NOTE 8: EXAGRIND S.A. ESTANCIA SAN RAFAEL AGAINST TALI SUMAJ AND OTHER DAMAGES AND LOSSES LAWSUIT

Exagrind S.A. has filed a lawsuit against Inversiones Ganaderas S.A. (IGSA) on claims for damages and losses produced by a fire in Estancia San Rafael, which is close to Tali Sumaj, Province of Catamarca. The fire took place on September 6, 2000.

The estimated amount of the legal action is Ps. 2,914,600 at the date the claim was filed.

In turn, IGSA filed an extraordinary appeal with the High Court of the Province of Catamarca, requesting to be given the remainder term to answer the lawsuit as, at the time of revoking the first instance judge decision that postponed the terms to answer until a new notice was dispatched, such period had not yet expired. The management of IGSA is awaiting the decision of the High Court of the Province of Catamarca.

Edgar Filing: CRESUD INC - Form 6-K

Additionally, in March 2007 -under the request of Exagrind S.A.- the court in charge of the case seized an inhibition of assets. This measure was lifted in June 2007 and a real estate on attachment has been accepted in replacement.

Corresponding to the three-month periods beginning as from July 1, 2007 and 2006

and ended on September 30, 2007 and 2006

NOTE 1: ACCOUNTING STANDARDS

Below is a description of the most relevant accounting standards used by the Company in the preparation of these Financial Statements, which have been applied on a consistent basis from the previous period.

b. Unifying of accounting standards

On July 8, 2004, the F.A.C.P.C.E. and the C.P.C.E.C.A.B.A. entered into an agreement with the purpose of unifying technical standards. The latter council issued Resolution CD 93/05 on August 10, 2005 adopting the accounting standards approved by the former including the changes up to April 1, 2005.

The standards referred to above became effective for annual or interim periods financial statements of years started on January 1, 2006. On the other hand, the C.N.V. has adopted the same standards including certain modifications, and has also established their applicability for the years started as from January 1, 2006 as well.

The changes introduced due to the unifying of accounting standards that have generated significant effects on the Company's financial statements are:

In accordance with the new accounting standards, the Company has decided not to recognize the deferred liabilities generated by the adjustment for inflation on fixed assets and other non-monetary assets. Consequently, additional information on this issue is stated in Note 6.

As from this date and up to December 31, 2001 the restatement of the financial statements has been discontinued due to that period of monetary stability. As from January 1, 2002 and up to March 2003 the effects of inflation were recognized as it was an inflationary period. As from such date, in accordance with Resolution 441

COMPENSATIONS BY THE NATIONAL GOVERNMENT TO FINANCIAL ENTITIES AS A RESULT OF THE ASYMMETRIC PESIFICATION

Decree No. 905 also provided for covering the negative difference in the net position of foreign currency denominated assets and liabilities resulting from its translation into Pesos as established by the above-mentioned regulations, and entitled the Argentine Republic Central Bank (BCRA) to determine the pertinent rules.

EXPOSURE TO THE NON-FINANCIAL PUBLIC SECTOR

Banco Hipotecario S.A. keeps recorded in its financial statements assets with the Non-Financial Public Sector amounting to Ps. 2,885,227,047. On the other hand, liabilities to the Argentine Central Bank recorded as of September 30, 2007 amount to Ps. 183,870,517 being the credit balance related to advances to subscribe BODEN 2012 in line with sections 28 and 29 of Decree No. 905/02.

The net exposure with the Public Sector, without considering liquid assets in accounts authorized by the Argentine Central Bank, amount to Ps. 2,701,356,924 and Ps. 3,515,249,523 as of September 30, 2007 and 2006, respectively.

Banco Hipotecario S.A. seeks to use the assets portfolio of the public sector, securing the application of the advance to finance the subscription of cover bonds, as stated by sec. 29, Decree No. 905/02.

As from January 1, 2006, the provisions of point 12, Communiqué A 3911 (Communiqué A 4455) became effective as to the fact that the assistance to the public section for this item (measured on average) may not exceed 40% of total assets related to the last day of the preceding month. By means of Communiqué A 4546 of July 9, 2006, it was established that as from July 1, 2007, the amendment to such cap will be 35%. The exposure of Banco Hipotecario S.A. to the Public Sector originates in clearances granted by the National Government due to the 2002 crisis, mainly related to the asymmetric dedollarization of assets and liabilities denominated in foreign currencies. For such reason and considering that the Public Sector's assets exceed such cap (representing about 29% and 39% of assets as of September 30, 2007 and 2006, respectively), on January 19, 2006, Banco Hipotecario S.A. reported to the BCRA that it will decrease the proportion of its assets subject to the Public Sector's exposure according to the amortization and settlement carried out by the Government of bonds received for the asymmetric compensation, in the currency of issuance, and thus far no objections have been received.

Business Highlight

SUMMARY as of September 30, 2007

Buenos Aires, November 5, 2007 - Cresud S.A.C.I.F. y A. (Nasdaq: CRESY BCBA: CRES), one of the leading agricultural companies in Argentina, announces today its results for the first quarter of fiscal year 2008 ended September 30, 2007.

Results for the first quarter of fiscal year 2008 showed a net loss of Ps.12.6 million compared to a Ps. 1.9 million profit posted the same period of the previous fiscal year. The decrease in net results is mainly explained by the operating losses and interests in related companies.

Consolidated net sales for the period amounted to Ps.38.3 million, 63.8% higher than those posted for the same period of the previous fiscal year. Noteworthy in this respect is the increase in crop sales, in excess of 119.9% when compared to the first quarter of 2007.

Operating revenues amounted to Ps.11.3 million in the first quarter of fiscal year 2008, 84.4% up from those recorded in the same quarter of the previous fiscal year. This improvement resulted mainly from a Ps.2.6 million increase in the Crops segment, a Ps. 0.4 million increase in the Beef Cattle segment, and a Ps.2.2 million increase in the Milk segment.

Gross profit during the first quarter of fiscal year 2008 amounted to Ps.1.4 million as compared to the Ps.0.2 million gross profit posted during the same period of the previous year. This increase mainly results from a higher gross profit from the milk segment, which amounted to Ps.1.2 million in the first quarter of fiscal year 2008 compared to a loss of Ps.0.1 million in the same period of the previous fiscal year. The Others segment also contributed to this result, as the gross profit from this segment increased to Ps.1.4 million in the first quarter of fiscal year 2008 from Ps.0.2 million in the first quarter of fiscal year 2007.

Operating results showed for the quarter ended September 30, 2007 a Ps.7.2 million loss compared to a loss of Ps.2.8 million recorded in the same period of fiscal year 2007. This result is mainly due to an increase in gross profit of Ps.1.3 million, higher selling expenses of Ps.1.3 million, an increase of Ps.1.0 million in administrative expenses and a Ps.3.3 million reduction in the result from holdings of inventories (cattle, grains and supplies) and hedge transactions in the Futures Market.

Results from related companies showed a Ps.5.3 million loss mainly due to the results of our interest in IRSA Inversiones y Representaciones S.A. as of September 30, 2007.

Summary of operations

Crops

Crops sales for the quarter totaled Ps.18.6 million, compared to sales for Ps.8.4 million in the previous fiscal year. The increase in sales is mainly due to the volume of crops sold, which amounted to 37,568 tons at an average price per ton of Ps.507 compared to the 20,229 tons sold at an average price of Ps.417 in the same period of the previous fiscal year. The higher sales volume was also favored by the increase in crop production and larger stock of crops at the beginning of the first quarter of fiscal year 2008.

The stock of crops as of the end of the quarter totaled 51,493 tons, 23,890 of which were corn, 21,714 were soybean, 4,650 were wheat, and 1,239 were other crops.

Gross results in the segment for the period ended September 30, 2007 were a Ps. 0.5 million loss, compared to the Ps.0.6 million profit for the same period of the previous fiscal year.

Business Highlight (Continued)

For the current season we have allocated 60,178 hectares to agriculture, 29,624 of which are leased from third parties and 5,200 are operated under concession. Compared to the previous fiscal year, we have increased the number of total hectares allocated to agriculture by 7,663.

Beef Cattle

As of September 30, 2007, the Company's cattle stock was 78,277 heads, i.e., a figure quite similar to that posted for the same period of the previous year, with a total of 126,492 hectares allocated to beef cattle activities. The number of hectares allocated to beef cattle production increased by 7,131 hectares compared to the same period of the previous year due to the increased amount of land operated under lease and the conversion of land reserves to livestock production in the Los Pozos farm.

Beef cattle sales amounted to Ps.11.8 million for the first quarter of fiscal year 2008, when a total of 4,669 tons were sold, whilst during the first quarter of fiscal year 2007 the tons sold had amounted to 4,578.

The gross result from the beef cattle segment was a Ps. 0.7 million loss and beef cattle production amounted to 1,442 tons for the first quarter of fiscal year 2008, compared to a similar loss yet with a production of 1,754 in the same period of the previous fiscal year. The decrease in production volumes was mainly due to the deconsolidation of Cactus Argentina S.A. resulting from the reduction in our interest from 50% to 24%, compared to the proportional consolidation of such company during the first quarter of fiscal year 2007.

Prospects for the Argentine market are good. The Government increased exports of beef cattle cuts and reduced regulations on the industry and Argentina consolidated its status as a country free of foot and mouth disease where vaccination is practiced, which translated into a re-opening of almost all foreign markets. Additionally, global demand continued to grow, which would represent a major driver for the price of beef cattle.

Milk

Milk production increased by 26.7% in the quarter, from 3.9 million liters as of September 30, 2006 to 5.0 million as of September 30, 2007. This increase was mainly due to the startup of production in the new dairy facility located in our La Juanita farm, which increased its milking capacity to 1,800 cows, and the higher efficiency rate of the daily average milk production per head.

The gross result increased from a loss of Ps. 0.15 million in the first quarter of fiscal year 2007 to an income of Ps.1.2 million in the first quarter of fiscal year 2008.

During the first quarter of fiscal year 2007 we had 6,606 cattle heads in 2,376 hectares allocated to milk production, whereas in the first quarter of fiscal year 2008 this figure increased to 7,276 heads in 3,723 hectares. On average, there are 2,848 milking cows per day, 14.7% higher than for the same period of the previous year.

Business Highlight (Continued)

At present, the Company's dairy facilities are located in the La Juanita farm, where the feeding system is based mainly on pastures (with lower costs) and in El Tigre, a dairy farm equipped with state-of-the-art technology.

Sale of farms

In August 2007, we executed a preliminary sales agreement without transfer of possession in connection with 4,974 hectares of the Los Pozos establishment located in the Province of Salta. The agreed sales price was US\$ 1.1 million i.e., US\$ 225.0 per hectare. As of September 30, 2007, US\$ 0.3 million had been collected, while the balance has been financed. Income derived from this sale will be approximately US\$ 1.0 million. It should be noted that the parcel sold under this transaction was recorded in the Company's books at US\$ 7.0 per hectare. After the closing of the first quarter of fiscal year 2008 the Company signed the title deeds of these properties.

Development of marginal lands

We consider the potential offered by the sector to lie on the development of marginal areas, as has been the case in various countries worldwide. With current state-of-the-art technology, similar yields can be obtained with larger profits than those registered in core areas.

During the first quarter of fiscal 2008, we continued with the development of our Los Pozos farm located in the Province of Salta, which is expected to reach a total net surface area of 63,000 hectares of prairies sown by the end of fiscal year 2008. Progress was also made in the development of Agropecuaria Cervera S.A., which will add 6,000 hectares for agricultural production by the end of fiscal year 2008.

As of September 30, 2007 Cresud had own land reserves amounting to 315,668 hectares that were purchased at very attractive prices, and 151,648 hectares in lands under concession. The own land reserves include 90,000 hectares of the 8 de Julio farm, in the Province of Santa Cruz, which will be allocated to wool production during this fiscal year. We are convinced that with the development of these areas and the aid of technological breakthroughs, the value of land will show an upward trend that will result in significant revenues for the company.

Investments in other companies

BrasilAgro

Rather than a deficiency in operating performance -which quite the opposite, improved its results- this result reflects the increase in financial expenses and results from other companies. This result may be explained as follows:

Operating income increased 7.6%, from Ps. 51.3 million recorded in the first quarter of fiscal year 2007 to Ps. 55.2 million for the same period of fiscal year 2008, mainly driven by an improved performance in revenues, which grew by 15.3% totaling Ps. 195.6 million compared to Ps.169.6 million recorded in the first quarter of fiscal year 2007. Finally, results from related companies showed a loss of Ps.19.5 million in the first quarter of fiscal year 2008, compared to a profit of Ps.1.4 million in the same quarter of fiscal year 2007, mainly due to lower income from our interest in Banco Hipotecario.

Approval of dividend distribution and stock capital increase

After the closing of the first quarter of fiscal year 2008, the General Ordinary and Extraordinary Shareholders Meeting held on October 10, 2007 approved the distribution of cash dividends for Ps. 8.25 million.

In addition, the meeting approved a capital stock increase of up to Ps. 180 million par value, through the issuance of up to 180 million new common, book-entry shares of Ps.1.00 par value each and carrying one vote per share, entitled to dividends under the same conditions as the shares that are outstanding at the time of their issuance, to be publicly offered in Argentina or abroad. The Shareholders Meeting also resolved to grant free of charge to the subscribers of the stock capital increase, a warrant for subscribing common shares of the Company, which entitles to one share for every three shares of stock subscribed for. The exercise price of the warrants will be determined by the Board of Directors taking into account the subscription price plus a premium of up to 100%.

We expect to use the proceeds of the offering to finance an increase in our shareholding interest in IRSA and to make future investments in working capital and in the agricultural business in Latin America. We intend to focus principally on investments in Argentina, Brazil, Uruguay, Paraguay and Bolivia but may invest in other countries to the extent we believe such investments are consistent with our business strategy.

Financial Debt

As a result of the excellent investment opportunities seized in the course of the previous fiscal year, such as our ownership interest in BrasilAgro, the acquisition of farms and the increasing amount of our investments in NW Argentina during the current fiscal year, we have incurred indebtedness at levels higher than those incurred in previous fiscal years, totaling as of September 30, 2007 indebtedness in the amount of Ps.147.7 million, exclusive of our convertible notes.

Such indebtedness is composed of a loan granted by Credit Suisse for the purpose of financing our investment in BrasilAgro for Ps. 25.2 million and Ps.26.9 million for the purpose of financing our crop production, while the balance, i.e. Ps.95.6 million is concentrated in the short term.

Prospects for the coming quarter

International and Argentine economic conditions continue to lead the agricultural sector and our Company towards a position favorable to taking advantage of opportunities that may arise in the market. On top of the growing global demand for agricultural products to be used as food there is a new pressure factor on the side of demand: the new use of grains as sources of energy. We believe that prospects for the coming quarter are highly promising; crops are at historical highs and there is consensus in the market regarding the fact that these prices will remain high for a long period, as they are driven by the sound growth in demand and are therefore not likely to change significantly in the short and medium term. Consequently, we expect an increase in our profitability.

In this sense, we will continue with our strategy consisting in supplementing agricultural activities in our own farms with agricultural activities in leased farms and farms under concession, as long as the return on the investments for such activities amounts to the minimum levels required for the business, thereby seeking to atomize production risks and dilute overhead, while increasing agricultural production to take advantage of the excellent prospects in crop prices.

As regards the cattle beef business, our strategy for the next quarter is to increase output by adding new productive hectares, taking advantage of the good prospects for this sector. In addition, we will focus on vertical integration to be able to slaughter our own livestock and export for the account of third parties, which will result in significant profits for the Company.

As concerns the milk business, during this fiscal year we will continue expanding this segment to take advantage of the excellent opportunities currently offered by the market. In the next quarter we expect the second dairy facility opened at La Juanita farm to reach 100% of its milking capacity.

With respect to marginal area development, we will continue with the development of Los Pozos, adding more land allocated to agricultural and livestock production. On the other hand, we plan to continue with the development of new hectares for agricultural production in the concession over Agropecuaria Cervera S.A.'s farm.

In the future, we will continue to keep a watch out for opportunities that may arise in the land purchase and sale market, selling properties with little appreciation potential and acquiring farms located in marginal areas with high productive potential.

In the next quarters of fiscal year 2008 we shall see the first results of our wool production at the 8 de Julio farm, located in the Province of Santa Cruz. Prospects for this business are very good and we plan to take advantage of this opportunity.

Prospects for the agriculture business are much interesting. We believe that in the new world context, companies such as Cresud, with a long track record and deep knowledge of the business will have excellent chances to win the best opportunities in the market. We expect that once the stock capital increase has been implemented, we shall be able to complete our expansion strategy in Latin America and benefit from investments in other markets.

RESULTS OF OPERATIONS OF CRESUD

Three-month period ended September 30, 2007 (Q1 2008) in comparison with the three-month period ended September 30, 2006 (Q1 2007).

Production Income

Production income amount to Ps. 11.3 million in Q1 2008 and were 84.4% higher than those of the same quarter in the previous year. This was mainly due to a increase of Ps. 2.6 million in the grain segment, an increase of Ps. 0.4 million in the beef cattle segment and an increase of Ps. 2.2 million in the milk segment.

Crops

Production income for the grain segment increased by 433.2% from Ps. 0.6 million in Q1 2007 to Ps. 3.2 million in Q1 2008, mainly due to:

An increase in the production volume of 250.8%, from 2,618 tons in Q1 2007 to 9,185 tons in Q1 2008 (these production levels relate to residuals from corn harvest in the preceding campaign); and

A 24.9% increase in the average grain price.

The 250.8% increase in the production volume of the grain segment was mainly due to a larger harvested area residual from the preceding campaign, from 481 hectares during Q1 2007 to 2,712 hectares during Q1 2008 (including 938 hectares in concession from our subsidiary Agropecuaria Cervera S.A.).

The production volume increase in the grain segment was negatively impacted by a 37.8% decrease in our average yield, from 5.44 tons per hectare in Q1 2007 to 3.39 tons per hectares for Q1 2008.

The average grain prices (at net realization value) increased by 24.9%, from Ps. 228 per ton in Q1 2007 to Ps. 285 per ton for Q1 2008.

The following table shows the average listed prices as of September 30, 2007 and 2006:

Beef cattle

Production income for the beef cattle segment increased by 11.7% from Ps. 3.5 million in Q1 2007 to Ps. 3.9 million in Q1 2008, mainly due to:

A decrease in the production volume of beef from 17.8%, from 1,754 tons in Q1 2007 to 1,442 ton in Q1 2008.

A 35.9% price increase in the average value of kilogram produced, from Ps. 2.0 in 2007 to Ps. 2.7 in 2008, in the main cattle categories that positively impacted through the beef cattle recategorization in the current period. Cattle recategorization consists in category changes to reflect the various stages in its life cycle; and

More births in this period compared to the previous one.

The decrease in the production volume was mainly due to the deconsolidation effect of Cactus for the change in our equity interest from 50% to 24%, as compared to the proportional consolidation of this subsidiary during Q1 2007. Likewise, there was a slight decrease in the number of cattle head finished in the feedlot during Q1 2008, as regards the same period of the preceding period.

The number of hectares earmarked for beef cattle exploitation increased from 119,361 hectares in Q1 2007 to 126,492 hectares in Q1 2008 (for this last period, 41 hectares related to Cactus are not included). This increase was mainly due to a larger amount of exploited hectares under lease and the conversion of reserve hectares into cattle farmland at Los Pozos, during the current fiscal year, partially compensated because of cattle hectares no longer used due to the sale of the farm Tapenagá.

Milk

Revenues from milk production increased by 105.8%, from Ps. 2.1 million in Q1 2007 to Ps. 4.2 million in Q1 2008 (including Ps. 0.1 million generated by the dairy beef cattle recategorization, dairy cows are recategorized to reflect the various stages in their life cycle.

This increase was mainly due to:

A 26.7% increase in the milk production volume, from 3.9 million liters in Q1 2007 to 5.0 million liters in the same quarter of 2008. In turn, this increase was mainly due to:

- a. An increase in the average number of dairy cows (from 2,484 in Q1 2007 to 2,848 in Q1 2008) due in part to starting production in the new dairy farm at La Juanita, which increased its milking capacity to 1,800 cows, and
- b. A 10.5% increase in the daily milk production efficiency per cow, from 17.5 for Q1 2007 to 19.3 liters for Q1 2008.

A 57.3% increase in the average milk price, from Ps. 0.53 per liter in Q1 2007 to Ps. 0.83 per liter in Q1 2008.

Cost of production

Edgar Filing: CRESUD INC - Form 6-K

The cost of production increased by 68.2% from Ps. 7.7 million in Q1 2007 to Ps. 12.9 million in Q1 2008. This increase was mainly attributed to an Ps. 3.1 million increase in the grain segment, Ps. 1.3 million in the beef cattle segment, and Ps. 0.8 million in the milk segment.

Crops

Cost of production for the grain segment increased by 295.4% from Ps. 1.1 million in Q1 2007 to Ps. 4.2 million in Q1 2008, mainly due to:

An increase in the grain production volume due to a larger exploited area in Q1 2008 as regards the same quarter in 2007.

The production cost per ton decreased by 35.9%, from Ps.711 in Q1 2007 to Ps. 456 in Q1 2008, mainly due to an increased production level in Q1 2008 as compared to Q1 2007, although yields were slightly lower in 2008.

Beef cattle

Cost of production in the beef cattle segment increased by 28.7% from Ps. 4.4 million in Q1 2007 to Ps. 5.7 million in Q1 2008. Direct cost per kilogram produced increased by 74.4%, from Ps. 1.46 in Q1 2007 to Ps. 2.54 in Q1 2008, mainly due to a lower beef production level that did not allow to dilute the cost per kilogram produced in the current period.

Additionally, the increased production cost in the beef cattle segment during the current period was mainly due to an increase in feeding costs due to an increase in grain prices and to the draught effects during the winter.

Milk

Cost of production for the milk segment increased by 37.9% from Ps. 2.2 million in Q1 2007 to Ps. 3.1 million in Q1 2008, mainly due to:

A 26.7% increase in the milk production level for Q1 2008; and

The impact of increased feeding costs due to the increase in corn prices and other inputs related to the milk segment. Cost of production per liter of milk increased from Ps. 0.57 in Q1 2007 to Ps. 0.62 in Q1 2008.

Sales

Sales related to the quarter ended September 30, 2008 increased by 63.8%, from Ps. 23.4 million in Q1 2007 to Ps. 38.3 million in Q1 2008. This was mainly due to an increase of Ps. 10.1 million in the grain segment, Ps. 1.3 million the beef cattle segment, Ps. 2.1 million in the milk segment and Ps. 2.7 million in the others segment, partially set off by the deconsolidation effect from Cactus amounting to Ps. 1.3 million in the feedlot segment.

Crops

Sales for the grain segment increased by 119.9% from Ps. 8.4 million in Q1 2007 to Ps. 18.6 million in Q1 2008, mainly due to:

An 85.7% increase in the sales volume from 20,229 tons in Q1 2007 to 37,568 in Q1 2008; and

A 21.5% increase in the average commodity price, from Ps. 417 per ton in Q1 2007 to Ps. 507 in Q1 2008. The increased sales volume during Q1 2008 compared to 2007 was mainly due to increased initial grain stock levels (74,563 tons in the beginning of 2008 as compared to 28,315 tons at the beginning of 2007).

Administrative expenses

Administrative expenses increased by 32.7%, from Ps.3.2 million in Q1 2007 to Ps. 4.2 million in Q1 2008, mainly due to an increase in fees and considerations from services (including consulting fees mainly as regards compliance with the Sarbanes-Oxley Act, accounting, legal fees), salaries, social security and other taxes, rates and contributions and office and administration expenses.

Holding gain (losses) and MAT decreased by 177.5%, from Ps. 1.9 million income in Q1 2007 to Ps. 1.4 million loss in Q1 2008. Income from controlled and related companies decreased by 177.8%, from income amounting to Ps. 6.8 million in Q1 2007 to loss amounting to Ps. 5.3 million in Q1 2008, mainly due to:
