Below are the main results for the year:

The gross gain increased 59.4% from Ps. 41.2 million during fiscal year 2007 to Ps. 65.7 million during fiscal year 2008, principally due to an increase of the net results of the grain

activity of 71.7% to Ps. 46.2 million. This is due to the better prices in grains and the increase in the total amount of exploited hectares, which compensated the cost of production increases and the slight decrease in the performance due to adverse weather conditions.

We have produced 198,146 tons of grains in 58,705 hectares. For the current fiscal year we expect to sow 90,000 hectares approximately for grain production.

The gross revenues of the cattle and milk segment have also increased. The sales performance of our milk business was favorable, increasing 23.7% in liters and in 79.8% in monetary terms.

The operating results, without considering the Establishment Sale Results which varies from time to time depending on the sale of farms, increased in a 50%.

In March, we increase our capital stock on US\$ 288 millions, which was totally subscribed, showing once again the support of the investors to the expansion plans of the Company to new regions, in which the Company see the possibility to continue anticipating the appreciation cycle of land.

We have acquired bordering establishments to our farms *El Invierno* and *8 de Julio*, increasing the productive areas in such farms over a 50% and a 10%, respectively.

We have sold the fifth part of *La Esmeralda* farm, located in the Province of Santa Fé, for a value 8 times superior to its book value. In *Los Pozos* farm, located in the Province of Salta, we have sold for approximately US\$ 250 per hectare a non developed area that was acquired for US\$ 10 per hectare.

We continue developing the remaining 240.000 hectares of *Los Pozos* farm, which has optimal conditions for cattle production, in which we have approximately 50,000 head of cattle in 33,000 hectares of production.

Considering the expansion plan to new countries as Paraguay, Bolivia and Uruguay, we have completed the first step after the end of the fiscal year, acquiring 20,000 hectares in Paraguay through the subscription of a series of agreements to develop the real estate, agricultural and forestry market in such country.

At the end of the fiscal year we held an interest of 42.13% in IRSA and of 14.4% in BrasilAgro, a company which has more than 145,000 hectares in 7 farms and that in the last quarter has sold a farm of its portfolio, obtaining a yield of the 116% over its purchase value.
