| Net Income attributable to Hitachi, Ltd. | 62.0 | 40.2 | 767 | 220.1 | 331.4 | 2,718 |

Hitachi's consolidated revenues for the third quarter of fiscal 2010 increased 5% year over year, to 2,263.4 billion yen. In addition to higher revenues in the Construction Machinery segment, centered on emerging countries, this overall increase was attributable to higher year-over-year revenues in the High Functional Materials & Components, Electronic Systems & Equipment and Automotive Systems segments in line with recovering demand in the electronics- and automotive- related fields.

Overseas revenues increased 8% year over year, to 1,003.5 billion yen due to a global recovery in demand.

Hitachi posted consolidated operating income of 119.8 billion yen, improved 53.4 billion yen year over year. This much improved result was attributable to improved revenues and posting of improved year over year operating income in all segments, including the Construction Machinery, Electronic Systems & Equipment, Digital Media & Consumer Products, and High Functional Materials & Components, and reflected progress with business structure reform measures, accelerated initiatives of procurement cost and fixed expenses reduction and project management. Especially, the Information & Telecommunication Systems segment improved even amid ongoing reduction in IT investment in Japan.

Hitachi posted net other deductions of 12.7 billion yen, increased 4.0 billion yen year over year mainly due to the record of exchange losses resulting from the yen's appreciation. As a result, Hitachi recorded income before income taxes of 107.0 billion yen, an improvement of 49.4 billion yen year over year. After income taxes of 26.6 billion yen, Hitachi posted net income of 80.4 billion yen, an improvement of 49.2 billion yen year over year. The segment revenue growth reflected higher year over year sales of commercially packaged air conditioners, as well as growth in sales of flat-panel TVs, room air-conditioners, refrigerators and other products, thanks to a surge in demand before changes to the eco-points system in Japan.

Operating income improved 6.6 billion yen year over year, to 9.9 billion yen due to strong performances from products eligible for eco-points. However, optical disk drive-related products saw earnings decline in line with lower sales.

Outside Japan revenues increased 8%, to 1,003.5 billion yen. In addition to higher sales in the Construction Machinery Segment, mainly to emerging countries, the Electronic Systems & Equipment, High Functional Materials & Components, Components & Devices and Automotive Systems segments posted strong revenue growth because of recovering demand in the electronics- and automotive-related fields.

Depreciation, excluding leasing assets, declined 16%, to 224.7 billion yen. R&D expenditures were up 8% at 290.4 billion yen, corresponding to 4.3% of consolidated revenues.

Total assets as of December 31, 2010 increased 340.7 billion yen from March 31, 2010, to 9,305.2 billion yen. This resulted from the recording of financial assets that had been transferred off the balance sheet to securitization entities in accordance with the application of new U.S. GAAP accounting standards effective April 1, 2010. Similarly, interest-bearing liabilities increased by 457.1 billion yen, to 2,824.3 billion yen due to the recording of liabilities associated with the consolidation of securitization entities. Stockholders' equity increased 165.0 billion yen, to 1,449.6 billion yen from March 31, 2010 due mainly to the improvement in net income attributable to Hitachi, Ltd. As a result, the total Hitachi, Ltd. stockholders' equity ratio was 15.6%. The debt-to-equity ratio, including noncontrolling interests, was 1.15. (2) Cash Flows

| | Three months ended December 31, 2010 | | | Nine months ended December 31, 2010 | | |
|--------------------------------------|---|--------------------------|-------------------------------|-------------------------------------|--------------------------|-------------------------------|
| | Yen (billions) | Year-over-year change | U.S. dollars (millions) | Yen (billions) | Year-over-year change | U.S. dollars (millions) |
| Cash flows from operating activities | 42.0 | (12.5) | 520 | 419.6 | 32.4 | 5,181 |
| Cash flows from investing activities | (49.0) | 39.3 | (605) | (154.6) | 189.6 | (1,909) |
| Free cash flows | (6.9) | 26.8 | (86) | 264.9 | 222.0 | 3,271 |
| Cash flows from financing activities | (65.3) | (207.2) | (806) | (259.2) | (135.6) | (3,200) |

Operating activities in the third quarter of fiscal 2010 provided net cash of 42.0 billion yen, a year-over-year decrease of 12.5 billion yen, due mainly to an increase in inventories to be sold at the end of the fiscal year. This year over year decrease was despite a marked improvement in net income.

Investing activities used net cash of 49.0 billion yen, 39.3 billion yen less year over year, mainly due to the strict selection of capital expenditures.

Free cash flows, the sum of cash flows from operating and investing activities, was a negative figure of 6.9 billion yen.

Financing activities used net cash of 65.3 billion yen due to the progress in debt repayment and increased dividend payments.

The net result of the above items was a decrease of 77.1 billion yen in cash and cash equivalents, to 556.6 billion yen.

For the first nine months of fiscal 2010, operating activities provided net cash of 419.6 billion yen, an increase of 32.4 billion yen year over year. This reflected a marked improvement in net income.

Investing activities during the same period used net cash of 154.6 billion yen, 189.6 billion yen less year over year. This decrease was attributable to the strict selection of investments, including the acquisition of property, plant and equipment, and shares. It also reflected the selling of certain shareholdings.

Free cash flows, the sum of cash flows from operating and investing activities, was 264.9 billion yen, a 222.0 billion yen improvement year over year.

Financing activities used net cash of 259.2 billion yen, 135.6 billion yen more than the corresponding nine-month period of the previous fiscal year. In addition to the repayment of debt, this was due to higher dividend payments.

Free cash flows increased in both the three- and nine-month periods due to the consolidation of securitization entities in accordance with the application of new U.S. GAAP accounting standards effective from April 1, 2010. However, the application of these standards had almost the same effect on cash outflows in financing activities.

3. Outlook for Fiscal 2010

| | Year ending March 31, 2011 | | |
|--|----------------------------|---|-------------------------------|
| | Yen (billions) | Year-over-year change (% or billions yen) | U.S. dollars (millions) |
| Revenues | 9,300.0 | 4% | 116,250 |
| Operating income | 440.0 | 237.8 | 5,500 |
| Income before income taxes | 430.0 | 366.4 | 5,375 |
| Net Income | 305.0 | 389.3 | 3,813 |
| Net Income attributable to Hitachi, Ltd. | 230.0 | 336.9 | 2,875 |

Note: All fiscal 2010 outlook figures were converted using 80 yen to the U.S. dollar.

The above forecasts for fiscal 2010 are based on a steady contribution from the Social Innovation Business, accelerated global expansion, the benefits of business structure reforms, and progress with ongoing cost-containment initiatives on procurement costs and fixed expenses. The forecast also takes into account the uncertainty surrounding the global economic outlook and expected impact of the yen's appreciation.

Hitachi is forecasting overall revenues in line with its previous projections. The Company expects to see higher revenues than its previous forecast announced on October 28, 2010 in the Automotive Systems, Digital Media & Consumer Products, Social Infrastructure & Industrial Systems, and Components & Devices segments. This is due to recovering demand in the electronics- and automotive-related fields, as well as the benefits of economic stimulus measures around the world, among other factors. However, Hitachi also expects lower revenues in the Power Systems segment, where some projects have been pushed back, as well as the High Functional Materials & Components segment.

Hitachi has raised its projection for operating income from its previous forecast. The revised projection is based mainly on improved earnings in the Digital Media & Consumer Products, Components & Devices and Social Infrastructure & Industrial Systems segments due to stepped-up cost-cutting activities, including fixed expenses. Accompanied with an improvement in net other deductions, Hitachi has also raised its forecasts for income before income taxes, net income and net income attributable to Hitachi, Ltd.

Hitachi is assuming exchange rates of 80 yen to the U.S. dollar and 110 yen to the euro for the fourth quarter of fiscal 2010.
