As a result, we are mailing to most of our stockholders a Notice of Internet Availability of Proxy Materials (the Notice) instead of a paper copy of this Proxy Statement and our 2009 Annual Report. We believe that this process allows us to provide our stockholders with the necessary information while reducing our costs and lessening the environmental impact of the annual meeting. The Notice contains instructions on how to access the Proxy Statement and Annual Report over the Internet. The Notice also contains instructions on how to request a paper copy of the proxy materials.

The foregoing matters are described in more detail in the Proxy Statement that is available at <http://www.proxyvote.com>.

At the meeting, we will also report on the Company's 2009 business results and other matters of interest to stockholders.

Only holders of record, as of the close of business on March 15, 2010, of shares of common stock of the Company will be entitled to notice of and to vote at the meeting and any adjournments thereof.

PROXY STATEMENT

AIR TRANSPORT SERVICES GROUP, INC.

145 Hunter Drive, Wilmington, Ohio 45177

ANNUAL MEETING OF STOCKHOLDERS, MAY 11, 2010

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors (the **Board**) of Air Transport Services Group, Inc., a Delaware corporation (the **Company** or **ATSG**), for use at the annual meeting of stockholders to be held at the Boyd Cultural Arts Center/Heiland Theatre, Wilmington College, 1870 Quaker Way, Wilmington, Ohio 45177, at 11:00 a.m., local time, on Tuesday, May 11, 2010, and at any adjournments thereof. Proxies may be solicited in person, by telephone or mail, and the costs thereof will be borne by the Company.

The proxy materials, including this Proxy Statement, proxy card and the Company's 2009 Annual Report, are being distributed and made available on or about April 1, 2010. This Proxy Statement contains important information for you to consider when deciding how to vote on the matters brought before the meeting. Please read it carefully.

In accordance with rules and regulations adopted by the U.S. Securities and Exchange Commission (the **SEC**), the Company has elected to provide stockholders access to proxy materials over the Internet. Accordingly, a Notice of Internet Availability of Proxy Materials (the **Notice**) will be mailed on or about April 1, 2010 to stockholders who owned common stock at the close of business on March 15, 2010. Stockholders will have the ability to access the proxy materials on the website referred to in the Notice or request a printed set of the proxy materials be sent to them by following the instructions in the Notice.

At the annual meeting, the holders of shares of common stock of the Company will (1) vote to elect three directors for terms of three years and until their successors have been elected and qualified, (2) consider and vote on a proposal to re-approve the business criteria that may be utilized in establishing targets for the granting and vesting of performance-based awards under the Company's Amended and Restated 2005 Long-Term Incentive Plan so as to qualify the compensation attributable to those awards as performance-based under Section 162(m) of the Internal Revenue Code, (3) consider and vote on a proposal to ratify the appointment of Deloitte & Touche LLP as the independent registered public accounting firm of the Company for 2010, and (4) transact such other business as may properly come before the meeting and any adjournments thereof.

On December 31, 2007, ABX Air, Inc. (**ABX Air**) reorganized its operations into a holding company structure (the **Reorganization**) whereby ABX Air became a direct, wholly-owned subsidiary of ATSG (formerly ABX Holdings, Inc.), and ATSG became the public reporting company. On that same date, ATSG acquired Cargo Holdings International, Inc. (**CHI**), which consisted of four principal operating subsidiaries, including Air Transport International, LLC (**ATI**), Capital Cargo International Airlines, Inc. (**CCIA**), Cargo Aircraft Management, Inc. (**CAM**) and LGSTX Services, Inc. (**LGSTX**). Throughout this Proxy Statement, when we refer to the Company in reference to activities that occurred prior to the Reorganization on December 31, 2007, we are referring to ABX Air, and when we refer to the Company in reference to activities that occurred after the Reorganization, we are referring to ATSG, except to the extent the context otherwise indicates. As a result of the Reorganization, the common stock of ATSG replaced the common stock of ABX Air.

VOTING AT THE MEETING

Voting Rights and Outstanding Shares

Only holders of record as of the close of business on March 15, 2010, of shares of common stock of the Company will be entitled to notice of and to vote at the meeting and any adjournments thereof. The common

Table of Contents

stock is the only class of voting securities of the Company currently outstanding. Each share of common stock is entitled to one vote at the meeting on all matters properly presented at the meeting. On March 15, 2010, there were 63,408,566 shares of common stock outstanding. At the meeting, the presence in person or by proxy of a majority of the outstanding shares is required for a quorum.

Voting Procedures

Most stockholders have a choice of voting over the Internet, by telephone or by using a traditional proxy card. Please refer to your proxy or voting instruction card to see which options are available to you and how to use them. The deadline for voting by telephone or over the Internet is 11:59 p.m. ET, on May 10, 2010. If you are a registered stockholder and attend the meeting, you may deliver your completed proxy card in person. Street name stockholders who wish to vote at the meeting will need to obtain a signed proxy form from the institution that holds their shares.

Vote Required

Proposal 1: Election of Directors. The three nominees for director who receive the most votes of all the votes cast for directors will be elected. This means that if you do not vote for a particular nominee, or if you withhold authority to vote for a particular nominee when voting your proxy, your vote will not count for or against the nominee. If a listed nominee becomes unavailable, the persons named in the proxy may vote for any substitute designated by the Nominating and Governance Committee; however, the Board of Directors at this time has no reason to anticipate that this will occur.

Proposal 2: Re-approval of Business Criteria under Long-Term Incentive Plan. The affirmative vote of a majority of the votes represented at the annual meeting, either in person or by proxy, and entitled to vote on this proposal, is required to re-approve the business criteria utilized in establishing targets for the granting and vesting of performance-based awards under the Company's Amended and Restated 2005 Long-Term Incentive Plan so as to qualify the compensation attributable to those awards as performance-based under Section 162(m) of the Internal Revenue Code. Abstentions will be counted as represented and entitled to vote and will therefore have the effect of a vote against this proposal.

Proposal 3: Ratification of Selection of Independent Registered Public Accounting Firm. The affirmative vote of a majority of the votes represented at the annual meeting, either in person or by proxy, and entitled to vote on this proposal, is required to ratify the selection of Deloitte & Touche LLP as the independent registered public accounting firm of the Company for the 2010 fiscal year. Abstentions will be counted as represented and entitled to vote and will therefore have the effect of a vote against this proposal.

If you properly sign and return your proxy card or complete your proxy via the telephone or Internet, your shares will be voted as you direct. Unless a stockholder provides specific instructions to withhold votes from a nominee for director, the persons named in the proxy will be authorized to vote the shares represented thereby **FOR** the election of the Board's nominees for director. To the extent specific instructions are not given with respect to Proposals 2 and 3, the shares represented by the proxy will be voted **FOR** the proposal.

Shares Registered in the Name of a Broker

Brokerage firms holding shares in street name for customers are required to vote such shares in the manner directed by their customers. If your shares are held in a stock brokerage account or by a bank or other nominee, you are considered the beneficial owner of shares held in street name, and these proxy materials are being forwarded to you by your broker or nominee which is considered, with respect to those shares, the stockholder of record. As the beneficial owner, you have the right to direct your broker how to vote and are also invited to attend the meeting. Your broker or nominee has enclosed or provided a voting instruction card for you to use in directing the broker or nominee how to vote your shares. However, since you are not the stockholder of record,

Table of Contents

you may not vote these shares in person at the meeting unless you obtain a signed proxy from the record holder giving you the right to vote these shares. A broker non-vote occurs when a stockholder of record, such as a broker or bank, does not vote on a proposal because it has not received voting instructions from the beneficial owner and does not have discretionary authority to vote on the proposal. The proposal for the election of directors is not a discretionary item, so you must provide instructions to your broker in order to cast a vote on Proposal 1. We do not expect broker non-votes on Proposals 2 and 3.

Revocability

You may revoke your proxy in one of the following ways: by voting in person at the annual meeting, by giving written notice of revocation to the Secretary of the Company prior to the voting, or by giving a later dated proxy (including by means of a telephone or Internet vote) at any time before the voting.

Confidentiality

It is the policy of the Company that all proxy cards, ballots and vote tabulations that identify the vote of a specific stockholder on any matter submitted for a vote of stockholders be kept secret from the Company and its directors, officers and employees, except when (a) disclosure is required by applicable law or regulation, (b) a stockholder expressly requests such disclosure, or (c) in a contested proxy solicitation.

Proxy Solicitation

Proxies may be solicited by directors, executive officers and other employees of the Company in person or by telephone, telegraph or mail only for use at the annual meeting. All solicitation costs will be borne by the Company. The Company has retained Georgeson Shareholder Communications, Inc. (Georgeson) to assist with the solicitation of proxies for a project management fee of \$14,500, plus reimbursement for out-of-pocket expenses. The Company may also engage Georgeson to solicit proxies by telephone for a reasonable additional fee determined on a per-completed-call basis. All solicitation costs will be borne by the Company.

Proxy Tabulation

Proxies and ballots will be received and tabulated by an independent firm that is not affiliated with the Company. The inspector of election will also be independent of the Company. Subject to the above exceptions to the confidential voting policy, comments on written proxy cards will be provided to the Secretary of the Company without disclosing the vote unless the vote is necessary to understand the comment.

Separate Voting Materials

If you share an address with another stockholder and we sent you a notice of an intent to send you a householded mailing, you may receive only one set of proxy materials (including our annual report to stockholders, 2009 Form 10-K, and proxy statement) unless you have provided contrary instructions. If you wish to receive a separate set of documents now or in the future, you may write or call to request a separate copy of these materials from:

Air Transport Services Group, Inc.

CORPORATE GOVERNANCE AND BOARD MATTERS

The Board of Directors held 11 meetings during 2009 and each director attended at least 91% of the meetings of the Board and 80% of the meetings of the committees on which he was a member. Directors are expected to attend board meetings, meetings of the committees on which they serve and the annual meeting of stockholders. All of the directors then in office attended the Company's 2009 annual meeting, except for Mr. Carey, who was unable to travel for health reasons.

Independence

The Board has determined that each of the current directors, except Joseph C. Hete (by virtue of his employment as President and Chief Executive Officer of the Company), has no material relationship with the Company (either directly or as a partner, stockholder or officer of an organization that has a relationship with the Company) and is independent within the meaning of the independence standards of the SEC, NASDAQ and the

Table of Contents

Certificate of Incorporation, as currently in effect. In considering the independence of Mr. Teets, the Board considered the fact that he is a partner of Red Mountain Capital Partners, LLC, the owner of 12.43% of the Company's outstanding shares, and concluded that his relationship with Red Mountain Capital Partners, LLC does not impact his independence as a director of the Company.

Director Compensation

The Company uses a combination of cash and long-term incentive compensation to attract and retain qualified candidates to serve on the Board. The Compensation Committee recommends to the Board of Directors for its approval the form and amount of compensation paid to the non-employee directors. The Committee reviews the compensation arrangements of the directors on annual basis, which review includes an evaluation prepared on an annual or bi-annual basis by Towers Watson, a national compensation consulting firm. The evaluation considers the compensation arrangements for the directors of similar companies. Like the executive officers, the directors are also subject to minimum stock ownership requirements. Each director is required to own stock and/or restricted stock units equal to a multiple of his annual retainer within a specified time period after his election to the Board.

Cash Compensation

During 2009, non-employee directors received an annual fee of \$30,000, plus \$1,500 for each board and committee meeting attended. In addition, the Chairman of the Board received an annual fee of \$60,000, the Chairman of the Audit Committee received an annual fee of \$15,000, and the respective Chairman of the Compensation Committee and the Nominating and Governance Committee each received an annual fee of \$4,000.

Long-Term Incentive Compensation

The long-term incentive compensation awards for the non-employee directors are comprised solely of restricted stock units. Since the approval of the Company's Long-Term Incentive Plan at the Annual Stockholders' Meeting in 2005, the Board has granted restricted stock unit awards to the Company's non-employee directors on an annual basis under the terms of the Plan. The size of the grants are determined by the Board and are based on the Company's performance during the prior year and a periodic evaluation of the compensation arrangements of other companies prepared by Towers Watson, a national compensation consulting firm, retained by the Compensation Committee.

Director Compensation Table

The table below summarizes the compensation paid by the Company to non-employee directors for the fiscal year ended 2009.

Consideration of Nominees for Director

Director Qualifications

The Nominating and Governance Committee is responsible for reviewing and developing the Board's criteria for evaluating and selecting new directors based on the needs of the Company from time to time. The criteria that will be used in connection with evaluating and selecting new directors will include the criteria set forth in the Company's Corporate Governance Guidelines and in the Certificate of Incorporation. While these materials do not contain a formal diversity policy, the Corporate Governance Guidelines seek to ensure that candidates can work constructively with people holding diverse viewpoints and can tolerate opposing views. The Corporate Governance Guidelines are available through our Internet website at <http://www.atsginc.com>.

In addition to the criteria set forth in the Corporate Governance Guidelines, the Committee will consider whether the director candidate meets the definition of independence set forth under NASDAQ Marketplace rules, applicable law and the Certificate of Incorporation, as well as the candidate's skills, occupation, and experience in the context of the needs of the Board. The Board will nominate new directors only from candidates identified, screened and approved by the Nominating and Governance Committee. The Nominating and Governance Committee and the Board will take into account the nature of and time involved in a director's service on other boards in evaluating the suitability of individual directors and making its recommendation to the Company's stockholders. Service on boards of other organizations must be consistent with the Company's conflict of interest policies applicable to directors as set forth in the Core Requirements of the Code of Conduct for Conducting Business.

Evaluation of Stockholder Nominees

The policy of the Nominating and Governance Committee is to consider, for nomination by the Board, properly submitted stockholder recommendations of potential nominees for membership on the Board. In evaluating such nominees, the Nominating and Governance Committee seeks to achieve a balance of knowledge, experience and capability on the Board and to address the membership criteria set forth above under Director Qualifications. There are no differences in the manner in which the Committee evaluates nominees for director based on whether the nominee is recommended by a stockholder, except to the extent provided as follows: (1) such candidates must be able to meet with one or more members of the Committee and/or the Board upon request, and (2) the stockholder must provide: (a) all written materials that would be necessary for a stockholder to make a nomination pursuant to the Bylaws, which materials must be submitted no later than the time permitted for a stockholder to make a director nomination pursuant to the Bylaws; and (b) other information requested by the Company reasonably related to the recommended individual's qualifications as a nominee.

Director Nominations by Stockholders

The Bylaws permit stockholders to nominate directors for consideration at an annual stockholders' meeting without the prior recommendation of the Nominating and Governance Committee or the nomination of the Board. Stockholder nominations to the Board of Directors for the Annual Stockholders' Meeting for 2011 must be forwarded to the Chairman of the Nominating and Governance Committee c/o Secretary, Air Transport Services Group, Inc., 145 Hunter Drive, Wilmington, Ohio 45177, so as to be received not less than 90 days nor more than 120 days prior to the anniversary of the annual stockholders' meeting for 2010 (May 11, 2010); provided, however, that in the event the date of the annual stockholders' meeting for 2011 is advanced or delayed by more than 30 days from such anniversary date, notice by the stockholder to be timely must be so delivered not earlier than the 120th day prior to such annual meeting and not later than the close of business on the later of the

90th day prior to such annual meeting or the 10th day following the day on which public announcement of the date of such meeting is first made. Any nominations received after such date will be considered untimely. The written notice must satisfy certain requirements specified in the Bylaws. A copy of the Bylaws will be sent to any stockholder upon written request to the Secretary of the Company.

Corporate Governance Guidelines

The Company adopted a set of Corporate Governance Guidelines in February 2005 to help the Board fulfill its responsibility to stockholders to oversee the work of management in the conduct of the Company's business and to seek to serve the long-term interests of stockholders. The Guidelines are intended to ensure that the Board has the necessary authority and practices in place to review and evaluate the Company's business operations as needed and to make decisions that are independent of the Company's management. The Guidelines address such topics as the composition of the Board, the selection of Board members, Board independence, the procedures relating to, and the conduct of, Board and committee meetings, the compensation of directors and the Chief Executive Officer, periodic self-evaluations of the Board and committees, and other practices. The Corporate Governance Guidelines are available through our Internet website at <http://www.atsginc.com>.

Code of Ethics for the CEO and CFO

The Company has adopted a Code of Ethics that sets forth the policies and business practices that apply to the Company's Chief Executive Officer and Chief Financial Officer. The Code of Ethics is in compliance with SEC rules and addresses such topics as compliance with laws; full, fair, accurate and timely disclosure of financial results; professional, honest and ethical conduct; conflicts of interest; and reporting procedures and accountability. The Code of Ethics is available through our Internet website at <http://www.atsginc.com>.

Code of Conduct for Conducting Business

The Company has adopted a Code of Conduct for Conducting Business that sets forth the policies and business practices that apply to all of the Company's employees and directors. The Code of Conduct addresses such topics as compliance with laws; moral and ethical conduct; equal employment opportunity; promoting a work environment free from harassment or discrimination; and the protection of intellectual property and proprietary information. The Code of Conduct for Conducting Business is available through our Internet website at <http://www.atsginc.com>.

Executive Sessions

The independent directors of the Company meet in executive session (with no management directors or management present) on a regular basis and upon the request of one or more independent directors. The sessions are scheduled and chaired by the Chairman of the Board, who is an independent director. The executive sessions include whatever topics the independent directors deem appropriate.

Communications with the Board

Stockholders and other parties interested in communicating directly with the Company's directors or with the non-management directors as a group may do so by writing to the Secretary of the Company at Air Transport Services Group, Inc., 145 Hunter Drive, Wilmington, Ohio 45177. All letters received by the Company and

Table of Contents

addressed to non-management members of the Board will be forwarded to the Chair of the Audit Committee. The Chair of the Audit Committee will deliver a summary of such correspondence to the full Board if he deems it appropriate at its next regularly scheduled meeting. Concerns relating to accounting, internal controls or auditing matters are immediately brought to the attention of the Company's internal audit department and handled in accordance with procedures established by the Audit Committee with respect to such matters.

Board Leadership Structure

James H. Carey has served as Chairman of the Board of Directors since May 2004. The Board is aware that one of its responsibilities is to oversee Company management and make performance, risk and compensation related decisions regarding management. In order to appropriately balance the Board's focus on strategic development with its management oversight responsibilities, the Board of Directors requires that the Chairman of the Board be a non-management, independent director. The Chairman of the Board manages the Board's affairs, including organization, functional effectiveness, and fulfilling the Board's responsibilities. The Chief Executive Officer is involved in this process by updating the Chairman of the Board and the Board in its entirety regarding the day-to-day management of the Company. While the Company has established separate roles for the Chairman of the Board and Chief Executive Officer, they both play a vital role in the management of the Company and must work closely in order to maximize the Company's potential.

Our Corporate Governance Guidelines provide that (i) a majority of the directors of the Company shall be independent directors as that term is defined in the Corporate Governance Rules of the NASDAQ Global Market, Inc., (ii) the Chief Executive Officer will be the only employee of the Company who also serves as a director of the Company, and (iii) the Chairman of the Board should be a non-management, independent director.

As described above under Independence, seven of our eight directors are independent. In addition, all of the directors on each of the Audit Committee, the Compensation Committee and the Nominating and Governance Committee are independent directors and each of these committees is led by a committee chair. The independent directors meet in executive session (with no management directors or management present) on a regular basis (typically at the time of each quarterly board meeting) and upon the request of one or more independent directors.

We have employed this leadership structure since becoming publicly traded in August 2003. We believe that having a separate Chairman and Chief Executive Officer, a board with a majority of independent directors who regularly meet in executive session, and independent chairs for the Board's Audit, Compensation, and Nominating and Governance committee, provides the Board with the best form of leadership for ensuring that the Board has the necessary authority and practices in place to review and evaluate the Company's business operations as needed and to make decisions that are independent of the Company's management.

Board Role in Risk Oversight

The Board's function of overseeing risk is handled primarily by the Audit Committee. The Audit Committee discusses risk assessment and risk management policies with management, internal auditors, and the independent auditors. This includes the oversight of the Company's corporate compliance program, as well as the internal audit function.

The Company's Senior Vice President, Corporate General Counsel and Secretary, reports directly to the Chief Executive Officer, providing him with visibility to the Company's risk profile. The Board of Directors believes that the work undertaken by the Audit Committee enables the Board of Directors to effectively oversee the Company's risk management function.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Compensation Philosophy and Objectives

The Compensation Committee believes that the compensation paid to its executive officers should assist the Company in attracting and retaining talented leaders and encouraging a high level of effective and ethical management in the best interests of the Company and its stockholders. To this end, the Compensation Committee strives to ensure that the Company's executive compensation program is competitive with that of similarly situated companies and rewards the achievement of short and long-term goals that align the interests of its executives and stockholders in seeking to increase stockholder value.

Throughout this proxy statement, the individuals who served as the Company's Chief Executive Officer and Chief Financial Officer during fiscal year 2009, as well as the other individuals included in the Summary Compensation Table below, are referred to as the named executive officers.

Chief Executive Officer's Role in the Compensation Decision Process

The Compensation Committee considers recommendations from the Chief Executive Officer with respect to the executive officers, including the named executive officers, base salaries and the portion of such individuals' incentive compensation that is tied to the accomplishment of individual goals. In making his recommendations, the Chief Executive Officer utilizes the peer group analysis described below and completes an objective and subjective review of each executive's responsibilities and performance over the prior year. The Chief Executive Officer plays no role in the compensation process with respect to his own compensation.

Establishing Compensation Levels

The Compensation Committee typically meets during the first quarter of each year to establish the base salaries for each of the executive officers and to approve incentive awards for the previous year based upon previously established performance goals. All changes to base salaries are effective July 1 for the year in which they are set. Equity awards are granted to be effective after the Company issues its earnings release for the fourth quarter of the fiscal year. During its first quarter meeting, the Compensation Committee also typically establishes incentive goals for the current year based upon the Chief Executive Officer's recommendations.

In May 2008, DHL, the Company's largest customer, announced its intention to significantly restructure its U.S.-based operations. Since that time, DHL has significantly reduced the services that ABX Air is performing for DHL, which has resulted in ABX Air terminating approximately 8,700 of its employees. In February 2009, the Company instituted a pay freeze throughout the organization and subsequently froze ABX Air's Retirement Income Plan, Supplemental Executive Retirement Plan and Non-Officer Benefit Protection Plan.

The Compensation Committee met in February 2009, and, in consultation with the Chief Executive Officer, determined to review the compensation and benefits arrangements for its executives and other employees throughout the Company in an effort to make the Company more cost competitive.

Compensation Consultant

In 2009, the Compensation Committee engaged Towers Watson (formerly Towers Perrin), a national compensation consulting firm, to conduct a competitive review of executive officer and senior management positions throughout the Company and its subsidiaries, including those held by the named executive officers. The Compensation Committee, in consultation with the Chief Executive Officer, utilized this assessment in evaluating the ongoing competitiveness of the Company's compensation arrangements for 2009 and for the purpose of instituting salary adjustments in response to the significant changes that had occurred in the Company's business and workforce in the wake of DHL's restructuring of its U.S. operations and as a result of the acquisition of Cargo Holdings International, Inc.

Table of Contents

The assessment prepared by Towers Watson includes both (i) transportation and general industry survey data for thirty-three executive officer and senior management positions within the Company and its subsidiaries, as available, and (ii) a proxy analysis of seventeen publicly-traded transportation industry competitors and regional airlines for four of the Company's named executive officers (peer group analysis). The transportation and general industry survey data was based on surveys published by Towers Watson and Watson Wyatt, which data was adjusted to reflect ATSG's revenue size. Neither ATSG nor Towers Watson created any specific peer groups from the survey data for benchmarking purposes. The companies utilized in the peer group analysis were:

Alaska Air Group, Inc.	JetBlue Airways Corp.
Allegiant Travel Co.	Mesa Air Group, Inc.
Atlas Air Worldwide Holdings, Inc.	Pacer International, Inc.
Dynamex, Inc.	Pinnacle Airlines Corp.
ExpressJet Holdings, Inc.	Republic Airways Holdings, Inc.
Forward Air Corp.	SkyWest, Inc.
Frontier Airlines Holdings, Inc.	US Airways Group, Inc.
Hawaiian Holdings, Inc.	

Based upon this assessment, compensation guidelines were established for each of the executive officers, including the named executive officers, and senior management positions, providing data on the 25th, 50th (median) and 75th percentile pay levels in the competitive market. The Compensation Committee had identified the 50th (median) percentile as the targeted pay level.

The transportation and general industry survey data and the peer group analysis both constituted a material component of the Compensation Committee's evaluation of the Company's compensation arrangements for 2009 with respect to Messrs. Hete, Turner, Fox and Payne. The Compensation Committee utilized the transportation and general industry survey data in evaluating the Company's compensation arrangements for 2009 with respect to Mr. Graber and the other executive officer and senior management positions, since the peer group analysis was limited to the four named executive officers set forth above.

Components of Executive Compensation for 2009

The Company's executive compensation and benefits package consists of direct compensation (base salary, short-term cash incentives and long-term equity-based incentives) and Company-sponsored retirement and benefit plans. The components of the named executive officers' compensation packages are designed to contribute to a total package that is competitive, appropriately performance-based, and valued by the Company's executive. The Compensation Committee strives to align the mix of executive officer compensation between cash and non-cash or short-term and long-term incentive compensation with competitive benchmarking described above.

Base Salary

The Company provides the named executive officers with a base salary to compensate them for services rendered during the fiscal year. The Compensation Committee determines the base salary of the Chief Executive Officer and also the other named executive officers, although the latter are determined in consultation with the Chief Executive Officer. The Compensation Committee typically reviews the base salaries of the named executive officers sometime during February as part of the Company's performance review process, as well as in the event of a promotion or other change in job responsibilities. This review primarily takes into account a compensation analysis, like the Towers Watson analysis described above; an internal review of the executive's compensation, both on an individual basis and relative to other executives; and the individual performance of the executive, as evaluated by the Chief Executive Officer.

Table of Contents

Notwithstanding the foregoing, in February of 2010, the Compensation Committee determined to maintain in effect at ABX the wage and salary freeze that was instituted throughout the organization in February 2009. Additionally, the CEO of ATSG declined a proposed increase in base salary for 2009 and had previously declined proposed increases in his base salary for 2006, 2007 and 2008. The base salaries for both the CEO of ATSG and the President of ABX Air were reduced at their request in December 2008.

The base salaries paid to the named executive officers in 2009 are set forth in the Salary column of the Summary Compensation Table below.

Short-Term Incentive Compensation

During 2009, the named executive officers had the potential to earn incentive compensation under the Company's Executive Incentive Compensation Plan (the Executive Incentive Plan). The bonus opportunity under the Executive Incentive Plan for the CEO of ATSG was based upon the achievement of incremental mark-up revenue earned under ABX Air's ACMI Service Agreement and former Hub Services Agreement with DHL and the amount of pre-tax profit earned under the other business operations of the Company. Similarly, the bonus opportunities for ABX Air's executives, including Mr. Graber, and certain other ATSG executives, including Messrs. Turner and Payne, were largely based on the achievement of incremental mark-up revenue earned under ABX Air's commercial agreements with DHL. Further, a portion of the bonus opportunities for the executives at ATI and CCIA, were based on the level of service performance under their respective agreements with BAX Global. The bonus opportunities for still other ATSG executives, including Mr. Fox, and all of the executives at ATI, CCIA, CAM and LGSTX, were based in whole or part on the amount of pre-tax profit earned by those subsidiaries.

In 2009, the named executive officers were eligible to receive a bonus under the Executive Incentive Plan utilizing a non-discretionary formula which established a bonus amount, expressed as a percentage of base salary, based upon the extent of achievement of the goals described above. Once the extent of achievement for each goal had been determined, the applicable bonus based on that level of achievement could be determined. The minimum, target and maximum bonus potentials for the named executive officers included the following:

Named Executive Officer	Threshold	Target	Maximum
Joseph C. Hete	5% of base salary	70% of base salary	130% of base salary
Quint O. Turner	4% of base salary	60% of base salary	100% of base salary
John W. Graber	4% of base salary	60% of base salary	100% of base salary
W. Joseph Payne	4% of base salary	60% of base salary	100% of base salary
Peter F. Fox	4% of base salary	60% of base salary	100% of base salary

The amounts paid to the named executive officers under the Executive Incentive Plan for 2009 are set forth in the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table below. Mr. Fox left the Company on June 30, 2009 and did not receive a bonus under the Executive Incentive Plan for 2009. The following table shows, for each of the named executive officers, other than Mr. Fox, the potential bonus amounts in for the achievement of each performance goal at threshold, target and maximum, as well as the actual bonus achieved for each goal under the Executive Incentive Plan for 2009:

In addition to the bonus amounts awarded under the Executive Incentive Plan for 2009, the Compensation Committee also approved a discretionary awards bonus pool, from which additional bonus amounts were paid to certain executive officers participating in the Executive Incentive Plan, including certain named executive officers, for their significant contributions to the Company during 2009. The Compensation Committee took into account the extraordinary efforts of the named executive officers in managing the business through the implementation by DHL of its U.S. restructuring plan and in securing a new business arrangement with DHL. The additional bonus amounts awarded to the named executive officers were as follows: Mr. Hete (\$83,000), Mr. Turner (\$45,000), Mr. Graber (\$25,000) and Mr. Payne (\$45,000). These amounts are also set forth in the Bonus column of the Summary Compensation Table below.

The Compensation Committee is currently developing an amendment to the Executive Incentive Plan for 2010, in conjunction with its review of future compensation and benefits practices for the Company's executive officers, including the named executive officers, and senior management.

Long-Term Incentive Compensation

Edgar Filing: Air Transport Services Group, Inc. - Form DEF 14A

The long-term incentive compensation awards for the named executive officers are comprised of restricted stock awards and performance-based stock unit awards. At the Annual Stockholders Meeting in 2005, the

Table of Contents

stockholders approved an omnibus long-term incentive plan entitled the ABX Air, Inc. 2005 Long-Term Incentive Plan. The Plan was subsequently adopted by ATSG on December 31, 2008, in conjunction with the reorganization of the Company into a holding company structure and renamed the Air Transport Services Group, Inc. Amended and Restated 2005 Long-Term Incentive Plan. The purpose of the Plan is to foster and promote the long-term financial success of the Company, to reward performance and to increase stockholder value by providing participants appropriate incentives and awards; to enable the Company to attract and retain the services of outstanding individuals; to encourage stock ownership in the Company; and to align the interests of management and directors with that of stockholders. The Plan authorizes a wide range of equity awards, including stock options, restricted stock awards, restricted stock units, stock awards, stock appreciation rights and performance-based awards payable in shares or cash and other forms of equity compensation.

Since the approval of the Plan, the Compensation Committee has granted restricted stock awards and performance-based stock unit awards to the Company's named executive officers and other executives and members of the senior management group on an annual basis under the terms of the Plan. The amount of the total long-term incentive grants to be received by each named executive officer is determined by multiplying the officer's base salary by 100%, 75% and 50% for the Chief Executive Officer, Senior Vice Presidents and Vice Presidents, respectively. The restricted stock awards and performance-based stock unit awards are divided evenly, so that half of the long-term incentive compensation value is delivered in restricted stock and half is delivered in performance-based stock units. The number of shares of restricted stock and performance-based stock units to be received is determined by dividing the value derived above by the stock price on the date of grant.

Restricted Stock Awards

Under the restricted stock award agreements, shares of stock were issued in the names of the employees, but will be held in escrow until they fully vest. The vesting period is approximately thirty-four months from the date of grant. The employees may exercise any voting rights associated with the restricted stock while in escrow, and any dividends paid on the restricted stock will also be held in escrow and paid once they are fully vested. The restrictions will be removed and the stock distributed to the employees if they are actively employed at the end of the vesting period, but may be settled earlier or forfeited in certain limited circumstances under the terms of the award agreements.

The Compensation Committee, in consultation with Towers Watson, determined to suspend the long-term incentive program in 2009, in view of the Company's then depressed stock price. Notwithstanding the foregoing, the Compensation Committee determined to recognize the performance and extraordinary efforts of certain of the Named Executive Officers in managing the Company through the implementation by DHL of its U.S. restructuring plan by making a special one-time, grant of 50,000 shares to each of those individuals. The number of shares of restricted stock that were granted to each of the named executive officers during fiscal year 2009, all of which will vest at the end of the restriction period, are set forth in the "All Other Stock Awards: Number of Shares of Stock or Units" column of the "Grants of Plan-Based Awards" Table below.

Table of Contents

Performance-Based Stock Unit Awards

Under the performance-based stock unit award agreements, the performance units will be converted to an equal number of common stock of the Company and paid out or forfeited, depending upon whether and the extent to which certain performance criteria are met during the performance period. The performance period is ordinarily thirty-six months. The performance-based stock units consist of two types – stock performance units and return-on-equity units. The agreements contain an equal number of stock performance units and return-on-equity units. The performance criteria for the stock performance units are based upon the extent to which the appreciation in the Company’s stock during the performance period equals or exceeds the total stockholder return performance of the NASDAQ Transportation Index during the same period. Each award agreement contains the following chart, setting forth when the awards are earned or forfeited:

If, on December 31, , the Company’s stock performance is . . .	You will receive the following number of shares of Company stock . . .
In at least the 25 th percentile of the NASDAQ Transportation Index (threshold Stock Performance Unit level)	#
In the 25 th through 50 th percentile of the NASDAQ Transportation Index (target Stock Performance Unit level)	#
In the 50 th or higher percentile of the NASDAQ Transportation Index (maximum Stock Performance Unit level)	#

The return-on-equity units are based upon how the Company’s average return on equity during the performance period compares to the levels specified under the award agreements. Each award agreement contains the following chart, setting forth when the awards are earned or forfeited:

If, over the Performance Period, the Company’s average return on equity is . . .	You will receive the following number of shares of Company stock . . .
At least 15% but less than 20% (threshold ROE Unit level)	#
More than 20% but less than 25% (target ROE Unit level)	#
Equal to or greater than 25% (maximum ROE Unit level)	#

The performance-based stock units (both stock performance units and return-on-equity units) may be settled earlier or forfeited in certain limited circumstances under the terms of the award agreements.

In light of the Compensation Committee’s determination to suspend the Committee’s long-term incentive program, no performance-based stock units were granted to the named executive officers in 2009.

Long-Term Incentive Compensation Grants for 2010

The Compensation Committee, in consultation with Towers Watson, has authorized the grant of awards for 2010 at the close of the market on the third full trading day after the issuance of the Company’s earnings for the year ended December 31, 2009. The grants will consist of both restricted stock and performance-based stock units as in prior years, except that (i) the Company will grant return-on-invested-capital units in lieu of the return-on-equity units described above; and (ii) the threshold payout level for the performance-based units will be increased from 50% to 70%. In addition, the Compensation Committee has determined that the grant of performance-based stock units in 2010 and in future years will be made using an assumed stock price of \$3.00 per share whenever the stock price is trading below this amount on the date of grant, in order to ensure that share reserves are maintained under the Plan.

Stock Ownership Guidelines

To better align the interests of the executive officers, including the named executive officers, with the interests of stockholders, the Committee requires that certain executive officers maintain a minimum ownership interest in the Company. The amount of stock required to be owned and retained is based on the minimum number of shares totaling in value as of the date of grant or purchase (including restricted stock granted under the Company's Amended and Restated 2005 Long-Term Incentive Plan), a multiple of the executive officer's base salary, which multiple depends on the position held.

Company-Sponsored Retirement and Benefit Plans

Retirement Plans

ATSG and its subsidiaries maintain several retirement plans for their executive officers, including the named executive officers, and other employees that are not covered by a collective bargaining agreement. These plans are designed to help the Company retain and attract employees for key positions. These plans include (i) the ABX Air Retirement Income Plan (the RIP), which is a defined benefit pension plan, (ii) the ABX Air Profit Sharing Plan (the PSP), which is a defined contribution plan (except for ABX Air's flight crewmembers, no contributions to this plan have been made since January 1, 2000), (iii) the ABX Air Capital Accumulation Plan, which is both a voluntary 401(k) salary deferral plan (the CAP) and a defined contribution 401(k) plan (the CAP 5%), (v) the Air Transport International 401(k) Plan, which is a voluntary 401(k) salary deferral plan (the ATI 401(k)), and (vi) the Capital Cargo International Airlines 401(k), which is a voluntary 401(k) salary deferral plan (the CCIA 401(k)).

The RIP is a floor offset pension plan that works in step with the PSP. Under the RIP, certain of the named executive officers and all other eligible full and part-time non-union employees of ATSG and ABX Air that have completed five continuous years of employment with ATSG and/or ABX Air earn the right to receive benefits upon termination at the normal retirement age of 65 or reduced benefits upon early retirement, on or after age 55, with 10 or more years of service. Retirement benefits are calculated as the product of 2% times the final average annual eligible pay for the first 25 years of service and 0.5% times the final average annual eligible pay for each year after the first 25 years of service, less the actuarial equivalent of the PSP balance. The RIP was closed to new employees, hired on or after September 1, 2005, except for certain designated employees previously employed by DHL at their Northern Kentucky hub and employees that were rehired before January 1, 2006. In addition, the RIP was frozen on January 14, 2010. No years of service or average monthly compensation has been credited to the participants after January 14, 2010, in determining the benefit available under the RIP.

The CAP is a 401(k) plan that allows voluntary deferrals of up to 75% of an employee's pay, subject to IRS income limits. In addition, the CAP provides matching funds to participants based on the participant's rate of deferral. The match is 35% of the first 6% of deferred pay (up to the IRS compensation limits). In addition, there is an opportunity for an incentive match of up to 25% of the first 6% of deferred pay (up to the IRS compensation limits). In 2009, the incentive match was 25%. All ABX Air and certain ATSG executives are eligible to participate in this plan.

All eligible full and part-time non-union employees of ATSG and ABX Air hired on and after September 1, 2005, including Mr. Graber, and such employees that were rehired on and after January 1, 2006, and who complete one year of service and work at least 1,000 hours during the year receive a company contribution to the ABX Air Capital Accumulation Plan (the CAP 5%), which is a defined contribution plan. Under the CAP 5%, employees that have completed three continuous years of employment with the company and worked at least 1,000 hours each year earn the right to receive benefits upon termination. Contributions are calculated as the product of 5% of eligible annual pay for each year of service, and the contributions are deposited in the 401(k) plan. In addition, all eligible full and part-time employees of ATSG and ABX Air whose benefits under the RIP were frozen on January 14, 2010, including Messrs. Hete, Turner and Payne, will be eligible for the 5% contribution.

Table of Contents

The ATI 401(k) is a 401(k) plan that allows voluntary deferrals of up to 30% of an employee's pay, subject to IRS income limits. In addition, the ATI 401(k) provides matching funds to participants based on the participant's rate of deferral. The match is 75% on the first 5% of deferred pay (up to the IRS compensation limits).

The CCIA 401(k) is a 401(k) plan that allows voluntary deferrals of up to 89% of an employee's pay, subject to IRS income limits. In addition, the CCIA 401(k) provides matching funds to participants based on the participant's rate of deferral. The match is 25% on the first 4% of deferred pay (up to the IRS compensation limits).

In addition, all ABX Air executives and certain ATSG executives are also eligible to participate in the Company's Supplemental Executive Retirement Plan (the "SERP"). The SERP is a non-qualified and unfunded plan that provides for benefits in excess of statutory limits. The SERP provides an age 62 targeted benefit of 50% of a participant's Final Average Earnings (FAEs) for 25 or more years of service, which benefit is reduced by 4% a year for each year of service less than 25 years. In addition, a participant may elect early retirement as early as age 55 provided he or she has at least 10 years of service with the Company. The benefit is reduced by 6% a year for early retirement before age 62. Participants become vested in the SERP after completing 5 years of service with the Company. Benefits earned through the formula are offset by Social Security benefits and benefits from the RIP, PSP and 5% contribution.

On March 12, 2009, the Board of Directors approved freezing the SERP effective April 14, 2009. No further benefits are accrued after April 14, 2009. Years of service used to calculate the targeted benefit as well as FAEs were frozen as of April 14, 2009.

Benefit Plans

The core benefit package for the named executive officers and all other employees of the Company includes health, dental, vision, short and long-term disability, group term life insurance, AD&D, a voluntary 401(k) salary deferral plan and certain post-retirement benefits. The core benefit package is designed to assist the Company in retaining and attracting employees for key positions. The core benefit package for certain named executive officers and all of the employees of ABX Air also includes business travel accident insurance. The named executive officers participate in the Company's benefit plans on the same basis as all other Company employees, except to the extent described under the heading "Retirement Plans" and "Potential Payments upon Termination or Change in Control."

Change-in-Control Agreements

The Company has entered into change-in-control agreements with certain of its executive officers and all the executive officers of ABX Air, including the named executive officers. Information regarding applicable payments under such agreements for the named executive officers is set forth under "Potential Payments Upon Termination or Change in Control" below.

Financial Restatements

Certain bonuses and equity compensation received by the Chief Executive Officer and Chief Financial Officer must be forfeited as required by applicable law if the Company is required to prepare an accounting restatement due to material non-compliance by the Company, as a result of misconduct, with any financial reporting requirements under the securities laws.

Tax and Accounting Implications

Deductibility of Executive Compensation

As part of its evaluation, the Compensation Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Internal Revenue Code, which provides that the Company may not

Table of Contents

deduct compensation of more than \$1,000,000 that is paid to certain individuals. The Company believes that compensation paid under the management incentive plans are generally fully deductible for federal income tax purposes. However, in certain situations, the Compensation Committee may approve compensation that will not meet these requirements in order to ensure competitive levels of total compensation for its executive officers. The Compensation Committee believes that all of the compensation earned in 2009 by the Company's executive officers, including the named executive officers, will be deductible.

Accounting for Stock-Based Compensation

The Company began accounting for stock-based payments in accordance with the requirements of FASB ASC Topic 718(R), beginning with the initial grant of awards under the Company's 2005 Long-Term Incentive Plan.

Compensation Committee Report

This report will not be deemed to be incorporated by reference by any general statement incorporating this Proxy Statement into any filing of the Company under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent the Company specifically incorporates this information by reference and will not be deemed soliciting material or deemed filed under those Acts.

The Compensation Committee of the Board of Directors has reviewed and discussed the Company's Compensation Discussion and Analysis required by Item 402(b) of Regulations S-K with management and, based on such review and discussion, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in the Company's definitive proxy statement on Schedule 14A for its 2009 annual meeting, which is incorporated by reference in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2009, each as filed with the Securities and Exchange Commission.

(1) The amounts shown reflect the award of cash bonuses on March 15, 2010, which awards are described in further detail above under the heading Short-Term Incentive Compensation.

(2) The amounts shown reflect the aggregate grant date fair value, in accordance with FASB ASC Topic 718, of restricted stock and performance-based stock units under the Company's 2005 Long-Term Incentive Plan. This amount assumes the performance-based stocks were computed based on the probable outcome of the performance conditions as of the grant date. Assuming the highest level of outcome, the maximum value of the performance-based stock units in 2008 would have been: Hete (\$694,548), Turner (\$265,606), Graber (\$352,424), Payne (\$197,181) and Fox (\$334,766). Assuming the highest level of outcome, the maximum value of the performance-based stock units in 2007 would have been: Hete (\$731,389), Turner (\$255,471) and Payne (\$119,495). There were no performance-based stock units granted in 2009. Assumptions used in the calculation of these amounts are included in Note O to the Company's audited financial statements for the fiscal year ended December 31, 2009, included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission on March 31, 2010. The Plan is described in further detail above under the heading Long-Term Incentive Compensation.

(3) The amounts shown reflect the award of cash incentive compensation on March 15, 2010, March 14, 2009, February 21, 2008, under the Company's Executive Incentive Compensation Plan. The Plan is described in further detail above under the heading Short-Term Incentive Compensation.

(4) The amounts shown reflect the respective actuarial increases in the present value of the named executive officers' benefits under the Retirement Income Plan and Supplemental Executive Retirement Plan, determined using interest rate and mortality rate assumptions consistent with those used in the Company's financial statements. The SERP provides an age 62 targeted benefit of 50% of a participant's Final Average Earnings (FAEs) at 25 years of service. For each year of service below 25 years, a 4% per year reduction factor is applied. If a participant retires between ages 55 and 62, an additional 6% per year reduction factor is applied. As under the prior benefit formula, the new targeted 50% benefit is offset by the RIP (before the

Table of Contents

PSP offset) or the actuarial equivalent of the CAP employer contribution and an estimated Social Security benefit based on the maximum amount. If a participant terminates prior to age 55, the SERP benefit will be payable at age 55. If a participant does not have 5 years of service at termination, they are not eligible for a SERP benefit. The SERP benefit will be paid as a lump sum based on RP 2000 annuitant mortality projected to 2017 and 6% interest.

- (5) The amounts shown reflect the value of matching contributions allocated by the Company to each of the named executive officers pursuant to the 401(k) plan and the value attributable to benefits provided under the life insurance plan in which the named executive officer participates, as follows:

	401(k) Match			Value Attributable to Benefits Provided Under the Company's Life Insurance Plan

Potential Payments Upon Termination or Change in Control**Payments Made Upon Retirement**

Certain executive officers of ATSG and ABX Air, including certain of the named executive officers, participated in the Company's Retirement Income Plan and Supplemental Executive Retirement Plan in 2009. These plans are discussed above under the heading Retirement Plans and the present value of accumulated benefits payable to each of the named executive officers under these plans is described above under the heading Pension Benefits Table.

In addition, the restriction on any shares of restricted stock would be removed automatically and the stock distributed to the executive. Further, a pro-rata portion of the award of any performance-based stock units would be paid out to the executive at the end of the performance period.

Payments Made Upon Disability

Under the terms of ATSG and ABX Air's short-term disability plan, an executive officer would be entitled to receive 50% of his annual base salary (up to a maximum of \$1,000 per week) for a six-month period beginning

Table of Contents

fifteen days from the date he first became disabled. Under the terms of ATI s, CCIA s, CAM s and LGSTX s short-term disability plans, an executive officer would be entitled to receive 60% of his annual base salary (up to a maximum of \$1,385 per week) for a six-month period beginning 32 days from the date he first became disabled. In the event an executive officer continued to be disabled for a period longer than six months, he would be entitled to participate under the company s long-term disability plan. Under ATSG s and ABX Air s long-term disability plan, the executive would be entitled to receive 66 2/3 % of his annual base salary (up to a maximum of \$15,000 per month) during the period of disability. Under the terms of ATI s, CCIA s, CAM s and LGSTX s long-term disability plan, the executive would be entitled to receive 60% of his annual base salary (up to a maximum of \$6,000 per month) during the period of disability. The payments would continue until the executive officer died, ceased to have a disability or reached his normal retirement age for purposes of receiving Social Security benefits. The definition of disability is the same as that used for the disability plans covering all full-time non-union employees of such companies. Namely, the executive must be unable to perform the material and substantial duties of his occupation. Further, after 24 months, the executive must be unable to perform the duties of any gainful occupation for which he is reasonably fitted by education, training or experience. The disability benefits would be reduced by any benefits payable under the company s pension plans, social security, workers compensation or via subrogation against a third party.

In addition, the restriction on any shares of restricted stock would be removed automatically and the stock distributed to the executive. Further, a pro-rata portion of the award of any performance-based stock units would be paid out to the executive at the end of the performance period.

Payments Made Upon Death

In the event of the death of an executive officer of ATSG or ABX Air, his surviving spouse would receive those amounts that have accrued and vested under the RIP and SERP in the form of a 50% joint and survivor benefit and his beneficiaries would receive those amounts that have accrued and vested under the PSP, both of which benefit plans are discussed above in this proxy statement, including under the headings Summary Compensation Table and Pension Benefits. In addition, the executive officer s beneficiaries would receive life insurance proceeds in the amount of 2 1/2 times his annual base salary, rounded up to the next \$10,000, up to a maximum of \$1.5 million. Further, in the event the cause of death was attributable to an accident, the beneficiaries would receive an additional 2 1/2 times the executive s annual base salary, rounded up to the next \$10,000, up to a maximum of \$1.5 million over and above the life insurance benefit. Further, in the event the cause of death was attributable to an accident while traveling on company business, the beneficiaries would receive an additional 2 times annual base salary, rounded up to the next \$1,000, up to a maximum of \$500,000 over and above the life insurance benefit and accidental death benefit. In the event of the death of an executive officer of ATI, CCIA, CAM or LGSTX, the executive officer s beneficiaries would receive life insurance proceeds in the amount of 2 times his annual base salary, rounded up to the next \$10,000, up to a maximum of \$1 million. Further, in the event the cause of death was attributable to an accident, the beneficiaries would receive an additional \$100,000 over and above the life insurance benefit.

In addition, the restriction on any shares of restricted stock would be removed automatically and the stock distributed to the executive s beneficiaries. Further, a pro-rata portion of the award of any performance-based stock units would be paid out to the executive s beneficiaries at the end of the performance period.

Payments Upon Change In Control

The Company has entered into change-in-control agreements with certain of its executive officers, including certain of its named executive officers, as described below under the heading Potential Payments Upon Termination or Change in Control Table. The agreements provide that, in the event of a change in control of the Company or the subsidiary that employs the executive, the executive will have the right to remain employed, at not less than his respective rate of compensation in effect as of the date of the change in control, for at least four years thereafter.

Table of Contents

A change in control is generally defined in the agreements as (i) the direct or indirect acquisition by any person of a greater than fifty percent (50%) ownership interest in or voting power over the Company or the subsidiary of the Company that employs the executive, (ii) the direct or indirect acquisition by any person, within any twelve (12) month period, of a thirty percent (30%) or more ownership interest in or voting power over the Company or the subsidiary of the Company that employs the executive, (iii) a majority of the members of the Board are replaced during any twelve (12) month period by directors whose appointment or election is not endorsed by a majority of the members of the Board prior to the date of the appointment or election, or (iv) the acquisition by any person, within any twelve (12) month period, of assets from the Company or the subsidiary of the Company that employs the executive that have a total gross fair market value equal to or more than forty percent (40%) of the total gross fair market value of all of the assets of the Company or the subsidiary, as applicable.

The agreements generally provide that, if an executive is terminated without cause (defined as willful and continued failure to perform duties after demand from the Board, or willful or gross misconduct) within four years after a change in control, the Company must pay the executive, in addition to all accrued compensation, the equivalent of two years (three years in the case of the President and Chief Executive Officer) salary and bonus. In addition, the executive is entitled to the continuation of his group health insurance coverage and certain other benefits for the remainder of the term of the agreement, reimbursement for outplacement services and increased benefits under his employer's supplemental executive retirement plan. The Company or subsidiary that employs the executive is required to provide the same additional compensation and benefits described above in the event an executive officer resigns due to a material reduction, by his employer, in his salary, authority, duties or responsibilities or a material change in the geographic location of his employment.

In the event of a change in control, the restrictions on any shares of restricted stock will lapse and the stock will be distributed. In addition, the performance objectives imposed on any performance-based stock units will be deemed to have been met at the [threshold level] or any higher level actually achieved as of the date of the change in control (Accelerated Units) and the executive will receive cash or stock (depending on the nature of the change in control) as if the performance period ended on the date of the change in control. The amount awarded with respect to performance-based stock units will be determined by multiplying the Accelerated Units by the number of whole months between the beginning of the performance period and the date of the change in control divided by the number of whole months in the performance period.

Table of Contents**Potential Payments Upon Termination or Change in Control Table**

The table below shows potential payments to the named executive officers upon retirement, disability, death or termination upon a change in control of the Company and under the terms of an employment agreement with the Company. The amounts shown assume that a termination was effective as of December 31, 2009 and are estimates of the amounts that would be paid to the executives upon their termination in addition to the base salary and bonus earned by the executives during 2009 and any applicable pension amounts payable to the executive officers described above under the headings Pension Benefits and Pension Benefits Table. The actual amounts to be paid can only be determined at the actual time of an executive's termination.

- (1) This amount represents the value of long-term disability payments for one year. However, the executive officer would receive short-term disability benefits for the first six months of any disability, which in the case of Messrs. Hete, Turner, Graber and Payne would constitute 50% of their base salary (up to a maximum of \$1,000 per week). Mr. Fox retired as of June 30, 2009.
- (2) This amount assumes the cause of death was not attributable to an accident. The following amounts would be paid to the executive officers beneficiaries in the event the cause of death was attributable to an accident: Hete (\$2,100,000), Turner (\$1,280,000), Graber (\$1,460,000) and Payne (\$1,100,000. Further, the following amounts would be paid to the executive officers beneficiaries in the event the cause of death was attributable to an accident while traveling on business: Hete (\$2,600,000), Turner (\$1,780,000), Graber (\$1,960,000) and Payne (\$1,540,000).

- (4) The amounts in this column were calculated using a per share value of \$2.64, the closing market price of our common stock on December 31, 2009, the last business day of the year. In addition, the stock performance units were valued at the target amount and the return-on-equity units were valued at the threshold amount for the performance-based stock units awarded in 2007 and at the threshold amount for both the stock performance units and return-on-equity units awarded in 2008 and 2009. Mr. Hete was eligible for early retirement as of December 31, 2009.
- (5) This amount constitutes, in the case of Messrs. Hete, Turner, Graber and Payne, the equivalent of two years (three years in the case of Mr. Hete) salary and bonus as well as the cash value of the retirement benefits that the executive would have received under the terms of their respective change-in-control agreements with the Company.
- (6) This amount reflects the value of COBRA continuation coverage for the 4-year term of the change-in-control agreement and is merely intended as an estimate. Under the change-in-control agreement, the Company will pay the executive officer's health insurance premiums, provided that the executive has elected COBRA continuation coverage, for the remaining term of the agreement, and at the end of such continuation coverage period shall arrange for the executive to receive health benefits substantially similar to those which the executive was receiving immediately prior to the termination of the coverage period.

PROPOSAL 2

RE-APPROVAL OF THE BUSINESS CRITERIA UNDER THE AIR TRANSPORT SERVICES GROUP, INC. AMENDED AND RESTATED 2005 LONG-TERM INCENTIVE COMPENSATION PLAN

We are asking the Company's stockholders to re-approve the material terms of the business criteria that may apply to awards under the Air Transport Services Group, Inc. Amended and Restated 2005 Long-Term Incentive Plan (the "2005 Plan") for purposes of Section 162(m) of the Internal Revenue Code ("Section 162(m) ") to preserve the Company's ability to take a federal tax deduction for certain compensation awards. The Board is not amending or altering nor seeking stockholder approval to amend or alter the 2005 Plan.

The 2005 Plan was originally approved by stockholders in 2005 as the ABX Air, Inc. 2005 Long-Term Incentive Plan. The 2005 Plan was subsequently adopted by ATSG on December 31, 2008, in conjunction with the reorganization of the Company into a holding company structure and renamed the Air Transport Services Group, Inc. Amended and Restated 2005 Long-Term Incentive Plan.

Section 162(m) provides that a public company may not take a federal income tax deduction for certain compensation in excess of \$1,000,000 paid to its executive officers in a year, except that certain qualifying performance-based compensation within the meaning of Section 162(m) is not subject to the deductibility limitation. Under the 2005 Plan, restricted stock, restricted stock units, and stock units granted under Section 10 of the 2005 Plan may be designed to satisfy the requirements for qualified performance-based compensation under Section 162(m) and, thus, will not be subject to the deductibility limitations of Section 162(m).

Section 162(m) generally requires that stockholders re-approve the performance-based award provisions of the 2005 Plan every five years or performance-based awards may not continue to be granted under the plan. Stockholders last approved the 2005 Plan at the Company's 2005 annual meeting of stockholders. Stockholders are being asked to re-approve the performance-based award feature of the 2005 Plan and the related business criteria (described under "Summary Description of the 2005 Plan Performance-Based Awards" below) that may be referenced in granting performance-based awards so that performance-based awards may continue to be fully tax deductible for federal income tax purposes.

If stockholders do not approve the 2005 Plan proposal, no additional performance-based awards will be granted under the Plan, but the Company may continue to grant other types of awards authorized under the 2005 Plan that do not qualify as performance-based compensation under Section 162(m).

Summary Description of the 2005 Plan

Purpose

The purpose of the 2005 Plan is to promote the success of the Company and the interests of our stockholders by providing an additional means for us to attract, motivate, retain and reward officers, key employees and other eligible persons through the grant of awards and incentives, to compensate them for their contributions to the growth and profits of the Company and to encourage ownership by them of our Common Stock.

Administration

The Compensation Committee administers all aspects of the 2005 Plan, except for awards made to non-employee directors. The amount and terms of all equity awards to non-employee directors will be determined by the full Board of Directors. When the term "Committee" is used in this discussion of the 2005 Plan in reference to grants to non-employee directors, it refers to the full Board of Directors.

Table of Contents

Eligibility

The 2005 Plan permits the Committee to grant awards to any employee or non-employee director of the Company or any of its subsidiaries, although it is anticipated that only senior management and non-employee directors will be considered for awards. There are approximately forty members of senior management of the Company and its subsidiaries who would be eligible for an award under the 2005 Plan and a total of seven non-employee directors. The selection of participants and the nature and size of grants and awards are within the discretion of the Committee.

Authorized Shares and Limits on Awards

The 2005 Plan authorizes the issuance of 6,000,000 shares of the Company's common stock.

If shares subject to an award granted under the 2005 Plan are forfeited, terminated, exchanged or otherwise settled without the issuance of shares or the payment of cash, the shares associated with that award will be available for future grants.

The maximum number of shares with respect to which awards may be issued under the 2005 Plan to any individual during any calendar year cannot exceed 150,000.

The shares of common stock issued pursuant to the 2005 Plan may consist of authorized and unissued shares or treasury shares.

Adjustments

If there is a corporate transaction that affects the Company's outstanding shares of common stock, such as a stock dividend, stock split, recapitalization, merger or other similar corporate change, the Committee will make such adjustments as it deems necessary or appropriate to the number of shares authorized for issuance pursuant to the 2005 Plan and to the individual limitations described in this discussion. The Committee will also make adjustments to outstanding awards previously granted under the 2005 Plan as it deems necessary or appropriate. Any such decision by the Committee will be final and binding on all participants.

Awards

The 2005 Plan provides for the grant of non-qualified stock options, incentive stock options that qualify under Section 422 of the Tax Code, stock appreciation rights, restricted stock, restricted stock units, stock grants and stock units, each as defined in the 2005 Plan. Grants of restricted stock, restricted stock units and stock units may, as determined by the Committee, also be performance-based awards, as defined in the 2005 Plan.

Options

Options to purchase shares of common stock may be granted alone or in tandem with stock appreciation rights. An option may be granted in the form of a non-qualified stock option or an incentive stock option. Incentive stock options may only be granted to employees of the Company or a subsidiary of the Company and may not be issued to non-employee directors.

The price at which a share of common stock may be purchased under an option (the exercise price) will be determined by the Committee (the full Board in the case of an option granted to a non-employee director), but may not be less than the fair market value (as defined in the 2005 Plan) of a share of common stock on the date the option is granted (subject to later adjustment as described above under the heading Adjustments). The exercise price of an incentive stock option granted to a participant who owns (as defined in the Tax Code) stock of the Company possessing more than 10 percent of the voting power of the Company (a 10% holder), determined under rules issued by the Internal Revenue Service (IRS), may not be less than 110 percent of the fair market value of a share of common stock on the date the option is granted.

Table of Contents

The Committee may establish the term of each option, but no option may be exercised after 10 years from the grant date (5 years for incentive stock options if the participant is a 10% holder).

The number of incentive stock options that become exercisable for the first time in any year cannot relate to shares of common stock having a fair market value (determined on the date of grant) of more than \$100,000 per participant.

The Committee may develop procedures for exercise of options, including tendering shares the participant already has owned for at least 6 months as partial or full payment of the exercise price.

As of the date of this Proxy Statement, the Company has not awarded any options to purchase shares of common stock under the 2005 Plan.

Stock Appreciation Rights

Stock appreciation rights (SARs) may be granted either alone or with options. The exercise price of an SAR must be equal to or greater than the fair market value of the common stock on the date of grant (subject to later adjustment as described above under the heading Adjustments). A participant exercising an SAR receives an amount, payable in cash, shares or a combination of cash and shares as determined by the Committee, equal to the difference between the fair market value of a share of common stock on the exercise date and the exercise price, multiplied by the number of shares of common stock with respect to which the SAR is exercised.

The 2005 Plan provides that SARs may be granted as freestanding awards or in tandem with an option. Tandem SARs are exercisable by surrendering the right to exercise the equivalent portion of the related option. A tandem SAR is exercisable only with respect to shares of common stock for which the related option is exercisable, and expires when the related option expires or is exercised.

Restricted Stock

Restricted stock may be issued to participants as determined by the Committee. Restricted stock consists of shares of common stock that are issued to a participant but which are subject to restrictions on transfer and the risk of forfeiture if certain specified conditions are not met. Restricted stock may not be sold or otherwise transferred or hypothecated until the end of the transfer restriction period established by the Committee. During the restriction period and at the discretion of the Committee, restricted stock granted to employees will be held by the Company as escrow agent or be issued to the participant in the form of certificates bearing a legend describing the applicable restrictions. All restricted stock granted to non-employee directors will be held in escrow during the restricted period. Restricted stock will vest, with the associated restrictions on transfer lapsing, if at the end of the restriction period, pre-determined time-based or performance-based conditions have been met. Restricted stock granted to non-employee directors will be released from escrow and distributed as soon as practical after a director's retirement from the Board, if all conditions have then been met.

Restricted stock will be forfeited (or if restricted stock was issued for a cash payment, those shares will be resold to the Company for the amount originally paid), if all restrictions have not been met at the end of the restriction period. If restricted stock is held in escrow, it will not be released until all restrictions have been met at the end of the applicable restriction period. Restricted stock that has been forfeited will again become available under the 2005 Plan for future awards.

Unless the Committee determines otherwise, a participant who has been granted restricted stock will have the right to receive dividends on such shares and will have the right to vote such shares during the restriction period, provided that dividends paid in shares of common stock will be subject to the same restrictions on transferability and forfeitability as the shares of restricted stock with respect to which they were issued.

Table of Contents

Restricted Stock Units

Restricted stock units may be issued to participants as determined by the Committee. Restricted stock units consist of notional shares of the Company that are issued to participants but which are subject to restrictions on transfer and the risk of forfeiture if pre-established conditions are not met during the restriction period. Restricted stock units may not be sold or otherwise transferred or hypothecated until the end of the restriction period established by the Committee. During the restriction period, participants are not entitled to receive dividends or to exercise voting rights in connection with the restricted stock units.

As soon as practical, but no later than 90 days, after all restrictions have then been met, in the case of employees, or after retirement from the Board, in the case of non-employee directors, the restricted stock units will be settled in shares of common stock, unless the award agreement specifies another form of settlement.

If the end of the restriction period or, in the case of non-employee directors, after retirement from the Board, the Committee determines that applicable conditions have not been met, the restricted stock units will be forfeited. The conditions under which restricted stock units vest, and the associated transfer restrictions lapse, may be time-based or performance-based.

Other Stock Awards

The Committee is authorized to grant awards of common stock to any participant as an incentive, bonus or in lieu of any retainer due to a director as it determines to be in the best interest of the Company and subject to such other terms and conditions as it deems appropriate.

Stock Units

The Committee is authorized to grant stock units to participants. A stock unit is a notional account representing one share of common stock. Stock units may be issued with or without payment by the participant as required by applicable law or any other consideration specified by the Committee. The Committee will determine whether a holder of a stock unit is also entitled to a dividend equivalent right. A dividend equivalent right is a right to receive the amount of any dividend paid on the share of common stock underlying a stock unit. The dividend will be forfeited or paid in cash or in additional stock units when the associated stock unit is forfeited or settled.

Shares of common stock equal to the number of stock units to be settled will be distributed to the participant unless the Committee provides for settlement in cash or partially in cash and partially in shares. If a stock unit is settled in cash, the amount distributed will be the fair market value of the shares of common stock that otherwise would have been distributed had the stock unit been settled in common stock.

Stock units may constitute performance-based awards as discussed below.

Performance-Based Awards

Any restricted stock, restricted stock units or stock units granted under the Plan may include performance criteria that satisfy Section 162(m) of the Tax Code. To the extent that awards are intended to qualify as performance-based compensation under Section 162(m), the performance criteria will be based on one or more of the following factors:

- Cash flow;
- Earnings (including gross margin, earnings before interest and taxes, earnings before taxes and net earnings);
- Earnings per share;
- Growth in earnings or earnings per share;

Overhead or other expense reduction;
Growth in stockholder value relative to the moving average of the S&P 500 Index or a peer group index;
Meeting customer cost and service standards;
Strategic plan development and implementation; and
Improvement in workforce diversity.

Different performance criteria may be applied to an individual participant or to groups of participants and may be based on the results achieved separately or collectively by the Company, any Company subsidiary, or any combination of segments, products or divisions of the Company or its subsidiaries. These criteria may be applied solely with regard to the Company or any subsidiary or relatively between the Company or any Company subsidiary and one or more unrelated entities.

Performance-based awards may be paid in cash, shares or a combination of both, depending on the type of the award and the award terms. If the Committee decides to grant performance-based awards, it will establish the performance objectives to be applied, the participants or class of participants to which the performance objectives apply and the period over which their achievement will be measured. It will also decide the method for computing the award that will be issued or earned if (and to the extent that) those performance objectives are met.

Once performance objectives have been established, the Committee may not revise the objectives associated with a performance-based award or increase the amount of the award that may be paid or earned if those performance objectives are met. However, if provided for in the award agreement, the Committee may reduce or eliminate an award that may be paid or earned if the performance objectives are met.

Award Agreements

By accepting an award, a participant will have agreed to be bound by the terms of the 2005 Plan and the applicable award agreement between the participant and the Company that sets forth the terms and conditions of the award.

Table of Contents

Effect of Termination of Service on Awards that are not Performance-Based

Unless the applicable award agreement provides otherwise and except in the case of a Business Combination (as discussed below), the following rules apply to all awards granted under the 2005 Plan that are not performance-based awards as described above when a participant terminates service as an employee or non-employee director, as the case may be:

Death

If a participant's employment (or, in the case of a non-employee director, his or her board service) terminates because of death:

All restricted stock, restricted stock units, freestanding SARs or stock units held by the participant at the time of termination of employment (or board service in the case of a non-employee director) will be settled as provided in the participant's award agreement, and

All options and tandem SARs (whether or not then exercisable) held by the participant at the time of termination of employment (or board service in the case of a non-employee director) will be exercisable by the participant's beneficiaries at any time before the earlier of the normal expiration date of the award or one year after the participant's death.

Disability

If a participant's employment (or, in the case of a non-employee director, his or her board service) terminates because of disability (as defined in the 2005 Plan):

All restricted stock, restricted stock units, freestanding SARs or stock units (whether or not then vested) held by the participant when employment or service terminates will be settled as provided in the participant's award agreement, and

All options and tandem SARs (whether or not then exercisable) held by the participant when employment or service terminates will be exercisable by the participant (or his or her beneficiary) at any time before the earlier of the normal expiration date of the award or one year after termination of employment or board service, as the case may be.

Retirement

If a participant's employment (or, in the case of a non-employee director, his or her board service) terminates because of retirement:

All restricted stock, restricted stock units, freestanding SARs or stock units (whether or not then vested) held by the participant when employment or board service terminates will be settled as provided in the participant's award agreement, and

All options and tandem SARs (whether or not then exercisable) held by the participant when employment or board service terminates will be exercisable by the participant (or his or her beneficiary) at any time before the expiration date for retirement specified in the participant's award agreement. Any incentive stock option that is not exercised within three months of the participant's retirement will be treated as a nonqualified option.

For purposes of the 2005 Plan, retirement is defined as follows:

Edgar Filing: Air Transport Services Group, Inc. - Form DEF 14A

In the case of a non-employee director, any departure from the board for any reason other than disability or death.

In the case of employees of the Company or any of its subsidiaries, any termination of employment that meets the definition of early or normal retirement under the Company's tax-qualified defined benefit pension plan (of, if no such plan is then in effect, as defined in the tax-qualified defined benefit pension plan that the Company most recently maintained).

Table of Contents

Voluntary Termination of Service

If a participant voluntarily terminates his or her employment before retirement:

All vested restricted stock, restricted stock units, freestanding SARs or stock units will be settled as provided in the participant's award agreement,

All exercisable options and tandem SARs held by the participant when employment terminates will be exercisable by the participant (or his or her beneficiary) at any time before the earlier of the normal expiration date of the award or three months after termination of employment, and

All awards that are not vested or exercisable on the date of termination of employment will be forfeited.

Involuntary Termination of Service without Cause

If the employment of a participant is terminated involuntarily without cause (as defined in the 2005 Plan),

All vested restricted stock, restricted stock units, freestanding SARs stock or stock units will be settled as provided in the participant's award agreement, and

All exercisable options and tandem SARs held by the participant when employment terminates will be exercisable by the participant (or his or her beneficiary) at any time before the earlier of the normal expiration date of the award or three months after termination of employment. Any incentive stock option that is not exercised within three months of termination of service will be treated as a nonqualified option. All awards that are not vested or exercisable on the date of termination of employment will be forfeited.

Involuntary Termination of Service for Cause

All outstanding awards will be forfeited if a participant's employment is terminated for cause, as of the date of termination of service.

Effect of Termination of Service on Performance-Based Awards

Unless the applicable award agreement otherwise provides and except in the case of a Business Combination (as discussed below), the following rules apply to all awards granted pursuant to the 2005 Plan that are performance-based awards as described above when a participant terminates service as an employee or non-employee director, as the case may be:

Voluntary or Involuntary Termination of Service

Unless termination of employment results from death, disability or retirement, a participant will forfeit all performance-based awards if, before the end of the applicable performance period or periods, such participant's employment is terminated involuntarily or such participant terminates his or her employment voluntarily.

Termination of Service as a result of Death, Disability or Retirement

If, before the end of the applicable performance period or periods, a participant dies, becomes disabled or retires and the Committee determines (at the time that it makes such determination for all other participants with similar performance-based awards) that the performance objectives for that period have been satisfied, the disabled or retired participant or the beneficiary of a deceased participant will receive a partial award (payable when all other participants with similar performance-based awards are paid) equal to:

The award that would have been paid to the participant at the end of the performance period during which he or she died, became disabled or retired multiplied by

The number of months between the beginning of the performance period and the date the participant died, became disabled or retired, and divided by

The number of months included in the original performance period.

Table of Contents

Other Events Resulting in the Forfeiture of Awards

Awards granted pursuant to the 2005 Plan will be forfeited by a participant on the occurrence of any of the following events (whether such events occur before, during or after the participant is an employee or non-employee director);

Without the consent of the Committee, the participant engages in activities described in the 2005 Plan that are in competition with the Company or its subsidiaries.

The participant refuses or fails to consult with, supply information to or otherwise cooperate with the Company or its subsidiaries after having been requested to do so.

The participant deliberately engages in conduct that the Committee concludes harms the Company or any Company subsidiary.

Buyout of Awards

At any time, the Committee, in its sole discretion and without the consent of the holders, may cancel any or all outstanding stock options, SARs, restricted stock, restricted stock units and stock units by giving written notice of cancellation to the holders of the cancelled awards. If a buy out notice is given, the Company will pay to the participant the difference between the fair market value of each award to be cancelled and the exercise price of the award, if any. No payment will be made with respect to any award that is not exercisable when cancelled (or, in the case of restricted stock and restricted stock units, is subject to a restriction and not vested). Payment of the buy out price may be made in cash, shares or a combination of cash and shares as determined by the Committee in its sole discretion.

Merger, Consolidation or Similar Events

If the Company undergoes a Business Combination then upon the completion of the Business Combination:

all outstanding options and SARs will become fully exercisable (whether or not otherwise exercisable by their terms and whether or not any associated performance objectives have then been met).

All remaining restrictions on outstanding restricted stock and restricted stock units will lapse as of the date of the transaction.

All restrictions and conditions imposed on stock units or performance-based awards will lapse and all performance objectives imposed on performance-based awards will be deemed to have been met.

The amount paid to settle such stock units or performance-based awards will be determined as follows:

The value of the stock units, or, in the case of a performance-based award, the target award or, if greater in amount, the award level actually achieved immediately before the effective date of the Business Combination will be multiplied by

The number of whole months between the beginning of the period over which time-based restrictions on stock units otherwise would have been measured or, in the case of performance-based awards, the beginning of the period over which performance goals were to be measured and the date of the Business Combination, and such result will be divided by

Edgar Filing: Air Transport Services Group, Inc. - Form DEF 14A

The period (expressed in months) over which time-based restrictions on stock units otherwise would have been measured or, in the case of performance-based awards, the period over which performance goals were to have been measured.

For purposes of the 2005 Plan, a Business Combination includes:

With respect to any participant, any event that is defined as a change in control (or an analogous term) under any written agreement between such participant and the Company or any Company subsidiary, but only to the extent specified in that written agreement.

Table of Contents

A merger or consolidation of the Company or the exchange of Company stock for the securities of another entity (other than a subsidiary of the Company) that has acquired the Company's assets or which is in control (as defined in the Tax Code) of an entity that has acquired the Company's assets but only if (i) immediately after the transaction or series of related transactions the persons who owned a majority of the voting power of the Company immediately before the transaction own less than a majority of the voting power of the Company and (ii) the terms of the plan or agreement providing for the transaction or series of related transactions are binding on all holders of shares (other than dissenting stockholders).

With respect to the settlement, payment or exercise of any award that is subject to Section 409A of the Tax Code, a Business Combination must constitute a "change in control event" within the meaning of Section 409A of the Tax Code and the Treasury Regulations promulgated thereunder.

Amendment, Modification and Termination of Plan

The 2005 Plan became effective on March 18, 2005, the date it was approved by the Company's Board of Directors and was approved by the Company's stockholders at the 2005 annual meeting. The 2005 Plan remains in effect until March 18, 2015.

The Board or the Committee may terminate, suspend or amend the 2005 Plan at any time without stockholder approval except to the extent that stockholder approval is required to satisfy applicable requirements imposed by Rule 16b-3 under the Exchange Act, or any successor rule or regulation, applicable requirements of the Tax Code or any securities exchange, market or other quotation system on which the Company's securities are listed or traded. No amendment of the 2005 Plan may (i) result in the loss of a Committee member's status as a non-employee director as defined in Rule 16b-3 under the Exchange Act or any successor rule or regulation, (ii) cause the 2005 Plan to fail to meet the requirements of Rule 16b-3 or (iii) except as otherwise provided in the 2005 Plan or in the participant's award agreement, without the consent of the participant, adversely affect any award held by such participant.

U.S. Tax Consequences

The following is a brief summary of the general U.S. federal income tax consequences relating to options that may be awarded under the 2005 Plan. This summary is based on U.S. federal tax laws and Treasury Regulations in effect on the date of this Proxy Statement and does not purport to be a complete description of the U.S. federal income tax laws. In addition, this summary is not intended to be exhaustive, does not constitute tax advice, and does not describe federal employment, state, local or foreign tax consequences. Each participant should consult with his or her tax advisor concerning the U.S. federal income tax and other tax consequences of participating in the 2005 Plan.

Non-Qualified Stock Options

A participant who has been granted a non-qualified stock option will not recognize taxable income at the time of grant, and the Company will not be entitled to a tax deduction at that time. In general, when the option is exercised, the participant will recognize ordinary income in an amount equal to the excess of the fair market value of the acquired shares over the exercise price for those shares, and the Company will be entitled to a corresponding tax deduction. Any gains or losses realized by the participant upon disposition of the shares will be treated as capital gains or losses, and the participant's basis in such shares will be equal to the fair market value of the shares at the time of exercise.

Incentive Stock Options

Incentive stock options are intended to qualify for special treatment available under Section 422 of the Tax Code. A participant who has been granted an incentive stock option will not recognize taxable income at the time

Table of Contents

of grant, and the Company will not be entitled to a tax deduction at that time. The exercise of an incentive stock option will not result in taxable income to the participant provided that the participant was, without a break in service, an employee of the Company or a subsidiary during the period beginning on the date of the grant of the option and ending on the date three months prior to the date of exercise (one year prior to the date of exercise if the participant's service terminates due to death or disability).

Sections 280G and 4999 of the Tax Code

Sections 280G and 4999 of the Tax Code impose penalties on excess parachute payments. A parachute payment occurs when payments are made to a disqualified individual (as defined under Section 280G of the Tax Code) in connection with a change in control in an amount equal to or greater than 300% of the recipient's taxable compensation averaged over the five calendar years ending before the change in control (or over the entire period of employment if the participant has been employed less than five calendar years). This average is called the base amount. An excess parachute payment is an amount equal to the excess of any parachute payments over 100% of the base amount.

Some participants in the 2005 Plan may receive payments in connection with a change in control. If this happens, the value of those participants' payments from the 2005 Plan must be combined with other payments that participant is entitled to receive in connection with a change in control under other agreements or plans with the Company or any of its subsidiaries. If the participant is a disqualified individual and the combined value of all payments is equal to or greater than 300% of the base amount, the participant must pay a 20% excise tax on all amounts in excess of 100% of the base amount. This tax is in addition to other federal, state and local income, wage and employment taxes. The Company may not deduct the amount of any excess parachute payment.

The 2005 Plan addresses excess parachute payment penalties in two ways. Generally, if a participant in the 2005 Plan receives an excess parachute payment, the value of the payment is reduced to avoid the excess parachute penalties. However, the 2005 Plan also states that another approach will be taken if a 2005 Plan participant has another agreement with the Company or a Company subsidiary (such as an employment or a change in control agreement) that provides for a different approach.

Section 409A of the Tax Code

Section 409A of the Tax Code imposes certain restrictions on amounts deferred under nonqualified deferred compensation plans and a 20% additional tax on amounts that are subject to, but do not comply with, Section 409A of the Tax Code. Section 409A of the Tax Code includes a broad definition of nonqualified deferred compensation plans, which includes certain types of equity incentive compensation. It is intended that the awards granted under the 2005 Plan comply with or be exempt from the requirements of Section 409A of the Tax Code and the Treasury Regulations promulgated thereunder.

Vote Required for Re-Approval of the Performance Criteria For the 2005 Plan

The Board of Directors believes that it is in the best interests of the Company and its stockholders to receive the full income tax deduction for performance-based compensation paid under the 2005 Plan. The Board is therefore asking the stockholders to re-approve the performance criteria for Performance-Based Awards set forth in the 2005 Plan.

All of the members of our Board of Directors are eligible for awards under the 2005 Plan and thus may have a personal interest in the approval of this proposal.

The affirmative vote of the holders of a majority of the shares represented in person or by proxy and entitled to vote on the proposal is required to re-approve the business criteria for Performance-Based Awards set forth in the 2005 Plan. Accordingly, broker non-votes will not affect the outcome of the vote on the proposal and abstentions will be treated as votes cast against the proposal. Unless instructed to the contrary in the proxy, the shares represented by the proxies will be voted FOR this proposal.

Officers, directors and greater than ten percent stockholders are required by SEC regulations to furnish the Company with copies of all such forms they file.

Based solely on its review of the copies of such forms received by the Company, and on written representations by the Company and its subsidiaries officers and directors regarding their compliance with the filing requirements, the Company believes that, in 2009, all filing requirements applicable to its officers, directors and greater than ten percent beneficial owners were complied with, except that Messrs.
