The information in this prospectus is not complete and may be changed. We may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities, and we are not soliciting offers to buy these securities, in any jurisdiction where the offer or sale is not permitted.

SUBJECT TO COMPLETION, DATED OCTOBER 25, 2011

PRELIMINARY PROSPECTUS

Spansion LLC

OFFER TO EXCHANGE

\$200,000,000 principal amount of its

7.875% Senior Notes due 2017

which have been registered under the Securities Act,

for any and all of its outstanding 7.875% Senior Notes due 2017

The exchange offer expires at 5:00 p.m., New York City time, on _____, 2011, unless extended.

We will exchange all outstanding notes that are validly tendered and not validly withdrawn for an equal principal amount of a new series of notes that are registered under the Securities Act.

The exchange offer is not subject to any conditions other than that it not violate applicable law or any applicable interpretation of the staff of the SEC.

You may withdraw tenders of outstanding notes at any time before the exchange offer expires.

The exchange of notes will not be a taxable event for U.S. federal income tax purposes.

We will not receive any proceeds from the exchange offer.

Edgar Filing: Spansion Inc. - Form S-4/A

The terms of the new series of notes are substantially identical to the terms of the outstanding notes, except for transfer restrictions and registration rights relating to the outstanding notes.

You may tender outstanding notes only in denominations of \$2,000 and integral multiples of \$1,000.

Our affiliates may not participate in the exchange offer.

Each broker-dealer that receives new notes for its own account pursuant to the exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of such new notes. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of new notes received in exchange for outstanding notes where such outstanding notes were acquired by such broker-dealer as a result of market-making activities or other trading activities.

The exchange offer will be conducted in compliance with the Depository Trust Company's Automated Tender Offer Program, or ATOP, procedures; the exchange offer will be conducted without the use of a letter of transmittal or notice of guaranteed delivery.

Please refer to Risk Factors beginning on page 12 of this prospectus for a description of the risks you should consider when evaluating this exchange offer.

We are not making this exchange offer in any jurisdiction where it is not permitted.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of the notes or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus is _____, 2011.

Market and Industry Data

Market and industry data included or incorporated by reference in this prospectus were obtained from a combination of third-party industry data and good faith estimates of management based on these data. While we believe these industry data and estimates of management are reliable, we have not independently verified this data. We are not aware of any misstatements regarding market or industry data contained in this prospectus; however, such data involves risks and uncertainties and is subject to change based on various factors, including those factors discussed in Risk Factors in this prospectus.

Trademarks

Spansion™, the Spansion logo, and other trademarks or service marks of Spansion appearing in this prospectus are the property of Spansion. Trade names, trademarks and service marks of other companies appearing in this prospectus are the property of the respective holders.

Table of Contents

Forward-Looking Statements

This prospectus and the documents incorporated by reference herein contain forward-looking statements. These statements relate to future events or our future financial performance. Forward-looking statements may include words such as may, will, should, expect, plan, intend, anticipate, believe, estimate, predict, potential, continue or other wording indicating future results or expectations. Forward-looking statements are subject to risks and uncertainties, and actual events or results may differ materially. Factors that could cause our actual results to differ materially include, but are not limited to, those discussed under Risk Factors in this prospectus. We also face risks and uncertainties associated with emergence from the Chapter 11 bankruptcy proceedings, or the Chapter 11 Cases; claims not discharged in the Chapter 11 Cases and their effect on our results of operations and profitability; substantial indebtedness and its impact on our financial health and operations; fluctuations in foreign currency exchange rates; the sufficiency of workforce and cost reduction initiatives; and the effect of the earthquakes and tsunami that occurred recently in Japan, the resultant intermittent power outages and the continued risk of radiation exposure from damaged nuclear power plants. Other risks and uncertainties relating to our business include our ability to: successfully transform our business and implement our new business strategy focused primarily on the embedded Flash memory market; maintain or increase our average selling price and lower our average costs; accurately forecast customer demand for our products; attract new customers; obtain additional financing in the future; maintain our distribution relationships and channels in the future; successfully enter new markets and manage our international expansion; successfully compete with existing and new competitors, or with new memory or other technologies; successfully develop new applications and markets for our products; maintain manufacturing efficiency; obtain adequate supplies of satisfactory materials essential to manufacture our products; successfully develop and transition to the latest technologies; negotiate patent and other intellectual property licenses and patent cross-licenses and acquire additional patents; protect our intellectual property and defend against infringement or other intellectual property claims; maintain our business operations and demand for our products in the event of natural or man-made catastrophic events; and effectively manage, operate and compete in the current sustained economic downturn. Except as required by law, we undertake no obligation to revise or update any forward-looking statements to reflect any event or circumstances that arises after the date of this prospectus, or to conform such statements to actual results or changes in our expectations.

Prospectus Summary

This summary highlights information contained in greater detail elsewhere in this prospectus. This summary may not contain all the information that you should consider before exchanging your notes. You should read the entire prospectus carefully, including the risk factors included elsewhere in this prospectus, as well as the information incorporated by reference, including the financial statements, before exchanging your notes. Unless the context otherwise requires, references in this prospectus to Spansion LLC, we, our, us and the company refer to Spansion LLC in the context of the terms of the notes, as the issuer of the notes, and references to Spansion Inc. refers to Spansion Inc. and its subsidiaries, including Spansion LLC.

Overview

We are a leading designer, developer and manufacturer of Flash memory solutions. We primarily focus on serving the embedded Flash memory market to customers worldwide. Our Flash memory products primarily store data and software code for microprocessors, microcontrollers and other programmable semiconductors which run applications in a broad range of electronics systems. These electronic systems include computing and communications, automotive and industrial, consumer and gaming, wireless and machine-to-machine, or M2M, devices. In addition to Flash memory products, we assist our customers in developing and prototyping their designs by providing software and hardware development tools, drivers and simulation models for system-level integration.

Our Flash memory solutions are incorporated in products from leading original equipment manufacturers, or OEMs. Our products are designed to accommodate various voltage, interface and memory density requirements for a wide range of applications and customer platforms. The majority of our new product designs are based on our proprietary two-bit-per-cell MirrorBit technology which has a simpler cell architecture requiring fewer manufacturing steps, supporting higher yields and lower costs as compared to competing floating gate NOR Flash memory technology.

For the period from May 11, 2010 through December 26, 2010, Successor net sales were \$764.7 million and Successor net loss was \$96.7 million. For the period from December 28, 2009 through May 10, 2010, Predecessor net sales were \$403.6 million and Predecessor net income was \$363.6 million. For the six months ended June 26, 2011, Successor net sales were \$591.7 million and Successor net income was \$11.1 million. For an explanation of our Predecessor and Successor periods relating to our emergence from our bankruptcy proceedings described below, please see Prospectus Summary Summary Historical Consolidated Financial Data beginning on page 9 of this prospectus.

Circumstances Leading to the Commencement of Bankruptcy Proceedings in 2009

A variety of external economic factors contributed to the decline in our operating performance prior to our seeking relief under Chapter 11 of the U.S. Bankruptcy Code, such as persistent oversupply in the Flash memory industry compounded by the global economic recession, which significantly reduced demand for our products beginning in the fourth quarter of 2008 and continues to negatively impact demand. These two factors were further complicated by our inability to obtain the additional external financing necessary to meet capital expenditure needs and operational costs in a market characterized by swift technological advances and constantly changing manufacturing processes.

Our strategy was historically based on aggressive revenue and market share growth, leveraging advanced technology and low cost, high-volume manufacturing. In our 2006 long range planning cycle, forecasted revenue growth supported the construction of a \$1.2 billion advanced wafer fabrication facility called SP1. Debt financing was arranged and construction on SP1 commenced in early 2007.

Table of Contents

Although we continued to increase our NOR memory market segment share, steep average selling price, or ASP, declines during the first half of 2007 negatively affected revenue and operating cash flow. At that time, we anticipated an improvement in the market environment for the second half of 2007 and aggressively continued the construction of SP1 and incurred associated capital expenditures with the ultimate goal of significant cost reductions that would enhance our competitive position.

During the second half of 2007, the ASP environment stabilized relative to earlier in the year. However, we faced customer qualification issues resulting in a shortfall of anticipated revenue and increased inventory levels which contributed to our failure to meet financial performance targets in the second half of 2007. For fiscal 2007, cash flow from operations was \$216.3 million, which was significantly lower than anticipated. Driven by the SP1 and investments in our research and development facilities, our capital spending in 2007 was approximately \$1.1 billion.

Our 2008 operating plan included capital expenditures of approximately \$535.0 million, of which approximately 80 percent was expected to occur in the first half of the year in order to complete the first phase of SP1. Upon completion of the first phase, SP1 was anticipated to generate approximately \$300 million in revenue in 2008.

In the first quarter of 2008, we lost liquidity in our investment in \$121.9 million of AAA/Aaa-rated auction rate securities, or ARS, because the auctions in which these ARS were traded failed. Throughout the second and third quarters of 2008, the credit markets continued to deteriorate and we intensified our cash management efforts. Operationally, the ramp-up of SP1 was delayed due to slower than expected customer qualifications and a sharp decline in the Japanese wireless market. In the third quarter of 2008, we engaged investment bankers and capital restructuring advisors to evaluate the situation and to accelerate plans to improve liquidity. Multiple initiatives were launched and/or accelerated, including efforts to sell production facilities, raise capital and seek liquidity options for the ARS.

In the fourth quarter of 2008, the macroeconomic environment deteriorated significantly, causing a sharp decline in worldwide demand for consumer goods, and consequently a sharp reduction of demand for our products. Furthermore, continued tightening of credit availability and general market liquidity initiatives curtailed our ability to execute the liquidity initiatives launched in the third quarter of 2008. As these events unfolded, we intensified our strategic restructuring efforts to include, among other things, pursuing a potential sale of some or all of our assets. The sharp decline in demand, coupled with our inability to execute liquidity initiatives limited our ability to generate sufficient funding for our operations and meet our debt servicing requirements, ultimately leading to our seeking relief under Chapter 11 of the U.S. Bankruptcy Code.

The Chapter 11 Cases and Emergence

General Information

On March 1, 2009, Spansion Inc., Spansion LLC, Spansion Technology LLC, Spansion International, Inc., and Cerium Laboratories LLC, or the Debtors, each filed a voluntary petition for relief under our Chapter 11 bankruptcy proceedings, or the Chapter 11 Cases. On May 10, 2010, or the Emergence Date, the Debtors emerged from the Chapter 11 Cases, following the confirmation of the Plan of Reorganization that was approved by the U.S. Bankruptcy Court on April 16, 2010 in connection with our emergence from the Chapter 11 Cases.

Upon emergence from the Chapter 11 Cases, we adopted fresh start accounting in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 852 *Reorganizations*. The adoption of fresh start accounting resulted in us becoming a new entity for financial reporting purposes. Accordingly, the consolidated financial statements on or after May 11, 2010 are not comparable to the consolidated financial statements prior to that date.

Table of Contents

Also, holders of Class A common stock outstanding prior to the Emergence Date, or Old Common Stock, did not receive any consideration for their shares or any pre-determined allocation of Class A common stock of the reorganized Company, or New Common Stock. Holders of New Common Stock issued by the reorganized Company after the Emergence Date primarily include unsecured creditors who have received or will receive shares of New Common Stock in settlement of their allowed claims, and participants in a rights offering that we conducted in February 2010, as described below under Effectiveness of the Plan and Exit Financing.

For additional information regarding the impact of fresh start accounting on our Consolidated Financial Statements as of the Emergence Date, see Note 2 to our Consolidated Financial Statements included in Part II, Item 8 of the Annual Report on Form 10-K for the year ended December 26, 2010, which is incorporated by reference into this prospectus.

Effectiveness of the Plan and Exit Financing

Under the Plan of Reorganization, most holders of allowed general, unsecured claims against the Predecessor received or will receive New Common Stock in satisfaction of their claims. Holders of allowed general, unsecured claims subject to a low payout threshold received cash in satisfaction of their claims. Holders of Senior Secured Floating Rate Notes, or FRNs, received cash of approximately \$638 million to fully discharge their claims. The \$638 million was primarily provided by the exit financing discussed below.

Pursuant to the Plan of Reorganization, the holders of allowed claims were offered the right to purchase a total of 12,974,496 shares of the New Common Stock upon emergence from the Chapter 11 Cases at a price of \$8.43 per share, or the Rights Offering. The number of shares available to each eligible claimant was based on each claimant's proportionate allowed claim. In connection with the Rights Offering, we entered into a Backstop Rights Purchase Agreement with Silver Lake Management Company Sumeru, LLC whereby they committed to purchase the remaining balance of Rights Offering shares that are not otherwise subscribed for by the Rights Offering participants. Based on the agreement, Silver Lake Management Company Sumeru, LLC purchased 3,402,704 shares of the New Common Stock that had not been subscribed for by the Rights Offering participants. We received net proceeds of approximately \$104.9 million through the Rights Offering, which was used in full to partially discharge the FRN claims.

On February 9, 2010, we closed a five-year senior secured credit agreement, or the Term Loan, of \$450 million with a group of lenders. The proceeds of the Term Loan, together with cash proceeds from other sources of cash available to us, were used in full to partially discharge the remaining balance of the FRN claims.

On May 10, 2010, we entered into a senior revolving credit facility agreement, or the Revolving Credit Facility, with Bank of America and other financial institutions in an aggregate amount of up to \$65 million to fund bankruptcy related expenses and ongoing working capital. As of June 26, 2011, we have not drawn under this facility which was entered into as a pre-condition to obtaining the Term Loan.

In November 2010, Spansion LLC issued \$200 million aggregate principal amount of its 7.875% Senior Notes due 2017, or the private notes, to qualified institutional buyers in a private placement. The net proceeds of \$195.6 million were used to pay down amounts outstanding under the Term Loan.

The Plan of Reorganization contemplates the distribution of 65.8 million shares of New Common Stock, consisting of: (i) 46,247,760 shares to holders of allowed general, unsecured claims; (ii) 12,974,496 shares to subscribers of the Rights Offering; and (iii) 6,580,240 shares reserved for issuance to eligible employees in connection with grants of stock options and restricted stock units, or RSUs, under our 2010 Equity Incentive Award Plan, or the 2010 Plan. As of June 26, 2011, we had granted options to purchase 5,502,046 shares of New Common Stock and 4,578,981 RSUs under the 2010 Plan to our directors and employees, and 1,678,261 shares were eligible for future equity awards.

Table of Contents

In accordance with the Plan of Reorganization, holders of Old Common Stock , or stock options exercisable for Old Common Stock and RSUs which convert into Old Common Stock, outstanding as of May 10, 2010 did not receive any distributions, and their equity interests were cancelled on May 10, 2010.

Corporate Information

Spansion Inc. is a Delaware corporation, Spansion Technology LLC is a Delaware limited liability company, and Spansion LLC is a Delaware limited liability operating company. Spansion Inc. is the holding company that directly owns 100% of the membership interests of Spansion Technology LLC and 60% of the membership interests of Spansion LLC. Spansion Technology LLC is an intermediate holding company that directly owns the other 40% of the membership interests of Spansion LLC. As holding companies, neither Spansion Inc. nor Spansion Technology LLC has any independent assets or business operations, other than to own the membership interests as described above. Our principal executive offices are located at 915 DeGuigne Drive, P.O. Box 3453, Sunnyvale, California 94088, and our telephone number is (408) 962-2500. Our website address is www.spansion.com. Information contained on our website is not a part of this prospectus and the inclusion of our website address in this prospectus is an inactive textual reference only.

Table of Contents

The Exchange Offer

Exchange Offer

We are offering to exchange the exchange notes for the outstanding private notes that are properly tendered and accepted. You may tender outstanding private notes only in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. We will issue the exchange notes on or promptly after the exchange offer expires. As of the date of this prospectus, \$200,000,000 principal amount of private notes is outstanding.

Expiration Date

The exchange offer will expire at 5:00 p.m., New York City time, on _____, 2011, (the 21st business day following commencement of the exchange offer), unless extended, in which case the expiration date will mean the latest date and time to which we extend the exchange offer.

Conditions to the Exchange Offer

The exchange offer is not subject to any condition other than that it not violate applicable law or any applicable interpretation of the staff of the SEC. The exchange offer is not conditioned upon any minimum principal amount of private notes being tendered for exchange.

Procedures for Tendering Private Notes

This exchange offer will be conducted without the use of a letter of transmittal or notice of guaranteed delivery. If you wish to tender your private notes for exchange notes pursuant to the exchange offer you must:

if you hold the private notes through The Depository Trust Company, or DTC, comply with the Automated Tender Offer Program procedures of DTC, and the Exchange Agent (as defined below) must receive a timely confirmation of a book-entry transfer of the private notes into its account at DTC pursuant to the procedures for book-entry transfer described herein, along with a properly transmitted agent's message, before the expiration date; or

if you hold private notes through Euroclear Bank S.A./N.V., or Euroclear, or Clearstream Banking, S.A., or Clearstream, comply with the procedures of Euroclear or Clearstream, as applicable, before the expiration date.

By tendering the private notes pursuant to the exchange offer, you will make the representations to us described under "The Exchange Offer Procedures for Tendering."

Acceptance of the Private Notes and Delivery of the Exchange Notes

Subject to the satisfaction or waiver of the conditions to the exchange offer, we will accept for exchange any and all private notes which are validly tendered in the exchange offer and not withdrawn before 5:00 p.m., New York City time, on the expiration date.

Table of Contents

Withdrawal Rights

You may withdraw the tender of your private notes at any time before 5:00 p.m., New York City time, on the expiration date, by complying with the procedures for withdrawal described in this prospectus under the heading "The Exchange Offer - Withdrawal of Tenders."

Certain U.S. Federal Tax Considerations

The exchange of notes will not be a taxable event for U.S. federal income tax purposes. For a discussion of certain material U.S. federal income tax considerations relating to the exchange, ownership and disposition of notes, see "Certain U.S. Federal Income Tax Considerations."

Exchange Agent

Wells Fargo Bank, National Association, the trustee under the indenture governing the notes, is serving as the exchange agent for the notes, or the Exchange Agent.

Consequences of Failure to Exchange

If you do not exchange your private notes for exchange notes, you will continue to be subject to the restrictions on transfer provided in the private notes and in the indenture governing the private notes. In general, the private notes may not be offered or sold, unless registered under the Securities Act of 1933, as amended (the "Securities Act"), except pursuant to an exemption from, or in a transaction not subject to, the Securities Act and applicable state securities laws. We do not currently plan to register the private notes under the Securities Act.

Registration Rights Agreement

You are entitled to exchange your private notes for exchange notes with substantially identical terms. This exchange offer satisfies this right. After the exchange offer is completed, you will no longer be entitled to any exchange or registration rights with respect to your private notes.

We explain the exchange offer in greater detail beginning on page 33.

Table of Contents

The Exchange Notes

The summary below describes the principal terms of the exchange notes. Certain of the terms and conditions described below are subject to important limitations and exceptions. The Description of Notes section of this prospectus contains a more detailed description of the terms and conditions of the exchange notes.

The form and terms of the exchange notes are the same as the form and terms of the private notes, except that the exchange notes will be registered under the Securities Act and, therefore, the exchange notes will not be subject to the transfer restrictions, registration rights and provisions providing for an increase in the interest rate applicable to the private notes. The exchange notes will evidence the same debt as the private notes, and both the private notes and the exchange notes are governed by the same indenture.

Issuer	Spansion LLC.
Notes Offered	\$200,000,000 aggregate principal amount of 7.875% Senior Notes due 2017.
Interest Payment Dates	May 15 and November 15 of each year, beginning on May 15, 2011.
Maturity	November 15, 2017.
Guarantees	The notes will be guaranteed on a senior unsecured basis by Spansion Inc., our ultimate parent company, and Spansion Technology LLC, our direct parent and a wholly-owned subsidiary of Spansion Inc. The guarantees do not trade separately from the notes.
Ranking	<p>The notes and the guarantees are Spansion LLC's and the guarantors' senior unsecured obligations and:</p> <ul style="list-style-type: none"> rank <i>pari passu</i> with all of the current and future senior unsecured debt of Spansion LLC and the guarantors; are effectively subordinated to all existing and future secured debt of Spansion LLC and the guarantors to the extent of the value of the assets securing such debt; are structurally subordinated to any debt and other liabilities, including trade payables, of Spansion LLC's subsidiaries with respect to the assets and earnings of those subsidiaries; and are senior to all existing and future debt of Spansion LLC and the guarantors that is expressly subordinated in right of payment to the notes and the guarantees. <p>As of June 26, 2011, Spansion Inc. had consolidated debt of approximately \$448.3 million, all of which constituted debt directly borrowed (or issued) by Spansion LLC or a</p>

guarantor and approximately \$248.3 million of which was secured.

Optional Redemption

Prior to November 15, 2013, we may redeem some or all of the notes at a price equal to 100% of the principal amount, plus accrued and unpaid interest and a make-whole premium. Thereafter, we may redeem all or part of the notes at any time at the redemption prices set

Table of Contents

forth in the section Description of the Notes Optional Redemption, plus accrued and unpaid interest, if any, to the date of redemption.

On or prior to November 15, 2013, we may redeem up to 35% of the notes with the proceeds of certain sales of our equity securities at 107.875% (100% of the principal amount plus a premium equal to the interest rate applicable to the notes), plus accrued and unpaid interest, if any, to the date of redemption. See Description of the Notes Optional Redemption.

Change of Control

Upon the occurrence of a change of control, you will have the right as a holder of notes to require us to repurchase all of your notes at a repurchase price equal to 101% of their principal amount, plus accrued and unpaid interest, if any, to the date of repurchase. We may not have enough funds or the terms of our other debt may prevent us from purchasing the notes. See Description of the Notes Repurchase at the Option of Holders upon a Change of Control.

Certain Covenants

The indenture governing the notes contains certain covenants that will limit, among other things, our ability and the ability of our restricted subsidiaries to:

incur additional indebtedness or issue preferred stock;

pay dividends and make other restricted payments;

make certain investments, including investments in unrestricted subsidiaries;

create or permit certain liens;

create or permit restrictions on the ability of the restricted subsidiaries to pay dividends or make other distributions to us;

use the proceeds from sales of assets;

enter into certain types of transactions with affiliates; and

consolidate or merge or sell our assets as an entirety or substantially as an entirety.

These covenants are subject to a number of important exceptions and limitations, which are described under the heading Description of the Notes Certain Covenants. In addition, at any time that the notes have an investment grade rating from both Moody's Investors Services, Inc. and Standard and Poor's Ratings Services, we will not be subject to certain of these covenants.

Use of Proceeds

We will not receive any cash proceeds from the exchange offer.

Risk Factors

Investing in the notes involves substantial risks. You should consider carefully all of the information contained or incorporated by reference in this prospectus. In particular, for a discussion of some specific factors that you should consider in evaluating an investment in the notes, see **Risk Factors** beginning on page 12 of this prospectus.

Table of Contents

Summary Historical Consolidated Financial Data

The following tables present the summary historical consolidated financial and other data for the business of Spansion Inc. for the periods indicated. Spansion Inc. derived the consolidated statements of operations data for the years ended December 28, 2008, December 27, 2009 and December 26, 2010 from its audited consolidated financial statements incorporated by reference in this prospectus. Fiscal 2008 and 2009 each consisted of 52 weeks. Spansion Inc. derived the condensed consolidated statements of operations data for the six months ended June 26, 2011 and June 27, 2010 and the condensed consolidated balance sheet data as of June 26, 2011 from its unaudited consolidated financial statements incorporated by reference in this prospectus. The six months ended June 26, 2011 and June 27, 2010 each consisted of 26 weeks.

Spansion Inc.'s historical results are not necessarily indicative of the results to be expected in the future. Upon emergence from the Chapter 11 Cases on May 10, 2010, or the Emergence Date, Spansion Inc. adopted fresh start accounting as prescribed under Accounting Standards Codification (ASC) 852 *Reorganizations*, which requires it to revalue its assets and liabilities to their related fair values. As such, Spansion Inc. adjusted its stockholders' deficit to equal the reorganization value at the Emergence Date. Items such as accumulated depreciation, accumulated deficit, accumulated other comprehensive income (loss) and allowances for doubtful debt were reset to zero. Spansion Inc. allocated the reorganization value to the individual assets and liabilities based on their estimated fair values. Items such as accounts receivable, auction rate securities and cash, whose fair values approximated their book values, reflected values similar to those reported prior to emergence. Items such as prepaid and other current assets, inventory, property, plant and equipment, deferred income tax asset and liability, accounts payable, income tax payable, and deferred income were significantly adjusted from amounts previously reported. Because Spansion Inc. adopted fresh start accounting at emergence and because of the significance of liabilities subject to compromise that were relieved upon emergence, the historical financial statements of the predecessor entity, or Predecessor, and the financial statements of the successor entity, or Successor, are not comparable. The 2010 Predecessor period represented is from December 28, 2009, the beginning of the fiscal year 2010, through May 10, 2010, the Emergence Date, and consisted of 20 weeks. The 2010 Successor periods represented are from May 11, 2010 through June 27, 2010, which consisted of six weeks, and from May 11, 2010 through December 26, 2010, which consisted of 32 weeks. Refer to the notes to Spansion Inc.'s financial statements incorporated by reference in this prospectus for further details relating to fresh start accounting.

You should read this summary consolidated financial data in conjunction with our consolidated financial statements, including the related notes thereto, and the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in the Annual Report on Form 10-K for the year ended December 26, 2010 and the Quarterly Report on Form 10-Q for the three and six months ended June 26, 2011 incorporated by reference in this prospectus.

Table of Contents

- (1) Successor refers to Spansion and its consolidated subsidiaries after the Emergence Date, after giving effect to: (i) the cancellation of shares of our Class A common stock issued prior to the Emergence Date, or the Old Common Stock; (ii) the issuance of new shares of our Class A common stock, or New Common Stock, and settlement of existing debt and other adjustments in accordance with the Plan of Reorganization; and (iii) the application of fresh start accounting. Predecessor refers to Spansion and its consolidated subsidiaries up to the Emergence Date.
- (2) The asset impairment charge for fiscal 2009 includes pre-tax impairment on an equity investment and loan to an investee. The asset impairment charge for fiscal 2008 includes pre-tax impairment related to long-lived assets held for use of \$1,578.3 million, and impairment related to goodwill and intangible assets of \$20.8 million and \$53.5 million, respectively.
- (3) Contractual interest expense for the predecessor periods from December 28, 2009 to May 10, 2010 and for the fiscal year ended December 27, 2009 was \$46.1 million and \$89.4 million, respectively.
- (4) The gain on deconsolidation of subsidiary represents the difference between the carrying value of our investment in and receivables from Spansion Japan immediately before its deconsolidation in March 2009 and the estimated fair value of our retained non-controlling interest in Spansion Japan, which was zero then and as of December 27, 2009.
- (5) The provision for income taxes in fiscal 2009 includes a decrease of \$457.9 million in valuation allowances against deferred tax assets in Spansion Japan resulting from the deconsolidation of Spansion Japan in March 2009. However, the decrease in the amount of deferred tax assets had no impact on the provision for income taxes since the deferred tax assets had a full valuation allowance. The provision for income taxes in fiscal 2008 includes an increase of \$457.9 million in valuation allowances against deferred tax assets in Spansion Japan. This increase occurred because we did not believe it was more likely than not that these deferred tax assets would be realized in these jurisdictions. The increase in valuation allowance resulted in a \$64.5 million income tax expense associated with deferred tax assets of Spansion Japan.
- (6) Diluted net loss per share is computed using the weighted-average number of common shares and excludes potential common shares, as their effect is anti-dilutive.
- () Spansion Inc. and Spansion Technology LLC have guaranteed fully and unconditionally the notes; such guarantees are joint and several. Neither Spansion Inc. nor Spansion Technology LLC has any assets or operations independent from Spansion LLC, the issuer of the notes. Furthermore, Spansion Technology LLC is a wholly owned subsidiary of Spansion Inc. Spansion LLC is wholly owned by Spansion Inc. (60% direct ownership, 100% direct and indirect ownership) and Spansion Technology LLC (40% direct ownership). The indenture governing the notes contains certain covenants that limit Spansion LLC's ability to pay dividends and make loans and other restricted payments, including to Spansion Inc. and Spansion Technology LLC. See Description of the Notes Certain Covenants Limitation on restricted payments.

Table of Contents

Risk Factors

Investing in the notes involves a high degree of risk. In deciding whether to exchange your private notes for exchange notes in the exchange offer, you should carefully consider the following factors, in addition to the other information and data contained in or incorporated by reference into this prospectus. The risk factors set forth below are generally applicable to the private notes as well as the exchange notes. The risks described below are not the only risks facing us. Additional risks and uncertainties not currently known to us or those we currently deem to be immaterial may also materially and adversely affect our business, financial condition or results of operations.

Risks Related to Our Business

We have recently transformed our business through the implementation of a new business strategy. If this strategy is unsuccessful, we will be materially adversely affected.

Shortly after our chapter 11 bankruptcy proceedings (the Chapter 11 Cases) commenced, we began implementing a new business strategy focused primarily on the embedded Flash memory market. As part of our strategy, we also began exiting a large portion of the wireless Flash memory market addressing mobile handsets in order to reduce significantly our engineering expenses and to focus our business on internally developed memory technology. By withdrawing from this portion of the high end wireless Flash memory market we were able to adopt a slower technology development cycle and reduce our process and product research and development costs while maintaining our competitiveness in the embedded Flash memory market. In addition, we significantly reduced or eliminated our need to procure from third parties memory products such as DRAM, PSRAM and NAND which were required, in combination with our own products, to address the needs of mobile handset customers in the high end of the wireless market.

We are dedicated to, and focused on, the embedded Flash memory market. However, the embedded market is more mature than the wireless market and is expected to grow more slowly than some other sectors of the semiconductor industry. In addition, the embedded market historically has been, and we anticipate that it will continue to be, subject to selling price reductions. If we are unable to successfully address these challenges or unable to grow our embedded Flash memory business enough to compensate for the expected decline in wireless sales, our business could be materially adversely affected.

We intend to continue to selectively engage in portions of the wireless market where we believe we can do so advantageously or where we believe that we must do so in order to stay competitive in other portions of the wireless market that we continue to target. Challenges we face in the portions of the wireless market we serve mirror the risks applicable to the embedded market, although they are likely to emerge more rapidly as we must address current and future customer requirements in a market that quickly changes as wireless customers seek to continue offering new handset designs, whether predominantly on NAND- or NOR- based handsets, that may not align with our current or planned products.

In addressing these challenges, our new business strategy has involved, and will continue to involve, cost containment, in particular with respect to our workforce, and we will continue to make judgments as to whether we should further reduce, relocate or otherwise change our workforce. Costs incurred in connection with such workforce changes, should they occur, may be higher than estimated. In addition, such workforce changes may impair our ability to achieve our current or future business objectives. In addition, any workforce changes may not be effected on the planned timetable and may result in the recording of additional charges. Similarly, any decision by us to further limit investment in, or exit or dispose of parts of, our business may result in the recording of additional charges. As part of our review of our restructured business, we look at the recoverability of tangible and intangible assets. Future market conditions may indicate these assets are not recoverable based on changes in forecasts of future business performance and the estimated useful life of these assets, and this may trigger further write-downs of these assets which may have a material adverse effect on our business, results of operations and financial condition.

Table of Contents

Our new business strategy may also include considering strategic transactions, such as acquisitions, divestitures, joint ventures, alliances or co-production programs, as such opportunities arise. We may not be able to effect any strategic transaction or if we enter into transactions, we may not realize the benefits we anticipate. Moreover, in the case of acquisitions, the integration of separate companies involves a number of integration risks. Consummating any acquisitions, divestitures, joint ventures, alliances or coproduction programs could result in the incurrence of additional transaction-related expenses, as well as unforeseen contingent liabilities, which could materially adversely affect us.

Our business, worldwide operations and the operations of our distributors and suppliers could be subject to natural disasters and other business disruptions, which could harm our future net sales and financial condition and increase our costs and expenses.

Our worldwide operations and business could be subject to natural disasters and other business disruptions, such as a world health crisis, fire, earthquake, tsunami, volcano eruption, flood, hurricane, power loss, power shortage, telecommunications failure or similar events, which could harm our future net sales and financial condition and increase our costs and expenses. We distribute our products in Japan through our wholly owned subsidiary, Nihon Spansion Limited. During fiscal 2010, our net sales into Japan were \$84.0 million or 7 percent of our total net sales.

During the first and second quarters of 2011, we lost sales and experienced delays in the provision of foundry services by third parties in Japan as a result of the earthquakes and related tsunami that occurred there in March 2011. Specifically, some first and second quarter product shipments were cancelled or rescheduled for shipment during the subsequent quarter. We also incurred some minor damage to our production equipment during the first quarter. Although the impact to our operations and financial results during the first and second quarters of fiscal 2011 as a result of the events in Japan was not material, we believe that the damage from the March 2011 earthquakes and related tsunami and the continued risk of radiation exposure from damaged nuclear power plants could adversely affect the demand for, and distribution of, our products in Japan going forward, as well as the supply of foundry wafers and/or raw materials from Japan, as businesses there continue to deal with the impact of these natural disasters. If this occurs, our net sales and financial condition will be adversely affected.

Our corporate headquarters are located near major earthquake fault lines in California. Many of our service providers' facilities, including Texas Instruments' manufacturing facilities, Fujitsu's manufacturing facilities and Elpida's manufacturing facilities that provide wafer fabrication and associated services to us, are located near major earthquake fault lines in Japan. Also, our assembly and test facility located in Thailand and our subcontractors' assembly and test facilities in Asia may be affected by tsunamis. In the event of a major earthquake or tsunami, we and our suppliers could experience loss of life of employees, destruction of facilities or other business interruptions. If such business disruptions result in cancellations of customer orders or contribute to a general decrease in economic activity or demand for our products, or directly impact our marketing, manufacturing, financial, and logistics functions, our results of operations and financial condition could be materially adversely affected.

Furthermore, the operations of our suppliers could be subject to natural disasters and other business disruptions, which could cause shortages and price increases in various essential materials, which are required to manufacture our products or to manufacture commercial memory die such as PSRAMs for incorporation into our multi-chip products (MCPs). If we are unable to procure an adequate supply of materials that are required for us to manufacture our products, or if the operations of our other suppliers of such materials are affected by an event that causes a significant business disruption, we may have to reduce our manufacturing operations. Such a reduction could have a material adverse effect on us.

Table of Contents

Our business has been characterized by selling prices that decline over time, which can negatively affect our results of operations.

Historically, the selling prices of our products have decreased during the products' lives, and we expect this trend to continue. When our selling prices decline, our net sales and gross margins also decline unless we are able to compensate by reducing our costs per unit or by introducing and selling new, higher margin products with higher densities and/or advanced features. If the selling prices for our products continue to decline, our operating results could be materially adversely affected.

During downturns, periods of extremely intense competition, or the presence of oversupply in the industry, the selling prices for our products have declined at a rapid rate over relatively short time periods as compared to historical rates of decline. We are unable to predict selling prices for any future periods and may experience unanticipated, sharp declines in selling prices for our products. When such pricing declines occur, we may not be able to mitigate the effects by selling more or higher margin units, or by reducing our manufacturing costs. In such circumstances, our operating results could be materially adversely affected.

The Flash memory market is highly cyclical and has experienced severe downturns that have materially adversely affected, and may in the future materially adversely affect, our business.

The Flash memory market is highly cyclical and in the past has experienced severe downturns, generally as a result of wide fluctuations in supply and demand, constant and rapid technological change, continuous new product introductions and price erosion. Our financial performance has been, and may in the future be, adversely affected by these downturns. We have incurred substantial losses in past downturns, including the most recent downturn, due principally to:

- substantial declines in selling prices, particularly due to competitive pressures and an imbalance in product supply and demand; and

- a decline in demand for end-user products that incorporate our products.

Our historical financial information is not necessarily indicative of what our results of operations, financial condition or cash flows will be in the future. If our net sales decline in the future, or if these or other similar conditions continue or occur again in the future, we would likely be materially adversely affected.

If demand for consumer products, industrial products or mobile phones utilizing Flash memory declines, as we experienced during the worldwide global recession, our business could be materially adversely affected. Also, if the functionality of successive generations of such products does not require increasing Flash memory density or if such products no longer require the type of Flash memory product we produce due to alternative technologies or otherwise, our operating results would be materially adversely affected.

We cannot be certain that the Chapter 11 Cases will not adversely affect our operations going forward.

Although we emerged from the Chapter 11 Cases on May 10, 2010, we cannot provide assurance that our prior bankruptcy will not adversely affect our future operations. Our suppliers and vendors could stop providing supplies or services to us or provide such supplies or services only on unfavorable terms such as cash on delivery, cash on order or other terms that could have an adverse impact on our short-term cash flows. In addition, the fact that we recently emerged from the Chapter 11 Cases may adversely affect our ability to retain existing customers, attract new customers and maintain contracts that are critical to our operations.

While we have actively responded to competitors' efforts to capitalize on customer concerns about the Chapter 11 Cases, we lost a significant amount of market share while in bankruptcy as certain customers were unwilling to work with a vendor in bankruptcy and others reduced their dependence on us by shifting part or all their business to other vendors. We are unable to quantify this loss of market share, and there can be no assurance as to whether we will be able, or how long it may take, to regain the lost market share or retain such market share already recovered.

Table of Contents

Our recent emergence from the Chapter 11 Cases may also preclude certain strategic business opportunities that would otherwise be available to us, restrict our ability to pursue certain business strategies or require us to take actions that we otherwise would not. For example, prior to and after our emergence from the Chapter 11 Cases, we closed much of our manufacturing operation and reduced our workforce as part of our focus on the embedded Flash market. As a result, we operate as a smaller company than prior to the Chapter 11 Cases and maintain fewer fixed assets and reduced capabilities. For these reasons, lenders may consider us a greater credit risk and we may find it more difficult or impossible to find external financing that is necessary to pursue certain business opportunities, either precluding these opportunities entirely or requiring us to take actions such as selling other assets in order to obtain financing on acceptable terms in order to pursue these strategies. Additionally, given our recent emergence from bankruptcy and our reduced capabilities and market presence, our customers or suppliers may not enter into strategic partnerships with us. Because of these uncertainties, we cannot predict or quantify the potential adverse impact of the Chapter 11 Cases on our business, financial condition or results of operations.

If we are unable to attract and retain qualified personnel at reasonable costs, we may not be able to achieve our business objectives.

We are dependent on the experience and industry knowledge of our senior management and other key employees to execute our current business plans and lead us through the implementation of the Plan of Reorganization that was approved by the U.S. Bankruptcy Court on April 16, 2010 in connection with our emergence from the Chapter 11 Cases. Competition for certain key positions and specialized technical and sales personnel in the high-technology industry remains strong. The Chapter 11 Cases, along with workforce reductions, created uncertainty that led to an increase in unwanted attrition and additional challenges in attracting and retaining new qualified personnel. As a result of our strategic workforce restructuring and transition to third party manufacturing, we lost many employees from our manufacturing division with long tenures and knowledge about our technology and historical operations. We are also at risk of losing or being unable to hire talent critical to a successful reorganization and ongoing operation of our business due to general concerns about the stability and growth potential of our operations given our recent emergence from the Chapter 11 Cases and our reductions in force. If we are not able to attract, recruit or retain qualified employees (including as a result of headcount or salary reductions), we may not have the personnel necessary to successfully implement the Plan of Reorganization. If this occurs, our business, results of operations and financial condition could be materially adversely impacted.

We may not satisfy the covenants, financial tests and ratios in our debt instruments, which if not met, would have a material adverse effect on us.

Our credit agreement, or Term Loan, our loan and security agreement, or Revolving Credit Facility, and the indenture governing our 7.875% Senior Unsecured Notes due 2017 require us to comply with covenants, financial tests and ratios. We cannot assure you that we will be able to satisfy or comply with these covenants, financial tests and ratios, as our ability to do so may be affected by events beyond our control. If we fail to satisfy or comply with such covenants, financial tests and ratios, or if we disagree with our lenders about whether or not we are in compliance, we cannot assure you that we will be able to obtain waivers or amendments if required to avoid a default. A breach of any of the provisions, covenants, financial tests or ratios under our debt instruments could prevent us from borrowing under our Revolving Credit Facility and result in an event of default under the applicable agreement, which in turn could trigger cross-defaults under other debt instruments, any of which would materially adversely affect us.

Transfers or issuances of our equity, or a debt restructuring, may impair or reduce our ability to utilize our net operating loss carry-forwards and certain other tax attributes in the future.

Pursuant to U.S. federal and state tax rules, a corporation is generally permitted to deduct from taxable income in any year net operating losses (NOLs) carried forward from prior years. We have U.S federal NOL carry forwards of approximately \$870.0 million as of December 26, 2010. Approximately \$533.6 million of the

Table of Contents

federal NOL carry forwards are subject to an annual limitation of \$27.2 million. These NOLs, if not utilized, expire from 2018 to 2030. In addition, our ability to utilize unlimited federal NOL carry forwards of approximately \$336.4 million as of December 26, 2010 could be subject to a significant limitation if we were to undergo an ownership change for purposes of Section 382 of the Internal Revenue Code of 1986, as amended.

Our reliance on third-party manufacturers entails risks that could materially adversely affect us.

We have in the past and plan in the future to enter into foundry, subcontractor and other arrangements with third parties to meet demand for our products. Third-party manufacturers we have used in the past or expect to use in the future for foundry and other manufacturing services include Texas Instruments, or TI, Fujitsu Semiconductors Limited, or FSL, Elpida Memory, Inc., or Elpida, and Semiconductor Manufacturing International Corporation, or SMIC. We also use independent contractors to perform some of the assembly, testing and packaging of our products, including ChipMOS Technologies Limited. We depend on these manufacturers to allocate to us a portion of their manufacturing capacity sufficient to meet our needs. Third-party manufacturers are generally under no obligation to provide us with any specified minimum quantity of product. We also depend on these manufacturers to produce products of acceptable quality and at acceptable manufacturing yields and to deliver those products to us on a timely basis at acceptable prices. In addition, we rely on these manufacturers to invest capital into their facilities and process technologies to meet our needs for new products using advanced process technologies. Given our recent emergence from the Chapter 11 Cases and the volatility and disruption in the capital and credit markets worldwide, we cannot assure you that they will make the investments in their facilities previously contemplated. We also cannot assure you that these manufacturers will be able to meet our near-term or long-term manufacturing requirements and that we will be able to attain qualification from our customers, which may be required prior to production of products at a third party facility. In addition, any significant change in the payment terms we have with these manufacturers could adversely affect us.

In the past, Spansion Japan Limited, a former wholly-owned subsidiary of Spansion LLC, or Spansion Japan, facilitated distribution of our products in Japan, manufactured and supplied sorted and unsorted silicon wafers for us, and provided sort services to us. In August 2010, we entered into a new foundry agreement with TI as a result of TI's purchase of two wafer fabrication facilities and equipment from Spansion Japan. Accordingly, we rely on TI to manufacture wafers for and supply sort services to us. A sudden and unanticipated reduction or cessation of the supply of goods and services from TI would likely be disruptive and have a material adverse impact on our results of operations.

Third party manufacturers with whom we contract also make products for other companies, including certain of our competitors, and/or for themselves and could choose to prioritize capacity for themselves or other customers beyond any minimum guaranteed amounts, reduce deliveries to us or, in the absence of price guarantees, increase the prices they charge us on short notice, such that we may not be able to pass cost increases on to our customers. The likelihood of this occurring may be greater as a result of the Chapter 11 Cases. We may be unable to secure an alternative supply for specific products in a short timeframe or at all at an acceptable cost to satisfy our production requirements. In addition, we may be required to incur additional development, manufacturing and other costs to establish alternative sources of supply. Other risks associated with our increased dependence on third-party manufacturers include: their ability to adapt to our proprietary technology, reduced control over delivery schedules, quality assurance, manufacturing yields and cost, misappropriation of our intellectual property, reduced ability to manage inventory and parts and risks associated with operating in foreign countries. If we are unable to secure sufficient or reliable suppliers of wafers or obtain the necessary assembly, testing and packaging services, our ability to meet customer demand for our products may be adversely affected, which could have a material adverse effect on us.

We rely on Fujitsu Semiconductors Limited to distribute our products in Japan.

We currently rely on FSL through its subsidiary, Fujitsu Electronics Inc., to distribute our products to customers in Japan, which is an important geographic market for us. Under our distribution agreement with FSL, FSL has agreed to use its best efforts to promote the sale of our products in Japan and to other customers served

Table of Contents

by FSL. In the event that we reasonably determine that FSL's sales performance in Japan and to those customers served by FSL is not satisfactory based on specified criteria, then we have the right to require FSL to propose and implement an agreed-upon corrective action plan. If we reasonably believe that the corrective action plan is inadequate, we can take steps to remedy deficiencies ourselves through means that include appointing another distributor as a supplementary distributor to sell products in Japan and to customers served by FSL. Pursuing these actions would be costly and disruptive to the sales of our products in Japan. If FSL's sales performance in Japan is unsatisfactory or if we are unable to successfully maintain our distribution agreement and relationship with FSL and we cannot timely find a suitable supplementary distributor, we could be materially adversely affected.

Under the terms of our distribution agreement with FSL, either party may terminate the distribution agreement, for convenience upon 60 days written notice to the other party. If FSL unexpectedly terminates its distribution agreement with us, or otherwise ceases its support of our customers in Japan, we would be required to develop and rely on a relationship with another distributor or establish our own local sales organization and support functions. We cannot be certain that we would be successful in selling our products to customers currently served by FSL or new customers. If customers currently served by FSL, or potential new customers, refused to purchase our products directly from us or from another distributor, or either it or we are not successful in distributing our products, our sales in Japan might decline, and we could be materially adversely affected.

Inaccurate forecasting of customer demand could materially and adversely affect our business, results of operations and financial results and may lead to excess inventory and poor gross margins.

Although our manufacturing cycle times are relatively long, often in excess of ten weeks, we nevertheless compete in a market where suppliers ability to respond quickly to new orders is a competitive differentiator. Thus, we must forecast customer demand and produce sufficient amounts of our products in order to fill current and future orders even though demand is volatile and difficult to predict.

To forecast demand and value inventory, we consider, among other factors, the inventory on hand, historical customer demand data, backlog data, competitiveness of product offerings, market conditions and product life cycles. If we are unable to accurately assess these factors and anticipate future demand or market conditions, inventory write-downs may be required and would be reflected in cost of sales in the period the write-down is made. Similarly, when customers change orders booked with us, our planned manufacturing capacity may be greater or less than actual demand, resulting in less than optimal capacity usage. When this occurs, we adjust our production levels but such adjustments may not prevent our production of excess inventory. An inability to address challenges like the ones described above would have a negative impact on our gross margin in that period. Moreover, inaccurate forecasting could also result in excess or obsolete inventory that would reduce our margins or shortages in inventory that would cause us to fail to meet customer demand. If we are unable to produce the types and quantities of products required by our customers in the timeframes and on the delivery schedules required by our customers, we may lose customers or, in certain circumstances, be liable for losses incurred by our customers, which would materially adversely affect our business and financial results.

Industry overcapacity could require us to take actions which could have a material adverse effect on us.

Semiconductor companies with their own manufacturing facilities and specialist semiconductor foundries, which are subcontractors that manufacture semiconductors designed by others, have added significant capacity in recent years and during the first half of 2010 a number of companies announced plans to do so again. In 2008, the significant excess capacity led to oversupply and a downturn in the memory industry. The contraction of the worldwide economy further compounded industry overcapacity. Fluctuations in the growth rate of industry capacity relative to the growth rate in demand for Flash memory products can contribute to cyclicalities in the Flash memory market, which has in the past and may in the future negatively impact our selling prices and materially adversely affect us.

Table of Contents

It is difficult to predict future growth or decline in the markets we serve, making it very difficult to estimate requirements for production capacity. If our target markets do not grow as we anticipate, we may under-utilize our manufacturing capacity or we may be contractually obligated to purchase minimum quantities of certain products from our subcontractors. This may result in write-downs or write-offs of inventories and losses on products the demand for which is lower than we anticipate. In addition, during periods of industry overcapacity, customers do not generally order products as far in advance of the scheduled shipment date as they do during periods when our industry is operating closer to capacity, which can exacerbate the difficulty in forecasting capacity requirements and may result in increased inventory levels.

Many of our costs are fixed. Additionally, pursuant to some of our subcontractor and foundry arrangements with third parties we may incur and pay penalties as a result of our agreements to pay for a certain amount of product even if we do not accept delivery of all of such amount. Accordingly, during periods in which we under-utilize our manufacturing capacity as a result of reduced demand for some of our products, our costs cannot be reduced in proportion to the reduced net sales for such periods. When this occurs, our operating results may be materially adversely affected.

A further significant shift in the Flash memory market to NAND architecture would materially adversely affect us.

Flash memory products are generally based on either NOR or NAND architecture. To date, our Flash memory products have been based on NOR architecture which are typically produced at a higher cost-per-bit than NAND-based products. We are developing our NAND architecture based on charge trapping technology primarily to address embedded applications currently served by NAND-based products or potentially served by NAND-based products in the future, but we cannot be certain that our NAND products will satisfactorily address those market needs.

Since 2004, industry sales of NAND-based Flash memory products increased as a percentage of total Flash memory sales compared to sales of NOR-based Flash memory products, resulting in NAND vendors in aggregate gaining a greater share of the overall Flash memory market and NOR vendors in aggregate losing overall market share. We expect the Flash memory market trend of decreasing market share for NOR-based Flash memory products relative to NAND-based Flash memory products to continue for the foreseeable future.

Customers manufacturing products for embedded applications may increasingly choose floating gate NAND-based Flash memory products over our NOR or NAND Flash memory products based on our charge trapping technology. If this occurs, our sales may be materially adversely affected. Moreover, some of our competitors are able to manufacture floating gate NAND-based Flash memory products on 300-millimeter wafers produced at a lower cost than we can currently achieve. In addition, some of our competitors may choose to utilize more advanced manufacturing process technologies than we may have available in order to offer competitive products at lower costs or with higher densities.

In addition, even if products based on NAND architecture are unsuccessful in displacing products based on NOR architecture, the average selling price for our products may be adversely affected by a significant decline in the price for NAND-based Flash memory products. Such a decline may result in downward price pressure in the overall Flash memory market affecting the price we can obtain for our NOR-based Flash memory products, which would adversely affect us. We believe such downward pricing pressure was a factor in the significant declines in the selling prices of our products in 2008. If the prices for NAND Flash memory products similarly decline in the future, we may be materially adversely affected.

Table of Contents

If we fail to successfully identify new applications and markets for our products, our future operating results would be materially adversely affected.

We are identifying new applications and opportunities for our products beyond our traditional customer base and in some cases plan to deploy our Flash memory solutions beyond current Flash memory markets. However, some of these opportunities require that we succeed in creating, marketing, gaining customer acceptance of, and deploying these new system architectures into, a customer base where we do not have historic business relationships and where our solution is required to replace established and proven solutions. In some cases our solutions rely on third parties to contribute a significant and necessary component of the solution without which the solution will not be viable. If we are unsuccessful in our attempts to bring new products to market due to our failures or those of third parties, experience significant delays in generating sales, fail to establish their value or face competition from third parties or incumbent suppliers that result in lower margins than expected, our future operating results would be materially adversely affected.

We cannot be certain that we will have sufficient resources to invest in the level of research and development required to remain competitive or that our substantial research and development investments will lead to timely improvements in technology needed to successfully develop, introduce and commercialize new products and technologies.

The Flash memory industry is highly competitive and subject to rapid technological change. In order to compete, we are required to make substantial investments in research and development for product design, process technologies and production techniques in an effort to design and manufacture advanced Flash memory products. For example, in connection with our new business strategy, our research and development expenses for fiscal 2009 and 2010 were \$136.4 million and \$100.5 million, or approximately 10 percent and 9 percent of our total net sales, respectively. We cannot assure you that we will have sufficient resources independently or through joint development agreements to maintain the level of investment in research and development that is required for us to remain competitive, which could materially adversely affect us.

As part of our reorganization, our strategy has changed to increasingly seek to share research and development costs with third parties. For example, in 2009, we entered into a joint development agreement with Elpida for the development of products based on NAND architecture. However we cannot assure you that we will be able to negotiate such arrangements for more of our research and development needs, or that such arrangements will result in commercially successful technology and products in a timely manner or at all. We will be dependent on the third parties in such agreements to continue to invest financial and skilled human resources, and we cannot assure you that such third parties will make the necessary investments, the absence of which would materially adversely affect our business.

Our success depends to a significant extent on our ability to develop, qualify, produce, introduce and gain market acceptance of new product designs and improvements that provide value to Flash memory customers. Our ability to develop and qualify new products and related technologies to meet evolving industry requirements at prices acceptable to our customers and on a timely basis is critical to our competitiveness in our target markets. If we are delayed in developing or qualifying new products or technologies, we could be materially adversely affected.

Competitors may introduce new memory or other technologies that may make our Flash memory products uncompetitive or obsolete.

Our competitors are working on a number of potentially competitive technologies, including ferroelectric random access memory, or FRAM, magneto resistive random access memory, or MRAM, polymer, charge trapping and phase-change based memory, or PCM, technologies. These technologies provide alternative means of non-volatile storage of information. Today, where products exist using these new technologies they exhibit different characteristics than existing NOR Flash memory products based on MirrorBit or floating gate

Table of Contents

technology. These differences, including higher cost structure, inability to support higher densities, different performance and operating behavior, currently exclude such products from addressing volume markets for NOR Flash memory. For such products to be commercially viable and attractive alternatives to today's NOR Flash memory solutions they must either match the capabilities and characteristics at lower cost or provide additional capabilities desired and valued by customers. If such products are successfully developed and commercialized as a viable alternative to MirrorBit or floating gate NOR Flash memory, these other products could pose a competitive threat to existing Flash memory companies, including us. For example, PCM technology supports data storage in smaller increments than MirrorBit or floating gate NOR technology and does not require erasing pre-existing memory contents prior to writing new data to the same memory location. Both capabilities may be desirable to customers and are not practicable with MirrorBit or floating gate NOR technologies. Furthermore, newer technologies may scale to smaller process geometries than may be possible or practicable using MirrorBit or floating gate NOR technology, which may enable our competitors' products to be produced at lower cost than our products. In addition, some of the licensees and customers of Saifun Semiconductors Ltd., or Saifun, which we purchased in 2008 and renamed Spansion Israel Ltd., are our competitors or work with our competitors and possess licenses from Spansion Israel Ltd. for intellectual property associated with charge trapping Flash memory technology. Use of this charge trapping intellectual property or use of independently developed charge trapping Flash memory technology by our competitors, if successfully developed and commercialized, may allow these competitors to develop Flash memory products that may compete with our products based on charge trapping technology. If we are unable to compete with these new technologies, we may be materially adversely affected.

Intense competition in the Flash memory market could materially adversely affect us.

Our principal NOR Flash memory competitors are Micron Technology, Inc., or Micron, Macronix International Co., Ltd., or Macronix, Winbond Electronics Corp. and Samsung Electronics Co., Ltd., or Samsung. Additional NOR Flash memory competitors include Microchip Technology Inc., EON Silicon Solution Inc., Atmel Corporation and Toshiba Corporation, or Toshiba.

We increasingly compete with NAND Flash memory manufacturers where NAND Flash memory has the ability to replace NOR Flash memory in customer applications. Our principal NAND Flash memory competitors include Samsung Electronics Co., Ltd. and Micron Technology, Inc. In the future, our principal NAND Flash memory competitors may include Elpida Memory, Inc., Hynix Semiconductor Inc., Toshiba Semiconductor Company, Powerchip Technology Corporation, Macronix International Co., Ltd., Intel Corporation and Sandisk Corporation.

The Flash memory market is characterized by intense competition. The basis of competition is cost, selling price, performance, quality, customer relationships and ability to provide value-added solutions. In particular, in the past our competitors have aggressively priced their products, which resulted in decreased selling prices for our products and adversely impacted our results of operations. Some of our competitors, including Samsung, Micron and Toshiba, are more diversified than we are and may be able to sustain lower operating margins in their Flash memory business based on the profitability of their other, non-Flash memory businesses. In addition, capital investments by competitors in the past have resulted in substantial industry manufacturing capacity and announced capital investments planned for the future may further contribute to a competitive pricing environment. Some of our competitors are able to manufacture NAND-based Flash memory products on 300-millimeter wafers at lower costs than us or may choose to utilize more advanced manufacturing process technologies than us. As a result, such competitors may be able to offer products competitive to ours at a lower cost or higher density. Moreover, our NAND-based Flash memory products based on our proprietary charge trapping technology may not have the price, performance, quality and other features necessary to compete successfully for these applications.

We expect competition in the Flash memory market to intensify as existing manufacturers introduce new products, new manufacturers enter the market, industry-wide production capacity increases and competitors aggressively price their Flash memory products to increase market share. The competition we face intensified

Table of Contents

during the Chapter 11 Cases as our ability to compete was reduced. If our competitors, many of whom have greater financial resources than us, increase their focus on the Flash memory products or segments of the Flash memory markets that generate a significant portion of our net sales we could be materially adversely affected.

Competitive pressures may also increase if NOR memory vendors merge, if NAND memory vendors acquire NOR businesses or other NAND businesses, or if our competitors otherwise consolidate their operations. For example, on April 8, 2010, Microchip Technology announced that it had completed its acquisition of Silicon Storage Technology, Inc.; and on May 7, 2010, Micron announced that it had completed its acquisition of Numonyx Holdings B.V. Furthermore, we face increasing competition from NAND Flash memory vendors targeting the embedded portion of the Flash memory market.

To compete successfully, we must decrease our manufacturing costs and develop, introduce and sell products at competitive prices that meet our customers' demands. If we are unable to compete effectively, we could be materially adversely affected.

Unless we maintain manufacturing efficiency, we may not become profitable and our future profitability could be materially adversely affected.

The Flash memory industry is characterized by rapid technological changes. For example, new manufacturing process technologies using smaller feature sizes and offering better performance characteristics are generally introduced every one to two years. The introduction of new manufacturing process technologies allows us to increase the functionality of our products while at the same time optimizing performance parameters, and increasing storage capacity. In addition, the reduction of feature sizes enables us to produce smaller chips offering the same functionality and thereby considerably reducing the cost per bit. In order to remain competitive, it is essential that we secure the capabilities to develop and qualify new manufacturing process technologies. For example, our leading Flash memory products must be manufactured at 65-nanometer and more advanced process technologies. If we are delayed in transitioning to these technologies and other future technologies, we could be materially adversely affected.

Manufacturing our products involves highly complex processes that require advanced equipment. Our manufacturing efficiency is an important factor in achieving profitability, and we cannot be sure that we will be able to maintain or increase our manufacturing efficiency to the same extent as our competitors. For example, we continuously modify our manufacturing processes in an effort to improve yields and product performance and decrease costs. We are continuing to transition to 65-nanometer process technology for the manufacture of some of our products. During periods when we are implementing new process technologies, manufacturing facilities may not be fully productive. We may fail to achieve acceptable yields or may experience product delivery delays as a result of, among other things, capacity constraints, delays in the development of new process technologies, changes in our process technologies, upgrades or expansion of existing facilities, impurities or other difficulties in the manufacturing process. Any of these occurrences could adversely impact our relationships with customers, cause harm to our reputation in the marketplace, cause customers to move future business to our competitors or cause us to make financial concessions to our customers.

Improving our manufacturing efficiency in future periods is dependent on our ability to:

develop advanced process technologies and advanced products that utilize those technologies;

successfully transition to advanced process technologies;

continue to reduce test times;

ramp product and process technology improvements rapidly and effectively to commercial volumes;

achieve acceptable levels of manufacturing wafer output and yields, which may decrease as we implement more advanced technologies; and

maintain our quality controls and rely upon the quality and process controls of our suppliers.

Table of Contents

Our ability to generate sufficient operating cash flows depends in part on maintaining our expense reduction efforts.

Our business is capital intensive and our ability to generate operating cash flows depends in large part on the maintenance of our low cost strategy. In response to decreasing cash balances of the Predecessor prior to the Chapter 11 Cases and as part of our strategy going forward, we intend to continue our low cost strategy. Some cost cutting activities may require initial cash outlays before the cost reductions are realized. We cannot assure you that we will be able to achieve anticipated expense reductions. If our expense reduction efforts are unsuccessful, our operating results and business may be materially adversely affected. Furthermore, in certain instances our cost reductions may make it more difficult for us to succeed in the extremely competitive Flash memory market.

Our working capital, investments and capital requirements may require us to seek additional financing, which may not be available to us.

Our debt instruments may not be sufficient for our future working capital, investments and capital requirements. We also may not be able to access additional financing resources due to a variety of reasons, including the restrictive covenants in the Term Loan, the Revolving Credit Facility and the Senior Unsecured Notes indenture and the lack of available capital due to the tight nature of global credit markets. If our financing requirements are not met by the Term Loan and the Revolving Credit Facility and we are unable to access additional financing, our business, operations, financial condition and cash flows will be materially adversely affected.

If we cannot adequately protect our technology or other intellectual property in the United States and abroad, through patents, copyrights, trade secrets, trademarks and other measures, we may lose a competitive advantage and incur significant expenses as a result of litigation and other claims.

We rely on a combination of protections provided by contracts, including confidentiality and non-disclosure agreements, copyrights, patents, trademarks and common law rights, such as trade secrets, to protect our intellectual property. However, we cannot assure you that we will be able to adequately protect our technology or other intellectual property from third-party infringement or from misappropriation in the United States and abroad. Any patent owned or licensed by us or issued to us could be challenged, invalidated or circumvented or rights granted under these patents or licenses may not provide a competitive advantage to us. Furthermore, patent applications that we file may not result in issuance of a patent or, if a patent is issued, the patent may not be issued in a form that is advantageous to us. Despite our efforts to protect our intellectual property rights, others may independently develop similar products, duplicate our products or design around our patents and other intellectual property rights. In addition, it is difficult to monitor compliance with, and enforce, our intellectual property rights on a worldwide basis in a cost-effective manner. Foreign laws may provide less intellectual property protection than is afforded in the United States. Our efforts to protect our intellectual property in the United States and abroad, through lawsuits such as those that have been filed between us and Samsung may be time-consuming and costly. If we cannot adequately protect our technology or other intellectual property rights in the United States and abroad, we may be materially adversely affected.

We are a party to intellectual property litigation and may become party to other intellectual property claims or litigation that could cause us to incur substantial costs or pay substantial damages or prohibit us from selling our products.

We are currently party to various lawsuits brought by third parties alleging that we infringe their intellectual property rights. In the future, third parties may bring additional actions against us based on similar allegations. To resolve such claims, we may seek to obtain a license under the third party's intellectual property rights. We cannot assure you that we will be able to obtain all of the necessary licenses on satisfactory terms, if at all. These parties have or may in the future file lawsuits against us seeking damages (potentially including treble damages or willful infringement) or an injunction against the sale of our products that incorporate allegedly infringed intellectual

Table of Contents

property or against the operation of our business as presently conducted, which could result in our having to stop the sale of some of our products, increase the costs of selling some of our products, or cause damage to our reputation. The award of damages, including material royalty payments, or the entry of an injunction against the manufacture and sale of some or all of our products, would have a material adverse effect on us. We could decide, in the alternative, to redesign our products or to resort to litigation to challenge or defend such claims, either of which could be expensive and time-consuming and may have a material adverse effect on us.

We expect to attempt to negotiate agreements and arrangements with third parties for the license of intellectual property and technology that are important to our business. We also expect to continue to apply for new patents as our success in negotiating patent cross-license agreements with other industry participants will depend in large part upon the strength of our patent portfolio relative to that of the third party with which we are negotiating. If we are unable to negotiate agreements or arrangements for intellectual property, or to obtain patents, necessary for the success of our business, we may be materially adversely affected.

We provide indemnities relating to non-infringement of patents and other intellectual property indemnities to certain of our customers in connection with the delivery, design, manufacture and sale of our products. If we incur substantial costs in connection with any claim pursuant to such indemnification, our business, results of operations and financial condition could be materially adversely affected.

If essential equipment or adequate supplies of satisfactory materials are not available to manufacture our products, we could be materially adversely affected.

Our manufacturing operations depend upon obtaining deliveries of equipment and adequate supplies of materials on a timely basis. We purchase equipment and materials from a number of suppliers. From time to time, suppliers may extend lead times, limit supply to us or increase prices due to capacity constraints or other factors. For example, the impact of the earthquake and related tsunami in March 2011 on our suppliers in Japan caused delays and reductions in the provision of raw materials in the first and second quarters of 2011. Because the equipment that we purchase is complex, it is difficult for us to substitute one supplier for another or one piece of equipment for another. Some raw materials we use in the manufacture of our products are available from a limited number of suppliers or only from a limited number of suppliers in a particular region. In addition, we purchase raw materials for which prices on the world markets have increased significantly during recent periods. Such volatility may have an adverse effect on our operations. For example, we use gold in the assembly of our die into a packaged product. Due to the increased cost of gold in 2011, we had to re-engineer existing products to use copper as an alternative material to gold in order to counteract this increased cost, maintain our competitiveness and mitigate the impact on our customers. Our manufacturing operations also depend upon the quality and usability of the materials we use in our products, including raw materials and wafers we receive from our suppliers. If the materials we receive from our suppliers do not meet our manufacturing requirements or product specifications, are not obtained in a timely manner or if there are significant increases in costs of materials, we may be materially adversely affected.

We also rely on purchasing commercial memory die such as PSRAM from third-party suppliers to incorporate these die into multi-chip package products. The availability of these third-party purchased commercial die is subject to market availability, and the process technology roadmaps and manufacturing capacities of our vendors. In addition, some of our suppliers may also be our competitors. Interruption of supply from a competitor that is a supplier or otherwise or increased demand in the industry could cause shortages and price increases in various essential materials. If we are unable to procure these materials, or if the materials we receive from our suppliers do not meet our production requirements or product specifications, we may have to reduce our manufacturing operations or our manufacturing yields may be adversely affected. Such a reduction and yield issues have in the past and could in the future have a material adverse effect on us.

Table of Contents

Costs related to defective products could have a material adverse effect on us.

One or more of our products may be found to be defective or we may initiate voluntary recalls of products after they have been shipped to customers in volume. We generally provide a limited warranty with respect to our products. Accordingly, if we recall products or are forced to replace defective products, the cost of product replacements or product returns may be substantial, and our reputation with our customers could be damaged. In addition, we could incur substantial costs to implement modifications to fix defects. Any of these problems could materially adversely affect us.

Worldwide economic and political conditions and risks may adversely affect demand for our products and have a material adverse effect on us.

We operate in more than ten countries and we derive a majority of our net sales outside the United States. For example, a significant portion of our planned wafer fabrication capacity for existing and future products is provided by third parties located in Japan and China, and nearly all final tests and assembly of our products is performed at our facilities in Malaysia and Thailand and by third parties in China, Taiwan, Korea and Thailand. Our business depends on overall worldwide economic conditions and the economic and business conditions within our customers industries. Our business may also be affected by economic factors that are beyond our control, such as downturns in economic activity in a specific country or region. A further weakening of the worldwide economy or the economies of individual countries or the demand for our customers products may cause a decrease in demand for our products, which could materially adversely affect us.

We could also be significantly and adversely affected by geopolitical concerns and world events, such as wars and terrorist attacks. Our net sales and financial results have been and could be negatively affected to the extent such geopolitical concerns continue or similar events occur or are anticipated to occur. Terrorist attacks or armed conflicts may directly impact our physical facilities or those of our suppliers or customers. Furthermore, these attacks may make travel and the transportation of our products more difficult and more expensive, which could materially adversely affect us.

The political and economic risks associated with our sales to, and operations in, foreign countries include:

expropriation;

changes in political or economic conditions;

compliance with U.S. and international laws involving international operations, including the Foreign Corrupt Practices Act and export control laws;

changes in tax laws, trade protection measures and import or export licensing requirements;

difficulties in protecting our intellectual property;

changes in foreign currency exchange rates;

restrictions on transfers of funds and other assets of our subsidiaries between jurisdictions;

changes in freight and interest rates;

disruption in air transportation between the location of our facilities; and

loss or modification of exemptions for taxes and tariffs.

In particular, consequences of military action in the Middle East have in the past, and may in the future, adversely affect demand for our products and our relationship with various third parties with which we collaborate. Our subsidiary, Spansion Israel Ltd., conducts business in Israel, which is affected and surrounded by unstable political, economic and military conditions. We cannot predict the effect of continued or increased violence, or the effect of military action in that region. Continued armed conflicts or political instability in the

Table of Contents

region would harm business conditions and could adversely affect our results of operations. Furthermore, several countries continue to restrict or ban business with Israel and Israeli companies. These restrictive laws and policies may limit our ability to make sales in those countries, and, as a global company, may limit our own ability to efficiently administer our worldwide resources.

More generally, any of these events could cause consumer confidence and spending to decrease or result in increased volatility in the U.S. economy and worldwide financial markets.

Unfavorable currency exchange rate fluctuations could adversely affect us.

As a result of our foreign operations, we have sales, expenses, assets and liabilities that are denominated in Japanese yen and other foreign currencies. For example:

some of our costs are denominated in Japanese yen, Thai baht and Malaysian ringgit;

sales of our products to, and purchases from, TI are denominated in both U.S. dollars and Japanese yen; and

some fixed asset purchases are denominated in Japanese yen and European Union euros.

Consequently, movements in exchange rates could cause our net sales and expenses to fluctuate, affecting our results of operations and cash flows. We use foreign currency forward contracts to reduce our exposure to foreign currency exchange rate fluctuations. The objective of these contracts is to reduce the impact of foreign currency exchange rate movements on our operating results and on our foreign currency denominated monetary assets and liabilities. We do not use these contracts for speculative or trading purposes. We cannot assure you that these activities will be successful in reducing our foreign currency exchange rate exposure. If these activities are unsuccessful, our financial condition could be materially adversely affected.

We are subject to a variety of environmental laws that could result in liabilities.

Our properties and many aspects of our business operations are subject to various domestic and international environmental laws and regulations, including those relating to materials used in our products and manufacturing processes; chemical use and handling; waste minimization; discharge of pollutants into the environment; the treatment, transport, storage and disposal of solid and hazardous wastes; and remediation of contamination. Certain of these laws and regulations require us to obtain permits for our operations, including permits related to the discharge of air pollutants and wastewater. From time to time, our facilities are subject to investigation by governmental regulators. Environmental compliance obligations and liability risks are inherent in many of our manufacturing and other activities. Any failure to comply with applicable environmental laws, regulations or permits may subject us to a range of consequences, including fines, suspension of production, alteration of manufacturing processes, sales limitations, and criminal and civil liabilities or other sanctions. We could also be held liable for any and all consequences arising out of exposure to hazardous materials used, stored, released, disposed of by us or located at or under our facilities, or for other environmental or natural resource damage.

Certain environmental laws, including the U.S. Comprehensive Environmental Response, Compensation and Liability Act of 1980, or the Superfund Act, impose joint and several liabilities on current and previous owners or operators of real property for the cost of removal or remediation of hazardous substances and costs related to damages to natural resources. Liability can attach even if the owner or operator did not know of, or was not responsible for, the release of such hazardous substances. These environmental laws also can result in liability for persons, like us, who arrange for hazardous substances to be sent to disposal or treatment facilities, in the event such facilities are found to be contaminated. Such persons can be responsible for cleanup costs at a disposal or treatment facility, even if they never owned or operated the contaminated facility. One of our properties is listed on the U.S. Environmental Protection Agency's Superfund National Priorities List. However, other parties currently are responsible for all investigation, cleanup and remediation activities. Although we have not been named a responsible party at this site, if we were so named, costs associated with the cleanup of the site

Table of Contents

could have material adverse effect upon us. We have not been named a responsible party at any Superfund or other contaminated site. If we were ever so named, costs associated with the cleanup of the site could be material. Additionally, contamination that has not yet been identified could exist at one or more of our facilities, and identification of such contamination could have a material adverse effect on us.

Our business is subject to complex and dynamic environmental regulatory schemes. While we have budgeted for reasonably foreseeable environmental expenditures, we cannot assure you that environmental laws will not change or become more stringent in the future. Future environmental regulations could require us to procure expensive pollution abatement or remediation equipment; to modify product designs; or to incur other expenses associated with compliance with such regulations. For example, the European Union and China recently began imposing stricter requirements regarding reduced lead content in semiconductor packaging. Therefore, we cannot assure you that our costs of complying with current and future environmental and health and safety laws, or liabilities arising from past or future releases of, or exposure to, hazardous substances, will not have a material adverse effect on our business.

Changes to financial accounting standards may affect our results of operations and cause us to change our business practices.

We prepare our financial statements in accordance with generally accepted accounting principles, or GAAP, in the United States. These accounting principles are subject to interpretation by the Financial Accounting Standards Board, or FASB, the Securities and Exchange Commission, or SEC, and various bodies formed to interpret and create appropriate accounting policies. A change in those policies or other requirements with respect to the reporting of financial statements can have a significant effect on our reported results and may affect our reporting of transactions completed before a change is announced.

For example, the SEC has released a proposed roadmap regarding the potential use by U.S. issuers of financial statements prepared in accordance with International Financial Reporting Standards, or IFRS. Under the proposed roadmap, we may be required to prepare financial statements in accordance with IFRS. The SEC announced it will make a determination in 2011 regarding the mandatory adoption of these new standards. It is unclear at this time how the Commission will propose GAAP and IFRS be harmonized if the proposed changes are adopted. If adopted, we will need to develop new systems and controls around IFRS principles. Since this would be a new endeavor, the specific costs associated with this conversion are uncertain and could have a material impact on our results of operations.

AMD and Fujitsu may continue to use all of our intellectual property and the intellectual property they have transferred to us.

In connection with our reorganization as Spansion LLC in June 2003, Advanced Micro Devices, Inc., or AMD, and Fujitsu transferred approximately 400 patents and patent applications to us. In addition, AMD and Fujitsu contributed additional patents to us at the time of our initial public offering. However, both AMD and Fujitsu have retained license rights under the patents they contributed to us. In addition, under their respective patent cross-license agreements with us, AMD and Fujitsu have also obtained licenses to our present and future patents with effective filing dates prior to June 30, 2013, although the scope of patents under license can be impacted by a change in control of the parties or their semiconductor groups. These licenses continue until the last to expire of the patents under license expires and provide AMD and Fujitsu with licenses to all of our present and future patents in existence through such cross-license termination date. In addition, we have granted a non-exclusive, perpetual, irrevocable fully paid and royalty-free license under our rights, other than patent and trademark rights, in our technology to each of AMD and Fujitsu. Under our non-competition agreement, both AMD and Fujitsu have agreed that they will not directly or indirectly engage in a business, and have agreed to divest any acquired business, that manufactures or supplies standalone semiconductor devices (including single chip, multiple chip or system devices) containing certain Flash memory, which is the business in which we primarily compete. With respect to each of AMD and Fujitsu, this non-competition restriction will last until May 10, 2012. After the expiration of the non-competition restriction period, should either AMD or Fujitsu

Table of Contents

decide to re-enter the Flash memory business, it could use our present and future patents and technologies licensed by us to AMD and Fujitsu to compete against us. If either AMD or Fujitsu were to compete with us, we could be materially adversely affected.

Our stock price may be volatile, and stockholders may lose all or part of their investment.

The market price of our common stock has been volatile and may in the future be subject to wide fluctuations in response to many risk factors listed in this section, and others beyond our control, including:

actual or anticipated changes in our operating results;

changes in financial estimates by securities analysts;

fluctuations in the valuation of companies perceived to be comparable to us;

announcements by us or our competitors of significant acquisitions, strategic partnerships, divestitures, joint ventures or other strategic initiatives; and

stock price and volume fluctuations attributable to inconsistent trading volume levels or other factors.

Furthermore, the stock markets have experienced extreme price and volume fluctuations that have affected and continue to affect the market prices of equity securities of many companies. These fluctuations often have been unrelated or disproportionate to the operating performance of those companies. These broad market and industry fluctuations, as well as general economic, political and market conditions such as recessions, interest rate changes or international currency fluctuations, may negatively impact the market price of shares of our common stock. In the past, companies that have experienced volatility in the market price of their stock have been subject to securities class action litigation. We may be the target of this type of litigation in the future. Securities litigation against us could result in substantial costs and divert our management's attention from other business concerns, which could materially adversely affect us.

Risks Related to the Notes

If you do not exchange your notes pursuant to this exchange offer, you may never be able to sell your notes.

It may be difficult for you to sell notes that are not exchanged in the exchange offer. Those notes may not be offered or sold unless they are registered or there are exemptions from the registration requirements under the Securities Act and applicable state securities laws.

If you do not tender your private notes or if we do not accept some of your private notes, those notes will continue to be subject to the transfer and exchange restrictions in:

the indenture;

the legend on the private notes; and

the offering circular relating to the private notes.

The restrictions on transfer of your private notes arise because we issued the private notes pursuant to an exemption from the registration requirements of the Securities Act and applicable state securities laws. In general, you may only offer or sell the private notes if they are

Edgar Filing: Spansion Inc. - Form S-4/A

registered under the Securities Act and applicable state securities laws, or offered and sold pursuant to an exemption from such requirements. We do not intend to register the private notes under the Securities Act. To the extent private notes are tendered and accepted in the exchange offer, the trading market, if any, for the private notes would be adversely affected.

Table of Contents

Our level of indebtedness could adversely affect our ability to raise additional capital to fund our operations, limit our ability to react to changes in the economy or our industry and prevent us from meeting our obligations under the notes.

As of June 26, 2011, our total indebtedness was approximately \$448.3 million. Our substantial degree of leverage could have important consequences for you, including the following:

it may limit our ability to obtain additional debt or equity financing for working capital, capital expenditures, product development, debt service requirements, acquisitions or general corporate or other purposes;

a substantial portion of our cash flows from operations will be dedicated to the payment of principal and interest on our indebtedness and will not be available for other purposes, including our operations, capital expenditures and future business opportunities;

the debt service requirements of our indebtedness could make it more difficult for us to satisfy our financial obligations, including those related to the notes;

certain of our borrowings, including borrowings under the Term Loan, are, and any future borrowings under the Revolving Credit Facility will be, at variable rates of interest, exposing us to the risk of increased interest rates;

it may limit our ability to adjust to changing market conditions and place us at a competitive disadvantage compared to our competitors that have less debt; and

we may be vulnerable to a downturn in general economic conditions or in our business, or we may be unable to carry out capital spending that is important to our growth.

We may not be able to generate sufficient cash to service all of our indebtedness, including the notes, and be forced to take other actions to satisfy our obligations under our indebtedness, which may not be successful.

Our ability to make scheduled payments or to refinance our debt obligations depends on our financial and operating performance, which is subject to prevailing economic and competitive conditions and to certain financial, business and other factors beyond our control. We cannot assure you that we will maintain a level of cash flows from operating activities sufficient to permit us to pay the principal, premium, if any, and interest on our indebtedness.

If our cash flows and capital resources are insufficient to fund our debt service obligations, we may be forced to reduce or delay capital expenditures, sell assets or operations, seek additional capital or restructure or refinance our indebtedness, including the notes. We cannot assure you that we would be able to take any of these actions, that these actions would be successful and permit us to meet our scheduled debt service obligations or that these actions would be permitted under the terms of our existing or future debt agreements, including the Term Loan and Revolving Credit Facility or the indenture that will govern the notes.

If we cannot make scheduled payments on our debt, we will be in default and, as a result:

our debt holders could declare all outstanding principal and interest to be due and payable;

the lenders under our Term Loan and Revolving Credit Facility could terminate their commitments to lend us money and foreclose against the assets securing their borrowings; and

we and our parent companies could be forced into bankruptcy or liquidation, which could result in you losing your investment in the notes.

Despite current indebtedness levels, we may still be able to incur substantially more debt and this could further exacerbate the risks described above. The terms of our existing indebtedness and the indenture do not fully prohibit us or our subsidiaries from doing so and do not restrict the ability of our parent companies to incur

Table of Contents

indebtedness. This debt may include additional debt under our Revolving Credit Facility, which provides commitments of up to \$65 million, or other secured debt that would effectively rank senior to the notes offered hereby to the extent of the value of the collateral securing that additional indebtedness.

Restrictive covenants may adversely affect our operations.

Our Term Loan, Revolving Credit Facility and the indenture governing the notes contain various covenants that limit our ability to, among other things:

incur or assume additional debt or provide guarantees in respect of obligations of other persons;

pay dividends or distributions or redeem or repurchase capital stock;

prepay, redeem or repurchase debt;

make certain investments, including investment in our unrestricted subsidiaries;

create or permit liens;

restrict dividends, loans or asset transfers from our subsidiaries;

sell or otherwise dispose of assets, including capital stock of subsidiaries;

consolidate or merge with or into, or sell substantially all of our assets to, another person; and

enter into transactions with affiliates.

In addition, the restrictive covenants in our Term Loan and Revolving Credit Facility require us to maintain specified financial ratios, including a maximum consolidated leverage ratio and a minimum consolidated interest coverage ratio.

Our ability to meet those financial ratios can be affected by events beyond our control, and we cannot assure you that we will meet them. A breach of any of the provisions, covenants, financial tests or ratios under our debt instruments could prevent us from borrowing under our Revolving Credit Facility and result in an event of default under the applicable agreement, which in turn could trigger cross-defaults under other debt instruments, including the indenture governing the notes, any of which would materially adversely affect us. Upon the occurrence of an event of default under our Term Loan or Revolving Credit Facility, the lenders could elect to declare all amounts outstanding under our these facilities to be immediately due and payable and terminate all commitments to extend further credit. If we were unable to repay those amounts, the lenders under these facilities could proceed against the collateral granted to them to secure that indebtedness. We have pledged a significant portion of our assets as collateral under our Term Loan and Revolving Credit Facility. If the lenders under our facilities accelerate the repayment of borrowings, we cannot assure you that we will have sufficient assets to repay these credit facilities and our other indebtedness, including the notes, or borrow sufficient funds to refinance such indebtedness. Even if we are able to obtain new financing, it may not be on commercially reasonable terms or terms that are acceptable to us.

The notes and the related guarantees will be effectively subordinated to all of our secured debt and if a default occurs, we may not have sufficient funds to fulfill our obligations under the notes and the guarantees.

Edgar Filing: Spansion Inc. - Form S-4/A

The notes and the related guarantees will be general senior unsecured obligations that will rank equally in right of payment with all of our existing and future unsecured and unsubordinated indebtedness. The notes will be effectively subordinated to all of our and our guarantors secured indebtedness to the extent of the value of the assets securing that indebtedness. As of June 26, 2011, we had approximately \$248.3 million of secured indebtedness. In addition, the indenture governing the notes, subject to some limitations, permits us to incur additional secured indebtedness, and your notes and the related guarantees will be effectively junior to any additional secured indebtedness we may incur.

Table of Contents

In the event of our bankruptcy, liquidation, reorganization or other winding up, our assets that secure our secured indebtedness will be available to pay obligations on the notes only after all secured indebtedness, together with accrued interest, has been repaid in full from those assets. Because our borrowings under the Term Loan and Revolving Credit Facility (to the extent we borrow under the Revolving Credit facility) are or will be secured obligations, if we fail to comply with the terms of these facilities and those lenders accelerated the payment of all the funds borrowed thereunder and we were unable to repay such indebtedness, the lenders could foreclose on substantially all of our assets and the assets of our guarantors which serve as collateral. In this event, our secured lenders would be entitled to be repaid in full from the proceeds of the liquidation of those assets before those assets would be available for distribution to other creditors, including holders of the notes. Holders of the notes will participate in our remaining assets ratably with all holders of our unsecured indebtedness that is deemed to be of the same class as the notes, and potentially with all of our other general creditors. We advise you that there may not be sufficient assets remaining to pay amounts due on any or all the notes and the related guarantees then outstanding. The guarantees of the notes have a similar ranking with respect to secured and unsecured senior indebtedness of the guarantors as the notes do with respect to our secured and unsecured senior indebtedness, as well as with respect to any unsecured obligations expressly subordinated in right of payment to the guarantees.

The notes will be structurally subordinated to all indebtedness of our existing or future subsidiaries.

You will not have any claim as a creditor against any of our existing or future subsidiaries. Indebtedness and other liabilities, including trade payables, whether secured or unsecured, of those subsidiaries are effectively senior to your claims against those entities.

For the six months ended June 26, 2011, our subsidiaries collectively represented approximately 28 percent of our revenues. At June 26, 2011, our subsidiaries collectively represented 14 percent of our total assets and had approximately \$81.7 million of outstanding total liabilities, including trade payables, but excluding intercompany liabilities, all of which were structurally senior to the notes.

In addition, the indenture governing the notes, subject to some limitations, permits these entities to incur additional indebtedness and does not contain any limitation on the amount of other liabilities, such as trade payables, that may be incurred by these subsidiaries.

We may not be able to repurchase the notes upon a change of control.

Upon the occurrence of specific kinds of change of control events, we are required to offer to repurchase all outstanding notes at 101% of their principal amount, plus accrued and unpaid interest. We may not be able to repurchase the notes upon a change of control because we may not have sufficient funds. Further, we may be contractually restricted under the terms of our Term Loan and Revolving Credit Facility from repurchasing all of the notes tendered by holders upon a change of control. Accordingly, we may not be able to satisfy our obligations to purchase your notes unless we are able to refinance or obtain waivers under our Term Loan and Revolving Credit Facility. Our failure to repurchase the notes upon a change of control would cause a default under the indenture and a cross-default under these facilities and the indenture governing the notes. Our Term Loan and Revolving Credit Facility also provide that a change of control, as defined in such agreement, will be a default that permits lenders to accelerate the maturity of borrowings thereunder and, if such debt is not paid, to enforce security interests in the collateral securing such debt, thereby limiting our ability to raise cash to purchase the notes, and reducing the practical benefit of the offer-to-purchase provisions to the holders of the notes. Any of our future debt agreements may contain similar provisions.

In addition, the change of control provisions in the indenture may not protect you from certain important corporate events, such as a leveraged recapitalization (which would increase the level of our indebtedness), reorganization, restructuring, merger or other similar transaction. Such a transaction may not involve a change in voting power or beneficial ownership or, even if it does, may not involve a change that constitutes a change of

Table of Contents

control as defined in the indenture that would trigger our obligation to repurchase the notes. If an event occurs that does not constitute a change of control as defined in the indenture, we will not be required to make an offer to repurchase the notes and you may be required to continue to hold your notes despite the event.

Federal and state fraudulent transfer laws permit a court to void the guarantees, and, if that occurs, you may not receive any payments on the notes.

The issuance of the guarantees may be subject to review under federal, state and foreign fraudulent transfer and conveyance statutes. While the relevant laws may vary from jurisdiction to jurisdiction, under such laws the payment of consideration will generally be a fraudulent conveyance if (1) the guarantors paid the consideration with the intent of hindering, delaying or defrauding creditors or (2) any of our guarantors, as applicable, received less than reasonably equivalent value or fair consideration in return for issuing either the notes or a guarantee and, in the case of (2) only, one of the following is also true:

any of our guarantors were insolvent or rendered insolvent by reason of the incurrence of the indebtedness;

payment of the consideration left any of our guarantors with an unreasonably small amount of capital to carry on the business; or

any of our guarantors intended to, or believed that we or it would, incur debts beyond our or its ability to pay as they mature.

If a court were to find that the issuance of a guarantee was a fraudulent conveyance, the court could void the payment obligations under such guarantee or subordinate such guarantee to presently existing and future indebtedness of such guarantor, or require the holders of the notes to repay any amounts received with respect to such guarantee. In the event of a finding that a fraudulent conveyance occurred, you may not receive any repayment on the notes.

Generally, an entity would be considered insolvent if at the time it incurred indebtedness:

the sum of its debts, including contingent liabilities, was greater than the fair saleable value of all its assets;

the present fair saleable value of its assets was less than the amount that would be required to pay its probable liability on its existing debts and liabilities, including contingent liabilities, as they become absolute and mature; or

it could not pay its debts as they become due.

We cannot be certain as to the standards a court would use to determine whether or not the guarantors were solvent at the relevant time, or regardless of the standard that a court uses, that the issuance of the guarantees would not be subordinated to any guarantor's other debt.

If the guarantees were legally challenged, any guarantee could also be subject to the claim that, since the guarantee was incurred for our benefit, and only indirectly for the benefit of the guarantor, the obligations of the applicable guarantor were incurred for less than fair consideration. A court could thus void the obligations under the guarantees, subordinate them to the applicable guarantor's other debt or take other action detrimental to the holders of the notes.

Your ability to transfer the notes may be limited by the absence of an active trading market, and there is no assurance that any active trading market will develop for the notes.

The exchange notes are a new issue of securities for which there is no established public market. We do not intend to have the exchange notes listed on a national securities exchange or to arrange for quotation on any automated dealer quotation systems. The initial purchasers have advised us that they intend to make a market in

Table of Contents

the exchange notes as permitted by applicable laws and regulations; however, the initial purchasers are not obligated to make a market in the exchange notes and they may discontinue their market-making activities at any time without notice. Therefore, we cannot assure you as to the development or liquidity of any trading market for the exchange notes. The liquidity of any market for the exchange notes will depend on a number of factors, including:

the number of holders of notes;

our operating performance and financial condition;

our ability to complete the offer to exchange the notes for the exchange notes;

the market for similar securities;

the interest of securities dealers in making a market in the notes; and

prevailing interest rates.

Historically, the market for non-investment grade debt has been subject to disruptions that have caused substantial volatility in the prices of securities similar to the exchange notes. We cannot assure you that the market, if any, for the exchange notes will be free from similar disruptions or that any such disruptions may not adversely affect the prices at which you may sell your exchange notes. Therefore, we cannot assure you that you will be able to sell exchange notes at a particular time or the price that you receive when you sell will be favorable.

Table of Contents

The Exchange Offer

Purpose of the Exchange Offer

We issued \$200 million aggregate principal amount of the private notes on November 9, 2010 to Barclays Capital Inc. and Morgan Stanley & Co., Incorporated, as representatives of the initial purchasers, pursuant to a purchase agreement. The initial purchasers subsequently sold the private notes to qualified institutional buyers, as defined in Rule 144A under the Securities Act, in reliance on Rule 144A, and outside the United States under Regulation S of the Securities Act. As a condition to the sale of the private notes, we entered into a registration rights agreement with the initial purchasers on November 9, 2010. Pursuant to the registration rights agreement, we agreed that we would:

- (1) file an exchange offer registration statement with the SEC;
- (2) use our commercially reasonable efforts to have the exchange offer registration statement declared effective by the SEC;
- (3) commence the exchange offer promptly after the exchange offer registration statement is declared effective by the SEC; and
- (4) use our commercially reasonable efforts to consummate the exchange offer on or before August 5, 2011.

Upon the effectiveness of the exchange offer registration statement, we will offer the exchange notes in exchange for the private notes. A copy of the registration rights agreement is filed as an exhibit to the registration statement of which this prospectus forms a part.

Resale of the Exchange Notes

Based upon an interpretation by the staff of the SEC contained in no-action letters issued to third parties, we believe that you may exchange private notes for exchange notes in the ordinary course of business. For further information on the SEC's position, see *Exxon Capital Holdings Corporation*, available May 13, 1988, *Morgan Stanley & Co. Incorporated*, available June 5, 1991 and *Shearman & Sterling*, available July 2, 1993, and other interpretive letters to similar effect. You will be allowed to resell exchange notes to the public without further registration under the Securities Act and without delivering to purchasers of the exchange notes a prospectus that satisfies the requirements of Section 10 of the Securities Act so long as you do not participate, do not intend to participate, and have no arrangement with any person to participate, in a distribution of the exchange notes. However, the foregoing does not apply to you if you are: a broker-dealer who purchased the exchange notes directly from us to resell pursuant to Rule 144A or any other available exemption under the Securities Act; or you are an affiliate of ours within the meaning of Rule 405 under the Securities Act.

By participating in the exchange offer, you must represent, warrant and confirm digitally in connection with DTC's ATOP procedures that you:

- (i) are acquiring the exchange notes in your ordinary course of business,
- (ii) are not engaged in, and do not intend to engage in, a distribution of the exchange notes, and
- (iii) have no arrangement or understanding with the Company, the Company's affiliates or any other person to participate in a distribution of the exchange notes.

In addition, if you are a broker-dealer, or you acquire exchange notes in the exchange offer for the purpose of distributing or participating in the distribution of the exchange notes, you cannot rely on the position of the staff of the SEC contained in the no-action letters mentioned above and must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction, unless an exemption from registration is otherwise available.

Table of Contents

If you are a broker-dealer who holds the private notes acquired for your own account as a result of market-making activities or other trading activities and you receive exchange notes in exchange for such private notes pursuant to the exchange offer, you must acknowledge, and confirm digitally in connection with DTC's ATOP procedures, that:

- (i) you must deliver a prospectus meeting the requirements of the Securities Act in connection with any resale of exchange notes received in respect of such outstanding private notes pursuant to the exchange offer, and
- (ii) by delivering such a prospectus, you, who may be a statutory underwriter, will not be deemed to admit that you are an underwriter within the meaning of the Securities Act.

The letter of transmittal for use in connection with any such resale will state that by so acknowledging and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act. A broker-dealer may use this prospectus, as it may be amended or supplemented from time to time, in connection with resales of exchange notes received in exchange for private notes which the broker-dealer acquired as a result of market-making or other trading activities.

Terms of the Exchange Offer

Upon the terms and subject to the conditions described in this prospectus, we will accept any and all private notes validly tendered and not withdrawn before the expiration date. You may tender private notes only in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. We will issue \$1,000 principal amount of exchange notes in exchange for each \$1,000 principal amount of outstanding private notes surrendered pursuant to the exchange offer.

The form and terms of the exchange notes are the same as the form and terms of the private notes except that:

we will register the exchange notes under the Securities Act and, therefore, the exchange notes will not bear legends restricting their transfer; and

holders of the exchange notes will not be entitled to any of the rights of holders of private notes under the registration rights agreement, which rights will terminate upon the completion of the exchange offer.

The exchange notes will evidence the same debt as the private notes and will be issued under the same indenture, so the exchange notes and the private notes will be treated as a single class of debt securities under the indenture.

As of the date of this prospectus, \$200,000,000 in aggregate principal amount of the private notes is outstanding and registered in the name of Cede & Co., as nominee for DTC. Only registered holders of the private notes, or their legal representative or attorney-in-fact, as reflected on the records of the trustee under the indenture, may participate in the exchange offer. We will not set a fixed record date for determining registered holders of the private notes entitled to participate in the exchange offer.

You do not have any appraisal or dissenters' rights under the indenture in connection with the exchange offer. We intend to conduct the exchange offer in accordance with the provisions of the registration rights agreement and the applicable requirements of the Securities Act, the Exchange Act and the rules and regulations of the SEC.

We will be deemed to have accepted validly tendered private notes when, as and if we had given oral or written notice of acceptance to the Exchange Agent. The Exchange Agent will act as your agent for the purposes of receiving the exchange notes from us.

If you tender private notes in the exchange offer you will not be required to pay brokerage commissions or fees or transfer taxes with respect to the exchange of private notes pursuant to the exchange offer. We will pay all charges and expenses, other than the applicable taxes described below under "Fees and Expenses," in connection with the exchange offer.

Table of Contents

Expiration Date; Extensions; Amendments

The term expiration date will mean 5:00 p.m., New York City time on _____, 2011, unless we, in our sole discretion, extend the exchange offer, in which case the term expiration date will mean the latest date and time to which we extend the exchange offer.

To extend the exchange offer, we will notify the Exchange Agent and each registered holder of any extension in writing by a press release or other public announcement before 9:00 a.m., New York City time, on the next business day after the previously scheduled expiration date. The notice of extension will disclose the aggregate principal amount of the private notes that have been tendered as of the date of such notice.

We reserve the right, in our reasonable discretion:

to delay accepting any private notes due to an extension of the exchange offer; or

if any conditions listed below under Conditions are not satisfied, to terminate the exchange offer in each case by giving written notice of the delay, extension or termination to the Exchange Agent and by press release or public announcement.

We will follow any delay in acceptance, extension or termination as promptly as practicable by written notice to the registered holders by a press release or other public announcement. If we amend the exchange offer in a manner we determine constitutes a material change, we will promptly disclose the amendment in a prospectus supplement that we will distribute to the registered holders. We will also extend the exchange offer for a period of five to ten business days, depending upon the significance of the amendment and the manner of disclosure, if the exchange offer would otherwise expire during the five to ten business day period.

Interest on the Exchange Notes

The exchange notes will bear interest at the same rate and on the same terms as the private notes. Consequently, the exchange notes will bear interest at a rate equal to 7.875% per annum (calculated using a 360-day year). Interest will be payable on the exchange notes semi-annually on each May 15 and November 15.

Interest on the exchange notes will accrue from the last interest payment date on which interest was paid on the private notes. We will deem the right to receive any interest accrued but unpaid on the private notes waived by you if we accept your private notes for exchange.

Procedures for Tendering

If you are a DTC, Euroclear or Clearstream participant that has private notes which are credited to your DTC, Euroclear or Clearstream account by book-entry and which are held of record by DTC, Euroclear or Clearstream's nominee, as applicable, you may tender your private notes by book-entry transfer as if you were the record holder. Because of this, references herein to registered or record holders include DTC, Euroclear and Clearstream participants with private notes credited to their accounts. If you are not a DTC, Euroclear or Clearstream participant, you may tender your private notes by book-entry transfer by contacting your broker, dealer or other nominee or by opening an account with a DTC, Euroclear or Clearstream participant, as the case may be.

To tender private notes in the exchange offer, you must:

comply with DTC's Automated Tender Offer Program, or ATOP, procedures described below; and

the Exchange Agent must receive a timely confirmation of a book-entry transfer of the private notes into its account at DTC through ATOP pursuant to the procedure for book-entry transfer described below, along with a properly transmitted agent's message, before the expiration date.

Table of Contents

Participants in DTC's ATOP program must electronically transmit their acceptance of the exchange by causing DTC to transfer the private notes to the Exchange Agent in accordance with DTC's ATOP procedures for transfer. DTC will then send an agent's message to the Exchange Agent. With respect to the exchange of the private notes, the term "agent's message" means a message transmitted by DTC, received by the Exchange Agent and forming part of the book-entry confirmation, which states that:

DTC has received an express acknowledgment from a participant in its ATOP that is tendering private notes that are the subject of the book-entry confirmation;

the participant has received and agrees to be bound by the terms and subject to the conditions set forth in this prospectus; and

the Company may enforce the agreement against such participant.

Participants in Euroclear's or Clearstream's book-entry transfer facility system must electronically transmit their acceptance of the exchange to Euroclear or Clearstream. The receipt of such electronic acceptance instruction by Euroclear or Clearstream will be acknowledged in accordance with the standard practices of such book-entry transfer facility and will result in the blocking of such private notes in that book-entry transfer facility. By blocking such private notes in the relevant book-entry transfer facility, each holder of private notes will be deemed to consent to have the relevant book-entry transfer facility provide details concerning such holder's identity to the Exchange Agent. The receipt of an electronic instruction by Euroclear or Clearstream shall mean:

Euroclear or Clearstream, as applicable, has received an express acknowledgment from a participant in Euroclear or Clearstream, as the case may be, that such participant is tendering private notes that are the subject of the book-entry confirmation;

the participant has received and agrees to be bound by the terms and subject to the conditions set forth in this prospectus; and

the Company may enforce the agreement against such participant.

Your tender, if not withdrawn before the expiration date, will constitute an agreement between you and us in accordance with the terms and subject to the conditions described in this prospectus.

DTC, Euroclear and Clearstream are collectively referred to herein as the "book-entry transfer facilities" and, individually as a "book-entry transfer facility."

We will determine in our sole discretion all questions as to the validity, form, eligibility, including time of receipt, acceptance and withdrawal of tendered private notes, which determination will be final and binding. We reserve the absolute right to reject any and all private notes not properly tendered or any private notes our acceptance of which would, in the opinion of our counsel, be unlawful. We also reserve the right to waive any defects, irregularities or conditions of tender as to particular private notes. Our interpretation of the terms and conditions of the exchange offer will be final and binding on all parties. Unless waived, you must cure any defects or irregularities in connection with tenders of private notes within the time we determine. Although we intend to notify you of defects or irregularities with respect to tenders of private notes, neither we, the Exchange Agent nor any other person will incur any liability for failure to give you that notification. Unless waived, we will not deem tenders of private notes to have been made until you cure the defects or irregularities.

While we have no present plan to acquire any private notes that are not tendered in the exchange offer or to file a registration statement to permit resales of any private notes that are not tendered in the exchange offer, we reserve the right in our sole discretion to purchase or make offers for any private notes that remain outstanding after the expiration date. We also reserve the right to terminate the exchange offer, as described below under "Conditions," and, to the extent permitted by applicable law, purchase private notes in the open market, in privately negotiated transactions or otherwise. The terms of any of those purchases or offers could differ from the terms of the exchange offer.

Table of Contents

If you wish to tender private notes in exchange for exchange notes in the exchange offer, we will require you to represent that:

the private notes are, at the time of acceptance, and will continue to be, until exchanged in this offer, held by you;

you acknowledge that all authority conferred or agreed to be conferred pursuant to these representations, warranties and undertakings and every obligation of yours shall be binding upon your successors, assigns, heirs, executors, administrators, trustees in bankruptcy and legal representatives and shall not be affected by, and shall survive, your death or incapacity (if an individual) or dissolution (if an entity);

you will, upon request, execute and deliver any documents deemed by the Company or the Exchange Agent to be necessary or desirable to complete the exchange of the private notes that are the subject of the electronic acceptance instruction;

you have full power and authority to tender, exchange, assign and transfer the private notes that are the subject of the electronic acceptance instruction and that when such notes are accepted for exchange by the Company, the notes will be transferred by you with full title guarantee free from all liens, restrictions, charges and encumbrances and not subject to any adverse claim or right, together with all rights attached thereto;

you are not an affiliate of ours;

you will acquire any exchange notes in the ordinary course of your business;

you do not have an arrangement or understanding with any person to participate in the distribution of the exchange notes; and

at the time of completion of the exchange offer, you are not engaged in, and do not intend to engage in, a distribution of the exchange notes.

You will be deemed to make such representations by tendering private notes in the exchange offer. In addition, in connection with the resale of exchange notes, any participating broker-dealer who acquired the private notes for its own account as a result of market-making or other trading activities acknowledges that it must deliver a prospectus meeting the requirements of the Securities Act. The SEC has taken the position that participating broker-dealers may fulfill their prospectus delivery requirements with respect to the exchange notes, other than a resale of an unsold allotment from the original sale of the notes, with this prospectus.

Book-Entry Transfer

The Exchange Agent will make a request to establish an account with respect to the private notes at DTC, as book-entry transfer facilities, for purposes of the exchange offer within two business days after the date of this prospectus. Any financial institution that is a participant in the book entry transfer facility's system may make book-entry delivery of private notes by causing the depository to transfer the private notes into the Exchange Agent's account at the facility in accordance with the facility's procedures for such transfer.

In all cases, we will issue exchange notes for private notes that we have accepted for exchange under the exchange offer only after the Exchange Agent timely receives:

confirmation of book-entry transfer of your private notes into the Exchange Agent's account at DTC; and

a properly transmitted agent's message.

If we do not accept any tendered private notes for any reason set forth in the terms of the exchange offer, we will credit the non-exchanged private notes to your account maintained at the applicable book-entry transfer facility.

Table of Contents

Withdrawal of Tenders

You may withdraw your tender of private notes at any time prior to 5:00 p.m., New York City time, on the expiration date. You should expect your withdrawal request to be processed, and your account credited with the withdrawn notes, generally on the same business day of properly completing a withdrawal request.

For a withdrawal to be effective, the holder must cause to be transmitted to the Exchange Agent an agent's message, which agent's message must be received by the Exchange Agent prior to 5:00 p.m., New York City time, on the expiration date. In addition, the Exchange Agent must receive a timely confirmation of book-entry transfer of the private notes out of the Exchange Agent's account at DTC, under the applicable procedure for book-entry transfers described herein, along with a properly transmitted agent's message, on or before the expiration date.

We will determine in our sole discretion all questions as to the validity, form and eligibility of the notices, and our determination will be final and binding on all parties. We will not deem any properly withdrawn private notes to have been validly tendered for purposes of the exchange offer, and we will not issue exchange notes with respect to those private notes, unless you validly retender the withdrawn private notes. You may retender properly withdrawn private notes by following the procedures described above under "Procedures for Tendering" at any time before the expiration date.

Conditions

Notwithstanding any other term of the exchange offer, we will not be required to accept for exchange, or exchange the exchange notes for, any private notes, and may terminate the exchange offer as provided in this prospectus before the expiration date, if, in our reasonable judgment, the exchange offer violates applicable law, rules or regulations or an applicable interpretation of the staff of the SEC.

All offer conditions, except those related to the receipt of government regulatory approvals necessary to consummate the offer, must be satisfied or waived at or before the expiration of the offer. If we determine in our reasonable discretion that any of these conditions are not satisfied, we may:

refuse to accept any private notes and return all tendered private notes to you;

extend the exchange offer and retain all private notes tendered before the exchange offer expires, subject, however, to your rights to withdraw the private notes; or

waive the unsatisfied conditions with respect to the exchange offer and accept all properly tendered private notes that have not been withdrawn.

If the waiver constitutes a material change to the exchange offer, we will promptly disclose the waiver by means of a prospectus supplement that we will distribute to the registered holders of the private notes, and we will extend the exchange offer for a period of five to ten business days, depending upon the significance of the waiver and the manner of disclosure to the registered holders, if the exchange offer would otherwise expire during the five to ten business day period.

Termination of Rights

All of your rights under the registration rights agreement will terminate upon consummation of the exchange offer except with respect to our continuing obligations:

to indemnify you and parties related to you against liabilities, including liabilities under the Securities Act; and

Edgar Filing: Spansion Inc. - Form S-4/A

to provide, upon your request, the information required by Rule 144A(d)(4) under the Securities Act to permit resales of the notes pursuant to Rule 144A.

Shelf Registration

If:

(1) we determine that we are not permitted to consummate the exchange offer because the exchange offer is not permitted by applicable law or SEC policy; or

(2) upon the receipt of a written request from any initial purchaser of the notes representing that it holds private notes that are or were ineligible to be exchanged in the exchange offer,

we will use our reasonable best efforts to file as soon as practicable after such determination or request a shelf registration statement with the SEC to cover resales of the private notes by the holders thereof who satisfy certain conditions relating to the provision of information in connection with the shelf registration statement.

For purposes of the preceding, transfer restricted securities means each private note until:

(1) the date on which such note has been exchanged by a person other than a broker-dealer for an exchange note in the exchange offer;

(2) following the exchange by a broker-dealer in the exchange offer of a private note for an exchange note, the date on which such exchange note is sold to a purchaser who receives from such broker-dealer on or prior to the date of such sale a copy of the prospectus contained in the exchange offer registration statement;

(3) the date on which such private note has been effectively registered under the Securities Act and disposed of in accordance with the shelf registration statement; or

(4) the date on which such private note is distributed to the public pursuant to Rule 144 under the Securities Act.

Liquidated Damages

If:

(1) we fail to file any of the registration statements required by the registration rights agreement on or before the date specified for such filing; or

(2) any of such registration statements is not declared effective by the SEC on or prior to the date specified for such effectiveness; or

(3) we fail to consummate the exchange offer on or before August 5, 2011; or

(4) the shelf registration statement or the exchange offer registration statement is declared effective but thereafter ceases to be effective or usable in connection with resales or exchanges of transfer restricted securities during the periods specified in the registration rights agreement (each such event referred to in clauses (1) through (4) above, a registration default),

Edgar Filing: Spansion Inc. - Form S-4/A

then we will pay to each holder of the outstanding notes, as liquidated damages, for the period from the occurrence of the registration default (but only with respect to one registration default at any particular time) until such time as no registration default is in effect an amount per annum equal to (i) 0.25% during the first 90-day period following the occurrence of such registration default and (ii) 0.50% thereafter, in each case until the applicable registration statement is filed, the exchange offer registration statement is declared effective and the exchange offer is consummated or the shelf registration statement is declared effective or again becomes effective, as the case may be.

Exchange Agent

We have appointed Wells Fargo Bank, National Association as Exchange Agent for the exchange offer. You should direct questions and requests for assistance and requests for additional copies of this prospectus to the Exchange Agent addressed as follows:

By Registered or Certified Mail:

Wells Fargo Bank, National Association
625 Marquette Avenue
MAC CODE: N9303-121
Minneapolis, Minnesota 55402
Attention: Bondholder Communications

By Hand Delivery:

Wells Fargo Bank, National Association
625 Marquette Avenue
MAC CODE: N9303-121
Minneapolis, Minnesota 55402
Attention: Bondholder Communications

By Overnight Delivery:

Wells Fargo Bank, National Association
625 Marquette Avenue
MAC CODE: N9303-121
Minneapolis, Minnesota 55402
Attention: Bondholder Communications

By Facsimile:

(612) 667-9825
Attention: Bondholder Communications

Confirm by Telephone:

(800) 344-5128

Delivery to an address other than the one stated above or transmission via a facsimile number other than the one stated above will not constitute a valid delivery.

Fees and Expenses

We will bear the expenses of soliciting tenders. We have not retained any dealer manager in connection with the exchange offer and will not make any payments to brokers, dealers or others soliciting acceptances of the exchange offer. We will, however, pay the Exchange Agent reasonable and customary fees for its services and will reimburse it for its reasonable out-of-pocket expenses.

We will pay the cash expenses incurred in connection with the exchange offer which we estimate to be approximately \$150,000. These expenses include registration fees, fees and expenses of the Exchange Agent and the trustee, accounting and legal fees and printing costs, among others.

We will pay all transfer taxes, if any, applicable to the exchange of notes pursuant to the exchange offer. If, however, a transfer tax is imposed for any reason other than the exchange of the private notes pursuant to the exchange offer, then you must pay the amount of the transfer taxes.

Consequence of Failures to Exchange

Participation in the exchange offer is voluntary. We urge you to consult your financial and tax advisors in making your decisions on what action to take. Private notes that are not exchanged for exchange notes pursuant to the exchange offer will remain restricted securities. Accordingly, those private notes may be resold only:

to a person whom the seller reasonably believes is a qualified institutional buyer in a transaction meeting the requirements of Rule 144A;

in a transaction meeting the requirements of Rule 144 under the Securities Act;

outside the United States to a foreign person in a transaction meeting the requirements of Rule 903 or 904 of Regulation S under the Securities Act;

Edgar Filing: Spansion Inc. - Form S-4/A

in accordance with another exemption from the registration requirements of the Securities Act and based upon an opinion of counsel if we so request;

to us; or

pursuant to an effective registration statement.

In each case, the private notes may be resold only in accordance with any applicable securities laws of any state of the United States or any other applicable jurisdiction.

Table of Contents

Use of Proceeds

The exchange offer satisfies an obligation under the registration rights agreement. We will not receive any cash proceeds from the exchange offer.

The net proceeds from the sale of the private notes were approximately \$195.6 million after deducting the initial purchasers' discounts and estimated transactions expenses payable by us. We used all of the net proceeds to pay down amounts outstanding under our Term Loan.

Table of Contents**Capitalization**

The following table sets forth capitalization as of June 26, 2011. This table should be read in conjunction with our consolidated financial statements and the related notes thereto and the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in our Annual Report on Form 10-K for the fiscal year ended December 26, 2010 and our Quarterly Report on Form 10-Q for the six months ended June 26, 2011 incorporated by reference in this prospectus.

	As of June 26, 2011
(in thousands)	
Total long-term debt and capital lease obligations, including current portion:	
Term Loan	\$ 247,424
Revolving Credit Facility	
Capital lease obligations	885
7.875% Senior Notes due 2017	200,000
Total long-term debt and capital lease obligations	448,309
Total stockholders' equity	607,803
Total capitalization	\$ 1,056,112

Table of Contents

Selected Historical Consolidated Financial Data

The following tables present Spansion Inc.'s summary historical consolidated financial and other data for its business for the periods indicated. Spansion Inc. derived the consolidated statements of operations data for the years ended December 31, 2006, December 30, 2007, December 28, 2008, December 27, 2009 and December 26, 2010 and the consolidated balance sheet data as of December 31, 2006, December 30, 2007, December 28, 2008, December 27, 2009 and December 26, 2010 from its audited consolidated financial statements incorporated by reference in this prospectus. Fiscal 2006 consisted of 53 weeks. Fiscal 2007, 2008 and 2009 each consisted of 52 weeks.

Spansion Inc. derived the condensed consolidated statements of operations data for the six months ended June 26, 2011 and June 27, 2010 and the condensed consolidated balance sheet data as of June 26, 2011 from its unaudited consolidated financial statements incorporated by reference in this prospectus. The six months ended June 26, 2011 and June 27, 2010 each consisted of 26 weeks.

Spansion Inc.'s historical results are not necessarily indicative of the results to be expected in the future. Upon emergence from the Chapter 11 Cases on May 10, 2010, Spansion Inc. adopted fresh start accounting as prescribed under Accounting Standards Codification (ASC) 852 *Reorganizations*, which requires it to revalue its assets and liabilities to their related fair values. As such, Spansion Inc. adjusted its stockholders deficit to equal the reorganization value at the emergence date. Items such as accumulated depreciation, accumulated deficit, accumulated other comprehensive income (loss) and allowances for doubtful debt were reset to zero. Spansion Inc. allocated the reorganization value to the individual assets and liabilities based on their estimated fair values. Items such as accounts receivable, auction rate securities and cash, whose fair values approximated their book values, reflected values similar to those reported prior to emergence. Items such as prepaid and other current assets, inventory, property, plant and equipment, deferred income tax asset and liability, accounts payable, income tax payable, and deferred income were significantly adjusted from amounts previously reported. Because Spansion Inc. adopted fresh start accounting at emergence and because of the significance of liabilities subject to compromise that were relieved upon emergence, the historical financial statements of the Predecessor and the financial statements of the Successor are not comparable. The 2010 Predecessor period represented is from December 28, 2009, the beginning of the fiscal year 2010, through May 10, 2010, the Emergence Date, and consisted of 20 weeks. The 2010 Successor periods represented are from May 11, 2010 through June 27, 2010, which consisted of six weeks, and from May 11, 2010 through December 26, 2010, which consisted of 32 weeks. Refer to the notes to our financial statements incorporated by reference in this prospectus for further details relating to fresh start accounting.

You should read this summary financial data in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the fiscal year ended December 26, 2010 and our Quarterly Report on Form 10-Q for the three and six months ended June 26, 2011, which are incorporated by reference in this prospectus.

	Six Months Ended June 26, 2011	Period from May 11, 2010 to December 26, 2010	Period from December 28, 2009 to May 10, 2010	Year Ended December 27, 2009	Year Ended December 28, 2008	Year Ended December 30, 2007
Ratio of earnings to fixed charges ⁽⁷⁾	1.96x		12.6x			

- (1) Successor refers to Spansion and its consolidated subsidiaries after the Emergence Date, after giving effect to: (i) the cancellation of shares of Old Common Stock; (ii) the issuance of shares of New Common Stock, and settlement of existing debt and other adjustments in accordance with the Plan of Reorganization; and (iii) the application of fresh start accounting. Predecessor refers to Spansion and its consolidated subsidiaries up to the Emergence Date.
- (2) The asset impairment charge for fiscal 2009 includes pre-tax impairment on an equity investment and loan to an investee. The asset impairment charge for fiscal 2008 includes pre-tax impairment related to long-lived assets held for use of \$1,578.3 million, and impairment related to goodwill and intangible assets of \$20.8 million and \$53.5 million, respectively.
- (3) Contractual interest expense for the predecessor periods from December 28, 2009 to May 10, 2010 and for the fiscal year ended December 27, 2009 was \$46.1 million and \$89.4 million, respectively.
- (4) The gain on deconsolidation of subsidiary represents the difference between the carrying value of our investment in and receivables from Spansion Japan immediately before its deconsolidation in March 2009 and the estimated fair value of our retained non-controlling interest in Spansion Japan, which was zero then and as of December 27, 2009.
- (5) The provision for income taxes in fiscal 2009 includes a decrease of \$457.9 million in valuation allowances against deferred tax assets in Spansion Japan resulting from the deconsolidation of Spansion Japan in March 2009. However, the decrease in the amount of deferred tax assets had no impact on the provision for income taxes since the deferred tax assets had a full valuation allowance. The provision for income taxes in fiscal 2008 includes an increase of \$457.9 million in valuation allowances against deferred tax assets in Spansion Japan. This increase occurred because we did not believe it was more likely than not that these deferred tax assets would be realized in these jurisdictions. The increase in valuation allowance resulted in a \$64.5 million income tax expense associated with deferred tax assets of Spansion Japan.
- (6) Diluted net loss per share is computed using the weighted-average number of common shares and excludes potential common shares, as their effect is anti-dilutive.
- (7) For purposes of computing the ratio of earnings to fixed charges, fixed charges consist of interest expense on long-term debt and capital leases, amortization of deferred financial costs and one-third of rental expense, which we consider to be a reasonable approximation of the interest factor included in rental expense. Earnings consist of income (loss) before taxes, plus fixed charges. For the period from May 11, 2010 to December 26, 2010, the fiscal year ended December 27, 2009, December 28, 2008, December 30, 2007, and December 31, 2006, earnings were insufficient to cover fixed charges by \$94.6 million, \$513.5 million, \$2,372.1 million, \$295.3 million, and \$153.2 million, respectively.
- () Spansion Inc. and Spansion Technology LLC have guaranteed fully and unconditionally the notes; such guarantees are joint and several. Neither Spansion Inc. nor Spansion Technology LLC has any assets or operations independent from Spansion LLC, the issuer of the notes. Furthermore, Spansion Technology LLC is a wholly owned subsidiary of Spansion Inc. Spansion LLC is wholly owned by Spansion Inc. (60% direct ownership, 100% direct and indirect ownership) and Spansion Technology LLC (40% direct ownership). The indenture governing the notes contains certain covenants that limit Spansion LLC's ability to pay dividends and make loans and other restricted payments, including to Spansion Inc. and Spansion Technology LLC. See Description of the Notes Certain Covenants Limitation on restricted payments.

Table of Contents

Unaudited Pro Forma Condensed Consolidated Financial Information

The following unaudited pro forma condensed consolidated financial information for the twelve months ended December 26, 2010 gives effect to (i) the Plan of Reorganization and emergence from the Chapter 11 Cases and the application of fresh start accounting on May 10, 2010 and (ii) the issuance of the notes. The information has been derived by the application of pro forma adjustments to the consolidated financial statements incorporated by reference into this registration statement. You should read this unaudited pro forma condensed consolidated financial information in conjunction with Selected Historical Consolidated Financial Information included elsewhere in this prospectus and with Management's Discussion and Analysis of Financial Condition and Results of Operations, our December 26, 2010 audited consolidated and combined consolidated financial statements and related notes in our Annual Report on Form 10-K for the fiscal year ended December 26, 2010, and our June 26, 2011 unaudited condensed consolidated financial statements and related notes in our quarterly report on Form 10-Q for the quarter ended June 26, 2011, which are incorporated by reference in this prospectus.

The unaudited pro forma condensed consolidated statement of operations has been adjusted to give effect to pro forma events that are (i) directly attributable to the transactions described below, (ii) are factually supportable and (iii) are expected to have a continuing impact on us. The following unaudited pro forma condensed consolidated statement of operations for the fiscal year ended December 26, 2010 is presented on a basis to reflect the adjustments as if each of the transactions described below had occurred on December 28, 2009, the first day of the fiscal year ended December 26, 2010. A pro forma balance sheet has not been presented as the transactions described below are reflected in the historical balance sheet as of June 26, 2011.

The unaudited pro forma condensed consolidated financial information is presented for illustrative purposes only and is not necessarily indicative of the results of operations that would have been reported had the Plan of Reorganization and emergence from the Chapter 11 Cases and the application of fresh start accounting and the issuance of the notes in fact occurred on the first day of the respective period presented for the unaudited pro forma condensed consolidated statement of operations, or indicative of our future results. In addition, our historical consolidated financial statements will not be comparable to our financial statements following emergence from the Chapter 11 Cases due to the effects of the consummation of the Plan of Reorganization as well as adjustments for fresh start accounting. See the section titled Adjustments Relating to Fresh Start Accounting below for further information.

Adjustments Relating to Fresh Start Accounting

The Fresh Start column of the unaudited pro forma condensed consolidated statement of operations gives effect to adjustments relating to fresh start accounting pursuant to ASC 852 *Reorganizations*. In accordance with ASC 852, if the reorganization value of the assets of the emerging entity immediately before the date of confirmation is less than the total of all post-petition liabilities and allowed claims, and if holders of existing voting shares immediately before confirmation receive less than 50 percent of the voting shares of the emerging entity, the entity shall adopt fresh start accounting upon its emergence from Chapter 11. The loss of control contemplated by a reorganization plan must be substantive and not temporary. That is, the new controlling interest must not revert to the stockholders existing immediately before the plan was filed or confirmed. We concluded that we met the criteria under ASC 852 to adopt fresh start accounting upon emergence from the Chapter 11 Cases on May 10, 2010.

In connection with the adoption of fresh start accounting, we revalued our tangible and intangible assets as of the emergence date, resulting in a higher fair value of our tangible fixed assets and the recognition of intangible amortizable assets. The effect of these fair value adjustments was an increase in the depreciation and amortization charge for such assets in reporting periods subsequent to our emergence from the Chapter 11 Cases, which will increase the costs of goods sold and decrease gross profit margins in future periods.

For additional information regarding adjustments relating to fresh start accounting, see Notes 1 through 6 to this unaudited pro forma condensed consolidated financial information.

Table of Contents**Adjustments Relating to the Financing**

The Financing column in the unaudited pro forma condensed consolidated statement of operations gives effect to the repayment of \$195.6 million of the original \$450 million amount borrowed under the Term Loan using the proceeds from the notes. The effect of this pro forma adjustment will be lower interest and financing charges to us as a result of issuing debt with a lower rate of interest and utilizing the proceeds from the notes to partially pay down existing higher-interest debt.

For additional information regarding adjustments relating to this financing, see Note 4 to the unaudited pro forma condensed consolidated financial information.

Notes to Unaudited Pro Forma Condensed Consolidated Statement of Operations

(1) Fresh start accounting requires the elimination of deferred revenue (and its associated deferred cost of sales) when no future performance obligation is required. No adjustments have been made to the unaudited pro forma

Table of Contents

condensed consolidated statement of operations for the twelve months ended December 26th, 2010 to recognize such eliminated deferred revenue and the related cost of sales of \$51.7 million and \$38.1 million respectively, as such adjustments are non-recurring in nature.

(2) Fresh start accounting requires the revaluation of inventory to its fair value on the Emergence Date. Accordingly, the value of inventory was increased by \$98.4 million on the Emergence Date. As a result, we recognized additional cost of sales of approximately \$90.2 million for the revaluation. No adjustment has been made to reduce such additional cost in the unaudited pro forma condensed consolidated statement of operations for the twelve months ended December 26, 2010 as it is non-recurring in nature.

(3) Fresh start accounting requires the revaluation of our tangible and intangible assets to fair value, resulting in a higher fair value of our existing tangible fixed assets and the recognition of new intangible, amortizable assets namely developed technology, customer relationships and trade name. The effect of these fair value adjustments was primarily to increase the depreciation and amortization charge relating to these fixed assets and intangible assets in reporting periods subsequent to the Emergence Date, which will primarily increase our costs of goods sold and decrease gross profit margins in future periods. The increased depreciation and amortization charge is reflected in the unaudited pro forma condensed consolidated statement of operations for the twelve months ended December 26, 2010 as it is recurring in nature. The pro forma adjustment to increase depreciation and amortization expense by \$43.7 million reflects the average daily depreciation and amortization rate for the period from May 11, 2010 to December 26, 2010 applied to the period from December 28, 2009 to May 10, 2010.

(4) On February 9, 2010, we borrowed \$450 million pursuant to the Term Loan. The proceeds of the Term Loan, together with cash proceeds from other sources of cash available to us, were used in full to partially discharge the remaining balance of claims relating to holders of our Senior Secured Floating Rate Notes, or the FRNs. See Note 12 of the Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the fiscal year ended December 26, 2010 for more information.

On November 9, 2010, we completed an offering of \$200 million aggregate principal amount of the notes, resulting in net proceeds of approximately \$195.6 million after related offering expenses. These proceeds were used to pay down amounts outstanding under our Term Loan.

The Financing column in the unaudited pro forma condensed consolidated statement of operations gives effect to the repayment of \$195.6 million of the original \$450 million Term Loan, using the proceeds from the notes. The effect of this pro forma adjustment will be a lower interest and financing charge to as a result of issuing debt with a lower rate of interest and utilizing the proceeds from the notes to partially pay down existing higher-interest debt. The lower interest expense is reflected in the unaudited pro forma condensed consolidated statement of operations for the twelve months ended December 26, 2010 as it is recurring in nature.

The following assumptions were utilized in computing the pro forma impact of the Financing adjustment:

- a) The FRNs were settled as of December 28, 2009 and there was no interest charge relating to the FRNs in the unaudited pro forma condensed consolidated statement of operations for fiscal 2010, a total interest saving of \$8.4 million;
- b) The Term Loan was effective as of December 28, 2009, which was the beginning of pro forma fiscal 2010;
- c) \$195.6 million of the original \$450 million Term Loan was paid down from the proceeds of the \$200 million notes effective as of December 28, 2009, which was the beginning of pro forma fiscal 2010. Additionally, a prepayment penalty charge of approximately \$2.0 million was incurred in fiscal 2010 due to early paydown of the Term Loan; and
- d) The effective interest rates of 6.50% and 7.875% on \$250 million of the Term Loan and the \$200 million notes, respectively, were effective throughout the unaudited pro forma condensed consolidated statement of operations for fiscal 2010.

Table of Contents

Further, as part of fresh start accounting, the Company had written off the unamortized debt financing costs for the \$450 million Term Loan as the fair value of the debt was deemed to be at face value. The benefit to interest and other income represents the reversal of such debt financing costs that were charged to the consolidated statement of operations from February 9, 2010 to May 10, 2010. This resulted in a net benefit adjustment amounting to \$11.1 million.

(5) The Company has net operating loss carry forwards and a full valuation allowance on its deferred tax assets. As a result, there is no tax impact on the adjustments identified in the unaudited pro forma condensed consolidated statement of operations for fiscal 2010.

(6) Pro forma basic and diluted per-share numbers used in the per share calculation reflect the issuance of shares of the Successor and the cancellation of the shares of the Predecessor at the Emergence Date as if such shares were issued and cancelled, respectively, on December 29, 2009, which was the beginning of pro forma fiscal 2010. Additionally, initial vesting of restricted stock awards that occurred on May 10, 2010 was assumed to have occurred on December 28, 2009 and quarterly thereafter. Such vested restricted stock shares are included in the pro forma basic per-share numbers and unvested restricted stock awards are included in the pro forma diluted per-share numbers using the treasury stock method.

Table of Contents

Description of Certain Indebtedness

Senior Secured Term Loan

On February 9, 2010, we borrowed \$450 million under a senior secured credit agreement, or the Term Loan. In connection with the Term Loan, we incurred financing points, fees to the arrangers and legal costs of approximately \$11.1 million as interest expense. In addition, we paid the lenders approximately \$10 million of financing fees upon the release of Term Loan funds from escrow.

On November 9, 2010, we amended the Term Loan to, among other things, allow the issuance of the \$200 million of 7.875% Senior Unsecured Notes due 2017 reduce interest rates on outstanding Term Loan balances, remove the requirement of maintaining interest rate hedging arrangements and amend its financial covenants of: (i) a minimum consolidated interest coverage ratio from 3.75 to 1.0 to 3.50 to 1.0; (ii) a maximum leverage ratio from 2.50 to 1.0 until September 25, 2011 and 2.0 to 1.0 thereafter to 3.00 to 1.0; and (iii) maximum permitted capital expenditures from \$100 million in 2011 and \$125 million in 2012 and each fiscal year thereafter to \$150 million. Furthermore, any capital expenditure amount not expended in the fiscal year for which we are permitted may be carried over for expenditure in the succeeding fiscal year in an amount not to exceed \$40 million in any fiscal year. We also obtained a waiver to a mandatory prepayment requirement that we use 50 percent of the net proceeds we received from the sale of shares of our Class A common stock in November 2010 (the Stock Offering) to pay down the Term Loan.

As of June 26, 2011, (i) the consolidated interest coverage ratio is 8.0 to 1.0, (ii) the leverage ratio is 1.6 to 1.0, (iii) capital expenditures are \$45.3 million and (iv) we are in compliance with all of the covenants under the Term Loan.

Interest on the Term Loan accrues at a rate per annum, reset quarterly, equal to the prime lending rate or the Federal Funds rate plus 0.50 percent, whichever is higher but not less than 2.75 percent, plus 3.75 percent. Alternatively, we have the option to choose 1-month, 3-month, and 6-month LIBOR rate, or choose 9-month and 12-month LIBOR with the consent of all the lenders, in which case the interest on the Term Loan accrues at a rate per annum equal to the LIBOR or 1.75 percent, whichever is higher, plus 4.5 percent. Interest is payable quarterly in arrears. As of June 26, 2011, the Term Loan carried interest at 4.75 percent and the principal amount outstanding was \$249.8 million.

The Term Loan is secured by our assets including, among other items, a first priority lien on property, plant and equipment and inventory, and a second priority lien on account receivables and cash. Based on certain agreed upon thresholds, the Term Loan will require net cash proceeds from asset sales or other dispositions of property, extraordinary cash receipts, and other future cash flows to be used to prepay the outstanding balance of the loan. Voluntary prepayments of borrowings will be permitted in whole or in part, in minimum principal amounts to be agreed upon, (i) at any time on or prior to November 9, 2011, provided if we make any prepayment of the Term Loan in connection with any repricing transaction or effects any amendment resulting in a repricing transaction, a prepayment premium of 1 percent of the amount being repaid plus all accrued and unpaid interest plus breakage costs, if any, or a payment equal to 1 percent of the aggregate amount outstanding immediately prior to such amendment; and (ii) thereafter at any time without premium or penalty.

As of June 26, 2011, we have a series of interests rate swaps with a financial institution to partially economically hedge the variability of interest payments attributable to fluctuations in the LIBOR benchmark interest rate.

Senior Revolving Credit Facility

On May 10, 2010, we entered into a senior secured loan and security agreement with Bank of America and other financial institutions, or the Revolving Credit Facility, in an aggregate amount of up to \$65 million to supplement its working capital. Available amounts for borrowing under the Revolving Credit Facility, net of

Table of Contents

reserves, are limited to 85 percent of eligible accounts receivable and 25 percent of ineligible receivables subject to a cap of \$10 million. The Revolving Credit Facility is subject to a number of covenants including fixed charge ratio coverage of 1.00 to 1.00 when qualified cash and availability under the facility is below \$60 million. As of June 26, 2011, the fixed charge ratio was 1.96 to 1.0. As of June 26, 2011, \$16.6 million was available under the facility.

On November 9, 2010, we amended the Revolving Credit Facility with the lenders. The amendment among other things, included allowing issuance of \$200 million of 7.875% Senior Unsecured Notes due 2017 and increasing reporting trigger threshold from less than \$60 million of availability plus qualified cash to \$80 million and covenant trigger threshold from less than \$40 million of availability and qualified cash to \$60 million.

As of June 26, 2011, the Company has not made any draw downs against this facility and is in compliance with all of the financial covenants under the Revolving Credit Facility which was entered into as a pre-condition to obtaining the Term Loan.

Table of Contents

Description of the Notes

You can find the definitions of certain terms used in this description under the subheading **Certain Definitions**. In this description, the word **Issuer** refers only to Spansion LLC, and not to any of its subsidiaries, the word **Parent** refers only to Spansion Inc., the Issuer's indirect parent and the direct parent of Spansion Technology LLC, and not to any of Parent's subsidiaries, and the term **Intermediate Holdco** refers only to Spansion Technology LLC, the Issuer's direct parent and a wholly-owned subsidiary of Parent, and not to any of Intermediate Holdco's subsidiaries.

The Issuer issued the private notes, and will issue the exchange notes, pursuant to an indenture (the **Indenture**), dated as of November 9, 2010, by and among the Issuer, Parent, Intermediate Holdco and Wells Fargo Bank, National Association, as trustee (the **Trustee**). For purposes of this description, the private notes and the exchange notes will be generally referred to as the **notes**, unless the context otherwise requires.

The Indenture is subject to and governed by the Trust Indenture Act of 1939, as amended (the **Trust Indenture Act**), and the terms of the notes include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act.

The following description is a summary of the material provisions of the Indenture. It does not restate that agreement in its entirety. We urge you to read the Indenture because it contains additional information and defines your rights as a holder of the notes. A copy of the Indenture is available upon request to Parent at the address indicated under **Available Information**.

Principal, Maturity and Interest

The Issuer will issue up to an aggregate principal amount of \$200.0 million of exchange notes in the exchange offer. The Indenture provides for the issuance of additional notes having identical terms and conditions to the notes (the **additional notes**), subject to compliance with the covenants contained in the Indenture, including without limitation the provisions described under **Certain Covenants** **Limitation on debt**, and *provided* that any additional notes will be fungible with the notes for U.S. federal income tax purposes.

The notes will mature on November 15, 2017.

Interest on the notes accrue at a rate of 7.875% per annum and will be payable semi-annually in arrears on May 15 and November 15, commencing on May 15, 2011. The Issuer will pay interest to those persons who were holders of record of the notes on the May 1 or November 1 immediately preceding each interest payment date.

Interest on the notes will accrue from the date of original issuance or, if interest has already been paid, from the date it was most recently paid. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months.

Ranking

The notes are the general unsecured senior obligations of the Issuer. The notes:

rank *pari passu* with any current and future unsecured senior Debt of the Issuer;

are effectively subordinated to any existing and future secured Debt of the Issuer to the extent of the value of the assets securing such Debt;

are structurally subordinated to any Debt and other liabilities, including trade payables, of the Issuer's Subsidiaries with respect to the assets and earnings of those Subsidiaries;

are senior in right of payment to all existing and future Subordinated Obligations; and

are guaranteed by Parent and Intermediate Holdco.

Table of Contents

As of June 26, 2011, Parent had consolidated Debt of approximately \$448.3 million, all of which constituted Debt directly borrowed (or issued) by the Issuer or a Guarantor and approximately \$248.3 million of which was secured.

Parent conducts all of its operations through the Issuer and its Subsidiaries, and the Issuer conducts a substantial portion of its operations through its Subsidiaries. The claims of creditors (including trade creditors) of any Subsidiary of the Issuer will generally have priority as to the assets of such Subsidiary over the claims of holders of the notes. In the event of a liquidation of any Subsidiary of the Issuer, our right to receive the assets of any such Subsidiary (and the resulting right of the Holders of the notes to participate in the distribution of the proceeds of those assets) will be structurally subordinated by operation of law to the claims of creditors (including trade creditors) of such Subsidiary and holders of such Subsidiary's Preferred Stock and any Guarantees by such Subsidiary of Debt of the Issuer or any Guarantor. If the Issuer or any Guarantor were a creditor of such Subsidiary or a holder of its Preferred Stock, then the Issuer or such Guarantor would be entitled to participate in the distribution of the proceeds of such Subsidiary's assets. Their claims would, however, remain subordinate to any Debt or Preferred Stock of such Subsidiary which is senior in right of payment to the Debt or Preferred Stock held by the Issuer or such Guarantor. In the event of the liquidation, bankruptcy, reorganization, insolvency, receivership or similar proceedings or any assignment for the benefit of the Issuer's creditors or a marshaling of the Issuer's assets or liabilities, holders of the notes may receive ratably less than other such creditors or interest holders.

As of the date of this prospectus, all of the Issuer's subsidiaries are Restricted Subsidiaries and subject to the covenants to be included in the Indenture. Subject to the terms of the Indenture and as described under the subheading Certain Covenants Designation of restricted and unrestricted subsidiaries, the Issuer may designate subsidiaries as Unrestricted Subsidiaries, in which case those subsidiaries will not be subject to most of those restrictive covenants.

Note Guarantees

The obligations of the Issuer pursuant to the notes, including any repurchase obligation resulting from a Change of Control, will be fully and unconditionally guaranteed (each a Note Guarantee), jointly and severally, by (1) Parent and (2) Intermediate Holdco.

The Note Guarantees will be senior unsecured obligations of the Guarantors. The Note Guarantees will:

rank *pari passu* with all existing and future senior unsecured Debt of the Guarantors;

be effectively junior to all existing and future secured Debt of the Guarantors, to the extent of the value of the collateral, including Parent's and Intermediate Holdco's Guarantee of Debt under the Credit Agreements; and

be senior in right of payment to all existing and future Subordinated Obligations.

The Note Guarantee of a Guarantor will terminate upon defeasance or discharge of the notes.

Table of Contents**Optional Redemption**

Except as set forth below, the notes will not be redeemable at the option of the Issuer prior to November 15, 2013. Starting on that date, the Issuer may redeem all or any portion of the notes, at once or over time, after giving the required notice under the Indenture. The notes may be redeemed at the redemption prices set forth below, plus accrued and unpaid interest to, but excluding, the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date). The following prices are for notes redeemed during the 12-month period commencing on November 15 of the years set forth below, and are expressed as percentages of principal amount:

Year	Redemption price
2013	103.938%
2014	102.625%
2015	101.313%
2016 and thereafter	100.000%

In addition, at any time and from time to time prior to November 15, 2013, the Issuer may elect to redeem all or any portion of the notes, after giving the notice required under the Indenture, at a redemption price equal to the sum of:

- (1) 100% of the principal amount of notes to be redeemed; and
- (2) the excess of
 - (a) the sum of the present values of (1) the redemption price of the notes to be redeemed at November 15, 2013 (as set forth in the prior paragraph), and (2) the remaining scheduled payments of interest (based on the rate of interest in effect on the date notice of redemption is provided) from the redemption date to November 15, 2013, but excluding accrued and unpaid interest to the redemption date, discounted to the date of redemption on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate plus 50 basis points, *over*
 - (b) 100% of the principal amount of the notes to be redeemed, plus accrued and unpaid interest to, but excluding, the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date).

In addition, at any time and from time to time, prior to November 15, 2013, the Issuer may redeem up to a maximum of 35% of the aggregate principal amount of the notes (including any additional notes) with the proceeds of one or more Qualified Equity Offerings, at a redemption price equal to 107.875% of the principal amount of the notes to be redeemed, plus accrued and unpaid interest to, but excluding, the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date); *provided, however*, that after giving effect to any such redemption, at least 65% of the aggregate principal amount of the notes (including any additional notes) remains outstanding. Any such redemption shall be made within 90 days of such Qualified Equity Offering upon not less than 30 nor more than 60 days prior notice.

Selection and Notice

If less than all of the notes are to be redeemed at any time, the Trustee will select notes for redemption on a pro rata basis (with such adjustments as may be deemed appropriate by the Trustee so that only notes in denominations of \$2,000, or multiples of \$1,000 in excess thereof shall be purchased); *provided*, that no notes of \$2,000 or less may be redeemed in part.

Table of Contents

Notices of redemption will be mailed by first class mail at least 30 but not more than 60 days before the redemption date to each holder of notes to be redeemed at its registered address, except that redemption notices may be mailed more than 60 days prior to a redemption date if the notice is issued in connection with a defeasance of the notes or a satisfaction and discharge of the Indenture. Notices of redemption may not be conditional.

If any note is to be redeemed in part only, the notice of redemption that relates to that note will state the portion of the principal amount of that note that is to be redeemed. A new note in principal amount equal to the unredeemed portion of the original note will be issued in the name of the holder of the original note upon cancellation of the original note. Notes called for redemption become due on the date fixed for redemption. On and after the redemption date, interest ceases to accrue on notes or portions of them called for redemption.

Sinking Fund

There will be no mandatory sinking fund payments for the notes.

Repurchase at the Option of Holders upon a Change of Control

Upon the occurrence of a Change of Control, each holder of notes shall have the right to require the Issuer to repurchase all or any part of such holder's notes pursuant to the offer described below (the **Change of Control Offer**) at a purchase price (the **Change of Control Purchase Price**) equal to 101% of the principal amount thereof, plus accrued and unpaid interest, if any, to, but excluding, the repurchase date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date); *provided, however*, that notwithstanding the occurrence of a Change of Control, the Issuer shall not be obligated to purchase the notes pursuant to this covenant in the event that it has mailed the notice to exercise its right to redeem all the notes under the terms of the covenant entitled **Optional Redemption** at any time prior to the requirement to consummate the Change of Control Offer and redeems the notes in accordance with such notice.

Within 30 days following any Change of Control, the Issuer shall:

- (a) cause a notice of the Change of Control Offer to be sent at least once to the Dow Jones News Service or similar business news service in the United States; and
- (b) send, by first-class mail, with a copy to the Trustee, to each holder of notes, at such holder's address appearing in the note register, a notice stating:
 - (1) that a Change of Control has occurred and a Change of Control Offer is being made pursuant to the covenant entitled **Repurchase at the option of holders upon a change of control** and that all notes timely tendered will be accepted for payment;
 - (2) the Change of Control Purchase Price and the repurchase date, which shall be, subject to any contrary requirements of applicable law, a Business Day and a point in time occurring after the consummation of the Change of Control and not later than 60 days from the date such notice is mailed;
 - (3) the circumstances and relevant facts regarding the Change of Control; and
 - (4) the procedures that holders of notes must follow in order to tender their notes (or portions thereof) for payment, and the procedures that holders of notes must follow in order to withdraw an election to tender notes (or portions thereof) for payment.

The Issuer will not be required to make a Change of Control Offer following a Change of Control if (1) a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by the Issuer and purchases all notes validly tendered and not withdrawn under such Change of Control Offer or (2) notice

of redemption has

Table of Contents

been given pursuant to the Indenture as described under the caption Optional Redemption, unless and until there is a default in payment of the applicable redemption price. Notwithstanding anything to the contrary contained herein, a Change of Control Offer may be made in advance of a Change of Control, conditioned upon the consummation of such Change of Control, if a definitive agreement is in place for the Change of Control at the time the Change of Control Offer is made.

The Issuer will comply, to the extent applicable, with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws or regulations in connection with the repurchase of notes pursuant to a Change of Control Offer. To the extent that the provisions of any securities laws or regulations conflict with the provisions of this covenant, the Issuer will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under this covenant by virtue of such compliance.

Management has no present intention to engage in a transaction involving a Change of Control, although it is possible that Parent would decide to do so in the future. Subject to certain covenants described below, Parent could, in the future, enter into certain transactions, including acquisitions, refinancings or other recapitalizations, that would not constitute a Change of Control under the Indenture, but that could increase the amount of Debt outstanding at such time or otherwise affect Parent's capital structure or credit ratings.

The definition of Change of Control includes a phrase relating to the sale, transfer, assignment, lease, conveyance or other disposition of all or substantially all the Property of Parent and the Restricted Subsidiaries, considered as a whole. Although there is a developing body of case law interpreting the phrase substantially all, there is no precise established definition of the phrase under applicable law. Accordingly, if Parent and the Restricted Subsidiaries, considered as a whole, dispose of less than all this Property by any of the means described above, the ability of a holder of notes to require the Issuer to repurchase its notes may be uncertain. In such a case, holders of the notes may not be able to resolve this uncertainty without resorting to legal action.

The definition of Change of Control also provides that a Change of Control would occur if during any period of two consecutive years, individuals who at the beginning of such period constituted the Board of Directors (together with any new directors whose election or appointment by such Board or whose nomination for election by the stockholders of Parent was approved by a vote of not less than a majority of the directors then still in office who were either directors at the beginning of such period or whose election or nomination for election was previously so approved) cease for any reason to constitute at least a majority of the Board of Directors then in office. A Delaware Chancery Court has interpreted a similar Continuing Directors provision and found that, under Delaware law, for purposes of such definition, a board of directors may approve a slate of shareholder-nominated directors without endorsing them or while simultaneously recommending and endorsing its own slate instead, in each case without such action resulting in a Change of Control. If a New York court were to adopt a similar interpretation under New York law, the foregoing interpretation would permit our Parent's Board of Directors to approve a slate of directors that included a majority of dissident directors nominated pursuant to a proxy contest, and the ultimate election of such dissident slate would not constitute a Change of Control that would trigger your right to require Change of Control Offer by us to repurchase your Notes as described above.

Existing Debt of the Issuer contains, and future Debt of Parent or any Subsidiary of Parent or the Issuer may contain, limitations on certain events that would constitute a Change of Control or require such Debt to be repurchased upon a Change of Control. Moreover, the exercise by holders of notes of their right to require the Issuer to repurchase such notes could cause a default under existing or future Debt of Parent or its Subsidiaries, even if the Change of Control itself does not. In addition, the Issuer's ability to pay cash to holders of notes upon a repurchase may be limited by the Issuer's then existing financial resources. Parent cannot assure you that sufficient funds will be available when necessary to make any required repurchases. The Issuer's failure to repurchase notes in connection with a Change of Control would result in a default under the Indenture. Such a default would, in turn, constitute a default under existing Debt of the Issuer and may constitute a default under future Debt of Parent or its Subsidiaries as well. The Issuer's obligation to make an offer to repurchase the notes

Table of Contents

as a result of a Change of Control may be waived or modified at any time prior to the occurrence of such Change of Control with the written consent of the holders of at least a majority in aggregate principal amount of the notes. See Amendments and Waivers. See also Risk Factors Risks Related to This Offering We may not be able to repurchase the notes upon a change of control.

Certain Covenants

Covenant suspension. During any period of time that:

(a) the notes have Investment Grade Ratings from both Rating Agencies; and

(b) no Default or Event of Default has occurred and is continuing under the Indenture, the Issuer and the Restricted Subsidiaries will not be subject to the following provisions of the Indenture:

Limitation on debt ;

Limitation on restricted payments ;

Limitation on asset sales ;

Limitation on restrictions on distributions from restricted subsidiaries ;

Limitation on transactions with affiliates ;

clauses (a) and (b) of the first paragraph and clause (x) of the fifth paragraph of Designation of restricted and unrestricted subsidiaries ; and

clause (d) of the first paragraph of Merger, consolidation and sale of property (collectively, the **Suspended Covenants**). In the event that the Issuer and the Restricted Subsidiaries are not subject to the Suspended Covenants for any period of time as a result of the preceding sentence and, subsequently, one or both of the Rating Agencies withdraws its ratings or downgrades the ratings assigned to the notes below the required Investment Grade Ratings or a Default or Event of Default occurs and is continuing, then the Issuer and the Restricted Subsidiaries will thereafter again be subject to the Suspended Covenants and compliance with the Suspended Covenants with respect to Restricted Payments made after the time of such withdrawal, downgrade, Default or Event of Default will be calculated in accordance with the terms of the covenant described below under Limitation on restricted payments as though such covenant had been in effect during the entire period of time from the Issue Date.

Limitation on debt. The Issuer shall not, and shall not permit any Restricted Subsidiary to, Incur, directly or indirectly, any Debt unless, after giving effect to the application of the proceeds therefrom, no Default or Event of Default would occur as a consequence of such Incurrence or be continuing following such Incurrence and either:

Edgar Filing: Spansion Inc. - Form S-4/A

(1) in the case of an Incurrence of Debt by the Issuer or a Guarantor, after giving effect to the Incurrence of such Debt and the application of the proceeds thereof, the Consolidated Fixed Charge Coverage Ratio would be at least 2.0 to 1.0; or

(2) such Debt is Permitted Debt.

The term **Permitted Debt** is defined to include the following:

(a) Debt of the Issuer evidenced by the notes (excluding any additional notes) issued in this offering and any notes issued in exchange for the notes (excluding any additional notes) pursuant to the Registration Rights Agreement and Debt of any Guarantor under a Guarantee of the notes or any Guarantee of any such exchange notes;

(b) Debt of the Issuer or a Restricted Subsidiary under Credit Facilities, *provided* that the aggregate principal amount of all such Debt under Credit Facilities at any one time outstanding shall not exceed \$500.0 million;

Table of Contents

- (c) Debt of the Issuer or a Restricted Subsidiary in respect of Capital Lease Obligations and Purchase Money Debt, *provided* that:
- (1) the aggregate principal amount of such Debt does not exceed the Fair Market Value (on the date of the Incurrence thereof) of the Property acquired, constructed or leased; and
 - (2) the aggregate principal amount of all Debt Incurred and then outstanding pursuant to this clause (c) (together with all Permitted Refinancing Debt Incurred and then outstanding in respect of Debt previously Incurred pursuant to this clause (c)) does not exceed 15% of Total Assets;
- (d) Debt of the Issuer owing to and held by any Restricted Subsidiary and Debt of a Restricted Subsidiary owing to and held by the Issuer or any Restricted Subsidiary; *provided*, that if the Issuer is the obligor on such Debt Incurred after the Issue Date, then such Debt is expressly subordinated by its terms to the prior payment in full in cash of the notes; *provided, however*, that any subsequent issue or transfer of Capital Stock or other event that results in any such Restricted Subsidiary ceasing to be a Restricted Subsidiary or any subsequent transfer of any such Debt (except to the Issuer or a Restricted Subsidiary) shall be deemed, in each case, to constitute the Incurrence of such Debt by the issuer thereof;
- (e) Debt of a Restricted Subsidiary outstanding on the date on which such Restricted Subsidiary is acquired by the Issuer or otherwise becomes a Restricted Subsidiary (other than Debt Incurred as consideration in, or to provide all or any portion of the funds or credit support utilized to consummate, the transaction or series of transactions pursuant to which such Restricted Subsidiary became a Subsidiary of the Issuer or was otherwise acquired by the Issuer); *provided* that after giving effect to the Incurrence of such Debt either (i) the Consolidated Fixed Charge Coverage Ratio for the Issuer would be at least 2.0 to 1.0, or (ii) the Consolidated Fixed Charge Coverage Ratio would be greater than such ratio immediately prior to such Incurrence;
- (f) Debt under Interest Rate Agreements entered into by the Issuer or a Restricted Subsidiary for the purpose of managing interest rate risk in the ordinary course of the financial management of the Issuer or such Restricted Subsidiary and not for speculative purposes;
- (g) Debt under Currency Exchange Protection Agreements entered into by the Issuer or a Restricted Subsidiary for the purpose of managing currency exchange rate risks in the ordinary course of business and not for speculative purposes;
- (h) Guarantees by (i) the Issuer of Debt or any other obligation of any Restricted Subsidiary otherwise permitted pursuant to this covenant, (ii) any Restricted Subsidiary that is not a Guarantor of Debt or any other obligation of any Restricted Subsidiary otherwise permitted pursuant to this covenant, (iii) any Guarantor of Debt or any other obligation of the Issuer or any Restricted Subsidiary otherwise permitted pursuant to this covenant or (iv) any Restricted Subsidiary of Debt of the Issuer that is incurred pursuant to clause (b) above or is secured by a Permitted Lien;
- (i) Debt in connection with one or more standby letters of credit or performance or surety bonds issued by the Issuer or a Restricted Subsidiary in the ordinary course of business or pursuant to self-insurance obligations and not in connection with the borrowing of money or the obtaining of advances or credit not to exceed 2.5% of Total Assets at any time outstanding;
- (j) Debt of the Issuer or a Restricted Subsidiary outstanding on the Issue Date not otherwise described in clauses (a) through (i) above;
- (k) Debt of the Issuer or a Guarantor in an aggregate principal amount outstanding at any one time not to exceed the greater of (i) \$100.0 million and (ii) 5.0% of Total Assets (which amount can include Guarantees of Debt of Unrestricted Subsidiaries, *provided* such Guarantee is Incurred in compliance with the covenant described under Limitation on restricted payments);

- (l) Debt of Restricted Subsidiaries in an aggregate principal amount outstanding at any one time not to exceed \$10.0 million (which amount can include Guarantees of Debt of Unrestricted Subsidiaries, *provided* such Guarantee is Incurred in compliance with the covenant described under Limitation on restricted payments);

Table of Contents

- (m) Debt of the Issuer or a Restricted Subsidiary in connection with any customary receivables discounting, factoring or securitization facility that is Non-Recourse Debt (other than pursuant to customary undertakings (as determined in good faith by the Issuer) in connection with off-balance sheet securitization and factoring facilities) outstanding at any one time not to exceed \$100.0 million; and
- (n) Permitted Refinancing Debt Incurred in respect of Debt Incurred pursuant to clause (1) of the first paragraph of this covenant and clauses (a), (c), (e) and (j) above and this clause (n).

Notwithstanding anything to the contrary in this covenant:

- (a) the Issuer shall not Incur any Debt pursuant to this covenant if the proceeds thereof are used, directly or indirectly, to Refinance any Subordinated Obligations unless such Debt shall be subordinated to the notes to at least the same extent as such Subordinated Obligations;
- (b) the Issuer shall not permit any Restricted Subsidiary to Incur any Debt pursuant to clause (2) of this covenant if the proceeds thereof are used, directly or indirectly, to Refinance any Debt of the Issuer; and
- (c) accrual of interest, accretion or amortization of original issue discount and the payment of interest or dividends in the form of additional Debt will be deemed not to be an Incurrence of Debt for the purposes of this covenant.

For purposes of determining compliance with this covenant, in the event that an item of Debt meets the criteria of more than one of the categories of Permitted Debt described in clauses (a) through (n) above or is entitled to be incurred pursuant to clause (1) of the first paragraph of this covenant, the Issuer shall, in its sole discretion, classify (or later reclassify in whole or in part, in its sole discretion) such item of Debt in any manner that complies with this covenant; *provided* that Debt outstanding under the Credit Facilities after the application of the net proceeds from the sale of the notes and the concurrent equity offering will be treated as Incurred on the Issue Date under clause (b) above.

For purposes of determining compliance with any dollar-denominated restriction on the Incurrence of Debt, with respect to any Debt which is denominated in a foreign currency, the dollar-equivalent principal amount of such Debt Incurred pursuant thereto shall be calculated based on the relevant currency exchange rate in effect on the date that such Debt was Incurred, and any such foreign-denominated Debt may be Refinanced or replaced or subsequently Refinanced or replaced in an amount equal to the dollar equivalent principal amount of such Debt on the date of such refinancing or replacement whether or not such amount is greater or less than the dollar equivalent principal amount of the Debt on the date of initial incurrence.

Limitation on restricted payments. The Issuer shall not make, and shall not permit any Restricted Subsidiary to make, directly or indirectly, any Restricted Payment if at the time of, and after giving effect to, such proposed Restricted Payment,

- (a) a Default or Event of Default shall have occurred and be continuing,
- (b) the Issuer could not Incur at least \$1.00 of additional Debt pursuant to clause (1) of the first paragraph of the covenant described under Limitation on debt, or
- (c) the aggregate amount of such Restricted Payment and all other Restricted Payments declared or made since the Issue Date (the amount of any Restricted Payment, if made other than in cash, to be based upon Fair Market Value at the time of such Restricted Payment) would exceed an amount equal to the sum of:

(1)

Edgar Filing: Spansion Inc. - Form S-4/A

50% of the aggregate amount of Consolidated Net Income accrued during the period (treated as one accounting period) from the beginning of the fiscal quarter during which the Issue Date occurs to the end of the most recently ended fiscal quarter for which internal financial statements are available (or if the aggregate amount of Consolidated Net Income for such period shall be a deficit, minus 100% of such deficit), plus

Table of Contents

(2) 100% of Capital Stock Sale Proceeds and 100% of the aggregate net cash proceeds of a Qualified Equity Offering, plus

(3) the sum of:

(A) the aggregate net cash proceeds received by Parent, the Issuer or any Restricted Subsidiary from the issuance or sale after the Issue Date of convertible or exchangeable Debt or Disqualified Stock that has been converted into or exchanged for Capital Stock (other than Disqualified Stock) of the Issuer or Parent; *provided* that, in the case of Parent, such proceeds are contributed to the Issuer's common equity, and

(B) the aggregate amount by which Debt (other than Subordinated Obligations) of the Issuer or any Restricted Subsidiary is reduced on the Issuer's consolidated balance sheet on or after the Issue Date upon the conversion or exchange of any such Debt issued or sold on or prior to the Issue Date that is convertible or exchangeable for Capital Stock (other than Disqualified Stock) of the Issuer or Parent,

excluding, in the case of clause (A) or (B):

(x) any such Debt issued or sold to Parent or a Subsidiary of Parent or an employee stock ownership plan or trust established by Parent or any such Subsidiary for the benefit of their employees, and

(y) the aggregate amount of any cash or other Property (other than Capital Stock of the Issuer or Parent which is not Disqualified Stock) distributed by the Issuer, Parent or any Restricted Subsidiary upon any such conversion or exchange, plus

(4) an amount equal to the sum of:

(A) the net reduction in Investments (other than Permitted Investments) in any Person other than the Issuer or a Restricted Subsidiary resulting from dividends, repayments of loans or advances or other transfers of Property, in each case to the Issuer or a Restricted Subsidiary from such Person;

(B) to the extent that any Investment (other than a Permitted Investment) that was made after the Issue Date is sold for cash or otherwise liquidated or repaid for cash, the cash return of capital to the Issuer or its Restricted Subsidiaries with respect to such Investment (but only to the extent that such items in (A) and (B) above are not included in the calculation of Consolidated Net Income); and

(C) the portion (proportionate to the Issuer's equity interest in such Unrestricted Subsidiary) of the Fair Market Value of the net assets of an Unrestricted Subsidiary at the time such Unrestricted Subsidiary is designated a Restricted Subsidiary; *provided, however*, that the amounts in (A), (B) and (C) shall not exceed, in the case of any Person, the amount of Investments previously made (and treated as a Restricted Payment) by the Issuer or any Restricted Subsidiary in such Person, plus

(5) \$50.0 million.

Notwithstanding the foregoing limitation, the Issuer and its Restricted Subsidiaries, as applicable, may:

- (a) pay dividends on its Capital Stock within 60 days of the declaration thereof if, on the declaration date, such dividends could have been paid in compliance with the Indenture; *provided, however*, that such dividend shall be included in the calculation of the amount of Restricted Payments at the time declared;

Table of Contents

- (b) purchase, repurchase, redeem, legally defease, acquire or retire for value Capital Stock of the Issuer or Subordinated Obligations in exchange for, or out of the proceeds of the substantially concurrent sale of, Capital Stock of the Issuer (other than Disqualified Stock and other than Capital Stock issued or sold to a Subsidiary of the Issuer or an employee stock ownership plan or trust established by the Issuer or any such Subsidiary for the benefit of their employees); *provided, however*, that
 - (1) such purchase, repurchase, redemption, legal defeasance, acquisition or retirement shall be excluded in the calculation of the amount of Restricted Payments, and
 - (2) the Capital Stock Sale Proceeds from such exchange or sale shall be excluded from the calculation pursuant to clause (c)(2) above;
- (c) purchase, repurchase, redeem, legally defease, acquire or retire for value any Subordinated Obligations in exchange for, or out of the proceeds of the substantially concurrent sale of, Permitted Refinancing Debt; *provided, however*, that such purchase, repurchase, redemption, legal defeasance, acquisition or retirement shall be excluded in the calculation of the amount of Restricted Payments;
- (d) repurchase, or make dividends or other payments to Parent (or to Intermediate Holdco for prompt distribution to Parent) to permit Parent to repurchase, shares of, or options to purchase shares of, common stock of Parent or any of its Subsidiaries from current or former officers, directors or employees of Parent or any of its Subsidiaries (or permitted transferees of such current or former officers, directors or employees), pursuant to the terms of agreements (including employment agreements) or plans (or amendments thereto) approved by Parent's Board of Directors under which such individuals purchase or sell, or are granted the option to purchase or sell, shares of such common stock; *provided, however*, that:
 - (1) the aggregate amount of such repurchases shall not exceed \$5.0 million in any calendar year; and
 - (2) at the time of such repurchase, no other Default or Event of Default shall have occurred and be continuing (or result therefrom);*provided further, however*, that such repurchases shall be excluded in the calculation of the amount of Restricted Payments;
- (e) make payments on intercompany Debt, the Incurrence of which was permitted pursuant to the covenant described under Limitation on debt; *provided* that such purchase, repurchase, redemption, legal defeasance, acquisition or retirement shall be excluded in the calculation of the amount of Restricted Payments made after the Issue Date;
- (f) make, or make dividends or other payments to Parent (or to Intermediate Holdco for prompt distribution to Parent) to permit Parent to make cash payments, in lieu of issuance of fractional shares in connection with the exercise of warrants, options or other securities convertible into or exchangeable for the Capital Stock of Parent, Intermediate Holdco, the Issuer or a Restricted Subsidiary; *provided* that any such payments and dividends shall not be included in the calculation of the amount of Restricted Payments;
- (g) repurchase Capital Stock to the extent such repurchase is deemed to occur upon a cashless exercise of stock options or warrants; *provided* that all such repurchases and dividends shall not be included in the calculation of the amount of Restricted Payments and no proceeds in respect of the issuance of Capital Stock shall be deemed to have been received for the purposes of clause (c)(2) above;
- (h) repurchase or redeem, or make dividends or other payments to Parent (or to Intermediate Holdco for prompt distribution to Parent) to permit Parent to repurchase or redeem, for nominal consideration, preferred stock purchase rights issued in connection with any

Edgar Filing: Spansion Inc. - Form S-4/A

shareholder rights plan of Parent; *provided* that any such payments shall not be included in the calculation of the amount of Restricted Payments;

- (i) make dividends or other payments to Parent (or to Intermediate Holdco for prompt distribution to Parent) of (i) such amounts and at such times as are necessary for Parent to pay taxes, in an amount not

Table of Contents

to exceed the amount of taxes the Issuer and its Subsidiaries would pay on a stand-alone basis, plus (ii) such amounts to pay general corporate and overhead expenses (including salaries and other compensation for employees) incurred by Parent in the ordinary course of business as a holding company of Issuer; *provided* that all such payments shall be excluded in the calculation of the amount of Restricted Payments;

- (j) acquire claims against the Issuer, Parent and related debtors in the Chapter 11 Cases and the shares of Parent's common stock issuable in connection therewith in an aggregate amount not to exceed \$85 million;
- (k) in the event of a Change of Control, and if no Default or Event of Default shall have occurred and be continuing, the payment, purchase, repurchase, redemption, legal defeasance or other acquisition or retirement of Subordinated Obligations of the Issuer or Parent, in each case at a purchase price not greater than 101% of the principal amount of such Subordinated Obligations, plus accrued and unpaid interest thereon; *provided* that prior to such payment, purchase, repurchase, redemption, legal defeasance or other acquisition or retirement, the Issuer (or a third party to the extent permitted by the Indenture) has made a Change of Control Offer with respect to the notes offered hereby as a result of such Change of Control and has repurchased all notes validly tendered and not withdrawn in connection with such Change of Control Offer; and

- (l) other Restricted Payments in an aggregate amount not to exceed \$50.0 million.

Limitation on liens. The Issuer shall not directly or indirectly, Incur or permit any Guarantor to Incur or suffer to exist, any Lien (other than Permitted Liens) upon any of the Property of the Issuer or a Guarantor (including Capital Stock of a Restricted Subsidiary), whether owned at the Issue Date or thereafter acquired, or any interest therein or any income or profits therefrom, unless it has made or will make effective provision whereby the notes will be secured by such Lien equally and ratably with (or, if such other Debt constitutes Subordinated Obligations, prior to) all other Debt or other obligations of the Issuer or such Guarantor secured by such Lien for so long as such other Debt or other obligations are secured by such Lien; *provided, however*, that if the Debt or other obligations so secured are expressly subordinated to the notes or the Guarantee of such Guarantor, then the Lien securing such Debt or other obligations shall be subordinated and junior to the Lien securing the notes.

Limitation on asset sales. The Issuer shall not, and shall not permit any Restricted Subsidiary to, directly or indirectly, consummate any Asset Sale unless:

- (a) the Issuer or such Restricted Subsidiary receives consideration at the time of such Asset Sale at least equal to the Fair Market Value of the Property subject to such Asset Sale;
- (b) at least 75% of the consideration paid to the Issuer or such Restricted Subsidiary in connection with such Asset Sale is in the form of cash or Cash Equivalents; and
- (c) the Issuer delivers an Officers' Certificate to the Trustee certifying that such Asset Sale complies with the foregoing clauses (a) and (b).

Solely for the purposes of clause (b) above of this Limitation on asset sales provision, the following will be deemed to be cash:

- (x) the assumption by the purchaser of liabilities of the Issuer or any Restricted Subsidiary (other than contingent liabilities or liabilities that are by their terms subordinated to the notes) as a result of which the Issuer and the Restricted Subsidiaries are no longer obligated with respect to such liabilities;
- (y)

Edgar Filing: Spansion Inc. - Form S-4/A

any securities, notes or other obligations received by the Issuer or any such Restricted Subsidiary from such purchaser to the extent they are converted or monetized by the Issuer or such Restricted Subsidiary into cash within 60 days (to the extent of the cash received); and

(z) Additional Assets.

Table of Contents

The Net Available Cash (or any portion thereof) from Asset Sales may be applied by the Issuer or a Restricted Subsidiary, to the extent the Issuer or such Restricted Subsidiary elects (or is required by the terms of any Debt) to:

(a) permanently prepay or permanently repay any (1) Debt under any Credit Facility permitted by clause (b) of the definition of Permitted Debt, (2) Debt which had been secured by the assets sold in the relevant Asset Sale, and (3) Debt of a Restricted Subsidiary; and/or

(b) to reinvest in Additional Assets (including by means of an Investment in Additional Assets by a Restricted Subsidiary with Net Available Cash received by the Issuer or another Restricted Subsidiary).

Any Net Available Cash from an Asset Sale not applied in accordance with the preceding paragraph within 365 days from the date of the receipt of such Net Available Cash shall constitute Excess Proceeds.

When the aggregate amount of Excess Proceeds exceeds \$25.0 million (taking into account income earned on such Excess Proceeds, if any), the Issuer will be required to make an offer to repurchase (the **Prepayment Offer**) the notes, which offer shall be in the amount of the Allocable Excess Proceeds (rounded to the nearest \$1,000), on a pro rata basis according to principal amount, at a purchase price equal to 100% of the principal amount thereof, plus accrued and unpaid interest, to but not including the repurchase date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date), in accordance with the procedures (including prorating in the event of oversubscription) set forth in the Indenture. To the extent that any portion of the amount of Net Available Cash remains after compliance with the preceding sentence and *provided* that all holders of notes have been given the opportunity to tender their notes for repurchase in accordance with the Indenture, the Issuer or such Restricted Subsidiary may use such remaining amount for any purpose permitted by the Indenture, and the amount of Excess Proceeds will be reset to zero.

The term **Allocable Excess Proceeds** shall mean the product of:

(a) the Excess Proceeds; and

(b) a fraction,

(1) the numerator of which is the aggregate principal amount of the notes outstanding on the date of the Prepayment Offer, and

(2) the denominator of which is the sum of the aggregate principal amount of the notes outstanding on the date of the Prepayment Offer and the aggregate principal amount of other Debt of the Issuer (other than Subordinated Obligations) outstanding on the date of the Prepayment Offer and subject to terms and conditions in respect of Asset Sales similar in all material respects to this covenant and requiring the Issuer to make an offer to repurchase such Debt at substantially the same time as the Prepayment Offer.

Within five business days after the Issuer is obligated to make a Prepayment Offer as described in the preceding paragraph, the Issuer shall send a written notice, by first-class mail, to the holders of notes, accompanied by such information regarding the Issuer and its Subsidiaries as the Issuer in good faith believes will enable such holders to make an informed decision with respect to such Prepayment Offer. Such notice shall state, among other things, the purchase price and the repurchase date, which shall be, subject to any contrary requirements of applicable law, a business day no earlier than 30 days nor later than 60 days from the date such notice is mailed.

The Issuer will comply, to the extent applicable, with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws or regulations in connection with the repurchase of notes pursuant to this covenant. To the extent that the provisions of any securities laws or regulations conflict with provisions of this covenant, the Issuer will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under this covenant by virtue thereof.

Table of Contents

Limitation on restrictions on distributions from restricted subsidiaries. The Issuer shall not, and shall not permit any Restricted Subsidiary to, directly or indirectly, create or otherwise cause or suffer to exist any consensual restriction on the right of any Restricted Subsidiary to:

- (a) pay dividends, in cash or otherwise, or make any other distributions on or in respect of its Capital Stock, or pay any Debt or other obligation owed, to the Issuer or any other Restricted Subsidiary;
- (b) make any loans or advances to the Issuer or any other Restricted Subsidiary; or
- (c) transfer any of its Property to the Issuer or any other Restricted Subsidiary.

The foregoing limitations will not apply:

- (1) with respect to clauses (a), (b) and (c), to restrictions:
 - (A) in effect on the Issue Date (including, without limitation, restrictions pursuant to the notes, the Indenture and any Credit Facility in existence on the Issue Date);
 - (B) relating to Debt of a Restricted Subsidiary and existing at the time it became a Restricted Subsidiary if such restriction was not created in connection with or in anticipation of the transaction or series of transactions pursuant to which such Restricted Subsidiary became a Restricted Subsidiary or was acquired by the Issuer;
 - (C) that result from the Refinancing of Debt Incurred pursuant to an agreement referred to in clause (1)(A) or (B) above or in clause (2)(A) or (B) below, *provided* such restrictions are not materially less favorable, taken as a whole, to the holders of notes than those under the agreement evidencing the Debt so Refinanced;
 - (D) relating to Debt incurred after the Issue Date, so long as such restrictions (x) are not materially less favorable, taken as whole, to the holders of notes than those restrictions in effect on the Issue Date pursuant to the notes, the Indenture and any Credit Facility in existence on the Issue Date, (y) will not, in the good faith judgment of the Issuer, materially impair the ability of the Issuer to make regularly scheduled payments of interest and principal on the notes when due or (z) relate to Debt incurred pursuant to clause (c) of the definition of Permitted Debt contained herein, so long as the respective restrictions apply only to specific Property or projects financed with the respective Incurrence of Debt and/or to any Subsidiary substantially of all whose assets consist of Property or a project financed with proceeds of such Debt;
 - (E) existing under or by reason of applicable law or governmental regulation; or
 - (F) that constitute customary restrictions contained in joint venture agreements, asset sale agreements, sale-leaseback agreements, stock sale agreements and other similar agreements entered into in good faith and not otherwise prohibited by the Indenture; and
- (2) with respect to clause (c) only, to restrictions:

Edgar Filing: Spansion Inc. - Form S-4/A

- (A) relating to Debt that is permitted to be Incurred and secured without also securing the notes pursuant to the covenants described under **Limitation on debt** and **Limitation on liens** that limit the right of the debtor to dispose of the Property securing such Debt;
- (B) encumbering Property at the time such Property was acquired by the Issuer or any Restricted Subsidiary, so long as such restrictions relate solely to the Property so acquired and were not created in connection with or in anticipation of such acquisition;
- (C) resulting from customary provisions restricting subletting or assignment of leases or customary provisions in other agreements that restrict assignment of such agreements or rights thereunder;
- (D) restrictions on cash or other deposits or net worth imposed by customers under contracts entered into in the ordinary course of business; or

Table of Contents

- (E) customary restrictions contained in asset sale agreements limiting the transfer of such Property pending the closing of such sale.

Limitation on transactions with affiliates. The Issuer shall not, and shall not permit any Restricted Subsidiary to, directly or indirectly, conduct any business or enter into or suffer to exist any transaction or series of related transactions (including the purchase, sale, transfer, assignment, lease, conveyance or exchange of any Property or the rendering of any service) with, or for the benefit of, any Affiliate of the Issuer (an **Affiliate Transaction**), unless:

- (a) the terms of such Affiliate Transaction are:

(1) set forth in writing; and

(2) no less favorable to the Issuer or such Restricted Subsidiary, as the case may be, than those that could be obtained in a comparable arm's-length transaction with a Person that is not an Affiliate of the Issuer;

- (b) if such Affiliate Transaction involves aggregate payments or value in excess of \$25.0 million, the Board of Directors (including at least a majority of the disinterested members of the Board of Directors) approves such Affiliate Transaction and, in its good faith judgment, believes that such Affiliate Transaction complies with clause (a)(2) of this paragraph as evidenced by a resolution of the Board of Directors; and

- (c) if such Affiliate Transaction involves aggregate payments or value in excess of \$50.0 million, the Issuer obtains a written opinion from an Independent Financial Advisor to the effect that the consideration to be paid or received in connection with the such Affiliate Transaction is fair, from a financial point of view, to the Issuer and any relevant Restricted Subsidiaries; *provided* that this subclause (c) shall not apply to the acquisition of claims against the Issuer, Parent and related debtors in the Chapter 11 Cases and shares of Parent's common stock issuable in connection therewith in an aggregate amount not to exceed \$85 million.

Notwithstanding the foregoing limitation, the Issuer or any Restricted Subsidiary may enter into or suffer to exist the following:

- (a) any transaction or series of transactions between the Issuer and one or more Restricted Subsidiaries or between two or more Restricted Subsidiaries;

- (b) any Restricted Payment permitted to be made pursuant to the covenant described under *Limitation on restricted payments* or any Permitted Investment;

- (c) any employment, indemnification or other similar agreement or employee benefit plan entered into by the Issuer or a Restricted Subsidiary with an employee, officer or director (and payments pursuant thereto) in the ordinary course of business and consistent with past practice that is not otherwise prohibited by the Indenture;

- (d) loans and advances to employees made in the ordinary course of business consistent with past practices of the Issuer or a Restricted Subsidiary, as the case may be; *provided* that such loans and advances do not exceed \$5.0 million in the aggregate at any one time outstanding;

- (e) payment of reasonable directors' fees to persons who are not otherwise Affiliates of the Issuer;

- (f) any issuances of Capital Stock (other than Disqualified Stock) of the Issuer to Affiliates of the Issuer; and

- (g) agreements (and the transactions contemplated thereunder) in effect on the Issue Date and any modifications, extensions or renewals thereto that are not materially less favorable, taken as a whole, to the Issuer or any Restricted Subsidiary than such agreements as in effect on the Issue Date.

Table of Contents

Designation of restricted and unrestricted subsidiaries. The Board of Directors may designate any Subsidiary of the Issuer to be an Unrestricted Subsidiary if:

- (a) either (1) the Issuer or a Restricted Subsidiary, as the case may be, is permitted to make an Investment in such Subsidiary equal to the sum of the (A) Fair Market Value of the Capital Stock of such Subsidiary plus (B) the amount of any Debt owed by such Subsidiary to the Issuer, in each case pursuant to the first paragraph of the covenant under the caption Limitation on restricted payments, or (2) such Investment constitutes a Permitted Investment;
- (b) immediately after giving pro forma effect to such designation, the Issuer could Incur at least \$1.00 of additional Debt pursuant to clause (1) of the first paragraph of the covenant described under Limitation on debt ; and
- (c) such Subsidiary does not own any Capital Stock or Debt of, or own or hold any Lien on any Property of, the Issuer or any Restricted Subsidiary and does not have any Debt other than Non-Recourse Debt.

Unless so designated as an Unrestricted Subsidiary, any Person that becomes a Subsidiary of the Issuer will be classified as a Restricted Subsidiary; *provided, however*, that such Subsidiary shall not be designated a Restricted Subsidiary and shall be automatically classified as an Unrestricted Subsidiary if such Person is a Subsidiary of an Unrestricted Subsidiary.

Except as provided in the first sentence of the first paragraph of this covenant, and except as provided in the immediately preceding paragraph, no Restricted Subsidiary may be redesignated as an Unrestricted Subsidiary, and neither the Issuer nor any Restricted Subsidiary shall at any time be directly or indirectly liable for any Debt (other than Debt pursuant to the Indenture) that provides that the holder thereof may (with the passage of time or notice or both) declare a default thereon or cause the payment thereof to be accelerated or payable prior to its Stated Maturity upon the occurrence of a default with respect to any Debt, Lien or other obligation of any Unrestricted Subsidiary (including any right to take enforcement action against any such Unrestricted Subsidiary).

The Board of Directors may designate any Unrestricted Subsidiary to be a Restricted Subsidiary if, immediately after giving pro forma effect to such designation,

- (x) the Issuer could Incur at least \$1.00 of additional Debt pursuant to clause (1) of the first paragraph of the covenant described under Limitation on debt, and

- (y) no Default or Event of Default shall have occurred and be continuing or would result therefrom.

Any such designation or redesignation by the Board of Directors will be evidenced to the Trustee by filing with the Trustee a resolution of the Board of Directors giving effect to such designation or redesignation and an Officers Certificate that:

- (a) certifies that such designation or redesignation complies with the foregoing provisions; and

- (b) gives the effective date of such designation or redesignation, such filing with the Trustee to occur within 60 days after the end of the fiscal quarter of the Issuer in which such designation or redesignation is made (or, in the case of a designation or redesignation made during the last fiscal quarter of the Issuer's fiscal year, within 90 days after the end of such fiscal year).

Merger, Consolidation and Sale of Property

The Issuer

Edgar Filing: Spansion Inc. - Form S-4/A

The Issuer shall not merge or consolidate with or into any other Person (other than a merger of a Wholly Owned Restricted Subsidiary and the Issuer) or sell, transfer, assign, lease, convey or otherwise dispose of all or

Table of Contents

substantially all its Property (other than sales, transfers, assignments, leases, conveyances or dispositions to a Wholly Owned Restricted Subsidiary) in any one transaction or series of transactions unless:

- (a) the Issuer shall be the Surviving Person in such merger or consolidation, or the Surviving Person (if other than the Issuer) formed by such merger or consolidation or to which such sale, transfer, assignment, lease, conveyance or disposition is made shall be a corporation organized and existing under the laws of the United States of America, any State thereof or the District of Columbia;
- (b) the Surviving Person (if other than the Issuer) expressly assumes, by supplemental indenture in form reasonably satisfactory to the Trustee, executed and delivered to the Trustee by such Surviving Person, the due and punctual payment of the principal of, and premium, if any, and interest on, all the notes, according to their tenor, and the due and punctual performance and observance of all the covenants and conditions of the Indenture to be performed by the Issuer;
- (c) immediately before and after giving effect to such transaction or series of transactions on a *pro forma* basis (and treating, for purposes of this clause (c) and clause (d) below, any Debt that becomes, or is anticipated to become, an obligation of the Surviving Person or any Restricted Subsidiary as a result of such transaction or series of transactions as having been Incurred by the Surviving Person or such Restricted Subsidiary at the time of such transaction or series of transactions), no Default or Event of Default shall have occurred and be continuing;
- (d) immediately after giving effect to such transaction or series of transactions on a *pro forma* basis, (x) the Issuer or the Surviving Person, as the case may be, would be able to Incur at least \$1.00 of additional Debt under clause (1) of the first paragraph of the covenant described under Certain covenants Limitation on debt, or (y) the Consolidated Fixed Charge Coverage Ratio for the Issuer or the Surviving Person would be greater than such ratio immediately prior to such transaction or series of transactions; and
- (e) the Issuer shall deliver, or cause to be delivered, to the Trustee, in form and substance reasonably satisfactory to the Trustee, an Officers Certificate and an Opinion of Counsel, each stating that such transaction or series of transactions and the supplemental indenture, if any, in respect thereto comply with this covenant and that all conditions precedent herein provided for relating to such transaction or series of transactions have been satisfied; *provided* that clauses (d) and (e) shall not apply to a merger of the Issuer and Intermediate Holdco or a merger of the Issuer and Parent.

The Surviving Person shall succeed to, and be substituted for, and may exercise every right and power of the Issuer under the Indenture; *provided* that the predecessor company in the case of:
