FOR IMMEDIATE RELEASE

Commenting on the second quarter 2008 results, Mr. Yuzhu Shi, the Chairman and Chief Executive Officer of Giant said, "We overcame difficulties caused by the Sichuan earthquake and we made significant progress in the second quarter, with net revenues, gross profit and net income all increasing more than 30% year-over-year. We continue to expand our business, yet place a strong emphasis on operational efficiency and the maintenance of robust margins.

On the operational front, we maintained the positive momentum of our flagship game *ZT Online*, which reached 2.1 million Peak Concurrent Users on April 26, 2008, the highest PCU recorded within the industry at the time. The sustained popularity of this game is a testimony to the strength of our strategy, which takes a focused approach towards developing and marketing hit games. Moving forward, we believe this strategy will help our current and pipeline games, including *Giant Online*, achieve similar success. Throughout the second quarter, our extensive marketing efforts proved successful as consolidated Active Paying Accounts grew 41% year-over-year and Average Concurrent Users rose more than 20% over the same period.

As we continuously enhance our game content, we remain focused on building our in-game community size and enhancing player loyalty. We recently invested approximately US\$51 million for a 25% stake in Five One Network Development Co., Ltd (51.com), the largest independent social network service provider in China. We believe 51.com's large user base and fast growing social networking business will help us grow our games, attract new users, and increase the loyalty, or "stickiness" of our games.

Lastly, our recently announced US\$150 million share repurchase program not only reaffirms our confidence and optimism in the long-term potential of Giant, but also reflects our ongoing commitment to increasing shareholder value.

Second Quarter 2008 Unaudited Financial Results

Net revenues. Net revenues for the second quarter 2008 were RMB504.8 million (US\$73.6 million), representing a 7.0% increase compared to RMB471.6 million in the first quarter 2008, and a 36.3% increase compared to RMB370.2 million in the second quarter 2007.

Online game net revenues were RMB503.3 million (US\$73.4 million), an increase of 7.0% from RMB470.2 million in the first quarter 2008, and an increase of 36.6% from RMB368.4 million in the second quarter 2007. The sequential rise in online game net revenues was primarily attributable to the growth in player base achieved by *ZT Online*, as well as contributions from the game *Giant Online*.

ACU for online games¹ in the second quarter 2008 reached 620,000, an increase of 13.4% over the first quarter 2008 and 20.3% over the second quarter 2007. PCU for online games¹ in the second quarter 2008 was 2,339,000, representing a 42.1% increase from the first quarter 2008 and a 118.1% increase over the second quarter 2007. The year-over-year increases resulted from successful in-game marketing programs for both *ZT Online* and *Giant Online*, which continue to attract new players through constant updates, allowing for increased interactivity among players, which encourages in-game community cohesion. APA for online games¹ in the second quarter 2008 grew 21.7% from the first quarter 2008 and 41.0% over the second quarter 2007, to 1,760,000. The significant year-over-year growth in APA is primarily attributable to the increased size and scope of our games and player base in general. The sequential growth in APA resulted from the realization of new paying accounts driven by the rapid build-up in ACU and PCU beginning in the first quarter 2008.

Table of Contents

FOR IMMEDIATE RELEASE

ARPU for online games¹ in the second quarter 2008 decreased 12.1% from the first quarter 2008 and 3.2% from the second quarter 2007 to RMB285.9. The year-over-year and sequential decreases resulted from APA growing faster than revenues; however, we believe the strong growth in APA is an important component of ensuring long-term, sustainable growth.

Cost of Services. Cost of services was RMB57.8 million (US\$8.4 million), representing a 49.6% increase over the same period last year, and an increase of 13.7% from the first quarter 2008. The quarter-over-quarter increase in cost of services was mainly due to a RMB2.0 million rise in internet data center cost and a RMB0.8 million increase in the depreciation of our servers, as we continue to invest in our infrastructure and capabilities to provide better services and a high quality gaming experience to our gamers, as well as to support the stable growth of ACU and PCU of our games. Additionally, more efforts have been made to maintain and expand our game operations team, which led to an increase in staff salaries of RMB2.9 million. The year-over-year increase in cost of services was mainly a result of the rapid expansion of our business, including the purchase of more servers and hiring of staff to support our game operations.

Gross Profit and Gross Margin. Gross profit increased sequentially by RMB26.2 million and year-over-year by RMB115.4 million to RMB447.0 million (US\$65.2 million). Gross margin for the second quarter 2008 was 88.6%, down slightly from 89.6% in the second quarter 2007 and down 0.6% over the first quarter 2008. The slight decrease in gross margin quarter-over-quarter was mainly due to the increase in cost of services.

Operating Expenses. Total operating expenses of RMB118.8 million (US\$17.3 million) represented an increase of 19.0% from RMB99.8 million in the first quarter 2008, and an increase of 75.0% from RMB67.9 million in the second quarter 2007. The sequential increase in operating expenses was primarily driven by the increase in sales and marketing and R&D expenses, while the year-over-year increase in operating expenses was primarily impacted by continued R&D and sales and marketing infrastructure expansion to accelerate our business growth.

Research and product development expenses for the second quarter 2008 were RMB19.9 million (US\$2.9 million), an increase of 68.1% from RMB11.8 million in the previous quarter, and up 502.8% from RMB3.3 million in the second quarter 2007. The significant sequential increase in R&D expenses is mainly attributable to an increase in staff salary and compensation as we look to retain our current talent base and hire additional game architects with great potential in the gaming industry. The Company has also rented a new building for the R&D department at our Shanghai headquarters, resulting in an increase of rental expenses. The year-over-year increase resulted from the hiring of additional senior game architects and engineers to further strengthen our R&D capabilities to enrich our game designs and generate innovative game ideas.

Sales and marketing expenses were RMB83.6 million (US\$12.2 million), an increase of 28.9% from RMB64.9 million in the previous quarter and up 88.3% from RMB44.4 million in the second quarter 2007. The significant increase in our sales and marketing expenses was mainly attributable to our efforts to promote the open beta launch of our game, *Giant Online*, throughout the country, as well as to facilitate further penetration of *ZT Online*, which included the production of additional banners, posters and giveaways in addition to the hiring of temporary sales and marketing personnel.

Table of Contents

FOR IMMEDIATE RELEASE

General and administrative expenses for the quarter were RMB30.3 million (US\$4.4 million), representing a sequential increase of 7.9% from RMB28.1 million and a 50.1% year-over-year increase from RMB20.2 million. The sequential rise was due to the increase of consulting and professional fees to further improve our management's efficiency. The year-over-year increase of general and administrative expenses was mainly attributable to the expansion of managerial size and functionality.

Financial Incentive. The financial incentive received in the second quarter, which represents a sales tax refund from the municipal government, was RMB15.0 million. This refund relates to the sales tax accounted for in our cost of services and is treated as a deduction in operating expenses.

Interest Income. Interest income declined sequentially to RMB43.4 million (US\$6.3 million) from RMB53.8 million due to a decline in interest rates and a decrease in cash and cash equivalents as we paid a previously declared dividend of US\$81.4 million.

Income Tax Expense. Income tax expense for the second quarter 2008 was RMB17.5 million (US\$2.5 million), which decreased substantially compared with last quarter. This decrease was mainly the result of the release of valuation allowance.

Net Income. Net income for the second quarter 2008 was RMB350.6 million (US\$51.1 million), a year-over-year increase of 32.7% from RMB264.2 million, and a sequential increase of 3.5% from RMB338.7 million. Net income margin was down slightly to 69.5% for the second quarter 2008, as compared to 71.4% in the second quarter 2007 and 71.8% in the preceding quarter. The decrease in net margin was mainly attributed to the increase of operating expenses.

Cash, Cash Equivalents and Short-Term Investments. As of June 30, 2008, Giant's cash, cash equivalents and short-term investments totaled RMB5,729.6 million, compared to RMB6,045.5 million as of March 31, 2008. This decrease was mainly attributable to a previously declared dividend during the second quarter 2008 in the amount of US\$81.4 million, as disclosed in our IPO prospectus and in our annual report for the year 2007.

Business Highlights and Outlook

ZT Online Our first internally developed and flagship game, *ZT Online*, has continued to remain successful, having reached a new industry record PCU at the time of 2.1 million on April 26, 2008. During the second quarter we were able to launch in-game features and promotions that were successful in gathering gamers online while simultaneously raising the level of fun and interaction. To keep players engaged, in the second quarter our development team added multiple new features to *ZT Online*'s already robust content set, including two new professions and a duplicate map system, which allows players to join together and combat enemy bosses. As part of our market segmentation strategy, we recently launched *ZT Online Classic Edition*, which is aimed at winning back users who preferred the monetization features of *ZT Online* in 2006 and stopped playing the game over a year ago. We are also currently testing

FOR IMMEDIATE RELEASE

a new expansion pack that will bring real-time strategy features, which are typically only available within console games, to *ZT Online* gamers. As a testament to the strength of our server-side engine technology, in the second quarter we exceeded 40,000 concurrent users in a single shard, a major milestone considering most Chinese online games only allow several thousand concurrent users per shard. We have also granted an exclusive license to VinaGame to operate *ZT Online* in Vietnam. We expect to begin beta testing in Vietnam in late September 2008.

Giant Online We launched open beta testing of *Giant Online*, the Company's second internally developed game, at the end of the first quarter 2008. The game reached a PCU of over 237,000 on the first day of its open beta launch on March 28, 2008, making it one of the best-performing open beta launches by PCU thus far in 2008. Soon afterwards, *Giant Online* went on to reach a PCU of over 344,000 on May 3, 2008. Since then, we have been collecting and thoroughly analyzing feedback from gamers, in order to continue to improve the game and optimize features according to player requests. Over the next several months, we plan to launch the final open beta version of *Giant Online*, which will contain new gameplay features constructed from the feedback we have gathered during the open beta process in the past few months. These features will include country vs. country battles, army base invasions, casual-themed tasks, and prix-fixe equipment sets.

Empire of Sports *Empire of Sports* is a 3D massively multiplayer online, or MMO, game, featuring a wide range of sporting events. At the end of the first quarter 2008, the developers, Switzerland-based Empire of Sports Ltd., began a European Private Launch initially limited to 5,000 players. The developers have since enlarged the number of players to 15,000 and continue to unlock additional features on a regular basis. *Empire of Sports* is planned for full release in Europe in late 2008. We are currently in the process of localizing the game for the Chinese market and have developed anti-cheating and anti-fatigue systems to best suit our players' needs. We expect *Empire of Sports* to begin closed beta testing in China in the first quarter 2009.

King of Kings III *King of Kings III* is a 3D free-to-play medieval magical MMO game. Our newly formed in-house development team and high level managers in Shanghai have been optimizing the game and making recommendations to the developers at Taiwan Lager Network Technology Co., Ltd., or Lager Network, to localize the game for mainland China. Our team has also been enhancing the graphics and adding additional community features to the game's content. We have also decided to shift *King of Kings III* from Lager Network's server platform to our proprietary, China-based server engines, whose technology platform is derived from that of *ZT Online* and *Giant Online*. As a result of this migration, which will increase the number of concurrent users allowed on a single shard and provide gamers with optimal graphics and an overall improved gaming experience, we now expect to commence closed beta testing of *King of Kings III* in the first quarter of 2009.

51.com Strategic Investment Giant has entered into a definitive agreement to purchase approximately US\$51 million in redeemable convertible preferred shares of Five One Network Development Co., Ltd (51.com), a leading Chinese online social networking service provider, representing a 25% interest in 51.com. Through this transaction, which closed on July 14, 2008, Giant expects to leverage 51.com's large community base in order to broaden Giant's player base, expand the community-building opportunities, reinforce user stickiness, and extend the lifecycles of Giant's games in the long term.

FOR IMMEDIATE RELEASE

Third Quarter 2008 Guidance In July, we adjusted *ZT Online*'s revenue model by reducing the scope of in-game monetization features. Although this will affect our revenue in the near-term, we believe this will help us to continue to grow our player base and active paying accounts in the long run. To date, most *ZT Online* players have accepted these new changes. As part of the revenue model adjustments, we have also initiated our segmentation strategy by launching *ZT Online Classic Edition* into closed beta at the end of July. Thus far, the market reaction to *ZT Online Classic Edition* has exceeded our expectations. We plan to launch *ZT Online Classic Edition* into open beta at the end of September. Considering that these changes are taking place in the third quarter, it is difficult for us to have clear visibility into their potential financial impact. As a result, we will not be providing top-line revenue guidance for the third quarter 2008. However, the Company remains fundamentally sound and we believe our sequential growth in the fourth quarter 2008 will be more in line with our historic track record.

Revocability of Proxies

Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before its use by delivering a written notice of revocation or a duly executed proxy bearing a later date or, if you hold ordinary shares, by attending the meeting and voting in person. A written notice of revocation must be delivered to the attention of Giant Interactive Group Inc., if you hold our ordinary shares, or to Citibank N.A. if you hold American Depositary Shares (ADSs) representing our ordinary shares.

Record Date, Share Ownership, and Quorum

As of March 31, 2008 258,670,626 of our ordinary shares, par value HK\$0.000002 per share, were issued and outstanding, approximately 65,777,036 of which were represented by ADSs. Two (2) shareholders entitled to vote and present in person or by proxy that represent not less than one-third of our issued and outstanding voting power represented by the issued and paid up shares in the Company shall form a quorum for all purposes.

Voting and Solicitation

Holders of ordinary shares outstanding on the record are entitled to one vote for each ordinary share held. At the annual general meeting every ordinary shareholder present in person or by proxy or, in the case of an ordinary shareholder being a corporation, by its duly authorized representative, may vote for the fully paid ordinary shares held by such ordinary shareholder. A resolution put to the vote of a meeting shall be decided on a poll. The result of the poll shall be deemed to be the resolution of the meeting.

The costs of soliciting proxies will be borne by us. When proxies are properly dated, executed, and returned by holders of ordinary shares, the ordinary shares they represent will be voted at the annual general meeting in accordance with the instructions of the shareholder. If no specific instructions are given by such holders, the ordinary shares will be voted FOR each proposal and in the proxy holder's discretion as to other matters that may properly come before the annual general meeting. Abstentions by holders of ordinary shares are included in the determination of the number of ordinary shares present and voting but are not counted as votes for or against a proposal. Broker non-votes will not be counted towards a quorum or for any purpose in determining whether the proposal is approved.

PROPOSAL 3

INCREASE IN THE AUTHORIZED STOCK OPTIONS UNDER THE 2007 PLAN

Our board of directors and our compensation committee have determined that it is in the best interest of the Company and its shareholders to amend the Company's 2007 Performance Incentive Plan (the Plan) to increase the number of options available for issuance. As of June 30, 2008, including cancelled and expired options under the Plan, we have issued 6,415,000 stock options and have 1,385,000 stock options remaining for issuance. Our board and the compensation committee are proposing that we increase the amount of stock options available for grant by 1,400,000 stock options so that, if approved, there will be 9,200,000 stock options available for grant (the Plan Amendment). The board and the compensation committee have approved the Plan Amendment to be effective as of the date of approval by the Company's shareholders. The Plan Amendment will not become effective unless shareholder approval is obtained at the annual meeting. The principal features of the Plan are summarized below and are qualified in their entirety by preference to the full text of the plan. Our Plan is included as Exhibit 10.3 to our Registration Statement on Form F-1, as filed with the Securities and Exchange Commission, and is also available upon written request to our investor relations department at 2/F No. 29 Building, 396 Guilin Road, Shanghai, 200233, People's Republic of China.

Description of the 2007 Performance Incentive Plan

We adopted the Plan in connection with our initial public offering in 2007. The Plan permits awards of non-qualified stock options, incentive stock options, stock appreciation rights, restricted stock, restricted stock units, stock bonuses, phantom stock, stock units, dividend equivalents, performance stock and similar awards.

Table of Contents

Options granted under the Plan vest at the discretion of the board of directors. To date, the vesting term of the options granted under the Plan has ranged from four to five years. As of June 30, 2008, we have granted 6,415,000 stock options and have 1,385,000 stock options remaining for issuance.

The board of directors believes that stock incentive plans as part of a comprehensive compensation package provides the Company with an opportunity to communicate its goals and standards of performance, attract and retain talented individuals, and achieve continued success and growth. The Company believes it can build shareholder value by motivating valuable employees, rewarding individual performance and developing long-term employee commitment through ownership of company stock.

The affirmative vote of a simple majority of the votes of the holders of ordinary shares present in person or represented by proxy and voting at the annual general meeting will be required to approve this proposal.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR PROPOSAL 3, THE INCREASE IN THE AUTHORIZED STOCK OPTIONS UNDER THE 2007 PLAN.

PROPOSAL 4

APPOINTMENT OF INDEPENDENT AUDITORS

Our audit committee recommends, and our board of directors concurs, that Ernst & Young Hua Ming be appointed as our independent auditors for the fiscal year ending December 31, 2008. Ernst & Young Hua Ming has served as our independent auditors since 2007.

In the event our shareholders fail to vote in favor of the appointment, our audit committee will reconsider its selection. Even if the shareholders vote in favor of the appointment, our audit committee in its discretion may direct the appointment of a different independent auditing firm at any time during the year if the audit committee believes that such a change would be in the best interests of our company and shareholders.

A representative of Ernst & Young Hua Ming is expected to be present at the annual general meeting, will have the opportunity to make a statement if he or she desires to do so, and will be available to respond to appropriate questions.

The affirmative vote of a simple majority of the votes of the holders of ordinary shares present in person or represented by proxy and voting at the annual general meeting will be required to approve this proposal.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR PROPOSAL 4, THE APPOINTMENT OF ERNST & YOUNG HUA MING AS OUR INDEPENDENT AUDITOR FOR FISCAL YEAR 2008.
