Edgar Filing: SKYEPHARMA PLC - Form 6-K

London, England, 9 January, 2007 - SkyePharma PLC (LSE: SKP; NASDAQ: SKYE) today announces the following:

- The proposed sale of its Injectable Business* to Blue Acquisition Corp ("Purchaser") for a total consideration which could exceed US\$82 million, much of which depends on the completion of the development and substantial future sales of DepoBupivacaine . The consideration includes an initial payment of US\$20 million (£10.2 million) (less costs, US\$2 million (£1.0 million) paid into escrow, a working capital adjustment and certain liabilities), up to US\$62 million (£31.7 million) of contingent milestone payments, plus a percentage of sales of certain future products for a defined period of time. In addition, the Injectable Business is retaining responsibility for certain royalty-related payments which, when made, will reduce the Continuing Group's debt to Paul Capital.
- Placing of ordinary shares, subject to disapplication of pre-emption rights, to certain institutional shareholders, raising £14.8 million (net of expenses) (the "Placing").
- Both the Disposal and Placing are subject to shareholder approvals which are inter-conditional. An EGM to approve the Disposal and Placing will be held around the beginning of February 2007.
- The proposed restructuring of the existing secured financing facility with Paul Capital to a fixed amortisable note ("Note") of US\$92.5 million (£47.3 million) with up to an additional US\$12.5 million (£6.4 million) payable if worldwide sales of DepoDur (a product of the Injectable Business) reach certain thresholds. The amounts payable by the Continuing Group under the Note will be reduced to the extent of payments made to Paul Capital by the Injectable Business after the Disposal. The total net present value of the maximum Note (without allowing for the benefit of any future royalty-related payments by the Injectable Business) is approximately £33 million. The value of the Paul Capital obligations in the Group's balance sheet as at 30 June 2006 was £42.0 million.
- Taking account of the new committed financing of approximately £35 million announced on 27 December 2006 the total additional funds available to the Group in the short term would amount to approximately £53 million (net of costs).
- The Disposal will eliminate the significant cash costs of operating and developing the Injectable Business. The Directors believe that, once these transactions are concluded, the Continuing Group will have a sound financial foundation on which to build its future and continue to execute its strategy of focussing on growing its pipeline of oral and inhalation products.

A circular to shareholders setting out the reasons for and background to the Disposal and the Placing will be sent to shareholders shortly.

Further details of this announcement are set out below.

*For the six months ended 30 June 2006, the Injectable Division, which comprises the Injectable Business together with an allocation of corporate and other Group costs, assets and liabilities, generated revenues of £3.9 million and an operating loss of £11.7 million. Its products include DepoCyt®, a treatment for a lymphomatous meningitis, and DepoDur for post operative pain.

The ordinary shares in the Placing have not been and will not be registered under the US Securities Act of 1933 and may not be offered or sold in the United

Edgar Filing: SKYEPHARMA PLC - Form 6-K

States absent registration or an applicable exemption from registration requirements.

Frank Condella, SkyePharma's Chief Executive, said:

"At the beginning of 2006, we set out several objectives including: the licensing of Flutiform , our key inhalation product, and the disposal of our Injectable Business.

"In May and September we outlicensed Flutiform in the US and Europe, respectively. Today we are announcing the planned sale of the Injectable Business for an initial consideration of US\$20 million together with contingency milestone and sales-related payments which could be substantial if DepoBupivacaine fulfils its potential under the new ownership.

"The proposed Disposal will relieve the Company of a significant cash burn due to operating losses and the potential costs of future development and capital expenditure of the Injectable Business.

"The Disposal, Placing and Paul Capital Refinancing, along with the £35 million CRC Financing announced on 27 December 2006, will put SkyePharma in a good position to build future value by further developing our strategic oral and inhalation products."

Certain statements in this news release are forward-looking statements and are made in reliance on the safe harbour provisions of the US Private Securities Litigation Act of 1995. Although SkyePharma believes that the expectations reflected in these forward-looking statements are reasonable, it can give no assurance that these expectations will materialize. Because the expectations are subject to risks and uncertainties, actual results may vary significantly from those expressed or implied by the forward-looking statements based upon a number of factors, which are described in SkyePharma's 20-F and other documents on file with the US Securities and Exchange Commission. Factors that could cause differences between actual results and those implied by the forward-looking statements contained in this news release include, without limitation, risks related to the development of new products, risks related to obtaining and maintaining regulatory approval for existing, new or expanded indications of existing and new products, risks related to SkyePharma's ability to manufacture products on a large scale or at all, risks related to SkyePharma's and its marketing partners' ability to market products on a large scale to maintain or expand market share in the face of changes in customer requirements, competition and technological change, risks related to regulatory compliance, the risk of product liability claims, risks related to the ownership and use of intellectual property, and risks related to SkyePharma's ability to manage growth. SkyePharma undertakes no obligation to revise or update any such forward-looking statement to reflect events or circumstances after the date of this release.

The information contained herein does not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of the securities referred to herein in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration, exemption from registration or qualification under the securities laws of any jurisdiction.

These materials are not an offer for sale of securities in the United States. Securities may not be sold in the United States absent registration or an exemption from registration under the US Securities Act of 1933. The Company does not intend to register any portion of such offering in the United States or to conduct a public offering of the ordinary shares in the United States.
