizens of Humanity. Our competitive edge lies in our ability to create innovative concepts and designs, to develop products with

- 3 -

extraordinary fit, and to expand our high quality fabrics and finishes, treatments and embellishments (including our copyrighted pockets, hand stitching and embroidery detail).

CORPORATE BACKGROUND

Blue Holdings, Inc. was incorporated in the State of Nevada on February 9, 2000 under the name Marine Jet Technology Corp. From our inception through January 2005, we focused on developing and marketing boat propulsion technology. Between January and February 2005, we entered into separate transactions whereby, among other matters, Keating Reverse Merger Fund, LLC ("KRM Fund"), an existing shareholder of the Company, agreed to purchase a substantial majority of our outstanding common stock, and Intellijet Marine, Inc., a company formed by our former majority shareholder and principal executive officer and director, Jeff P. Jordan, acquired all of our boat propulsion technology assets and assumed all of our then existing liabilities.

Between February 4, 2005 and April 29, 2005, we existed as a public "shell" company with nominal assets.

REVERSE ACQUISITION AND SIGNIFICANT DEVELOPMENTS IN 2005

On April 14, 2005, we entered into an Exchange Agreement (the "Antik Exchange Agreement") with Antik Denim, LLC, a California limited liability company formed in September 2004 ("Antik"), the members of Antik (the "Antik Members"), and KRM Fund. The closing of the transactions contemplated by the Antik Exchange Agreement occurred on April 29, 2005. At the closing, we acquired all of the outstanding membership interests of Antik (the "Antik Interests") from the Antik Members, and the Antik Members contributed all of their Antik Interests to us. In exchange, we issued to the Antik Members 843,027 shares of our Series A Convertible Preferred Stock, par value \$0.001 per share (the "Preferred Shares"), which, as a result of the approval by a substantial majority of our outstanding shareholders entitled to vote and the approval by our Board of Directors, of amendments to our Articles of Incorporation that (i)

Edgar Filing: BLUE HOLDINGS, INC. - Form 10KSB

changed our name to Blue Holdings, Inc., (ii) increased our authorized number of shares of common stock to 75,000,000, and (iii) adopted a 1-for-29 reverse stock split, on June 7, 2005 converted into 708,984,875 shares of our common stock on a pre-reverse stock split basis and 24,447,783 shares of our common stock on a post-reverse stock split basis.

At the closing, Antik became our wholly-owned subsidiary. The exchange transaction with Antik was accounted for as a reverse merger (recapitalization) with Antik deemed to be the accounting acquirer, and we were deemed to be the legal acquirer.

As of March 1, 2006, the former members of Antik held approximately 87.8% of the outstanding shares of our common stock.

On July 5, 2005, we entered into a license agreement with Yanuk Jeans LLC, a company wholly-owned by Paul Guez, to sell products under the "Yanuk" label. This agreement became effective as of July 1, 2005, and will expire on June 30, 2015. Under the terms of the agreement, we became the exclusive licensor for the design, development, manufacture, sale, marketing and distribution of "Yanuk" branded products to the wholesale and retail trade. The agreement provides for annual royalty payments equal to six percent of all net sales that we generate from sale of the licensed products or annual minimum royalty payments. In addition, during the term of the license agreement, we have the option to purchase from Yanuk Jeans LLC the property licensed under the agreement.

On September 8, 2005, Antik entered into an agreement with Titan Industries, Inc. that provides Titan with an exclusive right to use the "Antik Denim" trademark for the sale of men's and women's footwear in the United States and its possessions and territories, Canada and Mexico, and a right of first refusal for similar use of the trademark in Europe and South America.

- 4 -

On October 6, 2005, we entered into a five-year license agreement with Yanuk Jeans LLC, effective October 5, 2005. Under the terms of the license agreement, we became the exclusive licensor for the design, development, manufacture, sale, marketing and distribution of Yanuk Jeans LLC's "U" brand products to the wholesale and retail trade. The agreement provides for annual royalty payments equal to five percent of all net sales that we generate from sale of the licensed products or annual minimum royalty payments. In addition, during the term of the license agreement, we have the option to purchase from Yanuk Jeans LLC the property licensed under the license agreement.

On October 31, 2005, we entered into an Exchange Agreement (the "Taverniti Exchange Agreement") with Taverniti So Jeans, LLC, a California limited liability company formed in September 2004 ("Taverniti"), and the members of Taverniti (the "Taverniti Members"). Under the Taverniti Exchange Agreement, the Company acquired all of the outstanding membership interests of Taverniti (the "Taverniti Interests") from the Taverniti Members, and the Taverniti Members contributed all of their Taverniti Interests to the Company. In exchange, we issued to the Taverniti Members, on a pro rata basis, an aggregate of 500,000 shares of our Common Stock, par value \$0.001 per share, and paid to the Taverniti Members, on a pro rata basis, an aggregate of Seven Hundred Fifty Thousand Dollars (\$750,000). At the closing of the exchange transaction, Taverniti became our wholly-owned subsidiary.

Paul Guez, the Company's Chairman, Chief Executive Officer, President and majority shareholder, was and remains the sole manager and was member of

Edgar Filing: BLUE HOLDINGS, INC. - Form 10KSB

Taverniti. Elizabeth Guez, Paul Guez's spouse and the Company's former Chief Operating Officer, was a member of Taverniti. Two other members of Mr. and Mrs. Guez's family, including Gregory Abbou, the President of Taverniti, were the remaining members of Taverniti. Taverniti is the exclusive licensee for the design, development, manufacture, sale, marketing and distribution of the "Taverniti So Jeans" trademark in the denim and knit sports wear categories for men and women. It is paying royalties to Taverniti Holdings LLC in the ranges of 5-8 percent depending on the net sales of the licensed products pursuant to a license agreement with Taverniti Holdings LLC. Taverniti Holdings LLC is jointly owned by Paul Guez (60%) and Jimmy Taverniti (40%), the designer of the products for the brand, and Mr. Guez is the sole manager. The license agreement was signed in May 2004 and expires on December 31, 2015.

BUSINESS STRATEGY

We strive to build on our position in the principal markets in which we compete by focusing on the following four core elements of our business strategy.

PRODUCT STRATEGY

Our overall product strategy is to offer multiple brands of apparel in the premium and better denim segments. As a result of the license agreements with Yanuk Jeans, LLC and the acquisition of Taverniti So Jeans LLC, we currently market our products under the "Antik Denim," "Taverniti So Jeans", "Yanuk" and "U" brands and plan to continue to further expand our brand portfolio by acquisition and/or license of existing apparel companies and/or brands, as applicable, in the premium or better segments of the industry, or the creation of new brands by our internal design team. Although no definitive arrangement or plan is currently in place, we expect our management to periodically review potential acquisition and licensing opportunities to expand our product line and brands in these targeted market segments. Our goal is to employ a multi-brand strategy to reduce risks associated with the natural life cycle of a single brand and to appeal to a broader customer base with different looks from different brands. We believe the increase in demand for premium denim products over the last couple of years and relatively high retail price points for premium jeans, ranging from approximately \$150 to \$400, offers us a significant opportunity to increase our revenues and improve our profitability.

We also intend to license our proprietary owned and licensed trademarks with respect to products that we believe are not in our core line of business. While there is no existing plan with respect to the types of products to which we intend to license our proprietary trademarks, on September 8, 2005, Antik entered into a license agreement with Titan Industries, Inc. that provides Titan with an exclusive right to use the "Antik Denim" trademark for the sale of men's and women's footwear in the United States and its possessions and territories, Canada and Mexico, and a right of first refusal for similar use of the trademark in Europe and South America.

- 5 -

Our senior management team has significant experience in developing and marketing multiple premium denim products and brands, which we believe demonstrates a capability to implement our product strategy. Over the last thirty years, Mr. Guez, our Chairman, Chief Executive Officer and President, has engaged in the design, marketing, manufacturing and wholesale distribution of premium fashion and denim collections, including Sasson Jeans and more recently, a growing stable of contemporary brands, such as Duarte Jeans, Elvis, Memphis Blues and Grail Jeans. Our principal designers, Philippe Naouri and Alex

Edgar Filing: BLUE HOLDINGS, INC. - Form 10KSB

Caugant, Jimmy Taverniti and Benjamin Taverniti have previously assisted world-renowned casual apparel companies such as Chevignon, Diesel, GOA, and Replay in the design and development of successful brands and products.

OPERATING STRATEGY

Our operating strategy is to continue to build on our strengths in brand development, marketing, distribution and product sourcing capabilities to become the leading company in the high fashion denim apparel industry. Our goal is to leverage the expertise and relationships gained by our executive management and product design teams' prior experience in creating and developing premium denim apparel brands, product sourcing and manufacturing in the US, Mexico and Asia, and distributing to high-end retail channels both domestically and internationally.

Historically, we have relied on the services and staff of companies affiliated with Mr. Paul Guez in several areas of our business operations. We are moving away from this model and we are in the process of building a team of professionals with significant prior experience and established relationships in the denim apparel industry to assume the responsibility for coordinating product manufacturing, material sourcing, and sales and marketing.

GROWTH STRATEGY

We plan to continue to expand our operations, revenues, and profits through our internal growth and the acquisition and/or license of complimentary apparel brands or companies that we may identify from time to time. We anticipate that our internal growth will be driven by (1) expansion of our product lines by introducing new styles, including at varying price points, and complimentary products and accessories, (2) expansion of our wholesale distribution, both domestically and internationally through high end retailers (3) the opening of select retail flagship stores domestically and the licensing of operators overseas to open stores to promote the identity of our brands, and (4) a broader retail strategy focusing on the launch and operation of stores retailing our various brands. Our first retail store opened on August 27, 2005 on Melrose Avenue in Los Angeles. We anticipate that our growth strategy through acquisitions and/or licenses will involve the acquisition or license of additional companies and/or brands, as applicable, depending upon a company's and/or a brand's sales revenues, name and brand recognition, and/or synergies with the "Antik Denim," "Taverniti So Jeans", "Yanuk" and "U" brands, with the ultimate goal of building a portfolio of lifestyle brands in the premium and better segments of the denim industry. In line with this strategy, we licensed the rights to the "U" brand from Yanuk Jeans LLC, and completed the acquisition of Taverniti. Although no other definitive arrangement or plan is currently in place, we expect our management to periodically review and evaluate potential acquisition and licensing opportunities and make recommendations to our Board of Directors.

SUPPLY STRATEGY

We purchase our fabric, thread and other raw materials from various industry suppliers within the United States and abroad. We do not currently have any long-term agreements in place for the supply of our fabric, thread or other raw materials. The fabric, thread and other raw materials used by us are available from a large number of suppliers worldwide. During fiscal 2005, other than Blue Concept LLC which is a related party and from which we purchased fabric, only one supplier comprised greater than 10% of the Company's purchases. Purchases from that supplier represented 12.7% of our total supply purchases.

Edgar Filing: BLUE HOLDINGS, INC. - Form 10KSB

OUR PRODUCTS

Our principal products are high end fashion jeans that we design, manufacture, market, distribute and sell, including through our wholly-owned subsidiaries, Antik and Taverniti, under the "Antik Denim", "Taverniti So Jeans" and "Yanuk" labels. These jeans are sold in the United States and abroad to upscale retailers and boutiques. We currently sell men's and women's styles and have launched a children's line for both "Antik Denim" and "Taverniti So Jeans." "Antik Denim," "Yanuk" and "Taverniti So Jeans" brand jeans are made from high quality fabrics milled in the United States, Japan, Italy and Spain and are processed with cutting edge treatments and finishes. Our concepts and designs, including Antik Denim's distinct vintage western flair, and our extraordinary fit, embellishments, patent pending pockets, unique finishes, hand stitching, embroidery detail and other attention to detail and quality give "Antik Denim," "Yanuk" and "Taverniti So Jeans" brand jeans and apparel a competitive advantage in the high end fashion jean market. Antik branded products currently account for a large majority of our sales. In 2005, Antik branded products accounted for approximately 70% of our net sales, "Taverniti So Jeans" branded products accounted for approximately 19.5% of our net sales, and "Yanuk" branded products accounted for approximately 10.5% of our net sales, for the year. We expect that our "Taverniti So Jeans" branded products will account for a larger percentage of our overall sales in 2006.

Our jeans are available in multiple combinations of washes, fabrics and finishes, with as many as 20 different combinations of colors, fabrics and finishes on certain styles. Indeed, we introduce new versions of our major styles each month in different colors, washes and finishes. Although the majority of our sales arise from the sale of jean products, our product line is balanced by tops, including knits and wovens, and accessories, the sales of which we anticipate will continue to grow.

With the license of the "U" brand from Yanuk Jeans LLC, we plan to design, develop, market and distribute jeans and accessories under the "U" brand at price points different from those of "Antik Denim," "Yanuk" and "Taverniti So Jeans."

MARKETING, DISTRIBUTION AND SALES

We market, distribute and sell "Antik Denim" brand products and, as a result of license agreements with Yanuk Jeans LLC, "Yanuk" and "U" brand products, in the United States and internationally in a number of other countries such as Canada, Belgium, France, Germany, Sweden, Italy, Korea and Japan. As a result of the acquisition of Taverniti in October 2005, we will similarly market, distribute and sell "Taverniti So Jeans" brand products. In 2005, 18% of our total sales came from overseas customers.

We market and distribute our products by participating in industry trade shows, as well as through our show rooms in Los Angeles and New York. We maintain distributor relationships in the United Kingdom, France, Germany, Sweden, Greece, Belgium, Italy, Mexico and Japan. Except for Mexico, Japan and Canada, we currently have no exclusive or long term distribution agreements with any party covering any territory, and do not depend on any single distributor to distribute our products. Our distributors often, but not always, purchase products from us at a discount for resale to their customers in their respective territories. Our distributors warehouse our products at their expense and they ship to and collect payment from their customers directly.

Our products are sold in the United States to department stores and boutiques such as Saks Fifth Avenue, Neiman Marcus, Nordstrom, Bloomingdales, Bergdorf Goodman, Atrium, Fred Segal, Intermix, Kitson and Bendel, as well as

Edgar Filing: BLUE HOLDINGS, INC. - Form 10KSB

smaller boutiques throughout the country. Our products are sold internationally to department stores and boutiques such as Lane Crawford in Hong Kong, Harrods and Harvey Nichols in the United Kingdom, Barneys and Isetan in Japan, Galleries Lafayette in France, and Holt Renfrew in Canada.

We intend to operate certain flagship stores domestically and to license overseas operators to open retail stores that focus on high end fashion denim generally, and the "Antik Denim," "Yanuk," "U" and

- 7 -

"Taverniti So Jeans" brands, in particular. We also intend to explore a broader retail strategy focusing on the launch and operation of stores retailing our various brands. While there is no existing plan with respect to the roll-out of such stores, our first retail store was opened on August 27, 2005 on Melrose Avenue in Los Angeles.

MANUFACTURING

We presently outsource all of our manufacturing to contract vendors using just in time ordering. We use several contract vendors for our manufacturing needs with the bulk of purchases (approximately 70%) currently made from domestic (U.S.) factories. We are increasing the use of factories in Mexico and the Far East. We do not rely on any one manufacturer and we believe additional manufacturing capacity is available to meet our current and planned needs. We maintain rigorous quality control systems for both raw and finished goods. We will continue to outsource the majority of our production capacity to maintain low fixed expenses. We will add additional contractors as required to meet our needs. During fiscal 2005, three sub-contractors accounted for 13.76%, 12.91% and 12.68%, respectively, of our manufacturing. One of these sub-contractors, which principally provided manufacturing services to Taverniti, is Azteca Production International Inc., a company co-owned by Paul Guez, our Chairman and Chief Executive Officer.

We believe we can realize significant cost savings in product manufacturing because of our strong relationships with a diverse group of U.S. and international contract manufacturers established by our management team through their prior experience in the apparel industry. In addition, the increase in production volume as a result of our multi-brand strategy will give us economies of scale to achieve more cost savings.

COMPETITION

The high-end fashion denim industry is very competitive and fragmented. Our competitors are companies such as Levi Strauss, Calvin Klein, Joe's Jeans, True Religion Apparel, Seven For All Mankind and Citizens of Humanity.

Our competitive edge lies in our ability to create innovative concepts and designs, to develop products with extraordinary fit, and to expand our high quality fabrics and finishes, treatments and embellishments (including our patent pending pockets, hand stitching and embroidery detail). We believe that we offer value products that can successfully compete in the high end fashion denim industry.

TRADEMARKS AND OTHER INTELLECTUAL PROPERTY

Antik, is the holder of trademark applications for the "Antique Denim" and "Antik Denim" marks in the United States and various other foreign jurisdictions. Antik also owns several proprietary concepts and designs,

Edgar Filing: BLUE HOLDINGS, INC. - Form 10KSB

including pending trademark and patent applications on its pocket designs. Yanuk Jeans LLC, from whom we hold exclusive licenses to exploit products based on the "Yanuk" and "U" brands, is the holder of several United States and foreign trademarks.

Taverniti is the exclusive licensee for the design, development, manufacture, sale, marketing and distribution of the "Taverniti So Jeans" trademark in the denim and knit sportswear categories for men and women. It is paying royalties to Taverniti Holdings LLC in the range of 5-8 percent depending on the net sales of the licensed products pursuant to a license agreement with Taverniti Holdings LLC. Taverniti Holdings LLC is jointly owned by Paul Guez (60%) and Jimmy Taverniti (40%), the designer of the products for the brand, and Mr. Guez is the sole manager. The license agreement was signed in May 2004 and expires on December 31, 2015.

We anticipate continuing to expand the "Antik Denim," "Yanuk," "U" and "Taverniti So Jeans" brands, and their proprietary trademarks and designs, worldwide. We also anticipate taking, and have already taken, coordinated action to curb an increase in the domestic and international counterfeiting of Antik's stylized pocket design and other intellectual property, including, without limitation, through litigation if necessary.

- 8 -

GOVERNMENT REGULATION AND SUPERVISION

We benefit from certain international treaties and regulations, such as the North American Free Trade Agreement (NAFTA), which allows for the duty and quota free entry into the United States of certain qualifying merchandise. International trade agreements and embargoes by entities such as the World Trade Organization also can affect our business, although their impact has historically been favorable.

We have implemented various programs and procedures, including unannounced inspections, to ensure that all of the apparel manufacturers with whom we contract fully comply with employment and safety laws and regulations governing their place of operation.

DESIGN AND DEVELOPMENT

Mr. Guez, along with a team of designers, is responsible for the design and development of our product lines. There is no formal research and development plan at this time, however, since inception, we have apportioned significant resources on our research and development activities related to our designs. In 2005, our expenses on design and development amounted to approximately \$1.7 million.

EMPLOYEES

As of February 17, 2006, we had 130 employees, not including our four executive officers, Paul Guez, our Chairman, Chief Executive Officer and President, and Patrick Chow, our Chief Financial Officer and Secretary, Philippe Naouri, President of Antik Denim LLC and Gregory Abbou, President of Taverniti So Jeans LLC. Mr. Guez leads our product development, marketing and sales, and Mr. Chow oversees all financial aspects of our business. Our employees are not unionized and except as described in other portions of this Annual Report on Form 10-KSB, no employees are subject to existing employment agreements.

RISK FACTORS

RISKS RELATED TO OUR BUSINESS

WE HAVE A LIMITED OPERATING HISTORY, MAKING IT DIFFICULT TO EVALUATE WHETHER WE WILL OPERATE PROFITABLY.

- 9 -

Antik and Taverniti were formed in September 2004 to design, develop, manufacture, market, distribute and sell high end fashion jeans, apparel and accessories. As a result, we do not have a meaningful historical record of sales and revenues nor an established business track record. While our management believes that we have an opportunity to be successful in the high end fashion jean market, there can be no assurance that we will be successful in accomplishing our business initiatives, or that we will achieve any significant level of revenues, or continue to recognize net income, from the sale of our products.

Unanticipated problems, expenses and delays are frequently encountered in increasing production and sales and developing new products, especially in the current stage of our business. Our ability to continue to successfully develop, produce and sell our products and to generate significant operating revenues will depend on our ability to, among other matters:

- successfully market, distribute and sell our products or enter into agreements with third parties to perform these functions on our behalf; and
- obtain the financing required to implement our business plan.

Given our limited operating history, our license agreements with Yanuk Jeans LLC, our acquisition of Taverniti, and our lack of long-term sales history and other sources of revenue, there can be no assurance that we will be able to achieve any of our goals and develop a sufficiently large customer base to be profitable.

WE MAY REQUIRE ADDITIONAL CAPITAL IN THE FUTURE.

Edgar Filing: BLUE HOLDINGS, INC. - Form 10KSB

We may not be able to fund our future growth or react to competitive pressures if we lack sufficient funds. Currently, management believes we have sufficient cash on hand and cash available through our factor to fund existing operations for the foreseeable future. However, in the future, we may need to raise additional funds through equity or debt financings or collaborative relationships, including in the event that we lose our relationship with our factor. This additional funding may not be available or, if available, it may not be available on commercially reasonable terms. In addition, any additional funding may result in significant dilution to existing shareholders. If adequate funds are not available on commercially acceptable terms, we may be required to curtail our operations or obtain funds through collaborative partners that may require us to release material rights to our products.

FAILURE TO MANAGE OUR GROWTH AND EXPANSION COULD IMPAIR OUR BUSINESS.

Management believes that we are poised for significant growth in 2006. However, no assurance can be given that we will be successful in maintaining or increasing our sales in the future. Any future growth in sales will require additional working capital and may place a significant strain on our management, management information systems, inventory management, sourcing capability, distribution facilities and receivables management. Any disruption in our order processing, sourcing or distribution systems could cause orders to be shipped late, and under industry practices, retailers generally can cancel orders or refuse to accept goods due to late shipment. Such cancellations and returns would result in a reduction in revenue, increased administrative and shipping costs and a further burden on our distribution facilities.

Additionally, we intend from time to time to open and/or license retail stores focusing on the "Antik Denim," "Yanuk," "Taverniti So Jeans" and other brands, and to acquire and/or license other businesses and brands, as applicable, as we deem appropriate. If we are unable to adequately manage our retail operations, or to properly integrate any business or brands we acquire and/or license, this could adversely affect our results of operation and financial condition.

WE CURRENTLY OWN OR LICENSE, AND OPERATE, A LIMITED NUMBER OF PRINCIPAL BRANDS. IF WE ARE UNSUCCESSFUL IN MARKETING AND DISTRIBUTING THOSE BRANDS OR IN EXECUTING OUR OTHER STRATEGIES, OUR RESULTS OF OPERATIONS AND FINANCIAL CONDITION WILL BE ADVERSELY AFFECTED.

While our goal is to employ a multi-brand strategy that will ultimately diversify the fashion and other risks associated with reliance on a limited product line, we currently operate, directly and through our wholly-

- 10 -

owned subsidiaries Antik and Taverniti, a limited number of principal brands, most of which are being operated pursuant to very recent license or acquisition agreements. If we are unable to successfully market and distribute our branded products, or if the recent popularity of premium denim brands decreases, or if we are unable to execute on our multi-brand strategy to acquire and/or license additional companies and/or brands, as applicable, identified by our management from time to time, our results of operations and financial condition will be adversely affected.

OUR OPERATING RESULTS MAY FLUCTUATE SIGNIFICANTLY.

Management expects that we will experience substantial variations in our net sales and operating results from quarter to quarter. We believe that the

Edgar Filing: BLUE HOLDINGS, INC. - Form 10KSB

factors which influence this variability of quarterly results include:

- the timing of our introduction of new product lines;
- the level of consumer acceptance of each new product line;
- general economic and industry conditions that affect consumer spending and retailer purchasing;
- the availability of manufacturing capacity;
- the seasonality of the markets in which we participate;
- the timing of trade shows;
- the product mix of customer orders;
- the timing of the placement or cancellation of customer orders;
- the weather;
- transportation delays;
- quotas and other regulatory matters;
- the occurrence of charge backs in excess of reserves; and
- the timing of expenditures in anticipation of increased sales and actions of competitors.

As a result of fluctuations in our revenue and operating expenses that may occur, management believes that period-to-period comparisons of our results of operations are not a good indication of our future performance. It is possible that in some future quarter or quarters, our operating results will be below the expectations of securities analysts or investors. In that case, our common stock price could fluctuate significantly or decline.

THE FINANCIAL CONDITION OF OUR CUSTOMERS COULD AFFECT OUR RESULTS OF OPERATIONS.

Certain retailers, including some of our customers, have experienced in the past, and may experience in the future, financial difficulties, which increase the risk of extending credit to such retailers and the risk that financial failure will eliminate a customer entirely. These retailers have attempted to improve their own operating efficiencies by concentrating their purchasing power among a narrowing group of vendors. There can be no assurance that we will remain a preferred vendor for our existing customers. A decrease in business from or loss of a major customer could have a material adverse effect on our results of operations. There can be no assurance that our factor will approve the extension of credit to certain retail customers in the future. If a customer's credit is not approved by the factor, we could assume the collection risk on sales to the customer itself, require that the customer provide a letter of credit, or choose not to make sales to the customer.

OUR BUSINESS IS SUBJECT TO RISKS ASSOCIATED WITH IMPORTING PRODUCTS.

A portion of our import operations are subject to tariffs imposed on imported products and quotas imposed by trade agreements. In addition, the countries in which our products are imported may from time to time impose additional new duties, tariffs or other restrictions on their respective imports or adversely modify existing restrictions. Adverse changes in these import costs and restrictions, or our suppliers' failure to comply with customs or similar laws, could harm our business. We cannot assure that future trade agreements will not provide our competitors with an advantage over us, or increase our costs, either of which could have an adverse effect on our business and financial condition.

- 11 -

Our operations are also subject to the effects of international trade

Edgar Filing: BLUE HOLDINGS, INC. - Form 10KSB

agreements and regulations such as the North American Free Trade Agreement, and the activities and regulations of the World Trade Organization. Generally, these trade agreements benefit our business by reducing or eliminating the duties assessed on products or other materials manufactured in a particular country. However, trade agreements can also impose requirements that adversely affect our business, such as limiting the countries from which we can purchase raw materials and setting duties or restrictions on products that may be imported into the United States from a particular country.

Our ability to import raw materials in a timely and cost-effective manner may also be affected by problems at ports or issues that otherwise affect transportation and warehousing providers, such as labor disputes. These problems could require us to locate alternative ports or warehousing providers to avoid disruption to our customers. These alternatives may not be available on short notice or could result in higher transit costs, which could have an adverse impact on our business and financial condition.

OUR DEPENDENCE ON INDEPENDENT MANUFACTURERS AND SUPPLIERS OF RAW MATERIALS REDUCES OUR ABILITY TO CONTROL THE MANUFACTURING PROCESS, WHICH COULD HARM OUR SALES, REPUTATION AND OVERALL PROFITABILITY.

We depend on independent contract manufacturers and suppliers of raw materials to secure a sufficient supply of raw materials and maintain sufficient manufacturing and shipping capacity in an environment characterized by declining prices, labor shortages, continuing cost pressure and increased demands for product innovation and speed-to-market. This dependence could subject us to difficulty in obtaining timely delivery of products of acceptable quality. In addition, a contractor's failure to ship products to us in a timely manner or to meet the required quality standards could cause us to miss the delivery date requirements of our customers. The failure to make timely deliveries may cause our customers to cancel orders, refuse to accept deliveries, impose non-compliance charges through invoice deductions or other charge-backs, demand reduced prices or reduce future orders, any of which could harm our sales, reputation and overall profitability.

We do not have long-term contracts with any of our independent contractors and any of these contractors may unilaterally terminate their relationship with us at any time. While management believes that there exists an adequate supply of contractors to provide products and services to us, to the extent we are not able to secure or maintain relationships with independent contractors that are able to fulfill our requirements, our business would be harmed.

We have initiated standards for our suppliers, and monitor our independent contractors' compliance with applicable labor laws, but we do not control our contractors or their labor practices. The violation of federal, state or foreign labor laws by one of our contractors could result in us being subject to fines and our goods that are manufactured in violation of such laws being seized or their sale in interstate commerce being prohibited. To date, we have not been subject to any sanctions that, individually or in the aggregate, have had a material adverse effect on our business, and we are not aware of any facts on which any such sanctions could be based. There can be no assurance, however, that in the future we will not be subject to sanctions as a result of violations of applicable labor laws by our contractors, or that such sanctions will not have a material adverse effect on our business and results of operations.

WE MAY NOT BE ABLE TO ADEQUATELY PROTECT OUR INTELLECTUAL PROPERTY RIGHTS.

The loss of or inability to enforce our trademarks or any of our other proprietary or licensed designs, patents, know-how and trade secrets could

Edgar Filing: BLUE HOLDINGS, INC. - Form 10KSB

adversely affect our business. If any third party copies or otherwise gains access to our trademarks or other proprietary rights, or develops similar products independently, it may be costly to enforce our rights and we would not be able to compete as effectively. Additionally, the laws of foreign countries may provide inadequate protection of intellectual property rights, making it difficult to enforce such rights in those countries.

We may need to bring legal claims to enforce or protect our intellectual property rights. Any litigation, whether successful or unsuccessful, could result in substantial costs and diversions of resources. In

- 12 -

addition, notwithstanding the rights we have secured in our intellectual property, third parties may bring claims against us alleging that we have infringed on their intellectual property rights or that our intellectual property rights are not valid. Any claims against us, with or without merit, could be time consuming and costly to defend or litigate and therefore could have an adverse affect on our business.

THE LOSS OF PAUL GUEZ OR OUR LEAD DESIGNERS WOULD HAVE AN ADVERSE EFFECT ON OUR FUTURE DEVELOPMENT AND COULD SIGNIFICANTLY IMPAIR OUR ABILITY TO ACHIEVE OUR BUSINESS OBJECTIVES.

Our success is largely dependent upon the expertise and knowledge of our Chairman, Chief Executive Officer and President, Paul Guez, and our lead designers, and our ability to continue to hire and retain other key personnel. The loss of Mr. Guez, or any of our other key personnel, could have a material adverse effect on our business, development, financial condition, and operating results. We do not maintain "key person" life insurance on any of our management or key personnel, including Mr. Guez.

RISKS RELATED TO OUR INDUSTRY

OUR SALES ARE HEAVILY INFLUENCED BY GENERAL ECONOMIC CYCLES.

Apparel is a cyclical industry that is heavily dependent upon the overall level of consumer spending. Purchases of apparel and related goods tend to be highly correlated with cycles in the disposable income of our consumers. Our customers anticipate and respond to adverse changes in economic conditions and uncertainty by reducing inventories and canceling orders. As a result, any substantial deterioration in general economic conditions, increases in interest rates, acts of war, terrorist or political events that diminish consumer spending and confidence in any of the regions in which we compete, could reduce our sales and adversely affect our business and financial condition.

OUR BUSINESS IS HIGHLY COMPETITIVE AND DEPENDS ON CONSUMER SPENDING PATTERNS.

The apparel industry is highly competitive. We face a variety of competitive challenges including:

- anticipating and quickly responding to changing consumer demands;
- developing innovative, high-quality products in sizes and styles that appeal to consumers;
- competitively pricing our products and achieving customer perception of value; and
- the need to provide strong and effective marketing support.

Edgar Filing: BLUE HOLDINGS, INC. - Form 10KSB

WE MUST SUCCESSFULLY GAUGE FASHION TRENDS AND CHANGING CONSUMER PREFERENCES TO SUCCEED.

Our success is largely dependent upon our ability to gauge the fashion tastes of our customers and to provide merchandise that satisfies retail and customer demand in a timely manner. The apparel business fluctuates according to changes in consumer preferences dictated in part by fashion and season. To the extent we misjudge the market for our merchandise, our sales may be adversely affected. Our ability to anticipate and effectively respond to changing fashion trends depends in part on our ability to attract and retain key personnel in our design, merchandising and marketing staff. Competition for these personnel is intense, and we cannot be sure that we will be able to attract and retain a sufficient number of qualified personnel in future periods.

OUR BUSINESS MAY BE SUBJECT TO SEASONAL TRENDS.

In the experience of our management, operating results in the high end fashion denim industry have been subject to seasonal trends when measured on a quarterly basis. This trend is dependent on numerous factors, including:

- the markets in which we operate;
- holiday seasons;
- consumer demand;

- 13 -

- climate;
- economic conditions; and
- numerous other factors beyond our control.

OTHER RISKS RELATED TO US

OUR SALE OF SECURITIES IN ANY EQUITY OR DEBT FINANCING COULD RESULT IN DILUTION TO OUR SHAREHOLDERS AND HAVE A MATERIAL ADVERSE EFFECT ON OUR EARNINGS.

Any sale of shares by us in future private placement or other offerings could result in dilution to our existing shareholders as a direct result of our issuance of additional shares of our capital stock. In addition, our business strategy may include expansion through internal growth, by acquiring complementary businesses, by acquiring or licensing additional brands, or by establishing strategic relationships with targeted customers and suppliers. In order to do so, or to fund our other activities, we may issue additional equity securities that could dilute our shareholders' stock ownership. We may also assume additional debt and incur impairment losses related to goodwill and other tangible assets if we acquire another company and this could negatively impact our results of operations.

INSIDERS OWN A SIGNIFICANT PORTION OF OUR COMMON STOCK, WHICH COULD LIMIT OUR SHAREHOLDERS' ABILITY TO INFLUENCE THE OUTCOME OF KEY TRANSACTIONS.

As of March 1, 2006, our Chief Executive Officer, Paul Guez, Chief Financial Officer, Patrick Chow, and three members of our design team, Messrs. Naouri, Cagant and Meyer Abbou, all former members of Antik, owned approximately 88.3% of the outstanding shares of our common stock. Paul and Elizabeth Guez, Mr. Guez's wife and the Company's former Chief Operating Officer, alone owned approximately 72.2% of the outstanding shares of our common stock at March 1, 2006. Accordingly, our executive officers and key personnel have the ability to affect the outcome of, or exert considerable influence over,

Edgar Filing: BLUE HOLDINGS, INC. - Form 10KSB

all matters requiring shareholder approval, including the election and removal of directors and any change in control. This concentration of ownership of our common stock could have the effect of delaying or preventing a change of control of us or otherwise discouraging or preventing a potential acquirer from attempting to obtain control of us. This, in turn, could have a negative effect on the market price of our common stock. It could also prevent our shareholders from realizing a premium over the market prices for their shares of common stock.

OUR STOCK PRICE HAS BEEN VOLATILE.

Our common stock is quoted on the Over-The-Counter Bulletin Board, and there can be substantial volatility in the market price of our common stock. The market price of our common stock has been, and is likely to continue to be, subject to significant fluctuations due to a variety of factors, including quarterly variations in operating results, operating results which vary from the expectations of securities analysts and investors, changes in financial estimates, changes in market valuations of competitors, announcements by us or our competitors of a material nature, loss of one or more customers, additions or departures of key personnel, future sales of common stock and stock market price and volume fluctuations. In addition, general political and economic conditions such as a recession, or interest rate or currency rate fluctuations may adversely affect the market price of our common stock.

In addition, the stock market in general has experienced extreme price and volume fluctuations that have affected the market price of our common stock. Often, price fluctuations are unrelated to operating performance of the specific companies whose stock is affected. In the past, following periods of volatility in the market price of a company's stock, securities class action litigation has occurred against the issuing company. If we were subject to this type of litigation in the future, we could incur substantial costs and a diversion of our management's attention and resources, each of which could have a material adverse effect on our revenue and earnings. Any adverse determination in this type of litigation could also subject us to significant liabilities.

ABSENCE OF DIVIDENDS COULD REDUCE OUR ATTRACTIVENESS TO INVESTORS.

- 14 -

Some investors favor companies that pay dividends, particularly in general downturns in the stock market. We have not declared or paid any cash dividends on our common stock. We currently intend to retain any future earnings for funding growth, and we do not currently anticipate paying cash dividends on our common stock in the foreseeable future. Because we may not pay dividends, your return on this investment likely depends on your selling our stock at a profit.

ITEM 2. DESCRIPTION OF PROPERTY

Our principal executive offices and warehouse are located at 5804 East Slauson Avenue, Commerce, California 90040. Our telephone number is (323) 725-5555. It is from this facility that we conduct all of our executive and administrative functions, and ship products to our customers. We also maintain showrooms in both Los Angeles and New York City. Going forward, we intend to pay for the use of these showrooms based on our actual use. The cost of operations at the Commerce facility and the showrooms is shared by several companies and the portion of the cost that we paid in 2005 was allocated to us under our service agreement with Blue Concept LLC. The entire Commerce facility consists of approximately 270,222 sq. ft. We now utilize approximately 67,000 sq. ft. of

Edgar Filing: BLUE HOLDINGS, INC. - Form 10KSB

the Commerce, California facility.

In 2005, under our service agreement with Blue Concept LLC, we utilized the space at a monthly cost of approximately \$15,000. Under our service agreement with Blue Concept LLC, we also paid a monthly service fee of \$78,500 in exchange for additional services in the following areas: MIS, human resources, sales, customer service, EDI Support, quality control, purchasing, import/export services, graphic design, laundry and distribution. We shared 15% of the actual telephone, utilities and office supply expenses incurred by Blue Concept LLC, as evidenced by actual invoices presented to us.

On August 27, 2005, we opened a retail store in Los Angeles, California and assumed all the obligations of a 10-year property lease, which was previously signed by Blue Concept LLC in April, 2005.

ITEM 3. LEGAL PROCEEDINGS

Except as described below, we are not involved in any legal proceedings that require disclosure in this report.

In August and September, 2005, the Company filed complaints against a number of companies that we believe encroached on our highly identifiable, stylized "Antik" pocket design. The complaints were filed in the United States District Court in Los Angeles, California. The unique design in question is copyrighted, and is the subject of pending trademark and design patent registration claims. The complaints alleged, among other matters, that the companies were violating federal and state trademark, copyright, unfair trade practices and unfair competition statutes and laws, and sought damages and injunctive relief against all parties. Prior to December 31, 2005, we received from one company \$15,000 in settlement which was used to cover legal expenses for these litigations. Subsequent to the year end, we entered into two more settlement agreements and have received approximately \$457,000 in settlement.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted to a vote of the Company's shareholders in the quarter ended December 31, 2005.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

THE FOLLOWING DISCUSSION AND ANALYSIS SHOULD BE READ TOGETHER WITH THE CONSOLIDATED FINANCIAL STATEMENTS OF BLUE HOLDINGS, INC. AND THE NOTES TO CONSOLIDATED FINANCIAL STATEMENTS INCLUDED ELSEWHERE IN THIS ANNUAL REPORT ON FORM 10-KSB. THIS DISCUSSION SUMMARIZES THE SIGNIFICANT FACTORS AFFECTING OUR OPERATING RESULTS, FINANCIAL CONDITIONS AND LIQUIDITY AND CASH-FLOW FOR THE FISCAL YEARS ENDED DECEMBER 31, 2004 AND 2005. THIS DISCUSSION CONTAINS FORWARD LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES AND ARE BASED ON JUDGMENTS CONCERNING VARIOUS FACTORS THAT ARE BEYOND OUR CONTROL. OUR ACTUAL RESULTS COULD DIFFER MATERIALLY FROM THOSE ANTICIPATED IN THESE FORWARD-LOOKING STATEMENTS AS A RESULT OF VARIOUS FACTORS, INCLUDING THOSE DISCUSSED BELOW AND ELSEWHERE IN THIS ANNUAL REPORT ON FORM 10-KSB, PARTICULARLY UNDER THE CAPTION "CAUTIONARY NOTE REGARDING FORWARD LOOKING STATEMENTS" AND IN ITEM 1. BUSINESS UNDER THE CAPTION "RISK FACTORS."

OVERVIEW

Blue Holdings, Inc. designs, develops, markets and distributes high end fashion jeans and accessories under the brand name names "Antik Denim," "Yanuk," "U" and "Taverniti So Jeans." We plan to also design, develop, market and distribute jeans and accessories under other brands that we may license or acquire from time to time. Our products currently include jeans, jackets, belts, purses and T-shirts. We currently sell our products in the United States,

Edgar Filing: BLUE HOLDINGS, INC. - Form 10KSB

Canada, Japan and the European Union directly to department stores and boutiques and through distribution arrangements in certain foreign jurisdictions. We are headquartered in Commerce, California and maintain two showrooms in New York and Los Angeles. We opened a retail store in Los Angeles during August 2005.

Blue Holdings, Inc. was incorporated in the State of Nevada on February 9, 2000 under the name Marine Jet Technology Corp. Since our inception and through January 2005, we focused on developing and marketing boat propulsion technology. Between January and February 2005, we entered into separate transactions whereby, among other matters, Keating Reverse Merger Fund, L.L.C. ("KRM Fund"), an existing shareholder of the Company, agreed to purchase a substantial majority of our outstanding common stock, and Intellijet Marine, Inc., a company formed by our former majority shareholder and principal executive officer and director, Jeff P. Jordan, acquired all of our boat propulsion technology assets and assumed all of our then existing liabilities.

Between February 4, 2005 and April 29, 2005, we existed as a public "shell" company with nominal assets.

On April 14, 2005, we entered into an Exchange Agreement (the "Exchange Agreement") with Antik Denim, LLC, a California limited liability company ("Antik"), the members of Antik (the "Antik Members"), and KRM Fund. The closing of the transactions contemplated by the Exchange Agreement occurred on April 29, 2005. At the closing, we acquired all of the outstanding membership interests of Antik (the "Interests") from the Antik Members, and the Antik Members contributed all of their Interests to us. In exchange, we issued to the Antik Members 843,027 shares of our Series A Convertible Preferred Stock, par value \$0.001 per share (the "Preferred Shares"), which, as a result of the approval by a substantial majority of our outstanding shareholders entitled to vote and the approval by our Board of Directors, of amendments to our Articles of Incorporation that (i) changed our name to Blue Holdings, Inc., (ii) increased our authorized number of shares of common stock to 75,000,000, and (iii) adopted a 1-for-29 reverse stock split, on June 7, 2005 converted into 708,984,875 shares of our common stock on a pre-reverse stock split basis and 24,447,783 shares of our common stock on a post-reverse stock split basis.

At the closing, Antik became our wholly-owned subsidiary. The exchange transaction was accounted for as a reverse merger (recapitalization) with Antik deemed to be the accounting acquirer, and us deemed to be the legal acquirer.

After completing the exchange transaction with Antik, we completed the following significant transactions in fiscal 2005:

- 17 -

- o On July 5, 2005, we entered into a license agreement with Yanuk Jeans LLC, a company owned by Paul Guez, to sell products under the "Yanuk" label. This agreement became effective from July 1, 2005 and will expire on June 30, 2015. Under the terms of the agreement, we became the exclusive licensor for the design, development, manufacture, sale, marketing and distribution of the "Yanuk" brand products to the wholesale and retail trade. We pay to Yanuk Jeans LLC a royalty of six percent of all net sales of the licensed products and will pay a guaranteed minimum royalty on an annual basis. In addition, during the term of the license agreement, we have the option to purchase from Yanuk Jeans LLC the property licensed under the agreement.

Edgar Filing: BLUE HOLDINGS, INC. - Form 10KSB

- o On September 8, 2005, Antik entered into an agreement with Titan Industries, Inc. that provides Titan with an exclusive right to use the "Antik Denim" trademark for the sale of men's and women's footwear in the United States and its possessions and territories, Canada and Mexico, and a right of first refusal for similar use of the trademark in Europe and South America.
- o On October 6, 2005, we entered into a five-year license agreement with Yanuk Jeans LLC, effective October 5, 2005. Under the terms of the agreement, we became the exclusive licensor for the design, development, manufacture, sale, marketing and distribution of Yanuk Jeans LLC's "U" brand products to the wholesale and retail trade. We pay to Yanuk Jeans LLC a royalty of five percent of all net sales of the licensed products and shall pay a guaranteed minimum royalty on an annual basis. In addition, during the term of the license agreement, we have the option to purchase from Yanuk Jeans LLC the property licensed under the agreement.
- o On October 31, 2005, we entered into an exchange agreement with Taverniti So Jeans, LLC, a California limited liability company ("Taverniti"), and the members of Taverniti (the "Taverniti Members"). Under the exchange agreement, we acquired all of the outstanding membership interests of Taverniti (the "Taverniti Interests") from the Taverniti Members, and the Taverniti Members contributed all of their Taverniti Interests to us. In exchange, we issued to the Taverniti Members, on a pro rata basis, an aggregate of 500,000 shares of our Common Stock, par value \$0.001 per share, and paid to the Taverniti Members, on a pro rata basis, an aggregate of Seven Hundred Fifty Thousand Dollars (\$750,000). At the closing of the exchange transaction, Taverniti became our wholly-owned subsidiary.

Paul Guez, the Company's Chairman, Chief Executive Officer, President and majority shareholder, was and remains the sole manager and was member of Taverniti. Elizabeth Guez, Paul Guez's spouse and the Company's former Chief Operating Officer, was a member of Taverniti. Two other members of Mr. and Mrs. Guez's family, including Gregory Abbou, the President of Taverniti, were the remaining members of Taverniti. Taverniti is the exclusive licensee for the design, development, manufacture, sale, marketing and distribution of the "Taverniti So Jeans" trademark in the denim and knit sports wear categories for men and women. It is paying royalties to Taverniti Holdings LLC in the ranges of 5-8 percent depending on the net sales of the licensed products pursuant to a license agreement with Taverniti Holdings LLC. Taverniti Holdings LLC is jointly owned by Paul Guez (60%) and Jimmy Taverniti (40%), the designer of the products for the brand, and Mr. Guez is the sole manager. The license agreement was signed in May 2004 and expires on December 31, 2015.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues. On an ongoing basis, we evaluate estimates, including those related to returns, discounts, bad debts, inventories, intangible assets, income taxes, contingencies and litigations. We base our estimates on historical experience and on various assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about

Edgar Filing: BLUE HOLDINGS, INC. - Form 10KSB

the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

- 18 -

REVENUE

Revenue is recognized when merchandise has been shipped against a customer's written purchase order, the risk of ownership has passed, selling price has been fixed and determined and collectibility is reasonably assured either through payment received, or fulfillment of all the terms and conditions of the particular purchase order. Revenue is recorded net of estimated returns, charge backs and markdowns based on management's estimates and historical experience.

ACCOUNTS RECEIVABLES

Trade accounts receivable are recorded at invoiced amounts, less amounts accrued for returns, discounts and allowances. An allowance is provided for specific customer accounts where collection is doubtful and for inherent risk in our ability to ultimately collect. There is no off-balance sheet credit exposure related to customer receivables.

INVENTORIES

Inventories are stated at the lower of cost or market. Cost is determined on the first-in, first-out ("FIFO") method.

INCOME TAXES:

We account for income taxes in accordance with SFAS No. 109, "Accounting for Income Taxes" Under SFAS No. 109, income taxes are recognized for the amount of taxes payable or refundable for the current year and deferred tax liabilities and assets are recognized for the future tax consequences of transactions that have been recognized in our financial statements or tax returns. A valuation allowance is provided when it is more likely than not that some portion or all of the deferred tax asset will not be realized.

RESULTS OF OPERATIONS

The acquisition of Antik Denim, LLC ("Antik") is accounted for as a reverse merger (recapitalization) in the accompanying financial statements with Antik deemed to be the accounting acquirer, and Blue Holdings deemed to be the legal acquirer. The exchange transaction with Taverniti So Jeans LLC is accounted for as a combination of entities under common control, and its 2004 and 2005 results are combined with those of Antik and Blue Holdings, Inc., respectively. Accordingly, our results of operations before the completion of these transactions, including our operating results before April 29, 2005 (when we completed the acquisition of Antik), reflect the operations of Antik and Taverniti.

Both Antik and Taverniti commenced their operations in September 2004 and were in their early stage of operation during the three months ended December 31, 2004. As such, a comparison of results for the three months ended December 31, 2004, and those for the corresponding period ended December 31, 2005, would not be meaningful.

TWELVE MONTHS ENDED DECEMBER 31, 2005

Edgar Filing: BLUE HOLDINGS, INC. - Form 10KSB

We recorded net sales of \$36.4 million for the twelve months ended December 31, 2005. Gross profit for the twelve months ended December 31, 2005 was \$18 million, or 49.4%. Out of the net sales of \$36.4 million, Antik accounted for 70% of the total, Taverniti 19.5% and Yanuk 10.5%. We expect all the brands will enjoy very healthy growth in 2006. Additionally, as we implement our product and growth strategy, we expect Taverniti will account for a larger percentage of our net sales in 2006.

Selling, distribution and administrative expenses for the twelve months ended December 31, 2005 totaled \$10.5 million and included royalties, design and sales-related expenses such as advertising, commissions, travel and trade show expense. The principal components were payroll (\$2.5 million), legal and

- 19 -

professional (\$1.8 million), advertising (\$0.8 million), royalties (\$0.8 million) and fees paid to Blue Concept, LLC under the service agreement (\$1.5 million). Net Income after provision for taxes was \$5.1 million or 14.1 % of net sales. Our tax provisions for Antik Denim, LLC were based on income between April 30 and December 31, 2005 and those for Taverniti, on the income between October 31 and December 31, 2005. The selling, distribution and administrative expenses had been growing rapidly in line with the expansion of our business. We believe our fixed overhead expenses have by now stabilized and we will be able to maintain further growth without significant increase to such expenses.

During the year, expenses related to the exchange transaction between Antik Denim, LLC and Marine Jet Technology Corp. amounted to a total of \$0.5 million.

PERIOD FROM SEPTEMBER 13, 2004 (INCEPTION) THROUGH DECEMBER 31, 2004

We recorded net sales of \$0.37 million for the period between September 13, 2004 and December 31, 2005. Gross profit for the period was \$0.2 million, or 56.8%. Antik accounted for 100% of the total net sales. Selling, distribution and administrative expenses for the period totaled \$1.6 million. The principal components were development costs (\$0.5 million), cost allocations from related companies (\$0.5 million), design and consulting (\$0.2 million), and preproduction costs (\$0.1 million). Net loss after provision for taxes was \$(1.4 million).

Net cash used in operating activities for the period from inception through December 31, 2004 was \$(0.7 million). The deficit was created by an increase in inventory by \$0.9 million, and by increases in due from factor and accounts receivables of \$0.4 million and \$0.1 million respectively. This deficit was financed by increase in accounts payable by \$1.1 million and paid-in capital of \$0.8 million.

LIQUIDITY AND CAPITAL RESOURCES

For the twelve months ended December 31, 2005, net cash used in operating activities was \$4.2 million. The deficit was primarily due to an increase of \$7.8 million in inventory, \$0.3 million in due from factor and \$4.2 million in accounts receivables. Net cash provided by financing activities was \$5.3 million consisting of short-term borrowings of \$4.6 million, and \$0.7 million in cash contribution by shareholders. The Company utilized \$0.95 million in investing activities which consisted of the purchase of equipment for \$0.2 million and a deemed distribution of \$750,000 made to previous members of

Edgar Filing: BLUE HOLDINGS, INC. - Form 10KSB

Taverniti So Jeans LLC as part of the consideration for our purchase of all their respective membership interests in October 2005.

Since the beginning of 2005, Mr. Guez has personally contributed \$1,200,000 in fabric inventory and \$686,200 in cash to the Company. From time to time, he also supports the Company with temporary advances. As of December 31, 2005, the Company had advances totaling \$96,875 from Mr. Guez which are included in amounts due to related parties on the accompanying balance sheet.

We use a factor, FTC Commercial Corp., for working capital and credit administration purposes. Under the various factoring agreements entered into separately by Blue Holdings, Antik Denim, LLC and Taverniti So Jeans LLC, the factor purchases all the trade accounts receivable assigned by us and assumes all credit risk with respect to those accounts approved by it.

The factor agreements provide that we can obtain an amount up to 90% of the value of our purchased customer invoices, less a reserve of 10% of unpaid accounts purchased and 100% of all accounts that are disputed. The factor agreements, which have all been amended to terminate on July 24, 2006, provide for the automatic renewal of the agreements after that date, subject to 120 days' termination notice from any party. We receive amounts against purchased customer invoices on a recourse basis or a non-recourse basis under these agreements. Amounts received against customer invoices purchased on a recourse basis are classified as "short-term borrowings" and amounts received against customer invoices purchased on a non-recourse basis are reflected on a net basis against such receivables purchased by the factor in "due from factor" on the balance sheets included in our financial statements.

- 20 -

In addition, the factor also makes available to Blue Holdings, Antik Denim LLC and Taverniti So Jeans LLC a combined credit line of up to the lower of \$1.5 million against inventory, and 33.3% of the value of eligible raw materials and finished goods.

As of December 31, 2005, the amount of the reserve held by the factor was approximately \$0.79 million. The factor commission was 0.8% of the customer invoice amount for terms up to 90 days, plus one quarter of one percent (.25%) for each additional thirty-day term. Effective January 1, 2006, the factor commission is 0.75% if the aggregate amount of approved invoices is below \$10 million per annum, and will be reduced by 5 basis points for each increase by \$10 million in the aggregate amount of approved invoices. The Company is contingently liable to the factor for merchandise disputes, customer claims and the like on receivables sold to the factor. To the extent that the Company draws funds prior to the deemed collection date of the accounts receivable sold to the factor, interest is charged at the rate of 1% over the factor's prime lending rate per annum. Factor advances and ledger debt are collateralized by the non-factored accounts receivable, inventories and the personal guarantees of Paul Guez, our Chairman, Chief Executive Officer, President and majority shareholder, and the living trust of Paul and Elizabeth Guez.

During the fourth quarter of 2005, we drew down the \$1.5 million credit facility against inventory. The factor also purchased customer invoices on a "with recourse" basis. These short-term borrowings amounted to \$4.6 million as of December 31, 2005 and were used to finance the acquisition of the Taverniti business and the payment of income taxes. The factor commission is 0.4% for receivables purchased subject to recourse. Receivables subject to recourse approximated \$4.3 million net of reserves as of December 31, 2005.

Edgar Filing: BLUE HOLDINGS, INC. - Form 10KSB

Our primary source of liquidity is expected to be cash flow generated from operations, cash and cash equivalents currently on hand, and working capital attainable through our factor. We may seek to finance future capital needs through various means and channels, such as issuance of long-term debt or sale of equity securities.

OFF-BALANCE SHEET ARRANGEMENTS

Financial instruments that potentially subject the Company to off-balance sheet risk consist of factored accounts receivable. The Company sells certain of its trade accounts receivable to a factor and is contingently liable to the factor for merchandise disputes and other customer claims.

As of December 31, 2005, the factor holds \$2,326,293 of accounts receivable purchased from us on a without recourse basis and has made advances to us of \$1,535,970 against those receivables, resulting in a net balance amount Due from Factor of \$790,323 as of December 31, 2005. The Company has accounted for the sale of receivables to the factor in accordance with SFAS No.140, "Accounting for the Transfers and Servicing of Financial Assets and Extinguishments of Liabilities". The amount of the reserve held by the factor against these receivables was approximately \$790,323. (See Note 3 to consolidated financial statements).

NOTE 1 - BASIS OF PRESENTATION, ORGANIZATION AND NATURE OF OPERATIONS

(a) ORGANIZATION:

Blue Holdings, Inc. (a Nevada corporation formerly known as Marine Jet Technology Corp.) was incorporated in the State of Nevada on February 9, 2000. On April 14, 2005, Blue Holdings entered into an Exchange Agreement with Antik Denim, LLC ("Antik"). At the closing of the transactions contemplated by the Exchange Agreement, which occurred on April 29, 2005, Blue Holdings acquired all of the outstanding membership interests of Antik (the "Interests") from the members of Antik, and the members contributed all of their Interests to Blue Holdings. In exchange, Blue Holdings issued to the members 843,027 shares of Series A Convertible Preferred Stock, par value \$0.001 per share, of Blue Holdings ("Preferred Shares"), which, on June 7, 2005, as a result of a change to Marine Jet Technology Corp.'s name to Blue Holdings, Inc. and a 1 for 29 reverse stock split, were converted into 24,447,783 shares of Blue Holding's

Edgar Filing: BLUE HOLDINGS, INC. - Form 10KSB

common stock on a post-reverse stock split basis.

As such, immediately following the closing and upon the conversion of the Preferred Shares, the Antik members and Elizabeth Guez, our former Chief Operating Officer and wife of Paul Guez, owned approximately 95.8% of the total issued and outstanding common stock of Blue Holdings on a fully-diluted basis. Following completion of the exchange transaction, Antik became a wholly-owned subsidiary of Blue Holdings. The acquisition is accounted for as a reverse merger (recapitalization) in the accompanying financial statements with Antik deemed to be the accounting acquirer, and Blue Holdings deemed to be the legal acquirer. As such the financial statements herein include those of Antik since September 13, 2004 (the date of its inception). All assets and liabilities of Marine Jet Technology Corp. were assumed by the major shareholder of Blue Holdings, Inc. prior to the exchange transaction and were inconsequential to the merged companies.

On June 7, 2005, Marine Jet Technology Corp. changed its name to Blue Holdings, Inc., and increased its authorized number of shares of common stock to 75,000,000. Pursuant to the provisions of the Exchange Agreement with Antik, the former members of Antik agreed that, in the event that the shareholders' equity of Blue Holdings (on a consolidated basis following the closing of the transactions contemplated by the Exchange Agreement), as reported in Blue Holdings' Quarterly Report on Form 10-Q for the quarter ended June 30, 2005 (the "Consolidated Equity"), was less than \$5,000,000, the former members would contribute, within fifteen (15) days following the filing of such periodic report, equity capital to Blue Holdings in an amount equal to the difference between \$5,000,000 and the actual Consolidated Equity reported in such periodic report ("Required Contribution"). In the case of such Required Contribution, each of the Antik members agreed that no additional shares of capital stock of Blue Holdings would be issued in consideration of such Required Contribution, and therefore, the existing shareholders of Blue Holdings, including Antik's former members, would not be further diluted. By an amendment dated June 27, 2005, the date of June 30, 2005 for calculation of the Consolidated Equity was amended to September 30, 2005. The Company's Consolidated Equity as of September 30, 2005 was \$5,570,413, and as of December 31, 2005 was \$8,036,585 and no such additional contribution by the members will be required.

On October 31, 2005, the Company entered into an exchange agreement with Taverniti So Jeans, LLC, a California limited liability company ("Taverniti"), and the members of Taverniti (the "Taverniti Members"). Under the exchange agreement, the Company acquired all of the outstanding membership interests of Taverniti (the "Taverniti Interests") from the Taverniti Members, and the Taverniti Members contributed all of their Taverniti Interests to the Company. In exchange, the Company issued to the Taverniti Members, on a pro rata basis, an aggregate of 500,000 shares of the Common Stock, par value \$0.001 per share, of the Company, and paid to the Taverniti Members, on a pro rata basis, an aggregate of Seven Hundred Fifty Thousand Dollars

- 28 -

(\$750,000). At the closing of the exchange transaction, Taverniti became a wholly-owned subsidiary of the Company. Paul Guez, the Company's Chairman, Chief Executive Officer, President and majority shareholder, was and remains the sole manager and was member of Taverniti. Elizabeth Guez, Paul Guez's spouse and the Company's former Chief Operating Officer, was a member of Taverniti. Two other members of Mr. and Mrs. Guez's family, including Gregory Abbou, the President of Taverniti, were the remaining members of Taverniti. The transaction has been accounted for as a combination of entities under common control. As such, the financial statements herein have been presented to include the operations of

Edgar Filing: BLUE HOLDINGS, INC. - Form 10KSB

Taverniti since September 13, 2004, the date of its inception, and the \$750,000 payment was considered as a deemed distribution to the members of the Taverniti upon the closing of the combination.

(b) NATURE OF OPERATIONS:

The Company operates exclusively in the wholesale apparel industry. The Company designs, develops, markets and distributes high fashion jeans and accessories under the brand names "Antik Denim," "Yanuk," "U," and as of October 31, 2005, "Taverniti So Jeans." The Company's products currently include jeans, jackets, belts, purses and T-shirts. The Company currently sells its products in the United States, Canada, Japan and the European Union directly to department stores and boutiques and through distribution arrangements in certain foreign jurisdictions. The Company is headquartered in Commerce, California and maintains showrooms in New York and Los Angeles. The Company opened a retail store in Los Angeles during August 2005, whose operations are not yet significant to the consolidated operations.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) USE OF ESTIMATES:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

(b) INVENTORY VALUATION:

Inventories are stated at the lower of cost (first-in, first-out method) or market.

(c) REVENUE RECOGNITION:

Revenue is recognized when merchandise is shipped to the customer based upon agreed terms and is recorded net of estimated returns, charge backs and markdowns based upon management's estimates and historical experience. We sometimes arrange, on behalf of manufacturers, for the purchase of fabric from a single supplier. We have the fabric shipped directly to the cutting factory and invoice the factory for the fabric. The factories then pay us for the fabric with offsets against the price of the finished goods.

(d) ADVERTISING:

Advertising costs are expensed as of the first date the advertisements take place. Advertising expenses included in selling expenses approximated \$448,203 and \$772,062 for the three and twelve months ended December 31, 2005, respectively.

(e) PROPERTY AND EQUIPMENT:

Property and equipment is stated at cost. Depreciation is provided by the straight-line method at rates calculated to amortize cost over the estimated useful lives of the respective assets.

Edgar Filing: BLUE HOLDINGS, INC. - Form 10KSB

Upon sale or retirement of such assets, the related cost and accumulated depreciation are eliminated from the accounts and gains or losses are reflected in operations. Repairs and maintenance expenditures not anticipated to extend asset lives are charged to operations as incurred.

(f) IMPAIRMENT OF LONG-LIVED ASSETS AND INTANGIBLES:

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell.

(g) CONCENTRATION OF CREDIT RISK:

Financial instruments, which potentially expose us to concentration of credit risk, consist primarily of cash, trade accounts receivable, and amounts due from our factor. Concentration of credit risk with respect to trade accounts receivable at December 31, 2005 is limited due to the number of customers comprising the Company's customer base and their dispersion throughout the United States and abroad. The Company extends unsecured credit to its customers in the normal course of business.

The Company's cash balances on deposit with banks are guaranteed by the Federal Deposit Insurance Corporation up to \$100,000. The Company may be exposed to risk for the amounts of funds held in one bank in excess of the insurance limit. In assessing the risk, the Company's policy is to maintain cash balances with high quality financial institutions.

The Company's products are primarily sold to department stores and specialty retail stores. These customers can be significantly affected by changes in economic, competitive or other factors. The Company makes substantial sales to a relatively few, large customers. In order to minimize the risk of loss, the Company assigns certain amount of domestic accounts receivable to a factor without recourse or requires letters of credit from its customers prior to the shipment of goods. For non-factored receivables, account-monitoring procedures are utilized to minimize the risk of loss. Collateral is generally not required. The top three customers accounted for 10.7%, 6.9% and 5.3% of total sales respectively in the twelve months ended December 31, 2005. As of December 31, 2005, one customer accounted for 19.5 % of total accounts receivable.

(h) MERCHANDISE RISK:

The Company's success is largely dependent upon its ability to gauge the fashion tastes of its targeted consumers and provide merchandise that satisfies consumer demand. Any inability to provide appropriate merchandise in sufficient quantities in a timely manner could have a material adverse effect on the Company's business, operating results and financial condition.

(i) ACCOUNTS RECEIVABLE - ALLOWANCE FOR RETURNS, DISCOUNTS AND BAD DEBTS:

The Company evaluates its ability to collect accounts receivable and the circumstances surrounding chargebacks (disputes from the customer) based

Edgar Filing: BLUE HOLDINGS, INC. - Form 10KSB

upon a combination of factors. In circumstances where the Company is aware of a specific customer's inability to meet its financial obligations (such as in the case of bankruptcy filings or substantial downgrading by credit sources), a specific reserve for bad debts is taken against amounts due to reduce the net recognized receivable to the amount reasonably expected to be collected. For all other customers, the Company recognizes reserves for bad debts and uncollectible chargebacks based on its historical collection experience. If collection experience deteriorates (for example, due to an unexpected material adverse change in a major customer's ability to meet its financial obligations to the Company), the estimates of the recoverability of amounts due could be reduced by a material amount.

(j) CASH AND BANK OVERDRAFT

Bank overdraft of \$616,020 as of December 31, 2005 is comprised of issued but unrepresented checks and is to be offset by cash at bank of \$228,127.

(k) INCOME TAX

The Company accounts for income taxes in accordance with SFAS No. 109, "Accounting for Income Taxes" Under SFAS No. 109, income taxes are recognized for the amount of taxes payable or refundable for the current year and deferred tax liabilities and assets are recognized for the future tax consequences of transactions that have been recognized in the Company's financial statements or tax returns. A valuation allowance is provided when it is more likely than not that some portion or all of the deferred tax asset will not be realized.

(l) STOCK-BASED COMPENSATION:

Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation" ("SFAS No. 123") established a fair value method of accounting for stock-based compensation plans and for transactions in which an entity acquires goods or services from non-employees in exchange for equity instruments. SFAS No. 123 also encouraged, but does not require companies to record Compensation cost stock-based employee compensation. SFAS No. 123 was amended by Statement of Financial Accounting Standards No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure", which requires companies to disclose in interim financial statements the pro forma effect on net income (loss) and net income (loss) per common share of the estimated fair market value of stock options or warrants issued to employees. The Company has chosen to continue to account for stock-based compensation utilizing the intrinsic value method prescribed in Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees", with pro forma disclosures of net income (loss) as if the fair value method had been applied. Accordingly, compensation cost for stock options is measured as the excess, if any, of the fair market price of the Company's stock at the date of grant over the amount an employee must pay to acquire the stock.

The exercise price of stock options and warrants issued to employees was not less than the fair market value of the Company's common stock on the date of grant, and in accordance with accounting for such options utilizing the intrinsic value method, there was no related compensation expense recorded in the Company's consolidated financial statements. Had compensation cost for stock-based compensation been determined based on the fair value at the grant dates consistent with the method prescribed by SFAS No. 123, the Company's net

income (loss) and net income (loss) per share for the year ended December 31, 2005 and the period September 13, 2004 to December 31, 2005 would have been as follows:

	PERIOD ENDED DECEMBER 31,	
	2005	2004
		(as restated)
Net Income (loss):		
As reported	\$ 5,139,611	\$ (1,375,335)

The fair value of options granted are estimated on the date of grant utilizing the Black-Scholes option-pricing model with the following weighted-average assumptions: expected life of 3 years; expected volatility of 46.01%; risk-free interest rate of 4.5% and a 0% dividend yield. There were no options issued to officers,

directors or employees in 2004. Our stock prices prior to April 29, 2005 were not reflective of the performance of our Company subsequent to the exchange transaction with Antik. Prior to June 7, 2005, when we completed our reverse stock split at the ratio of 1 to 29, we believe some of the price fluctuations of our stock were caused by confusion in the marketplace regarding the reverse stock split and the prior exchange transaction. We therefore ignore those prices in our calculation of the expected volatility and base our analysis only on our stock price in the period between June 7, 2005 and December 31, 2005.

(m) NET INCOME (LOSS) PER SHARE

Statement of Financial Accounting Standards No. 128, "Earnings per Share", requires presentation of basic earnings per share ("Basic EPS") and diluted earnings per share ("Diluted EPS"). Basic earnings (loss) per share is computed by dividing earnings (loss) available to common stockholders by the weighted average number of common shares outstanding during the period. Diluted earnings per share reflects the potential dilution, using the treasury stock method, that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the Company. In computing diluted earnings per share, the treasury stock method assumes that outstanding options and warrants are exercised and the proceeds are used to purchase common stock at the average market price during the period. Options and warrants will have a dilutive effect under the treasury stock method only when the average market price of the common stock during the period exceeds the exercise price of the options and warrants.

At December 31, 2005, potentially dilutive securities consisted of outstanding common stock options to acquire 427,000 shares (there were none at December 31, 2004). These potentially dilutive securities were not included in the calculation of income per share for the year ended December 31, 2005 as the exercise price of the options exceeded the average market price of the shares. Accordingly, basic and diluted loss per share is the same for the year ended

Edgar Filing: BLUE HOLDINGS, INC. - Form 10KSB

December 31, 2005 and the period from September 13, 2004 (Inception) to December 31, 2004. Weighted average shares outstanding gives effect to the 24,447,783 shares issued upon the reverse merger with Antik Denim LLC and 500,000 shares issued upon the combination of Taverniti So Jeans LLC as if these transactions occurred at inception.

(n) SHIPPING AND HANDLING COSTS:

Freight charges are included in selling, distribution and administrative expenses in the statement of operations and approximated \$297,956 for the year ended December 31, 2005.

(o) MAJOR SUPPLIERS:

During the year ended December 31, 2005, two suppliers comprised greater than 10% of the Company's purchases. Purchases from these suppliers were 19.9% and 12.7% respectively. One of them is Blue Concept LLC which is co-owned by Paul Guez.

(p) MAJOR CUSTOMER:

During the year ended December 31, 2005, one customer comprised of greater than 10% of the Company's sales. Sales to that customer were 10.7%.

(q) FAIR VALUE OF FINANCIAL INSTRUMENTS:

The carrying amounts of cash, due from factor, accounts receivable, accounts payable, due to (from) related parties, income-tax payable, accrued expenses and other current liabilities approximate fair value because of the short maturity of these items.

- 32 -

(r) OFF-BALANCE SHEET RISK:

Financial instruments that potentially subject the Company to off-balance sheet risk consist of factored accounts receivable. As described in Note 3, the Company sells certain of its trade accounts receivable to a factor and is contingently liable to the factor for merchandise disputes and other customer claims. The total amount of receivables purchased by the factor approximated \$2,326,293 as of December 31, 2005 before reserves.

NOTE 3 - DUE FROM FACTOR

We use a factor for working capital and credit administration purposes. Under the various factoring agreements entered into separately by Blue Holdings, Antik Denim LLC and Taverniti So Jeans LLC, the factor purchases all the trade accounts receivable assigned by the Company and its subsidiaries and assumes all credit risk with respect to those accounts approved by it.

The factor agreements provide that we can borrow an amount up to 90% of the value of our purchased customer invoices, less a reserve of 10% of unpaid accounts purchased and 100% of all such accounts which are disputed. The factor agreements, which have all been amended to terminate on July 24, 2006, provide for automatic renewal after that date subject to 120 days' termination notice from any party. The factor also makes available to all three companies a combined line of credit up to the lesser of \$1.5 million against inventory, and

Edgar Filing: BLUE HOLDINGS, INC. - Form 10KSB

33.3% of the value of eligible raw materials and finished goods.

As of December 31, 2005, the factor holds \$2,326,293 of accounts receivable purchased from us on a without recourse basis and has made advances to us of \$1,535,970 against those receivables, resulting in a net balance amount Due from Factor of \$790,323 as of December 31, 2005. The Company has accounted for the sale of receivables to the factor in accordance with SFAS No.140, "Accounting for the Transfers and Servicing of Financial Assets and Extinguishments of Liabilities". The amount of the reserve provided by the Company against these receivables was \$96,849.

As of December 31, 2005, the factor also held \$4,679,872 of accounts receivable that were subject to recourse, and as of December 31, 2005, the Company received advances totaling \$4,583,936 against such receivables and against eligible inventory. The company has included the \$4,679,872 in accounts receivable, and has reflected the \$4,583,936 as short term borrowings on the accompanying balance sheet. The factor commission against such receivables is 0.4% and interest is charged at the rate of 1% over the factor's prime lending rate per annum.

During the year, the factor commission on receivables purchased on a without recourse basis was 0.8% of the customer invoice amount for terms up to 90 days, plus one quarter of one percent (.25%) for each additional thirty-day term. Effective January 1, 2006, the factor commission is 0.75% if the aggregate amount of approved invoices is below \$10 million per annum, 0.70% if below \$20 million and 0.65% if below \$30 million. The Company is contingently liable to the factor for merchandise disputes, customer claims and the like on receivables sold to the factor. To the extent that the Company draws funds prior to the deemed collection date of the accounts receivable sold to the factor, interest is charged at the rate of 1% over the factor's prime lending rate per annum. Factor advances are collateralized by the non-factored accounts receivable, inventories and the personal guarantees of Paul Guez, our Chairman, Chief Executive Officer, President and majority shareholder, and the living trust of Paul and Elizabeth Guez.

NOTE 12 - SUBSEQUENT EVENTS

In August and September, 2005, the Company filed complaints against a number of companies that we believe encroached on our highly identifiable, stylized "Antik" pocket design. The complaints were filed in the United States District Court in Los Angeles, California. The unique design in question is copyrighted, and is the subject of pending trademark and design patent registration claims. The complaints alleged, among other matters, that the companies were violating federal and state trademark, copyright, unfair trade practices and unfair competition statutes and laws, and sought damages and injunctive relief against all parties. Prior to December 31, 2005, we received from one company \$15,000 in settlement which was used to cover legal expenses

for these litigations. Subsequent to the year end, we entered into two more settlement agreements and have received approximately \$457,000 in settlement. In addition to \$15,000 offset by the settlement money received, the Company incurred \$139,900 in legal fees on these lawsuits up to December 31, 2005.
