EXPONENT, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the Fiscal Quarters and Six Months Ended June 29, 2007 and June 30, 2006

Note 1: Basis of Presentation

Exponent, Inc. (referred to as the Company or Exponent) is an engineering and scientific consulting firm that provides solutions to complex problems. The Company operates on a 52-53 week fiscal year ending on the Friday closest to the last day of December.

The accompanying unaudited condensed consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information, the instructions to Form 10-Q and Article 10 of Regulation S-X of the Securities and Exchange Commission. Accordingly, they do not contain all the information and notes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments which are necessary for the fair presentation of the condensed consolidated financial statements have been included and all such adjustments are of a normal and recurring nature. The operating results for the quarter and six months ended June 29, 2007 are not necessarily representative of the results of future quarterly or annual periods. The following information should be read in conjunction with the audited consolidated financial statements and accompanying notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended December 29, 2006.

Stock Split. On May 24, 2006, the Company's stockholders approved an amendment to the Company's certificate of incorporation to (i) increase the number of authorized shares of common stock to 100,000,000, (ii) increase the number of authorized shares of preferred stock to 5,000,000, and (iii) effect a two-for-one stock split. As a result of the stock split, each shareholder of record at the close of business on May 24, 2006, received one additional share of common stock for each share held. For periods prior to the stock split, all share and per share data in the Company's condensed consolidated financial statements and related notes have been retroactively adjusted to reflect the stock split.

The Company committed to stockholders in a letter dated May 23, 2006 to limit its use of the increased authorized capital stock to 40 million common shares, and 2 million preferred shares, unless the approval of the Company's stockholders is obtained subsequently, such as through a further amendment to the Company's authorized capital stock.

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

Recent Accounting Pronouncements. The Company adopted the Financial Accounting Standards Board (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes - An Interpretation of FASB Statement No. 109 (FIN 48) on December 30, 2006. FIN 48 clarifies the accounting for uncertainty in tax positions and requires that companies recognize in their financial statements the impact of a tax position, if that position is more likely than not of being sustained on audit, based on the technical merits of the position. The adoption of FIN 48 did not have an impact on the Company's consolidated financial position, results of operations or cash flows. However, the tax disclosures in the condensed consolidated financial statements have been updated to comply with the adopted standard. At December 30, 2006, the Company had unrecognized tax benefits of \$258,000, which primarily related to uncertainty regarding the sustainability of certain deductions taken on the Company's federal and state income tax returns. There have been no significant changes to this amount during the quarter or six month period ended June 29, 2007. To the extent these unrecognized tax benefits are ultimately recognized, they will impact the effective tax rate in a future period.

Table of Contents

The Company and its subsidiaries file income tax returns in the U.S. federal jurisdiction, and various state and foreign jurisdictions. With few exceptions, the Company is no longer subject to U.S. federal, state and local, or non-U.S. income tax examination by tax authorities for years prior to 2002. The Company's policy is to recognize interest and penalties related to unrecognized tax benefits as income tax expense. Accrued interest and penalties are insignificant at June 29, 2007.

Note 2: Revenue Recognition

The Company derives its revenues primarily from professional fees earned on consulting engagements and fees earned for the use of its equipment and facilities, as well as reimbursements for outside direct expenses associated with the services that are billed to its clients.

Exponent reports revenues net of subcontractor fees. The Company has determined that it is not the primary obligor with respect to its subcontractors because:

its clients are directly involved in the subcontractor selection process;

the subcontractor is responsible for fulfilling the scope of work; and

the Company passes through the costs of subcontractor agreements with only a minimal fixed percentage mark-up to compensate it for processing the transactions.

Reimbursements, including those related to travel and other out-of-pocket expenses, and other similar third-party costs such as the cost of materials, are included in revenues, and an equivalent amount of reimbursable expenses are included in operating expenses. Any mark-up on reimbursable expenses is included in revenues.

Substantially all of the Company's engagements are performed under time and material or fixed-price billing arrangements. On time and material and fixed-price projects, revenue is generally recognized as the services are performed. For substantially all of the Company's fixed-price engagements, it recognizes revenue based on the relationship of incurred labor hours at standard rates and expenses to its estimate of the total labor hours at standard rates and expenses it expects to incur over the term of the contract. The Company believes this methodology achieves a reliable measure of the revenue from the consulting services it provides to its customers under fixed-price contracts given the nature of the consulting services the Company provides and the following additional considerations:

the Company considers labor hours at standard rates and expenses to be incurred when pricing its contracts;

the Company generally does not incur set-up costs on its contracts;

the Company does not believe that there are reliable milestones to measure progress toward completion;

if the contract is terminated early, the customer is required to pay the Company for time at standard rates plus materials incurred to date;

the Company does not recognize revenue for award fees or bonuses until specific contractual criteria are met;

the Company does not include revenue for unpriced change orders until the customer agrees with the changes;

historically the Company has not had significant accounts receivable write-offs or cost overruns; and

its contracts are typically progress billed on a monthly basis.

Table of Contents

Gross revenues and reimbursements for the quarters and six months ended June 29, 2007 and June 30, 2006 are as follows:

(In thousands)	Quarters Ended		Six Months Ended	
	June 29, 2007	June 30, 2006	June 29, 2007	June 30, 2006
Gross revenues	\$ 51,885	\$ 43,208	\$ 101,950	\$ 86,162
Less: Subcontractor fees	1,248	1,554	2,440	2,481
Revenues	50,637	41,654	99,510	83,681
Reimbursements:				
Out-of-pocket travel reimbursements	1,013	1,209	2,076	2,201
Other outside direct expenses	3,808	1,392	6,185	2,808
	4,821	2,601	8,261	5,009
Revenues before reimbursements	\$ 45,816	\$ 39,053	\$ 91,249	\$ 78,672

Significant management judgments and estimates must be made and used in connection with the revenue recognized in any accounting period. These judgments and estimates include an assessment of collectibility and, for fixed-price engagements, an estimate as to the total effort required to complete the project. If the Company made different judgments or utilized different estimates, the amount and timing of its revenue for any period could be materially different.

All consulting contracts are subject to review by management, which requires a positive assessment of the collectibility of contract amounts. If, during the course of the contract, the Company determines that collection of revenue is not reasonably assured, it does not recognize the revenue until its collection becomes reasonably assured, which is generally upon receipt of cash. The Company assesses collectibility based on a number of factors, including past transaction history with the client and project manager, as well as the creditworthiness of the client. Losses on fixed-price contracts are recognized during the period in which the loss first becomes evident. Contract losses are determined to be the amount by which the estimated total costs of the contract exceeds the total fixed price of the contract.

Note 3: Net Income Per Share

Basic per share amounts are computed using the weighted-average number of common shares outstanding during the period. Diluted per share amounts are calculated using the weighted-average number of common shares outstanding during the period and, when dilutive, the weighted-average number of potential common shares from the issuance of common stock to satisfy outstanding restricted stock units and the exercise of outstanding options to purchase common stock using the treasury stock method.

The following schedule reconciles the shares used to calculate basic and diluted net income per share:

(In thousands)	Quarters Ended		Six Months Ended	
	June 29, 2007	June 30, 2006	June 29, 2007	June 30, 2006
Shares used in basic per share computation	15,193	16,357	15,121	16,427
Effect of dilutive common stock options outstanding	1,050	1,102	1,083	1,136
Effect of dilutive restricted stock units outstanding	289	172	257	148
Shares used in diluted per share computation	16,532	17,631	16,461	17,711

Common stock options to purchase 8,571 and 0 shares were excluded from the diluted per share calculation for the fiscal quarters ended June 29, 2007 and June 30, 2006, respectively, due to their antidilutive effect. The weighted-average exercise price for the antidilutive shares was \$22.02 for the quarter ended June 29, 2007. Common stock options to purchase 4,286 and 58,516 shares were excluded from the diluted per share calculation for

Table of Contents

the six months ended June 29, 2007 and June 30, 2006, respectively, due to their antidilutive effect. Weighted-average exercise prices for the antidilutive shares were \$22.02 and \$15.65 for the six months ended June 29, 2007 and June 30, 2006, respectively.

Note 4: Stock-Based Compensation

Restricted Stock Units

The Company grants restricted stock units to employees and outside directors under the 1999 Restricted Stock Plan. These restricted stock unit grants are designed to attract and retain employees, and to better align employee interests with those of the Company's stockholders. For a select group of employees, up to 40% of their annual bonus is settled with fully vested restricted stock unit awards. Under these fully vested restricted stock unit awards, the holder of each award has the right to receive one share of the Company's common stock for each fully vested restricted stock unit four years from the date of grant. Each individual who received a fully vested restricted stock unit award is also granted a matching number of unvested restricted stock unit awards. These unvested restricted stock unit awards cliff vest four years from the date of grant, at which time the holder of each award will have the right to receive one share of the Company's common stock for each restricted stock unit award provided the holder of each award has met certain employment conditions. In the case of retirement at 59 1/2 years or older, all unvested restricted stock unit awards will continue to vest provided the holder of each award does all consulting work through the company and does not become an employee for a past or present client, beneficial party or competitor of the company.

The value of these restricted stock unit awards is determined based on the market price of the Company's common stock on the date of grant. The value of fully vested restricted stock unit awards issued is recorded as a reduction to accrued bonuses. The portion of bonus expense that the Company expects to settle with fully vested restricted stock unit awards is recorded as stock-based compensation during the period the bonus is earned. The Company recorded stock-based compensation expense associated with accrued bonus awards of \$816,000 and \$391,000 during the quarters ended June 29, 2007 and June 30, 2006, respectively. For the six months ended June 29, 2007 and June 30, 2006, the Company recorded stock-based compensation expense associated with accrued bonus awards of \$1,684,000 and \$825,000, respectively. The value of the unvested restricted stock unit awards issued is recognized on a straight-line basis over the shorter of the four-year vesting period or the period between the grant date and the date the award recipient turns 59 1/2. If the award recipient is 59 1/2 years or older on the date of grant, the value of the entire award is expensed upon grant. The Company recorded stock-based compensation expense associated with the unvested restricted stock unit awards of \$314,000 and \$238,000 during the quarters ended June 29, 2007 and June 30, 2006, respectively. The Company recorded stock-based compensation expense associated with the unvested restricted stock unit awards of \$1,218,000 and \$795,000 during the six months ended June 29, 2007 and June 30, 2006, respectively.

Stock Options

The Company currently grants stock options under the 1999 Stock Option Plan and the 1998 Stock Option Plan. Options are granted for terms of ten years and generally vest 25% per year over a four-year period from the grant date. The Company grants options at exercise prices equal to the fair value of the Company's common stock on the date of grant. The Company recorded stock-based compensation expense of \$179,000 and \$226,000 during the quarters ended June 29, 2007 and June 30, 2006, respectively, associated with stock option grants. The Company recorded stock-based compensation expense of \$390,000 and \$506,000 during the six months ended June 29, 2007 and June 30, 2006, respectively, associated with stock option grants.

Stock Compensation

The Company uses the Black-Scholes option-pricing model to determine the fair value of options granted. The determination of the fair value of stock-based payment awards on the date of grant using an option-pricing model is affected by the Company's stock price as well as assumptions regarding a number of complex and subjective variables. These variables include expected stock price volatility over the term of the award, actual and projected employee stock option exercise behaviors, the risk-free interest rate and expected dividends.

Table of Contents

The Company used historical exercise and post-vesting forfeiture and expiration data to estimate the expected term of options granted. The historical volatility of the Company's common stock over a period of time equal to the expected term of the options granted was used to estimate expected volatility. The risk-free interest rate used in the option-pricing model was based on U.S. Treasury zero-coupon issues with remaining terms similar to the expected term on the options. The Company does not anticipate paying any cash dividends in the foreseeable future and therefore used an expected dividend yield of zero in the option-pricing model. The Company is required to estimate forfeitures at the time of grant and revise those estimates in subsequent periods if actual forfeitures differ from those estimates. Historical data was used to estimate pre-vesting option forfeitures and stock-based compensation expense was recorded only for those awards that are expected to vest. All share based payment awards are recognized on a straight-line basis over the requisite service periods of the awards.

Note 5: Repurchase of Common Stock

On April 4, 2006, the Company's Board of Directors authorized \$35 million for stock repurchases. On May 22, 2007, the Company's Board of Directors authorized an additional \$35 million for stock repurchases.

The Company repurchased 525,749 shares of its common stock for \$11.3 million during the six months ended June 29, 2007. The Company repurchased 757,292 shares of its common stock for \$12.2 million during the six months ended June 30, 2006. As of June 29, 2007, the Company had remaining authorization under its stock repurchase plans of \$29.0 million to repurchase shares of common stock.

Note 6: Deferred Compensation Plan

The Company maintains a nonqualified deferred compensation plan for the benefit of a select group of highly compensated employees. Under this plan participants may elect to defer up to 100% of their compensation. Employee deferrals were \$483,000 and \$891,000 during the quarter and six months ended June 29, 2007, respectively. Employee deferrals were \$294,000 and \$545,000 during the quarter and six months ended June 30, 2006, respectively. Employee distributions were \$0 and \$1,150,000 during the quarter and six months ended June 29, 2007, respectively. Employee distributions were \$192,000 and \$340,000 during the quarter and six months ended June 30, 2006, respectively.

Company assets that are earmarked to pay benefits under the plan are held in a rabbi trust and are subject to the claims of the Company's creditors. As of June 29, 2007 and December 29, 2006, the invested amounts under the plan totaled \$5.9 million and \$5.7 million, respectively. These assets are classified as trading securities and are recorded at fair market value with changes recorded as adjustments to other income and expense. As of June 29, 2007 and December 29, 2006, vested amounts due under the plan totaled \$5.4 million and \$4.9 million, respectively. Changes in the liability are recorded as adjustments to compensation expense. During the quarters ended June 29, 2007 and June 30, 2006, the Company recognized compensation expense of \$304,000 and a compensation benefit of \$80,000, respectively, as a result of changes in the market value of the trust assets, with the same amount being recorded as other income or expense. During the six months ended June 29, 2007 and June 30, 2006, the Company recognized compensation expense of \$472,000 and \$114,000, respectively, as a result of an increase in the market value of the trust assets, with a corresponding amount being recorded as other income.

Table of Contents**Note 7: Supplemental Cash Flow Information**

The following is supplemental disclosure of cash flow information:

(In thousands)	Six Months Ended	
	June 29, 2007	June 30, 2006
Cash paid during period:		
Income taxes	\$ 6,905	\$ 3,858
Non-cash investing and financing activities:		
Unrealized loss on short-term investments	\$ 25	\$ 19
Vested stock unit awards issued to settle accrued bonuses	\$ 2,288	\$ 1,450
Stock repurchases payable to broker	\$ 922	\$ 1,108

Note 8: Accounts Receivable, Net

At June 29, 2007 and December 29, 2006, accounts receivable, net was comprised of the following:

(In thousands)	June 29, 2007	December 29, 2006
Billed accounts receivable	\$ 41,962	\$ 32,527
Unbilled accounts receivable	22,172	17,474
Allowance for doubtful accounts	(2,642)	(1,793)
Total accounts receivable, net	\$ 61,492	\$ 48,208

Note 9: Inventory

At June 29, 2007, the Company had \$949,000 of raw materials inventory included in prepaid expenses and other current assets in the accompanying condensed consolidated balance sheet. At December 29, 2006, the Company had \$520,000 and \$364,000 of finished goods and work-in-process inventory, respectively, included in prepaid expenses and other current assets in the accompanying balance sheet.

Note 10: Segment Reporting

The Company has two operating segments based on two primary areas of service. One operating segment is a broad service group providing technical consulting in different practices primarily in the areas of impending litigation and technology development. The Company's other operating segment provides services in the area of environmental, epidemiology and health risk analysis. This operating segment provides a wide range of consulting services relating to environmental hazards and risks and the impact on both human health and the environment.

Segment information for the quarters and six months ended June 29, 2007 and June 30, 2006 follows:

Revenues

(In thousands)	Quarters Ended		Six Months Ended	
	June 29, 2007	June 30, 2006	June 29, 2007	June 30, 2006
Other scientific and engineering	\$ 38,964	\$ 32,578	\$ 76,268	\$ 64,800
Environmental and health	11,673	9,076	23,242	18,881
Total revenues	\$ 50,637	\$ 41,654	\$ 99,510	\$ 83,681

Corporate depreciation and amortization	247	251	478	500
Total depreciation and amortization	\$ 969	\$ 898	\$ 1,886	\$ 1,780

The Company derived 10% of revenues from agencies of the federal government for the quarter and six months ended June 29, 2007. No single customer comprised more than 10% of the Company's revenues for the quarters and six months ended June 30, 2006.

Table of Contents**Note 11: Goodwill**

Below is a breakdown of goodwill reported by segment as of June 29, 2007:

(In thousands)	Environmental and health	Other scientific and engineering	Total
Goodwill	\$ 8,099	\$ 508	\$ 8,607

There were no changes in the carrying amount of goodwill for the quarter and six months ended June 29, 2007.

Note 12: Mortgage Note

The Company has a revolving reducing mortgage note (the Mortgage Note) secured by its Silicon Valley headquarters building. The Mortgage Note had an initial borrowing amount up to \$30.0 million and is subject to automatic annual reductions in the amount available to be borrowed of between \$1.3 million to \$2.1 million per year until January 31, 2008. Any outstanding amounts on the Mortgage Note are due and payable in full on January 31, 2009. As of June 29, 2007, the Company had \$0 outstanding and available borrowings of \$17.4 million. The Mortgage Note is subject to two interest rate options of either prime less 1.5% or the fixed LIBOR plus 1.25% with a term of one month, two months, three months, nine months, or twelve months.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the unaudited condensed consolidated financial statements and notes thereto included herein and with our audited consolidated financial statements and notes thereto for the fiscal year ended December 29, 2006, which are contained in our fiscal 2006 Annual Report on Form 10-K.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains certain forward-looking statements (as such term is defined in the Private Securities Litigation Reform Act of 1995, and the rules promulgated pursuant to the Securities Act of 1933, as amended, and the Securities Exchange Act of 1934, as amended thereto) that are based on the beliefs of the Company's management, as well as assumptions made by and information currently available to the Company's management. Such forward-looking statements are subject to the safe harbor created by the Private Securities Litigation Reform Act of 1995. When used in this document and in the documents incorporated herein by reference, the words anticipate, believe, estimate, expect and similar expressions, as they relate to the Company or its management, identify such forward-looking statements. Such statements reflect the current views of the Company or its management with respect to future events and are subject to certain risks, uncertainties and assumptions. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, the Company's actual results, performance, or achievements could differ materially from those expressed in, or implied by, any such forward-looking statements. Factors that could cause or contribute to such material differences include the possibility that the demand for our services may decline as a result of changes in general and industry specific economic conditions, the timing of engagements for our services, the effects of competitive services and pricing, the absence of backlog related to our business, our ability to attract and retain key employees, the effect of tort reform and government regulation on our business and liabilities resulting from claims made against us. Additional risks and uncertainties are discussed in our Annual Report on Form 10-K under the heading Risk Factors and elsewhere in the report. The inclusion of such forward-looking information should not be regarded as a representation by the Company or any other person that the future events, plans, or expectations contemplated by the Company will be achieved. Due to such uncertainties and risks, you are warned not to place undue reliance on such forward-looking statements, which speak only as of the date hereof. The Company does not intend to release publicly any updates or revisions to any such forward-looking statements.

Business Overview

Exponent, Inc. is an engineering and scientific consulting firm that provides solutions to complex problems. Our multidisciplinary team of scientists, physicians, engineers and business consultants brings together more than 90 different technical disciplines to solve complicated issues facing industry and business today. Our services include analysis of product development, product recall, regulatory compliance, discovery of potential problems related to products, people or property and impending litigation, as well as the development of highly technical new products.

CRITICAL ACCOUNTING ESTIMATES

In preparing our condensed consolidated financial statements, we make assumptions, judgments and estimates that can have a significant impact on our revenue, operating income and net income, as well as on the value of certain assets and liabilities on our consolidated balance sheet. We base our assumptions, judgments and estimates on historical experience and various other factors that we believe to be reasonable under the circumstances. Actual results could differ materially from these estimates under different assumptions or conditions. On a regular basis we evaluate our assumptions, judgments and estimates and make changes accordingly. We believe that the assumptions, judgments and estimates involved in revenue recognition, estimating the allowance for doubtful accounts, accounting for income taxes, valuing goodwill and accounting for stock-based compensation have the greatest potential impact on our consolidated financial statements, so we consider these to be our critical accounting policies. Historically, our assumptions, judgments and estimates relative to our critical accounting policies have not differed materially from actual results. Policies covering revenue recognition, estimating the allowance for doubtful accounts, accounting for income taxes, valuing goodwill and accounting for stock-based compensation are described in our 2006 Annual Report on Form 10-K under Critical Accounting Estimates and Note 1 (Summary of Significant Accounting Policies) of the Notes to Consolidated Financial Statements.

Table of Contents**RESULTS OF CONSOLIDATED OPERATIONS****Overview of the Quarter Ended June 29, 2007**

During the second quarter of 2007 we had a 21.6% increase in revenues and a 17.3% increase in revenues before reimbursements as compared to the same period last year. This growth was driven primarily by our technology development, health, mechanics and materials, and thermal practices. Our consolidated revenue growth was primarily driven by an increase in billable hours and higher billing rates. Billable hours for the second quarter of 2007 increased 11.0% to 212,000 as compared to 191,000 during the same period last year. Technical full-time equivalents increased 1.6% to 574 during the second quarter of 2007 as compared to 565 during the same period last year. This increase in technical full-time equivalents was due to our continuing recruiting and retention efforts. Utilization increased to 71% for the second quarter of 2007 as compared to 65% during the same period last year. Due to the increase in utilization and the management of our operating expenses we were able to leverage this revenue growth to improve operating income by 32.5% and net income by 37.0%.

Quarter Ended June 29, 2007 compared to Quarter Ended June 30, 2006*Revenues*

	Quarters Ended		Percent
	June 29, 2007	June 30, 2006	Change
(In thousands)			
Engineering and other scientific	\$ 38,964	\$ 32,578	19.6%
Percentage of total revenues	76.9%	78.2%	
Environmental and health	11,673	9,076	28.6%
Percentage of total revenues	23.1%	21.8%	
Total revenues	\$ 50,637	\$ 41,654	21.6%

The increase in revenues for our engineering and other scientific segment was driven by higher billing rates, an increase in billable hours and an increase in reimbursable expenses. The increase in billable hours was primarily due to an increase in activity in our technology development, mechanics and materials, and thermal practices. During the second quarter of 2007 billable hours for this segment increased by 6.8% to 158,000 as compared to 148,000 during the same period last year. Technical full-time equivalents increased 2.2% to 426 from 417 for the same period last year due to our recruiting efforts. Utilization increased to 72% for the second quarter of 2007 as compared to 68% during the same period last year. The increase in reimbursable expenses was due to an increase in project related costs in our technology development practice.

The increase in revenues for our environmental and health segment was the result of higher billing rates and an increase in billable hours. The increase in billable hours was due to an increase in activity in our health, ecological sciences, environmental, and food & chemical practices. During the second quarter of 2007 billable hours for this segment increased by 25.6% to 54,000 as compared to 43,000 during the same period last year. Technical full-time equivalents were 148 for the second quarter of 2007 and 2006. Utilization increased to 69% for the second quarter of 2007 as compared to 56% during the same period last year.

Table of Contents**Compensation and Related Expenses**

	Quarters Ended		Percent
	June 29, 2007	June 30, 2006	Change
(In thousands)			
Compensation and related expenses	\$ 30,207	\$ 26,044	16.0%
Percentage of total revenues	59.7%	62.5%	

The increase in compensation and related expenses was due to an increase in payroll expense, an increase in bonus expense and an increase in market gains related to the investment for our deferred compensation plan. Payroll expense increased by \$2.0 million due to an increase in technical full-time equivalent employees and the impact of our annual salary increase. Bonus expense increased by \$1.6 million due to a corresponding increase in profitability. Gains related to our deferred compensation plan were \$304,000 during the second quarter of 2007 as compared to a loss \$80,000 during the same period last year. We expect payroll expense to increase for the remainder of 2007 due to the anticipated hiring of additional staff.

Other Operating Expenses

	Quarters Ended		Percent
	June 29, 2007	June 30, 2006	Change
(In thousands)			
Other operating expenses	\$ 5,305	\$ 4,967	6.8%
Percentage of total revenues	10.5%	11.9%	

Other operating expenses include facilities related costs, technical materials, computer-related expenses and depreciation and amortization of property, equipment and leasehold improvements. The increase in other operating expenses was primarily due to an increase of \$268,000 in occupancy expense. This increase in occupancy expense was due to expansion in certain offices to support our increase in technical full-time equivalent employees.

Reimbursable Expenses

	Quarters Ended		Percent
	June 29, 2007	June 30, 2006	Change
(In thousands)			
Reimbursable expenses	\$ 4,821	\$ 2,601	85.4%
Percentage of total revenues	9.5%	6.2%	

The increase in reimbursable expenses was primarily due to an increase in project related costs in our technology development practice. The amount of reimbursable expenses will vary from quarter to quarter depending on the nature of our projects.

General and Administrative Expenses

	Quarters Ended		Percent
	June 29, 2007	June 30, 2006	Change
(In thousands)			
General and administrative expenses	\$ 3,244	\$ 2,714	19.5%
Percentage of total revenues	6.4%	6.5%	

Edgar Filing: EXPONENT INC - Form 10-Q

The increase in general and administrative expenses was primarily due to an increase in travel and meals of \$367,000 and an increase in bad debt expense of \$131,000. The increase in travel and meals was due primarily to the costs associated with a manager's meeting held during the second quarter of 2007. The increase in bad debt expense was due to an increase in our allowance for doubtful accounts.

- 17 -

Table of Contents**Other Income, Net**

	Quarters Ended		Percent
	June 29, 2007	June 30, 2006	Change
(In thousands)			
Other income, net	\$ 1,268	\$ 656	93.3%
Percentage of total revenues	2.5%	1.6%	

Other income, net, consists primarily of interest income earned on available cash, cash equivalents and short-term investments, changes in the value of assets associated with our deferred compensation plan and rental income from leasing space in our Silicon Valley facility. The increase in other income was due to a \$304,000 increase in the fair value of deferred compensation plan assets during the second quarter of 2007 as compared to an \$80,000 decrease during the same period last year. The increase in other income was also due to a \$165,000 gain on the sale of a tenant's common stock issued to us in connection with a lease of space in our Silicon Valley facility.

Income Taxes

	Quarters Ended		Percent
	June 29, 2007	June 30, 2006	Change
(In thousands)			
Income taxes	\$ 3,326	\$ 2,334	42.5%
Percentage of total revenues	6.6%	5.6%	
Effective tax rate	39.9%	39.0%	

The increase in income tax expense was due to a corresponding increase in pre-tax income.

Six Months Ended June 29, 2007 compared to Six Months Ended June 30, 2006**Revenues**

	Six Months Ended		Percent
	June 29, 2007	June 30, 2006	Change
(In thousands)			
Engineering and other scientific	\$ 76,268	\$ 64,800	17.7%
Percentage of total revenues	76.6%	77.4%	
Environmental and health	23,242	18,881	23.1%
Percentage of total revenues	23.4%	22.6%	
Total revenues	\$ 99,510	\$ 83,681	18.9%

The increase in revenues for our engineering and other scientific segment was driven by higher billing rates, an increase in billable hours and an increase in reimbursable expenses. The increase in billable hours was primarily due to an increase in activity in our mechanics and materials, electrical and technology development practices. During the first six months of 2007 billable hours for this segment increased by 5.4% to 311,000 as compared to 295,000 during the same period last year. Technical full-time equivalents increased 3.2% to 423 from 410 for the same period last year due to our recruiting efforts. Utilization increased to 71% for the first six months of 2007 as compared to 69% during the same period last year. The increase in reimbursable expenses was due to an increase in project related costs in our technology development practice.

The increase in revenues for our environmental and health segment was the result of higher billing rates and an increase in billable hours. The increase in billable hours was due to an increase in activity in our health, ecological sciences, environmental, and food & chemical practices.

Edgar Filing: EXPONENT INC - Form 10-Q

During the first six months of 2007 billable hours for this segment increased by 15.4% to 105,000 as compared to 91,000 during the same period last year. Technical full-time equivalents were 147 for the first six months of 2007 and 2006. Utilization increased to 69% for the first six months of 2007 as compared to 59% during the same period last year.

- 18 -

Table of Contents**Compensation and Related Expenses**

	Six Months Ended		Percent
	June 29, 2007	June 30, 2006	Change
(In thousands)			
Compensation and related expenses	\$ 60,229	\$ 52,790	14.1%
Percentage of total revenues	60.5%	63.1%	

The increase in compensation and related expenses was due to an increase in payroll expense, an increase in bonus expense and an increase in market gains related to the investment for our deferred compensation plan. Payroll expense increased by \$3.4 million due to an increase in technical full-time equivalent employees and the impact of our annual salary increase. Bonus expense increased by \$3.0 million due to a corresponding increase in profitability. Gains related to our deferred compensation plan were \$472,000 during the first six months of 2007 as compared to a gain of \$114,000 during the same period last year.

Other Operating Expenses

	Six Months Ended		Percent
	June 29, 2007	June 30, 2006	Change
(In thousands)			
Other operating expenses	\$ 10,442	\$ 9,732	7.3%
Percentage of total revenues	10.5%	11.6%	

Other operating expenses include facilities related costs, technical materials, computer-related expenses and depreciation and amortization of property, equipment and leasehold improvements. The increase in other operating expenses was primarily due to an increase of \$514,000 in occupancy expense. This increase in occupancy expense was due to expansion in certain offices to support our increase in technical full-time equivalent employees.

Reimbursable Expenses

	Six Months Ended		Percent
	June 29, 2007	June 30, 2006	Change
(In thousands)			
Reimbursable expenses	\$ 8,261	\$ 5,009	64.9%
Percentage of total revenues	8.3%	6.0%	

The increase in reimbursable expenses was primarily due to an increase in project related costs in our technology development practice. The amount of reimbursable expenses will vary from quarter to quarter depending on the nature of our projects.

General and Administrative Expenses

	Six Months Ended		Percent
	June 29, 2007	June 30, 2006	Change
(In thousands)

Percentage of total revenues	6.1%	6.5%	

Table of Contents

The increase in general and administrative expenses was primarily due to an increase in travel and meals of \$349,000 and an increase in bad debt expense of \$125,000. The increase in travel and meals was due primarily to the costs associated with a manager's meeting held during the second quarter of 2007. The increase in bad debt expense was due to an increase in our allowance for doubtful accounts.

Other Income, Net

	Six Months Ended		Percent
	June 29, 2007	June 30, 2006	Change
(In thousands)			
Other income, net	\$ 2,147	\$ 1,532	40.1%
Percentage of total revenues	2.2%	1.8%	

Other income, net, consists primarily of interest income earned on available cash, cash equivalents and short-term investments, changes in the value of assets associated with our deferred compensation plan and rental income from leasing space in our Silicon Valley facility. The increase in other income was due to a \$472,000 increase in the fair value of deferred compensation plan assets during the first six months of 2007 as compared to a \$114,000 increase during the same period last year. The increase in other income was also due to a \$165,000 gain on the sale of a tenant's common stock originally issued to us in connection with a lease of space in our Silicon Valley facility.

Income Taxes

	Six Months Ended		Percent
	June 29, 2007	June 30, 2006	Change
(In thousands)			
Income taxes	\$ 6,609	\$ 4,778	38.3%
Percentage of total revenues	6.6%	5.7%	
Effective tax rate	39.7%	39.0%	

The increase in income tax expense was due to a corresponding increase in pre-tax income.

RECENT ACCOUNTING PRONOUNCEMENTS

In September 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 157 (SFAS 157), Fair Value Measurements, which defines fair value, establishes guidelines for measuring fair value and expands disclosures regarding fair value measurements. SFAS 157 does not require any new fair value measurements but rather eliminates inconsistencies in guidance found in various prior accounting pronouncements. SFAS 157 is effective for fiscal years beginning after November 15, 2007. Earlier adoption is permitted, provided the company has not yet issued financial statements, including for interim periods, for that fiscal year. We are currently evaluating SFAS 157, but do not expect the adoption of SFAS 157 to have a material impact on our consolidated financial position, results of operations or cash flows.

Table of Contents**LIQUIDITY AND CAPITAL RESOURCES**

As of June 29, 2007, our cash, cash equivalents and short-term investments were \$52.2 million compared to \$58.1 million at December 29, 2006. We financed our business for the current period principally through operating cash.

(In thousands)	Six Months Ended	
	June 29, 2007	June 30, 2006
Net cash provided by operating activities	\$ 3,555	\$ 3,798
Net cash provided by (used in) investing activities	5,100	(2,989)
Net cash used in financing activities	(7,706)	(8,885)

The decrease in net cash provided by operating activities during the first six months of 2007 was primarily due to a larger increase in accounts receivable as compared to the same period last year partially offset by an increase in net income, a larger increase in accrued payroll and employee benefits, an increase in stock-based compensation, a decrease in contributions to our deferred compensation plan, and an increase in deferred rent. The larger increase in accounts receivable was due to a corresponding increase in revenues. The larger increase in accrued payroll and employee benefits was due to an increase in accrued bonuses driven by a corresponding increase in profitability. The increase in stock-based compensation was due to additional restricted stock unit grants during the first six months of 2007 and an increase in the accrued bonus that we expect to settle with fully vested restricted stock units. The increase in deferred rent was due to a pre-payment made by one of our tenants.

The increase in net cash provided by investing activities was primarily due to the sale and purchase of short-term investments. During the first six months of 2007, net sales of short-term investments were \$6.7 million as compared to net purchases of short-term investments of \$1.3 million during the same period in 2006. The net sales of short-term investments during the first six months of 2007 were to fund our share repurchases.

The decrease in net cash used in financing activities was primarily due to an increase in the tax benefit for stock option plans during the first six months of 2007 as compared to 2006.

We expect to continue our investing activities, including purchases of short-term investments and capital expenditures. Furthermore, cash reserves may be used to repurchase common stock under our stock repurchase program or strategically acquire professional services firms that are complementary to our business.

The following schedule summarizes our principal contractual commitments as of June 29, 2007 (in thousands):

Fiscal year	Operating lease commitments	Capital leases	Purchase obligations	Total
2007	\$ 2,775	\$ 40	\$ 693	\$ 3,508
2008	4,638	60		4,698
2009	4,170	30		4,200
2010	3,036	3		3,039
2011	2,359	2		2,361
Thereafter	5,144			5,144
	\$ 22,122	\$ 135	\$ 693	\$ 22,950

We maintain a nonqualified deferred compensation plan for the benefit of a select group of highly compensated employees. Vested amounts due under the plan of \$4.0 million were recorded as a long-term liability on our condensed consolidated balance sheet at June 29, 2007. Company assets that are earmarked to pay benefits under the plan are held in a rabbi trust and are subject to the claims of our creditors. As of June 29, 2007 invested amounts under the plan of \$4.5 million were recorded as a long-term asset on our condensed consolidated balance sheet.

Table of Contents

We have a revolving reducing mortgage note with a total available borrowing amount of \$17.4 million and an outstanding balance of \$0 as of June 29, 2007. We believe that our existing revolving note, together with funds generated from operations, will provide adequate cash to fund our anticipated operating cash needs through at least the next twelve-month period.

In addition, we believe that the funds available under the revolving reducing mortgage note, together with funds generated from operations, will provide adequate cash to fund our anticipated long-term cash needs beyond the next twelve-month period; however, we intend to grow our business by pursuing potential acquisitions, which could increase the need for additional sources of funds over the long term.

As permitted under Delaware law, we have agreements whereby we indemnify our officers and directors for certain events or occurrences while the officer or director is, or was, serving at our request in such capacity. The indemnification period covers all pertinent events and occurrences during the officer's or director's lifetime. The maximum potential amount of future payments we could be required to make under these indemnification agreements is unlimited; however, we have director and officer insurance coverage that reduces our exposure and enables us to recover a portion of any future amounts paid.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Exponent is exposed to interest rate risk associated with our balances of cash, cash equivalents and short-term investments. We manage our interest rate risk by maintaining an investment portfolio primarily consisting of debt instruments with high credit quality and relatively short average effective maturities in accordance with the Company's investment policy. The maximum effective maturity of any issue in our portfolio of cash equivalents and short-term investments is 3 years and the maximum average effective maturity of the portfolio cannot exceed 12 months. Our exposure to market rate risk for changes in interest rates relates primarily to our short-term investments. We do not use derivative financial instruments in our short-term investment portfolio. Notwithstanding our efforts to manage interest rate risk, there can be no assurances that we will be adequately protected against the risks associated with interest rate fluctuations.

We are exposed to some foreign currency exchange rate risk associated with our foreign operations. Given the limited nature of these operations, we believe that any exposure would be minimal. Currently, we do not employ a foreign currency hedging program to mitigate our foreign currency exchange risk as we believe the risks to date have not been significant.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

An evaluation was performed under the supervision and with the participation of the Company's management, including the Chief Executive Officer, and the Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) of the Exchange Act of 1934, as amended) as of the end of the period covered by this quarterly report. Based on that evaluation, the Company's management, including the Chief Executive Officer, and the Chief Financial Officer, concluded that the Company's disclosure controls and procedures were effective.

We intend to review and evaluate the design and effectiveness of our disclosure controls and procedures on an ongoing basis, to improve our controls and procedures over time, and to correct any deficiencies that we may discover in the future. Our goal is to ensure that our senior management has timely access to all material financial and non-financial information concerning our business. While we believe the present design of our disclosure controls and procedures is effective to achieve our goal, future events affecting our business may cause us to significantly modify our disclosure controls and procedures.

Table of Contents

(b) Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the quarterly period ended June 29, 2007, that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1A. Risk Factors

FACTORS AFFECTING OPERATING RESULTS AND MARKET PRICE OF STOCK

Exponent operates in a rapidly changing environment that involves a number of uncertainties, some of which are beyond our control. These uncertainties include, but are not limited to, those mentioned elsewhere in this report and those set forth below. There are no material changes to the risk factors set forth below relative to those included in our Annual Report on Form 10-K for the fiscal year ended December 29, 2006.

Absence of Backlog

Revenues are primarily derived from services provided in response to client requests or events that occur without notice, and engagements, generally billed as services are performed, are terminable or subject to postponement or delay at any time by clients. As a result, backlog at any particular time is small in relation to our quarterly or annual revenues and is not a reliable indicator of revenues for any future periods. Revenues and operating margins for any particular quarter are generally affected by staffing mix, resource requirements and timing and size of engagements.

Attraction and Retention of Key Employees

Exponent's business involves the delivery of professional services and is labor intensive. Our success depends in large part upon our ability to attract, retain and motivate highly qualified technical and managerial personnel. Qualified personnel are in great demand and are likely to remain a limited resource for the foreseeable future. We cannot provide any assurance that we can continue to attract sufficient numbers of highly qualified technical and managerial personnel and to retain existing employees. The loss of a significant number of our employees could have a material adverse impact on our business, including our ability to secure and complete engagements.

Competition

The markets for our services are highly competitive. In addition, there are relatively low barriers to entry into our markets and we have faced, and expect to continue to face, additional competition from new entrants into our markets. Competitive pressure could reduce the market acceptance of our services and result in price reductions that could have a material adverse effect on our business, financial condition or results of operations.

Customer Concentration

We currently derive, and believe that we will continue to derive, a significant portion of our revenues from organizations related to the transportation industry and the government sector. The loss of any large client could have a material adverse effect on our business, financial condition or results of operations.

Table of Contents**Economic Uncertainty**

The markets that we serve are cyclical and subject to general economic conditions, particularly in light of the labor-intensive nature of our business and our relatively high compensation expenses. If the economy in which we operate, which is predominantly in the U.S., were to experience a prolonged slowdown, demand for our services could be reduced considerably.

Professional Reputation

The professional reputation of Exponent and its consultants is critical to our ability to successfully compete for new client engagements and attract or retain professionals. Any factors that damage our professional reputation could have a material adverse effect on our business.

Regulation

Public concern over health, safety and preservation of the environment has resulted in the enactment of a broad range of environmental and/or other laws and regulations by local, state and federal lawmakers and agencies. These laws and regulations affect nearly every industry, as well as the agencies of federal, state and local governments charged with their enforcement. To the extent changes in such laws, regulations and enforcement or other factors significantly reduce the exposures of manufacturers, owners, service providers and others to liability; the demand for our services may be significantly reduced.

Tort Reform

Several of our practices have a significant concentration in litigation support consulting services. To the extent tort reform reduces the exposure of manufacturers, owners, service providers and others to liability, the demand for our litigation support consulting services may be significantly reduced.

Variability of Quarterly Financial Results

Variations in our revenues and operating results occur from time to time, as a result of a number of factors, such as the significance of client engagements commenced and completed during a quarter; the timing of engagements; the number of working days in a quarter; employee hiring and utilization rates; and integration of companies acquired. Because a high percentage of our expenses, particularly personnel and facilities related, are relatively fixed in advance of any particular quarter, a variation in the timing of the initiation or the completion of our client assignments can cause significant variations in operating results from quarter to quarter.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table provides information on the Company's share repurchases for the quarter ended June 29, 2007:

(In thousands, except price per share)	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Programs	Approximate Dollar Value of Shares That May Yet Be Purchased Under the Program ⁽¹⁾
March 31 to April 27				\$ 2,863
April 28 to May 25	94	\$ 21.60	94	\$ 830
Additional funds authorized for share repurchases				\$ 35,000
May 26 to June 29	298	\$ 22.84	298	\$ 29,034
Total	392	\$ 22.54	392	

⁽¹⁾ In April 2006, the Company's Board of Directors approved up to \$35 million for repurchases of the Company's common stock. On May 22, 2007, the Company's Board of Directors authorized an additional \$35 million for stock repurchases. These plans have no expiration date.

Table of Contents**Item 4. Submission of Matters to a Vote of Security Holders**

At the Company's 2007 Annual Meeting of Stockholders held on May 22, 2007 (the Annual Meeting), the following individuals were elected to the Board of Directors with the following number of votes cast for and withheld:

	Votes For	Votes Withheld
Samuel H. Armacost	12,180,188	300,779
Barbara M. Barrett	12,292,848	188,119
Michael R. Gaulke	12,162,199	318,768
Jon R. Katzenbach	12,333,948	147,019
Stephen C. Riggins	12,301,398	179,569

The stockholders at the Company's Annual Meeting approved the following proposal with the following number of votes cast for and against, as well as the number of abstentions and broker non-votes:

1. Ratify the appointment of KPMG LLP as independent registered public accounting firm for the year ending December 28, 2007.

For	12,180,143
Against	230,020
Abstentions	70,804
Broker non-votes	0

Item 6. Exhibits

- (a) Exhibits

Exhibit 31.1	Certification of Chief Executive Officer pursuant to Rule 13a-14(a) under the Securities Exchange Act of 1934.
Exhibit 31.2	Certification of Chief Financial Officer pursuant to Rule 13a-14(a) under the Securities Exchange Act of 1934.
Exhibit 32.1	Certification of Chief Executive Officer pursuant to 18 U.S.C. Section 1350.
Exhibit 32.2	Certification of Chief Financial Officer pursuant to 18 U.S.C. Section 1350.
