2 ANNUAL REPORT	AUGUST 31, 2010

#### Dear Shareholder

The global economic recovery continues, although global and US economic statistics show that the pace of economic growth has slowed. The sovereign debt crisis in Europe, slowing growth in China and concerns over the possibility that the United States and other developed markets are heading for a double-dip recession have all acted to depress investor sentiment. Despite broadening evidence of a slowdown in global economic activity, market volatility has normalized from the extreme levels seen in recent months. In the United States, economic data continues to be mixed, but it is our view that the preponderance of data suggests that the recovery is continuing. The critical issue for investors remains the question of whether the economy will experience a double-dip recession. We are on the optimistic side of this debate and would point out that while the recovery has been slow, we have made significant progress.

Global equity markets have moved unevenly higher since bottoming out in early 2009 as investors were enticed by depressed valuations, improved corporate earnings, and their desire for higher yields. Several significant downturns, however, have occurred primarily as a result of mixed economic data and concerns about the possibility of prolonged deflation (especially in Europe). As the period drew to a close, equity markets lost ground on weaker-than-expected economic data, most notably from the United States. International equities posted negative returns on both a six- and 12-month basis while US equities posted negative returns over the six months, but were still showing positive returns on a 12-month basis as the domestic economic recovery had been more pronounced and credit-related issues held European markets down. Within the United States, smaller cap stocks continue to outperform large caps year-to-date.

In fixed income markets, yields have fluctuated significantly over the past year as economic data has been mixed. Risk aversion and credit issues have kept interest rates low and US Treasury yields have fallen significantly as investors favored—safe haven—assets. As the period drew to a close, Treasuries modestly outperformed the spread sectors of the market (those driven by changes in credit risk). Corporate credit spreads benefited from the low rate environment and high yield fixed income remains attractive due to low default rates and better-than-expected results on European bank stress tests. Meanwhile, tax-exempt municipal bonds slightly outperformed US investment grade bonds on a 12-month basis, but underperformed year-to-date as investors rotated to the relative safety of Treasuries.

Regarding cash investments, yields on money market securities remain near all-time lows (producing returns only marginally above zero percent), with the Federal Open Market Committee reiterating that economic circumstances are likely to necessitate an accommodative interest rate stance for an extended period.

Against this backdrop, the major market averages posted the following returns:

Total Returns as of August 31, 2010	6-month	12-month
US large cap equities (S&P 500 Index)	(4.04)%	4.91%
US small cap equities (Russell 2000 Index)	(3.60)	6.60
International equities (MSCI Europe, Australasia, Far East Index)	(3.04)	(2.34)
3-month Treasury bill (BofA Merrill Lynch 3-Month Treasury Bill Index)	0.07	0.14
US Treasury securities (BofA Merrill Lynch 10-Year US Treasury Index)	11.49	11.58
US investment grade bonds (Barclays Capital US Aggregate Bond Index)	5.81	9.18
Tax-exempt municipal bonds (Barclays Capital Municipal Bond Index)	5.42	9.78
US high yield bonds (Barclays Capital US Corporate High Yield 2% Issuer Capped Index)	6.62	21.40

Past performance is no guarantee of future results. Index performance shown for illustrative purposes only. You cannot invest directly in an index.

Although conditions have improved over the past couple of years, investors across the globe continue to face uncertainty about the future direction of economic growth. Through periods of uncertainty, as ever, BlackRock s full resources are dedicated to the management of our clients assets. **BlackRock Core Bond Trust** 

#### **Trust Overview**

**BlackRock Core Bond Trust** s (BHK) (the Trust) investment objective is to provide current income and capital appreciation. The Trust seeks to achieve its investment objective by investing at least 75% of its assets in bonds that are investment grade quality at the time of investment. The Trust s investments will include a broad range of bonds, including corporate bonds, US government and agency securities and mortgage-related securities. The Trust may invest directly in such securities or synthetically through the use of derivatives.

No assurance can be given that the Trust s investment objective will be achieved.

#### **Performance**

For the 12 months ended August 31, 2010, the Trust returned 25.93% based on market price and 22.44% based on net asset value ( NAV ). For the same period, the closed-end Lipper Corporate Debt Funds BBB-Rated category posted an average return of 22.14% based on market price and 19.62% based on NAV. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. The following discussion relates to performance based on NAV. The Trust benefited from its allocation to securi-tized sectors including commercial mortgage-backed securities ( MBS ), agency and non-agency MBS, and asset-backed securities. The Trust s higher duration (greater sensitivity to interest rates) relative to its peers contributed to performance as interest rates declined in the latter part of the period. The Trust s underweight in high yield corporate issues detracted from performance as risk assets rebounded sharply during the period and outperformed investment-grade credit. Rising interest rates during the first half of the period were detrimental to the Trust due to its higher duration.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

<sup>&</sup>lt;sup>5</sup> Includes US Government Sponsored Agency Securities which are deemed AAA/Aaa by the investment advisor.

BlackRock Corporate High Yield Fund V, Inc.

#### **Trust Overview**

BlackRock Corporate High Yield Fund V, Inc. s (HYV) (the Trust ) investment objective is to provide shareholders with current income by investing primarily in a diversified portfolio of fixed income securities that are rated in the lower rating categories of the established rating services (BB or lower by S&P or Ba or lower by Moody s) or in unrated securities considered by the Trust s investment adviser to be of comparable quality. The Trust also seeks to provide shareholders with capital appreciation. The Trust seeks to achieve its investment objective by investing, under normal market conditions, at least 80% of its assets in domestic and foreign high yield debt instruments, including high yield bonds (commonly referred to as junk bonds) and high yield corporate loans which are below investment grade quality. The Trust may invest directly in such securities or synthetically through the use of derivatives.

No assurance can be given that the Trust s investment objective will be achieved.

#### Performance

For the 12 months ended August 31, 2010, the Trust returned 34.42% based on market price and 31.40% based on NAV. For the same period, the closed-end Lipper High Current Yield Funds (Leveraged) category posted an average return of 34.35% based on market price basis and 26.92% based on NAV. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. The following discussion relates to performance based on NAV. The high yield sector outperformed most other sectors of the fixed income market. We focused on sectors and companies with relatively stable cash flows and the ability to generate steady income. We also invested in a few special situations and recovery stories, most notably in the automotive sector, which contributed to the Trust s outperformance versus its peer group. The Trust s underweight in higher quality speculative grade names and overweight in lower quality credits benefited performance. Toward the end of the period, we moved to an underweight position in lower quality names, which have recently become expensive relative to higher quality names. During the period, the Trust maintained leverage at an average amount just below 20% of its total managed assets, which detracted from relative performance versus competitors that maintained higher leverage, as would be expected when markets are advancing. Exposure to floating rate loan interests also detracted as the bank loan sector underperformed the high yield sector during the period.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

ANNUAL REPORT AUGUST 31, 2010 5

BlackRock Corporate High Yield Fund VI, Inc.

#### **Trust Overview**

**BlackRock Corporate High Yield Fund VI, Inc.** s (HYT) (the Trust ) primary investment objective is to provide shareholders with current income. The Trust s secondary investment objective is to provide shareholders with capital appreciation. The Trust seeks to achieve its objectives by investing, under normal market conditions, at least 80% of its assets in domestic and foreign high yield securities, including high yield bonds (commonly referred to as junk bonds), corporate loans, convertible debt securities and preferred securities which are below investment grade quality. The Trust may invest directly in such securities or synthetically through the use of derivatives.

No assurance can be given that the Trust s investment objectives will be achieved.

#### **Performance**

For the 12 months ended August 31, 2010, the Trust returned 29.92% based on market price and 29.26% based on NAV. For the same period, the closed-end Lipper High Current Yield Funds (Leveraged) category posted an average return of 34.35% based on market price and 26.92% based on NAV. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. The following discussion relates to performance based on NAV. The high yield sector outperformed most other sectors of the fixed income market, as the number of defaults declined and investors became less risk-averse and gravitated to higher yielding investments in the low yield environment. Given our outlook for a continued slow economic environment, we began to focus more on sectors and companies with relatively stable cash flows and the ability to generate steady income, and less on companies which require growth before they can achieve a steady income. Outside of this focus, we invested in a few special situations and recovery stories, most notably in the automotive sector. These investments were key contributors to the Trust s outperformance versus its peer group for the period. The Trust s underweight position in higher quality speculative grade names and overweight in lower quality credits benefited performance during the period. Toward the end of the period, we moved to an underweight position in lower quality names, which we believe will benefit the Trust going forward as lower quality issues have recently become expensive relative to higher quality names. During the period, the Trust maintained leverage at an average amount between 15% to 20% of its total managed assets, which detracted from relative performance versus competitors that maintained higher leverage, as would be expected when markets are advancing. The Trust s exposure to floating rate loan interests detracted from performance (despite favorable security selection within the sector) as the bank loan sector underperformed the high yield sector during the period.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

6 ANNUAL REPORT AUGUST 31, 2010

**BlackRock High Income Shares** 

#### **Trust Overview**

BlackRock High Income Shares (HIS) (the Trust ) investment objective is to provide the highest current income attainable consistent with reasonable risk as determined by the Trust s investment adviser, through investment in a professionally managed, diversified portfolio of high yield, high risk fixed income securities (commonly referred to as junk bonds ). The Trust s secondary objective is to provide capital appreciation, but only when consistent with its primary objective. The Trust seeks to achieve its objectives by investing primarily in high yield, high risk debt instruments rated in the medium to lower categories by nationally recognized rating services (BBB or lower by S&P or Baa or lower by Moody s) or non-rated securities, which, in the investment adviser s opinion, are of comparable quality. Under normal market conditions, the average maturity of the Trust s portfolio is between eight and twelve years. The Trust may invest directly in such securities or synthetically through the use of derivatives.

No assurance can be given that the Trust s investment objectives will be achieved.

### Performance

For the 12 months ended August 31, 2010, the Trust returned 35.52% based on market price and 28.95% based on NAV. For the same period, the closed-end Lipper High Current Yield Funds (Leveraged) category posted an average return of 34.35% based on market price and 26.92% based on NAV. All returns reflect reinvestment of dividends. ANNUAL REPORT AUGUST 31, 2010 7

BlackRock High Yield Trust

#### **Trust Overview**

**BlackRock High Yield Trust** s (BHY) (the Trust) investment objective is to provide high current income. The Trust secondary investment objective is to provide capital appreciation. The Trust seeks to achieve its objectives by investing, under normal market conditions, at least 80% of its assets in high-risk, high yield bonds and other such securities, such as preferred stocks, which are rated below investment grade. The Trust may invest directly in such securities or synthetically through the use of derivatives.

No assurance can be given that the Trust s investment objectives will be achieved.

#### **Performance**

For the 12 months ended August 31, 2010, the Trust returned 19.76% based on market price and 25.70% based on NAV. For the same period, the closed-end Lipper High Current Yield Funds (Leveraged) category posted an average return of 34.35% based on market price and 26.92% based on NAV. All returns reflect reinvestment of dividends. The Trust moved from a premium to NAV to a discount by period end, which accounts for the difference between performance based on price and performance based on NAV. The following discussion relates to performance based on NAV. The high yield sector outperformed most other sectors of the fixed income market, as the number of defaults declined and investors became less risk-averse and gravitated to higher yielding investments in the low yield environment. During the period, the Trust maintained leverage at an average amount between 15% to 20% of its total managed assets, which detracted from relative performance versus competitors that maintained higher leverage, as would be expected when markets are advancing. The Trust s exposure to floating rate loan interests also detracted from performance (despite favorable security selection within the sector) as the bank loan sector underperformed the high yield sector during the period. Given our outlook for a continued slow economic environment, we began to focus more on sectors and companies with relatively stable cash flows and the ability to generate steady income, and less on companies which require growth before they can achieve a steady income. Outside of this focus, we invested in a few special situations and recovery stories, most notably in the automotive sector. These investments benefited performance relative to the Trust s peer group for the period. The Trust s underweight position in higher quality speculative grade names and overweight in lower quality credits benefited performance during the period. Toward the end of the period, we moved to an underweight position in lower quality names, which we believe will benefit the Trust going forward as lower quality issues have recently become expensive relative to higher quality names.

8 ANNUAL REPORT AUGUST 31, 2010

BlackRock Income Opportunity Trust, Inc.

#### **Trust Overview**

**BlackRock Income Opportunity Trust, Inc. s (BNA) (the Trust**) investment objective is to provide current income and capital appreciation. The Trust seeks to achieve its investment objective by investing at least 75% of its assets in bonds that are investment grade quality at the time of investment. The Trust s investments will include a broad range of bonds, including corporate bonds, US government and agency securities and mortgage-related securities. The Trust may invest directly in such securities or synthetically through the use of derivatives.

No assurance can be given that the Trust s investment objective will be achieved.

#### **Performance**

For the 12 months ended August 31, 2010, the Trust returned 18.69% based on market price and 19.83% based on NAV. For the same period, the closed-end Lipper Corporate Debt Funds BBB-Rated category posted an average return of 22.14% based on market price and 19.62% based on NAV. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which widened during the period, accounts for the difference between performance based on price and performance based on NAV. The following discussion relates to performance based on NAV. The Trust benefited from its allocation to securitized sectors, including commercial MBS, agency and non-agency MBS, and asset-backed securities. The Trust s higher duration (greater sensitivity to interest rates) relative to its peers contributed to performance as interest rates declined in the latter part of the period. The Trust s underweight in high yield corporate issues detracted from performance as risk assets rebounded sharply during the period and outperformed investment-grade credit. Rising interest rates during the first half of the period were detrimental to the Trust due to its higher duration.

ANNUAL REPORT AUGUST 31, 2010

BlackRock Income Trust, Inc.

#### **Trust Overview**

**BlackRock Income Trust, Inc.** s (BKT) (the Trust ) investment objective is to manage a portfolio of high-quality securities to achieve both preservation of capital and high monthly income. The Trust seeks to achieve its investment objective by investing at least 65% of its assets in mortgage-backed securities. The Trust invests at least 80% of its assets in securities that are (i) issued or guaranteed by the US government or one of its agencies or instrumentalities or (ii) rated at the time of investment either AAA by S&P or Aaa by Moody s. Securities issued or guaranteed by the US government or its agencies or instrumentalities are generally considered to be of the same or higher credit or quality as privately issued securities rated AAA or Aaa. The Trust may invest directly in such securities or synthetically through the use of derivatives.

No assurance can be given that the Trust s investment objective will be achieved.

#### **Performance**

For the 12 months ended August 31, 2010, the Trust returned 11.19% based on market price and 13.86% based on NAV. For the same period, the closed-end Lipper US Mortgage Funds category posted an average return of 25.95% based on market price and 18.75% based on NAV. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which widened during the period, accounts for the difference between performance based on price and performance based on NAV. The following discussion relates to performance based on NAV. The Trust s underweight in agency mortgage-backed securities (MBS), in favor of US Treasuries and agency debt, detracted from performance as spread sectors (those driven by movements in credit risk) continued to rally during the period. The Trust makes use of derivatives to hedge interest rate risks associated with mortgage-related assets. Derivative losses were concentrated among the use of interest rate futures and interest rate swaps. The losses associated with these derivative positions are largely offset by long positions in mortgage assets. Conversely, the Trust benefited from its allocations to non-agency MBS and commercial MBS. Both of these sectors outperformed agency MBS as risk assets continued to rally on the extended accommodative monetary policy and improving (albeit mixed) economic indicators. In addition, the Trust benefited from security selection with a focus on active management of mortgage exposure across the spectrum of coupon rates.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

10	ANNUAL REPORT	AUGUST 31, 2010

**BlackRock Strategic Bond Trust** 

#### **Trust Overview**

BlackRock Strategic Bond Trust s (BHD) (the Trust ) investment objective is to provide total return through high current income and capital appreciation. The Trust seeks to achieve its investment objective by investing primarily in a diversified portfolio of fixed income securities including corporate bonds, US government and agency securities, mortgage-related and asset-backed securities and other types of fixed income securities. The Trust invests, under normal market conditions, a significant portion of its assets in corporate fixed income securities that are below investment grade quality, including high-risk, high yield bonds (commonly referred to as junk bonds) and other such securities, such as preferred stocks. The Trust may invest directly in such securities or synthetically through the use of derivatives.

No assurance can be given that the Trust s investment objective will be achieved.

#### **Performance**

For the 12 months ended August 31, 2010, the Trust returned 23.88% based on market price and 20.38% based on NAV. For the same period, the closed-end Lipper High Current Yield Funds (Leveraged) posted an average return of 34.35% based on market price and 26.92% based on NAV. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. The following discussion relates to performance based on NAV. The Trust s allocation to investment-grade credit and bank loans detracted from performance relative to the Lipper category competitors that invest primarily in high yield bonds, which outperformed the broader market during the period. The Trust s relatively conservative amount of leverage (averaging below 10% of total managed assets) detracted from the Trust s performance versus its more highly levered competitors, as would be expected in an advancing market. Contributing positively to performance was the Trust s allocation to high yield bonds and our focus on sectors and companies with relatively stable cash flows and the ability to generate steady income. Investments in a few special situations and recovery stories, most notably in the automotive sector, also aided performance.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

ANNUAL REPORT AUGUST 31, 2010 11

## The Benefits and Risks of Leveraging

The Trusts may utilize leverage to seek to enhance the yield and NAV. However, these objectives cannot be achieved in all interest rate environments.

The Trusts may utilize leverage by borrowing through a credit facility, participation in the TALF, or through entering into reverse repurchase agreements and treasury roll transactions. In general, the concept of leveraging is based on the premise that the financing cost of assets to be obtained from leverage will be based on short-term interest rates, which normally will be lower than the income earned by each Trust on its longer-term portfolio investments. To the extent that the total assets of each Trust (including the assets obtained from leverage) are invested in higher-yielding portfolio investments, each Trust s shareholders will benefit from the incremental net income.

The interest earned on securities purchased with the proceeds from leverage is paid to shareholders in the form of dividends, and the value of these portfolio holdings is reflected in the per share NAV. However, in order to benefit shareholders, the yield curve must be positively sloped; that is, short-term interest rates must be lower than long-term interest rates. If the yield curve becomes negatively sloped, meaning short-term interest rates exceed long-term interest rates, income to shareholders will be lower than if the Trusts had not used leverage.

To illustrate these concepts, assume a Trust s capitalization is \$100 million and it borrows for an additional \$30 million, creating a total value of \$130 million available for investment in long-term securities. If prevailing short-term interest rates are 3% and long-term interest rates are 6%, the yield curve has a strongly positive slope. In this case, the Trust pays borrowing costs and interest expense on the \$30 million of borrowings based on the lower short-term interest rates. At the same time, the securities purchased by the Trust with assets received from the borrowings earn income based on long-term interest rates. In this case, the borrowing costs and interest expense of the borrowings is significantly lower than the income earned on the Trust s long-term investments, and therefore the shareholders are the beneficiaries of the incremental net income.

If short-term interest rates rise, narrowing the differential between short-term and long-term interest rates, the incremental net income pickup will be reduced or eliminated completely. Furthermore, if prevailing short-term interest rates rise above long-term interest rates of 6%, the yield curve has a negative slope. In this case, the Trust pays interest expense on the higher short-term interest rates whereas the Trust stotal portfolio earns income based on lower long-term interest rates.

Furthermore, the value of the Trust s portfolio investments generally varies inversely with the direction of long-term interest rates, although other factors can influence the value of portfolio investments. In contrast, the redemption value of the Trust s borrowings do not fluctuate in relation to interest rates. As a result, changes in interest rates can influence the Trust s NAV positively or negatively in addition to the impact on Trust performance from leverage from borrowings discussed above.

The use of leverage may enhance opportunities for increased income to the Trusts and shareholders, but as described above, it also creates risks as short- or long-term interest rates fluctuate. Leverage also will generally cause greater changes in each Trust s NAV, market price and dividend rate than a comparable portfolio without leverage. If the income derived from securities purchased with assets received from leverage exceeds the cost of leverage, each Trust s net income will be greater than if leverage had not been used. Conversely, if the income from the securities purchased is not sufficient to cover the cost of leverage, each Trust s net income will be less than if leverage had not been used, and therefore the amount available for distribution to shareholders will be reduced. Each Trust may be required to sell portfolio securities at inopportune times or at distressed values in order to comply with regulatory requirements applicable to the use of leverage or as required by the terms of leverage instruments, which may cause a Trust to incur losses. The use of leverage may limit each Trust s ability to invest in certain types of securities or use certain types of hedging strategies. Each Trust will incur expenses in connection with the use of leverage, all of which are borne by shareholders and may reduce income.

Under the Investment Company Act of 1940, the Trusts are permitted to borrow through their credit facility, through participation in the TALF or entering into reverse repurchase agreements up to  $33^{1}/_{3}\%$  of their total managed assets. As of August 31, 2010, the Trusts had outstanding leverage from borrowings as a percentage of their total managed assets as follows:

Percent of Leverage

ВНК	31%
HYV	19%
HYT	18%
HIS	17%
ВНҮ	16%
BNA BKT	29%
	18%
BHD	11%

### **Derivative Financial Instruments**

The Trusts may invest in various derivative instruments, including financial futures contracts, swaps, options and foreign currency exchange contracts, as specified in Note 2 of the Notes to Financial Statements, which may constitute forms of economic leverage. Such instruments are used to obtain exposure to a market without owning or taking physical custody of securities or to hedge market, equity, credit, foreign currency exchange rate, interest rate and/or other risks. Such derivative instruments involve risks, including the imperfect correlation between the value of a derivative instrument and the underlying asset, possible default of the counterparty to the transaction or illiquidity of the derivative instrument. The Trusts—ability to successfully use a derivative instrument depends on the investment advisor—sability to accurately predict pertinent market movements, which cannot be assured. The use of derivative instruments may result in losses greater than if they had not been used, may require a Trust to sell or purchase portfolio securities at inopportune times or for distressed values, may limit the amount of appreciation a Trust can realize on an investment, may result in lower dividends paid to shareholders or may cause a Trust to hold a security that it might otherwise sell. The Trusts—investments in these instruments are discussed in detail in the Notes to Financial Statements.

Dow Jones CDX North America High Yield Index Series 14	5.00%	Credit Suisse International	June 2015	В	\$	4,100	\$ 27,442

Using S&P s rating.

For Trust compliance purposes, the Trust s industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or rating group indexes, and/or as defined by Trust management. This definition may not apply for purposes of this report, which may combine such industry sub-classifications for reporting ease.

Fair Value Measurements Various inputs are used in determining the fair value of investments and derivatives, which are as follows:

Level 1 price quotations in active markets/exchanges for identical assets and liabilities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Trust s own assumptions used in determining the fair value of investments and derivatives)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust spolicy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following tables summarize the inputs used as of August 31, 2010 in determining the fair valuation of the Trust s investments and derivatives:

Valuation Inputs	Level 1	Level 2	Level 3	Total
Assets:				
Investments in				
Securities:				
Long-Term Investments:				
Asset-Backed				
Securities		\$ 21,536,268	\$ 5,104,409	\$ 26,640,677
Common Stocks		47,836	11,492	59,328
Corporate Bonds		223,939,669	3,029,472	226,969,141
Foreign Agency				
Obligations		11,293,195		11,293,195
		59,125,607	2,310,902	61,436,509

The maximum potential amount the Trust may pay should a negative event take place as defined under the terms of agreement.

<sup>\*</sup> The cost and unrealized appreciation (depreciation) of investments as of August 31, 2010, as computed for federal income tax purposes, were as follows:

Aggregate cost \$ 4	474,121,453
Gross unrealized appreciation \$	22,278,093
Gross unrealized depreciation	(28,970,313)
<del></del>	
Net unrealized depreciation \$	(6,692,220)

- (a) Non-income producing security.
- (b) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration to qualified institutional investors.
- (c) Represents a payment-in-kind security which may pay interest/dividends in additional face/shares.
- (d) Convertible security.
- (e) Represents a zero-coupon bond. Rate shown reflects the current yield as of report date.
- (f) Issuer filed for bankruptcy and/or is in default of interest payments.
- (g) Variable rate security. Rate shown is as of report date.

- (h) Represents a step-down bond that pays an initial coupon rate for the first period and then a lower coupon rate for the following periods. Rate shown is as of report date.
- (i) Other interests represent beneficial interest in liquidation trusts and other reorganization entities and are non-income producing.
- (j) Warrants entitle the Trust to purchase a predetermined number of shares of common stock and are non-income producing. The purchase price and number of shares are subject to adjustment under certain conditions until the expiration date, if any.
- (k) Investments in companies considered to be an affiliate of the Trust during the year, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, as amended, were as follows:

Affiliate	Shares Held at August 31, 2009	Net Activity	Shares Held at August 31, 2010	Income	
BlackRock Liquidity Funds, TempFund, Institutional Class	2,197,091	528,833	2,725,924	\$	2,564

(l) Represents the current yield as of report date.

Financial futures contracts sold as of August 31,2010 were as follows:

Total						\$	(42,193)			

For Trust compliance purposes, the Trust s industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or rating group indexes, and/or as defined by Trust management. This definition may not apply for purposes of this report, which may combine such industry sub-classifications for reporting ease.

Fair Value Measurements Various inputs are used in determining the fair value of investments and derivatives, which are as follows:

Level 1 price quotations in active markets/exchanges for identical assets and liabilities

Level 2 other observable inputs (including,but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Trust s own assumptions used in determining the fair value of investments and derivatives)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following tables summarize the inputs used as of August 31, 2010 in determining the fair valuation of the Trust s investments and derivatives:

Valuation Inputs Level 1 Level 2 Level 3 Total

Assets:				
Investments in Securities:				
Long-Term Investments:				
Common Stocks	\$ 8,038,488	\$ 637,200	\$ 1,056,339	\$ 9,732,027
Corporate Bonds		364,974,062	7,015,576	371,989,638
Floating Rate Loan Interest		45,951,371	21,875,386	67,826,757
Other Interest		7,840,033	16,367	7,856,400
Preferred Securities	6,253,921	315,150	679,708	7,248,779
Warrants			49,708	49,708
Short-Term Securities	2,725,924			2,725,924
Liabilities:				
Unfunded Loan Commitments			(70,023)	(70,023)
Total	\$ 17,018,333	\$ 419,717,816	\$ 30,623,061	\$ 467,359,210

#### Derivative Financial Instruments<sup>1</sup>

Valuation Inputs	Level 1	Level 2	Level 3	Total
Assets:				
Credit contracts		\$ 296,315	\$	296,315
Foreign currency exchange contracts		15,140		15,140
Equity contracts	\$ 175,503			175,503
Liabilities:				
Credit contracts		(398,476)		(398,476)
Foreign currency exchange contracts		(57,333)		(57,333)
Total	\$ 175,503	\$ (144,354)	\$	31,149

Derivative financial instruments are swaps, financial futures contracts, foreign currency exchange contracts and options. Swaps, financial futures contracts and foreign currency exchange contracts are valued at the unrealized appreciation/depreciation on the instrument and options are shown at value.

The following table is a reconciliation of Level 3 investments for which significant unobservable inputs were used to determine fair value:

	 ommon tocks	Corporate Bonds	Floating Rate Loan Interests	Other terests	 ferred urities	w	arrants	Unfunded Loan ommitments	Total
Assets/Liabilities:									
Balance, as of August 31, 2009	\$ 645	\$ 2,089,671	\$ 34,290,990	\$ 6,493	\$ 1	\$	10		\$ 36,387,810
Accrued discounts/premiums		31,439	391,386						422,825
Net realized gain (loss)		345,244	(5,841,748)						(5,496,504)
Net change in unrealized appreciation/depreciation <sup>2</sup>	7,267	(349,248)	16,647,031				(9)	\$ (70,023)	16,235,018
Purchases Sales		(730,239)	(23,216,310) (1,907,650)						(23,946,549) (1,907,650)

Transfers in <sup>3</sup> Transfers out <sup>3</sup>	1,056,214 (7,787)	5,628,709	14,216,481 (12,704,794)	9,874	679,707	49,707	21,640,692 (12,712,581)
Balance, as of August 31,							
2010	\$ 1,056,339	\$ 7,015,576	\$ 21,875,386	\$ 16,367	\$ 679,708	\$ 49,708	\$ (70,023) \$ 30,623,061

Included in the related net change in unrealized appreciation/depreciation in the Statements of Operations. The net change in the unrealized appreciation/depreciation on the securities still held on August 31, 2010 was \$5,004,674.

See Notes to Financial Statements.

32 ANNUAL REPORT AUGUST 31, 2010

The Trust s policy is to recognize transfers in and transfers out as of the end of the period of the event or the change in circumstances that caused the transfer.

Using S&P s rating of the issuer.

The maximum potential amount the Trust may be required to pay should a negative credit event take place as defined under the terms of agreement.

For Trust compliance purposes, the Trust s industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or rating group indexes, and/or as defined by Trust management. This definition may not apply for purposes of this report, which may combine such industry sub-classifications for reporting ease.

Fair Value Measurements Various inputs are used in determining the fair value of investments and derivatives, which are as follows:

Level 1 price quotations in active markets/exchanges for identical assets and liabilities

See Notes to Financial Statements

- Level 2 other observable inputs (including,but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)
- Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Trust s own assumptions used in determining the fair value of investments and derivatives)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust spolicy regarding valuation of investments and derivatives and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

See Proces to Pintanella Statements.		
ANNUAL REPORT	AUGUST 31, 2010	39

#### BlackRock Corporate High Yield Fund VI, Inc. (HYT)

The following tables summarize the inputs used as of August 31, 2010 in determining the fair valuation of the Trust s investments and derivatives:

Valuation Inputs	Level 1 Level 2 Level 3				Total		
Assets:							
Investments in Securities:							
Long-Term Investments:

Net Assets 100.0%		\$ 119,641,691

\* The cost and unrealized appreciation (depreciation) of investments as of August 31, 2010, as computed for federal income tax purposes, were as follows:

Aggregate cost	\$ 143,737,652
Gross unrealized appreciation	\$ 6,221,884
Gross unrealized depreciation	(7,315,107)
Net unrealized depreciation	\$ (1,093,223)

- (a) Non-income producing security.
- (b) Security exempt from registration under Rule 144A of the Securities Act of 1933.

These securities may be resold in transactions exempt from registration to qualified institutional investors.

- (c) Represents a payment-in-kind security which may pay interest/dividends in additional face/shares.
- (d) Convertible security.
- (e) Represents a zero-coupon bond. Rate shown reflects the current yield as of report date.
- (f) Variable rate security. Rate shown is as of report date.
- (g) Represents a step-down bond that pays an initial coupon rate for the first period and then a lower coupon rate for the following periods. Rate shown is as of report date.
- (h) Issuer filed for bankruptcy and/or is in default of interest payments.
- (i) Other interests represent beneficial interest in liquidation trusts and other reorganization entities and are non-income producing.

- (j) Amount is less than \$1,000.
- (k) Warrants entitle the Trust to purchase a predetermined number of shares of common stock and are non-income producing. The purchase price and number of shares are subject to adjustment under certain conditions until the expiration date, if any.
- (l) Investments in companies considered to be an affiliate of the Trust during the year, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, as amended, were as follows:

Affiliate	Shares Held at August 31, 2009	Net Activity	Shares Held at August 31, 2010	Income
BlackRock Liquidity Funds, TempFund, Institutional Class	1,250,194	782,624	2,032,818	\$ 2,933

(m) Represents the current yield as of report date.

Foreign currency exchange contracts as of August 31, 2010 were as follows:

Currency Purchased		Currency Sold	Settlement Counterparty Date		App	realized reciation reciation)
EUR	42,000	USD 53,174	Citibank NA	9/15/10	\$	49
USD	4,420,402	EUR 3,490,500	Citibank NA	9/15/10		(2,840)
			Deutsche			
USD	148,180	EUR 115,000	Bank AG	9/15/10		2,449
Total					\$	(342)

Financial futures contracts sold as of August 31,2010 were as follows:

Contracts	Issue	Exchange	Expiration Date	Notional Value	Unrealized Appreciation
9	S&P 500 Index	Chicago Mercantile	September 2010	\$ 2,404,153	\$ 45,478

For Trust compliance purposes, the Trust sindustry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or rating group indexes, and/or as defined by Trust management. This definition may not apply for purposes of this report, which may combine such industry sub-classifications for reporting ease.

Fair Value Measurements Various inputs are used in determining the fair value of investments and derivatives, which are as follows:

Level 1 price quotations in active markets/exchanges for identical assets and liabilities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that

are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Trust s own assumptions used in determining the fair value of investments and derivatives)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust spolicy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following tables summarize the inputs used as of August 31, 2010 in determining the fair valuation of the Trust s investments and derivatives:

Valuation Inputs	Level 1	Level 2	Level 3	Total
Assets:				
Investments in Securities:				
Long-Term Investments:				
Common Stocks	\$ 1,114,736	\$ 61,362	\$ 283,463	\$ 1,459,561
Corporate Bonds		114,986,268	3,070,692	118,056,960
Floating Rate Loan Interests		13,615,526	5,191,058	18,806,584
Other interests		374,153	953	375,106
Preferred Securities	1,496,286		417,114	1,913,400
Short-Term Securities	2,032,818			2,032,818
Liabilities:				
Unfunded Loan Commitments			(2,026)	(2,026)
Total	\$ 4,643,840	\$ 129,037,309	\$ 8,961,254	\$ 142,642,403

See Notes to Financial Statements.

46 ANNUAL REPORT AUGUST 31, 2010

BlackRock High Income Shares (HIS)

		D	erivative Financia	l Instruments <sup>1</sup>	
Valuation Inputs	Level 1		Level 2	Level 3	Total
Assets:					
Foreign currency exchange contracts		\$	2,498		\$ 2,498
Equity contracts	\$ 45,478				45,478
Liabilities:					
Foreign currency exchange contracts			(2,840)		(2,840)
Total	\$ 45,478	\$	(342)		\$ 45,136

Derivative financial instruments are financial futures contracts and foreign currency exchange contracts. Financial futures contracts and foreign currency exchange contracts are valued at the unrealized appreciation/depreciation on the instrument. The following table is a reconciliation of Level 3 investments for which significant unobservable inputs were used in determining fair value:

	Common Stocks	Corporate Bonds	Floating Rate Loan Interests	 ther erests	Preferred Stocks	nfunded Loan mitments	Total
Assets/Liabilities:							
Balance, as of August 31, 2009		\$ 2,463,780	\$ 8,875,772	\$ 953			\$ 11,340,505
Accrued discounts/premiums		2,965	41,176				44,141
Net realized gain (loss)		(422,836)	(1,747,316)				(2,170,152)
Net change in unrealized							
appreciation/depreciation <sup>2</sup>		4,929,227	4,543,962			\$ (2,026)	9,471,163
Purchases		223,025	2,535,753				2,758,778
Sales		(5,603,699)	(7,633,681)				(13,237,380)
Transfers in <sup>3</sup>	\$ 283,463	1,713,276	2,973,020		\$ 417,114		5,386,873
Transfers out <sup>3</sup>		(235,046)	(4,397,628)				(4,632,674)
Balance, as of August 31, 2010	\$ 283,463	\$ 3,070,692	\$ 5,191,058	\$ 953	\$ 417,114	\$ (2,026)	\$ 8,961,254

Included in the related net change in unrealized appreciation/depreciation in the Statements of Operations. The net change in unrealized appreciation/depreciation on securities still held at August 31, 2010 was \$2,064,289.

See Notes to Financial Statements.

The Trust s policy is to recognize transfers in and transfers out as of the end of the period of the event or the change in circumstances that caused the transfer.
