PROSPECTUS

KAR HOLDINGS, INC.

OFFERS TO EXCHANGE

\$150,000,000 aggregate principal amount of its Floating Rate Senior Notes due 2014, \$450,000,000 aggregate principal amount of its 8³/₄% Senior Notes due 2014, and \$425,000,000 aggregate principal amount of its 10% Senior Subordinated Notes due 2015, the issuance of each of which has been registered under the Securities Act of 1933 (collectively, the Exchange Notes),

for

any and all of its outstanding Floating Rate Senior Notes due 2014; 8³/₄% Senior Notes due 2014; and 10% Senior Subordinated Notes due 2015 (collectively, the Restricted Notes and, together with the Exchange Notes, the notes). We refer herein to the foregoing offers to exchange collectively as the exchange offer.

The exchange offer will expire at 5:00 p.m., New York City time, on March 18, 2008, unless we extend

the exchange offer in our sole and absolute discretion.

Terms of the Exchange Offer:

We will exchange all outstanding Restricted Notes that are validly tendered and not withdrawn prior to the expiration or termination of the exchange offer for an equal principal amount of the applicable Exchange Notes.

You may withdraw tenders of Restricted Notes at any time prior to the expiration or termination of the exchange offer.

The terms of the Exchange Notes are substantially identical in all material respects to those of the applicable outstanding Restricted Notes, except that the transfer restrictions, registration rights and additional interest provisions relating to the Restricted Notes do not apply to the Exchange Notes.

The exchange of Restricted Notes for Exchange Notes will not be a taxable transaction for United States federal income tax purposes, but you should see the discussion under the caption **Material United States Federal Income Tax Considerations** for more information.

We will not receive any proceeds from the exchange offer.

Edgar Filing: ADESA SAN DIEGO, LLC - Form 424B3

We issued the Restricted Notes in transactions not requiring registration under the Securities Act of 1933 and, as a result, their transfer is restricted. We are making the exchange offer to satisfy your registration rights, as a holder of the Restricted Notes.

Results of the Exchange Offer:

The Exchange Notes may be sold in the over-the-counter market, in negotiated transactions or through a combination of such methods. We do not plan to list the Exchange Notes or the Restricted Notes on any national securities exchange.

All outstanding Restricted Notes not tendered will continue to be subject to the restrictions on transfer set forth in the outstanding Restricted Notes and in the applicable indenture. In general, the outstanding Restricted Notes may not be offered or sold, unless registered under the Securities Act, except pursuant to an exemption from, or in a transaction not subject to, the Securities Act and applicable state securities laws. Other than in connection with the exchange offer, we do not currently anticipate that we will register the outstanding Restricted Notes under the Securities Act.

Each broker-dealer that receives Exchange Notes for its own account pursuant to the exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of such Exchange Notes. By so acknowledging and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of Exchange Notes received in exchange for Restricted Notes where such Restricted Notes were acquired by such broker-dealer as a result of market-making activities or other trading activities. We have agreed that, for a period of 90 days after the closing of this exchange offer, we will make this prospectus available to any broker-dealer for use in connection with any such resale. See Plan of Distribution.

There is no established trading market for the Exchange Notes or the Restricted Notes.

See Risk Factors beginning on page 23 for a discussion of risks you should consider prior to tendering your outstanding Restricted Notes for exchange.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

The date of this prospectus is February 14, 2008.

USE OF NON-GAAP MEASURES

EBITDA and Adjusted EBITDA, as presented in this prospectus, are supplemental measures of our performance that are not required by, or presented in accordance with, generally accepted accounting principles in the United States, or GAAP. They are not a measurement of our financial performance under GAAP and should not be considered as an alternative to revenues, net earnings (loss) or any other performance measures derived in accordance with GAAP or as an alternative to cash flow from operating activities as measures of our liquidity.

EBITDA is defined as net earnings (loss), plus interest expense net of interest income, income tax provision (benefit), depreciation and amortization, as set out in our Unaudited Pro Forma Consolidated Statement of Operations included elsewhere in this prospectus. We believe that EBITDA is a useful financial metric to assess our operating performance from period to period by excluding certain items that we believe are not representative of our core business. We also believe EBITDA is useful to assess our ability to generate cash from operations sufficient to pay taxes, to service debt and to undertake capital expenditures. We use EBITDA for business planning purposes, including to establish budgets and operational goals and manage our business. We believe EBITDA is a measure commonly used by investors to evaluate our performance as well as the performance of our competition.

Adjusted EBITDA is calculated by adjusting EBITDA for the items of income and expense and cost saving as follows: (a) gain and losses from asset sales; (b) unrealized foreign currency translation gains and losses in respect of indebtedness; (c) certain non-recurring gains and losses; (d) stock option expense; (e) certain other noncash amounts included in the determination of net income; (f) management, monitoring, consulting and advisory fees paid to the equity sponsors; (g) charges and revenue reductions resulting from purchase accounting; (h) unrealized gains and losses on hedge agreements; (i) minority expenses; (j) expenses associated with the consolidation of salvage operations; (k) consulting expenses incurred for cost reduction, operating restructuring and business improvement efforts; (l) expenses realized upon the termination of employees and the termination or cancellation of leases, software licenses or other contracts in connection with the operational restructuring and business improvement efforts; and (m) expenses incurred in connection with permitted acquisitions. Management believes that the inclusion of supplementary adjustments to EBITDA applied in presenting Adjusted EBITDA is appropriate to provide additional information to investors about certain covenants required pursuant to our senior credit facilities and the notes.

The EBITDA measure has limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for analysis of our results as reported under GAAP. Some of these limitations are:

it does not reflect our cash expenditures, or future requirements for capital expenditures or contractual commitments;

it does not reflect changes in, or cash requirements for, our working capital needs;

it does not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments, on our debt;

it does not reflect any cash income taxes that we may be required to pay;

assets are depreciated or amortized over differing estimated useful lives and often have to be replaced in the future, and this measure does not reflect any cash requirements for such replacements;

it is not adjusted for all non-cash income or expense items that are reflected in our statements of cash flows;

it does not reflect the impact of earnings or charges resulting from matters we consider not to be indicative of our ongoing operations;

Table of Contents

it does not reflect limitations on, or costs related to, transferring earnings from our subsidiaries to us; and

other companies in our industry may calculate this measure differently than we do, limiting its usefulness as a comparative measure. Because of these limitations, our EBITDA measure should not be considered as a measure of discretionary cash available to us to invest in the growth of our business or as a measure of cash that will be available to us to meet our obligations. You should compensate for these limitations by relying primarily on our GAAP results and using this measure supplementally. See Management's Discussion and Analysis of Financial Condition and Results of Operations and our audited consolidated financial statements and the related notes included elsewhere in this prospectus.

Unless the context otherwise requires, in this prospectus, (i) we, us, our, the Company and KAR Holdings refer collectively to KAR Holdings, Inc., a Delaware corporation, and all its subsidiaries, including ADESA and IAAI; (ii) ADESA refers to ADESA, Inc. and its subsidiaries; (iii) IAAI refers to Insurance Auto Auctions, Inc. and its subsidiaries; and (iv) the Equity Sponsors refers, collectively, to GS Capital Partners VI Fund, L.P., Kelso Investment Associates VII, L.P., Parthenon Investors II, L.P. and ValueAct Capital Master Fund, L.P., which own through their respective affiliates, including, in respect of Kelso, Axle Holdings II, LLC, substantially all of our equity.

SUMMARY

*This summary highlights information appearing elsewhere in this prospectus. This summary does not contain all of the information that you should consider before participating in this exchange offer. You should read the entire prospectus carefully, including the matters discussed under the caption *Risk Factors* and *Unaudited Pro Forma Consolidated Financial Data* and in the financial statements and related notes included elsewhere in this prospectus, as well as information incorporated by reference. On April 20, 2007, KAR Acquisition, Inc. merged with and into ADESA, with ADESA continuing as the surviving corporation (the *Merger*). The Restricted Notes were issued in connection with the Merger and the related transactions described below. After consummation of the Merger and the related transactions, ADESA and IAAI became wholly owned subsidiaries of KAR Holdings, Inc.*

Our Company

Overview

We are the second largest provider of whole car auctions, the second largest provider of salvage vehicle auctions and have the largest network of automobile auction locations in North America. Our network of whole car and salvage vehicle auctions facilitates the sale of used and salvage vehicles through physical, online and hybrid auctions, which permit Internet buyers to participate in physical auctions. We earn auction fees from both vehicle buyers and sellers for completed transactions. We also generate revenues by providing our customers with value-added ancillary services, including reconditioning, inspection and certification, titling, transportation and administrative and salvage recovery services. We facilitate the transfer of ownership directly from seller to buyer and, in almost all cases, we do not take title or ownership to vehicles sold at our auctions.

We are also a leading provider of short-term inventory-secured financing, known as floorplan financing, primarily to independent used vehicle dealers. Floorplan financing typically involves the financing of dealer vehicle purchases at auction in exchange for a security interest in those vehicles. Loans are generally short-term in nature and typically repaid when the vehicle is sold by the dealer. We generate revenues from both fees and interest on these loans.

Our key competitive advantages include our leading North American market positions, broad distribution network, established relationships with a diversified customer base, comprehensive range of innovative value-added services and strong management team with significant industry experience. As of January 21, 2008, we have a network of 58 whole car auction locations, 134 salvage auction locations and 91 loan production offices in North America. Our auction locations are primarily stand-alone facilities dedicated to either whole car or salvage auctions. Eight of these locations are combination sites, which offer separate whole car and salvage auctions. We believe our extensive network and product offerings enables us to drive revenues by leveraging relationships with North American institutional vehicle providers and over 85,000 registered buyers of used and salvage vehicles.

Business Segments

We operate through three business segments: ADESA Auctions, IAAI Salvage and Automotive Finance Corporation, or AFC.

ADESA Auctions

We are the second largest provider of whole car auctions and related services in North America. We serve our customer base through 58 whole car auction sites located throughout North America. Our whole car auction facilities are strategically located to draw professional sellers and buyers together and allow our buyers to physically inspect and compare vehicles, which we believe many customers in the industry demand. Our

Table of Contents

complementary online auction capabilities provide the convenience of viewing, comparing and bidding on vehicles remotely and the advantage of a potentially larger group of buyers.

Vehicles available at our auctions include vehicles from institutional customers, such as off-lease vehicles, repossessed vehicles, rental vehicles and other program fleet vehicles that have reached a predetermined age or mileage and have been repurchased by the manufacturers, as well as vehicles from dealers turning their inventory. Sellers include large institutions, such as vehicle manufacturers and their captive finance arms, vehicle rental companies, financial institutions, commercial fleets and fleet management companies and independent and franchised used vehicle dealers. Buyers are primarily franchised or independent used vehicle dealers. We currently maintain relationships with over 50,000 such registered buyers.

ADESA Auctions generates revenue primarily from auction fees paid by vehicle buyers and sellers. In almost all cases, ADESA Auctions does not take ownership or title to vehicles sold at our auctions. Our buyer fees and dealer seller fees are typically based on a tiered structure with fees increasing with the sale price of the vehicle, while institutional seller fees are typically fixed. We also generate revenues from ancillary services, such as vehicle reconditioning and preparation, transportation and professional field information services.

IAAI Salvage

We are the second largest provider of salvage vehicle auctions and related services in North America. We serve our customer base through 134 salvage auction locations throughout North America. Our salvage auctions facilitate the redistribution of damaged vehicles that are designated as total-losses by insurance companies, recovered stolen vehicles for which an insurance settlement with the vehicle owner has already been made and older model vehicles donated to charity or sold by dealers in salvage auctions.

Salvage vehicles are primarily supplied by property and casualty insurance companies, as well as non-profit organizations, automobile dealers and vehicle leasing and rental car companies. We enjoy long-term relationships with all the major automobile insurance companies in North America. Buyers of salvage vehicles include licensed vehicle dismantlers, rebuilders, repair shop operators and used vehicle dealers. We currently maintain relationships with over 41,000 such registered buyers.

We process salvage vehicles primarily under two consignment methods: fixed fee and percentage of sale. Under these methods, in return for agreed upon fees, we sell vehicles on behalf of insurance companies, which continue to own the vehicles until they are sold to buyers at auction. In addition to auction fees, we generally charge fees to vehicle suppliers for various services, including towing, title processing and other administrative services. Under all methods of sale, we also charge vehicle buyers fees based on a tiered structure that increases with the sale price of the vehicle, as well as fixed fees for other services.

AFC

We are a leading provider of floorplan financing to independent used vehicle dealers. We provide, directly or indirectly through an intermediary, floorplan financing to independent used vehicle dealers through 91 loan production offices located throughout North America. Typical loan terms are 30 to 60 days with an option to extend the original term of the loan. In 2007, AFC arranged approximately 1.2 million loan transactions, which number includes extensions or curtailments of loans. We sell the majority of our U.S. dollar denominated finance receivables without recourse to a wholly owned bankruptcy remote special purpose entity, which sells an undivided participation interest in such finance receivables to a bank conduit facility on a revolving basis.

Floorplan financing supports independent used vehicle dealers in North America which purchase vehicles from our auctions, independent auctions, auctions affiliated with other auction networks and non-auction purchases. Our ability to provide floorplan financing facilitates the growth of vehicle sales at auction.

Table of Contents

AFC generates a significant portion of its revenue from fees. These fees include origination, curtailment and other related program fees. We collect accrued fees and interest when the loan is extended or paid in full. To secure our obligations, we typically retain possession of the title document to the vehicle, file UCC filings and receive personal guarantees from the dealer. We also maintain a close relationship with customers to assess their financial health and conduct regular inventory checks on the dealers' lots through our AutoVIN subsidiary.

Competitive Strengths

Leading North American Market Positions

We are the second largest provider of whole car auctions and salvage vehicle auctions and related services in North America. In 2006, the most recent date available, we had estimated market shares of approximately 18% and 33% in the whole car auction and salvage auction markets, respectively. We leverage our significant market presence to attract a high volume of vehicles, thereby ensuring sufficient supply to create the successful marketplaces that buyers and sellers demand. We also have a leading market position in the floorplan financing industry. AFC's broad coverage, strong brand name and longstanding customer relationships have established it as a leading provider of floorplan financing for independent used car dealers.

Broad North American Distribution Network

Our 58 whole car and 134 salvage auction locations enable us to provide a single source solution for our customers' needs throughout North America. In addition, AFC has 91 loan production offices supporting independent dealers across North America who purchase vehicles from auctions held by ADESA Auctions, independent auctions, auctions affiliated with other auction networks and non-auction sources. Of these offices, 46 are located at ADESA Auctions sites, 34 are located strategically near auctions and 11 are located at third-party auctions. Our network enables us to maintain and develop our relationships with local sellers and buyers, while our North American presence allows institutional customers to access buyers and to redistribute vehicles to markets where demand best matches supply. Our presence in 70 of the top 75 metropolitan markets in the United States gives us an advantage over our smaller competitors, the large majority of which operate in a single market and lack scale. As our customers increasingly demand single source solutions, we believe that our scale and network will become an even more distinct advantage over our competitors. In addition, we believe our broad, established network positions us well because of the large tracts of land required to build new auction sites (our average whole car site is 75 acres and our average salvage site is 20 acres) and the need to comply with regulatory requirements, including zoning and use permits.

Established Relationships with a Diversified Customer Base

We have established strong business relationships with dealers and institutional customers, such as vehicle manufacturers, insurers, financial institutions, rental agencies and fleet companies. We have a diverse customer base and do not have a major concentration of business with any one customer. We believe this diversity allows us to better withstand changes in the economy and market conditions. In our whole car business, we enjoy long-term relationships with all of the major vehicle manufacturers, vehicle finance companies and rental car companies in North America, including Chrysler Motors, LLC, Ford Motor Company, General Motors Corporation, American Honda Finance Corporation, Toyota Motor Credit Corporation, AmeriCredit Financial Services, Inc., Capital One Auto Finance, Chase Auto Finance Corp., Enterprise Rent-A-Car, The Hertz Corporation, Mercedes-Benz Credit Corporation, Nissan North America, Inc., VW Credit, Inc., WFS Financial and World Omni Financial Corp. In our salvage vehicle auction business, we enjoy long-term relationships with The Allstate Corporation, American Family Insurance, American International Group, The Farmers Insurance Group of Companies, GEICO (Government Employees Insurance Company), Nationwide Financial Services, Inc., The Progressive Corporation, State Farm and USAA (United Services Automobile Association). As of

Table of Contents

January 1, 2008, no single supplier represented more than 7.5% of our unit sales and no single buyer represented more than 1% of our unit sales. ADESA Auctions has over 50,000 registered buyers, while IAAI Salvage has over 41,000 registered buyers.

Single-Source Service Provider of Value-Added Services

We are able to serve as a one-stop shop for our customers by offering a comprehensive range of innovative and value-added services. We offer physical auctions with Internet-bidding capabilities that enable buyers to pre-bid over the Internet, participate in person at a physical auction and bid over the Internet in real time. Through ADESA Auctions, we offer reconditioning and preparation services and customized reporting and analytical services. Through IAAI Salvage, we provide on-site facilities for insurance providers and online tools for salvage vehicle suppliers that include inventory management, salvage returns analysis and electronic data interchange of titling information. We also provide our insurance company suppliers with the capability to electronically assign and manage their salvage vehicle inventory.

Strong Management Team with Significant Industry Experience

Our senior management team has extensive experience in the automotive services industry.

Brian Clingen, our Chairman and Chief Executive Officer, has significant operational and investment experience in the automotive services industry. Mr. Clingen has served as a managing partner of BP Capital Management since 1998.

Jim Hallett, President and Chief Executive Officer of ADESA Auctions, has significant experience in the automotive auctions industry. Mr. Hallett previously served as an executive officer of ADESA from August 1996 until May 2005.

Tom O Brien, President and Chief Executive Officer of IAAI Salvage, has over 30 years experience in general management of various businesses, with 15 years in businesses that provide services to the automotive insurance industry. Mr. O Brien has led IAAI since 2000.

Curt Phillips, President and Chief Executive Officer of AFC, has significant experience in overseeing accounting, cash management, and the credit and contract functions. Mr. Phillips previously served as Chief Financial Officer of AFC from April 1998 until January 2004.

Eric Loughmiller, our Chief Financial Officer, has over 25 years experience in finance and accounting and over 10 years as Chief Financial Officer of public and private companies.

John Nordin, our Chief Information Officer, has over 26 years of experience in IT and over 13 years as Chief Information Officer of public and private companies.

Rebecca Polak, our Executive Vice President, General Counsel and Secretary, has significant experience in corporate and securities law. Ms. Polak served as Associate General Counsel of ADESA from February 2005 to April 2007.

Business Strategy

We continue to focus on growing our revenues and profitability through the execution of the following key operating strategies:

Increase Whole Car Volume

Institutional. We continue to focus on growing our whole car auction business by building stronger and more interactive relationships with our institutional customers. Jim Hallett is highly regarded in the industry, and has extensive customer relationships that he has developed over 17 years in the North American used vehicle redistribution industry. In addition, we have staffed, and will continue to staff, our sales organization with relationship managers focused on the various categories of institutional customers that we serve. To the extent possible, we have aligned our managers with the types of customers that they have the most relevant experience with: vehicle manufacturers, finance companies, rental car companies, leasing companies and fleet management companies. This allows our managers to focus on the current trends for their respective institutional customer group in order to better coordinate our sales efforts and service offerings tailored to our customers' needs. In addition to our team of relationship managers, we utilize ADESA Analytical Services to provide our institutional customers with customized studies and data analysis tools to enhance their remarketing decisions, target potential buyers and determine the best market and forum for their vehicles.

Dealers. We have a decentralized sales and marketing approach for our dealer business with primary coverage responsibilities managed by the individual auction locations. We believe this decentralized approach enhances relationships with the dealer community and increases dealer volumes at our auctions. Dealer business is a highly market specific business and we have local relationship managers who have experience in the used car business and possess an intimate knowledge of their local market.

Realize Cost Savings and Enhance Revenues in Salvage Operations

We continue to focus on cost savings and revenue synergies from the combination of ADESA's and IAAI's salvage operations by reducing corporate overhead of the combined salvage operations. We strive to increase performance of our salvage operations through enhancement opportunities, including reducing corporate overhead of the combined salvaged operations, consolidating existing salvage sites onto existing whole car sites, opening new salvage sites on existing whole car sites, easing volume constraints through a larger branch network and implementing IAAI standard processes and information technology systems to streamline operations and improve operating efficiencies at existing ADESA salvage branches.

Over the past few years, IAAI has successfully implemented an operating model for its auction sites that streamlines numerous operating and administrative activities and standardizes processes, resulting in cost savings and improved customer service levels. We have implemented this scaleable operating model at 28 of ADESA salvage facilities located in the United States, which we believe will result in additional cost savings, primarily by reducing headcount and personnel costs. We intend to implement the IAAI operating model at 13 of ADESA's salvage locations in Canada in 2008.

Table of Contents

Reduce Costs and Enhance Revenues at ADESA Auctions

We continue to focus on reducing costs and enhancing revenues at ADESA Auctions by implementing the following initiatives:

Optimize management and staffing levels for each auction

Establish standardized operating procedures and utilize technology to automate process controls for key operational areas and to improve labor efficiency

Centralize certain common functions currently performed at individual auction locations such as payables processing and general ledger entry to reduce costs and improve working capital turns

Centralize and consolidate certain procurement functions to leverage global volumes of commodities and services to gain more favorable pricing

Standardize fee structures for ancillary services

Expand through Selective Relocations, Greenfields and Acquisitions

We continue our efforts on relocating several of our existing whole car auction facilities to new, larger facilities in markets where our existing facilities are capacity-constrained. In addition, increased demand for single source solutions by our customers may enable us to acquire smaller, less geographically diversified competitors at attractive prices. Both ADESA and IAAI have been successful in acquiring independent auction operations over the past few years. We will continue to evaluate opportunities to open new greenfield sites in markets adjacent to those in which we already have a presence, in order to effectively leverage our sales and marketing capabilities. We expect to expand our salvage operations by selectively locating new salvage auction sites at ADESA Auctions' existing auction facilities.

Expand AFC

We will continue to focus on expanding AFC's geographic coverage and gaining market share by adding loan production offices in selected markets and improving coordination with ADESA Auctions to capitalize on cross-selling opportunities. By encouraging a collaborative marketing effort between AFC and ADESA Auctions, we believe we can market more effectively to dealers and tailor AFC's financing products to individual dealer needs. We will continue to focus on generating additional revenues by expanding our floorplan financing business to certain IAAI Salvage buyers and by cross-selling our whole car auction services to our AFC customers that do not currently use ADESA Auctions.

Continue to Invest in Information Technology

We will continue to invest in and improve our technology infrastructure to expand service offerings and improve operating efficiencies and customer service. We are utilizing the experience gained through the recent development of IAAI's proprietary IT systems (completed in 2005) as we continue to upgrade the ADESA Auctions IT systems. John Nordin, our Chief Information Officer, who was instrumental in the implementation of IAAI's IT upgrade, is leading the systems upgrade effort for ADESA Auctions. We are utilizing technology to provide additional service offerings across our whole car and salvage businesses to improve customers' returns, shorten the claims processing cycle on the salvage side and lower overall transaction costs. In addition, we are enhancing our e-commerce products and services portfolio in order to better serve our whole car buyers and sellers. These information technology improvements should also allow us to reduce field staff through more efficient and reliable systems, while providing our institutional customers with quicker and better data analysis.

The Transactions

On April 20, 2007, KAR Acquisition, Inc., a Delaware corporation that was a wholly owned subsidiary of KAR Holdings, merged with and into ADESA, with ADESA continuing as the surviving corporation. After completion of the Merger and related transactions described below, ADESA and IAAI became wholly owned subsidiaries of KAR Holdings.

The following transactions occurred in connection with the Merger: (i) all of ADESA's outstanding equity interests were cancelled in exchange for aggregate cash payments of approximately \$2,541.5 million; (ii) affiliates of the Equity Sponsors and management contributed to KAR Holdings approximately \$1.1 billion in equity, consisting of approximately \$790.0 million in cash and approximately \$272.4 million in equity interest in IAAI; (iii) we entered into senior secured credit facilities, comprised of a \$1,565.0 million term loan facility and a \$300.0 million revolving credit facility and, each of our existing and certain future domestic subsidiaries, subject to certain exceptions, guaranteed such credit facilities; and (iv) we issued the Restricted Notes and, after the Merger, each of our restricted subsidiaries that guaranteed our senior secured credit facilities also guaranteed the Floating Rate Senior Notes and Fixed Rate Senior Notes on an unsecured senior basis and the Senior Subordinated Notes on a senior subordinated basis.

In addition, in connection with the Merger, ADESA completed a tender offer to purchase for cash any and all of its outstanding 7⁵/₈% senior subordinated notes due June 15, 2012, or the 2012 Notes, and a consent solicitation to amend the indenture governing the 2012 Notes to eliminate substantially all of the restrictive covenants and certain events of default and modify other provisions contained in such indenture. Also, IAAI completed a tender offer to purchase for cash any and all of its outstanding 11% senior notes due April 1, 2013, or the 2013 Notes, and a consent solicitation to amend the indenture governing the 2013 Notes to eliminate substantially all of the restrictive covenants and certain events of default and modify other provisions contained in such indenture.

The equity contributions, borrowings under our senior credit facilities, our cash on hand and the net proceeds from the offering of the Restricted Notes were used to pay the Merger consideration, consummate the tender offers and pay the related fees and expenses. In this prospectus, we refer to the Merger and the above related transactions as the Transactions.

Upon consummation of the Transactions, we also entered into agreements with the Equity Sponsors and their affiliates, pursuant to which such entities or their affiliates will provide financial and advisory services to us. See Certain Relationships and Related Party Transactions for more information regarding these agreements.

Summary Description of the Exchange Offer

On April 20, 2007, in connection with the Merger, we completed the private offering of \$150 million aggregate principal amount of Floating Rate Senior Notes due 2014 (the Floating Rate Senior Restricted Notes), \$450 million aggregate principal amount of 8% Senior Notes due 2014 (the Fixed Rate Senior Restricted Notes) and \$425 million aggregate principal amount of 10% Senior Subordinated Notes due 2015 (the Senior Subordinated Restricted Notes), which we refer to collectively as the Restricted Notes. As part of that offering, we entered into a registration rights agreement with the initial purchasers of the Restricted Notes in which we agreed, among other things, to complete an exchange offer for the Restricted Notes. We refer to the Floating Rate Senior Exchange Notes and the Fixed Rate Senior Exchange Notes (each as defined below) as the Senior Exchange Notes. Below is a summary of each exchange offer. We refer herein to the exchange offers collectively as the exchange offer.

Restricted Notes	(i) \$150 million aggregate principal amount of Floating Rate Senior Notes due 2014, (ii) \$450 million aggregate principal amount of 8 ³ / ₄ % Senior Notes due 2014 and (iii) \$425 million aggregate principal amount of 10% Senior Subordinated Notes due 2015.
Exchange Notes	(i) \$150 million aggregate principal amount of Floating Rate Senior Notes due 2014 (the Floating Rate Senior Exchange Notes), (ii) \$450 million aggregate principal amount of 8 ³ / ₄ % Senior Notes due 2014 (the Fixed Rate Senior Exchange Notes) and (iii) \$425 million aggregate principal amount of 10% Senior Subordinated Notes due 2014 (the Senior Subordinated Exchange Notes), the issuance of each of which has been registered under the Securities Act. The form and terms of each series of Exchange Notes are substantially identical in all material respects to those of the applicable series of Restricted Notes, except that the transfer restrictions, registration rights and additional interest provisions relating to the Restricted Notes do not apply to the Exchange Notes.
Exchange Offer	We are offering to issue up to: (i) \$150 million aggregate principal amount of Floating Rate Senior Exchange Notes, (ii) \$450 million aggregate principal amount of Fixed Rate Senior Exchange Notes, and (iii) \$425 million aggregate principal amount of Senior Subordinated Exchange Notes, in exchange for a like principal amount of the respective Restricted Notes to satisfy our obligations under the registration rights agreement that we entered into when the Restricted Notes were issued in reliance upon the exemption from registration provided by Rule 144A and Regulation S of the Securities Act.

Table of Contents

Expiration Date; Tenders	<p>The exchange offer will expire at 5:00 p.m., New York City time, on March 18, 2008, unless extended in our sole and absolute discretion. By tendering your Restricted Notes, you represent to us that:</p> <p>you are not our affiliate, as defined in Rule 405 under the Securities Act;</p> <p>you are not engaged in, and do not intend to engage in, and have no arrangement or understanding with any person to participate in, a distribution of the Exchange Notes;</p> <p>you are acquiring the Exchange Notes in your ordinary course of business; and</p> <p>if you are a broker-dealer, you will receive the Exchange Notes for your own account in exchange for Restricted Notes that were acquired by you as a result of your market-making or other trading activities and that you will deliver a prospectus in connection with any resale of the Exchange Notes you receive. For further information regarding resales of the Exchange Notes by participating broker-dealers, see the discussion under the caption Plan of Distribution.</p>
Withdrawal	<p>You may withdraw any Restricted Notes tendered in the exchange offer at any time prior to 5:00 p.m., New York City time, on March 18, 2008.</p>
Conditions to the Exchange Offer	<p>The exchange offer is subject to customary conditions, which we may waive. See the discussion below under the caption The Exchange Offer Conditions to the Exchange Offer for more information regarding the conditions to the exchange offer.</p>
Procedures for Tendering the Restricted Notes	<p>Except as described in the section titled The Exchange Offer Procedures for Tendering Restricted Notes, a tendering holder must, on or prior to the expiration date, transmit an agent's message to the exchange agent at the address listed in this prospectus. In order for your tender to be considered valid, the exchange agent must receive a confirmation of book entry transfer of your Restricted Notes into the exchange agent's account at The Depository Trust Company, or DTC, prior to the expiration or termination of the exchange offer.</p>
Special Procedures for Beneficial Owners	<p>If you are a beneficial owner whose Restricted Notes are registered in the name of the broker, dealer, commercial bank, trust company or other nominee, and you wish to tender your Restricted Notes in the exchange offer, you should promptly contact the person in whose name the Restricted Notes are registered and instruct that person to tender on your behalf. Any registered holder that is a participant in DTC's book-entry transfer facility system may make book-entry delivery of the Restricted Notes by causing DTC to transfer the Restricted Notes into the exchange agent's account.</p>

Use of Proceeds	We will not receive any proceeds from the exchange offer.
Exchange Agent	Wells Fargo Bank, National Association is the exchange agent for the exchange offer. You can find the address and telephone number of the exchange agent below under the caption The Exchange Offer Exchange Agent.
Resales	<p>Based on interpretations by the staff of the SEC, as detailed in a series of no-action letters issued to third parties, we believe that the Exchange Notes issued in the exchange offer may be offered for resale, resold or otherwise transferred by you without compliance with the registration and prospectus delivery requirements of the Securities Act as long as:</p> <p>you are acquiring the Exchange Notes in the ordinary course of your business;</p> <p>you are not participating, do not intend to participate and have no arrangements or understanding with any person to participate in a distribution of the Exchange Notes;</p> <p>you are not an affiliate of ours.</p> <p>If you are an affiliate of ours, are engaged in or intend to engage in or have any arrangement or understanding with any person to participate in the distribution of the Exchange Notes:</p> <p>you cannot rely on the applicable interpretations of the staff of the SEC;</p> <p>you will not be entitled to participate in the exchange offer; and</p> <p>you must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction.</p> <p>See the discussion below under the caption The Exchange Offer Consequences of Exchanging or Failing to Exchange Restricted Notes for more information.</p>
Broker-Dealer	Each broker or dealer that receives Exchange Notes for its own account in exchange for Restricted Notes that were acquired as a result of market-making or other trading activities must acknowledge that it will comply with the registration and prospectus delivery requirements of the Securities Act in connection with any offer to resell or other transfer of the Exchange Notes issued in the exchange offer, including the delivery of a prospectus that contains information with respect to any selling holder required by the Securities Act in connection with any resale of the Exchange Notes.

Furthermore, any broker-dealer that acquired any of its Restricted Notes directly from us:

may not rely on the applicable interpretation of the staff of the SEC's position contained in Exxon Capital Holdings Corp., SEC no-action letter (April 13, 1988), Morgan, Stanley & Co. Inc., SEC no-action letter (June 5, 1991) and Shearman & Sterling, SEC no-action letter (July 2, 1993); and

must also be named as a selling bondholder in connection with the registration and prospectus delivery requirements of the Securities Act relating to any resale transaction.

This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of Exchange Notes received in exchange for Restricted Notes which were received by such broker-dealer as a result of market making activities or other trading activities. We have agreed that for a period of not less than 90 days after the consummation of the exchange offer, we will make this prospectus available to any broker-dealer for use in connection with any such resale. See "Plan of Distribution" for more information.

Registration Rights Agreement

When we issued the Restricted Notes, we entered into a registration rights agreement with the initial purchasers of the Restricted Notes. Under the terms of the registration rights agreement, we agreed to use our commercially reasonable efforts to:

prepare and file with the SEC and cause to become effective a registration statement relating to an offer to exchange the Restricted Notes for the Exchange Notes;

keep the exchange offer open for not less than 20 business days (or longer if required by applicable law) after the date of notice thereof is mailed to the holders of the Restricted Notes; and

complete the exchange offer within 360 days of the issue date of the Restricted Notes.

If we do not complete the exchange offer within 360 days of the date that we sold the Restricted Notes, or if after a shelf registration statement with respect to the Restricted Notes is declared (or becomes automatically) effective and such registration statement thereafter ceases to be effective, additional interest will be paid in an amount equal to \$0.05 per week per \$1,000 principal amount of the applicable Restricted Notes. The amount of additional interest will increase by an additional \$0.05 per week per \$1,000 principal amount of the applicable Restricted Notes for each subsequent 90-day period until the registration default has been cured, up to a maximum amount of \$0.50 per week per \$1,000 principal amount of the applicable Restricted Notes.

Under some circumstances set forth in the registration rights agreement, holders of Restricted Notes, including holders who are not permitted to participate in the exchange

offer or who may not freely

sell Exchange Notes received in the exchange offer, may require us to file and cause to become effective, a shelf registration statement covering resales of the Restricted Notes by these holders.

A copy of the registration rights agreement is incorporated by reference as an exhibit to the registration statement of which this prospectus is a part. See Book-Entry, Delivery and Form.

Material United States Federal Income Tax Considerations

Your exchange of restricted notes for exchange notes pursuant to the exchange offer generally will not be a taxable event for U.S. federal income tax purposes.

Summary of Consequences of Not Exchanging Restricted Notes

If you do not exchange your Restricted Notes in the exchange offer, your Restricted Notes will continue to be subject to the restrictions on transfer currently applicable to the Restricted Notes. In general, you may offer or sell your Restricted Notes only:

if the offer or sale is registered under the Securities Act and applicable state securities laws;

if they are offered or sold under an exemption from registration under the Securities Act and applicable state securities laws; or

if they are offered or sold in a transaction not subject to the Securities Act and applicable state securities laws.

If you do not exchange your Restricted Notes in the exchange offer, you will continue to be entitled to all the rights and limitations applicable to the Restricted Notes as set forth in the applicable indenture, but we will not have any further obligation to you to provide for the exchange and registration of the Restricted Notes under the applicable registration rights agreement. Accordingly, there will be no increase in the interest rate on the Restricted Notes under the applicable circumstances described in the registration rights agreements.

We do not currently intend to register sales of the Restricted Notes under the Securities Act. Under some circumstances, however, holders of the Restricted Notes, including holders who are not permitted to participate in the exchange offer or who may not freely resell Exchange Notes received in the exchange offer, may require us to file, and to cause to become effective, a shelf registration statement covering resales of Restricted Notes by these holders. For more information regarding the consequences of not tendering your Restricted Notes and our obligation to file a shelf registration statement, see The Exchange Offer Consequences of Exchanging or Failing to Exchange Restricted Notes.

Summary Description of the Exchange Notes

The summary below describes the principal terms of the Exchange Notes. Certain of the terms and conditions described below are subject to important limitations and exceptions. The Description of Senior Exchange Notes section of this prospectus contains a more detailed description of the terms and conditions of the Senior Exchange Notes and the Description of Senior Subordinated Exchange Notes section of this prospectus contains a more detailed description of the terms and conditions of Senior Subordinated Exchange Notes.

Issuer	KAR Holdings, Inc.
Exchange Notes Offered	<p>Up to \$150.0 million in aggregate principal amount of Floating Rate Senior Notes due 2014.</p> <p>Up to \$450.0 million in aggregate principal amount of 8 ³/₄% Senior Notes due 2014.</p> <p>Up to \$425.0 million aggregate principal amount of 10% Senior Subordinated Notes due 2015.</p>
Maturity Dates	<p>The Floating Rate and Fixed Rate Senior Exchange Notes will mature on May 1, 2014 respectively.</p> <p>The Senior Subordinated Exchange Notes will mature on May 1, 2015.</p>
Interest Payment Dates	<p>With respect to the Floating Rate Senior Exchange Notes, May 1, August 1, November 1 and February 1 of each year, commencing August 1, 2007.</p> <p>With respect to the Fixed Rate Senior Exchange Notes and the Senior Subordinated Exchange Notes, May 1 and November 1 of each year, commencing November 1, 2007.</p>
Guarantees	<p>The Floating Rate and Fixed Rate Senior Exchange Notes will be guaranteed, jointly and severally and fully and unconditionally, on an unsecured unsubordinated basis by each of our subsidiaries that guarantees debt under our senior credit facility.</p> <p>The Senior Subordinated Exchange Notes will be guaranteed, jointly and severally and fully and unconditionally, on an unsecured subordinated basis by each of our subsidiaries that guarantees debt under our senior credit facility.</p>
Ranking	The Floating Rate and Fixed Rate Senior Exchange Notes and the respective guarantees thereof are our and the guarantors' unsecured, senior obligations and will rank in right of payment:

senior to all of our and our guarantors' existing and future subordinated indebtedness, including the Senior Subordinated Notes and the guarantees thereof; and

structurally subordinated to all existing and future liabilities, including trade and other payables, of our non-guarantor subsidiaries.

As of September 30, 2007, the aggregate amount of liabilities of our non-guarantor subsidiaries, including trade and other payables, was \$336.1 million.

Because the Exchange Notes are unsecured, in the event of bankruptcy, liquidation, reorganization or other winding up of our company or the guarantors or upon default in payment with respect to, or the acceleration of, any indebtedness under our senior secured credit facility or other secured indebtedness, the assets of our company and the guarantors that secure other secured indebtedness will be available to pay obligations on the Exchange Notes and the guarantees only after all indebtedness under such other secured indebtedness has been repaid in full from such assets. See "Description of Other Indebtedness."

As of September 30, 2007, the Senior Exchange Notes would have been effectively subordinated to approximately \$1,595.6 million of our and the guarantors' secured debt and there would have been \$300.0 million of additional availability under our senior secured credit facilities.

The Senior Subordinated Exchange Notes and the guarantees thereof are our and the guarantors' unsecured, senior subordinated obligations and rank in right of payment:

junior to all of our and the guarantors' existing and future senior indebtedness, including the Senior Exchange Notes and the guarantees thereof and any borrowings under our senior secured credit facilities and the guarantees thereof;

pari passu with all of our and our guarantors' existing and future unsecured senior subordinated indebtedness; and

structurally subordinated to all existing and future liabilities, including trade and other payables, of our non-guarantor subsidiaries.

As of September 30, 2007, the Senior Subordinated Exchange Notes would have been (i) subordinated to \$2,195.6 million of our and the guarantors' senior debt, including the Senior Exchange Notes, and there would have been \$300.0 million of additional availability under our senior secured credit facilities and (ii) structurally subordinated to \$336.1 million of liabilities of our non-guarantor subsidiaries, including trade and other payables.

Optional Redemption

We may, at our option, redeem some or all of the Floating Rate Senior Exchange Notes at the redemption prices listed under Description of Senior Exchange Notes Optional Redemption Floating Rate Senior Notes.

We may, at our option, redeem some or all of the Fixed Rate Senior Exchange Notes at the redemption prices listed under Description of Senior Exchange Notes Optional Redemption Fixed Rate Senior Notes.

We may, at our option, redeem some or all of the Senior Subordinated Exchange Notes at the redemption prices listed under Description of Senior Subordinated Exchange Notes Optional Redemption.

In addition, on or prior to May 1, 2010, we may, at our option, redeem up to 35% of each series of the Exchange Notes with the proceeds of equity offerings at the redemption price listed under Description of Senior Exchange Notes Optional Redemption and Description of Senior Subordinated Notes Optional Redemption.

Mandatory Repurchase Offer

If we experience specific types of changes in control, we must offer to repurchase the Exchange Notes at a price equal to 101% of the principal amount thereof, plus accrued and unpaid interest to the date of purchase, subject to the rights of holders of Exchange Notes on the relevant record date to receive interest due on the relevant payment date. See Description of Senior Exchange Notes Repurchase at the Option of Holders and Description of Senior Subordinated Exchange Notes Repurchase at the Option of Holders.

Certain Covenants

We will issue the Exchange Notes under indentures with Wells Fargo, National Association, which will initially act as trustee on your behalf. The indentures will, among other things, restrict our ability and the ability of our restricted subsidiaries to:

incur additional debt;

pay dividends and make distributions;

make certain investments;

repurchase stock;

incur liens;

enter into transactions with affiliates;

merge or consolidate; and

transfer or sell assets.

These covenants are subject to important exceptions and qualifications. For more details, see [Description of Senior Exchange Notes Certain Covenants](#) and [Description of Senior Subordinated Exchange Notes Certain Covenants](#).

Information About KAR Holdings

We were incorporated in Delaware on November 9, 2006. Our principal executive offices are located at 13085 Hamilton Crossing Boulevard, Carmel, Indiana 46032, and our telephone number is (800) 923-3725. Our websites are located at www.adesainc.com and www.iaai.com. The information on, or accessible through, the websites is not a part of, or incorporated by reference in, this prospectus.

Table of Contents**Summary Historical and Pro Forma Consolidated Financial Data**

The following table sets forth our summary historical consolidated financial data and summary unaudited pro forma consolidated income statement data, at the dates and for the periods indicated. The summary historical consolidated financial data as of September 30, 2007 and for the nine months ended September 30, 2007 have been derived from our unaudited consolidated financial statements and the related notes included elsewhere in this prospectus. We were incorporated on November 9, 2006; however, we had no operations until the consummation of the Transactions on April 20, 2007.

The summary unaudited pro forma consolidated statement of operations data and other financial data for the year ended December 31, 2006 and the nine months ended September 30, 2007 have been prepared to give effect to (i) the Transactions as if they had occurred on the first day of the fiscal year 2006 (December 26, 2005 for IAAI and January 1, 2006 for ADESA) and (ii) IAAI's acquisition of branches in Erie, Pennsylvania; Indianapolis and South Bend, Indiana; Cincinnati, Cleveland, Columbus, Dayton and Lima, Ohio; Ashland, Kentucky; Buckhannon, West Virginia; Missoula, Montana; Des Moines, Cedar Falls and Sioux City, Iowa; Cicero, New York; and Pulaski, Virginia (the IAAI 2006 Acquisitions), which all occurred during IAAI's 2006 fiscal year, as if each of these acquisitions had been consummated on December 26, 2005. The summary unaudited pro forma consolidated financial data does not purport to represent what our results of operations, balance sheet data or financial information would have been if the Transactions had occurred as of the dates indicated, or what such results will be for any future period.

The following selected financial data should be read in conjunction with Use of Non-GAAP Measures, Selected Historical Consolidated Financial Data, Unaudited Pro Forma Consolidated Financial Data, Management's Discussion and Analysis of Financial Condition and Results of Operations, the unaudited consolidated financial statements of KAR Holdings and related notes, the audited consolidated financial statements of ADESA and related notes, the audited consolidated financial statements of IAAI and related notes, and other financial information included elsewhere in this prospectus.

- (1) We were incorporated on November 9, 2006, but had no operations until the consummation of the Transactions on April 20, 2007.
- (2) The amount for pro forma nine months ended September 30, 2007 is based on the historical financial data of ADESA for the period from January 1, 2007 to April 19, 2007, the historical financial data of IAAI for the period from January 1, 2007 to April 19, 2007 and the historical financial data of KAR Holdings for the period from January 1, 2007 to September 30, 2007, as adjusted to combine the financial statements of ADESA and IAAI on a historical basis and to illustrate the pro forma effects of the Transactions as if they had occurred on January 1, 2006. KAR Holdings was incorporated on November 9, 2006, but had no operations until the consummation of the Transactions on April 20, 2007.
- (3) The 2006 pro forma amount excludes amounts related to the IAAI 2006 Acquisitions prior to the respective acquisition date.
- (4) For purposes of determining the ratio of earnings to fixed charges, earnings consist of income before income taxes and fixed charges. Fixed charges consist of interest on indebtedness, amortization of debt issuance costs which are charged to interest expense and a reasonable approximation of the interest factor related to operating leases. The amount of deficiency for the pro forma year ended December 31, 2006 was \$60.4 million.
- (5) Available cash and cash equivalents excludes cash in transit, restricted cash balances and foreign cash not repatriated at ADESA.
- (6) Working capital is defined as current assets less current liabilities.
- (7) Represents total debt less available cash and cash equivalents, which excludes cash in transit, restricted cash balances and foreign cash not repatriated at ADESA.
- (8) EBITDA is defined as net income (loss), plus interest expense net of interest income, income taxes and depreciation and amortization, as set out in detail below. Adjusted EBITDA consists of EBITDA as further adjusted to exclude (i) certain items and expenses that are permitted to be excluded from the calculation of Consolidated EBITDA, as that term is defined under our senior secured credit facilities and (ii) the expected incremental revenue and cost savings specified below.

We believe that the inclusion of supplementary adjustments to EBITDA applied in presenting Adjusted EBITDA are appropriate to provide additional information to investors about certain covenants that we are required to satisfy under our senior secured credit facilities and notes and

Edgar Filing: ADESA SAN DIEGO, LLC - Form 424B3

about our incremental revenue and cost savings. However, we cannot assure you that we will be able to realize these incremental revenues or cost savings or the timing thereof. See Risk Factors Risks Relating to Our Business We may not

Table of Contents

successfully implement our business strategies or realize our expected cost savings and revenue enhancements. EBITDA is also one of the measures management uses to assess our financial performance and is a metric used in certain of our management incentive programs.

Under our credit agreement and notes, we are required to maintain a Maximum Consolidated Senior Secured Leverage Ratio which is based on Adjusted EBITDA. Failure to comply with the ratio covenant would result in a default under the credit agreement for our credit facility and, absent a waiver or an amendment from the lenders, permit the acceleration of all outstanding borrowings under the credit facility.

EBITDA and Adjusted EBITDA are not recognized terms under GAAP and do not purport to be alternatives to net income as a measure of operating performance or to cash flows from operating activities as a measure of liquidity. Additionally, EBITDA and Adjusted EBITDA are not intended to be measures of free cash flow for management's discretionary use, as they do not reflect certain cash requirements such as interest payments, tax payments and debt service requirements. Furthermore, we cannot assure you that charges and expenses categorized as non-recurring below will not recur in the future. Because not all companies use identical calculations, these presentations of EBITDA and Adjusted EBITDA may not be comparable to similarly titled measures of other companies.

RISK FACTORS

Participating in the exchange offer involves a number of risks. You should consider carefully the following information about these risks, together with the other information included in this prospectus before tendering your Restricted Notes in the exchange offer. Additional risks and uncertainties not presently known to us, or that we currently deem immaterial, may also impair our business operations. We cannot assure you that any of the events discussed in the risk factors below will not occur. If they do, our business, financial condition or results of operations could be materially and adversely affected.

Risks Related to Our Business

Fluctuations in consumer demand for and in the supply of used, leased and salvage vehicles impact auction sales volume, conversion rates and the demand for floorplan financing by independent used vehicle dealers, which may adversely affect our revenues and profitability.

In the normal course of business, we are subject to changes in general U.S. economic conditions, including but not limited to, availability and affordability of consumer credit, interest rates, fuel prices, inflation, discretionary spending levels, unemployment rates and consumer confidence about the economy in general. Significant changes in economic conditions could adversely impact consumer demand for used vehicles.

As consumer demand fluctuates, the volume and prices of used vehicles may be affected and the demand for used vehicles at auction by dealers may likewise be affected. The demand for used vehicles at auction by dealers may therefore affect the wholesale price of used vehicles and the conversion percentage of vehicles sold at auction. In addition, changes in demand for used vehicles may affect the demand for floorplan financing as well as our ability to collect existing floorplan loans.

The number of new and used vehicles that are leased by consumers affects the supply of vehicles coming to auction. As manufacturers and other lenders have decreased the number of leases in the last few years and extended the lease terms of some of the leases that were written, the number of off-lease vehicles available at auction declined in 2003, 2004, 2005 and 2006. We are not able to predict manufacturers' and lenders' approaches to leasing and thus future volumes of off-lease vehicles may be affected based upon leasing terms and trends. The supply of off-lease vehicles coming to auction is also affected by the market value of used vehicles compared to the residual value of those vehicles per the lease terms. In most cases, the lessee and the dealer have the ability to purchase the vehicle at the residual price at the end of the lease term. Generally, as market values of used vehicles rise, the number of vehicles purchased at residual value by the lessees and dealers increases, thus decreasing the number of off-lease vehicles available at auction.

We are also dependent upon receiving a sufficient number of total-loss vehicles as well as recovered theft vehicles to sustain our profit margins in our salvage auction business. Factors that can affect the number of vehicles received include, but are not limited to, driving patterns, mild weather conditions that cause fewer traffic accidents, reduction of policy writing by insurance providers that would affect the number of claims over a period of time, delays or changes in state title processing, and changes in direct repair procedures that would reduce the number of newer, less damaged total-loss vehicles, which tend to have higher salvage values. In addition, our salvage auction business depends on a limited number of key insurance companies to supply the salvage vehicles we sell at auction. Our agreements with our insurance company suppliers are generally subject to cancellation by either party upon 30 to 90 days notice. There can be no assurance that our existing agreements will not be cancelled or that we will be able to enter into future agreements with these suppliers. Future decreases in the quality and quantity of vehicle inventory, and in particular the availability of newer and less damaged vehicles, could have a material adverse effect on our operating results and financial condition. In addition, in the last few years there has been a declining trend in theft occurrences which reduces the number of stolen vehicles covered by insurance companies for which a claim settlement has been made.

Table of Contents

Our operating results may fluctuate significantly.

Our operating results have in the past and may in the future fluctuate significantly depending on a number of factors, many of which are beyond our control. These factors include, but are not limited to:

general business conditions, including the availability and quality of used, leased and salvage vehicles and buyer attendance at our vehicle auctions;

trends in new and used vehicle sales and incentives, including wholesale used vehicle pricing;

economic conditions including fuel prices and Canadian exchange rate and interest rate fluctuations;

trends in the vehicle remarketing industry;

the introduction of new competitors;

laws, regulations and industry standards, including changes in regulations governing the sale of used vehicles, the processing of salvage vehicles and commercial lending activities;

changes in the market value of vehicles we auction, including changes in the actual cash value of salvage vehicles;

competitive pricing pressures; and

costs associated with the acquisition of businesses or technologies.

As a result of the above factors, we believe that period-to-period comparisons of our results of operations are not necessarily meaningful and should not be relied upon as any indication of future performance. Furthermore, revenues for any future quarter are not predictable with any significant degree of accuracy, and our operating results may vary significantly due to our relatively fixed expense levels. Due to these factors, it is possible that in some future quarters our operating results may fall below the expectations of public market analysts and investors.

Changes in interest rates or market conditions could adversely impact the profitability and business of AFC.

Rising interest rates may have the effect of depressing the sales of used vehicles because many consumers finance their vehicle purchases. In addition, AFC sells the majority of its finance receivable to a special purpose entity, which sells an undivided interest in its finance receivables to a bank conduit facility on a revolving basis. Volatility and/or market disruption in the asset-backed securities market in the U.S. can impact AFC's cost of financing related to; or its ability to arrange financing on acceptable terms through, its securitization conduit, which could negatively affect AFC's business and our financial condition and operations.

AFC generally charges interest on its floorplan loans based on the prime rate plus a spread. Declining interest rates decrease the interest income earned on AFC's loan portfolio.

We may not be able to grow if we are unable to successfully acquire and integrate other auction businesses and facilities.

Edgar Filing: ADESA SAN DIEGO, LLC - Form 424B3

The used vehicle redistribution industry is considered a mature industry in which low single-digit growth is expected in industry unit sales. Acquisitions have been a significant part of our historical growth and have enabled us to further broaden and diversify our service offerings. Our strategy involves the acquisition and integration of additional physical auction sites, technologies and personnel. Acquisition of businesses requires substantial time and attention of management personnel and may also require additional equity or debt financings. Further, integration of newly established or acquired businesses is often disruptive. Since we have acquired or in the future may acquire one or more businesses, there can be no assurance that we will identify appropriate targets, will acquire such businesses on favorable terms, or will be able to successfully integrate such organizations into our business. Failure to do so could materially adversely affect our business, financial condition and results of operations. In addition, we expect to compete against other auction groups or new industry consolidators for suitable acquisitions. If we are able to consummate acquisitions, such acquisitions could be dilutive to earnings, and we could overpay for such acquisitions.

Table of Contents

In pursuing a strategy of acquiring other auctions, we face other risks commonly encountered with growth through acquisitions. These risks include, but are not limited to:

incurring significantly higher capital expenditures and operating expenses;

entering new markets with which we are unfamiliar;

incurring potential undiscovered liabilities at acquired auctions;

failing to maintain uniform standards, controls and policies;

impairing relationships with employees and customers as a result of management changes; and

increasing expenses for accounting and computer systems, as well as integration difficulties.

High fuel prices may have an adverse effect on our revenues and operating results, as well as our earnings growth rates.

High fuel prices affect the demand for sport utility and full-sized vehicles which are generally not as fuel efficient as smaller vehicles. In addition, high fuel prices could lead to a reduction in the miles driven per vehicle which may reduce accident rates. Retail sales and accident rates are factors that affect the number of used and salvage vehicles sold at auction, wholesale prices of those vehicles and the conversion rates at used vehicle auctions. Additionally, high fuel costs increase the cost for the transportation and towing of vehicles. We may not be able to pass on such higher costs to the customers who supply vehicles to our auctions.

Weather-related and other events beyond our control may adversely impact operations.

Extreme weather or other events, such as hurricanes, tornadoes, earthquakes, forest fires, floods, terrorist attacks or war, may adversely affect the overall economic environment, the markets in which we compete, our operations and our profitability. These events may impact our physical auction facilities, causing a material increase in costs, or delays or cancellation of auction sales, which could have a material adverse impact on our revenues and profitability.

We are, and may in the future be, subject to patent or other intellectual property infringement claims, which could have an impact on our business or operating results due to a disruption in our business operations, the incurrence of significant costs and other factors.

From time to time, we may receive notices from others claiming that we infringe their patent or intellectual property rights, and the number of these claims could increase in the future. Claims of patent infringement could require us to enter into licensing agreements on unfavorable terms, incur substantial monetary liability or be enjoined preliminarily or permanently from further use of the intellectual property in question, which could require us to change our business practices and limit our ability to compete effectively. Even if we believe that the claims are without merit, the claims can be time-consuming and costly to defend and may divert management's attention and resources away from our businesses. If we are required to take any of these actions, it could have an adverse impact on our business and operating results.

Litigation could have an adverse effect on us.

There is no guarantee that we will be successful in defending ourselves in legal and administrative actions or in asserting our rights under various laws, including intellectual property laws. In addition, we could incur substantial costs in defending ourselves or in asserting our rights in such actions. The costs and other effects of pending litigation and administrative actions against us cannot be determined with certainty. Although we currently believe that no such proceedings will have a material adverse effect on us, there can be no assurance that the outcome of such proceedings will be as expected.

Capacity reductions at the major U.S. original equipment manufacturers could negatively impact the industry.

Capacity reductions at the major U.S. original equipment manufacturers are expected to impact the industry and may result in reduced program vehicles and rental fleet sales. In addition, weak growth in new vehicle sales impacts trade-ins and auction volumes.

We face significant competition.

We face significant competition for the supply of used and salvage vehicles and for the buyers of those vehicles. While competition in the used vehicle inventory floorplan financing sector is diverse and fragmented, competition is also strong in that sector. We face current or potential competition from four primary sources: (i) direct competitors, (ii) potential entrants, (iii) potential new vehicle remarketing venues and dealer financing services and (iv) existing alternative vehicle remarketing venues. In both the vehicle auction and dealer financing businesses, both we and our competitors are working to develop new services and technologies, or improvements and modifications to existing services and technologies. Some of these competitors may have greater financial and marketing resources than we do, and may be able to respond more quickly to new or emerging services and technologies, evolving industry trends and changes in customer requirements, and devote greater resources to the development, promotion and sale of their services. In our salvage auction business, potential competitors include used car auction companies, providers of claims software to insurance companies, certain salvage buyer groups and insurance companies, some of which currently supply auto salvage to us. While most insurance companies have abandoned or reduced efforts to sell salvage vehicles without the use of service providers such as us, they may in the future decide to dispose of their salvage directly to end users. Increased competition could result in price reductions, reduced margins or loss of market share, any of which could materially and adversely affect our business and results of operations. There can be no assurance that we will be able to compete successfully against current and future competitors or that competitive pressures faced by us would not have a material adverse effect on our business and results of operations. We may not be able to compete successfully against current or future competitors, which could impair our ability to grow and achieve or sustain profitability.

Our business is dependent on information and technology systems. Failure to effectively maintain or update these systems could result in our losing customers and materially adversely affect our operating results and financial condition.

Robust information systems are critical to our operating environment and competitive position. We may not be successful in structuring our information system infrastructure or developing, acquiring or implementing information systems which are competitive and responsive to the needs of our customers and we might lack sufficient resources to continue to make the significant necessary investments in information systems to compete with our competitors. Certain information systems initiatives that management considers important to our long-term success will require substantial capital investment, have significant risks associated with their execution, and could take several years to implement.

For example, our ability to provide cost-effective salvage vehicle processing solutions to our customers depends in part on our ability to effectively utilize technology to provide value-added services to our customers. We recently implemented a web-based operating system that allows us to offer hybrid live/Internet auctions and to provide vehicle tracking systems and real-time status reports for our insurance company customers benefit, and to support and streamline vehicle registration and tracking, financial reporting, transaction settlement, vehicle title transfer and branch/headquarters communications. Our ability to provide the foregoing services depends on our capacity to store, retrieve and process data, manage significant databases, and expand and periodically upgrade our information processing capabilities. As we continue to grow, we will need to continue to make investments in new and enhanced information and technology systems. Interruption or loss of our information processing capabilities or adverse consequences from implementing new or enhanced systems could have a material adverse effect on our operating results and financial condition. As our information system providers revise and upgrade their hardware, software and equipment technology, we may encounter difficulties in integrating these new technologies into our business.

Table of Contents

Although we have experienced no significant breaches of our network security by unauthorized persons, our systems may be subject to infiltration by unauthorized persons. If our systems or facilities were infiltrated and damaged by unauthorized persons, there could be a significant interruption to our ability to provide many of our electronic and web-based services to our customers. If that were to occur, it could have a material adverse effect on our operating results and financial condition.

Increased use of online wholesale auctions may diminish our supply of vehicles.

Online auctions or other methods of redistribution may diminish both the quality and quantity as well as reduce the value of vehicles sold through traditional auction facilities. Although we offer online auctions and services as part of our standard service offerings, we cannot predict what portion of overall sales will be conducted through online auctions or other redistribution methods in the future and what impact this may have on our auction facilities.

We are partially self-insured for certain losses.

We self-insure a portion of employee medical benefits under the terms of our employee health insurance program, as well as a portion of our automobile, general liability and workers' compensation claims. We record an accrual for the claims expense related to our employee medical benefits, automobile, general liability and workers' compensation claims based upon the expected amount of all such claims. While we believe these estimates are reasonable based on the information currently available, if actual claims are higher than anticipated, our accrual might be insufficient to cover the claims costs, which would have an adverse impact on the operating results in that period.

The operation of our auction facilities poses certain environmental risks which could adversely affect our results of operations and financial condition.

Our businesses are subject to regulation by various federal, state and local authorities concerning air quality, water quality, solid wastes and other environmental matters. In the used vehicle redistribution industry, large numbers of vehicles, including wrecked vehicles at salvage auctions, are stored at auction facilities and, during that time, releases of fuel, motor oil and other fluids may occur, resulting in soil, air, surface water or groundwater contamination. In addition, certain of our facilities generate and/or store petroleum products and other hazardous materials which are contained in aboveground or underground storage tanks located at our facilities. Some of our facilities generate waste materials, such as waste solvents or used oils, that are disposed of as non-hazardous or hazardous wastes, and body shops at our facilities may release harmful air emissions associated with painting. We are subject to safety and training regulations as required by local, state and federal law. While we have an environmental and safety compliance program that is administered by our environmental and safety department and includes monitoring, measuring and reporting compliance, establishing safety programs and training our personnel in environmental and safety matters, environmental laws and regulations could become more stringent over time and we may be subject to significant compliance costs in the future.

Any failure by us to obtain required permits or operate within regulations for, control the use of, or adequately restrict the discharge of hazardous or regulated substances or materials under present or future regulations could subject us to substantial liability, require costly cleanup or require changes in our remarketing services or auction facilities. While we have not to date incurred significant expenditures for preventive, investigative or remedial action with respect to contamination or the use of hazardous materials, we could in the future be exposed to such expenditures. Any liability arising from contamination at our facilities, including contamination by previous users of acquired facilities, the disposal of waste at off-site locations and other aspects of our operations could have a material adverse effect on our operating results and financial condition.

Table of Contents

We assume the settlement risk for all vehicles sold through our auctions.

We do not have recourse against sellers for any buyer's failure to satisfy its debt. Since our revenues for each vehicle do not include the gross sales proceeds, failure to collect the receivables in full may result in a net loss up to the gross sales proceeds on a per vehicle basis in addition to any expenses incurred to collect the receivables and to provide the services associated with the vehicle. Although we take steps to mitigate this risk, if we are unable to collect payments on a large number of vehicles, the resulting payment obligations and decreased fee revenues may have a material adverse effect on our results of operations and financial condition.

Our ability to operate our company successfully could be impaired if we fail to attract and retain key personnel.

Our success depends in large part on the performance of our executive management team and other key employees, including our key field personnel. If we lose the services of one or more of our executive officers or key employees, we may not be able to implement our business strategies and our business could suffer. We may have difficulty in retaining and attracting customers, developing new services, negotiating favorable agreements with customers and providing acceptable levels of customer service. Leadership changes will occur from time to time and we cannot predict whether significant resignations will occur. While we have employment agreements with certain of our executive officers, there can be no assurance that they will serve the term of their employment agreements or renew their employment agreements upon expiration. We do not currently expect to obtain key person insurance on any of our executive officers. In addition, if we fail to attract other qualified personnel, our business prospects could be materially adversely affected.

We may not successfully implement our business strategies or realize our expected cost savings and revenue enhancements.

We may not be able to fully implement our business strategies or realize our expected cost savings, in whole or in part, or within the time frames anticipated. In addition, there can be no assurance that we will achieve our expected revenue synergies, including incremental buyer payment revenue. Our cost savings, efficiency improvements and pricing strategies are subject to significant business, economic and competitive uncertainties, many of which are beyond our control. We are pursuing strategic initiatives that management considers critical to our long-term success, including substantial near-term capital investment in e-business, information technology, facility relocations and expansions, as well as operating initiatives designed to enhance overall efficiencies. These initiatives involve substantial capital investment, have significant risks associated with their execution, and could take several years to yield any direct monetary benefits. Committing a large amount of capital over a lengthy time horizon could result in significant business interruption and loss of key customers during the transitional period, as well as cost overruns and delays which may impact our results of operations. Accordingly, we cannot predict whether we will succeed in implementing these strategic initiatives.

Additionally, our business strategy may change from time to time. As a result, we may not be able to achieve our expected results of operations and our actual income, operating cash flow and EBITDA may be negatively affected and may be materially lower than the pro forma results which we discuss elsewhere in this prospectus.

We are dependent on good labor relations.

We have employees located both in the U.S. and in Canada. In addition to the workforce of employees, we also utilize temporary labor services to assist in handling the vehicles consigned during periods of peak volume. Many of our employees, both full- and part-time, are unskilled, and in periods of strong economic growth, we may find it difficult to compete for sufficient unskilled labor. If we are unable to maintain our full- or part-time workforce or the necessary relationships with third-party providers, our operations may be adversely affected.

Table of Contents

In addition, auctioneers at our auctions are highly skilled individuals who are essential to the successful operation of our auction business. Nearly all of our auctioneers are independent contractors who provide their services for a daily or weekly rate. If we are unable to retain a sufficient number of experienced auctioneers, our operations may be adversely affected.

A portion of our net income is derived from Canada, which exposes us to foreign exchange and other risks.

Fluctuations between U.S. and Canadian currency values may adversely affect our results of operations and financial position. In addition, there may be tax inefficiencies in repatriating cash from Canada. For the nine months ended September 30, 2007, approximately 16% of our revenues were attributable to our Canadian operations. A decrease in the value of the Canadian currency relative to the U.S. dollar could reduce our profits from our Canadian operations and the value of the net assets of our Canadian operations when reported in U.S. dollars in our financial statements. This could have a material adverse effect on our business, financial condition or results of operations as reported in U.S. dollars.

In addition, fluctuations in currencies relative to currencies in which the earnings are generated may make it more difficult to perform period-to-period comparisons of our reported results of operations. For purposes of accounting, the assets and liabilities of our Canadian operations, where the local currency is the functional currency, are translated using period-end exchange rates, and the revenues and expenses of our Canadian operations are translated using average exchange rates during each period. Translation gains and losses are reported in Accumulated other comprehensive income/loss as a component of stockholders' equity.

We are subject to extensive governmental regulations, including vehicle brokerage and auction laws and currency reporting obligations. Failure to comply with laws or regulations could have a material adverse effect on our operating results and financial condition.

Our operations are subject to regulation, supervision and licensing under various U.S. and Canadian federal, state, provincial and local authorities, agencies, statutes and ordinances. The acquisition and sale of used, leased, totaled and recovered theft vehicles is regulated by state or other local motor vehicle departments in each of the locations in which we operate. Changes in law or governmental regulations or interpretations of existing law or regulations could result in increased costs, reduced vehicle prices and decreased profitability for us. In addition to the regulation of sales and acquisitions of vehicles, we are also subject to various local zoning requirements with regard to the location of our auction and storage facilities, which requirements vary from location to location, to lending laws and regulations and to currency reporting obligations. Failure to comply with present or future regulations or changes in existing regulations could have a material adverse effect on our operating results and financial condition. For a further discussion of the vehicle regulations applicable to our businesses, see Business Regulation.

We have a material amount of goodwill which, if it becomes impaired, would result in a reduction in our net income.

Goodwill is the amount by which the cost of an acquisition accounted for using the purchase method exceeds the fair value of the net assets acquired. Current accounting standards require that goodwill no longer be amortized but instead be periodically evaluated for impairment based on the fair value of the reporting unit. A significant percentage of our total assets represents goodwill. Declines in our profitability may impact the fair value of our reporting units, which could result in a write-down of our goodwill and a reduction in net income.

New accounting pronouncements or new interpretations of existing standards could require us to make adjustments to accounting policies that could adversely affect the financial statements.

The Financial Accounting Standards Board, or the FASB, the Public Company Accounting Oversight Board, the SEC, and other accounting organizations or governmental entities from time to time issue new pronouncements or new interpretations of existing accounting standards that require changes to our accounting policies and procedures. To date, we do not believe any new pronouncements or interpretations have had a material adverse effect on our financial condition or results of operations, but future pronouncements or interpretations could require the change of policies or procedures.

ADESA may be subject to risks in connection with its former relationship with and separation from ALLETE.

ADESA and ALLETE, Inc., ADESA's former parent company, entered into a tax sharing agreement, effective on the date of the spin-off, which governs ALLETE's and ADESA's respective rights, responsibilities and obligations after the spin-off with respect to taxes for the periods ending on or before the spin-off. Under the tax sharing agreement, if the spin-off becomes taxable to ALLETE, ADESA may be required to indemnify ALLETE for any taxes which arise as a result of ADESA's actions or inaction. In addition, ADESA has agreed to indemnify ALLETE for 50 percent of any taxes that do not arise as a result of actions or inaction of either ADESA or ALLETE.

We may not be able to successfully integrate ADESA's and IAAI's operations.

On April 20, 2007, KAR Acquisition, Inc. merged with and into ADESA, with ADESA continuing as the surviving corporation. After consummation of the Merger and the related transactions, ADESA and IAAI became our wholly owned subsidiaries. Integration of the two previously independent companies may turn out to be more complex, time consuming and costly than we originally anticipated. Failure to successfully integrate these companies may have a material adverse effect on the combined company's business, financial condition and result of operations. The difficulties of combining the companies present challenges to our management, including:

operating a larger combined company;

integrating personnel with diverse backgrounds and organizational cultures;

experiencing operational interruptions or the loss of key employees, customers or suppliers; and

consolidating other corporate and administrative functions.

The combined company is also exposed to risks that are commonly associated with merger transactions, such as unanticipated liabilities and costs, some of which may be material, and diversion of management's attention. As a result, the anticipated benefits of the Merger may not be fully realized, if at all.

We are controlled by the Equity Sponsors, and their interests as equity holders may not be aligned with your interests.

GS Capital Partners VI Fund, L.P., Kelso Investment Associates VII, L.P., Parthenon Investors II, L.P. and Value Act Capital Master Fund, L.P. own, through their respective affiliates, including certain affiliated private equity funds, substantially all of our equity. The Equity Sponsors can elect all of our directors, appoint new management and approve any action requiring the vote of our outstanding common stock, including amendments of our articles of incorporation, mergers or sales of substantially all of our assets. The directors elected by the Equity Sponsors may be able to make decisions affecting our capital structure, including decisions to issue additional capital stock and incur additional debt. The interests of our equity holders may not in all cases be aligned with the interests of our noteholders. For example, if we encounter financial difficulties or are unable to pay our debts as they mature, the interests of our equity holders might conflict with your interests as a noteholder. In addition, our equity holders may have an interest in pursuing acquisitions, divestitures, financings or other transactions that, in their judgment, could enhance their equity investments, even though such transactions might involve risks to our noteholders.

Risks Relating to the Exchange Notes

We have a substantial amount of debt, which could impair our financial condition and adversely affect our ability to react to changes in our business and fulfill our obligations under the Exchange Notes.

As of September 30, 2007, our total debt was approximately \$2.62 billion and we have approximately \$300.0 million of available borrowing capacity under our senior secured credit facilities.

Our substantial indebtedness could have important consequences to you, including:

making it more difficult for us to satisfy our obligations with respect to the Exchange Notes;

limiting our ability to borrow additional amounts to fund working capital, capital expenditures, debt service requirements, execution of our business strategy, acquisitions and other purposes;

requiring us to dedicate a substantial portion of our cash flow from operations to pay principal and interest on our debt, which would reduce the funds available to us for other purposes, including funding future expansion;

making us more vulnerable to adverse changes in general economic, industry and competitive conditions, in government regulation and in our business by limiting our flexibility in planning for, and making it more difficult for us to react quickly to, changing conditions; and

exposing us to risks inherent in interest rate fluctuations because some of our borrowings, including borrowings under our senior secured credit facilities, will be at variable rates of interest, which could result in higher interest expenses in the event of increases in interest rates.

See Description of Other Indebtedness, Description of Senior Exchange Notes and Description of Senior Subordinated Exchange Notes.

Restrictive covenants in agreements and instruments governing our debt, including the indentures governing the Exchange Notes, may adversely affect our ability to operate our business.

The indentures governing the Exchange Notes and the agreement governing our senior secured credit facilities contain, and our future debt instruments may contain, various provisions that limit our ability and the ability of our restricted subsidiaries, including ADESA and IAAI, to, among other things:

incur additional debt;

provide guarantees in respect of obligations of other persons;

issue redeemable stock and preferred stock;

pay dividends or distributions or redeem or repurchase capital stock;

prepay, redeem or repurchase debt;

make loans, investments and capital expenditures;

incur liens;

pay dividends or make other payments by our restricted subsidiaries;

enter into certain transactions with affiliates;

sell assets and capital stock of our subsidiaries; and

consolidate or merge with or into, or sell substantially all of our assets to, another person.

Table of Contents

Our senior secured credit facilities are secured, and our bank lenders and future secured creditors have a prior claim on our assets to the extent of the value of the collateral securing their claims. Similarly, holders of the guarantors' existing and future secured indebtedness have a prior claim on the guarantors' assets that secure such indebtedness.

The Exchange Notes and the guarantees will not be secured by any of our assets. Holders of our secured indebtedness and the secured indebtedness of the guarantors will have claims that are prior to your claims as holders of the Exchange Notes to the extent of the value of the assets securing such indebtedness. We, and the guarantors, will be party to senior secured credit facilities, which will be secured by a significant portion of our assets, including a pledge of all of our capital stock and the capital stock of all of our direct and indirect material domestic subsidiaries and 65% of the capital stock of our first tier foreign subsidiaries. In the event of any distribution or payment of our assets in any foreclosure, dissolution, winding-up, liquidation, reorganization or other bankruptcy proceeding, holders of our secured indebtedness will have prior claim to our assets that constitute their collateral. Holders of the Exchange Notes will participate ratably with all holders of our unsecured indebtedness that is deemed to be of the same class as the Exchange Notes. In that event, because the Exchange Notes and the guarantees will not be secured by any of our assets, it is possible that our remaining assets might be insufficient to satisfy your claims in full.

As of September 30, 2007, the aggregate amount of our secured indebtedness, on a consolidated basis, was approximately \$1,595.6 million, and approximately \$300.0 million was available for additional borrowing under our senior secured credit facilities. We are permitted to borrow substantial additional secured indebtedness in the future under the terms of the indentures. See Description of Senior Exchange Notes and Description of Senior Subordinated Exchange Notes.

If our subsidiaries do not make sufficient distributions to us, we will not be able to make payment on any of our debt, including the Exchange Notes. In addition, the structural subordination of the Exchange Notes to certain of our subsidiaries' liabilities may limit our ability to make payment on the Exchange Notes.

We are a holding company with no business operations, sources of income or assets of our own other than our ownership interests in our subsidiaries. Because all our operations are conducted by our subsidiaries, our cash flow and our ability to make payments on our debt, including the Exchange Notes, is dependent upon cash dividends and distributions or other transfers from our subsidiaries. In addition, any payment of dividends, distributions, loans or advances by our subsidiaries to us could be subject to restrictions on dividends or repatriation of earnings under applicable local law, monetary transfer restrictions and foreign currency exchange regulations in the jurisdictions in which our subsidiaries operate, and any restrictions imposed by the current and future debt instruments of our subsidiaries.

Some of our subsidiaries, including our existing and future foreign subsidiaries, will not guarantee the Exchange Notes. The Exchange Notes will be structurally subordinated to all existing or future liabilities and preferred equity of these subsidiaries that do not guarantee the Exchange Notes. In the event of a bankruptcy, liquidation, dissolution, reorganization or similar proceeding with respect to any such subsidiary, we, as a common equity owner of such subsidiary, and, therefore, holders of our debt, including holders of the Exchange Notes, will be subject to the prior claims of such subsidiary's creditors, including trade creditors, and preferred equity holders. As of September 30, 2007, the aggregate amount of liabilities of our subsidiaries that will not guarantee the Exchange Notes, including trade and other payables, was \$336.1 million. For the period ending September 30, 2007, our subsidiaries that will not guarantee the Exchange Notes represented approximately 15.3% of our total assets and approximately 26.7% of our total revenues, in each case before intercompany eliminations.

Table of Contents

If we default on our obligations to pay our other indebtedness or otherwise fail to comply with covenants in the instruments governing our other indebtedness, we may not be able to make payments on the Exchange Notes.

Any default under the agreements governing our indebtedness, including a default under our senior secured credit facilities that is not waived by the required lenders, could make us unable to pay principal, premium, if any, and interest on the Exchange Notes and substantially decrease the market value of the Exchange Notes. If we are unable to generate sufficient cash flow and are otherwise unable to obtain funds necessary to meet required payments of principal, premium, if any, and interest on our other indebtedness, we could be in default under the terms of the agreements governing such indebtedness. In addition, the restrictive covenants in our senior secured credit facilities require us to maintain specified financial ratios and satisfy other financial condition tests. A breach of any these financial, operating or other covenants could result in a default. In the event of any such default, the holders of such indebtedness could elect to declare all the funds borrowed thereunder, together with accrued and unpaid interest, to be due and payable and the lenders under our senior secured credit facilities could elect to terminate all commitments to extend further credit. If we were unable to repay those amounts, such holders or lenders could institute foreclosure proceedings against our assets, which could force us into bankruptcy or liquidation.

We require a significant amount of cash to service all of our indebtedness, including the Exchange Notes, and to fund planned capital expenditures, and our ability to generate sufficient cash depends on many factors, some of which are beyond our control.

Our ability to make payments on and refinance our debt, including the Exchange Notes, and to fund planned capital expenditures depends on our ability to generate cash in the future. To some extent, this is subject to prevailing economic and competitive conditions and to certain financial, business, legislative, regulatory and other factors, some of which are beyond our control. Our business may not generate cash from operations at levels sufficient to permit us to pay principal, premium, if any, and interest on our indebtedness, and our cash needs may increase. If we are unable to generate sufficient cash from operations to service our debt and meet our other cash needs, we may be forced to reduce or delay capital expenditures, sell assets or operations, seek additional capital or restructure or refinance our indebtedness, including the Exchange Notes. We may not be able to take any of these actions. We may not be able to refinance our debt or sell additional debt or equity securities or our assets on favorable terms, if at all, particularly because of our high levels of debt and the restrictions imposed by the agreement governing our senior secured credit facilities and the indenture governing the Exchange Notes on our ability to incur additional debt and use the proceeds from asset sales. If we must sell our assets, it may negatively affect our ability to generate revenue. The inability to obtain additional financing could have a material adverse effect on our financial condition and on our ability to meet our obligations to you under the Exchange Notes.

If we cannot make scheduled payments on our debt, we would be in default and, as a result:

our debt holders could declare all outstanding principal and interest to be due and payable;

the lenders under our senior secured credit facilities could terminate their commitments to lend us money and foreclose against the assets securing their borrowings; and

we could be forced into bankruptcy or liquidation, which could result in you losing your investment in the Exchange Notes.

Table of Contents

Your right to receive payments on the Senior Subordinated Exchange Notes is junior to our existing indebtedness and possibly all of our future borrowings. Further, the guarantees of the Senior Subordinated Exchange Notes are junior to all of our guarantors' existing indebtedness and possibly to all their future borrowings.

The Senior Subordinated Exchange Notes and the guarantees thereof rank behind all of our and the guarantors' existing indebtedness (other than trade payables) and all of our and their future borrowings (other than trade payables), except any future indebtedness that expressly provides that it ranks equal with, or subordinated in right of payment to, the Senior Subordinated Exchange Notes and the related subsidiary guarantees. As a result, upon any distribution to our creditors or the creditors of the guarantors in a bankruptcy, liquidation or reorganization or similar proceeding relating to us or the guarantors or our or their property, the holders of our senior debt and that of the guarantors will be entitled to be paid in full and in cash before any payment may be made with respect to the Senior Subordinated Exchange Notes or the guarantees thereof.

In addition, all payments on the Senior Subordinated Exchange Notes and the guarantees thereof will be blocked in the event of a payment default on certain senior debt and may be blocked for up to 179 of 360 consecutive days in the event of certain non-payment defaults on certain senior debt.

In the event of a bankruptcy, liquidation or reorganization or similar proceeding relating to us or the guarantors, holders of the Senior Subordinated Exchange Notes will participate with trade creditors and all other holders of our and the guarantors' subordinated indebtedness in the assets remaining after we and the guarantors have paid all of our senior debt. However, because the indenture governing the Senior Subordinated Exchange Notes requires that amounts otherwise payable to holders of the senior subordinated notes in a bankruptcy or similar proceeding be paid to holders of senior debt instead, holders of the senior subordinated notes may receive less, ratably, than holders of trade payables in any such proceeding. In any of these cases, we and the guarantors may not have sufficient funds to pay all of our creditors and holders of senior subordinated notes may receive less, ratably, than the holders of our senior debt.

As of September 30, 2007, we had approximately \$2,195.6 million of senior indebtedness, including the Senior Restricted Notes, and approximately \$300.0 million was available for borrowing as additional senior debt under our senior secured credit facilities. We are permitted to borrow substantial additional indebtedness, including senior debt, in the future under the terms of the indentures.

We may not be able to repurchase the Exchange Notes upon a change of control.

Upon a change of control, as defined in the indentures, subject to certain conditions, we will be required to offer to repurchase all outstanding notes at 101% of the principal amount thereof, plus accrued and unpaid interest to the date of repurchase. The source of funds for that purchase of notes will be our available cash or cash generated from our subsidiaries' operations or other potential sources, including borrowings, sales of assets or sales of equity. We cannot assure you that sufficient funds from such sources will be available at the time of any change of control to make required repurchases of notes tendered. Further, we may be contractually restricted under the terms of our senior secured credit facilities or other future senior indebtedness from repurchasing all of the notes tendered by holders upon a change of control. Our future debt agreements may contain similar restrictions and provisions. Accordingly, we may not be able to satisfy our obligations to purchase your Exchange Notes unless we are able to refinance or obtain waivers under our senior secured credit facilities and any such future debt agreements. Our failure to repurchase the Exchange Notes upon a change of control would cause a default under the indenture and a cross-default under our senior secured credit facilities. In addition, certain corporate events, such as leveraged recapitalizations that would increase the level of our indebtedness, would not constitute a change of control under the indentures.

Table of Contents

Fraudulent transfer statutes may limit your rights as a holder of the Exchange Notes.

Federal and state fraudulent transfer laws permit a court, if it makes certain findings, to:

void all or a portion of our obligations to holders of the Exchange Notes;

subordinate our obligations to holders of the Exchange Notes to our other existing and future indebtedness, entitling other creditors to be paid in full before any payment is made on the Exchange Notes; and

take other action detrimental to holders of the Exchange Notes, including invalidating the Exchange Notes.

In that event, we cannot assure you that you would ever be repaid.

Under federal and state fraudulent transfer laws, in order to take any of those actions, courts will typically need to find that, at the time the Exchange Notes were issued, we:

- (1) issued the Exchange Notes with the intent of hindering, delaying or defrauding current or future creditors; or
- (2) received less than fair consideration or reasonably equivalent value for incurring the indebtedness represented by the Exchange Notes; and
- (a) were insolvent or were rendered insolvent by reason of the issuance of the Exchange Notes;
- (b) were engaged, or were about to engage, in a business or transaction for which our assets were unreasonably small; or
- (c) intended to incur, or believed or should have believed we would incur, debts beyond our ability to pay as such debts mature.

Many of the foregoing terms are defined in or interpreted under those fraudulent transfer statutes. A court would likely find that we or a guarantor did not receive reasonably equivalent value or fair consideration for the Exchange Notes or such guarantee if we or such guarantor did not substantially benefit directly or indirectly from the issuance of the Exchange Notes or the applicable guarantee. As a general matter, value is given for a transfer or an obligation if, in exchange for the transfer or obligation, property is transferred or an antecedent debt is secured or satisfied. A debtor will generally not be considered to have received value in connection with a debt offering if the debtor uses the proceeds of that offering to make a dividend payment or otherwise retire or redeem equity securities issued by the debtor.

The measure of insolvency for purposes of the foregoing considerations will vary depending on the law of the jurisdiction that is being applied in any such proceeding. Generally, a company would be considered insolvent if, at the time it incurred the debt:

the sum of its debts (including contingent liabilities) is greater than its assets, at fair valuation;

the present fair saleable value of its assets is less than the amount required to pay the probable liability on its total existing debts and liabilities (including contingent liabilities) as they become absolute and matured; or

it could not pay its debts as they become due.

We cannot assure you what standard a court would apply in determining our solvency and whether it would conclude that we were solvent when we incurred our obligations under the Exchange Notes.

Table of Contents

Our obligations under the Exchange Notes will be guaranteed by all of our direct and indirect restricted subsidiaries that guarantee indebtedness under our senior secured credit facilities, and the guarantees may also be subject to review under various laws for the protection of creditors. It is possible that creditors of the guarantors may challenge the guarantees as a fraudulent transfer or conveyance. The analysis set forth above would generally apply, except that the guarantees could also be subject to the claim that, because the guarantees were incurred for the benefit of the issuer, and only indirectly for the benefit of the guarantors, the obligations of the guarantors thereunder were incurred for less than reasonably equivalent value or fair consideration. A court could void a guarantor's obligation under its guarantee, subordinate the guarantee to the other indebtedness of a guarantor, direct that holders of the Exchange Notes return any amounts paid under a guarantee to the relevant guarantor or to a fund for the benefit of its creditors, or take other action detrimental to the holders of Exchange Notes. In addition, the liability of each guarantor under the indenture will be limited to the amount that will result in its guarantee not constituting a fraudulent conveyance or improper corporate distribution, and there can be no assurance as to what standard a court would apply in making a determination as to what would be the maximum liability of each guarantor.

Risks Relating to the Exchange Offer and Holding the Exchange Notes

There is no public market for the Exchange Notes, and we do not know if a market will ever develop or, if a market does develop, whether it will be sustained.

We cannot assure you that a liquid market will develop for the Exchange Notes, that you will be able to sell your Exchange Notes at a particular time or that the prices that you receive when you sell the Exchange Notes will be favorable.

We do not intend to apply for listing or quotation of any series of Exchange Notes on any securities exchange or stock market, although our Restricted Notes trade on the PORTAL Market. The liquidity of any market for the Exchange Notes will depend on a number of factors, including:

the number of holders of Exchange Notes;

our operating performance and financial condition;

our ability to complete the offer to exchange the Restricted Notes for the Exchange Notes;

the market for similar securities;

the interest of securities dealers in making a market in the Exchange Notes; and

prevailing interest rates.

Holders of Restricted Notes who fail to exchange their Restricted Notes in the exchange offer will continue to be subject to restrictions on transfer. You may have difficulty selling the Restricted Notes that you do not exchange.

If you do not exchange your Restricted Notes for Exchange Notes in the exchange offer, you will continue to be subject to the restrictions on transfer applicable to the Restricted Notes. The restrictions on transfer of your Restricted Notes arise because we issued the Restricted Notes under exemptions from, or in transactions not subject to, the registration requirements of the Securities Act and applicable state securities laws. In general, you may only offer or sell the Restricted Notes if they are registered under the Securities Act and applicable state securities laws, or offered and sold under an exemption from these requirements. We do not plan to register the Restricted Notes under the Securities Act. For further information regarding the consequences of tendering your Restricted Notes in the exchange offer, see the discussion below under the caption **The Exchange Offer Consequences of Exchanging or Failing to Exchange Restricted Notes.**

Table of Contents

The tender of Restricted Notes under the Exchange Offer will reduce the outstanding amount of each series of Restricted Notes, which may have an adverse effect upon, and increase the volatility of, the market prices of the Restricted Notes due to a reduction in liquidity. Consequently, you may find it difficult to sell any Restricted Notes you continue to hold because there will be fewer Restricted Notes of such series outstanding.

You must comply with the exchange offer procedures in order to receive new, freely tradable Exchange Notes.

Delivery of Exchange Notes in exchange for Restricted Notes tendered and accepted for exchange pursuant to the exchange offer will be made only after timely receipt by the exchange agent of book-entry transfer of Restricted Notes into the exchange agent's account at DTC, as depositary, including an agent's message (as defined herein). We are not required to notify you of defects or irregularities in tenders of Restricted Notes for exchange. Restricted Notes that are not tendered or that are tendered but we do not accept for exchange will, following consummation of the exchange offer, continue to be subject to the existing transfer restrictions under the Securities Act and, upon consummation of the exchange offer, certain registration and other rights under the registration rights agreement will terminate. See The Exchange Offer Procedures for Tendering Restricted Notes and The Exchange Offer Consequences of Exchanging or Failing to Exchange Restricted Notes.

Some holders who exchange their Restricted Notes may be deemed to be underwriters, and these holders will be required to comply with the registration and prospectus delivery requirements in connection with any resale transaction.

If you exchange your Restricted Notes in the exchange offer for the purpose of participating in a distribution of the Exchange Notes, you may be deemed to have received restricted securities and, if so, will be required to comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction.

FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements which are subject to certain risks, trends and uncertainties. In particular, statements made in this prospectus that are not historical facts (including, but not limited to, expectations, estimates, assumptions and projections regarding the industry, business, future operating results, potential acquisitions and anticipated cash requirements) may be forward-looking statements. Words such as anticipates, expects, intends, plans, believes, seeks, estimates, and similar expressions identify forward-looking statements. Such statements, including statements regarding our future growth; anticipated cost savings, revenue increases and capital expenditures; strategic initiatives such as selective relocations, greenfields and acquisitions; our competitive position; and our continued investment in information technology are not guarantees of future performance and are subject to risks and uncertainties that could cause actual results to differ materially from the results projected, expressed or implied by these forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to:

fluctuations in consumer demand for and in the supply of used, leased and salvage vehicles and the resulting impact on auction sales volumes and conversion rates;

trends in new and used vehicle sales and incentives, including wholesale used vehicle pricing;

economic conditions including fuel prices and Canadian exchange rate and interest rate fluctuations;

trends in the vehicle remarketing industry;

changes in the volume of vehicle production, including capacity reductions at the major original equipment manufacturers;

the introduction of new competitors;

laws, regulations and industry standards, including changes in regulations governing the sale of used vehicles, the processing of salvage vehicles and commercial lending activities;

changes in the market value of vehicles auctioned, including changes in the actual cash value of salvage vehicles;

competitive pricing pressures;

costs associated with the acquisition of businesses or technologies;

litigation developments;

patent or other intellectual property infringement claims, which could have an impact on the business or operating results due to a disruption in business operations, the incurrence of significant costs and other factors;

Edgar Filing: ADESA SAN DIEGO, LLC - Form 424B3

our ability to successfully implement our business strategies or realize expected cost savings and revenue enhancements;

our ability to develop and implement information systems responsive to customer needs;

business development activities, including acquisitions and integration of acquired businesses;

weather;

general business conditions; and

other risks described from time to time.

Many of these risk factors are outside of our control, and as such, they involve risks which are not currently known that could cause actual results to differ materially from those discussed or implied herein. The forward-looking statements in this document are made as of the date hereof and we do not undertake to update our forward-looking statements.

Table of Contents

Our future growth depends on a variety of factors, including our ability to increase vehicle sold volumes and loan transaction volumes, acquire additional auctions, manage expansion, relocation and integration of acquisitions, control costs in our operations, introduce modest fee increases, expand our product and service offerings including information systems development and retain our executive officers and key employees. Certain initiatives that management considers important to our long-term success include substantial capital investment in e-business, information technology, facility relocations and expansions, as well as operating initiatives designed to enhance overall efficiencies, have significant risks associated with their execution, and could take several years to yield any direct monetary benefits. Accordingly, we cannot predict whether our growth strategy will be successful. In addition, we cannot predict what portion of overall sales will be conducted through online auctions or other redistribution methods in the future and what impact this may have on our auction business.

USE OF PROCEEDS

We will not receive any proceeds from the exchange offer. Any Restricted Notes that are properly tendered and exchanged pursuant to the exchange offer will be retired and cancelled.

RATIO OF EARNINGS TO FIXED CHARGES

The table below sets forth our ratio of earnings to fixed charges on a historical and pro forma basis for the periods indicated. The ratios below show the extent to which our business generates enough earnings after the payment of all expenses after interest to make required interest payments on our debt. For purposes of computing the ratio of earnings to fixed charges, earnings consist of income from continuing operations before taxes and fixed charges. Fixed charges consist of interest, whether expensed or capitalized, amortization of expenses related to indebtedness and an estimate of the interest within rental expense.

Fixed charges for 2005 include incremental interest expense compared to 2004 of \$7.9 million incurred in the first half of 2005 resulting from ADESA's recapitalization and transition to an independent public company in 2005. Fixed charges for 2004 include incremental interest expense compared to 2003 of \$8.7 million resulting from ADESA's recapitalization in June 2004.

- (3) On February 22, 2005, IAAI entered into a merger agreement with Axle Merger Sub, Inc. and Axle Holdings, Inc. On May 25, 2005, Axle Merger Sub, Inc. merged with and into IAAI, with IAAI continuing as the surviving corporation, and IAAI became a direct wholly owned subsidiary of Axle Holdings, Inc., which is owned by Axle Holdings II, LLC (which is controlled by affiliates of Kelso). This merger and the related transactions resulted in additional debt and a new basis of accounting under SFAS 141. The ratio of earnings to fixed charges for periods ending on or prior to May 25, 2005 generally will not be comparable with the ratio for periods after that date.

UNAUDITED PRO FORMA CONSOLIDATED FINANCIAL DATA

The following unaudited pro forma consolidated financial data for the nine months ended September 30, 2007 is based on ADESA and IAAI's unaudited financial statements for the periods from January 1, 2007 to April 19, 2007 and KAR Holdings' unaudited financial statements for the period from January 1, 2007 to September 30, 2007, as adjusted to give effect to the Transactions. The unaudited pro forma consolidated statement of operations data for the year ended December 31, 2006 and for the nine months ended September 30, 2007 give effect to the Transactions as if they had been consummated on January 1, 2006. The following unaudited pro forma consolidated financial data for the year ended December 31, 2006 is based on consolidated financial statements appearing elsewhere in this prospectus, as adjusted to give effect to the Transactions.

The unaudited pro forma consolidated financial data should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations, Selected Historical Consolidated Financial Data, the consolidated financial statements and related notes and other financial information appearing elsewhere in this prospectus.

The unaudited pro forma adjustments are based upon available information and certain assumptions that we believe are reasonable under the circumstances. The unaudited pro forma consolidated financial statements are presented for informational purposes only. The unaudited pro forma consolidated financial statements do not purport to represent what results of operations would have been had the Transactions actually occurred on the dates indicated and they do not purport to project results of operations for any future period. All pro forma adjustments and their underlying assumptions are described more fully in the notes to the unaudited pro forma consolidated statement of operations.

Table of Contents**Selected Historical Data of ADESA****For the Years Ended December 31, 2002, 2003, 2004, 2005 and 2006**

The selected historical financial data of ADESA for the years ended December 31, 2004, 2005 and 2006 and as of December 31, 2005 and 2006 has been derived from the audited financial statements included elsewhere in this prospectus. The historical financial data for the years ended December 31, 2002 and 2003 and as of December 31, 2002, 2003 and 2004 presented below has been derived from our audited financial statements that are not included in this prospectus. Certain amounts reported in previous periods have been reclassified to conform to the current presentation.

In 2006, ADESA incurred a charge representing a reduction of ownership interests in aircraft and other costs associated with the termination of a Joint Aircraft and Ownership Management Agreement with ALLETE. In the fourth quarter 2006, ADESA incurred transaction expenses consisting primarily of legal and professional fees associated with the merger. In addition, ADESA incurred various charges and incremental expenses in 2004 and 2005 related to its initial public offering of its common stock and a registered public offering of its unsecured 7⁵/₈% senior subordinated notes, subsequent separation from ALLETE and subsequent restructuring of its debt that affect the comparability of its reported results of operations. In 2003, ADESA recognized a gain on the sale of real estate. As a result of these transactions and the transition to an independent public company, 2003, 2004, 2005 and 2006 operating results may not be comparable to previous periods or ongoing operations. See the footnotes below for the amounts and descriptions of the various transactions and incremental expenses incurred by ADESA in 2003, 2004, 2005 and 2006.

(1) 2003 operating expenses include a gain on sale of real estate of \$3.4 million (\$2.1 million after-tax).

Table of Contents

(2) 2004 operations include:

Transaction costs totaling \$3.0 million (\$1.8 million after-tax). Transaction costs consist primarily of legal and professional fees associated with ADESA's initial public offering and separation from ALLETE.

Loss on extinguishment of debt totaling \$14.0 million (\$8.5 million after-tax). The loss on extinguishment of debt consists of an early termination penalty related to the prepayment of ADESA's senior notes and the write-off of related unamortized debt issuance costs.

Incremental corporate expenses compared to 2003, of \$11.9 million (\$7.3 million after-tax). Incremental corporate expenses consist of salaries, benefits and other expenses due to the addition of corporate level personnel, professional fees, incremental insurance and other costs necessary to support an independent public company.

Incremental interest expense compared to 2003, of \$8.7 million (\$5.3 million after-tax) resulting from ADESA's recapitalization in June of 2004.

(3) 2005 operations include:

Loss on extinguishment of debt totaling \$2.9 million (\$1.8 million after-tax). The loss on extinguishment of debt consists of a charge for the write-off of certain unamortized debt issuance costs associated with ADESA's June 2004 credit facility and certain expenses related to the amended and restated credit facility.

Gain on termination of swap of \$0.5 million (\$0.3 million after-tax). The interest rate swap agreement related to ADESA's former Term Loan B facility was terminated in the third quarter of 2005.

Incremental corporate expenses compared to 2004, of \$3.9 million (\$2.4 million after-tax). Incremental corporate expenses were incurred in the first half of 2005 and consisted of salaries, benefits and other expenses due to the addition of corporate level personnel, professional fees, incremental insurance and other costs necessary to support an independent public company.

Incremental interest expense compared to 2004, of \$7.9 million (\$4.8 million after-tax) incurred in the first half of 2005 resulting from ADESA's recapitalization and transition to an independent public company.

(4) 2006 operations include:

Loss on termination of aircraft agreement with ALLETE totaling \$3.4 million (\$2.1 million after-tax). ADESA received notice of ALLETE's election to terminate the Joint Aircraft Ownership and Management Agreement on November 2, 2006. As a result, ADESA recorded a non-cash pretax charge of \$3.4 million representing a reduction of ownership interests in the aircraft and other costs associated with the termination of the agreement.

Transaction expenses totaling \$6.1 million (\$5.1 million after-tax). In 2006, ADESA entered into a merger agreement to be acquired by a group of private equity funds. The transaction expenses consist primarily of legal and professional fees associated with the

pending merger.

- (5) For purposes of determining the ratio of earnings to fixed charges, earnings consist of income before income taxes and fixed charges. Fixed charges consist of interest on indebtedness, amortization of debt issuance costs which are charged to interest expense and a reasonable approximation of the interest factor related to operating leases. Fixed charges for 2005 include incremental interest expense compared to 2004 of \$7.9 million incurred in the first half of 2005 resulting from ADESA's recapitalization and transition to an independent public company. Fixed charges for 2004 include incremental interest expense compared to 2003 of \$8.7 million resulting from ADESA's recapitalization in June 2004.

The statement of operations data of IAAI for 2004, 2005 and 2006 and the balance sheet data as of December 31, 2005 and December 25, 2006 have been derived from the consolidated financial statements included elsewhere in this prospectus that have been audited by KPMG LLP, independent registered public accounting firm, whose report is also included herein. The statement of operations data for 2002 and 2003 and balance sheet data for 2002, 2003 and 2004 have been derived from audited consolidated financial statements not included in this prospectus.

IAAI's consolidated financial statements for the periods subsequent to the merger in 2005 of Axle Merger Sub, Inc. with and into IAAI, which resulted in affiliates of Kelso & Company controlling IAAI (the 2005 Acquisition), reflect a new basis of accounting incorporating the fair value adjustments made in recording the 2005 Acquisition and the related transactions, while the periods prior to the 2005 Acquisition reflect IAAI's historical cost basis. Accordingly, the accompanying selected financial data and other data as of dates and for periods ending on or prior to May 24, 2005 are labeled as predecessor, and the accompanying selected financial data and other data as of and for periods beginning after the date of the 2005 Acquisition are labeled as successor.

IAAI's fiscal year 2006 consisted of 53 weeks and ended on December 31, 2006. IAAI's fiscal years 2005, 2004, 2003 and 2002 each consisted of 52 weeks and ended on December 25, 2005, December 26, 2004, December 28, 2003 and December 29, 2002, respectively.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of financial condition and results of operations should be read in conjunction with the Selected Historical Consolidated Financial Data and the consolidated financial statements of and notes thereto included elsewhere in this prospectus. The following discussion and analysis of financial condition and results of operations contains forward-looking statements that are based on the beliefs of our management, as well as assumptions made by, and information currently available to, our management. The actual results could differ materially from those discussed in or implied by forward-looking statements for various reasons including those discussed in Risk Factors and Forward-Looking Statements. Refer to Risk Factors for a further discussion of some of the factors that affect or could affect the business, operating results and financial condition.

The Transactions, as described in Summary The Transactions, resulted in a new basis of accounting under SFAS No. 141. This change creates many differences between reporting for KAR Holdings post-merger, as successor, and ADESA and IAAI independently pre-merger. The ADESA and IAAI financial data for periods ending on or prior to April 19, 2007, generally will not be comparable to the successor financial data for periods after that date. The merger resulted in us having an entirely new capital structure, which results in significant differences between ADESA and IAAI pre-merger and KAR Holdings post-merger in the stockholders' equity sections of the financial statements. In addition, the successor incurred debt issuance costs and \$2,590 million of debt in connection with the merger. The \$662.6 million of debt related to ADESA's and IAAI's credit facilities and notes was paid off in connection with the merger and contribution (\$318.0 million for ADESA and \$344.6 million for IAAI). As a result, interest expense, debt and debt issuance costs are not comparable between the pre-merger and the post-merger companies. Certain adjustments have been made to increase or decrease the carrying amount of assets and liabilities as a result of preliminary estimates and certain reasonable assumptions, which, in certain instances, has resulted in changes to amortization and depreciation expense amounts. The final valuations are not yet complete; as such, the allocation of purchase price has not been completed and further adjustments to the preliminary allocations may be made in subsequent periods.

KAR Holdings, Inc.

Executive Overview

Business

We are the only auction services provider in North America with leading market positions in both the whole car auction and salvage auction markets. The business is divided into three reportable business segments that are integral parts of the vehicle redistribution industry: ADESA Auctions, IAAI Salvage and AFC. The ADESA Auctions segment consists primarily of ADESA's used vehicle auctions and is the second largest used vehicle auction network in North America with 58 ADESA sites as of January 21, 2008. ADESA Auctions also provide services such as inbound and outbound logistics, reconditioning, vehicle inspection and certification, titling and administrative services.

The IAAI segment consists of salvage vehicle auctions and related services in North America and is the second largest provider with 134 sites. The salvage auctions facilitate the redistribution of damaged vehicles that are designated as total losses by insurance companies, recovered stolen vehicles for which an insurance settlement with the vehicle owner has already been made and older model vehicles donated to charity or sold by dealers in salvage auctions. The salvage auction business specializes in providing services such as inbound and outbound logistics, inspections, evaluations, titling and settlement administrative services.

The AFC segment is primarily engaged in the business of providing short-term, inventory-secured financing, known as floorplan financing, to independent used vehicle dealers. AFC conducts business at 91 loan production offices in the U.S. and Canada.

Table of Contents

The holding company is maintained separately from the three reportable segments and includes expenses associated with the corporate office, such as salaries, benefits, and travel costs for the corporate management team, certain human resources, information technology and accounting costs, and incremental insurance, treasury, legal and risk management costs. Holding company interest includes the interest incurred on the corporate debt structure. Costs incurred at the holding company are not allocated to the three business segments.

We believe we are well positioned in both the used vehicle auction and salvage auction industries which have demonstrated long-term stability. We are one of the top three players in most markets in which we operate in an industry with high barriers (facilities, technology and expertise) to entry. ADESA and IAAI are able to serve the diverse and multi-faceted needs of customers through the wide range of services offered at their facilities. Our business model consistently generates substantial operating cash flow, which can be used to fund growth initiatives with minimal inventory risk.

Overview of Performance for the Nine Months Ended September 30, 2007

The volume of used vehicles coming to auction has increased in the first nine months of 2007 compared to the same period in 2006. In addition, ADESA's used vehicle conversion percentage increased from 60.8% in 2006 to 61.7% in 2007. However, retail used vehicle sales remain weak and are down for the nine months ended September 30, 2007 compared to the same period in 2006. This decline has continued to impact demand and used vehicle auction volumes.

Salvage vehicle supplies have been fairly strong throughout the industry in 2007 despite increased fuel prices. We believe increased complexity in vehicles contributed to a larger number of insurance claims resulting in a total loss. In addition, flooding in several markets throughout 2007 has added incremental units.

Industry Outlook and Trends

The decline in retail used vehicle sales experienced in 2006 has persisted throughout the first nine months of 2007. Retail used vehicle sales are down approximately 4% for the nine months ended September 30, 2007 as compared to the same period in 2006. This decline has continued to impact demand and used vehicle auction volumes. We believe that the weak retail used vehicle market is the result of several factors including used cars being priced high relative to new discounted vehicles, slow economic growth, negative equity on longer term used vehicle loans and vehicle longevity. In addition, new vehicle sales have also experienced a decline of approximately 3% through the first nine months of 2007, which impacts trade-ins and auction volumes. Capacity reductions at the major U.S. original equipment manufacturers are expected to impact the industry and may result in reduced program vehicles and rental fleet sales. While off-lease vehicles declined in 2006, lease penetration rates have been modestly increasing since 2004 and we expect that industry off-lease auction volumes may begin increasing in early 2008.

Wholesale used vehicle prices were up in September 2007 and averaged \$9,849 as compared to \$9,585 in September 2006, according to ADESA Analytical Services' monthly analysis of Wholesale Used Vehicle Prices by Vehicle Model Class.

Seasonality

The volume of vehicles sold at our auctions generally fluctuates from quarter to quarter. This seasonality is affected by several factors including weather, the timing of used vehicles available for sale from selling customers, the availability and quality of salvage vehicles, holidays, and the seasonality of the retail market for used vehicles, which affect the demand side of the auction industry. Used vehicle auction volumes tend to decline during prolonged periods of winter weather conditions. In addition, mild weather conditions and decreases in traffic volume can each lead to a decline in the available supply of salvage vehicles because fewer traffic accidents occur, resulting in fewer damaged vehicles overall. As a result, revenues and operating expenses

Table of Contents

related to volume will fluctuate accordingly on a quarterly basis. The fourth calendar quarter typically experiences lower used vehicle auction volume as well as additional costs associated with the holidays and winter weather.

Results of Operations

Our revenue is derived from auction fees and related services at our whole car and salvage auction facilities and dealer financing fees and net interest income at AFC. Although auction revenues primarily include the auction services and related fees, our related receivables and payables include the value of the vehicles sold. AFC's net revenue consists primarily of securitization income and interest and fee income less provisions for credit losses. Securitization income is primarily comprised of the gain on sale of finance receivables sold, but also includes servicing income, discount accretion, and any change in the fair value of the retained interest in finance receivables sold. Our operating expenses consist of cost of services, selling, general and administrative expenses and depreciation and amortization. Cost of services is composed of payroll and related costs, subcontract services, supplies, insurance, property taxes, utilities, maintenance and lease expense related to the auction sites and loan offices. Cost of services excludes depreciation and amortization. Selling, general and administrative expenses are composed of indirect payroll and related costs, sales and marketing, information technology services and professional fees.

Prior to April 19, 2007, ADESA, Inc.'s operations were grouped into three operating segments: used vehicle auctions, Impact salvage auctions and AFC. These three operating segments were aggregated into two reportable business segments: Auction Services Group (used vehicle auctions and Impact salvage auctions) and Dealer Services Group (AFC and related businesses). Prior to April 19, 2007, IAAI operated in a single business segment. Concurrent with the Transactions, we established three reportable business segments: ADESA Auctions, IAAI and AFC. ADESA's Impact salvage auctions operating segment was combined with IAAI. These reportable segments offer different services, have distinct suppliers and buyers of vehicles and are managed separately based on the fundamental differences in their operations.

Operating Results Summary for the Nine Months Ended September 30, 2007

The following unaudited pro forma condensed segment results of operations for the nine months ended September 30, 2007 are based on ADESA and IAAI's unaudited financial statements for the periods from January 1, 2007 to April 19, 2007 and KAR Holdings' unaudited financial statements for the period from January 1, 2007 to September 30, 2007, as adjusted to combine the financial statements of ADESA Impact and IAAI on a historical basis and to illustrate the estimated pro forma effects of the Transactions as if they had occurred on January 1, 2006. KAR Holdings had no operations during the period of January 1, 2007 to April 19, 2007.

The Transactions were completed on April 20, 2007. Pro forma adjustments have been made to the historical combined statement of income for the nine months ended September 30, 2007 and 2006 as if the Transactions had been completed on January 1, 2006.

The unaudited pro forma adjustments are based upon available information and certain assumptions that we believe are reasonable under the circumstances. The unaudited pro forma condensed segment results are presented for informational purposes only. The unaudited pro forma condensed segment results do not purport to represent what our results of operations would have been had the Transactions actually occurred on the dates indicated and they do not purport to project our results of operations for any future period.

The unaudited pro forma condensed combined results of operations should be read in conjunction with the information contained in Summary The Transactions and the financial statements and related notes thereto, appearing elsewhere in this prospectus. The pro forma adjustments inherent in the segments results presented below include: pro forma interest expense resulting from the new capital structure; pro forma depreciation and

Table of Contents

amortization expense resulting from the new basis of property and equipment and intangible assets; adjustments to selling and administrative expenses for the annual sponsor advisory fees; and adjustment to write up the finance receivables acquired to fair value. In addition, certain human resources and information technology costs that ADESA had historically allocated to its segments and certain professional fees historically recorded at the segments were reclassified to the holding company for all periods presented. Transaction expenses, representing legal and professional fees as well as accelerated incentive compensation costs, were also removed from 2007 operating results.

For the nine months ended September 30, 2007, we had revenue of \$1,192.5 million compared with \$1,071.7 million for the nine months ended September 30, 2006, an increase of 11%. Included in the results for the nine months ended September 30, 2006, was a \$2.7 million charge related to the correction of certain unreconciled balance sheet differences concealed by a former employee at ADESA's Kitchener, Ontario, auction facility. In addition, the results for the nine months ended September 30, 2006 included a \$3.5 million loss related to the flood at IAAI's Grand Prairie, Texas facility. The flood loss consisted of a loss of vehicles and fixed assets as well as costs to clean up the facility.

Revenue

Revenue from ADESA Auctions increased \$71.4 million, or 11%, to \$720.1 million for the nine months ended September 30, 2007, compared with \$648.7 million for the nine months ended September 30, 2006. The 11% increase in revenue was a result of a 6% increase in revenue per vehicle sold during the first nine months of the year and a 4% increase in vehicles sold.

A 6% increase in revenue per vehicle sold resulted in increased auctions revenue of approximately \$44.1 million. The increase in revenue per vehicle sold was primarily attributable to an increase in lower margin services such as transportation and other ancillary services. These factors resulted in increased ADESA Auctions revenue of approximately \$23.3 million. The higher transportation and other ancillary services revenues also resulted in corresponding increases in cost of services. Incremental fee income related to selective fee increases and higher wholesale used vehicle values resulted in increased ADESA Auctions revenue of approximately \$16.2 million. Fluctuations in the Canadian exchange rate increased revenue by approximately \$4.6 million for the nine months ended September 30, 2007, compared with the nine months ended September 30, 2006.

While the number of retail used vehicles sold was down, the total number of wholesale vehicles sold at ADESA Auctions increased 4% in the first nine months of 2007 compared with the first nine months of 2006, resulting in an increase in ADESA Auctions revenue of approximately \$27.3 million.

The used vehicle conversion percentage, calculated as the number of vehicles sold as a percentage of the number of vehicles entered for sale at our used vehicle auctions, increased to 61.7% for the nine months ended September 30, 2007 from 60.8% for the nine months ended September 30, 2006. The increase in the used vehicle conversion percentage positively impacted ADESA Auction revenues, gross profit and EBITDA for the nine months ended September 30, 2007 compared with the nine months ended September 30, 2006.

Gross Profit

For the nine months ended September 30, 2007, gross profit in the ADESA Auctions segment increased \$25.4 million, or 8%, to \$325.3 million. The 11% increase in revenues was the leading factor increasing gross profit for the ADESA Auctions segment, despite an increase in cost of services on both a dollar and percentage of revenues basis. Increases in transportation costs (which includes fuel costs) and other ancillary services costs was a leading driver increasing cost of services for the ADESA Auctions segment by \$23.0 million. Cost of services also increased due to the costs associated with handling additional used vehicles entered for sale at our used vehicle auctions for the nine months ended September 30, 2007 compared with the nine months ended September 30, 2006. Fluctuations in the Canadian exchange rate increased cost of services at the ADESA Auctions segment by approximately \$2.3 million.

Table of Contents*Selling, General and Administrative*

Selling, general and administrative expenses for the ADESA Auctions segment increased \$10.2 million, or 7%, to \$146.6 million for the nine months ended September 30, 2007 primarily due to increases in compensation and related employee benefit costs as well as marketing costs. These increases were partially offset by a decrease in bad debt expense. In addition, the ADESA Auctions segment also incurred a \$2.7 million pretax charge in the first nine months of 2006 related to unreconciled balance sheet differences concealed by a former employee at ADESA's Kitchener, Ontario, auction facility.

Revenue

Revenue from IAAI increased \$43.7 million, or 14%, to \$360.8 million for the nine months ended September 30, 2007, compared with \$317.1 million for the nine months ended September 30, 2006. The increase in revenue was a result of a 17% increase in salvage vehicles sold during the nine months ended September 30, 2007. The increase in salvage vehicles sold was primarily a result of volumes provided by acquisitions and greenfields in addition to growth in vehicles sold on a same-store basis.

Gross Profit

For the nine months ended September 30, 2007, gross profit at IAAI increased to \$124.2 million, or 34% of revenue, compared with \$97.3 million, or 31% of revenue, for the nine months ended September 30, 2006. Cost of services increased 8% due to increases related to acquisitions and greenfields, as well as costs associated with the increased volumes; however, cost of services increased at a lower rate than revenues. IAAI has negotiated a number of tow contracts in the current year resulting in lower tow costs per vehicle towed. In addition, we reduced our auction yard costs due to the elimination of costs associated with Hurricane Katrina related vehicles.

Selling, General and Administrative

Selling, general and administrative expenses at IAAI increased \$11.6 million, or 31%, to \$49.2 million for the nine months ended September 30, 2007, compared with \$37.6 million for the nine months ended September 30, 2006. The increase in selling, general and administrative expenses is primarily attributable to integration costs associated with the integration of ADESA Impact into IAAI and an increase in stock compensation expense. The integration costs represent travel, consulting costs, outside labor, and retention agreements.

Revenue

For the nine months ended September 30, 2007, AFC revenue increased to \$111.6 million, or 5%, compared with \$105.9 million for the nine months ended September 30, 2006. The increase in revenue was attributable to a 5% increase in the number of loan transactions and a slight increase in revenue per loan transaction for the nine months ended September 30, 2007, compared with the same period in 2006. The increase in loan transactions to 910,441 for the nine months ended September 30, 2007 was primarily the result of an increase in floorplan utilization by AFC's existing dealer base.

Revenue per loan transaction, which includes both loans paid off and loans curtailed, increased less than 1%, primarily as a result of increases in the average portfolio duration and the average values of vehicles floored partially offset by increases in the cost of funds and an increase in the provision for credit losses for both loans held and sold.

Gross Profit

For the nine months ended September 30, 2007, gross profit for the AFC segment increased \$3.4 million, or 4%, to \$88.1 million as a result of the \$5.7 million increase in revenue partially offset by the 11% increase in cost of services. Cost of services increased as a result of increased professional fees, compensation and related employee benefit cost increases, increased expense associated with lot checks and processing additional loan transactions.

Selling, General and Administrative Expenses

Selling, general and administrative expenses at AFC decreased \$1.1 million, or 9%, for the nine months ended September 30, 2007 as compared with the nine months ended September 30, 2006. The decrease is primarily the result of decreases in professional fees and compensation costs.

Selling, General and Administrative Expenses

For the nine months ended September 30, 2007, selling, general and administrative expenses at the holding company increased \$4.5 million, or 11%, to \$44.6 million, primarily due to increases in professional and consulting fees partially offset by decreases in travel costs.

Liquidity and Capital Resources

We believe that the strongest indicators of liquidity for our business are cash on hand, cash flow from operations, working capital and amounts available under our credit facility. Our principal sources of liquidity consist of cash generated by operations and borrowings under our revolving credit facility.

The indentures governing the Exchange Notes and the agreement governing our senior secured credit facilities will contain various provisions that limit our ability and the ability of our restricted subsidiaries, including ADESA and IAAI, to, among other things:

incur additional debt;

provide guarantees in respect of obligations of other persons;

issue redeemable stock and preferred stock;

pay dividends or distributions or redeem or repurchase capital stock;

prepay, redeem or repurchase debt;

make loans, investments and capital expenditures;

incur liens;

Edgar Filing: ADESA SAN DIEGO, LLC - Form 424B3

create restrictions on dividends or other payments by our restricted subsidiaries;

enter into certain transactions with affiliates;

sell assets and capital stock of our subsidiaries; and

consolidate or merge with or into, or sell substantially all of our assets to, another person.

Working Capital

A substantial amount of our working capital is generated from the payments received for services provided. The majority of our working capital needs are short-term in nature, usually less than a week in duration. Due to the decentralized nature of the business, payments for services are received at each auction and loan production office. Most of the financial institutions place a temporary hold on the availability of the funds deposited that can range anywhere from one to three business days, resulting in cash in our accounts and on its balance sheet that is unavailable for use until it is made available by the various financial institutions. Over the years, we have increased the amount of funds that are available for immediate use and are actively working on initiatives that will continue to decrease the time between the deposit of and the availability of funds received from customers. There are outstanding checks (book overdrafts) to sellers and vendors included in current liabilities. Because the majority of these outstanding checks for operations in the U.S. are drawn upon bank accounts at financial institutions other than the financial institutions that hold the unavailable cash, we cannot offset the cash and the outstanding checks on our balance sheet.

AFC offers short-term inventory-secured financing, also known as floorplan financing, to used vehicle dealers. Financing is primarily provided for terms of 30 to 60 days. AFC principally generates its funding through the sale of its U.S. dollar denominated receivables. For further discussion of AFC's securitization arrangements, see Off-Balance Sheet Arrangements.

Credit Facilities

We have a \$300 million revolving line of credit as part of our \$1,865 million senior credit facility, from which nothing was drawn as of September 30, 2007. There were related outstanding letters of credit totaling approximately \$17.5 million at September 30, 2007, which reduce the amount available under the senior credit facility. Our Canadian operations had letters of credit outstanding totaling \$2.5 million at September 30, 2007, which do not impact amounts available under our credit facility.

On April 20, 2007, we entered into a \$1,865 million senior credit facility, pursuant to the terms and conditions of a credit agreement, or the Credit Agreement, with Bear Stearns Corporate Lending Inc., as administrative agent, and a syndicate of lenders. The Credit Agreement has a six and one-half year term that expires on October 19, 2013. Under the terms of the Credit Agreement, the lenders committed to provide advances and letters of credit in an aggregate amount of up to \$1,865 million subject to certain conditions. Borrowings under the Credit Agreement may be used to finance working capital, capital expenditures and acquisitions permitted under the Credit Agreement and for other corporate purposes.

Table of Contents

The Credit Agreement provides for a six and one-half year \$1,565 million term loan and a six year \$300 million revolving credit facility. The term loan will be repaid in quarterly installments at an amount of 0.25% of the initial term loan, with the remaining principal balance due on October 19, 2013. The revolving credit facility may be used for loans, and up to \$75 million may be used for letters of credit. The revolving loans may be borrowed, repaid and reborrowed until April 19, 2013, at which time all revolving amounts borrowed must be repaid.

The revolving credit facility bears interest at a rate equal to LIBOR plus a margin ranging from 150 basis points to 225 basis points depending on our total leverage ratio. As of September 30, 2007, our revolving credit facility margin based on our leverage ratio was 225 basis points. The term loan facility bears interest at a rate equal to LIBOR plus a margin of either 200 basis points or 225 basis points depending on our total leverage ratio and ratings received from Moody's and Standard and Poor's. As of September 30, 2007, our term loan facility margin was 225 basis points.

The Credit Agreement contains certain restrictive loan covenants, including, among others, financial covenants requiring a maximum consolidated senior secured leverage ratio, provided there are revolving commitments outstanding, and covenants limiting our ability to incur indebtedness, grant liens, make acquisitions, be acquired, dispose of assets, pay dividends, make capital expenditures and make investments. The leverage ratio covenants are based on consolidated Adjusted EBITDA (earnings before interest expense, income taxes, depreciation and amortization) adjusted to exclude (a) gains and losses from asset sales; (b) unrealized foreign currency translation gains and losses in respect of indebtedness; (c) certain non-recurring gains and losses; (d) stock option expense; (e) certain other noncash amounts included in the determination of net income; (f) management, monitoring, consulting and advisory fees paid to the equity sponsors; (g) charges and revenue reductions resulting from purchase accounting; (h) unrealized gains and losses on hedge agreements; (i) minority expense; (j) expenses associated with the consolidation of salvage operations; (k) consulting expenses incurred for cost reduction, operating restructuring and business improvement efforts; (l) expenses realized upon the termination of employees and the termination or cancellation of leases, software licenses or other contracts in connection with the operational restructuring and business improvement efforts; and (m) expenses incurred in connection with permitted acquisitions.

The covenants contained within the senior credit facility are critical to an investor's understanding of our financial liquidity, as the violation of these covenants could cause a default and lenders could elect to declare all amounts borrowed due and payable. In addition, our notes contain certain financial and operational restrictions on paying dividends and other distributions, making certain acquisitions or investments, incurring indebtedness, granting liens and selling assets. These financial covenants affect our operating flexibility by, among other things, restricting our ability to incur expenses and indebtedness that could be used to grow the business, as well as to fund general corporate purposes. We are not required to assess compliance with the covenants until December 31, 2007.

On September 30, 2007, \$1,561.1 million was outstanding on the term loan and there were no borrowings on the revolving credit facility. We believe our sources of liquidity from cash and cash equivalents on hand, working capital, cash provided by operating activities, and availability under our credit facility are sufficient to meet our short and long-term operating needs for the foreseeable future. In addition, we believe the previously mentioned sources of liquidity will be sufficient to fund our capital requirements and debt service payments for the next twelve months.

EBITDA and Adjusted EBITDA

EBITDA and Adjusted EBITDA, as presented herein, are supplemental measures of our performance that are not required by, or presented in accordance with, GAAP. They are not measurements of our financial performance under GAAP and should not be considered as alternatives to revenues, net income (loss) or any other performance measures derived in accordance with GAAP or as alternatives to cash flow from operating activities as measures of our liquidity.

Table of Contents

EBITDA is defined as net income (loss), plus interest expense net of interest income, income tax provision (benefit), depreciation and amortization. We calculate Adjusted EBITDA by adjusting EBITDA for the items of income and expense and expected incremental revenue and cost savings described above in the discussion of certain restrictive loan covenants under **Credit Facilities**. Management believes that the inclusion of supplementary adjustments to EBITDA applied in presenting Adjusted EBITDA is appropriate to provide additional information to investors about certain covenants required pursuant to our senior credit facilities and the notes. EBITDA and Adjusted EBITDA measures have limitations as analytical tools, and should not be considered in isolation, or as a substitute for analysis of the results as reported under GAAP. These measures may not be comparable to similarly titled measures reported by other companies.

Certain of our loan covenant calculations require financial results for the most recent four consecutive fiscal quarters, with combined results for ADESA and IAAI prior to the Transactions. The calculation of Adjusted EBITDA (per the credit agreement) for the last twelve months ended September 30, 2007, presented below, includes a pro forma adjustment for anticipated cost savings related to the merger totaling \$10.5 million net of realized cost savings. The adjustment relates to anticipated costs savings for redundant selling, general and administrative costs for the salvage operations. The following table reconciles EBITDA and Adjusted EBITDA for the periods presented:

Table of Contents***Summary of Cash Flows****For Nine Months Ended September 30, 2007**(Dollars in millions)*

	January 1, 2007 to September 30, 2007
Net cash provided by (used for):	
Operating activities	\$ 89.8
Investing activities	(2,328.5)
Financing activities	2,583.5
Effect of exchange rate on cash	(0.4)
Net increase (decrease) in cash and cash equivalents	\$ 344.4

We were incorporated in the State of Delaware on November 9, 2006. However, we had no operations until the consummation of the Transactions on April 20, 2007. As such, the cash flows of ADESA and IAAI for January 1 through April 19, 2007 are not reflected in the above numbers.

Our cash flow initiatives include growing the used vehicle, salvage vehicle and dealer financing businesses internally by relocating/expanding facilities, broadening service offerings and improving operating efficiencies and externally through acquisitions.

Cash flow from operating activities was \$89.8 million for the nine months ended September 30, 2007. Operating cash flow was favorably impacted by non-cash charges for depreciation and amortization, amortization of debt issue costs and other non-cash transactions, as well as a net decrease in working capital.

Net cash used for investing activities was \$2,328.5 million for the nine months ended September 30, 2007 and is almost entirely representative of our purchase of ADESA on April 20, 2007. In addition, \$31.1 million has been expended for capital items since the merger as well as \$23.3 million for the acquisition of other companies. For a discussion of our capital expenditures, see *Capital Expenditures* below. There were no significant investing cash flows related to discontinued operations in the periods presented.

Net cash provided by financing activities was \$2,583.5 million for the nine months ended September 30, 2007. In connection with the Transactions, we entered into new senior secured credit facilities, including a \$1,565.0 million term loan facility. In addition, we issued \$600.0 million in Senior Notes and \$425.0 million in Senior Subordinated Notes. We also received \$710.5 million from the issuance of our common stock, net of costs. A portion of the proceeds from the debt and equity were used to repay existing ADESA and IAAI debt totaling \$685.7 million, including premium/consent payments. Debt issue costs of approximately \$90.7 million were also paid. There were no significant financing cash flows related to discontinued operations in the periods presented.

Capital Expenditures

Capital expenditures for ADESA and IAAI (excluding acquisitions and other investments) for the nine months ended September 30, 2007 and the year ended December 31, 2006 totaled \$47.8 million and \$54.6 million, respectively, and were funded primarily from internally generated funds. We continue to invest in our core information technology capabilities and capacity expansion. Capital expenditures are expected to be approximately \$80 million for fiscal year 2007. Anticipated expenditures are primarily attributable to ongoing information system maintenance, upkeep and improvements at existing vehicle auction facilities, improvements

Table of Contents

in information technology systems and infrastructure, and expansion and relocation of existing auction sites that are at capacity. Future capital expenditures could vary substantially based on capital project timing and the initiation of new information systems projects to support our business strategies.

Acquisitions

In the first quarter of 2007, IAAI acquired Permian Basin Salvage Pool in Odessa, Texas. The acquisition complements existing coverage in this market. Financial results for this acquisition have been included in IAAI's consolidated financial statements since the date of acquisition. The aggregate purchase price of this acquisition was approximately \$0.6 million. As a result of the Transactions, no purchase price allocation was completed. Pro forma financial results reflecting the acquisition were not materially different from those reported.

In September 2007, ADESA completed the acquisition of certain assets of the used vehicle Tri-State Auto Auction serving the Tri-State New York area. We renamed the auction ADESA Syracuse. This acquisition complements our geographic presence in the northeast. The auction is positioned on approximately 125 acres and includes seven auction lanes and full-service reconditioning shops providing detail, mechanical and body shop services. The assets purchased included operating equipment, accounts receivable and customer relationships related to the auction. In addition, we entered into an operating lease obligation related to the facility through 2017. Initial annual lease payments for the facility are approximately \$0.5 million per year. We did not assume any other material liabilities or indebtedness in connection with the acquisition. Financial results for this acquisition have been included in our consolidated financial statements since the date of acquisition.

In October 2007, ADESA acquired all of the issued and outstanding shares of the parent company of Tri-State Auction, Co. Inc., and Sioux Falls Auto Auction, Inc., both North Dakota corporations. Tri-State Auto Auction serves the Fargo, North Dakota area. The auction is comprised of approximately 30 acres and includes six auction lanes and full-service reconditioning shops providing detail, mechanical and body shop services. The Sioux Falls Auto Auction serves the Sioux Falls, South Dakota area. The auction is comprised of approximately 40 acres and includes four auction lanes and full-service reconditioning shops providing detail, mechanical and body shop services. The assets of the auctions include operating equipment, accounts receivable and customer relationships related to the auctions. Liabilities assumed by us include operating leases for land and buildings as well as debt. Financial results for this acquisition will be included in our consolidated financial statements from the date of acquisition.

In November 2007, ADESA Canada acquired all of the issued and outstanding shares of Enchere d'Auto Transit Inc. Enchere d'Auto Transit Inc. is a three lane auction located on the south shore of Quebec City and serves the Quebec City region, Eastern Quebec and Northern New Brunswick. The auction is comprised of approximately 30 acres of which about 10 acres are currently being used. The assets of the auction include accounts receivable, land and building, operating equipment and customer relationships related to the auctions. Financial results for this acquisition will be included in our consolidated financial statements from the date of acquisition.

The aggregate purchase price for the four previously mentioned ADESA auctions was approximately \$32.8 million. A preliminary purchase price allocation has been recorded for Tri-State Auto Auction and the purchase price of the acquisition was allocated to the acquired assets based upon fair market values. The goodwill was assigned to the ADESA Auctions reporting segment and is expected to be fully deductible for tax purposes. Pro forma financial results reflecting the acquisition were not materially different from those reported. The purchase price allocations for Tri-State Auction, Co. Inc., Sioux Falls Auto Auction, Inc. and Enchere d'Auto Transit Inc. will occur in our fourth quarter ending December 31, 2007.

On January 18, 2008, IAAI completed the purchase of assets of B&E Auto Auction in Henderson, Nevada which services the Southern Nevada region, including Las Vegas. The site will expand IAAI's national service coverage and provide additional geographic support to clients who already utilize existing IAAI facilities in the surrounding Western states.

Table of Contents

In January 2008, IAAI signed an agreement to purchase the stock of Salvage Disposal Company of Georgia, Verastar, LLC, Auto Disposal of Nashville, Inc., Auto Disposal of Chattanooga, Inc., Auto Disposal of Memphis, Inc., Auto Disposal of Paducah, Inc. and Auto Disposal of Bowling Green, Inc., 11 independently owned Salvage auctions in Georgia, North Carolina, Tennessee, Mississippi and Kentucky. These site acquisitions will expand IAAI's national service coverage and provide additional geographic support to clients who already utilize existing IAAI facilities in the surrounding southern states.

In February 2008, ADESA Auctions completed the purchase of certain assets of Pennsylvania Auto Dealer Exchange, PADE Financial Services and Conewago Partners, LP, an independent used vehicle auction in York, Pennsylvania. This acquisition complements our geographic presence in the northeast.

The aggregate purchase price for the 13 previously mentioned auctions was approximately \$110 million.

Contractual Obligations

The table below sets forth a summary of our contractual debt and operating lease obligations as of September 30, 2007. Some of the figures included in this table are based on management's estimates and assumptions about these obligations, including their duration, the possibility of renewal and other factors. Because these estimates and assumptions are necessarily subjective, the obligations we may actually pay in future periods could vary from those reflected in the table.

The following summarizes our contractual cash obligations as of September 30, 2007 (*in millions*):

Contractual Obligations	Total	Payments Due by Period			
		Less than 1 year	1-3 Years	4-5 Years	More than 5 Years
Long-term debt					
Term loan B(a)	\$ 1,561.1	\$ 15.6	\$ 31.2	\$ 31.2	\$ 1,483.1
Floating rate senior notes(a)	150.0				150.0
Senior Notes(a)	450.0				450.0
Senior subordinated notes(a)	425.0				425.0
Capital lease obligation(b)	34.5				34.5
Interest payments relating to long-term debt(c)	1,321.2	209.9	418.2	411.9	281.2
Interest rate swap(d)	10.7		10.7		
Operating leases(e)	444.5	44.9	115.2	30.0	254.4
Total contractual cash obligations	\$ 4,397.0	\$ 270.4	\$ 575.3	\$ 473.1	\$ 3,078.2

(a) The table assumes the long-term debt is held to maturity.

(b) In 2003, ADESA entered into a capital lease for the new Atlanta auction facility in conjunction with the purchase of development revenue bonds.

(c) Interest payments on long-term debt are projected based on the contractual rates of the debt securities. (Note: interest on the capital lease is not included as it is offset by interest received from the related bonds.) Interest rates for the variable rate debt instruments were projected based on information available from lenders and held constant at the 2007 rates due to their unpredictable nature.

(d) The fair value of the interest rate swap agreement is estimated using pricing models widely used in financial markets and represents the estimated amount we would receive/pay to terminate the agreement at the reporting date. The \$800 million notional amount swap

agreement does not mature until June 2009.

- (e) Operating leases are entered into in the normal course of business. We lease some of our auction facilities, as well as other property and equipment under operating leases. Some lease agreements contain options to renew the lease or purchase the leased property. Future operating lease obligations would change if the renewal options were exercised and/or if we entered into additional operating lease agreements.

Off-Balance Sheet Arrangements

AFC sells the majority of its U.S. dollar denominated finance receivables on a revolving basis and without recourse to a wholly owned, bankruptcy remote, consolidated, special purpose subsidiary, or AFC Funding Corporation, established for the purpose of purchasing AFC's finance receivables. In conjunction with the merger transaction, AFC and AFC Funding Corporation amended their securitization agreement on April 20, 2007. The agreement expires on April 20, 2012. The agreement allows for the revolving sale by AFC Funding Corporation to a bank conduit facility of up to a maximum of \$750 million in undivided interests in certain eligible finance receivables subject to committed liquidity. AFC Funding Corporation had committed liquidity of \$600 million at September 30, 2007. Receivables that AFC Funding sells to the bank conduit facility qualify for sales accounting for financial reporting purposes pursuant to SFAS 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities, and as a result are not reported on our consolidated balance sheet.

At September 30, 2007, AFC managed total finance receivables of \$869.6 million, of which \$755.5 million had been sold without recourse to AFC Funding Corporation. Undivided interests in finance receivables were sold by AFC Funding Corporation to the bank conduit facility with recourse totaling \$528.0 million at September 30, 2007. Finance receivables include \$68.8 million classified as held for sale and \$133.9 million classified as held for investment at September 30, 2007. AFC's allowance for losses of \$2.2 million at September 30, 2007, includes an estimate of losses for finance receivables held for investment. Additionally, accrued liabilities of \$3.8 million for the estimated losses for loans sold by the special purpose subsidiary were recorded at September 30, 2007. These loans were sold to a bank conduit facility with recourse to the special purpose subsidiary and will come back on the balance sheet of the special purpose subsidiary at fair market value if they become ineligible under the terms of the collateral arrangement with the bank conduit facility.

Proceeds from the revolving sale of receivables to the bank conduit facility are used to fund new loans to customers. AFC and AFC Funding Corporation must maintain certain financial covenants including, among others, limits on the amount of debt AFC can incur, minimum levels of tangible net worth, and other covenants tied to the performance of the finance receivables portfolio. The securitization agreement also incorporates the financial covenants of our credit facility. At September 30, 2007, we were in compliance with the covenants contained in the securitization agreement.

Critical Accounting Estimates

In preparing the financial statements in accordance with generally accepted accounting principles, management must often make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses and related disclosures at the date of the financial statements and during the reporting period. Some of those judgments can be subjective and complex. Consequently, actual results could differ from those estimates.

In addition to the critical accounting estimates, there are other items used in the preparation of our consolidated financial statements that require estimation, but are not deemed critical. Changes in estimates used in these and other items could have a material impact on our financial statements.

We continually evaluate the accounting policies and estimates we use to prepare the consolidated financial statements. In cases where management estimates are used, they are based on historical experience, information from third-party professionals, and various other assumptions believed to be reasonable. The following summarizes those accounting policies that are most subject to important estimates and assumptions and are most critical to the reported results of operations and financial condition.

Table of Contents

Uncollectible Receivables and Allowance for Credit Losses and Doubtful Accounts

We maintain an allowance for credit losses and doubtful accounts for estimated losses resulting from the inability of customers to make required payments. The allowances for credit losses and doubtful accounts are based on management's evaluation of the receivables portfolio under current economic conditions, the volume of the portfolio, overall portfolio credit quality, review of specific collection matters and such other factors which, in management's judgment, deserve recognition in estimating losses. Specific collection matters can be impacted by the outcome of negotiations, litigation and bankruptcy proceedings.

Due to the nature of our business, substantially all of our trade receivables are due from vehicle dealers, salvage buyers, institutional customers and insurance companies. We generally have possession of vehicles or vehicle titles collateralizing a significant portion of these receivables. At the auction sites, risk is mitigated through a pre-auction registration process that includes verification of identification, bank accounts, dealer license status, acceptable credit history, buying history at other auctions and the written acceptance of all of the auction's policies and procedures.

Our allowance for credit losses includes an estimate of losses for finance receivables currently held on the balance sheet of AFC and its subsidiaries. Additionally, an accrued liability is recorded for the estimated losses for loans sold by AFC's subsidiary, AFC Funding Corporation. These loans were sold to a bank conduit facility with recourse to AFC Funding Corporation and will come back on the balance sheet of AFC Funding Corporation at fair market value if they become ineligible under the terms of the collateral arrangement with the bank conduit facility. AFC controls credit risk through credit approvals, credit limits, underwriting and collateral management monitoring procedures, which includes holding vehicle titles where permitted.

Impairment of Goodwill and Long-Lived Assets

In accordance with SFAS No. 142, Goodwill and Other Intangible Assets, we assess goodwill for impairment at least annually and whenever events or circumstances indicate that the carrying amount of the goodwill may be impaired. Important factors that could trigger an impairment review include significant under-performance relative to historical or projected future operating results; significant negative industry or economic trends; and our market valuation relative to our book value. In assessing goodwill, we must make assumptions regarding estimated future cash flows and earnings, changes in our business strategy and economic conditions affecting market valuations related to the fair values of our three reporting units (which consist of our three operating and reportable business segments: ADESA Auctions, IAAI and AFC). If the fair value of a reporting unit is determined to be less than the carrying amount, an impairment charge would be recorded in the period identified. In response to changes in industry and market conditions, we may be required to strategically realign our resources and consider restructuring, disposing of or otherwise exiting businesses, which could result in an impairment of goodwill. To date, no significant changes in events or circumstances have occurred that would indicate the carrying amount of our goodwill has been impaired.

We review long-lived assets for possible impairment whenever circumstances indicate that their carrying amount may not be recoverable. If it is determined that the carrying amount of a long-lived asset exceeds the total amount of the estimated undiscounted future cash flows from that asset, we would recognize a loss to the extent that the carrying amount exceeds the fair value of the asset. Management judgment is involved in both deciding if testing for recovery is necessary and in estimating undiscounted cash flows. Our impairment analysis is based on the current business strategy, expected growth rates and estimated future economic conditions.

Self-Insurance Programs

We self-insure a portion of employee medical benefits under the terms of our employee health insurance program, as well as a portion of our automobile, general liability and workers' compensation claims. We purchase individual stop-loss insurance coverage that limits the exposure on individual claims. We also purchase

Table of Contents

aggregate stop-loss insurance coverage that limits the total exposure to overall automobile, general liability and workers' compensation claims. The cost of the stop-loss insurance is expensed over the contract periods.

We record an accrual for the claims expense related to our employee medical benefits, automobile, general liability and workers' compensation claims based upon the expected amount of all such claims. Trends in healthcare costs could have a significant impact on anticipated claims. If actual claims are higher than anticipated, our accrual might be insufficient to cover the claims costs, which would have an adverse impact on the operating results in that period.

Legal Proceedings and Other Loss Contingencies

We are subject to the possibility of various legal proceedings and other loss contingencies, many involving litigation incidental to the business and a variety of environmental laws and regulations. Litigation and other loss contingencies are subject to inherent uncertainties and the outcomes of such matters are often very difficult to predict and generally are resolved over long periods of time. We consider the likelihood of loss or the incurrence of a liability, as well as the ability to reasonably estimate the amount of loss, in determining loss contingencies. Estimating probable losses requires the analysis of multiple possible outcomes that often are dependent on the judgment about potential actions by third parties. Contingencies are recorded in the consolidated financial statements, or otherwise disclosed, in accordance with SFAS 5, Accounting for Contingencies. We accrue for an estimated loss contingency when it is probable that a liability has been incurred and the amount of loss can be reasonably estimated. Management regularly evaluates current information available to determine whether accrual amounts should be adjusted. If the amount of an actual loss is greater than the amount accrued, this could have an adverse impact on our operating results in that period. Legal fees are expensed as incurred.

Income Taxes

All income tax amounts reflect the use of the liability method. Under this method, deferred tax assets and liabilities are determined based on the expected future tax consequences of temporary differences between the carrying amounts of assets and liabilities for financial and income tax reporting purposes.

We operate in multiple tax jurisdictions with different tax rates and must determine the appropriate allocation of income to each of these jurisdictions. In the normal course of business, we will undergo scheduled reviews by taxing authorities regarding the amount of taxes due. These reviews include questions regarding the timing and amount of deductions and the allocation of income among various tax jurisdictions. Tax reviews often require an extended period of time to resolve and may result in income tax adjustments if changes to the allocation are required between jurisdictions with different tax rates.

We record our tax provision based on existing laws, experience with previous settlement agreements, the status of current IRS (or other taxing authority) examinations and management's understanding of how the tax authorities view certain relevant industry and commercial matters. Although we have recorded all probable income tax liabilities in accordance with SFAS 5 and SFAS 109, Accounting for Income Taxes, these accruals represent accounting estimates that are subject to inherent uncertainties associated with the tax audit process, and therefore include certain contingencies. We establish reserves when we believe that certain positions may not prevail if challenged by a taxing authority. We adjust these reserves in light of changing facts and circumstances.

Adoption of FIN 48, Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109

On January 1, 2007, ADESA and IAAI adopted the provisions of FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109. FIN 48 clarifies the accounting and reporting for uncertainty in income taxes recognized in an enterprise's financial statements. This interpretation prescribes a comprehensive model for the financial statement recognition, measurement,

Table of Contents

presentation and disclosure of uncertain tax positions taken or expected to be taken on income tax returns. As a result of adopting FIN 48, ADESA and IAAI recorded changes in liabilities of \$1.7 million and (\$0.2) million, respectively, and a corresponding change in retained earnings and goodwill, respectively.

New Accounting Standards

In September 2006, the FASB issued SFAS 157, Fair Value Measurements. The statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. This standard is effective for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. We are currently evaluating the impact the adoption of SFAS 157 will have on the consolidated financial statements.

In February 2007, the FASB issued SFAS 159, The Fair Value Option for Financial Assets and Financial Liabilities, which provides companies with an option to report selected financial assets and liabilities at fair value. The objective of SFAS 159 is to reduce both complexity in accounting for financial instruments and the volatility in earnings caused by measuring related assets and liabilities differently. SFAS 159 does not eliminate disclosure requirements of other accounting standards, including fair value measurement disclosures in SFAS 157. This standard is effective as of the beginning of an entity's first fiscal year beginning after November 15, 2007. We are currently evaluating the impact the adoption of SFAS 159 will have on our consolidated financial statements.

In December 2007, the FASB issued SFAS 141(R), Business Combinations. The statement establishes principles and requirements for recognizing and measuring identifiable assets and goodwill acquired, liabilities assumed and any noncontrolling interest in an acquisition, at their fair value as of the acquisition date. This standard is effective for annual reporting periods beginning after December 15, 2008. We are currently reviewing the pronouncement to determine its effects on business acquisitions we may make in the future.

In December 2007, the FASB issued SFAS 160, Noncontrolling Interests in Consolidated Financial Statements – an Amendment of Accounting Research Bulletin No. 51. The statement amends Accounting Research Bulletin No. 51 to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. This standard is effective for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. We are currently evaluating the impact the adoption of SFAS 160 will have on the consolidated financial statements.

Executive Overview

Overview of 2006 Performance

The volume of used vehicles coming to auction increased in 2006. However, wholesale used vehicle prices were soft in 2006 as a result of ongoing weakness in retail used vehicle sales. The continued relative weakness in retail demand for used vehicles was reflected in ADESA's used vehicle conversion percentage, which decreased from 63.1 percent in 2005 to 60.4 percent in 2006. Despite the challenging operating environment, ADESA achieved several noteworthy accomplishments during 2006:

Achieved record annual revenues of \$1.1 billion, representing growth of 14 percent;

Achieved all-time record loan transaction volume of 1.2 million, representing growth of over 5 percent;

Acquired a used vehicle auction in Sarasota, Florida, three salvage auctions in Texas and a salvage auction in Pennsylvania;

Organically added two salvage auctions: Impact Syracuse and Impact South Pittsburgh;

Offered over 1.4 million vehicles for sale on LiveBlock[®], ADESA's real-time interactive Internet bidding system;

Completed the U.S. roll-out of Auction Access dealer registration program and Salesforce.com;

Teamed with First Look to provide used vehicle dealers with custom auction and inventory optimization tools;

Reduced debt by \$80 million, including a discretionary payment of \$50 million; and

Paid a total of \$27 million in dividends.

For the year ended December 31, 2006, ADESA reported record annual revenue of \$1.1 billion and income from continuing operations of \$126.8 million, compared with revenue of \$968.8 million and income from continuing operations of \$126.1 million for 2005. Results for 2006 included a \$2.1 million after-tax charge representing a reduction of ownership interests in aircraft and other costs associated with the termination of the Joint Aircraft Ownership and Management Agreement with ALLETE. In addition, results for 2006 included \$5.1 million in after-tax expenses consisting of legal and professional fees associated with the Transactions. Results for 2005 included a net \$1.5 million after-tax charge related to the refinancing of ADESA's senior credit facility. Cash provided by operations was \$190.9 million for the year ended December 31, 2006, compared with \$136.5 million for 2005.

Industry Outlook and Trends

Vehicles in operation in North America continued to increase in 2006, although used vehicle sales experienced a decline in 2006. North America vehicles in operation increased approximately 2 percent in 2006 to 263 million vehicles. Used vehicle sales decreased approximately 3 percent to 45 million vehicles in 2006. The number of vehicles auctioned has been relatively flat over the last five years. Approximately 9.4 million

Edgar Filing: ADESA SAN DIEGO, LLC - Form 424B3

vehicles were auctioned in 2001 compared with approximately 9.5 million in 2006. The decline in retail used vehicle sales in 2006 impacted demand and used vehicle auction volumes. While off-lease vehicles declined again in 2006, lease penetration rates have been modestly increasing since 2004 and ADESA expects that industry off-lease auction volumes may begin increasing in late 2007.

Seasonality

Generally, the volume of vehicles sold at ADESA's auctions is highest in the first and second calendar quarters of each year and slightly lower in the third quarter. Fourth quarter volume of vehicles sold is generally

Table of Contents

lower than all other quarters. This seasonality is affected by several factors including weather, the timing of used vehicles available for sale from selling customers, holidays, and the seasonality of the retail market for used vehicles, which affect the demand side of the auction industry. Used vehicle auction volumes tend to decline during prolonged periods of winter weather conditions. In addition, mild weather conditions and decreases in traffic volume can each lead to a decline in the available supply of salvage vehicles because fewer traffic accidents occur, resulting in fewer damaged vehicles overall. As a result, revenues and operating expenses related to volume will fluctuate accordingly on a quarterly basis, and ADESA's earnings are generally highest in the second calendar quarter. The fourth calendar quarter typically has the lowest earnings as a result of the lower auction volume and additional costs associated with the holidays and winter weather.

ADESA's revenue is derived from auction fees and related services at its auction facilities and dealer financing services at AFC. Although auction revenues only include the auction and related fees, ADESA's related receivables and payables include the value of the vehicles sold. AFC's net revenue consists primarily of securitization income and interest and fee income less provisions for credit losses. Securitization income is primarily comprised of the gain on sale of finance receivables sold, but also includes servicing income, discount accretion, and any change in the fair value of the retained interest in finance receivables sold. Operating expenses for ADESA consist of cost of services, selling, general and administrative expenses and depreciation and amortization. Cost of services is composed of payroll and related costs, subcontract services, supplies, insurance, property taxes, utilities, maintenance and lease expense related to the auction sites and loan offices. Cost of services excludes depreciation and amortization. Selling, general and administrative expenses are composed of indirect payroll and related costs, sales and marketing, information technology services and professional fees.

In 2006, ADESA implemented several organizational realignment and management changes intended to better position ADESA to serve its diverse customer bases, accommodate anticipated growth and realize operational efficiencies across all business lines. The former auction and related services or ARS segment is now referred to as Auction Services Group, or ASG. The former dealer financing segment is now referred to as Dealer Services Group, or DSG. ADESA's operations are grouped into three operating segments: used vehicle auctions, Impact salvage auctions and AFC. ADESA aggregates its three operating segments into two reportable business segments: ASG and DSG. The realignment had no impact on aggregation of financial information at the reportable segment level.

ASG encompasses all wholesale and salvage auctions throughout North America (U.S. and Canada). ADESA's used vehicle auctions and Impact salvage auctions are included in the ASG segment. In addition to providing auctions for the exchange of ownership between the sellers and buyers of the vehicles, ASG also provides related services that include vehicle reconditioning, inbound and outbound logistics, vehicle inspections, titling, salvage recovery services, and outsourcing of various other administrative functions.

DSG includes the AFC finance business as well as other businesses and ventures ADESA may enter into, focusing on providing ADESA's independent used vehicle dealer customers with value-added ancillary services and products. AFC is engaged in the business of providing short-term, inventory-secured financing to independent, used vehicle dealers. AFC conducts business primarily at wholesale vehicle auctions in the U.S. and Canada.

Revenue from ASG increased \$117.1 million, or 14 percent, to \$959.9 million for the year ended December 31, 2006, compared with \$842.8 million for the year ended December 31, 2005. The 14 percent increase in revenue was a result of a 10 percent increase in revenue per vehicle sold during the year and a 4 percent increase in vehicles sold.

For the year ended December 31, 2006, revenue per vehicle sold increased \$42, or 10 percent, compared with the year ended December 31, 2005. The 10 percent increase in revenue per vehicle sold resulted in increased ASG revenue of approximately \$89.0 million. The increase in revenue per vehicle sold was primarily attributable to an increase in lower margin services such as transportation, reconditioning and other ancillary services resulting from a 7 percent increase in the number of institutional vehicles entered as well as a salvage vehicle mix shift. These factors resulted in increased ASG revenue of approximately \$48.6 million. The higher transportation, reconditioning and other ancillary services revenues, as well as the change in mix of salvage vehicles sold, also resulted in corresponding increases in cost of services. Incremental fee income related to selective fee increases and higher wholesale used vehicle values resulted in increased ASG revenue of approximately \$26.3 million. Fluctuations in the Canadian exchange rate increased revenue by approximately \$14.1 million for the year ended December 31, 2006, compared with the year ended December 31, 2005.

While the number of retail used vehicles sold was the lowest in a decade, the total number of wholesale vehicles sold at ADESA auctions increased 4 percent in 2006 compared with 2005, resulting in an increase in ASG revenue of approximately \$28.1 million. The increase in vehicles sold was primarily the result of added volumes from recent acquisitions.

The used vehicle conversion percentage, calculated as the number of vehicles sold as a percentage of the number of vehicles entered for sale at ADESA's used vehicle auctions, declined to 60.4 percent for the year ended December 31, 2006 from 63.1 percent for the year ended December 31, 2005, reflecting a relatively weak retail used vehicle market for 2006 compared to 2005. The decline in the used vehicle conversion percentage negatively impacted ASG revenues, cost of sales and operating profit for the year ended December 31, 2006 compared with the year ended December 31, 2005.

Loan transactions	1,096,432	1,151,702	5%
Revenue per loan transaction	\$ 115	\$ 125	9%

For the year ended December 31, 2006, DSG revenue increased to \$144.0 million compared with \$126.0 million for the year ended December 31, 2005. The 14 percent increase in Dealer Services Group revenue was driven by a 9 percent increase in revenue per loan transaction and a 5 percent increase in the number of loan transactions for the year ended December 31, 2006, compared with the year ended December 31, 2005. The increase in loan transactions to 1,151,702 for the year ended December 31, 2006 was primarily the result of an increase in floorplan utilization by AFC's existing dealer base.

Revenue per loan transaction, which includes both loans paid off and loans curtailed, increased \$10, or 9 percent, primarily driven by increases in interest rates and increases in both the average values of vehicles

Table of Contents

floored as well as the average portfolio duration. These factors contributed to the increase in securitization income of \$5.8 million and increased fee and interest income of \$12.2 million. The Federal Funds rate has increased approximately 100 basis points since December 31, 2005.

Cost of Services

For the year ended December 31, 2006, cost of services increased \$90.3 million, or 19 percent, compared with the year ended December 31, 2005. Weak used vehicle demand resulted in a decrease in the used vehicle conversion rate from 63.1 percent for the year ended December 31, 2005 to 60.4 percent for the year ended December 31, 2006. Cost of services was significantly impacted by an increase in lower margin services such as transportation, reconditioning and other ancillary services, as well as costs associated with handling an additional 168,000 used vehicles entered for sale at ADESA's auctions in 2006 compared with 2005. Fluctuations in the Canadian exchange rate increased cost of services by approximately \$7.4 million.

For the year ended December 31, 2006, cost of services at the ASG segment increased \$87.1 million, or 19 percent, to \$535.4 million. A \$22.2 million increase in transportation costs, which includes fuel costs, was a leading driver increasing cost of services. Increases in reconditioning and other ancillary services costs totaling \$21.2 million, primarily resulting from a 7.4 percent increase in the number of institutional vehicles entered, also impacted cost of services for the ASG segment. Cost of services increased significantly due to the costs associated with handling an additional 168,000 used vehicles entered for sale at ADESA's used vehicle auctions in 2006 compared with 2005. The addition of the acquired used vehicle and salvage auctions over the last twelve months further contributed to the increase in cost of services, along with a change in mix of salvage vehicles sold. Fluctuations in the Canadian exchange rate increased cost of services at the ASG segment by approximately \$7.2 million.

For the year ended December 31, 2006, cost of services at the DSG segment increased \$3.2 million, or 13 percent, to \$28.4 million, primarily due to increased compensation and related employee benefit costs.

Selling, General and Administrative Expenses

For the year ended December 31, 2006, selling, general and administrative expenses increased \$32.1 million, or 14 percent, compared with the year ended December 31, 2005. This increase was primarily due to compensation and related employee benefit cost increases, the impact of 2005 and 2006 acquisitions and an increase of \$2.8 million associated with fluctuations in the Canadian exchange rate. For the year ended December 31, 2006, ADESA incurred \$5.8 million of pretax stock-based compensation expense, of which \$3.4 million was incremental as a result of the adoption of SFAS 123(R), Share-Based Payment. In addition, selling, general and administrative expenses for 2006 included a \$2.7 million pretax charge related to the correction of certain unreconciled balance sheet differences concealed by a former employee at ADESA's Kitchener, Ontario auction facility acquired in June 2000. The unreconciled differences accumulated and were concealed over a period of five to six years between 2000 and 2006. Approximately one-half of the amounts concealed date back to fiscal years prior to 2003. Management has implemented changes to its internal control processes and systems and has concluded that the matters related to the \$2.7 million charge, individually or in the aggregate, did not give rise to or arise from a material weakness due to the nature of the items and compensating controls. In addition, management has concluded that the corrections were not material to either the current or any prior period financial statements.

Selling, general and administrative expenses at the ASG segment increased \$30.0 million, or 16 percent, to \$215.9 million for the year ended December 31, 2006 primarily due to increases in compensation and related employee benefits costs totaling \$10.3 million, which included severance and other separation costs related to the departure of a senior executive. Selling, general and administrative expenses increased \$4.5 million in 2006 due to acquisitions of new auctions. The ASG segment also incurred \$2.3 million of incremental stock-based compensation and the \$2.7 million pretax Kitchener charge. In addition, there was an increase of \$2.7 million resulting from changes in the Canadian exchange rate.

Table of Contents

Selling, general and administrative expenses at the DSG segment decreased \$0.2 million, or 1 percent, to \$21.2 million for the year ended December 31, 2006, as a result of a decrease in compensation and related employee benefits offset by certain professional fees, as well as employee training and travel costs.

For the year ended December 31, 2006, selling, general and administrative expenses at the holding company increased \$2.3 million, or 12 percent, to \$22.1 million, primarily due to increases in compensation and related employee benefit costs, as well as executive and director searches and increased travel costs.

Depreciation and Amortization

Depreciation and amortization totaled \$46.5 million for the year ended December 31, 2006, representing an increase of \$5.7 million, or 14 percent, from the \$40.8 million reported for the year ended December 31, 2005. The increase in depreciation and amortization was a result of ADESA's capital spending in 2005, including over \$20 million related to information technology, which generally has a shorter depreciable life. ADESA continues to invest in its core information technology capabilities, as well as new technology service offerings, relocations and acquisitions.

Aircraft Charge

On November 2, 2006, ADESA received written notice of ALLETE, Inc.'s election to withdraw from joint ownership of two corporate aircraft and terminate the Joint Aircraft Ownership and Management Agreement between ALLETE, Inc. and ADESA dated as of June 4, 2004, or the Aircraft Agreement. The Aircraft Agreement sets forth the terms and conditions relating to the duties and responsibilities of ALLETE and ADESA with respect to two aircraft previously owned by ALLETE. In addition, pursuant to the Aircraft Agreement, ALLETE contributed a 70 percent ownership interest in each of the two aircraft to ADESA. Upon termination of the Aircraft Agreement, each owner is entitled to 100 percent ownership interest in, and title to, one of the aircraft. As a result of the termination of the Aircraft Agreement, ADESA recorded a non-cash pretax charge of \$3.4 million in the fourth quarter of 2006 representing a reduction of ownership interests in the aircraft and other costs associated with the termination of the Aircraft Agreement.

Transaction Expenses

On December 22, 2006, ADESA entered into an Agreement and Plan of Merger, pursuant to which ADESA would be acquired by a group of private equity funds led by an affiliate of Kelso. The following table sets forth the \$6.1 million of expenses incurred in connection with the transaction through December 31, 2006:

Legal and accounting fees and expenses	\$ 3.2
Investment banking fees and expenses	2.0
Other due diligence fees and expenses	0.5
Other miscellaneous expenses	0.4
Total	\$ 6.1

Operating Profit

Operating profit decreased \$2.5 million or 1 percent to \$224.9 million, for the year ended December 31, 2006 compared with 2005. As a percentage of revenue, operating profit decreased to 20.4 percent in the year ended December 31, 2006, compared with 23.5 percent in the year ended December 31, 2005. This decrease was primarily the result of the previously discussed \$6.1 million of transaction expenses related to the merger agreement, the \$3.4 million related to the aircraft charge and increased operating expenses at the ASG segment driven by an increase in lower margin ancillary services revenues, a softness in the retail used vehicle market and declining used vehicle conversion rates.

Table of Contents

Operating profit at the ASG segment decreased \$6.2 million, or 4 percent, to \$166.4 million for the year ended December 31, 2006 primarily as a result of the 2.6 percent increase in cost of services as a percent of revenues along with the 0.5 percent increase in selling, general and administrative expenses as a percent of revenues. Cost of services was significantly impacted by costs associated with an increase in lower margin services such as transportation, reconditioning and other ancillary services resulting from a significant increase in the number of institutional vehicles entered. Additionally, the decline in the used vehicle conversion percentage resulted in additional handling costs related to the incremental 168,000 used vehicles entered which increased cost of services. Furthermore, selling, general and administrative expenses at the ASG segment were impacted by the Kitchener charge and incremental stock-based compensation expense.

Operating profit at the DSG segment increased \$15.6 million, or 21 percent, to \$90.9 million for the year ended December 31, 2006 primarily as a result of the 14 percent increase in revenue and a 3.3 percent decrease in operating expenses as a percentage of revenues. Increased revenue at the DSG segment more than offset higher operating expenses associated with processing more loan transactions, which increased operating profit at the DSG segment.

Operating profit in the ASG and DSG segments was offset by an \$11.9 million increase in holding company operating expenses, consisting primarily of the previously discussed \$6.1 million of transaction expenses related to the merger agreement and \$3.4 million related to the aircraft charge.

Interest Expense

Interest expense decreased \$3.8 million, or 12 percent, for the year ended December 31, 2006, compared with the year ended December 31, 2005, as ADESA is carrying less debt relative to 2005, which was partially offset by higher interest rates.

Loss on Extinguishment of Debt

In the third quarter of 2005, ADESA recorded a non-recurring \$2.9 million pretax charge for the write-off of certain unamortized debt issuance costs associated with ADESA's June 2004 credit facility and certain expenses related to the July 2005 amended and restated credit facility. The Term Loan B facility was repaid in conjunction with the amended and restated credit facility and the related interest rate swap agreement was terminated in the third quarter of 2005 resulting in a pretax gain of \$0.5 million. The \$0.5 million gain was recorded in Other income, net and when combined with the \$2.9 million charge, resulted in a net pretax charge of \$2.4 million related to the amendment and restatement of the credit facility.

Income Taxes

The effective income tax rate on income from continuing operations was 38.0 percent for the year ended December 31, 2006, an increase from the effective rate of 37.5 percent for the year ended December 31, 2005. The increase in the effective tax rate for the year ended December 31, 2006 versus the year ended December 31, 2005 was primarily due to the nondeductible nature of certain transaction expenses incurred in relation to the merger agreement.

Discontinued Operations

In February 2003, management approved a plan to discontinue the operations of ADESA's vehicle importation business. In August 2005, ADESA sold ComSearch, Inc. which provides professional claims outsourcing services, automotive parts-locating and desk-auditing services to the property and casualty insurance industry. The financial results of the vehicle importation business and ComSearch have been classified as discontinued operations. Net loss from discontinued operations for the year ended December 31, 2006 of \$0.5 million includes interest on the vehicle importation business adverse judgment as well as accrued legal fees. Net

See Note 21 in the Notes to Consolidated Financial Statements of ADESA for further description of the importation legal matter.

The following summarizes financial information for the discontinued operations (dollars in millions):

Significant Items Affecting Comparability

ADESA incurred various charges in 2005 and 2006 that affect the comparability of its reported results of operations. The impact of these transactions on income from continuing operations is as follows (dollars in millions):

	Year ended December 31,	
	2005	2006
Charges:		
Debt prepayment expenses	\$ 2.9	\$
Gain on termination of swap	(0.5)

Transaction expenses		6.1
	2.4	12.2
Tax benefit of above items	(0.9)	(3.2)
Decrease to income from continuing operations	\$ 1.5	\$ 9.0

In the first quarter of 2006, ADESA recorded a \$2.7 million pretax charge related to the correction of certain unreconciled balance sheet differences concealed by a former employee at ADESA's Kitchener, Ontario auction facility acquired in June 2000.

As a result of the termination of the Joint Aircraft Ownership and Management Agreement between ALLETE, Inc. and ADESA, ADESA recorded a non-cash pretax charge of \$3.4 million in the fourth quarter of 2006, representing a reduction of ownership interests in the aircraft and other costs associated with the termination of the Aircraft Agreement.

On December 22, 2006, ADESA entered into an Agreement and Plan of Merger, pursuant to which ADESA will be acquired by a group of private equity funds led by an affiliate of Kelso. ADESA incurred \$6.1 million in pretax expenses through December 31, 2006 in connection with the transaction.

In the third quarter of 2005, ADESA recorded a charge for the write-off of certain unamortized debt issuance costs associated with ADESA's June 2004 credit facility and certain expenses related to the amended and restated credit facility. In addition, an interest rate swap agreement related to the former Term Loan B facility was terminated in the third quarter of 2005.

Revenue from ASG increased \$33.9 million, or 4 percent, to \$842.8 million for the year ended December 31, 2005, compared with \$808.9 million for the year ended December 31, 2004. This increase in revenue was a result of a 6 percent increase in revenue per vehicle sold during 2005, offset by a 1 percent decrease in vehicles sold.

Revenue per vehicle sold increased \$23, or 6 percent, for the year ended December 31, 2005 compared with the year ended December 31, 2004. The 6 percent increase in revenue per vehicle sold resulted in increased ASG revenue of approximately \$44.5 million including fluctuations in the Canadian exchange rate, which positively impacted revenue by approximately \$12.3 million for the year ended December 31, 2005, compared with the year ended December 31, 2004. The increase in revenue per vehicle sold is primarily attributable to selected fee increases driven in part by higher wholesale used vehicle prices, the favorable effect of changes in the Canadian currency exchange rates and increased transportation revenue.

The total number of vehicles sold decreased 1 percent in 2005 compared with 2004, resulting in a decrease in ASG revenue of approximately \$10.6 million. The industry-wide decline in off-lease vehicles and declines in repossessed vehicle volumes available for sale at auctions continued during 2005, but was partially offset by revenues from ADESA's 2005 acquisitions totaling \$11.3 million. The used vehicle conversion percentage, calculated as the number of vehicles sold as a percentage of the number of vehicles entered for sale at ADESA's used vehicle auctions, increased to 63.1 percent for the year ended December 31, 2005 from 62.5 percent for the year ended December 31, 2004.

DSG revenue increased to \$126.0 million for the year ended December 31, 2005, compared with \$116.6 million for the year ended December 31, 2004. The 8 percent increase in Dealer Services Group revenue was driven by a 6 percent increase in revenue per loan transaction and a 2 percent increase in the number of loan transactions for the year ended December 31, 2005, compared with the year ended December 31, 2004. The increase in loan transactions was primarily the result of an increase in floorplan utilization by AFC's existing dealer base.

Revenue per loan transaction increased \$6, or 6 percent, primarily driven by an increase in securitization income of \$1.8 million, increased interest of \$4.2 million (the Federal Funds rate increased approximately 200 basis points since December 31, 2004), increased fee income of \$3.4 million and a decrease in the provision for credit losses of \$1.2 million, partially offset by a reduction in other revenue of \$1.2 million compared with the year ended December 31, 2004.

Cost of Services

Cost of services increased \$19.1 million, or 4 percent, for the year ended December 31, 2005, compared with the year ended December 31, 2004. Fluctuations in the Canadian exchange rate increased cost of services by approximately \$6.1 million. Cost of services was also impacted by increased transportation costs due to higher fuel prices and incremental cost of services from ADESA's 2005 acquisitions.

Cost of services at the ASG segment increased \$17.3 million, or 4 percent, to \$448.3 million for the year ended December 31, 2005. Fluctuations in the Canadian exchange rate increased cost of services at the ASG segment by approximately \$6.0 million. A \$5.8 million increase in transportation costs, which include fuel costs, was also a leading driver increasing cost of services. The addition of the Washington D.C., used vehicle auction, the Charlotte salvage auction and the Ohio salvage auctions also contributed to the increase in cost of services, along with slight mix change in the salvage business. This activity was partially offset by the impact of fewer vehicles sold, the used vehicle market mix shift toward more dealer vehicles and an increase in the used vehicle conversion percentage compared to 2004.

Cost of services in the DSG increased \$1.8 million, or 8 percent, to \$25.2 million for the year ended December 31, 2005 primarily due to increased compensation and related employee benefit cost and vehicle verification and collection expense associated with increased volume.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased \$4.9 million, or 2 percent, for the year ended December 31, 2005, compared with the year ended December 31, 2004. This increase was primarily due to compensation and related employee benefit cost increases, the impact of 2005 acquisitions, and an increase of \$2.2 million associated with fluctuations in the Canadian exchange rate.

Selling, general and administrative expenses in the ASG segment increased \$1.1 million, or less than 1 percent, to \$185.9 million for the year ended December 31, 2005 primarily due to the impact of 2005 acquisitions and an increase of \$2.0 million associated with fluctuations in the Canadian exchange rate, partially offset by decreases in incentive compensation.

Selling, general and administrative expenses in the DSG segment increased \$0.8 million, or 4 percent, to \$21.4 million for the year ended December 31, 2005 primarily due to certain legal and transaction costs, employee training, travel and relocation costs.

Selling, general and administrative expenses at the holding company increased \$3.0 million, or 18 percent, to \$19.8 million for the year ended December 31, 2005 primarily due to compensation and related employee benefit cost increases and increased travel expenses. Selling, general and administrative expenses for the first six months

Table of Contents

of 2004 did not include approximately \$3.9 million of incremental corporate expenses incurred in the first six months of 2005 to support ADESA as an independent public company. Incremental corporate expenses consisted of salaries, benefits and other expenses due to the addition of corporate level personnel, professional fees, incremental insurance and other costs necessary to support an independent public company. In addition, 2004 included \$3.0 million of transaction costs (primarily legal and professional fees) associated with ADESA's initial public offering.

Depreciation and Amortization

Depreciation and amortization totaled \$40.8 million for the year ended December 31, 2005, representing an increase of \$4.9 million, or 14 percent, from the \$35.9 million reported for the year ended December 31, 2004. The increase in depreciation and amortization is a result of ADESA's increased capital spending in 2005 including over \$20 million related to information technology which generally has a shorter depreciable life.

Operating Profit

Operating profit increased \$14.4 million, or 7 percent, for the year ended December 31, 2005, compared with the year ended December 31, 2004. As a percentage of revenue, operating profit increased to 23.5 percent in 2005, compared with 23.0 percent in 2004. Operating profit in the ASG segment increased \$10.6 million, or 7 percent, to \$172.6 million for the year ended December 31, 2005 primarily as a result of the 4 percent increase in revenue. Operating profit in the DSG segment increased \$7.4 million, or 11 percent, to \$75.3 million for the year ended December 31, 2005 primarily as a result of the 8 percent increase in revenue and a 1.6 percent decrease in operating expenses as a percentage of revenues. The increases in operating profit at the reportable segments were offset by a \$3.6 million increase in operating expenses, consisting primarily of compensation and related employee benefit costs and travel expenses, at the holding company.

Interest Expense

Interest expense increased \$5.8 million, or 23 percent, for the year ended December 31, 2005, compared with the year ended December 31, 2004, as ADESA carried additional debt in the first half of 2005 relative to the first half of 2004.

Loss on Extinguishment of Debt

In the third quarter of 2005, ADESA recorded a \$2.9 million pretax charge for the write-off of certain unamortized debt issuance costs associated with ADESA's June 2004 credit facility and certain expenses related to the July 2005 amended and restated credit facility. The Term Loan B facility was repaid in conjunction with the amended and restated credit facility and the related interest rate swap agreement was terminated in the third quarter of 2005 resulting in a pretax gain of \$0.5 million. The \$0.5 million gain was recorded in Other income, net and when combined with the \$2.9 million charge, resulted in a net pretax charge of \$2.4 million related to the amendment and restatement of the credit facility.

In the third quarter of 2004, ADESA redeemed its \$90 million 7.7 percent Series A Senior Notes due 2006 and its \$35 million 8.1 percent Series B Senior Notes due 2010, which resulted in expenses of \$14.0 million before taxes, including an early termination penalty and the write-off of unamortized debt issuance costs.

Income Taxes

The effective income tax rate on income from continuing operations declined to 37.5 percent for the year ended December 31, 2005, compared with an effective tax rate of 38.8 percent for the year ended December 31, 2004. The decrease in the effective tax rate was primarily the result of: the recognition of certain 2004 provision to tax return differences, the elimination of valuation allowances for state net operating losses and tax credits, and changes in estimates regarding tax contingencies.

Table of Contents*Discontinued Operations*

In August 2005, ADESA sold ComSearch, Inc. a non-core business providing professional claims outsourcing services, automotive parts-locating and desk-auditing services to the property and casualty insurance industry. In February 2003, ADESA approved a plan to discontinue the operations of its vehicle importation business. The financial results of ComSearch and the vehicle importation business have been classified as discontinued operations. Net loss from discontinued operations for the year ended December 31, 2005 includes the operating loss of ComSearch, the loss on sale of the ComSearch business and interest on the vehicle importation business adverse judgment. Net loss from discontinued operations for the year ended December 31, 2004 includes a \$6.9 million pretax charge, \$4.2 million net of tax, related to the vehicle importation business adverse judgment, including the related accrued interest and legal costs, partially offset by \$0.8 million in pretax income generated by ComSearch. See Note 21 in the Notes to Consolidated Financial Statements of ADESA for further description of the importation legal matter.

The following summarizes financial information for the discontinued operations (dollars in millions):

	Year ended December 31,	
	2004	2005
Operating revenues	\$ 6.1	\$ 2.9
Loss from discontinued operations before income taxes	(6.1)	\$ (0.7)
Net loss from discontinued operations	(3.7)	\$ (0.6)

Significant Items Affecting Comparability

ADESA incurred various charges and incremental expenses in 2004 and 2005 related to its initial public offering, subsequent separation from ALLETE and subsequent restructuring of its debt that affect the comparability of its reported results of operations. The impact of these transactions on income from continuing operations is as follows (*dollars in millions*):

	Year ended December 31,	
	2004	2005
Charges:		
Transaction-related and debt prepayment expenses	\$ 17.0	\$ 2.9
Gain on termination of swap		(0.5)
	17.0	2.4
Incremental expenses:		
Corporate expenses		3.9
Interest expense		7.9
		11.8
Tax benefit of above items	(6.7)	(5.5)
Decrease to income from continuing operations	\$ 10.3	\$ 8.7

In the third quarter of 2005, ADESA recorded a charge for the write-off of certain unamortized debt issuance costs associated with ADESA's June 2004 credit facility and certain expenses related to the amended and restated credit facility. In addition, an interest rate swap agreement related to the former Term Loan B facility was terminated in the third quarter of 2005. Debt prepayment expenses in 2004 consisted of an early termination penalty related to the prepayment of ADESA's senior notes and write-off of related unamortized debt issuance costs. The transaction-related expenses in 2004 consisted primarily of legal and professional fees associated with ADESA's initial public offering and separation from ALLETE.

Table of Contents

Incremental corporate expenses were incurred in the first half of 2005 and consisted of salaries, benefits and other expenses due to the addition of corporate level personnel, professional fees, incremental insurance and other costs necessary to support an independent public company, while incremental interest expense incurred in the first half of 2005 is the result of ADESA's recapitalization and transition to an independent public company.

Liquidity And Capital Resources

ADESA believes that the strongest indicators of liquidity for its business are cash on hand, cash flow from operations, working capital and amounts available under its credit facility.

(Dollars in millions)

	Year ended December 31,	
	2005	2006
Cash and cash equivalents	\$ 240.2	\$ 195.7
Restricted cash	5.7	7.8
Working capital	302.0	325.2
Amounts available under credit facility	199.3	247.4
Cash flow from operations	136.5	190.9

Working Capital

A substantial amount of ADESA's working capital is generated from the payments received for services provided. In addition, ADESA has a \$350 million revolving line of credit pursuant to the amended and restated \$500 million credit facility, from which \$88.0 million was drawn as of December 31, 2006. There were outstanding letters of credit totaling approximately \$14.6 million at December 31, 2006, which reduce the available borrowings under the credit facility. ADESA's Canadian operations had letters of credit outstanding totaling \$2.1 million at December 31, 2006, which do not impact available borrowings under the credit facility. In September 2006, ADESA's senior credit facility was upgraded to a Ba1 rating by Moody's.

On July 25, 2005, ADESA entered into an amended and restated \$500 million credit facility, pursuant to the terms and conditions of an amended and restated credit agreement, or the 2005 ADESA Credit Agreement, with Bank of America, N.A., as administrative agent, and a syndicate of lenders. The 2005 ADESA Credit Agreement has a five-year term that expires on June 30, 2010. Under the terms of the 2005 ADESA Credit Agreement, the lenders committed to provide advances and letters of credit in an aggregate amount of up to \$500 million. Subject to the terms and conditions of the 2005 ADESA Credit Agreement, ADESA may request that the lenders' commitments under the 2005 ADESA Credit Agreement be increased (or additional lenders be added to the Credit Agreement that provide additional commitments), provided that in no event may the aggregate amount of the lenders' commitments under the Credit Agreement at any time exceed \$825 million. Borrowings under the 2005 ADESA Credit Agreement may be used to refinance certain of ADESA's outstanding debt, to finance working capital, capital expenditures and acquisitions permitted under the 2005 ADESA Credit Agreement and for other corporate purposes.

The 2005 ADESA Credit Agreement provides for a five-year \$150 million term loan and a \$350 million revolving credit facility. The term loan will be repaid in 20 quarterly installments, with the final payment due on June 30, 2010. The revolving credit facility may be used for loans, and up to \$25 million may be used for letters of credit. The revolving loans may be borrowed, repaid and reborrowed until June 30, 2010, at which time all amounts borrowed must be repaid.

The revolving credit facility and the term loan facility bear interest at a rate equal to LIBOR plus a margin ranging from 87.5 basis points to 150 basis points depending on ADESA's total leverage ratio. As of December 31, 2006, ADESA's margin based on its leverage ratio was 100 basis points.

Table of Contents

The Credit Agreement contains certain restrictive loan covenants, including, among others, financial covenants requiring a maximum total leverage ratio, a minimum interest coverage ratio, and a minimum fixed charge coverage ratio and covenants limiting ADESA's ability to incur indebtedness, grant liens, make acquisitions, be acquired, dispose of assets, pay dividends, repurchase stock, make capital expenditures and make investments. EBITDA (earnings before interest expense, income taxes, depreciation and amortization) adjusted to exclude after-tax (a) gains or losses from asset sales; (b) temporary gains or losses on currency; (c) certain non-recurring gains and losses; (d) stock option expense; and (e) certain other noncash amounts included in the determination of net income, is utilized in the calculation of the financial ratios contained in the covenants. In addition, the senior subordinated notes contain certain financial and operational restrictions on paying dividends and other distributions, making certain acquisitions or investments and incurring indebtedness, and selling assets. These financial covenants affect ADESA's operating flexibility by, among other things, restricting its ability to incur expenses and indebtedness that could be used to grow the business, as well as to fund general corporate purposes. At December 31, 2006, ADESA was in compliance with the covenants contained in the credit facility.

The majority of ADESA's working capital needs are short-term in nature, usually less than a week in duration. Due to the decentralized nature of the business, payments for services are received at each auction and loan production office and are deposited locally. Most of the financial institutions place a temporary hold on the availability of the funds deposited that can range anywhere from one to three business days, resulting in cash in ADESA's accounts and on its balance sheet that is unavailable for use until it is made available by the various financial institutions. Over the years, ADESA has increased the amount of funds that are available for immediate use and is actively working on initiatives that will continue to decrease the time between the deposit of and the availability of funds received from customers. There are outstanding checks (book overdrafts) to sellers and vendors included in current liabilities. Because the majority of these outstanding checks for operations in the U.S. are drawn upon bank accounts at financial institutions other than the financial institutions that hold the unavailable cash, ADESA cannot offset the cash and the outstanding checks on its balance sheet.

AFC offers short-term inventory-secured financing, also known as floorplan financing, to used vehicle dealers. Financing is primarily provided for terms of 30 to 60 days. AFC principally generates its funding through the sale of its U.S. dollar denominated receivables. For further discussion of AFC's securitization arrangements, see *Off-Balance Sheet Arrangements*.

On December 31, 2006, \$105.0 million was outstanding on the term loan and \$88 million was outstanding on the revolving credit facility. ADESA believes its sources of liquidity from its cash and cash equivalents on hand, working capital, cash provided by operating activities, and availability under its credit facility are sufficient to meet its short and long-term operating needs for the foreseeable future. In addition, ADESA believes the previously mentioned sources of liquidity will be sufficient to fund ADESA's capital requirements and debt service payments for the next five years.

Summary of Cash Flows

ADESA's cash flow initiatives include growing its vehicle auction and dealer financing businesses both internally by expanding facilities, services and operations, and externally through acquisitions.

(Dollars in millions)

	Year Ended December 31,		Change
	2005	2006	
Net cash provided by (used for):			
Operating activities	\$ 136.5	\$ 190.9	\$ 54.4
Investing activities	(79.9)	(127.7)	(47.8)
Financing activities	(121.5)	(107.8)	13.7
Effect of exchange rate on cash	0.6	0.1	(0.5)
Net increase (decrease) in cash and cash equivalents	\$ (64.3)	\$ (44.5)	\$ 19.8

Table of Contents

Cash flow from operating activities was \$190.9 million for the year ended December 31, 2006, compared with \$136.5 million for the same period in 2005. Operating cash flow was favorably impacted by higher earnings net of non-cash charges, primarily related to depreciation, stock-based compensation and the aircraft charge, as well as lower levels of cash used for working capital.

On an annual basis, ADESA's auctions and loan production offices handle over \$20 billion of sales proceeds and revenues. As part of the fees earned for the services ADESA provides relative to the sale of each vehicle at auction, ADESA assumes the risk associated with collecting the gross sales proceeds from buyers and likewise assumes responsibility for distributing to sellers the net sales proceeds of vehicles. The fees for each vehicle are collected by adding the buyer-related fees to the gross sales proceeds due from the buyer and deducting the seller-related fees from the gross sales proceeds prior to distributing the net sales proceeds to the seller. The amount ADESA reports as revenue for each vehicle only represents the fees associated with ADESA's services and does not include the gross sales price of the consigned vehicle. As a result, the accounts receivable from buyers are much larger on a per vehicle basis than the combined seller and buyer-related fees associated with each transaction. While ADESA's revenues primarily include the fees earned for the services provided, ADESA's working capital cash flows include the full purchase price of the vehicles along with the fees earned by ADESA.

Net cash used for investing activities was \$127.7 million for the year ended December 31, 2006, compared with net cash used by investing activities of \$79.9 million for the year ended December 31, 2005. This change was primarily the result of cash investments totaling \$12.6 million in Finance Express LLC, an increase in cash used for acquisitions of \$26.7 million and a larger increase in finance receivables held for investment of \$24.1 million. The increase in cash used by investing activities was partially offset by a decrease in capital expenditures of \$18.2 million. For a discussion of ADESA's capital expenditures, see *Capital Expenditures* below. There were no significant investing cash flows related to discontinued operations in the periods presented.

Net cash used by financing activities was \$107.8 million for the year ended December 31, 2006, compared with cash used by financing activities of \$121.5 million for the same period in 2005. In 2006 the primary drivers for the net cash used for financing activities can be attributed to debt payments of \$80.0 million (including a \$50.0 million discretionary payment) and dividend payments of \$27.0 million. The primary driver for the change over 2005 is a decline in the cash used for the repurchase of common stock of \$43.5 million (a share repurchase program was in effect during the first half of 2005) and the change in book overdrafts which fluctuated \$33.5 million. There were no significant financing cash flows related to discontinued operations in the periods presented.

Capital Expenditures

Capital expenditures (excluding acquisitions and other investments) for the years ended December 31, 2006 and 2005 totaled \$37.1 million and \$55.3 million, respectively, and were funded primarily from internally generated funds. ADESA continues to invest in its core information technology capabilities and capacity expansion. Expenditures are primarily attributable to ongoing information system maintenance, upkeep and improvements at existing vehicle auction facilities, improvements in information technology systems and infrastructure, and expansion and relocation of existing auction sites that are at capacity. Future capital expenditures could vary substantially based on capital project timing and the initiation of new information systems projects to support ADESA's strategic initiatives.

Acquisitions

In February 2006, ADESA completed the purchase of certain assets of the N.E. Penn Salvage Company, an independently owned salvage auction in northeast Pennsylvania. The purchased assets included the accounts receivable, operating equipment and customer relationships related to the auction. In addition, ADESA entered into operating lease obligations related to the facility through 2016. Initial annual lease payments for the facilities

Table of Contents

total approximately \$0.1 million per year. ADESA did not assume any other material liabilities or indebtedness in connection with the acquisition. Financial results for this acquisition have been included in ADESA's consolidated financial statements since the date of acquisition.

In March 2006, ADESA completed the acquisition of certain assets of Auction Broadcasting Company's South Tampa used vehicle auction serving western and central Florida. ADESA has renamed the auction ADESA Sarasota. The assets purchased included land and buildings, the related operating equipment, accounts receivable and customer relationships related to the auction. The auction is comprised of approximately 63 acres and includes six auction lanes and full-service reconditioning shops providing detail, mechanical and body shop services. ADESA did not assume any material liabilities or indebtedness in connection with the acquisition. Financial results for this acquisition have been included in ADESA's consolidated financial statements since the date of acquisition.

In September 2006, ADESA acquired three independent salvage auctions in the state of Texas, providing ADESA a presence in the second largest salvage market in the U.S. The auctions have been renamed ADESA Impact San Antonio, ADESA Impact Houston and ADESA Impact Dallas/Ft. Worth. The assets purchased included operating equipment, accounts receivable and customer relationships related to the auctions. In addition, ADESA entered into operating lease obligations related to the facilities through 2011. Initial annual lease payments for the facilities total approximately \$1.2 million per year. ADESA did not assume any other material liabilities or indebtedness in connection with the acquisition. Financial results for these acquisitions have been included in ADESA's consolidated financial statements since the date of acquisition.

ADESA acquired the five previously mentioned auctions for a total cost of \$54.5 million, in cash. The purchase price of the acquisitions was allocated to the acquired assets based upon fair market values, including \$12.9 million to other intangible assets, representing the fair value of acquired customer relationships and non-compete agreements, which will be amortized over their expected useful lives of 3 to 15 years. The purchase price allocations resulted in aggregate goodwill of \$23.3 million. The goodwill was assigned to the Auction Services Group reporting segment and is expected to be fully deductible for tax purposes. Pro forma financial results reflecting the acquisitions were not materially different from those reported.

ADESA's 2005 purchase of certain assets of the Ohio Connection, a group of four independently owned salvage auctions, included contingent payments related to the volume of certain vehicles sold subsequent to the purchase date. ADESA made contingent payments in 2006 totaling approximately \$1.3 million pursuant to these agreements which resulted in additional goodwill.

Other Investment

During 2006, AFC acquired a 15 percent interest in Finance Express LLC for \$12.6 million in cash. Finance Express is a web-based company specializing in software to facilitate the origination of motor vehicle retail installment loan contracts between independent used vehicle dealers and lending institutions. In addition, ADESA also receives certain fees from Finance Express for assistance in marketing its software product and services to independent used vehicle dealers. ADESA evaluated its investment in Finance Express pursuant to FASB Interpretation No. 46R, Consolidation of Variable Interest Entities, an Interpretation of Accounting Research Bulletin No. 51. ADESA is currently not the primary beneficiary of the VIE and its risk of loss is limited, in all material respects, to its investment in Finance Express. Finance Express is a LLC that maintains specific capital accounts for each member.

Therefore, ADESA uses the equity method of accounting for this investment in accordance with the guidance in Emerging Issues Task Force 03-16, Accounting for Investments in Limited Liability Companies, Statement of Position 78-9, Accounting for Investments in Real Estate Ventures, and SAB Topic D-46, Accounting for Limited Partnership Investments. ADESA's share of Finance Express earnings or losses is recorded in Other income, net in the Consolidated Statements of Income, and was not material for the year ended December 31, 2006.

Table of Contents
Dividends

ADESA has historically paid a regular quarterly dividend to holders of its common stock. ADESA paid a quarterly dividend of \$0.075 per common share in 2006 and 2005 (\$0.30 per common share per year in total). As a condition to the definitive merger agreement between ADESA and a group of private equity funds entered into on December 22, 2006, ADESA agreed not to pay any dividends to holders of its common stock after the announcement of the Transactions.

Off-Balance Sheet Arrangements

AFC sells the majority of its U.S. dollar denominated finance receivables on a revolving basis and without recourse to a wholly owned, bankruptcy remote, consolidated, special purpose subsidiary established for the purpose of purchasing AFC's finance receivables. Effective March 31, 2006, AFC and AFC Funding Corporation amended their securitization agreement to extend the expiration date of the agreement from June 30, 2008 to April 30, 2009. This agreement is subject to annual renewal of short-term liquidity by the liquidity providers and allows for the revolving sale by AFC Funding Corporation to a bank conduit facility of up to a maximum of \$600 million in undivided interests in certain eligible finance receivables subject to committed liquidity. AFC Funding Corporation had committed liquidity of \$550 million and \$425 million at December 31, 2006 and December 31, 2005, respectively. On February 12, 2007, committed liquidity was increased to \$600 million. Receivables that AFC Funding sells to the bank conduit facility qualify for sales accounting for financial reporting purposes pursuant to SFAS 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities, and as a result are not reported on ADESA's Consolidated Balance Sheet.

At December 31, 2006, AFC managed total finance receivables of \$775.9 million, of which \$693.0 million had been sold without recourse to AFC Funding Corporation. At December 31, 2005, AFC managed total finance receivables of \$655.7 million, of which \$581.9 million had been sold without recourse to AFC Funding Corporation. Undivided interests in finance receivables were sold by AFC Funding Corporation to the bank conduit facility with recourse totaling \$501.0 million and \$399.8 million at December 31, 2006 and December 31, 2005, respectively. Finance receivables include \$42.6 million and \$51.1 million classified as held for sale and \$162.7 million and \$148.0 million classified as held for investment at December 31, 2006 and December 31, 2005, respectively. AFC's allowance for losses of \$2.0 million and \$2.4 million at December 31, 2006 and December 31, 2005, respectively, include an estimate of losses for finance receivables. Additionally, accrued liabilities of \$3.9 million and \$2.9 million for the estimated losses for loans sold by the special purpose subsidiary were recorded at December 31, 2006 and December 31, 2005, respectively. These loans were sold to a bank conduit facility with recourse to the special purpose subsidiary and will come back on the balance sheet of the special purpose subsidiary at fair market value if they become ineligible under the terms of the collateral arrangement with the bank conduit facility.

Proceeds from the revolving sale of receivables to the bank conduit facility were used to fund new loans to customers. AFC and AFC Funding Corporation must maintain certain financial covenants including, among others, limits on the amount of debt AFC can incur, minimum levels of tangible net worth, and other covenants tied to the performance of the finance receivables portfolio. The securitization agreement also incorporates the financial covenants of ADESA's credit facility. At December 31, 2006, ADESA was in compliance with the covenants contained in the securitization agreement.

Critical Accounting Estimates

It is important to understand ADESA's accounting policies in order to understand its financial statements. In preparing the financial statements in accordance with generally accepted accounting principles, management must often make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses and related disclosures at the date of the financial statements and during the reporting period. Some of those judgments can be subjective and complex. Consequently, actual results could differ from those estimates.

Table of Contents

The ADESA management has discussed the development and selection of its critical accounting estimates with the Audit Committee of ADESA's board of directors. In addition to the critical accounting estimates, there are other items used in the preparation of ADESA's consolidated financial statements that require estimation, but are not deemed critical. Changes in estimates used in these and other items could have a material impact on ADESA's financial statements.

ADESA continually evaluates the accounting policies and estimates it uses to prepare the consolidated financial statements. In cases where management estimates are used, they are based on historical experience, information from third-party professionals, and various other assumptions believed to be reasonable. The following summarizes those accounting policies that are most subject to important estimates and assumptions and are most critical to the reported results of operations and financial condition. See Note 3 in the Notes to Consolidated Financial Statements of ADESA for further description of these items and ADESA's other accounting policies.

Uncollectible Receivables and Allowance for Credit Losses and Doubtful Accounts

ADESA maintains an allowance for credit losses and doubtful accounts for estimated losses resulting from the inability of customers to make required payments. The allowances for credit losses and doubtful accounts are based on management's evaluation of the receivables portfolio under current economic conditions, the volume of the portfolio, overall portfolio credit quality, review of specific collection matters and such other factors which, in management's judgment, deserve recognition in estimating losses. Specific collection matters can be impacted by the outcome of negotiations, litigation and bankruptcy proceedings.

Due to the nature of the business at ADESA's auctions, substantially all of ADESA's trade receivables are due from vehicle dealers, salvage buyers, institutional customers and insurance companies. ADESA generally has possession of vehicles or vehicle titles collateralizing a significant portion of these receivables. At the auction sites, risk is mitigated through a pre-auction registration process that includes verification of identification, bank accounts, dealer license status, acceptable credit history, buying history at other auctions and the written acceptance of all of the auction's policies and procedures.

AFC's allowance for credit losses includes an estimate of losses for finance receivables currently held on the balance sheet of AFC and its subsidiaries. Additionally, an accrued liability is recorded for the estimated losses for loans sold by AFC's subsidiary, AFC Funding Corporation. These loans were sold to a bank conduit facility with recourse to AFC Funding Corporation and will come back on the balance sheet of AFC Funding Corporation at fair market value if they become ineligible under the terms of the collateral arrangement with the bank conduit facility. AFC controls credit risk through credit approvals, credit limits, underwriting and collateral management monitoring procedures, which includes holding vehicle titles where permitted.

A 10 percent increase in the allowance for credit losses and doubtful accounts and the accrued liability for loans sold to the bank conduit facility would result in an increase in the provision for credit losses of \$0.7 million and a \$0.4 million reduction in securitization income and an aggregate decrease in earnings of \$0.7 million. See Liquidity and Capital Resources, Off-balance Sheet Arrangements and Note 9 in Notes to Consolidated Financial Statements of ADESA for further discussion.

Impairment of Goodwill and Long-Lived Assets

In accordance with SFAS 142, Goodwill and Other Intangible Assets, ADESA assesses goodwill for impairment at least annually and whenever events or circumstances indicate that the carrying amount of the goodwill may not be recoverable. Important factors that could trigger an impairment review include significant under-performance relative to historical or projected future operating results; significant negative industry or economic trends; significant decline in ADESA's stock price for a sustained period; and ADESA's market valuation relative to its book value. In assessing the recoverability of goodwill, ADESA must make assumptions

Table of Contents

regarding estimated future cash flows and earnings, changes in ADESA's business strategy and economic conditions affecting market valuations related to the fair values of ADESA's three reporting units (which consist of ADESA's three operating segments: used vehicle auctions, Impact salvage auctions and AFC) which are aggregated into its two reportable business segments, Auction Services Group and Dealer Services Group. If the fair value of a reporting unit is determined to be less than the carrying amount, an impairment charge would be recorded in the period identified. In response to changes in industry and market conditions, ADESA may be required to strategically realign its resources and consider restructuring, disposing of or otherwise exiting businesses, which could result in an impairment of goodwill. As of December 31, 2006, ADESA had \$557.8 million in goodwill that will be subject to future impairment tests. ADESA completed its annual goodwill impairment testing in the second quarter of 2006 and management concluded there was no resulting impairment. No significant changes in events or circumstances have occurred that would indicate the carrying amount of ADESA's goodwill has been impaired since the test was completed.

ADESA reviews long-lived assets for possible impairment whenever circumstances indicate that their carrying amount may not be recoverable. If it is determined that the carrying amount of a long-lived asset exceeds the total amount of the estimated undiscounted future cash flows from that asset, ADESA would recognize a loss to the extent that the carrying amount exceeds the fair value of the asset. Management judgment is involved in both deciding if testing for recovery is necessary and in estimating undiscounted cash flows. ADESA's impairment analysis is based on the current business strategy, expected growth rates and estimated future economic conditions. No material adjustments were made to the carrying value of long-lived assets in 2006, 2005 or 2004. See Note 3 in the Notes to Consolidated Financial Statements of ADESA for further discussion.

Self-Insurance Programs

ADESA self-insures a portion of employee medical benefits under the terms of its employee health insurance program, as well as a portion of its automobile, general liability and workers' compensation claims. ADESA purchases individual stop-loss insurance coverage that limits the exposure on individual claims. ADESA also purchases aggregate stop-loss insurance coverage that limits the total exposure to overall automobile, general liability and workers' compensation claims. The cost of the stop-loss insurance is expensed over the contract periods.

ADESA records an accrual for the claims expense related to its employee medical benefits, automobile, general liability and workers' compensation claims based upon the expected amount of all such claims. Trends in healthcare costs could have a significant impact on anticipated claims. If actual claims are higher than anticipated, ADESA's accrual might be insufficient to cover the claims costs, which would have an adverse impact on the operating results in that period.

Legal Proceedings and Other Loss Contingencies

ADESA is subject to the possibility of various legal proceedings and other loss contingencies, many involving litigation incidental to the business and a variety of environmental laws and regulations. Litigation and other loss contingencies are subject to inherent uncertainties and the outcomes of such matters are often very difficult to predict and generally are resolved over long periods of time. ADESA considers the likelihood of loss or the incurrence of a liability, as well as the ability to reasonably estimate the amount of loss, in determining loss contingencies. Estimating probable losses requires the analysis of multiple possible outcomes that often are dependent on the judgment about potential actions by third parties. Contingencies are recorded in ADESA's consolidated financial statements, or otherwise disclosed, in accordance with SFAS 5, Accounting for Contingencies. ADESA accrues for an estimated loss contingency when it is probable that a liability has been incurred and the amount of loss can be reasonably estimated. Management regularly evaluates current information available to determine whether accrual amounts should be adjusted. If the amount of an actual loss is

Table of Contents

greater than the amount accrued, this could have an adverse impact on ADESA's operating results in that period. Legal fees are expensed as incurred. See Note 21 in the Notes to ADESA's Consolidated Financial Statements for further discussion.

Income Taxes

All income tax amounts reflect the use of the liability method. Under this method, deferred tax assets and liabilities are determined based on the expected future tax consequences of temporary differences between the carrying amounts of assets and liabilities for financial and income tax reporting purposes.

ADESA operates in multiple tax jurisdictions with different tax rates and must determine the appropriate allocation of income to each of these jurisdictions. In the normal course of business, ADESA will undergo scheduled reviews by taxing authorities regarding the amount of taxes due. These reviews include questions regarding the timing and amount of deductions and the allocation of income among various tax jurisdictions. Tax reviews often require an extended period of time to resolve and may result in income tax adjustments if changes to the allocation are required between jurisdictions with different tax rates.

ADESA records its tax provision based on existing laws, experience with previous settlement agreements, the status of current IRS (or other taxing authority) examinations and management's understanding of how the tax authorities view certain relevant industry and commercial matters. Although ADESA has recorded all probable income tax liabilities in accordance with SFAS 5 and SFAS 109, Accounting for Income Taxes, these accruals represent accounting estimates that are subject to inherent uncertainties associated with the tax audit process, and therefore include certain contingencies. ADESA establishes reserves when ADESA believes that certain positions may not prevail if challenged by a taxing authority. ADESA adjusts these reserves in light of changing facts and circumstances. See Note 3 in the Notes to ADESA's Consolidated Financial Statements for further discussion.

Adoption of SFAS 123(R), Share-Based Payment

Prior to 2006, ADESA applied the intrinsic value method provisions of Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations, to account for stock-based awards. Under the intrinsic value method, no compensation cost is recognized if the exercise price of ADESA's stock options was equal to or greater than the market price of the underlying stock on the date of grant. Accordingly, ADESA did not recognize compensation expense for employee stock options that were granted in prior years. However, compensation expense was recognized on other forms of stock-based awards, including restricted stock units and performance based stock awards. SFAS 123(R), Share-Based Payment, replaces SFAS 123 and supersedes APB 25. The statement requires that all stock-based compensation be recognized as expense in the financial statements and that such cost be measured at the fair value of the award at the grant date. On January 1, 2006, ADESA adopted the provisions of SFAS 123(R) using the modified prospective application method, and therefore was not required to restate its financial results for prior periods. Under this transition method, as of January 1, 2006, ADESA began to apply the provisions of this statement to new and modified awards, as well as to the nonvested portion of awards granted and outstanding at the time of adoption using the fair value amounts determined for pro forma disclosure under SFAS 123.

ADESA's stock-based compensation awards, including both stock options and restricted stock units, have a retirement eligible provision, whereby awards granted to employees who have reached the retirement eligible age and meet certain service requirements with either ADESA and/or its former parent, ALLETE, automatically vest when an eligible employee retires from ADESA. ADESA has previously accounted for this type of arrangement by recognizing compensation cost (for both pro forma and recognition purposes) over the nominal vesting period (i.e. over the full stated vesting period of the award) and, if the employee retired before the end of the vesting period, by recognizing any remaining unrecognized compensation cost at the date of retirement. Following adoption of SFAS 123(R), new awards are subject to the non-substantive vesting period approach, which

Table of Contents

specifies that an award is vested when the employee's retention of the award is no longer contingent on providing subsequent service. Recognizing that many companies followed the nominal vesting period, the SEC issued guidance for transitioning to the non-substantive vesting period approach. ADESA has revised its approach to apply the non-substantive vesting period approach to all new grants after adoption, but continues to follow the nominal vesting period approach for the remaining portion of unvested outstanding awards. An additional requirement of SFAS 123(R) is that estimated forfeitures be considered in determining compensation expense. As previously permitted, ADESA recorded forfeitures when they occurred. Estimating forfeitures did not have a material impact on the determination of compensation expense.

On March 9, 2005, the board of directors of ADESA, or the board, accelerated the vesting of certain unvested and out-of-the-money stock options previously awarded to employees and officers that have an exercise price of \$24 per share. The awards accelerated were made under the ADESA, Inc. 2004 Equity and Incentive Plan in conjunction with ADESA's initial public offering in June 2004, or the 2004 IPO. As a result, options to purchase approximately 2.9 million shares of ADESA's common stock became exercisable immediately and ADESA disclosed incremental pro forma stock-based employee compensation expense of approximately \$7.7 million, net of tax, in the first quarter 2005. The options awarded in conjunction with the 2004 IPO to ADESA's named executive officers and the majority of the other officers would have vested in equal increments at June 15, 2005, 2006 and 2007. The options awarded to certain other executive officers and employees had different vesting terms. One-third of the options awarded to the other executive officers and employees vested on December 31, 2004. The remaining two-thirds of the options awarded to these executive officers and other employees in conjunction with the 2004 IPO would have vested in equal increments at December 31, 2005 and 2006. All of these options expire in June 2010. All other terms and conditions applicable to the outstanding stock option grants remain in effect.

ADESA and its board considered several factors in determining to accelerate the vesting of these options. Primarily, the acceleration enhances the comparability of ADESA's 2005 financial statements with those of 2006 and subsequent periods. The options awarded to the executive officers were special, one-time grants in conjunction with the 2004 IPO. As such, these grants are not indicative of past grants when ADESA was a subsidiary of ALLETE prior to June 2004 and are not representative of ADESA's expected future grants. ADESA and board also believe that the acceleration was in the best interest of the stockholders as it reduces ADESA's reported stock option expense in future periods and mitigates the impact of SFAS 123(R).

As a result of adopting SFAS 123(R) on January 1, 2006, income from continuing operations before income taxes and net income for the year ended December 31, 2006, were \$2.3 million and \$1.4 million lower, respectively, than if ADESA had continued to account for share-based awards under APB Opinion No. 25. Basic and diluted earnings per share from continuing operations were both \$0.02 lower for the year ended December 31, 2006 as a result of the adoption of SFAS 123(R).

Prior to the adoption of SFAS 123(R), tax benefits of deductions resulting from the exercise of stock options were presented as operating cash flows in the Consolidated Statements of Cash Flows. SFAS 123(R) requires cash flows resulting from tax deductions from the exercise of stock options in excess of recognized compensation cost from the exercise of stock options (excess tax benefits) to be classified as financing cash flows. This change in classification did not have a significant impact on the Consolidated Statement of Cash Flows in the current period as the excess tax benefits recognized for the year ended December 31, 2006 were approximately \$0.5 million.

Prior to the adoption of SFAS 123(R), ADESA applied the disclosure-only provisions of SFAS 123, Accounting for Stock-Based Compensation, as amended by SFAS 148, Accounting for Stock-Based Compensation Transition and Disclosure, which permitted companies to apply the existing accounting rules under APB Opinion No. 25 and related interpretations. Generally, if the exercise price of options granted under the plan was equal to the market price of the underlying common stock on the grant date, no share-based compensation cost was recognized in net income. As required by SFAS 148, prior to the adoption of SFAS

Table of Contents

123(R), pro forma net income and pro forma net income per common share were disclosed for stock-based awards, as if the fair value recognition provisions of SFAS 123 had been applied.

Insurance Auto Auctions, Inc.

For the Fiscal Years Ended 2004, 2005 and 2006

Overview

IAAI provides insurance companies and other vehicle suppliers cost-effective salvage processing solutions, principally on a consignment basis. The consignment method includes both a percentage of sale and fixed fee basis. Under the percentage of sale and fixed fee consignment methods, the vehicle is not owned by IAAI and only the fees associated with processing the vehicle are recorded as revenue. The percentage of sale consignment method offers potentially increased profits over fixed fee consignment by providing incentives to both IAAI and the salvage provider to invest in vehicle enhancements, thereby maximizing vehicle selling prices. The proceeds from the sale of the vehicle itself are not included in revenue. IAAI also, on a very limited basis, sometimes acquires vehicles via purchase. Under the purchase method, the vehicle is owned by IAAI, and the proceeds from the sale of the vehicle are recorded as revenue. IAAI's operating results are subject to fluctuations, including quarterly fluctuations, that can result from a number of factors, some of which are more significant for sales under the purchase method.

IAAI's fiscal year 2006 consisted of 53 weeks and ended on December 31, 2006. IAAI's fiscal years 2005, 2004, 2003 and 2002 each consisted of 52 weeks and ended on December 25, 2005, December 26, 2004, December 28, 2003 and December 29, 2002, respectively.

Significant Items Affecting Comparability

The 2005 Acquisition resulted in a new basis of accounting under SFAS 141. This change creates many differences between reporting for IAAI post-merger, as successor, and IAAI pre-merger, as predecessor. The predecessor financial data for periods ending on or prior to May 25, 2005, generally will not be comparable to the successor financial data for periods after that date. The 2005 Acquisition resulted in IAAI having an entirely new capital structure, which results in significant differences between predecessor and successor in the equity sections of the financial statements. In addition, the successor incurred debt issuance costs and \$265.0 million of debt in connection with the 2005 Acquisition. As a result, interest expense and debt will not be comparable between the predecessor and the successor. IAAI has made certain adjustments to increase or decrease the carrying amount of assets and liabilities to their fair values as of the 2005 Acquisition date which, in a number of instances, have resulted in changes to amortization and depreciation expense amounts. The successor and predecessor results during 2005 have been combined for purposes of comparison with prior periods in the Results of Operations section below.

Acquisitions and New Operations

Since 1991, IAAI has grown through a series of acquisitions and opening of new sites and as of March 1, 2007, IAAI had a total of 99 sites. In 2006, IAAI acquired branches in Erie, Pennsylvania; Indianapolis and South Bend, Indiana; Cincinnati, Cleveland, Columbus, Dayton and Lima, Ohio; Ashland, Kentucky; Buckhannon, West Virginia; Missoula, Montana; Des Moines, Cedar Falls and Sioux City, Iowa; and Cicero, New York. The impact of the 2006 acquisitions on revenues is an additional \$11.9 million for the three months ended December 31, 2006 and \$23.9 million for the year ended December 31, 2006.

Table of Contents**Results of Operations**

The following table sets forth IAAI's results of operations for the year ended December 31, 2006 and the year ended December 25, 2005. The results for the year ended December 25, 2005 set forth the combined successor and predecessor revenues, cost of sales, operating expense, other (income) expense and income taxes for that year.

Year Ended December 31, 2006 Compared to the Year Ended December 25, 2005

Revenues increased 18.2% to \$332.0 million for the year ended December 31, 2006, from \$280.9 million in 2005. The increase in revenues was primarily due to a higher volume of vehicles sold and a higher average selling price for vehicles sold at auction. Vehicle sales increased 23.0% to \$50.1 million for the year ended December 31, 2006 from \$40.7 million in 2005. Vehicles sold under the purchase method accounted for approximately 5% of vehicles sold in each of 2006 and 2005. Fee income for 2006 increased 17.4% to \$281.8 million versus \$240.1 million in 2005 due to more favorable pricing and an increase in vehicles sold.

Cost of sales increased 21.5% to \$254.9 million for the year ended December 31, 2006, versus \$209.8 million for last year. Vehicle cost of \$43.8 million in 2006 increased from \$34.6 million in 2005. This increase is primarily related to an increase in the number of vehicles sold under the

Edgar Filing: ADESA SAN DIEGO, LLC - Form 424B3

purchase method. Branch cost of \$211.1 million, which includes depreciation, in 2006 increased from \$175.2 million in 2005. Branch cost includes tow, office and yard labor, occupancy, depreciation and other costs inherent in operating the branch. New branches opened in 2006 account for approximately \$14.6 million of additional branch costs, including those located in Louisiana and Mississippi to support hurricane Katrina efforts. Excluding the impact of new branches, branch

Table of Contents

costs increased to \$180.3 million in 2006 from \$164.7 million in 2005 primarily due to increased volumes and increases in towing, occupancy costs, performance-based bonus and auction and yard related expenses.

Gross margin of \$77.0 million for the year ended December 31, 2006 increased \$6.0 million, or 8.6%, from \$71.0 million for 2005. The increase is primarily related to more favorable pricing and an increase in the number of vehicles sold. Gross profit margins, as a percent of revenue, decreased to 23.2% from 25.3% in the prior year. The decrease in gross margin as a percent of revenue reflects increased tow costs per unit sold in 2006 as compared to 2005 and lower margins experienced in branches acquired in 2006.

Selling, general and administrative expense of \$50.9 million in 2006 was \$10.4 million more than the expense of \$40.5 million in 2005. This increase is related to the amortization of intangible assets, such as supplier relationships, trade names and software, arising from the merger, non-recurring costs related to branches acquired in 2006 and increased professional fees for legal and accounting services. Amortization of intangible assets amounted to \$9.8 million in 2006 and \$5.3 million in 2005. The non-recurring acquisition costs of \$2.6 million include retention payments made to employees of businesses acquired, consulting payments made to former owners of businesses acquired and travel and other incremental costs incurred in the integration of business acquired into the IAAI's operations.

Gain on sale of property of \$0.7 million in 2005 was primarily the result of one of IAAI's properties in Houston, Texas. There were no significant gains or losses on sale of property in 2006.

Interest expense of \$30.6 million for the year ended December 31, 2006 increased \$15.0 million from \$15.6 million for 2005. This increase was primarily attributable to interest incurred on the \$150.0 million of 11% Senior Notes due 2013 and borrowings on the IAAI's senior credit facility for a full year in 2006 compared to only 7 months in 2005. During 2006, IAAI increased the amount available on the senior credit facility from \$115.0 million to \$195.0 million. Of this amount, \$50.0 million is a revolving credit facility which had no amounts outstanding in 2006 or 2005.

Merger costs in 2005 of \$20.8 million are primarily related to \$9.0 million in legal and advisory fees, \$5.0 million in management fees, \$4.1 million in change of control payments, \$0.8 million in insurance costs and \$1.9 million net interest on bond indebtedness incurred in connection with the merger transaction.

Other income of \$0.4 million for the year ended December 31, 2006 decreased \$2.4 million from \$2.8 million in 2005. The decrease is primarily attributable to the settlement recorded in 2005 related to the February 16, 2000 crash of an Emery DC-8 aircraft onto IAAI's Rancho Cordova, California facility.

Income tax benefit for the year 2006 was \$1.7 million, a decrease of \$5.3 million from the income tax expense of \$3.6 million for 2005. Income tax expense decreased due to lower 2006 earnings. IAAI's effective tax rates for the years 2006 and 2005 were 18.9% and (155)%, respectively. IAAI expects that its effective tax rate in 2007 will be approximately 40%.

IAAI's net loss for the year 2006 was \$7.2 million, a decrease of \$1.3 million from IAAI's net loss of \$5.9 million for the fiscal year 2005.

Year Ended December 25, 2005 Compared to the Year Ended December 26, 2004

Revenues increased 17% to \$280.9 million for the year ended December 25, 2005, from \$240.2 million in 2004. The increase in revenues was primarily due to a higher volume of vehicles sold and a higher average selling price for vehicles sold at auction. Vehicle sales increased 30% to \$40.7 million for the year ended December 25, 2005 from \$31.4 million in 2004. Vehicles sold under the purchase method accounted for approximately 4% of vehicles sold in each of 2005 and 2004. Fee income for 2005 increased 15% to \$240.2 million versus \$208.7 million in 2004 due to more favorable pricing and an increase in vehicles sold.

Table of Contents

Cost of sales increased 14% to \$209.8 million for the year ended December 25, 2005, versus \$184.0 million for 2004. Vehicle cost of \$34.6 million increased \$7.9 million in 2005 from \$26.7 million in 2004. This increase is primarily related to an increase in the number of vehicles sold under the purchase method. Branch cost of \$175.2 million, which includes depreciation, increased \$17.9 million in 2005 from \$157.3 million in 2004. Branch cost includes tow, office and yard labor, occupancy, depreciation and other costs inherent in operating the branch. New branches opened in 2005 account for approximately \$2.6 million of additional branch costs, including those located in Louisiana and Mississippi to support hurricane Katrina efforts. Excluding the impact of new branches, branch costs increased \$15.3 million primarily due to increased volumes and increases in towing, occupancy costs, performance-based bonus and auction and yard related expenses.

Gross profit of \$71.0 million for the year ended December 25, 2005 increased \$14.8 million, or 26%, from \$56.2 million for 2004. The increase is primarily related to more favorable pricing and an increase in the number of vehicles sold. Gross profit margins, as a percent of revenue, increased to 25.3% from 23.4% in the prior year.

Selling, general and administrative expense of \$40.5 million in 2005 was \$5.5 million more than the expense of \$35.0 million in 2004. This increase is primarily related to the amortization of intangible assets, such as supplier relationships, trade names and software, arising from the 2005 Acquisition. Amortization of intangible assets amounted to \$5.2 million in 2005 and \$0.6 million in 2004.

Gain on sale of property and equipment increased to \$0.7 million in 2005 from a loss of \$0.3 million in 2004. The increase is due primarily to the sale of one of IAAI's properties in Houston for \$0.5 million.

Interest expense of \$15.6 million for the year ended December 25, 2005 increased \$14.0 million from \$1.6 million for 2004. This increase was primarily attributable to interest incurred on the \$150.0 million of 11% Senior Notes due 2013 and a new \$115.0 million term loan with a seven year maturity. The notes and IAAI's new senior credit facilities, including the term loan, are described in Financial Condition and Liquidity.

Acquisition costs in 2005 of \$20.8 million are primarily related to \$9.0 million in legal and advisory fees, \$5.0 million in management fees, \$4.1 million in change of control payments, \$0.8 million in insurance costs and \$1.9 million net interest on bond indebtedness incurred in connection with the 2005 Acquisition transaction.

Other income of \$2.8 million for the year ended December 25, 2005 increased \$2.7 million from \$0.1 million in 2004. The increase is primarily related to the \$2.4 million settlement IAAI received from TN Tech related to the crash of an Emery DC-8 aircraft onto IAAI's Rancho Cordova, California facility on February 16, 2000.

Income tax expense for the year 2005 was \$3.6 million, a decrease of \$3.5 million from the income tax expense of \$7.1 million for 2004. Income tax expense decreased due to lower 2005 earnings. IAAI's effective tax rates for the years 2005 and 2004 were (155)% and 37%, respectively.

IAAI's net loss for the year 2005 was \$5.9 million, a decrease of \$18.2 million from its net earnings of \$12.3 million for the fiscal year 2004.

Financial Condition and Liquidity

Historically, IAAI has relied on cash flows from operations and revolving credit borrowings to finance its working capital requirements and capital expenditures.

Net cash provided by operating activities during 2006 was \$17.0 million, a \$3.0 million increase from the same period last year, primarily as a result of merger costs which were partially offset by the settlement with TN Tech of the Emery Air Freight dispute, during 2005. IAAI received an aggregate \$2.0 million refund of federal

Table of Contents

income taxes, relating to 2003 and 2004, during the first nine months of 2006. The refunds resulted from the carry-back of net operating losses relating to the pre-merger period.

Net cash used in investing activities during 2006 was \$107.3 million, consisting primarily of funds used to fund acquisitions made throughout the year of \$91.1 million and capital expenditures of \$17.5 million. These capital expenditures consisted of various branch improvements, including upgrades to existing branches, the development of new facilities, and continued enhancements to IAAI's new information technology system.

Net cash provided by financing activities during 2006 was \$78.5 million, compared to \$371.5 million used during 2005. This cash provided by financing activities during 2006 primarily resulted to the amendment of IAAI's term loan, including the addition of \$81.2 million of outstanding principal. The activity during 2005 was primarily attributable to the issuance of debt related to the merger transaction.

At December 31, 2006, IAAI had current assets of \$109.3 million, including \$14.0 million in cash and cash equivalents, current liabilities of \$59.4 million and net working capital of \$49.9 million, which represented a \$2.0 million decrease from December 25, 2005.

IAAI's accounts receivable increased \$9.7 million to \$56.6 million as of December 31, 2006, from \$46.9 million as of December 25, 2005. Accounts receivable consists of balances due from IAAI's salvage providers for auction space and related buyer fees, advance charges paid by us on their behalf and other service fees. The advance charges typically include storage and tow fees incurred at a temporary storage or repair shop prior to IAAI's moving vehicles to one of IAAI's facilities.

Inventory decreased \$0.4 million to \$19.2 million as of December 31, 2006, from \$19.6 million as of December 25, 2005. Inventory consists of capitalized tow charges on vehicles on hand and the cost of purchased vehicles once title is received. Inventory increased due to increased inventory costs on a per unit basis and the number of vehicles in inventory under the purchase agreement method.

IAAI's amended senior credit facilities are comprised of a \$50 million revolving credit facility maturing in 2011 and a \$195 million term loan facility maturing in 2012. The revolver is principally used for working capital purposes, and the term loan was used to finance the merger transactions. For purposes of calculating interest, loans under the senior credit facilities are designated as Eurodollar rate loans or, in certain circumstances, base rate loans, plus applicable borrowing margins. Eurodollar loans bear interest at the rate for deposits in dollars appearing on page 3750 of the Telerate screen as of 11:00 a.m., London time, two business days prior to the beginning of the applicable interest period, plus a borrowing margin as described below. Interest on Eurodollar rate loans is payable (i) as to any Eurodollar loan having an interest period of three months or less, on the last day of such interest period, and (ii) as to any Eurodollar loan having an interest period longer than three months, each day that is three months, or a whole multiple thereof, after the first day of such interest period and the last day of such interest period. Base rate loans bear interest at (a) the greater of (i) the rate most recently announced by the Bank of New York as its prime rate in effect at its principal office in New York City, and (ii) the Federal Funds Effective Rate (as defined in IAAI's senior credit agreement) plus 0.50% per annum, plus (b) a borrowing margin as described below. The margin varies from 2.25% to 2.75% on Eurodollar revolving loans and from 2.25% to 2.50% on Eurodollar term loans. The margin varies from 1.25% to 1.75% on base rate revolving loans and from 1.25% to 1.50% on base rate term loans. The amount of the margin is based on IAAI's leverage ratio. As of December 31, 2006, the weighted average annual interest rate applicable to Eurodollar rate loans was 7.9%. During the period December 26, 2005 to December 31, 2006, the weighted average annual interest rate for the new senior credit facilities was 7.6%. A commitment fee of 0.50% on the unused portion of the senior credit facilities is payable on a quarterly basis. As of December 31, 2006, \$47.6 million was available for borrowing under the senior credit facilities.

IAAI's obligations under the senior credit facilities are guaranteed by direct and indirect significant subsidiaries of IAAI. In addition, each future significant domestic subsidiary of IAAI is required to guarantee

Table of Contents

those obligations. The senior credit facilities are secured by (1) all existing and future property and assets, real and personal, of IAAI and each guarantor, subject to certain exceptions; (2) a pledge of 100% of the stock of each of IAAI's existing and future direct and indirect domestic subsidiaries; (3) all present and future intercompany debt of IAAI and each guarantor; and (4) all proceeds of the assets described in clauses (1), (2) and (3) above. Under the senior credit facilities, IAAI is required to meet specified restrictive financial covenants, including a maximum consolidated leverage ratio and minimum consolidated interest coverage ratio. The credit facilities also contain various other covenants that limit IAAI's ability to, among other things:

incur additional indebtedness, including guarantees;

create, incur, assume or permit to exist liens on property or assets;

engage in sales, transfers and other dispositions of IAAI's property or assets;

declare or pay dividends to, make distributions to, or make redemptions and repurchases from, equity holders;

make or commit to make capital expenditures over certain thresholds;

make loans and investments and enter into acquisitions and joint ventures;

prepay, redeem or repurchase IAAI's debt, or amend or modify the terms of certain material debt or certain other agreements; and

restrict IAAI's ability and the ability of IAAI's subsidiaries to pay dividends and make distributions.

As of December 31, 2006, IAAI was in compliance with its covenants under the senior credit facilities.

The covenants contained within IAAI's senior credit facilities are important to an investor's understanding of IAAI's financial liquidity, as a violation could cause a default and lenders could elect to declare all amounts borrowed due and payable. The coverage ratio covenants are based on Adjusted EBITDA. For purposes of the chart included below, Adjusted EBITDA is defined as net earnings (loss) plus income tax provision (benefit), interest expense (net) and depreciation and amortization with further adjustments including non-cash items, nonrecurring items, and sponsor advisory fees. While Adjusted EBITDA is neither a defined term under GAAP nor a substitute for GAAP, IAAI believes that the inclusion of Adjusted EBITDA is appropriate, as it provides additional information to demonstrate compliance with the financial covenants. See Non-GAAP Financial Measures. Below is a table detailing IAAI's Adjusted EBITDA for the periods indicated (in thousands):

	Three Months Ended				Year Ended December 31, 2006
	March 26, 2006	June 25, 2006	September 24, 2006	December 31, 2006

Adjusted EBITDA	\$ 14,486	\$ 12,884	\$ 13,494	\$ 15,521	\$ 56,385

- (1) For the quarter ended December 31, 2006, the non-cash charges included \$0.3 million of stock-based compensation expense and \$0.2 million of rent adjustment relating to amortization of lessor funded improvements and straight-line adjustment related to leases.

Table of Contents

(2) For the quarter ended December 31, 2006, non-recurring expense primarily consisted of \$1 .0 million in costs related to the Merger. The scheduled quarterly amortization payments under the senior credit facilities are \$0.5 million per quarter, with a balloon payment of \$184.3 million due on May 19, 2012.

With respect to fiscal years ending on or about December 31, 2007, IAAI is required to make a mandatory annual prepayment of the term loan and the revolving loan in an amount equal to 75% of excess cash flow, as defined in IAAI s senior credit agreement, when the consolidated leverage ratio is 4.0x or greater, or 50% of excess cash flow when the consolidated leverage ratio is at least 3.0x but less than 4.0x. In addition, IAAI is required to make a mandatory prepayment of the term loans with, among other things:

100% of the net cash proceeds of certain debt issuances, and sales and leasebacks of real property, subject to certain exceptions;

50% of the net cash proceeds from the issuance of additional equity interests; and

100% of the net cash proceeds from any property or asset sale or recovery event in an amount exceeding \$2.5 million in any fiscal year, subject to certain exceptions and reinvestment requirements.

Mandatory prepayments will be applied first to the base rate term loans and then to Eurodollar term loans.

As of December 31, 2006, there were no borrowings under the revolving credit facilities. IAAI has outstanding letters of credit in the aggregate amount of \$2.4 million, and \$194.6 million outstanding under its term loan facility. At December 31, 2006, the interest rate on borrowings under the term loan was 7.9%.

IAAI has issued \$150.0 million of notes that mature on April 1, 2013, with interest paid semi-annually every April 1 and October 1. Under the indenture governing the Notes, subject to exceptions, IAAI must meet a minimum consolidated interest coverage ratio to incur additional indebtedness. Prior to April 1, 2008, on any one or more occasions, IAAI may use the net proceeds of one or more equity offerings to redeem up to 35% of the aggregate principal amount of the notes at a redemption price of 111 .00% of the principal amount, plus accrued and unpaid interest. Otherwise, the notes are not redeemable until April 1, 2009. Starting on April 1, 2009, IAAI has the option to redeem all or a portion of the notes at a redemption price equal to a percentage of the principal amount, plus accrued and unpaid interest. In the event of this kind of an optional redemption, the redemption price would be 105.50% for the 12-month period beginning April 1, 2009; 102.75% for the 12-month period beginning April 1, 2010; and 100.00% thereafter. If IAAI experiences specific kinds of changes of control, IAAI must offer to purchase the notes at a price of 101% of their principal amount, plus accrued and unpaid interest. The indenture governing the notes contains various covenants which, subject to exceptions, limit IAAI s ability, and the ability of IAAI s restricted subsidiaries to, among other things:

borrow money;

incur liens;

pay dividends or make certain other restricted payments or investments;

issue disqualified stock;

merge, consolidate or sell all or substantially all of IAAI s or the acquirer s assets;

enter into transactions with affiliates;

create restrictions on dividends or other payments by the restricted subsidiaries;

sell certain assets and use proceeds from asset sales; and

create guarantees of indebtedness by restricted subsidiaries.

IAAI's credit agreement limits the 2007 capital expenditures to \$22.0 million. IAAI expects that its capital expenditure level will be within the \$22.0 million credit agreement limitation.

Table of Contents

IAAI has capital leases of approximately \$0.4 million, of which approximately \$0.3 million is classified as short term. Other long-term liabilities include IAAI's post-retirement benefits liability that relates to a prior acquisition.

IAAI believes that existing cash, as well as cash generated from operations, together with available borrowings under IAAI's new senior credit facilities, will be sufficient to fund capital expenditures and provide adequate working capital for operations for the next 12 months.

The obligations of IAAI under the Notes and the credit facilities are guaranteed by IAAI's wholly owned subsidiaries. The guarantees are full, unconditional, and joint and several.

Critical Accounting Policies

The preparation of the consolidated financial statements in conformity with U.S. generally accepted accounting principles, or GAAP, requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, as well as the related disclosures. IAAI bases its estimates on historical experience and on various assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. As such, IAAI continuously evaluates its estimates. IAAI believes the following critical accounting policies affect its more significant judgments and estimates used in the preparation of its consolidated financial statements.

Goodwill

As of December 31, 2006, IAAI had \$241.3 million of net goodwill recorded in its consolidated financial statements. In accordance with SFAS 142, Goodwill and Other Intangible Assets, IAAI assess goodwill for possible impairment on an annual basis or whenever events or changes in circumstances indicate that the carrying value of this asset may not be recoverable. Important factors that could trigger an impairment review include significant under-performance relative to expected historical or projected future operating results; significant negative industry or economic trends; significant decline in IAAI's stock price for a sustained period; and its market capitalization relative to net book value. If IAAI determines that the carrying value of goodwill may not be recoverable based upon the existence of one or more of the above indicators of impairment, IAAI would measure any impairment based on the excess of carrying amount over fair value measured using a projected discounted cash flow model or other valuation techniques.

Deferred Income Taxes

As of December 31, 2006, IAAI had \$11.3 million of current net deferred tax assets recorded. The current deferred tax assets relate to temporary differences in inventory, accrued liabilities and a federal net operating loss carryforward.

As of December 31, 2006, IAAI had \$36.1 million of net deferred tax liabilities recorded. The net deferred tax liabilities relate primarily to intangible assets related to the 2005 Acquisition transactions, depreciation and state net operating losses incurred in several of the states where IAAI operates. IAAI has determined that it may not realize the full tax benefit related to certain deferred tax assets. As such, a valuation allowance to reduce the carrying value of the deferred tax assets has been recorded.

Long-Lived Assets and Certain Identifiable Intangibles

As of December 31, 2006, IAAI had \$80.2 million of net property and equipment along with net intangible assets of \$147.5 million. IAAI evaluates long-lived assets and certain identifiable intangibles for impairment

Table of Contents

whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets is measured by a comparison of the asset's carrying amount to the estimated undiscounted future cash flows expected to be generated by the asset. If the estimated undiscounted future cash flows change in the future, IAAI may be required to reduce the carrying amount of an asset to its fair value.

BUSINESS

Overview

We are the second largest provider of whole car auctions, the second largest provider of salvage vehicle auctions and have the largest network of automobile auction locations in North America. Our network of whole car and salvage vehicle auctions facilitates the sale of used and salvage vehicles through physical, online and hybrid auctions, which permit Internet buyers to participate in physical auctions. We earn auction fees from both vehicle buyers and sellers for completed transactions. We also generate revenues by providing our customers with value-added ancillary services, including reconditioning, inspection and certification, titling, transportation and administrative and salvage recovery services. We facilitate the transfer of ownership directly from seller to buyer and, in almost all cases, we do not take title or ownership to vehicles sold at our auctions.

We are also a leading provider of short-term inventory-secured financing, known as floorplan financing, primarily to independent used vehicle dealers. Floorplan financing typically involves the financing of dealer vehicle purchases at auction in exchange for a security interest in those vehicles. Loans are generally short-term in nature and typically repaid when the vehicle is sold by the dealer. We generate revenues from both fees and interest on these loans.

Our key competitive advantages include our leading North American market positions, broad distribution network, established relationships with a diversified customer base, comprehensive range of innovative value-added services and strong management team with significant industry experience. As of January 21, 2008, we have a network of 58 whole car auction locations, 134 salvage auction locations and 91 loan production offices in North America. Our auction locations are primarily stand-alone facilities dedicated to either whole car or salvage auctions. Eight of these locations are combination sites, which offer separate whole car and salvage auctions. We believe our extensive network and product offerings will enable us to drive revenues by leveraging relationships with North American institutional vehicle providers and over 85,000 registered buyers of used and salvage vehicles. In our whole car business, we enjoy long-term relationships with all of the major vehicle manufacturers, vehicle finance companies and rental car companies in North America, including Chrysler Motors, LLC, Ford Motor Company, General Motors Corporation, American Honda Finance Corporation, Toyota Motor Credit Corporation, AmeriCredit Financial Services, Inc., Capital One Auto Finance, Chase Auto Finance Corp., Enterprise Rent-A-Car, The Hertz Corporation, Mercedes-Benz Credit Corporation, Nissan North America, Inc., VW Credit, Inc., WFS Financial and World Omni Financial Corp. In our salvage vehicle auction business, we enjoy long-term relationships with The Allstate Corporation, American Family Insurance, American International Group, The Farmers Insurance Group of Companies, GEICO, Nationwide Financial Services, Inc, The Progressive Corporation, State Farm and USAA.

Our Business Segments

We operate as three reportable business segments: ADESA Auctions, IAAI Salvage and AFC.

ADESA Auctions

We are the second largest provider of whole car auctions and related services in North America. We serve our customer base through 58 whole car auction locations throughout North America. Our whole car auctions segment includes Whole Car Auction and Related Services, AutoVIN and ADESA Analytical Services.

Whole Car Auction and Related Services

Our whole car auction facilities are strategically located to draw professional sellers and buyers together and allow our buyers to physically inspect and compare vehicles, which we believe many customers in the industry demand. Our complementary online auction capabilities provide the convenience of viewing, comparing and bidding on vehicles remotely and the advantage of a potentially larger group of buyers.

Table of Contents

Vehicles available at our auctions include vehicles from institutional customers such as off-lease vehicles, repossessed vehicles, rental vehicles and other program fleet vehicles that have reached a predetermined age or mileage and have been repurchased by the manufacturers, as well as vehicles from dealers turning their inventory. The number of vehicles offered for sale is the key driver of our costs incurred in the whole car auction process, and the number of vehicles sold is the key driver of the related fees generated by the redistribution process.

Suppliers of vehicles to our whole car auctions primarily include:

Large institutions, such as vehicle manufacturers and their captive finance arms, vehicle rental companies, financial institutions, and commercial fleets and fleet management companies

Independent and franchised used vehicle dealers

Buyers of vehicles at our whole car auctions primarily include:

Franchised used vehicle dealers

Independent used vehicle dealers

We currently maintain relationships with over 50,000 such registered buyers.

Our whole car auctions strive to maximize the auction sales price for the sellers of used vehicles by effectively and efficiently providing value enhancing reconditioning services, transferring the vehicles, paperwork (including certificates of title and other evidence of ownership), and funds as quickly as possible from the sellers to a large population of dealers seeking to fill their inventory for resale. Auctions are typically held at least weekly at most locations and provide real-time wholesale market prices for the used vehicle redistribution industry.

We generate revenue primarily from auction fees paid by vehicle buyers and sellers. In almost all cases, we do not take ownership or title to vehicles. Our buyer fees and dealer seller fees are typically based on a tiered structure with institutional fees increasing with the sale price of the vehicle, while institutional seller fees are typically fixed.

Our whole car auctions also provide a full range of innovative and value-added services to sellers and buyers that enable us to serve as a one-stop shop. Each of the services may be provided or purchased independently from the physical auction process, including:

Auction services, such as marketing and advertising the vehicles to be auctioned, dealer registration, storage of consigned and purchased inventory, clearing of funds, arbitration of disputes, auction vehicle registration, condition report processing, security for consigned inventory, sales results reports, pre-sale lineups and auctioning of vehicles by licensed auctioneers

Internet-based solutions, including online bulletin board and real-time auctions and online live auctions running simultaneously with physical auctions

Inbound and outbound transportation with services utilizing both internal resources and third party carriers

Reconditioning services, including detailing, body work, light mechanical work, glass repair, paintless dent repair (PDR), tire and key replacement and upholstery repair

Edgar Filing: ADESA SAN DIEGO, LLC - Form 424B3

Inspection and certification services, whereby the auction performs a physical inspection and produces a condition report as well as varying levels of diagnostic testing for purposes of certification

Title processing and other paperwork administration

Outsourcing of remarketing functions and end-of-lease term management

Table of Contents

We add buyer fees to the gross sales price paid by buyers for each vehicle, and generally collect payment on the sale day or shortly thereafter. We generally deduct seller fees for our services from the gross sales price of each vehicle before remitting the net amount to the seller.

AutoVIN

AutoVIN provides professional field information services to the automotive industry. AutoVIN uses highly-qualified, company-employed field managers and advanced computer technology to provide services, including vehicle condition reporting, inventory verification auditing, program compliance auditing and facility inspections. Field managers are equipped with handheld computers and digital cameras to record all inspection and audit data on-site. We believe that expanded utilization of comprehensive inspections for vehicle condition reporting will significantly increase the penetration of the Internet as a method of sourcing vehicles for buying dealers. Our whole car auctions utilize this same technology to perform condition reports at our auction sites.

ADESA Analytical Services

Our team of analysts, headed by our chief economist Tom Kontos, provides value-added ADESA Analytical Services to our customers, the media and the investment community. These services include timely market analysis via the Kontos Kommentary, Pulse[®] and the award-winning Global Vehicle Remarketing (GVR) publication series on a monthly, semi-annual and annual basis, respectively. Through these publications, ADESA Analytical Services provides comprehensive and authoritative coverage of the used vehicle market and the vehicle remarketing industry in North America for our key clients and industry contacts.

Kontos Kommentary provides analytical observations, indexes and review of the current trends within the wholesale used vehicle market.

Pulse[®] provides a periodic review and outlook of economic indicators relevant to the industry. In addition, several indices of wholesale used vehicle market activity and other information are posted regularly on the ADESA Analytical Services website.

Global Vehicle Remarketing: U.S. and Canadian Markets analyzes long-term trends and issues relative to the growing \$82 billion vehicle remarketing industry in the United States and Canada.

In addition, ADESA Analytical Services provides custom analysis of wholesale price trends for ADESA's remarketing clients, including:

Presentations at industry conferences

Design, tabulation, analysis and reporting of targeted surveys

Peer group and market benchmarking studies

Analysis of the benefits of reconditioning

Analysis of auction promotions

Site selection for optimized remarketing of off-lease units

Portfolio analysis of auction sales

IAAI Salvage

We are the second largest provider of salvage vehicle auctions and related services in North America. We operate under the IAAI brand name and serve our customer base through 134 salvage auction locations throughout North America.

Salvage Auctions and Related Services

We facilitate the redistribution of damaged vehicles that are designated as total-losses by insurance companies, recovered stolen vehicles for which an insurance settlement with the vehicle owner has already been made and older model vehicles donated to charity or sold by dealers in salvage auctions.

Our auctions provide buyers with the salvage vehicles they need to fulfill their replacement part or vehicle rebuild requirements. We earn fees for our services from both suppliers and buyers of salvage vehicles.

We process salvage vehicles primarily under two consignment methods: fixed fee and percentage of sale. Under these methods, in return for agreed upon fees, we sell vehicles on behalf of insurance companies, which continue to own the vehicles until they are sold to buyers at auction. In addition to auction fees, we generally charge fees to vehicle suppliers for various services, including towing, title processing and other administrative services. Under all methods of sale, we also charge the buyer of each vehicle fees based on a tiered structure that increase with the sale price of the vehicle and fixed fees for other services.

Auctions are typically held weekly at most locations. Vehicles are marketed at each respective auction site as well as via an online auction list that allows prospective bidders to preview vehicles prior to the actual auction event. Our online Auction Center feature provides Internet buyers with an open, competitive bidding environment that reflects the dynamics of the live salvage auction. The Auction Center includes such services as comprehensive auction lists featuring links to digital images of vehicles available for sale, an Auto Locator function that promotes the search for specific vehicles within the auction system and special Flood or other catastrophe auction notifications. Higher returns are generally driven by broader market exposure and increased competitive bidding.

Our live auction Internet bidding solution, I-bid LIVESM, operates in concert with our physical auctions and provides registered buyers with the opportunity to participate in live auctions. Through an Internet-enabled computer, the buyer bids in real time along with the live local bidders and other Internet bidders via a simple, web-based interface. I-bid LIVE provides real-time streaming audio from the live auction and images of salvage vehicles and other data. Buyers inspect and evaluate the salvage vehicle and listen to the live call of the auctioneer while the physical auction is underway.

We believe that our hybrid live/Internet auction capabilities maximize auction proceeds and returns to our customers. First, our physical auctions allow buyers to inspect and compare the vehicles, thus enabling them to make fully-informed bidding decisions. These physical auction abilities are an important part of the bidding process. Second, our Internet auction capabilities allow buyers to participate in a greater number of auctions than if physical attendance was required. Additionally, lower and more certain acquisition costs enable buyers to pay more while maintaining or improving net margins. Online inventory browsing and e-mail-based inventory alerts reduce the time required to acquire vehicles.

We obtain the majority of our supply of vehicles from insurance companies, non-profit organizations, automobile dealers and vehicle leasing and rental car companies. We enjoy long-term relationships with all of the major U.S. automobile insurance companies, many of whom have been customers for decades. In 2006, IAAI Salvage served over 300 suppliers, with no single supplier representing more than 15% of its unit sales.

Table of Contents

We currently maintain relationships with over 41,000 registered buyers of salvage vehicles. As of January 1, 2008, no single buyer accounted for more than 5% of our unit sales. We estimate that of our vehicles sold approximately 25% 30% are rebuilt and resold, approximately 65% 70% are dismantled and approximately 5% are recycled. Vehicle buyers include the following:

Automotive Body Shops. Automotive body shops and garages typically purchase lightly damaged vehicles to repair for private resale.

Rebuilders. Rebuilders purchase vehicles that have minimal damage and can be quickly fixed or improved for resale as a means to keep experienced mechanics employed during slow periods.

Used Car Dealers. Used car dealers seek vehicles with little or no damage for resale on their lots.

Automotive Wholesalers. Automotive wholesalers most often buy recovered stolen vehicles from us and then sell them to their used car dealer customers.

Exporters. Exporters generally purchase either recovered theft vehicles or vehicles that are only lightly damaged, which are subsequently transported out of the country for resale.

Dismantlers. Dismantlers primarily purchase vehicles to obtain inventories of parts for resale or for use in repair operations.

Recyclers. Recyclers typically purchase vehicles for scrap.

Brokers. Brokers typically represent total-loss vehicle buyers who are either not able to attend the auction because of licensing restrictions or because of availability.

We also offer a comprehensive suite of services, which aims to maximize salvage returns, lower administrative costs, shorten the claims process and increase the predictability of returns to vehicle suppliers, while simultaneously expanding our ability to handle an increasing proportion of the total salvage and claims-processing function as a one-stop shop for insurers. Each of the services may be provided or purchased independently from the auction process, including:

Auction services, such as titling and re-titling of vehicles, clearing of funds, reporting sales results and pre-sale lineups to customers, paying third party storage centers for the release of vehicles and the physical auctioning of the vehicles by licensed auctioneers

Inbound and outbound logistics administration with actual services sometimes provided by third party carriers

Other services including vehicle inspections, salvage returns analyses, towing services, titling, settlement administration, drive through damage assessment centers and claims auditing

CSA Today

The process of salvage disposition through our system begins at the first report of loss or when a stolen vehicle has been subsequently recovered. An insurance company representative consigns the vehicle to us, either by phone, facsimile or electronically through our online proprietary data

management system, CSA Today.

CSA Today enables insurance company suppliers to enter vehicle data electronically and then track and manage the progress of salvage vehicles in terms of both time and salvage recovery dollars. With this tool, vehicle providers have 24-hour access to their total-loss data. The information provided through this system ranges from the details associated with a specific total-loss vehicle, to comprehensive management reports for an entire claims center or geographic region. Additional features of this system include inventory management tools and a powerful new Average Salvage Calculator that helps customers determine the approximate salvage value of a potential total-loss vehicle. This tool is helpful to adjusters when evaluating the repair vs. total decision. The management tools provided by CSA Today enable claims personnel to monitor and manage total-loss

Table of Contents

salvage more effectively. Insurance company suppliers can also use CSA Today to view original garage receipts, verify ignition key availability, view settlement documents and images of the vehicles and receive updates of other current meaningful data.

National Salvage Network

We offer our vehicle suppliers a National Salvage Network that allows an insurance company supplier to consign all of its salvage vehicles to a call center. This call center enables us to distribute vehicle consignments throughout most of the United States, even in markets where we do not currently have a facility. This network is designed to minimize the administrative workload for insurance companies. In certain areas where we do not have a facility, such vehicles are distributed to our selected service partners.

Vehicle Inspection Centers

We maintain vehicle inspection centers, or VICs, at many of our facilities. A VIC is a temporary storage and inspection facility located at one of our sites that is operated by the insurance company. Some of these VIC sites are formalized through temporary license agreements with the insurance companies that supply the vehicles. VICs minimize vehicle storage charges incurred by insurance company suppliers at the temporary storage facility or repair shop and also improve service time for the policyholder.

Potential total-loss vehicles are brought directly to the VIC from the temporary storage facility or repair shop. The insurance company typically has appraisers stationed on the VIC site in order to expedite the appraisal process and minimize storage charges at outside sites. If the insurance company determines that a vehicle is a total-loss, it can easily be moved to one of our vehicle storage areas. If the vehicle is not totaled, it is promptly delivered to the insurer's selected repair facility. We also have the ability to provide digital images as a service to our customers, electronically displaying pictures of the damaged cars to insurance adjusters in their offices.

After a totaled vehicle is received at one of our facilities, it remains in storage but cannot be auctioned until transferable title has been submitted to and processed by us. For most vehicles stored at our facilities, no storage charges accrue for a contractually specified period of time. We provide management reports to the insurance company suppliers, including an aging report of vehicles for which title documents have not been provided. In addition, we customarily offer the insurance companies' staff training for each state's Department of Motor Vehicles, or DMV, document processing procedures. We utilize our title services to expedite the processing of titles, thereby reducing the time in which suppliers receive their salvage proceeds, in addition to decreasing their administrative expenses. We then process the title documents in order to comply with DMV requirements for these vehicles. In all possible titling situations, we interface electronically with DMVs.

Settlement Package Express

IAAI Salvage utilizes an in-house salvage title administration product, Settlement Package Express. By providing our customers with this product, we are able to streamline the title procurement process for their vehicles, thereby reducing processing cycle times while potentially eliminating salvage pool storage fees.

Automated Salvage Auction Processing

We have developed a proprietary web-based information system, Automated Salvage Auction Processing system, or ASAP, to streamline all aspects of our operations and centralize operational data collection. ASAP provides salvage vehicle suppliers with 24-hour online access to powerful tools to manage the salvage disposition process, including inventory management, salvage returns analysis and electronic data interchange of titling information. Additionally, ASAP supports buyer services such as Internet-based searchable parts inventories, transportation cost estimators, third-party appraisal requests and real-time bidding.

Table of Contents

Significantly, our other information systems, including our I-Bid LIVE and CSA Today systems, are integrated with our ASAP product, facilitating seamless auction processes and information flow with internal operational systems. Our technology platform is a significant competitive advantage that allows us to efficiently manage our business, improve customer returns, shorten customers' claims processing cycle and lower our customers' claims administration costs.

AFC

We are a leading provider of floorplan financing to independent used vehicle dealers. We provide, directly or indirectly through an intermediary, short-term inventory-secured financing, known as floorplan financing, to independent used vehicle dealers through 91 loan production offices throughout North America. In 2006, AFC arranged approximately 1.2 million loan transactions. We sell the majority of our U.S. denominated finance receivables without recourse to a wholly owned bankruptcy remote special purpose entity, which sells an undivided participation interest in such finance receivables to a bank conduit facility on a revolving basis.

Floorplan financing supports independent used vehicle dealers in North America which purchase vehicles from our auctions, independent auctions, auctions affiliated with other auction networks and non-auction purchases. In 2006, approximately 83% of the vehicles floorplanned by AFC were vehicles purchased by dealers at auction. Our ability to provide floorplan financing facilitates the growth of vehicle sales at auction.

We service over 600 auctions through our loan production offices which are conveniently located at or within close proximity of auctions held by ADESA Auctions and other auctions, which allows dealers to reduce transaction time by providing immediate payment for vehicles purchased at auction. We provide availability lists on behalf of our customers to auction representatives regarding the financing capacity of our customers, thereby increasing the purchasing potential at auctions. Of AFC's 91 offices in North America, 57 are physically located at auction facilities, including 46 at the auction facilities of ADESA Auctions. Each of the remaining 34 AFC offices is strategically located in close proximity to at least one of the auctions that it serves. In addition, we have the ability to send finance representatives on-site to most approved independent auctions during auction sale-days. Geographic proximity to the customers gives our employees the ability to stay in close contact with outstanding accounts, thereby better enabling them to manage credit risk.

We generate a significant portion of our revenues from fees. These fees include origination, floorplan, curtailment and other related program fees. When the loan is extended or paid in full, AFC collects all accrued fees and interest.

Our procedures and proprietary computer-based system enable us to manage our credit risk by tracking each vehicle from origination to payoff, while expediting services through our branch network. Typically, we assess a floorplan fee at the inception of a loan and we collect all accrued fees and interest when the loan is extended or repaid in full. In addition, AFC generally holds the title or other evidence of ownership to all vehicles which are floorplanned except where not permitted by law. Typical loan terms are 30 to 60 days, each with a possible loan extension. For an additional fee, this loan extension allows the dealer to extend the duration of the loan beyond the original term for another 30 to 60 days if the dealer makes payment towards principal and pays accrued interest and fees.

The extension of a credit line to a dealer starts with the underwriting process. Credit lines up to \$250,000 are extended using a proprietary scoring model developed internally by AFC with no requirement for financial statements. Credit lines in excess of \$250,000 may be extended using underwriting guidelines which require dealership and personal financial statements and tax returns. The underwriting of each line of credit requires an analysis, write-up and recommendation by the credit department and, in case of credit lines in excess of \$250,000, final review by a credit committee.

Collateral management is an integral part of day-to-day operations at each AFC branch and our corporate headquarters. AFC's proprietary computer-based system facilitates day to day collateral management by providing real-time access to dealer information and enables branch and corporate personnel to assess and manage potential collection issues. Restrictions are automatically placed on customer accounts in the event of a delinquency, insufficient funds received or poor audit results. Branch personnel are proactive in managing collateral by monitoring loans and notifying dealers that payments are coming due. In addition, routine audits, or lot checks, are performed on the dealers' lots through our AutoVIN subsidiary. Poor results from lot checks typically require branch personnel to take actions to determine the status of missing collateral, including visiting the dealer personally, verifying units held off-site and collecting payments for units sold. Audits also identify troubled accounts, triggering the involvement of AFC's collections department.

AFC operates three divisions which are organized into nine regions in North America. Each division and region is monitored by managers who oversee daily operations. At the corporate level, AFC employs full-time collection specialists and collection attorneys who are assigned to specific regions and monitor collection activity for these areas. Collection specialists work closely with the branches to track trends before an account becomes a troubled account and to determine, together with collection attorneys, the best strategy to secure the collateral once a troubled account is identified.

As of December 31, 2006, AFC had approximately 8,800 active dealers (those accounts with financing for at least one vehicle outstanding), with an average line of credit of \$133,000 and no one dealer representing greater than 2.2% of our portfolio. An average of approximately twelve vehicles per active dealer was floorplanned with an approximate average value of \$7,500 per vehicle at the end of 2006.

AFC sells the majority of its U.S. dollar denominated finance receivables without recourse to AFC Funding Corporation, a wholly owned bankruptcy remote special purpose entity established for the purpose of purchasing AFC's finance receivables. AFC's securitization conduit has been in place since 1996. AFC Funding Corporation has \$600 million of committed liquidity. Proceeds from the revolving sale of receivables to the bank conduit facility are used to fund new loans to customers.

Competitive Strengths

Leading North American Market Positions

We are the second largest provider of whole car auctions and salvage vehicle auctions and related services in North America. In 2006, the most recent date available, we had estimated market shares of approximately 18% and 33% in the whole car auction and salvage auction markets, respectively. We leverage our significant market presence to attract a high volume of vehicles, thereby ensuring sufficient supply to create the successful marketplaces that buyers and sellers demand. We also have a leading market position in the floorplan financing industry. AFC's broad coverage, strong brand name and longstanding customer relationships have established it as a leading provider of floorplan financing for independent used vehicle dealers.

Broad North American Distribution Network

Our 58 whole car and 134 salvage auction locations enable us to provide a single source solution for our customers' needs throughout North America. In addition, AFC has 91 loan production offices supporting independent dealers across North America who purchase vehicles from auctions held by ADESA Auctions, independent auctions, auctions affiliated with other auction networks and non-auction purchases. Of these offices, 46 are located at ADESA Auctions sites, 34 are located strategically near auctions and 11 are located at third-party auctions. Our network enables us to maintain and develop our relationships with local sellers and buyers, while our North American presence allows institutional customers to access buyers and to redistribute vehicles to markets where demand best matches supply. Our presence in 70 of the top 75 metropolitan markets in the United States gives us an advantage over our smaller competitors, the large majority of which operate in a

Table of Contents

single market and lack scale. As our customers increasingly demand single source solutions, we believe that our scale and network will become an even more distinct advantage over our competitors. In addition, we believe our broad, established network positions us well because of the large tracts of land required to build new auction sites (our average whole car site is 75 acres and our average salvage site is 20 acres) and the need to comply with regulatory requirements, including zoning and use permits.

Established Relationships with a Diversified Customer Base

We have established strong business relationships with dealers and institutional customers, such as vehicle manufacturers, insurers, financial institutions, rental agencies and fleet companies. We have a diverse customer base and do not have a major concentration of business with any one customer. We believe this diversity allows us to better withstand changes in the economy and market conditions. Key used vehicle supplier relationships include all of the major vehicle manufacturers, vehicle finance companies and rental car companies, including Chrysler Motors, LLC, Ford Motor Company, General Motors Corporation, American Honda Finance Corporation, Toyota Motor Credit Corporation, AmeriCredit Financial Services, Inc., Capital One Auto Finance, Chase Auto Finance Corp., Enterprise Rent-A-Car, The Hertz Corporation, Mercedes-Benz Credit Corporation, Nissan North America, Inc., VW Credit, Inc., WFS Financial and World Omni Financial Corp. Salvage auction relationships include all the major insurance companies in North America, including The Allstate Corporation, American Family Insurance, American International Group, The Farmers Insurance Group of Companies, GEICO, Nationwide Financial Services, Inc., The Progressive Corporation, State Farm and USAA. As of January 1, 2008, no single supplier represented more than 7.5% of our unit sales and no single buyer represented more than 1% of our unit sales. ADESA Auctions has over 50,000 registered buyers, while IAAI Salvage has over 41,000 registered buyers.

Single-Source Service Provider of Value-Added Services

We are able to serve as a one-stop shop for our customers by offering a comprehensive range of innovative and value-added services. We offer physical auctions with Internet-bidding capabilities that enable buyers to pre-bid over the Internet, participate in person at a physical auction and bid over the Internet in real time. Through ADESA Auctions, we offer reconditioning and preparation services and customized reporting and analytical services. Through IAAI Salvage, we provide on-site facilities for insurance providers and online tools for salvage vehicle suppliers that include inventory management, salvage returns analysis and electronic data interchange of titling information. We also provide our insurance company suppliers with the capability to electronically assign and manage their salvage vehicle inventory.

Strong Management Team with Significant Industry Experience

Our senior management team has extensive experience in the automotive services industry.

Brian Clingen, our Chairman and Chief Executive Officer, has significant operational and investment experience in the automotive services industry. Mr. Clingen has served as a managing partner of BP Capital Management since 1998.

Jim Hallett, President and Chief Executive Officer of ADESA Auctions, has significant experience in the automotive auctions industry. Mr. Hallett previously served as an executive officer of ADESA from August 1996 until May 2005.

Tom O'Brien, President and Chief Executive Officer of IAAI Salvage, has over 30 years experience in general management of various businesses, with 15 years in businesses that provide services to the automotive insurance industry. Mr. O'Brien has led IAAI since 2000.

Curt Phillips, President and Chief Executive Officer of AFC, has significant experience in overseeing accounting, cash management, and the credit and contract functions. Mr. Phillips has previously served as Chief Financial Officer of AFC from April 1998 until January 2004.

Table of Contents

Eric Loughmiller, our Chief Financial Officer, has over 25 years experience in finance and accounting and over 10 years as Chief Financial Officer of public and private companies.

John Nordin, our Chief Information Officer, has over 26 years of experience in IT and over 13 years as Chief Information Officer of public and private companies.

Rebecca Polak, our Executive Vice President, General Counsel and Secretary, has significant experience in corporate and securities law. Ms. Polak served as Associate General Counsel of ADESA from February 2005 to April 2007.

Business Strategy

We continue to focus on growing our revenues and profitability through the execution of the following key operating strategies:

Increase Whole Car Market Volumes

Institutional. We continue to focus on growing our whole car auction business by building stronger and more interactive relationships with our institutional customers. Jim Hallett is highly regarded in the industry and has extensive customer relationships that he has developed over 17 years in the North American used vehicle redistribution industry. In addition, we have staffed and will continue to staff, our sales organization with relationship managers focused on the various categories of institutional customers that we serve. To the extent possible, we have aligned our managers with the types of customers that they have the most relevant experience with: vehicle manufacturers, finance companies, rental car companies, leasing companies and fleet management companies. This allows our managers to focus on the current trends for their respective institutional customer group in order to better coordinate our sales efforts and service offerings tailored to our customers' needs. In addition to our team of relationship managers, we utilize ADESA Analytical Services to provide our institutional customers with customized studies and data analysis tools to enhance their remarketing decisions, target potential buyers and determine the best market and forum for their vehicles.

Dealers. We have decentralized the sales and marketing approach for our dealer business with primary coverage responsibilities managed by the individual auction locations. We believe this decentralized approach enhances relationships with the dealer community and increases dealer volumes at our auctions. Dealer business is a highly market specific business and we have to hire local relationship managers who have experience in the used vehicle business and possess an intimate knowledge of their local market.

Realize Cost Savings and Increase Revenues In Salvage Operations

We continue to focus on cost savings and revenue synergies from the combination of ADESA's and IAAI's salvage operations by reducing corporate overhead of the combined salvage operations, consolidating existing salvage sites onto existing whole car sites, opening new salvage sites on existing whole car sites, easing volume constraints through a larger branch network and implementing IAAI standard processes and information technology systems to streamline operations and improving operating efficiencies at existing ADESA salvage branches.

Over the past few years, IAAI has successfully implemented an operating model for its auction sites that streamlines numerous operating and administrative activities and standardizes processes, resulting in cost savings and improved customer service levels. We have implemented this scalable operating model at 28 of ADESA's

Table of Contents

salvage facilities located in the United States, which we believe will result in additional cost savings, primarily by reducing headcount and personnel costs. We have implemented the IAAI operating model at 13 of ADESA's salvage locations in Canada in 2008.

Reduce Costs and Enhance Revenues at ADESA Auctions

We continue to focus on reducing costs and enhancing revenues at ADESA Auctions by implementing the following initiatives:

Optimize management and staffing levels for each auction

Establish standardized operating procedures and utilize technology to automate process controls for key operational areas and to improve labor efficiency

Centralize certain common functions currently performed at individual auction locations such as payables processing and general ledger entry to reduce costs and improve working capital turns

Centralize and consolidate certain procurement functions to leverage global volumes of commodities and services to gain more favorable pricing

Standardize fee structures for ancillary services

Expand through Selective Relocations, Greenfields and Acquisitions

We continue to focus on relocating several of our existing whole car auction facilities to new, larger facilities in markets where our existing facilities are capacity-constrained and where we believe we can immediately realize additional volume and process efficiency improvements. In addition, increased demand for single source solutions by our customers may enable us to acquire smaller, less geographically diversified competitors at attractive prices. Both ADESA and IAAI have been successful in acquiring independent auction operations over the past few years. We will continue to evaluate opportunities to open new greenfield sites in markets adjacent to those in which we already have a presence, in order to effectively leverage our sales and marketing capabilities. We expect to expand our salvage operations by selectively locating new salvage auction sites at ADESA Auctions' existing auction facilities.

Expand AFC

We will continue to focus on expanding AFC geographic coverage and gaining market share by adding loan production offices in selected markets and improving coordination with ADESA Auctions to capitalize on cross-selling opportunities. By encouraging a collaborative marketing effort between AFC and ADESA Auctions, we believe we can market more effectively to dealers and tailor AFC's financing products to individual dealer needs. We will continue to focus on generating additional revenues by expanding our floorplan financing business to certain IAAI Salvage buyers and by cross-selling our whole car auction services to our AFC customers that do not currently use ADESA Auctions auctions.

Continue to Invest in Information Technology

We will continue to invest in and improve our technology infrastructure to expand service offerings and improve operating efficiencies and customer service. We will utilize the experience gained through the recent development of IAAI's proprietary IT systems (completed in 2005) as it upgrades ADESA Auctions's IT system. John Nordin, the Chief Information Officer of IAAI, was instrumental in the implementation of IAAI's recent IT upgrade and as Chief Information Officer of the combined business, is leading the systems upgrade effort for ADESA Auctions. We are utilizing technology to develop additional service offerings across our whole car and salvage businesses to improve customers' returns, shorten the claims processing cycle on the salvage side and lower overall transaction costs. In addition, we are enhancing our e-commerce products and services portfolio in

Table of Contents

order to better serve our whole car buyers and sellers. These information technology improvements should also allow us to reduce field staff through more efficient and reliable systems, while providing our institutional customers with quicker and better data analysis.

Information Technology

Information technology developments are driving change in the whole car and salvage auction industry. Under the leadership of John Nordin, Chief Information Officer, we plan to continue investing in our technology infrastructure in order to expand service offerings and improve operating efficiencies and customer service across our business segments. Through ADESA's IT investments, ADESA's sales channel integration and consolidation of databases are expected to increase revenues through eBusiness initiatives, superior cross-selling of services, improved customer satisfaction, greater matching of buyers and sellers and increased electronic loan transactions.

We have developed online tools to assist customers in redistributing their vehicles and establishing wholesale vehicle values, in addition to offering an alternative to physically attending an auction.

Our current ADESA Auctions online offerings include:

ADESA LiveBlock allows online bidders to compete in real time with bidders present at physical auctions

ADESA DealerBlock provides for either real-time or round-the-clock bulletin-board type online auctions of consigned inventory not scheduled for active bidding. This platform is also utilized for upstream selling which facilitates the sale of vehicles prior to their arrival at a physical auction site

ADESA Run Lists provides a summary of consigned vehicles offered for auction sale, allowing dealers to preview inventory prior to an auction event

ADESA Market Guide provides wholesale auction prices, auction sales results, market data and condition reports

ADESA Virtual Inventory subscription-based service to allow dealers to embed ADESA Search technology into a dealer's website to increase the number of vehicles advertised by the dealer. Currently offered in Canada

ADESA Notify Me email notification service for dealers looking for particular vehicles being run at physical or electronic auction
Our current online IAAI Salvage offerings include:

I-bid LIVESM provides real-time Internet bidding capabilities to salvage vehicle buyers

CSA Today provides comprehensive salvage analysis and data management capability to our salvage vehicle suppliers

ASAP provides a web-based system designed to support salvage vehicle registration and tracking, financial reporting, transaction settlement, vehicle title transfer and branch/ headquarters communications. The system is designed to streamline all aspects of our salvage operations as well as support future growth and expansion plans. The web-based ASAP provides vehicle suppliers with capabilities such as online inventory management and electronic data interchange of titling information. Additionally, ASAP supports buyer services such as Internet-based searchable parts inventories, transportation cost estimators, third-party appraisal

requests and real-time bidding

Sales and Marketing

ADESA Auctions

Our sales and marketing approach at ADESA Auctions is to develop stronger relationships and more interactive dialogue with our customers. We have relationship managers for the various categories of institutional customers, including vehicle manufactures, rental car companies, finance companies and others. These relationship managers focus on current trends and customer needs for their respective seller group in order to better coordinate our sales effort and service offerings.

Managers of individual auction locations will ultimately be responsible for providing services to the institutional customers whose vehicles are directed to the auctions by the corporate sales team. Developing and servicing the largest possible population of buying dealers for the vehicles consigned for sale at each auction is integral to selling auction services and servicing institutional customers.

We also provide market analysis to our customers through our ADESA Analytical Services department. We market this service to institutional customers as they favorably use analytical techniques in making their remarketing decisions.

We have a decentralized sales and marketing approach for our dealer business with primary coverage responsibilities managed by the individual auction locations. We believe this decentralized approach enhances relationships with the dealer community and increase dealer volumes at our auctions. Dealer business is a highly market specific business. As such, we have local relationship managers who have experience in the used car business and possess an intimate understanding of their local market.

IAAI Salvage

We solicit prospective vehicle providers at the national, regional and local levels through our IAAI Salvage sales force. Branch managers execute customer service requests and address customer needs at the local level. We also participate in a number of local, regional and national trade show events that further promote the benefits of our products and services.

In addition to providing insurance companies and certain non-insurance company suppliers with a means of disposing of salvage vehicles, we offer a comprehensive suite of services which aim to maximize salvage returns and shorten the claims process. We seek to become integrated within our suppliers' salvage processes, and we view such mutually beneficial relationships as an essential component of our effort to attract and retain suppliers.

By analyzing historical industry and customer data, we provide suppliers with a detailed analysis of their current salvage returns and a proposal detailing methods to improve salvage returns, reduce administrative costs and provide proprietary turn-key claims processing services.

We also seek to expand our supplier relationships through recommendations from individual insurance company branch offices to other offices of the same insurance company. We believe that our existing relationships and the recommendations of branch offices play a significant role in our marketing of services within national insurance companies. As we have expanded our geographic coverage, we have been able to market our services to insurance company suppliers on a national basis or within an expanded geographic area.

AFC

AFC approaches and seeks to expand its share of the independent dealer floorplan market through a number of methods and channels. We actively target and solicit new dealers through both direct sales efforts at the dealer's place of business as well as auction-based sales and customer service representatives, who service our dealers at over 600 auctions where they replenish and rotate vehicle inventory. These largely local efforts are

Table of Contents

handled by AFC Branch Managers as well as Dealer Sales Representatives. A marketing team supports field personnel by helping to identify target dealers and coordinating both promotional activity with auctions and other vehicle supply sources.

Customers

We obtain our supply of used vehicles from large institutions such as vehicle manufacturers and their captive finance arms, vehicle rental companies, financial institutions, commercial fleets and fleet management companies, and independent and franchised used vehicle dealers. Buyers are primarily franchised or independent used vehicle dealers. ADESA Auctions currently maintains relationships with over 50,000 registered buyers.

We obtain the majority of our supply of salvage vehicles from insurance companies, non-profit organizations, automobile dealers and vehicle leasing and rental car companies. Buyers of salvage vehicles include licensed vehicle dismantlers, rebuilders, repair shop operators and used vehicle dealers. IAAI Salvage currently maintains relationships with over 41,000 such registered buyers.

At AFC, we serve a highly fragmented customer base of 45,000 independent dealers. We have served the industry continuously since 1987. As a result, we have some of the most established long-term relationships with these customers.

Our strong national relationships with institutional customers provide a significant and stable source of late model used vehicles and salvage vehicles into our auctions. The integration of our information technology systems with those of our major institutional customers creates strong relationships and improves customer retention. Additionally, the long-standing presence of auctions and loan production offices in regional markets has created strong relationships with local franchise and independent dealers.

Regulation

Vehicle and Lending Regulation

Our operations are subject to regulation, supervision and licensing under various federal, state and local statutes, ordinances and regulations. Each auction is subject to laws that regulate auctioneers and/or vehicle dealers in the state or province in which it operates. Some of the transport vehicles used at our auctions are regulated by the U.S. Department of Transportation or similar regulatory agencies in Canada and Mexico. The acquisition and sale of salvage and recovered stolen vehicles is regulated by governmental agencies in each of the locations in which we operate. In many states and provinces, regulations require that a salvage vehicle be forever branded with a salvage notice in order to notify prospective purchasers of the vehicle's previous salvage status. Some state, provincial and local regulations also limit who can purchase salvage vehicles, as well as determine whether a salvage vehicle can be sold as rebuildable or must be sold for parts only. Such regulations can reduce the number of potential buyers of vehicles at salvage auctions.

We are also subject to various local zoning requirements with regard to the location of our auction and storage facilities. These zoning requirements vary from location to location. Additionally, AFC is subject to laws in certain states which regulate commercial lending activities and interest rates.

Changes in law or governmental regulations or interpretations of existing law or regulations can result in increased costs, reduced salvage vehicle prices and decreased profitability for us. Failure to comply with present or future regulations or changes in existing regulations could have a material adverse effect on our operating results and financial condition.

Table of Contents

Environmental Regulation

Our operations are subject to regulation by various federal, state and local authorities concerning air quality, water quality, solid wastes and other environmental matters. In the used vehicle redistribution industry, large numbers of vehicles, including damaged vehicles at salvage auctions, are stored at auction facilities for short periods of time. Minor spills of gasoline, motor oils and other fluids may occur from time to time at our facilities and may result in soil, surface water or groundwater contamination. Virtually all of our facilities maintain above-ground storage tanks for diesel fuel and, in some cases, propane gas for use in our vehicles and equipment. We also own and maintain underground storage tanks at a number of our facilities around the country, primarily to store vehicle fuel. Waste materials, such as waste solvents or used oils, are generated at some of our facilities and are disposed of as non-hazardous or hazardous wastes. We believe that we are in compliance in all material respects with applicable environmental regulations and do not anticipate any material capital expenditure for environmental compliance or remediation.

To date, we have not incurred significant expenditures for preventive or remedial action with respect to contamination or the use of hazardous materials. Environmental laws and regulations, however, could become more stringent over time and we may be subject to significant compliance costs in the future. Future contamination at any one or more of our facilities, or the potential contamination by previous users of certain acquired facilities, create the risk, however, that we could incur significant expenditures for preventive or remedial action, as well as potential liability arising as a consequence of hazardous material contamination, which could have a material adverse effect on our operating results and financial condition.

Management considers the likelihood of loss or the incurrence of a liability, as well as the ability to reasonably estimate the amount of loss, in determining loss contingencies. We accrue an estimated loss contingency when it is probable that a liability has been incurred and the amount of loss can be reasonably estimated. Management regularly evaluates current information available to determine whether accrual amounts should be adjusted. Accruals for contingencies including environmental matters are included in Other accrued expenses and Other liabilities at undiscounted amounts and generally exclude claims for recoveries from insurance or other third parties. These accruals are adjusted periodically as assessment and remediation efforts progress, or as additional technical or legal information becomes available. If the amount of an actual loss is greater than the amount accrued, this could have an adverse impact on our operating results in that period.

Competition

We face significant competition for the supply of used and salvage vehicles and for the buyers of those vehicles. Our principal competitors include other whole car and/or salvage vehicle auction companies, wholesalers, dealers, manufacturers and dismantlers, a number of whom may have established relationships with sellers and buyers of vehicles and may have greater financial resources than us. Our basis for competition includes both our physical auction sites and our e-business service offerings. Due to the limited number of sellers of used and salvage vehicles, the absence of long-term contractual commitments between us and our customers and the increasingly competitive market environment, there can be no assurance that our competitors will not gain market share at our expense.

In the whole car auction industry, we compete with Manheim, a subsidiary of Cox Enterprises, Inc., as well as several smaller chains of auctions and independent auctions, some of which are affiliated through their membership in an industry organization named ServNet. Due to our national presence, competition is strongest with Manheim for the supply of used vehicles from national institutional customers. The supply of vehicles from dealers is dispersed among all of the auctions in the used vehicle market.

Due to the increased visibility of the Internet as a marketing and distribution channel, new competition has arisen recently from Internet-based companies and our own customers who have historically redistributed vehicles through various channels, including auctions. Direct sales of vehicles by institutional customers and

Table of Contents

large dealer groups through internally developed or third-party online auctions have largely replaced telephonic and other non-auction methods, becoming an increasing portion of overall used vehicle redistribution. The extent of use of direct, online systems varies by customer. Typically, these online auctions redistribute vehicles that have come off lease. In addition, we and some of our competitors offer online auctions in connection with physical auctions, and other online auction companies now include used vehicles among the products offered at their auctions.

In the salvage sector, we compete with Copart, Inc., Total Resource Auctions (Manheim), independent auctions, some of which are affiliated through their membership in industry organizations to provide broader coverage through network relationships and a limited number of used vehicle auctions that regularly redistribute salvage vehicles. Additionally, some dismantlers of salvage vehicles such as Greanleaf and LKQ Corporation and Internet-based companies have entered the market, thus providing alternate avenues for sellers to redistribute salvage vehicles. While most insurance companies have abandoned or reduced efforts to sell salvage vehicles without the use of service providers such as us, they may in the future decide to dispose of their salvage vehicles directly to end users. We may not be able to compete successfully against current or future competitors, which could impair our ability to grow and/or sustain profitability.

We anticipate further consolidation of the whole car and salvage auction services industry will occur and are evaluating various means by which we can continue our growth plan through further deployment of our Internet auction tools, strategic acquisitions, shared facilities with our used vehicle auctions and greenfield expansion.

In Canada, we are the largest provider of whole car and salvage vehicle auction services. Our competitors include vehicle recyclers and dismantlers, independent vehicle auctions, brokers, Manheim and online auction companies. We believe we are strategically positioned in this market by providing a full array of value-added services to customers including auction and related services, online programs, data analyses and consultation.

The used vehicle inventory floorplan financing sector is characterized by diverse and fragmented competition. AFC primarily provides short-term dealer floorplan financing of wholesale vehicles to independent vehicle dealers in North America. At the national level, AFC's competition includes Manheim Automotive Financial Services, Auto Use, Dealer Services Corporation, other specialty lenders, banks and financial institutions. At the local level, AFC faces competition from banks and credit unions who may offer floorplan financing to local auction customers. Such entities typically service only one or a small number of auctions. Some of our industry competitors who operate whole car auctions on a national scale may endeavor to capture a larger portion of the floorplan financing market. AFC competes primarily on the basis of quality of service, convenience of payment, scope of services offered and historical and consistent commitment to the sector. Our long-term relationships with customers have been established over time and act as a competitive strength for us versus our competitors.

Employees

At January 21, 2008, we had a total of 15,086 employees, 10,286 located in the U.S. and 4,800 located in Canada. Approximately 63% percent of our workforce consists of full-time employees. Currently, none of our employees participate in collective bargaining agreements.

In addition to the employee workforce, we also utilize temporary labor services to assist in handling the vehicles consigned to us during periods of peak volume. Nearly all of our auctioneers are independent contractors.

Some of the services we provide are outsourced to third party providers that perform the services either on-site or off-site. The use of third party providers depends upon the resources available at each auction facility as well as peaks in the volume of vehicles offered at auction.

Table of Contents

Properties

Our corporate headquarters are located in Carmel, Indiana. Our corporate headquarters and our Canadian office are leased properties. Our properties include 58 whole car auction facilities in North America, which are either owned or leased. Each auction is generally a multi-lane (up to 14 auction lanes), drive-through facility, and may have additional buildings for reconditioning, registration, maintenance, bodywork, and other ancillary and administrative services. Each auction also has secure parking areas to store vehicles. We also operate 134 salvage auction facilities in the U.S. and Canada which are utilized by IAAI Salvage. Salvage auctions are generally smaller than used vehicle auctions in terms of acreage and building size and some locations share facilities with our used vehicle auctions.

Of AFC's 91 offices in North America, 57 are physically located at auction facilities (including 46 at ADESA auctions). Each of the remaining 34 AFC offices is strategically located in close proximity to at least one of the auctions that it serves. AFC generally leases its loan production offices.

Management believes that our properties are adequate for our current needs and that suitable additional space will be available on reasonably acceptable terms as required.

Legal

We are involved in litigation and disputes arising in the ordinary course of business, such as actions related to injuries; property damage; handling, storage or disposal of vehicles; financing; environmental laws and regulations; and other litigation incidental to the business such as employment matters and dealer disputes. Such litigation is generally not, in the opinion of management, likely to have a material adverse effect on the financial condition, results of operations or cash flows. Legal and regulatory proceedings which could be material are discussed below.

Auction Management Solutions, Inc.

In March 2005, Auction Management Solutions, Inc., or AMS, filed a lawsuit against ADESA, Inc. in U.S. District Court for the Northern District of Georgia, Atlanta Division (Civil Action No. 05 CV 0638), alleging infringement of U.S. Patent No. 6,813,612, or the 612 Patent, which was issued November 2, 2004 and pertains to an audio/video system for streaming instantaneous and buffer free data to and from a live auction site. The AMS complaint was served upon ADESA in July 2005. The complaint seeks unspecified damages and injunctive relief. We filed our answer, including our defenses, to the complaint in August 2005. We continue to vigorously defend ourselves against the infringement allegations. The litigation is currently in discovery.

In related litigation, AMS also filed a lawsuit against Manheim Auctions, Inc. (Manheim), Live Global Communications USA Inc. and Live Global Bid, Inc. (collectively LGB) in U.S. District Court for the Northern District of Georgia, Atlanta Division (Civil Action 05 CV 0639), alleging infringement of the 612 Patent and other causes of action against Manheim. We license technology used in our LiveBlock Internet auction application from LGB. The complaint seeks unspecified damages and injunctive relief. In May 2005, AMS withdrew its request for a preliminary injunction against Manheim and LGB. In June 2005, Manheim filed a counterclaim against AMS alleging infringement of U.S. Patent No. 5,774,873 related to online motor vehicle auction systems. This litigation has been consolidated with the AMS lawsuit against us during the discovery phase. No trial date has been set.

Although we believe we have substantial defenses to the AMS claims, there is the potential for an adverse judgment given the risk and uncertainty inherent in litigation. In the event of an adverse decision, we do not believe that it would have a material adverse effect on our consolidated financial condition or liquidity but could possibly be material to our consolidated results of operations.

Mr. Wahrhaftig is also a director of BWAY Corporation, DS Waters Holdings, Inc. and Renfro Corporation.

Committees of the Board of Directors

The board of directors has established an audit committee and a compensation committee. The audit committee recommends the annual appointment of independent auditors. The audit committee reviews with the auditors the scope of the audit and non-audit assignments and related fees, accounting principles we use in financial reporting, internal auditing procedures and the adequacy of our internal controls. The compensation committee reviews and approves the compensation and benefits of our employees, directors and consultants, administers our employee benefits plans, authorizes and ratifies stock option grants and other incentive arrangements, authorizes employment and related agreements and oversees our corporate governance matters. Messrs. Carella, Kamin and Wahrhaftig serve on the audit committee and Messrs. Clingen, Mehra, Moore, O'Brien and Spivy serve on the compensation committee. Mr. Kamin serves as chairman of the audit committee and Mr. Moore serves as chairman of the compensation committee.

Compensation of Directors

All of our directors are affiliated with us or our sponsors and are not entitled to receive any fees for serving as directors. The directors are reimbursed for their out-of-pocket expenses incurred in connection with attendance in person at board or committee meetings.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview

On April 20, 2007, following the merger of KAR Acquisition, Inc. with and into ADESA, and the completion of a series of related transactions, ADESA and IAAI Salvage became wholly owned subsidiaries of KAR Holdings. See Summary The Transactions. As a result, the compensation practices and policies described in this Compensation Discussion and Analysis relate to the period of April 20, 2007 through December 31, 2007 unless otherwise noted.

We have determined that the following persons were our named executive officers for the period covered by this Compensation Discussion and Analysis:

Brian Clingen, Chairman and Chief Executive Officer of KAR Holdings;

Eric Loughmiller, Executive Vice President and Chief Financial Officer of KAR Holdings;

James Hallett, President and Chief Executive Officer of ADESA Auctions;

Thomas O'Brien, President and Chief Executive Officer of IAAI Salvage; and

John Nordin, Executive Vice President and Chief Information Officer of KAR Holdings.

Compensation Philosophy and Objectives

We believe that the compensation of named executive officers should be (i) closely aligned with the performance of the company on both a short-term and long-term basis, (ii) linked to specific, measurable results intended to create value for stockholders, and (iii) competitive in attracting and retaining key executive talent in the vehicle remarketing and auto finance industry. Each of the compensation programs that we have developed and implemented is intended to satisfy one or more of the following specific objectives:

motivate and focus through incentive compensation programs directly tied to our financial results;

support a one-company culture and encourage synergies between all business units by aligning rewards with long-term overall company performance and stockholder value;

provide a significant percentage of total compensation through variable pay based on pre-established goals and objectives;

enhance our ability to attract and retain skilled and experienced executive officers;

Edgar Filing: ADESA SAN DIEGO, LLC - Form 424B3

align the interests of our executive officers with the interests of our stockholders so that they manage from the perspective of owners with an equity stake in the company; and

provide competitive rewards commensurate with performance and competitive market practices.

The Role of the Compensation Committee and the Named Executive Officers in Determining Executive Compensation

Role of the Compensation Committee. The Compensation Committee of the Board of Directors (the Committee) is comprised of Church M. Moore (Chairman), Sanjeev Mehra, Gregory P. Spivy, Brian Clingen and Thomas O'Brien. Mr. Clingen is the Chairman and CEO of KAR Holdings and Mr. O'Brien is the President and CEO of IAAI Salvage. See Compensation Committee Interlocks and Insider Participation. Messrs. Mehra, Moore and Spivy are directors who were appointed by the Equity Sponsors pursuant to the terms of the LLC Agreement. See Certain Relationships and Related Transactions-LLC Agreement.

Table of Contents

The Committee has primary responsibility for all compensation decisions relating to our executive officers, including Mr. Clingen and Mr. O'Brien. The Committee conducts an annual review of the aggregate level of our executive compensation, as well as the mix of elements used to compensate our named executive officers. In connection with its annual review, the Committee may consider such factors as it deems appropriate, including information relating to the compensation practices and policies of other similarly sized companies within and outside our industry. In light of the unique mix of businesses that comprise KAR Holdings and the lack of directly comparable public companies, the Committee has not identified a specific peer group of companies for comparative purposes and does not formally engage in the benchmarking of compensation. Further, the Committee has not engaged a compensation consultant to assist in the annual review of our compensation practices or the development of compensation programs for our named executive officers, though the Committee has the authority to do so if it deems that such assistance is necessary or would otherwise be beneficial.

Role of the Executive Officers. Mr. Clingen and Mr. O'Brien participate in meetings of the Committee at which compensation actions involving our named executive officers are discussed. Mr. Clingen and Mr. O'Brien assist the Committee by making recommendations regarding compensation actions relating to the executive officers other than themselves. Mr. Clingen and Mr. O'Brien each recuses himself and does not participate in any meetings of the Committee at which his compensation is discussed.

Elements Used to Achieve Compensation Philosophy and Objectives

Components of Executive Compensation for 2007. The Committee believes the total compensation and benefits program for our named executive officers should consist of the following:

base salary;

annual incentive opportunity;

long-term incentive opportunity;

retirement, health and welfare benefits; and

perquisites.

Base Salary

Base salary is the fixed component of total annual cash compensation and is intended to reward the named executive officers for their past performance, offer security to the executive officers and facilitate the attraction and retention of a skilled and experienced executive management team. The Committee reviews base salaries for our executive officers annually and at other times in connection with any promotion or other change in responsibility of an executive officer. The Committee reviewed proposed base salary increases for each of the named executive officers at its February 2008 meeting. The increases take effect on May 1st, 2008, except for Thomas O'Brien's salary increase which is retroactive to January 1st, 2008.

Annual salary levels for our executive officers are set within general salary ranges established by the Committee based upon various factors, including the individual's performance, budget guidelines, experience, business unit responsibilities and tenure in the particular position. As part of the annual budget process, the overall salary structure is reviewed to ensure that it remains competitive within the market. Because of the diverse mix of businesses that comprise KAR Holdings, the Committee has not identified a specific peer group of companies and may review the compensation practices of various companies within and outside of our industry. In addition, the Committee also considers the amount and relative percentage of total compensation that is derived from base salary when setting the compensation of our executive officers. The Committee has not, however, established a policy or a specific formula for such purpose.

Table of Contents

In view of the wide variety of factors considered by the Committee in connection with determining the base salary of each of our executive officers, the Committee has not attempted to rank or otherwise assign relative weights to the factors that it considers. The Committee considers all the factors as a whole in reaching its determination. The Committee collectively makes its determination with respect to base salaries based on the conclusions reached by its members, in light of the factors that each of them considered appropriate.

The base salaries paid to our named executive officers for 2007 are shown in the Summary Compensation Table on page 125.

Annual Cash Incentives

We provide annual cash incentive opportunities to our executive officers in order to:

align annual incentives with overall company financial results;

align annual incentives, where appropriate, with business unit or division financial results; and

align annual incentives with the interests of our stockholders.

Annual cash incentive opportunities are established for each executive officer by the Committee based upon a number of factors including the job responsibilities, internal equity among the named executive officers and market compensation data generally. Consistent with our compensation philosophy and objectives, the Committee sets annual incentive bonus targets in amounts which are intended to encourage the achievement of certain levels of performance and provide a significant portion of each executive officer's compensation through variable pay based upon pre-established goals and objectives. Generally, individuals with greater job responsibilities have a greater proportion of their annual cash compensation tied to company performance through their annual incentive opportunity. The Committee has not, however, established a policy or a formula for the purpose of calculating the specific amount or relative percentage of total compensation that should be derived from annual cash incentive opportunities.

The KAR Holdings Annual Incentive Program. The KAR Holdings annual incentive program is administered by the Committee based substantially upon the provisions of the ADESA, Inc. 2004 Equity and Incentive Plan (which was terminated on April 20, 2007) relating to cash based incentive awards. Under such program, the grant of cash-based awards to eligible participants is contingent upon the achievement of certain corporate performance goals as determined by the Committee.

The Committee uses the earnings before interest, taxes, depreciation and amortization (EBITDA) for KAR Holdings and ADESA Auctions, depending upon the executive, as the measure of performance when establishing annual performance objectives for the named executive officers. Using this measure, the Committee establishes, on an annual basis, specific targets that determine the size of payouts under the incentive program. Each executive officer's annual incentive opportunity may be based upon a combination of the performance of the company overall and the performance of the executive's business unit. James Hallett is the only named executive officer who has a portion of his annual incentive opportunity based upon the performance of ADESA Auctions. Messrs. Clingen, Loughmiller, Hallett and Nordin participate in the KAR Holdings annual incentive program.

The Insurance Auto Auctions, Inc. 2007 Incentive Plan. The Insurance Auto Auctions, Inc. 2007 Incentive Plan was adopted following completion of the Transactions for the purpose of motivating and rewarding the successful achievement of pre-determined financial objectives at IAAI Salvage. Mr. O'Brien is the only named executive officer that participates in the Insurance Auto Auctions, Inc. 2007 Incentive Plan. The Insurance Auto Auctions, Inc. 2007 Incentive Plan uses the EBITDA of IAAI Salvage as the measure of financial performance under the plan.

Table of Contents*Performance Targets for 2007 for the KAR Holdings Annual Incentive Program and the Insurance Auto Auctions, Inc. 2007 Incentive Plan.*

Under the incentive plans, threshold performance objectives must be met in order for any payout to occur. Payouts can range from 25% of target awards for performance at threshold up to a maximum of 145% of target awards for superior performance or no payout if performance is below threshold. The Committee spends significant time analyzing financial measures and determining the level of performance required to receive threshold, target and superior annual incentive payouts. The Committee established the performance objectives in amounts which it believed would be achievable given a sustained effort on the part of the executive officers and which would require increasingly greater effort to achieve the target and superior objectives. The Committee may increase or decrease the performance targets and the potential payouts at each performance target, if, in the discretion of the Committee, the circumstances warrant such an adjustment.

The following table shows the annual incentive opportunities for our named executive officers for 2007:

Name	Salary	Threshold	Target	Superior	Bonus Goal Weighting %		
		% of Base Salary	% of Base Salary	% of Base Salary	KAR Holdings	ADESA Auctions	IAAI Salvage
Brian Clingen	\$ 575,000	32.5%	100%	130%	100%	0%	0%
Eric Loughmiller	\$ 350,000	25%	75%	100%	100%	0%	0%
James Hallett	\$ 575,000	32.5%	100%	130%	25%	75%	0%
Thomas O Brien	\$ 468,234	85%	100%	145%	0%	0%	100%
John Nordin	\$ 275,000	25%	75%	100%	100%	0%	0%

The annual incentives paid to our executive officers for 2007 are shown in the Summary Compensation Table on page 125.

Long-Term Equity Incentive Programs

The KAR Holdings, Inc. Stock Incentive Plan. The KAR Holdings, Inc. Stock Incentive Plan (the "Stock Incentive Plan") was adopted following completion of the Transactions to foster and promote the long-term financial success of KAR Holdings and its subsidiaries and materially increase stockholder value by:

motivating superior performance by means of service-based and performance-based incentives;

encouraging and providing for the acquisition of an ownership interest in KAR Holdings; and

enabling KAR Holdings and its subsidiaries to attract and retain the services of a skilled and experienced executive management team upon whose judgment, interest and special effort the successful conduct of its and their operations is largely dependent.

The Stock Incentive Plan provides for the grant of two types of options and restricted stock. No restricted stock has been granted under the plan. Participation in the Stock Incentive Plan is limited to such persons as the Committee, in its discretion, designates. The number of options granted to each participant, the date of such grant, and the exercise price of the options are also subject to the discretion of the Committee.

Under the Stock Incentive Plan, one-fourth of the total amount of each option grant are service options, and three-fourths of the amount of each grant are exit options. The ratio of service options to exit options was determined based upon the advice of our Equity Sponsors and is intended to encourage the achievement of certain pre-established goals and objectives. Service options are generally exercisable in four equal annual installments, commencing on the first anniversary of the grant date. Exit options are performance-based options, and generally become exercisable only after the occurrence of an Exit Event based on the satisfaction of certain performance goals. An "Exit Event" includes, generally, any transaction other than an initial public offering which results in the sale, transfer or other disposition by the Investor Members (as defined in the LLC Agreement) to a third party of (a) all or substantially all of the limited liability company interests of KAR LLC beneficially owned by the Investor Members as of the date of such transaction; or (b) all of the assets of KAR LLC and its subsidiaries, taken as a whole.

Table of Contents

Upon the occurrence of an Exit Event, exit options become exercisable in accordance with the following schedule:

None of the exit options will become exercisable unless the Investor Members receive an internal rate of return on their initial investment in the company of at least 12% compounded annually and the Investment Multiple, as defined in the Stock Incentive Plan, is greater than 1.5.

All of the exit options will become exercisable if the Investor Members receive an internal rate of return on their initial investment in the company of at least 12% compounded annually and the Investment Multiple is at least 3.5.

The exit options will become partially exercisable on a ratable basis if the Investor Members receive an internal rate of return on their initial investment in the company of at least 12% compounded annually and the Investment Multiple is greater than 1.5 but less than 3.5.

All exit options which do not become exercisable at the time of an Exit Event will be cancelled. All of the shares acquired upon exercise of any option will be subject to a shareholders agreement and a registration rights agreement. No option is exercisable on or after the tenth anniversary of the date on which it was granted.

Because our executive officers were awarded profit interests, or Override Units, in KAR LLC in connection with the completion of the Transactions, the Committee did not establish performance objectives for 2007 and did not grant any awards to our named executive officers under the Stock Incentive Plan for 2007.

Retirement, Health, and Welfare Benefits

We offer a variety of health and welfare and retirement programs to all eligible employees, including our executive officers. The health and welfare programs are intended to protect employees against catastrophic loss and encourage a healthy lifestyle. Our health and welfare programs include medical, dental, vision, pharmacy, life insurance, disability and accidental death and disability. We also provide travel insurance to all employees who travel for business purposes.

Perquisites

In general, the Committee believes that the provision of a certain level of perquisites and other personal benefits to the named executive officers is reasonable and consistent with the objective of facilitating and allowing KAR Holdings to attract and retain highly qualified executive officers.

Severance and Change in Control Agreements

The Committee recognizes that, from time to time, it is appropriate to enter into agreements with our executive officers to ensure that we continue to retain their services and to promote stability and continuity within the company. In connection with the completion of the Transactions, Thomas O'Brien and John Nordin entered into individually negotiated employment agreements. Messrs. O'Brien and Nordin are the only named executive officers who have an employment agreement with KAR Holdings or one of its subsidiaries. None of our named executive officers have a change in control agreement other than Messrs. O'Brien and Nordin.

A description of Mr. Nordin's and Mr. O'Brien's employment agreements can be found in the section entitled "Potential Payments Upon Termination or Change in Control" beginning on page 129.

Table of Contents**KAR LLC Override Units**

LLC Agreement. Our named executive officers are also Management Members in KAR LLC. Through the issuance by KAR LLC of certain profit interests referred to as Override Units, our named executive officers are incented to manage from the perspective of owners with an equity stake in the company. Override Units may be issued as either Operating Units, which vest over a period of time, or Value Units, which vest upon the achievement of certain financial objectives for the benefit of the Investor Members. One-fourth of the Override Units are issued as Operating Units and the remaining three-fourths are issued as Value Units. The ratio of Operating Units to Value Units was determined by our Equity Sponsors and is intended to encourage the achievement of certain pre-established performance objectives.

Subject to certain conditions, including possible forfeiture, the holders of Override Units have certain rights with respect to profits and losses of KAR LLC and distributions from KAR LLC. Operating Units may be forfeited on a pro rata basis if the executive ceases to be employed by KAR LLC or one of its subsidiaries prior to the fourth anniversary of the date of grant. All Value Units will participate in distributions if the Investment Multiple (as defined in the LLC Agreement) is at least 3.5. The Applicable Performance Percentage (as defined in the LLC Agreement) of the Value Units will participate in distributions if the Investment Multiple is greater than 1.5 but less than 3.5. Notwithstanding the foregoing or anything to the contrary, in no event will any Value Units participate in distributions unless the Investor Members receive an internal rate of return, compounded annually, on their investment in the company of at least 12% and the Investment Multiple is greater than 1.5. Value Units not eligible to participate in distributions will be automatically forfeited. The Override Units are not convertible into common stock and are generally not transferable. The terms of the Override Units, including the vesting requirements and applicable performance standards may be modified by KAR LLC as permitted in the LLC Agreement.

The Committee has discretion to consider the number of Override Units held by each of the named executive officers when determining the compensation of the named executive officers. Our named executive officers Override Units in KAR LLC are as follows:

Name	Value Units	Operating Units
Brian Clingen	131,054.76	43,684.92
Eric Loughmiller	38,436.00	12,812.00
James Hallett	131,054.76	43,684.92
Thomas O Brien	41,196.22	13,732.07
John Nordin	10,912.50	3,637.50

Legacy Compensation

Certain of our named executive officers were management employees or equity holders in ADESA, IAAI Salvage or one of our Equity Sponsors prior to the completion of the Transactions. These executive officers have received, and in certain instances will continue to receive, compensation under arrangements that were in place at the time of the Transactions. The Committee feels that these arrangements relate primarily to compensation for prior service and does not consider the value of these benefits as a significant factor in setting the ongoing compensation of the named executive officers.

Axle LLC Override Units

Axle LLC Agreement. Prior to the date of the Transactions, Thomas O Brien and John Nordin have been Management Members of Axle Holdings II, LLC (Axle LLC). As such, they each hold profit interests in Axle LLC referred to as Override Units (the Axle Override Units) which were granted prior to the completion of the Transactions. The company recognizes a compensation expense with respect to the Axle Override Units.

Similar to the Override Units in KAR LLC, the Axle Override Units consist of Operating Units, which vest over a period of time, and Value Units, which vest upon the achievement of certain financial objectives for the benefit of certain of the investors in Axle LLC referred to in the Axle LLC Agreement as the Kelso Members.

Table of Contents

Subject to certain conditions, including possible forfeiture, the holders of Axle Override Units have certain rights with respect to profits and losses of Axle LLC and distributions from Axle LLC. The Axle Operating Units may be forfeited in accordance with the schedule established in the Axle LLC Agreement if the executive ceases to be employed by Axle LLC or one of its subsidiaries prior to the third anniversary of the date of grant. Value Units vest and become eligible to participate in distributions upon the occurrence of certain Exit Events only if, upon the occurrence of such an event, the Kelso Members receive an internal rate of return, compounded annually, on their investment in Axle LLC of at least 12%, and the Investment Multiple (as defined in the Axle LLC Agreement) is greater than two (2). All Value Units will participate in distributions if the Investment Multiple is at least four (4). If the Investment Multiple is greater than two (2), but less than four (4), the Value Units will participate in the distribution on a ratable basis. Value Units not eligible to participate in distributions will be automatically forfeited.

For purposes of the Axle Override Units, an Exit Event includes, generally, any transaction which results in the sale, transfer or other disposition by the Kelso Members to a third party of (a) all or substantially all of the limited liability company interests of Axle LLC beneficially owned by the Investor Members as of the date of such transaction; or (b) all of the assets of Axle LLC and its subsidiaries, taken as a whole.

The Axle Override Units were not granted by the Committee and the Committee does not have authority to amend the terms of the Axle Override Units. Messrs. O'Brien and Nordin hold profits interests in Axle LLC as follows:

Name	Value Units	Operating Units
Thomas O'Brien	128,971	64,485
John Nordin	33,333	16,667

Rollover Stock Options

In connection with the completion of the Transactions, certain stock options held by Messrs. O'Brien and Nordin to acquire shares of stock of Axle Holdings were converted, pursuant to the terms of a Rollover Stock Option Agreement, into options to acquire shares of common stock of KAR Holdings. Following their conversion, the stock options became exercisable for specified number of shares of common stock of KAR Holdings on substantially the same terms and conditions as they had been exercisable under the Axle Holdings, Inc. Stock Incentive Plan. For additional information concerning the terms on which the rollover stock options are exercisable, see Compensation Discussion and Analysis Potential Payments Upon Termination or Change in Control beginning on page 129.

Tax and Accounting Considerations

Employment Agreements. Section 280G of the Code (Section 280G) and related provisions impose substantial excise taxes under Section 4999 of the Internal Revenue Code of 1986 (the Code) on so-called excess parachute payments payable to certain executive officers upon a change in control and results in the loss of the compensation deduction for such payments by the company.

The employment agreements with Mr. Nordin and Mr. O'Brien provide that a lump sum Gross-Up Payment will be made to Mr. Nordin or Mr. O'Brien in such amount as is necessary to ensure that the net amount retained by Mr. Nordin or Mr. O'Brien, after reduction for any excise taxes on the payments under their employment agreement will be equal to the amount that the executive officer would have received if no portion of the payments had been an excess parachute payment.

KAR Holdings, Inc. Stock Incentive Plan. In the event that any payment received under the plan upon the occurrence of an Exit Event would constitute an excess parachute payment, then, the payment will be reduced to the extent necessary to eliminate any such excess parachute payment. In such event, however, KAR Holdings

Table of Contents

will use good faith efforts to seek the approval of the shareholders in the manner provided for in Section 280G(b)(5) of the Code and the regulations thereunder with respect to such reduced payments, so that such payment would not be treated as a parachute payment for this purpose.

Accounting for Stock-Based Compensation. We account for stock-based compensation in accordance with the requirements of FASB Statement 123(R).

Financial Restatements. The Committee has not adopted a policy with respect to whether we will make retroactive adjustments to any cash- or equity-based incentive compensation paid to executive officers (or others) where the payment was predicated upon the achievement of financial results that were subsequently the subject of a restatement. The Committee believes that this issue is best addressed when the need actually arises, when all of the facts regarding the restatement are known.

Compensation Committee Report

The Committee has reviewed the Compensation Discussion and Analysis and discussed that analysis with management. Based on its review and discussions with management, the Committee recommended to the Board that the Compensation Discussion and Analysis be included in this prospectus. Potential Payments Upon Termination Or Change-In-Control

The following is a discussion of payments and benefits that would be due to each of our named executive officers upon the termination of his employment. The amounts in the tables below assume that each termination was effective as of the last business day of the year, December 28, 2007 and are merely illustrative of the impact of a hypothetical termination of each executive officer's employment. The amounts to be payable upon an actual termination of employment can only be determined at the time of such termination based on the facts and circumstances then prevailing.

The KAR Holdings Annual Incentive Program. The KAR Holdings annual incentive program provides for the following severance and change in control payments:

Death, Disability, Retirement. In the event that the employment of any executive officer who participates in the plan is terminated as a result of the officer's death, disability or retirement, such officer will be entitled to receive a lump sum pro-rated amount of any incentive award which they otherwise would have been entitled to receive.

Voluntary Termination or For Cause Termination. If the employment of any executive officer who participates in the plan is terminated for cause or the executive officer voluntarily terminates his employment with KAR Holdings or ADESA Auctions, such executive officer will forfeit all rights to any incentive award payment under the plan.

The Insurance Auto Auctions, Inc. 2007 Incentive Plan. The Insurance Auto Auctions, Inc. 2007 Incentive Plan provides for the following severance and change in control payments:

Death, Disability, Retirement. In the event that the employment of any executive officer who participates in the plan is terminated as a result of the officer's death, disability or retirement, such officer will be entitled to receive a lump sum pro-rated amount of any incentive award which they otherwise would have been entitled to receive.

Voluntary Termination or For Cause Termination. If the employment of any executive officer who participates in the plan is terminated for cause or the executive officer voluntarily terminates his employment with IAAI Salvage, such executive officer will forfeit all rights to any incentive award payment under the plan.

The KAR Holdings, Inc. Stock Incentive Plan. The KAR Holdings, Inc. Stock Incentive Plan provides for the following severance and change in control payments:

Death, Disability, Retirement. In the event that the executive officer's employment with KAR Holdings or any subsidiary of KAR Holdings terminates by reason of the executive officer's death, disability or retirement, then all options held by the executive officer that are exercisable as of the date of such termination may be exercised by the executive officer or the executive officer's beneficiary at any time prior to one (1) year following the executive officer's termination of employment or the normal expiration date of the options. Any options that are not then exercisable shall terminate and be canceled immediately upon the executive officer's death, disability or retirement.

Voluntary Termination or For Cause Termination. In the event that the executive officer's employment with KAR Holdings or any subsidiary of KAR Holdings is terminated for cause or due to voluntary resignation, all options held by the executive, whether or not then exercisable, shall terminate and be canceled immediately upon such termination of employment.

Unless specified otherwise in a named executive officer's employment agreement, "cause" includes (i) the refusal or neglect of the named executive officer to perform substantially his employment-related duties, (ii) the named executive officer's personal dishonesty, incompetence, willful misconduct or breach of fiduciary duty, (iii) the named executive officer's indictment for, conviction of or entering a plea of guilty or nolo contendere to a crime constituting a felony or his willful violation of any applicable law, (iv) the named executive officer's

failure to reasonably cooperate, following a request to do so by KAR Holdings or any of its subsidiaries, in any internal or governmental investigation or (v) the named executive officer's material breach of any written covenant or agreement not to disclose any information pertaining to KAR Holdings or any of its subsidiaries or not to compete or interfere with KAR Holdings or any of its subsidiaries.

Termination Without Cause or For Good Reason. In the event that the executive officer's employment with KAR Holdings or any subsidiary of KAR Holdings is terminated by KAR Holdings or any of its subsidiaries without cause or by the named executive officer for good reason, any options held by the executive officer which are exercisable at the date of the executive officer's termination of employment shall be exercisable at any time up until the 90th day following the executive officer's termination of employment or the normal expiration date of the options. Any options held by the executive that are not then exercisable shall terminate and be canceled immediately upon such termination of employment.

Unless specified otherwise in a named executive officer's employment agreement, the termination of a named executive officer's employment with KAR Holdings or any of its subsidiaries shall be for good reason if such named executive officer voluntarily terminates his employment with KAR Holdings or any of its subsidiaries as a result of certain reductions being made to the named executive officer's salary or benefits without the named executive officer's prior consent.

Following the Occurrence of an Exit Event. Following the occurrence of an Exit Event each outstanding service option and each outstanding exit option (according to the schedule which follows) will be cancelled in exchange for a cash payment in an amount equal to the excess of the Exit Event Price (as defined in the plan) over the Option Price (as defined in the plan).

In the event that an Exit Event has occurred and the new employer has not agreed to honor and assume such options or substitute substantially equivalent options, exit options become exercisable in accordance with the following schedule:

None of the exit options will become exercisable unless the Investor Members receive an internal rate of return on their initial investment in the company of at least 12% compounded annually and the Investment Multiple, as defined in the Stock Incentive Plan, is greater than 1.5.

All of the exit options will become exercisable if the Investor Members receive an internal rate of return on their initial investment in the company of at least 12% compounded annually and the Investment Multiple is at least 3.5.

The exit options will become partially exercisable on a ratable basis if the Investor Members receive an internal rate of return on their initial investment in the company of at least 12% compounded annually and the Investment Multiple is greater than 1.5 but less than 3.5.

All exit options which do not become exercisable at the time of an Exit Event will be cancelled.

Reduction for Excess Parachute Payments. In the event that any payment received under the KAR Holdings Stock Incentive Plan upon the occurrence of an Exit Event would constitute an excess parachute payment, then, the payment will be reduced to the extent necessary to eliminate any such excess parachute payment. In such event, KAR Holdings will use good faith efforts to seek the approval of the shareholders in the manner provided for in Section 280G(b)(5) of the Code and the regulations thereunder with respect to such reduced payment so that such payment would not be treated as a parachute payment for this purpose.

Rollover Stock Options. Pursuant to the terms of a Rollover Stock Option Agreement entered into in connection with the completion of the Transactions, the options held by Messrs. O'Brien and Nordin to acquire shares of Axle Holdings, Inc. were converted into options to acquire shares of KAR Holdings. Pursuant to the Rollover Stock Option Agreement, the options are exercisable according to substantially the same terms and conditions, including vesting, as were applicable to the options under the Axle Holdings, Inc. Stock Incentive Plan.

Table of Contents

Death, Disability or Retirement. Subject to the right of the company to repurchase all or any portion of the options held by an executive officer, in the event that an executive officer's employment with the company or any subsidiary of the company is terminated because of the executive officer's death, disability or retirement, any options granted to the executive officer which are otherwise exercisable, may be exercised for a period of one year following the termination of the executive officer's employment or the expiration of the term of the options, whichever period is shorter. After one year, all remaining options will terminate.

Voluntary Termination or For Cause Termination. Subject to the right of the company to repurchase all or any portion of the options held by an executive officer, in the event an executive officer's employment with the company or any subsidiary of the company is terminated for cause or due to the voluntary resignation of the executive officer, all options granted to the executive officer shall be forfeited, regardless of whether such options are exercisable.

Unless specified otherwise in a named executive officer's employment agreement, cause includes (i) the refusal or neglect of the named executive officer to perform substantially his employment-related duties, (ii) the named executive officer's personal dishonesty, incompetence, willful misconduct or breach of fiduciary duty, (iii) the named executive officer's indictment for, conviction of or entering a plea of guilty or nolo contendere to a crime constituting a felony or his willful violation of any applicable law, (iv) the named executive officer's failure to reasonably cooperate, following a request to do so by the company, in any internal or governmental investigation or (v) the named executive officer's material breach of any written covenant or agreement not to disclose any information pertaining to the company or not to compete or interfere with the company.

Termination Without Cause or For Good Reason. Subject to the right of the company to repurchase all or any portion of the options then held by an executive officer, in the event that an executive officer's employment with the company or any subsidiary of the company is terminated by the company without cause or by the named executive officer for good reason, any options granted to such executive officer which are otherwise exercisable, may be exercised at any time during a 60 day period following the termination of the executive officer's employment or the expiration of the term of the options, whichever period is shorter. Following the expiration of the 60 day period all remaining unexercised options shall terminate.

Unless specified otherwise in a named executive officer's employment agreement, the termination of a named executive officer's employment with the company or any subsidiary of the company shall be for good reason if such named executive officer voluntarily terminates his employment with the company or any of its subsidiaries as a result of certain reductions being made to the named executive officer's salary or benefits without the named executive officer's prior consent.

Following the Occurrence of an Exit Event. Following the occurrence of an Exit Event, each service based option (whether or not then exercisable), together with any outstanding performance based option that, prior to or in connection with such Exit Event, have become exercisable in connection with the attainment of performance objectives, shall be canceled in exchange for a cash payment by the company. All other options will be forfeited.

Reduction for Excess Parachute Payments. In the event that any payment received upon the occurrence of an Exit Event would constitute an excess parachute payment, then, the payment will be reduced to the extent necessary to eliminate any such excess parachute payment. In such event, KAR Holdings will use good faith efforts to seek the approval of the shareholders in the manner provided for in Section 280G(b)(5) of the Code and the regulations thereunder with respect to such reduced payment so that such payment would not be treated as a parachute payment for this purpose.

Employment Agreements. Messrs. O'Brien and Nordin are currently the only named executive officers who have employment agreements with KAR Holdings or one of its subsidiaries. The employment agreements provide for at will employment and may be terminated by the executive officer or company at any time for any reason, with or without cause. Unless otherwise indicated, the discussion which follows applies to Mr. Nordin.

Table of Contents

with respect to his employment agreement with KAR Holdings and to Mr. O'Brien with respect to which employment agreement with IAAI Salvage. Messrs. Nordin's and O'Brien's employment agreements provide for the following severance and change in control payments:

Termination Due to the Executive Officer's Death or Disability. If the employment agreement is terminated as a result of the death or disability of the executive officer, the company will be obligated to pay the executive officer or his legal representatives the lump sum of (i) the portion of the executive officer's base salary earned for services performed through the date of termination and accrued vacation earned but unpaid through the date of termination, plus (ii) the greater of (I) the product of (x) any incentive compensation paid to or deferred by the executive officer for the fiscal year preceding the fiscal year in which the date of termination occurs and (y) a fraction, the numerator of which is the number of days in the current fiscal year through the date of termination, and the denominator of which is 365 and (II) the average of the past three (3) years' annual bonuses, *provided, however*, that the executive officer shall receive his target bonus if he is terminated within his first eight (8) fiscal quarters with the company (such greater amount being the Highest Annual Bonus) and (C) any compensation previously deferred by the executive officer. The aggregate of the foregoing is referred to as the Accrued Obligations. Mr. Nordin's target bonus is 75% of his annual base salary and Mr. O'Brien's target bonus is 100% of his annual base salary.

Voluntary Termination by the Executive Officer or Termination for Cause by the Company. If the executive officer voluntarily terminates the employment agreement or the company terminates the employment agreement for cause, the company's only obligation will be to pay the executive officer a lump sum amount equal to his base salary for the services performed through the date of termination and any accrued vacation earned but unpaid through date of termination. For purposes of the employment agreements, "cause" means (i) the willful and continued failure of the named executive officer to perform substantially his duties with the company or one of its affiliates (other than any such failure resulting from incapacity due to medically documented illness or injury), 30 days after a written demand for substantial performance is delivered to the named executive officer by the board of directors which specifically identifies the manner in which the board of directors believes that the named executive officer has not substantially performed his duties; or (ii) the willful engaging by the named executive officer in illegal conduct or misconduct which is injurious to the company.

Termination for Other Reasons.

John Nordin. If the employment agreement is terminated apart from a change in control, KAR Holdings will be obligated to pay Mr. Nordin a lump sum amount equal to the sum of (i) the portion of Mr. Nordin's base salary earned for services performed through the date of termination and any accrued vacation earned but not paid through the date of termination, (ii) a lump sum payment equal to Mr. Nordin's annual base salary in effect at the time Mr. Nordin's employment is terminated; plus (iii) Mr. Nordin's average annual bonus received over the eight (8) fiscal quarters of KAR Holdings immediately preceding fiscal quarter during which Mr. Nordin's employment is terminated, without exceeding Mr. Nordin's target bonus for the fiscal year during which his employment is terminated, *provided, however*, that Mr. Nordin shall receive his target bonus if he is terminated within his first eight (8) fiscal quarters of employment with KAR Holdings; plus (iv) Mr. Nordin's auto allowance for the fiscal year during which Mr. Nordin's employment is terminated. In addition, KAR Holdings shall provide, at its expense, continued group health plan coverage for Mr. Nordin and his qualified beneficiaries for a period extending through the earlier of the date Mr. Nordin begins any subsequent full-time employment for another employer for pay and the date that is one (1) year after Mr. Nordin's termination of employment.

Thomas O'Brien. If the employment agreement is terminated apart from a change in control, IAAI Salvage will be obligated to pay Mr. O'Brien a lump sum amount equal to the sum of (i) Mr. O'Brien's base salary at the date of termination, (ii) Mr. O'Brien's average annual bonus received over the eight (8) fiscal quarters immediately preceding fiscal quarter during which Mr. O'Brien's employment is terminated, without exceeding Mr. O'Brien's target bonus for the fiscal year during which Mr. O'Brien's employment is terminated, *provided, however*, that Mr. O'Brien shall receive his target bonus if he is terminated within his first eight (8) fiscal

Table of Contents

quarters of employment with IAAI Salvage; plus (iii) Mr. O'Brien's auto allowance for IAAI Salvage's fiscal year during which Mr. O'Brien's employment is terminated. In addition, IAAI Salvage shall be required to continue to provide, at IAAI Salvage's expense, group health plan coverage for Mr. O'Brien and his qualified beneficiaries for a period extending through the earlier of the date Mr. O'Brien begins any subsequent full-time employment for another employer for pay and the date that is one (1) year after Mr. O'Brien's termination of employment.

Termination Within Two (2) Years Following A Change in Control. If the executive officer's employment with the company is terminated by reason of the executive officer's involuntary termination or termination without cause by the company within two (2) years after the effective date of the change in control, the company shall be obligated to pay the executive officer a lump sum (i) amount equal to 150% of the sum of (A) the executive officer's annual base salary then in effect and (B) his Highest Annual Bonus (as defined above); and (ii) the amount of any Accrued Obligations (as defined above). In addition, the company must provide, at its expense, continued coverage of the executive officer and his qualified beneficiaries for eighteen (18) months after the date of termination or until the executive officer commences any full-time employment with another employer, whichever comes first, under the company's health plan covering the executive officer and his beneficiaries.

For purposes of the foregoing, an involuntary termination means, generally, the executive officer's voluntary termination following (i) a material diminution in the executive officer's position, (ii) a material diminution in the executive officer's level of compensation (base salary for Mr. Nordin and base salary and targeted incentive compensation for Mr. O'Brien), or (iii) a material change in the executive officer's place of employment, which is more than seventy-five (75) miles from the executive officer's place of employment prior to the change, provided such change or reduction is effected without the executive officer's written concurrence.

Termination after the Second Year Following a Change in Control. If the executive officer is terminated after the second year following a Change in Control, the obligations of the company will be as they otherwise would have been if a change in control had not occurred.

Stock Options after a Change in Control. All of the executive officer's outstanding options to purchase KAR Holdings stock shall accelerate and become fully exercisable upon a change in control.

Excise Tax Gross-Up. A lump sum Gross-Up Payment will be made to Mr. Nordin or Mr. O'Brien in such amount as is necessary to ensure that the net amount retained by Mr. Nordin or Mr. O'Brien, after reduction for any excise taxes on the payments under their respective employment agreements will be equal to the amount that the executive officer would have received if no portion of the payments under their respective employment agreements had been an excess parachute payment.

Requirements With Respect to Non-Competition and Non-Solicitation. The employment agreements provide that during an eighteen month period following termination, the executive officers may not become employed by or engage in any activity or other business substantially similar to or competitive with the business of the company within the continental United States, Canada and Mexico. Further, the executive officers may not solicit, aid or induce any employee of the company to leave the company or any customer, client, vendor, lender, supplier or sales representative of the company or similar persons engaged in business with the company to discontinue the relationship or reduce the amount of business done with the company.

LLC Agreement

The LLC Agreement provides for the following severance and change in control payments to the named executive officers who are also Management Members of KAR LLC:

Termination for Cause. In the event that a Management Member's employment is terminated for cause, all Override Units issued to such Management Member will be forfeited. Cause includes (i) the refusal or neglect of the named executive officer to perform substantially his employment-related duties, (ii) the named executive

officer's personal dishonesty, incompetence, willful misconduct or breach of fiduciary duty, (iii) the named executive officer's indictment for, conviction of or entering a plea of guilty or nolo contendere to a crime constituting a felony or his willful violation of any applicable law, (iv) the named executive officer's failure to reasonably cooperate, following a request to do so by the company, in any internal or governmental investigation or (v) the named executive officer's material breach of any written covenant or agreement not to disclose any information pertaining to the company or not to compete or interfere with the company.

Termination for Any Reason Other Than Cause. Provided that an Exit Event has not occurred and that a definitive agreement is not in effect regarding a transaction which, if consummated would result in an Exit Event, then all of the Value Units and a percentage of the Operating Units shall be forfeited according to the following schedule:

If the Termination Occurs	Percentage of Operating Units Forfeited
Before the first anniversary of the grant date	100%
On or after the first anniversary, but before the second anniversary, of the grant date	75%
On or after the second anniversary, but before the third anniversary, of the grant date	50%
On or after the third anniversary, but before the fourth anniversary, of the grant date	25%
On or after the fourth anniversary of the grant date	0%

Occurrence of an Exit Event. Upon the occurrence of an Exit Event, all Operating Units that are held by the Management Members shall vest and Value Units held by such Management Members shall vest and become eligible to participate in distributions in accordance with the following schedule:

No Value Units will vest unless, upon the occurrence of the Exit Event, the Investor Members receive an internal rate of return, compounded annually, on their investment in KAR LLC of at least 12%, and the Investment Multiple (as defined in the LLC Agreement) is greater than one and one-half (1.5).

All Value Units will vest and participate in distributions if the Investment Multiple is at least three and one-half (3.5) and the Investor Members receive an internal rate of return, compounded annually, on their investment in KAR LLC of at least 12%.

If the Investment Multiple is greater than one and one-half (1.5), but less than three and one-half (3.5), the Value Units will participate in the distribution on a ratable basis.

Value Units not eligible to participate in distributions will be automatically forfeited.

Requirements With Respect to Non-Competition and Non-Solicitation.

The LLC Agreement provides that, for a certain period of time the Management Member may not become associated with or employed by any entity that is actively engaged in any geographic area in which the company or any of its subsidiaries does business in any business which is either in competition with the business of the company or any of its subsidiaries conducted at any time during the 12 months preceding the date such Management Member ceases to hold any equity interest in the company or proposed to be conducted by the company or any of its subsidiaries in the company's business plan as in effect as of the date such Management Member ceases to hold any equity interest in the company.

The LLC Agreement further provides that no Management Member shall directly or indirectly induce any employee of the company or any of its subsidiaries to terminate employment with such entity or otherwise interfere with the employment relationship of the company or any of its subsidiaries with any person who is or was employed by the company or such subsidiary. In addition, the LLC Agreement prohibits any Management Member from soliciting or otherwise attempting to establish for himself any business relationship with any person which is, or at any time during the 12-month period preceding the date such Management Member ceases to hold any equity interest in the company was, a customer, client or distributor of the company or any of its subsidiaries.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

Agreements in connection with the Transactions

Simultaneously with the consummation of the Transactions on April 20, 2007, we entered into the following agreements.

Contribution Agreement

Axle LLC entered into a contribution agreement with us, KAR LLC and the Equity Sponsors and certain other parties. Pursuant to the contribution agreement, Axle LLC contributed (the Contribution) all of the shares of common stock of Axle Holdings, Inc. (its wholly-owned subsidiary which directly owns all of the shares of common stock of IAAI) to KAR LLC simultaneously with the closing of the Transactions in exchange for a number of Class B common units in KAR LLC equal to approximately \$272.4 million divided by \$100 (the per unit price paid by the Equity Sponsors for Class A common units in KAR LLC at the closing of the Transactions). After the Contribution, KAR LLC contributed the shares of Axle Holdings, Inc. to us in exchange for our shares. After the completion of the Transactions, we own, directly or indirectly, all of the issued and outstanding common stock of IAAI and ADESA.

Shareholders Agreement

We entered into a shareholders agreement with KAR LLC and each of Thomas C. O'Brien, Scott P. Pettit, David R. Montgomery, Donald J. Hermanek, John W. Kett, John R. Nordin and Sidney L. Kerley (collectively, the IAAI continuing investors). Under the terms of the shareholders agreement, KAR LLC has the right to designate all the directors on our board of directors, which is comprised of the same individuals that serve on the board of directors of KAR LLC, as discussed below.

The shareholders agreement generally restricts the transfer of shares of common stock and options acquired pursuant to the Conversion Agreements described below (including any shares into which any such options have been exercised) owned by the IAAI continuing investors, or any other shareholders, that are or become parties to the agreement. Exceptions to this restriction include certain transfers of shares or such options for estate planning purposes, certain pledges and certain involuntary transfers in connection with a default, foreclosure, forfeiture, divorce, court order or otherwise than by a voluntary decision of the IAAI continuing investor, or any other shareholder, that is or becomes a party to the agreement (so long as we have been given the opportunity to purchase the shares or options subject to such involuntary transfer).

In addition, the parties to the shareholders agreement have tag-along rights to sell their shares of common stock on a pro rata basis with KAR LLC in sales by KAR LLC to third parties, and KAR LLC has drag-along rights to cause the other parties to the shareholders agreement to sell their shares of common stock on a pro rata basis with KAR LLC in sales by KAR LLC to third parties. The IAAI continuing investors are subject to put and call rights, which entitle these persons to require us to purchase their shares or options acquired pursuant to the Conversion Agreements described below, and which entitle us to require these persons to sell such shares or options to us, upon certain terminations of the shareholder's employment with us or any of our affiliates (including IAAI or ADESA), at differing prices, depending upon the circumstances of the termination.

Registration Rights Agreement

We entered into a registration rights agreement with KAR LLC and the IAAI continuing investors. Under the terms of the registration rights agreement, KAR LLC (at the request of the initiating holders (i.e., at any time, all of Kelso, ValueAct and Goldman, or, at any time following the third anniversary of a qualified initial public offering of our common stock (as specified in the LLC agreement), two of Kelso, ValueAct and Goldman) will have the right, subject to certain conditions, to make an unlimited number of requests that we use our best efforts to register under the Securities Act the shares of our common stock owned by KAR LLC. In any demand registration, or if KAR Holdings proposes to register any shares (subject to certain exceptions, such as benefit plan registrations), all of the parties to the registration rights agreement have piggyback rights to participate on a pro rata basis, subject to certain conditions, which in the case of KAR LLC will include the right of each

Table of Contents

member of KAR LLC to direct KAR LLC to include shares of common stock attributable to each such member of KAR LLC based on such member's ownership interest in KAR LLC.

LLC Agreement

Affiliates or designees of the Equity Sponsors, Axle LLC, our executive officers and certain other employees and third parties entered into an amended and restated limited liability company agreement of KAR LLC, or the LLC Agreement. The Equity Sponsors and their affiliates or designees and our executive officers and other employees and third parties hold all of the Class A common units in KAR LLC. In addition, pursuant to the Contribution, Axle LLC owns all of the Class B common units in KAR LLC. The Class B common units are identical to the Class A common units in all respects, except with respect to distributions (distributions to holders of units in KAR LLC are made pro rata based on the number of units held by such holder based on the amount being distributed to such holders, plus the amount paid or payable to the IAAI continuing investors in respect of the options held (or any common stock obtained upon the exercise of such options) in Axle Holdings, Inc. that were converted into options to purchase our common stock pursuant to the Conversion Agreements described below; provided, however, in order to prevent dilution to the holders of KAR LLC common units (other than Axle LLC) that would be caused by the payment of amounts to the IAAI continuing investors in respect of options held by the IAAI continuing investors (or any equity obtained by the IAAI continuing investors upon the exercise of such options), the amount available for distribution to Axle LLC (in respect of the Class B common units held by Axle LLC) is reduced dollar-for-dollar by the net amount paid to the IAAI continuing investors in respect of such converted options (or any equity obtained upon the exercise of such options) in connection with such distribution.

The LLC Agreement provides that our executive officers and others having senior management and/or strategic planning-type responsibilities may be awarded profit interests in KAR LLC that may entitle such individuals to a portion of the future appreciation in the value of the assets of KAR LLC (including the stock in IAAI and ADESA held through us). The combined economic interest in the appreciation in the equity of KAR Holdings granted to those individuals receiving profit interests and to employees of IAAI and/or ADESA through the KAR Holdings stock incentive plan was approximately 12% of the initial equity of KAR LLC at closing of the Transactions before giving effect to dilution, in the aggregate. The incentive plan is segregated as follows: approximately 3% service related options/profits interests that vest annually over four years and approximately 9% performance related options/profits interests that vest ratably as the members of KAR LLC achieve investment multiples on their original investment in KAR LLC, subject to a minimum internal rate of return threshold.

The LLC Agreement generally restricts the transfer of interests in KAR LLC owned by the Equity Sponsors (and their affiliates, designees or permitted transferees), our executive officers and the other employees and third parties holding equity interests in KAR LLC (the Holders). Exceptions to this restriction include transfers of common interests by our executive officers party thereto for certain estate planning purposes and certain involuntary transfers by the Holders in connection with a default, foreclosure, forfeiture, divorce, court order or otherwise than by a voluntary decision of the continuing investor (so long as KAR LLC has been given the opportunity to purchase the interests subject to such involuntary transfer). In addition, each Holder has customary pro rata tag-along rights to sell their common interests in KAR LLC in the event of a proposed sale that is permitted by the LLC Agreement of common interests in KAR LLC by any of the Equity Sponsors or Axle LLC to a third party. Similarly, if any two of Kelso, Goldman or ValueAct elect to sell 80% or more of their common interests in KAR LLC to a third party, each of the remaining Holders is required to sell (upon exercise of such selling Holders' drag-along rights) a pro rata portion of their respective common interests based on their respective ownership of common interests to such third party at the same price as such selling Holders elect to sell their common interests.

The LLC Agreement provides that the Board of Directors of KAR LLC is comprised of members having the right to cast 19 votes at a meeting of the Board of Directors. The members of the Board are appointed and removed as follows: Kelso, Goldman and ValueAct each has the right to appoint and remove two directors with each group of two directors having the power to collectively cast a total of five votes at a Board meeting; Parthenon has the right to appoint and remove one director with the power to cast a total of one vote at a Board

meeting; any two of Kelso, Goldman and ValueAct have the right to appoint two officers of KAR LLC (initially at the closing of the Transactions, Thomas C. O'Brien and James P. Hallett) as members to the Board with the right to cast one vote each; and the chief executive officer of KAR LLC is entitled to serve on the Board and has the right to cast one vote at a Board meeting. Pursuant to the LLC Agreement, KAR LLC would dissolve and its affairs wound up upon the occurrence of: (i) the vote of the board of directors and members or (ii) any event which under applicable law would cause the dissolution of KAR LLC.

Conversion Agreements

Each of the IAAI continuing investors entered into a separate conversion agreement with us under which such IAAI continuing investor exchanged, at the closing of Merger and the Contribution, options to purchase common stock of Axle Holdings, Inc. for options to purchase our common stock. The IAAI continuing investors converted stock options of Axle Holdings, Inc. having an aggregate spread value of approximately \$8.9 million for our stock options with an equivalent spread value. As a result of these conversion agreements, the IAAI continuing investors hold options to purchase our stock after the Merger and Contribution representing in the aggregate approximately 1.0% of our common stock on a fully diluted basis.

Financial Advisory Agreements

Under the terms of financial advisory agreements entered into between the Equity Sponsors (or their affiliates) and us, upon completion of the Merger and Contribution on April 20, 2007, we made a closing payment to the Equity Sponsors or their affiliates in an aggregate amount equal to 1.25% of the enterprise value of ADESA (excluding transaction costs). This closing payment was made to the Equity Sponsors or their affiliates pro rata based on their respective cash contributions to KAR LLC at the closing of the Transactions (which, in the case of ValueAct, included the value of any shares of ADESA common stock contributed to KAR LLC on or prior to the closing of the Transactions). In addition, under the financial advisory agreements, after completion of the Transactions, we have paid and will continue to pay an aggregate financial advisory fee of \$3,500,000 per annum, payable quarterly in advance, to the Equity Sponsors or their affiliates (with the first such fee, prorated for the remainder of the then current quarter, paid at the closing of the Transactions on April 20, 2007), for services provided or to be provided by each of the Equity Sponsors or their affiliates to us. The ongoing financial advisory fee has been and will continue to be paid to the Equity Sponsors or their affiliates pro rata based on their respective cash contributions to KAR LLC at the closing of the Transactions (which, in the case of ValueAct, included the value of any shares of ADESA common stock contributed to KAR LLC on or prior to the closing of the Transactions and, in the case of Goldman, Sachs & Co., included contributions by GS Capital Partners VI Fund, L.P. and its affiliated funds). For purposes of such calculation, the aggregate cash contributions made by affiliates of Kelso (\$121,460,000) and Parthenon (\$15,000,000) to Axle LLC prior to the closing of the Transactions was deemed cash capital contributions made to KAR LLC at the closing of the Transactions.

Pursuant to the financial advisory agreements, we indemnified the Equity Sponsors and their respective officers, directors, affiliates, partners, employees, agents and control persons (as such term is used in the Securities Act and the rules and regulations thereunder) in connection with the Transactions, the Equity Sponsors investment in KAR LLC and its subsidiaries, the Equity Sponsors control of ADESA or any of its subsidiaries and the services rendered to us and our subsidiaries (including IAAI and ADESA) under the financial advisory agreement. The agreement also provides that we will reimburse the Equity Sponsor's expenses incurred with respect to services to be provided to us and our subsidiaries on a going-forward basis.

On April 20, 2007, we paid to BP Capital Management, an investment management company, a fee of \$446,473.95 for the provision of certain structuring, advisory and other services related to the Transactions, pursuant to the terms of letter agreement between BP Capital Management and us. Brian Clingen, who is our Chairman and Chief Executive Officer and beneficially owns approximately 1.3% of our common stock, is a founder and president of BP Capital Management.

Axle LLC Agreement

Affiliates of Kelso, affiliates of Parthenon and Magnetite Asset Investors III, L.L.C., Brian T. Clingen, Dan Simon and the IAAI continuing investors entered into the Amended and Restated Operating Agreement of Axle LLC, dated May 25, 2005, or the Axle LLC Agreement. Affiliates of Kelso and Parthenon and Magnetite and Mr. Clingen and a trust established to monitor the estate of Mr. Simon own approximately 99.9% of the common interests in Axle LLC and the IAAI continuing investors own less than 0.4%. The Axle LLC Agreement, among other things, provides that the IAAI continuing investors were awarded profit interests in Axle LLC that may entitle such persons to a portion of the future appreciation in the value of the assets of Axle LLC. The combined economic interest in the appreciation in the value of the assets of Axle LLC granted to the IAAI continuing investors through profit interests and to employees of IAAI through the Axle Holdings, Inc. stock incentive plan was approximately 13% on a fully diluted basis, in the aggregate.

Axle Conversion Agreements and Exchange Agreements

On May 25, 2005, each of the IAAI continuing investors entered into a separate conversion agreement and a separate exchange agreement with Axle Holdings, Inc. under which the IAAI continuing investor agreed to (i) exchange, effective as of the closing of the 2005 Acquisition, certain options to purchase common stock of IAAI for options to purchase common stock of Axle Holdings, Inc. and (ii) accept a cash payment in exchange for cancellation of his remaining options to purchase common stock in IAAI. The IAAI continuing investors converted and exchanged stock options of IAAI having an aggregate spread value of approximately \$3.3 million for Axle Holdings, Inc. stock options with an equivalent spread value and received an aggregate payment of \$11.4 million for cancellation of their remaining options. As a result of these agreements, the IAAI continuing investors hold options to purchase Axle Holdings, Inc. stock representing in the aggregate approximately 4.8% of the common stock of Axle Holdings, Inc. on a fully diluted basis immediately after the 2005 Acquisition. These options were converted into options in us pursuant to the conversion agreements entered into between us and the IAAI continuing investors described above.

Towing and Transportation Services

In the ordinary course of business, we have received towing, transportation and recovery services from companies which are controlled by Brian Clingen, our Chairman and Chief Executive Officer. Services received from these companies were approximately \$0.8 million for fiscal year 2007. The transportation services were provided on terms consistent with those of other providers of similar services. There were no such services provided to us from companies controlled by Mr. Clingen in fiscal year 2006 or 2005.

Transactions with the GS Entities and Their Affiliates

GS Capital Partners VI Fund, L.P. and other private equity funds affiliates with Goldman, Sachs & Co. beneficially own approximately 25.3% of our issued and outstanding common stock. Under the registration rights agreement entered into in connection with the notes, we agreed to file a market-making prospectus in order to enable Goldman, Sachs & Co. to engage in market-making activities for the notes. Goldman, Sachs & Co., acted as initial purchaser in the offering of the Restricted Notes. Goldman Sachs Credit Partners L.P., an affiliate of GS Capital Partners VI Fund, L.P., was part of the banking syndicate for our credit facility. In addition, Goldman, Sachs & Co. and its affiliates may in the future engage in commercial banking, investment banking or other financial advisory transactions with us and our affiliates.

Termination of 2005 Agreements

Upon the closing of the Transactions on April 20, 2007, Axle LLC terminated all existing agreements containing any preemptive, registration, voting, liquidation, conversion or other rights relating to the equity interests of Axle Holdings, Inc. and its subsidiaries. In addition, at such closing, all existing agreements (including the existing financial advisory agreement) relating to the payment of any fees or reimbursement of any expenses of any member of Axle LLC (including Kelso and Parthenon) by Axle Holdings, Inc. or any of its subsidiaries and certain other 2005 Acquisition agreements were terminated, including the following agreements.

Table of Contents

2005 Shareholders Agreement

On May 25, 2005, Axle Holdings, Inc. entered into a shareholders agreement with Axle LLC, which owns all of Axle Holdings, Inc.'s issued and outstanding common stock, and Thomas C. O'Brien, Scott P. Pettit, David R. Montgomery, Donald J. Hermanek, John W. Kett, John R. Nordin and Sidney L. Kerley (the "IAAI 2005 Investors"), who own options to purchase common stock of Axle Holdings, Inc. The shareholders agreement, among other things, provides Axle LLC rights to designate directors to the board of directors of Axle Holdings, restricts generally the transfer of shares of common stock and options owned by the IAAI 2005 Investors.

2005 Registration Rights Agreement

Axle Holdings, Inc. entered into a registration rights agreement with the other parties to the shareholders agreement on May 25, 2005. Under the terms of the registration rights agreement, Axle LLC has the right to make an unlimited number of requests that Axle Holdings, Inc. use its best efforts to register its shares under the Securities Act.

2005 Financial Advisory Agreements

Under the terms of a financial advisory and closing fee letter agreement between Kelso and Axle Merger Sub, Inc. entered into upon completion of the 2005 Acquisition, IAAI (1) paid a fee of \$4.475 million to Kelso and (2) commenced paying to Kelso an annual financial advisory fee of \$500,000 payable in quarterly installments in advance (with the first such installment, prorated for the remainder of the then current quarter, paid at the closing of the 2005 Acquisition) for services to be provided by Kelso to IAAI. The financial advisory agreement provides that IAAI will indemnify Kelso, Axle Holdings, Inc. and Kelso's officers, directors, affiliates and their respective partners, employees, agents and control persons (as such term is used in the Securities Act and the rules and regulations thereunder) in connection with the 2005 Acquisition and the transactions contemplated by the related merger agreement (including the financing of the merger), Kelso's investment in IAAI, Kelso's control of Axle Merger Sub, Inc., IAAI and their respective subsidiaries, and the services rendered to IAAI under the financial advisory agreement. It requires IAAI to reimburse Kelso's expenses incurred in connection with the 2005 Acquisition and with respect to services to be provided to IAAI on a going-forward basis. The financial advisory agreement also provides for the payment of certain fees by IAAI to Kelso, as may be determined by the board of directors of IAAI and Kelso, in connection with future investment banking services and for the reimbursement by IAAI of expenses incurred by Kelso in connection with such services.

Under the terms of a letter agreement between PCAP, L.P., an affiliate of Parthenon, and Axle Merger Sub, Inc., upon completion of the 2005 Acquisition, IAAI paid to PCAP, L.P. a fee of \$525,000.

DESCRIPTION OF OTHER INDEBTEDNESS

Senior Secured Credit Facilities

Overview

On April 20, 2007, we entered into a \$1,865 million senior credit facility, pursuant to the terms and conditions of a credit agreement with Bear Stearns Corporate Lending Inc., as administrative agent, and a syndicate of lenders. The Credit Agreement has a six and one-half year term that expires on October 19, 2013. Under the terms of the Credit Agreement, the lenders committed to provide advances and letters of credit in an aggregate amount of up to \$1,865 million subject to certain conditions. Borrowings under the Credit Agreement may be used to finance working capital, capital expenditures and acquisitions permitted under the Credit Agreement and for other corporate purposes.

The Credit Agreement provides for a six and one-half year \$1,565 million term loan and a six-year \$300 million revolving credit facility. The term loan will be repaid in quarterly installments at an amount of 0.25% of the initial term loan, with the remaining principal balance due on October 19, 2013. The revolving credit facility may be used for loans, and up to \$75 million may be used for letters of credit. The revolving loans may be borrowed, repaid and reborrowed until April 19, 2013, at which time all revolving amounts borrowed must be repaid.

At September 30, 2007, \$1,561.1 million was outstanding on the term loan and there were no borrowings under the revolving credit facility. There were related outstanding letters of credit totaling approximately \$17.5 million at September 30, 2007, which reduce the amount available under our credit facilities. Our Canadian operations had letters of credit outstanding totaling \$2.5 million at September 30, 2007, which do not impact amounts available under our credit facilities. We believe our sources of liquidity from our cash and cash equivalents on hand, working capital, cash provided by operating activities, and availability under our credit facilities are sufficient to meet our short and long-term operating needs for the foreseeable future. In addition, we believe the previously mentioned sources of liquidity will be sufficient to fund our capital requirements and debt service payments for the next twelve months.

Prepayments

The principal amount of the term loan amortizes in quarterly installments equal to 0.25% of the original principal amount of the term loans, with the balance payable at maturity.

Subject to certain exceptions, our senior credit facilities are subject to mandatory prepayments and reduction in an amount equal to:

the net proceeds of (1) certain debt offerings by us or any of our subsidiaries, (2) certain asset sales by us or any of our subsidiaries (subject to customary reinvestment provisions), and (3) certain insurance recovery and condemnation events (subject to customary reinvestment provisions); and

50% of excess cash flow subject to reduction based on our achievement of specified consolidated senior leverage ratio levels.

Voluntary prepayments and commitment reductions are permitted, in whole or in part, in minimum amounts without premium or penalty, other than customary breakage costs.

Security; Guarantees

Our obligations under our senior credit facilities are guaranteed by each of our existing and certain future direct and indirect wholly owned domestic subsidiaries, subject to certain exceptions.

Table of Contents

Our senior credit facilities and certain interest rate hedging agreements thereof, subject to certain exceptions, are secured on a first priority basis by (i) pledges of all the capital stock of all our direct or indirect material domestic subsidiaries and up to 65% of the capital stock of each of our direct foreign subsidiaries and (ii) liens on substantially all of the tangible and intangible assets of us and the guarantors.

Interest

Our revolving credit facility bears interest at a rate equal to LIBOR plus a margin ranging from 150 basis points to 225 basis points depending on our total leverage ratio. As of September 30, 2007, our revolving credit facility margin based on its leverage ratio was 225 basis points. Our term loan facility bears interest at a rate equal to LIBOR plus a margin of either 200 basis points or 225 basis points depending on our total leverage ratio and ratings received from Moody's and Standard and Poor's. As of September 30, 2007, our term loan facility margin was 225 basis points.

Fees

Our fees with respect to our senior credit facilities include (i) fees on the unused commitments of the lenders under the revolving facility, (ii) letter of credit fees on the aggregate face amount of outstanding letters of credit plus a fronting fee to the issuing bank, and (iii) administration fees.

Covenants

The Credit Agreement contains certain restrictive loan covenants, including, among others, financial covenants requiring a maximum consolidated senior secured leverage ratio, provided there are revolving commitments outstanding, and covenants limiting our ability to incur indebtedness, grant liens, make acquisitions, be acquired, dispose of assets, pay dividends, make capital expenditures and make investments. The leverage ratio covenants are based on consolidated Adjusted EBITDA (earnings before interest expense, income taxes, depreciation and amortization) adjusted to exclude (a) gains and losses from asset sales; (b) unrealized foreign currency translation gains and losses in respect of indebtedness; (c) certain non-recurring gains and losses; (d) stock option expense; (e) certain other noncash amounts included in the determination of net income; (f) management, monitoring, consulting and advisory fees paid to the equity sponsors; (g) charges and revenue reductions resulting from purchase accounting; (h) unrealized gains and losses on hedge agreements; (i) minority expense; (j) expenses associated with the consolidation of salvage operations; (k) consulting expenses incurred for cost reduction, operating restructuring and business improvement efforts; (l) expenses realized upon the termination of employees and the termination or cancellation of leases, software licenses or other contracts in connection with the operational restructuring and business improvement efforts; and (m) expenses incurred in connection with permitted acquisitions.

The covenants contained within our senior credit facilities are critical to an investor's understanding of our financial liquidity, as the violation of these covenants could cause a default and lenders could elect to declare all amounts borrowed due and payable. In addition, our notes contain certain financial and operational restrictions on paying dividends and other distributions, making certain acquisitions or investments, incurring indebtedness, granting liens and selling assets. These financial covenants affect our operating flexibility by, among other things, restricting its ability to incur expenses and indebtedness that could be used to grow the business, as well as to fund general corporate purposes. We are not required to assess compliance with the covenants until December 31, 2007.

Events of Default

Our senior credit facilities contain customary events of default including non-payment of principal, interest or fees, failure to comply with covenants, inaccuracy of representation or warranties in any material respect, cross-default to certain other indebtedness, loss of lien perfection or priority, invalidity of guarantees, certain specified ERISA events, material judgments, change of control, and certain bankruptcy or insolvency events.

THE EXCHANGE OFFER

Purpose of the Exchange Offer

When we sold the Restricted Notes on April 20, 2007, we and the guarantors of the Restricted Notes entered into a registration rights agreement with the initial purchasers of those Restricted Notes. Under the terms of the registration rights agreement, we and the guarantors of the Restricted Notes agreed to use commercially reasonable efforts to:

file with the SEC and cause to become effective a registration statement relating to an offer to exchange the Restricted Notes for the Exchange Notes;

keep the exchange offer open for not less than 20 business days (or longer if required by applicable law) after the date of notice thereof is mailed to the holders of the Restricted Notes; and

complete the exchange offer within 360 days of the issue date of the Restricted Notes.

We and the guarantors also agreed to use commercially reasonable efforts to cause the registration statement to become effective with the SEC and to initiate this exchange offer as promptly as practicable after the registration statement is declared effective. The registration rights agreement provides that we will be required to pay additional cash interest (additional interest) to the holders of the Restricted Notes if we do not complete the exchange offer within 360 days of the date that we sold the Restricted Notes (April 20, 2007) or if after a shelf registration statement with respect to the Restricted Notes is declared (or becomes automatically) effective such registration statement thereafter ceases to be effective. Under some circumstances set forth in the registration rights agreement, holders of Restricted Notes, including holders who are not permitted to participate in the exchange offer or who may not freely sell Exchange Notes received in the exchange offer, may require us to file and cause to become effective, a shelf registration statement covering resales of the Restricted Notes by these holders.

Each broker-dealer that receives Exchange Notes for its own account in exchange for Restricted Notes, where the Restricted Notes were acquired by it as a result of market-making activities or other trading activities, must acknowledge that it will deliver a prospectus that meets the requirements of the Securities Act in connection with any resale of the Exchange Notes. By so acknowledging and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act. See Plan of Distribution.

The exchange offer is not being made to holders of Restricted Notes in any jurisdiction in which the exchange would not comply with the securities or blue sky laws of such jurisdiction. The summary herein of certain provisions of the registration rights agreement does not purport to be complete, and is qualified in its entirety by reference to, all the provisions of the registration rights agreement, a copy of which is incorporated by reference as an exhibit to the registration statement of which this prospectus is a part.

Terms of the Exchange Offer; Extensions and Amendments

Subject to the terms and the satisfaction or waiver of the conditions detailed in this prospectus, we will accept for exchange Restricted Notes which are properly tendered on or prior to the expiration date and not withdrawn as permitted below. As used herein, the term expiration date means 5:00 p.m., New York City time, on March 18, 2008. We may, however, in our sole discretion, extend the period of time during which the exchange offer is open. The term expiration date means the latest time and date to which the exchange offer is extended.

The form and terms of the Exchange Notes will be identical in all material respects to the form and terms of the Restricted Notes except the Exchange Notes will be registered under the Securities Act, will not bear legends restricting their transfer and will not provide for any additional interest upon our failure to fulfill our obligations

under the applicable registration rights agreement to complete the exchange offer, or file, and cause to be effective, a shelf registration statement, if required thereby, within the specified time period. The Exchange Notes will evidence the same debt as the Restricted Notes. The Floating Rate Senior Exchange Notes, the Fixed Rate Senior Exchange Notes and the Senior Subordinated Exchange Notes will be issued under and entitled to the benefits of the same indentures that authorized the issuance of the respective Restricted Notes. For a description of the indentures, see Description of the Senior Exchange Notes and Description of the Senior Subordinated Exchange Notes.

As of the date of this prospectus, (i) \$150 million aggregate principal amount of Floating Rate Senior Notes due 2014 are outstanding, (ii) \$450 million aggregate principal amount of 8³/₄% Senior Notes due 2014 are outstanding and (iii) \$425 million aggregate principal amount of 10% Senior Subordinated Notes due 2015 are outstanding. This prospectus is first being sent on or about the date hereof, to all holders of Restricted Notes known to us. There is no fixed record date for determining registered holders of outstanding Restricted Notes entitled to participate in the exchange offer.

We expressly reserve the right, at any time prior to the expiration of the exchange offer, to extend the period of time during which the exchange offer is open, and delay acceptance for exchange of any Restricted Notes, by giving oral or written notice of such extension to holders thereof as described below. During any such extension, all Restricted Notes previously tendered will remain subject to the exchange offer and may be accepted for exchange by us. Any Restricted Notes not accepted for exchange for any reason will be returned without expense to an account maintained with DTC as promptly as practicable after the expiration or termination of the exchange offer.

Restricted Notes tendered in the exchange offer must be in denominations of principal amount of \$1,000 and any integral multiple thereof.

We expressly reserve the right to amend or terminate the exchange offer, and not to accept for exchange any Restricted Notes, upon the occurrence of any of the conditions of the exchange offer specified under Conditions to the Exchange Offer. We will give oral or written notice of any extension, amendment, non acceptance or termination to the holders of the Restricted Notes as promptly as practicable. Such notice, in the case of any extension, will be issued by means of a press release or other public announcement no later than 9:00 a.m., New York City time, on the next business day after the previously scheduled expiration date.

Procedures for Tendering Restricted Notes

You may only tender your Restricted Notes by book-entry transfer of the Restricted Notes into the exchange agent's account at DTC. The tender to us of Restricted Notes by you, as set forth below, and our acceptance of the Restricted Notes will constitute a binding agreement between us and you, upon the terms and subject to the conditions set forth in this prospectus. Except as set forth below, to tender Restricted Notes for exchange pursuant to the exchange offer, you must transmit an agent's message to The Bank of New York, as exchange agent, at the address listed below under the heading Exchange Agent. In addition, the exchange agent must receive, on or prior to the expiration date, a timely confirmation of book-entry transfer (a book-entry confirmation) of the Restricted Notes into the exchange agent's account at DTC.

The term agent's message means a message, transmitted to DTC and received by the exchange agent and forming a part of a book-entry transfer.

If you are a beneficial owner whose Restricted Notes are registered in the name of a broker, dealer, commercial bank, trust company or other nominee, and wish to tender, you should promptly instruct the registered holder to tender on your behalf. Any registered holder that is a participant in DTC's book-entry transfer facility system may make book-entry delivery of the Restricted Notes by causing DTC to transfer the Restricted Notes into the exchange agent's account.

Table of Contents

We or the exchange agent, in our sole discretion, will make a final and binding determination on all questions as to the validity, form, eligibility (including time of receipt) and acceptance of Restricted Notes tendered for exchange. We reserve the absolute right to reject any and all tenders not properly tendered or to not accept any tender which acceptance might, in our judgment or our counsel's, be unlawful. We also reserve the absolute right to waive any defects or irregularities or conditions of the exchange offer as to any individual tender before the expiration date (including the right to waive the ineligibility of any holder who seeks to tender Restricted Notes in the exchange offer). Our or the exchange agent's interpretation of the terms and conditions of the exchange offer as to any particular tender either before or after the expiration date will be final and binding on all parties. Unless waived, any defects or irregularities in connection with tenders of Restricted Notes for exchange must be cured within a reasonable period of time, as we determine. We are not, nor are the exchange agent or any other person, under any duty to notify you of any defect or irregularity with respect to your tender of Restricted Notes for exchange, and no one will be liable for failing to provide such notification.

By tendering Restricted Notes, you represent to us that: (i) you are acquiring the Exchange Notes in the ordinary course of business, (ii) you have no arrangements or understanding with any person to participate in the distribution of the Exchange Notes within the meaning of the Securities Act, (iii) you are not an affiliate, as defined in Rule 405 of the Securities Act, of the Company, (iv) if you are not a broker-dealer, that you are not engaged in, and do not intend to engage in, the distribution of the Exchange Notes and (v) if you are a broker-dealer, that you will receive the Exchange Notes for your own account in exchange for Restricted Notes that were acquired by you as a result of your market-making or other trading activities and that you will deliver a prospectus in connection with any resale of such Exchange Notes. For further information regarding resales of the Exchange Notes by participating broker-dealers, see the discussion under the caption "Plan of Distribution."

If any holder or other person is an affiliate of ours, as defined under Rule 405 of the Securities Act, or is engaged in, or intends to engage in, or has an arrangement or understanding with any person to participate in, a distribution of the Exchange Notes, that holder or other person cannot rely on the applicable interpretations of the staff of the SEC, may not tender its Restricted Notes in the exchange offer and must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction.

Each broker-dealer that receives Exchange Notes for its own account in exchange for Restricted Notes, where the Restricted Notes were acquired by it as a result of market-making activities or other trading activities, could be deemed to be a statutory underwriter and must acknowledge that it will deliver a prospectus that meets the requirements of the Securities Act in connection with any resale of the Exchange Notes. By so acknowledging and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act. See "Plan of Distribution."

Furthermore, any broker-dealer that acquired any of its Restricted Notes directly from us:

may not rely on the applicable interpretation of the staff of the SEC's position contained in Exxon Capital Holdings Corp., SEC no-action letter (April 13, 1988), Morgan, Stanley & Co. Inc., SEC no-action letter (June 5, 1991) and Shearman & Sterling, SEC no-action letter (July 2, 1993); and

must also be named as a selling bondholder in connection with the registration and prospectus delivery requirements of the Securities Act relating to any resale transaction.

By delivering an agent's message, a beneficial owner (whose Restricted Notes are registered in the name of a broker, dealer, commercial bank, trust company or other nominee) or holder will be deemed to have irrevocably appointed the exchange agent as its agent and attorney-in-fact (with full knowledge that the exchange agent is also acting as an agent for us in connection with the exchange offer) with respect to the Restricted Notes, with full power of substitution (such power of attorney being deemed to be an irrevocable power coupled with an interest subject only to the right of withdrawal described in this prospectus), to receive for our account all benefits and otherwise exercise all rights of beneficial ownership of such Restricted Notes, in accordance with the terms and conditions of the exchange offer.

Table of Contents

Each beneficial owner or holder will also be deemed to have represented and warranted to us that it has authority to tender, exchange, sell, assign and transfer the Restricted Notes it tenders and that, when the same are accepted for exchange, we will acquire good, marketable and unencumbered title to such Restricted Notes, free and clear of all liens, restrictions, charges and encumbrances, and that the Restricted Notes tendered are not subject to any adverse claims or proxies. Each beneficial owner and holder, by tendering its Restricted Notes, also agrees that it will comply with its obligations under the registration rights agreement.

Acceptance of Restricted Notes for Exchange; Delivery of Exchange Notes

Upon satisfaction or waiver of all of the conditions to the exchange offer, we will accept, promptly after the expiration date, all Restricted Notes properly tendered and will issue the Exchange Notes promptly after acceptance of the Restricted Notes. See Conditions to the Exchange Offer. For purposes of the exchange offer, we will be deemed to have accepted properly tendered Restricted Notes for exchange if and when we give oral (confirmed in writing) or written notice to the exchange agent.

The holder of each Restricted Note accepted for exchange will receive the applicable Exchange Note in the amount equal to the surrendered Restricted Note. Holders of Exchange Notes on the relevant record date for the first interest payment date following the consummation of the exchange offer will receive interest accruing from the most recent date to which interest has been paid on the Restricted Notes or, if no interest has been paid, from the issue date of the Restricted Notes. Holders of Exchange Notes will not receive any payment in respect of accrued interest on Restricted Notes otherwise payable on any interest payment date, the record date for which occurs on or after the consummation of the exchange offer.

In all cases, issuance of Exchange Notes for Restricted Notes that are accepted for exchange will be made only after timely receipt by the exchange agent of an agent's message and a timely confirmation of book-entry transfer of the Restricted Notes into the exchange agent's account at DTC.

If any tendered Restricted Notes are not accepted for any reason set forth in the terms and conditions of the exchange offer or if Restricted Notes are submitted for a greater principal amount than the holder desires to exchange, such unaccepted or non-exchanged Restricted Notes will be returned without expense to an account maintained with DTC promptly after the expiration or termination of the exchange offer.

Book Entry Transfers

The exchange agent will make a request to establish an account for the Restricted Notes at DTC for purposes of the exchange offer within two business days after the date of this prospectus. Any financial institution that is a participant in DTC's systems must make book-entry delivery of Restricted Notes by causing DTC to transfer those Restricted Notes into the exchange agent's account at DTC in accordance with DTC's procedures for transfer. This participant should transmit its acceptance to DTC on or prior to the expiration date. DTC will verify this acceptance, execute a book-entry transfer of the tendered Restricted Notes into the exchange agent's account at DTC and then send to the exchange agent confirmation of this book-entry transfer. The transmission of the Restricted Notes and agent's message to DTC and delivery by DTC to and receipt by the exchange agent of the related agent's message will be deemed to be a valid tender.

Withdrawal Rights

For a withdrawal of a tender of Restricted Notes to be effective, the exchange agent must receive a valid withdrawal request through the Automated Tender Offer Program system from the tendering DTC participant before the expiration date. Any such request for withdrawal must include the VOI number of the tender to be withdrawn and the name of the ultimate beneficial owner of the related Restricted Notes in order that such notes may be withdrawn. Properly withdrawn Restricted Notes may be re-tendered by following the procedures described under Procedures for Tendering Restricted Notes above at any time on or before 5:00 p.m., New York City time, on the expiration date.

Table of Contents

We will determine all questions as to the validity, form and eligibility, including time of receipt, of notices of withdrawal. Any Restricted Notes so withdrawn will be deemed not to have been validly tendered for exchange. No Exchange Notes will be issued unless the Restricted Notes so withdrawn are validly re-tendered.

Conditions to the Exchange Offer

Notwithstanding any other provision of the exchange offer, we are not required to accept for exchange, or to issue Exchange Notes in exchange for, any Restricted Notes and may terminate or amend the exchange offer, if any of the following events occur prior to acceptance of such Restricted Notes:

- (a) the exchange offer violates any applicable law or applicable interpretation of the staff of the SEC; or
- (b) there is threatened, instituted or pending any action or proceeding before, or any injunction, order or decree has been issued by, any court or governmental agency or other governmental regulatory or administrative agency or commission,
 - (1) seeking to restrain or prohibit the making or consummation of the exchange offer or any other transaction contemplated by the exchange offer, or assessing or seeking any damages as a result thereof, or
 - (2) resulting in a material delay in our ability to accept for exchange or exchange some or all of the Exchange Notes pursuant to the exchange offer;

or any statute, rule, regulation, order or injunction has been sought, proposed, introduced, enacted, promulgated or deemed applicable to the exchange offer or any of the transactions contemplated by the exchange offer by any government or governmental authority, domestic or foreign, or any action has been taken, proposed or threatened, by any government, governmental authority, agency or court, domestic or foreign, that in our sole judgment might, directly or indirectly, result in any of the consequences referred to in clauses (1) or (2) above or, in our reasonable judgment, might result in the holders of Exchange Notes having obligations with respect to resales and transfers of Exchange Notes which are greater than those described in the interpretations of the SEC referred to in this prospectus, or would otherwise make it inadvisable to proceed with the exchange offer; or

- (c) there has occurred:
 - (1) any general suspension of or general limitation on prices for, or trading in, securities on any national securities exchange or in the over-the-counter market,
 - (2) any limitation by a governmental agency or authority which may adversely affect our ability to complete the transactions contemplated by the exchange offer,
 - (3) a declaration of a banking moratorium or any suspension of payments in respect of banks in the United States or any limitation by any governmental agency or authority which adversely affects the extension of credit, or
 - (4) a commencement of a war, armed hostilities or other similar international calamity directly or indirectly involving the United States, or, in the case of any of the foregoing existing at the time of the commencement of the exchange offer, a material acceleration or worsening thereof; or
 - (5) any change (or any development involving a prospective change) has occurred or is threatened in our business, properties, assets, liabilities, financial condition, operations, results of operations or prospects and our subsidiaries taken as a whole that, in our reasonable judgment, is or may be adverse to us, or we have become aware of facts that, in our reasonable judgment, have or may have adverse significance with respect to the value of the Restricted Notes or the Exchange Notes;

which in our reasonable judgment in any case, and regardless of the circumstances (including any action by us) giving rise to any such condition, makes it inadvisable to proceed with the exchange offer and/or with such acceptance for exchange or with such exchange.

Table of Contents

In addition, we will not be obligated to accept for exchange the Restricted Notes of any holder that has not made to us:

the representations described under Purpose of the Exchange Offer, Procedures for Tendering Restricted Notes and Plan of Distribution; or

any other representations as may be reasonably necessary under applicable SEC rules, regulations, or interpretations to make available to us an appropriate form for registration of the exchange notes under the Securities Act.

The foregoing conditions are for our sole benefit and may be asserted by us regardless of the circumstances giving rise to any condition or may be waived by us in whole or in part at any time in our reasonable discretion. Our failure at any time to exercise any of the foregoing rights will not be deemed a waiver of any such right and each such right will be deemed an ongoing right which may be asserted at any time.

In addition, we will not accept for exchange any Restricted Notes tendered, and no Exchange Notes will be issued in exchange for any such Restricted Notes, if at such time any stop order is threatened or in effect with respect to the registration statement, of which this prospectus constitutes a part, or the qualification of the indentures governing the Restricted Notes and the Exchange Notes under the Trust Indenture Act.

Exchange Agent

We have appointed Wells Fargo Bank, National Association as the exchange agent for the exchange offer. Questions and requests for assistance, requests for additional copies of this prospectus or of other documents should be directed to the exchange agent addressed as follows:

By Registered or Certified Mail: Wells Fargo Bank, N.A. Corporate Trust Operations MAC N9303-121 P.O. Box 1517 Minneapolis, MN 55480	By Regular Mail or Overnight Courier: Wells Fargo Bank, N.A. federal securities and state blue sky securities laws, printing expenses, messenger and delivery services and telephone, fees and disbursements to our counsel, application and filing fees and any fees and disbursement to our independent certified public accountants. We will not make any payment to brokers, dealers or others soliciting acceptances of the exchange offer.

Table of Contents

Additional solicitation may be made by telephone, facsimile or in person by our and our affiliates' officers and regular employees and by persons so engaged by the exchange agent.

Accounting Treatment

We will record the Exchange Notes at the same carrying value as the Restricted Notes, as reflected in our accounting records on the date of the exchange. Accordingly, we will not recognize any gain or loss for accounting purposes as the terms of the Exchange Notes are substantially identical to those of the Restricted Notes.

Transfer Taxes

You will not be obligated to pay any transfer taxes in connection with the tender of Restricted Notes in the exchange offer unless you instruct us to register Exchange Notes in the name of, or request that Restricted Notes not tendered or not accepted in the exchange offer be returned to, a person other than the registered tendering holder. In those cases, you will be responsible for the payment of any applicable transfer tax.

Consequences of Exchanging or Failing to Exchange Restricted Notes

The information below concerning specific interpretations of and positions taken by the staff of the SEC is not intended to constitute legal advice, and prospective purchasers should consult their own legal advisors with respect to those matters.

If you do not exchange your Restricted Notes for Exchange Notes in the exchange offer, your Restricted Notes will continue to be subject to the provisions of the applicable indenture regarding transfer and exchange of the Restricted Notes and the restrictions on transfer of the Restricted Notes imposed by the Securities Act and state securities law. These transfer restrictions are required because the Restricted Notes were issued under an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state securities laws. In general, the Restricted Notes may not be offered or sold unless registered under the Securities Act, except under an exemption from, or in a transaction not subject to, the Securities Act and applicable state securities laws. We do not plan to register the Restricted Notes under the Securities Act.

If you do not exchange your Restricted Notes in the exchange offer, you will continue to be entitled to all the rights and limitations applicable to the Restricted Notes as set forth in the applicable indenture, but we will not have any further obligation to you to provide for the exchange and registration of the Restricted Notes under the applicable registration rights agreement. Accordingly, there will be no increase in the interest rate on the Restricted Notes under the applicable circumstances described in the registration rights agreements.

Based on interpretations by the staff of the SEC, as detailed in a series of no-action letters issued to third parties, we believe that the Exchange Notes issued in the exchange offer may be offered for resale, resold or otherwise transferred by you without compliance with the registration and prospectus delivery requirements of the Securities Act as long as:

you are acquiring the Exchange Notes in the ordinary course of your business;

you are not participating, do not intend to participate and have no arrangement or understanding with any person to participate, in a distribution of the Exchange Notes; and

you are not an affiliate of ours.

If you are an affiliate of ours, are engaged in or intend to engage in or have any arrangement or understanding with any person to participate in the distribution of the Exchange Notes:

you cannot rely on the applicable interpretations of the staff of the SEC;

Table of Contents

you will not be entitled to participate in the exchange offer; and

you must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction.

We do not intend to seek our own interpretation regarding the exchange offer, and we cannot assure you that the staff of the SEC would make a similar determination with respect to the Exchange Notes as it has in other interpretations to third parties.

Each holder of Restricted Notes who wishes to exchange such Restricted Notes for the related Exchange Notes in the exchange offer represents to us that:

it is acquiring the Exchange Notes in its ordinary course of business;

it has no arrangements or understanding with any person to participate in the distribution of the Exchange Notes within the meaning of the Securities Act;

it is not our affiliate, as defined in Rules 405 of the Securities Act;

if it is not a broker-dealer, it is not engaged in, and does not intend to engage in, the distribution of the Exchange Notes; and

if it is a broker-dealer, it will receive the Exchange Notes for its own account in exchange for Restricted Notes that were acquired by it as a result of its market-making or other trading activities and that it will deliver a prospectus in connection with any resale of such Exchange Notes. For further information regarding resales of the Exchange Notes by participating broker-dealers, see the discussion under the caption Plan of Distribution.

As discussed above, in connection with resales of Exchange Notes, any participating broker-dealer must deliver a prospectus meeting the requirements of the Securities Act. The staff of the SEC has taken the position that participating broker-dealers may fulfill their prospectus delivery requirements with respect to the Exchange Notes, other than a resale of an unsold allotment from the original sale of the Restricted Notes, with the prospectus contained in the exchange offer registration statement. Under the registration rights agreement, we have agreed, for a period of 90 days following the consummation of the exchange offer, to make available a prospectus meeting the requirements of the Securities Act to any participating broker-dealer for use in connection with any resale of any Exchange Notes acquired in the exchange offer.

DESCRIPTION OF SENIOR EXCHANGE NOTES

The Floating Rate Senior Exchange Notes due 2014 (the Floating Rate Senior Exchange Notes) are to be issued under an Indenture, dated as of April 20, 2007 (the Floating Rate Indenture), among the Company, the Guarantors and Wells Fargo Bank, National Association, as trustee (the Floating Rate Trustee), as amended from time to time. The ~~3~~²/₈% Senior Exchange Notes due 2014 (the Fixed Rate Senior Exchange Notes and, together with the Floating Rate Senior Exchange Notes, the Senior Exchange Notes) are to be issued under an Indenture, dated as of April 20, 2007 (the Fixed Rate Indenture and, together with the Floating Rate Indenture, the Indentures), among the Company, the Guarantors, the trustee, as amended from time to time. These are the same Indentures under which the Senior Restricted Notes were issued.

Except as set forth herein, the terms of the Senior Exchange Notes include those stated in the Indentures and those made part of the Indentures by reference to the Trust Indenture Act. The Floating Rate Senior Exchange Notes and the Fixed Rate Senior Exchange Notes will each be issued as a separate series and class and will vote separately with respect to all matters. Any Senior Restricted Notes that remain outstanding after the completion of the exchange offer, together with the Senior Exchange Notes issued in connection with the exchange offer, will be treated as a single class of securities under the each of the Indentures.

Unless the context otherwise requires, in this description, (i) the Floating Rate Senior Notes refer to the Floating Rate Senior Exchange Notes and the Floating Rate Senior Restricted Notes, (ii) the Fixed Rate Senior Notes refers to the Fixed Rate Senior Exchange Notes and the Fixed Rate Senior Restricted Notes, and (iii) the Senior Notes refers to the Floating Rate Senior Notes and the Fixed Rate Senior Notes. The following description is only a summary of the material provisions of the Indentures, does not purport to be complete and is qualified in its entirety by reference to the provisions of the Indentures, including the definitions therein of certain terms used below. We urge you to read the Indentures because they, and not this description, define your rights as Holders of the Senior Notes.

Senior Exchange Notes versus Senior Restricted Notes

The terms of the Senior Exchange Notes are substantially identical to those of the outstanding Senior Restricted Notes, except that the transfer restrictions, registration rights and additional interest provisions relating to the Senior Restricted Notes do not apply to the Senior Exchange Notes.

Brief Description of the Senior Exchange Notes

The Senior Exchange Notes will:

be general, unsubordinated obligations of the Company;

be unsecured;

be structurally subordinated to all existing and future Indebtedness and other liabilities (including trade payables) of the Company's Subsidiaries (other than Subsidiaries that are or become Subsidiary Guarantors pursuant to the provisions described below under Subsidiary Guarantees);

be limited to an aggregate principal amount of \$150.0 million for the Floating Rate Senior Notes and \$450.0 million for the Fixed Rate Senior Notes, subject to our ability to issue Additional Notes;

mature on May 1, 2014;

bear interest at the applicable rate per annum shown from the most recent date to which interest has been paid or provided for;

Edgar Filing: ADESA SAN DIEGO, LLC - Form 424B3

be issued in minimum denominations of \$2,000 or, if greater at the Issue Date, the dollar equivalent of 1,000 rounded up to the nearest \$1,000 (the Minimum Denomination) and any integral multiple of \$1,000 in excess thereof;

Table of Contents

be represented by one or more registered Senior Notes in global form, but in certain circumstances may be represented by Senior Notes in definitive form. See Book Entry, Delivery and Form ;

be pari passu in right of payment with all existing and future unsubordinated indebtedness of the Company; and

be unconditionally guaranteed on an unsubordinated basis by each of the Company's current and future Subsidiaries that guarantees payment by the Company of any Indebtedness of the Company under the Senior Credit Facility.

Because the Senior Notes are unsecured, in the event of bankruptcy, liquidation, reorganization or other winding up of the Company or the Subsidiary Guarantors or upon default in payment with respect to, or the acceleration of, any Indebtedness under our senior secured credit facility or other secured indebtedness, the assets of the Company and the Subsidiary Guarantors that secure other secured indebtedness will be available to pay obligations on the Senior Notes and the Guarantees only after all Indebtedness under such other secured indebtedness has been repaid in full from such assets.

Principal, Maturity and Interest

Floating Rate Notes

The Floating Rate Exchange Notes will be issued initially in an aggregate principal amount of up to \$150.0 million. The Floating Rate Senior Notes will mature on May 1, 2014. Each Floating Rate Senior Notes will bear interest at a rate per annum, reset quarterly, equal to LIBOR plus 4%, as determined by the calculation agent (the Calculation Agent), which shall initially be the Floating Rate Trustee.

Interest on the Floating Rate Senior Notes will be payable quarterly in cash to Holders of record at the close of business on April 15, July 15, September 15 and January 15 immediately preceding the interest payment date, on May 1, August 1, November 1 and February 1 of each year, commencing August 1, 2007.

The amount of interest for each day that the Floating Rate Senior Notes are outstanding (the Daily Interest Amount) will be calculated by dividing the interest rate in effect for such day by 360 and multiplying the result by the principal amount of the Floating Rate Senior Notes then outstanding. The amount of interest to be paid on the Floating Rate Senior Notes for each Interest Period will be calculated by adding the Daily Interest Amount for each day in the Interest Period. All percentages resulting from any of the above calculations will be rounded, if necessary, to the nearest one hundred thousandth of a percentage point, with five one-millionths of a percentage point being rounded upwards and all dollar amounts used in or resulting from such calculations will be rounded to the nearest cent (with one-half cent being rounded upwards).

The Calculation Agent will, upon the request of any Holder of Floating Rate Senior Notes, provide the interest rate then in effect with respect to the Floating Rate Senior Notes. All calculations made by the Calculation Agent in the absence of manifest error will be conclusive for all purposes and binding on the Company, the Guarantors and the Holders of the Floating Rate Senior Notes.

Fixed Rate Senior Notes

The Fixed Rate Senior Exchange Notes will be issued initially in an aggregate principal amount of up to \$450.0 million. The Fixed Rate Senior Notes will mature on May 1, 2014. Each Fixed Rate Senior Notes will bear interest at the applicable rate per annum shown from the most recent date to which interest has been paid or provided for.

Interest on the Fixed Rate Senior Notes will be payable semiannually in cash to Holders of record at the close of business on April 15 and October 15 immediately preceding the interest payment date, on May 1 and

Table of Contents

November 1 of each year, commencing November 1, 2007. Interest will be paid on the basis of a 360-day year consisting of twelve 30-day months and accrue from the date of original issuance.

Additional securities may be issued under either of the Indentures in one or more series from time to time (Additional Notes), subject to the limitations set forth under Certain Covenants Limitation on Indebtedness, which will vote as a class with the Senior Notes under that Indenture and will be treated as a single class with the Senior Notes issued thereunder for all purposes under that Indenture.

Other Terms

Principal of, and premium, if any, and interest on, the applicable Senior Notes will be payable, and such Senior Notes may be exchanged or transferred, at the office or agency of the Company maintained for such purposes (which shall initially be the corporate trust office of the Trustees), except that, at the option of the Company, payment of interest may be made by check mailed to the address of the registered holders of such Senior Notes as such address appears in the applicable Note Register.

Optional Redemption

The Senior Notes will be redeemable, at the Company s option, at any time prior to maturity at varying redemption prices in accordance with the applicable provisions set forth below.

The Floating Rate Senior Notes will be redeemable, at the Company s option, in whole or in part, at any time and from time to time on or after May 1, 2009, and prior to maturity at the applicable redemption price set forth below. The Fixed Rate Senior Notes will be redeemable, at the Company s option, in whole or in part, at any time and from time to time on or after May 1, 2010, and prior to maturity at the applicable redemption price set forth below. Such redemption may be made upon notice mailed by first-class mail to each Holder s registered address, not less than 30 nor more than 60 days prior to the redemption date. The Company may provide in such notice that payment of the redemption price and the performance of the Company s obligations with respect to such redemption may be performed by another Person. Any such redemption and notice may, in the Company s discretion, be subject to the satisfaction of one or more conditions precedent, including but not limited to the occurrence of a Change of Control. The Senior Notes will be so redeemable at the following redemption prices (expressed as a percentage of principal amount), plus accrued and unpaid interest, if any, to, but not including, the relevant redemption date (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date), if redeemed during the 12-month period commencing on May 1 of the years set forth below:

The Floating Rate Senior Notes

Redemption Period	Price
2009	102.000%
2010	101.000%
2011 and thereafter	100.000%

The Fixed Rate Senior Notes

Redemption Period	Price
2010	104.375%
2011	102.917%
2012	101.458%
2013 and thereafter	100.000%

Table of Contents

In addition, the Indentures provide, as applicable, that at any time and from time to time on or prior to May 1, 2010, the Company, at its option, may redeem Senior Notes in an aggregate principal amount equal to (a) up to 35% of the original aggregate principal amount of the Floating Rate Senior Notes (including the principal amount of any Additional Notes that are Floating Rate Senior Notes) and (b) up to 35% of the original aggregate principal amount of the Fixed Rate Senior Notes (including the principal amount of any Additional Notes that are Fixed Rate Senior Notes), with funds in an aggregate amount (the Redemption Amount) not exceeding the aggregate proceeds of one or more Equity Offerings (as defined below), at a redemption price (expressed as a percentage of principal amount thereof) of 100% plus the applicable rate of interest per annum on the date on which notice of redemption is given for the Floating Rate Senior Notes and 108.75% for the Fixed Rate Senior Notes, in each case plus accrued and unpaid interest, if any, to, but not including, the redemption date (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date); provided, however, that

(a) if Floating Rate Senior Notes are redeemed, an aggregate principal amount of Floating Rate Senior Notes equal to at least 50% of the original aggregate principal amount of Floating Rate Senior Notes (including the principal amount of any Additional Notes that are Floating Rate Senior Notes) must remain outstanding after each such redemption of Floating Rate Senior Notes, and

(b) if Fixed Rate Senior Notes are redeemed, an aggregate principal amount of Fixed Rate Senior Notes equal to at least 50% of the original aggregate principal amount of Fixed Rate Senior Notes (including the principal amount of any Additional Notes that are Fixed Rate Senior Notes) must remain outstanding after each such redemption of Fixed Rate Senior Notes.

Such redemption may be made upon notice mailed by first-class mail to each Holder's registered address, not less than 30 nor more than 60 days prior to the redemption date (but in no event more than 180 days after the completion of the related Equity Offering). The Company may provide in such notice that payment of the redemption price and performance of the Company's obligations with respect to such redemption may be performed by another Person. Any such notice may be given prior to the completion of the related Equity Offering, and any such redemption or notice may, at the Company's discretion, be subject to the satisfaction of one or more conditions precedent, including but not limited to the completion of the related Equity Offering.

At any time prior to May 1, 2009, in the case of the Floating Rate Senior Notes, and May 1, 2010, in the case of the Fixed Rate Senior Notes, such Senior Notes may also be redeemed or purchased (by the Company or any other Person) in whole or in part, at the Company's option, at a price (the Redemption Price) equal to 100% of the principal amount thereof plus the Applicable Premium as of, and accrued but unpaid interest, if any, to, the date of redemption or purchase (the Redemption Date) (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date). Such redemption or purchase may be made upon notice mailed by first-class mail to each Holder's registered address, not less than 30 nor more than 60 days prior to the Redemption Date. The Company may provide in such notice that payment of the Redemption Price and performance of the Company's obligations with respect to such redemption or purchase may be performed by another Person. Any such redemption, purchase or notice may, at the Company's discretion, be subject to the satisfaction of one or more conditions precedent, including but not limited to the occurrence of a Change of Control.

Applicable Premium means, with respect to a Senior Note at any Redemption Date, the greater of (i) 1.0% of the principal amount of such Senior Note and (ii) the excess of (A) the present value at such Redemption Date of (1) the redemption price of such Senior Note on May 1, 2009, in the case of a Floating Rate Senior Note, and May 1, 2010, in the case of a Fixed Rate Senior Note, such redemption price being that described in the second paragraph of this Optional Redemption section plus (2) all required remaining scheduled interest payments due on such Senior Note through such date (excluding accrued and unpaid interest through the Redemption Date), computed using a discount rate equal to the Treasury Rate plus 50 basis points, over (B) the principal amount of such Note on such Redemption Date; as calculated by the Company or on behalf of the Company by such Person as the Company shall designate; provided that such calculation shall not be a duty or obligation of the applicable Trustee.

Table of Contents

Treasury Rate means, with respect to a Redemption Date, the yield to maturity at the time of computation of United States Treasury securities with a constant maturity (as compiled and published in the most recent Federal Reserve Statistical Release H.15(519) that has become publicly available at least two Business Days prior to such Redemption Date (or, if such Statistical Release is no longer published, any publicly available source of similar market data)) most nearly equal to the period from such Redemption Date to May 1, 2009, in the case of a Floating Rate Senior Note; and May 1, 2010, in the case of a Fixed Rate Senior Note; provided, however, that if the period from the Redemption Date to such date is not equal to the constant maturity of a United States Treasury security for which a weekly average yield is given, the Treasury Rate shall be obtained by linear interpolation (calculated to the nearest one-twelfth of a year) from the weekly average yields of United States Treasury securities for which such yields are given, except that if the period from the Redemption Date to such date is less than one year, the weekly average yield on actually traded United States Treasury securities adjusted to a constant maturity of one year shall be used.

Selection

In the case of any partial redemption, selection of the Senior Notes of the applicable series for redemption will be made by the applicable Trustee on a pro rata basis, or, to the extent a pro rata basis is not permitted, by such other method as such Trustee shall deem to be fair and appropriate, although no Senior Note of the Minimum Denomination in original principal amount or less will be redeemed in part. If any Senior Note is to be redeemed in part only, the notice of redemption relating to such Senior Note shall state the portion of the principal amount thereof to be redeemed. A new Senior Note in principal amount equal to the unredeemed portion thereof will be issued in the name of the Holder thereof upon cancellation of the original Senior Note.

Subsidiary Guarantees

The Company will cause each Subsidiary that guarantees payment by the Company of any Indebtedness of the Company under the Senior Credit Facility to execute and deliver to the applicable Trustee a supplemental indenture or other instrument pursuant to which such Subsidiary will guarantee payment of the Senior Notes, whereupon such Subsidiary will become a Subsidiary Guarantor for all purposes under the Indentures. In addition, the Company may cause any Subsidiary or other Person that is not a Subsidiary Guarantor to guarantee payment of the Senior Notes and become a Subsidiary Guarantor.

Each Subsidiary Guarantor, as primary obligor and not merely as surety, will jointly and severally, irrevocably, fully and unconditionally Guarantee, on an unsecured unsubordinated basis the punctual payment when due, whether at Stated Maturity, by acceleration or otherwise, of all monetary obligations of the Company under the applicable Indenture and the applicable Senior Notes, whether for principal of or interest on the Senior Notes, expenses, indemnification or otherwise (all such obligations guaranteed by the Subsidiary Guarantors being herein called the **Subsidiary Guaranteed Obligations**). Each Subsidiary Guarantor will agree to pay, in addition to the amount stated above, any and all reasonable out-of-pocket expenses (including reasonable counsel fees and expenses) incurred by the applicable Trustee or the applicable Holders in enforcing any rights under a Guarantee.

The obligations of each Subsidiary Guarantor will be limited to the maximum amount, as will, after giving effect to all other contingent and fixed liabilities of such Subsidiary Guarantor (including but not limited to any Guarantee by it of any Bank Indebtedness), result in the obligations of such Subsidiary Guarantor under the Subsidiary Guarantee not constituting a fraudulent conveyance or fraudulent transfer under applicable law, or being void or unenforceable under any law relating to insolvency of debtors.

Each Guarantee shall be a continuing Guarantee and shall (i) remain in full force and effect until payment in full of the principal amount of all outstanding Senior Notes (whether by payment at maturity, purchase,

redemption, defeasance, retirement or other acquisition) and all other applicable obligations then due and owing unless earlier terminated as described below, (ii) be binding upon such Guarantor and (iii) inure to the benefit of and be enforceable by the applicable Trustee, the Holders and their permitted successors, transferees and assigns.

Notwithstanding the preceding paragraph, any Subsidiary Guarantor will automatically and unconditionally be released from all obligations under their Guarantees, and such Guarantees shall thereupon terminate and be discharged and of no further force or effect, (i) in the case of a Subsidiary Guarantor, concurrently with any direct or indirect sale or disposition (by merger, consolidation or otherwise) of any Subsidiary Guarantor or any interest therein not prohibited by the terms of the applicable Indenture (including the covenant described under Certain Covenants Limitation on Sales of Assets and Subsidiary Stock and Merger and Consolidation) by the Company or a Restricted Subsidiary, following which such Subsidiary Guarantor is no longer a Restricted Subsidiary of the Company, (ii) at any time that such Subsidiary Guarantor is released from all of its obligations under all of its Guarantees of payment by the Company of any Indebtedness of the Company under the Senior Credit Facility (it being understood that a release subject to contingent reinstatement is still a release, and that if any such Guarantee is so reinstated, such Guarantee shall also be reinstated), (iii) upon the merger or consolidation of any Guarantor with and into the Company or another Guarantor that is the surviving Person in such merger or consolidation, or upon the liquidation of such Guarantor following or contemporaneously with the transfer of all of its assets to the Company or another Guarantor, (iv) concurrently with a Subsidiary Guarantor becoming an Unrestricted Subsidiary, (v) upon legal or covenant defeasance of the Company's obligations, or satisfaction and discharge of the applicable Indenture, or (vi) subject to customary contingent reinstatement provisions, upon payment in full of the aggregate principal amount of all applicable Senior Notes then outstanding. In addition, the Company will have the right, upon 30 days' notice to the applicable Trustee, to cause any Subsidiary Guarantor that has not guaranteed payment by the Company of any Indebtedness of the Company under the Senior Credit Facilities or the Senior Subordinated Notes to be unconditionally released from all obligations under its Subsidiary Guarantee, and such Subsidiary Guarantee shall thereupon terminate and be discharged and of no further force or effect. Upon any such occurrence specified in this paragraph, the applicable Trustee shall execute any documents reasonably required in order to evidence such release, discharge and termination in respect of such Subsidiary Guarantee.

Neither the Company nor any such Subsidiary Guarantor shall be required to make a notation on the applicable Senior Notes to reflect any such Guarantee or any such release, termination or discharge.

Ranking

The indebtedness evidenced by the Senior Notes (a) will be unsecured unsubordinated indebtedness of the Company, (b) will rank pari passu in right of payment with all existing and future unsubordinated indebtedness of the Company and (c) will be senior in right of payment to all existing and future Subordinated Obligations of the Company to the extent set forth in the instrument containing the applicable subordination agreement. The Senior Notes are unsecured. In the event of a bankruptcy or insolvency, the Company's secured lenders will have a prior secured claim to any collateral securing the debt owed to them.

Each Subsidiary Guarantee will (a) be unsecured unsubordinated indebtedness of the applicable Subsidiary Guarantor, (b) will rank pari passu in right of payment with all existing and future unsubordinated indebtedness of such Person and (c) will be senior in right of payment to all existing and future Guarantor Subordinated Obligations of such Person to the extent set forth in the instrument containing the applicable subordination agreement. Each Subsidiary Guarantee is unsecured. In the event of a bankruptcy or insolvency, the secured lenders of each Subsidiary Guarantor will have a prior secured claim to any collateral securing the debt owed to them.

A substantial part of the operations of the Company are conducted through its Subsidiaries. Claims of creditors of such Subsidiaries, including trade creditors, and claims of preferred shareholders (if any) of such

Table of Contents

Subsidiaries will have priority with respect to the assets and earnings of such Subsidiaries over the claims of creditors of the Company, including holders of the Senior Notes, unless such Subsidiary is a Subsidiary Guarantor with respect to the Senior Notes. The Senior Notes, therefore, will be structurally subordinated to creditors (including trade creditors) and preferred shareholders (if any) of other Subsidiaries of the Company (other than Subsidiaries that become Subsidiary Guarantors). Certain of the operations of a Subsidiary Guarantor may be conducted through Subsidiaries thereof that are not also Subsidiary Guarantors. Claims of creditors of such Subsidiaries, including trade creditors, and claims of preferred shareholders (if any) of such Subsidiaries will have priority with respect to the assets and earnings of such Subsidiaries over the claims of creditors of such Subsidiary Guarantor, including claims under its Subsidiary Guarantee. Such Subsidiary Guarantee, if any, therefore, will be structurally subordinated to creditors (including trade creditors) and preferred shareholders (if any) of such Subsidiaries. Although the Indentures limit the incurrence of Indebtedness (including preferred stock) by certain of the Company's Subsidiaries, such limitation is subject to a number of significant qualifications.

Change of Control

Upon the occurrence after the Issue Date of a Change of Control (as defined below), each Holder of Senior Notes will have the right to require the Company to repurchase all or any part of such Senior Notes at a purchase price in cash equal to 101% of the principal amount thereof, plus accrued and unpaid interest, if any, to, but not including, the date of repurchase (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date); provided, however, that the Company shall not be obligated to repurchase Senior Notes pursuant to this covenant in the event that it has exercised its right to redeem all of the Senior Notes as described under Optional Redemption.

The term "Change of Control" means:

- (i) any person (as such term is used in Sections 13(d) and 14(d) of the Exchange Act), other than one or more Permitted Holders or a Parent, becomes the beneficial owner (as defined in Rules 13d-3 and 13d-5 under the Exchange Act), directly or indirectly, of more than 50% of the total voting power of the Voting Stock of the Company, provided that (x) so long as the Company is a Subsidiary of any Parent, no person shall be deemed to be or become a beneficial owner of more than 50% of the total voting power of the Voting Stock of the Company unless such person shall be or become a beneficial owner of more than 50% of the total voting power of the Voting Stock of such Parent and (y) any Voting Stock of which any Permitted Holder is the beneficial owner shall not in any case be included in any Voting Stock of which any such person is the beneficial owner ;
- (ii) the Company or the Parent merges or consolidates with or into, or sells or transfers (in one or a series of related transactions) all or substantially all of the assets of the Company and its Restricted Subsidiaries, taken as a whole, to, another Person (other than one or more Permitted Holders) and any person (as defined in clause (i) above), other than one or more Permitted Holders or any Parent, is or becomes the beneficial owner (as so defined), directly or indirectly, of more than 50% of the total voting power of the Voting Stock of the surviving Person in such merger or consolidation, or the transferee Person in such sale or transfer of assets, as the case may be, provided that (x) so long as such surviving or transferee Person is a Subsidiary of a parent Person, no person shall be deemed to be or become a beneficial owner of more than 50% of the total voting power of the Voting Stock of such surviving or transferee Person unless such person shall be or become a beneficial owner of more than 50% of the total voting power of the Voting Stock of such parent Person and (y) any Voting Stock of which any Permitted Holder is the beneficial owner shall not in any case be included in any Voting Stock of which any such person is the beneficial owner; or
- (iii) during any period of two consecutive years (during which period the Company has been a party to the applicable Indenture), individuals who at the beginning of such period were members of the Board of Directors of the Company (together with any new members thereof whose election by such Board of

Table of Contents

Directors or whose nomination for election by holders of Equity Interests of the Company was approved by one or more Permitted Holders or by a vote of a majority of the members of such board of directors then still in office who were either members thereof at the beginning of such period or whose election or nomination for election was previously so approved) cease for any reason to constitute a majority of such board of directors then in office.

Unless the Company has exercised its right to redeem all the Senior Notes as described under Optional Redemption, the Company shall, not later than 30 days following the date the Company obtains actual knowledge of any Change of Control having occurred, mail a notice (a Change of Control Offer) to each Holder with a copy to the Trustees stating: (1) that a Change of Control has occurred or may occur and that such Holder has, or upon such occurrence will have, the right to require the Company to purchase such Holder's Senior Notes at a purchase price in cash equal to 101% of the principal amount thereof, plus accrued and unpaid interest, if any, to, but not including, the date of purchase (subject to the right of Holders of record on a record date to receive interest on the relevant interest payment date); (2) the repurchase date (which shall be no earlier than 30 days nor later than 60 days from the date such notice is mailed); (3) the instructions determined by the Company, consistent with this covenant, that a Holder must follow in order to have its Senior Notes purchased; and (4) if such notice is mailed prior to the occurrence of a Change of Control, that such offer is conditioned on the occurrence of such Change of Control. No Note will be repurchased in part if less than the Minimum Denomination in original principal amount of such Note would be left outstanding.

The Company will not be required to make a Change of Control Offer upon a Change of Control if (i) a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the applicable Indenture applicable to a Change of Control Offer made by the Company and purchases all Senior Notes validly tendered and not withdrawn under such Change of Control Offer, or (ii) notice of redemption has been given pursuant to the Indenture as described under the caption Optional Redemption, unless and until there is a Default in the payment of the applicable redemption price.

To the extent that the provisions of any securities laws or regulations conflict with provisions of this Change of Control covenant, the Company may comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations hereunder by virtue thereof.

The Change of Control purchase feature is a result of negotiations between the Company and the Initial Purchasers. The Company has no present plans to engage in a transaction involving a Change of Control, although it is possible that the Company could decide to do so in the future. Subject to the limitations discussed below, the Company could, in the future, enter into certain transactions, including acquisitions, refinancings or recapitalizations, that would not constitute a Change of Control under the Indentures, but that could increase the amount of Indebtedness outstanding at such time or otherwise affect the Company's capital structure or credit ratings. Restrictions on the ability of the Company to Incur additional Indebtedness are contained in the covenants described under Certain covenants Limitation on indebtedness and Certain covenants Limitation on liens. Such restrictions can only be waived with the consent of the Holders of a majority in principal amount of the Senior Notes then outstanding. Except for the limitations contained in such covenants, however, the Indentures will not contain any covenants or provisions that may afford Holders protection in the event of a highly leveraged transaction.

The occurrence of a Change of Control would constitute a default under the Senior Credit Agreement. Agreements governing future Indebtedness of the Company may contain prohibitions of certain events that would constitute a Change of Control or require such Indebtedness to be repurchased or repaid upon a Change of Control. The Senior Credit Agreement is expected to, and the agreements governing future Indebtedness of the Company may, prohibit the Company from repurchasing the Senior Notes upon a Change of Control unless the Indebtedness governed by such Senior Credit Agreement or the agreements governing such future Indebtedness, as the case may be, has been repurchased or repaid (or an offer made to effect such repurchase or repayment has been made and the Indebtedness of those creditors accepting such offer has been repurchased or repaid) and/or

Table of Contents

other specified requirements have been met. Moreover, the exercise by the Holders of their right to require the Company to repurchase the Senior Notes could cause a default under such agreements, even if the Change of Control itself does not, due to the financial effect of such repurchase on the Company and its Subsidiaries. Finally, the Company's ability to pay cash to the Holders upon a repurchase may be limited by the Company's then existing financial resources. There can be no assurance that sufficient funds will be available when necessary to make any required repurchases. The provisions under the Indentures relating to the Company's obligation to make an offer to purchase the Senior Notes as a result of a Change of Control may be waived or modified with the written consent of the Holders of a majority in principal amount of the Senior Notes. As described above under "Optional Redemption," the Company also has the right to redeem the Senior Notes at specified prices, in whole or in part, upon a Change of Control or otherwise.

The definition of Change of Control includes a phrase relating to the sale or other transfer of all or substantially all of the Company's assets. Although there is a developing body of case law interpreting the phrase "substantially all," there is no precise definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty in ascertaining whether a particular transaction would involve a disposition of all or substantially all of the assets of the Company, and therefore it may be unclear as to whether a Change of Control has occurred and whether the holders of the Senior Notes have the right to require the Company to repurchase such Senior Notes.

Certain Covenants

The Indentures contain covenants including, among others, the covenants as described below.

Limitation on Indebtedness

The Indentures provide as follows:

(a) The Company will not, and will not permit any Restricted Subsidiary to, Incur any Indebtedness; provided, however, that the Company or any Restricted Subsidiary may Incur Indebtedness if on the date of the Incurrence of such Indebtedness, after giving effect to the Incurrence thereof, the Consolidated Coverage Ratio would be greater than 2.00 to 1.00.

(b) Notwithstanding the foregoing paragraph (a), the Company and its Restricted Subsidiaries may Incur the following Indebtedness:

(i) Indebtedness Incurred by the Company or any Subsidiary Guarantor pursuant to any Credit Facility (including but not limited to in respect of letters of credit or bankers' acceptances issued or created thereunder) and Indebtedness Incurred by the Company or any Subsidiary Guarantor other than under any Credit Facility, and (without limiting the foregoing), in each case, any Refinancing Indebtedness in respect thereof, in a maximum principal amount at any time outstanding not exceeding in the aggregate the amount equal to \$2,090.0 million;

(ii) Indebtedness (A) of any Restricted Subsidiary to the Company or (B) of the Company or any Restricted Subsidiary to any Restricted Subsidiary; provided, that any subsequent issuance or transfer of any Equity Interests of such Restricted Subsidiary to which such Indebtedness is owed, or other event, that results in such Restricted Subsidiary ceasing to be a Restricted Subsidiary or any other subsequent transfer of such Indebtedness (except to the Company or a Restricted Subsidiary) will be deemed, in each case, an Incurrence of such Indebtedness by the issuer thereof not permitted by this clause (ii) at the time of such issuance, transfer or other event;

(iii) Indebtedness of the Company and the Subsidiary Guarantors represented by the Senior Notes and the Subsidiary Guarantees, respectively, the Senior Subordinated Notes, the subsidiary guarantees thereof by the Subsidiary Guarantors, any Indebtedness (other than the Indebtedness described in

Table of Contents

clause (b)(ii) above) outstanding on the Issue Date and any Refinancing Indebtedness Incurred in respect of any Indebtedness described in this clause (b)(iii) or paragraph (a) above;

(iv) Purchase Money Obligations and Capitalized Lease Obligations, and any Refinancing Indebtedness with respect thereto in an aggregate outstanding principal amount at any time not to exceed the greater of (x) \$75.0 million or (y) an amount equal to 2.0% of Total Assets;

(v) Indebtedness consisting of accommodation guarantees for the benefit of trade creditors of the Company or any of its Restricted Subsidiaries;

(vi)(A) Guarantees by the Company or any Restricted Subsidiary of Indebtedness or any other obligation or liability of the Company or any Restricted Subsidiary (other than any Indebtedness Incurred by the Company or such Restricted Subsidiary, as the case may be, in violation of the covenant described under Limitation on Indebtedness), or (B) without limiting the covenant described under Limitation on Liens, Indebtedness of the Company or any Restricted Subsidiary arising by reason of any Lien granted by or applicable to such Person securing Indebtedness of the Company or any Restricted Subsidiary (other than any Indebtedness Incurred by the Company or such Restricted Subsidiary, as the case may be, in violation of the covenant described under Limitation on Indebtedness);

(vii) Indebtedness of the Company or any Restricted Subsidiary (A) arising from the honoring of a check, draft or similar instrument of such Person drawn against insufficient funds, provided that such Indebtedness is extinguished within fifteen Business Days of its Incurrence, or (B) consisting of guarantees, indemnities, obligations in respect of earnouts or other purchase price adjustments, or similar obligations, Incurred in connection with the acquisition or disposition of any business, assets or Person;

(viii) Indebtedness of the Company or any Restricted Subsidiary in respect of (A) deductible obligations, self-insurance obligations, re-insurance obligations, completion guarantees, surety, judgment, appeal or performance bonds, or other similar bonds, instruments or obligations, provided, or relating to liabilities or obligations incurred, in the ordinary course of business, or (B) Hedging Obligations entered into for bona fide hedging purposes (including, without limitation, to protect the Company or any Restricted Subsidiary from fluctuations in currency exchange rates) that are incurred in the ordinary course of business, or (C) the financing of insurance premiums in the ordinary course of business, or (D) netting, overdraft protection and other arrangements arising under standard business terms of any bank at which the Company or any Restricted Subsidiary maintains an overdraft, cash pooling or other similar facility or arrangement;

(ix) Indebtedness (A) of a Special Purpose Subsidiary secured by a Lien on all or part of the assets disposed of in, or otherwise Incurred in connection with, a Financing Disposition or (B) otherwise Incurred in connection with a Special Purpose Financing; provided that (1) such Indebtedness is not recourse to the Company or any Restricted Subsidiary that is not a Special Purpose Subsidiary (other than with respect to Special Purpose Financing Undertakings), (2) in the event such Indebtedness shall become recourse to the Company or any Restricted Subsidiary that is not a Special Purpose Subsidiary (other than with respect to Special Purpose Financing Undertakings), such Indebtedness will be deemed to be, and must be classified by the Company as, Incurred at such time (or at the time initially Incurred) under one or more of the other provisions of this covenant for so long as such Indebtedness shall be so recourse, and (3) in the event that at any time thereafter such Indebtedness shall comply with the provisions of the preceding subclause (1), the Company may classify such Indebtedness in whole or in part as Incurred under this clause (b)(ix) of this covenant;

(x) Indebtedness (including any Refinancing Indebtedness with respect any Indebtedness Incurred pursuant to this clause (x)) (x) of any Person that is assumed by the Company or any Restricted Subsidiary in connection with its acquisition of assets from such Person or any Affiliate thereof or is issued and outstanding on or prior to the date on which such Person was acquired by the Company or any Restricted Subsidiary or merged or consolidated with or into any Restricted Subsidiary or (y) of the

Table of Contents

Company or any of its Restricted Subsidiaries incurred to finance the acquisition of any Person or assets; provided that either:

(1) after giving effect to such acquisition, merger or consolidation, either:

(A) the Company would be permitted to incur at least \$1.00 of additional Indebtedness pursuant to the Consolidated Coverage Ratio test set forth in paragraph (a) of this covenant; or

(B) the Consolidated Coverage Ratio is greater than the Consolidated Coverage Ratio immediately prior to such acquisition, merger or consolidation;

(2) such Indebtedness (i) is not Secured Indebtedness and constitutes Subordinated Obligations or Guarantor Subordinated Obligations, (ii) is not incurred while a Default exists and no Default shall result therefrom, (iii) does not mature (and is not mandatorily redeemable in the case of Disqualified Stock or Preferred Stock) and does not require any payment of principal prior to the final maturity of the Senior Notes, and (iv) in the case of sub-clause (x) above only, is not incurred in contemplation of such acquisition, merger or consolidation;

provided that the aggregate principal amount of Indebtedness (excluding any Indebtedness Incurred pursuant to this clause (b)(x) that was not incurred to finance the acquisition of any Person or assets) at any time outstanding Incurred under this clause (b)(x) (including any Refinancing Indebtedness with respect thereto) by any Restricted Subsidiaries that are not Subsidiary Guarantors shall not exceed \$100.0 million in the aggregate;

(xi) in addition to the items referred to in clauses (b)(i) through (b)(x) above, Indebtedness of the Company or any Restricted Subsidiary in an aggregate outstanding principal amount at any time not to exceed an amount equal to the greater of (x) \$100.0 million and (y) 2.75% of Total Assets;

(xii) Indebtedness of one or more Foreign Subsidiaries and guarantees thereof by the Company in an aggregate outstanding principal amount at any time not to exceed an amount equal to the greater of (x) the sum of (1) \$50.0 million for Foreign Subsidiaries and (2) \$25.0 million for Canadian Subsidiaries or (y) 2.00% of Total Assets;

(xiii) Indebtedness in connection with the Atlanta IRB Transaction and any Refinancing Indebtedness with respect thereto;

(xiv) Indebtedness consisting of promissory notes issued to present or former officers, directors or employees of any the Company or any Restricted Subsidiary upon the death, disability, retirement or termination of employment or service of such officer, director or employee or otherwise to finance the purchase or redemption of Equity Interests of the Company or any Parent, to the extent the applicable Restricted Payment is permitted by clause (b)(x) of the covenant described under **Certain Covenants Limitation on Restricted Payments** ;

(xv) Indebtedness of the Company or any Restricted Subsidiary equal to 200.0% of the Net Cash Proceeds received by the Company as capital contributions to the Company after the Issue Date or from the issuance or sale (other than to a Restricted Subsidiary) of its Equity Interests (other than Disqualified Stock) after the Issue Date as determined in accordance with clause (a)(3)(B) of the covenant described under **Certain Covenants Limitation on Restricted Payments**, to the extent such Net Cash Proceeds have not been applied to make Restricted Payments or to make other Investments, payments or exchanges pursuant to the covenant described under **Certain Covenants Limitation on Restricted Payments** or to make Permitted Investments (other than Permitted Investments specified in clauses (i) and (ii) of the definition thereof); and

(xvi) Indebtedness incurred by the Company or any of its Restricted Subsidiaries constituting reimbursement obligations with respect to letters of credit issued in the ordinary course of business, including letters of credit in respect of workers' compensation claims, health, disability or other employee benefits or property, casualty or liability insurance or self-insurance, or other Indebtedness

with respect to reimbursement type obligations regarding workers' compensation claims; provided, however, that upon the drawing of such letters of credit or the incurrence of such Indebtedness, such obligations are reimbursed within 30 days following such drawing or incurrence.

(c) For purposes of determining compliance with, and the outstanding principal amount of any particular Indebtedness Incurred pursuant to and in compliance with, this covenant, (i) any other obligation of the obligor on such Indebtedness (or of any other Person who could have Incurred such Indebtedness under this covenant) arising under any Guarantee, Lien or letter of credit, bankers' acceptance or other similar instrument or obligation supporting such Indebtedness shall be disregarded to the extent that such Guarantee, Lien or letter of credit, bankers' acceptance or other similar instrument or obligation secures the principal amount of such Indebtedness; (ii) in the event that Indebtedness meets the criteria of more than one of the types of Indebtedness described in paragraphs (a) or (b) above, the Company, in its sole discretion, shall classify such item of Indebtedness and may include the amount and type of such Indebtedness in one or more of such clauses (including in part under one such clause and in part under another such clause), and may reclassify such item of Indebtedness in any manner that complies with this covenant and only be required to include the amount and type of such Indebtedness in one of such clauses; (iii) if obligations in respect of letters of credit are Incurred pursuant to a Credit Facility and are being treated as Incurred pursuant to clause (i) of paragraph (b) above and the letters of credit relate to other Indebtedness, then such other Indebtedness shall not be included; and (iv) the amount of Indebtedness issued at a price that is less than the principal amount thereof shall be equal to the amount of the liability in respect thereof determined in accordance with GAAP.

(d) For purposes of determining compliance with any Dollar-denominated restriction on the Incurrence of Indebtedness denominated in a foreign currency, the Dollar-equivalent principal amount of such Indebtedness Incurred pursuant thereto shall be calculated based on the relevant currency exchange rate in effect on the date that such Indebtedness was Incurred, in the case of term Indebtedness, or first committed, in the case of revolving credit Indebtedness, provided that (x) the Dollar-equivalent principal amount of any such Indebtedness outstanding on the Issue Date shall be calculated based on the relevant currency exchange rate in effect on the Issue Date, (y) if such Indebtedness is Incurred to refinance other Indebtedness denominated in a foreign currency (or in a different currency from such Indebtedness so being Incurred), and such refinancing would cause the applicable Dollar-denominated restriction to be exceeded if calculated at the relevant currency exchange rate in effect on the date of such refinancing, such Dollar-denominated restriction shall be deemed not to have been exceeded so long as the principal amount of such refinancing Indebtedness does not exceed (i) the outstanding or committed principal amount (whichever is higher) of such Indebtedness being refinanced plus (ii) the aggregate amount of fees, underwriting discounts, premiums and other costs and expenses incurred in connection with such refinancing, and (z) the Dollar-equivalent principal amount of Indebtedness denominated in a foreign currency and Incurred pursuant to a Senior Credit Facility shall be calculated based on the relevant currency exchange rate in effect on, at the Company's option, (i) the Issue Date, (ii) any date on which any of the respective commitments under such Senior Credit Facility shall be reallocated between or among facilities or subfacilities thereunder, or on which such rate is otherwise calculated for any purpose thereunder, or (iii) the date of such Incurrence. The principal amount of any Indebtedness Incurred to refinance other Indebtedness, if Incurred in a different currency from the Indebtedness being refinanced, shall be calculated based on the currency exchange rate applicable to the currencies in which such respective Indebtedness is denominated that is in effect on the date of such refinancing.

Limitation on Restricted Payments

The Indentures provide as follows:

(a) The Company shall not, and shall not permit any Restricted Subsidiary, directly or indirectly, to (i) declare or pay any dividend or make any distribution on or in respect of its Equity Interests (including any such payment in connection with any merger or consolidation to which the Company is a party) except (x) dividends or distributions payable solely in its Equity Interests (other than Disqualified Stock) and

(y) dividends or distributions payable to the Company or any Restricted Subsidiary (and, in the case of any such Restricted Subsidiary making such dividend or distribution, to other holders of its Equity Interests on no more than a pro rata basis), (ii) purchase, redeem, retire or otherwise acquire for value any Equity Interests of the Company held by Persons other than the Company or a Restricted Subsidiary, (iii) voluntarily purchase, repurchase, redeem, defease or otherwise voluntarily acquire or retire for value, prior to scheduled maturity, scheduled repayment or scheduled sinking fund payment, any Subordinated Obligations (other than a purchase, repurchase, redemption, defeasance or other acquisition or retirement for value in anticipation of satisfying a sinking fund obligation, principal installment or final maturity, in each case due within one year of the date of such acquisition or retirement) or (iv) make any Investment (other than a Permitted Investment) in any Person (any such dividend, distribution, purchase, repurchase, redemption, defeasance, other acquisition or retirement or Investment being herein referred to as a Restricted Payment), if at the time the Company or such Restricted Subsidiary makes such Restricted Payment and after giving effect thereto:

(1) a Default shall have occurred and be continuing (or would result therefrom);

(2) the Company could not Incur at least an additional \$1.00 of Indebtedness pursuant to paragraph (a) of the covenant described under Limitation on Indebtedness ; or

(3) the aggregate amount of such Restricted Payment and all other Restricted Payments (the amount so expended, if other than in cash, to be as determined in good faith by the Board of Directors, whose determination shall be conclusive and evidenced by a resolution of the Board of Directors) declared or made subsequent to the Issue Date and then outstanding would exceed, without duplication, the sum of:

(A) 50% of the Consolidated Net Income accrued during the period (treated as one accounting period) beginning on the first day of the Company s fiscal quarter in which the Issue Date occurred to the end of the most recent fiscal quarter ending prior to the date of such Restricted Payment for which Consolidated Financial Statements of the Company are available (or, in case such Consolidated Net Income shall be a negative number, 100% of such negative number);

(B) 100% of the aggregate Net Cash Proceeds and the fair value (as determined in good faith by the Board of Directors) of property or assets received (x) by the Company as capital contributions to the Company after the Issue Date or from the issuance or sale (other than to a Restricted Subsidiary) of its Equity Interests (other than Disqualified Stock) after the Issue Date or (y) by the Company or any Restricted Subsidiary from the issuance and sale by the Company or any Restricted Subsidiary of Indebtedness that shall have been converted into or exchanged after the Issue Date for Equity Interests of the Company or any Parent (other than Disqualified Stock), plus the amount of any cash and the fair value (as determined in good faith by the Board of Directors) of any property or assets, received by the Company or any Restricted Subsidiary upon such conversion or exchange; provided that this clause (B) shall not include such Net Cash Proceeds to the extent that the Company or any of its Restricted Subsidiaries Incurs Indebtedness pursuant to clause (b)(xv) of the covenant described under Certain Covenants Limitation on Indebtedness based on such Net Cash Proceeds;

(C) the aggregate amount equal to the net reduction in Investments in Unrestricted Subsidiaries resulting from (i) dividends, distributions, cancellation of indebtedness for borrowed money owed by the Company or any Restricted Subsidiary to an Unrestricted Subsidiary, interest payments, return of capital, repayments of Investments or other transfers of assets to the Company or any Restricted Subsidiary from any Unrestricted Subsidiary, including dividends or other distributions related to dividends or other distributions made pursuant to clause (vii) of the following paragraph (b) (but only to the extent such amount is not included in Consolidated Net Income), or (ii) the redesignation of any Unrestricted Subsidiary as a Restricted Subsidiary (valued in each case as provided in the definition of Investment), not to exceed in the case of

any such Unrestricted Subsidiary the aggregate amount of Investments (other than Permitted Investments) made by the Company or any Restricted Subsidiary in such Unrestricted Subsidiary after the Issue Date; and

(D) in the case of any disposition or repayment of any Investment constituting a Restricted Payment (without duplication of any amount deducted in calculating the amount of Investments at any time outstanding included in the amount of Restricted Payments), an amount in the aggregate equal to the lesser of the return of capital, repayment or other proceeds with respect to all such Investments received by the Company or a Restricted Subsidiary and the initial amount of all such Investments constituting Restricted Payments.

(b) The provisions of the foregoing paragraph (a) do not prohibit any of the following, so long as a Default shall not have occurred and be continuing (or would result therefrom) (each, a Permitted Payment):

(i) any purchase, redemption, repurchase, defeasance or other acquisition or retirement of Equity Interests of the Company or Subordinated Obligations made by exchange (including any such exchange pursuant to the exercise of a conversion right or privilege in connection with which cash is paid in lieu of the issuance of fractional shares) for, or out of the proceeds of the substantially concurrent, or within 45 days, issuance or sale of, Equity Interests of the Company (other than Disqualified Stock and other than Equity Interests issued or sold to a Restricted Subsidiary) or a substantially concurrent, or within 45 days, capital contribution to the Company; provided, that the Net Cash Proceeds from such issuance, sale or capital contribution shall be excluded in subsequent calculations under clause (3)(B) of the preceding paragraph (a);

(ii)(A) any purchase, redemption, repurchase, defeasance or other acquisition or retirement of Subordinated Obligations (w) made by exchange for, or out of the proceeds of the substantially concurrent issuance or sale of, Indebtedness of the Company or Refinancing Indebtedness Incurred in compliance with the covenant described under Limitation on Indebtedness, (x) from Net Available Cash to the extent permitted by the covenant described under Limitation on Sales of Assets and Subsidiary Stock, and, if required, purchased all Senior Notes tendered pursuant to the offer to repurchase all the Senior Notes required thereby prior to purchasing or repaying such Subordinated Obligations (y) following the occurrence of a Change of Control (or other similar event described therein as a Change of Control), but only if the Company shall have complied with the covenant described under Change of Control and, if required thereby, purchased all Senior Notes tendered pursuant to the offer to repurchase all the Senior Notes required thereby, prior to purchasing or repaying such Subordinated Obligations or (z) constituting Acquired Indebtedness or (B) any purchase, redemption, repurchase, defeasance or other acquisition or retirement of Disqualified Stock made by exchange for, or out of the proceeds of the substantially concurrent, or within 45 days, issuance or sale of, Disqualified Stock of the Company or Refinancing Indebtedness Incurred in compliance with the covenant described under Limitation on Indebtedness ;

(iii) dividends paid within 60 days after the date of declaration thereof if at such date of declaration such dividend would have complied with the preceding paragraph (a);

(iv) the declaration and payment of dividends on the Company's common stock following the first public Equity Offering of the Company's common stock or the common stock of any of its direct or indirect parent companies after the Issue Date, of up to 6% per annum of the Net Cash Proceeds received or contributed by the Company in or from any such Equity Offering;

(v) notwithstanding the existence of any Default or Event of Default, loans, advances, dividends or distributions to any Parent or other payments by the Company or any Restricted Subsidiary to permit such Parent to make payments pursuant to (A) any Tax Sharing Agreement, or (B) to pay or permit any Parent to pay (1) any Parent Expenses or (2) any Related Taxes;

(vi) payments by the Company, or loans, advances, dividends or distributions by the Company to any Parent to make payments, to holders of Equity Interests of the Company or any Parent in lieu of issuance of fractional shares of such Equity Interests, not to exceed \$5.0 million in the aggregate outstanding at any time;

(vii) dividends or other distributions of Equity Interests, Indebtedness or other securities of Unrestricted Subsidiaries;

(viii) the declaration and payment of dividends to holders of any class or series of Disqualified Stock, or of any Preferred Stock of a Restricted Subsidiary, Incurred in accordance with the terms of the covenant described under Certain covenants Limitation on indebtedness above;

(ix) Restricted Payments (including loans and advances) in an aggregate amount outstanding at any time not exceeding an amount (net of repayments of such loans or advances) equal to the greater of (x) \$100.0 million and (y) 2.75% of Total Assets;

(x) the purchase, redemption or other acquisition, cancellation or retirement for value of Equity Interests of the Company or any Restricted Subsidiary or any Parent held by any existing or former employees or management or directors of the Company or any Parent or any Subsidiary of the Company or their assigns, estates or heirs, in each case in connection with (x) the death or disability of such employee, manager or director or (y) the repurchase provisions under employee stock option or stock purchase agreements or other agreements to compensate management employees or directors; provided that in the case of clause (y) such redemptions or repurchases pursuant to such clause will not exceed \$20.0 million in the aggregate during any twelve-month period (which shall increase to \$40.0 million subsequent to the consummation of an underwritten public Equity Offering) plus the aggregate Net Cash Proceeds received by the Company after the Issue Date from the issuance of such Equity Interests or equity appreciation rights to, or the exercise of options, warrants or other rights to purchase or acquire Equity Interests of the Company by, any current or former director, officer or employee of the Company or any Restricted Subsidiary or from key man life insurance policies which are used to make such redemptions or repurchases; provided that the amount of such Net Cash Proceeds received by the Company and utilized pursuant to this clause (x) for any such repurchase, redemption, acquisition or retirement will be excluded from clause (a)(3)(B) of the preceding paragraph; and provided, further, that unused amounts available pursuant to this clause (x) to be utilized for Restricted Payments during any twelve-month period may be carried forward and utilized in the next succeeding twenty-four-month period; and

(xi) repurchases of Equity Interests deemed to occur upon the exercise of stock options, warrants or other convertible securities if such Equity Interests represents (i) a portion of the exercise price thereof or (ii) withholding incurred in connection with such exercise;

(xii) Restricted Payments made pursuant to, or contemplated by, or made to any Parent to permit any Parent to perform its obligations under, the Transactions, including the provisions of any Transaction Document (excluding the Senior Subordinated Notes and the Senior Subordinated Note Indenture) as in effect on the Issue Date, and as the same may be amended or replaced so long as such amendment or replacement that is not materially more disadvantageous to the Holders than the original Transaction Document as in effect on the Issue Date;

(xiii) repurchases by the Company or any Restricted Subsidiary of all (but not less than all), excluding directors qualifying shares, of the Equity Interests or other ownership interests in a Subsidiary of the Company which Equity Interests or other ownership interests were not theretofore owned by the Company or a Restricted Subsidiary of the Company;

(xiv) payments by the Company or any Restricted Subsidiary pursuant to its guarantee of AFC's customary servicing obligations in connection with the Receivables Purchase Agreement; and

(xv) Restricted Payments that are made with Excluded Contributions;

provided, that (A) in the case of clauses (iii), (iv), (v)(B), and (vi), the net amount of any such Permitted Payment shall be included in subsequent calculations of the amount of Restricted Payments (but only to the extent such amount was not included as an expense in the calculation of Consolidated Net Income), and (B) in all cases other than pursuant to clause (A) immediately above, the net amount of any such Permitted Payment shall be excluded in subsequent calculations of the amount of Restricted Payments.

Limitation on Restrictions on Distributions from Restricted Subsidiaries.

The Indentures provide that the Company will not, and will not permit any Restricted Subsidiary to, create or otherwise cause to exist or become effective any consensual encumbrance or restriction on the ability of any Restricted Subsidiary to (i) pay dividends or make any other distributions on its Equity Interests or pay any Indebtedness or other obligations owed to the Company, (ii) make any loans or advances to the Company or (iii) transfer any of its property or assets to the Company (provided that dividend or liquidation priority between classes of Equity Interests, or subordination of any obligation (including the application of any remedy bars thereto) to any other obligation, will not be deemed to constitute such an encumbrance or restriction), except any encumbrance or restriction:

- (1) pursuant to any agreement in effect at or entered into on the Issue Date, including, without limitation, the Indentures, the Senior Notes, the Senior Subordinated Note Indenture, the Senior Subordinated Notes, the Senior Credit Facility or any other Credit Facility;
- (2) pursuant to any agreement or instrument of a Person, or relating to Indebtedness or Equity Interests of a Person, which Person is acquired by or merged or consolidated with or into the Company or any Restricted Subsidiary, or which agreement or instrument is assumed by the Company or any Restricted Subsidiary in connection with an acquisition of assets from such Person, as in effect at the time of such acquisition, merger or consolidation (except to the extent that such Indebtedness was incurred to finance, or otherwise in connection with, such acquisition, merger or consolidation); provided that for purposes of this clause (2), if a Person other than the Company is the Successor Company with respect thereto, any Subsidiary thereof or agreement or instrument of such Person or any such Subsidiary shall be deemed acquired or assumed, as the case may be, by the Company or a Restricted Subsidiary, as the case may be, when such Person becomes such Successor Company;
- (3) pursuant to an agreement or instrument (a Refinancing Agreement) effecting a refinancing of Indebtedness Incurred pursuant to, or that otherwise extends, renews, refunds, refinances or replaces, an agreement or instrument referred to in clause (1) or (2) of this covenant or this clause (3) (an Initial Agreement) or contained in any amendment, supplement or other modification to an Initial Agreement (an Amendment); provided, however, that the encumbrances and restrictions contained in any such Refinancing Agreement or Amendment taken as a whole are not materially less favorable to the Holders of the applicable Senior Notes than encumbrances and restrictions contained in the Initial Agreement or Initial Agreements to which such Refinancing Agreement or Amendment relates (as determined in good faith by the Company);
- (4)(A) that restricts in a customary manner the subletting, assignment or transfer of any property or asset that is subject to a lease, license or similar contract, or the assignment or transfer of any lease, license or other contract, (B) by virtue of any transfer of, agreement to transfer, option or right with respect to, or Lien on, any property or assets of the Company or any Restricted Subsidiary not otherwise prohibited by the applicable Indenture, (C) contained in mortgages, pledges or other security agreements securing Indebtedness of a Restricted Subsidiary to the extent restricting the transfer of the property or assets subject thereto, (D) pursuant to customary provisions restricting dispositions of real property interests set forth in any reciprocal easement agreements of the Company or any Restricted Subsidiary, (E) pursuant to Purchase Money Obligations that impose encumbrances or restrictions on the property or assets so acquired, (F) on cash or other deposits or net worth imposed by customers or suppliers under agreements entered into in the ordinary course of business, (G) pursuant to customary provisions contained in agreements and instruments entered into in the ordinary course of business (including but not limited to leases, sale and leaseback

agreements, asset sale agreements and joint venture and other similar agreements entered into in the ordinary course of business), (H) that arises or is agreed to in the ordinary course of business and does not detract from the value of property or assets of the Company or any Restricted Subsidiary in any manner material to the Company or such Restricted Subsidiary, or (I) pursuant to Hedging Obligations;

(5) with respect to a Restricted Subsidiary (or any of its property or assets) imposed pursuant to an agreement entered into for the direct or indirect sale or disposition of all or substantially all the Equity Interests or assets of such Restricted Subsidiary (or the property or assets that are subject to such restriction) pending the closing of such sale or disposition;

(6) by reason of any applicable law, rule, regulation or order, or required by any regulatory authority having jurisdiction over the Company or any Restricted Subsidiary or any of their businesses; or

(7) pursuant to an agreement or instrument (A) relating to any Indebtedness permitted to be Incurred subsequent to the Issue Date pursuant to the provisions of the covenant described under **Limitation on indebtedness** (i) if the encumbrances and restrictions contained in any such agreement or instrument taken as a whole are not less favorable to the Holders of the applicable Senior Notes than the encumbrances and restrictions contained in the Initial Agreements (as determined in good faith by the Company), or (ii) if such encumbrance or restriction is not materially more disadvantageous to the Holders of the applicable Senior Notes than is customary in comparable financings (as determined in good faith by the Company) and either (x) the Company determines in good faith that such encumbrance or restriction will not materially affect the Company's ability to make principal or interest payments on the applicable Senior Notes or (y) such encumbrance or restriction applies only if a default occurs in respect of a payment or financial covenant relating to such Indebtedness or (B) of, or relating to Indebtedness of or a Financing Disposition by or to or in favor of, any Special Purpose Entity.

Limitation on Sales of Assets and Subsidiary Stock

The Indentures provide as follows:

(a) The Company will not, and will not permit any Restricted Subsidiary to, make any Asset Disposition unless

(i) the Company or such Restricted Subsidiary receives consideration (including by way of relief from, or by any other Person assuming responsibility for, any liabilities, contingent or otherwise) at the time of such Asset Disposition at least equal to the fair market value of the shares and assets subject to such Asset Disposition, as such fair market value may be determined (and shall be determined, to the extent such Asset Disposition or any series of related Asset Dispositions involves aggregate consideration in excess of \$25.0 million) in good faith by the Board of Directors, whose determination shall be conclusive (including as to the value of all noncash consideration);

(ii) in the case of any Asset Disposition (or series of related Asset Dispositions) having a fair market value of \$25.0 million or more, at least 75% of the consideration therefor (excluding, in the case of an Asset Disposition (or series of related Asset Dispositions), any consideration by way of relief from, or by any other Person assuming responsibility for, any liabilities, contingent or otherwise, that are not Indebtedness) received by the Company or such Restricted Subsidiary is in the form of cash; and

(iii) an amount equal to 100% of the Net Available Cash from such Asset Disposition is applied by the Company (or any Restricted Subsidiary, as the case may be) as follows:

(A) first, either (x) to the extent the Company elects (or is required by the terms of (1) any Bank Indebtedness, (2) any secured Indebtedness of the Company or any Subsidiary Guarantor or (3) any Indebtedness of a Restricted Subsidiary that is not a Subsidiary Guarantor), to prepay, repay or purchase any such Indebtedness or (in the case of letters of credit, bankers' acceptances or other similar instruments) cash collateralize any such Indebtedness (in each case other than

Indebtedness owed to the Company or a Restricted Subsidiary) within 360 days after the later of the date of such Asset Disposition and the date of receipt of such Net Available Cash, or (y) to the extent the Company or such Restricted Subsidiary elects, to invest in Additional Assets (including by means of an investment in Additional Assets by a Restricted Subsidiary with an amount equal to Net Available Cash received by the Company or another Restricted Subsidiary) within 360 days from the later of the date of such Asset Disposition and the date of receipt of such Net Available Cash, or, if such investment in Additional Assets is a project authorized by the Board of Directors that will take longer than such 360 days to complete, the period of time necessary to complete such project;

(B) second, if the balance of such Net Available Cash after application in accordance with clause (A) above (and after the expiration of the maximum period for such application permitted by clause (A)) exceeds \$20.0 million, (such balance, the Excess Proceeds), to the extent of such Excess Proceeds, to make an offer to purchase Senior Notes and (to the extent the Company or such Restricted Subsidiary elects, or is required by the terms thereof) to purchase, redeem or repay any other unsubordinated indebtedness of the Company or a Restricted Subsidiary, pursuant and subject to the conditions of the Indentures and the agreements governing such other Indebtedness; and

(C) third, to the extent of the balance of such Net Available Cash after application in accordance with clauses (A) and (B) above, to fund (to the extent consistent with any other applicable provision of the Indentures) any general corporate purpose (including but not limited to the repurchase, repayment or other acquisition or retirement of any Subordinated Obligations);

provided, however, that in connection with any prepayment, repayment or purchase of Indebtedness pursuant to clause (A)(x) or (B) above, the Company or such Restricted Subsidiary will retire such Indebtedness and will cause the related loan commitment (if any) to be permanently reduced in an amount equal to the principal amount so prepaid, repaid or purchased.

Notwithstanding the foregoing provisions of this covenant, the Company and the Restricted Subsidiaries shall not be required to apply any Net Available Cash or equivalent amount in accordance with this covenant except to the extent that the aggregate Net Available Cash from all Asset Dispositions or equivalent amount that is not applied in accordance with this covenant exceeds \$50.0 million. If the aggregate principal amount of Senior Notes or other unsubordinated Indebtedness of the Company or a Restricted Subsidiary validly tendered and not withdrawn (or otherwise subject to purchase, redemption or repayment) in connection with an offer pursuant to clause (B) above exceeds the Excess Proceeds, the Excess Proceeds will be apportioned between such Senior Notes and such other Indebtedness of the Company or a Restricted Subsidiary, with the portion of the Excess Proceeds payable in respect of such Senior Notes to equal the lesser of (x) the Excess Proceeds amount multiplied by a fraction, the numerator of which is the outstanding principal amount of such Senior Notes and the denominator of which is the sum of the outstanding principal amount of the Senior Notes and the outstanding principal amount of the relevant other Indebtedness of the Company or a Restricted Subsidiary, and (y) the aggregate principal amount of Senior Notes validly tendered and not withdrawn.

For the purposes of clause (ii) of paragraph (a) above, the following are deemed to be cash: (1) Temporary Cash Investments and Cash Equivalents, (2) the assumption of Indebtedness of the Company (other than Disqualified Stock of the Company) or any Restricted Subsidiary and the release of the Company or such Restricted Subsidiary from all liability on payment of the principal amount of such Indebtedness in connection with such Asset Disposition, (3) Indebtedness of any Restricted Subsidiary that is no longer a Restricted Subsidiary as a result of such Asset Disposition, to the extent that the Company and each other Restricted Subsidiary are released from any Guarantee of payment of the principal amount of such Indebtedness in connection with such Asset Disposition, (4) securities received by the Company or any Restricted Subsidiary from the transferee that are converted by the Company or such Restricted Subsidiary into cash within 180 days, (5) consideration consisting of Indebtedness of the Company or any Restricted Subsidiary and (6) any Designated Noncash Consideration received by the Company or any Restricted Subsidiary in such Asset Disposition having

an aggregate Fair Market Value, taken together with all other Designated Noncash Consideration received pursuant to this covenant that is at that time outstanding, not to exceed the greater of (x) \$50.0 million or (y) 1.25% of Total Assets at the time of the receipt of such Designated Noncash Consideration (with the Fair Market Value being measured at the time received and without giving effect to subsequent changes in value).

(b) In the event of an Asset Disposition that requires the purchase of Senior Notes pursuant to clause (iii)(B) of paragraph (a) above, the Company will be required to purchase Senior Notes tendered pursuant to an offer by the Company for the applicable Senior Notes (the Offer) at a purchase price of 100% of their principal amount plus accrued and unpaid interest to the Purchase Date in accordance with the procedures (including prorating in the event of oversubscription) set forth in the Indentures. If the aggregate purchase price of the applicable Senior Notes tendered pursuant to the Offer is less than the Net Available Cash allotted to the purchase of applicable Senior Notes, the remaining Net Available Cash will be available to the Company for use in accordance with clause (iii)(B) of paragraph (a) above (to repay other Indebtedness of the Company or a Restricted Subsidiary) or clause (iii)(C) of paragraph (a) above. The Company shall not be required to make an Offer for Senior Notes pursuant to this covenant if the Net Available Cash available therefor (after application of the proceeds as provided in clause (iii)(A) of paragraph (a) above) is less than \$50.0 million for any particular Asset Disposition (which lesser amounts shall be carried forward for purposes of determining whether an Offer is required with respect to the Net Available Cash from any subsequent Asset Disposition). No Note will be repurchased in part if less than the Minimum Denomination in original principal amount.

(c) Pending the final application of any Net Proceeds pursuant to this covenant, such Net Available Cash may be applied to temporarily to reduce Indebtedness outstanding under a revolving credit facility or otherwise invest such Net Available Cash in any manner not prohibited by the applicable Indenture.

(d) To the extent that the provisions of any securities laws or regulations conflict with provisions of this Limitation on Sales of Assets and Subsidiary Stock covenant, the Company may comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations hereunder by virtue thereof.

Limitation on Transactions with Affiliates

The Indentures provide as follows:

(a) The Company will not, and will not permit any Restricted Subsidiary to, directly or indirectly, enter into or conduct any transaction or series of related transactions (including the purchase, sale, lease or exchange of any property or the rendering of any service) with any Affiliate of the Company (an Affiliate Transaction) unless:

(i) such Affiliate Transaction is entered into in good faith and the terms of such Affiliate Transaction are, taken as a whole, fair and reasonable to the Company or such Restricted Subsidiary; and

(ii) if such Affiliate Transaction involves aggregate consideration in excess of \$25.0 million, the terms of such Affiliate Transaction have been approved by a majority of the Disinterested Directors.

For purposes of this paragraph, any Affiliate Transaction shall be deemed to have satisfied the requirements set forth in this paragraph if (x) such Affiliate Transaction is approved by a majority of the Disinterested Directors or (y) in the event there are no Disinterested Directors, the Company or such Restricted Subsidiary receives an opinion in customary form from a nationally recognized appraisal or investment banking firm to the effect that such Affiliate Transaction is fair to the Company or such Restricted Subsidiary from a financial point of view.

(b) The provisions of the preceding paragraph (a) will not apply to:

(i) any Restricted Payment Transaction;

(ii)(1) the entering into, maintaining or performance of any employment contract, collective bargaining agreement, benefit plan, program or arrangement, related trust agreement or any other similar arrangement for or with any employee, officer or director heretofore or hereafter entered into in the ordinary course of business, including vacation, health, insurance, deferred compensation, severance, retirement, savings or other similar plans, programs or arrangements, (2) the payment of compensation, performance of indemnification or contribution obligations, or any issuance, grant or award of stock, options, other equity-related interests or other securities, to employees, officers or directors in the ordinary course of business, (3) the payment of reasonable fees to directors of the Company or any of its Subsidiaries (as determined in good faith by the Company or such Subsidiary) or (4) Management Advances and payments in respect thereof (or in reimbursement of any expenses referred to in the definition of such term);

(iii) any transaction with, including an Investment in, the Company or any Restricted Subsidiary;

(iv) any transaction arising out of and any payments made pursuant to agreements or instruments in existence on the Issue Date (other than any Tax Sharing Agreement referred to in clause (b)(vi) of this covenant), including, without limitation, the Transaction Documents, and as the same may be amended, modified, supplemented or replaced from time to time so long as such amendment, modification, supplement or replacement is not materially more disadvantageous to the Holders than the original agreement or instrument as in effect on the Issue Date;

(v) any transaction in the ordinary course of business, or approved by a majority of the Board of Directors, between the Company or any Restricted Subsidiary and any Affiliate of the Company controlled by the Company that is a joint venture or similar entity;

(vi) the execution, delivery and performance of any Tax Sharing Agreement;

(vii) any issuance or sale of Equity Interests (other than Disqualified Stock) of the Company (and the granting of registration rights or other customary rights in connection therewith) or capital contribution to the Company;

(viii) transactions with Affiliates solely in their capacity as holders of Indebtedness or Equity Interests of the Company or any of its Subsidiaries, where such Affiliates hold less Indebtedness or Equity Interests than non-Affiliates and such Affiliates receive the same consideration as non-Affiliates in such transactions;

(ix) any transaction with any Person who is not an Affiliate immediately before the consummation of such transaction that becomes an Affiliate as a result of such transaction;

(x) transactions between the Company or any Restricted Subsidiary and any Special Purpose Subsidiary in connection with a Financing Disposition or a Special Purpose Financing, provided that such transactions are not otherwise prohibited by the applicable Indenture;

(xi) transactions exclusively between or among the Company and any of its Restricted Subsidiaries, provided such transactions are not otherwise prohibited by the Indentures;

(xii) transactions involving aggregate consideration not to exceed \$1.0 million;

(xiii) payments by the Company or any Restricted Subsidiary to any Permitted Holder or any of its affiliates for any financial advisory, financing, underwriting or placement services or in respect of other investment banking activities, including in connection with acquisition or divestitures, which payments are approved by a majority of the members of the Board of Directors; and

(xiv) transactions with customers, clients, suppliers or purchasers or sellers of goods or services, in each case in the ordinary course of business or that are on terms at least as favorable to the Company and its Restricted Subsidiaries as might reasonably have been obtained at such time from an unaffiliated party, or that are considered fair to the Company and its Restricted Subsidiaries in the view of a majority of the members of the Board of Directors or the senior management of the Company.

Limitation on Liens

The Indentures provide that the Company shall not, and shall not permit any Restricted Subsidiary to, directly or indirectly, create or permit to exist any Lien (other than Permitted Liens) on any of its property or assets (including Equity Interests of any other Person), whether owned on the Issue Date or thereafter acquired, securing any Indebtedness (the Initial Lien), unless contemporaneously therewith effective provision is made to secure the Indebtedness due under the Indentures and the Senior Notes or, in respect of Liens on any Restricted Subsidiary's property or assets, any Subsidiary Guarantee of such Restricted Subsidiary, equally and ratably with (or on a senior basis to, in the case of Subordinated Obligations or Guarantor Subordinated Obligations) such obligation for so long as such obligation is so secured by such Initial Lien. Any such Lien thereby created in favor of the Senior Notes or any such Subsidiary Guarantee will be automatically and unconditionally released and discharged upon (i) the release and discharge of the Initial Lien to which it relates, (ii) in the case of any such Lien in favor of any such Subsidiary Guarantee, upon the termination and discharge of such Subsidiary Guarantee in accordance with the terms of the Indentures or (iii) any sale, exchange or transfer (other than a transfer constituting a transfer of all or substantially all of the assets of the Company that is governed by the provisions of the covenant described under Merger and Consolidation below) to any Person not an Affiliate of the Company of the property or assets secured by such Initial Lien, or of all of the Equity Interests held by the Company or any Restricted Subsidiary in, or all or substantially all the assets of, any Restricted Subsidiary creating such Initial Lien.

Future Subsidiary Guarantors

As set forth more particularly under Subsidiary Guarantees, the Indentures provide that the Company will cause each Subsidiary that guarantees payment by the Company of any Indebtedness of the Company under the Senior Credit Facilities to execute and deliver to the Trustees a supplemental indenture or other instrument pursuant to which such Subsidiary will guarantee payment of the Senior Notes, whereupon such Subsidiary will become a Subsidiary Guarantor for all purposes under the Indentures. The Company will also have the right to cause any other Subsidiary so to guarantee payment of the Senior Notes. Subsidiary Guarantees will be subject to release and discharge under certain circumstances prior to payment in full of the Senior Notes. See Subsidiary Guarantees.

SEC Reports

The Indentures provide that, following consummation of the Exchange Offer, notwithstanding that the Company may not be required to be or remain subject to the reporting requirements of Section 13(a) or 15(d) of the Exchange Act, the Company will file with the SEC (unless such filing is not permitted under the Exchange Act or by the SEC), so long as any Notes are outstanding, the annual reports, information, documents and other reports that the Company is required to file with the SEC pursuant to such Section 13(a) or 15(d) or would be so required to file if the Company were so subject within the time periods specified above. The Company will also, within 15 days after the time periods specified above, transmit by mail to all applicable Holders, as their names and addresses appear in the applicable Note Register, and to the Trustees (or make available on a Company website) copies of any such information, documents and reports (without exhibits) so required to be filed.

The Company will be deemed to have satisfied the requirements of this covenant if any Parent files with the SEC and provides reports, documents and information of the types otherwise so required, in each case within the applicable time periods specified by the applicable rules and regulations of the SEC, and the Company is not required to file such reports, documents and information separately under the applicable rules and regulations of the SEC (after giving effect to any exemptive relief) because of the filings by such Parent. The Company will comply with the other provisions of TIA § 314(a).

Notwithstanding the foregoing, the requirements of this covenant shall be deemed satisfied prior to the commencement of the exchange offer or the effectiveness of the shelf registration statement described in the Registration Rights Agreement (1) by the filing with the SEC of the exchange offer registration statement or

shelf registration statement (or any other similar registration statement), and any amendments thereto, with such financial information that satisfies Regulation S-X, subject to exceptions consistent with the presentation of financial information in this prospectus, to the extent filed within the times specified above, or (2) by posting on the Company's website (or that of any of its parent companies) or providing such reports to the Trustee within 15 days after the time periods specified above, the financial information (including a Management's Discussion and Analysis of Results of Operations and Financial Condition section) that would be required to be included in such reports, subject to exceptions consistent with the presentation of financial information in this prospectus. Notwithstanding anything herein to the contrary, the Company will not be deemed to have failed to comply with any of its agreements set forth under this covenant for purposes of clause (v) under Defaults until 120 days after the date any report required to be provided by this covenant is due.

Merger and Consolidation

The Indentures provide that the Company will not consolidate with or merge with or into, or convey, transfer or lease all or substantially all its assets to, any Person, unless:

(i) the resulting, surviving or transferee Person (the Successor Company) will be a Person organized and existing under the laws of the United States of America, any State thereof or the District of Columbia and the Successor Company (if not the Company) will expressly assume all the obligations of the Company under the applicable Senior Notes and the Indentures by executing and delivering to the applicable Trustee a supplemental indenture or one or more other documents or instruments in form reasonably satisfactory to such Trustee;

(ii) immediately after giving effect to such transaction (and treating any Indebtedness that becomes an obligation of the Successor Company or any Restricted Subsidiary as a result of such transaction as having been Incurred by the Successor Company or such Restricted Subsidiary at the time of such transaction), no Default will have occurred and be continuing;

(iii) immediately after giving effect to such transaction, either (A) the Successor Company could Incur at least \$1.00 of additional Indebtedness pursuant to paragraph (a) of the covenant described under Certain Covenants Limitation on Indebtedness, or (B) the Consolidated Coverage Ratio of the Company (or, if applicable, the Successor Company with respect thereto) would equal or exceed the Consolidated Coverage Ratio of the Company immediately prior to giving effect to such transaction;

(iv) each applicable Subsidiary Guarantor (other than (x) any Subsidiary Guarantor that will be released from its obligations under its Subsidiary Guarantee in connection with such transaction and (y) any party to any such consolidation or merger) shall have delivered a supplemental indenture or other document or instrument in form reasonably satisfactory to the Trustees, confirming its Subsidiary Guarantee (other than any Subsidiary Guarantee that will be discharged or terminated in connection with such transaction); and

(v) the Company will have delivered to each such Trustee an Officer's Certificate and an Opinion of Counsel, each to the effect that such consolidation, merger or transfer complies with the provisions described in this covenant, provided that (x) in giving such opinion such counsel may assume compliance with the foregoing clauses (ii) and (iii) to the extent such opinion would otherwise be required to address financial matters or tests and, as to any matters of fact, may rely on an Officer's Certificate, and (y) no Opinion of Counsel will be required for a consolidation, merger or transfer described in the last paragraph of this covenant.

Any Indebtedness that becomes an obligation of the Company or any Restricted Subsidiary (or that is deemed to be Incurred by any Person that becomes a Restricted Subsidiary) as a result of any such transaction undertaken in compliance with this covenant, and any Refinancing Indebtedness with respect thereto, shall be deemed to have been Incurred in compliance with the covenant described under Certain Covenants Limitation on Indebtedness.

Table of Contents

The Successor Company will succeed to, and be substituted for, and may exercise every right and power of, the Company under the Indentures, and thereafter the predecessor Company shall be relieved of all obligations and covenants under the Indentures, except that the predecessor Company in the case of a lease of all or substantially all its assets will not be released from the obligation to pay the principal of and interest on the Senior Notes.

Clauses (ii) and (iii) of the first paragraph of this Merger and Consolidation covenant will not apply to any transaction in which (1) any Restricted Subsidiary consolidates with, merges with or into or conveys or transfers all or part of its assets to the Company or (2) the Company consolidates with or merges with or into or conveys or transfers all or substantially all its properties and assets to (x) an Affiliate incorporated or organized for the purpose of reincorporating or reorganizing the Company in another jurisdiction or changing its legal structure to a corporation or other entity or (y) a Restricted Subsidiary of the Company so long as all assets of the Company and the Restricted Subsidiaries immediately prior to such transaction (other than Equity Interests of such Restricted Subsidiary) are owned by such Restricted Subsidiary and its Restricted Subsidiaries immediately after the consummation thereof.

Defaults

An Event of Default is defined in the Indentures as:

- (i) a default in any payment of interest on any applicable Note when due, continued for 30 days;
- (ii) a default in the payment of principal of any applicable Note when due, whether at its Stated Maturity, upon optional redemption, upon required repurchase, upon declaration of acceleration or otherwise;
- (iii) the failure by the Company or any Subsidiary Guarantor to comply with its obligations under the first paragraph of the covenant described under Merger and Consolidation above;
- (iv) the failure by the Company or any Subsidiary Guarantor to comply for 30 days after notice with any of its obligations under the covenant described under Change of Control above (other than a failure to purchase Senior Notes);
- (v) the failure by the Company or any Subsidiary Guarantor to comply for 60 days after notice with its other agreements contained in the applicable Senior Notes or the applicable Indenture;
- (vi) the failure by the Company or any Restricted Subsidiary to pay any Indebtedness within any applicable grace period after final maturity or the acceleration of any such Indebtedness by the holders thereof because of a default, if the total amount of such Indebtedness so unpaid or accelerated exceeds \$50.0 million or its foreign currency equivalent;
- (vii) certain events of bankruptcy, insolvency or reorganization of the Company or a Significant Subsidiary, or of other Restricted Subsidiaries that are not Significant Subsidiaries but would in the aggregate constitute a Significant Subsidiary if considered as a single Person (the bankruptcy provisions);
- (viii) the rendering of any judgment or decree for the payment of money in an amount (net of any insurance or indemnity payments actually received in respect thereof prior to or within 60 days from the entry thereof, or to be received in respect thereof in the event any appeal thereof shall be unsuccessful) in excess of \$50.0 million or its foreign currency equivalent against the Company or a Significant Subsidiary, or jointly and severally against other Restricted Subsidiaries that are not Significant Subsidiaries but would in the aggregate constitute a Significant Subsidiary if considered as a single Person, that is not discharged, or bonded or insured by a third Person, if such judgment or decree remains outstanding for a period of 60 days following such judgment or decree and is not discharged, waived or stayed (the judgment default provision);
or

Table of Contents

(ix) the failure of any applicable Subsidiary Guarantee by a Subsidiary Guarantor that is a Significant Subsidiary to be in full force and effect (except as contemplated by the terms thereof or of the Indentures) or the denial or disaffirmation in writing by any applicable Subsidiary Guarantor that is a Significant Subsidiary of its obligations under the applicable Indenture or any applicable Subsidiary Guarantee.

The foregoing constitutes Events of Default whatever the reason for any such Event of Default and whether it is voluntary or involuntary or is effected by operation of law or pursuant to any judgment, decree or order of any court or any order, rule or regulation of any administrative or governmental body.

However, a Default under clause (iv) or (v) will not constitute an Event of Default until the applicable Trustee or the Holders of at least 30% in principal amount of the outstanding Senior Notes of the applicable class notify the Company of the Default and the Company does not cure such Default within the time specified in such clause after receipt of such notice.

If an Event of Default (other than a Default relating to certain events of bankruptcy, insolvency or reorganization of the Company) occurs and is continuing the applicable Trustee by notice to the Company, or the Holders of at least 30% in principal amount of the outstanding Senior Notes of the applicable class by notice to the Company and the applicable Trustee, may declare the principal of and accrued but unpaid interest on all applicable Senior Notes to be due and payable. Upon the effectiveness of such a declaration, such principal and interest will be due and payable immediately.

Notwithstanding the foregoing, if an Event of Default relating to certain events of bankruptcy, insolvency or reorganization of the Company occurs and is continuing, the principal of and accrued but unpaid interest on all the applicable Senior Notes will become immediately due and payable without any declaration or other act on the part of the applicable Trustee or any applicable Holders. Under certain circumstances, the Holders of a majority in principal amount of the outstanding Senior Notes may rescind any such acceleration with respect to the applicable Senior Notes and its consequences. In the event of any Default or Event of Default specified in clause (vi) above, such Default or Event of Default and all consequences thereof (excluding any resulting payment default, other than as a result of acceleration of the Senior Notes) shall not be deemed to have occurred and shall be annulled, waived and rescinded automatically, in each case, without any action by the applicable Trustee or the applicable Holders if, within 20 days after such Event of Default arose,

(x) the Indebtedness or guarantee that is the basis for such Event of Default has been discharged;

(y) the holders thereof have rescinded or waived the acceleration, notice or action (as the case may be) giving rise to such Event of Default; or

(z) the default that is the basis for such Event of Default has been cured.

Subject to the provisions of the Indentures relating to the duties of the Trustee thereunder, in case an Event of Default occurs and is continuing, such Trustee will be under no obligation to exercise any of the rights or powers under the Indentures at the request or direction of any of the Holders unless such Holders have offered to such Trustee reasonable indemnity or security against any loss, liability or expense. Except to enforce the right to receive payment of principal, premium (if any) or interest when due, no Holder may pursue any remedy with respect to the Indentures or the applicable Senior Notes unless (i) such Holder has previously given the applicable Trustee written notice that an Event of Default is continuing, (ii) Holders of at least 30% in principal amount of the outstanding Senior Notes of the applicable class have requested such Trustee in writing to pursue the remedy, (iii) such Holders have offered such Trustee reasonable security or indemnity against any loss, liability or expense, (iv) such Trustee has not complied with such request within 60 days after the receipt of the request and the offer of security or indemnity and (v) the Holders of a majority in principal amount of the outstanding Senior Notes of the applicable class have not given such Trustee a direction inconsistent with such request within such 60-day period. Subject to certain restrictions, the Holders of a majority in principal amount of the outstanding Senior Notes of the applicable class are given the right to direct the time, method and place of conducting any proceeding for any remedy available to the applicable Trustee or of exercising any trust or power

conferred on such Trustee. Either Trustee, however, may refuse to follow any direction that conflicts with law or the applicable Indenture or that such Trustee determines is unduly prejudicial to the rights of any other Holder or that would involve such Trustee in personal liability. Prior to taking any action under either Indenture, the applicable Trustee will be entitled to indemnification satisfactory to it in its sole discretion against all losses and expenses caused by taking or not taking such action.

The Indentures provide that if a Default occurs and is continuing and is known to the applicable Trustee, such Trustee must mail to each Holder notice of the Default within 90 days after it occurs. Except in the case of a Default in the payment of principal of, or premium (if any) or interest on, any Note, the applicable Trustee may withhold notice if and so long as a committee of its Trust Officers in good faith determines that withholding notice is in the interests of the Noteholders. In addition, the Company is required to deliver to the Trustees, within 120 days after the end of each fiscal year, a certificate indicating whether the signers thereof know of any Default occurring during the previous year. The Company also is required to deliver to the Trustees, within 30 days after an Officer of the Company becomes aware of the occurrence thereof, written notice of any event that would constitute a Default, its status and what action the Company is taking or proposes to take in respect thereof.

Amendments and Waivers

Subject to certain exceptions, each Indenture may be amended with the consent of the Holders of a majority in principal amount of the Senior Notes issued thereunder then outstanding and any past Default or compliance with any provisions may be waived with the consent of the Holders of a majority in principal amount of the Senior Notes of the applicable class then outstanding (including in each case, consents obtained in connection with a tender offer or exchange offer for Senior Notes). However, without the consent of each Holder of an outstanding Note affected, no amendment or waiver may (i) reduce the principal amount of Senior Notes of the applicable class whose Holders must consent to an amendment or waiver, (ii) reduce the rate of or extend the time for payment of interest on any Note of the applicable class, (iii) reduce the principal of or extend the Stated Maturity of any Note of the applicable class, (iv) reduce the premium payable upon the redemption of any Note of the applicable class, or change the date at which any Senior Note may be redeemed as described under Optional Redemption above, (v) make any Senior Note of the applicable class payable in money other than that stated in such Senior Note, (vi) impair the right of any Holder to receive payment of principal of and interest on such Holder's Senior Notes of the applicable class on or after the due dates therefor or to institute suit for the enforcement of any such payment on or with respect to such Holder's Senior Notes of the applicable class, (vii) release any Subsidiary Guarantor from any of its obligations under the applicable Indenture, except in accordance with the terms of such Indenture or (viii) make any change in the amendment or waiver provisions described in this sentence.

Without the consent of any applicable Holder, the Company, the applicable Trustee and (as applicable) any Subsidiary Guarantor may amend either Indenture to cure or reform any ambiguity, mistake, manifest error, omission, defect or inconsistency, to provide for the assumption by a successor of the obligations of the Company or a Subsidiary Guarantor under such Indenture, to provide for uncertificated Senior Notes in addition to or in place of certificated Senior Notes, to add Guarantees with respect to the Senior Notes, to secure the Senior Notes, to confirm and evidence the release, termination or discharge of any Guarantee or Lien with respect to or securing the Senior Notes when such release, termination or discharge is provided for under such Indenture, to add to the covenants of the Company for the benefit of the Noteholders or to surrender any right or power conferred upon the Company, to provide for or confirm the issuance of Additional Notes, to conform the text of such Indenture, the Senior Notes issued thereunder or any Subsidiary Guarantee to any provision of this Description of Senior Exchange Notes, to increase the minimum denomination of Senior Notes to equal the dollar equivalent of 1,000 rounded up to the nearest \$1,000 (including for purposes of redemption or repurchase of any Note in part), to provide additional rights or benefits to the Holders or make any change that does not materially adversely affect the rights of any Holder, to release a Subsidiary Guarantor from its obligations under

its Subsidiary Guarantee or an Indenture in accordance with the applicable provisions of such Indenture, to provide for the appointment of a successor trustee, provided that the successor trustee is otherwise qualified and eligible to act as such under the terms of such Indenture, or to comply with any requirement of the SEC in connection with the qualification of such Indenture under the TIA or otherwise.

The consent of the applicable Noteholders is not necessary under the Indentures to approve the particular form of any proposed amendment or waiver. It is sufficient if such consent approves the substance of the proposed amendment or waiver. Until an amendment or waiver becomes effective, a consent to it by a Noteholder is a continuing consent by such Noteholder and every subsequent Holder of all or part of the related Note. Any such Noteholder or subsequent holder may revoke such consent as to its Note by written notice to the applicable Trustee or the Company, received thereby before the date on which the Company certifies to such Trustee that the Holders of the requisite principal amount of Senior Notes have consented to such amendment or waiver. After an amendment or waiver under an Indenture becomes effective, the Company is required to mail to Noteholders a notice briefly describing such amendment or waiver. However, the failure to give such notice to all Noteholders, or any defect therein, will not impair or affect the validity of the amendment or waiver.

Defeasance

The Company at any time may terminate all its obligations under the applicable Senior Notes and the applicable Indenture (legal defeasance), except for certain obligations, including those relating to the defeasance trust and obligations to register the transfer or exchange of the Senior Notes, to replace mutilated, destroyed, lost or stolen Senior Notes and to maintain a registrar and paying agent in respect of the Senior Notes. The Company at any time may terminate its obligations under certain covenants under an Indenture, including the covenants described under Certain Covenants and Change of Control, the operation of the default provisions relating to such covenants described under Defaults above, operation of the cross acceleration provision, the bankruptcy provisions with respect to Subsidiaries and the judgment default provision described under Defaults above, and the limitations contained in clauses (iii), (iv) and (v) under Merger and Consolidation above (covenant defeasance). If the Company exercises its legal defeasance option or its covenant defeasance option, each Subsidiary Guarantor will be released from all of its obligations with respect to its applicable Subsidiary Guarantee and any security then securing the Senior Notes will be automatically released.

The Company may exercise its legal defeasance option notwithstanding its prior exercise of its covenant defeasance option. If the Company exercises its legal defeasance option, payment of the applicable Senior Notes may not be accelerated because of an Event of Default with respect thereto. If the Company exercises its covenant defeasance option, payment of the applicable Senior Notes may not be accelerated because of an Event of Default specified in clause (iv), (v) (as it relates to the covenants described under Certain Covenants above), (vi), (vii), (but only with respect to events of bankruptcy, insolvency or reorganization of a Subsidiary), (viii) or (ix) under Defaults above or because of the failure of the Company to comply with clause (iii), (iv) or (v) under Merger and Consolidation above.

Either defeasance option may be exercised prior to any redemption date or to the maturity date for the applicable Senior Notes. In order to exercise either defeasance option, the Company must irrevocably deposit in trust (the defeasance trust) with the applicable Trustee money or U.S. Government Obligations, or a combination thereof, sufficient (without reinvestment) to pay principal of, and premium (if any) and interest on, the applicable Senior Notes to redemption or maturity, as the case may be, and must comply with certain other conditions, including delivery to such Trustee of an Opinion of Counsel (subject to customary exceptions and exclusions) to the effect that holders of the applicable Senior Notes will not recognize income, gain or loss for Federal income tax purposes as a result of such deposit and defeasance and will be subject to Federal income tax on the same amount and in the same manner and at the same times as would have been the case if such deposit and defeasance had not occurred (and, in the case of legal defeasance only, such Opinion of Counsel (x) must be

based on a ruling of the Internal Revenue Service or other change in applicable Federal income tax law since the Issue Date and (y) need not be delivered if all Senior Notes not theretofore delivered to such Trustee for cancellation have become due and payable, will become due and payable at its Stated Maturity within one year, or are to be called for redemption within one year, under arrangements reasonably satisfactory to such Trustee in the name, and at the expense, of the Company).

Satisfaction and Discharge

The Indentures will be discharged and cease to be of further effect (except as to surviving rights of registration of transfer or exchange of the applicable Senior Notes, as expressly provided for in such Indenture) as to all outstanding Senior Notes of the applicable class when (i) either (a) all Senior Notes of the applicable class previously authenticated and delivered (other than certain lost, stolen or destroyed Senior Notes, and certain Senior Notes for which provision for payment was previously made and thereafter the funds have been released to the Company) have been delivered to the applicable Trustee for cancellation or (b) all Senior Notes of the applicable class not previously delivered to such Trustee for cancellation (x) have become due and payable, (y) will become due and payable at their Stated Maturity within one year or (z) have been or are to be called for redemption within one year under arrangements reasonably satisfactory to such Trustee for the giving of notice of redemption by such Trustee in the name, and at the expense, of the Company; (ii) the Company has irrevocably deposited or caused to be deposited with such Trustee money, U.S. Government Obligations, or a combination thereof, sufficient (without reinvestment) to pay and discharge the entire indebtedness on the Senior Notes of the applicable class not previously delivered to such Trustee for cancellation, for principal, premium, if any, and interest to, but not including, the date of redemption or their Stated Maturity, as the case may be; (iii) the Company has paid or caused to be paid all other sums payable under such Indenture by the Company; and (iv) the Company has delivered to such Trustee an Officer's Certificate and an Opinion of Counsel each to the effect that all conditions precedent under the Satisfaction and Discharge section of such Indenture relating to the satisfaction and discharge of such Indenture have been complied with, provided that any such counsel may rely on any Officer's Certificate as to matters of fact (including as to compliance with the foregoing clauses (i), (ii) and (iii)).

No Personal Liability of Directors, Officers, Employees, Incorporators and Stockholders

No director, officer, employee, incorporator, equity holder, member or stockholder of the Company, any Subsidiary Guarantor or any Subsidiary of any thereof shall have any liability for any obligation of the Company or any Subsidiary Guarantor under the Indentures, the Senior Notes or any Subsidiary Guarantee, or for any claim based on, in respect of, or by reason of, any such obligation or its creation. Each Noteholder, by accepting the Senior Notes, waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Senior Notes.

Concerning the Trustees

Wells Fargo Bank, National Association is the Trustee under each of the Indentures and is appointed by the Company as Registrar and Paying Agent with regard to the Senior Notes.

The Indentures provide that, except during the continuance of an Event of Default, the applicable Trustee will perform only such duties as are set forth specifically in such Indentures. During the existence of an Event of Default, such Trustee will exercise such of the rights and powers vested in it under the Indentures and use the same degree of care and skill in its exercise as a prudent person would exercise under the circumstances in the conduct of such person's own affairs.

Table of Contents

The Indentures and the TIA will impose certain limitations on the rights of the applicable Trustee, should it become a creditor of the Company, to obtain payment of claims in certain cases or to realize on certain property received by it in respect of any such claims, as security or otherwise. Each Trustee is permitted to engage in other transactions; provided, that if it acquires any conflicting interest as described in the TIA, it must eliminate such conflict, apply to the SEC for permission to continue as Trustee with such conflict, or resign.

Transfer and Exchange

A Noteholder may transfer or exchange Senior Notes in accordance with the applicable Indenture. Upon any transfer or exchange, the registrar and the applicable Trustee may require such Noteholder, among other things, to furnish appropriate endorsements and transfer documents and the Company may require such Noteholder to pay any taxes or other governmental charges required by law or permitted by the applicable Indenture. The Company is not required to transfer or exchange any Note selected for redemption or purchase or to transfer or exchange any Note for a period of 15 Business Days prior to the day of the mailing of the notice of redemption or purchase. No service charge will be made for any registration of transfer or exchange of the Senior Notes, but the Company may require payment of a sum sufficient to cover any transfer tax or other governmental charge payable in connection with the transfer or exchange. The Senior Notes will be issued in registered form and the registered holder of a Note will be treated as the owner of such Note for all purposes.

Governing Law

The Indentures each provides that it and the applicable Senior Notes will be governed by, and construed in accordance with, the laws of the State of New York.

Table of Contents

Consolidated Coverage Ratio as of any date of determination means the ratio of (i) the aggregate amount of Consolidated EBITDA for the period of the most recent four consecutive fiscal quarters ending prior to the date of such determination for which Consolidated Financial Statements of the Company are available to (ii) Consolidated Interest Expense for such four fiscal quarters (in each of the foregoing clauses (i) and (ii), determined for each fiscal quarter (or portion thereof) of the four fiscal quarters ending prior to the Issue Date); provided, that

(1) if since the beginning of such period the Company or any Restricted Subsidiary has Incurred any Indebtedness that remains outstanding on such date of determination or if the transaction giving rise to the need to calculate the Consolidated Coverage Ratio is an Incurrence of Indebtedness, Consolidated EBITDA and Consolidated Interest Expense for such period shall be calculated after giving effect on a pro forma basis to such Indebtedness as if such Indebtedness had been Incurred on the first day of such period (except that in making such computation, the amount of Indebtedness under any revolving credit facility outstanding on the date of such calculation shall be computed based on (A) the average daily balance of such Indebtedness during such four fiscal quarters or such shorter period for which such facility was outstanding or (B) if such facility was created after the end of such four fiscal quarters, the average daily balance of such Indebtedness during the period from the date of creation of such facility to the date of such calculation);

(2) if since the beginning of such period the Company or any Restricted Subsidiary has repaid, repurchased, redeemed, defeased or otherwise acquired, retired or discharged any Indebtedness that is no longer outstanding on such date of determination (each, a Discharge) or if the transaction giving rise to the need to calculate the Consolidated Coverage Ratio involves a Discharge of Indebtedness (in each case other than Indebtedness Incurred under any revolving credit facility unless such Indebtedness has been permanently repaid), Consolidated EBITDA and Consolidated Interest Expense for such period shall be calculated after giving effect on a pro forma basis to such Discharge of such Indebtedness, including with the proceeds of such new Indebtedness, as if such Discharge had occurred on the first day of such period;

(3) if since the beginning of such period the Company or any Restricted Subsidiary shall have disposed of any company, any business or any group of assets constituting an operating unit of a business (any such disposition, a Sale), the Consolidated EBITDA for such period shall be reduced by an amount equal to the Consolidated EBITDA (if positive) attributable to the assets that are the subject of such Sale for such period or increased by an amount equal to the Consolidated EBITDA (if negative) attributable thereto for such period and Consolidated Interest Expense for such period shall be reduced by an amount equal to (A) the Consolidated Interest Expense attributable to any Indebtedness of the Company or any Restricted Subsidiary repaid, repurchased, redeemed, defeased or otherwise acquired, retired or discharged with respect to the Company and its continuing Restricted Subsidiaries in connection with such Sale for such period (including but not limited to through the assumption of such Indebtedness by another Person) plus (B) if the Equity Interests of any Restricted Subsidiary is sold, the Consolidated Interest Expense for such period attributable to the Indebtedness of such Restricted Subsidiary to the extent the Company and its continuing Restricted Subsidiaries are no longer liable for such Indebtedness after such Sale;

(4) if since the beginning of such period the Company or any Restricted Subsidiary (by merger, consolidation or otherwise) shall have made an Investment in any Person that thereby becomes a Restricted Subsidiary, or otherwise acquired any company, any business or any group of assets constituting an operating unit of a business, including any such Investment or acquisition occurring in connection with a transaction causing a calculation to be made hereunder (any such Investment or acquisition, a Purchase), Consolidated EBITDA and Consolidated Interest Expense for such period shall be calculated after giving pro forma effect thereto (including the Incurrence of any related Indebtedness) as if such Purchase occurred on the first day of such period; and

(5) if since the beginning of such period any Person became a Restricted Subsidiary or was merged or consolidated with or into the Company or any Restricted Subsidiary, and since the beginning of such period such Person shall have Discharged any Indebtedness or made any Sale or Purchase that would have required an adjustment pursuant to clause (2), (3) or (4) above if made by the Company or a Restricted Subsidiary since the beginning of such period, Consolidated EBITDA and Consolidated Interest Expense for such period shall be calculated after giving pro forma effect thereto as if such Discharge, Sale or Purchase occurred on the first day of such period.

Table of Contents

For purposes of this definition, whenever pro forma effect is to be given to any Sale, Purchase or other transaction, or the amount of income or earnings relating thereto and the amount of Consolidated Interest Expense associated with any Indebtedness Incurred or repaid, repurchased, redeemed, defeased or otherwise acquired, retired or discharged in connection therewith, the pro forma calculations in respect thereof (including without limitation in respect of anticipated cost savings, synergies or annualized impact of buyer fee increases relating to any such Sale, Purchase or other transaction) shall be as determined in good faith by the Chief Financial Officer or an authorized Officer of the Company. If any Indebtedness bears a floating rate of interest and is being given pro forma effect, the interest expense on such Indebtedness shall be calculated as if the rate in effect on the date of determination had been the applicable rate for the entire period (taking into account any Interest Rate Agreement applicable to such Indebtedness). If any Indebtedness bears, at the option of the Company or a Restricted Subsidiary, a rate of interest based on a prime or similar rate, a eurocurrency interbank offered rate or other fixed or floating rate, and such Indebtedness is being given pro forma effect, the interest expense on such Indebtedness shall be calculated by applying such optional rate as the Company or such Restricted Subsidiary may designate. If any Indebtedness that is being given pro forma effect was Incurred under a revolving credit facility, the interest expense on such Indebtedness shall be computed based upon the average daily balance of such Indebtedness during the applicable period. Interest on a Capitalized Lease Obligation shall be deemed to accrue at an interest rate determined in good faith by a responsible financial or accounting officer of the Company to be the rate of interest implicit in such Capitalized Lease Obligation in accordance with GAAP.

Consolidated EBITDA means, for any period, for any period:

(a) Consolidated Net Income for such period plus,

(b) without duplication and to the extent reflected as a charge in arriving at such Consolidated Net Income for such period, the sum of the following amounts for such period:

(i) the aggregate amount of all provisions for all taxes (whether or not paid, estimated or accrued) based upon the income and profits of the Company or alternative taxes imposed as reflected in the provision for income taxes in the Company's consolidated financial statements;

(ii) interest expense, amortization or write-off of debt discount and debt issuance costs, and commissions, discounts and other fees and charges associated with Indebtedness (including the Senior Notes);

(iii) depreciation and amortization expense;

(iv) amortization of intangibles (including goodwill) and organization costs;

(v) any extraordinary, unusual or non-recurring charges, expenses or losses (whether cash or non-cash);

(vi) any cash compensation expense relating to the cancellation or retirement of stock options in connection with the Acquisition in an aggregate amount not to exceed \$25.0 million;

(vii) non-cash compensation expenses from stock, options to purchase stock and stock appreciation rights issued to the management of the Company;

(viii) any other non-cash charges, non-cash expenses or non-cash losses of the Company or any of its Restricted Subsidiaries for such period (including deferred rent but excluding any such charge, expense or loss incurred in the ordinary course of business that constitutes an accrual of or a reserve for cash charges for any future period), provided, however, that cash payments made in such period or in any future period in respect of such non-cash charges, expenses or losses (excluding any such charge, expense or loss incurred in the ordinary course of business that constitutes an accrual of or a reserve for cash charges for any future period) shall be subtracted from Consolidated Net Income in calculating Consolidated EBITDA in the period when such payments are made;

Table of Contents

(ix) no more than \$5.0 million accrued in any fiscal year for payment to the Permitted Holders in respect of management, monitoring, consulting and advisory fees plus any related expenses and other amounts paid to the Permitted Holders to the extent permitted pursuant to clause (b)(ii) of the covenant described under Certain covenants Limitation on transactions with affiliates ;

(x) any impairment charges, write-off, depreciation or amortization of intangibles arising pursuant to SFAS 141 or to SFAS 142 and any other non-cash charges resulting from purchase accounting;

(xi) any reduction in revenue resulting from the purchase accounting effects of adjustments to deferred revenue in component amounts required or permitted by GAAP and related authoritative pronouncements (including the effects of such adjustments pushed down to the Company and its Restricted Subsidiaries), as a result of the Acquisition, any acquisition consummated prior to the Issue Date or any acquisition by purchase or otherwise of all or substantially all of the business, assets or Capital Stock (other than directors qualifying shares) of any Person or a business unit of a Person;

(xii) any loss realized upon the sale or other disposition of any asset (including pursuant to any sale/leaseback transaction) that is not Disposed of in the ordinary course of business and any loss realized upon the sale or other disposition of any Capital Stock of any Person;

(xiii) any unrealized losses in respect of Hedging Obligations;

(xiv) any unrealized foreign currency translation losses in respect of Indebtedness of any Person denominated in a currency other than the functional currency of such Person;

(xv) the amount of any minority expense net of dividends and distributions paid to the holders of such minority interest;

(xvi) any costs, fees and expenses associated with the consolidation of the salvage operations of the Company and its Restricted Subsidiaries as described in this prospectus;

(xvii) any costs, fees and expenses associated with the cost reduction, operational restructuring and business improvement efforts of any consulting firm engaged by the Company or its Restricted Subsidiaries to perform such service;

(xviii) any charges, costs, fees and expenses realized upon the termination of employees and the termination or cancellation of leases, software licenses or other contracts in connection with the operational restructuring and business improvement efforts of the Company and its Restricted Subsidiaries; and

(xix) any costs, fees and expenses related to the Acquisition and any other costs, fees and expenses incurred in connection with any acquisition by purchase or otherwise of all or substantially all of the business, assets or Capital Stock (other than directors qualifying shares) of any Person or a business unit of a Person; minus

(c) to the extent included in arriving at such Consolidated Net Income for such period, the sum of the following amounts for such period:

(i) interest income;

(ii) any extraordinary, unusual or non-recurring income or gains whether or not included as a separate item in the statement of Consolidated Net Income;

(iii) all non-cash gains on the sale or disposition of any property other than inventory sold in the ordinary course of business;

(iv) any other non-cash income (excluding any items that represent the reversal of any accrual of, or cash reserve for, anticipated cash charges in any prior period that are described in the parenthetical to clause (b)(viii) above);

Table of Contents

(v) any gain realized upon the sale or other disposition of any asset (including pursuant to any sale/leaseback transaction) that is not Disposed of in the ordinary course of business and any gain realized upon the sale or other disposition of any Capital Stock of any Person;

(vi) any unrealized gains in respect of Hedging Obligations; and

(vii) any unrealized foreign currency translation gains in respect of Indebtedness of any Person denominated in a currency other than the functional currency of such Person, all as determined on a consolidated basis; plus

(d) the annualized impact of buyer fee increases on any business acquired in any acquisition by purchase or otherwise of all or substantially all of the business, assets or Capital Stock (other than directors' qualifying shares) of any Person or a business unit of a Person.

For the purposes of calculating Consolidated EBITDA for any period of four consecutive fiscal quarters (each, a Reference Period) pursuant to any determination of the Consolidated Secured Leverage Ratio or the Consolidated Coverage Ratio, (i) if at any time during such Reference Period the Company or any Restricted Subsidiary shall have made any Material Disposition, the Consolidated EBITDA for such Reference Period shall be reduced by an amount equal to the Consolidated EBITDA (if positive) attributable to the property that is the subject of such Material Disposition for such Reference Period or increased by an amount equal to the Consolidated EBITDA (if negative) attributable thereto for such Reference Period and (ii) if during such Reference Period the Company or any Restricted Subsidiary shall have made a Material Acquisition, Consolidated EBITDA for such Reference Period shall be calculated after giving pro forma effect thereto, as if such Material Acquisition occurred on the first day of such Reference Period, and, in the case of any Material Acquisition other than the Acquisition, Consolidated EBITDA may be increased by adding back any cost savings related thereto expected to be realized within 365 days of such Material Acquisition and all costs incurred to achieve such cost savings. As used in this definition, Material Acquisition means any acquisition of property or series of related acquisitions of property that (a) constitutes assets comprising all or substantially all of an operating unit of a business or constitutes all or substantially all of the common stock of a Person and (b) involves the payment of consideration by the Company and its Restricted Subsidiaries in excess of \$5,000,000; and Material Disposition means any Disposition of property or series of related Dispositions of property that yields gross proceeds to the Company or any of its Restricted Subsidiaries in excess of \$5,000,000.

Notwithstanding the foregoing, (a) Consolidated EBITDA shall be deemed to be \$102,900,000, \$99,400,000, \$88,100,000 and \$80,700,000, respectively, for the fiscal quarters ending on or about March 31, 2006, June 30, 2006, September 30, 2006 and December 31, 2006, subject to the adjustments provided for in clauses (b) and (c) of this paragraph, (b) in determining Consolidated EBITDA at any time on or before June 30, 2007, Consolidated EBITDA will be increased by \$10,500,000 on account of anticipated cost savings related to the combination of the salvage auction businesses of Insurance Auto Auctions, Inc. and ADESA, Inc. as reflected in this Prospectus, and (c) in determining Consolidated EBITDA at any time after June 30, 2007 and on or before June 30, 2008, Consolidated EBITDA will be increased by the difference between \$10,500,000 and the cumulative amount of all such cost savings referred to in clause (b) that have been realized prior to such time.

Consolidated Interest Expense means, for any period, (i) the total interest expense of the Company and its Restricted Subsidiaries to the extent deducted in calculating Consolidated Net Income, net of any interest income of the Company and its Restricted Subsidiaries, including without limitation any such interest expense consisting of (a) interest expense attributable to Capitalized Lease Obligations, (b) amortization of debt discount, (c) interest in respect of Indebtedness of any other Person that has been Guaranteed by the Company or any Restricted Subsidiary, but only to the extent that such interest is actually paid by the Company or any Restricted Subsidiary, (d) non-cash interest expense, (e) the interest portion of any deferred payment obligation and (f) commissions, discounts and other fees and charges owed with respect to letters of credit and bankers' acceptance financing, plus (ii) Preferred Stock dividends paid in cash in respect of Disqualified Stock of the Company held by Persons other than the Company or a Restricted Subsidiary and minus (iii) to the extent otherwise included in such interest expense referred to in clause (i) above, amortization or write-off of financing costs, in each case under

Table of Contents

clauses (i) through (iii) as determined on a Consolidated basis in accordance with GAAP; provided, that gross interest expense shall be determined after giving effect to any net payments made or received by the Company and its Restricted Subsidiaries with respect to Interest Rate Agreements.

Consolidated Net Income means, for any period, the net income (loss) of the Company and its Restricted Subsidiaries, determined on a Consolidated basis in accordance with GAAP and before any reduction in respect of Preferred Stock dividends; provided, that there shall not be included in such Consolidated Net Income:

(i) any net income (loss) of any Person if such Person is not a Restricted Subsidiary, except that (A) subject to the limitations contained in clause (iii) below, the Company's equity in the net income of any such Person for such period shall be included in such Consolidated Net Income up to the aggregate amount actually distributed by such Person during such period to the Company or a Restricted Subsidiary as a dividend or other distribution (subject, in the case of a dividend or other distribution to a Restricted Subsidiary, to the limitations contained in clause (ii) below) and (B) the Company's equity in the net loss of such Person shall be included to the extent of the aggregate Investment of the Company or any of its Restricted Subsidiaries in such Person;

(ii) solely for purposes of determining the amount available for Restricted Payments under clause (a)(3)(A) of the covenant described under Certain Covenants Limitation on Restricted Payments, any net income (loss) of any Restricted Subsidiary that is not a Subsidiary Guarantor if such Restricted Subsidiary is subject to restrictions, directly or indirectly, on the payment of dividends or the making of similar distributions by such Restricted Subsidiary, directly or indirectly, to the Company by operation of the terms of such Restricted Subsidiary's charter or any agreement, instrument, judgment, decree, order, statute or governmental rule or regulation applicable to such Restricted Subsidiary or its stockholders (other than (w) restrictions that have been waived or otherwise released, (x) restrictions pursuant to the Senior Notes or the Indentures, (y) restrictions pursuant to the Senior Subordinated Notes or the Senior Subordinated Note Indenture and (z) restrictions in effect on the Issue Date with respect to a Restricted Subsidiary and other restrictions with respect to such Restricted Subsidiary that taken as a whole are not materially less favorable to the Noteholders than such restrictions in effect on the Issue Date), except that (A) subject to the limitations contained in clause (iii) below, the Company's equity in the net income of any such Restricted Subsidiary for such period shall be included in such Consolidated Net Income up to the aggregate amount of any dividend or distribution that was or that could have been made by such Restricted Subsidiary during such period to the Company or another Restricted Subsidiary (subject, in the case of a dividend that could have been made to another Restricted Subsidiary, to the limitation contained in this clause) and (B) the net loss of such Restricted Subsidiary shall be included to the extent of the aggregate Investment of the Company or any of its other Restricted Subsidiaries in such Restricted Subsidiary;

(iii) any gain or loss realized upon the sale or other disposition of any asset of the Company or any Restricted Subsidiary (including pursuant to any sale/leaseback transaction) that is not sold or otherwise disposed of in the ordinary course of business (as determined in good faith by the Board of Directors);

(iv) the cumulative effect of a change in accounting principles;

(v) all deferred financing costs written off and premiums paid in connection with any early extinguishment of Indebtedness;

(vi) any unrealized gains or losses in respect of Currency Agreements;

(vii) any unrealized foreign currency transaction gains or losses in respect of Indebtedness of any Person denominated in a currency other than the functional currency of such Person;

(viii) any non-cash compensation charge arising from any grant of stock, stock options or other equity based awards;

(ix) to the extent otherwise included in Consolidated Net Income, any unrealized foreign currency translation or transaction gains or losses in respect of Indebtedness or other obligations of the Company or any Restricted Subsidiary owing to the Company or any Restricted Subsidiary;

Table of Contents

(x) any non-cash charge, expense or other impact attributable to application of the purchase method of accounting (including the total amount of depreciation and amortization, cost of sales or other non-cash expense resulting from the write-up of assets to the extent resulting from such purchase accounting adjustments); and

(xi) any item classified as an extraordinary, unusual or non-recurring gain, loss or charge, including fees, expenses and charges associated with the Transactions and any acquisition, merger or consolidation after the Issue Date.

For purposes of this definition, whenever pro forma effect is to be given to any Sale, Purchase or other transaction, or the amount of income or earnings relating thereto, the pro forma calculations in respect thereof (including without limitation in respect of anticipated cost savings or synergies relating to any such Sale, Purchase or other transaction) shall be as determined in good faith by a responsible financial or accounting Officer of the Company.

Consolidated Secured Indebtedness means, as of any date of determination, an amount equal to the Consolidated Total Indebtedness as of such date that in each case the payment of which is then secured by Liens on property or assets of the Company and its Restricted Subsidiaries (other than property or assets held in a defeasance or similar trust or arrangement for the benefit of the Indebtedness secured thereby).

Consolidated Secured Leverage Ratio means, as of any date of determination, the ratio of (x) Consolidated Secured Indebtedness as at such date to (y) the aggregate amount of Consolidated EBITDA for the period of the most recent four consecutive fiscal quarters ending prior to the date of such determination for which consolidated financial statements of the Company are available (determined for each fiscal quarter (or portion thereof) of the four fiscal quarters ending prior to the Issue Date), provided, that:

(1) if since the beginning of such period the Company or any Restricted Subsidiary has Incurred any Consolidated Secured Indebtedness that remains outstanding on such date of determination or if the transaction giving rise to the need to calculate the Consolidated Secured Leverage Ratio is an Incurrence of Consolidated Secured Indebtedness, Consolidated EBITDA and Consolidated Secured Indebtedness (to the extent it does not already include such Incurrence of Consolidated Secured Indebtedness) for such period shall be calculated after giving effect on a pro forma basis to such Consolidated Secured Indebtedness as if such Consolidated Secured Indebtedness had been Incurred on the first day of such period (except that in making such computation, the amount of Consolidated Secured Indebtedness under any revolving credit facility outstanding on the date of such calculation shall be computed based on (A) the average daily balance of such Consolidated Secured Indebtedness during such four fiscal quarters or such shorter period for which such facility was outstanding or (B) if such facility was created after the end of such four fiscal quarters, the average daily balance of such Indebtedness during the period from the date of creation of such facility to the date of such calculation);

(2) if since the beginning of such period Consolidated Secured Indebtedness has been Discharged or if the transaction giving rise to the need to calculate the Consolidated Secured Leverage Ratio involves a Discharge of Consolidated Secured Indebtedness (in each case other than Indebtedness Incurred under any revolving credit facility unless such Indebtedness has been permanently repaid), Consolidated EBITDA and Consolidated Secured Indebtedness (to the extent it does not already exclude such Discharge of Consolidated Secured Indebtedness) for such period shall be calculated after giving effect on a pro forma basis to such Discharge of such Consolidated Secured Indebtedness, including with the proceeds of such new Consolidated Secured Indebtedness, as if such Discharge had occurred on the first day of such period;

(3) if since the beginning of such period the Company or any Restricted Subsidiary shall have made a Sale, the Consolidated EBITDA for such period shall be reduced by an amount equal to the Consolidated EBITDA (if positive) attributable to the assets that are the subject of such Sale for such period or increased by an amount equal to the Consolidated EBITDA (if negative) attributable thereto for such period;

Table of Contents

(4) if since the beginning of such period the Company or any Restricted Subsidiary (by merger, consolidation or otherwise) shall have made a Purchase (including any Purchase occurring in connection with a transaction causing a calculation to be made hereunder), Consolidated EBITDA for such period shall be calculated after giving pro forma effect thereto as if such Purchase occurred on the first day of such period; and

(5) if since the beginning of such period any Person became a Restricted Subsidiary or was merged or consolidated with or into the Company or any Restricted Subsidiary, and since the beginning of such period such Person shall have made any Sale or Purchase that would have required an adjustment pursuant to clause (2), (3) or (4) above if made by the Company or a Restricted Subsidiary since the beginning of such period, Consolidated EBITDA and Consolidated Secured Indebtedness for such period shall be calculated after giving pro forma effect thereto as if such Sale or Purchase occurred on the first day of such period.

For purposes of this definition, whenever pro forma effect is to be given to any Sale, Purchase or other transaction, or the amount of income or earnings relating thereto, the pro forma calculations in respect thereof (including without limitation in respect of anticipated cost savings synergies or annualized impact of buyer fee increases relating to any such Sale, Purchase or other transaction) shall be as determined in good faith by a responsible financial or accounting Officer of the Company.

Consolidated Total Indebtedness means, as of any date of determination, an amount equal to (1) the aggregate principal amount of outstanding Indebtedness of the Company and its Restricted Subsidiaries (other than the Senior Notes) as of such date consisting of (without duplication) Indebtedness for borrowed money (including Purchase Money Obligations and unreimbursed outstanding drawn amounts under funded letters of credit); Capitalized Lease Obligations; debt obligations evidenced by bonds, debentures, notes or similar instruments; Disqualified Stock; and (in the case of any Restricted Subsidiary that is not a Subsidiary Guarantor) Preferred Stock, determined on a Consolidated basis in accordance with GAAP (excluding items eliminated in Consolidation, and for the avoidance of doubt, excluding Hedging Obligations), minus (2) the amount of such Indebtedness consisting of Indebtedness of a type referred to in, or Incurred pursuant to, clause (b)(ix) of the covenant described under **Certain covenants** **Limitation on indebtedness**.

Consolidation means the consolidation of the accounts of each of the Restricted Subsidiaries with those of the Company in accordance with GAAP; provided that **Consolidation** will not include consolidation of the accounts of any Unrestricted Subsidiary, but the interest of the Company or any Restricted Subsidiary in any Unrestricted Subsidiary will be accounted for as an investment. The term **Consolidated** has a correlative meaning.

Credit Facilities means one or more of (i) the Senior Credit Facility, and (ii) any other facilities, agreements, indentures or arrangements designated by the Company, in each case with one or more banks or other lenders or institutions providing for revolving credit loans, term loans or receivables (including without limitation through the sale of receivables to such institutions or to special purpose entities formed to borrow from such institutions against such receivables or the creation of any Liens in respect of such receivables in favor of such institutions), letters of credit or other Indebtedness, in each case, including all agreements, instruments and documents executed and delivered pursuant to or in connection with any of the foregoing, including but not limited to any notes and letters of credit issued pursuant thereto and any guarantee and collateral agreement, patent and trademark security agreement, mortgages or letter of credit applications and other guarantees, pledge agreements, security agreements and collateral documents, in each case as the same may be amended, supplemented, waived or otherwise modified from time to time, or refunded, refinanced, restructured, replaced, renewed, repaid, increased or extended from time to time (whether in whole or in part, whether with the original banks, lenders or institutions or other banks, lenders or institutions or otherwise, and whether provided under any original Credit Facility or one or more other credit agreements, indentures, debentures, notes financing agreements or other Credit Facilities or through the sale of debt securities or otherwise). Without limiting the generality of the foregoing, the term **Credit Facility** shall include any agreement (i) changing the maturity of any Indebtedness Incurred thereunder or contemplated thereby, (ii) adding Subsidiaries as additional borrowers or guarantors thereunder, (iii) increasing the amount of Indebtedness Incurred thereunder or available to be borrowed thereunder or (iv) otherwise altering the terms and conditions thereof.

DESCRIPTION OF SENIOR SUBORDINATED EXCHANGE NOTES

The 10% Senior Subordinated Notes due 2015 (the Senior Subordinated Exchange Notes) are to be issued under an Indenture, dated as of April 20, 2007 (the Indenture), among the Company, the Guarantors and Wells Fargo Bank, National Association, as trustee (the Trustee), as amended from time to time. This is the same Indenture under which the Senior Subordinated Restricted Notes were issued.

Except as set forth herein, the terms of the Senior Subordinated Exchange Notes include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act. Any Senior Subordinated Restricted Notes that remain outstanding after the completion of the exchange offer, together with the Senior Subordinated Exchange Notes issued in connection with the exchange offer, will be treated as a single class of securities under the Indenture.

Unless the context otherwise requires, in this description, the Senior Subordinated Notes refer to the Senior Subordinated Exchange Notes and the Senior Subordinated Restricted Notes. The following description is only a summary of the material provisions of the Indenture, does not purport to be complete and is qualified in its entirety by reference to the provisions of the Indenture, including the definitions therein of certain terms used below. We urge you to read the Indenture because it, and not this description, defines your rights as Holders of the Senior Subordinated Notes.

Senior Subordinated Exchange Notes versus Senior Subordinated Restricted Notes

The terms of the Senior Subordinated Exchange Notes are substantially identical in all material respects to those of the outstanding Senior Subordinated Restricted Notes, except that the transfer restrictions, registration rights and additional interest provisions relating to the Senior Subordinated Restricted Notes do not apply to the Senior Subordinated Exchange Notes.

Brief Description of the Senior Subordinated Exchange Notes

The Senior Subordinated Exchange Notes will:

be general, senior subordinated obligations of the Company;

be subordinated in right of payment to all existing and future Senior Indebtedness of the Company, including Indebtedness under the Senior Credit Facility and the Senior Exchange Notes;

be unsecured;

be structurally subordinated to all existing and future Indebtedness and other liabilities (including trade payables) of the Company's Subsidiaries (other than Subsidiaries that are or become Subsidiary Guarantors pursuant to the provisions described below under Subsidiary guarantees);

be limited to an aggregate principal amount of \$425.0 million, subject to our ability to issue Additional Notes;

mature on May 1, 2015;

bear interest at the rate per annum from the most recent date to which interest has been paid or provided for;

Edgar Filing: ADESA SAN DIEGO, LLC - Form 424B3

be issued in minimum denominations of \$2,000 or, if greater at the Issue Date, the dollar equivalent of 1,000 rounded up to the nearest \$1,000 (the Minimum Denomination) and any integral multiple of \$1,000 in excess thereof;

be represented by one or more registered Senior Subordinated Notes in global form, but in certain circumstances may be represented by Senior Subordinated Notes in definitive form. See Book entry, Delivery and Form ;

Table of Contents

be pari passu in right of payment with all future senior subordinated indebtedness of the Company; and

be unconditionally guaranteed on a senior subordinated basis by each of the Company's current and future Subsidiaries that guarantees payment by the Company of any Indebtedness of the Company under the Senior Credit Facility or the Senior Exchange Notes.

Because the Senior Subordinated Notes are unsecured, in the event of bankruptcy, liquidation, reorganization or other winding-up of the Company or the Subsidiary Guarantors or upon default in payment with respect to, or the acceleration of, any Indebtedness under our senior secured credit facility or other secured indebtedness, the assets of the Company and the Subsidiary Guarantors that secure other secured indebtedness will be available to pay obligations on the Senior Subordinated Notes and the Guarantees only after all Indebtedness under such other secured indebtedness has been repaid in full from such assets.

Principal, Maturity and Interest

Senior Subordinated Notes

The Senior Subordinated Exchange Notes will be issued initially in an aggregate principal amount of up to \$425.0 million. The Senior Subordinated Notes will mature on May 1, 2015. Each Note will bear interest at the rate per annum from the most recent date to which interest has been paid or provided for.

Interest on the Senior Subordinated Notes will be payable semiannually in cash to Holders of record at the close of business on April 15 and October 15 immediately preceding the interest payment date, on May 1 and November 1 of each year, commencing November 1, 2007. Interest will be paid on the basis of a 360-day year consisting of twelve 30-day months and accrue from the date of original issuance.

Additional securities may be issued under the Indenture in one or more series from time to time (Additional Notes), subject to the limitations set forth under Certain Covenants Limitation on Indebtedness, which will vote as a class with the Senior Subordinated Notes and will be treated as a single class with the Senior Subordinated Notes for all purposes under the Indenture.

Other terms

Principal of, and premium, if any, and interest on, the Senior Subordinated Notes will be payable, and Senior Subordinated Notes may be exchanged or transferred, at the office or agency of the Company maintained for such purposes (which shall initially be the corporate trust office of the Trustee), except that, at the option of the Company, payment of interest may be made by check mailed to the address of the registered holders of Senior Subordinated Notes as such address appears in the Note Register.

Optional Redemption

The Senior Subordinated Notes will be redeemable, at the Company's option, at any time prior to maturity at varying redemption prices in accordance with the provisions set forth below.

The Senior Subordinated Notes will be redeemable, at the Company's option, in whole or in part, at any time and from time to time on or after May 1, 2011, and prior to maturity at the redemption prices set forth below. Such redemption may be made upon notice mailed by first-class mail to each Holder's registered address, not less than 30 nor more than 60 days prior to the redemption date. The Company may provide in such notice that payment of the redemption price and the performance of the Company's obligations with respect to such redemption may be performed by another Person. Any such redemption and notice may, in the Company's discretion, be subject to the satisfaction of one or more conditions precedent, including but not limited to the

Table of Contents

occurrence of a Change of Control. The Senior Subordinated Notes will be so redeemable at the following redemption prices (expressed as a percentage of principal amount), plus accrued and unpaid interest, if any, to, but not including, the relevant redemption date (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date), if redeemed during the 12-month period commencing on May 1 of the years set forth below:

Redemption Period	Price
2011	105.000%
2012	102.500%
2013	100.000%
2014 and thereafter	100.000%

In addition, the Indenture provide that at any time and from time to time on or prior to May 1, 2010, the Company, at its option, may redeem Senior Subordinated Notes in an aggregate principal amount equal to up to 35% of the original aggregate principal amount of the Senior Subordinated Notes (including the principal amount of any Additional Notes), with funds in an aggregate amount (the Redemption Amount) not exceeding the aggregate proceeds of one or more Equity Offerings (as defined below), at a redemption price (expressed as a percentage of principal amount thereof) of 110.000%, plus accrued and unpaid interest, if any, to, but not including, the redemption date (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date); provided, however, that an aggregate principal amount of Senior Subordinated Notes equal to at least 50% of the original aggregate principal amount of Senior Subordinated Notes (including the principal amount of any Additional Notes) must remain outstanding after each such redemption of Senior Subordinated Notes.

Such redemption may be made upon notice mailed by first-class mail to each Holder's registered address, not less than 30 nor more than 60 days prior to the redemption date (but in no event more than 180 days after the completion of the related Equity Offering). The Company may provide in such notice that payment of the redemption price and performance of the Company's obligations with respect to such redemption may be performed by another Person. Any such notice may be given prior to the completion of the related Equity Offering, and any such redemption or notice may, at the Company's discretion, be subject to the satisfaction of one or more conditions precedent, including but not limited to the completion of the related Equity Offering.

At any time prior to May 1, 2011, the Senior Subordinated Notes may also be redeemed or purchased (by the Company or any other Person) in whole or in part, at the Company's option, at a price (the Redemption Price) equal to 100% of the principal amount thereof plus the Applicable Premium as of, and accrued but unpaid interest, if any, to, the date of redemption or purchase (the Redemption Date) (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date). Such redemption or purchase may be made upon notice mailed by first-class mail to each Holder's registered address, not less than 30 nor more than 60 days prior to the Redemption Date. The Company may provide in such notice that payment of the Redemption Price and performance of the Company's obligations with respect to such redemption or purchase may be performed by another Person. Any such redemption, purchase or notice may, at the Company's discretion, be subject to the satisfaction of one or more conditions precedent, including but not limited to the occurrence of a Change of Control.

Applicable Premium means, with respect to a Note at any Redemption Date, the greater of (i) 1.0% of the principal amount of such Note and (ii) the excess of (A) the present value at such Redemption Date of (1) the redemption price of such Note on May 1, 2011, such redemption price being that described in the second paragraph of this Optional Redemption section plus (2) all required remaining scheduled interest payments due on such Note through such date (excluding accrued and unpaid interest through the Redemption Date), computed using a discount rate equal to the Treasury Rate plus 50 basis points, over (B) the principal amount of such Note on such Redemption Date; as calculated by the Company or on behalf of the Company by such Person as the Company shall designate; provided that such calculation shall not be a duty or obligation of the Trustee.

Table of Contents

Treasury Rate means, with respect to a Redemption Date, the yield to maturity at the time of computation of United States Treasury securities with a constant maturity (as compiled and published in the most recent Federal Reserve Statistical Release H.15(519) that has become publicly available at least two Business Days prior to such Redemption Date (or, if such Statistical Release is no longer published, any publicly available source of similar market data)) most nearly equal to the period from such Redemption Date to May 1, 2011; provided, however, that if the period from the Redemption Date to such date is not equal to the constant maturity of a United States Treasury security for which a weekly average yield is given, the Treasury Rate shall be obtained by linear interpolation (calculated to the nearest one-twelfth of a year) from the weekly average yields of United States Treasury securities for which such yields are given, except that if the period from the Redemption Date to such date is less than one year, the weekly average yield on actually traded United States Treasury securities adjusted to a constant maturity of one year shall be used.

Selection

In the case of any partial redemption, selection of the Senior Subordinated Notes for redemption will be made by the Trustee on a pro rata basis, or, to the extent a pro rata basis is not permitted, by such other method as the Trustee shall deem to be fair and appropriate, although no Senior Subordinated Note of the Minimum Denomination in original principal amount or less will be redeemed in part. If any Note is to be redeemed in part only, the notice of redemption relating to such Senior Subordinated Note shall state the portion of the principal amount thereof to be redeemed. A new Senior Subordinated Note in principal amount equal to the unredeemed portion thereof will be issued in the name of the Holder thereof upon cancellation of the original Senior Subordinated Note.

Subsidiary Guarantees

The Company will cause each Subsidiary that guarantees payment by the Company of any Indebtedness of the Company under the Senior Credit Facility or the Senior Exchange Notes to execute and deliver to the Trustee a supplemental indenture or other instrument pursuant to which such Subsidiary will guarantee payment of the Senior Subordinated Notes, whereupon such Subsidiary will become a Subsidiary Guarantor for all purposes under the Indenture. In addition, the Company may cause any Subsidiary or other Person that is not a Subsidiary Guarantor to guarantee payment of the Senior Subordinated Notes and become a Subsidiary Guarantor.

Each Subsidiary Guarantor, as primary obligor and not merely as surety, will jointly and severally, irrevocably, fully and unconditionally Guarantee, on an unsecured senior subordinated basis the punctual payment when due, whether at Stated Maturity, by acceleration or otherwise, of all monetary obligations of the Company under the Indenture and the Senior Subordinated Notes, whether for principal of or interest on the Senior Subordinated Notes, expenses, indemnification or otherwise (all such obligations guaranteed by the Subsidiary Guarantors being herein called the Subsidiary Guaranteed Obligations). Each Subsidiary Guarantor will agree to pay, in addition to the amount stated above, any and all reasonable out-of-pocket expenses (including reasonable counsel fees and expenses) incurred by the Trustee or the Holders in enforcing any rights under a Guarantee.

The obligations of each Subsidiary Guarantor will be limited to the maximum amount, as will, after giving effect to all other contingent and fixed liabilities of such Subsidiary Guarantor (including but not limited to any Guarantee by it of any Bank Indebtedness), result in the obligations of such Subsidiary Guarantor under the Subsidiary Guarantee not constituting a fraudulent conveyance or fraudulent transfer under applicable law, or being void or unenforceable under any law relating to insolvency of debtors.

Each Guarantee shall be a continuing Guarantee and shall (i) remain in full force and effect until payment in full of the principal amount of all outstanding Senior Subordinated Notes (whether by payment at maturity,

purchase, redemption, defeasance, retirement or other acquisition) and all other applicable obligations then due and owing unless earlier terminated as described below, (ii) be binding upon such Guarantor and (iii) inure to the benefit of and be enforceable by the Trustee, the Holders and their permitted successors, transferees and assigns.

Notwithstanding the preceding paragraph, any Subsidiary Guarantor will automatically and unconditionally be released from all obligations under their Guarantees, and such Guarantees shall thereupon terminate and be discharged and of no further force or effect, (i) in the case of a Subsidiary Guarantor, concurrently with any direct or indirect sale or disposition (by merger, consolidation or otherwise) of any Subsidiary Guarantor or any interest therein not prohibited by the terms of the Indenture (including the covenant described under Certain Covenants Limitation on Sales of Assets and Subsidiary Stock and Merger and Consolidation) by the Company or a Restricted Subsidiary, following which such Subsidiary Guarantor is no longer a Restricted Subsidiary of the Company, (ii) at any time that such Subsidiary Guarantor is released from all of its obligations under all of its Guarantees of payment by the Company of any Indebtedness of the Company under the Senior Credit Facility and the Senior Exchange Notes (it being understood that a release subject to contingent reinstatement is still a release, and that if any such Guarantee is so reinstated, such Guarantee shall also be reinstated), (iii) upon the merger or consolidation of any Guarantor with and into the Company or another Guarantor that is the surviving Person in such merger or consolidation, or upon the liquidation of such Guarantor following or contemporaneously with the transfer of all of its assets to the Company or another Guarantor, (iv) concurrently with a Subsidiary Guarantor becoming an Unrestricted Subsidiary, (v) upon legal or covenant defeasance of the Company's obligations, or satisfaction and discharge of the Indenture, or (vi) subject to customary contingent reinstatement provisions, upon payment in full of the aggregate principal amount of all Senior Subordinated Notes then outstanding. In addition, the Company will have the right, upon 30 days' notice to the Trustee, to cause any Subsidiary Guarantor that has not guaranteed payment by the Company of any Indebtedness of the Company under the Senior Credit Facility or the Senior Exchange Notes to be unconditionally released from all obligations under its Subsidiary Guarantee, and such Subsidiary Guarantee shall thereupon terminate and be discharged and of no further force or effect. Upon any such occurrence specified in this paragraph, the Trustee shall execute any documents reasonably required in order to evidence such release, discharge and termination in respect of such Subsidiary Guarantee.

Neither the Company nor any such Subsidiary Guarantor shall be required to make a notation on the Senior Subordinated Notes to reflect any such Guarantee or any such release, termination or discharge.

Ranking

The indebtedness evidenced by the Senior Subordinated Notes (a) will be unsecured senior subordinated indebtedness of the Company, (b) will be subordinated in right of payment to the prior payment in full of all Senior Indebtedness of the Company, including the obligations of the Company under the Senior Credit Facility and the Senior Exchange Notes, (c) will rank pari passu in right of payment with all future senior subordinated indebtedness of the Company and (d) will be senior in right of payment to all future Subordinated Obligations of the Company to the extent set forth in the instrument containing the applicable subordination agreement. The Senior Subordinated Notes are unsecured. In the event of a bankruptcy or insolvency, the Company's secured lenders will have a prior secured claim to any collateral securing the debt owed to them.

Each Subsidiary Guarantee will (a) be unsecured senior subordinated indebtedness of the applicable Subsidiary Guarantor, (b) will be subordinated in right of payment to the prior payment in full of all Senior Indebtedness of the applicable Subsidiary Guarantor, including its obligations, if any, under the Senior Credit Facility and the Senior Exchange Notes, (c) will rank pari passu in right of payment with all future senior subordinated indebtedness of such Person and (d) will be senior in right of payment to all future Guarantor Subordinated Obligations of such Person to the extent set forth in the instrument containing the applicable subordination agreement. Each Subsidiary Guarantee is unsecured. In the event of a bankruptcy or insolvency, the secured lenders of each Subsidiary Guarantor will have a prior secured claim to any collateral securing the debt owed to them.

Table of Contents

A substantial part of the operations of the Company are conducted through its Subsidiaries. Claims of creditors of such Subsidiaries, including trade creditors, and claims of preferred shareholders (if any) of such Subsidiaries will have priority with respect to the assets and earnings of such Subsidiaries over the claims of creditors of the Company, including holders of the Senior Subordinated Notes, unless such Subsidiary is a Subsidiary Guarantor with respect to the Senior Subordinated Notes. The Senior Subordinated Notes, therefore, will be structurally subordinated to creditors (including trade creditors) and preferred shareholders (if any) of other Subsidiaries of the Company (other than Subsidiaries that become Subsidiary Guarantors). Certain of the operations of a Subsidiary Guarantor may be conducted through Subsidiaries thereof that are not also Subsidiary Guarantors. Claims of creditors of such Subsidiaries, including trade creditors, and claims of preferred shareholders (if any) of such Subsidiaries will have priority with respect to the assets and earnings of such Subsidiaries over the claims of creditors of such Subsidiary Guarantor, including claims under its Subsidiary Guarantee. Such Subsidiary Guarantee, if any, therefore, will be structurally subordinated to creditors (including trade creditors) and preferred shareholders (if any) of such Subsidiaries. Although the Indenture limits the incurrence of Indebtedness (including preferred stock) by certain of the Company's Subsidiaries, such limitation is subject to a number of significant qualifications.

Subordination of the Senior Subordinated Notes

Only Indebtedness of the Company or a Subsidiary Guarantor that is Senior Indebtedness will rank senior to the Senior Subordinated Notes and the Subsidiary Guarantees in accordance with the provisions of the Indenture. The Senior Subordinated Notes and Subsidiary Guarantees will rank pari passu in all respects with all other Senior Subordinated Indebtedness of the Company and the relevant Subsidiary Guarantor, respectively.

We will agree in the Indenture that the Company and the Subsidiary Guarantors will not incur any Indebtedness that is subordinate or junior in right of payment to the Senior Indebtedness of such Person, unless such Indebtedness is Senior Subordinated Indebtedness of the applicable Person or is expressly subordinated in right of payment to the Senior Subordinated Notes or the applicable Subsidiary Guarantee. The Indenture will not treat (i) unsecured Indebtedness as subordinated or junior to Secured Indebtedness merely because it is unsecured or (ii) Senior Indebtedness as subordinated or junior to any other Senior Indebtedness merely because it has a junior priority with respect to the same collateral or by virtue of the fact that the holders of such Senior Indebtedness have entered into intercreditor or other arrangements giving one or more of such holders priority over the other holders in the collateral held by them.

Neither the Company nor any Subsidiary Guarantor will be permitted to pay principal of, premium, if any, or interest on the Senior Subordinated Notes (or pay any other Obligations relating to the Senior Subordinated Notes, including Special Interest, fees, costs, expenses, indemnities and rescission or damage claims) or make any deposit pursuant to the provisions described under **Defeasance or Satisfaction and Discharge** below and may not purchase, redeem or otherwise retire any Senior Subordinated Notes (collectively, **pay the Senior Subordinated Notes**) other than in the form of Permitted Junior Securities if either of the following occurs (a **Payment Default**):

(1) any Obligation on any Designated Senior Indebtedness of the Company is not paid in full in cash when due (after giving effect to any applicable grace or cure period); or

(2) any other default on Designated Senior Indebtedness of the Company occurs and the maturity of such Designated Senior Indebtedness is accelerated in accordance with its terms;

unless, in either case, the Payment Default has been cured or waived and any such acceleration has been rescinded or such Designated Senior Indebtedness has been discharged or paid in full in cash. Regardless of the foregoing, the Company is permitted to pay the Senior Subordinated Notes if the Company and the Trustee receive written notice approving such payment from the Representatives of all Designated Senior Indebtedness with respect to which the Payment Default has occurred and is continuing.

Table of Contents

During the continuance of any default (other than a Payment Default) (a Non-Payment Default) with respect to any Designated Senior Indebtedness pursuant to which the maturity thereof may be accelerated without further notice (except such notice as may be required to effect such acceleration) or the expiration of any applicable grace periods, the Company will not be permitted to pay the Senior Subordinated Notes (except in the form of Permitted Junior Securities) for a period (a Payment Blockage Period) commencing upon the receipt by the Trustee (with a copy to the Company) of written notice (a Blockage Notice) of such Non-Payment Default from the Representative of such Designated Senior Indebtedness specifying an election to effect a Payment Blockage Period and ending 179 days thereafter. The Payment Blockage Period will end earlier if such Payment Blockage Period is terminated:

- (1) by written notice to the Trustee and the Company from the Person or Persons who gave such Blockage Notice;
- (2) because the default giving rise to such Blockage Notice is cured, waived or otherwise no longer continuing; or
- (3) because such Designated Senior Indebtedness has been discharged or repaid in full in cash.

Notwithstanding the provisions described above, unless the holders of such Designated Senior Indebtedness or the Representative of such Designated Senior Indebtedness have accelerated the maturity of such Designated Senior Indebtedness, the Company and related Subsidiary Guarantors are permitted to resume paying the Senior Subordinated Notes after the end of such Payment Blockage Period. The Senior Subordinated Notes shall not be subject to more than one Payment Blockage Period in any consecutive 360-day period irrespective of the number of defaults with respect to Designated Senior Indebtedness during such period; provided that if any Blockage Notice is delivered to the Trustee by or on behalf of the holders of Designated Senior Indebtedness of the Company (other than the holders of Indebtedness under the Senior Credit Facility), a Representative of holders of Indebtedness under the Senior Credit Facilities may give another Blockage Notice within such period. However, in no event may the total number of days during which any Payment Blockage Period or Periods on the Senior Subordinated Notes is in effect exceed 179 days in the aggregate during any consecutive 360-day period, and there must be at least 181 days during any consecutive 360-day period during which no Payment Blockage Period is in effect. Notwithstanding the foregoing, however, no default that existed or was continuing on the date of delivery of any Blockage Notice to the Trustee will be, or be made, the basis for a subsequent Blockage Notice (including by a Representative of holders of Indebtedness under the Senior Credit Facility) unless such default has been waived for a period of not less than 90 days (it being acknowledged that any subsequent action, or any breach of any financial covenants during the period after the date of delivery of a Blockage Notice, that, in either case, would give rise to a Non-Payment Default pursuant to any provisions under which a Non-Payment Default previously existed or was continuing shall constitute a new Non-Payment Default for this purpose).

In the event of any payment or distribution of the assets of the Company upon a total or partial liquidation or dissolution or reorganization of or similar proceeding relating to the Company or its property:

- (1) the holders of Senior Indebtedness of the Company will be entitled to receive payment in full in cash of such Senior Indebtedness before the Holders of the Senior Subordinated Notes are entitled to receive any payment;
- (2) until the Senior Indebtedness of the Company is paid in full in cash, any payment or distribution to which Holders of the Senior Subordinated Notes would be entitled but for the subordination provisions of the Indenture will be made to holders of such Senior Indebtedness as their interests may appear, except that Holders of Senior Subordinated Notes may receive Permitted Junior Securities; and
- (3) if a distribution is made to Holders of the Senior Subordinated Notes that, due to the subordination provisions, should not have been made to them, such Holders of the Senior Subordinated Notes will be required to hold it in trust for the holders of Senior Indebtedness of the Company and pay it over to them as their interests may appear.

Table of Contents

The subordination and payment blockage provisions described above will not prevent a Default from occurring under the Indenture upon the failure of the Company to pay interest or principal with respect to the Senior Subordinated Notes when due by their terms. If payment of the Senior Subordinated Notes is accelerated because of an Event of Default, the Company must promptly notify the holders of Designated Senior Indebtedness or the Representative of such Designated Senior Indebtedness of the acceleration. So long as there shall remain outstanding any Senior Indebtedness under the Senior Credit Facility, a Blockage Notice may be given only by the administrative agent thereunder unless otherwise agreed to in writing by the requisite lenders named therein. If any Designated Senior Indebtedness of the Company is outstanding, neither the Company nor any Subsidiary Guarantor may pay the Senior Subordinated Notes until five Business Days after the Representatives of all the Company of such Designated Senior Indebtedness receive notice of such acceleration and, thereafter, may pay the Senior Subordinated Notes only if the Indenture otherwise permits payment at that time.

Each Subsidiary Guarantor's obligations under its Subsidiary Guarantee will be senior subordinated obligations of that Guarantor. As such, the rights of Holders to receive payment pursuant to such Subsidiary Guarantee will be subordinated in right of payment to the rights of holders of Senior Indebtedness of such Subsidiary Guarantor. The terms of the subordination and payment blockage provisions described above with respect to the Company's obligations under the Senior Subordinated Notes apply equally to the obligations of such Subsidiary Guarantor under its Subsidiary Guarantee.

A Holder by its acceptance of Senior Subordinated Notes agrees to be bound by such provisions and authorizes and expressly directs the Trustee, on its behalf, to take such action as may be necessary or appropriate to effectuate the subordination provided for in the Indenture and appoints the Trustee its attorney-in-fact for such purpose.

By reason of the subordination provisions contained in the Indenture, in the event of a liquidation or insolvency proceeding, creditors of the Company or a Subsidiary Guarantor who are holders of Senior Indebtedness of the Company or such Subsidiary Guarantor, as the case may be, may recover more, ratably, than the Holders of the Senior Subordinated Notes, and creditors who are not holders of Senior Indebtedness may recover less, ratably, than holders of Senior Indebtedness and may recover more, ratably, than the Holders of the Senior Subordinated Notes. See Risk Factors Risks Related to the Exchange Notes Your right to receive payments on the Senior Subordinated Exchange Notes is junior to our existing indebtedness and possibly all of our future borrowings. Further, the guarantees of the Senior Subordinated Exchange Notes are junior to all of our guarantors' existing indebtedness and possibly to all their future borrowings.

The terms of the subordination provisions described above will not apply to payments from money or the proceeds of Government Securities held in trust by the Trustee for the payment of principal of and interest on the Senior Subordinated Notes pursuant to the provisions described under Defeasance or Satisfaction and Discharge, if the foregoing subordination provisions were not violated at the time the applicable amounts were deposited in trust pursuant to such provisions.

Change of Control

Upon the occurrence after the Issue Date of a Change of Control (as defined below), each Holder of Senior Subordinated Notes will have the right to require the Company to repurchase all or any part of such Senior Subordinated Notes at a purchase price in cash equal to 101% of the principal amount thereof, plus accrued and unpaid interest, if any, to, but not including, the date of repurchase (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date); provided, however, that the Company shall not be obligated to repurchase Senior Subordinated Notes pursuant to this covenant in the event that it has exercised its right to redeem all of the Senior Subordinated Notes as described under Optional Redemption.

Table of Contents

The term "Change of Control" means:

(i) any person (as such term is used in Sections 13(d) and 14(d) of the Exchange Act), other than one or more Permitted Holders or a Parent, becomes the beneficial owner (as defined in Rules 13d-3 and 13d-5 under the Exchange Act), directly or indirectly, of more than 50% of the total voting power of the Voting Stock of the Company, provided that (x) so long as the Company is a Subsidiary of any Parent, no person shall be deemed to be or become a beneficial owner of more than 50% of the total voting power of the Voting Stock of the Company unless such person shall be or become a beneficial owner of more than 50% of the total voting power of the Voting Stock of such Parent and (y) any Voting Stock of which any Permitted Holder is the beneficial owner shall not in any case be included in any Voting Stock of which any such person is the beneficial owner ;

(ii) the Company or the Parent merges or consolidates with or into, or sells or transfers (in one or a series of related transactions) all or substantially all of the assets of the Company and its Restricted Subsidiaries, taken as a whole, to, another Person (other than one or more Permitted Holders) and any person (as defined in clause (i) above), other than one or more Permitted Holders or any Parent, is or becomes the beneficial owner (as so defined), directly or indirectly, of more than 50% of the total voting power of the Voting Stock of the surviving Person in such merger or consolidation, or the transferee Person in such sale or transfer of assets, as the case may be, provided that (x) so long as such surviving or transferee Person is a Subsidiary of a parent Person, no person shall be deemed to be or become a beneficial owner of more than 50% of the total voting power of the Voting Stock of such surviving or transferee Person unless such person shall be or become a beneficial owner of more than 50% of the total voting power of the Voting Stock of such parent Person and (y) any Voting Stock of which any Permitted Holder is the beneficial owner shall not in any case be included in any Voting Stock of which any such person is the beneficial owner; or

(iii) during any period of two consecutive years (during which period the Company has been a party to the Indenture), individuals who at the beginning of such period were members of the Board of Directors of the Company (together with any new members thereof whose election by such Board of Directors or whose nomination for election by holders of Equity Interests of the Company was approved by one or more Permitted Holders or by a vote of a majority of the members of such board of directors then still in office who were either members thereof at the beginning of such period or whose election or nomination for election was previously so approved) cease for any reason to constitute a majority of such board of directors then in office.

Unless the Company has exercised its right to redeem all the Senior Subordinated Notes as described under "Optional Redemption," the Company shall, not later than 30 days following the date the Company obtains actual knowledge of any Change of Control having occurred, mail a notice (a "Change of Control Offer") to each Holder with a copy to the Trustee stating: (1) that a Change of Control has occurred or may occur and that such Holder has, or upon such occurrence will have, the right to require the Company to purchase such Holder's Senior Subordinated Notes at a purchase price in cash equal to 101% of the principal amount thereof, plus accrued and unpaid interest, if any, to, but not including, the date of purchase (subject to the right of Holders of record on a record date to receive interest on the relevant interest payment date); (2) the repurchase date (which shall be no earlier than 30 days nor later than 60 days from the date such notice is mailed); (3) the instructions determined by the Company, consistent with this covenant, that a Holder must follow in order to have its Senior Subordinated Notes purchased; and (4) if such notice is mailed prior to the occurrence of a Change of Control, that such offer is conditioned on the occurrence of such Change of Control. No Note will be repurchased in part if less than the Minimum Denomination in original principal amount of such Note would be left outstanding.

The Company will not be required to make a Change of Control Offer upon a Change of Control if (i) a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by the Company and purchases all Senior Subordinated Notes validly tendered and not withdrawn under such Change of Control

Table of Contents

Offer, or (ii) notice of redemption has been given pursuant to the Indenture as described under the caption **Optional Redemption**, unless and until there is a Default in the payment of the applicable redemption price.

To the extent that the provisions of any securities laws or regulations conflict with provisions of this **Change of Control** covenant, the Company may comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations hereunder by virtue thereof.

The **Change of Control** purchase feature is a result of negotiations between the Company and the Initial Purchasers. The Company has no present plans to engage in a transaction involving a **Change of Control**, although it is possible that the Company could decide to do so in the future. Subject to the limitations discussed below, the Company could, in the future, enter into certain transactions, including acquisitions, refinancings or recapitalizations, that would not constitute a **Change of Control** under the Indenture, but that could increase the amount of Indebtedness outstanding at such time or otherwise affect the Company's capital structure or credit ratings. Restrictions on the ability of the Company to incur additional Indebtedness are contained in the covenants described under **Certain Covenants Limitation on Indebtedness** and **Certain Covenants Limitation on Liens**. Such restrictions can only be waived with the consent of the Holders of a majority in principal amount of the Senior Subordinated Notes then outstanding. Except for the limitations contained in such covenants, however, the Indenture will not contain any covenants or provisions that may afford Holders protection in the event of a highly leveraged transaction.

The occurrence of a **Change of Control** would constitute a default under the Senior Credit Agreement. Agreements governing future Indebtedness of the Company may contain prohibitions of certain events that would constitute a **Change of Control** or require such Indebtedness to be repurchased or repaid upon a **Change of Control**. The Senior Credit Agreement and the Senior Exchange Notes will, and the agreements governing future Indebtedness of the Company may, prohibit or limit the Company from repurchasing the Senior Subordinated Notes upon a **Change of Control** unless the Indebtedness governed by such Senior Credit Agreement, the Senior Exchange Senior Notes or the agreements governing such future Indebtedness, as the case may be, has been repurchased or repaid (or an offer made to effect such repurchase or repayment has been made and the Indebtedness of those creditors accepting such offer has been repurchased or repaid) and/or other specified requirements have been met. Moreover, the exercise by the Holders of their right to require the Company to repurchase the Senior Subordinated Notes could cause a default under such agreements, even if the **Change of Control** itself does not, due to the financial effect of such repurchase on the Company and its Subsidiaries. In the event a **Change of Control** occurs at a time when the Company is prohibited from purchasing the Senior Subordinated Notes, the Company could seek the consent of its lenders and the holders of Senior Indebtedness to permit the purchase of the Senior Subordinated Notes or could attempt to refinance the borrowings that contain such prohibition. If the Company does not obtain such consent or repay such borrowings, the Company will remain prohibited from purchasing the Senior Subordinated Notes. In such case, the Company's failure to purchase tendered Senior Subordinated Notes would constitute an Event of Default under the Indenture. If, as a result thereof, a default occurs with respect to any Senior Indebtedness, the subordination provisions in the Indenture would restrict payments to the Holders of Senior Subordinated Notes under certain circumstances. Finally, the Company's ability to pay cash to the Holders upon a repurchase may be limited by the Company's then existing financial resources. There can be no assurance that sufficient funds will be available when necessary to make any required repurchases. The provisions under the Indenture relating to the Company's obligation to make an offer to purchase the Senior Subordinated Notes as a result of a **Change of Control** may be waived or modified with the written consent of the Holders of a majority in principal amount of the Senior Subordinated Notes. As described above under **Optional Redemption**, the Company also has the right to redeem the Senior Subordinated Notes at specified prices, in whole or in part, upon a **Change of Control** or otherwise.

The definition of **Change of Control** includes a phrase relating to the sale or other transfer of all or substantially all of the Company's assets. Although there is a developing body of case law interpreting the

Table of Contents

phrase substantially all, there is no precise definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty in ascertaining whether a particular transaction would involve a disposition of all or substantially all of the assets of the Company, and therefore it may be unclear as to whether a Change of Control has occurred and whether the holders of the Senior Subordinated Notes have the right to require the Company to repurchase the Senior Subordinated Notes.

Certain Covenants

The Indenture contains covenants including, among others, the covenants as described below.

Limitation on Indebtedness

The Indenture provides as follows:

(a) The Company will not, and will not permit any Restricted Subsidiary to, Incur any Indebtedness; provided, however, that the Company or any Restricted Subsidiary may Incur Indebtedness if on the date of the Incurrence of such Indebtedness, after giving effect to the Incurrence thereof, the Consolidated Coverage Ratio would be greater than 2.00 to 1.00.

(b) Notwithstanding the foregoing paragraph (a), the Company and its Restricted Subsidiaries may Incur the following Indebtedness:

(i) Indebtedness Incurred by the Company or any Subsidiary Guarantor pursuant to any Credit Facility (including but not limited to in respect of letters of credit or bankers' acceptances issued or created thereunder) and Indebtedness Incurred by the Company or any Subsidiary Guarantor other than under any Credit Facility, and (without limiting the foregoing), in each case, any Refinancing Indebtedness in respect thereof, in a maximum principal amount at any time outstanding not exceeding in the aggregate the amount equal to \$2,090.0 million;

(ii) Indebtedness (A) of any Restricted Subsidiary to the Company or (B) of the Company or any Restricted Subsidiary to any Restricted Subsidiary; provided, that any subsequent issuance or transfer of any Equity Interests of such Restricted Subsidiary to which such Indebtedness is owed, or other event, that results in such Restricted Subsidiary ceasing to be a Restricted Subsidiary or any other subsequent transfer of such Indebtedness (except to the Company or a Restricted Subsidiary) will be deemed, in each case, an Incurrence of such Indebtedness by the issuer thereof not permitted by this clause (ii) at the time of such issuance, transfer or other event;

(iii) Indebtedness of the Company and the Subsidiary Guarantors represented by the Senior Subordinated Notes and the subsidiary guarantees thereof by the Subsidiary Guarantors, the Senior Notes, the subsidiary guarantees thereof by the Subsidiary Guarantors, any Indebtedness (other than the Indebtedness described in clause (b)(ii) above) outstanding on the Issue Date and any Refinancing Indebtedness Incurred in respect of any Indebtedness described in this clause (b)(iii) or paragraph (a) above;

(iv) Purchase Money Obligations and Capitalized Lease Obligations, and any Refinancing Indebtedness with respect thereto in an aggregate outstanding principal amount at any time not to exceed the greater of (x) \$75.0 million or (y) an amount equal to 2.0% of Total Assets;

(v) Indebtedness consisting of accommodation guarantees for the benefit of trade creditors of the Company or any of its Restricted Subsidiaries;

(vi)(A) Guarantees by the Company or any Restricted Subsidiary of Indebtedness or any other obligation or liability of the Company or any Restricted Subsidiary (other than any Indebtedness Incurred by the Company or such Restricted Subsidiary, as the case may be, in violation of the covenant described under *Limitation on Indebtedness*), or (B) without limiting the covenant

Table of Contents

described under Limitation on Liens, Indebtedness of the Company or any Restricted Subsidiary arising by reason of any Lien granted by or applicable to such Person securing Indebtedness of the Company or any Restricted Subsidiary (other than any Indebtedness Incurred by the Company or such Restricted Subsidiary, as the case may be, in violation of the covenant described under Limitation on Indebtedness);

(vii) Indebtedness of the Company or any Restricted Subsidiary (A) arising from the honoring of a check, draft or similar instrument of such Person drawn against insufficient funds, provided that such Indebtedness is extinguished within fifteen Business Days of its Incurrence, or (B) consisting of guarantees, indemnities, obligations in respect of earnouts or other purchase price adjustments, or similar obligations, Incurred in connection with the acquisition or disposition of any business, assets or Person;

(viii) Indebtedness of the Company or any Restricted Subsidiary in respect of (A) deductible obligations, self-insurance obligations, re-insurance obligations, completion guarantees, surety, judgment, appeal or performance bonds, or other similar bonds, instruments or obligations, provided, or relating to liabilities or obligations incurred, in the ordinary course of business, or (B) Hedging Obligations entered into for bona fide hedging purposes (including, without limitation, to protect the Company or any Restricted Subsidiary from fluctuations in currency exchange rates) that are incurred in the ordinary course of business, or (C) the financing of insurance premiums in the ordinary course of business, or (D) netting, overdraft protection and other arrangements arising under standard business terms of any bank at which the Company or any Restricted Subsidiary maintains an overdraft, cash pooling or other similar facility or arrangement;

(ix) Indebtedness (A) of a Special Purpose Subsidiary secured by a Lien on all or part of the assets disposed of in, or otherwise Incurred in connection with, a Financing Disposition or (B) otherwise Incurred in connection with a Special Purpose Financing; provided that (1) such Indebtedness is not recourse to the Company or any Restricted Subsidiary that is not a Special Purpose Subsidiary (other than with respect to Special Purpose Financing Undertakings), (2) in the event such Indebtedness shall become recourse to the Company or any Restricted Subsidiary that is not a Special Purpose Subsidiary (other than with respect to Special Purpose Financing Undertakings), such Indebtedness will be deemed to be, and must be classified by the Company as, Incurred at such time (or at the time initially Incurred) under one or more of the other provisions of this covenant for so long as such Indebtedness shall be so recourse, and (3) in the event that at any time thereafter such Indebtedness shall comply with the provisions of the preceding subclause (1), the Company may classify such Indebtedness in whole or in part as Incurred under this clause (b)(ix) of this covenant;

(x) Indebtedness (including any Refinancing Indebtedness with respect any Indebtedness Incurred pursuant to this clause (x)) (x) of any Person that is assumed by the Company or any Restricted Subsidiary in connection with its acquisition of assets from such Person or any Affiliate thereof or is issued and outstanding on or prior to the date on which such Person was acquired by the Company or any Restricted Subsidiary or merged or consolidated with or into any Restricted Subsidiary or (y) of the Company or any of its Restricted Subsidiaries incurred to finance the acquisition of any Person or assets; provided that either:

(1) after giving effect to such acquisition, merger or consolidation, either:

(A) the Company would be permitted to incur at least \$1.00 of additional Indebtedness pursuant to the Consolidated Coverage Ratio test set forth in paragraph (a) of this covenant; or

(B) the Consolidated Coverage Ratio is greater than the Consolidated Coverage Ratio immediately prior to such acquisition, merger or consolidation;

(2) such Indebtedness (i) is not Secured Indebtedness and constitutes Subordinated Obligations or Guarantor Subordinated Obligations, (ii) is not incurred while a Default exists and

Table of Contents

no Default shall result therefrom, (iii) does not mature (and is not mandatorily redeemable in the case of Disqualified Stock or Preferred Stock) and does not require any payment of principal prior to the final maturity of the Senior Subordinated Notes, and (iv) in the case of sub-clause (x) above only, is not incurred in contemplation of such acquisition, merger or consolidation;

provided that the aggregate principal amount of Indebtedness (excluding any Indebtedness Incurred pursuant to this clause (b)(x) that was not incurred to finance the acquisition of any Person or assets) at any time outstanding Incurred under this clause (b)(x) (including any Refinancing Indebtedness with respect thereto) by any Restricted Subsidiaries that are not Subsidiary Guarantors shall not exceed \$100.0 million in the aggregate;

(xi) in addition to the items referred to in clauses (b)(i) through (b)(x) above, Indebtedness of the Company or any Restricted Subsidiary in an aggregate outstanding principal amount at any time not to exceed an amount equal to the greater of (x) \$100.0 million and (y) 2.75% of Total Assets;

(xii) Indebtedness of one or more Foreign Subsidiaries and guarantees thereof by the Company in an aggregate outstanding principal amount at any time not to exceed an amount equal to the greater of (x) the sum of (1) \$50.0 million for Foreign Subsidiaries and (2) \$25.0 million for Canadian Subsidiaries or (y) 2.00% of Total Assets;

(xiii) Indebtedness in connection with the Atlanta IRB Transaction and any Refinancing Indebtedness with respect thereto;

(xiv) Indebtedness consisting of promissory notes issued to present or former officers, directors or employees of any the Company or any Restricted Subsidiary upon the death, disability, retirement or termination of employment or service of such officer, director or employee or otherwise to finance the purchase or redemption of Equity Interests of the Company or any Parent, to the extent the applicable Restricted Payment is permitted by clause (b)(x) of the covenant described under Certain Covenants Limitation on Restricted Payments ;

(xv) Indebtedness of the Company or any Restricted Subsidiary equal to 200.0% of the Net Cash Proceeds received by the Company as capital contributions to the Company after the Issue Date or from the issuance or sale (other than to a Restricted Subsidiary) of its Equity Interests (other than Disqualified Stock) after the Issue Date as determined in accordance with clause (a)(3)(B) of the covenant described under Certain Covenants Limitation on Restricted Payments, to the extent such Net Cash Proceeds have not been applied to make Restricted Payments or to make other Investments, payments or exchanges pursuant to the covenant described under Certain Covenants Limitation on Restricted Payments or to make Permitted Investments (other than Permitted Investments specified in clauses (i) and (ii) of the definition thereof); and

(xvi) Indebtedness incurred by the Company or any of its Restricted Subsidiaries constituting reimbursement obligations with respect to letters of credit issued in the ordinary course of business, including letters of credit in respect of workers compensation claims, health, disability or other employee benefits or property, casualty or liability insurance or self-insurance, or other Indebtedness with respect to reimbursement type obligations regarding workers compensation claims; provided, however, that upon the drawing of such letters of credit or the incurrence of such Indebtedness, such obligations are reimbursed within 30 days following such drawing or incurrence.

(c) For purposes of determining compliance with, and the outstanding principal amount of any particular Indebtedness Incurred pursuant to and in compliance with, this covenant, (i) any other obligation of the obligor on such Indebtedness (or of any other Person who could have Incurred such Indebtedness under this covenant) arising under any Guarantee, Lien or letter of credit, bankers acceptance or other similar instrument or obligation supporting such Indebtedness shall be disregarded to the extent that such Guarantee, Lien or letter of credit, bankers acceptance or other similar instrument or obligation secures the principal amount of such Indebtedness; (ii) in the event that Indebtedness meets the criteria of more than

Table of Contents

one of the types of Indebtedness described in paragraphs (a) or (b) above, the Company, in its sole discretion, shall classify such item of Indebtedness and may include the amount and type of such Indebtedness in one or more of such clauses (including in part under one such clause and in part under another such clause), and may reclassify such item of Indebtedness in any manner that complies with this covenant and only be required to include the amount and type of such Indebtedness in one of such clauses; (iii) if obligations in respect of letters of credit are Incurred pursuant to a Credit Facility and are being treated as Incurred pursuant to clause (i) of paragraph (b) above and the letters of credit relate to other Indebtedness, then such other Indebtedness shall not be included; and (iv) the amount of Indebtedness issued at a price that is less than the principal amount thereof shall be equal to the amount of the liability in respect thereof determined in accordance with GAAP.

(d) For purposes of determining compliance with any Dollar-denominated restriction on the Incurrence of Indebtedness denominated in a foreign currency, the Dollar-equivalent principal amount of such Indebtedness Incurred pursuant thereto shall be calculated based on the relevant currency exchange rate in effect on the date that such Indebtedness was Incurred, in the case of term Indebtedness, or first committed, in the case of revolving credit Indebtedness, provided that (x) the Dollar-equivalent principal amount of any such Indebtedness outstanding on the Issue Date shall be calculated based on the relevant currency exchange rate in effect on the Issue Date, (y) if such Indebtedness is Incurred to refinance other Indebtedness denominated in a foreign currency (or in a different currency from such Indebtedness so being Incurred), and such refinancing would cause the applicable Dollar-denominated restriction to be exceeded if calculated at the relevant currency exchange rate in effect on the date of such refinancing, such Dollar-denominated restriction shall be deemed not to have been exceeded so long as the principal amount of such refinancing Indebtedness does not exceed (i) the outstanding or committed principal amount (whichever is higher) of such Indebtedness being refinanced plus (ii) the aggregate amount of fees, underwriting discounts, premiums and other costs and expenses incurred in connection with such refinancing, and (z) the Dollar-equivalent principal amount of Indebtedness denominated in a foreign currency and Incurred pursuant to a Senior Credit Facility shall be calculated based on the relevant currency exchange rate in effect on, at the Company's option, (i) the Issue Date, (ii) any date on which any of the respective commitments under such Senior Credit Facility shall be reallocated between or among facilities or subfacilities thereunder, or on which such rate is otherwise calculated for any purpose thereunder, or (iii) the date of such Incurrence. The principal amount of any Indebtedness Incurred to refinance other Indebtedness, if Incurred in a different currency from the Indebtedness being refinanced, shall be calculated based on the currency exchange rate applicable to the currencies in which such respective Indebtedness is denominated that is in effect on the date of such refinancing.

Limitation on Restricted Payments

The Indenture provides as follows:

(a) The Company shall not, and shall not permit any Restricted Subsidiary, directly or indirectly, to (i) declare or pay any dividend or make any distribution on or in respect of its Equity Interests (including any such payment in connection with any merger or consolidation to which the Company is a party) except (x) dividends or distributions payable solely in its Equity Interests (other than Disqualified Stock) and (y) dividends or distributions payable to the Company or any Restricted Subsidiary (and, in the case of any such Restricted Subsidiary making such dividend or distribution, to other holders of its Equity Interests on no more than a pro rata basis), (ii) purchase, redeem, retire or otherwise acquire for value any Equity Interests of the Company held by Persons other than the Company or a Restricted Subsidiary, (iii) voluntarily purchase, repurchase, redeem, defease or otherwise voluntarily acquire or retire for value, prior to scheduled maturity, scheduled repayment or scheduled sinking fund payment, any Subordinated Obligations (other than a purchase, repurchase, redemption, defeasance or other acquisition or retirement for value in anticipation of satisfying a sinking fund obligation, principal installment or final maturity, in each case due within one year of the date of such acquisition or retirement) or (iv) make any Investment (other than a Permitted Investment) in any Person (any such dividend, distribution, purchase, repurchase,

redemption, defeasance, other acquisition or retirement or Investment being herein referred to as a Restricted Payment), if at the time the Company or such Restricted Subsidiary makes such Restricted Payment and after giving effect thereto:

(1) a Default shall have occurred and be continuing (or would result therefrom);

(2) the Company could not Incur at least an additional \$1.00 of Indebtedness pursuant to paragraph (a) of the covenant described under Limitation on Indebtedness ; or

(3) the aggregate amount of such Restricted Payment and all other Restricted Payments (the amount so expended, if other than in cash, to be as determined in good faith by the Board of Directors, whose determination shall be conclusive and evidenced by a resolution of the Board of Directors) declared or made subsequent to the Issue Date and then outstanding would exceed, without duplication, the sum of:

(A) 50% of the Consolidated Net Income accrued during the period (treated as one accounting period) beginning on the first day of the Company's fiscal quarter in which the Issue Date occurred to the end of the most recent fiscal quarter ending prior to the date of such Restricted Payment for which Consolidated Financial Statements of the Company are available (or, in case such Consolidated Net Income shall be a negative number, 100% of such negative number);

(B) 100% of the aggregate Net Cash Proceeds and the fair value (as determined in good faith by the Board of Directors) of property or assets received (x) by the Company as capital contributions to the Company after the Issue Date or from the issuance or sale (other than to a Restricted Subsidiary) of its Equity Interests (other than Disqualified Stock) after the Issue Date or (y) by the Company or any Restricted Subsidiary from the issuance and sale by the Company or any Restricted Subsidiary of Indebtedness that shall have been converted into or exchanged after the Issue Date for Equity Interests of the Company or any Parent (other than Disqualified Stock), plus the amount of any cash and the fair value (as determined in good faith by the Board of Directors) of any property or assets, received by the Company or any Restricted Subsidiary upon such conversion or exchange; provided that this clause (B) shall not include such Net Cash Proceeds to the extent that the Company or any of its Restricted Subsidiaries Incurs Indebtedness pursuant to clause (b)(xv) of the covenant described under Certain Covenants Limitation on Indebtedness based on such Net Cash Proceeds;

(C) the aggregate amount equal to the net reduction in Investments in Unrestricted Subsidiaries resulting from (i) dividends, distributions, cancellation of indebtedness for borrowed money owed by the Company or any Restricted Subsidiary to an Unrestricted Subsidiary, interest payments, return of capital, repayments of Investments or other transfers of assets to the Company or any Restricted Subsidiary from any Unrestricted Subsidiary, including dividends or other distributions related to dividends or other distributions made pursuant to clause (vii) of the following paragraph (b) (but only to the extent such amount is not included in Consolidated Net Income), or (ii) the redesignation of any Unrestricted Subsidiary as a Restricted Subsidiary (valued in each case as provided in the definition of Investment), not to exceed in the case of any such Unrestricted Subsidiary the aggregate amount of Investments (other than Permitted Investments) made by the Company or any Restricted Subsidiary in such Unrestricted Subsidiary after the Issue Date; and

(D) in the case of any disposition or repayment of any Investment constituting a Restricted Payment (without duplication of any amount deducted in calculating the amount of Investments at any time outstanding included in the amount of Restricted Payments), an amount in the aggregate equal to the lesser of the return of capital, repayment or other proceeds with respect to all such Investments received by the Company or a Restricted Subsidiary and the initial amount of all such Investments constituting Restricted Payments.

(b) The provisions of the foregoing paragraph (a) do not prohibit any of the following, so long as a Default shall not have occurred and be continuing (or would result therefrom) (each, a Permitted Payment):

(i) any purchase, redemption, repurchase, defeasance or other acquisition or retirement of Equity Interests of the Company or Subordinated Obligations made by exchange (including any such exchange pursuant to the exercise of a conversion right or privilege in connection with which cash is paid in lieu of the issuance of fractional shares) for, or out of the proceeds of the substantially concurrent, or within 45 days, issuance or sale of, Equity Interests of the Company (other than Disqualified Stock and other than Equity Interests issued or sold to a Restricted Subsidiary) or a substantially concurrent, or within 45 days, capital contribution to the Company; provided, that the Net Cash Proceeds from such issuance, sale or capital contribution shall be excluded in subsequent calculations under clause (3)(B) of the preceding paragraph (a);

(ii)(A) any purchase, redemption, repurchase, defeasance or other acquisition or retirement of Subordinated Obligations (w) made by exchange for, or out of the proceeds of the substantially concurrent issuance or sale of, Indebtedness of the Company or Refinancing Indebtedness Incurred in compliance with the covenant described under Limitation on Indebtedness, (x) from Net Available Cash to the extent permitted by the covenant described under Limitation on Sales of Assets and Subsidiary Stock , and, if required, purchased all Senior Subordinated Notes tendered pursuant to the offer to repurchase all the Senior Subordinated Notes required thereby prior to purchasing or repaying such Subordinated Obligations (y) following the occurrence of a Change of Control (or other similar event described therein as a Change of Control), but only if the Company shall have complied with the covenant described under Change of Control and, if required thereby, purchased all Senior Subordinated Notes tendered pursuant to the offer to repurchase all the Senior Subordinated Notes required thereby, prior to purchasing or repaying such Subordinated Obligations or (z) constituting Acquired Indebtedness or (B) any purchase, redemption, repurchase, defeasance or other acquisition or retirement of Disqualified Stock made by exchange for, or out of the proceeds of the substantially concurrent, or within 45 days, issuance or sale of, Disqualified Stock of the Company or Refinancing Indebtedness Incurred in compliance with the covenant described under Limitation on Indebtedness ;

(iii) dividends paid within 60 days after the date of declaration thereof if at such date of declaration such dividend would have complied with the preceding paragraph (a);

(iv) the declaration and payment of dividends on the Company s common stock following the first public Equity Offering of the Company s common stock or the common stock of any of its direct or indirect parent companies after the Issue Date, of up to 6% per annum of the Net Cash Proceeds received or contributed by the Company in or from any such Equity Offering;

(v) notwithstanding the existence of any Default or Event of Default, loans, advances, dividends or distributions to any Parent or other payments by the Company or any Restricted Subsidiary to permit such Parent to make payments pursuant to (A) any Tax Sharing Agreement, or (B) to pay or permit any Parent to pay (1) any Parent Expenses or (2) any Related Taxes;

(vi) payments by the Company, or loans, advances, dividends or distributions by the Company to any Parent to make payments, to holders of Equity Interests of the Company or any Parent in lieu of issuance of fractional shares of such Equity Interests, not to exceed \$5.0 million in the aggregate outstanding at any time;

(vii) dividends or other distributions of Equity Interests, Indebtedness or other securities of Unrestricted Subsidiaries;

(viii) the declaration and payment of dividends to holders of any class or series of Disqualified Stock, or of any Preferred Stock of a Restricted Subsidiary, Incurred in accordance with the terms of the covenant described under Certain Covenants Limitation on Indebtedness above;

(ix) Restricted Payments (including loans and advances) in an aggregate amount outstanding at any time not exceeding an amount (net of repayments of such loans or advances) equal to the greater of (x) \$100.0 million and (y) 2.75% of Total Assets;

(x) the purchase, redemption or other acquisition, cancellation or retirement for value of Equity Interests of the Company or any Restricted Subsidiary or any Parent held by any existing or former employees or management or directors of the Company or any Parent or any Subsidiary of the Company or their assigns, estates or heirs, in each case in connection with (x) the death or disability of such employee, manager or director or (y) the repurchase provisions under employee stock option or stock purchase agreements or other agreements to compensate management employees or directors; provided that in the case of clause (y) such redemptions or repurchases pursuant to such clause will not exceed \$20.0 million in the aggregate during any twelve-month period (which shall increase to \$40.0 million subsequent to the consummation of an underwritten public Equity Offering) plus the aggregate Net Cash Proceeds received by the Company after the Issue Date from the issuance of such Equity Interests or equity appreciation rights to, or the exercise of options, warrants or other rights to purchase or acquire Equity Interests of the Company by, any current or former director, officer or employee of the Company or any Restricted Subsidiary or from key man life insurance policies which are used to make such redemptions or repurchases; provided that the amount of such Net Cash Proceeds received by the Company and utilized pursuant to this clause (x) for any such repurchase, redemption, acquisition or retirement will be excluded from clause (a)(3)(B) of the preceding paragraph; and provided, further, that unused amounts available pursuant to this clause (x) to be utilized for Restricted Payments during any twelve-month period may be carried forward and utilized in the next succeeding twenty-four-month period; and

(xi) repurchases of Equity Interests deemed to occur upon the exercise of stock options, warrants or other convertible securities if such Equity Interests represents (i) a portion of the exercise price thereof or (ii) withholding incurred in connection with such exercise;

(xii) Restricted Payments made pursuant to, or contemplated by, or made to any Parent to permit any Parent to perform its obligations under, the Transactions, including the provisions of any Transaction Document as in effect on the Issue Date, and as the same may be amended or replaced so long as such amendment or replacement that is not materially more disadvantageous to the Holders than the original Transaction Document as in effect on the Issue Date;

(xiii) repurchases by the Company or any Restricted Subsidiary of all (but not less than all), excluding directors' qualifying shares, of the Equity Interests or other ownership interests in a Subsidiary of the Company which Equity Interests or other ownership interests were not theretofore owned by the Company or a Restricted Subsidiary of the Company;

(xiv) payments by the Company or any Restricted Subsidiary pursuant to its guarantee of AFC's customary servicing obligations in connection with the Receivables Purchase Agreement; and

(xv) Restricted Payments that are made with Excluded Contributions;

provided, that (A) in the case of clauses (iii), (iv), (v)(B), and (vi), the net amount of any such Permitted Payment shall be included in subsequent calculations of the amount of Restricted Payments (but only to the extent such amount was not included as an expense in the calculation of Consolidated Net Income), and (B) in all cases other than pursuant to clause (A) immediately above, the net amount of any such Permitted Payment shall be excluded in subsequent calculations of the amount of Restricted Payments.

Limitation on Restrictions on Distributions from Restricted Subsidiaries

The Indenture provides that the Company will not, and will not permit any Restricted Subsidiary to, create or otherwise cause to exist or become effective any consensual encumbrance or restriction on the ability of any Restricted Subsidiary to (i) pay dividends or make any other distributions on its Equity Interests or pay any Indebtedness or other obligations owed to the Company, (ii) make any loans or advances to the Company or (iii) transfer any of its property or assets to the Company (provided that dividend or liquidation priority between classes of Equity Interests, or subordination of any obligation (including the application of any remedy bars thereto) to any other obligation, will not be deemed to constitute such an encumbrance or restriction), except any encumbrance or restriction:

- (1) pursuant to any agreement in effect at or entered into on the Issue Date, including, without limitation, the Indenture, the Senior Subordinated Notes, the Senior Note Indentures, the Senior Exchange Notes, the Senior Credit Facility or any other Credit Facility;
- (2) pursuant to any agreement or instrument of a Person, or relating to Indebtedness or Equity Interests of a Person, which Person is acquired by or merged or consolidated with or into the Company or any Restricted Subsidiary, or which agreement or instrument is assumed by the Company or any Restricted Subsidiary in connection with an acquisition of assets from such Person, as in effect at the time of such acquisition, merger or consolidation (except to the extent that such Indebtedness was incurred to finance, or otherwise in connection with, such acquisition, merger or consolidation); provided that for purposes of this clause (2), if a Person other than the Company is the Successor Company with respect thereto, any Subsidiary thereof or agreement or instrument of such Person or any such Subsidiary shall be deemed acquired or assumed, as the case may be, by the Company or a Restricted Subsidiary, as the case may be, when such Person becomes such Successor Company;
- (3) pursuant to an agreement or instrument (a Refinancing Agreement) effecting a refinancing of Indebtedness Incurred pursuant to, or that otherwise extends, renews, refunds, refinances or replaces, an agreement or instrument referred to in clause (1) or (2) of this covenant or this clause (3) (an Initial Agreement) or contained in any amendment, supplement or other modification to an Initial Agreement (an Amendment); provided, however, that the encumbrances and restrictions contained in any such Refinancing Agreement or Amendment taken as a whole are not materially less favorable to the Holders of the Senior Subordinated Notes than encumbrances and restrictions contained in the Initial Agreement or Initial Agreements to which such Refinancing Agreement or Amendment relates (as determined in good faith by the Company);
- (4)(A) that restricts in a customary manner the subletting, assignment or transfer of any property or asset that is subject to a lease, license or similar contract, or the assignment or transfer of any lease, license or other contract, (B) by virtue of any transfer of, agreement to transfer, option or right with respect to, or Lien on, any property or assets of the Company or any Restricted Subsidiary not otherwise prohibited by the Indenture, (C) contained in mortgages, pledges or other security agreements securing Indebtedness of a Restricted Subsidiary to the extent restricting the transfer of the property or assets subject thereto, (D) pursuant to customary provisions restricting dispositions of real property interests set forth in any reciprocal easement agreements of the Company or any Restricted Subsidiary, (E) pursuant to Purchase Money Obligations that impose encumbrances or restrictions on the property or assets so acquired, (F) on cash or other deposits or net worth imposed by customers or suppliers under agreements entered into in the ordinary course of business, (G) pursuant to customary provisions contained in agreements and instruments entered into in the ordinary course of business (including but not limited to leases, sale and leaseback agreements, asset sale agreements and joint venture and other similar agreements entered into in the ordinary course of business), (H) that arises or is agreed to in the ordinary course of business and does not detract from the value of property or assets of the Company or any Restricted Subsidiary in any manner material to the Company or such Restricted Subsidiary, or (I) pursuant to Hedging Obligations;

(5) with respect to a Restricted Subsidiary (or any of its property or assets) imposed pursuant to an agreement entered into for the direct or indirect sale or disposition of all or substantially all the Equity Interests or assets of such Restricted Subsidiary (or the property or assets that are subject to such restriction) pending the closing of such sale or disposition;

(6) by reason of any applicable law, rule, regulation or order, or required by any regulatory authority having jurisdiction over the Company or any Restricted Subsidiary or any of their businesses; or

(7) pursuant to an agreement or instrument (A) relating to any Indebtedness permitted to be Incurred subsequent to the Issue Date pursuant to the provisions of the covenant described under **Limitation on indebtedness** (i) if the encumbrances and restrictions contained in any such agreement or instrument taken as a whole are not less favorable to the Holders of the Senior Subordinated Notes than the encumbrances and restrictions contained in the Initial Agreements (as determined in good faith by the Company), or (ii) if such encumbrance or restriction is not materially more disadvantageous to the Holders of the Senior Subordinated Notes than is customary in comparable financings (as determined in good faith by the Company) and either (x) the Company determines in good faith that such encumbrance or restriction will not materially affect the Company's ability to make principal or interest payments on the Senior Subordinated Notes or (y) such encumbrance or restriction applies only if a default occurs in respect of a payment or financial covenant relating to such Indebtedness or (B) of, or relating to Indebtedness of or a Financing Disposition by or to or in favor of, any Special Purpose Entity.

Limitation on Sales of Assets and Subsidiary Stock

The Indenture provides as follows:

(a) The Company will not, and will not permit any Restricted Subsidiary to, make any Asset Disposition unless

(i) the Company or such Restricted Subsidiary receives consideration (including by way of relief from, or by any other Person assuming responsibility for, any liabilities, contingent or otherwise) at the time of such Asset Disposition at least equal to the fair market value of the shares and assets subject to such Asset Disposition, as such fair market value may be determined (and shall be determined, to the extent such Asset Disposition or any series of related Asset Dispositions involves aggregate consideration in excess of \$25.0 million) in good faith by the Board of Directors, whose determination shall be conclusive (including as to the value of all noncash consideration);

(ii) in the case of any Asset Disposition (or series of related Asset Dispositions) having a fair market value of \$25.0 million or more, at least 75% of the consideration therefor (excluding, in the case of an Asset Disposition (or series of related Asset Dispositions), any consideration by way of relief from, or by any other Person assuming responsibility for, any liabilities, contingent or otherwise, that are not Indebtedness) received by the Company or such Restricted Subsidiary is in the form of cash; and

(iii) an amount equal to 100% of the Net Available Cash from such Asset Disposition is applied by the Company (or any Restricted Subsidiary, as the case may be) as follows:

(A) first, either (x) to the extent the Company elects (or is required by the terms of (1) any Senior Indebtedness, (2) any secured Indebtedness of the Company or any Subsidiary Guarantor or (3) any Indebtedness of a Restricted Subsidiary that is not a Subsidiary Guarantor), to prepay, repay or purchase any such Indebtedness or (in the case of letters of credit, bankers' acceptances or other similar instruments) cash collateralize any such Indebtedness (in each case other than Indebtedness owed to the Company or a Restricted Subsidiary) within 360 days after the later of the date of such Asset Disposition and the date of receipt of such Net Available Cash, or (y) to the extent the Company or such Restricted Subsidiary elects, to invest in Additional Assets (including by means of an investment in Additional Assets by a Restricted Subsidiary with an amount equal

to Net Available Cash received by the Company or another Restricted Subsidiary) within 360 days from the later of the date of such Asset Disposition and the date of receipt of such Net Available Cash, or, if such investment in Additional Assets is a project authorized by the Board of Directors that will take longer than such 360 days to complete, the period of time necessary to complete such project;

(B) second, if the balance of such Net Available Cash after application in accordance with clause (A) (and after the expiration of the maximum period for such application permitted by clause (A)) above exceeds \$20.0 million, (such balance, the Excess Proceeds), to the extent of such Excess Proceeds, to make an offer to purchase Senior Subordinated Notes and (to the extent the Company or such Restricted Subsidiary elects, or is required by the terms thereof) to purchase, redeem or repay any other Senior Subordinated Indebtedness of the Company or a Restricted Subsidiary, pursuant and subject to the conditions of the Indenture and the agreements governing such other Indebtedness; and

(C) third, to the extent of the balance of such Net Available Cash after application in accordance with clauses (A) and (B) above, to fund (to the extent consistent with any other applicable provision of the Indenture) any general corporate purpose (including but not limited to the repurchase, repayment or other acquisition or retirement of any Subordinated Obligations);

provided, however, that in connection with any prepayment, repayment or purchase of Indebtedness pursuant to clause (A)(x) or (B) above, the Company or such Restricted Subsidiary will retire such Indebtedness and will cause the related loan commitment (if any) to be permanently reduced in an amount equal to the principal amount so prepaid, repaid or purchased.

Notwithstanding the foregoing provisions of this covenant, the Company and the Restricted Subsidiaries shall not be required to apply any Net Available Cash or equivalent amount in accordance with this covenant except to the extent that the aggregate Net Available Cash from all Asset Dispositions or equivalent amount that is not applied in accordance with this covenant exceeds \$50.0 million. If the aggregate principal amount of Senior Subordinated Notes or other Senior Subordinated Indebtedness of the Company or a Restricted Subsidiary validly tendered and not withdrawn (or otherwise subject to purchase, redemption or repayment) in connection with an offer pursuant to clause (B) above exceeds the Excess Proceeds, the Excess Proceeds will be apportioned between such Senior Subordinated Notes and such other Indebtedness of the Company or a Restricted Subsidiary, with the portion of the Excess Proceeds payable in respect of such Senior Subordinated Notes to equal the lesser of (x) the Excess Proceeds amount multiplied by a fraction, the numerator of which is the outstanding principal amount of such Senior Subordinated Notes and the denominator of which is the sum of the outstanding principal amount of the Senior Subordinated Notes and the outstanding principal amount of the relevant other Indebtedness of the Company or a Restricted Subsidiary, and (y) the aggregate principal amount of Senior Subordinated Notes validly tendered and not withdrawn.

For the purposes of clause (ii) of paragraph (a) above, the following are deemed to be cash: (1) Temporary Cash Investments and Cash Equivalents, (2) the assumption of Indebtedness of the Company (other than Disqualified Stock of the Company) or any Restricted Subsidiary and the release of the Company or such Restricted Subsidiary from all liability on payment of the principal amount of such Indebtedness in connection with such Asset Disposition, (3) Indebtedness of any Restricted Subsidiary that is no longer a Restricted Subsidiary as a result of such Asset Disposition, to the extent that the Company and each other Restricted Subsidiary are released from any Guarantee of payment of the principal amount of such Indebtedness in connection with such Asset Disposition, (4) securities received by the Company or any Restricted Subsidiary from the transferee that are converted by the Company or such Restricted Subsidiary into cash within 180 days, (5) consideration consisting of Indebtedness of the Company or any Restricted Subsidiary and (6) any Designated Noncash Consideration received by the Company or any Restricted Subsidiary in such Asset Disposition having an aggregate Fair Market Value, taken together with all other Designated Noncash Consideration received pursuant to this covenant that is at that time outstanding, not to exceed the greater of (x) \$50.0 million or (y) 1.25% of Total Assets at the time of the receipt of such Designated Noncash Consideration (with the Fair Market Value being measured at the time received and without giving effect to subsequent changes in value).

Table of Contents

(b) In the event of an Asset Disposition that requires the purchase of Senior Subordinated Notes pursuant to clause (iii)(B) of paragraph (a) above, the Company will be required to purchase Senior Subordinated Notes tendered pursuant to an offer by the Company for the Senior Subordinated Notes (the Offer) at a purchase price of 100% of their principal amount plus accrued and unpaid interest to the Purchase Date in accordance with the procedures (including prorating in the event of oversubscription) set forth in the Indenture. If the aggregate purchase price of the Senior Subordinated Notes tendered pursuant to the Offer is less than the Net Available Cash allotted to the purchase of Senior Subordinated Notes, the remaining Net Available Cash will be available to the Company for use in accordance with clause (iii)(B) of paragraph (a) above (to repay other Indebtedness of the Company or a Restricted Subsidiary) or clause (iii)(C) of paragraph (a) above. The Company shall not be required to make an Offer for Senior Subordinated Notes pursuant to this covenant if the Net Available Cash available therefor (after application of the proceeds as provided in clause (iii)(A) of paragraph (a) above) is less than \$50.0 million for any particular Asset Disposition (which lesser amounts shall be carried forward for purposes of determining whether an Offer is required with respect to the Net Available Cash from any subsequent Asset Disposition). No Note will be repurchased in part if less than the Minimum Denomination in original principal amount.

(c) Pending the final application of any Net Proceeds pursuant to this covenant, such Net Available Cash may be applied to temporarily to reduce Indebtedness outstanding under a revolving credit facility or otherwise invest such Net Available Cash in any manner not prohibited by the Indenture.

(d) To the extent that the provisions of any securities laws or regulations conflict with provisions of this Limitation on Sales of Assets and Subsidiary Stock covenant, the Company may comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations hereunder by virtue thereof.

The Senior Credit Facility and the Senior Exchange Notes will prohibit or limit, and future credit agreements or other agreements relating to Senior Indebtedness to which the Company becomes a party may prohibit or limit, the Company from purchasing any Senior Subordinated Notes pursuant to this covenant. In the event the Company is prohibited from purchasing the Senior Subordinated Notes, the Company could seek the consent of its lenders and the holders of Senior Indebtedness to the purchase of the Senior Subordinated Notes or could attempt to refinance the borrowings that contain such prohibition. If the Company does not obtain such consent or repay such borrowings, it will remain prohibited from purchasing the Senior Subordinated Notes. In such case, the Company's failure to purchase tendered Senior Subordinated Notes would constitute an Event of Default under the Indenture. If, as a result thereof, a default occurs with respect to any Senior Indebtedness, the subordination provisions in the Indenture would restrict payments to the Holders of the Senior Subordinated Notes under certain circumstances.

Limitation on Transactions with Affiliates

The Indenture provides as follows:

(a) The Company will not, and will not permit any Restricted Subsidiary to, directly or indirectly, enter into or conduct any transaction or series of related transactions (including the purchase, sale, lease or exchange of any property or the rendering of any service) with any Affiliate of the Company (an Affiliate Transaction) unless:

(i) such Affiliate Transaction is entered into in good faith and the terms of such Affiliate Transaction are, taken as a whole, fair and reasonable to the Company or such Restricted Subsidiary; and

(ii) if such Affiliate Transaction involves aggregate consideration in excess of \$25.0 million, the terms of such Affiliate Transaction have been approved by a majority of the Disinterested Directors.

For purposes of this paragraph, any Affiliate Transaction shall be deemed to have satisfied the requirements set forth in this paragraph if (x) such Affiliate Transaction is approved by a majority of the

Table of Contents

Disinterested Directors or (y) in the event there are no Disinterested Directors, the Company or such Restricted Subsidiary receives an opinion in customary form from a nationally recognized appraisal or investment banking firm to the effect that such Affiliate Transaction is fair to the Company or such Restricted Subsidiary from a financial point of view.

(b) The provisions of the preceding paragraph (a) will not apply to:

(i) any Restricted Payment Transaction;

(ii)(1) the entering into, maintaining or performance of any employment contract, collective bargaining agreement, benefit plan, program or arrangement, related trust agreement or any other similar arrangement for or with any employee, officer or director heretofore or hereafter entered into in the ordinary course of business, including vacation, health, insurance, deferred compensation, severance, retirement, savings or other similar plans, programs or arrangements, (2) the payment of compensation, performance of indemnification or contribution obligations, or any issuance, grant or award of stock, options, other equity-related interests or other securities, to employees, officers or directors in the ordinary course of business, (3) the payment of reasonable fees to directors of the Company or any of its Subsidiaries (as determined in good faith by the Company or such Subsidiary) or (4) Management Advances and payments in respect thereof (or in reimbursement of any expenses referred to in the definition of such term);

(iii) any transaction with, including an Investment in, the Company or any Restricted Subsidiary;

(iv) any transaction arising out of and any payments made pursuant to agreements or instruments in existence on the Issue Date (other than any Tax Sharing Agreement referred to in clause (b)(vi) of this covenant), including, without limitation, the Transaction Documents, and as the same may be amended, modified, supplemented or replaced from time to time so long as such amendment, modification, supplement or replacement is not materially more disadvantageous to the Holders than the original agreement or instrument as in effect on the Issue Date;

(v) any transaction in the ordinary course of business, or approved by a majority of the Board of Directors, between the Company or any Restricted Subsidiary and any Affiliate of the Company controlled by the Company that is a joint venture or similar entity;

(vi) the execution, delivery and performance of any Tax Sharing Agreement;

(vii) any issuance or sale of Equity Interests (other than Disqualified Stock) of the Company (and the granting of registration rights or other customary rights in connection therewith) or capital contribution to the Company;

(viii) transactions with Affiliates solely in their capacity as holders of Indebtedness or Equity Interests of the Company or any of its Subsidiaries, where such Affiliates hold less Indebtedness or Equity Interests than non-Affiliates and such Affiliates receive the same consideration as non-Affiliates in such transactions;

(ix) any transaction with any Person who is not an Affiliate immediately before the consummation of such transaction that becomes an Affiliate as a result of such transaction;

(x) transactions between the Company or any Restricted Subsidiary and any Special Purpose Subsidiary in connection with a Financing Disposition or a Special Purpose Financing, provided that such transactions are not otherwise prohibited by the Indenture;

(xi) transactions exclusively between or among the Company and any of its Restricted Subsidiaries, provided such transactions are not otherwise prohibited by the Indenture;

(xii) transactions involving aggregate consideration not to exceed \$1.0 million;

(xiii) payments by the Company or any Restricted Subsidiary to any Permitted Holder or any of its affiliates for any financial advisory, financing, underwriting or placement services or in respect of other

investment banking activities, including in connection with acquisition or divestitures, which payments are approved by a majority of the members of the Board of Directors; and

(xiv) transactions with customers, clients, suppliers or purchasers or sellers of goods or services, in each case in the ordinary course of business or that are on terms at least as favorable to the Company and its Restricted Subsidiaries as might reasonably have been obtained at such time from an unaffiliated party, or that are considered fair to the Company and its Restricted Subsidiaries in the view of a majority of the members of the Board of Directors or the senior management of the Company.

Limitation on Liens

The Indenture provides that the Company shall not, and shall not permit any Restricted Subsidiary to, directly or indirectly, create or permit to exist any Lien (other than Permitted Liens) on any of its property or assets (including Equity Interests of any other Person), whether owned on the Issue Date or thereafter acquired, securing any Indebtedness (the Initial Lien), unless contemporaneously therewith effective provision is made to secure the Indebtedness due under the Indenture and the Senior Subordinated Notes or, in respect of Liens on any Restricted Subsidiary's property or assets, any Subsidiary Guarantee of such Restricted Subsidiary, equally and ratably with (or on a senior basis to, in the case of Subordinated Obligations or Guarantor Subordinated Obligations) such obligation for so long as such obligation is so secured by such Initial Lien. Any such Lien thereby created in favor of the Senior Subordinated Notes or any such Subsidiary Guarantee will be automatically and unconditionally released and discharged upon (i) the release and discharge of the Initial Lien to which it relates, (ii) in the case of any such Lien in favor of any such Subsidiary Guarantee, upon the termination and discharge of such Subsidiary Guarantee in accordance with the terms of the Indenture or (iii) any sale, exchange or transfer (other than a transfer constituting a transfer of all or substantially all of the assets of the Company that is governed by the provisions of the covenant described under Merger and consolidation below) to any Person not an Affiliate of the Company of the property or assets secured by such Initial Lien, or of all of the Equity Interests held by the Company or any Restricted Subsidiary in, or all or substantially all the assets of, any Restricted Subsidiary creating such Initial Lien.

Future Subsidiary Guarantors

As set forth more particularly under Subsidiary Guarantees, the Indenture provides that the Company will cause each Subsidiary that guarantees payment by the Company of any Indebtedness of the Company under the Senior Credit Facility or the Senior Exchange Notes to execute and deliver to the Trustee a supplemental indenture or other instrument pursuant to which such Subsidiary will guarantee payment of the Senior Subordinated Notes, whereupon such Subsidiary will become a Subsidiary Guarantor for all purposes under the Indenture. The Company will also have the right to cause any other Subsidiary so to guarantee payment of the Senior Subordinated Notes. Subsidiary Guarantees will be subject to release and discharge under certain circumstances prior to payment in full of the Senior Subordinated Notes. See Subsidiary Guarantees.

Limitation on Layering

The Indenture provides that the Company will not, and will not permit any Subsidiary Guarantor to, directly or indirectly, Incur any Indebtedness (including Acquired Indebtedness) that is subordinate in right of payment to any Senior Indebtedness of the Company or such Subsidiary Guarantor, as the case may be, unless such Indebtedness is either:

(1) equal in right of payment with the Senior Subordinated Notes or such Subsidiary Guarantor's Subsidiary Guarantee of the Senior Subordinated Notes, as the case may be; or

(2) expressly subordinated in right of payment to the Senior Subordinated Notes or such Subsidiary Guarantor's Subsidiary Guarantee of the Senior Subordinated Notes, as the case may be.

Table of Contents

The Indenture will not treat (1) unsecured Indebtedness as subordinated or junior to Secured Indebtedness merely because it is unsecured or (2) Senior Indebtedness as subordinated or junior to any other Senior Indebtedness merely because it has a junior priority with respect to the same collateral or by virtue of the fact that the holders of such Senior Indebtedness have entered into intercreditor or other arrangements giving one or more of such holders priority over the other holders in the collateral held by them.

SEC Reports

The Indenture provides that, following consummation of the Exchange Offer, notwithstanding that the Company may not be required to be or remain subject to the reporting requirements of Section 13(a) or 15(d) of the Exchange Act, the Company will file with the SEC (unless such filing is not permitted under the Exchange Act or by the SEC), so long as any Senior Subordinated Notes are outstanding, the annual reports, information, documents and other reports that the Company is required to file with the SEC pursuant to such Section 13(a) or 15(d) or would be so required to file if the Company were so subject within the time periods specified above. The Company will also, within 15 days after the time periods specified above, transmit by mail to all Holders, as their names and addresses appear in the Note Register, and to the Trustee (or make available on a Company website) copies of any such information, documents and reports (without exhibits) so required to be filed.

The Company will be deemed to have satisfied the requirements of this covenant if any Parent files with the SEC and provides reports, documents and information of the types otherwise so required, in each case within the applicable time periods specified by the applicable rules and regulations of the SEC, and the Company is not required to file such reports, documents and information separately under the applicable rules and regulations of the SEC (after giving effect to any exemptive relief) because of the filings by such Parent. The Company will comply with the other provisions of TIA § 314(a).

Notwithstanding the foregoing, the requirements of this covenant shall be deemed satisfied prior to the commencement of the exchange offer or the effectiveness of the shelf registration statement described in the Registration Rights Agreement (1) by the filing with the SEC of the exchange offer registration statement or shelf registration statement (or any other similar registration statement), and any amendments thereto, with such financial information that satisfies Regulation S-X, subject to exceptions consistent with the presentation of financial information in this prospectus, to the extent filed within the times specified above, or (2) by posting on the Company's website (or that of any of its parent companies) or providing such reports to the Trustee within 15 days after the time periods specified above, the financial information (including a Management's Discussion and Analysis of Results of Operations and Financial Condition section) that would be required to be included in such reports, subject to exceptions consistent with the presentation of financial information in this prospectus. Notwithstanding anything herein to the contrary, the Company will not be deemed to have failed to comply with any of its agreements set forth under this covenant for purposes of clause (v) under Defaults until 120 days after the date any report required to be provided by this covenant is due.

Merger and Consolidation

The Indenture provides that the Company will not consolidate with or merge with or into, or convey, transfer or lease all or substantially all its assets to, any Person, unless:

(i) the resulting, surviving or transferee Person (the Successor Company) will be a Person organized and existing under the laws of the United States of America, any State thereof or the District of Columbia and the Successor Company (if not the Company) will expressly assume all the obligations of the Company under the Senior Subordinated Notes and the Indenture by executing and delivering to the Trustee a supplemental indenture or one or more other documents or instruments in form reasonably satisfactory to the Trustee;

Table of Contents

(ii) immediately after giving effect to such transaction (and treating any Indebtedness that becomes an obligation of the Successor Company or any Restricted Subsidiary as a result of such transaction as having been Incurred by the Successor Company or such Restricted Subsidiary at the time of such transaction), no Default will have occurred and be continuing;

(iii) immediately after giving effect to such transaction, either (A) the Successor Company could Incur at least \$1.00 of additional Indebtedness pursuant to paragraph (a) of the covenant described under Certain Covenants Limitation on Indebtedness, or (B) the Consolidated Coverage Ratio of the Company (or, if applicable, the Successor Company with respect thereto) would equal or exceed the Consolidated Coverage Ratio of the Company immediately prior to giving effect to such transaction;

(iv) each Subsidiary Guarantor (other than (x) any Subsidiary Guarantor that will be released from its obligations under its Subsidiary Guarantee in connection with such transaction and (y) any party to any such consolidation or merger) shall have delivered a supplemental indenture or other document or instrument in form reasonably satisfactory to the Trustee, confirming its Subsidiary Guarantee (other than any Subsidiary Guarantee that will be discharged or terminated in connection with such transaction); and

(v) the Company will have delivered to the Trustee an Officer's Certificate and an Opinion of Counsel, each to the effect that such consolidation, merger or transfer complies with the provisions described in this covenant, provided that (x) in giving such opinion such counsel may assume compliance with the foregoing clauses (ii) and (iii) to the extent such opinion would otherwise be required to address financial matters or tests and, as to any matters of fact, may rely on an Officer's Certificate, and (y) no Opinion of Counsel will be required for a consolidation, merger or transfer described in the last paragraph of this covenant.

Any Indebtedness that becomes an obligation of the Company or any Restricted Subsidiary (or that is deemed to be Incurred by any Person that becomes a Restricted Subsidiary) as a result of any such transaction undertaken in compliance with this covenant, and any Refinancing Indebtedness with respect thereto, shall be deemed to have been Incurred in compliance with the covenant described under Certain Covenants Limitation on Indebtedness.

The Successor Company will succeed to, and be substituted for, and may exercise every right and power of, the Company under the Indenture, and thereafter the predecessor Company shall be relieved of all obligations and covenants under the Indenture, except that the predecessor Company in the case of a lease of all or substantially all its assets will not be released from the obligation to pay the principal of and interest on the Senior Subordinated Notes.

Clauses (ii) and (iii) of the first paragraph of this Merger and Consolidation covenant will not apply to any transaction in which (1) any Restricted Subsidiary consolidates with, merges with or into or conveys or transfers all or part of its assets to the Company or (2) the Company consolidates with or merges with or into or conveys or transfers all or substantially all its properties and assets to (x) an Affiliate incorporated or organized for the purpose of reincorporating or reorganizing the Company in another jurisdiction or changing its legal structure to a corporation or other entity or (y) a Restricted Subsidiary of the Company so long as all assets of the Company and the Restricted Subsidiaries immediately prior to such transaction (other than Equity Interests of such Restricted Subsidiary) are owned by such Restricted Subsidiary and its Restricted Subsidiaries immediately after the consummation thereof.

Defaults

An Event of Default is defined in the Indenture as:

(i) a default in any payment of interest on any Note when due, continued for 30 days, whether or not such payment is prohibited by the subordination provisions of the Indenture;

(ii) a default in the payment of principal of any Note when due, whether at its Stated Maturity, upon optional redemption, upon required repurchase, upon declaration of acceleration or otherwise, whether or not such payment is prohibited by the subordination provisions of the Indenture;

Table of Contents

(iii) the failure by the Company or any Subsidiary Guarantor to comply with its obligations under the first paragraph of the covenant described under **Merger and Consolidation** above;

(iv) the failure by the Company or any Subsidiary Guarantor to comply for 30 days after notice with any of its obligations under the covenant described under **Change of Control** above (other than a failure to purchase Senior Subordinated Notes);

(v) the failure by the Company or any Subsidiary Guarantor to comply for 60 days after notice with its other agreements contained in the Senior Subordinated Notes or the Indenture;

(vi) the failure by the Company or any Restricted Subsidiary to pay any Indebtedness within any applicable grace period after final maturity or the acceleration of any such Indebtedness by the holders thereof because of a default, if the total amount of such Indebtedness so unpaid or accelerated exceeds \$50.0 million or its foreign currency equivalent;

(vii) certain events of bankruptcy, insolvency or reorganization of the Company or a Significant Subsidiary, or of other Restricted Subsidiaries that are not Significant Subsidiaries but would in the aggregate constitute a Significant Subsidiary if considered as a single Person (the **bankruptcy provisions**);

(viii) the rendering of any judgment or decree for the payment of money in an amount (net of any insurance or indemnity payments actually received in respect thereof prior to or within 60 days from the entry thereof, or to be received in respect thereof in the event any appeal thereof shall be unsuccessful) in excess of \$50.0 million or its foreign currency equivalent against the Company or a Significant Subsidiary, or jointly and severally against other Restricted Subsidiaries that are not Significant Subsidiaries but would in the aggregate constitute a Significant Subsidiary if considered as a single Person, that is not discharged, or bonded or insured by a third Person, if such judgment or decree remains outstanding for a period of 60 days following such judgment or decree and is not discharged, waived or stayed (the **judgment default provision**);
or

(ix) the failure of any Subsidiary Guarantee by a Subsidiary Guarantor that is a Significant Subsidiary to be in full force and effect (except as contemplated by the terms thereof or of the Indenture) or the denial or disaffirmation in writing by any applicable Subsidiary Guarantor that is a Significant Subsidiary of its obligations under the Indenture or any Subsidiary Guarantee.

The foregoing will constitute Events of Default whatever the reason for any such Event of Default and whether it is voluntary or involuntary or is effected by operation of law or pursuant to any judgment, decree or order of any court or any order, rule or regulation of any administrative or governmental body.

However, a Default under clause (iv) or (v) will not constitute an Event of Default until the Trustee or the Holders of at least 30% in principal amount of the outstanding Senior Subordinated Notes notify the Company of the Default and the Company does not cure such Default within the time specified in such clause after receipt of such notice.

If an Event of Default (other than a Default relating to certain events of bankruptcy, insolvency or reorganization of the Company) occurs and is continuing the Trustee by notice to the Company, or the Holders of at least 30% in principal amount of the outstanding Senior Subordinated Notes by notice to the Company and the Trustee, may declare the principal of and accrued but unpaid interest on all Senior Subordinated Notes to be due and payable; provided, however, that so long as any Indebtedness permitted to be incurred under the Indenture as part of the Senior Credit Facility or any series of Senior Exchange Notes shall be outstanding, no such acceleration shall be effective until the earlier of:

(1) acceleration of any such Indebtedness under the Senior Credit Facility and the Senior Exchange Notes; or

(2) five Business Days after the giving of written notice of such acceleration to the Company and the administrative agent under the Senior Credit Facility and the trustee under any Senior Exchange Notes.

Table of Contents

Upon the effectiveness of such a declaration, such principal and interest will be due and payable immediately.

Notwithstanding the foregoing, if an Event of Default relating to certain events of bankruptcy, insolvency or reorganization of the Company occurs and is continuing, the principal of and accrued but unpaid interest on all the Senior Subordinated Notes will become immediately due and payable without any declaration or other act on the part of the Trustee or any Holders. Under certain circumstances, the Holders of a majority in principal amount of the outstanding Senior Subordinated Notes may rescind any such acceleration with respect to the Senior Subordinated Notes and its consequences. In the event of any Default or Event of Default specified in clause (vi) above, such Default or Event of Default and all consequences thereof (excluding any resulting payment default, other than as a result of acceleration of the Senior Subordinated Notes) shall not be deemed to have occurred and shall be annulled, waived and rescinded automatically, in each case, without any action by the Trustee or the Holders if, within 20 days after such Event of Default arose,

(x) the Indebtedness or guarantee that is the basis for such Event of Default has been discharged;

(y) the holders thereof have rescinded or waived the acceleration, notice or action (as the case may be) giving rise to such Event of Default; or

(z) the default that is the basis for such Event of Default has been cured.

Subject to the provisions of the Indenture relating to the duties of the Trustee thereunder, in case an Event of Default occurs and is continuing, the Trustee will be under no obligation to exercise any of the rights or powers under the Indenture at the request or direction of any of the Holders unless such Holders have offered to the Trustee reasonable indemnity or security against any loss, liability or expense. Except to enforce the right to receive payment of principal, premium (if any) or interest when due, no Holder may pursue any remedy with respect to the Indenture or the Senior Subordinated Notes unless (i) such Holder has previously given the Trustee written notice that an Event of Default is continuing, (ii) Holders of at least 30% in principal amount of the outstanding Senior Subordinated Notes have requested the Trustee in writing to pursue the remedy, (iii) such Holders have offered the Trustee reasonable security or indemnity against any loss, liability or expense, (iv) the Trustee has not complied with such request within 60 days after the receipt of the request and the offer of security or indemnity and (v) the Holders of a majority in principal amount of the outstanding Senior Subordinated Notes have not given the Trustee a direction inconsistent with such request within such 60-day period. Subject to certain restrictions, the Holders of a majority in principal amount of the outstanding Senior Subordinated Notes are given the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or of exercising any trust or power conferred on the Trustee. The Trustee, however, may refuse to follow any direction that conflicts with law or the Indenture or that the Trustee determines is unduly prejudicial to the rights of any other Holder or that would involve the Trustee in personal liability. Prior to taking any action under either Indenture, the Trustee will be entitled to indemnification satisfactory to it in its sole discretion against all losses and expenses caused by taking or not taking such action.

The Indenture provides that if a Default occurs and is continuing and is known to the Trustee, the Trustee must mail to each Holder notice of the Default within 90 days after it occurs. Except in the case of a Default in the payment of principal of, or premium (if any) or interest on, any Note, the Trustee may withhold notice if and so long as a committee of its Trust Officers in good faith determines that withholding notice is in the interests of the Noteholders. In addition, the Company is required to deliver to the Trustee, within 120 days after the end of each fiscal year, a certificate indicating whether the signers thereof know of any Default occurring during the previous year. The Company also is required to deliver to the Trustee, within 30 days after an Officer of the Company becomes aware of the occurrence thereof, written notice of any event that would constitute a Default, its status and what action the Company is taking or proposes to take in respect thereof.

Table of Contents**Amendments and Waivers**

Subject to certain exceptions, the Indenture may be amended with the consent of the Holders of a majority in principal amount of the Senior Subordinated Notes then outstanding and any past Default or compliance with any provisions may be waived with the consent of the Holders of a majority in principal amount of the Senior Subordinated Notes then outstanding (including in each case, consents obtained in connection with a tender offer or exchange offer for Senior Subordinated Notes). However, without the consent of each Holder of an outstanding Note affected, no amendment or waiver may (i) reduce the principal amount of Senior Subordinated Notes whose Holders must consent to an amendment or waiver, (ii) reduce the rate of or extend the time for payment of interest on any Note, (iii) reduce the principal of or extend the Stated Maturity of any Note, (iv) reduce the premium payable upon the redemption of any Note, or change the date at which any Note may be redeemed as described under Optional Redemption above, (v) make any Note payable in money other than that stated in such Note, (vi) impair the right of any Holder to receive payment of principal of and interest on such Holder's Senior Subordinated Notes on or after the due dates therefor or to institute suit for the enforcement of any such payment on or with respect to such Holder's Senior Subordinated Notes, (vii) release any Subsidiary Guarantor from any of its obligations under the Indenture, except in accordance with the terms of the Indenture or (viii) make any change in the amendment or waiver provisions described in this sentence. In addition, any amendment to, or waiver of, the provisions of the Indenture relating to subordination that adversely affect the rights of the Holders of the Senior Subordinated Notes will require the consent of the Holders of at least 75% in aggregate principal amount of the Senior Subordinated Notes then outstanding.

Without the consent of any Holder, the Company, the Trustee and (as applicable) any Subsidiary Guarantor may amend the Indenture to cure or reform any ambiguity, mistake, manifest error, omission, defect or inconsistency, to provide for the assumption by a successor of the obligations of the Company or a Subsidiary Guarantor under the Indenture, to provide for uncertificated Senior Subordinated Notes in addition to or in place of certificated Senior Subordinated Notes, to add Guarantees with respect to the Senior Subordinated Notes, to secure the Senior Subordinated Notes, to confirm and evidence the release, termination or discharge of any Guarantee or Lien with respect to or securing the Senior Subordinated Notes when such release, termination or discharge is provided for under the Indenture, to add to the covenants of the Company for the benefit of the Noteholders or to surrender any right or power conferred upon the Company, to provide for or confirm the issuance of Additional Senior Subordinated Notes, to conform the text of the Indenture, the Senior Subordinated Notes or any Subsidiary Guarantee to any provision of this Description of Senior Subordinated Notes, to increase the minimum denomination of Senior Subordinated Notes to equal the dollar equivalent of 1,000 rounded up to the nearest \$1,000 (including for purposes of redemption or repurchase of any Note in part), to provide additional rights or benefits to the Holders or make any change that does not materially adversely affect the rights of any Holder, to release a Subsidiary Guarantor from its obligations under its Subsidiary Guarantee or the Indenture in accordance with the applicable provisions of the Indenture, to provide for the appointment of a successor trustee, provided that the successor trustee is otherwise qualified and eligible to act as such under the terms of the Indenture, or to comply with any requirement of the SEC in connection with the qualification of the Indenture under the TIA or otherwise.

The consent of the Noteholders is not necessary under the Indenture to approve the particular form of any proposed amendment or waiver. It is sufficient if such consent approves the substance of the proposed amendment or waiver. Until an amendment or waiver becomes effective, a consent to it by a Noteholder is a continuing consent by such Noteholder and every subsequent Holder of all or part of the related Note. Any such Noteholder or subsequent holder may revoke such consent as to its Note by written notice to the Trustee or the Company, received thereby before the date on which the Company certifies to Trustee that the Holders of the requisite principal amount of Senior Subordinated Notes have consented to such amendment or waiver. After an amendment or waiver under the Indenture becomes effective, the Company is required to mail to Noteholders a notice briefly describing such amendment or waiver. However, the failure to give such notice to all Noteholders, or any defect therein, will not impair or affect the validity of the amendment or waiver.

Table of Contents**Defeasance**

The Company at any time may terminate all its obligations under the Senior Subordinated Notes and the Indenture (legal defeasance), except for certain obligations, including those relating to the defeasance trust and obligations to register the transfer or exchange of the Senior Subordinated Notes, to replace mutilated, destroyed, lost or stolen Senior Subordinated Notes and to maintain a registrar and paying agent in respect of the Senior Subordinated Notes. The Company at any time may terminate its obligations under certain covenants under an Indenture, including the covenants described under Certain Covenants and Change of Control, the operation of the default provisions relating to such covenants described under Defaults above, the operation of the cross acceleration provision, the bankruptcy provisions with respect to Subsidiaries and the judgment default provision described under Defaults above, and the limitations contained in clauses (iii), (iv) and (v) under Merger and Consolidation above (covenant defeasance). If the Company exercises its legal defeasance option or its covenant defeasance option, each Subsidiary Guarantor will be released from all of its obligations with respect to its Subsidiary Guarantee and any security then securing the Senior Subordinated Notes will be automatically released.

The Company may exercise its legal defeasance option notwithstanding its prior exercise of its covenant defeasance option. If the Company exercises its legal defeasance option, payment of the Senior Subordinated Notes may not be accelerated because of an Event of Default with respect thereto. If the Company exercises its covenant defeasance option, payment of the Senior Subordinated Notes may not be accelerated because of an Event of Default specified in clause (iv), (v) (as it relates to the covenants described under Certain Covenants above), (vi), (vii), (but only with respect to events of bankruptcy, insolvency or reorganization of a Subsidiary), (viii) or (ix) under Defaults above or because of the failure of the Company to comply with clause (iii), (iv) or (v) under Merger and Consolidation above.

Either defeasance option may be exercised prior to any redemption date or to the maturity date for the Senior Subordinated Notes. In order to exercise either defeasance option, the Company must irrevocably deposit in trust (the defeasance trust) with the Trustee money or U.S. Government Obligations, or a combination thereof, sufficient (without reinvestment) to pay principal of, and premium (if any) and interest on, the Senior Subordinated Notes to redemption or maturity, as the case may be, and must comply with certain other conditions, including delivery to the Trustee of an Opinion of Counsel (subject to customary exceptions and exclusions) to the effect that holders of the Senior Subordinated Notes will not recognize income, gain or loss for Federal income tax purposes as a result of such deposit and defeasance and will be subject to Federal income tax on the same amount and in the same manner and at the same times as would have been the case if such deposit and defeasance had not occurred (and, in the case of legal defeasance only, such Opinion of Counsel (x) must be based on a ruling of the Internal Revenue Service or other change in applicable Federal income tax law since the Issue Date and (y) need not be delivered if all Senior Subordinated Notes not theretofore delivered to the Trustee for cancellation have become due and payable, will become due and payable at its Stated Maturity within one year, or are to be called for redemption within one year, under arrangements reasonably satisfactory to the Trustee in the name, and at the expense, of the Company).

Satisfaction and Discharge

The Indenture will be discharged and cease to be of further effect (except as to surviving rights of registration of transfer or exchange of the Senior Subordinated Notes, as expressly provided for in the Indenture) as to all outstanding Senior Subordinated Notes when (i) either (a) all Senior Subordinated Notes previously authenticated and delivered (other than certain lost, stolen or destroyed Senior Subordinated Notes, and certain Senior Subordinated Notes for which provision for payment was previously made and thereafter the funds have been released to the Company) have been delivered to the Trustee for cancellation or (b) all Senior Subordinated Notes not previously delivered to the Trustee for cancellation (x) have become due and payable, (y) will become due and payable at their Stated Maturity within one year or (z) have been or are to be called for redemption

Table of Contents

within one year under arrangements reasonably satisfactory to the Trustee for the giving of notice of redemption by the Trustee in the name, and at the expense, of the Company; (ii) the Company has irrevocably deposited or caused to be deposited with the Trustee money, U.S. Government Obligations, or a combination thereof, sufficient (without reinvestment) to pay and discharge the entire indebtedness on the Senior Subordinated Notes not previously delivered to the Trustee for cancellation, for principal, premium, if any, and interest to, but not including, the date of redemption or their Stated Maturity, as the case may be; (iii) the Company has paid or caused to be paid all other sums payable under the Indenture by the Company; and (iv) the Company has delivered to the Trustee an Officer's Certificate and an Opinion of Counsel each to the effect that all conditions precedent under the Satisfaction and Discharge section of the Indenture relating to the satisfaction and discharge of such Indenture have been complied with, provided that any such counsel may rely on any Officer's Certificate as to matters of fact (including as to compliance with the foregoing clauses (i), (ii) and (iii)).

No Personal Liability of Directors, Officers, Employees, Incorporators and Stockholders

No director, officer, employee, incorporator, equity holder, member or stockholder of the Company, any Subsidiary Guarantor or any Subsidiary of any thereof shall have any liability for any obligation of the Company or any Subsidiary Guarantor under the Indenture, the Senior Subordinated Notes or any Subsidiary Guarantee, or for any claim based on, in respect of, or by reason of, any such obligation or its creation. Each Noteholder, by accepting the Senior Subordinated Notes, waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Senior Subordinated Notes.

Concerning the Trustee

Wells Fargo Bank, National Association is the Trustee under the Indenture and is appointed by the Company as Registrar and Paying Agent with regard to the Senior Subordinated Notes.

The Indenture provides that, except during the continuance of an Event of Default, the Trustee will perform only such duties as are set forth specifically in the Indenture. During the existence of an Event of Default, the Trustee will exercise such of the rights and powers vested in it under the Indenture and use the same degree of care and skill in its exercise as a prudent person would exercise under the circumstances in the conduct of such person's own affairs.

The Indenture and the TIA will impose certain limitations on the rights of the Trustee, should it become a creditor of the Company, to obtain payment of claims in certain cases or to realize on certain property received by it in respect of any such claims, as security or otherwise. Each Trustee is permitted to engage in other transactions; provided, that if it acquires any conflicting interest as described in the TIA, it must eliminate such conflict, apply to the SEC for permission to continue as Trustee with such conflict, or resign.

Transfer and Exchange

A Noteholder may transfer or exchange Senior Subordinated Notes in accordance with the Indenture. Upon any transfer or exchange, the registrar and the Trustee may require such Noteholder, among other things, to furnish appropriate endorsements and transfer documents and the Company may require such Noteholder to pay any taxes or other governmental charges required by law or permitted by the Indenture. The Company is not required to transfer or exchange any Note selected for redemption or purchase or to transfer or exchange any Note for a period of 15 Business Days prior to the day of the mailing of the notice of redemption or purchase. No service charge will be made for any registration of transfer or exchange of the Senior Subordinated Notes, but the Company may require payment of a sum sufficient to cover any transfer tax or other governmental charge payable in connection with the transfer or exchange. The Senior Subordinated Notes will be issued in registered form and the registered holder of a Note will be treated as the owner of such Note for all purposes.

Consolidated Coverage Ratio as of any date of determination means the ratio of (i) the aggregate amount of Consolidated EBITDA for the period of the most recent four consecutive fiscal quarters ending prior to the date of such determination for which Consolidated Financial Statements of the Company are available to (ii) Consolidated Interest Expense for such four fiscal quarters (in each of the foregoing clauses (i) and (ii), determined for each fiscal quarter (or portion thereof) of the four fiscal quarters ending prior to the Issue Date); provided, that

(1) if since the beginning of such period the Company or any Restricted Subsidiary has Incurred any Indebtedness that remains outstanding on such date of determination or if the transaction giving rise to the need to calculate the Consolidated Coverage Ratio is an Incurrence of Indebtedness, Consolidated EBITDA and Consolidated Interest Expense for such period shall be calculated after giving effect on a pro forma basis to such Indebtedness as if such Indebtedness had been Incurred on the first day of such period (except that in making such computation, the amount of Indebtedness under any revolving credit facility outstanding on the date of such calculation shall be computed based on (A) the average daily balance of such Indebtedness during such four fiscal quarters or such shorter period for which such facility was outstanding or (B) if such facility was created after the end of such four fiscal quarters, the average daily balance of such Indebtedness during the period from the date of creation of such facility to the date of such calculation);

(2) if since the beginning of such period the Company or any Restricted Subsidiary has repaid, repurchased, redeemed, defeased or otherwise acquired, retired or discharged any Indebtedness that is no longer outstanding on such date of determination (each, a Discharge) or if the transaction giving rise to the need to calculate the Consolidated Coverage Ratio involves a Discharge of Indebtedness (in each case other than Indebtedness Incurred under any revolving credit facility unless such Indebtedness has been permanently repaid), Consolidated EBITDA and Consolidated Interest Expense for such period shall be calculated after giving effect on a pro forma basis to such Discharge of such Indebtedness, including with the proceeds of such new Indebtedness, as if such Discharge had occurred on the first day of such period;

Table of Contents

(3) if since the beginning of such period the Company or any Restricted Subsidiary shall have disposed of any company, any business or any group of assets constituting an operating unit of a business (any such disposition, a Sale), the Consolidated EBITDA for such period shall be reduced by an amount equal to the Consolidated EBITDA (if positive) attributable to the assets that are the subject of such Sale for such period or increased by an amount equal to the Consolidated EBITDA (if negative) attributable thereto for such period and Consolidated Interest Expense for such period shall be reduced by an amount equal to (A) the Consolidated Interest Expense attributable to any Indebtedness of the Company or any Restricted Subsidiary repaid, repurchased, redeemed, defeased or otherwise acquired, retired or discharged with respect to the Company and its continuing Restricted Subsidiaries in connection with such Sale for such period (including but not limited to through the assumption of such Indebtedness by another Person) plus (B) if the Equity Interests of any Restricted Subsidiary is sold, the Consolidated Interest Expense for such period attributable to the Indebtedness of such Restricted Subsidiary to the extent the Company and its continuing Restricted Subsidiaries are no longer liable for such Indebtedness after such Sale;

(4) if since the beginning of such period the Company or any Restricted Subsidiary (by merger, consolidation or otherwise) shall have made an Investment in any Person that thereby becomes a Restricted Subsidiary, or otherwise acquired any company, any business or any group of assets constituting an operating unit of a business, including any such Investment or acquisition occurring in connection with a transaction causing a calculation to be made hereunder (any such Investment or acquisition, a Purchase), Consolidated EBITDA and Consolidated Interest Expense for such period shall be calculated after giving pro forma effect thereto (including the Incurrence of any related Indebtedness) as if such Purchase occurred on the first day of such period; and

(5) if since the beginning of such period any Person became a Restricted Subsidiary or was merged or consolidated with or into the Company or any Restricted Subsidiary, and since the beginning of such period such Person shall have Discharged any Indebtedness or made any Sale or Purchase that would have required an adjustment pursuant to clause (2), (3) or (4) above if made by the Company or a Restricted Subsidiary since the beginning of such period, Consolidated EBITDA and Consolidated Interest Expense for such period shall be calculated after giving pro forma effect thereto as if such Discharge, Sale or Purchase occurred on the first day of such period.

For purposes of this definition, whenever pro forma effect is to be given to any Sale, Purchase or other transaction, or the amount of income or earnings relating thereto and the amount of Consolidated Interest Expense associated with any Indebtedness Incurred or repaid, repurchased, redeemed, defeased or otherwise acquired, retired or discharged in connection therewith, the pro forma calculations in respect thereof (including without limitation in respect of anticipated cost savings, synergies or annualized impact of buyer fee increases relating to any such Sale, Purchase or other transaction) shall be as determined in good faith by the Chief Financial Officer or an authorized Officer of the Company. If any Indebtedness bears a floating rate of interest and is being given pro forma effect, the interest expense on such Indebtedness shall be calculated as if the rate in effect on the date of determination had been the applicable rate for the entire period (taking into account any Interest Rate Agreement applicable to such Indebtedness). If any Indebtedness bears, at the option of the Company or a Restricted Subsidiary, a rate of interest based on a prime or similar rate, a eurocurrency interbank offered rate or other fixed or floating rate, and such Indebtedness is being given pro forma effect, the interest expense on such Indebtedness shall be calculated by applying such optional rate as the Company or such Restricted Subsidiary may designate. If any Indebtedness that is being given pro forma effect was Incurred under a revolving credit facility, the interest expense on such Indebtedness shall be computed based upon the average daily balance of such Indebtedness during the applicable period. Interest on a Capitalized Lease Obligation shall be deemed to accrue at an interest rate determined in good faith by a responsible financial or accounting officer of the Company to be the rate of interest implicit in such Capitalized Lease Obligation in accordance with GAAP.

- (c) to the extent included in arriving at such Consolidated Net Income for such period, the sum of the following amounts for such period:
- (i) interest income;
- (ii) any extraordinary, unusual or non-recurring income or gains whether or not included as a separate item in the statement of Consolidated Net Income;
- (iii) all non-cash gains on the sale or disposition of any property other than inventory sold in the ordinary course of business;
- (iv) any other non-cash income (excluding any items that represent the reversal of any accrual of, or cash reserve for, anticipated cash charges in any prior period that are described in the parenthetical to clause (b)(viii) above);
- (v) any gain realized upon the sale or other disposition of any asset (including pursuant to any sale/leaseback transaction) that is not Disposed of in the ordinary course of business and any gain realized upon the sale or other disposition of any Capital Stock of any Person;
- (vi) any unrealized gains in respect of Hedging Obligations; and
- (vii) any unrealized foreign currency translation gains in respect of Indebtedness of any Person denominated in a currency other than the functional currency of such Person, all as determined on a consolidated basis; plus
- (d) the annualized impact of buyer fee increases on any business acquired in any acquisition by purchase or otherwise of all or substantially all of the business, assets or Capital Stock (other than directors' qualifying shares) of any Person or a business unit of a Person.

For the purposes of calculating Consolidated EBITDA for any period of four consecutive fiscal quarters (each, a Reference Period) pursuant to any determination of the Consolidated Coverage Ratio, (i) if at any time during such Reference Period the Company or any Restricted Subsidiary shall have made any Material Disposition, the Consolidated EBITDA for such Reference Period shall be reduced by an amount equal to the Consolidated EBITDA (if positive) attributable to the property that is the subject of such Material Disposition for such Reference Period or increased by an amount equal to the Consolidated EBITDA (if negative) attributable thereto for such Reference Period and (ii) if during such Reference Period the Company or any Restricted Subsidiary shall have made a Material Acquisition, Consolidated EBITDA for such Reference Period shall be calculated after giving pro forma effect thereto, as if such Material Acquisition occurred on the first day of such

Table of Contents

Reference Period, and, in the case of any Material Acquisition other than the Acquisition, Consolidated EBITDA may be increased by adding back any cost savings related thereto expected to be realized within 365 days of such Material Acquisition and all costs incurred to achieve such cost savings. As used in this definition, Material Acquisition means any acquisition of property or series of related acquisitions of property that (a) constitutes assets comprising all or substantially all of an operating unit of a business or constitutes all or substantially all of the common stock of a Person and (b) involves the payment of consideration by the Company and its Restricted Subsidiaries in excess of \$5,000,000; and

Material Disposition means any Disposition of property or series of related Dispositions of property that yields gross proceeds to the Company or any of its Restricted Subsidiaries in excess of \$5,000,000.

Notwithstanding the foregoing, (a) Consolidated EBITDA shall be deemed to be \$102,900,000, \$99,400,000, \$88,100,000 and \$80,700,000, respectively, for the fiscal quarters ending on or about March 31, 2006, June 30, 2006, September 30, 2006 and December 31, 2006, subject to the adjustments provided for in clauses (b) and (c) of this paragraph, (b) in determining Consolidated EBITDA at any time on or before June 30, 2007, Consolidated EBITDA will be increased by \$10,500,000 on account of anticipated cost savings related to the combination of the salvage auction businesses of Insurance Auto Auctions, Inc. and ADESA, Inc. as reflected in this Prospectus, and (c) in determining Consolidated EBITDA at any time after June 30, 2007 and on or before June 30, 2008, Consolidated EBITDA will be increased by the difference between \$10,500,000 and the cumulative amount of all such cost savings referred to in clause (b) that have been realized prior to such time.

Consolidated Interest Expense means, for any period, (i) the total interest expense of the Company and its Restricted Subsidiaries to the extent deducted in calculating Consolidated Net Income, net of any interest income of the Company and its Restricted Subsidiaries, including without limitation any such interest expense consisting of (a) interest expense attributable to Capitalized Lease Obligations, (b) amortization of debt discount, (c) interest in respect of Indebtedness of any other Person that has been Guaranteed by the Company or any Restricted Subsidiary, but only to the extent that such interest is actually paid by the Company or any Restricted Subsidiary, (d) non-cash interest expense, (e) the interest portion of any deferred payment obligation and (f) commissions, discounts and other fees and charges owed with respect to letters of credit and bankers acceptance financing, plus (ii) Preferred Stock dividends paid in cash in respect of Disqualified Stock of the Company held by Persons other than the Company or a Restricted Subsidiary and minus (iii) to the extent otherwise included in such interest expense referred to in clause (i) above, amortization or write-off of financing costs, in each case under clauses (i) through (iii) as determined on a Consolidated basis in accordance with GAAP; provided, that gross interest expense shall be determined after giving effect to any net payments made or received by the Company and its Restricted Subsidiaries with respect to Interest Rate Agreements.

Consolidated Net Income means, for any period, the net income (loss) of the Company and its Restricted Subsidiaries, determined on a Consolidated basis in accordance with GAAP and before any reduction in respect of Preferred Stock dividends; provided, that there shall not be included in such Consolidated Net Income:

(i) any net income (loss) of any Person if such Person is not a Restricted Subsidiary, except that (A) subject to the limitations contained in clause (iii) below, the Company's equity in the net income of any such Person for such period shall be included in such Consolidated Net Income up to the aggregate amount actually distributed by such Person during such period to the Company or a Restricted Subsidiary as a dividend or other distribution (subject, in the case of a dividend or other distribution to a Restricted Subsidiary, to the limitations contained in clause (ii) below) and (B) the Company's equity in the net loss of such Person shall be included to the extent of the aggregate Investment of the Company or any of its Restricted Subsidiaries in such Person;

(ii) solely for purposes of determining the amount available for Restricted Payments under clause (a)(3)(A) of the covenant described under Certain Covenants Limitation on Restricted Payments, any net income (loss) of any Restricted Subsidiary that is not a Subsidiary Guarantor if such Restricted Subsidiary is subject to restrictions, directly or indirectly, on the payment of dividends or the making of similar distributions by such Restricted Subsidiary, directly or indirectly, to the Company by operation of

the terms of such Restricted Subsidiary's charter or any agreement, instrument, judgment, decree, order, statute or governmental rule or regulation applicable to such Restricted Subsidiary or its stockholders (other than (w) restrictions that have been waived or otherwise released, (x) restrictions pursuant to the Senior Subordinated Notes or the Indenture, (y) restrictions pursuant to the Senior Exchange Notes or the Senior Note Indentures and (z) restrictions in effect on the Issue Date with respect to a Restricted Subsidiary and other restrictions with respect to such Restricted Subsidiary that taken as a whole are not materially less favorable to the Noteholders than such restrictions in effect on the Issue Date), except that (A) subject to the limitations contained in clause (iii) below, the Company's equity in the net income of any such Restricted Subsidiary for such period shall be included in such Consolidated Net Income up to the aggregate amount of any dividend or distribution that was or that could have been made by such Restricted Subsidiary during such period to the Company or another Restricted Subsidiary (subject, in the case of a dividend that could have been made to another Restricted Subsidiary, to the limitation contained in this clause) and (B) the net loss of such Restricted Subsidiary shall be included to the extent of the aggregate Investment of the Company or any of its other Restricted Subsidiaries in such Restricted Subsidiary;

(iii) any gain or loss realized upon the sale or other disposition of any asset of the Company or any Restricted Subsidiary (including pursuant to any sale/leaseback transaction) that is not sold or otherwise disposed of in the ordinary course of business (as determined in good faith by the Board of Directors);

(iv) the cumulative effect of a change in accounting principles;

(v) all deferred financing costs written off and premiums paid in connection with any early extinguishment of Indebtedness;

(vi) any unrealized gains or losses in respect of Currency Agreements;

(vii) any unrealized foreign currency transaction gains or losses in respect of Indebtedness of any Person denominated in a currency other than the functional currency of such Person;

(viii) any non-cash compensation charge arising from any grant of stock, stock options or other equity based awards;

(ix) to the extent otherwise included in Consolidated Net Income, any unrealized foreign currency translation or transaction gains or losses in respect of Indebtedness or other obligations of the Company or any Restricted Subsidiary owing to the Company or any Restricted Subsidiary;

(x) any non-cash charge, expense or other impact attributable to application of the purchase method of accounting (including the total amount of depreciation and amortization, cost of sales or other non-cash expense resulting from the write-up of assets to the extent resulting from such purchase accounting adjustments); and

(xi) any item classified as an extraordinary, unusual or non-recurring gain, loss or charge, including fees, expenses and charges associated with the Transactions and any acquisition, merger or consolidation after the Issue Date.

For purposes of this definition, whenever pro forma effect is to be given to any Sale, Purchase or other transaction, or the amount of income or earnings relating thereto, the pro forma calculations in respect thereof (including without limitation in respect of anticipated cost savings or synergies relating to any such Sale, Purchase or other transaction) shall be as determined in good faith by a responsible financial or accounting Officer of the Company.

Consolidated Total Indebtedness means, as of any date of determination, an amount equal to (1) the aggregate principal amount of outstanding Indebtedness of the Company and its Restricted Subsidiaries (other than the Senior Subordinated Notes) as of such date consisting of (without duplication) Indebtedness for borrowed money (including Purchase Money Obligations and unreimbursed outstanding drawn amounts under funded letters of credit); Capitalized Lease Obligations; debt obligations evidenced by bonds, debentures, notes

or similar instruments; Disqualified Stock; and (in the case of any Restricted Subsidiary that is not a Subsidiary Guarantor) Preferred Stock, determined on a Consolidated basis in accordance with GAAP (excluding items eliminated in Consolidation, and for the avoidance of doubt, excluding Hedging Obligations), minus (2) the amount of such Indebtedness consisting of Indebtedness of a type referred to in, or Incurred pursuant to, clause (b)(ix) of the covenant described under Certain Covenants Limitation on Indebtedness.

Consolidation means the consolidation of the accounts of each of the Restricted Subsidiaries with those of the Company in accordance with GAAP; provided that Consolidation will not include consolidation of the accounts of any Unrestricted Subsidiary, but the interest of the Company or any Restricted Subsidiary in any Unrestricted Subsidiary will be accounted for as an investment. The term Consolidated has a correlative meaning.

Credit Facilities means one or more of (i) the Senior Credit Facility, and (ii) any other facilities, agreements, indentures or arrangements designated by the Company, in each case with one or more banks or other lenders or institutions providing for revolving credit loans, term loans or receivables (including without limitation through the sale of receivables to such institutions or to special purpose entities formed to borrow from such institutions against such receivables or the creation of any Liens in respect of such receivables in favor of such institutions), letters of credit or other Indebtedness, in each case, including all agreements, instruments and documents executed and delivered pursuant to or in connection with any of the foregoing, including but not limited to any notes and letters of credit issued pursuant thereto and any guarantee and collateral agreement, patent and trademark security agreement, mortgages or letter of credit applications and other guarantees, pledge agreements, security agreements and collateral documents, in each case as the same may be amended, supplemented, waived or otherwise modified from time to time, or refunded, refinanced, restructured, replaced, renewed, repaid, increased or extended from time to time (whether in whole or in part, whether with the original banks, lenders or institutions or other banks, lenders or institutions or otherwise, and whether provided under any original Credit Facility or one or more other credit agreements, indentures, debentures, notes financing agreements or other Credit Facilities or through the sale of debt securities or otherwise). Without limiting the generality of the foregoing, the term Credit Facility shall include any agreement (i) changing the maturity of any Indebtedness Incurred thereunder or contemplated thereby, (ii) adding Subsidiaries as additional borrowers or guarantors thereunder, (iii) increasing the amount of Indebtedness Incurred thereunder or available to be borrowed thereunder or (iv) otherwise altering the terms and conditions thereof.

Currency Agreement means, in respect of a Person, any foreign exchange contract, currency swap agreement, futures contract, option contract or other similar agreement or arrangements (including derivative agreements or arrangements), as to which such Person is a party or of which it is a beneficiary.

Default means any event or condition that is, or after notice or passage of time or both would be, an Event of Default.

Designated Noncash Consideration means the Fair Market Value of noncash consideration received by the Company or one of its Restricted Subsidiaries in connection with an Asset Disposition that is so designated as Designated Noncash Consideration pursuant to an Officer's Certificate, setting forth the basis of such valuation. A particular item of Designated Noncash Consideration will no longer be considered to be outstanding when it has been paid, redeemed or otherwise retired or sold or otherwise disposed of in compliance with the covenant described under Certain Covenants Limitation on Sales of Assets and Subsidiary Stock.

Designated Senior Indebtedness means:

(1) any Indebtedness outstanding under the Senior Credit Facility;

(2) any Indebtedness outstanding under the Senior Note Indentures; and

(3) any other Senior Indebtedness permitted under the Indenture, the principal amount of which is \$35.0 million or more and that has been designated by the Company as Designated Senior Indebtedness.

Table of Contents

Disinterested Directors means, with respect to any Affiliate Transaction, one or more members of the Board of Directors of the Company, or one or more members of the Board of Directors of a Parent, having no material direct or indirect financial interest in or with respect to such Affiliate Transaction. A member of any such Board of Directors shall not be deemed to have such a financial interest by reason of such member's holding Equity Interests of the Company or any Parent or any options, warrants or other rights in respect of such Equity Interests.

Disposition means, with respect to any Property, any sale, lease, sale and leaseback, assignment, conveyance, transfer or other disposition thereof. The terms **Dispose** and **Disposed of** shall have correlative meanings.

Disqualified Stock means, with respect to any Person, any Equity Interest that by its terms (or by the terms of any security into which it is convertible or for which it is exchangeable or exercisable) or upon the happening of any event (other than following the occurrence of a Change of Control or other similar event described under such terms as a **Change of Control**, or an **Asset Disposition**) (i) matures or is mandatorily redeemable pursuant to a sinking fund obligation or otherwise, (ii) is convertible or exchangeable for Indebtedness or Disqualified Stock (excluding Equity Interests convertible or exchangeable solely at the option of the Company or a Restricted Subsidiary; provided, however, that any such conversion or exchange shall be deemed an Incurrence of Indebtedness or Disqualified Stock, as applicable) or (iii) is redeemable at the option of the holder thereof (other than following the occurrence of a Change of Control or other similar event described under such terms as a **Change of Control**, or an **Asset Disposition**), in whole or in part, in each case on or prior to the final Stated Maturity of the Senior Subordinated Notes.

Equity Interests of any Person means any and all shares of, rights to purchase, warrants, options, profits, interests, equity appreciation rights or other rights to acquire or purchase, or other equivalents of or interests in (however designated) equity of such Person, including any Preferred Stock (but excluding any debt security that is convertible into, or exchangeable for, any such equity).

Equity Offering means any public or private sale of common stock or Preferred Stock of the Company or any of its direct or indirect parent companies (excluding Disqualified Stock), other than:

- (1) public offerings with respect to the Company's or any direct or indirect parent company's common stock registered on Form S-8;
