Item 8.01. Other Events.

Following a meeting among representatives of the Food and Drug Administration, Orphan Therapeutics, LLC (Orphan) and PDL BioPharma, Inc. (we) regarding the outcome of the Phase 3 trial of terlipressin for the treatment of type 1 hepatorenal syndrome, we and Orphan mutually agreed that it would be in the best interests of both parties to terminate the agreement under which we held exclusive marketing, sales and distribution rights to terlipressin (the Collaboration Agreement). The termination of the Collaboration Agreement was effective December 16, 2006. The rights we previously held under the Collaboration Agreement reverted back to Orphan upon termination of the Collaboration Agreement. In connection with the termination of the Collaboration Agreement, we and Orphan each released the other from all claims as of December 16, 2006, arising out of or related to the Collaboration Agreement. Neither we nor Orphan paid any monetary consideration to the other in connection with the termination of the Collaboration Agreement.
