**Item 2.02. Results of Operation and Financial Condition.**

On October 14, 2004, Multimedia Games, Inc. (the Registrant) issued a press release pre-announcing its fiscal year 2004 results, and on the same date held a related conference call to discuss these results. The full text of the press release issued in connection with the announcement, and the related conference call transcript are attached to this Current Report on Form 8-K as Exhibit Nos. 99.1 and 99.2, respectively. The October 14, 2004 press release and the conference call transcript contain forward-looking statements regarding the Registrant, and include cautionary statements identifying important factors that could cause actual results to differ materially from those anticipated.

**Use of Non-GAAP Financial Information**

The Registrant uses the non-GAAP measure of EBITDA in its earnings releases. EBITDA is defined as earnings before interest, taxes, depreciation and amortization. Although EBITDA is not a measure of performance or liquidity calculated in accordance with generally accepted accounting principles (GAAP), the Registrant believes the use of the non-GAAP financial measure EBITDA enhances an overall understanding of the Registrant's past financial performance and provides useful information to the investor, because of its historical use by the Registrant as both a performance measure and measure of liquidity, and the use of EBITDA by virtually all companies in the gaming equipment sector as a measure of both performance and liquidity. However, investors should not consider this measure in isolation or as a substitute for net income, operating income, cash flows from operating activities or any other measure for determining the Registrant's operating performance or liquidity that is calculated in accordance with GAAP. In addition, because EBITDA is not calculated in accordance with GAAP, it may not necessarily be comparable to similarly titled measures employed by other companies. The Registrant has included a reconciliation of EBITDA to the most comparable GAAP financial measure, net income, in the attached press release.
