Forward-Looking Statements

This report and other documents filed by us contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, which reflect our current views with respect to, among other things, our operations and financial performance. You can identify these forward-looking statements by the use of words such as outlook, believes, expects, potential, continues, may, should, seeks, approximately, predicts, intends, plans, estimates, anticipates or the negative versions of these comparable words. Such forward-looking statements are subject to various risks and uncertainties.

Accordingly, there are or will be important factors that could cause actual outcomes or results to differ materially from those indicated in these statements. We believe that these factors include, but are not limited to, those described in the Risk Factors section of our Annual Report on Form 10-K for the year ended December 31, 2009, which is accessible on the Securities and Exchange Commission's Web site at www.sec.gov and on our Web site at www.cohenandsteers.com. These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included in this report. We undertake no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

1. Organization and Description of Business

Cohen & Steers, Inc. (CNS) was organized as a Delaware corporation on March 17, 2004. CNS was formed to be the holding company for Cohen & Steers Capital Management, Inc. (CSCM), a New York corporation, and to allow for the issuance of common stock to the public.

The condensed consolidated financial statements set forth herein include the accounts of CNS and its direct and indirect subsidiaries. CNS's significant wholly-owned subsidiaries are CSCM, Cohen & Steers Securities, LLC (Securities), Cohen & Steers Asia Limited, Cohen & Steers UK Limited and Cohen & Steers Europe S.A. (collectively, the Company). All material intercompany balances and transactions have been eliminated in consolidation.

Through CSCM, a registered investment advisor under the Investment Advisers Act of 1940 (the Advisers Act), the Company provides investment management services to individual and institutional investors through a broad range of investment vehicles. The Company manages portfolios specializing in U.S. and international real estate securities, large cap value stocks, listed infrastructure and utilities, and preferred securities. The Company also manages alternative investment strategies such as hedged real estate securities portfolios and private real estate multimanager strategies for qualified investors. Its clients include Company-sponsored open-end and closed-end mutual funds, U.S. and non-U.S. pension plans, endowment funds, foundations and sub-advised funds for other financial institutions. Through Securities, its registered broker/dealer, the Company provides distribution services for certain of its funds.

2. Basis of Presentation and Significant Accounting Policies

The condensed consolidated financial statements of the Company included herein are unaudited and have been prepared in accordance with the instructions to Form 10-Q pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of the interim results have been made. The Company's condensed consolidated financial statements and the related notes should be read together with the consolidated financial statements and the related notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2009.

Accounting Estimates The preparation of the condensed consolidated financial statements requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent assets and liabilities at the dates of the condensed consolidated financial statements and the reported amounts of revenue and expenses during the reporting periods. Management believes the estimates used in preparing the condensed consolidated financial statements are reasonable and prudent. Actual results could differ from those estimates.

Reclassifications Certain prior year amounts have been reclassified to conform to the current year presentation. The amounts related to these reclassifications are not material to the Company's condensed consolidated financial statements.

Consolidation The Company consolidates operating entities deemed to be voting interest entities if the Company owns a majority of the voting interest. The equity method of accounting is used for investments in non-controlled affiliates in which the Company's ownership ranges from 20 to 50 percent, or in instances in which the Company is able to exercise significant influence but not control. The Company also consolidates any

COHEN & STEERS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(UNAUDITED)

variable interest entities (VIEs) in which the Company is the primary beneficiary. The Company provides for non-controlling interests in consolidated subsidiaries for which the Company's ownership is less than 100 percent.

A VIE is an entity in which either (a) the equity investment at risk is not sufficient to permit the entity to finance its own activities without additional financial support or (b) the group of holders of the equity investment at risk lack certain characteristics of a controlling financial interest. The primary beneficiary is the entity that has the obligation to absorb a majority of the expected losses or the right to receive the majority of the residual returns. The Company evaluates whether entities in which it has an interest are VIEs and whether the Company is the primary beneficiary of any VIEs identified in its analysis. See Note 4 for further discussion about the Company's investments.

Cash and Cash Equivalents Cash equivalents consist of short-term, highly liquid investments, which are readily convertible into cash and have original maturities of three months or less.

Investments Management of the Company determines the appropriate classification of its investments at the time of purchase and re-evaluates such determination at each statement of financial condition date.

Securities owned and securities sold but not yet purchased are classified as trading securities and are measured at fair value based on quoted market prices, market prices obtained from independent pricing services engaged by management or as determined by the Company's fair value committee, with unrealized gains and losses recorded as gain (loss) from trading securities reported in the Company's condensed consolidated statements of operations.

Investments classified as equity investments are accounted for using the equity method, under which the Company recognizes its respective share of the investee's net income for the period. The carrying amounts of these investments approximate their fair value.

Investments classified as available-for-sale are primarily comprised of investment-grade preferred instruments and investments in Company-sponsored open-end and closed-end mutual funds. These investments are carried at fair value based on quoted market prices or market prices obtained from independent pricing services engaged by management, with unrealized gains and losses, net of tax, reported in accumulated other comprehensive income. The Company periodically reviews each individual security position that has an unrealized loss, or impairment, to determine if that impairment is other than temporary. If the Company believes an impairment of a security position is other than temporary, the loss will be recognized in the Company's condensed consolidated statements of operations.

Goodwill and Intangible Assets Goodwill represents the excess of the cost of the Company's investment in the net assets of an acquired company over the fair value of the underlying identifiable net assets at the date of acquisition. Goodwill and indefinite lived intangible assets are not amortized but are tested at least annually for impairment by comparing the fair value to their carrying amounts. Finite lived intangible assets are amortized over their useful lives. See Note 3 for further discussion about the Company's goodwill and intangible assets.

Investment Advisory and Administration Fees The Company earns revenue by providing asset management services to Company-sponsored open-end and closed-end mutual funds and to institutional separate accounts. This revenue is earned pursuant to the terms of the underlying advisory contract, and is based on a contractual investment advisory fee applied to the assets in the client's portfolio, net of waivers. The Company

COHEN & STEERS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(UNAUDITED)

also earns revenue from administration fees paid by certain Company-sponsored open-end and closed-end mutual funds, based on the average assets under management of such funds. This revenue is recognized as such fees are earned.

Distribution and Service Fees Distribution and service fee revenue is earned as the services are performed, based on contractually-predetermined percentages of the average assets under management of the open-end load mutual funds. Distribution and service fee revenue is recorded gross of any third-party distribution and service fee expense arrangements. The expenses associated with these third-party distribution and service fee arrangements are recorded as incurred.

Stock-based Compensation The Company recognizes compensation expense for the grant-date fair value of awards of equity instruments granted to employees. This expense is recognized over the period during which employees are required to provide service. The Company also estimates forfeitures.

Income Taxes The Company records the current and deferred tax consequences of all transactions that have been recognized in the condensed consolidated financial statements in accordance with the provisions of the enacted tax laws. Deferred tax assets are recognized for temporary differences that will result in deductible amounts in future years. Deferred tax liabilities are recognized for temporary differences that will result in taxable income in future years. The Company records a valuation allowance, when necessary, to reduce deferred tax assets to an amount that more likely than not will be realized. The effective tax rate for interim periods represents the Company's best estimate of the effective tax rate expected to be applied to the full fiscal year.

Currency Translation and Transactions Assets and liabilities of subsidiaries having non-U.S. dollar functional currencies are translated at exchange rates at the applicable condensed consolidated statements of financial condition date. Revenues and expenses are translated at average exchange rates during the period. The gains or losses resulting from translating non-U.S. dollar functional currency into U.S. dollars are included in accumulated other comprehensive income, net of tax, a component of stockholders' equity. Gains or losses resulting from non-U.S. dollar currency transactions are included in other non-operating income in the condensed consolidated statements of operations.

Recently Issued Accounting Pronouncements In January 2010, the Financial Accounting Standards Board (FASB) issued new guidance as an amendment to fair value measurements and disclosures. The new guidance adds new requirements for disclosure about transfers into and out of level 1 and level 2 fair value measurements and separate disclosures about purchases, sales, issuances, and settlements relating to level 3 measurements. The guidance also clarifies existing fair value disclosures about the level of disaggregation and about inputs and valuation techniques in level 2 and level 3 fair value measurements. This new guidance was effective for the Company's first quarter of 2010. The adoption of this new guidance did not have a material impact on the Company's condensed consolidated financial statements.

In September 2009, the FASB issued new guidance measuring fair value of certain alternative investments. This new guidance creates a practical expedient to measure the fair value of an investment in certain entities on the basis of the net asset value per share of the investment (or its equivalent) determined as of the reporting entity's measurement date. This new guidance also requires disclosures by major category of investment about the attributes of those investments, such as the nature of any restrictions on the investor's ability to redeem its investments at the measurement date, any unfunded commitments and the investment strategies of the investees. This new guidance was effective for the Company's first quarter of 2010. The adoption of this new guidance did not have a material impact on the Company's condensed consolidated financial statements.

COHEN & STEERS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(UNAUDITED)

In June 2009, the FASB issued new guidance related to consolidation of VIEs which required careful reconsideration of previous conclusions, including (1) whether an entity is a VIE, (2) whether the enterprise is the VIE's primary beneficiary, and (3) what type of financial statement disclosures are required. This guidance was effective for the Company's first quarter of 2010. In February 2010, the FASB issued new guidance as an amendment to consolidation of VIEs. The amendment deferred the consolidation requirements for a reporting entity's interest in an entity (1) that has all the attributes of an investment company, or (2) for which it is industry practice to apply measurement principles for financial reporting purposes that are consistent with those followed by investment companies. This guidance did not have a material impact on the Company's condensed consolidated financial statements because the Company met the criteria under the deferral afforded by the amendment.

3. Goodwill and Intangible Assets*Goodwill*

Goodwill represents the excess of purchase price over the net tangible assets and identifiable intangible assets of an acquired business. At September 30, 2010 and December 31, 2009, goodwill was approximately \$20,552,000 and \$21,196,000, respectively. The Company's goodwill decreased by \$644,000 in the nine months ended September 30, 2010 as a result of foreign currency revaluation.

Intangible Assets

The following table details the gross carrying amounts and accumulated amortization for the intangible assets at September 30, 2010 and December 31, 2009 (in thousands):

	Remaining Amortization Period (In Months)	Gross Carrying Amount	Accumulated Amortization	Intangible Assets, Net

4. Investments*Equity investments*

The offshore global real estate long-short fund (the Offshore Fund) launched by the Company in 2008 is structured as a partnership in which the Company is the investment manager and general partner, receiving a management fee and a performance fee. The Company's equity interest in the Offshore Fund represents a seed investment to launch the fund, adjusted for the Company's proportionate share of the fund's earnings. At September 30, 2010 and December 31, 2009, the Company had a \$10,615,000 and \$10,842,000 equity investment in the Offshore Fund, respectively. The fund is a VIE and from January 1, 2009 through November 30, 2009, the Company was the primary beneficiary of the Offshore Fund. Therefore, the assets, liabilities and results of operations of the Offshore Fund were included in the Company's condensed consolidated financial statements. At December 31, 2009, the Company was no longer the primary beneficiary of the Offshore Fund as the Company did not have a controlling financial interest. As the general partner of the Offshore Fund, the Company has significant influence over the financial decisions of the Offshore Fund and therefore accounts for its investment in the Offshore Fund using the equity method of accounting. The Company's risk with respect to its investment in the Offshore Fund is limited to its equity ownership and any uncollected management fees.

During 2008, the Company launched an onshore global real estate long-short fund (the Onshore Fund). Until January 31, 2010, the Company and certain of its employees owned 100% of the voting interest in the Onshore Fund. Accordingly, the underlying assets and liabilities of the Onshore Fund had been included in the Company's condensed consolidated financial statements with the third party interests classified as redeemable noncontrolling interest as of December 31, 2009. As the redeemable noncontrolling interests were owned by certain employees of the Company, no management or performance fees were charged. As a result of consolidating the Onshore Fund, the Company recorded approximately \$17,621,000 of securities owned and approximately \$16,118,000 of securities sold but not yet purchased as of December 31, 2009, which were comprised primarily of equities. Beginning February 1, 2010, the Company accounted for its investment in the Onshore Fund using the equity method of accounting as the Company no longer had a controlling financial interest. As the general partner of the Onshore Fund, the Company has significant influence over the financial decisions of the Onshore Fund and therefore accounts for its investment in the Onshore Fund using the equity method of accounting. At September 30, 2010, the Company had a \$25,465,000 equity investment in the Onshore Fund.

(UNAUDITED)

The Company recorded gain from trading securities of approximately \$189,000 from the consolidation of the Onshore Fund and \$11,642,000 from the consolidation of the Onshore Fund and the Offshore Fund for the nine months ended September 30, 2010 and 2009, respectively.

During the fourth quarter of 2009, the Company launched Cohen & Steers Global Listed Infrastructure Fund (GLIF). The Company accounts for its investment in GLIF using the equity method of accounting as the Company does not have a controlling financial interest, but has significant influence over the financial decisions of GLIF. At September 30, 2010, the Company had a \$5,233,000 equity investment in GLIF.

For the three and nine months ended September 30, 2010, the Company recognized earnings of approximately \$1,005,000 and \$185,000, respectively, under the equity method of accounting, which is included in equity in earnings of affiliates in the condensed consolidated statements of operations.

Available-for-sale

In May 2010, the Company launched Cohen & Steers Preferred Securities and Income Fund (CPX). Until June 30, 2010, the Company owned a majority interest in CPX and accordingly, the underlying assets and liabilities had been included in the Company's condensed consolidated financial statements with the third party interest disclosed as redeemable noncontrolling interest. The Company recorded a loss from trading securities of approximately \$371,000 from the consolidation of CPX for the nine months ended September 30, 2010. From July 1, 2010 through August 31, 2010, the Company accounted for its investment in CPX using the equity method of accounting as the Company no longer had a controlling financial interest but had significant influence over CPX's financial decisions. For the three and nine months ended September 30, 2010, the Company recognized earnings of approximately \$617,000 under the equity method of accounting, which is included in equity in earnings of affiliates in the condensed consolidated statements of operations. Beginning September 1, 2010, the Company no longer had significant influence over CPX's financial decisions and accordingly, its interest in CPX is included in investments, available-for-sale.

The following is a summary of the cost, gross unrealized gains, gross unrealized losses and fair value of investments, available-for-sale as of September 30, 2010 and December 31, 2009 (in thousands):

Unrealized losses on investments, available-for-sale as of September 30, 2010 were generally caused by market conditions. When evaluating whether an unrealized loss on an investment, available-for-sale is other than temporary, the Company reviews such factors as extent and duration of the loss, deterioration in the issuer's credit quality, reduction or cessation of dividend payments and overall financial strength of the issuer. As of September 30, 2010, the Company determined that it had the ability and intent to hold the remaining investments for which no other than temporary impairment has occurred until a recovery of fair value. Accordingly, impairment of these investments is considered temporary.

Sales proceeds, gross realized gains and losses from investments, available-for-sale for the three and nine months ended September 30, 2010 and 2009 are summarized below (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,

<i>Fair Value</i>				

The Codification Topic 820, *Fair Value Measurements and Disclosures* (ASC 820), defines fair value, establishes a framework for measuring fair value and enhances disclosures about instruments carried at fair value, but does not change existing guidance as to whether or not an instrument should be carried at fair value.

ASC 820 specifies a hierarchy of valuation classifications based on whether the inputs to the valuation techniques used in each valuation classification are observable or unobservable. These classifications are summarized in the three broad levels listed below:

Level 1 Unadjusted quoted prices for identical instruments in active markets.

Level 2 Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.

Level 3 Valuations derived from valuation techniques in which significant inputs or significant value drivers are unobservable.

(UNAUDITED)

Inputs used to measure fair value might fall in different levels of the fair value hierarchy, in which case the Company defaults to the lowest level input that is significant to the fair value measurement in its entirety. These levels are not necessarily an indication of the risk or liquidity associated with the investments. In determining the appropriate levels, the Company performed a detailed analysis of the assets and liabilities that are subject to ASC 820. The following table presents fair value measurements as of September 30, 2010 (in thousands):

	Level 1	Level 2	Total
Cash equivalents*	\$ 56,407	\$	\$ 56,407
Equity investments	\$ 5,233	\$ 36,080	\$ 41,313

Company-sponsored mutual funds	18,019		18,019
Total investments, available-for-sale	\$ 25,014	\$ 4,935	\$ 29,949

* Cash equivalents were comprised of investments in money market funds.

Equity investments classified as level 2 in the above table represent the fair value measurement of equity investments in the Onshore Fund and the Offshore Fund, which makes long and short investments in real estate securities to maximize absolute and risk-adjusted returns with modest volatility. The Company has the ability to redeem the funds monthly at net asset value per share with prior written notice of 30 days and no significant restrictions to redemption.

Investments, available-for-sale classified as level 2 in the above table were comprised of auction rate preferred securities, which were measured at fair value based on the quoted prices for identical or similar instruments in markets that are not active.

The following table summarizes the changes in carrying value associated with level 3 investments carried at fair value (in thousands):

5. Earnings Per Share

Edgar Filing: COHEN & STEERS INC - Form 10-Q

Basic earnings per share are calculated by dividing net income attributable to common shareholders by the weighted average shares outstanding. Diluted earnings per share are calculated by dividing net income attributable to common shareholders by the total weighted average shares of common stock outstanding and

COHEN & STEERS, INC. AND SUBSIDIARIES

(UNAUDITED)

common stock equivalents. Common stock equivalents are comprised of dilutive potential shares from restricted stock unit awards. Common stock equivalents are excluded from the computation if their effect is anti-dilutive. Diluted earnings per share are computed using the treasury stock method.

Anti-dilutive common stock equivalents of 50,000 and 59,000 shares, respectively, were excluded from the computation for the three and nine months ended September 30, 2010. Anti-dilutive common stock equivalents of 326,000 shares were excluded from the computation for the three months ended September 30, 2009. For the nine months ended September 30, 2009, due to the Company's loss, all common stock equivalents were excluded from the diluted loss per share calculation because their inclusion would have been anti-dilutive. Had the Company earned a profit for the nine months ended September 30, 2009, the Company would have added 146,000 common stock equivalent shares to the Company's basic weighted average shares outstanding to compute diluted weighted average shares outstanding.

The following is a reconciliation of the income and share data used in the basic and diluted earnings per share computations for the three and nine months ended September 30, 2010 and 2009 (in thousands, except per share data):

	Three Months Ended September 30,		Nine Months Ended September 30,

Diluted earnings (loss) per share attributable to common shareholders	\$ 0.30	\$ 0.18	\$ 0.78	\$ (0.32)

6. Income Taxes

The effective tax rate for the three and nine months ended September 30, 2010 was approximately 29%, which includes discrete items, the most significant of which was attributable to the sale of previously impaired securities. Excluding the discrete items, the effective tax rate for the three and nine months ended September 30, 2010 was approximately 34%. The effective tax rate for the three and nine months ended September 30, 2009 was approximately 21% and 10%, respectively. The effective tax rates for the 2009 periods were reduced by a valuation allowance established related to other-than-temporary impairment charges taken during the periods. The Company expects the tax rate for the full year 2010 to approximate 34%, excluding discrete items.

Deferred income taxes represent the tax effects of the temporary differences between book and tax bases and are measured using enacted tax rates that will be in effect when such items are expected to reverse. The Company's net deferred tax asset is primarily comprised of future income tax deductions attributable to the

delivery of unvested restricted stock units. The Company records a valuation allowance, when necessary, to reduce deferred tax assets to an amount that more likely than not will be realized.

7. Comprehensive Income

Total comprehensive income includes net income (loss) and other comprehensive income (loss), net of tax. The components of comprehensive income (loss) for the three and nine months ended September 30, 2010 and 2009 are as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2010	2009	2010	2009
Net income (loss) attributable to common shareholders	\$ 13,163	\$ 7,545	\$ 33,646	\$ (13,355)

Total comprehensive income attributable to common shareholders	\$ 17,467	\$ 16,772	\$ 27,064	\$ 27,164

8. Regulatory Requirements

Securities, a registered broker/dealer in the U.S., is subject to the SEC's Uniform Net Capital Rule 15c3-1 (the "Rule"), which requires that broker/dealers maintain a minimum level of net capital, as defined. As of September 30, 2010, Securities had net capital of approximately \$1,433,000, which exceeded its requirements by approximately \$1,317,000. The Rule also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital of a broker/dealer is less than the amount required under the Rule and requires prior notice to the SEC for certain withdrawals of capital. The Company made a capital withdrawal of \$10,000,000 from Securities during the three months ended September 30, 2010.

Securities does not carry customer accounts and is exempt from the SEC's Rule 15c3-3 pursuant to provisions (k)(1) of such rule.

The non-U.S. subsidiaries of the Company are regulated outside the U.S. by the Hong Kong Securities and Futures Commission, the United Kingdom Financial Securities Authority, and the Belgium Banking, Finance and Insurance Commission (collectively, the "Foreign Regulated Entities"). As of September 30, 2010, the Foreign Regulated Entities had aggregate regulatory capital of approximately \$44,128,000, which exceeded requirements by approximately \$42,846,000.

9. Related Party Transactions

The Company is an investment advisor to, and has administrative agreements with, affiliated open-end and closed-end mutual funds for which certain employees are officers and/or directors. The following table sets forth the amount of revenue the Company earned from these affiliated funds for the three and nine months ended September 30, 2010 and 2009 (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2010	2009	2010	2009
Investment advisory and administration fees	\$ 27,021	\$ 20,640	\$ 77,545	\$ 51,238
Distribution and service fees	2,259	2,019	6,659	5,321
	\$ 29,280	\$ 22,659	\$ 84,204	\$ 56,559

For the three months ended September 30, 2010 and 2009, the Company had investment advisory agreements with certain affiliated closed-end mutual funds, pursuant to which the Company contractually waived approximately \$863,000 and \$1,074,000, respectively, of advisory fees it was otherwise entitled to receive. For the nine months ended September 30, 2010 and 2009, the Company waived approximately \$2,439,000 and \$2,987,000 of advisory fees, respectively. These investment advisory agreements contractually require the Company to waive a portion of the advisory fees the Company otherwise would charge for up to ten years from the respective fund's inception date. The board of directors of these mutual funds must approve the renewal of the advisory agreements each year, including any reduction in advisory fee waivers scheduled to take effect during that year. As of September 30, 2010, such scheduled reductions in advisory fee waivers were effective for two funds.

Sales proceeds, gross realized gains and dividend income from investments, available-for-sale in Company-sponsored mutual funds for the three and nine months ended September 30, 2010 and 2009 are summarized below (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2010	2009	2010	2009
Proceeds from sales	\$ 6,979	\$	\$ 10,705	\$
Gross realized gains	1,224		1,924	
Dividend income	558	43	620	192

The Company has agreements with certain affiliated open-end and closed-end mutual funds to reimburse certain fund expenses. For the three months ended September 30, 2010 and 2009, expenses of approximately \$1,383,000 and \$1,339,000, respectively, were incurred by the Company pursuant to these agreements and were included in general and administrative expenses. For the nine months ended September 30, 2010 and 2009, expenses of approximately \$3,519,000 and \$4,024,000, respectively, were incurred.

Included in accounts receivable at September 30, 2010 and December 31, 2009 are receivables due from Company-sponsored mutual funds of approximately \$10,701,000 and \$9,087,000, respectively.

11. Commitments and Contingencies

From time to time, the Company is involved in legal matters relating to claims arising in the ordinary course of business. Except as noted below, there are currently no such matters pending that the Company believes could have a material adverse effect on our business or financial condition.

The Company, CSCM and the officers of two Cohen & Steers closed-end funds (collectively, the Defendants) were named as defendants in putative shareholder derivative actions captioned *Gammon v. Cohen & Steers Capital Management, Inc., et al.* and *Livson v. Cohen & Steers Capital Management, Inc., et al.* filed in the Supreme Court of the State of New York, County of New York on August 26, 2010 and September 8, 2010, respectively (together, the Complaints). The Complaints also named the two funds as nominal defendants. The Complaints allege breaches of fiduciary duties related to the redemption of the funds' auction preferred shares at their liquidation preference, and seek indeterminate monetary damages in favor of the funds and an award of plaintiffs' costs and disbursements in pursuing the action.

The Complaints follow the previously disclosed shareholder demand letters sent to the board of directors of three Cohen & Steers closed-end funds, which contain the same basic allegations contained in the Complaints. On October 28, 2010, a special committee consisting of independent members of the funds' boards determined that the funds should not pursue claims based on the allegations in the demand letters and rejected the demands made in the letters. The Defendants believe that the Complaints are without merit, and intend to defend vigorously against these charges.

In the opinion of management, the ultimate resolution and outcome of this matter is uncertain, and the Company is unable to estimate the expense or exposure, if any, that it may represent, though it could potentially have a material adverse impact on the financial position and results of operations of the Company. However, this possible impact is unknown and not reasonably determinable; therefore, no liability has been recorded in the condensed consolidated financial statements.

12. Subsequent Event

On November 3, 2010, CNS declared a quarterly cash dividend on its common stock in the amount of \$0.10 per share. The dividend will be payable on December 29, 2010 to stockholders of record at the close of business on December 6, 2010.

Item 2. *Management's Discussion and Analysis of Financial Condition and Results of Operations*

Set forth on the following pages is management's discussion and analysis of our financial condition and results of operations for the three and nine months ended September 30, 2010 and September 30, 2009. Such information should be read in conjunction with our condensed consolidated financial statements together with the notes to the condensed consolidated financial statements. The interim condensed consolidated financial statements of the Company, included herein, are unaudited. When we use the terms "Cohen & Steers," "the Company," "we," "us," and "our," we mean Cohen & Steers, Inc., a Delaware corporation, and its consolidated subsidiaries.

Overview

We are a manager of portfolios specializing in U.S. and international real estate securities, large cap value stocks, listed infrastructure and utilities, and preferred securities. We also manage alternative investment strategies such as hedged real estate securities portfolios and private real estate multimanager strategies for qualified investors. We serve individual and institutional investors through a broad range of investment vehicles.

(1) As of September 30, 2010, assets under management from institutional separate accounts included \$217 million of assets invested in our alternative strategy.

Assets under management were \$31.2 billion at September 30, 2010, a 39% increase from \$22.5 billion at September 30, 2009. The increase was due to market appreciation of \$4.4 billion and net inflows of \$4.4 billion.

Average assets under management were \$29.0 billion in the three months ended September 30, 2010, an increase of 49% from \$19.5 billion in the three months ended September 30, 2009. Average assets under management were \$27.0 billion in the nine months ended September 30, 2010, an increase of 73% from \$15.6 billion in the nine months ended September 30, 2009.

Open-end mutual funds

Open-end mutual fund assets under management increased 29% to \$7.6 billion at September 30, 2010 from \$5.9 billion at September 30, 2009. The increase in assets under management was due to market appreciation of \$1.2 billion and net inflows of \$511 million during the prior twelve month period.

Average assets under management for open-end mutual funds were \$7.0 billion in the three months ended September 30, 2010, an increase of 37% from \$5.1 billion in the three months ended September 30, 2009.

Net inflows for open-end mutual funds were \$33 million in the three months ended September 30, 2010, compared with \$386 million in the three months ended September 30, 2009. Gross inflows were \$641 million in the three months ended September 30, 2010, compared with \$747 million in the three months ended September 30, 2009. Gross outflows totaled \$608 million in the three months ended September 30, 2010, compared with \$361 million in the three months ended September 30, 2009. Market appreciation was \$1.0 billion in the three months ended September 30, 2010, compared with \$1.3 billion in the three months ended September 30, 2009.

Net inflows for open-end mutual funds were \$465 million in the nine months ended September 30, 2010, compared with \$471 million in the nine months ended September 30, 2009. Gross inflows were \$2.0 billion in the nine months ended September 30, 2010, compared with \$1.5 billion in the nine months ended September 30, 2009. Gross outflows totaled \$1.6 billion in the nine months ended September 30, 2010, compared with \$1.0 billion in the nine months ended September 30, 2009. Market appreciation was \$888 million in the nine months ended September 30, 2010, compared with \$1.2 billion in the nine months ended September 30, 2009.

Closed-end mutual funds

Closed-end mutual fund assets under management increased 14% to \$5.9 billion at September 30, 2010, compared with \$5.2 billion at September 30, 2009. The increase in assets under management was primarily attributable to market appreciation of \$689 million during the prior twelve month period.

Average assets under management for closed-end mutual funds were \$5.7 billion in the three months ended September 30, 2010, an increase of 20% from \$4.8 billion in the three months ended September 30, 2009.

Closed-end mutual funds had net inflows of \$29 million in the three months ended September 30, 2010, compared with inflows of \$180 million in the three months ended September 30, 2009 due to re-leveraging achieved through the funds' credit facilities. The re-leveraging was the result of market appreciation and not a change in the funds' target leverage ratio. Market appreciation was \$559 million in the three months ended September 30, 2010, compared with \$799 million in the three months ended September 30, 2009.

Closed-end mutual funds had net inflows of \$22 million in the nine months ended September 30, 2010, compared with \$233 million in the nine months ended September 30, 2009 due to re-leveraging achieved through the funds' credit facilities. The re-leveraging was the result of market appreciation and not a change in the funds' target leverage ratio. Market appreciation was \$335 million in the nine months ended September 30, 2010, compared with \$681 million in the nine months ended September 30, 2009.

Institutional separate accounts

Institutional separate account assets under management increased 55% to \$17.7 billion at September 30, 2010 from \$11.4 billion at September 30, 2009. The increase in assets under management was due to net inflows of \$3.8 billion and market appreciation of \$2.5 billion during the prior twelve month period.

Average assets under management for institutional separate accounts were \$16.2 billion in the three months ended September 30, 2010, an increase of 69% from \$9.6 billion in the three months ended September 30, 2009.

Institutional separate accounts had net inflows of \$1.0 billion in the three months ended September 30, 2010, compared with \$1.2 billion in the three months ended September 30, 2009. Gross inflows were \$1.8 billion in the three months ended September 30, 2010, compared with \$1.6 billion in the three months ended September 30, 2009. Gross outflows totaled \$798 million in the three months ended September 30, 2010, compared with \$449 million in the three months ended September 30, 2009. Market appreciation was \$2.3 billion in the three months ended September 30, 2010 and September 30, 2009.

Institutional separate accounts had net inflows of \$3.0 billion in the nine months ended September 30, 2010, compared with \$2.4 billion in the nine months ended September 30, 2009. Gross inflows were \$4.7 billion in the nine months ended September 30, 2010, compared with \$3.1 billion in the nine months ended September 30, 2009. Gross outflows totaled \$1.7 billion in the nine months ended September 30, 2010, compared with \$748 million in the nine months ended September 30, 2009. Market appreciation was \$1.8 billion in the nine months ended September 30, 2010, compared with \$2.5 billion in the nine months ended September 30, 2009.

Results of Operations*Three Months Ended September 30, 2010 compared with Three Months Ended September 30, 2009*

(in thousands)	Three Months Ended September 30,

Revenue

Total revenue increased 37% to \$46.4 million in the three months ended September 30, 2010 from \$33.8 million in the three months ended September 30, 2009. This increase was primarily attributable to higher investment advisory and administration fees resulting from higher average assets under management, from net inflows and market appreciation. Average assets under management in the three months ended September 30, 2010 were \$29.0 billion compared with \$19.5 billion in the three months ended September 30, 2009.

In the three months ended September 30, 2010, total investment advisory and administration revenue from open-end mutual funds increased 38% to \$15.5 million from \$11.3 million in the three months ended September 30, 2009. The increase in open-end mutual fund revenue was attributable to higher levels of average assets under management resulting from market appreciation of \$1.2 billion and net inflows of \$511 million during the prior twelve month period. Average assets under management for open-end mutual funds in the three months ended September 30, 2010 were \$7.0 billion compared with \$5.1 billion in the three months ended September 30, 2009.

In the three months ended September 30, 2010, total investment advisory and administration revenue from closed-end mutual funds increased 23% to \$11.5 million from \$9.4 million in the three months ended September 30, 2009. The increase in closed-end mutual fund revenue was attributable to higher levels of average assets under management resulting primarily from market appreciation of \$689 million during the prior twelve month period. Average assets under management for closed-end mutual funds in the three months ended September 30, 2010 were \$5.7 billion compared with \$4.8 billion in the three months ended September 30, 2009.

In the three months ended September 30, 2010, total investment advisory and administration revenue from institutional separate accounts increased 54% to \$15.9 million from \$10.3 million in the three months ended September 30, 2009. The increase in institutional separate account revenue was attributable to higher levels of average assets under management resulting from net inflows of \$3.8 billion and market appreciation of \$2.5 billion during the prior twelve month period. Average assets under management for institutional separate accounts in the three months ended September 30, 2010 were \$16.2 billion compared with \$9.6 billion in the three months ended September 30, 2009.

Expenses

Total operating expenses increased 16% to \$32.4 million in the three months ended September 30, 2010 from \$28.0 million in the three months ended September 30, 2009, primarily due to increases in employee compensation and benefits, distribution and service fees and general and administrative expenses.

Employee compensation and benefits increased 13% to \$18.1 million in the three months ended September 30, 2010 from \$16.0 million in the three months ended September 30, 2009. This increase was primarily due to higher incentive bonus and production compensation, net of deferrals, of approximately \$706,000, higher amortization of restricted stock units of approximately \$613,000 and higher salaries of approximately \$571,000.

Distribution and service fee expenses increased 32% to \$5.1 million in the three months ended September 30, 2010 from \$3.8 million in the three months ended September 30, 2009. This increase was primarily due to higher average assets under management in certain of our open-end mutual funds.

General and administrative expenses increased 13% to \$7.9 million in the three months ended September 30, 2010 from \$7.0 million in the three months ended September 30, 2009. This increase was primarily due to higher information technology costs of approximately \$309,000 resulting from upgrades made to our infrastructure, including application development, and higher travel and entertainment of approximately \$197,000.

Non-operating Income

Non-operating income was \$4.5 million in the three months ended September 30, 2010, compared with \$4.2 million in the three months ended September 30, 2009. The third quarter 2010 results included a gain of approximately \$2.2 million due to recoveries on the sale of previously impaired securities. Excluding this gain, non-operating income would have been \$2.3 million for the three months ended September 30, 2010. The third quarter 2009 results included approximately \$3.1 million of net trading gains from our consolidated global real estate long-short funds.

Income Taxes

We recorded income tax expense of \$5.3 million in the three months ended September 30, 2010, compared with \$2.1 million in the three months ended September 30, 2009. The effective tax rate of approximately 29% in the three months ended September 30, 2010 included discrete items, the most significant of which was attributable to the sale of previously impaired securities. Excluding the discrete items, the effective tax rate for the three months ended September 30, 2010 was approximately 34%. The effective tax rate for the three months ended September 30, 2009 was approximately 21%. We expect our tax rate for the full year 2010 to approximate 34%, excluding discrete items.

Revenue

Total revenue increased 58% to \$131.9 million in the nine months ended September 30, 2010 from \$83.7 million in the nine months ended September 30, 2009. This increase was primarily attributable to higher investment advisory and administration fees resulting from higher average assets under management, from net inflows and market appreciation. Average assets under management in the nine months ended September 30, 2010 were \$27.0 billion compared with \$15.6 billion in the nine months ended September 30, 2009.

In the nine months ended September 30, 2010, total investment advisory and administration revenue from open-end mutual funds increased 61% to \$43.9 million from \$27.2 million in the nine months ended September 30, 2009. The increase in open-end mutual fund revenue was attributable to higher levels of average assets under management resulting from market appreciation of \$1.2 billion and net inflows of \$511 million during the prior twelve month period. Average assets under management for open-end mutual funds in the nine months ended September 30, 2010 were \$6.6 billion compared with \$4.1 billion in the nine months ended September 30, 2009.

In the nine months ended September 30, 2010, total investment advisory and administration revenue from closed-end mutual funds increased 40% to \$33.7 million from \$24.0 million in the nine months ended September 30, 2009. The increase in closed-end mutual fund revenue was attributable to higher levels of average assets under management resulting primarily from market appreciation of \$689 million during the prior twelve month period. Average assets under management for closed-end mutual funds in the nine months ended September 30, 2010 were \$5.6 billion compared with \$4.1 billion in the nine months ended September 30, 2009.

In the nine months ended September 30, 2010, total investment advisory and administration revenue from institutional separate accounts increased 79% to \$44.3 million from \$24.8 million in the nine months ended September 30, 2009. The increase in institutional separate account revenue was attributable to higher levels of average assets under management resulting from net inflows of \$3.8 billion and market appreciation of \$2.5 billion during the prior twelve month period. Average assets under management for institutional separate accounts in the nine months ended September 30, 2010 were \$14.7 billion compared with \$7.4 billion in the nine months ended September 30, 2009.

Expenses

Total operating expenses increased 19% to \$92.2 million in the nine months ended September 30, 2010 from \$77.3 million in the nine months ended September 30, 2009, primarily due to increases in employee compensation and benefits, distribution and service fees and general and administrative expenses.

Employee compensation and benefits increased 20% to \$51.5 million in the nine months ended September 30, 2010 from \$43.0 million in the nine months ended September 30, 2009. This increase was primarily due to higher incentive bonus and production compensation, net of deferrals, of approximately \$4.6 million, higher amortization of restricted stock units of approximately \$1.5 million and higher salaries of approximately \$1.1 million.

Distribution and service fee expenses increased 42% to \$14.2 million in the nine months ended September 30, 2010 from \$10.0 million in the nine months ended September 30, 2009. This increase was primarily due to higher average assets under management in certain of our open-end mutual funds.

General and administrative increased 10% to \$22.5 million in the nine months ended September 30, 2010 from \$20.5 million in the nine months ended September 30, 2009. This increase was primarily due to higher travel and entertainment of approximately \$765,000, higher information technology costs of approximately \$364,000 resulting from upgrades made to our infrastructure, including application development, and higher marketing expenses of approximately \$360,000.

Non-operating Income

Non-operating income was \$7.6 million in the nine months ended September 30, 2010, compared with a non-operating loss of \$17.5 million in the nine months ended September 30, 2009. The 2010 results included a gain of approximately \$5.3 million due to recoveries on the sale of previously impaired securities. Excluding this gain, non-operating income would have been \$2.3 million in the nine months ended September 30, 2010. The 2009 results included other-than-temporary impairment charges of \$32.2 million recorded on available-for-sale securities, primarily from investments in preferred securities and seed money investments in our sponsored mutual funds. Excluding these charges, non-operating income would have been \$14.7 million in the nine months ended September 30, 2009, of which approximately \$11.6 million was related to net trading gains from our consolidated global real estate long-short funds.

Income Taxes

We recorded an income tax expense of \$13.7 million in the nine months ended September 30, 2010, compared with \$1.2 million in the nine months ended September 30, 2009. The effective tax rate of approximately 29% in the nine months ended September 30, 2010 included discrete items, the most significant of which was attributable to the sale of previously impaired securities. Excluding these discrete items, the effective tax rate for the nine months ended September 30, 2010 was approximately 34%. The effective tax rate for the nine months ended September 30, 2009 was approximately 21%, excluding discrete items. We expect our tax rate for the full year 2010 to approximate 34%, excluding discrete items.

Liquidity and Capital Resources

Our investment advisory business does not require us to maintain significant capital balances. Our current financial condition is highly liquid, with a significant amount of our assets comprised of cash and cash equivalents, equity investments, investments, available-for-sale and accounts receivable. Our cash flows generally result from the operating activities of our business, with investment advisory and administrative fees being the most significant contributor. Cash and cash equivalents, equity investments, investments, available-for-sale and accounts receivable were 82% and 71% of total assets as of September 30, 2010 and December 31, 2009, respectively. Included in investments, available-for-sale were approximately \$4.9 million of auction rate preferred securities which were classified as level 2 investments in accordance with the Accounting Standard Codification (the Codification) Topic 820, *Fair Value Measurements and Disclosures* (Topic 820), at September 30, 2010. See Note 4 to the condensed consolidated financial statements relating to investments.

Cash and cash equivalents decreased by \$52.2 million, excluding the effect of exchange rate changes, in the nine months ended September 30, 2010. Net cash provided by operating activities was \$27.1 million in the nine months ended September 30, 2010. Net cash of \$19.5 million was provided by investing activities, primarily from proceeds from sales of investments, available-for-sale in the amount of \$36.5 million, partially offset by purchases of \$15.1 million of investments, available-for-sale and purchases of \$1.7 million of property and equipment. Net cash of \$98.8 million was used in financing activities, primarily from dividends to stockholders of \$98.1 million, which included a special dividend of approximately \$85.3 million paid on September 27, 2010,

and repurchase of common stock of \$3.4 million to satisfy employee withholding tax obligations on the delivery of restricted stock units, partially offset by contributions from redeemable noncontrolling interest of \$2.0 million.

Cash and cash equivalents increased by \$14.1 million, excluding the effect of exchange rate changes, in the nine months ended September 30, 2009. Net cash provided by operating activities was \$7.3 million in the nine months ended September 30, 2009. Net cash of \$11.0 million was provided by investing activities, primarily from proceeds from sales of investments, available-for-sale in the amount of \$36.1 million, partially offset by purchases of \$22.9 million of investments, available-for-sale and purchases of \$2.2 million of property and equipment. Net cash of \$4.2 million was used in financing activities, primarily from dividends to stockholders of \$6.4 million, a reduction to previously recorded excess tax benefits associated with the delivery of restricted stock units of \$3.4 million and repurchase of common stock of \$2.2 million to satisfy employee withholding tax obligations on the delivery of restricted stock units, partially offset by contributions from redeemable noncontrolling interest of \$7.3 million.

It is our policy to continuously monitor and evaluate the adequacy of our capital. We have consistently maintained net capital in excess of the regulatory requirements for our broker/dealer, as prescribed by the Securities and Exchange Commission (SEC). At September 30, 2010, we exceeded our minimum regulatory capital requirements by approximately \$1.3 million. The SEC's Uniform Net Capital Rule 15c3-1 imposes certain requirements that may have the effect of prohibiting a broker/dealer from distributing or withdrawing capital and requiring prior notice to the SEC for certain withdrawals of capital. During the three months ended September 30, 2010, we made a capital withdrawal of \$10,000,000 from our broker/dealer. Our non-U.S. subsidiaries are regulated outside the U.S. by the Hong Kong Securities and Future Commission, the United Kingdom Financial Securities Authority, and the Belgium Banking, Finance and Insurance Commission. At September 30, 2010, our non-U.S. subsidiaries exceeded their aggregate minimum regulatory requirements by approximately \$42.8 million. We believe that our cash flows from operations will be more than adequate to meet our anticipated capital requirements and other obligations as they become due.

Contractual Obligations

We have contractual obligations to make future payments in connection with our non-cancelable operating lease agreements for office space. There were no material capital lease obligations as of September 30, 2010. The following summarizes our contractual obligations as of September 30, 2010 (in thousands):

	2010	2011	2012	2013	2014	2015 and after	Total
Operating leases	\$ 1,904	\$ 7,375	\$ 7,148	\$ 7,352	\$ 1,122	\$ 825	\$ 25,726

Off-Balance Sheet Arrangements

We do not invest in any off-balance sheet vehicles that provide liquidity, capital resources, market or credit risk support, or engage in any leasing activities that expose us to any liability that is not reflected in our condensed consolidated financial statements.

Critical Accounting Policies and Estimates

The preparation of our condensed consolidated financial statements requires us to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the dates of the condensed consolidated financial statements and the reported amounts of revenue and expenses during the reporting periods. We believe the estimates used in preparing the condensed consolidated financial statements are reasonable and prudent. Actual results could differ from those estimates.

A thorough understanding of our accounting policies is essential when reviewing our reported results of operations and our financial position. Management considers the following accounting policies critical to an informed review of our condensed consolidated financial statements. For a summary of these and additional accounting policies, see the notes to the annual audited consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2009.

Investments

We determine the appropriate classification of our investments at the time of purchase and re-evaluate such determination at each statement of financial condition date.

Securities owned and securities sold but not yet purchased are classified as trading securities and are measured at fair value based on quoted market prices, market prices obtained from independent pricing services engaged by management or as determined by our fair value committee, with unrealized gains and losses recorded as gain (loss) from trading securities reported in our condensed consolidated statements of operations.

Investments classified as equity investments are accounted for using the equity method, under which we recognize our respective share of the investee's net income for the period. The carrying amounts of these investments approximate their fair value.

Investments classified as available-for-sale are primarily comprised of investment-grade preferred instruments and investments in our sponsored open-end and closed-end mutual funds. These investments are carried at fair value based on quoted market prices or market prices obtained from independent pricing services engaged by management, with unrealized gains and losses, net of tax, reported in accumulated other comprehensive income. We periodically review each individual security position that has an unrealized loss, or impairment, to determine if that impairment is other than temporary. If we believe an impairment of a security position is other than temporary, the loss will be recognized in our condensed consolidated statements of operations.

Goodwill and Intangible Assets

Goodwill represents the excess of the cost of our investment in the net assets of an acquired company over the fair value of the underlying identifiable net assets at the date of acquisition. Goodwill and indefinite lived intangible assets are not amortized but are tested at least annually for impairment by comparing the fair value to their carrying amounts. Finite lived intangible assets are amortized over their useful lives.

Stock-based Compensation

We recognize compensation expense for the grant-date fair value of awards of equity instruments granted to employees. This expense is recognized over the period during which employees are required to provide service. We also estimate forfeitures.

Income Taxes

We record the current and deferred tax consequences of all transactions that have been recognized in the condensed consolidated financial statements in accordance with the provisions of the enacted tax laws. Deferred tax assets are recognized for temporary differences that will result in deductible amounts in future years. Deferred tax liabilities are recognized for temporary differences that will result in taxable income in future years. We record a valuation allowance, when necessary, to reduce deferred tax assets to an amount that more likely than not will be realized. The effective tax rate for interim periods represents our best estimate of the effective tax rate expected to be applied to the full fiscal year.

Recently Issued Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued new guidance as an amendment to fair value measurements and disclosures. The new guidance adds new requirements for disclosure about transfers into and out of level 1 and level 2 fair value measurements and separate disclosures about purchases, sales, issuances, and settlements relating to level 3 measurements. The guidance also clarifies existing fair value disclosures about the level of disaggregation and about inputs and valuation techniques in level 2 and level 3 fair value measurements. This new guidance was effective for the first quarter of our 2010 fiscal year. The adoption of this new guidance did not have a material impact on our condensed consolidated financial statements.

In September 2009, the FASB issued new guidance measuring fair value of certain alternative investments. This new guidance creates a practical expedient to measure the fair value of an investment in certain entities on the basis of the net asset value per share of the investment (or its equivalent) determined as of the reporting entity's measurement date. This new guidance also requires disclosures by major category of investment about the attributes of those investments, such as the nature of any restrictions on the investor's ability to redeem its investments at the measurement date, any unfunded commitments and the investment strategies of the investees. This new guidance was effective for the first quarter of our 2010 fiscal year. The adoption of this new guidance did not have a material impact on our condensed consolidated financial statements.

In June 2009, the FASB issued new guidance related to consolidation of Variable Interest Entities (VIEs) which required careful reconsideration of previous conclusions, including (1) whether an entity is a VIE, (2) whether the enterprise is the VIE's primary beneficiary, and (3) what type of financial statement disclosures are required. This guidance was effective for the first quarter of our 2010 fiscal year. In February 2010, the FASB issued new guidance as an amendment to consolidation of VIEs. The amendment deferred the consolidation requirements for a reporting entity's interest in an entity (1) that has all the attributes of an investment company, or (2) for which it is industry practice to apply measurement principles for financial reporting purposes that are consistent with those followed by investment companies. This guidance did not have a material impact on our condensed consolidated financial statements because we met the criteria under the deferral afforded by the amendment.

Forward-Looking Statements

This report and other documents filed by us contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, which reflect our current views with respect to, among other things, our operations and financial performance. You can identify these forward-looking statements by the use of words such as outlook, believes, expects, potential, continues, may, should, seeks, approximately, predicts, intends, plans, estimates, anticipates or the negative versions of these comparable words. Such forward-looking statements are subject to various risks and uncertainties.

Accordingly, there are or will be important factors that could cause actual outcomes or results to differ materially from those indicated in these statements. We believe that these factors include, but are not limited to, those described in the Risk Factors section of our Annual Report on Form 10-K for the year ended December 31, 2009, which is accessible on the Securities and Exchange Commission's Web site at www.sec.gov and on our Web site at www.cohenandsteers.com. These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included in this report. We undertake no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise.

Item 3. *Quantitative and Qualitative Disclosures About Market Risk*

There have been no material changes in our Quantitative and Qualitative Disclosures About Market Risk from those previously reported in our annual report on Form 10-K for the year ended December 31, 2009.

Item 4. *Controls and Procedures*

Our management, including our co-chief executive officers and our chief financial officer, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) as of September 30, 2010. Based on that evaluation, our co-chief executive officers and chief financial officer have concluded that our disclosure controls and procedures as of September 30, 2010 were effective.

There has been no change in our internal control over financial reporting that occurred during the three months ended September 30, 2010 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II Other Information**Item 1. Legal Proceedings**

From time to time, we are involved in legal matters relating to claims arising in the ordinary course of business. Except as noted below, there are currently no such matters pending that we believe could have a material adverse effect on our business or financial condition.

The Company, CSCM and the officers of two Cohen & Steers closed-end funds (collectively, the Defendants) were named as defendants in putative shareholder derivative actions captioned *Gammon v. Cohen & Steers Capital Management, Inc., et al.* and *Livson v. Cohen & Steers Capital Management, Inc., et al.* filed in the Supreme Court of the State of New York, County of New York on August 26, 2010 and September 8, 2010, respectively (together, the Complaints). The Complaints also named the two funds as nominal defendants. The Complaints allege breaches of fiduciary duties related to the redemption of the funds' auction preferred shares at their liquidation preference, and seek indeterminate monetary damages in favor of the funds and an award of plaintiffs' costs and disbursements in pursuing the action.

The Complaints follow the previously disclosed shareholder demand letters sent to the board of directors of three Cohen & Steers closed-end funds, which contain the same basic allegations contained in the Complaints. On October 28, 2010, a special committee consisting of independent members of the funds' boards determined that the funds should not pursue claims based on the allegations in the demand letters and rejected the demands made in the letters. The Defendants believe that the Complaints are without merit, and intend to defend vigorously against these charges.

In the opinion of management, the ultimate resolution and outcome of this matter is uncertain, and we are unable to estimate the expense or exposure, if any, that it may represent, though it could potentially have a material adverse impact on the financial position and results of operations of the Company. However, this possible impact is unknown and not reasonably determinable; therefore, no liability has been recorded in the condensed consolidated financial statements.

Item 1A. Risk Factors

For a discussion of our potential risks and uncertainties, please see Part 1, Item 1A of our 2009 Annual Report on Form 10-K filed with the SEC. There have been no material changes to the risk factors disclosed in Part 1, Item 1A of our 2009 Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the three months ended September 30, 2010, we made the following purchases of our equity securities that are registered pursuant to Section 12(b) of the Securities Exchange Act of 1934.
