ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2007

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For transition period from _____ to _____

Commission File Number 0-51367

OTTAWA SAVINGS BANCORP, INC.

(Exact Name of Registrant as Specified in Charter)

Edgar Filing: Ottawa Savings Bancorp, Inc. - Form 10KSB

United States
(State or Other Jurisdiction of

20-3074627
(I.R.S. Employer

Incorporation)

Identification No.)

925 LaSalle Street, Ottawa, Illinois
(Address of Principal Executive Offices)

61350
(Zip Code)

Registrant's telephone number, including area code: (815) 433-2525

Securities registered pursuant to Section 12(b) of the Act: None

Securities registered pursuant to Section 12(g) of the Act:

Common Stock, Par Value \$0.01 per share

(Title of Class)

Check whether the issuer is not required to file reports pursuant to Section 13 or 15(d) of the Exchange Act. Note: Checking the box above will not relieve any registrant required to file reports pursuant to Section 13 or 15(d) of the Exchange Act from their obligations under those Sections.

Check whether the issuer (1) filed all reports required to be filed by Section 13 or 15(d) of the Exchange Act during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No .

Check if there is no disclosure of delinquent filers pursuant to Item 405 of Regulation S-B contained in this form, and no disclosure will be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-KSB or any amendment to this Form 10-KSB.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No .

The Registrant's revenues for its most recent fiscal year were \$12,452,834.

As of March 13, 2008, the aggregate market value of the voting common equity held by non-affiliates of the registrant was approximately \$9,000,442 (based on the last sale price of the common stock on the OTC Bulletin Board of \$11.00 per share).

The number of shares of Common Stock of the registrant issued and outstanding as of March 13, 2008 was 2,190,411.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the registrant's definitive proxy statement for its 2008 Annual Meeting of Stockholders to be filled with the Securities and Exchange Commission pursuant to SEC Regulation 14A are incorporated by reference into Part III, Items 9-12 and Item 14.

Transitional Small Business Disclosure Format (Check one): Yes No .

Forward-Looking Statements

This report includes forward-looking statements, including statements regarding our strategy, effectiveness of investment programs, evaluations of future interest rate trends and liquidity, expectations as to growth in assets, deposits and results of operations, future operations, market position, financial position, and prospects, plans and objectives of management. These forward-looking statements, which are based on certain assumptions and describe our future plans, strategies and expectations, can generally be identified by use of the words believe, expect, intend, anticipate, estimate, project, or similar expressions. Our ability to predict results or the actual effect of future plans or strategies is inherently uncertain and actual results may differ materially from those predicted in such forward-looking statements. Factors that could have a material adverse effect on the operations and future prospects of the Company and the Bank include, but are not limited to, changes in: interest rates; the economic health of the local real estate market; general economic conditions; legislative/regulatory provisions; monetary and fiscal policies of the U.S. Government, including policies of the U.S. Treasury and the Federal Reserve Board; the quality or composition of the loan and securities portfolios; demand for loan products; deposit flows; competition; demand for financial services in the Company's market area; and accounting principles, policies, and guidelines. These risks and uncertainties should be considered in evaluating forward-looking statements, and undue reliance should not be placed on such statements.

ITEM 1. DESCRIPTION OF BUSINESS

Risk Factors

Fluctuations in interest rates could reduce our profitability and affect the value of our assets.

Short-term market interest rates (which we use as a guide to price our deposits) have until recently risen from historically low levels, while longer-term market interest rates (which we use as a guide to price our longer-term loans) have not. This flattening of the market yield curve has had a negative impact on our interest rate spread and net interest margin. For the years ended December 31, 2007 and 2006, respectively, our interest rate spread was 2.01% compared to 2.26%. If short-term interest rates rise, and if rates on our deposits reprice upwards faster than the rates on our long-term loans and investments, we would experience compression of our interest rate spread and net interest margin, which would have a negative effect on our profitability. Recently, however, the U.S. Federal Reserve decreased its target for the federal funds rate from 5.25% to 4.25%. Decreases in interest rates can result in increased prepayments of loans and mortgage-related securities, as borrowers refinance to reduce their borrowing costs. Under these circumstances, we are subject to reinvestment risk as we may have to redeploy such loan or securities proceeds into lower-yielding assets, which might also negatively impact our income.

Strong competition within our market area could hurt our profits and slow growth.

We face intense competition both in making loans and attracting deposits. This competition has made it more difficult for us to make new loans and at times has forced us to offer higher deposit rates. Price competition for loans and deposits might result in us earning less on our loans and paying more on our deposits, which reduces net interest income. According to data obtained from the Federal Deposit Insurance Corporation (FDIC), as of June 30, 2007, we held approximately 28.71% of all bank and thrift deposits in Ottawa, Illinois, which was the largest market share of deposits out of six financial institutions (excluding credit unions) in the city of Ottawa. Notwithstanding our market share, we face substantial competition from the other financial institutions that operate in our market area, most of which have substantially greater resources and lending limits than we have and may offer services that we do not provide. We expect competition to increase in the future as a result of legislative, regulatory and technological changes and the continuing trend of consolidation in the financial services industry. Our profitability depends upon our continued ability to compete successfully in our market area.

Our origination or purchase of non-residential real estate, multifamily or construction loans may expose us to increased lending risks.

Our loan portfolio includes non-residential real estate, multifamily and construction loans. We intend to continue to emphasize these types of lending. These types of loans generally expose a lender to greater risk of non-payment and loss than one- to four-family residential mortgage loans because repayment of the loans often depends on the successful operation of the property and the income stream of the borrowers. Such loans typically involve larger loan balances to single borrowers or groups of related borrowers compared to one- to four-family residential mortgage loans. Also, many of these types of borrowers have more than one loan outstanding with us. Consequently, an adverse development with respect to one loan or one credit relationship can expose us to a significantly greater risk of loss compared to an adverse development with respect to a one- to four-family residential mortgage loan.

Our expansion strategy may negatively impact our earnings.

We consider our primary market area to consist of LaSalle County, Illinois. We currently operate from our headquarters located in Ottawa, Illinois. We may expand our presence throughout our market area and pursue further expansion through the establishment of one or more branches. The profitability of any expansion policy will depend on whether the income that we generate from the additional branches we establish will offset the increased expenses resulting from operating new branches. It may take a period of time before any new branches would become profitable, especially in areas in which we do not have an established presence. During this period, operating any new branches would likely have a negative impact on our net income.

The loss of any one of our three senior executive officers could hurt our operations.

We rely heavily on our President, Gary Ocepek, our Senior Vice President and Chief Financial Officer, Jon Kranov, and our Vice President and Chief Lending Officer, Phil Devermann. The loss of any one of these officers could have an adverse effect on us because, as a small community bank, each of these officers has more responsibilities than would be typical at a larger financial institution with more employees. In addition, as a small community bank, we have fewer management level personnel who are in a position to assume the responsibilities of such officers positions with us should we need to find replacements for any of these senior members of management. We do not have key-man life insurance on any of these officers.

Our geographic concentration means that our performance may be affected by economic, regulatory and demographic conditions in our market area.

As of December 31, 2007, most of our total loans were to individuals and/or secured by properties located in our primary market area of LaSalle County in Illinois. As a result, our revenues and profitability are subject to prevailing economic, regulatory, demographic and other conditions in LaSalle County. Because our business is concentrated in this area, adverse economic, regulatory, demographic or other developments that are limited to this area may have a disproportionately greater effect on us than they would have if we did business in markets outside that particular geographic area.

If the value of real estate in LaSalle County, Illinois were to decline materially, a significant portion of our loan portfolio could become under-collateralized, which could have a material adverse effect on us.

With most of our loans concentrated in LaSalle County, Illinois, a decline in local economic conditions could adversely affect the value of the real estate collateral securing our loans. A decline in property values would diminish our ability to recover on defaulted loans by selling the real estate collateral, making it more likely that we would suffer losses on defaulted loans. Additionally, a decrease in asset quality could require additions to our allowance for loan losses through increased provisions for loan losses, which would hurt our profits. Also, a decline in local economic conditions may have a greater effect on our earnings and capital than

on the earnings and capital of larger financial institutions whose real estate loan portfolios are more geographically diverse. Real estate values are affected by various factors in addition to local economic conditions, including, among other things, changes in general or regional economic conditions, governmental rules or policies and natural disasters.

The trading history of our common stock is characterized by low trading volume. The value of your common stock may be subject to sudden decreases due to the volatility of the price of our common stock.

Although our common stock trades on OTC Electronic Bulletin Board, it has not been regularly traded. We cannot predict the extent to which investor interest in us will lead to a more active trading market in our common stock or how liquid that market might become. A public trading market having the desired characteristics of depth, liquidity and orderliness depends upon the presence in the marketplace of willing buyers and sellers of our common stock at any given time, which presence is dependent upon the individual decisions of investors, over which we have no control.

The market price of our common stock may be highly volatile and subject to wide fluctuations in response to numerous factors, including, but not limited to, the factors discussed in other risk factors and the following:

actual or anticipated fluctuations in our operating results;

changes in interest rates;

changes in the legal or regulatory environment in which we operate;

press releases, announcements or publicity relating to us or our competitors or relating to trends in our industry;

changes in expectations as to our future financial performance, including financial estimates or recommendations by securities analysts and investors;

future sales of our common stock;

changes in economic conditions in our marketplace, general conditions in the U.S. economy, financial markets or the banking industry; and

other developments affecting our competitors or us.

These factors may adversely affect the trading price of our common stock, regardless of our actual operating performance, and could prevent you from selling your common stock at or above the price you purchased shares in the offering. In addition, the stock markets, from time to time, experience extreme price and volume fluctuations that may be unrelated or disproportionate to the operating performance of companies. These broad fluctuations may adversely affect the market price of our common stock, regardless of our trading performance.

We operate in a highly regulated environment and we may be adversely affected by changes in laws and regulations.

We are subject to extensive regulation, supervision and examination by the OTS, our chartering authority and the FDIC, as insurer of our deposits. Ottawa Savings Bancorp MHC, Ottawa Savings Bancorp, Inc. and Ottawa Savings Bank are all subject to regulation and supervision by the OTS. Such regulation and supervision governs the activities in which an institution and its holding company may engage, and are intended primarily for the protection of the insurance fund and depositors. Regulatory authorities have extensive discretion in their supervisory and enforcement activities, including the imposition of restrictions on our operations, the classification of our assets and determination of the level of our allowance for loan losses. Any change in such regulation and oversight, whether in the form of regulatory policy, regulations, legislation or supervisory action, may have a material impact on our operations.

General

Ottawa Savings Bancorp, Inc. (the Company) was incorporated under the laws of the United States on July 11, 2005, for the purpose of serving as the holding company of Ottawa Savings Bank (the Bank), as part of the Bank's conversion from a mutual to a stock form of organization.

The Bank's business is to attract deposits from the general public and use those funds to originate and purchase one-to-four family, multi-family and non-residential real estate, construction and consumer loans, which the bank primarily holds for investment. The Bank has continually diversified its products to meet the needs of the community.

Business Strategy

The Company's business strategy is to operate as a well-capitalized and profitable community savings bank dedicated to providing quality customer service and innovative new products. In addition, Ottawa Savings Bank completed its building expansion in May 2005, adding two drive-up lanes, a separate ATM drive-up, and an additional 7,800 square feet of office space which enhances our ability to provide quality customer service and increases our presence in the community.

Highlights of our business strategy are as follows:

Continue to emphasize the origination of one-to four-family mortgage loans;

Aggressively market core deposits;

Offer a broad range of financial products and services to both retail and commercial customers in the Bank's market area;

Pursue opportunities to increase non-residential real estate and multi-family lending in the Bank's market area;

Continue to utilize conservative underwriting guidelines to limit credit risk in the Bank's loan portfolio to achieve a high level of asset quality; and

Consider expanding into new market areas to grow the Bank's business through the addition of new branch locations and/or through possible acquisitions.

Market Area and Competition

The Company is headquartered in Ottawa, Illinois, which is located in north-central Illinois approximately 80 miles southwest of Chicago. Its market area, which benefits from its proximity to Chicago, includes all of LaSalle County.

The Bank faces significant competition for the attraction of deposits and origination of loans. Our most direct competition for deposits and loans has historically come from the several financial institutions operating in our market area and, to a lesser extent, from other financial service companies, such as brokerage firms, credit unions, mortgage companies and mortgage brokers. Our main competitors include a number of significant independent banks. In addition the Bank faces competition for investors' funds from money market funds and other corporate and government securities. Competition for loans also comes from the increasing number of non-depository financial service companies entering the mortgage and consumer credit market, such as securities companies and specialty finance companies.

Lending Activities

General. Our loan portfolio consists primarily of one- to four-family residential mortgage loans. To a lesser extent, our loan portfolio includes multi-family and non-residential real estate, construction and consumer loans. Substantially all of our loans are made within LaSalle County.

Edgar Filing: Ottawa Savings Bancorp, Inc. - Form 10KSB

Loan Portfolio Composition. The following table sets forth the composition of our loan portfolio by type of loan as of the dates indicated, including a reconciliation of gross loans receivable after consideration of the undisbursed portion of construction loan funds, the allowance for loan losses and net deferred costs (fees).

Asset Quality. Although we have no subprime or Alt-A loans in our loan portfolio, and no subprime- or Alt-A- backed issues among our securities, the subprime crisis may affect us indirectly, albeit to a lesser extent than it will likely impact those banks and thrifts that produced and retained significant portfolios of such loans. While we believe that the nature of our one-to-four family lending niche and the conservative nature of our underwriting standards will limit the impact of the downward turn in the credit cycle on the quality of our assets particularly in comparison with those institutions that were involved in subprime and Alt-A lending the downturn in the credit cycle could result in our experiencing an increase in charge-offs and/or our setting aside provisions for loan losses, which would have an adverse impact on our results of operations.

One- to-Four Family Residential Loans. Our primary lending activity is the origination of mortgage loans to enable borrowers to purchase or refinance existing homes or to construct new residential dwellings in our market area. We offer fixed-rate and adjustable-rate mortgage loans with terms up to 30 years. Borrower demand for adjustable-rate loans versus fixed-rate loans is a function of the level of interest rates, the expectations of changes in the level of interest rates, the difference between the interest rates and loan fees offered for fixed-rate mortgage loans and the initial period interest rates and loan fees for adjustable-rate loans. The relative amount of fixed-rate mortgage loans and adjustable-rate mortgage loans that can be originated or purchased at any time is largely determined by the demand for each in a competitive environment and the effect each has on our interest rate risk. The loan fees charged, interest rates, and other provisions of mortgage loans are determined by us on the basis of our own pricing criteria and competitive market conditions.

We offer fixed rate loans with terms of either 15, 20 or up to 30 years. We traditionally sell 30-year fixed rate loans into the secondary market, resulting in a fixed rate loan portfolio primarily composed of loans with less than 15 to 20 year terms. Our adjustable-rate mortgage loans are based on either a 15, 20 or up to 30 year amortization schedule and interest rates and payments on our adjustable-rate mortgage loans adjust every one, three or five years. Interest rates and payments on our adjustable-rate loans generally are adjusted to a rate that is based on the National Monthly Median cost of funds ratio for all Deposit Insurance Fund (DIF)-insured institutions. The maximum amount by which the interest rate may be increased or decreased is generally 1% to 2% per adjustment period, depending on the type of loan, and the lifetime interest rate ceiling is generally 5% over the initial interest rate of the loan. The initial and floor rates for owner occupied properties are 6.50%, 6.75% and 7.00% for the 1, 3 and 5 year adjustable rate loans, respectively, and 7.50%, 7.75% and 8.00% for non-owner occupied one-to-four family properties, respectively, at this time. Initial and floor rates on multi-family and non-residential properties are generally at prime, with a floor of 6.50%.

Due to historically low interest rate levels, borrowers generally have preferred fixed-rate loans in recent years. While we anticipate that our adjustable-rate loans will better offset the adverse effects on our net interest income of an increase in interest rates as compared to fixed-rate mortgages, the increased mortgage payments required of adjustable-rate loans in a rising interest rate environment could cause an increase in delinquencies and defaults. The marketability of the underlying property also may be adversely affected in a high interest rate environment. In addition, although adjustable-rate mortgage loans help make our asset base more responsive to changes in interest rates, the extent of this interest rate sensitivity is limited by the annual and lifetime interest rate adjustment limits.

While one-to-four family residential real estate loans are normally originated with up to 30-year terms, such loans typically remain outstanding for substantially shorter periods because borrowers often prepay their loans in full upon sale of the property pledged as security or upon refinancing the original loan. Therefore, average loan maturity is a function of, among other factors, the level of purchase and sale activity in the real estate market, prevailing interest rates and the interest rates payable on outstanding loans.

We generally do not make conventional loans with loan-to-value ratios exceeding 90%. Loans with loan-to-value ratios in excess of 85% generally require private mortgage insurance or additional collateral. We require all properties securing mortgage loans to be appraised by an independent appraiser approved by our Board of Directors and licensed by the State of Illinois. We require title insurance on all first mortgage loans. Borrowers must obtain hazard insurance, or flood insurance for loans on property located in a flood zone, before closing the loan.

We participate with the USDA Rural Development Company to offer loans to qualifying customers. Loans are granted up to 100% of appraised value and the USDA guarantees up to 90% of the loan. These loans require no down payment but are subject to maximum income limitations.

Lines of Credit. We offer lines of credit, principally home equity lines of credit, which have adjustable rates of interest that are indexed to the prime rate as published in *The Wall Street Journal* for terms of up to 15 years. These loans are originated with maximum loan-to-value ratios of 85% of the appraised value of the property, and we require that we have a second lien position on the property. We also offer secured and unsecured lines of credit for well-qualified individuals and small businesses.

Purchased Loan Participations. Presently Ottawa Savings Bank may purchase loan participations from other institutions, inside or outside of our primary market area when the underwriting and credit quality is at least equal to those loans made directly by us. The originating lead lender is responsible for monitoring the credit and regularly provides Ottawa Savings Bank with current credit reviews, including updated financial statements. A review of all documents to support the participation is conducted prior to the approval and funding by Ottawa Savings Bank. We protect our position in the loan agreement by any means legally available. We only purchase loan participations from companies that are fully regulated by a banking agency, including, but not limited to, the Office of Thrift Supervision or the Illinois Department of Financial and Professional Regulation Division of Banking (IDFPR). Our overall exposure to any one originating financial institution or any one individual at any time is limited to 50% and 15%, respectively, of our capital as of the previous quarter-end.

Multi-Family and Non-Residential Real Estate Loans. We offer fixed rate balloon and adjustable-rate mortgage loans secured by multi-family and non-residential real estate. Our multi-family and non-residential real estate loans are generally secured by condominiums, apartment buildings, single-family subdivisions and owner-occupied properties used for businesses.

We originate and purchase multi-family and non-residential real estate loans with terms generally up to 25 years. Interest rates and payments on adjustable-rate loans adjust every one, three or five years. Interest rates and payments on our adjustable rate loans generally are adjusted to a rate typically equal to the interest rate used for one- to- four family loan products, plus 50 basis points to 100 basis points based on credit-worthiness and risk. The adjustment per period is 1% to 2% based on the loan contract, to a lifetime cap of 5%. Loan amounts generally do not exceed 85% of the appraised value for well-qualified borrowers.

Loans secured by multi-family and non-residential real estate generally have larger balances and involve a greater degree of risk than one- to-four family residential mortgage loans. Of primary concern in multi-family and non-residential real estate lending is the borrower's credit-worthiness and the feasibility and cash flow potential of the project. Payments on loans secured by income producing properties often depend on successful operation and management of the properties. As a result, repayment of such loans may be subject to a greater extent than residential real estate loans to adverse conditions in the real estate market or the economy. In reaching a decision on whether to make a multi-family or non-residential real estate loan, we consider the net operating income of the property, the borrower's expertise, credit history and profitability, and the value of the underlying property. We may require an environmental survey or impaired property insurance for multi-family and non-residential real estate loans.

Commercial Loans. Ottawa Savings Bank's commercial loans are primarily purchases of loans from Bankers Health Group. Bankers Health Group specializes in loans to Healthcare Professionals of all specialties throughout the United States. These loans are primarily comprised of working capital and equipment loans. We underwrite these loans based on our criteria and service the loans in-house. As of December 31, 2007, all commercial loans are performing as agreed.

Construction and Land Development Loans. We originate loans to individuals and purchase loans that finance the construction of residential dwellings for personal use and land development loans for personal or commercial use. Our construction loans generally provide for the payment of interest only during the construction phase, which is usually ten months. At the end of the construction phase, most of our loans automatically convert to permanent mortgage loans. Construction loans generally can be made with a maximum loan to value ratio of 85% of the appraised value with maximum terms of 30 years. Land development loans

generally can be made with a maximum loan to value ratio of 80% and maximum term up to 10 years. The largest outstanding residential construction loan at December 31, 2007 was \$416,500, \$152,000 of which was disbursed. The largest outstanding land development loan at December 31, 2007 was \$2.8 million, of which \$2.3 million was disbursed. These loans were performing according to their terms at December 31, 2007. We also make commercial construction loans for commercial development projects including condominiums, apartment buildings, single-family subdivisions, single-family speculation loans, as well as owner-occupied properties used for business. These loans provide for payment of interest only during the construction phase and may, in the case of an apartment or commercial building, convert to a permanent mortgage loan. In the case of a single family subdivision or construction or builder loan, as individual lots are sold, the principal balance is reduced by a minimum of 80% of the net lot sales price. In the case of a commercial construction loan, the construction period may be from nine months to two years. Loans are generally made to a maximum of 80% of the appraised value as determined by an appraisal of the property made by an independent licensed appraiser. We also require periodic inspections of the property during the term of the construction loan for both residential and commercial construction loans. The largest outstanding commercial construction loan at December 31, 2007 was \$1.1 million, \$115,000 of which was disbursed. This loan was performing according to its terms at December 31, 2007.

Construction financing is generally considered to involve a higher degree of risk of loss than long-term financing on improved, occupied real estate. Risk of a loss on a construction loan depends largely upon the accuracy of the initial estimate of the property's value at completion of construction or development and the estimated cost (including interest) of construction. During the construction phase, a number of factors could result in delays and cost overruns. If the estimate of construction costs proves to be inaccurate, we may be required to advance funds beyond the amount originally committed to permit completion of the development. If the estimate of value proves to be inaccurate, we may be confronted, at or before the maturity of the loan, with a project having a value which is insufficient to assure full repayment. As a result of the foregoing, construction lending often involves the disbursement of substantial funds with repayment dependent, in part, on the success of the ultimate project rather than the ability of the borrower or guarantor to repay principal and interest. If we are forced to foreclose on a project before or at completion due to a default, there can be no assurance that we will be able to recover all of the unpaid balance of, and accrued interest on, the loan as well as related foreclosure and holding costs.

We originate and purchase land loans to individuals on approved residential building lots for personal use for terms of up to 15 years and to a maximum loan to value ratio of 80% of the appraisal value. Our land loans are adjustable loans with adjustments occurring every 1, 3 or 5 years, based on the original contract. Interest rate adjustments are based on the National Monthly Median cost of funds.

Consumer Loans. We offer a variety of consumer loans which include auto, share loans and personal unsecured loans to our customer base and related individuals. Unsecured loans generally have a maximum borrowing limit of \$25,000 and a maximum term of four years.

The procedures for underwriting consumer loans include an assessment of the applicant's payment history on other debts and ability to meet existing obligations and payments on the proposed loans. Although the applicant's credit-worthiness is a primary consideration, the underwriting process also includes a comparison of the value of the collateral, if any, to the proposed loan amount.

Consumer loans may entail greater risk than do residential mortgage loans, particularly in the case of consumer loans that are unsecured or secured by assets that depreciate rapidly. In such cases, repossessed collateral for a defaulted consumer loan may not provide an adequate source of repayment for the outstanding loan and the remaining deficiency often does not warrant further substantial collection efforts against the borrower. In addition, consumer loan collections depend on the borrower's continuing financial stability, and therefore are more likely to be adversely affected by job loss, divorce, illness, or personal bankruptcy. Furthermore, the application of various federal and state laws, including federal and state bankruptcy and insolvency laws may limit the amount which can be recovered on such loans.

Edgar Filing: Ottawa Savings Bancorp, Inc. - Form 10KSB

Auto Loan Participations. Ottawa Savings Bank purchases auto loan participations from regulated financial institutions. At December 31, 2007, and 2006, we had \$9.3 million, and \$10.1 million of loans outstanding, respectively. These types of loans are primarily low balance individual auto loans. We have the opportunity to review the loans at least three days prior to our purchase and we have a right to refuse any specific loan within thirty days of the sale of any given loan pool.

Loan Origination, Purchases and Sales. Loan originations come from a number of sources. The primary source of loan originations are our in-house loan originators, and to a lesser extent, advertising and referrals from customers. We occasionally purchase loans or participation interests in loans. As of December 31, 2007, we had an aggregate of \$26.8 million in loan participations outstanding, including the auto loans purchased as discussed in the previous paragraph. The largest outstanding loan participation as of December 31, 2007 was \$2.0 million, of which the entire amount was disbursed.

Historically, we have originated and purchased loans for investment purposes only. However, as the low interest rate environment continued, we determined to consider loan sales as part of our interest rate risk management efforts. Beginning in 2003, we began selling some of the longer-term fixed-rate loans that we originate. We sell these loans in the secondary market based on prevailing market interest rate conditions, an analysis of the composition and risk of the loan portfolio, liquidity needs and interest rate risk management goals. Generally, loans are sold without recourse and with servicing retained. We sold \$3.1 million, and \$1.7 million of loans in the years ended December 31, 2007, and 2006, respectively. We occasionally sell participation interests in loans and may sell loan participations in the future.

The following table shows our loan origination purchases, sales and repayment activities for the periods indicated.

(1) All loan sales were one-to-four family loans.

Loan Approval Procedures and Authority. Our lending activities follow written, non-discriminatory, underwriting standards and loan origination procedures established by our Board of Directors and management.

For one-to-four family loans and owner occupied residential loans, our President may approve loans up to \$400,000 and two members of our Board of Directors must approve loans over \$400,000. Secured commercial loans and commercial construction loans require the approval of a majority of the members of the Board. Our loan officers have been delegated authority to approve consumer loans up to specified limits which vary according to the product.

Loans to One Borrower. The maximum amount that we may lend to one borrower and the borrower's related entities is limited by regulations to generally 15% of our stated capital and reserves. At December 31, 2007 our regulatory maximum was \$3.2 million. However, we made an application to the OTS to increase the limit for loans that will be made to finance the construction and sale of homes related to a development project on the south side of Ottawa. The OTS granted that waiver and our limit for this project is at 20% of regulatory capital as measured on June 30, 2006 or \$3.8 million. This is our largest lending relationship and stands at \$3.3 million, which was performing according to the original repayment terms at December 31, 2007.

Loan Commitments. We issue commitments for fixed-rate and adjustable-rate mortgage loans conditioned upon the occurrence of certain events. Commitments to originate mortgage loans are legally binding agreements to lend to our customers and generally expire in 45 days.

Delinquencies. When a borrower fails to make a required loan payment, we take a number of steps to have the borrower cure the delinquency and restore the loan to current status. We make initial contact with the borrower when the loan becomes 10 days past due. If payment is not then received by the 30th day of delinquency, additional letters and phone calls generally are made. When the loan becomes 60 days past due, we generally commence foreclosure proceedings against any real property that secures the loan or attempt to repossess any personal property that secures a consumer loan. If a foreclosure action is instituted and the loan is not brought current, paid in full, or refinanced before the foreclosure sale, the real property securing the loan generally is sold at foreclosure. We may consider loan workout arrangements with certain borrowers under certain circumstances.

Management informs the Board of Directors on a monthly basis of the amount of loans delinquent more than 60 days, all loans in foreclosure and all foreclosed and repossessed property that we own. All loans in excess of 90 days past due, with the exception of lines of credit are placed on non-accrual.

Classified Assets. Federal Deposit Insurance Corporation regulations and our Asset Classification Policy provide that loans and other assets considered to be of lesser quality be classified as substandard, doubtful or loss assets. An asset is considered substandard if it is inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Substandard assets include those characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected. Assets classified as doubtful have all of the weaknesses inherent in those classified substandard, with the added characteristic that the weaknesses present make collection or liquidation in full, on the basis of currently existing facts, conditions and values, highly questionable and improbable. Assets classified as loss are those considered uncollectible and of such little value that their continuance as assets without the establishment of a specific loss reserve is not warranted. We classify an asset as special mention if the asset has a potential weakness that warrants management's close attention. While such assets are not impaired, management has concluded that if the potential weakness in the asset is not addressed, the value of the asset may deteriorate, adversely affecting the repayment of the asset.

An insured institution is required to establish general allowances for loan losses in an amount deemed prudent by management for loans classified substandard or doubtful, as well as for other problem loans. General allowances represent loss allowances which have been established to recognize the inherent losses associated with lending activities, but which, unlike specific allowances, have not been allocated to particular problem assets. When an insured institution classifies problem assets as loss, it is required either to establish a specific allowance for losses equal to 100% of the amount of the asset so classified or to charge off such amount. An institution's determination as to the classification of its assets and the amount of its valuation allowances is subject to review by the Office of Thrift Supervision.

On the basis of management's review of its assets, at December 31, 2007 and 2006 we had classified \$729,000 and \$928,000, respectively, of our assets as special mention and \$1,216,000 and \$1,302,000, respectively, of our assets as substandard. We had classified \$2,000 of our assets as doubtful at both December 31, 2007 and 2006. There were no assets classified as loss for the years ended December 31, 2007 or 2006. The loan portfolio is reviewed on a regular basis to determine whether any loans require classification in accordance with applicable regulations. Not all classified assets constitute non-performing assets.

We have no other loans of concern other than as set forth in the table below:

Nonperforming Assets

	2007	December 31,			2003
		2006	2005	2004	
		(In Thousands)			
Non-accrual:					
One-to-four family	\$ 1,303	\$ 957	\$ 944	\$ 547	\$ 451
Non-residential real estate	1,159	105	179		
Construction			401		
Consumer	89	8	83	42	16
Total non-accrual loans	2,551	1,070	1,607	589	467
Past due greater than 90 days and still accruing:					
Lines of credit	353	45	97	35	44
Total nonperforming loans	2,904	1,115	1,704	624	511
Foreclosed real estate	108			210	
Total nonperforming assets	\$ 3,012	\$ 1,115	\$ 1,704	\$ 834	\$ 511

Ratios

	December 31,				
	2007	2006	2005	2004	2003
Allowance for loan losses as a percent of gross loans receivable	0.37%	0.29%	0.30%	0.37%	0.34%
Allowance for loan losses as a percent of total nonperforming loans	20.83%	37.67%	22.95%	70.35%	74.95%
Nonperforming loans as a percent of gross loans receivable	1.80%	0.76%	1.31%	0.52%	0.45%
Nonperforming loans as a percent of total assets	1.40%	0.54%	0.92%	0.37%	0.33%

The total amount of non-accrual loans increased to \$2.6 million from \$1.1 million for the years ended December 31, 2007 and 2006, respectively. The increase is primarily due to having three non-performing non-residential loans in the amount of \$1.2 million at December 31, 2007, compared to two non-performing non-residential loans in the amount of \$105,000 at December 31, 2006. The increase in non-performing consumer loans is primarily the result of increases in auto loan delinquencies. For the years ended December 31, 2007 and 2006, gross interest income of \$47,000 and \$19,000, respectively, would have been recorded had the non-accrual loans at the end of the period been on accrual status throughout the period. No interest income was recognized on these loans.

Allowance for Loan Losses

Our allowance for loan losses is maintained at a level necessary to absorb loan losses which are both probable and reasonably estimable. Management, in determining the allowance for loan losses, considers the losses inherent in its loan portfolio and changes in the nature and volume of loan activities, along with the general economic and real estate market conditions. We utilize a two-tier approach: (1) identification of impaired loans and establishment of specific loss allowances on such loans; and (2) establishment of general valuation allowances on the remainder of our loan portfolio. We maintain a loan review system, which allows for a periodic review of our loan portfolio and the early identification of potential impaired loans. Such system takes into consideration, among other things, delinquency status, size of loans, type and market value of collateral and financial condition of the borrowers. Specific loan loss allowances are established for identified losses based on a review of such information. A loan evaluated for impairment is considered to be impaired when, based on current information and events, it is probable that we will be unable to collect all amounts due according to the contractual terms of the loan agreement. All loans identified as impaired are evaluated independently. We do not aggregate such loans for evaluation purposes. Loan impairment is measured based on the present value of expected future cash flows discounted at the loan's effective interest rate or, as a practical expedient, at the loan's observable market price or the fair value of the collateral if the loan is collateral dependent. General loan loss allowances are based upon a combination of factors including, but not limited to historical losses, management's judgment and losses which are probable and reasonably estimable. The allowance is increased through provisions charged against current earnings and recoveries of previously charged-off loans. Loans which are determined to be uncollectible are charged against the allowance. While management uses available information to recognize probable and reasonably estimable loan losses, future loss provisions may be necessary based on changing economic conditions. The allowance for loan losses as of December 31, 2007 is maintained at a level that represents management's best estimate of losses inherent in the loan portfolio, and such losses were both probable and reasonably estimable.

In addition, the Office of Thrift Supervision, as an integral part of its examination process, periodically reviews our allowance for loan losses.

Each quarter, management evaluates the total balance of the allowance for loan losses based on several factors that are not loan specific, but are reflective of the inherent losses in the loan portfolio. This process includes, but is not limited to, a periodic review of loan collectibility in light of historical experience, the nature and volume of loan activity, conditions that may affect the ability of the borrower to repay, underlying value of collateral, if applicable, and economic conditions in our immediate market area. First, we group loans by delinquency status. All loans 90 days or more delinquent are evaluated individually, based primarily on the value of the collateral securing the loan. Specific loss allowances are established as required by this analysis. All loans for which a specific loss allowance has not been assigned are segregated by type and delinquency status and a loss allowance is established by using loss experience data and management's judgment concerning other matters it considers significant. The allowance is allocated to each category of loan based on the results of the above analysis. Small differences between the allocated balances and recorded allowances are reflected as unallocated to absorb losses resulting from the inherent imprecision involved in the loss analysis process.

This analysis process is inherently subjective, as it requires us to make estimates that are susceptible to revisions as more information becomes available. Although we believe that we have established the allowance at levels to absorb probable and estimable losses, additions may be necessary if economic or other conditions in the future differ from the current environment.

Investment Activities

We have legal authority to invest in various types of liquid assets, including U.S. Treasury obligations, securities of various federal agencies and of state and municipal governments, mortgage-backed securities and certificates of deposit of federally insured institutions. We are also required to maintain an investment in Federal Home Loan Bank of Chicago stock.

At December 31, 2007, our investment portfolio consisted primarily of U.S. agency securities with maturities of five years or less, mortgage-backed securities issued by Fannie Mae, Freddie Mac and Ginnie Mae with stated final maturities of 30 years or less, Federal Home Loan Bank of Chicago stock and Bankers' Bank of Wisconsin stock.

Our investment objectives are to provide and maintain liquidity, to maintain a balance of high quality, diversified investments to minimize risk, to provide collateral for pledging requirements, to establish an acceptable level of interest rate risk, to provide an alternate source of low-risk investments when demand for loans is weak, and to generate a favorable return. Our Board of Directors has the overall responsibility for our investment portfolio, including approval of our investment policy and appointment of our Investment Committee. The Investment Committee is responsible for approval of investment strategies and monitoring of investment performance. Our Senior Vice President / Chief Financial Officer (CFO) is the designated investment officer and

Edgar Filing: Ottawa Savings Bancorp, Inc. - Form 10KSB

either the CFO or the President is responsible for the daily investment activities and is authorized to make investment decisions consistent with our investment policy. The Investment Committee, consisting of three external Board members, meets regularly with the President and CFO in order to review and determine investment strategies and transactions.

The following table sets forth the carrying value of our investment portfolio at the dates indicated.

	2007		December 31, 2006		2005	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Held-to-maturity						
Mortgage-Backed Securities	\$ 976	\$ 962	\$ 1,183	\$ 1,171	\$ 1,405	\$ 1,393

Portfolio Maturities and Yields. The composition and maturities of the investment securities portfolio at December 31, 2007 are summarized in the following table. Maturities are based on the final contractual payment dates, and do not reflect the impact of prepayments or early redemptions that may occur. Certain mortgage-backed securities have interest rates that are adjustable and will re-price annually within the various maturity ranges. These re-pricing schedules are not reflected in the table below.

	At December 31, 2007									
	One Year or Less		More than One Year Through Five Years		More than Five Years Through Ten Years		More than Ten Years		Total Securities

Deposit Activities and Other Sources of Funds

General. Deposits and loan repayments are the major sources of our funds for lending and other investment purposes. Loan repayments are a relatively stable source of funds, while deposit inflows and outflows and loan prepayments are significantly influenced by general interest rates and money market conditions.

Deposit Accounts. The vast majority of our depositors are residents of LaSalle County. Deposits are attracted from within our primary market area through the offering of a broad selection of deposit instruments, including checking accounts, money market accounts, regular savings accounts, club savings accounts, certificate accounts and various retirement accounts. The Bank also is a member of the Certificate of Deposit Registry Service (CDARS), which allows the Bank to retain high deposit relationships with its depository customer base, while still allowing the customer to enjoy FDIC deposit insurance on amounts larger than \$100,000. Other than our relationship with CDARS, we do not utilize brokered funds. Deposit account terms vary according to the minimum balance required, the time periods the funds must remain on deposit, and the interest rate, among other factors. In determining the terms of our deposit accounts, we consider the rates offered by our competition, profitability to us, matching deposit and loan products and customer preferences and concerns. We generally review our deposit mix and pricing weekly. Our current strategy is to offer competitive rates but not be the market leader in every type and maturity.

The following table sets forth the dollar amount of deposits by type as of the dates indicated.

	2007		December 31, 2006		2005

Borrowings. If necessary, we borrow from the Federal Home Loan Bank of Chicago to supplement our supply of lendable funds and to meet deposit withdrawal requirements. The Federal Home Loan Bank functions as a central reserve bank providing credit for member financial institutions. As a member, we are required to own capital stock in the Federal Home Loan Bank of Chicago and are authorized to apply for advances on the security of such stock and certain of our mortgage loans and other assets (principally securities which are obligations of, or guaranteed by, the United States), provided certain standards related to credit-worthiness have been met. Advances are made under several different programs, each having its own interest rate and range of maturities. Depending on the program, limitations on the amount of advances are based either on a fixed percentage of an institution's net worth or on the Federal Home Loan Bank's assessment of the institution's credit-worthiness. Under its current credit policies, the Federal Home Loan Bank generally limits advances to 25% of a member's assets, and short-term borrowings of less than one year may not exceed 10% of the institution's assets. The Federal Home Loan Bank determines specific lines of credit for each member institution.

Personnel

At December 31, 2007 we had 23 full-time employees and three part-time employees, none of whom is represented by a collective bargaining unit. We believe our relationship with our employees is good.

Subsidiaries

The Company's only subsidiary is Ottawa Savings Bank.

REGULATION AND SUPERVISION

General

Ottawa Savings Bank is subject to extensive regulation, examination and supervision by the OTS, as its primary federal regulator, and the Federal Deposit Insurance Corporation, as the insurer of its deposits. Ottawa Savings Bank is a member of the Federal Home Loan Bank System and its deposit accounts are insured up to applicable limits by the Deposit Insurance Fund (DIF) managed by the Federal Deposit Insurance Corporation. Ottawa Savings Bank must file reports with the OTS and the Federal Deposit Insurance Corporation concerning its activities and financial condition in addition to obtaining regulatory approvals prior to entering into certain transactions such as mergers with, or acquisitions of, other financial institutions. There are periodic examinations by the OTS and, under certain circumstances, the Federal Deposit Insurance Corporation to evaluate Ottawa Savings Bank's safety and soundness and compliance with various regulatory requirements. This regulatory structure is intended primarily for the protection of the insurance fund and depositors. The regulatory structure also gives the regulatory authorities extensive discretion in connection with their supervisory and enforcement activities and examination policies, including policies with respect to the classification of assets and the establishment of adequate loan loss reserves for regulatory purposes. Any change in such policies, whether by the OTS, the Federal Deposit Insurance Corporation or Congress, could have a material adverse impact on Ottawa Savings Bancorp, Inc., Ottawa Savings Bancorp MHC and Ottawa Savings Bank and their operations. Ottawa Savings Bancorp, Inc. and Ottawa Savings Bancorp MHC, as savings and bank holding companies, are required to file certain reports which, are subject to examination by, and otherwise must comply with the rules and regulations of the OTS. Ottawa Savings Bancorp, Inc. will also be subject to the rules and regulations of the Securities and Exchange Commission under the federal securities laws.

Certain of the regulatory requirements that are applicable to Ottawa Savings Bank, Ottawa Savings Bancorp, Inc. and Ottawa Savings Bancorp MHC are described below. This description of statutes and regulations is not intended to be a complete explanation of such statutes and regulations and their effects on Ottawa Savings Bank, Ottawa Savings Bancorp, Inc. and Ottawa Savings Bancorp MHC and is qualified in its entirety by reference to the actual statutes and regulations.

Regulation of Federal Savings Banks

Business Activities. Federal law and regulations, primarily the Home Owners' Loan Act and the regulations of the OTS, govern the activities of federal savings banks, such as Ottawa Savings Bank. These laws and regulations delineate the nature and extent of the activities in which federal savings banks may engage. In particular, certain lending authority for federal savings banks, e.g., commercial, non-residential real property loans and consumer loans, is limited to a specified percentage of the institution's capital or assets.

Branching. Federal savings banks are authorized to establish branch offices in any state or states of the United States and its territories, subject to the approval of the OTS.

Capital Requirements. The OTS capital regulations require federal savings institutions to meet three minimum capital standards: a 1.5% tangible capital to total assets ratio, a 4% leverage ratio (3% for institutions receiving the highest rating on the CAMELS examination rating system) and an 8% risk-based capital ratio. In addition, the prompt corrective action standards discussed below also establish, in effect, a minimum 2% tangible capital standard, a 4% leverage ratio (3% for institutions receiving the highest rating on the CAMELS system) and, together with the risk-based capital standard itself, a 4% Tier 1 risk-based capital standard. The OTS regulations also require that, in meeting the tangible, leverage and risk-based capital standards, institutions must generally deduct investments in and loans to subsidiaries engaged in activities as principal that are not permissible for a national bank.

The risk-based capital standard requires federal savings institutions to maintain Tier 1 (core) and total capital (which is defined as core capital and supplementary capital) to risk-weighted assets of at least 4% and

8%, respectively. In determining the amount of risk-weighted assets, all assets, including certain off-balance sheet assets, recourse obligations, residual interests and direct credit substitutes, are multiplied by a risk-weight factor of 0% to 100%, assigned by the OTS capital regulation based on the risks believed inherent in the type of asset. Core (Tier 1) capital is defined as common stockholders' equity (including retained earnings), certain non-cumulative perpetual preferred stock and related surplus and minority interests in equity accounts of consolidated subsidiaries, less intangibles other than certain mortgage servicing rights and credit card relationships, non-withdrawable accounts and remaining goodwill. The components of supplementary capital currently include cumulative preferred stock, long-term perpetual preferred stock, mandatory convertible securities, subordinated debt and intermediate preferred stock, the allowance for loan and lease losses limited to a maximum of 1.25% of risk-weighted assets and up to 45% of unrealized gains on available-for-sale equity securities with readily determinable fair market values. Overall, the amount of supplementary capital included as part of total capital cannot exceed 100% of core capital.

The OTS also has authority to establish individual minimum capital requirements in appropriate cases upon a determination that an institution's capital level is or may become inadequate in light of the particular risk profile of the institution involved. At December 31, 2007, the Bank met each of its capital requirements.

Prompt Corrective Regulatory Action. The OTS is required to take certain supervisory actions against undercapitalized institutions, the severity of which depends upon the institution's degree of undercapitalization. Generally, a savings institution that has a ratio of total capital to risk-weighted assets of less than 8%, a ratio of Tier 1 (core) capital to risk-weighted assets of less than 4% or a ratio of core capital to total assets of less than 4% (3% or less for institutions with the highest examination rating) is considered to be undercapitalized. A savings institution that has a total risk-based capital ratio less than 6%, a Tier 1 capital ratio of less than 3% or a leverage ratio that is less than 3% is considered to be significantly undercapitalized and a savings institution that has a tangible capital to assets ratio equal to or less than 2% is deemed to be critically undercapitalized. Subject to a narrow exception, the OTS is required to appoint a receiver or conservator within specified time frames for an institution that is critically undercapitalized. An institution must file a capital restoration plan with the OTS within 45 days of the date it receives notice that it is undercapitalized, significantly undercapitalized or critically undercapitalized. Compliance with the plan must be guaranteed by any parent holding company in an amount of up to the lesser of 5% of the institution's total assets when it became undercapitalized, or the amount necessary to achieve full compliance with capital requirements. In addition, numerous mandatory supervisory actions become immediately applicable to an undercapitalized institution, including, but not limited to, increased monitoring by regulators and restrictions on growth, capital distributions and expansion. Significantly undercapitalized and critically undercapitalized institutions are subject to more extensive mandatory regulatory actions. The OTS could also take any one of a number of discretionary supervisory actions, including the issuance of a capital directive and the replacement of senior executive officers and directors.

Loans to One Borrower. Federal law provides that savings institutions are generally subject to the limits on loans to one borrower applicable to national banks. A savings institution may not make a loan or extend credit to a single or related group of borrowers in excess of 15% of its unimpaired capital and surplus. An additional amount may be lent, equal to 10% of unimpaired capital and surplus, if secured by specified readily-marketable collateral.

Standards for Safety and Soundness. As required by statute, the federal banking agencies have adopted Interagency Guidelines prescribing Standards for Safety and Soundness. The guidelines set forth the safety and soundness standards that the federal banking agencies use to identify and address problems at insured depository institutions before capital becomes impaired. If the OTS determines that a savings institution fails to meet any standard prescribed by the guidelines, the OTS may require the institution to submit an acceptable plan to achieve compliance with the standard.

Limitation on Capital Distributions. OTS regulations impose limitations upon all capital distributions by a savings institution, including cash dividends, payments to repurchase its shares and payments to stockholders of

another institution in a cash-out merger. Under the regulations, an application to and the prior approval of the OTS is required before any capital distribution if the institution does not meet the criteria for expedited treatment of applications under OTS regulations (i.e., generally, examination and Community Reinvestment Act ratings in the two top categories), the total capital distributions for the calendar year exceed net income for that year plus the amount of retained net income for the preceding two years, the institution would be undercapitalized following the distribution or the distribution would otherwise be contrary to a statute, regulation or agreement with the OTS. If an application is not required, the institution must still provide prior notice to the OTS of the capital distribution if, like Ottawa Savings Bank, it is a subsidiary of a holding company. If Ottawa Savings Bank's capital were ever to fall below its regulatory requirements or the OTS notified it that it was in need of increased supervision, its ability to make capital distributions could be restricted. In addition, the OTS could prohibit a proposed capital distribution that would otherwise be permitted by the regulation, if the agency determines that such distribution would constitute an unsafe or unsound practice.

Qualified Thrift Lender Test. Federal law requires savings institutions to meet a qualified thrift lender test. Under the test, a savings association is required to either qualify as a domestic building and loan association under the Internal Revenue Code or maintain at least 65% of its portfolio assets (total assets less: (i) specified liquid assets up to 20% of total assets; (ii) intangibles, including goodwill; and (iii) the value of property used to conduct business) in certain qualified thrift investments (primarily residential mortgages and related investments, including certain mortgage-backed securities) in at least 9 months out of each 12 month period.

A savings institution that fails the qualified thrift lender test is subject to certain operating restrictions and may be required to convert to a bank charter. Recent legislation has expanded the extent to which education loans, credit card loans and small business loans may be considered qualified thrift investments. As of December 31, 2007, Ottawa Savings Bank maintained 90.7% of its portfolio assets in qualified thrift investments and, therefore, met the qualified thrift lender test.

Transactions with Related Parties. Federal law limits Ottawa Savings Bank's authority to lend to, and engage in certain transactions (collectively, covered transactions) with affiliates (e.g., any company that controls or is under common control with an institution, including Ottawa Savings Bancorp, Inc., Ottawa Savings Bancorp MHC and their non-savings institution subsidiaries). The aggregate amount of covered transactions with any individual affiliate is limited to 10% of the capital and surplus of the savings institution. The aggregate amount of covered transactions with all affiliates is limited to 20% of the savings institution's capital and surplus. Loans and other specified transactions with affiliates are required to be secured by collateral in an amount and of a type described in federal law. The purchase of low quality assets from affiliates is generally prohibited. Transactions with affiliates must be on terms and under circumstances that are at least as favorable to the institution as those prevailing at the time for comparable transactions with non-affiliated companies. In addition, savings institutions are prohibited from lending to any affiliate that is engaged in activities that are not permissible for bank holding companies and no savings institution may purchase the securities of any affiliate other than a subsidiary.

The Sarbanes-Oxley Act of 2002 generally prohibits a company from making loans to its executive officers and directors. However, that act contains a specific exception for loans by a depository institution to its executive officers and directors in compliance with federal banking laws. Under such laws, Ottawa Savings Bank's authority to extend credit to executive officers, directors and 10% stockholders (insiders), as well as entities such person's have control, is limited. The law restricts both the individual and aggregate amount of loans Ottawa Savings Bank may make to insiders based, in part, on Ottawa Savings Bank's capital position and requires certain board approval procedures to be followed. Such loans must be made on terms substantially the same as those offered to unaffiliated individuals and not involve more than the normal risk of repayment. There is an exception for loans made pursuant to a benefit or compensation program that is widely available to all employees of the institution and does not give preference to insiders over other employees. Additional restrictions apply to loans to executive officers.

Enforcement. The OTS has primary enforcement responsibility over federal savings institutions and has the authority to bring actions against the institution and all institution-affiliated parties, including stockholders, and any attorneys, appraisers and accountants who knowingly or recklessly participate in wrongful action likely to have an adverse effect on an insured institution. Formal enforcement action may range from the issuance of a capital directive or cease and desist order, to removal of officers and/or directors, to institution of receivership, conservatorship or termination of deposit insurance. Civil penalties cover a wide range of violations and can amount to \$25,000 per day, or even \$1 million per day in especially egregious cases. The Federal Deposit Insurance Corporation has authority to recommend to the Director of the OTS that enforcement action be taken with respect to a particular savings institution. If action is not taken by the Director, the Federal Deposit Insurance Corporation has authority to take such action under certain circumstances. Federal law also establishes criminal penalties for certain violations.

Assessments. Federal savings banks are required to pay assessments to the OTS to fund its operations. The general assessments, paid on a semi-annual basis, are based upon the savings institution's total assets, including consolidated subsidiaries, as reported in the institution's latest quarterly thrift financial report, its financial condition and the complexity of its portfolio.

Insurance of Deposit Accounts. The Bank's deposits are insured up to applicable limits by the Deposit Insurance Fund of the Federal Deposit Insurance Corporation. The Deposit Insurance Fund is the successor to the Bank Insurance Fund and the Savings Association Insurance Fund, which were merged in 2006. The Federal Deposit Insurance Corporation recently amended its risk-based assessment system in 2007 to implement authority granted by the Federal Deposit Insurance Reform Act of 2005 (Reform Act). Under the revised system, insured institutions are assigned to one of four risk categories based on supervisory evaluations, regulatory capital levels and certain other factors. An institution's assessment rate depends upon the category to which it is assigned. Risk category I, which contains the least risky depository institutions, is expected to include more than 90% of all institutions. Unlike the other categories, Risk Category I contains further risk differentiation based on the Federal Deposit Insurance Corporation's analysis of financial ratios, examination component ratings and other information. Assessment rates are determined by the Federal Deposit Insurance Corporation and currently range from five to seven basis points for the healthiest institutions (Risk Category I) to 43 basis points of assessable deposits for the riskiest (Risk Category IV). The Federal Deposit Insurance Corporation may adjust rates uniformly from one quarter to the next, except that no single adjustment can exceed three basis points. No institution may pay a dividend if in default of the FDIC assessment.

The Reform Act also provided for a one-time credit for eligible institutions based on their assessment base as of December 31, 1996. Subject to certain limitations with respect to institutions that are exhibiting weaknesses, credits can be used to offset assessments until exhausted. The Bank's one-time credit was approximately \$112,000. The Reform Act also provided for the possibility that the Federal Deposit Insurance Corporation may pay dividends to insured institutions once the Deposit Insurance fund reserve ratio equals or exceeds 1.35% of estimated insured deposits.

In addition to the assessment for deposit insurance, institutions are required to make payments on bonds issued in the late 1980s by the Financing Corporation to recapitalize a predecessor deposit insurance fund. This payment is established quarterly and during the calendar year ending December 31, 2007 averaged 1.18 basis points of assessable deposits.

The Reform Act provided the Federal Deposit Insurance Corporation with authority to adjust the Deposit Insurance Fund ratio to insured deposits within a range of 1.15% and 1.50%, in contrast to the prior statutorily fixed ratio of 1.25%. The ratio, which is viewed by the Federal Deposit Insurance Corporation as the level that the fund should achieve, was established by the agency at 1.25% for 2008, which was unchanged from 2007.

The Federal Deposit Insurance Corporation has authority to increase insurance assessments. A significant increase in insurance premiums would likely have an adverse effect on the operating expenses and results of operations of the Bank. Management cannot predict what insurance assessment rates will be in the future.

Insurance of deposits may be terminated by the Federal Deposit Insurance Corporation upon a finding that the institution has engaged in unsafe or unsound practices, is in an unsafe or unsound condition to continue operations or has violated any applicable law, regulation, rule, order or condition imposed by the Federal Deposit Insurance Corporation or the Office of Thrift Supervision. The management of the Bank does not know of any practice, condition or violation that might lead to termination of deposit insurance.

Federal Home Loan Bank System. Ottawa Savings Bank is a member of the Federal Home Loan Bank System, which consists of twelve regional Federal Home Loan Banks. The Federal Home Loan Bank provides a central credit facility primarily for member institutions. Ottawa Savings Bank, as a member of the Federal Home Loan Bank of Chicago, is required to acquire and hold shares of capital stock in that Federal Home Loan Bank. Ottawa Savings Bank had an investment in Federal Home Loan Bank stock at December 31, 2007 of \$2.35 million.

The Federal Home Loan Banks are required to provide funds for the resolution of insolvent thrifts in the late 1980s and to contribute funds for affordable housing programs. These requirements could reduce the amount of dividends that the Federal Home Loan Banks pay to their members and could also result in the Federal Home Loan Banks imposing a higher rate of interest on advances to their members. If dividends were reduced, or interest on future Federal Home Loan Bank advances increased, our net interest income would likely also be reduced.

Community Reinvestment Act. Under the Community Reinvestment Act, as implemented by OTS regulations, a savings bank has a continuing and affirmative obligation consistent with its safe and sound operation to help meet the credit needs of its entire community, including low and moderate income neighborhoods. The Community Reinvestment Act does not establish specific lending requirements or programs for financial institutions nor does it limit an institution's discretion to develop the types of products and services that it believes are best suited to its particular community, consistent with the Community Reinvestment Act. The Community Reinvestment Act requires the OTS, in connection with its examination of a savings bank, to assess the institution's record of meeting the credit needs of its community and to take such record into account in its evaluation of certain applications by such institution.

The Community Reinvestment Act requires public disclosure of an institution's rating and requires the OTS to provide a written evaluation of a bank's Community Reinvestment Act performance utilizing a four-tiered descriptive rating system.

Ottawa Savings Bank received a satisfactory rating as a result of its most recent Community Reinvestment Act assessment.

Holding Company Regulation

General. Ottawa Savings Bancorp, Inc. and Ottawa Savings Bancorp MHC are savings and loan holding companies within the meaning of federal law. As such, they are registered with the OTS and are subject to OTS regulations, examinations, supervision, reporting requirements and regulations concerning corporate governance and activities. In addition, the OTS has enforcement authority over Ottawa Savings Bancorp, Inc. and Ottawa Savings Bancorp MHC and their non-savings institution subsidiaries. Among other things, this authority permits the OTS to restrict or prohibit activities that are determined to be a serious risk to Ottawa Savings Bank.

Restrictions Applicable to Mutual Holding Companies. According to federal law and OTS regulations, a mutual holding company, such as Ottawa Savings Bancorp MHC, may generally engage in the following activities: (1) investing in the stock of a savings association; (2) acquiring a mutual association through the merger of such association into a savings association subsidiary of such holding company or an interim savings association subsidiary of such holding company; (3) merging with or acquiring another holding company, one of whose subsidiaries is a savings association; and (4) any activity approved by the Federal Reserve Board for a

bank holding company or financial holding company or previously approved by OTS for multiple savings and loan holding companies.

Recent legislation, which authorized mutual holding companies to engage in activities permitted for financial holding companies, expanded the authorized activities. Financial holding companies may engage in a broad array of financial service activities including insurance and securities.

Federal law prohibits a savings and loan holding company, including a federal mutual holding company, from directly or indirectly, or through one or more subsidiaries, acquiring more than 5% of the voting stock of another savings institution, or its holding company, without prior written approval of the OTS. Federal law also prohibits a savings and loan holding company from acquiring more than 5% of a company engaged in activities other than those authorized for savings and loan holding companies by federal law; or acquiring or retaining control of a depository institution that is not insured by the Federal Deposit Insurance Corporation. In evaluating applications by holding companies to acquire savings institutions, the OTS must consider the financial and managerial resources and future prospects of the company and institution involved, the effect of the acquisition on the risk to the insurance funds, the convenience and needs of the community and competitive factors.

The OTS is prohibited from approving any acquisition that would result in a multiple savings and loan holding company controlling savings institutions in more than one state, except: (1) the approval of interstate supervisory acquisitions by savings and loan holding companies; and (2) the acquisition of a savings institution in another state if the laws of the state of the target savings institution specifically permit such acquisitions. The states vary in the extent to which they permit interstate savings and loan holding company acquisitions.

If the savings institution subsidiary of a savings and loan holding company fails to meet the qualified thrift lender test, the holding company must register with the Federal Reserve Board as a bank holding company within one year of the savings institution's failure to so qualify.

Stock Holding Company Subsidiary Regulation. The OTS has adopted regulations governing the two-tier mutual holding company form of organization and subsidiary stock holding companies that are controlled by mutual holding companies. Ottawa Savings Bancorp, Inc. is the stock holding company subsidiary of Ottawa Savings Bancorp MHC. Ottawa Savings Bancorp, Inc. is permitted to engage in activities that are permitted for Ottawa Savings Bancorp MHC subject to the same restrictions and conditions.

Waivers of Dividends. Office of Thrift Supervision regulations require mutual holding companies to notify the Office of Thrift Supervision if they propose to waive receipt of dividends from their stock holding company subsidiary. The Office of Thrift Supervision reviews dividend waiver notices on a case-by-case basis, and, in general, does not object to a waiver if: (i) the waiver would not be detrimental to the safe and sound operation of the savings association; and (ii) the mutual holding company's board of directors determines that their waiver is consistent with such directors' fiduciary duties to the mutual holding company's members. We anticipate that Ottawa Savings Bancorp MHC will waive dividends that Ottawa Savings Bancorp, Inc. may pay, if any.

Acquisition of Control. Under the federal Change in Bank Control Act, a notice must be submitted to the OTS if any person (including a company), or group acting in concert, seeks to acquire control of a savings and loan holding company or savings bank. An acquisition of control can occur upon the acquisition of 10% or more of the voting stock of a savings and loan holding company or savings institution or as otherwise defined by the OTS. Under the Change in Bank Control Act, the OTS has 60 days from the filing of a complete notice to act, taking into consideration certain factors, including the financial and managerial resources of the acquirer and the anti-trust effects of the acquisition. Any company that so acquires control would then be subject to regulation as a savings and loan holding company.

Federal Securities Laws

Ottawa Savings Bancorp, Inc. common stock will continue to be registered with the Securities and Exchange Commission under the Securities Exchange Act of 1934. Ottawa Savings Bancorp, Inc. will continue to be subject to the information, proxy solicitation, insider trading restrictions and other requirements under the Securities Exchange Act of 1934.

The registration, under the Securities Act of 1933, of the shares of common stock does not cover the resale of those shares. Shares of common stock purchased by persons who are not affiliates of Ottawa Savings Bancorp, Inc. may be resold without registration. Shares purchased by an affiliate of Ottawa Savings Bancorp, Inc. will be subject to the resale restrictions of Rule 144 under the Securities Act of 1933. If Ottawa Savings Bancorp, Inc. meets the current public information requirements of Rule 144, each affiliate of Ottawa Savings Bancorp, Inc. that complies with the other conditions of Rule 144, including those that require the affiliate's sale to be aggregated with those of other persons, would be able to sell in the public market, without registration, a number of shares not to exceed, in any three-month period, the greater of 1% of the outstanding shares of Ottawa Savings Bancorp, Inc., or the average weekly volume of trading in the shares during the preceding four calendar weeks. In the future, Ottawa Savings Bancorp, Inc. may permit affiliates to have their shares registered for sale under the Securities Act of 1933.

FEDERAL AND STATE TAXATION

Federal Income Taxation

General. We report our income on a fiscal year basis using the accrual method of accounting. The federal income tax laws apply to us in the same manner as to other corporations with some exceptions, including particularly our reserve for bad debts discussed below. The following discussion of tax matters is intended only as a summary and does not purport to be a comprehensive description of the tax rules applicable to us. Our federal income tax returns have been either audited or closed under the statute of limitations through tax year 2004. Ottawa Savings Bank's maximum federal income tax rate was 35% for both the 2007 and 2006 tax year.

Ottawa Savings Bancorp, Inc. has filed a consolidated federal income tax return with Ottawa Savings Bank. Accordingly, it is anticipated that any cash distributions made by Ottawa Savings Bancorp, Inc. to its shareholders would be treated as cash dividends and not as a non-taxable return of capital to shareholders for federal and state tax purposes.

Bad Debt Reserves. For fiscal years beginning before June 30, 1996, thrift institutions that qualified under certain definitional tests and other conditions of the Internal Revenue Code were permitted to use certain favorable provisions to calculate their deductions from taxable income for annual additions to their bad debt reserve. A reserve could be established for bad debts on qualifying real property loans, generally secured by interests in real property improved or to be improved, under the percentage of taxable income method or the experience method. The reserve for non-qualifying loans was computed using the experience method. Federal legislation enacted in 1996 repealed the reserve method of accounting for bad debts for institutions with assets in excess of \$500 million and the percentage of taxable income method for all institutions for tax years beginning after 1995 and requires savings institutions to recapture or take into income certain portions of their accumulated bad debt reserves. Approximately \$1.2 million of our accumulated bad debt reserves would not be recaptured into taxable income unless Ottawa Savings Bank makes a non-dividend distribution to Ottawa Savings Bancorp, Inc. as described below.

Distributions. If Ottawa Savings Bank makes non-dividend distributions to Ottawa Savings Bancorp, Inc., the distributions will be considered to have been made from Ottawa Savings Bank's un-recaptured tax bad debt reserves, to the extent of the non-dividend distributions, and then from Ottawa Savings Bank's supplemental reserve for losses on loans, to the extent of those reserves, and an amount based on the amount distributed, but

not more than the amount of those reserves, will be included in Ottawa Savings Bank's taxable income. Non-dividend distributions include distributions in excess of Ottawa Savings Bank's current and accumulated earnings and profits, as calculated for federal income tax purposes, distributions in redemption of stock, and distributions in partial or complete liquidation. Dividends paid out of Ottawa Savings Bank's current or accumulated earnings and profits will not be so included in Ottawa Savings Bank's taxable income.

The amount of additional taxable income triggered by a non-dividend is an amount that, when reduced by the tax attributable to the income, is equal to the amount of the distribution. Therefore, if Ottawa Savings Bank makes a non-dividend distribution to Ottawa Savings Bancorp, Inc., approximately one and one-half times the amount of the distribution not in excess of the amount of the reserves would be includable in income for federal income tax purposes, assuming a 34% federal corporate income tax rate. Ottawa Savings Bank does not intend to pay dividends that would result in a recapture of any portion of its bad debt reserves.

Tax Allocation Agreement Ottawa Savings Bancorp, Inc. and Ottawa Savings Bank have executed a Tax Allocation Agreement. The purpose of this agreement is to set forth the rights and obligations of Ottawa Savings Bancorp, Inc. and Ottawa Savings Bank for purposes of filing consolidated federal and state combined income tax returns.

Under the Tax Allocation Agreement, Ottawa Savings Bank and any of its subsidiaries calculate their federal and state income tax liabilities as if they were filing a separate tax return. If there is tax liability calculated on this separate entity basis, Ottawa Savings Bank pays that tax liability to Ottawa Savings Bancorp, Inc. Payments are made no earlier than five days prior to the time that Ottawa Savings Bancorp, Inc. is required to make either estimated or final tax payments for the consolidated or combined return. If Ottawa Savings Bank and its subsidiaries have a taxable loss for a year on a separate entity basis, and if that loss could have been carried back to obtain a refund, Ottawa Savings Bancorp, Inc. pays an amount equal to such refund to Ottawa Savings Bank, whether or not any such refund is actually received on a consolidated or combined basis. If that taxable loss would not have resulted in a refund on a separate entity basis because there was no carryback available, but that loss is used on the consolidated or combined return to reduce tax liability on a consolidated or combined basis, Ottawa Savings Bancorp, Inc. pays Ottawa Savings Bank an amount equal to the tax savings from using that loss.

Ottawa Savings Bank is required to contribute to Ottawa Savings Bancorp, Inc. its share of any required estimated tax payments. When the consolidated or combined return is actually filed, if the estimated payments by Ottawa Savings Bank to Ottawa Savings Bancorp, Inc. exceed the amount of Ottawa Savings Bank's tax liability on a separate entity basis, Ottawa Savings Bancorp, Inc. will refund the excess to Ottawa Savings Bank. If Ottawa Savings Bank's tax liability on a separate entity basis exceeds the estimated payments it has paid to Ottawa Savings Bancorp, Inc., Ottawa Savings Bank will pay the deficiency to Ottawa Savings Bancorp, Inc.

State Taxation

Ottawa Savings Bancorp, Inc. is subject to the Illinois Income Tax and the Illinois Personal Property Tax Replacement Income Tax, at the rates of 4.8% and 2.5%, respectively for fiscal year 2008. These amounts remain unchanged from 2007 and 2006. These taxes are imposed on our federal taxable income, with certain adjustments.

ITEM 2. DESCRIPTION OF PROPERTY

The Company is located and conducts its business at the Bank's main office at 925 LaSalle Street, Ottawa, Illinois 61350. The Company owns the building. The Company believes that the current facility is adequate to meet its present and immediately foreseeable needs.

The following table sets forth certain information relating to this facility at December 31, 2007.

Location	Year Opened/ Acquired	Net Book Value at December 31, 2007	Square Footage	Owned/ Leased	Date of Lease Expiration
925 LaSalle Street Ottawa, IL 61350	1958	\$ 7,316,000	21,000	Owned	N/A

ITEM 3. LEGAL PROCEEDINGS

The Company and the Bank are not involved in any pending proceedings other than the legal proceedings occurring in the ordinary course of business. Such legal proceedings in the aggregate are believed by management to be immaterial to the Company's business, financial condition, results of operations and cash flows.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted to a vote of stockholders during the fourth quarter of the year ended December 31, 2007.

PART II

ITEM 5. MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS AND SMALL BUSINESS ISSUER PURCHASES OF EQUITY SECURITIES

The Company's common stock is traded on the Over-the-Counter (OTC) Bulletin Board under the symbol OTTW. At December 31, 2007, the Company had 397 record holders of its common stock. The table below shows the reported high and low sale price of the common stock, as reported on the OTC Bulletin Board and dividends declared during the periods indicated in 2007 and 2006. Quotations reflect inter-dealer prices without mark-up, mark-down or commissions, and may not represent actual transactions.

	2007			2006		
	High	Low	Dividends Declared	High	Low	Dividends Declared
First quarter	\$ 13.65	\$ 12.50	\$ 0.05	\$ 12.25	\$ 10.50	\$ 0.05
Second quarter	\$ 13.25	\$ 12.25	\$ 0.05	\$ 12.25	\$ 11.40	\$ 0.05
Third quarter	\$ 13.50	\$ 11.25	\$ 0.05	\$ 12.25	\$ 11.55	\$ 0.05
Fourth quarter	\$ 12.00	\$ 10.00	\$ 0.05	\$ 12.80	\$ 11.40	\$ 0.05

On November 28, 2007, the Board of Directors of Ottawa Savings Bancorp, Inc. (the Company) approved a repurchase program for up to 100,120 shares of the Company's outstanding common stock, which is approximately 10.0% of the Company's outstanding shares not held by Ottawa Savings Bancorp MHC. The Company has no plans that it has elected to terminate prior to expiration or under which it does not intend to make further purchases. The table below shows the status of the repurchase program.

	Number of Shares Purchased	Average Price Paid per Share	2007 Number of Shares Purchased as Part of Publicly Announced Programs	Maximum Number of Shares that may yet be Purchased Under the Program
October 1-31, 2007	N/A		N/A	N/A
November 1-30, 2007	21,000	10.86	21,000	79,120
December 1-31, 2007				79,120

Dividend Policy

The Company paid cash dividends of \$0.20 per share during 2007 and 2006. The Board of Directors will declare dividends upon consideration of a number of factors, including capital requirements, the Company's and the Bank's financial condition and results of operations, tax considerations, statutory and regulatory limitations and general economic conditions. No assurances can be given that any dividends will be paid or that, if paid, will not be reduced or eliminated in future periods. Special cash dividends, stock dividends or returns of capital may, to the extent permitted by regulations, be paid in addition to, or in lieu of, regular cash dividends. The Company has filed consolidated tax returns with the Bank. Accordingly, it is anticipated that any future cash distributions made by the Company to its stockholders would be treated as cash dividends and not as a nontaxable return of capital for federal and state tax purposes.

Dividends from the Company will depend, in large part, upon receipt of dividends from the Bank. Federal and state law imposes certain limitations on dividends by savings banks. See *Regulation and Supervision*.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION
General

This discussion and analysis reflects the Company's consolidated financial statements and other relevant statistical data, and is intended to enhance your understanding of our financial condition and results of operations. The information in this section has been derived from and should be read in conjunction with the consolidated financial statements and notes to the consolidated financial statements, which appear beginning on page F-1.

Our results of operations depend primarily on our net interest income. Net interest income is the difference between the interest income we earn on our interest-earning assets, consisting primarily of loans, investment securities, mortgage-backed securities and other interest-earning assets (primarily cash and cash equivalents), and the interest we pay on our interest-bearing liabilities, consisting of money market accounts, passbook, individual retirement accounts and certificates of deposit. Our results of operations also are affected by our provisions for loan losses, non-interest income and non-interest expense. Non-interest income currently consists primarily of fees, service charges, and gains on the sale of loans. Non-interest expense currently consists primarily of salaries and employee benefits, directors' fees, occupancy, data processing and professional fees. Our results of operations also may be affected significantly by general and local economic and competitive conditions, changes in market interest rates, governmental policies and actions of regulatory authorities.

During the period from March 2000 until April 2004, as part of our investment activities, we purchased loan participations from Commercial Loan Corporation (CLC) of Oak Brook, Illinois. In April 2004, we were informed by our regulators, the FDIC and the Illinois Office of Banks and Real Estate (OBRE) that CLC had misappropriated funds from loans it was servicing for others. At that time, Ottawa Savings Bank had 38 outstanding loan participations with CLC in the aggregate amount of approximately \$15.0 million. In May 2004, CLC filed for bankruptcy protection under Chapter 11 of the U.S. Bankruptcy Code. In December 2004, CLC's remaining assets were transferred to the CLC Creditors Trust.

In December 2004, we received a payment of \$5.6 million in cash and loans from the CLC Creditors Trust. This payment included \$784,000 in residential condominium loans, \$2.5 million in non-residential real estate loans, \$518,000 in commercial lines of credit, \$153,000 in residential real estate loans and \$1.6 million in cash. As of December 31, 2007, all of the foregoing loans are performing according to their terms. Although we have retained certain unsecured claims against the CLC Creditors Trust, we have charged-off the remaining \$9.5 million of our investment in the CLC loan participations. In October 2005 and March 2006, March 2007, June 2007 and October 2007, the Company received and recorded as recoveries, distributions of \$190,000, \$1.3 million, \$1.2 million, \$902,000, and \$281,000, respectively from the CLC Creditors Trust on previously charged-off loan participations with CLC. These settlements were recorded as a recovery to the allowance for loan losses.

Critical Accounting Policies

We consider accounting policies involving significant judgments and assumptions by management that have, or could have, a material impact on the carrying value of certain assets or income to be critical accounting policies. We consider the allowance for loan losses to be our critical accounting policy.

Allowance for Loan Losses. The allowance for loan losses is an amount necessary to absorb known or inherent losses that are both probable and reasonably estimable and is established through a provision for loan losses charged to earnings. Loan losses are charged against the allowance when management believes the uncollectibility of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance. The allowance for loan losses is evaluated on a regular basis by management and is based upon management's periodic review of the collectibility of the loans in light of historical experience, the nature and volume of the

loan portfolio, adverse situations that may affect each borrower's ability to repay, estimated value of any underlying collateral and prevailing economic conditions. This evaluation is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available.

A loan is considered impaired when, based on current information and events, it is probable that we will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement. Factors considered by management in determining impairment include payment status, collateral value, and the probability of collecting scheduled principal and interest payments when due. Loans that experience insignificant payment delays and payment shortfalls generally are not classified as impaired. Management determines the significance of payment delays and payment shortfalls on a case-by-case basis, taking into consideration all of the circumstances surrounding the loan and the borrower, including the length of the delay, the reasons for the delay, the borrower's prior payment record, and the amount of the shortfall in relation to the principal and interest owed. Impairment is measured on a loan by loan basis for commercial and construction loans by either the present value of expected future cash flows discounted at the loan's effective interest rate, the loan's obtainable market price, or the fair value of the collateral if the loan is collateral dependent.

Selected Financial Data

The following tables set forth selected financial and other data of the Company for the periods and at the dates indicated. The information should be read in conjunction with the Consolidated Financial Statements and Notes beginning on page F-1.

	At December 31,		
	2007	2006	2005

- (1) The net interest rate spread represents the difference between the weighted average yield on interest-earning assets and the weighted average cost of interest-bearing liabilities.
- (2) The net interest margin represents net interest income as a percent of average interest-earning assets.
- (3) The efficiency ratio represents other expense as a percent of net interest income before the provision for loan losses and other income.
- (4) Non-performing assets consist of nonperforming loans and foreclosed real estate. Nonperforming loans consist of all loans 90 days or more past due and all loans no longer accruing interest.

Comparison of Financial Condition at December 31, 2007 and December 31, 2006

The Company's total assets increased \$2.4 million, or 1.20%, to \$207.3 million at December 31, 2007, from \$204.9 million at December 31, 2006. The increase reflects an increase in loans of \$15.2 million, an increase in non-marketable equity securities of \$138,000, an increase in accrued interest receivable of \$108,000, an increase in other assets of \$114,000, the purchase of bank owned life insurance and its earnings of \$1.4 million, and an increase in foreclosed real estate of \$108,000. The increases were offset by decreases in securities available for sale of \$11.0 million, cash and due from banks of \$2.8 million, securities held to maturity of \$206,000, premises and equipment of \$ 111,000, and deferred tax assets of \$494,000.

Cash and cash equivalents decreased \$2.8 million, or 27.17%, to \$7.6 million at December 31, 2007 from \$10.4 million at December 31, 2006. The decrease in cash is primarily due to the use of cash to fund loan originations and the purchase of bank owned life insurance, offset by sales and maturities of securities available for sale, funds received as deposits, and the \$2.4 million in recoveries from the CLC Creditors Trust on previously charged off loan participations.

Securities available for sale decreased \$11.0 million or 29.77%, to \$25.8 million at December 31, 2007 from \$36.8 million at December 31, 2006. The decrease was primarily the result of maturities, pay-downs, and sales of \$17.0 million, offset by \$5.5 million in purchases. The proceeds from the sales and maturities were primarily used to fund loan growth.

Non-marketable equity securities are equity securities for which sales prices are not currently available on a national securities exchange or in the over-the-counter market. The Company holds Federal Home Loan Bank (FHLB) stock, Bankers Bank of Wisconsin stock, and stock in the Upper Illinois River Valley Development Corporation (U.I.R.V.D.C). Non-marketable equity securities increased \$138,000, or 5.76%, to \$2.5 million at December 31, 2007, from \$2.4 million at December 31, 2006, due to the purchase of Bankers Bank of Wisconsin stock.

Accrued interest receivable increased \$108,000, or 11.37%, to \$1.1 million at December 31, 2007, from \$948,000 at December 31, 2006. The increase was primarily due to an increase in accrued interest on loans of \$229,000 due to loan growth and higher interest rates, offset by an increase in the reserve for uncollected interest on non-accrual loans of \$28,000. Additionally, accrued interest on securities decreased \$94,000, primarily due to the reduction in size of the portfolio.

Loans increased \$15.2 million, or 10.64%, to \$157.7 million at December 31, 2007, from \$142.5 million at December 31, 2006. The increase in loans was primarily due to the origination of 1-4 family loans and lines of credit, the origination and the purchase of non-residential real estate loans, and the origination of commercial loans, offset by pay-offs on multi-family loans and principal reductions on consumer loans.

The deferred tax asset decreased \$494,000, or 32.35%, to \$1.0 million at December 31, 2007, from \$1.5 million at December 31, 2006. The decrease is primarily due to tax carry-forwards from prior year losses applied against current income taxes, and changes in deferred taxes on unrealized losses on available for sale securities.

Other assets, comprised primarily of prepaid expenses, deferred director compensation investment accounts, and auto loan repossessions, increased \$114,000, or 10.30%, to \$1.2 million at December 31, 2007, from \$1.1 million at December 31, 2006. The increase is primarily due to an increase in auto loan repossessions, net of proceeds from sales, totaling \$61,000, an increase in the deferred director compensation investment accounts of \$81,000, the presence of prepaid FDIC insurance and OTS assessments of \$5,000, an increase in the prepaid fees for CDARs placement of \$13,000, and an increase in maintenance and insurance pre-payments of \$10,000. The increase in auto loan repossessions is primarily due to increased defaults on auto loans originated and purchased, to six loans at December 31, 2007, from one loan at December 31, 2006. The increase in the deferred director compensation investment accounts is primarily due to the transfer of deferred compensation to the investment accounts, and earnings on the investments. The increase was partially offset by a decrease in prepaid dealer reserve on purchased auto loans of \$39,000 and a decrease in other charges due on loans of \$24,000.

Total deposits increased \$225,000, or 0.12%, to \$183.1 million at December 31, 2007, from \$182.9 million at December 31, 2006. The increase reflects the addition of new accounts and deposits to existing accounts, offset by a slight decrease in money market and certificate accounts.

Other liabilities decreased \$178,000, or 7.68%, to \$2.1 million at December 31, 2007, from \$2.3 million at December 31, 2006. The decrease was primarily due to the absence of outstanding payables that existed at December 31, 2006 of \$587,000 to complete the purchase of MRP shares and \$22,000 for December 2006 data processing fees which were paid in January of 2007. The decreases were offset by increases in property taxes of \$26,000, escrow payable of \$23,000, deferred director compensation payable of \$21,000, federal taxes payable of \$150,000 due to higher pre-tax income, accrued retirement payments payable of \$117,000, and the addition of an accrual for Supplemental Executive Retirement Plan (SERP) expenses of \$84,000. The increase in retirement payments payable is due to continued but decreased accruals for the defined benefit plan which was terminated, effective April 1, 2007, in anticipation of overall costs associated with withdrawing from the defined benefit plan

Edgar Filing: Ottawa Savings Bancorp, Inc. - Form 10KSB

and the absence of quarterly payments to fund the defined benefit plan. The increase in the deferred director accounts payable is primarily due to the transfer of deferred compensation to the investment accounts, and earnings on the investments. The SERP plan covers Gary L. Ocepek, Jon Kranov, and Philip B. Devermann.

Equity increased \$2.4 million, or 12.17%, to \$21.8 million at December 31, 2007, from \$19.4 million at December 31, 2006. The increase in equity reflects net income for the year ended December 31, 2007 of approximately \$2.2 million, a decrease in other comprehensive loss, net of taxes of \$391,000, due to increases in the market value of the available for sale securities portfolio, offset by dividends of \$186,000 paid to stockholders and the purchase of 21,000 treasury shares for \$228,000. The remaining changes to equity include increases of \$221,000 from the allocation and amortization of ESOP shares, MRP shares, and RRP options, offset by a decrease to equity of \$43,000 to increase the cash obligation related to redeemable common stock held by the ESOP.

Comparison of Results of Operations for the Years Ended December 31, 2007 and December 31, 2006

General. Net income for the year ended December 31, 2007 was \$2.2 million compared to \$944,000 for the year ended December 31, 2006.

Net Interest Income. The following table summarizes interest and dividend income and interest expense for the years ended December 31, 2007 and 2006.

	Years Ended December 31,			% change
	2007	2006	\$ change (Dollars in thousands)	
Interest and dividend income:				
Interest and fees on loans	\$ 10,038	\$ 8,234	\$ 1,804	21.91%
Securities:				
Mortgage-backed and related securities	1,058	1,054	4	0.38
U.S. agency securities	717	699	18	2.58
Non-marketable equity securities	60	114	(54)	(47.37)
Interest-bearing deposits	252	227	25	11.01
Total interest and dividend income	12,125	10,328	1,797	17.40
Interest expense:				
Deposits	7,696	6,034	1,662	27.54
Other borrowings	10		10	100.00
Total interest expense	7,706	6,034	1,672	27.71
Net interest income	\$ 4,419	\$ 4,294	\$ 125	2.91%

Net interest income increased \$125,000, or 2.91% for the year ended December 31, 2007 compared to the year ended December 31, 2006. Interest and dividend income increased due to an increase in the average yield on interest earning assets to 6.23% from 5.88% due to increased market rates, and an increase of \$19.1 million in average interest earning assets to \$194.8 million from \$175.6 million for the year ended December 31, 2007, compared to the same period in 2006. Interest expense increased due to an increase of \$16.2 million in average interest bearing liabilities, and an increase in the cost of interest bearing liabilities to 4.21% from 3.62% for the year ended December 31, 2007, compared to the same period in 2006. The increase in average deposits and the increase in the cost of deposits were primarily due to increased market rates prior to the fourth quarter of 2007 resulting in additional funds placed in certificates of deposit, offset by decreases in money market accounts and withdrawal of certificate funds as rates declined during the fourth quarter.

Provision for Loan Losses. Management recorded a negative loss provision of \$2.1 million for the year ended December 31, 2007, compared to a negative loss provision of \$1.3 million for the year ended December 31, 2006. The negative loss provisions were due to recoveries from the CLC Creditors Trust on

Edgar Filing: Ottawa Savings Bancorp, Inc. - Form 10KSB

previously charged off loans. Based on a general review of the loans that were in the loan portfolio at December 31, 2007, management believes that the allowance is maintained at a level that represents its best estimate of inherent losses in the loan portfolio that were both probable and reasonably estimable.

Other Income. The following table summarizes other income for the year ended December 31, 2007 and 2006.

	Years Ended December 31,			
	2007	2006	\$ change	% change
	(Dollars in thousands)			
Other income:				
(Loss) gain on sale of securities available for sale	\$	\$ 2	\$ (2)	(100.00)%
Gain on sale of loans	47	37	10	27.03%
Amortization of mortgage servicing rights, net of originations	2	(13)	15	(115.38)
Customer service fees	239	177	62	35.03
Income on bank owned life insurance	5		5	100.00
Other	35	72	(37)	(51.39)
Total other income	\$ 328	\$ 275	\$ 53	19.27%

The increase in other income was primarily due to increased customer service fees, increased gains on sale of loans and origination of mortgage servicing rights, offset by the 2006 receipt of approximately \$46,000 in interest on tax refunds, and gains on sales of loans. The increase in customer service fees is primarily due to an increase in the number of checking accounts with overdraft and ATM activity and partially due to the bank increasing the amount it charges for overdrafts, effective March 1, 2006.

Other Expenses. The following table summarizes other expenses for the year ended December 31, 2007 and 2006.

	Years Ended December 31,			
	2007	2006	\$ change	% change
	(Dollars in thousands)			
Other expenses:				
Salaries and employee benefits	\$ 1,701	\$ 3,005	\$ (1,304)	(43.39)%
Directors fees	85	85		
Occupancy	480	462	18	3.90
Deposit insurance premium	21	21		
Legal and professional services	270	263	7	2.66
Data processing	239	252	(13)	(5.16)
Other	538	564	(26)	(4.61)
Total other expenses	\$ 3,334	\$ 4,652	\$ (1,318)	(28.33)%
Efficiency ratio(1)	70.24%	101.81%		

(1) Computed as other expenses divided by the sum of net interest income and other income.

The decrease in other expenses was primarily due to a decrease of \$1.3 million in salaries and employee benefits for the year ended December 31, 2007 as compared to the year ended December 31, 2006 which was due to 2006 contribution of \$1.3 million to the Bank's defined benefit retirement plan in order to reduce current and future obligations of the plan. The decrease in other miscellaneous expenses was primarily due to decreases in supervisory fees and advertising expenses.

Income Taxes. Income tax expense was \$1.3 million for the year ended December 31, 2007, compared to \$237,000 for the same period in 2006. The income tax expense is a direct result of the pre-tax income for the applicable period. During the period ending June 30, 2006, management re-evaluated the Company's deferred tax accounts and, accordingly, adjusted that period's tax expense. The effective tax rates for the years ended December 31, 2007 and 2006 were 37.68% and 20.03%, respectively. The Company utilized all of its federal net operating loss carryover and began paying federal taxes during 2007.

Average Balance Sheet

The following table presents for the periods indicated the total dollar amount of interest income from average interest earning assets and the resultant yields, as well as the interest expense on average interest bearing liabilities, expressed both in dollars and rates. No tax equivalent adjustments were made. All average balances are monthly average balances. Non-accruing loans have been included in the table as loans carrying a zero yield. The amortization of loan fees is included in computing interest income; however, such fees are not material.

LIABILITIES

- (1) Includes unamortized discounts and premiums.
- (2) Amount is net of deferred loan origination (costs) fees, undisbursed loan funds, unamortized discounts and allowance for loan losses and includes non-performing loans. Loan fees included in interest income were \$195,000, \$145,000, and \$107,000, for 2007, 2006 and 2005, respectively.
- (3) Net interest rate spread represents the difference between the yield on average interest-earning assets and the average cost of interest-bearing liabilities.
- (4) Net interest margin represents net interest income divided by average interest-earning assets.

Rate/Volume Analysis

The following table shows the dollar amount of changes in interest income and interest expense for major components of interest-earning assets and interest-bearing liabilities. It distinguishes between the changes related to changes in outstanding balances and those due to the changes in interest rates. For each category of interest-earning assets and interest-bearing liabilities, information is provided on changes attributable to (i) changes in volume (i.e., changes in volume multiplied by old rate) and (ii) changes in rate (i.e., changes in rate multiplied by old volume). For purposes of this table, changes attributable to both rate and volume, which cannot be segregated, have been allocated proportionately to the change due to volume and the change due to rate.

Management of Market Risk

General. The majority of our assets and liabilities are monetary in nature. Consequently, our most significant form of market risk is interest rate risk. Our assets, consisting primarily of residential mortgage loans, have longer maturities than our liabilities, consisting primarily of deposits. As a result, a principal part of our business strategy is to manage interest rate risk and reduce the exposure of our net interest income to changes in market interest rates. Accordingly, our board of directors has established an Asset/Liability Management Committee which is responsible for evaluating the interest rate risk inherent in our assets and liabilities, for determining the level of risk that is appropriate given our business strategy, operating environment, capital, liquidity and performance objectives, and for managing this risk consistent with the guidelines approved by the board of directors. Senior management monitors the level of interest rate risk on a regular basis and the Asset/ Liability Management Committee, which consists of senior management operating under a policy adopted by the board of directors, meets as needed to review our asset/liability policies and interest rate risk position.

We have sought to manage our interest rate risk in order to limit the exposure of our earnings and capital to changes in interest rates. In an attempt to accomplish this, we offer a variety of floating rate loans based on the prime rate and loans that adjust on one-to five-year intervals, based on various indices including the prime rate and U.S. treasury securities. In addition, we have attempted to lengthen the maturities of our deposit accounts by offering proportionately higher interest rates for longer term, 3-5 year certificate accounts and by increasing our core deposits, in which the overall balances are generally less volatile to interest rate fluctuations than certificate accounts.

Net Portfolio Value. The net present value of an institution's cash flow from assets, liabilities and off balance sheet items (the institution's net portfolio value or NPV) would change in the event of a range of assumed changes in market interest rates. The OTS provides institutions an interest rate sensitivity report of net portfolio value. The OTS's simulation model uses a discounted cash flow analysis and an option-based pricing approach to measuring the interest rate sensitivity of net portfolio value. Historically, the model estimated the economic value of each type of asset, liability and off-balance sheet contract under the assumption that the United States Treasury yield curve increases by 100 to 300 basis points, or decreases by 100 to 200 basis points instantaneously in 100 basis point increments. A basis point equals one-hundredth of one percent, and 100 basis points equals one percent. An increase in interest rates from 3% to 4% would mean, for example, a 100 basis point increase in the "Change in Interest Rates" column below.

The tables below set forth, as of the periods indicated, net portfolio value, the estimated changes in our net portfolio value that would result from the designated instantaneous changes in the United States Treasury yield curve.

Change In Interest Rates (Basis Points)	December 31, 2007			Net Portfolio Value As A Percentage Of Present Value Assets	
	Estimated NPV	Amount Of Change	Percent Of Change (Dollars In Thousands)	NPV Ratio	Change In Basis Points
+300	\$ 10,885	\$ (8,522)	-44.00%	5.58%	(381)
+200	14,112	(5,295)	-27.00%	7.08%	(231)
+100	17,021	(2,386)	-12.00%	8.37%	(102)
50	18,292	(115)	-6.00%	8.92%	(47)
0	19,407			9.39%	
-50	20,373	966	5.00%	9.78%	40
-100	21,176	1,769	9.00%	10.10%	72
-200	\$ 22,303	\$ 2,896	15.00%	10.53%	114

Change In Interest Rates (Basis Points)	December 31, 2006			Net Portfolio Value As A Percentage Of Present Value Assets	
	Estimated NPV	Amount Of Change	Percent Of Change (Dollars In Thousands)	NPV Ratio	Change In Basis Points
+300	\$ 7,157	\$ (11,292)	-61.00%	3.76%	(528)
+200	11,101	(7,348)	-40.00%	5.69%	(335)
+100	14,959	(3,490)	-19.00%	7.49%	(155)
0	18,449			9.04%	
-100	21,234	2,785	15.00%	10.22%	118
-200	\$ 23,141	\$ 4,692	25.00%	10.99%	195

The table above indicates that at December 31, 2007, in the event of a 100 basis point decrease in interest rates, we would experience an increase of approximately 9% in net portfolio value. In the event of 200 basis point increase in interest rates, we would experience a decrease of approximately 27% in net portfolio value.

Certain shortcomings are inherent in the methodology used in the above interest rate risk measurement. Modeling changes in net portfolio value requires making certain assumptions that may or may not reflect the manner in which actual yields and costs respond to changes in market interest rates. In this regard, the net portfolio value table presented assumes that the composition of our interest-sensitive assets and liabilities existing at the beginning of a period remains constant over the period being measured and assumes that a particular change in interest rates is reflected uniformly across the yield curve regardless of the duration or re-pricing of specific assets and liabilities. Accordingly, although the net portfolio value table provides an

indication of our interest rate risk exposure at a particular point in time, such measurements are not intended to and do not provide a precise forecast of the effect of changes in market interest rates on our net interest income and will differ from actual results.

Liquidity and Capital Resources

We maintain liquid assets at levels we consider adequate to meet our liquidity needs. Our liquidity ratio averaged 11.6% for the year ended December 31, 2007 compared to 14.1% for the year ended December 31, 2006. We adjust our liquidity levels to fund deposit outflows, pay real estate taxes on mortgage loans, repay our borrowings and to fund loan commitments. We also adjust liquidity as appropriate to meet asset and liability management objectives.

Our primary sources of liquidity are deposits, amortization and prepayment of loans and mortgage-backed securities, maturities of investment securities and other short-term investments, and earnings and funds provided from operations. While scheduled principal repayments on loans and mortgage-backed securities are a relatively predictable source of funds, deposit flows and loan prepayments are greatly influenced by market interest rates, economic conditions, and rates offered by our competition. We set the interest rates on our deposits to maintain a desired level of total deposits. In addition, we invest excess funds in short-term interest-earning assets, which provide liquidity to meet lending requirements.

Our cash flows are derived from operating activities, investing activities and financing activities as reported in our Consolidated Statements of Cash Flows included with the Consolidated Financial Statements.

Our primary investing activities are the origination and purchase of one- to four-family, non-residential real estate and multi-family and other loans, including loans originated for sale, and the purchase of investment securities. For the years ended December 31, 2007 and 2006, our loan originations totaled \$40.1 million and \$35.8 million, respectively. For the years ended December 31, 2007 and 2006, we purchased \$6.8 million and \$17.6 million of loans, respectively. For the years ended December 31, 2007 and 2006, we received \$3.1 million and \$1.7 million, respectively, from the sale of loans, resulting in gains of \$47,000 and \$37,000, respectively. Cash received from the calls, maturities and pay-downs on securities totaled \$17.2 million and \$6.8 million for the years ended December 31, 2007 and 2006, respectively. We purchased \$5.5 million, in securities during each of the years ended December 31, 2007 and 2006. For a more detailed breakdown of our loan activity, see the section entitled *Our Business-Loan Origination, Purchase and Sales*.

Deposit flows are generally affected by the level of interest rates, the interest rates and products offered by local competitors, and other factors. During the years ended December 31, 2007 and 2006, deposits increased \$225,000 and \$18.0 million, respectively.

Liquidity management is both a daily and long-term function of business management. If we require funds beyond our ability to generate them internally, borrowing agreements exist with the Federal Home Loan Bank of Chicago to provide advances. At December 31, 2007 and 2006 we had no advances from the Federal Home Loan Bank of Chicago, but we had an available borrowing limit of \$46.9 million for both years, based on 20% of our capital stock in the FHLB.

At December 31, 2007 we had outstanding commitments to originate loans of \$730,000, unfunded commitments under lines of credit of \$8.3 million, unfunded commitments on construction loans of \$3.3 million, and unfunded standby letters of credit of \$67,000. At December 31, 2007, certificates of deposit scheduled to mature in less than one year totaled \$132.0 million. Based on prior experience, management believes that a significant portion of such deposits will remain with us, although there can be no assurance that this will be the case. In the event a significant portion of our deposits are not retained by us, we will have to utilize other funding sources, such as Federal Home Loan Bank of Chicago advances, in order to maintain our level of assets. Alternatively, we could reduce our level of liquid assets, such as our cash and cash equivalents. In addition, the cost of such deposits may be significantly higher if market interest rates are higher at the time of renewal.

Off-Balance Sheet Arrangements

For the year ended December 31, 2007, the Company did not engage in any off-balance sheet transactions reasonably likely to have a material adverse effect in its financial condition, results of operations or cash-flows.

Recent Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*. This Statement defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. It clarifies that fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the market in which the reporting entity transacts. This Statement does not require any new fair value measurements, but rather, it provides enhanced guidance to other pronouncements that require or permit assets or liabilities to be measured at fair value. In February 2008, the Financial Accounting Standards Board (FASB) issued FASB Staff Position (FSP) No. FAS 157-2, Effective Date of FASB Statement No. 157, to partially defer FASB Statement No. 157, Fair Value Measurements. This FSP defers the effective date of Statement No. 157, for nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually), to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years. All other provisions of this Statement not within the scope of FSP-FAS 157-2 are effective for fiscal years beginning after November 15, 2007. The Company does not expect the adoption of this Statement will have a material impact on its financial position or results of operations and cash flows.

In February 2007, the Financial Accounting Standards Board (FASB) issued FASB Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115*, which provides all entities, including not-for-profit organizations, with an option to report selected financial assets and liabilities at fair value. The objective of the Statement is to improve financial reporting by providing entities with the opportunity to mitigate volatility in earnings caused by measuring related assets and liabilities differently without having to apply the complex provisions of hedge accounting. Certain specified items are eligible for the irrevocable fair value measurement option as established by Statement No. 159. Statement No. 159 is effective as of the beginning of an entity's first fiscal year beginning after November 15, 2007. The Company is currently evaluating the impact that the adoption of this Statement will have on its financial position, results of operation and cash flows.

In December 2007, FASB issued SFAS No. 141(revised), *Business Combinations*. The Statement establishes principles and requirements for how an acquirer recognizes and measures tangible assets acquired, liabilities assumed, goodwill and any noncontrolling interests and identifies related disclosure requirements for business combinations. Measurement requirements will result in all assets, liabilities, contingencies and contingent consideration being recorded at fair value on the acquisition date, with limited exceptions. Acquisition costs and restructuring costs will generally be expensed as incurred. This Statement is effective for the Company for business combinations in which the acquisition date is on or after January 1, 2009. The Company does not expect the adoption of this Statement will have a material impact on its financial position or results of operations and cash flows.

Impact of Inflation and Changing Prices

The financial statements and related notes of Ottawa Savings Bank have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). GAAP generally requires the measurement of financial position and operating results in terms of historical dollars without consideration for changes in the relative purchasing power of money over time due to inflation. The impact of inflation is reflected in the increased cost of our operations. Unlike industrial companies, our assets and liabilities are primarily monetary in nature. As a result, changes in market interest rates have a greater impact on performance than the effects of inflation.

ITEM 7. FINANCIAL STATEMENTS

The information required by this Item 7 is contained on pages F-1 through F-31 of this Form 10-KSB.

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 8A(T). CONTROLS AND PROCEDURES

(a) Disclosure Controls and Procedures

As of the end of the period covered by this report, the Company carried out an evaluation, under the supervision, and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as contemplated by Exchange Act Rule 13a-15. Based upon, and as of the date of that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective, in all material respects, in timely alerting them to material information relating to the Company (and its consolidated subsidiary) required to be included in the periodic reports the Company is required to file and submit to the SEC under the Exchange Act.

(b) Internal Controls Over Financial Reporting

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

The management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting. The internal control process has been designed under our supervision to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the Company's financial statements for external reporting purposes in accordance with accounting principles generally accepted in the United States of America.

Management conducted an assessment of the effectiveness of the Company's internal control over financial reporting as of December 31, 2007, utilizing the framework established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on this assessment, management has determined that the Company's internal control over financial reporting as of December 31, 2007 is effective.

Our internal control over financial reporting includes policies and procedures that pertain to the maintenance of records that accurately and fairly reflect, in reasonable detail, transactions and dispositions of assets; and provide reasonable assurances that: (1) transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States; (2) receipts and expenditures are being made only in accordance with authorizations of management and the directors of the Company; and (3) unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Company's financial statements are prevented or timely detected.

All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this annual report.

(c) Changes to Internal Control Over Financial Reporting

There were no changes in the Company's internal control over financial reporting identified in connection with the evaluation required by Exchange Act Rule 13a-15(d) that occurred during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

ITEM 8B. OTHER INFORMATION

None.

PART III
ITEM 9. DIRECTORS, EXECUTIVE OFFICERS, PROMOTERS, CONTROL PERSONS AND CORPORATE GOVERNANCE; COMPLIANCE WITH SECTION 16(a) OF THE EXCHANGE ACT

The information required in response to this item regarding the Company's directors, executive officers, the audit committee, the audit committee financial expert, the code of ethics and business conduct and compliance with Section 16(a) of the Exchange Act will be contained in the Company's Proxy Statement (the "Proxy Statement") for its Annual Meeting of Stockholders to be held on May 8, 2008 under the captions *Proposal 1 Election of Directors*, *Corporate Governance Meetings and Committees of the Board of Directors*, *Corporate Governance Code of Ethics and Business Conduct*, and *Section 16(a) Beneficial Ownership Reporting Compliance* and the information included therein is incorporated herein by reference.

ITEM 10. EXECUTIVE COMPENSATION

The information required in response to this item will be contained in the Proxy Statement under the captions *Directors Compensation*, and *Executive Compensation* and the information included therein is incorporated herein by reference.

ITEM 11. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

(a) Securities Authorized for Issuance under Equity Compensation Plans.

	Number of Securities to be issued upon Exercise of Outstanding Options, Warrants and Rights (a)	Weighted Average Exercise Price of Outstanding Options, Warrants and Rights (b)	Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans (Excluding securities reflected in column a) (c)
Equity Compensation Plans Approved by Stockholders	92,666	12.35	16,354
Equity Compensation Plans not Approved by Stockholders			
Total	92,666	12.35	16,354

(b) *Stock Ownership*. The information required in response to this item will be contained in the Proxy Statement under the caption *Stock Ownership* and the information included therein is incorporated herein by reference.

ITEM 12. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

The information required in response to this item will be contained in the Proxy Statement under the caption *Proposal 1 Election of Directors* and *Transactions with Related Persons* and the information included therein is incorporated herein by reference.

ITEM 13. EXHIBITS

The exhibits filed as a part of this Form 10-KSB are listed in the Exhibit Index, which is incorporated herein by reference.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

The information required in response to this item will be contained in the Proxy Statement under the caption *Proposal 2 Ratification of Independent Registered Public Accounting Firm* and the information included therein is incorporated herein by reference.

Report of Independent Registered Public Accounting Firm

To the Board of Directors

Ottawa Savings Bancorp, Inc.

Ottawa, Illinois

We have audited the accompanying consolidated balance sheets of Ottawa Savings Bancorp, Inc. and its subsidiary (the Company) as of December 31, 2007 and 2006, and the related consolidated statements of income, stockholders' equity, and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2007 and 2006, and the results of their operations and their cash flows for the years then ended, in conformity with U.S. generally accepted accounting principles.

We were not engaged to examine management's assertion about the effectiveness of the Company's internal control over financial reporting as of December 31, 2007, included in the accompanying management's report on internal control over financial reporting and, accordingly, we do not express an opinion thereon.

Ottawa Savings Bancorp, Inc. & Subsidiary

Notes to Consolidated Financial Statements

Note 1. Summary of Significant Accounting Policies

Principles of consolidation

The accompanying consolidated financial statements include the accounts of Ottawa Savings Bancorp, Inc. (the Company) and its wholly owned subsidiary Ottawa Savings Bank (the Bank). All significant intercompany transactions and balances are eliminated in consolidation.

Nature of business

The primary business of the Company is the ownership of the Bank. Through the Bank, the Company is engaged in providing a variety of financial services to individual and corporate customers in the Ottawa, Illinois area, which is primarily an agricultural area. The Bank's primary source of revenue is single-family residential loans to middle-income individuals.

Use of estimates

In preparing the consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change relate to the market value of securities available for sale, the determination of the allowance for losses on loans and the liability for postretirement benefits.

Concentration of credit risk

Most of the Bank's business activity is with customers within the local Ottawa area. The Bank does not have any significant concentrations to any one industry or customer.

Cash equivalents

For purposes of reporting cash flows, cash and cash equivalents include cash on hand and amounts due from banks, including cash items in process of clearing. Cash flows from loans, deposits, and other borrowings are treated as net increases or decreases in the statement of cash flows.

The Company maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts. The Company believes it is not exposed to any significant credit risk on cash and cash equivalents.

Investment securities

Debt securities that management has the positive intent and ability to hold to maturity are classified as held to maturity and reported at amortized cost. Securities not classified as held to maturity securities are classified as available for sale and recorded at fair value, with unrealized gains and losses excluded from earnings and reported in other comprehensive income (loss). Purchase premiums and discounts are recognized in interest income using the interest method over the terms of the securities.

Declines in the fair value of held-to-maturity and available-for-sale securities below their cost that are deemed to be other-than-temporary are reflected in earnings as realized losses. In estimating other-than-

Ottawa Savings Bancorp, Inc. & Subsidiary

Notes to Consolidated Financial Statements (Continued)

temporary impairment losses, management considers (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, and (3) the intent and ability of the Company to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value. Gains and losses on the sale of securities are recorded on the trade date and are determined using the specific identification method.

Non-marketable equity securities

Investments in the Federal Home Loan Bank, Bankers Bancorp, and the Upper Illinois River Valley Development Corporation are carried at cost, as fair values are not readily determinable.

On April 18, 2006 the Federal Home Loan Bank of Chicago (FHLBC) announced plans to redeem excess (or voluntary) capital stock held by its members. The FHLBC received regulatory approval to redeem approximately \$795 million of stock held by its members in excess of the minimum required as a condition for membership. During the second quarter of 2006, the Company redeemed approximately \$1.2 million of excess stock (the Company's pro rata share). On November 8, 2006, the Federal Housing Finance Board authorized the FHLB's redemption on an additional \$375 million of members' excess (or voluntary) capital stock. The Company's pro rata share of approximately \$500,000 was redeemed during the fourth quarter of 2006.

Loans

The Bank grants mortgage, commercial and consumer loans to customers. A substantial portion of the loan portfolio is represented by mortgage loans throughout Ottawa, Illinois and the surrounding area. The ability of the Bank's debtors to honor their contracts is dependent upon the real estate and general economic conditions in this area.

Loans that management has the intent and ability to hold for the foreseeable future or until maturity or pay-off are generally reported at their outstanding unpaid principal balances adjusted for charge-offs, the allowance for loan losses, and any deferred fees or costs on originated loans. Interest income is accrued on the unpaid principal balance. Loan origination fees, net of certain direct origination costs, are deferred and recognized as an adjustment of the related loan yield over the contractual life of the loan using the interest method.

The accrual of interest on mortgage and commercial loans is discontinued at the time the loan is 90 days past due unless the credit is well-secured and in process of collection. Other personal loans are typically charged off no later than 180 days past their due date. Past due status is based on contractual terms of the loan. In all cases, loans are placed on non-accrual or charged-off at an earlier date if collection of principal or interest is considered doubtful.

All interest accrued but not collected for loans that are placed on non-accrual or charged-off is reversed against interest income. The interest on these loans is accounted for on the cash-basis or cost-recovery method, until qualifying for return to accrual status. Loans are returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured.

Allowance for loan losses

The allowance for loan losses is an amount necessary to absorb known and inherent losses that are both probable and reasonably estimable and is established through a provision for loan losses charged to earnings.

Ottawa Savings Bancorp, Inc. & Subsidiary

Notes to Consolidated Financial Statements (Continued)

Loan losses are charged against the allowance when management believes the uncollectibility of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the allowance. The allowance for loan losses is evaluated on a regular basis by management and is based upon management's periodic review of the collectibility of the loans in light of historical experience, the nature and volume of the loan portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral and prevailing economic conditions. This evaluation is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available.

A loan is considered impaired when, based on current information and events, it is probable that the Bank will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement. Factors considered by management in determining impairment include payment status, collateral value, and the probability of collecting scheduled principal and interest payments when due. Loans that experience insignificant payment delays and payment shortfalls generally are not classified as impaired. Management determines the significance of payment delays and payment shortfalls on a case-by-case basis, taking into consideration all of the circumstances surrounding the loan and the borrower, including the length of the delay, the reasons for the delay, the borrower's prior payment record, and the amount of the shortfall in relation to the principal and interest owed. Impairment is measured on a loan by loan basis for commercial and construction loans by either the present value of expected future cash flows discounted at the loan's effective interest rate, the loan's obtainable market price, or the fair value of the collateral if the loan is collateral dependent.

Large groups of smaller balance homogeneous loans are collectively evaluated for impairment. Accordingly, the Bank does not separately identify individual consumer and residential loans for impairment disclosures, unless such loans are the subject of a restructuring agreement.

Servicing

Servicing assets are recognized as separate assets when rights are acquired through purchase or through sale of financial assets. For sales of mortgage loans, a portion of the cost of originating the loan is allocated to the servicing right based on relative fair value. Fair value is based on market prices for comparable mortgage servicing contracts, when available, or alternatively, is based on a valuation model that calculates the present value of estimated future net servicing income. The valuation model incorporates assumptions that market participants would use in estimating future net servicing income, such as the cost to service, the discount rate, the custodial earnings rate, an inflation rate, ancillary income, prepayment speeds and default rates and losses. Capitalized servicing rights are amortized into non-interest income in proportion to, and over the period of, the estimated future net servicing income of the underlying financial assets.

Servicing assets are evaluated for impairment based upon the fair value of the rights as compared to amortized cost. Impairment is determined by stratifying rights into tranches based on predominant risk characteristics, such as interest rate, loan type and investor type. Impairment is recognized through a valuation allowance for an individual tranche, to the extent that fair value is less than the capitalized amount for the tranche. If the Bank later determines that all or a portion of the impairment no longer exists for a particular tranche, a reduction of the allowance may be recorded as an increase to income.

Servicing fee income is recorded for fees earned for servicing loans. The fees are based on a contractual percentage of the outstanding principal or a fixed amount per loan and are recorded as income when earned. The amortization of mortgage servicing rights is netted against loan servicing fee income.

Ottawa Savings Bancorp, Inc. & Subsidiary
Notes to Consolidated Financial Statements (Continued)***Transfers of financial assets***

Transfers of financial assets are accounted for as sales when control over the assets has been surrendered. Control over transferred assets is deemed to be surrendered when (1) the assets have been isolated from the Company, (2) the transferee obtains the right (free of conditions that constrain it from taking advantage of that right) to pledge or exchange the transferred assets, and (3) the Company does not maintain effective control over the transferred assets through an agreement to repurchase them before their maturity.

Foreclosed real estate

Real estate properties acquired through, or in lieu of, loan foreclosure are initially recorded at fair value at the date of foreclosure, establishing a new cost basis. Subsequent to foreclosure, valuations are periodically performed by management and the assets are carried at the lower of carrying amount or fair value less cost to sell. Revenue and expenses from operations and changes in the valuation allowance are included in other expenses.

Income taxes

Deferred income tax assets and liabilities are computed annually for differences between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to amounts which are more likely than not realizable. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment. Income tax expense is the tax payable or refundable for the period plus or minus the change during the period in deferred tax assets and liabilities.

The Company adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* an interpretation of FASB No. 109 (FIN 48), effective January 1, 2007. No adjustment was recognized for uncertain tax positions. The Company is subject to U.S. Federal income taxes, as well as State of Illinois income taxes. Tax years ending December 31, 2003 through December 31, 2006 remain open to examination by these jurisdictions. The Company recognizes interest and penalties related to tax positions in income tax expense. At December 31, 2007, there was no accrual for uncertain tax positions or related interest.

Premises and equipment

Land is carried at cost. Premises and equipment are carried at cost, less accumulated depreciation. Premises and equipment are depreciated using the straight-line and accelerated depreciation methods over the estimated useful lives of the assets:

	Years
Buildings	5 - 50
Furniture and equipment	5 - 39

Pension plan

The Bank has a pension plan covering substantially all employees. It is the policy of the Bank to fund the maximum amount that can be deducted for federal income tax purposes but in amounts not less than the minimum amounts required by law.

Ottawa Savings Bancorp, Inc. & Subsidiary

Notes to Consolidated Financial Statements (Continued)

Employee stock ownership plan

The Bank has an employee stock ownership plan (ESOP) covering substantially all employees. The cost of shares issued to the ESOP but not yet allocated to participants is presented in the consolidated balance sheet as a reduction of stockholders' equity. Compensation expense is recorded based on the market price of the shares as they are committed to be released for allocation to participant accounts.

Stock-based compensation

Effective November 21, 2006, the Company adopted SFAS No. 123(R), *Share-Based Payment*, which requires the Company to measure all employee stock-based compensation awards using a fair value method and record such expenses in its consolidated financial statements. The Company had no stock-based awards granted prior to adoption of SFAS No. 123(R).

In accordance with the provisions of SFAS 123(R), the Company recognizes compensation cost for all stock-based awards granted on or after November 21, 2006, based on the estimated grant date fair value. The fair value of stock options are estimated using a Black-Scholes option pricing model and amortized to expense over the option's vesting periods, as more fully disclosed in Note 10.

Off-balance-sheet financial instruments

Financial instruments include off-balance-sheet credit instruments, such as commitments to originate loans, issued to meet customer financing needs. The face amount for these items represents the exposure to loss, before considering customer collateral or ability to repay. Such financial instruments are recorded when they are funded.

Comprehensive income (loss)

Comprehensive income (loss) consists of net income and other comprehensive income (loss). Other comprehensive income (loss) includes unrealized gains and losses on securities available for sale, which are also recognized as separate components of stockholders' equity.

Long-term assets

Premises and equipment and other long-term assets are reviewed for impairment when events indicate that their carrying amount may not be recoverable from future undiscounted cash flows. If impaired, the assets are written down to fair value through a charge to earnings.

Loss contingencies

Loss contingencies, including claims and legal actions arising in the ordinary course of business, are recorded as liabilities when the likelihood of loss is probable and an amount or range of loss can be reasonably estimated. Management does not believe there are any such matters that will have a material effect on the consolidated financial statements.

Fair value of financial instruments

Fair values of financial instruments are estimated using relevant market information and other assumptions, as more fully disclosed Note 14. Fair value estimates involve uncertainties and matters of significant judgment

Ottawa Savings Bancorp, Inc. & Subsidiary

Notes to Consolidated Financial Statements (Continued)

regarding interest rates, credit risk, prepayments, and other factors, especially in the absence of broad markets for particular items. Changes in assumptions or in market conditions could significantly affect the estimates.

Earnings per share

Basic earnings per share is based on net income divided by the weighted average number of shares outstanding during the period, including allocated and committed-to-be-released ESOP shares and vested stock awards. Diluted earnings per share show the dilutive effect, if any, of additional common shares issuable under stock options.

	Years ended December 31,	
	2007	2006
Net income available to common stockholders	\$ 2,209,286	\$ 944,457
Basic potential common shares:		
Weighted average shares outstanding	2,224,001	2,224,911
Weighted average unallocated Employee Stock Ownership Plan shares	(63,782)	(68,870)
Weighted average unvested MRP shares	(42,755)	(4,898)
Basic weighted average shares outstanding	2,117,464	2,151,143
Dilutive potential common shares:		
Weighted average unrecognized compensation on MRP shares**		40,093
Weighted average RRP options outstanding**		
Dilutive weighted average shares outstanding	2,117,464	2,191,236
Basic earnings per share	\$ 1.04	\$ 0.44
Diluted earnings per share	\$ 1.04	\$ 0.43

** The effect of share awards and options for 2007, and the effect of options for 2006 were not included in the calculation of diluted earnings per share because to do so would have been anti-dilutive.

Segment reporting

The Company views the Bank as one operating segment, therefore, separate reporting of financial segment information is not considered necessary. The Company approaches the Bank as one business enterprise which operates in a single economic environment since the products and services, types of customers and regulatory environment all have similar characteristics.

Recent accounting pronouncements

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*. This Statement defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. It clarifies that fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the market in which the reporting entity transacts. This Statement does not require any new fair value measurements, but rather, it provides enhanced guidance to other pronouncements that require or permit assets or liabilities to be measured at fair value. In February 2008, the Financial Accounting Standards Board (FASB) issued FASB Staff Position (FSP) No. FAS 157-2, Effective Date of FASB Statement No. 157, to partially defer FASB Statement No. 157, Fair Value Measurements. This FSP defers the effective date of Statement No. 157, for nonfinancial assets and nonfinancial liabilities, except those

Ottawa Savings Bancorp, Inc. & Subsidiary

Notes to Consolidated Financial Statements (Continued)

that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually), to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years. All other provisions of this Statement not within the scope of FSP-FAS 157-2 are effective for fiscal years beginning after November 15, 2007. The Company does not expect the adoption of this Statement will have a material impact on its financial position or results of operations and cash flows.

In February 2007, the Financial Accounting Standards Board (FASB) issued FASB Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115*, which provides all entities, including not-for-profit organizations, with an option to report selected financial assets and liabilities at fair value. The objective of the Statement is to improve financial reporting by providing entities with the opportunity to mitigate volatility in earnings caused by measuring related assets and liabilities differently without having to apply the complex provisions of hedge accounting. Certain specified items are eligible for the irrevocable fair value measurement option as established by Statement No. 159. Statement No. 159 is effective as of the beginning of an entity's first fiscal year beginning after November 15, 2007. The Company is currently evaluating the impact that the adoption of this Statement will have on its financial position, results of operation and cash flows.

In December 2007, FASB issued SFAS No. 141(revised), *Business Combinations*. The Statement establishes principles and requirements for how an acquirer recognizes and measures tangible assets acquired, liabilities assumed, goodwill and any noncontrolling interests and identifies related disclosure requirements for business combinations. Measurement requirements will result in all assets, liabilities, contingencies and contingent consideration being recorded at fair value on the acquisition date, with limited exceptions. Acquisition costs and restructuring costs will generally be expensed as incurred. This Statement is effective for the Company for business combinations in which the acquisition date is on or after January 1, 2009. The Company does not expect the adoption of this Statement will have a material impact on its financial position or results of operations and cash flows.

Reclassification

Certain amounts in the 2006 consolidated financial statements have been reclassified to conform to the 2007 presentation. Such reclassifications have no impact on previously reported net income or stockholders' equity.

Note 2. Restrictions on Cash and Amounts Due from Banks

The Bank is required to maintain average balances on hand with the Federal Reserve Bank. At December 31, 2007 and 2006, these reserve balances amounted to \$25,000 for each year.

Ottawa Savings Bancorp, Inc. & Subsidiary

Notes to Consolidated Financial Statements (Continued)

Note 3. Investment Securities

The amortized cost and fair values of securities, with gross unrealized gains and losses, follows:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
December 31, 2007:				
Held to Maturity				
Mortgage-backed securities	\$ 976,394	\$ 1,848	\$ 16,382	\$ 961,861
Available for Sale				
U.S. agency securities	\$ 5,686,459	\$ 65,806	\$ 140	\$ 5,752,125
Mortgage-backed securities	20,186,032	109,966	213,402	20,082,596
	\$ 25,872,491	\$ 175,772	\$ 213,542	\$ 25,834,721
December 31, 2006:				
Held to Maturity				
Mortgage-backed securities	\$ 1,182,853	\$ 5,196	\$ 16,752	\$ 1,171,297
Available for Sale				
U.S. agency securities	\$ 15,836,227	\$ 10,793	\$ 132,025	\$ 15,714,995
Mortgage-backed securities	21,580,316	15,633	524,696	21,071,253
	\$ 37,416,543	\$ 26,426	\$ 656,721	\$ 36,786,248

At December 31, 2007 and 2006, U.S. agency securities with a carrying value of approximately \$2,860,000 and \$5,585,000, respectively, were pledged to secure public deposits and for other purposes as required or permitted by law.

The amortized cost and fair value at December 31, 2007, by contractual maturity, are shown below. Maturities may differ from contractual maturities in mortgage-backed securities because the mortgages underlying the securities may be called or repaid without any penalties. Therefore, stated maturities of mortgage-backed securities are not disclosed.

	Securities Held to Maturity		Securities Available for Sale	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
Due within one year	\$	\$		
Due after one year through five years			5,191,198	5,252,045
Due after five years through ten years			495,261	500,080
Due after ten years				
Mortgage-backed securities	976,394	961,861	20,186,032	20,082,596
	\$ 976,394	\$ 961,861	\$ 25,872,491	\$ 25,834,721

There were \$7,907 in gross realized gains in 2007 and \$2,507 in gross realized gains in 2006. Gross realized losses amounted to \$8,071 in 2007 and none in 2006. The tax benefit (provision) applicable to these net realized gains and losses amounted to \$56 and \$(852), respectively.

Ottawa Savings Bancorp, Inc. & Subsidiary

Notes to Consolidated Financial Statements (Continued)

Information pertaining to securities with gross unrealized losses at December 31, 2007 and 2006, aggregated by investment category and length of time that individual securities have been in a continuous loss position, follows:

	Less than 12 Months		12 Months or More		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
December 31, 2007						
Securities Available for Sale

	\$ 1,995,440	\$ 4,560	\$ 30,625,842	\$ 652,161	\$ 32,621,282	\$ 656,721
Securities Held to Maturity						
Mortgage-backed securities	\$	\$	\$ 770,929	\$ 16,752	\$ 770,929	\$ 16,752

Management evaluates securities for other-than-temporary impairment at least on a quarterly basis, and more frequently when economic or market concerns warrant such evaluation. Consideration is given to (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, and (3) the intent and ability of the Company to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value.

At December 31, 2007, 38 securities have unrealized losses with aggregate depreciation of 1.76% from the Company's amortized cost basis. These unrealized losses relate principally to interest rates relative to the market. In analyzing an issuer's financial condition, management considers whether the securities are issued by the federal government or its agencies, whether downgrades by bond rating agencies have occurred, and industry analysts' reports. As management has the ability to hold debt securities until maturity, or for the foreseeable future if classified as available for sale, no declines are deemed to be other than temporary.

Ottawa Savings Bancorp, Inc. & Subsidiary

Notes to Consolidated Financial Statements (Continued)

Note 4. Loans

The components of loans are as follows:

	December 31,	
	2007	2006
Mortgage loans:		
Secured by one-to-four family residences	\$ 96,570,717	\$ 87,468,579
Multi-family	5,541,828	8,062,931
Construction	8,138,616	7,767,308
Home equity lines of credit	7,930,973	7,639,784
	118,182,134	110,938,602
Less:		
Undisbursed portion of construction and other mortgage loans	(2,171,456)	(3,895,157)
Total mortgage loans	116,010,678	107,043,445
Other loans:		
Non-residential real estate	27,748,261	22,071,552
Non-residential lines of credit	825,188	535,616
Commercial	2,600,639	888,337
Commercial lines of credit	875,903	421,130
Consumer loans	11,404,193	12,011,733
	43,454,184	35,928,368
Less:		
Undisbursed portion of non-residential and commercial loans	(1,090,957)	
Total other loans	42,363,227	35,928,368
Less: Allowance for loan losses	(605,450)	(419,685)
Less: Deferred loan (fees)	(66,195)	(15,313)
Loans, net	\$ 157,702,260	\$ 142,536,815

Activity in the allowance for loan losses is summarized as follows for the year ended December 31:

	Years Ended December 31,	
	2007	2006
Balance at beginning of year	\$ 419,685	\$ 390,994
Provision credited to income	(2,132,100)	(1,263,478)
Loans charged off	(55,597)	(41,862)
Recoveries of loans previously charged off	2,373,462	1,334,031
Balance at end of year	\$ 605,450	\$ 419,685

Ottawa Savings Bancorp, Inc. & Subsidiary

Notes to Consolidated Financial Statements (Continued)

The allowance for loan losses is evaluated on a regular basis by management and is based upon management's periodic review of the collectibility of the loans in light of historical experience, the nature and volume of the loan portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral and prevailing economic conditions. Based on their review and as a result of the recoveries of prior losses on CLC loans received, the allowance account was reduced by \$2,132,100 and \$1,263,478 during 2007 and 2006. Management believes that the allowance for loan loss is maintained at a level to sufficiently off-set possible loan losses.

The following is a summary of information pertaining to impaired and non-accrual loans:

	December 31,	
	2007	2006
Impaired loans without a valuation allowance	\$ 53,787	\$ 7,134
Impaired loans with a valuation allowance		
Total impaired loans	\$ 53,787	\$ 7,134
Valuation allowance related to impaired loans	\$	\$
Total non-accrual loans	\$ 2,551,092	\$ 1,069,954
Total loans past due ninety days or more and still accruing	\$ 352,923	\$ 44,859
	December 31,	
	2007	2006
Average investment in impaired loans	\$ 10,494	\$ 10,873
Interest income recognized on impaired loans	\$	\$
Interest income recognized on a cash basis on impaired loans	\$	\$

No additional funds are committed to be advanced in connection with impaired loans.

The Bank has had, and may be expected to have in the future, banking transactions in the ordinary course of business with directors, principal officers, their immediate families and companies in which these parties have a 10% or more beneficial ownership. In the opinion of management, these loans are made with substantially the same terms, including interest rate and collateral; as those prevailing for comparable transactions with other customers and do not involve more than the normal risk of collectibility.

Note 5. Servicing

Loans serviced for others are not included in the accompanying consolidated balance sheets. The unpaid principal balances of mortgage and other loans serviced for others were \$15,769,178 and \$15,501,476 at December 31, 2007 and 2006, respectively.

The fair values of these servicing rights were \$104,077 and \$102,155 at December 31, 2007 and 2006, respectively. The fair value of servicing rights was determined using discount rates, prepayment speeds, depending upon the stratification of the specific right, and a weighted average default rate.

Ottawa Savings Bancorp, Inc. & Subsidiary

Notes to Consolidated Financial Statements (Continued)

Note 6. Accrued Interest Receivable

Accrued interest receivable at December 31, 2007 and 2006, are summarized as follows:

	2007	2006
U.S. agency securities	\$ 70,077	\$ 159,725
Mortgage-backed securities	86,009	89,910
Loans	899,242	697,978
	\$ 1,055,328	\$ 947,613

Note 7. Premises and Equipment

Premises and equipment at December 31, 2007 and 2006, are summarized as follows:

	2007	2006
Cost:		
Land	\$ 1,966,899	\$ 1,966,898
Buildings	6,681,721	6,558,937
Furniture and equipment	1,480,210	1,447,080
	10,128,830	9,972,915
Less: Accumulated depreciation	2,373,546	2,106,645
	\$ 7,755,284	\$ 7,866,270

Note 8. Deposits

Deposits at December 31, 2007 and 2006, are summarized as follows:

	2007		2006	
	Amount	Percent	Amount	Percent
Non-interest bearing checking	\$ 2,626,967	1.44%	\$ 2,460,289	1.35%
Interest bearing checking	9,460,205	5.17%	8,678,466	4.75%
Money market	7,857,370	4.29%	8,443,182	4.62%
Passbook savings	11,084,213	6.05%	10,593,266	5.79%
Certificates of deposit	152,052,864	83.05%	152,681,553	83.49%
Interest bearing	180,454,652	98.56%	180,396,467	98.65%
Total	\$ 183,081,619	100.00%	\$ 182,856,756	100.00%

Ottawa Savings Bancorp, Inc. & Subsidiary

Notes to Consolidated Financial Statements (Continued)

Interest expense on deposits for the years ended December 31, 2007 and 2006, is summarized as follows:

	2007	2006
Money market	\$ 204,563	\$ 221,807
Passbook savings	55,794	59,238
Certificates of deposit	7,380,527	5,697,996
Checking	55,067	55,088
	\$ 7,695,951	\$ 6,034,129

Deposits from directors, principal officers, and their immediate families at December 31, 2007 and 2006, were \$1,137,443 and \$929,044, respectively.

The aggregate amount of public deposits at December 31, 2007 and 2006, were \$8,134,311 and \$7,490,188, respectively.

The aggregate amount of jumbo certificates of deposit within a minimum denomination of \$100,000 was approximately \$39,037,000 and \$39,858,000 at December 31, 2007 and 2006, respectively. Individual deposits in excess of \$100,000 are not insured by the FDIC.

At December 31, 2007, scheduled maturities of certificates of deposit are as follows:

2008	\$ 132,033,888
2009	14,206,812
2010	1,397,889
2011	850,440
2012	3,563,835
	\$ 152,052,864

The Bank held brokered deposits of approximately \$21,276,000 and \$15,527,000 at December 31, 2007 and 2006, respectively. The broker receives a fee from the Bank for the brokered deposits. Total fee expense of \$11,859 and \$20,270 were recognized for the years ended December 31, 2007 and 2006, respectively.

Note 9. Employment Benefit and Retirement Plans

Employee stock ownership plan

On May 6, 2005, the Company adopted an employee stock ownership plan (ESOP) for the benefit of substantially all employees. The ESOP borrowed \$763,140 from the Company and used those funds to acquire 76,314 shares of the Company's stock in the initial public offering at a price of \$10.00 per share.

Shares purchased by the ESOP with the loan proceeds are held in a suspense account and are allocated to ESOP participants on a pro rata basis as principal and interest payments are made by the ESOP to the Company. The loan is secured by shares purchased with the loan proceeds and will be repaid by the ESOP with funds from the Company's discretionary contributions to the ESOP and earnings on the ESOP assets. Annual principal and interest payments of approximately \$77,000 are to be made by the ESOP.

Edgar Filing: Ottawa Savings Bancorp, Inc. - Form 10KSB

As shares are released from collateral, the Company will report compensation expense equal to the current market price of the shares, and the shares will become outstanding for earnings-per-share (EPS) computations.

F-19

Ottawa Savings Bancorp, Inc. & Subsidiary

Notes to Consolidated Financial Statements (Continued)

Dividends on allocated ESOP shares reduce retained earnings; dividends on unallocated ESOP shares reduce accrued interest. During 2007, 5,087 shares, with an average fair value of \$12.15 per share were committed to be released, resulting in ESOP compensation expense of \$61,814, as compared to 5,088 shares, with an average fair value of \$11.75 per share, resulting in ESOP compensation expense of \$59,779 for 2006.

A terminated participant or the beneficiary of a deceased participant who received a distribution of employer stock from the ESOP has the right to require the Company to purchase such shares at their fair market value any time within 60 days of the distribution date. If this right is not exercised, an additional 60 day exercise period is available in the year following the year in which the distribution is made and begins after a new valuation of the stock has been determined and communicated to the participant or beneficiary. At December 31, 2007 and 2006, respectively, 15,263 shares at a fair value of \$11.25, and 10,176 shares at a fair value of \$12.61, have been classified as mezzanine capital.

	December 31,	
	2007	2006
Shares allocated	15,263	10,176
Unallocated shares	61,051	66,138
Total ESOP shares	76,314	76,314
Fair value of unallocated shares	\$ 686,824	\$ 834,000

Defined benefit retirement plan

The Bank has a qualified defined-benefit retirement plan covering substantially all of its employees with the Financial Institutions Retirement Fund. The Financial Institutions Retirement Fund is a tax-qualified pension trust covering multiple participating employers, employee-members and retirees and beneficiaries. Expenses of \$124,850 and \$1,695,825 were recorded for the years ended December 31, 2007 and 2006, respectively, of which \$1,297,000 during 2006 related to the anticipated freezing of the plan.

Governmental regulations impose certain requirements relative to multi-employer plans. In the event of plan termination or employer withdrawal, an employer may be liable for a portion of the plan's unfunded vested benefits. The Bank has not received information from the plan's administrators to determine its share of unfunded vested benefits, however management has accrued \$240,000 in anticipation of additional funding requirements. On February 23, 2007, the Board of Directors of Ottawa Savings Bank approved the freezing of the Bank's defined benefit pension plan (the Plan), effective April 1, 2007. The Plan provides benefits to eligible employees based on a participant's years of benefit service and a participant's highest five consecutive years of compensation. Effective with the freeze, each active participant's pension benefit will be determined based on a participant's compensation and period of employment as of March 31, 2007. Compensation and employment after that date will not be taken into account.

Supplemental executive retirement plan (SERP)

On September 19, 2007, the Bank entered into salary continuation agreements with its executive officers to provide additional retirement benefits upon retirement. The present value of the estimated liability under the agreement is being accrued using a discount rate of 6 percent ratably over the remaining years to the date when the executive is first eligible for benefits. The SERP compensation charged to expense totaled \$84,300 for the year ended December 31, 2007.

Ottawa Savings Bancorp, Inc. & Subsidiary

Notes to Consolidated Financial Statements (Continued)

401(k) plan

The Bank maintains a voluntary 401(k) plan for substantially all employees. Employees may contribute a percentage of their compensation subject to certain limits based on federal tax laws. In conjunction with the freeze of the Defined Benefit Plan, the Bank increased its matching contributions in the current 401(k) plan from 50 percent of the first 5 percent to 50 percent of the first 6 percent of an employee's compensation contributed to the plan. During April 2007, the Bank also began to make discretionary contributions, in addition to any matching contributions, equal to 3 percent of an eligible employee's compensation to the 401(k) plan each pay period. Additionally, the Bank increased the maximum amount of voluntary deferrals allowed under the 401(k) plan from 15 percent to 75 percent of an employee's salary, subject to all applicable federal tax laws and plan limits. Matching contributions vest to the employee equally over a five-year period. Matching expense was \$47,158 for 2007 and \$26,568 for 2006.

Deferred compensation

The Bank has deferred compensation agreements with certain directors. Contributions to the plan for the years ended December 31, 2007 and 2006 were \$83,892 and \$92,483, respectively. The deferred compensation liability included on the balance sheet in other liabilities was \$874,696 and \$846,135 as of December 31, 2007 and 2006, respectively.

Post-retirement health benefit plan

The Bank has a contributory post-retirement health benefit plan for officers. The accounting for the health care plan anticipates future cost-sharing changes that are consistent with the Bank's expressed intent to increase retiree contributions.

Post-retirement health benefits valuation:

	December 31,	
	2007	2006
Number of participants:		
Retirees	4	4
Active employees fully eligible	1	1
Active employees not yet eligible	4	4

Notes to Consolidated Financial Statements (Continued)

Note 10. Stock Compensation*Management recognition plan*

Management Recognition and Retention Plan (MRP) provides for the issuance of shares to directors and officers. Pursuant to the Ottawa Savings Bancorp, Inc. 2006 Equity Incentive Plan, the Company purchased 43,608 shares and granted 37,065 shares of restricted stock on November 21, 2006. The shares were purchased by the Company at an average cost of \$13.46 per share. These shares vest in equal installments over a five year period, with ownership of the shares transferring to the recipient upon vesting. The unamortized cost of shares not yet vested of \$479,982 and \$579,449 at December 31, 2007 and 2006, respectively, are reported as reductions of stockholders' equity.

A summary of the status of the MRP stock awards is as follows:

	Shares	Weighted Average Grant Date Fair Value
Restricted Stock Awards at December 31, 2007		
Outstanding and non-vested at beginning of year	37,065	\$ 13.46
Granted		
Vested and transferred to recipients	(7,411)	13.46
Forfeited		
Outstanding and non-vested at end of year	29,654	\$ 13.46
Restricted Stock Awards at December 31, 2006		
Outstanding and non-vested at beginning of year		\$
Granted	37,065	13.46
Vested and transferred to recipients		
Forfeited		
Outstanding and non-vested at end of year	37,065	\$ 13.46

The total compensation cost at December 31, 2007, related to non-vested shares not yet recognized was approximately \$390,000 with an average expense recognition period of 2.5 years. The Company recognized compensation expense of approximately \$99,500 and \$7,600, and a deferred tax asset of approximately \$7,900 and \$600 for the years ended December 31, 2007 and 2006, respectively. At December 31, 2007, 29,654 shares remain non-vested and are expected to be exercisable in accordance with their original terms.

Stock option plan

A Recognition and Retention Plan (RRP) provides for the issuance of stock options to directors, officers, and employees. Pursuant to the Ottawa Savings Bancorp, Inc. 2006 Equity Incentive Plan, on November 21, 2006, the Company granted stock options to purchase 92,666 shares of the Company's common stock, at an exercise price of \$12.35 per share on November 21, 2006. The options become exercisable in equal installments over a five year period from the grant date. The options expire ten years from the grant date.

Ottawa Savings Bancorp, Inc. & Subsidiary

Notes to Consolidated Financial Statements (Continued)

The fair value of the stock options granted has been estimated using a Black-Scholes option pricing model. This option pricing model requires management to make subjective assumptions, such as expected stock price volatility, dividend rates, and expected time to exercise. The fair value of the options granted on November 21, 2006, was estimated at the grant date using the Black-Scholes model and the following assumptions:

Black-Scholes assumptions	
Dividend rate	0.40%
Risk-free interest rate	4.58%
Expected time to exercise	7 years
Volatility	10.87%

A summary of the outstanding status of the RRP stock options is as follows:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Stock Options at December 31, 2007				
Outstanding at beginning of year	92,666	\$ 12.35	9.92 years	\$ 24,093
Granted				
Exercised				
Forfeited				
Outstanding at end of year	92,666	\$ 12.35	8.90 years	\$ (101,933)
Exercisable at year end	18,531		8.90 years	\$ (20,384)

Edgar Filing: Ottawa Savings Bancorp, Inc. - Form 10KSB

		Exercise Price
Non-vested at beginning of year	92,666	\$ 12.35
Granted		
Vested	(18,531)	12.35
Forfeited		
Non-vested at end of year	74,135	\$ 12.35

F-25

Ottawa Savings Bancorp, Inc. & Subsidiary

Notes to Consolidated Financial Statements (Continued)

The total compensation cost at December 31, 2007, related to non-vested options not yet recognized was approximately \$234,000 with an average expense recognition period of 2.5 years. The Company recognized compensation expense of approximately \$60,000 and \$5,000, and a deferred tax asset of approximately \$4,800 and \$400 for the years ended December 31, 2007 and 2006, respectively.

Note 11. Income Taxes

The Company and Bank file consolidated federal income tax returns on a calendar year basis.

Income tax expense is summarized as follows:

	Years Ended December 31,	
	2007	2006
Federal:		
Current	\$ 1,043,405	\$ 17,665
Deferred	135,652	218,840
	1,179,057	236,505
State:		
Current		20,827
Deferred	156,745	(20,827)
	156,745	
	\$ 1,335,802	\$ 236,505

The Company's income tax expense differed from the maximum statutory federal rate of 35% for the years ended December 31, 2007 and 2006, as follows:

	Years Ended December 31,	
	2007	2006
Expected income taxes	\$ 1,240,781	\$ 413,337
Income tax effect of:		
Tax exempt interest		(2,402)
State taxes, net of federal tax benefit	101,884	
Income taxed at lower rates	(35,451)	(11,810)
Other	28,588	(162,620)
	\$ 1,335,802	\$ 236,505

The components of the net deferred tax asset are as follows:

December 31,	
2007	2006

Edgar Filing: Ottawa Savings Bancorp, Inc. - Form 10KSB

Deferred tax assets:		
Allowance for loan losses	\$ 235,096	\$ 162,964
Net operating loss carryforwards	70,326	574,026
Net unrealized loss on securities available for sale	12,842	214,300
Employee benefit plans	628,790	539,535
Other	85,744	35,828
Deferred tax asset	\$ 1,032,798	\$ 1,526,653

F-26

Ottawa Savings Bancorp, Inc. & Subsidiary

Notes to Consolidated Financial Statements (Continued)

Retained earnings at December 31, 2007 include approximately \$1,169,000 for which no federal income tax liability has been recognized. This amount represents an allocation of income to bad debt deductions for tax purposes only. Reductions of amounts so allocated for purposes other than bad debt losses or adjustments arising from carryback of net operating losses would create income for tax purposes only, which would be subject to the then current corporate income tax rate. The unrecorded deferred income tax liability on the above amount was approximately \$453,000 at December 31, 2007.

Illinois net operating loss carryforwards of approximately \$1,460,000 as of December 31, 2007, which expire in 2015 and 2016, are available to offset future state taxable income.

Note 12. Regulatory Matters

The Bank is subject to various regulatory capital requirements administered by the federal and state banking agencies. Failure to meet the minimum regulatory capital requirements can initiate certain mandatory, and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Bank and the consolidated financial statements. Under the regulatory capital adequacy guidelines and the regulatory framework for prompt corrective action, the Bank must meet specific capital guidelines involving quantitative measures of the Bank's assets, liabilities, and certain off-balance-sheet items as calculated under regulatory accounting practices. The Bank's capital amounts and classification under the prompt corrective action guidelines are also subject to qualitative judgments by the regulators about components, risk weightings, and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Bank to maintain minimum amounts and ratios of total risk-based capital and Tier 1 capital to risk-weighted assets (as defined in the regulations), Tier 1 capital to adjusted total assets (as defined), and tangible capital to adjusted total assets (as defined). Management believes that as of December 31, 2007 and 2006, the Bank meets all capital adequacy requirements to which it is subject.

To be categorized as adequately capitalized, the Bank must maintain minimum total risk-based, Tier 1 risk-based, and Tier 1 leverage ratios as disclosed in the table below. There are no conditions or events that management believes have occurred that would change the Bank's capitalization classification.

	Actual		For Capital Adequacy Purposes:		To Be Well Capitalized Under Prompt Corrective Action Provisions:	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
December 31, 2007:						
Total Risk-Based Capital (to Risk Weighted Assets)	\$ 21,310,997	17.15%	\$ 9,940,561	8.00%	\$ 12,425,701	10.00%

Tangible Capital (to Adjusted Total Assets)	\$ 17,575,144	8.59%	\$ 3,067,725	1.50%	N/A	N/A

Ottawa Savings Bancorp, Inc. & Subsidiary

Notes to Consolidated Financial Statements (Continued)

Note 13. Commitments and Contingencies

In the ordinary course of business, the Bank has various commitments and contingent liabilities that are not reflected in the accompanying consolidated financial statements. In the opinion of management, the ultimate disposition of these matters is not expected to have a material adverse affect on the financial position of the Bank.

The Company's mutual holding company waived its share of dividends declared by the Company amounting to \$244,740 for each of the years ended December 31, 2007 and 2006, respectively.

The Bank is a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers and to reduce its own exposure to fluctuations in interest rates. These financial instruments include commitments to extend credit. This instrument involves elements of credit and interest-rate risk in excess of the amount recognized in the statement of financial condition.

At December 31, 2007 and 2006, the following financial instruments were outstanding whose contract amounts represent credit risk:

	Variable rate	Fixed rate	Total	Range of rates on fixed rate commitments
As of December 31, 2007:				
Commitments to originate loans	\$ 210,700	\$ 518,984	\$ 729,684	7.25%-8.50%
Unfunded commitments on construction loans	2,866,963	395,450	3,262,413	6.875%-7.25%
Unfunded commitments under lines of credit	8,255,429		8,255,429	
	11,333,092	914,434	12,247,526	
Standby letters of credit	67,063		67,063	
	\$ 11,400,155	\$ 914,434	\$ 12,314,589	
As of December 31, 2006:				
Commitments to originate loans	\$ 2,708,996	\$ 420,523	\$ 3,129,519	6.75%-8.00%
Unfunded commitments on construction loans	2,845,525	1,049,632	3,895,157	6.25%-7.25%
Unfunded commitments under lines of credit	9,120,052		9,120,052	
	14,674,573	1,470,155	16,144,728	
Standby letters of credit	1,809,260	29,600	1,838,860	7.00%-7.25%
	\$ 16,483,833	\$ 1,499,755	\$ 17,983,588	

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. The commitments for equity lines of credit may expire without being drawn upon. Therefore, the total commitment amounts do not necessarily represent future cash requirements. The amount of collateral obtained, if it is deemed necessary by the Bank is based on management's credit evaluation of the customer.

Unfunded commitments under commercial lines-of-credit, revolving credit lines and overdraft protection agreements are commitments for possible future extensions of credit to existing customers. These lines-of-credit

Ottawa Savings Bancorp, Inc. & Subsidiary

Notes to Consolidated Financial Statements (Continued)

are uncollateralized and usually do not contain a specified maturity date and may not be drawn upon to the total extent to which the Bank is committed.

The Company does not engage in the use of interest rate swaps or futures, forwards or option contracts.

Note 14. Fair Values of Financial Instruments

Statement of Financial Accounting Standards No. 107, *Disclosures about Fair Value of Financial Instruments*, requires disclosure of fair value information about financial instruments, whether or not recognized in the statement of financial condition. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. In that regard, the derived fair value estimates cannot be substantiated by comparison to independent markets and, in many cases, could not be realized in immediate settlement of the instruments. Statement No. 107 excludes certain financial instruments and all non-financial instruments from its disclosure requirements. Accordingly, the aggregate fair value amounts presented do not represent the underlying value of the Bank.

The following methods and assumptions were used by the Bank in estimating its fair value disclosures for financial instruments:

Cash and Cash Equivalents: The carrying amounts reported in the balance sheets for cash and cash equivalents approximate fair values.

Securities: Fair values for securities are based on quoted market prices, where available. If quoted market prices are not available, fair values are based on quoted market prices of comparable instruments. The carrying value of Federal Home Loan Bank stock approximates fair value based on the redemption provisions of the Federal Home Loan Bank.

Loans: For variable-rate loans that reprice frequently and with no significant change in credit risk, fair values are based on carrying amounts. The fair values for other loans (for example, fixed rate commercial real estate and rental property mortgage loans and commercial and industrial loans) are estimated using discounted cash flow analysis, based on interest rates currently being offered for loans with similar terms to borrowers of similar credit quality. Loan fair value estimates include judgments regarding future expected loss experience and risk characteristics. Fair values for impaired loans are estimated using discounted cash flow analysis or underlying collateral values, where applicable.

Deposits: The fair values disclosed for demand deposits are, by definition, equal to the amount payable on demand at the reporting date (that is, their carrying amounts). The carrying amounts of variable-rate, fixed-term money market accounts and certificates of deposit approximate their fair values. Fair values for fixed-rate certificates of deposit are estimated using a discounted cash flow calculation that applies interest rates currently offered on certificates to a schedule of aggregated expected monthly maturities on time deposits.

Accrued Interest Receivable and Payable: The carrying amounts of accrued interest receivable and payable approximate fair values.

Mortgage Servicing Rights: The carrying amounts of these rights approximate their fair values.

Loan Commitments: Commitments to extend credit were evaluated and fair value was estimated using the fees currently charged to enter into similar agreements, taking into account the remaining terms of the

Ottawa Savings Bancorp, Inc. & Subsidiary

Notes to Consolidated Financial Statements (Continued)

agreements and the present creditworthiness of the counter-parties. For fixed-rate loan commitments, fair value also considers the difference between current levels of interest rates and the committed rates. The Bank does not charge fees to enter into these agreements. As of December 31, 2007 and 2006, these items are immaterial in nature.

The estimated fair values of the Bank's financial instruments are as follows:

	December 31, 2007		December 31, 2006	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial Assets:				
Cash and cash equivalents	\$ 7,585,237	\$ 7,585,237	\$ 10,414,312	\$ 10,414,312
Securities	29,346,067	29,331,534	40,366,083	40,354,527
Accrued interest receivable	1,055,328	1,055,328	947,613	947,613
Loans	157,702,260	157,499,000	142,536,815	141,103,000
Mortgage servicing rights	104,077	104,077	102,155	102,155
Financial Liabilities:				
Deposits	183,081,619	184,319,000	182,856,756	182,300,000
Accrued interest payable	132,746	132,746	138,630	138,630

In addition, other assets and liabilities of the Bank that are not defined as financial instruments are not included in the above disclosures, such as property and equipment. Also, non-financial instruments typically not recognized in financial statements nevertheless may have value but are not included in the above disclosures. These include, among other items, the estimated earnings power of core deposit accounts, the trained work force, customer goodwill and similar items.
