ACCOUNTING POLICIES SUBJECT TO ESTIMATION AND JUDGMENT

Management's Discussion and Analysis of Financial Condition and Results of Operations are based upon our consolidated financial statements, which have been prepared in accordance with generally accepted accounting principles in the United States. When preparing our financial statements, we make estimates and judgments that affect the reported amounts on our balance sheets and income statements, and our related disclosure about contingent assets and liabilities. We base our estimates on historical experience and on various other assumptions, which we believe to be reasonable in order to form the basis for making judgments about the carrying values of assets and liabilities that are not readily ascertained from other sources. Actual results may deviate from these estimates if alternative assumptions or condition are used.
