Item 2 (d). Title of Class of Securities

The title of the securities is common stock, par value \$0.0001 per share (the Common Stock).

Item 2 (e). CUSIP Number

The CUSIP number of the Common Stock is 982569105.

Item 3. If this statement is filed pursuant to §§ 240.13d-1(b) or 240.13d-2(b) or (c), check whether the person filing is a:

- (a) .. Broker or dealer registered under section 15 of the Act (15 U.S.C. 78o).
- (b) .. Bank as defined in section 3(a)(6) of the Act (15 U.S.C. 78c).
- (c) .. Insurance company as defined in section 3(a)(19) of the Act (15 U.S.C. 78c).
- (d) .. Investment company registered under section 8 of the Investment Company Act of 1940 (15 U.S.C. 80a-8).
- (e) .. An investment adviser in accordance with § 240.13d-1(b)(1)(ii)(E);
- (f) .. An employee benefit plan or endowment fund in accordance with § 240.13d-1(b)(1)(ii)(F);
- (g) .. A parent holding company or control person in accordance with § 240.13d-1(b)(1)(ii)(G);

- (j) .. Group, in accordance with § 240.13d-1(b)(1)(ii)(J).

Item 4. Ownership.

(a) Amount beneficially owned:

QVT Fund LP (the Fund), beneficially owns 128,755 shares of Common Stock. The Fund also owns (a) shares of the Issuer's Series A Preferred Stock (the Preferred Stock), which are convertible into 1,158,799 shares of Common Stock, (b) Series A Warrants, which entitle the Fund to purchase 772,532 shares of Common Stock, (c) Series B Warrants, which entitle the Fund to purchase 772,532 shares of Common Stock, and (d) Series J Warrants, which entitle the Fund to purchase 1,287,554 shares of Common Stock (the Series A, B and J Warrants are referred to collectively as the Warrants). The Preferred Stock and the Warrants contain an issuance limitation prohibiting the holder of such Preferred Stock and Warrants from converting the Preferred Stock or exercising the Warrants to the extent that such conversion or exercise would result in beneficial ownership by such holder of more than 9.9% of the Common Stock then issued and outstanding.

QVT Financial LP (QVT Financial) is the investment manager for the Fund, which, due to the issuance limitation described above, beneficially owns 2,389,584 shares of Common Stock, consisting of the 128,755 shares of Common Stock and 2,260,829 shares of Common Stock issuable upon conversion of the Preferred Stock and exercise of the Warrants. Accordingly, taking into account the issuance limitation, QVT Financial may be deemed to be the beneficial owner of an aggregate amount of 2,389,584 shares of Common Stock, consisting of the shares owned by the Fund and the shares underlying the Preferred Stock and Warrants owned by the Fund.

The aggregate number of shares of which the Fund and QVT Financial would be deemed to be the beneficial owner if the Fund fully converted all of the Preferred Stock and exercised all of the Warrants is 4,120,172. Due to the issuance limitation, the Preferred Stock and Warrants held by the Fund are currently exercisable for 2,260,829 shares of Common Stock, and the number of shares of Common Stock of which QVT Financial may currently be deemed to be the beneficial owner is 2,389,584. The remaining shares of Common Stock underlying the Preferred Stock and the Warrants may not be issued unless the Fund provides notice to the Issuer 61 days prior to conversion of the Preferred Stock or the exercise of the Warrants that this limitation will not apply.

QVT Financial GP LLC, as General Partner of QVT Financial, may be deemed to beneficially own the same number of shares of Common Stock reported by QVT Financial. QVT Associates GP LLC, as General Partner of the Fund, may be deemed to beneficially own the aggregate number of shares of Common Stock owned by the Fund.

Each of QVT Financial and QVT Financial GP LLC disclaims beneficial ownership of the shares of Common Stock owned by the Fund. QVT Associates GP LLC disclaims beneficial ownership of all shares of Common Stock owned by the Fund, except to the extent of its pecuniary interest therein.

The percentage disclosed in Item 11 of the Cover Pages for each reporting person is calculated based upon the sum of (i) 21,876,390 shares of Common Stock outstanding, which is the total number of shares issued and outstanding as reported in the Issuer's Quarterly Report on Form 10-Q for the quarter ended March 31, 2008, and (ii) the number of shares of Common Stock issuable upon conversion of the Preferred Stock and exercise of the Warrants held by such reporting person.

(b) Percent of class:

See Item 11 of the Cover Pages to this Schedule 13G.

- (c) Number of shares as to which the person has:
- (i) Sole power to vote or to direct the vote
0
 - (ii) Shared power to vote or to direct the vote
See item (a) above.
 - (iii) Sole power to dispose or to direct the disposition of
0
 - (iv) Shared power to dispose or to direct the disposition of
See item (a) above.

ARROW RESOURCES DEVELOPMENT, INC. AND SUBSIDIARIES

(A DEVELOPMENT STAGE COMPANY)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - NATURE OF BUSINESS / ORGANIZATION

Business Description

Arrow Resources Development, Inc. and Subsidiaries (“the Company”), was subject to a change of control transaction that was accounted for as a recapitalization of CNE Group, Inc. (“CNE”) in November 2005. Arrow Resources Development, Ltd., (“Arrow Ltd.”) the Company's wholly-owned subsidiary, was incorporated in Bermuda in May 2005. Arrow Ltd. provides marketing and distribution services for natural resource.

In April of 2006, Arrow Ltd. entered into an agency agreement with Arrow Pacific Resources Group Limited (“APR”) that provides marketing and distribution services for timber resource products and currently has an exclusive marketing and sales agreement with APR to market lumber and related products from land leased by GMPLH which is operated by APR and its subsidiaries, located in Indonesia. Under the agreement Arrow Ltd. will receive a commission of 10% of gross sales derived from lumber and related products. The consideration to be paid to APR will be in the form of a to-be-determined amount of the Company's common stock, subject to the approval of the Board of Directors.

As of December 31, 2005, the Company also had a wholly-owned subsidiary, Career Engine, Inc. (“Career Engine”) for which operations were discontinued prior to the recapitalization transaction. The net assets of Career Engine had no value as of December 31, 2005.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

Interim Financial Statements

In the opinion of management, the accompanying consolidated financial statements reflect all adjustments (consisting of normal recurring accruals) necessary to present fairly the Company's financial position as of March 31, 2012 and the results of its operations, changes in stockholders' (deficit) equity, and cash flows for the three month periods ended March 31, 2012 and 2011, respectively and for the period from the commencement of the development stage (November 15, 2005) to March 31, 2012. Although management believes that the disclosures in these consolidated financial statements are adequate to make the information presented not misleading, certain information and footnote disclosures normally included in financial statements that have been prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to the rules and regulations of the Securities Exchange Commission.

The results of operations for the three months ended March 31, 2012 are not necessarily indicative of the results that may be expected for the full year ending December 31, 2012. The accompanying consolidated financial statements should be read in conjunction with the more detailed consolidated financial statements, and the related footnotes thereto, filed with the Company's Amended Annual Report on Form 10K for the year ended December 31, 2011 filed on April 16, 2012.

Going-Concern Status

These consolidated financial statements are presented on the basis that the Company is a going concern. Going concern contemplates the realization of assets and the satisfaction of liabilities in the normal course of business over a reasonable period of time.

As shown in the accompanying consolidated financial statements, the Company incurred a net loss of \$2,013,183 for the three months ended March 31, 2012 and a net loss during the development stage from inception (November 15, 2005) through March 31, 2012 of \$166,441,274. The Company's operations are in the development stage, and the Company has not substantially generated any material revenue since inception. The Company's existence in the current period has been dependent upon advances from related parties and other individuals, and proceeds from the issuance of senior notes payable.

ARROW RESOURCES DEVELOPMENT, INC. AND SUBSIDIARIES

(A DEVELOPMENT STAGE COMPANY)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

BASIS OF PRESENTATION CONTINUED

Going-Concern Status continued

One of the principal reasons for the Company's substantial doubt regarding its ability to continue as a going concern involves the fact that as of December 31, 2007, the Company's principal asset, a marketing and distribution intangible asset in the amount of \$125,000,000 was written off as impaired as discussed in Note 6 due to the fact that environment laws affecting timber harvesting have become more restrictive in Papua New Guinea.

The condensed consolidated financial statements do not include any adjustments relating to the carrying amounts of recorded assets or the carrying amounts and classification of recorded liabilities that may be required should the Company be unable to continue as a going concern.

Principles of Consolidation:

The accompanying consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, Arrow Ltd. All significant inter-company balances and transactions have been eliminated.

Development Stage Company:

The accompanying financial statements have been prepared in accordance with the FASB Accounting Standards Codification No 915, *Development Stage Entities*. A development stage enterprise is one in which planned and principal operations have not commenced or, if its operations have commenced, there has been no significant revenue there from. Development-stage companies report cumulative costs from the enterprise's inception.

Income Taxes:

The Company follows FASB Accounting Standards Codification No 740, *Income Taxes*. Deferred tax assets or liabilities are recorded to reflect the future tax consequences of temporary differences between the financial reporting basis of assets and liabilities and their tax basis at each year-end. These amounts are adjusted, as appropriate, to reflect enacted changes in tax rates expected to be in effect when the temporary differences reverse.

The Company records deferred tax assets and liabilities based on the differences between the financial statement and tax bases of assets and liabilities and on operating loss carry forwards using enacted tax rates in effect for the year in which the differences are expected to reverse. A valuation allowance is provided when it is more likely than not that some portion or all of a deferred tax asset will not be realized.

Fair Value of Financial Instruments:

For financial statement purposes, financial instruments include cash, accounts and accrued expenses payable, notes payable and amounts due to related parties (as discussed in Notes 5 and 7) for which the carrying amounts approximated fair value because of their short maturity.

Use of Estimates:

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

(A DEVELOPMENT STAGE COMPANY)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Loss Per Share:

The Company complies with the requirements of the FASB Accounting Standard Codification No 260, *Earnings Per Share*. FASB No. 260 specifies the compilation, presentation and disclosure requirements for earning per share for entities with publicly held common stock or potentially common stock. Net loss per common share, basic and diluted, is determined by dividing the net loss by the weighted average number of common shares outstanding.

Net loss per diluted common share does not include potential common shares derived from stock options and warrants because they are anti-dilutive for the period from inception (November 15, 2005) to December 31, 2011 and for the period ended March 31, 2012. As of March 31, 2012, there are no dilutive equity instruments outstanding.

Acquired Intangibles:

Intangible assets were comprised of an exclusive sales and marketing agreement. In accordance with FASB Accounting Standard Codification No 350, *Intangibles-Goodwill and Other*, the Company assesses the impairment of identifiable intangibles whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Factors the Company considers to be important which could trigger an impairment review include the following:

1. Significant underperformance relative to expected historical or projected future operating results;
2. Significant changes in the manner of use of the acquired assets or the strategy for the overall business; and
3. Significant negative industry or economic trends.

When the Company determines that the carrying value of intangibles may not be recoverable based upon the existence of one or more of the above indicators of impairment and the carrying value of the asset cannot be recovered from projected undiscounted cash flows, the Company records an impairment charge. The Company measures any impairment based on a projected discounted cash flow method using a discount rate determined by management to be commensurate with the risk inherent in the current business model. Significant management judgment is required in determining whether an indicator of impairment exists and in projecting cash flows.

The sales and marketing agreement was to be amortized over 99 years, utilizing the straight-line method. Amortization expense had not been recorded since the acquisition occurred as the company had not yet made any sales.

The value of the agreement was assessed to be fully impaired by the Company and it recorded a loss on the write off of the Marketing and Distribution agreement of \$125,000,000 at December 31, 2007 (See Note 6).

Consideration of Other Comprehensive Income Items:

FASB Accounting Standard Codification No 220, *Comprehensive Income*, requires companies to present comprehensive income (consisting primarily of net income plus other direct equity changes and credits) and its components as part of the basic financial statements. For the period from inception (November 15, 2005) to March 31, 2012, the Company's consolidated financial statements do not contain any changes in equity that are required to be reported separately in comprehensive income.

Stock Based Compensation

The Company applies ASC 718-10 and ASC 505-50 in accounting for stock options issued to employees. For stock options and warrants issued to non-employees, the Company applies the same standard, which requires the recognition of compensation cost based upon the fair value of stock options at the grant date using the Black-Scholes option pricing model.

Recent Accounting Pronouncements:

Management does not believe that any recently issued, but not yet effective, accounting standards if currently adopted would have a material effect on the accompanying condensed consolidated financial statements.

NOTE 3 - AGREEMENT AND PLAN OF MERGER BETWEEN ARROW RESOURCES DEVELOPMENT, LTD. AND CNE GROUP, INC.

In August 2005, the Company entered into an Agreement and Plan of Merger (“the Agreement”) with CNE Group, Inc. (“CNE”) under which, CNE was required to issue 10 million shares of Series AAA convertible preferred stock (“the Preferred Stock”) to the Company, representing 96% of all outstanding equity of CNE on a fully diluted basis for the Marketing and Distribution Agreement provided to the Company, Empire, as agent. Under the Agreement, the Company changed its name to Arrow Resources Development, Inc. and divested all operations not related to Arrow Ltd. The Preferred Stock contained certain liquidation preferences and each share of the Preferred Stock was convertible to 62.4 shares of common stock.

The transaction was consummated upon the issuance of the Preferred Stock on November 14, 2005, which was used to settle the senior secured note payable for \$125,000,000 and \$1,161,000 of cash advances from Empire. The Preferred Stock was subsequently converted to common stock on December 2, 2005, for a total of approximately 649 million shares of common stock outstanding. This was recorded as a change of control transaction that was accounted for as a recapitalization of CNE.

The operations of the Company's wholly-owned subsidiary, Career Engine, Inc. were discontinued prior to the recapitalization transaction. The net assets of Career Engine had no value as of December 31, 2005.

During the period from inception (November 15, 2005) to December 31, 2005, the Company incurred \$249,252 of expenses incurred as part of recapitalization transaction.

NOTE 4 - INCOME TAXES

In August 2005, the Company entered into an Agreement and Plan of Merger ("the Agreement") with CNE Group, Inc. ("CNE"). Under the Agreement, the Company changed its name to Arrow Resources Development, Inc. and divested all operations not related to Arrow Ltd. The transaction was consummated upon the issuance of the Preferred Stock on November 14, 2005. (See Note 3 for a detailed description of the transaction.)

Consequently, as of November 14, 2005 the predecessor CNE entity had a net operating loss carryforward available to reduce future taxable income for federal and state income tax purposes of the successor entity of approximately zero, because those losses arose from the predecessor CNE exiting previous business lines that had generated operating losses.

For tax purposes, all expenses incurred by the re-named entity now known as Arrow Resources Development, Inc. after November 14, 2005 have been capitalized as start up costs in accordance with Internal Revenue Code Section ("IRC") No. 195. Pursuant to IRC 195, the Company will be able to deduct these costs by amortizing them over a period of 15 years for tax purposes once the Company commences operations. Accordingly for tax purposes none of the Company's post November 14, 2005 losses are as yet reportable in Company income tax returns to be filed for either the years ended December 31, 2005, 2006, 2007, 2008, 2009, 2010, 2011 or 2012.

(1)

The Company has a note payable outstanding for \$200,000, plus \$20,000 in accrued interest. Although the predecessor company (CNE) reserved 456,740 shares of its common stock to retire this debt pursuant to a settlement agreement, the stock could not be issued until the party to whom the note was assigned by its original holder emerged from bankruptcy or reorganization. In March 2010, the note holder emerged from bankruptcy and the note was settled. During the year ended December 31, 2009, an additional \$30,000 in interest expense was recorded for a total of \$50,000 accrued interest outstanding on the note.

On March 31, 2008, the Company received a \$150,000 non-interest bearing advance from John Marozzi (Marozzi") which is due on demand. As payment for his services, the Company was to repay the full amount of the note plus 1,000,000 shares of unregistered restricted common stock. The Company recorded \$40,000 of debt issue costs related to the 1,000,000 shares of common stock that were issuable to Marozzi as of March 31, 2008 (See Note 8).

- (2) On May 5, 2008, Marozzi received repayment of \$50,000 from the Company. On October 13, 2008, the Company received another \$50,000 interest bearing advance from Marozzi. The Company was to repay the full amount of the October 31, 2008 \$50,000 note in cash within 60 calendar days from the date the note was executed plus interest paid in the form of 1,000,000 shares of unregistered Company common stock. The Company recorded \$60,000 of debt issue costs related to the 1,000,000 shares of common stock which were issuable to Marozzi as of December 31, 2008.

NOTE 5 - NOTES PAYABLE (CONTINUED)

On March 5, 2009, the Company received another \$50,000 interest bearing advance from Marozzi. The Company was to repay the full amount of the March 5, 2009 \$50,000 note in cash within 60 calendar days from the date the note was executed plus interest paid in the form of 1,000,000 shares of unregistered Company common stock. This left a balance of \$200,000 unpaid principal as of June 30, 2009. On August 12, 2009, the Company and Marozzi entered into a six month extension for the Senior Note and Purchase Agreement for the amount of \$200,000. The principal amount was payable on February 5, 2010. On April 17, 2009, the Company received a \$12,500 non-interest bearing advance from Marozzi. The Company was to repay the full amount of the April 17, 2009 \$ 12,500 note in cash within 60 calendar days from the date the note was executed. On May 8, 2009, the Company received a \$ 20,000 non-interest bearing advance from Marozzi. On August 13, 2009, the Company and Marozzi entered into a six month extension for the Senior Note and Purchase Agreement for the amount of \$32,500. The principal amount was payable on February 5, 2010. On August 7, 2009, the Company received a \$33,000 non-interest bearing advance from Marozzi. In repayment, the Company was to repay the full amount of the note in cash within 60 calendar days from the date the note was executed. On November 5, 2009, the Company entered into a thirty day loan extension agreement with Marozzi for the \$33,000 loan to the Company. The principal amount and interest was payable on December 5, 2009. This left a total balance of \$265,500 of unpaid principal as of December 31, 2009 which was in default.

On March 3, 2010, the Company received an \$110,000 interest bearing advance from Marozzi. The Company was to pay interest at the interest rate of 10% payable at the time of repayment due March 3, 2011. As of March 3, 2011, the advance was not repaid by the Company, and is currently in default. On April 21, 2010, the Company received a \$42,000 interest bearing advance from Marozzi. The Company will pay interest at the interest rate of 10% which shall be payable at the time of repayment due April 21, 2011. The Company had the option to repay the loan in Company stock at a price based on a 50% discount off the market price, calculated on the average closing price five days prior to delivery of the stock. On December 14, 2010 the Company agreed to issue 20 million shares of its common stock in settlement of \$217,500 of the older debt instruments owed to Marozzi. The Company recorded a loss on debt conversion of \$1,182,500 in connection with this transaction. This left a total balance of \$200,000 of unpaid principal as of December 31, 2010.

On April 1, 2011, the Company executed a loan agreement with Marozzi, whereas Marozzi will provide funding for up to \$750,000. When the entire \$750,000 has been funded to the Company, the principal amount and accrued

interest is due 30 days thereafter. Interest will accrue at 4% per annum until all principal amounts are repaid. If the entire \$750,000 loan is not repaid in 30 days by cash or stock, the entire unpaid balance will be due and payable on demand at the option of the holder. Of the \$750,000 total commitment, Marozzi had advanced \$587,980 through September 30, 2011.

On April 25, 2011, the Company and its Board of Directors agreed to issue to Marozzi 30,000,000 shares of the Company's common stock as settlement for the outstanding principal balance payable to Marozzi of \$200,000. The Company's stock price on April 25, 2011 was \$0.04; therefore, the value of the 30,000,000 issued was \$1,200,000, resulting in a loss on debt conversion of \$1,000,000 that has been reflected in the Company's Statements of Operations during the second quarter of 2011.

On December 19, 2011, the Company and its Board of Directors agreed to issue to Marozzi 30,000,000 shares of the Company's common stock as settlement for \$200,000 of the \$587,980 funded to date by Marozzi. The Company's stock price on December 19, 2011 was \$0.01; therefore, the value of the 30,000,000 shares to be issued was \$300,000, resulting in a loss on debt conversion of \$100,000 that has been reflected in the Company's Statements of Operations during the fourth quarter of 2011. Total loss of debt conversions for the year ended December 31, 2011 was \$1,100,000. Accrued interest due on all Marozzi related loans was \$35,144 and \$31,275 as of March 31, 2012 and December 31, 2011, respectively. The above 30,000,000 shares were issued in January 2012.

NOTE 5 - NOTES PAYABLE (CONTINUED)

On April 24, 2008, the Company received a \$38,000 non-interest bearing advance from James R. McConnaughy (McConnaughy”), which is due on demand. In repayment, the Company was to repay the full amount of the note plus 304,000 shares of the Company’s unregistered restricted common stock. The Company recorded \$24,320 in (3) debt issue costs related to the 304,000 shares of common stock that were issuable to McConnaughy as of December 31, 2008. On December 23, 2008, the Company received another \$15,000 non-interest bearing advance from McConnaughy, which is due on demand. James McConnaughy is a relative of John E. McConnaughy Jr., a Company Director discussed in Note 7 [3].

On April 24, 2008, the Company received a \$38,000 non-interest bearing advance from Christopher T. Joffe (Joffe,”) which is due on demand. In repayment, the Company will repay the full amount of the note plus 304,000 (4) shares of the Company’s unregistered restricted common stock. The Company recorded \$24,320 in debt issue costs related to the 304,000 shares of common stock that are issuable to Joffe as of December 31, 2008. On June 13, 2008, the Company received another \$25,000 non-interest bearing advance from Joffe, which is due on demand.

On April 30, 2008, the Company received a \$500,000 non-interest bearing advance from Frank Ciolli (Ciolli.”) In repayment, the Company promised to pay Ciolli the principal sum of \$550,000 on or before October 31, 2008. On October 31, 2008, the Company entered into a 60 day loan extension with Ciolli. In payment, the Company issued 1,000,000 shares of the Company’s unregistered restricted common stock to Ciolli and 1,000,000 shares of the Company’s unregistered restricted common stock to Donna Alferi on behalf of Michael Alferi as designated by Ciolli. The Company recorded \$100,000 and \$100,000, respectively, in debt issue costs related to the 1,000,000 (5) and 1,000,000, respectively, of shares of common stock that were issued to Ciolli and Donna Alferi as of December 31, 2008. On January 15, 2009, the Company entered into the thirty-one day extension from December 31, 2008 for the Convertible Loan Agreement and Convertible Note with Ciolli for the loan amount of \$550,000 dated as of April 30, 2008. The Company issued 500,000 shares of restricted, unregistered common stock each for Michael Alferi and Ciolli, which resulted in Company debt issue costs of \$80,000 as of September 30, 2009. On August 12, 2009, the Company and Ciolli entered into a six month extension for the Senior Note and Purchase Agreement for the principal sum of the \$550,000. The principal amount was payable on February 12, 2010. The balance of the \$550,000 note payable is currently in default.

(6)

On September 10, 2008, the Company received a \$100,000 non-interest bearing advance from John Frugone, which was due on demand. In repayment, the Company will repay the full amount of the note in cash over two years from the date the note is executed. On February 25, 2009, the Company received a \$30,000 non-interest bearing advance from John Frugone, which is due on demand. In repayment, the Company will repay the full amount of the note in cash over two years from the date the note is executed. On July 30, 2009, the Company repaid \$75,000 to John Frugone as a partial payment on the outstanding balance. On November 6, 2009, the Company received a \$100,000 non-interest bearing advance from John Frugone. The Company will repay the loan amount in cash over two years from the date the note is executed. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 6 - IMPAIRMENT OF MARKETING AND DISTRIBUTION AGREEMENT AND RELATED SENIOR NOTE PAYABLE DUE TO EMPIRE ADVISORY, LLC

As discussed in Note 1, in August 2005, the Company executed a marketing and distribution agreement with Arrow Pte. This agreement was valued at fair value as determined based on an independent appraisal, which approximates the market value of 96% of the CNE public stock issued in settlement of the note.

The marketing and distribution agreement would have been amortized over the remainder of 99 years (the life of the agreement) once the Company commenced sales. As of December 31, 2005, the Company had recorded a \$125,000,000 amortizable intangible asset for this agreement and corresponding credits to common stock and additional paid-in capital in conjunction with the stock settlement of the senior secured note payable to Empire Advisory, LLC and related cash advances in the same aggregate amount. The senior secured note payable was non-interest bearing and was repaid in the form of the preferred stock, which was subsequently converted to common stock (See Note 3). Any preferred stock issued under the senior secured note payable is considered restricted as to the sale thereof under SEC Rule 144 as unregistered securities.

The Company's only intangible asset was comprised of this marketing and distribution agreement with Arrow Pte. In accordance with ASC 350, Goodwill and Other Intangible Assets" this intangible agreement is tested for impairment on an annual basis. The Company assesses the impairment of identifiable intangibles and goodwill whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Factors the Company considers to be important which could trigger an impairment review include the following:

- Significant inability to achieve expected projected future operating results;
- Significant changes in the manner in which the work is able to be performed what increases costs;
- Significant negative impact on the environment.

We perform goodwill impairment tests on an annual basis and on an interim basis if an event or circumstance indicates that it is more likely than not that impairment has occurred. We assess the impairment of other amortizable intangible assets and long-lived assets whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Factors we consider important that could trigger an impairment review include significant underperformance to historical or projected operating results, substantial changes in our business strategy and significant negative industry or economic trends.

The World Bank and World Wildlife Federation have adopted forest management guidelines to ensure economic, social and environmental benefits from timber and non-timber products and the environmental services provided by forests. Most countries, including Indonesia as of 2007, have adopted these guidelines as law in order to promote economical development while combating the ongoing crisis of worldwide deforestation.

It has always been the policy of Arrow Pte to follow the international guidelines for the harvesting of timber in virgin forests. In December 2007, Arrow Pte. assessed that it would be unable to harvest the timber products in Papua, New Guinea due to the fact that the widely accepted international guidelines of the World Wildlife Federation had not been adopted by Papua, New Guinea. This fact is adverse to the economic, social and environmental goals of Arrow Pte. because with the amount of land that the project was allotted combined with the agreed upon previous guidelines of the marketing and distribution agreement, yields would be significantly reduced. Given the significant change in the economics of the harvesting of the timber in Papua, New Guinea, Arrow Pte. has decided not to pursue any further operations in Papua, New Guinea given that the above restrictions cause a significant reduction in the volume of harvesting, which results in a disproportionate cost to yield ration at the Papua, New Guinea site which makes the project not economically feasible in the foreseeable future.

Based on the fact that Arrow Pte. is unable to fulfill their part of the agreement, the Company has reached the conclusion that the marketing and distribution agreement has no value. Therefore, the Company has fully impaired the value of the agreement and recorded a loss on write-off of the marketing and distribution agreement of \$125,000,000 at December 31, 2007.

NOTE 10 - COMMITMENTS AND OTHER MATTERS (CONTINUED)

[3] Litigation- predecessor entity stock holders

The Company was a party to a lawsuit where the plaintiff is alleged that he was entitled to \$60,000 and 1,300,000 of common stock based upon CNE's failure to compensate him for services related to identifying financing for CNE, based upon an agreement that was entered into between CNE and the plaintiff in April 2005. On November 28, 2007, the Company settled the lawsuit with the plaintiff. In full and final settlement of the claims asserted in the action, the Company has paid the plaintiff \$10,000 in cash and issued the plaintiff 200,000 shares of the Company's common stock on December 21, 2007. The settlement resulted in a loss on debt conversion of \$2,000 during the year ended December 31, 2007 because an estimated liability had been recognized prior to 2007.

In May 2006, the Company was advised that it was alleged to be in default of a settlement agreement entered into in January of 2005 by CNE, its predecessor company, related to the release of unrestricted, freely-tradable, non-legend shares of stock. In August 2006, the plaintiffs, alleging the default, obtained a judgment in the 17th Judicial Circuit Court Broward County, Florida for approximately \$1,000,000. On November 13, 2007, legal counsel engaged by Management commenced an action on the Company's behalf in the above Circuit Court seeking to vacate and set aside the 2006 judgment asserting claims under Rule 1.540(b) of the Florida Rules of Civil Procedure. Our counsel's evaluation is that the Company has only a limited chance of having the 2006 judgment opened by the Court because Florida law provides very narrow grounds for opening a judgment once a year has passed from its entry. The Courts are generally reluctant to disturb final judgments and the Company's grounds for opening the judgment depend on the Court's adopting a somewhat novel argument regarding such matters. If, however, the Court does open the default judgment, the Company will then have the opportunity to defend the 2006 action and, in such event, our counsel believes that the Company has a reasonable chance of succeeding in defending that claim, at least in part, based on the documents he has reviewed. As of March 31, 2012 and December 31, 2011, the Company has accrued \$1,408,902 and \$1,393,101, including accrued interest of \$355,518 and \$339,717 respectively, related to this matter.

On December 14, 2005, Empire Advisory received a \$250,000 non-interest bearing advance from Butler Ventures, LLC the proceeds of which were used for the benefit of the Company and for which the liability was transferred to the

Company. In repayment, the Company would repay the full amount of the note in converted securities and U.S. dollars on the earlier of March 31, 2006, without further notice or demand, or immediate payment in the event of default. On December 8, 2008, Butler filed a motion for summary judgment in lieu of complaint against Empire in the Supreme Court of the State of New York for failing to repay the loan on the maturity date. On January 29, 2009, Empire Advisory, LLC and Butler Ventures, LLC entered into Settlement Agreement and Mutual Release where the parties had agreed to resolve amicably the amounts due and owing to Butler by issuing to Butler common stock in Empire's affiliated company, Arrow Resources Development, Inc. as well as by payment of all attorneys' fees and expenses accrued to date. Empire Advisor shall cause the Company to issue to Butler shares of common stock in the Company. Butler agreed to extend until on or prior to March 31, 2009 for performance of all of Empire's obligations. In consideration for this extension, Empire Advisor agreed to cause the Company to issue to Butler an additional 100,000 shares of the Company common stock. The Company defaulted on this extension. On June 17, 2009, Empire Advisory transferred the loan obligations to the Company, and the Company agreed to assume the loan obligations. On July 14, 2009, the Company issued 9,690,909 shares of common stock to Butler Ventures, LLC with a market value on the date of issuance of \$533,000 in full settlement of the \$250,000 note payable. 9,090,909 shares were issued in exchange for a senior note payable that has been assumed by the Company. 100,000 shares were issued in accordance with the aforementioned extension, and 500,000 shares were issued to Butler in consideration of Butler's agreement to forego its remedies related to the aforementioned default of the extension.

[4] Consulting/Marketing and Agency Agreements

On April 4, 2006, the Company entered into a consulting agreement with Dekornas GMPLH (Dekornas") (a nonprofit organization in Indonesia responsible for replanting of trees in areas that were destroyed by other logging companies) in which the Company will provide financial consultancy services to Dekornas for an annual fee of \$1.00 for the duration of the agreement. The third party company will put assets into the new

subsidiary and assume 90% of the new subsidiary. The third party company paid the Company \$250,000 for anticipated closing and transactional costs in March 2006 pursuant to the Original Agreement. It costs \$50,000 to the Company to reinstate the Letter Agreement and to disclose reinstatement in its public filings by amendment. Therefore, the third party company paid the Company an additional \$25,000 upon acceptance of the agreement and \$25,000 on March 30, 2009.

NOTE 12 - SUBSEQUENT EVENT

None.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

GENERAL

We are a holding company whose only operating subsidiary as of March 31, 2011 is Arrow Ltd. The principal business of Arrow is to provide marketing, sales, distribution, corporate operations and corporate finance services for the commercial exploitation of natural resources around the world. Prior to November 2005, we used to be a telecommunications and recruiting company formally known as CNE Group, Inc. The company elected to shift its business focus to the worldwide commercial exploitation of natural resources.

ARROW RESOURCES DEVELOPMENT, LTD.

In August 2005, Arrow entered into an Agreement and Plan of Merger (“the Agreement”) with its wholly-owned subsidiary, Arrow Ltd., in which Arrow (formerly CNE) was required to issue 10 million shares of Series AAA convertible preferred stock (“the Preferred Stock”) to Arrow Ltd.'s designees, representing 96% of all outstanding equity of CNE on a fully diluted basis in exchange for the Marketing and Distribution Agreement provided to the Company by Arrow. Under the Agreement, the Company discontinued all former operations (CareerEngine, Inc., SRC and US Commlink.) and changed its name to Arrow Resources Development, Inc.

On August 1, 2005, Arrow Ltd. entered into the Marketing Agreement with Arrow Pte. and its subsidiaries in consideration for Arrow issuing a non-interest bearing note (the “Note”) in the principal amount of \$125,000,000 to Empire Advisory, LLC, (“Empire”), acting as agent, due on or before December 31, 2005. Empire is Arrow Pte.'s merchant banker. The Note permitted the Company, as Arrow's sole stockholder, to cause Arrow to repay the Note in cash or with 10,000,000 shares of the Company's non-voting Series AAA Preferred Stock. However, in December 2007, Arrow Pte. assessed that it would be unable to harvest the timber products in Papua, New Guinea due to the fact that the widely accepted international guidelines of the World Wildlife Federation had not been adopted by Papua, New Guinea.

This fact is adverse to the economic, social and environmental goals of Arrow Pte. because, with the amount of land that the project was allotted combined with the agreed upon previous guidelines of the marketing and distribution agreement, yields would be significantly reduced. Given the significant change in the economics of the harvesting of the timber in Papua, New Guinea, Arrow Pte. has decided not to pursue any further operations in Papua, New Guinea given that the above restrictions cause a significant reduction in the volume of harvesting, which results in a disproportionate cost to yield ration at the Papua, New Guinea site which makes the project not economically feasible in the foreseeable future.

Based on the fact that Arrow Pte. is unable to fulfill their part of the agreement, the Company has reached the conclusion that the marketing and distribution agreement has no value. Therefore, the Company has fully impaired the value of the agreement and recorded a loss on write-off of the marketing and distribution agreement of \$125,000,000 at December 31, 2007. (See Note 6.)

On April 4, 2006 Arrow Resource Development Ltd. (the Company's Bermuda subsidiary) entered into an agency agreement with APR in which the Company will provide financial consultancy services to APR for an annual fee, payable as collected, equal to 10% of APR's gross revenue payable commencing upon execution. This agreement provides for the company to collect all revenues from all operations, retain its 10% fee and disperse the remaining 90% to APR and its subsidiaries. The term of the agreement is effective upon execution, shall remain in effect for ninety-nine (99) years and shall not be terminated until the expiration of at least ten (10) years. As of March 31, 2012, the Company has recovered \$52,000 of revenue under this agreement.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation of financial statements in accordance with U.S. generally accepted accounting principles requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of net revenue and expenses during the reporting period. On an ongoing basis, we evaluate our estimates, including those related to our allowance for doubtful accounts, inventory reserves, and goodwill and purchased intangible asset valuations, and asset impairments. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities. Actual results may differ from these estimates under different assumptions or conditions. We believe the following critical accounting policies, among others, affect the significant judgments and estimates we use in the preparation of our consolidated financial statements.

ALLOWANCE FOR DOUBTFUL ACCOUNTS, REVENUE RECOGNITION

We evaluate the collectability of our accounts receivable based on a combination of factors. In circumstances where we are aware of a specific customer's inability to meet its financial obligations to us, we record a specific allowance to reduce the net receivable to the amount we reasonably believe will be collected. For all other customers, we record allowances for doubtful accounts based on the length of time the receivables are past due, the prevailing business environment and our historical experience. If the financial condition of our customers were to deteriorate or if economic conditions were to worsen, additional allowances may be required in the future.

We recognize product revenue when persuasive evidence of an arrangement exists, the sales price is fixed, the service is performed or products are shipped to customers, which is when title and risk of loss transfers to the customers, and collectability is reasonably assured.

VALUATION OF GOODWILL, PURCHASED INTANGIBLE ASSETS AND LONG-LIVED ASSETS

The Company's only intangible asset was comprised of a marketing and distribution agreement with Arrow Pte. In accordance with FASB Accounting Standard Codification No 350, Intangibles-Goodwill and Other, this intangible agreement is no longer amortized; instead the intangible is tested for impairment on an annual basis. The Company assesses the impairment of identifiable intangibles and goodwill whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Factors the Company considers to be important which could trigger an impairment review include the following:

Significant inability to achieve expected projected future operating results;

Significant changes in the manner in which the work is able to be performed what increases costs;

Significant negative impact on the environment.

We perform goodwill impairment tests on an annual basis and on an interim basis if an event or circumstance indicates that it is more likely than not that impairment has occurred. We assess the impairment of other amortizable intangible assets and long-lived assets whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Factors we consider important that could trigger an impairment review include significant underperformance to historical or projected operating results, substantial changes in our business strategy and significant negative industry or economic trends. If such indicators are present, we evaluate the fair value of the goodwill. For other intangible assets and long-lived assets we determine whether the sum of the estimated undiscounted cash flows attributable to the assets in question is less than their carrying value. If less, we recognize an impairment loss based on the excess of the carrying amount of the assets over their respective fair values.

Fair value of goodwill is determined by using a valuation model based on market capitalization. Fair value of other intangible assets and long-lived assets is determined by future cash flows, appraisals or other methods. If the long-lived asset determined to be impaired is to be held and used, we recognize an impairment charge to the extent the anticipated net cash flows attributable to the asset are less than the asset's carrying value. The fair value of the long-lived asset then becomes the asset's new carrying value, which we depreciate over the remaining estimated useful life of the asset.

REVENUES

There was no revenue for the three months ended March 31, 2012 and March 31, 2011 as the Company is in its development stage.

COST OF GOODS SOLD

There was no cost of goods sold for the three months ended March 31, 2012 and March 31, 2011 as the Company is in its development stage.

OTHER EXPENSES

Compensation, consulting and related costs increased to \$1,428,285 for the three months ended March 31, 2012 as compared to \$1,212,939 for the three months ended March 31, 2011, \$28,463,864 for the period from inception (November 15, 2005) to March 31, 2012. The increase was mostly due to consulting fees for services provided by the Management Agreement with Empire under which Empire provides the services of Chief Executive Officer and administrative services to the Company and consulting services provided by Hans Karundeng and Rudolph Karundeng under Engagement and Consulting Agreements.

General and administrative expenses increased to \$15,275 for the three months ended March 31, 2012 as compared to \$14,702 for the three months ended March 31, 2011, and increased to \$1,129,313 for the period from inception (November 15, 2005) to March 31, 2012.

Directors' compensation decreased to \$39,375 from \$43,125 for the three months ended March 31, 2012 and 2011, respectively and \$1,179,553 for the period from inception (November 15, 2005). The decrease is primarily due to the value of common stock to be issued for directors' compensation, which is based on the company stock at the end of each reporting period.

Delaware franchise taxes amount was \$105 for the three months ended March 31, 2012 and March 31, 2011, \$186,786 for the period from inception (November 15, 2005) to March 31, 2012. The Company is delinquent in its filing and payment of the Delaware Franchise Tax report and, accordingly, is not in good standing. At March 31, 2012, and for the years ended December 31, 2011, 2010, 2009, 2008, 2007, 2006 and 2005 the Company has estimated unpaid Delaware franchise taxes in the amount of \$105, \$420, \$420, \$420, \$420, \$57,652, \$57,650 and \$69,699, respectively. The Company did not file their tax returns on time due to lack of funds available.

Total operating expenses during the development stage increased to \$1,483,040 for the three months ended March 31, 2012 as compared to \$1,270,871 for the three months ended March 31, 2011, and increased to \$30,959,516 for the period from inception (November 15, 2005) to March 31, 2012.

OTHER EXPENSES, CONTINUED

On March 31, 2008, the Company received a \$150,000 non-interest bearing advance from John Marozzi, which is due on demand. In repayment, the Company will repay the full amount of the note plus 1,000,000 shares of unregistered restricted common stock. The Company recorded \$40,000 debt issue costs related to the 1,000,000 shares of common stock that is now issuable to John Marozzi as of March 31, 2008. The Company is to repay the full amount of the May 8, 2009 \$ 20,000 note in cash within 30 calendar days from the date the note was executed. This leaves a balance of \$200,000 unpaid principal as of June 30, 2009. On August 12, 2009, the Company and John Marozzi entered into a six month extension for the Senior Note and Purchase Agreement for the amount of \$200,000. The principal amount was payable on February 5, 2010. On April 17, 2009, the Company received a \$12,500 non-interest bearing advance from John Marozzi. The Company is to repay the full amount of the April 17, 2009 \$ 12,500 note in cash within 60 calendar days from the date the note was executed. On May 8, 2009, the Company received a \$ 20,000 non-interest bearing advance from John Marozzi. The Company is to repay the full amount of the May 8, 2009 \$20,000 note in cash within 30 calendar days from the date the note was executed. This leaves a balance of \$32,500 unpaid principal as of June 30, 2009. On August 13, 2009, the Company and John Marozzi entered into a six month extension for the Senior Note and Purchase Agreement for the amount of \$32,500. The principal amount was payable on February 5, 2010. On August 7, 2009, the Company received a \$33,000 non-interest bearing advance from John Marozzi. In repayment, the Company will repay the full amount of the note in cash within 60 calendar days from the date the note is executed. On November 5, 2009, the Company entered into a thirty day loan extension agreement with John Marozzi for this \$33,000 loan to the Company. The principal amount and interest was payable on December 5, 2009. This left a total unpaid principal balance of \$265,500 as of December 31, 2009 which was in default.

On March 3, 2010, the Company received an \$110,000 interest bearing advance from Marozzi. The Company was to pay interest at the interest rate of 10% payable at the time of repayment due March 3, 2011. As of March 3, 2011, the advance was not repaid by the Company, and is currently in default. On April 21, 2010, the Company received a

\$42,000 interest bearing advance from Marozzi. The Company will pay interest at the interest rate of 10% which shall be payable at the time of repayment due April 21, 2011. The Company had the option to repay the loan in Company stock at a price based on a 50% discount off the market price, calculated on the average closing price five days prior to delivery of the stock. On December 14, 2010 the Company agreed to issue 20 million shares of its common stock in settlement of \$217,500 of the older debt instruments owed to Marozzi. The Company recorded a loss on debt conversion of \$1,182,500 in connection with this transaction. This left a total balance of \$200,000 of unpaid principal as of December 31, 2010.

On April 25, 2011, the Company and its Board of Directors agreed to issue to Marozzi 30,000,000 shares of the Company's common stock as settlement for the outstanding principal balance payable to Marozzi of \$200,000. The Company's stock price on April 25, 2011 was \$0.04; therefore, the value of the 30,000,000 shares issued was \$1,200,000, resulting in a loss on debt conversion of \$1,000,000 recorded in the Company's Statements of Operations during the second quarter of 2011.

On December 19, 2011, the Company and its Board of Directors agreed to issue to Marozzi 30,000,000 shares of the Company's common stock as settlement for \$200,000 of the \$587,980 funded to date by Marozzi. The Company's stock price on December 19, 2011 was \$0.01; therefore, the value of the 30,000,000 shares to be issued was \$300,000, resulting in a loss on debt conversion of \$100,000 that has been reflected in the Company's Statements of Operations during the fourth quarter of 2011. Total loss of debt conversions for the year ended December 31, 2011 was \$1,100,000. Accrued interest due on all Marozzi related loans was \$35,144 and \$31,275 as of March 31, 2012 and December 31, 2011, respectively. The above 30,000,000 shares were issued in January 2012.

In December 2007, Arrow Pte. assessed that it would be unable to harvest the timber products in Papua, New Guinea due to the fact that the widely accepted international guidelines of the World Wildlife Federation had not been adopted by Papua, New Guinea. This fact is adverse to the economic, social and environmental goals of Arrow Pte. because with the amount of land that the project was allotted combined with the agreed upon previous guidelines of the marketing and distribution agreement, yields would be significantly reduced. Given the significant change in the economics of the harvesting of the timber in Papua, New Guinea, Arrow Pte. has decided not to pursue any further operations in Papua, New Guinea given that the above restrictions cause a significant reduction in the volume of harvesting, which results in a disproportionate cost to yield ration at the Papua, New Guinea site which makes the project not economically feasible in the foreseeable future. Based on the fact that Arrow Pte. is unable to fulfill their part of the agreement, the Company has reached the conclusion that the marketing and distribution agreement has no value. Therefore, the Company has fully impaired the value of the agreement and recorded a loss on write-off of the marketing and distribution agreement of \$125,000,000 at December 31, 2007. (See Note 6.)

The Company was a party to a lawsuit where the plaintiff is alleged that he was entitled to \$60,000 and 1,300,000 of common stock based upon CNE's failure to compensate him for services related to identifying financing for CNE, based upon an agreement that was entered into between CNE and the plaintiff in April 2005. On November 28, 2007, the Company settled the lawsuit with the plaintiff. In full and final settlement of the claims asserted in the action, the Company has paid the plaintiff \$10,000 in cash and issued the plaintiff 200,000 shares of the Company's common stock on December 21, 2007. The settlement resulted in a loss on debt conversion of \$2,000 during the year ended December 31, 2007 because an estimated liability had been recognized prior to 2007.

In May 2006, the Company was advised that it was alleged to be in default of a settlement agreement entered into in January of 2005 by CNE, its predecessor company, related to the release of unrestricted, freely-tradable, non-legend shares of stock. In August 2006, the plaintiffs, alleging the default, obtained a judgment in the 17th Judicial Circuit Court Broward County, Florida for approximately \$1,000,000. On November 13, 2007, legal counsel engaged by Management commenced an action on the Company's behalf in the above Circuit Court seeking to vacate and set aside the 2006 judgment asserting claims under Rule 1.540(b) of the Florida Rules of Civil Procedure. Our counsel's evaluation is that the Company has only a limited chance of having the 2006 judgment opened by the Court because Florida law provides very narrow grounds for opening a judgment once a year has passed from its entry. The Courts are generally reluctant to disturb final judgments and the Company's grounds for opening the judgment depend on the Court's adopting a somewhat novel argument regarding such matters. If, however, the Court does open the default judgment, the Company will then have the opportunity to defend the 2006 action and, in such event, our counsel believes that the Company has a reasonable chance of succeeding in defending that claim, at least in part, based on the documents he has reviewed. As of March 31, 2012, the Company had accrued \$1,408,902, including accrued interest of \$355,518, related to this matter.

LIQUIDITY AND CAPITAL RESOURCES

In November 2005, we discontinued and disposed of our subsidiaries except for Arrow Ltd. in conjunction with the recapitalization of the Company. The Company was recapitalized by the conversion of \$125,000,000 preferred convertible note related to the purchase of the Marketing Agreement. As part of the recapitalization plan, the Company settled all outstanding debt except for \$220,000.

As of March 31, 2012 and December 31, 2011 the Company had \$57 and \$62 of cash, respectively. We had losses of \$2,013,183 and \$1,784,384 for the three months ended March 31, 2012 and 2011, respectively, and do not currently generate any revenue. In order for us to survive during the next twelve months we will need to secure approximately \$3 million of debt or equity financing. We expect to raise additional financing in the future but there can be no guarantee that we will be successful.

OFF-BALANCE SHEET ARRANGEMENTS

At March 31, 2012, we had no off -balance sheet arrangements.

OPERATING ACTIVITIES

We used \$1,080,794 of cash in our operating activities during the three months ended March 31, 2012. We had a net loss of \$2,013,183. We had an increase in stock-based directors' compensation to be issued of \$1,875, an increase in accounts payable and accrued expenses payable of \$914,713, and an increase in an estimated liability for legal judgment obtained by predecessor entity shareholder of \$15,801. In addition, we had a working capital deficiency of \$34,598,911 at March 31, 2012. We did not have any material commitments for capital expenditures as of March 31, 2011.

We used \$838,427 of cash in our operating activities during the three months ended March 31, 2011. We had a net loss of \$1,784,384. We had an increase in stock-based directors' compensation to be issued of \$5,625, an increase in accounts payable and accrued expenses payable of \$924,531, and an increase in an estimated liability for legal judgment obtained by predecessor entity shareholder of \$15,801. In addition, we had a working capital deficiency of \$27,131,529 at March 31, 2011. We did not have any material commitments for capital expenditures as of March 31, 2011.

INFLATION

We believe that inflation does not significantly impact our current operations.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company's Chief Executive Officer and acting Chief Financial Officer has evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the fiscal period ending March 31, 2012 covered by this Quarterly Report on Form 10-Q. Based upon such evaluation, the Chief Executive Officer and acting Chief Financial Officer has concluded that, as of the end of such period, the Company's disclosure controls and procedures were not effective as required under Rules 13a-15(e) and 15d-15(e) under the Exchange Act. The Company is currently in the process of evaluating its options to fix the deficiency in internal controls.

Management's Report on Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) of the Company. Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America.

The Company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the

assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management, under the supervision of the Company's Chief Executive Officer and acting Chief Financial Officer, conducted an evaluation of the effectiveness of internal control over financial reporting based on the framework in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, management concluded that the Company's internal control over financial reporting was not effective as of March 31, 2012 under the criteria set forth in the Internal Control—Integrated Framework.

A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the Company's annual or interim financial statements will not be prevented or detected on a timely basis. Management has determined that material weaknesses exist due to a lack of segregation of duties, resulting from the Company's limited resources.

This quarterly report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by our registered public accounting firm pursuant to temporary rules of the SEC that permit us to provide only management's report in this Quarterly Report on Form 10-Q.

Changes in Internal Control Over Financial Reporting

No change in the Company's internal control over financial reporting occurred during the three month period ended March 31, 2012, that materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

The Company was a party to a lawsuit where the plaintiff is alleged that he was entitled to \$60,000 and 1,300,000 of common stock based upon CNE's failure to compensate him for services related to identifying financing for CNE, based upon an agreement that was entered into between CNE and the plaintiff in April 2005. On November 28, 2007, the Company settled the lawsuit with the plaintiff. In full and final settlement of the claims asserted in the action, the Company has paid the plaintiff \$10,000 in cash and issued the plaintiff 200,000 shares of the Company's common stock on December 21, 2007. The settlement resulted in a loss on debt conversion of \$2,000 during the year ended December 31, 2007 because an estimated liability had been recognized prior to 2007.

In May 2006, the Company was advised that it was alleged to be in default of a settlement agreement entered into in January of 2005 by CNE, its predecessor company, related to the release of unrestricted, freely-tradable, non-legend shares of stock. In August 2006, the plaintiffs, alleging the default, obtained a judgment in the 17th Judicial Circuit Court Broward County, Florida for approximately \$1,000,000. On November 13, 2007, legal counsel engaged by Management commenced an action on the Company's behalf in the above Circuit Court seeking to vacate and set aside the 2006 judgment asserting claims under Rule 1.540(b) of the Florida Rules of Civil Procedure. Our counsel's evaluation is that the Company has only a limited chance of having the 2006 judgment opened by the Court because Florida law provides very narrow grounds for opening a judgment once a year has passed from its entry. The Courts are generally reluctant to disturb final judgments and the Company's grounds for opening the judgment depend on the Court's adopting a somewhat novel argument regarding such matters. If, however, the Court does open the default judgment, the Company will then have the opportunity to defend the 2006 action and, in such event, our counsel believes that the Company has a reasonable chance of succeeding in defending that claim, at least in part, based on the documents he has reviewed. As of March 31, 2012 and December 31, 2011, the Company has accrued \$1,408,902 and \$1,393,101, including accrued interest of \$355,518 and \$339,717 respectively, related to this matter.

On December 14, 2005, Empire Advisory received a \$250,000 non-interest bearing advance from Butler Ventures, LLC the proceeds of which were used for the benefit of the Company and for which the liability was transferred to the Company. In repayment, the Company would repay the full amount of the note in converted securities and U.S. dollars on the earlier of March 31, 2006, without further notice or demand, or immediate payment in the event of default. On December 8, 2008, Butler filed a motion for summary judgment in lieu of complaint against Empire in the Supreme Court of the State of New York for failing to repay the loan on the maturity date. On January 29, 2009, Empire Advisory, LLC and Butler Ventures, LLC entered into Settlement Agreement and Mutual Release where the parties had agreed to resolve amicably the amounts due and owing to Butler by issuing to Butler common stock in Empire's affiliated company, Arrow Resources Development, Inc. as well as by payment of all attorneys' fees and expenses accrued to date. Empire Advisor shall cause the Company to issue to Butler shares of common stock in the Company. Butler agreed to extend until on or prior to March 31, 2009 for performance of all of Empire's obligations. In consideration for this extension, Empire Advisor agreed to cause the Company to issue to Butler an additional 100,000 shares of the Company common stock. The Company defaulted on this extension. On June 17, 2009, Empire Advisory transferred the loan obligations to the Company, and the Company agreed to assume the loan obligations. On July 14, 2009, the Company issued 9,690,909 shares of common stock to Butler Ventures, LLC with a market value on the date of issuance of \$533,000 in full settlement of the \$250,000 note payable. 9,090,909 shares were issued in exchange for a senior note payable that has been assumed by the Company. 100,000 shares were issued in accordance with the aforementioned extension, and 500,000 shares were issued to Butler in consideration of Butler's agreement to forego its remedies related to the aforementioned default of the extension.

Item 1A. Risk Factors

Item 1A. "Risk Factors" of our Annual Report on Form 10-K for the year ended December 31, 2011 includes a detailed discussion of our risk factors. There have been no significant changes to our risk factors as set forth in our 2011 Form 10-K.

Item 4. Submission of Matters to a Vote of Security Holders

On November 20, 2007, the Board of Directors approved a private placement offering (the "Offering") approximating \$2,000,000 to accredited investors at \$1.00 per share of Series A Convertible Preferred Stock. The Offering will consist of the Company's Series A Convertible Preferred Stock that will be convertible into our common stock. These securities are not required to be and will not be registered under the Securities Act of 1933. Shares issued under this placement will not be sold in the United States, absent registration or an applicable exemption from registration. As of September 30, 2009, the Company received \$355,000 from investors towards 355,000 Series A Convertible Preferred Stock shares issuable under subscription agreements covering the placement offering. Each Series A Convertible Preferred Stock was convertible into 20 shares of the Company's Common Stock. The holders of the preferred stock had no voting rights except as was required by Delaware law, no redemption rights, and no liquidation preferences over the Common Stock holders. On November 3, 2009, the 355,000 Series A Convertible Preferred Stock were converted into 7,100,000 Common shares. As of March 31, 2012 and December 31, 2011, there were no Series A Convertible Preferred Stock outstanding.

On April 20, 2008, the Board of Directors approved a private placement offering (the "Offering") approximating \$2,000,000 to accredited investors at \$1.00 per share of Series C Convertible Preferred Stock. The Offering will consist of the Company's Series C Convertible Preferred Stock that will be convertible into our common stock. These securities are not required to be and will not be registered under the Securities Act of 1933. Shares issued under this placement will not be sold in the United States, absent registration or an applicable exemption from registration. As of September 30, 2009, the Company received \$25,000 from investors towards 25,000 Series C Convertible Preferred Stock shares issuable under subscription agreements covering the placement offering. Each Series C Convertible Preferred Stock is convertible into 20 shares of the Company's Common Stock. The holders of the preferred stock have no voting rights except as may be required by Delaware law, no redemption rights, and no liquidation preferences over the Common Stock holders. On November 3, 2009, the 25,000 Series C Convertible Preferred Stock were converted into 500,000 Common shares. As of March 31, 2012 and December 31, 2011, there was no Series C Convertible Preferred Stock outstanding.

On December 3, 2007, the Board of Directors approved a plan to compensate all members of the Board of Directors at a rate of \$50,000 per year and 250,000 shares of Company common stock effective January 1, 2007. This compensation plan applies to any board member that belonged to the Board as of and subsequent to January 1, 2007. Those board members that were only on the Board for part of the year will received pro-rata compensation based on length of service. As of March 31, 2012 and December 31, 2011, none of the shares under this plan have been issued and the Company has an accrued liability of \$937,637 and \$900,137, respectively, of cash-based compensation and recorded additional paid-in capital through those dates of \$241,898 and \$240,025, respectively, for stock-based compensation based on the fair value of 4,688,185 and 4,500,685 shares to be issued to the members of the Board, respectively.
