Net Income attributable to Hitachi, Ltd.	71.9	122.5	857	158.0	291.2	1,882

Hitachi's consolidated revenues for the first half of fiscal 2010 increased 9% year over year, to 4,502.4 billion yen. This mainly reflected large year-over-year increases in the High Functional Materials & Components, Automotive Systems, Electronic Systems & Equipment and Construction Machinery segments in line with recovering demand in automotive- and electronics-related fields.

Overseas revenues rose 16% year over year, to 1,978.8 billion yen mainly due to a global recovery in demand.

Hitachi posted consolidated operating income of 218.0 billion yen, representing a 242.8 billion yen turnaround year over year. This much improved result was attributable to improved revenues and posting of operating income in all segments, including High Functional Materials & Components, and Components & Devices, and reflected higher revenues as well as progress with business structure reform measures, lower costs and containment of fixed expenses.

Hitachi also recorded net other income of 45.7 billion yen, an improvement of 131.1 billion yen from the net other deductions recorded in the corresponding period of the previous fiscal year, despite recording exchange losses resulting from the yen's appreciation. The improvement reflected in part the recording of gains on the sale of securities resulting from the transfer of management rights related to IPS Alpha Technology, Ltd. to Panasonic Corporation and a decrease in business restructuring expenses. As a result, Hitachi recorded income before income taxes of 263.8 billion yen, an improvement of 373.9 billion yen year over year. After income taxes of 59.3 billion yen, Hitachi posted net income of 204.4 billion yen, 343.3 billion yen better year over year. Operating income improved 103.7 billion yen year over year, to 129.5 billion yen, as all business segments recorded profits. Free cash flows	271.8	195.2	3,237
Cash flows from financing activities	(193.8)	71.6	(2,308)

Operating activities provided net cash of 377.5 billion yen, a year-over-year increase of 44.9 billion yen due to the marked improvement in net income and ongoing measures to improve the efficient use of working capital.

Investing activities used net cash of 105.6 billion yen, 150.2 billion yen less year over year, mainly due to the strict selection of capital expenditures and sale of certain shareholdings.

Free cash flows, the sum of cash flows from operating and investing activities, was 271.8 billion yen.

Financing activities used net cash of 193.8 billion yen, a 71.6 billion yen increase. This was due to an increase in short-term debt due to the issuance of commercial paper by a subsidiary and other factors.

The net result of the above items was an increase of 56.2 billion yen in cash and cash equivalents, to 633.8 billion yen.

Free cash flows increased due to the consolidation of securitized entities in accordance with the application of new U.S. GAAP accounting standards effective from April 1, 2010. However, the application of these standards had almost the same effect on cash outflows in financing activities.

3. Outlook for Fiscal 2010

	Year ending March 31, 2011		
	Yen (billions)	Year-over-year change (% or billions yen)	U.S. dollars (millions)
Revenues	9,300.0	4%	116,250

Net Income attributable to Hitachi, Ltd.	200.0	306.9	2,500

Note: All fiscal 2010 outlook figures were converted using 80 yen to the U.S. dollar.

Hitachi has raised its forecasts as above, despite the uncertainty surrounding the global economic outlook and expected impact of the yen's appreciation. The revised forecasts are based on a steady contribution from the Social Innovation Business, accelerate global expansion, the benefits of business structure reforms, and progress with ongoing cost-containment initiatives on procurement costs and fixed expenses.

Hitachi is assuming exchange rates of 80 yen to the U.S. dollar and 110 yen to the euro for the third and fourth quarters of fiscal 2010.
