BWAY CORPORATION

REPORTS SALES AND EARNINGS FOR THE FOURTH QUARTER AND FISCAL YEAR ENDED SEPTEMBER 28, 2003

Atlanta, GA, November 26, 2003 BWAY Corporation issued its sales and earnings report today for the Company's fourth fiscal quarter and year ended September 28, 2003.

Net sales for the fourth quarter of fiscal 2003 were \$139.6 million compared to \$139.5 million for the fourth quarter of fiscal 2002. Sales were down slightly for several of the Company's products compared to the exceptionally strong fourth quarter of fiscal 2002, offset by sales of the Company's newly acquired plastics business (the SST Acquisition) announced on August 25, 2003. Net sales for full year fiscal 2003 were \$551.1 million compared to \$527.6 million for full year fiscal 2002. The increase in net sales for the full fiscal year results primarily from new business and higher market shares gained by the Company during the past year, particularly in paint and aerosol cans, and to a lesser extent from the SST Acquisition.

On February 7, 2003, the Company announced that the acquisition of BWAY Corporation by an affiliate of Kelso & Company, L.P. (Kelso) and management was completed (the Transaction). The Transaction was accounted for under the purchase and leveraged buyout methods of accounting. The Company's financial statements reflect the initial recording of the Transaction and include certain costs and adjustments to the values of certain assets and liabilities in accordance with these accounting methods.

Edgar Filing: BWAY CORP - Form 424B3

Gross margin (excluding depreciation and amortization) as a percent of net sales was 13.4% for the fourth quarter of fiscal 2003 compared to 14.8% for the fourth quarter of fiscal 2002. The reduction is attributable to lower overhead absorption resulting from inventory reductions, higher freight cost, and higher indirect labor. Gross margin (excluding depreciation and amortization) as a percent of net sales was 13.3% for full year fiscal 2003 compared to 13.4% for full year fiscal 2002. Gross margin (excluding depreciation and amortization) was negatively affected for full year fiscal 2003 by \$5.6 million of Transaction related costs recorded to cost of products sold during the second fiscal quarter, consisting of stock option payout expenses (\$2.9 million), inventory revaluation (\$2.2 million), and other expenses (\$0.5 million). These Transaction related costs served to reduce gross margin by 1.0% for full year fiscal 2003. The increase in gross margin percent for full year fiscal 2003, excluding Transaction related costs, results from higher sales and from continued improvements in overall productivity and cost.

Depreciation and amortization expense for the fourth quarter of fiscal 2003 was \$6.8 million compared to \$4.6 million for the fourth quarter of fiscal 2002. The fourth quarter of fiscal 2002 included \$0.6 million of goodwill amortization that was not recorded in the fourth quarter of fiscal 2003 due to the Company's adoption of Statement of Financial Accounting Standards (SFAS) 142 Goodwill and Other Intangible Assets on September 30, 2002. During the fourth quarter of fiscal 2003 depreciation and amortization expense increased by \$1.4 million due to increased asset values as a result of the Transaction. The fourth quarter of fiscal 2003 also included \$1.8 million of additional depreciation for shortened useful lives on assets to be disposed of in connection with the planned fiscal 2004 closure of the Company's Picayune, Mississippi can manufacturing

facility. The planned closure of the facility follows the decision by a major coffee can customer to switch to an alternative package not manufactured by the Company. Depreciation and amortization expense for full year fiscal 2003 was \$22.9 million including \$4.7 million of expense related to increased asset values as a result of the Transaction accounting, and \$1.8 million of additional depreciation associated with the planned plant closing. Depreciation and amortization expense for full year fiscal 2002 was \$19.6 million including \$2.3 million of goodwill amortization that was not recorded in fiscal 2003 due to the Company's adoption of SFAS No. 142.

Selling, general and administrative (SG&A) expenses for the fourth quarter of fiscal 2003 were \$4.3 million compared to \$3.8 million for the fourth quarter of fiscal 2002. Included in the fourth quarter of fiscal 2003 was \$0.9 million of compensation expense (non-cash) related to stock options issued during fiscal 2003. SG&A expenses were \$23.6 million for full year fiscal 2003 compared to \$14.2 million for full year fiscal 2002. Included in full year fiscal 2003 SG&A expense was \$9.7 million of stock option payout expense related directly to the Transaction. Excluding the effect of the stock option related expenses, the reductions realized in SG&A expenses for the fourth quarter and full year fiscal 2003 of \$0.4 million and \$1.2 million, respectively, generally result from ongoing cost reduction initiatives.

During fiscal 2003, the Company incurred \$2.5 million of merger-related Transaction costs, all of which were incurred prior to the February 7th close of the Transaction. The Company recorded \$1.5 million of merger-related Transaction costs during the fourth quarter of fiscal 2002.

During fiscal 2002, the Company recorded a \$1.2 million restructuring charge. The charge related to ongoing lease payments for a plant in Elizabeth, New Jersey. Included in fiscal 2003 was a \$(0.5) million restructuring adjustment representing a change in estimated future lease payments on this facility. During the fourth quarter of fiscal 2003, the Company recorded a \$0.3 million restructuring charge in association with the planned closure of the Company's Picayune, Mississippi manufacturing facility.

Interest expense for the fourth quarter of fiscal 2003 was \$5.8 million compared to \$3.4 million for the fourth quarter of fiscal 2002. The increased interest expense results primarily from higher debt associated with financing of the Transaction. Interest expense was \$28.1 million for full year fiscal 2003 compared to \$13.1 million for full year fiscal 2002. Interest expense for full year fiscal 2003 included Transaction related expenses (recorded during the second quarter of fiscal 2003) of \$8.7 million. Included in Transaction related expenses were tender premiums on the Company's \$100 million senior subordinated notes due 2007 (\$5.1 million), write-off of deferred financing costs (\$1.7 million), and a bridge loan commitment fee (\$1.9 million).

The Company recorded fees payable to Kelso of \$0.2 million during the fourth quarter of fiscal 2003 and \$0.3 million during full year fiscal 2003. As part of the Company's agreement with Kelso, the Company will pay \$0.5 million per year in fees to Kelso.

During the fourth quarter of fiscal 2003 the Company recorded \$0.6 million of other expense related primarily to loss on disposal of fixed assets.

Income before income taxes for the fourth quarter of fiscal 2003 was \$0.9 million compared to \$7.3 million for the fourth quarter of fiscal 2002. Income (loss) before income taxes for full year fiscal 2003 was \$(4.5) million compared to \$21.8 million full year fiscal 2002. The decreases in income (loss) before income taxes for the fourth quarter and full year fiscal 2003 results from Transaction related costs and other items discussed above.

On October 31, 2003 the Company filed Amendment No. 4 to its Form S-4 Registration Statement related to the Company's \$200 million 10% senior subordinated notes due 2010 (the Senior Subordinated Notes). The registration statement was declared effective by the Securities and Exchange Commission on November 4, 2003. Subsequently, as part of finalizing the fiscal 2003 financial statements the Company recorded a deferred tax liability that was not recorded in connection with the Transaction. The effects of the restatement, all of which are

non-cash, are (i) an increase of deferred taxes and goodwill on the balance sheet; and (ii) a decrease of income tax expense and an increase of net income on the income statement. The effect of this non-cash restatement is detailed below. This restatement does not affect the Company's compliance with the covenants of either the indenture governing its Senior Subordinated Notes, or its \$90 million credit agreement.

We present EBITDA because it is one of the measures upon which management assesses our financial performance. Management also believes that EBITDA, which is commonly used as a measure of performance of companies in our industry, is frequently used by securities analysts, investors, and other interested parties to measure our ability to service our debt and to determine our financial performance. While providing useful information, EBITDA should not be considered in isolation or as a substitute for consolidated statement of operations and cash flows data prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) and should not be construed as an indication of a company's operating performance or as a measure of liquidity. Our definition of EBITDA is not calculated in the same way EBITDA will be calculated under either the indenture governing the Senior Subordinated Notes or the Company's credit facility. Also, non-GAAP information presented by other companies may not be comparable to that presented herein, since each company may define non-GAAP measures differently.

Edgar Filing: BWAY CORP - Form 424B3

Increased capital spending relates primarily to investment in capacity to support new business.

The Company's total assets were \$443.3 million at September 28, 2003 compared to \$306.7 million at the end of fiscal 2002. The increase is primarily due to increases in goodwill and intangible assets associated with accounting for the Transaction and the SST Acquisition.

Total debt increased from \$100.0 million at the end of fiscal 2002 to \$217.2 million at the end of fiscal 2003 primarily as a result of the Transaction and the SST Acquisition.
