After evaluation of open claims and trend assumptions and assistance with its consulting actuary as part of APIE s mid-year reserve review, APIE has recorded a decrease of $1,200,000 for the nine month period ended September 30, 2006 for incurred loss and loss adjustment expenses for prior-year development as a result of favorable trends in the settlement of the underlying claims. The adjustment was due to favorable development of accident years 2004 and 2005 by $8,200,000 most of which is attributable to the passage of tort reform in Texas effective September 1, 2003, offset by $7,000,000 of adverse development for pre-tort reform years which continue to develop unfavorably with increasing levels of severity and loss expenses.

APIE maintains a portion of its investment portfolio in short-term securities and cash to meet short-term operating liquidity requirements, including the payment of losses and loss expenses. APIE also invests a substantial part of its cash flow from operations principally in bonds/fixed income securities. APIE plans to continue its emphasis on fixed income securities investments.

Cash and cash equivalents and invested assets totaled $139,100,000, $116,700,000 and $106,400,000 at September 30, 2006, December 31, 2005 and December 31, 2004, respectively. Cash and cash equivalents and invested assets represents 68.1%, 66.8% and 73.1% of APIE s total assets for the same respective periods. APIE believes that all of its short-term and fixed-maturity securities are readily marketable and have scheduled maturities in line with projected cash needs.

APIE s members equity has increased from $11,900,000 at December 31, 2004 to $19,200,000 at December 31, 2005. As of September 30, 2006 members equity totaled $30,100,000.

APIE believes that it has the ability to fund its continuing operations from its premiums written and investment income. APIE plans to continue its focus on the efficient operation of its core business.

Effects of Inflation

The primary effect of inflation on APIE is considered in pricing and estimating reserves for unpaid losses and loss adjustment expense for claims in which there is a long period between reporting and settlement, such as medical malpractice claims. The actual effect of inflation on APIE s results cannot be accurately known until claims are ultimately settled. Based on actual results to date, APIE believes that loss and loss adjustment expense reserve levels and APIE s rate making process adequately incorporate the effects of inflation.

Recent Accounting Pronouncements

From its inception in 1975 through 1992, subscribers of APIE were required to make refundable deposits to become eligible to purchase insurance issued by APIE. APIE adopted Statement of Financial Accounting Standards (SFAS) No.150, *Accounting of Certain Financial Instruments with characteristics of both Liabilities and Equity*, as of January 1, 2004, and recorded these refundable deposits as a liability. FAS No. 150 established standards as to how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. It requires that an issuer classify a financial instrument that is within its scope as a liability. APIE has determined that its refundable deposits fall within the scope of FAS No. 150. APIE discontinued requiring refundable deposits in 1992. APIE may return full refundable deposits to active policyholders upon death, disability and retirement, and may elect to refund up to $200,000, in the aggregate, per year to former subscribers without approval from the Texas Department of Insurance, subject to approval by the APIE board of directors and specific Texas Department of Insurance requirements. See Information about APIE Refundable Surplus on page 76.

Accounting Standards No. 124, Accounting for Certain Investments Held by Not-for-Profit Organizations and Accounting Principles Board No. 18, The Equity Method of Accounting for Investments in Common Stock. FSP 115-1 and 124-1 address the determination as to when an investment is considered impaired, whether that impairment is other-than-temporary and the measurement of an impairment loss. FSP 115-1 and 124-1 also includes provision for accounting considerations subsequent to the recognition of an other-than temporary impairment and requires certain disclosures about unrealized losses that have not been recognized as other-than-temporary impairments. FSP 115-1 and 124-1 is effective for periods beginning after December 15, 2005, with earlier adoption permitted. The Company adopted FSP 115-1 and 124-1 during the fiscal quarter ended December 31, 2005. The adoption of FSP 115-1 and 124-1 did not have a material effect on APIE s financial position or results of operations.

There were no off-balance sheet arrangements as of September 30, 2006 or December 31, 2005 or 2004.

Quantitative and Qualitative Disclosure About Market Risk

APIE believes that it is principally exposed to three types of market risk related to its investment operations, including credit risk, interest rate risk, and equity price risk.

The term market risk refers to the risk of a loss arising from adverse changes in market rates and prices such as interest rates, credit risk, equity prices, and foreign currency exchange rates.

APIE invests its assets primarily in fixed-maturity securities, which as of September 30, 2006 and December 31, 2005 comprised over 94% of total investments at market value. As of September 30, 2006 and December 31, 2005, the fair value of investments in fixed maturity securities was $128,221,300 and $106,118,200, respectively.

The fixed income maturities consist predominately of investment grade U.S. government agency and non-agency CMOs and U.S. government agency mortgage-backed bonds for the purpose of generating ample cash flow to meet claim funding requirements while maintaining a reasonable investment yield.

Equity securities, comprised over 4.3% and $4.5% of total investments at market value as of September 30, 2006 and December 31, 2005, respectively. As of September 30, 2006 and December 31, 2005, the fair value of investments in equity securities was $5,878,500 and $5,153,200, respectively.

The remainder of the investment portfolio consists of cash and highly liquid short-term investments.

APIE has exposure to credit risk primarily as a holder of fixed income securities. APIE controls this exposure by emphasizing investment grade quality in the fixed income securities it purchases. As of September 30, 2006 and December 31, 2005, 100% of APIE s fixed income portfolio consisted of securities rated investment grade. APIE believes that this concentration of investment grade securities limits its exposure to credit risk on its fixed income investments.

The value of the fixed income maturities is also subject to interest rate risk. As market interest rates decrease, the value portfolio increases with the opposite holding true in rising interest rate environments. APIE believes it is in a position to keep its fixed income investments until maturity since it does not invest in fixed maturity securities for trading purposes.

Equity securities are subject to equity price risk, which is defined as the potential for loss in market value due to a decline in equity prices.

The value of common stock equity investments is dependent upon the general conditions in the securities markets and the business and financial performance of the individual companies in the portfolio. Values are typically based on future economic prospects as perceived by investors in the equity markets.

As mentioned above, APIE s invested assets are subject to interest rate risk and equity risk. The following table presents the effect on current estimated fair values of the fixed-maturity securities available-for-sale and equity securities assuming a 100-basis point (1.0%) increase in market interest rates and a 10% decline in equity prices.

	Carrying Value	Estimated Fair Value at Current Market Rates/Prices	Estimated Fair Value at Adjusted Market Rates/Prices (1)
		(In thousands)	
September 30, 2006			
Interest rate risk:			
Fixed-maturities, available for sale	$ 128,221	$ 128,221	$ 121,608
Equity price risk			
Equity securities	5,879	5,879	5,291
December 31, 2005			
Interest rate risk:			
Fixed-maturities, available for sale	106,118	106,118	101,023
Equity price risk:			
Equity securities	5,153	5,153	4,638

(1) Adjusted rates assume a 100 basis-point (1%) increase in market rates for fixed rate securities and a 10% decline in equity market values. For all its financial assets and liabilities, APIE seeks to maintain reasonable average durations, consistent with the maximization of income, without sacrificing investment quality and providing for liquidity and diversification.

The estimated fair values at current market rates for financial instruments subject to interest rate risk and equity risk in the table above are the same as those included elsewhere herein. The estimated fair values are calculated using simulation modeling based on the most likely outcome, assuming a 100-basis point shift in interest rates.

This sensitivity analysis provides only a limited, point-in-time of the market risk sensitivity of certain of APIE s financial instruments. The actual impact of market interest rate and price changes on the financial instruments may differ significantly from those shown in the sensitivity analysis. The sensitivity analysis is further limited, as it does not consider any actions that APIE could take in response to actual and/or anticipated changes in interest rates and equity prices.

MANAGEMENT OF APIE

Directors and Executive Officers

APIE does not have any executive officers that receive compensation for performing services for APIE. Management functions of APIE are performed by APSG, through a wholly owned subsidiary, FMI, that acts as attorney-in fact for APIE. The management agreement with APIE provides for full management by FMI of the affairs of APIE under the direction of APIE s board of directors. See Information about APIE Relationship with Attorney-In-Fact on page 75.

A majority of the directors must be a subscriber or a member of any corporation or partnership which is a subscriber of APIE and must also be a board certified, eligible physician involved in the active practice of medicine. All directors hold office for three years or until their earlier death, resignation or removal. Subscribers of APIE vote annually to fill expiring director positions. Directors may be reelected for additional three year terms.

Neither APIC nor APSG shall have any ownership in API Advisor, LLC. The members of the APIE board of directors will provide advisory services to APIC similar to the services they currently provide to APIE through their membership on the APIE board of directors and the committees of the board of directors. The nominated candidates are elected by the policyholders. Members of the committee include Dr. Contreras, Dr. Jackson and Dr. Peche (Chairman).

Code of Ethics

APIE does not have an established code of ethics for the entity in general. The Exchange is managed by its attorney-in-fact who has established a code of ethics. APSG has established a code of ethics for its chief executive officer, senior finance officers and all other employees. A current copy of this code is available on APSG s web site at *www.amph.com*. The contents of this web site are not incorporated by reference and the web site address provided in this proxy statement is intended to be an inactive textual reference only.

Executive Compensation

APIE does not have any executive officers that receive compensation for performing services for APIE. Management functions of APIE are performed by APSG, through a wholly owned subsidiary that acts as attorney-in-fact for APIE. The management agreement with APIE provides for full management by the attorney-in-fact of the affairs of APIE under the direction of APIE s board of directors. In addition, APIE is a reciprocal exchange and therefore does not have capital stock and thus, there are no stock options issued or outstanding.

Director Compensation

Directors are compensated for board meetings at the rate of $2,500 per day for a maximum of $7,500 for a three day annual meeting. Expenses incurred by board members related to APIE functions are reimbursed by APIE. Attendance at committee meetings is compensable at $2,500 per day. Indemnity Agreements

APIE s bylaws provide indemnification for any and all persons who may serve or who have served at any time as directors of APIE, and their respective heirs, administrators, successors and assigns, against all liabilities (including but not limited to the amounts of judgments, settlements, fines or penalties) and expenses necessarily incurred by any such persons in connection with the defense or settlement of any claims or proceedings in which they are made parties by reason of being or having been directors of APIE, except where the person shall have been adjudged to be liable for his/her own gross negligence, bad faith, fraudulent intent or willful malfeasance. In the event of settlement before final adjudication, the person can be indemnified for reasonable costs if a majority of the board finds that settlement is in the best interests of APIE.

APIE s bylaws also provide this same indemnification arrangement for its attorney-in-fact and any all persons who may serve or who have served at any time as officers or directors of the attorney-in-fact.

With respect to APIC, the Texas Insurance Code does not contain express provisions providing indemnity to directors, officers or controlling persons of a Texas stock insurance company. However, Section 8.2 of the articles of incorporation of APIC, which have been submitted for approval by the Texas Commissioner of Insurance in the plan of conversion, contain provisions that would allow indemnification of persons who are a party to, testify or otherwise participate in, any pending or threatened proceeding because such person is or was a director of APIC or, while a director of APIC, is or was serving at the request of APIC in a representative capacity for another organization. Such indemnification is provided to the fullest extent authorized or permitted by applicable law and includes the right to be reimbursed by APIC for the reasonable expenses incurred in defending or otherwise participating in any such proceeding in advance of its final disposition. In addition, APIE currently maintains directors and officers liability insurance which will continue to provide coverage for APIC after the conversion.

Furthermore, Section 8.1 of the articles of incorporation of APIC provides that current and former directors of APIC will have no personal liability to APIC or any of its shareholders for monetary damages for any act or omission in such person s capacity as a director of APIC except to the extent such limitation or elimination of liability is not permitted by applicable law.

The preceding discussion of APIC s articles of incorporation and APIE s bylaws is not intended to be exhaustive and is qualified in its entirety by APIE s bylaws and the articles of incorporation of APIC.

None of the proposals above will become effective unless the issuance of common shares under Proposal (i) above is approved and effective.

Record Date; Stock Entitled to Vote; Quorum

Owners of record of shares of common stock of APSG at the close of business on , 2006, the record date for the special meeting, are entitled to receive notice of and to vote at the special meeting. APSG s common stock is the only class of voting securities of APSG. On the record date, approximately shares of common stock were issued and outstanding and entitled to vote at the special meeting.

Owners of record of APSG common stock on the record date are each entitled to one vote per share with respect to the issuance of shares of APSG common stock pursuant to the merger agreement and the amendment of the 2005 Incentive Plan.

A quorum of APSG shareholders is necessary to hold a valid meeting of shareholders. The holders of a majority of the shares of APSG common stock issued and outstanding and entitled to vote at the APSG special meeting must be represented, in person or by proxy, at the special meeting in order for a quorum to be established. Both abstentions and broker non-votes count as present for establishing a quorum. An abstention occurs when a shareholder attends a meeting, either in person or by proxy, but abstains from voting. A broker non-vote occurs on an item when a broker is not permitted to vote on that item without instructions from the beneficial owner of the shares and no instructions are given.

Vote Required

The affirmative vote of a majority of the outstanding shares of APSG common stock outstanding as of the record date is required to approve the issuance of the shares of APSG common stock in connection with the merger and the amendment to the 2005 Incentive Plan. Abstentions may be specified with respect to each proposal by properly marking the ABSTAIN box on the proxy for such proposal or by making the same election by telephone or internet voting. Abstentions and broker non-votes will have the effect of a negative vote on any proposal. The only vote required by the APSG shareholders to effect the merger is the approval regarding the issuance of APSG common stock.

Share Ownership of APSG Directors; Executive Officers and Significant Shareholders

At the close of business on the record date and excluding shares underlying options and restricted stock, APSG s directors and executive officers and their affiliates may be deemed to be the beneficial owners of, and have the power to vote, shares of APSG common stock, representing approximately % of the then outstanding shares of APSG common stock. APSG believes that each of its directors and executive officers intends to vote FOR the approval of the issuance of shares of APSG common stock in connection with the merger and FOR the amendment of the 2005 Incentive Plan.

Voting of Proxies

Shares of APSG common stock represented by properly executed physical proxies or proxies properly effected by telephone or on the internet and received prior to the special meeting will be voted at the special meeting in the manner specified on such proxies. Physical proxies that are properly executed and timely submitted but which do not contain specific voting instructions will be voted FOR the proposals presented at the special meeting.

APSG shareholders whose shares are held in street name (i.e., in the name of a broker, bank or other record holder) must either direct the record holder of their shares as to how to vote their shares or obtain a proxy from the record holder to vote at the special meeting.

To vote by mail, APSG shareholders may mark and sign the proxy card mailed to them and return it in the envelope provided. Internet and telephone voting are available twenty-four hours a day, seven days a week, through 10:59 pm Central Time the day prior to the day of the APIE special meeting. To vote on the internet, APSG shareholders may go to http://www.proxyvote.com and follow the website s instructions to vote. To vote by telephone, APSG shareholders may use any touchtone telephone to vote by calling 1-800-454-8683. Internet and telephone voters should have the information contained on their proxy card available when they vote.

Revocation of Proxy

An APSG shareholder may revoke a proxy at any time prior to the time the proxy is to be voted at the special meeting by:

(i) delivering, prior to the special meeting, to American Physicians Service Group, Inc. Attn: Corporate Secretary, at 1301 S. Capital of Texas Highway, Suite C-300, Austin, Texas 78746, a written notice of revocation bearing a later date or time than the revoked proxy;

(ii) as to physical proxies, completing and submitting a new later-dated proxy card;

(iii) as to proxies effected by telephone or on the internet, by calling the telephone voting number or connecting to the internet voting site and voting again; or

(iv) attending the special meeting and voting in person.

Attending the special meeting will not by itself constitute revocation of a proxy; to do so, a shareholder must vote in person at the meeting. If a broker has been instructed to vote a shareholder s shares, the shareholder must follow directions received from the broker in order to change the shareholder s vote.

Expenses of Solicitation

APSG will bear the costs of printing and mailing this joint proxy statement/prospectus to its shareholders and the costs of soliciting proxies from its shareholders. In addition to soliciting proxies by mail, directors, officers and employees of APSG, without receiving additional compensation therefor, may solicit proxies by telephone, by e-mail, by facsimile or in person. Arrangements may also be made with brokerage firms and other custodians, nominees and fiduciaries to forward solicitation materials to the beneficial owners of shares held of record by such persons, and APSG will reimburse such brokerage firms, custodians, nominees and fiduciaries for reasonable out of pocket expenses incurred by them in connection therewith.

Miscellaneous

In the event that a quorum is not present at the time the special meeting is convened, APSG may adjourn the special meeting with or without a vote of the shareholders. If at the time the special meeting is convened APSG believes that additional time should be allowed for the solicitation of proxies, APSG may adjourn the special meeting upon a vote of the shareholders. If APSG proposes to adjourn the special meeting by a vote of the shareholders, the persons named in the enclosed form of proxy will vote all shares of APSG common stock for which they have voting authority in favor of an adjournment. Proxies voted against the proposals related to the merger or the amendments of the 2005 Incentive Plan will not be voted in favor of any adjournment of the special meeting for the purpose of soliciting additional proxies.

It is not expected that any matter not referred to in this joint proxy statement/prospectus will be presented for action at the special meeting. If any other matters are properly brought before the special meeting, the persons named in the proxies will have discretion to vote on such matters according to their best judgment. The grant of a proxy will also confer discretionary authority on the persons named in the proxy as proxy appointees to vote in accordance with their best judgment on matters incidental to the conduct of the special meeting.

THE APIE SPECIAL MEETING

APIE is furnishing this joint proxy statement/prospectus to its subscribers in connection with the solicitation of proxies by the APIE board of directors for use at the special meeting of its subscribers.

The board of directors of APIE:

(i) has determined that the plan of conversion and the transactions contemplated thereby, including the conversion of APIE from a reciprocal insurance exchange to a stock insurance company and the merger are fair to, and in the best interests of, APIE and its subscribers, policyholders and holders of refundable deposit certificates;

(ii) has approved and adopted the plan of conversion, which includes the form of the certificate of formation of APIC and the merger agreement, and approved the conversion and the other transactions contemplated thereby;

(iii) has determined that the merger agreement and the transactions contemplated thereby, including the merger, are fair to, and in the best interests of, APIE and its subscribers, policyholders and holders of refundable deposit certificates;

(iv) has approved and adopted the merger agreement and approved the merger and the other transactions contemplated thereby; and

(v) recommends that the subscribers of APIE vote FOR approval of the conversion of APIE into a stock insurance company and the merger with APSG.

Date; Place and Time

The special meeting is scheduled to be held at the offices of APIE, 1301 S. Capital of Texas Highway, Suite C-300, Austin, Texas 78746, on , 2006, at local time.

Purpose of the Special Meeting

The purpose of the special meeting is:

(i) To consider and vote upon a proposal for the APIE subscribers to approve and adopt the Plan of Conversion of APIE, as amended, in which APIE will be converted from a Texas reciprocal insurance exchange into a Texas stock insurance company called American Physicians Insurance Company, or APIC, which includes the form of the certificate of formation of APIC;

(ii) To consider and vote upon a proposal for the APIE subscribers to approve and adopt the Merger Agreement and Plan of Merger, dated June 1, 2006, as amended; and

(iii) To transact such other business as may properly come before the special meeting or any adjournments or postponements thereof.

The merger is an integral aspect of the plan of conversion. Subscriber approval of the plan of conversion is contingent upon subscriber approval of the merger, and subscriber approval of the merger is contingent upon subscriber approval of the plan of conversion. Neither the merger nor the conversion will take effect unless both transactions occur.

Record Date; Persons Entitled to Vote; Quorum

Only APIE policyholders with an effective subscriber agreement and power of attorney both on June 1, 2006 and at the close of business on , 2006, the record date for the special meeting are entitled to vote at the special meeting. We refer to such policyholders as subscribers. On the record date, there were approximately 3,800 subscribers of APIE entitled to vote at the special meeting.

102

Eligible subscribers of record of APIE on the record date are each entitled to one vote, irrespective of the number or value of insurance policies held, with respect to approval of the plan of conversion, which includes the form of the certificate of formation of APIC included therein, and one vote, irrespective of the number or value of insurance policies held, with respect to approval of the merger agreement. There are no other voting rights or voting interests of APIE. APIE policyholders and holders of refundable deposit certificates representing unpaid surplus contributions will not be entitled to any dissenters rights of appraisal under applicable Texas law, nor will holders of refundable deposit certificates representing unpaid surplus contributions who are not subscribers have an opportunity to vote on the conversion and merger.

A quorum of APIE subscribers is necessary to hold a valid meeting of subscribers. Not less than 10% of the subscribers entitled to vote at the APIE special meeting must be represented in person or by proxy at the special meeting in order for a quorum to be established. Abstentions count as present for establishing a quorum. An abstention occurs when a subscriber attends a meeting, either in person or by proxy, but abstains from voting.

Vote Required

Approval of each of the proposals set forth above requires the affirmative vote of at least two-thirds of the subscribers. Approval of each of the proposals set forth above is a prerequisite to the consummation of the conversion and the merger. None of the actions contained in these proposals will become effective unless both the conversion and the merger are approved. Abstentions may be specified with respect to either proposal by properly marking the ABSTAIN box on the proxy for such proposal or by making the same election by telephone or internet voting. Abstentions and failures to vote will have the effect of a negative vote.

APIE Directors and Executive Officers

At the close of business on June 1, 2006, the record date, APIE s directors and executive officers may be deemed to have the power to have eight votes, representing approximately 0.21% of the total subscribers entitled to vote at the APIE special meeting. APIE believes that each of its directors and executive officers intends to vote FOR the approval of the plan of conversion and FOR the merger with APSG.

Voting of Proxies

Votes of APIE subscribers represented by properly executed physical proxies or proxies and received prior to the special meeting will be voted at the special meeting in the manner specified on such proxies. Physical proxies that are properly executed and timely submitted but which do not contain specific voting instructions will be voted FOR the proposals presented at the special meeting.

To vote by mail, APIE subscribers may mark and sign the proxy card mailed to them and return it in the envelope provided. Internet and telephone voting are available twenty-four hours a day, seven days a week, through 11:00 pm Central Time the day prior to the day of the APIE special meeting. To vote on the internet, APIE subscribers may go to http://www.voteproxy.com and follow the website s instructions to vote. To vote by telephone, APIE subscribers may use any touchtone telephone to vote by calling 1-800-PROXIES. Internet and telephone voters should have the information contained on their proxy card available when they vote.

Revocation of Proxy

An APIE subscriber may revoke a proxy at any time prior to the time the proxy is to be voted at the special meeting by:

- delivering, prior to the special meeting, to American Physicians Insurance Exchange; Attn: Sharon Stripling; 1301 S. Capital of Texas Highway, Suite C-300, Austin, Texas 78746, a written notice of revocation bearing a later date or time than the revoked proxy;

Table of Contents

Index to Financial Statements

- as to physical proxies, completing and submitting a new later-dated proxy card;

- as to proxies effected on the internet, by connecting to the internet voting site and voting again; or

- attending the special meeting and voting in person.

Attending the special meeting will not by itself constitute revocation of a proxy; to do so, a subscriber must vote in person at the meeting.

Expenses of Solicitation

APIE will bear the costs of printing and mailing this joint proxy statement/prospectus to its subscribers and the costs of soliciting proxies from its subscribers. In addition to soliciting proxies by mail, directors and officers of APIE and employees of the attorney-in-fact, without receiving additional compensation therefor, may solicit proxies by telephone, by e-mail, by facsimile or in person.

Miscellaneous

In the event that a quorum is not present at the time the special meeting is convened, or if for any other reason APIE believes that additional time should be allowed for the solicitation of proxies, APIE may adjourn the special meeting with or without a vote of the subscribers. If APIE proposes to adjourn the special meeting by a vote of the subscribers, the persons named in the enclosed form of proxy will vote in favor of an adjournment. Proxies voted against the proposals related to the plan of conversion or the merger will not be voted in favor of any adjournment of the special meeting for the purpose of soliciting additional proxies.

It is not expected that any matter not referred to in this joint proxy statement/prospectus will be presented for action at the special meeting. If any other matters are properly brought before the special meeting, the persons named in the proxies will have discretion to vote on such matters according to their best judgment. The grant of a proxy will also confer discretionary authority on the persons named in the proxy as proxy appointees to vote in accordance with their best judgment on matters incidental to the conduct of the special meeting.

THE CONVERSION

The following discussion summarizes the material terms of the plan of conversion. The merger and the merger agreement are integral aspects of the plan of conversion and are separately described under The Merger on page 109 and The Merger Agreement on page 126. APSG shareholders and APIE subscribers should read carefully the plan of conversion, which is attached as Annex B to this joint proxy statement/prospectus and is incorporated into this joint proxy statement/prospectus by reference.

General

As a condition to the merger, APIE must first be converted from a Texas reciprocal insurance exchange into a Texas stock insurance company because APIE, as a reciprocal insurance exchange, has no authorized, issued or outstanding capital stock. Instead, APIE s subscribers, through their subscriber agreements, have rights to the distribution of APIE s assets after repayment of liabilities upon its liquidation or dissolution. Pursuant to the plan of conversion, APIE will be converted to a stock insurance company and the APIE policyholders and holders of refundable deposit certificates will become entitled to receive capital stock of the converted entity, which will change its name to American Physicians Insurance Company, or APIC, upon the effectiveness of the conversion. All APIE subscriber interests will be extinguished upon completion of the conversion.

Background to the Conversion

The conversion is only being proposed because it is necessary to effect the merger. The refundable surplus certificates do not impact the APIE policyholders, upon conversion, but the agreed value of the refundable surplus certificates reduces the amount of APSG common stock to be received by the APIE policyholders as merger consideration. For further discussion of the background of the conversion and merger consideration, see The Merger Background of the Merger on page 109.

Conversion Consideration

APIC Common Stock. At the effective time of the conversion, APIE subscribers and other eligible insureds, collectively referred to as the APIE policyholders, will become entitled to receive their portion of 10,000,000 shares of APIC common stock pursuant to a conversion formula based upon both the total number of APIE subscribers and the relative earned premium attributable to the APIE policyholders over the three-year period prior to June 1, 2006.

For purposes of receiving APIC common stock in the conversion, APIE subscribers are physicians who hold medical professional liability insurance contracts underwritten by APIE and who have an effective subscriber agreement and power of attorney as of June 1, 2006, or the record date, which remain effective as of the effective time of the conversion. Other eligible insureds are non-physician health care providers, such as certified registered nurse anesthetists, physicians assistants and nurse midwives, who were as of June 1, 2006 and are at the effective time of the conversion premium paying policyholders or are former subscribers who have obtained an extended reporting endorsement (tail coverage) from APIE within the last three years.

In the conversion, each APIE subscriber will become entitled to receive an equal pro rata share of 3,000,000 shares, or 30% of the total APIC common stock. In addition, the APIE subscribers and the other eligible insureds will each become entitled to receive a portion of the remaining 7,000,000 shares, or 70% of the total APIC common stock, which will be allocated based upon the relative earned premiums attributable to such APIE policyholder s policy issued by APIE over the three-year period prior to June 1, 2006. The calculation of earned premium will exclude maintenance fees and legal defense premiums. For example, if an APIE subscriber, one of 3,832 eligible APIE subscribers as of June 1, 2006, has earned premiums attributable to that subscriber s APIE policy equal to 0.04240% of the total earned premiums of APIE, the eligible subscriber would receive 3,750.88 shares out of a total 10,000,000 shares of APIC common stock in the conversion, calculated as follows:

$$\frac{(30\% \text{ x } 10{,}000{,}000)}{3832} + (70\% \text{ x } 10{,}000{,}000 \text{ x } 0.04240\%) = 3750.88$$

The APIC common shares received by APIE policyholders who are not subscribers but are either premium paying policyholders or former subscribers who have earned or paid for an extended reporting endorsement (tail coverage) would be calculated slightly differently, since they will not receive a pro rata portion of 3,000,000 shares of APIC common stock, but they will receive a portion of 7,000,000 shares of APIC common stock based upon the relative earned premiums attributable to such APIE policyholder s policy issued by APIE. For example an APIE policyholder who is not a subscriber who has earned premiums attributable to that APIE policyholder s APIE policy equal to 0.0249% of the total earned premiums of APIE would receive 1,743 shares out of a total 10,000,000 shares of APIC common stock, calculated as follows:

(70% x 10,000,000 x 0.0249%) = 1743.00

The holders of APIC common stock, who after the merger will only be APSG, will be entitled to receive ratably, from funds legally available for the payment thereof, dividends when and as declared by resolution of APIC s board of directors, subject to any preferential dividend rights which may be granted to holders of any preferred stock authorized and issued by APIC. Pursuant to its regulatory authority, the Texas Department of Insurance will prohibit APIC from paying dividends to APSG on the APIC common stock, or redeeming any of the APIC preferred stock that will be held by APSG, in any fiscal year unless and until APSG has complied with the redemption and dividend payment obligation to the holders of APSG Series A redeemable preferred stock for that year. APSG has agreed that, without prior approval of the Texas Department of Insurance, aggregate annual dividends on APIC common stock and payments made to redeem APIC preferred stock held by APSG may not exceed the lesser of 10% of APIC s prior year-end policyholder surplus or APIC s prior year net income, and in no event may exceed APIC s earned surplus. By way of illustration, if this dividend and redemption restriction had been in place in 2003, 2004 and 2005, possible dividends for those years would have been limited to $202,305, $357,268 and $870,465, respectively.

APIC Series A Redeemable Preferred Stock. From APIE s inception in 1975 through March 1992, eligible health care providers desiring to purchase insurance through APIE were required to make a refundable deposit that became part of a surplus, required to be maintained under the Texas Insurance Code to offset underwriting losses. The amount of refundable deposit made by subscribers varied during this period based on the medical specialty and the surplus requirements of APIE. Subscribers who made refundable deposits received certificates recognizing the amount contributed.

The subscribers who made refundable deposits received certificates reflecting their contribution. Under the terms of these certificates, the deposits do not become refundable until the later of (i) the expiration of a 24-month waiting period from the date of the deposit, or (ii) such time as the APIE board of directors determines that APIE has a surplus that exceeds minimum surplus amounts determined by the board of directors to be necessary for APIE s operations and pursuant to any agreements with the Texas Department of Insurance. The refundable deposit certificates are non-transferable. As of September 30, 2006, the total balance of the refundable deposits outstanding was $10,295,000.

In the conversion, holders of refundable deposit certificates will become entitled to receive shares of APIC s Series A redeemable preferred stock. Pursuant to the terms of the plan of conversion, each APIE holder of a refundable deposit certificate will become entitled to receive one share of Series A redeemable preferred stock of APIC for every $1,000 of unreturned surplus contributions evidenced by the outstanding balance on APIE s books as of the closing date of the conversion. Fractional shares of APIC Series A redeemable preferred stock will be issued as necessary.

The APIC Series A redeemable preferred stock will have terms which are the same as the APSG Series A redeemable preferred stock, except that the APIC Series A redeemable preferred stock will be non-voting stock and the 3% dividend will begin to accrue three days following issuance rather than upon issuance.

Conversion of APIE Policyholders and Holders of Refundable Deposit Certificates Interests

APIE policyholders and holders of outstanding refundable deposit certificates that become entitled to receive shares of APIC common stock or Series A redeemable preferred stock in the conversion will not receive

such APIC shares. Instead, shares of APIC common stock and Series A redeemable preferred stock will represent the right to receive the applicable consideration in the merger. See The Merger Merger Consideration on page 123 and The Merger Agreement Exchange of Shares; Fractional Shares on page 131.

Conditions of the Conversion

The conversion will not be consummated unless all of the following conditions are met:

Regulatory Approvals. APIE is subject to the laws and regulations of the State of Texas applicable to reciprocal insurance exchanges and, in accordance therewith, the Commissioner of the Texas Department of Insurance must give its approval of the conversion and the merger. APIE has filed an Application to Convert to a Stock Insurance Company with the Commissioner that describes the conversion and contains other information required by the Texas Insurance Code. APIE has provided notice to APIE policyholders informing them of their right to provide the Commissioner with comments on the plan of conversion. APIE and the Commissioner also provided APIE policyholders, holders of outstanding refundable deposit certificates and other interested parties notice of a hearing to consider the fairness of the exchange of the APIE policyholders interests for shares of APIC common stock and the rights to repayment from APIE s refundable surplus for shares of APIC Series A redeemable preferred stock, and to consider the testimony presented and information filed by interested parties, APSG and APIE. This hearing was held on September 13, 2006, in the public hearing room of the Texas Department of Insurance in Austin, TX. See Regulatory Filings and Approvals Required to Complete the Conversion and Merger on page 137. Subsequent to the conclusion of the hearing, the Commissioner will issue its findings regarding the plan of conversion.

Subscriber Approval. The conversion and subsequent merger cannot be consummated until approved by APIE subscribers. Under APIE s bylaws, only current subscribers are entitled to vote on APIE matters requiring a vote of the subscribers of APIE. Former subscribers with refundable deposits on hand as of the date of record are not entitled to vote on the conversion and merger nor are they entitled to dissenters rights of appraisal under applicable Texas law. Each current subscriber is entitled to one vote, regardless of the number or the value of APIE policies held by such subscriber. Approval of the conversion and the merger requires the affirmative vote, in person or by proxy, of at least two-thirds of the APIE subscribers. For more information on voting requirements, see The APIE Special Meeting on page 102.

Tax Matters. Pursuant to the terms of the plan of conversion, the conversion cannot be consummated until APIE receives either a ruling from the Internal Revenue Service or an opinion from APIE s tax advisors with respect to the tax treatment of the conversion and the merger. APIE has received an opinion from Deloitte Tax LLP to the effect that the merger and the conversion should each qualify as a tax free reorganization to APSG, APIC and APIE, under Section 368(a) of the Internal Revenue Code. The conversion should be tax free to persons solely receiving APIC common stock but it may be taxable to persons receiving APIC Series A redeemable preferred stock in the conversion. Additionally, in the merger, holders of APIC common stock should recognize gain or loss attributable to their receipt of cash instead of fractional shares of APSG common stock. Fractional shares of APSG Series A redeemable preferred shares will be issued to holders of APIC Series A redeemable preferred stock in the merger, as necessary. The opinion of Deloitte Tax LLP is subject to several qualifications and is not binding on the Internal Revenue Service, and the Internal Revenue Service could successfully assert a position contrary to that set forth in the opinion. A copy of this opinion is attached as Annex C. Tax matters are very complicated and the tax consequences of the conversion and the merger to you will depend on the facts of your particular situation. You should consult your own tax and legal advisors for a full understanding of the tax consequences of the conversion and the merger to you.

Merger Conditions. The conversion will not become effective unless all of the conditions of the merger agreement have been met, and the merger will not become effective unless all of the conditions of the plan of conversion have been met. See The Merger Agreement Conditions to the Completion of the Merger on page 126.

Recommendation of the APIE Board of Directors

At its meeting on June 1, 2006, after careful consideration, the APIE board of directors adopted and approved the plan of conversion and merger agreement with APSG and authorized the execution of these documents. The APIE board of directors determined that adoption of the plan of conversion and merger agreement with APSG is advisable and in the best interests of APIE and its policyholders. At its meeting on August 18, 2006, the APIE board of directors approved amending the merger agreement to (a) increase the purchase price for the acquisition of APIE pursuant to the merger from $33,000,000 to $39,000,000, such increase to consist of approximately 300,000 more APSG common shares and the addition of a 3% cumulative dividend to the shares of APSG Series A redeemable preferred stock and APIC Series A redeemable preferred stock; and (b) change the date after which, if the merger has not yet been consummated, either party may terminate the merger agreement from December 31, 2006 to March 31, 2007. The dividends on the shares of APSG Series A redeemable preferred stock and APIC Series A redeemable preferred stock shall be paid out of funds legally available for such purpose, shall compound annually and shall accrue at the rate of 3% per annum of the redemption price of such stock, which redemption price shall be $1,000 per share, adjusted accordingly for fractions of a share. The dividends shall not have any regular dividend payment date, but rather shall be paid on dates fixed by the board of directors of APSG or APIC, as applicable. The dividends shall be payable in cash. The dividends on each share of APSG Series A redeemable preferred stock and APIC Series A redeemable preferred stock shall accrue from the date of issuance, and shall be cumulative, which means that no dividends may be paid with respect to any shares of common stock of APSG or APIC, as applicable, unless all accrued dividends have been paid at some point within the last twelve months with respect to that company s shares Series A Redeemable Preferred Stock. In addition, the Texas Department of Insurance, pursuant to its regulatory authority, will prohibit APIC from paying dividends to APSG on the APIC common stock, or redeeming any of the APIC preferred stock that will be held by APSG, in any fiscal year unless and until APSG has complied with the redemption and dividend payment obligation to the holders of APSG Series A redeemable preferred stock for that year. APSG has agreed that, without prior approval of the Texas Department of Insurance, aggregate annual dividends on APIC common stock and payments made to redeem APIC preferred stock held by APSG may not exceed the lesser of 10% of APIC s prior year-end policyholder surplus or APIC s prior year net income, and in no event may exceed APIC s earned surplus. By way of illustration, if this dividend and redemption restriction had been in place in 2003, 2004 and 2005, possible dividends for those years would have been limited to $202,305, $357,268 and $870,465, respectively. The APIE board also authorized the execution of any amendments to the transaction documents to effect the approved changes. The APIE board of directors recommends that subscribers vote FOR the approval and adoption of the plan of conversion and merger.

THE MERGER

The following discussion summarizes the material terms of the merger and the merger agreement. Shareholders and subscribers should read carefully the merger agreement, which is attached as Annex A to this joint proxy statement/prospectus and is incorporated into this joint proxy statement/prospectus by reference.

General

On June 1, 2006, the APIE board of directors adopted the plan of conversion and approved the merger agreement. The APSG board of directors also approved the merger agreement on May 30, 2006.

The plan of conversion and the merger agreement provide that APIE will convert into a Texas stock property and casualty insurance company and will change its name to American Physicians Insurance Company, or APIC. APIC will then merge with APSG ACQCO, Inc., a wholly owned subsidiary of APSG. APIC will be the surviving company after the merger and will be wholly owned by APSG.

In the merger, persons entitled to receive APIC common stock and Series A redeemable preferred stock in the conversion will receive shares of APSG common stock and Series A redeemable preferred stock for each share of APIC common stock and Series A redeemable preferred stock that they were entitled to receive in conversion. APIC common stock will be exchanged for APSG common stock pursuant to an exchange ratio to be calculated prior to the effectiveness of the merger. APIC common shareholders will receive cash for any fractional shares which they would otherwise receive in the merger. APIC Series A redeemable preferred stock will be exchanged for APSG Series A redeemable preferred stock on a one-for-one basis. APSG Series A redeemable preferred stock will be issued, as necessary, in fractional shares, and no cash payments will be made for fractional shares of the preferred stock. The APSG common stock issued in the merger will be authorized for listing on the NASDAQ, subject to official notice of issuance, before the completion of the merger. The shares of APSG common stock and Series A redeemable preferred stock will be subject to a 180-day lock-up period commencing on the closing of the merger, during which time the common and preferred shares issued by APSG in the merger will be held in escrow or subject to similar arrangements such that the shares cannot be traded for 180 days.

APSG and APIE are working towards completing the merger as quickly as possible and expect to complete the merger in the fourth quarter of 2006. See The Merger Agreement on page 126.

Background of the Merger

One of the main goals of the board of directors of APIE is to build on its foundation of 30 years of continuous insurance coverage for Texas and Arkansas physicians and to continue to build on the financial strength of APIE. Periodically, the board of directors of APIE has discussed alternatives to growth and strategies to continually strengthen APIE. Over the last several years, the APSG board of directors and its management team have also discussed the benefits to shareholders of expanding the company to better utilize its financial and personnel resources. However, in evaluating opportunities and alternatives for growth, the strategy of APSG has most recently been to stay within its general areas of expertise in the insurance and financial services sectors.

In April 2005, prior to this plan of conversion and merger, APSG held preliminary discussions with another medical professional liability insurance company about the possibility of acquisition. The APSG board of directors discussed this potential acquisition at its meeting on May 26, 2005 and management presented a plan of acquisition to the insurance company on June 10, 2005. On July 11, 2005, APSG was informed that a competing offer had been accepted and it ceased its due diligence.

In late August 2005, Dr. Norris Knight, Chairman of the APIE board and Dr. Greg Jackson, Medical Director of APIE approached Mr. Ken Shifrin, Chairman and Chief Executive Officer of APSG, concerning the possible combination of APSG and APIE. APSG has served as the attorney-in-fact of APIE through its wholly

owned subsidiary, FMI (the attorney-in-fact). The concept of combining APIE and APSG would be the natural evolution of two companies founded simultaneously with similar purposes of providing services to physicians. APIE, as a subsidiary of a public company, would have access to capital and would retain physician involvement in APIC.

On September 7, 2005, the APSG board of directors held an initial discussion of the positive and the negative aspects for both APSG and APIE of such a combination. At this meeting the APSG board agreed to have Mr. Shifrin begin preliminary discussions with APIE regarding a transaction.

On September 29, 2005, at a meeting of the board of directors of APIE, Ken Shifrin, Chairman and Chief Executive Officer of APSG, made a presentation concerning the potential benefits of a combination of the two companies. Mr. Shifrin discussed the concept of a potential combination, the method of combination, the benefits and negative aspects of such a combination, the post merger organization, the due diligence requirements and the sequence of events that would be required to achieve a combination of the two companies. Dr. Richard Shoberg, an APIE board member, suggested that the APIE board hire an outside firm to assist in determining an appropriate valuation of the company. Representatives of APSG then left the meeting and the discussion continued. The importance of maintaining the APIE philosophy and physician board involvement was discussed and was considered a critical component for the combination of the two companies to occur. A vote was received in favor of proceeding forward with consideration of the transaction. Dr. Norris Knight, Chairman of the APIE board, appointed a special ad hoc committee to include himself and other board members, Dr. Greg Jackson, Dr. William Peche and Dr. Richard Shoberg. Also appointed was Duane Boyd, then a consultant to the APIE board.

On October 13, 2005, a teleconference of the APIE ad hoc committee was held to begin discussions of the initial concepts relative to the potential combination of APIE and APSG. Specific items regarding retaining physician involvement within the combined company were discussed as well as the need to evaluate and retain outside counsel and financial advisors to represent APIE.

On October 20, 2005, Dr. Knight and Mr. Boyd conducted a teleconference with Mr. Clarke Heidrick, a shareholder in the firm of Graves Dougherty Hearon and Moody P.C., or Graves Dougherty, to discuss the qualifications of the firm and the firm s ability to represent APIE regarding the transaction. In late October 2005, Graves Dougherty was retained as legal counsel to represent APIE.

On November 3, 2005, Mr. Shifrin and Dr. Knight met at APIE offices in Austin, Texas to discuss physician involvement after a potential combination of the two companies.

On December 7, 2005, the APSG board of directors discussed the potential merger. Mr. Shifrin reported that APIE had begun the process of selecting a financial advisor.

On December 9, 2005, an executive session was held following a meeting of the APIE board of directors to discuss the potential conversion and merger with APSG.

On December 19, 2005, Dr. Knight, Mr. Boyd and representatives from Graves Dougherty met to discuss the transaction and the concepts of the potential combination. Specific discussions regarding corporate governance, physician involvement and APIE representation on the APSG board were discussed.

On December 22, 2005, a meeting of the special ad hoc committee was held at the APIE offices in Austin, Texas. Present at the meeting were all committee members, Mr. Shifrin and Maury Magids, President of the Attorney-in-Fact, attorneys from Akin Gump Strauss Hauer & Feld LLP, or Akin Gump, outside counsel to APSG and Graves Dougherty, outside counsel to APIE. Mr. Shifrin outlined the benefits and risks of a potential combination of APIE and APSG. The discussion between the parties about the structure of the transaction was based upon the importance of having the transaction qualify as a tax free reorganization and for continued physician involvement in the business. The parties concluded that a conversion of APIE, followed immediately by a merger, best allowed them to accomplish both of these objectives. Committee members reviewed an initial term sheet at the meeting that had been prepared by the ad hoc committee with the advice of APIE s legal

counsel. APIE committee members stressed the importance of physician involvement highlighting that the integration of physician and management of the attorney-in-fact had been the cornerstone of the success of APIE. Also, discussed was the importance of the role of the medical director in the future of the combined company. Dr. Knight requested that legal counsel draft a term sheet with the changes discussed by the ad hoc committee relating to continued physician involvement so that it could be sent out to APIE board members prior to the next board meeting on January 5, 2006. APSG representatives were excused from the meeting and then a decision was made by the ad hoc committee to proceed with a recommendation to the APIE board of directors on January 5, 2006 to continue to pursue a potential combination of APIE and APSG.

On January 5, 2006, a meeting of the APIE board of directors was held at the APIE offices in Austin, Texas. Present at the meeting were all current board members, as well as Dr. Michael Green and Mr. Boyd and outside counsel for both APIE and APSG. Representatives from the attorney-in-fact included Mr. Magids, Mr. Shifrin and Marc Zimmermann, Chief Financial Officer. Dr. Knight proceeded with a brief discussion of the ad hoc committee meetings that had been held previously. Mr. Shifrin gave a presentation reviewing the benefits and potential risks of the combination. The APIE board discussed the importance of engaging an investment banking firm to provide a fairness opinion to the board. Mr. Heidrick of Graves Dougherty then provided an overview regarding the term sheet. APSG representatives were then excused from the meeting. There was a ballot vote of APIE board members and it was agreed to proceed with the potential combination of APIE and APSG.

In late January, 2006, Mr. Magids and Mr. Zimmermann held a meeting with representatives from the Texas Department of Insurance discussing the intention of APSG and APIE to pursue the plan of conversion and the plan of merger. Additionally, the goal of the meeting was to gather a list of items that would be needed in order to properly file the plan of conversion and related exhibits with the Texas Department of Insurance.

On February 2, 2006, Dr. Knight and Mr. Boyd interviewed three investment banking firms at the APIE offices, in Austin, Texas. Also, in attendance were Mr. Shifrin and Mr. Magids. Prior to selecting these firms, the board had received information from seven firms and narrowed its selection to three firms to choose from to serve as its financial advisor.

On February 9, 2006, the APIE ad hoc committee met via teleconference to discuss a possible presentation to the Texas Department of Insurance regarding the conversion and merger. Present at the meeting were all committee members; Jay Thompson, a Partner with the law firm, Thompson, Coe, Cousins and Irons LLP, or Thompson Coe, regulatory counsel for APIE; and Mr. Shifrin, Mr. Magids and Mr. Zimmermann with APSG. Mr. Thompson recommended that preliminary discussions begin with the Texas Department of Insurance concerning the conversion and merger in particular around the treatment of refundable deposit holders.

Also on February 9, 2006, a meeting of the board of directors of APIE was held via teleconference call. Also invited to participate at the meeting were Mr. Boyd as well as Mr. Shifrin and Mr. Magids. The purpose of the meeting was to discuss three items: 1) how to handle the refundable deposits as part of the conversion and merger, 2) selection of an investment bank to issue a fairness opinion to the board of directors of APIE, and 3) converting to GAAP accounting for purposes of future necessary SEC filings. The APIE board of directors discussed several alternatives for handling the refundable surplus deposits upon conversion, including continuing with the plan approved by the Texas Department of Insurance, requesting permission to increase the annual payments above the then approved amounts, and paying the refundable surplus deposits in full. The option of paying the refundable surplus deposits in full was rejected due to the adverse effect the payments would have on APIE s required surplus and the adverse tax implications for the overall transaction. The board decided to proceed with the current approved payback plan unless the Texas Department of Insurance was not amenable to this approach. The APIE board also approved Raymond James and Associates, Inc., or Raymond James at this meeting as its financial advisor and also agreed to proceed with converting the statutory financial statements to GAAP financial statements.

On February 15, 2006, APIE entered into an agreement with Raymond James to provide a fairness opinion on the transaction and to advise the board concerning the conversion and merger.

At its meeting on February 17, 2006, the APSG board of directors discussed the preliminary meeting with the Texas Department of Insurance in late January, 2006 for the purpose of determining whether to continue moving forward with the transaction. The board decided to engage an insurance industry tax specialist, Simkin CPA, for a preliminary tax assessment. It was subsequently determined that the preliminary results mirrored those of APIE s tax advisor and that APSG had sufficient information to make an informed judgment regarding the tax considerations of the merger without incurring the expense of a final analysis by Simkin CPA. The APSG board also discussed the need to prepare the legal documents. The APSG board also considered the need to hire its own financial advisor, but determined that its thirty year history of managing APIE gave it sufficient knowledge to make an evaluation on its own.

On March 1, 2006, Dr. Knight, Dr. Jackson and Mr. Thompson representing APIE and Mr. Magids representing APSG met with the Texas Department of Insurance to discuss the treatment of refundable deposit certificate holders as part of the plan of conversion. It was requested that APIE provide to the department a memo addressing its approach towards repayment of this obligation.

On March 2, 2006, a meeting of the ad hoc committee took place at the offices of APIE in Austin, Texas, with legal counsel for APIE participating. The purpose of the meeting was to meet with representatives from Raymond James. During the meeting, Raymond James addressed conversion issues and valuation considerations including an initial discussion of valuation. Raymond James also discussed alternatives for adjusting consideration based on changes in APSG share price. Additionally, they discussed alternatives for terminating the transaction for substantial changes in APSG s share price. It was proposed to allow for either party to terminate the agreement if APSG s share price increased or decreased by more than 25% before the closing. A lock-up period of 180 days after closing was discussed in which APSG shares exchanged in the transaction could not be sold or transferred.

During its board meeting on March 22, 2006 the APSG board of directors continued to review the merger with APIE. The APSG board met with legal counsel to discuss a transaction timeline and critical steps, reviewed expense estimates to complete the transaction and reviewed pro forma financial statements of the combined entities.

On March 29, 2006, the special ad hoc committee of APIE met to discuss changes needed to ensure that the merger would be a tax free reorganization. Also, present at the meeting were representatives from Graves Dougherty, legal counsel to APIE.

On April 1, 2006, a conference call was held with several members of the APIE board briefing them on the recent tax considerations and updating them on potential changes to the transaction.

On April 20, 2006, a meeting of the board of directors was held at the APIE offices in Austin, Texas. Mr. Shifrin presented revised proposals to the board of directors of APIE designed to ensure that the conversion and merger transaction would qualify as tax free reorganizations. Mr. Shifrin specifically discussed the post-merger organizational structure as well as the advisory services concept which would allow for continued physician involvement in the newly formed company after completion of the merger while maintaining the tax-free status of the transaction. Mr. Heidrick of Graves Dougherty, outside counsel to APIE, then proceeded with a presentation highlighting the advisory services concept and the differences between the previous discussions by the APIE board regarding physician involvement in the combined company after the merger and the newly proposed advisory concept. The significant revisions to the structure of the advisory services agreement which were discussed were being made in response to tax considerations for qualifying as tax free reorganizations. Representatives from Raymond James gave an update on its progress regarding the fairness opinion as well as general comments on the transaction including the benefits to APIE. After significant discussion regarding the benefits of the transaction to current policyholders and former subscribers with refundable deposits, the APIE board voted to continue to proceed with the possible conversion and merger. It was recommended that APIE hire its own tax advisors to evaluate the transactions, and the Board of Directors approved Deloitte Tax LLP to serve in this capacity.

Over the course of the next month, a significant number of discussions were held via teleconference in which counsel for both parties, representatives of APSG and APIE, and from time to time Raymond James, met to discuss and negotiate terms of the transaction. In late May 2006, after a significant number of discussions, APSG and APIE agreed to the terms regarding the plan of conversion and plan of merger and it was agreed that the total purchase price would be $33 million and would include approximately 1,700,000 shares of APSG common stock issued to the eligible policyholders of APIE and the assumption of $10,400,000 in refundable deposits, which will be converted to APSG Series A redeemable preferred stock. It was agreed by both parties that the above terms would be presented at each company s board meeting for approval.

On May 30, 2006 the board of directors of APSG met to discuss the documents that had been negotiated with APIE to effect the merger and the need to authorize additional shares in the stock option plan to provide for those to be issued in the merger, as well as to meet future compensation needs. Following the discussion the board voted to approve the transaction and authorize the execution of the merger agreement, related transaction documents and the change to the stock option plan.

On June 1, 2006, a meeting of the board of directors of APIE was held at the APIE offices in Austin, Texas. Absent from the meeting was Dr. Freddie Contreas. Also, at the meeting were representatives from Raymond James and outside counsel of APIE including Graves Dougherty and Thompson Coe. Also, invited to the meeting were Mr. Shifrin, Mr. Magids and Mr. Zimmermann of APSG. Mr. Shifrin presented a summary of the transaction terms including the purchase terms, the advisory services agreement, key legal documents of the transaction, critical steps to closing the transaction, the structure of the conversion and merger and the post-merger organizational structure. After this presentation Raymond James presented its fairness opinion to the APIE board of directors. Mr. Boyd who had been serving as a consultant to the APIE board throughout the process also stated that he was in favor of the conversion and merger. A vote was taken and the APIE board of directors voted in favor of the plan of conversion and merger and authorized the execution of the appropriate transaction documents.

Later that afternoon, representatives from APSG and APIE, Raymond James and outside counsel for both parties presented an overview of the plan of conversion and merger agreement to representatives at the Texas Department of Insurance.

On June 5, 2006, APIE filed its plan of conversion with the Texas Department of Insurance, and APSG and APIE issued a joint press release announcing that the merger had been approved by the boards of both companies with a planned fourth quarter 2006 close, subject to approval by the Texas Department of Insurance, required SEC filings and approval by the shareholders and subscribers of the respective companies.

In August 2006, APIE reported solid financial performance for the quarter ended June 30, 2006, a product of steady operating results and positive development on claims reserves and on reinsurance treaties. As a result of the excellent performance, the parties began negotiation to change the merger agreement and, as necessary, the other transaction documents, to: (a) increase the purchase price for the acquisition of APIE pursuant to the merger from $33,000,000 to $39,000,000, such increase to consist of approximately 300,000 more APSG common shares and the addition of a 3% cumlative dividend to the APSG Series A preferred shares; and (b) change the date after which, if the merger has not yet been consummated, either party may terminate the merger agreement from December 31, 2006 to March 31, 2007.

On August 17, 2006, the APIE ad hoc committee met at APIE s annual meeting to consider the proposed changes. Following discussion, the committee voted to approve the changes to the merger agreement and to recommend the changes to the board of directors.

On August 18, 2006 the board of directors of APIE and, via teleconference, its outside counsel and financial advisor, Raymond James, met to discuss the proposed changes to the merger transaction and the ongoing negotiations with APSG. Following the discussion, the APIE board approved the proposed changes and authorized the execution of any amendments to the merger agreement and, as necessary, the related transaction documents, to achieve the proposed changes, subject to the receipt of a satisfactory revised fairness opinion.

On August 15 and, following an adjournment, again on August 22, 2006, the board of directors of APSG, via teleconference, met to discuss the proposed changes to the merger transaction and the ongoing negotiations with APIE. Following the discussion, the APSG board approved the proposed changes and authorized the execution of any amendments to the merger agreement and, as necessary, the related transaction documents, to achieve the proposed changes, subject to APIE receiving a satisfactory revised fairness opinion.

On August 23, 2006 APIE received a revised fairness opinion, dated August 22, 2006, from its financial advisor, Raymond James, indicating that the consideration to be received by the eligible policyholders of APIE pursuant to the revised terms of the conversion and merger agreements is fair, from a financial point of view.

On August 24, 2006, following receipt of an updated fairness opinion from Raymond James, the parties executed an amendment to the merger agreement to effect the changes agreed upon by the parties.

On August 25, 2006, APSG and APIE issued a joint press release announcing the revised terms. APSG also filed a Current Report on Form 8-K with the SEC disclosing the revised terms.

On September 12, 2006, after the merger announcement and the initial filing of the S-4, APSG s board of directors discussed a further amendment to APSG s 2005 Stock Option Plan that would bring the plan into compliance with current standards of corporate governance and would be a natural extension of the amendment approved during the merger discussions. Accordingly, the board agreed to amend the plan to eliminate the provision that allows the board discretion on purchasing or exchanging previously granted options and to seek shareholder approval for that proposal along with the merger proposal.

In October, November and December of 2006, representatives of APSG and APIE, and their legal counsel, met on several occasions with the staff of the Texas Department of Insurance to discuss the conversion and merger. The Texas Department of Insurance s approval of the conversion and merger is conditioned upon APSG maintaining certain funds in escrow and APIC being subject to certain limitations on the payment of dividends to APSG or redeeming the APIC preferred stock that will be held by APSG. APSG will place $2,500,000 in an escrow account with a bank to remain until the aggregate remaining redemption obligation on the outstanding APSG Series A redeemable preferred stock is less than the amount of the escrow balance, with no withdrawals to be made from this escrow account without prior approval from the Texas Department of Insurance. Furthermore, pursuant to its regulatory authority, the Texas Department of Insurance will prohibit APIC from paying dividends to APSG on the APIC common stock, or redeeming any of the APIC preferred stock that will be held by APSG, in any fiscal year unless and until APSG has complied with the redemption and dividend payment obligation to the holders of APSG Series A redeemable preferred stock for that year. APSG has agreed that, without prior approval of the Texas Department of Insurance, aggregate annual dividends on APIC common stock and payments made to redeem APIC preferred stock held by APSG may not exceed the lesser of 10% of APIC s prior year-end policyholder surplus or APIC s prior year net income, and in no event may exceed APIC s earned surplus. By way of illustration, if this dividend and redemption restriction had been in place in 2003, 2004 and 2005, possible dividends for those years would have been limited to $202,305, $357,268 and $870,465, respectively.

APSG did not consider any alternative transactions. APSG determined that acquiring APIE, its joint venture partner, would strengthen APSG and enhance its growth opportunities. Further, there was limited due diligence risk, as APSG personnel thoroughly understood the business of APIE.

APIE did not consider any alternative transactions. The ability of APIE to be acquired by another party was limited because:

- APIE only had two employees and was dependent on APSG to manage its operations.
- APIE s ability to terminate its management agreement with APSG was very limited and the management agreement with APSG would make APIE less attractive to other parties.

Further, APIE and APSG have been joint venture partners since their formation, approximately thirty years ago. Both companies and their respective boards of directors work well together and APIE s board of directors had concluded that being acquired by APSG would increase the likelihood that the physician orientation of APIE would be maintained.

APIE Considerations Relating to the Merger and the Share Issuance

As a reciprocal insurance exchange, APIE cannot access capital or surplus through stock offerings. The APIE board believes that the conversion and merger will allow the company to continue to prosper through the ability to access capital through public markets and that the policyholders will benefit from outside capital in addition to what is being generated by its stand-alone financial performance.

The APIE board views access to capital as a component for the company to grow and to compete in a changing marketplace. Additional capital will only further strengthen the company and provide a platform for growth by increasing market capacity. Furthermore, the APIE board anticipates that the conversion and merger, if approved, will allow the company to pursue and eventually achieve meaningful ratings with A.M. Best and other rating agencies. The company s ability to achieve a meaningful A.M. Best rating will further enhance the converted company s ability to write insurance for more medical professionals that may be required to purchase insurance from a Best rated carrier.

Equally important in the APIE board s evaluation of this transaction was the continued involvement of the physicians in the combined entity after the merger. Through the Advisory Services Agreement, physician insureds will continue to be very involved in an advisory capacity in all areas of the insurance business including claims, underwriting, and risk management. Insured physicians will continue to have the opportunity to meet with the board of directors through its physician liaison committee. Furthermore, two current APIE board members, Dr. Norris Knight and Dr. William Peche, will join the APSG board of directors after the merger.

The APIE board also evaluated a number of other factors in its determination to approve the plan of conversion and the merger:

- The board believes that the plan of conversion and merger agreement significantly improves the repayment of refundable deposits to the current holders of these instruments. Pursuant to the plan of conversion, holders of outstanding refundable deposits will receive Series A mandatorily redeemable preferred stock of APSG, to be redeemed ratably at $1,000,000 per year. From the beginning of 2001 through September 30, 2006, APIE had only repaid an aggregate of $712,400 in refundable deposits.

- Each APIE policyholder will receive publicly traded common stock as part of the merger, in contrast to the illiquid nature of subscriber interests in a reciprocal insurance exchange. In addition, APIE policyholders will collectively own approximately 43% of APSG s common stock upon the consummation of the merger. The APIE board believes that having 43% ownership will be beneficial to the APIE policyholders in that collectively, the APIE policyholders will be able to exert significant influence over APSG policy and voting decisions.

- The board of directors believes that other insurers that are organized as stock companies possess a competitive advantage over APIE because stock companies have access to capital markets and are more recognized and accepted in the business community than reciprocal exchanges.

- The opinion of the financial advisor that the consideration to be received pursuant to the plan of conversion and merger agreement is fair, from a financial point of view, to the eligible policyholders.

- The expected treatment of the conversion and merger as tax free reorganizations for APSG, APIC and APIE.

Index to Financial Statements

The board of directors of APIE also considered certain potential risks of the conversion and merger, including the following:

- The effort, time and expense of the conversion and merger process could be potentially disruptive to the operations of the APIE.

- APSG common stock is currently thinly traded and it may prove difficult for APIE subscribers to sell the APSG common stock received in the merger at the quoted market prices.

- The regulatory approval required for the transactions to close may jeopardize or postpone the merger, result in additional expense or reduce the anticipated benefits from the transactions.

- In addition to filing financial reports based on statutory accounting principles as required by the Texas Department of Insurance, APIC will also be required to incur the cost to prepare and file financial reports in accordance with GAAP.

- The APIE board of directors would not have the same level of control over APIE decisions after the merger.

In conclusion, the APIE board believes that approval of the conversion and merger will enhance the ability of the company to continue as a reliable, stable insurance provider for physicians, offering the company high quality services and insurance products.

Recommendation of the APIE Board of Directors

At its meeting on June 1, 2006, after careful consideration, the APIE board of directors adopted and approved the plan of conversion and merger agreement with APSG and authorized the execution of these documents. The APIE board of directors determined that adoption of the plan of conversion and merger agreement with APSG is advisable and in the best interests of APIE and its policyholders. At its meeting on August 18, 2006, the APIE board of directors approved amending the merger agreement to (a) increase the purchase price for the acquisition of APIE pursuant to the merger from $33,000,000 to $39,000,000, such increase to consist of approximately 300,000 more APSG common shares and the addition of a 3% cumulative dividend to the shares of APSG Series A redeemable preferred stock and APIC Series A redeemable preferred stock; and (b) change the date after which, if the merger has not yet been consummated, either party may terminate the merger agreement from December 31, 2006 to March 31, 2007. The APIE board also authorized the execution of any amendments to the transaction documents to effect the approved changes. The APIE board of directors recommends that subscribers vote FOR the approval and adoption of the plan of conversion and merger.

APSG Considerations Relating to the Merger and the Share Issuance

After careful consideration, the APSG board of directors determined that the merger with APIE is in the best interests of APSG and its shareholders. Among other things, the following factors supported the decision to approve the merger:

- The merger is consistent with plans to grow APSG within areas of existing expertise.

- Growth opportunities would be enhanced for APIE. While it did not quantify the growth due to the uncertainty of future opportunities, the board believes that an improved capital structure will create opportunities to attract additional policyholders that currently might restrict their choice of a medical malpractice provider to larger, rated carriers and could allow APIE to expand outside of its current markets. The APSG board of directors also believes that to sustain this potential growth, additional capital will be needed and that having access to the public market will provide a venue for raising it in a cost effective manner.

With a thirty year history of managing the operations of APIE and with a close working relationship with its directors, a smooth transition, without corporate culture differences or financial unknowns, is likely.

The merger is expected to have a positive impact on certain key financial ratios. In reviewing pro forma financial information, the board noted a pro forma increase in book value per share at December 31, 2005 from $9.95 to $11.78. They also noted that diluted earnings per share for the year ended December 31, 2005 showed an increase from $1.86 to $2.83 per share on a pro forma basis.

APSG s board of directors recognized that there are risks associated with the merger and considered, among other things, the following risks:

The effort, time and expense of the merger process could be potentially disruptive to the operations of the entities.

APSG s earnings could be more volatile as a result of being impacted directly by insurance cycles. Presently APSG collects a base management fee from APIE which is not dependent on APIE s profitability. This partly insulates APSG from the years in which APIE could have pretax losses. After the merger APSG will consolidate the net income or loss from APIE and thus its earnings will be exposed to swings in insurance industry cycles.

APSG would be subject to additional regulatory requirements.

There is no certainty that the conditions contained in the merger agreement will be satisfied and the merger consummated.

In addition to filing financial reports based on statutory accounting principles as required by the Texas Department of Insurance, APIC will also be required to incur the cost to prepare and file financial reports in accordance with GAAP.

Recommendation of the APSG Board of Directors

At its meeting on May 30, 2006, after careful consideration, the APSG board of directors determined that approval of the merger with APIE is advisable and in the best interests of APSG and its shareholders, approved the

merger agreement and merger with APIE and authorized the execution of the merger agreement and related transaction documents. At its meeting on August 22, 2006, the APSG board of directors approved amending the merger agreement to (a) increase the purchase price for the acquisition of APIE pursuant to the merger from $33,000,000 to $39,000,000, such increase to consist of approximately 300,000 more APSG common shares and the addition of a 3% cumulative dividend to the shares of APSG Series A redeemable preferred stock and APIC Series A redeemable preferred stock; and (b) change the date after which, if the merger has not yet been consummated, either party may terminate the merger agreement from December 31, 2006 to March 31, 2007. The APSG board also authorized the execution of any amendments to the transaction documents to effect the approved changes. The APSG board of directors recommends that APSG stockholders vote FOR the approval of the issuance of shares of APSG common stock and Series A redeemable preferred stock in connection with the merger.

Opinion of APIE s Financial Advisor

On February 15, 2006, APIE retained Raymond James to issue a fairness opinion in connection with a series of transactions whereby (i) APIE would convert from a reciprocal insurance exchange under Texas law to a stock insurance company, APIC, and (ii) a subsidiary of APSG would immediately thereafter be merged with and into APIC. In connection with such engagement, APIE requested Raymond James opinion as to the fairness, from a financial point of view, of the aggregate consideration to be received by APIE eligible policyholders as defined in the plan of conversion, pursuant to the plan of conversion and the merger agreement. APIE selected Raymond James based upon its qualifications, expertise and reputation as a nationally recognized investment banking firm.

In connection with Raymond James engagement, Raymond James has delivered to the APIE board of directors its opinion that, based upon and subject to the various considerations set forth in its written opinion dated August 22, 2006, the exchange of the aggregate consideration to be received by the APIE eligible policyholders, pursuant to the plan of conversion and the merger agreement, is fair, from a financial point of view, to the APIE eligible policyholders, as a group. The consideration was agreed upon through arms length negotiations between the parties and Raymond James did not recommend the amount of the consideration to be

paid by APSG. In requesting Raymond James opinion, the APIE board of directors imposed no limitations upon Raymond James with respect to the investigations made or procedures followed by it in rendering its opinion. Raymond James opinion does not address the fairness of consideration to be received by holders of refundable deposit certificates.

The full text of Raymond James opinion, which sets forth, among other things, the assumptions made, procedures followed, matters considered and limits on the review undertaken by Raymond James is attached as Annex D to this proxy statement. APIE subscribers are urged to read the opinion in its entirety. Any description of or reference to Raymond James opinion is subject to, and qualified in its entirety by reference to, full text of such opinion. Raymond James opinion is directed to the APIE Board of Directors and does not constitute a recommendation to any APIE subscriber or any other person as to whether such person should vote to approve the conversion and merger.

In connection with its review of the proposed conversion and merger and the preparation of its opinion, Raymond James, among other things: (i) reviewed the plan of conversion and draft amendment to the plan of conversion; (ii) reviewed the financial terms and conditions as stated in the merger agreement and draft amendment to the merger agreement; (iii) reviewed the Annual Statements of APIE filed with the Texas Department of Insurance for the years ended December 31, 2004 and 2005; (iv) reviewed the Quarterly Statements of APIE filed with the Texas Department of Insurance for the quarters ended March 31, 2006 and June 30, 2006; (v) reviewed the audited financial statements of APIE prepared in accordance with statutory accounting procedures as of, and for the years ended December 31, 2002, 2003, 2004, and 2005; (vi) reviewed the draft audited financial statements of APIE prepared in accordance with GAAP for the years ended December 31, 2003, 2004 and 2005; (vii) reviewed the unaudited financial statements of APIE prepared in accordance with GAAP for the six months ended June 30, 2006; (viii) reviewed the management agreement between APIE and its attorney-in-fact, which is a subsidiary of APSG; (ix) reviewed the reserve reports as of December 31, 2005 and June 30, 2006 of APIE s independent actuarial firm, dated April 7, 2006 and August 7, 2006, respectively; (x) reviewed certain internal financial analyses and forecasts for APIE prepared by its attorney-in-fact; (xi) reviewed certain internal financial analyses and forecasts for APSG as prepared by the management of APSG; (xii) reviewed the business plan and prospects for APIE and APSG, as provided by the attorney-in-fact and APSG, respectively; (xiii) reviewed APSG s Annual Reports filed on Form 10-K for the years ended 2003, 2004, and 2005; (xiv) reviewed APSG s quarterly report filed on Form 10-Q for the six months ended June 30, 2006; (xv) reviewed other APIE and APSG financial and operating information requested from and/or provided by APIE, the attorney-in-fact, and APSG; (xvi) reviewed certain other publicly available information on APIE and APSG; and (xvii) discussed with members of the senior management of the attorney-in-fact and APSG, APIE s independent actuarial firm, and the APIE board of directors certain information relating to the foregoing matters and any other matters which Raymond James deemed relevant to their inquiry. In addition, Raymond James reviewed the financial terms, to the extent publicly available, of certain recent business combinations in the medical malpractice insurance industry, certain demutualizations of insurance companies and the current market environment generally and the medical malpractice insurance industry environment in particular.

Raymond James opinion is necessarily based upon market, economic, financial and other circumstances and conditions existing and disclosed to them as of August 22, 2006 and any material change in such circumstances and conditions would require a reevaluation of its opinion, which Raymond James is under no obligation to undertake.

Raymond James expressed no opinion as to the underlying business decision to effect the conversion or merger, the structure or tax consequences of the conversion or merger or the availability or advisability of any alternatives to the conversion and merger. Raymond James did not structure the conversion or merger, nor did it negotiate the final terms of the plan of conversion or merger agreement. Raymond James did not express any opinion as to the likely trading range of APSG common stock following the merger as contemplated in the merger agreement, which may vary depending on numerous factors that generally impact the price of securities or on the financial condition of APSG at that time. Raymond James opinion is limited to the fairness, from a

Table of Contents

Index to Financial Statements

financial point of view, of the aggregate consideration to be received by the eligible policyholders in connection with the conversion and merger. Raymond James expressed no opinion with respect to any other reasons, legal, business, or otherwise, that may support the decision of the APIE board of directors to approve or consummate the conversion or merger.

Raymond James opinion expressly excludes any opinion as to: (i) the construction of the class of APIE s subscribers and certain other policyholders and former subscribers that are to be included among the eligible policyholders or (ii) the fairness of the consideration to be paid to any individual or group of eligible policyholders in connection with the conversion or merger. Raymond James opinion does not constitute a recommendation to any person as to how such person should vote with respect to the proposals.

In preparing its opinion, Raymond James relied on and assumed the accuracy and completeness of the financial and other information that was provided by APIE, its attorney-in-fact or was publicly available and did not attempt to independently verify the same. Raymond James, with APIE s consent, assumed that forecasts provided by APIE or its attorney-in-fact were reasonably prepared on a basis reflecting the best currently available estimates and judgments of APIE or the attorney-in-fact, and expressed no opinion with respect to such forecasts or the assumptions on which they are based. In addition, Raymond James did not make or obtain any evaluations or appraisals of the properties, assets, liabilities, reserves or surplus of APIE or APSG, nor was Raymond James furnished with any such appraisals. Raymond James was not furnished with any actuarial analysis or reports, except for certain analysis and reports prepared by APIE s actuarial advisors. Raymond James is not an actuarial firm and its services did not include actuarial determinations or evaluations by it or an attempt to evaluate any actuarial assumptions. In that regard, Raymond James has made no analysis of, and expresses no opinion as to, the adequacy of APIE s losses and loss adjustment expense reserves under any state or federal laws relating to bankruptcy, insolvency or similar matters.

In arriving at its opinion, Raymond James did not attribute any particular weight to any analysis or factor considered by it, but rather made qualitative judgments as to the significance and relevance of each analysis and factor. The preparation of a fairness opinion is a complex process involving various determinations as to the most appropriate and relevant methods of financial analysis and the application of those methods to the particular circumstances and, therefore, a fairness opinion is not readily susceptible to partial analysis or summary description. Raymond James arrived at its opinion based on the results of all the analyses it undertook assessed as a whole, and did not draw conclusions from, or with regard to, any one method of analysis. Accordingly, Raymond James believes that its analyses must be considered as a whole and that selecting portions of its analyses, without considering all analyses, would create an incomplete view of the process underlying its opinion.

With respect to the comparison of selected comparable companies, merger and acquisition, and selected demutualization transactions analyses no company utilized as a comparison is identical to APIE and no transaction is identical to the conversion and merger. Such analyses necessarily involve complex considerations and judgments concerning the differences in financial and operating characteristics of the companies and other factors that could affect the acquisition or public trading values of the companies concerned. In conducting its analysis, Raymond James noted several significant factors that cause APIE operations to be meaningfully different than those of the comparable companies and the target companies of the selected merger and acquisition transactions including APIE s dependence on a third party attorney-in-fact to manage its operations; the terms of the management agreement between APIE and the attorney-in-fact that restrict the ability of APIE to unilaterally terminate the management agreement and engage another attorney-in-fact; and APIE s small size, geographic concentration, and leveraged structure. In conducting its analysis, Raymond James also took into consideration the view of APIE s board of directors and the view of senior management of the attorney-in-fact that recent APIE financial results are not sustainable in the long term. They also noted that recent APIE financial results are not in line with present or long term financial performance of the medical malpractice insurance industry as a whole. The board and the senior management of the attorney-in-fact noted that recent APIE financial results were possibly driven by the effects of recent changes in local legislation, which may not yet be fully reflected in current policy pricing. In formulating its opinion, Raymond James placed less emphasis on valuation metrics driven by earnings based multiples.

Summary of Merger Consideration: The conversion and merger provide for APIE eligible policyholders to receive shares of APSG common stock as consideration upon the completion of the merger. The value used to calculate the number of shares to be distributed to eligible policyholders as defined by the plan of conversion and the merger agreement includes the Purchase Price of $39.0 million less the agreed upon value of the APIC Series A redeemable preferred stock issued pursuant to the conversion. The APIE board of directors and APSG negotiated a value of $9.2 million for the APIC Series A redeemable preferred stock, which yielded a value used to calculate the number of shares to be distributed to eligible policyholders of $29.8 million. Based on the announcement price per share of $14.28 defined in the merger agreement, approximately 2.1 million shares will be distributed to eligible policyholders, subject to adjustment as detailed in the merger agreement. For purposes of comparing the transaction value to valuation benchmarks, Raymond James estimated the value of the consideration to be received by eligible policyholders to equal $29.5 million, based on the estimated number of shares to be distributed to eligible policyholders and the 20 day average closing price of shares of APSG through August 21, 2006, the most recent day during which shares of APSG were traded, and included the value of $10.3 million of refundable deposit certificate liabilities to be assumed by APSG. The consideration value may fluctuate based on changes in APSG share price between announcement and closing. See The Merger Merger Consideration on page 123.

Summary of Comparable Companies Analysis: Raymond James compared publicly available historical and projected revenues, operating earnings, net income and capitalization of four publicly held companies in businesses Raymond James believed to be comparable to APIE with certain financial data of APIE. Raymond James used APIE financial data prepared in accordance with statutorily prescribed accounting, or STAT, practices and GAAP as of and for the twelve month period ended June 30, 2006. For the selected companies, Raymond James used the latest available financial information prepared in accordance with GAAP, which was as of and for the twelve month period ended June 30, 2006. The group of selected publicly traded medical malpractice insurance companies consisted of American Physicians Capital, Inc.; FPIC Insurance Group, Inc.; ProAssurance Corporation; and SCPIE Holdings, Inc.

Raymond James reviewed the equity market capitalization of the comparable companies as of August 22, 2006 as a multiple of GAAP common equity as of June 30, 2006 for each of the comparable companies and the stock price of the comparable companies as of August 22, 2006 as a multiple of the following for each of the selected companies: (i) last twelve month net operating income per share as of June 30, 2006; and (ii) 2007 estimated earnings per share. Raymond James then calculated the multiples for the above selected comparable companies and applied the minimum and maximum multiples for those companies to APIE s GAAP common equity as of June 30, 2006, GAAP net operating earnings for the twelve months ending June 30, 2006 and estimated earnings for 2007 to derive imputed ranges of values for APIE. Raymond James calculated an implied value range of $31.2 million to $235.8 million for the consideration.

Although Raymond James included information on the comparable companies in its fairness opinion analysis, it noted that APIE is not comparable to these companies due to many factors including APIE s dependence on a third party attorney-in-fact to manage its operations; the terms of the management agreement between APIE and the attorney-in-fact that restrict the ability of APIE to unilaterally terminate the management agreement and engage another attorney-in-fact; and APIE s small size, geographic concentration, and leveraged structure.

Selected Merger and Acquisition Transactions Analysis: Raymond James reviewed seven merger and acquisition transactions announced since 1998 that involved insurance companies considered by Raymond James to be most comparable to APIE for which public information was available. The selected transactions included the sale of Physicians Insurance Company of Wisconsin, Medical Protective Corp., NCRIC Group, Lion Insurance Co., Professionals Group Inc., MMI Cos., and Tenere Group. The primary business, or a significant portion of these companies business, was in the medical malpractice business. Raymond James noted that the target companies in the selected merger and acquisition transactions were independently operated companies that were not dependent on unaffiliated third parties to manage their operations. In reviewing these transactions, Raymond James evaluated, among other things, the multiple of equity value relative to the acquired company s GAAP common equity for the most recent fiscal period-end, enterprise value relative to the acquired company s statutory net income for the latest twelve-months and the multiple of enterprise value to the acquired company s statutory capital and surplus for the most recent fiscal period-end. Raymond James then applied the minimum and maximum multiples from the transactions to the financial information of APIE for the twelve months ending June 30, 2006 and calculated an implied range of values for the consideration of $19.8 million to $271.7 million.

Selected Demutualization Analysis: Raymond James reviewed financial and operating information for selected companies where value was exchanged for membership interests in a demutualization for which public information was available. The transactions reviewed consisted of the demutualizations of American Physicians Capital, Inc., MIIX Group, NCRIC Group, MEEMIC Holdings, Millers American Group, Summit Holding Southeast, and SCPIE Holdings, Inc. In reviewing these transactions, Raymond James evaluated, among other things, the multiple of equity value relative to the company s GAAP common equity for the most recent fiscal period-end, enterprise value relative to the company s statutory net income for the latest twelve-months and the multiple of enterprise value to the company s statutory capital and surplus for the most recent fiscal period-end.

Raymond James then applied the minimum and maximum multiples from the demutualizations to the financial information of APIE for the twelve months ending June 30, 2006 and calculated an implied range of values for the consideration of $11.3 million to $164.1 million.

Discounted Cash Flow Analysis: Raymond James performed an analysis that estimated the future stream of cash flows of APIE through December 31, 2010, assuming that APIE performed in accordance with the earnings projections for 2006 and the years thereafter, provided by senior management of the attorney-in-fact. To approximate the terminal value of APIE at December 31, 2010, Raymond James applied two methods. The first method approximated terminal value using a range of earnings multiples of 7.0x to 11.0x applied to APIE s 2010 net income. The top end of this selected range reflects earnings multiples observed in the sale transactions of comparable companies. The lower half of this selected range includes a 10% to 20% discount to these observed multiples to reflect APIE s dependence on a third party attorney-in-fact to manage its operations and the terms of the management agreement between APIE and the attorney-in-fact that restrict the ability of APIE to unilaterally terminate the management agreement and engage another attorney-in-fact. The second method approximated terminal value by applying a range of growth rates of 2.0% to 4.0% to the estimated potential 2010 cash distributions of APIE and dividing the result by a percentage equal to the difference between discount rates that ranged from 10.0% to 14.0% and the different growth rates utilized. The selected range of growth rates is based on the historical growth of the medical malpractice insurance industry as a whole. Net premium written in the medical malpractice sector grew by an annualized rate of approximately 2.3% during the ten year period ended 2004 according to industry-wide statistics published by A.M. Best & Company. Each method then subtracted the projected face value of the remaining subscriber surplus deposits. Raymond James then discounted the cash flow stream and terminal values to present values using different discount rates ranging from 10.0% to 14.0%. This analysis indicated an implied range of values for the consideration of $9.9 million to $32.8 million.

The APIE board of directors retained Raymond James based upon the recognized experience and expertise of its investment banking personnel and its reputation as a nationally recognized investment banking firm. Raymond James, as a part of its investment banking and advisory business, is continually engaged in the valuation of investment securities in connection with mergers and acquisitions, public offerings, private placements, and valuations for estate, corporate and other purposes and provides research reports to its clients on many property and casualty insurance companies. The APIE board of directors selected Raymond James as its financial advisor because of its reputation and because of its experience in transactions similar to the conversion and merger.

In the ordinary course of business, Raymond James may trade in the equity securities of APSG for its own account or for the accounts of its customers and, accordingly, at any time may hold a long or short position in such securities.

APIE and Raymond James entered into a letter agreement, dated February 15, 2006, which was amended on August 21, 2006, relating to the services to be provided by Raymond James in connection with the conversion and merger. APIE will pay Raymond James an aggregate fee of $225,000 for services rendered in connection with delivery of the fairness opinion provided to APIE, $50,000 of which is payable at the earlier of the completion of the merger or December 31, 2006. APIE will also reimburse Raymond James for out-of-pocket expenses. The foregoing fees and expenses were payable regardless of whether Raymond James gave APIE a favorable fairness opinion. APIE has agreed to indemnify Raymond James and its affiliated entities, directors, officers, employees, legal counsel, agents and controlling persons against certain costs, expenses and liabilities to which they may become subject arising out of or in connection with their engagement.

Accounting Treatment of the Merger

APSG intends to account for the merger under the purchase method of business combinations with APSG having been deemed to have acquired APIC. This means that the assets and liabilities of APIC will be recorded, as of the completion of the merger, at their fair values and added to those of APSG.

Merger Consideration

The agreed upon aggregate purchase price for the purchase of APIE is $39,000,000. In the merger, APSG common stock will be exchanged for the 10,000,000 shares of APIC common stock issuable pursuant to the conversion. Each share of APIC common stock will be converted into the number of shares of APSG common stock pursuant to an exchange ratio equal to the aggregate purchase price minus an agreed upon current value of the payments that the Texas Department of Insurance determines that APIC must make with respect to the redemption features of the APIC Series A redeemable preferred stock issued pursuant to the conversion, divided by $14.28, divided by 10,000,000. The average closing market price of APSG common stock for the twenty consecutive trading days ending June 6, 2006 was $14.28. For instance, and purely by way of example, if the agreed upon current value of the payments relating to the Series A redeemable preferred stock redemption features equals $9,000,000, the exchange ratio would be 0.210 shares of APSG common stock for every share of APIC common stock, as follows:

$$\left(\frac{(\$39,000,000 \quad \$9,000,000)}{\$14.28} \right) \div 10,000,000 = 0.210$$

APIC common shareholders will receive cash for any fractional shares which they would otherwise receive in the merger.

The merger agreement contains an adjustment provision whereby the exchange ratio will be adjusted, as of the effective time of the merger, in the event the market price of the APSG common stock for the twenty consecutive trading days ending on the business day immediately prior to the closing date of the merger, or the

Table of Contents

Index to Financial Statements

closing market price, is greater than $16.42 or less than $12.14. If the closing market price is greater than $16.42, then the exchange ratio will be equal to the aggregate purchase price minus the agreed upon current value of the payments that APIC must make with respect to the redemption features of the APIC Series A redeemable preferred stock issued pursuant to the conversion, multiplied by 115%, divided by the closing market price, divided by 10,000,000. For instance, and purely by way of example, if the agreed upon current value of the payments relating to the Series A redeemable preferred stock redemption features equals $9,000,000 and the closing market price equals $17.14, the exchange ratio would be 0.201 shares of APSG common stock for every share of APIC common stock, as follows:

$$\left(\frac{(\$39{,}000{,}000 \quad \$9{,}000{,}000) \times 115\%}{\$17.14} \right) \div 10{,}000{,}000 = 0.201$$

If the closing market price is less than $12.14, then the exchange ratio will be equal to the aggregate purchase price minus the agreed upon current value of the payments that APIC must make with respect to the redemption features of the APIC Series A redeemable preferred stock issued pursuant to the conversion, multiplied by 85%, divided by the closing market price, divided by 10,000,000. For instance, and purely by way of example, if the agreed upon current value of the payments relating to the Series A redeemable preferred stock redemption features equals $9,000,000 and the closing market price equals $11.42, the exchange ratio would be 0.223 shares of APSG common stock for every share of APIC common stock, as follows:

$$\left(\frac{(\$39{,}000{,}000 \quad \$9{,}000{,}000) \times 85\%}{\$11.42} \right) \div 10{,}000{,}000 = 0.223$$

If the closing market price of APSG common stock is more than 25% higher or lower than $14.28, either party has the unilateral right to terminate the merger agreement altogether. If neither party chooses to terminate, the merger consideration shall be calculated as set forth above.

The following table sets forth a possible range of total shares of APSG common stock that may be issued in the merger based on various closing market prices of APSG common stock. These ranges assume that the agreed upon current value of the payments relating to the Series A redeemable preferred stock redemption features equals $9,204,000. Changes to this amount will affect the number of shares of APSG common stock that will be issued in the merger. Also, even if the closing market price of APSG common stock is more than 25% higher or lower than $14.28, the average closing market price of APSG common stock for the twenty consecutive trading days ending June 6, 2006, the parties do not have to terminate the merger agreement, so the minimum and maximum potential shares of APSG common stock that may be issued in the merger cannot be calculated and are not reflected in the table.

Percentage of $14.28	Closing Market Price of APSG Common Shares	Exchange Ratio (# of APSG common shares per APIC common share)	Number of APSG Common Shares to be Issued	% Ownership of APSG Common Shares by APIC Common Shareholders

Holders of APIC Series A redeemable preferred shares will become entitled to receive one share of APSG Series A redeemable preferred stock for each share of APIC Series A redeemable preferred stock they would be entitled to receive in the conversion. Fractional shares of APSG Series A redeemable preferred stock will be issued in the merger, as necessary.

Since holders of refundable deposit certificates will be entitled to receive one share of APIC Series A redeemable preferred stock for every $1,000 of unreturned surplus evidenced the outstanding balance on APIE s books as of the closing date of the conversion, the number of shares of APSG Series A redeemable preferred stock that the holders of refundable deposit certificates will receive in the merger will depend on the outstanding balance on APIE s books as of the closing date of the conversion. For example, and purely by way of illustration, as of September 30, 2006, it was determined that the outstanding balance of unreturned surplus on APIE s books was $10,295,000, which would result in the holders of refundable deposit certificates receiving 10,295 shares of APSG Series A redeemable preferred stock in the conversion and the merger. Since payments on the refundable surplus are made only in limited circumstances, prior to the annual distribution proscribed by the Texas Department of Insurance, the amount of refundable surplus at closing is not expected to vary materially from the above example.

The shares of APSG common stock and Series A redeemable preferred stock issued in the merger will be subject to a 180-day lock-up period in which the holders of such shares are prohibited from transferring their shares. See The Merger Federal Securities Laws Consequences; Stock Transfer Restrictions on page 125, below.

After the merger is completed, APIC policyholders will own approximately 43% of the outstanding common stock of APSG.

Dissenters Right of Appraisal

Holders of APSG common stock are not entitled to dissenters rights of appraisal in connection with the merger. APIE policyholders and holders of APIE refundable deposit certificates are not entitled to dissenters rights of appraisal under applicable Texas law in connection with the conversion or the merger.

Effective Time of the Merger

The merger will become effective upon the date on which the certificate of merger is filed with the Secretary of State of the State of Texas.

Federal Securities Laws Consequences; Stock Transfer Restrictions

Pursuant to the terms of the merger agreement, APSG common stock and Series A redeemable preferred stock issued in the merger will be subject to a 180-day lock-up period running from the date of the effectiveness of the merger, during which the shares of APSG common stock and Series A redeemable preferred stock issued in the merger will be held in escrow by the Transfer Agent, acting as an escrow agent, and will not be able to be traded.

Recipients of APSG common stock and Series A redeemable preferred stock in the merger will not be subject to any restrictions on transfer arising under the Securities Act of 1933, as amended, except for shares issued to any APIC shareholder who may be deemed to be an affiliate of APIC or APSG for purposes of Rule 145 under the Securities Act. In addition to the 180-day lock-up, it is expected that each such affiliate will agree not to transfer any APSG common stock or Series A redeemable preferred stock received in the merger except in compliance with the resale provisions of Rule 144 or 145 under the Securities Act or as otherwise permitted under the Securities Act. This joint proxy statement/prospectus does not cover resales of APSG common stock or Series A redeemable preferred stock received by any person upon completion of the merger, and no person is authorized to make any use of this proxy statement/prospectus in connection with any such resale.

Organizational Documents, Directors and Officers of APIC

The merger agreement states that the certificate of formation of APIC, as in effect immediately prior to the effective time of the merger, will be the certificate of formation of the entity surviving the merger, until thereafter amended. The amended and restated bylaws of APIC, as in effect immediately prior to the effective

time of the merger, will be the operating agreement of the entity surviving the merger until thereafter amended. The form of APIC certificate of formation and bylaws are exhibits to the plan of conversion and the merger agreement and will be approved in connection with the approval of the merger. As specified in the merger agreement, the officers and directors of the surviving entity will be as follows:

THE MERGER AGREEMENT

The following description summarizes the material provisions of the merger agreement. APSG shareholders and APIE subscribers should read carefully the merger agreement, which is attached as Annex A to this joint proxy statement/prospectus and incorporated by reference into this joint proxy statement/prospectus.

Merger Consideration

In the merger, subscribers and others entitled to receive APIC common stock and Series A redeemable preferred stock in the conversion will receive shares of APSG common stock and Series A redeemable preferred stock, respectively, for each share of APIC common stock and Series A redeemable preferred stock that they become entitled to as a result of the conversion. APIC common stock will be exchanged for APSG common stock pursuant to an exchange ratio to be calculated prior to the effectiveness of the merger. Cash will be paid for any fractional shares of APSG common stock which would otherwise be issued in the merger. APIC Series A redeemable preferred stock will be exchanged for APSG Series A redeemable preferred stock on a one-for-one basis. See The Merger Merger Consideration on page 123.

Consummation of the Merger

The merger will be consummated when we file the certificate of merger with the Secretary of State of the State of Texas. We will file the certificate of merger as soon as practicable after the satisfaction or, where permissible, waiver of the closing conditions in the merger agreement, which are described below. The shares of APSG common stock and Series A redeemable preferred stock will be subject to a 180-day lock-up period commencing on the closing of the merger during which time the common and preferred shares issued by APSG in the merger will be held in escrow or subject to similar arrangements such that the shares cannot be traded for 180 days.

Conditions to the Completion of the Merger

Each party s obligation to effect the merger is subject to the satisfaction or waiver of various conditions which include, in addition to other customary closing conditions, the following:

- the plan of conversion and merger agreement have been approved by the two-thirds vote of all APIE subscribers;
- the issuance of the shares of APSG common stock in the merger has been approved by the affirmative vote of holders of a majority of all shares of APSG common stock outstanding as of the record date;
- all necessary approvals of the Texas Department of Insurance for the conversion and merger have been obtained;
- the registration statement on Form S-4 of which this joint proxy statement/prospectus is a part has been declared effective by the SEC and no stop orders suspending the effectiveness thereof have been issued by the SEC and no proceedings for that purpose have been initiated or threatened by the SEC;
- no preliminary injunction or other order, decree or ruling issued by a court of competent jurisdiction or by a governmental regulatory or administrative agency or commission, nor any statute, rule, regulation or executive order promulgated or enacted by any governmental authority, will be in effect that would make the conversion or the merger illegal or otherwise prevent the consummation thereof;

the representations and warranties of APSG and APIC, respectively, set forth in the merger agreement are accurate and complete in all material respects (except with respect to provisions including the word

127

Table of Contents

Index to Financial Statements

material or words of similar import, with respect to which such representations and warranties must have been accurate and complete) as of the date of the merger agreement and as of the closing date of the merger;

APSG and APIE, respectively, have performed and complied with, in all material respects, all covenants and obligations required to be performed by each of them, respectively, under the merger agreement at or prior to the closing date of the merger;

the Advisory Services Agreement has been entered into between APIC and API Advisor;

the board of directors of APSG has approved the election of Norris C. Knight, Jr., M.D. and William J. Peche, M.D. to serve on the APSG board of directors upon the effectiveness of the merger;

APSG and APIE have each received reasonable assurances from their tax advisors that the conversion and merger should qualify as tax free reorganizations under Section 368(a) of the Internal Revenue Code; and

immediately prior to the effectiveness of the merger, the conversion has been consummated.

Neither APSG nor APIE can provide assurance that all of the conditions precedent to the merger will be satisfied or, where permitted, waived by the party permitted to do so. Further, APSG and APIE cannot at this point determine whether either of them would resolicit proxies in the event that they decided and were permitted to waive any of the items listed above. This decision would depend upon the facts and circumstances leading to each of APSG s and APIE s decision to complete the merger. In making each of their determinations, APSG and APIE, respectively, would likely consider, among other factors, the reasons for the waiver, the effect of the waiver on the terms of the merger, whether the requirement being waived was necessary in order to make the deal fair to the APSG shareholders or the APIE subscribers from a financial point of view, the availability of alternative transactions and the prospects of APSG and APIE, as applicable, as an independent entity.

Fiduciary Duties

The merger agreement provides that, from the date of the merger agreement until the effective time of the merger or, if earlier, the termination of the merger agreement in accordance with its terms, APIE will not, directly or indirectly, enter into any agreements, understandings or negotiations with, or solicit, initiate or encourage any inquiries, proposals or offers from, any individual, partnership, limited liability company, corporation, association, joint stock company, trust, entity, joint ventre, labor organization, unincorporated organization or governmental body other than APSG, relating to (a) any acquisition or purchase of any assets of APIE (other than in the ordinary course) or (b) any merger, consolidation or business combination involving APIE. APIE has agreed to notify APSG immediately if any individual, partnership, limited liability company, corporation, association, joint stock company, trust, entity, joint ventre, labor organization, unincorporated organization or governmental body makes any written proposal, offer, inquiry, or contact with respect to any of the foregoing and the terms of any such proposal, offer, inquiry, or contact.

Subject to the restrictions in the above paragraph, if the board of directors of APIE or APSG approves a superior proposal, APIE or APSG, as applicable, must first provide notice to the other party of its intent to enter into the superior proposal. If, within three days of receipt of such notice of the superior proposal, the other party does not make an offer to enter into a transaction which the notifying party s board of directors determines in good faith is at least as favorable to the such notifying party s shareholders (or in the case of APIE, the subscribers) from a financial point of view as the superior proposal, then the party can terminate the merger agreement and enter into the superior proposal by paying the non-terminating party a termination fee of $1,500,000 and reimbursing all applicable transaction expenses.

The term superior proposal means any bona fide written proposal to effect a merger, consolidation, reorganization, share exchange, recapitalization, acquisition, liquidation, direct or indirect business combination, or other similar transaction as a result of which the shareholders of APSG (or in the case of APIE, the

128

Table of Contents

Index to Financial Statements

subscribers) cease to own at least 50% of the voting ownership interests of the ultimate parent entity resulting from such transaction or sale of all or substantially all of the assets of such party, which in any such case, is on terms that the board of directors of such party determines in its good faith judgment:

would, if consummated, result in a transaction that is more favorable to APSG s shareholders (or in the case of APIE, the subscribers) from a financial point of view than the transactions contemplated by the merger agreement (including the terms of any proposal by the other party to modify the terms of the transactions contemplated by the agreement); and

is reasonably likely to be financed and otherwise completed without undue delay.

In making its determination in good faith, the board of directors of such party accepting the superior proposal, shall take into account all relevant factors, including any conditions to such proposal, the timing of the closing thereof, the risk of non-consummation, the ability of the person making the proposal to finance the transaction contemplated thereby, any required governmental or other consents, filings and approvals.

Termination

The merger agreement may be terminated and the merger may be abandoned at any time prior to the effective time of the merger, whether before or after the merger agreement has been adopted by the APIE subscribers:

(1) by mutual written consent of APSG and APIE;

(2) by either APIE or APSG if there has been a breach of any representation, warranty, or covenant contained in the merger agreement on the part of the other party in any material respect (except with respect to materiality for any provisions containing the word material or words of similar import and APIE s representations regarding its financial statements, in which case such termination rights will arise upon any breach), which breach has not been cured by the breaching party within 10 days following written notice to the breaching party;

(3) by either APIE or APSG if the market of the APSG common stock for the twenty consecutive trading days ending on the business day immediately prior to the closing date of the merger is greater than $17.85 or less than $10.71;

(4) prior to the approval by the APSG shareholders of the issuance of the APSG common stock, by either APIE (if APIE has not breached its no solicitation obligations) or APSG if the board of directors of the terminating party authorizes a superior proposal and pays the other party the applicable termination fee and expenses;

(5) by either APIE or APSG if any judgment, order, decree, statute, law, ordinance, rule, regulation or other legal restraint or prohibition that would make the merger illegal or otherwise prevent the consummation thereof will be in effect and will have become final and nonappealable; and

(6) automatically without any action by APIE or APSG in the event the merger has not been consummated by March 31, 2007.

Expenses

In the merger agreement, the parties agreed that all costs and expenses incurred in connection with the merger agreement and the transactions contemplated thereby will be paid by the party incurring such expenses, whether or not the merger is consummated. If the merger agreement is terminated and the termination fee is payable as a result thereof, in addition to the payment of the termination fee, the terminating party will pay the non-terminating party, or reimburse such party for, all out-of-pocket fees and expenses incurred by the non-terminating party (including the fees and expenses of its counsel, financial advisor and financing sources) in connection with the merger agreement and the transactions contemplated thereby, without limitation.

Amendment

The merger agreement may be amended by APSG and APIE at any time before or after approval of the merger agreement and the transactions contemplated thereby by the respective boards of directors of APSG and APIE or the APSG shareholders or APIE subscribers; provided that after any such approval by the APIE subscribers, no amendment will be made that in any way reduces the amount or changes the consideration to be received by APIE policyholders pursuant to the merger or that otherwise would require that subscribers approval under applicable corporate and insurance laws or the APIE organizational documents unless such subscriber approval is obtained. The merger agreement may not be amended except by an agreement in writing signed on behalf of each of the parties thereto.

Any failure of any of the parties to the merger agreement to comply with any obligation, covenant, agreement or condition in the merger agreement may be waived at any time prior to the effective time of the merger by any of the parties entitled to the benefit thereof only by a written instrument signed by each such party granting such waiver, but such waiver or failure to insist upon strict compliance with such obligation, representation, warranty, covenant, agreement or condition will not operate as a waiver of or estoppel with respect to, any subsequent or other failure.

Extensions; Waiver

At any time prior to the effectiveness of the merger, either APSG or APIE, to the extent legally allowed, may extend the time for the performance of any of the obligations of the other party, waive any inaccuracies in the representations and warranties made to such party contained in the merger agreement or in any document delivered pursuant thereto, and waive compliance with any of the agreements or conditions for the benefit of such party contained in the merger agreement. Any agreement to an extension or waiver will be valid only if set forth in an instrument in writing signed on behalf of the waiving party.

No waiver by any party of any default, misrepresentation, or breach of warranty or covenant in the merger agreement, whether intentional or not, will be deemed to extend to any prior or subsequent default, misrepresentation, or breach of warranty or covenant or affect in any way any rights arising because of any prior or subsequent such occurrence.

Representations and Warranties

The merger agreement contains customary representations and warranties of APSG, Merger Sub and APIE relating to various aspects of the respective businesses and financial statements of the parties and other matters. The representations and warranties will not survive the merger, but they will serve as the basis of conditions to each of APSG s and APIE s obligations to complete the merger.

Except for its status as a contractual document that establishes and governs the legal relations among the parties with respect to the merger, the merger agreement is not intended to be a source of factual, business or operational information about the parties. The representations and warranties contained in the merger agreement were made only for purposes of that agreement and as of specific dates, were solely for the benefit of the parties to that agreement, and may be subject to limitations agreed to between those parties, including being qualified by disclosures between those parties. Those representations and warranties may have been made to allocate risks among the parties to the merger agreement, including where the parties do not have complete knowledge of all facts, instead of establishing matters as facts. Furthermore, those representations and warranties may be subject to standards of materiality applicable to the parties that differ from those applicable to shareholders or APIE policyholders. The assertions embodied in such representations and warranties are qualified by information contained in disclosure letters that the parties exchanged and attached to the merger agreement. Accordingly, APSG shareholders and APIE subscribers should not rely on such representations and warranties as characterizations of the actual state of facts or circumstances, since they were only made as of the date of the merger agreement and are modified in important part by the underlying disclosure schedules. Moreover,

information concerning the subject matter of such representations and warranties may change after the date of the merger agreement, which subsequent information may or may not be reflected in the parties public disclosures.

Conversion and Merger

Immediately prior to the merger, APIE will convert into a Texas stock insurance company (APIC) and the APIE policyholders and holders of APIE refundable deposit certificates will become entitled to receive shares of APIC common stock and Series A redeemable preferred stock, respectively, pursuant to the conversion as described in The Conversion Conversion Consideration on page 105.

At the effective time of the merger and immediately after the conversion:

(1) Each share of APIC common stock that would be issued in the conversion will be converted into, and exchanged for, the right to receive the number of fully paid and nonassessable share of APSG common stock equal to the exchange ratio. The exchange ratio will be finally determined the day prior to the effective date of the merger based on the formula described in The Merger Merger Consideration on page 123.

(2) APSG will pay cash for any fractional shares of common stock that would otherwise be issued in the merger.

(3) Each share of APIC Series A redeemable preferred stock that would be issued pursuant to the conversion will be converted into, and exchanged for, shares of APSG Series A redeemable preferred stock. Fractional shares of APIC Series A redeemable preferred stock will be issued as necessary.

After the merger is completed, APIE policyholders will own approximately 43% of the outstanding shares of APSG common stock.

Exchange of Shares; Fractional Shares

The shares of APIC common stock and Series A redeemable preferred stock that would be issued pursuant to the conversion will not be represented by stock certificates and, pursuant to the merger, the recipients of shares of APIC common stock and Series A redeemable preferred stock will be deemed to have surrendered such shares to the Transfer Agent in exchange for the applicable merger consideration.

Prior to the merger, APSG will appoint an exchange agent to effect the issuance of certificated APSG common stock and Series A redeemable preferred stock to be issued in the merger. Following the merger, APSG will deposit with the exchange agent certificates representing new APSG common stock, Series A redeemable preferred stock, and cash for fractional shares of APSG common stock. The shares of APSG common stock and Series A redeemable preferred stock will be subject to a 180-day lock-up period commencing on the closing of the merger, during which time the common and preferred shares issued by APSG in the merger will be held in escrow or subject to similar arrangements such that the shares cannot be traded for 180 days.

No fractional shares of APSG common stock will be issued in the merger and fractional share interests will not entitle the owner thereof to vote or to any rights of an APSG shareholder. In lieu of such fractional shares, each holder of fractional share interests will receive cash in an amount equal to the product of such fractional part of a share multiplied by $14.28 or the average of the closing market prices on the twenty trading days ending June 6, 2006, if such average closing market price is used in the calculation of the exchange ratio used to determine the merger consideration to APIC common shareholders. No interest will be paid in connection with the exchange of such fractional shares. Fractional shares of APSG Series A redeemable preferred stock will be issued in the merger, as necessary.

The Advisory Services Agreement

It is a condition to the merger that APIC enter into an Advisory Services Agreement with API Advisor, an entity to be formed by the current members of the APIE board of directors. Under the terms of the Advisory Services Agreement, attached as Annex E to this joint proxy statement/prospectus, API Advisor will provide APIC with advisory and consulting services. Its relationship with APIC will be that of an independent contractor, not an attorney-in-fact, employee, partner or any other type of relationship. API Advisor will provide up to nine persons to serve on an advisory board of directors of APIC, which will meet concurrently with the APIC board of directors. The advisory board will provide advice and counsel to the APIC board on matters coming before the APIC board or otherwise specifically requested by the APIC board, but advisory board members do not have any right to vote on matters brought before the APIC board. APSG may elect one or more directors of the advisory board to the APIC board of directors. API Advisor will assign directors on the advisory board to participate on one or more committees of APIC. APIC will compensate the members of the advisory board and the committees directly based on meeting attendance. API Advisor will retain, compensate and provide a medical director to APIC. The medical director will be subject to the operational authority of the chief operating officer and the board of APIC. APIC will pay the medical director and one administrative assistant directly. In addition to the fees and payments mentioned above, APIC will also reimburse API Advisor for reasonable out-of-pocket costs and expenses incurred by API Advisor in the performance of its obligations under the Advisory Services Agreement. API Advisor is subject to confidentiality under the Advisory Services Agreement. The Advisory Services Agreement has a five-year term with an automatic five-year renewal term. If terminated by APIC at the end of the first term or prior to the expiration of the second term, API Advisor and each member of the advisory board may execute a non-compete agreement in favor of APIC, in exchange for a payment of $200,000 each.

The Advisory Services Agreement will allow the parties to retain physician involvement in APIC, continue APIE s philosophy of physicians working for physicians, and ensure the provision of consulting services to APIC by persons who already have a strong working knowledge of APIE.

API Advisor will be a Texas limited liability company established and owned by the current members of the APIE board of directors. It is anticipated that the initial advisory board members provided to APIC by API Advisor will be most or all of the current board members of APIE.

Also, APSG shall maintain customary officers and directors liability insurance with an endorsement naming the persons designated by API Advisor to provide advisory and consulting services to APIC as additional insureds thereunder, with respect to their services as advisory directors of APIC.

MATERIAL UNITED STATES FEDERAL INCOME TAX CONSEQUENCES OF

THE CONVERSION AND MERGER

The following discussion is the opinion of Deloitte Tax LLP, tax advisor to APIE, as to the material U.S. federal income tax consequences of the (i) conversion to APIE subscribers and other eligible insureds who were as of June 1, 2006 and are at the effective time of the conversion either premium paying policyholders or former subscribers who have earned or paid for an extended reporting endorsement (tail coverage) within the last three years, which we collectively refer to as the APIE policyholders, holders of APIE refundable deposit certificates, APIE and APIC; and (ii) merger to APIC, APSG and to APIC shareholders. This discussion is based on the Internal Revenue Code, the related Treasury regulations, administrative interpretations and court decisions, all of which are subject to change, possibly with retroactive effect. Any such change could affect the accuracy of the statements and the conclusions discussed below and the tax consequences of the conversion and the merger. This discussion applies only to APIE policyholders, holders of APIE refundable deposit certificates and APIC shareholders that hold their interests in APIE or APIC, and will hold any shares of APSG common or preferred stock received in exchange for their interests in APIE and APIC, as capital assets within the meaning of Section 1221 of the Internal Revenue Code. This discussion does not address all federal income tax consequences of the conversion and the merger that may be relevant to particular holders, including holders that are subject to special tax rules. Some examples that may apply to APIE policyholders, holders of APIE refundable deposit certificates or APIC shareholders that may make them subject to special tax rules are: dealers in securities; financial institutions; insurance companies; tax-exempt organizations; holders of shares of APIE interests or APIC stock as part of a position in a straddle or as part of a hedging or conversion transaction; holders who have a functional currency other than the U.S. dollar; holders who are foreign persons; holders who own their shares indirectly through partnerships, trusts or other entities that may be subject to special treatment; and holders who acquired their interests in APIE or APIC through stock option or stock purchase programs or otherwise as compensation. In addition, this discussion does not address any consequences arising under the laws of any state, local or foreign jurisdiction.

APIE POLICYHOLDERS, HOLDERS OF APIE REFUNDABLE DEPOSIT CERTIFICATES AND APIC SHAREHOLDERS ARE URGED TO CONSULT THEIR OWN TAX ADVISORS AS TO SPECIFIC TAX CONSEQUENCES TO THEM OF THE CONVERSION AND THE MERGER, INCLUDING THE APPLICABILITY AND EFFECT OF ANY STATE, LOCAL OR FOREIGN TAX LAWS AND OF CHANGES IN APPLICABLE TAX LAWS.

Treatment of the Conversion and the Merger each as a Reorganization. In the opinion of Deloitte Tax LLP, the conversion and the merger should each be treated as a transaction that qualifies as a reorganization within the meaning of section 368(a) of the Internal Revenue Code. This tax opinion is given in reliance on customary representations and assumptions as to certain factual matters, including the following: (i) the conversion and the merger will take place in accordance with all of the terms and conditions of the conversion and the merger as described in this prospectus without the waiver or modification of any of those terms or conditions, (ii) none of APSG, APIE, APIC, or any related party acquires or redeems, in connection with the conversion or the merger, shares of APIC common or Series A redeemable preferred stock issued to APIE policyholders or holders of APIE refundable deposit certificates pursuant to the conversion or shares of APSG common or Series A redeemable preferred stock issued to APIC shareholders in the merger (other than pursuant to an open market stock repurchase program or in connection with the payment of cash in lieu of fractional shares of APSG common stock), (iii) after the conversion and the merger, APIC, a wholly owned subsidiary of APSG, will continue APIE s historic business, or will use a significant portion of APIE s historic business assets in a business, and (iv) the description of APSG s business operations set forth in its SEC filings is accurate in all material respects and there will be no material changes in such operations prior to the closing of the merger.

The qualified nature of the opinion reflects that the tax consequences of the conversion and merger are not certain. In this case, Deloitte Tax LLP has issued a qualified opinion, rather than an unqualified opinion, because

Table of Contents

Index to Financial Statements

the conversion of a reciprocal insurance exchange into a stock company followed by a merger of the converted company with another corporation is an unusual transaction on which there is no direct authority as to the tax consequences. Nevertheless, since there is analogous authority that supports the conclusion that the conversion and the merger constitute tax-free reorganizations, Deloitte Tax LLP believes that it is unlikely the Internal Revenue Service would reach a different conclusion.

If the conversion fails to qualify as a tax free reorganization for federal income tax purposes, the exchange of APIE Policyholder Interests for APIC common stock in the conversion will be taxable to the APIE Policyholders, and the exchange of APIE Refundable Deposit Certificates for APIC preferred stock in the conversion will be taxable to holders of APIE Refundable Deposit Certificates. If the merger fails to qualify as a tax free reorganization for federal income tax purposes, the exchange of APIC common stock for APSG common stock in the merger will be taxable to holders of APIC common stock, and the exchange of APIC preferred stock for APSG preferred stock in the merger will be taxable to holders of APIC preferred stock.

APIE, APIC, and APSG do not intend to obtain a ruling from the Internal Revenue Service with respect to the federal income tax consequences of the conversion and the merger. The tax opinion will not bind the courts or the Internal Revenue Service, nor will it preclude the Internal Revenue Service from adopting a position contrary to those expressed in the opinion. No assurance can be given that contrary positions will not be successfully asserted by the Internal Revenue Service or adopted by a court if the issues are litigated. In addition, the tax opinion is being delivered prior to the consummation of the proposed transaction and therefore is prospective and dependent on future events. No assurance can be given that future legislative, judicial or administrative changes, on either a prospective or retroactive basis, or future factual developments, would not adversely affect the accuracy of the conclusion stated herein. The following are the material federal income tax consequences to (i) APIE and APIC as a result of the conversion, (ii) APIC and APSG as a result of the merger; (iii) APIE policyholders and holders of APIE refundable deposit certificates who, consistent with the tax opinion referred to above, receive their shares of APIC common stock and/or Series A redeemable preferred stock pursuant to a transaction constituting a reorganization within the meaning of Section 368(a) of the Internal Revenue Code and (iv) APIC shareholders who, consistent with the tax opinion referred to above, receive their shares of APSG common stock and/or Series A redeemable preferred stock pursuant to a transaction constituting a reorganization within the meaning of Section 368(a) of the Internal Revenue Code .

Consequences to APIE Policyholders, Holders of APIE Refundable Deposit Certificates and APIC Shareholders. The U.S. federal income tax consequences of the conversion and the merger to each APIE policyholder and holders of APIE refundable deposit certificates will vary depending on whether they are a subscriber, an APIE holder of a refundable deposit certificate, or other eligible insured.

APIE Subscribers who Exchange APIE Subscriber Interests Solely for APIC Common Stock. APIE subscribers who exchange all their APIE subscriber interests solely for APIC common stock in the conversion should not recognize gain or loss for United States federal income tax purposes. Each subscriber s aggregate tax basis in the APIC common stock received in the conversion should be the same as his or her aggregate tax basis in the APIE subscriber interest surrendered in the transaction. The holding period of the APIC common stock received in the conversion by an APIE subscriber should include the holding period of the subscriber interest that he or she surrendered. If an APIE subscriber has differing tax bases and/or holding periods in respect of his or her subscriber interest in APIE, the subscriber should consult with a tax advisor in order to identify the tax bases and/or holding periods of the particular shares of APIC common stock that the subscriber receives.

Other Eligible Insureds who Solely Receive APIC Common Stock. Eligible insureds of APIE who are not subscribers and who receive solely APIC common stock in exchange for their interests in the conversion should not recognize gain or loss for United States federal income tax purposes. Each eligible insured s aggregate tax basis in the APIC common stock received in the conversion should be the same as his or her aggregate tax basis in the APIE interest surrendered in the transaction, decreased by the amount of any tax basis allocable to any fractional share interest for which cash is received. The holding period of the APIC common stock received in

Table of Contents

the conversion should include the holding period of the eligible insured s interest that he or she surrendered. If an eligible insured has differing tax bases and/or holding periods in respect of his or her interest in APIE, the eligible insured should consult with a tax advisor in order to identify the tax bases and/or holding periods of the particular shares of APIC common stock that the eligible insured receives.

APIE Subscribers and Other Eligible Insureds who receive APIC Preferred Stock for their Deposit Certificates. APIE subscribers and other eligible insureds that receive both APIC common stock and APIC preferred stock in the Conversion as a result of holding both APIE subscriber interests and APIE Deposit Certificates generally should recognize gain, but not loss, equal to the lesser of: (i) the difference between the fair market value of the APIC Series A redeemable preferred stock received and the tax basis for the deposit certificates converted into and exchanged therefor, or (ii) the fair market value of the APIC Series A redeemable preferred stock received in the conversion. The amount and character of gain should be computed separately for each refundable deposit certificate held by an APIE holder. Any recognized gain should be capital gain and any such capital gain should be long term if, as of the effective date of the conversion, such holder held a refundable deposit certificate for more than one year or should be short term if, as of such date, such holder has held the refundable deposit certificate for one year or less. Each holder s aggregate tax basis in the APIC Series A redeemable preferred stock received in the conversion should equal the fair market value of such preferred stock on the effective date of the conversion. The holding period of the APIC Series A redeemable preferred stock received in the conversion by a holder of an APIE refundable deposit certificate should not include the holding period of the refundable deposit certificate converted into, and exchanged for, the APIC Series A redeemable preferred stock received.

APIE Holders of Refundable Deposit Certificates who Solely receive APIC Preferred Stock in Exchange for their Deposit Certificates. APIE holders of refundable deposit certificates who receive solely APIC Series A redeemable preferred stock in the conversion should generally recognize gain or loss equal to the difference between the fair market value of the APIC Series A redeemable preferred stock received and the tax basis for the deposit certificates converted into and exchanged therefor. The amount and character of gain or loss should be computed separately for each refundable deposit certificate held by an APIE holder. Any recognized gain or loss should be capital gain or loss and any such capital gain or loss should be long term if, as of the effective date of the conversion, such holder held a refundable deposit certificate for more than one year or should be short term if, as of such date, such holder has held the refundable deposit certificate for one year or less. Each holder s aggregate tax basis in the APIC Series A redeemable preferred stock received in the conversion should equal the fair market value of such preferred stock on the effective date of the conversion. The holding period of the APIC Series A redeemable preferred stock received in the conversion by a holder of an APIE refundable deposit certificate should not include the holding period of the refundable deposit certificate converted into, and exchanged for, the APIC Series A redeemable preferred stock received.

APIC shareholders who Exchange APIC Common or APIC Series A Redeemable Preferred Stock Solely for APSG Common or APSG Series A Redeemable Preferred Stock. APIC shareholders who exchange all their APIC common stock or APIC Series A redeemable preferred stock solely for APSG common stock or APSG Series A redeemable preferred stock, respectively, in the merger should not recognize gain or loss for United States federal income tax purposes on such exchange, except with respect to cash, if any, they receive in lieu of a fractional share of APSG common stock. Each APIC shareholder s aggregate tax basis in the APSG common stock or APSG Series A preferred stock received in the merger should be the same as his or her aggregate tax basis in the respective APIC common stock or APIC Series A redeemable preferred stock surrendered in the merger, decreased by the amount of any tax basis allocable to any fractional common share interest for which cash is received. The holding period of the APSG common stock or APSG Series A redeemable preferred stock received in the merger by an APIC shareholder should include the holding period of the APIC common stock or APIC Series A redeemable preferred stock that he or she surrendered. If an APIC shareholder has differing tax bases and/or holding periods in respect of his or her APIC common stock or APIC Series A redeemable preferred stock, the APIC shareholder should consult with a tax advisor in order to identify the tax bases and/or holding periods of the particular shares of APSG common stock or APSG Series A redeemable preferred stock that such shareholder receives in the merger.

The Receipt of Cash in Lieu of a Fractional Share. An APIC shareholder who receives cash in lieu of a fractional share of APSG common stock should generally recognize gain or loss equal to the difference between the amount of cash received and his or her tax basis in their interest in APIC common stock that is allocable to the respective fractional share of APSG common stock that they otherwise would have received. That gain or loss generally should constitute capital gain or loss.

Consequences to APIE, APIC, and APSG. None of APIE, APIC or APSG should recognize gain or loss as a result of the conversion and the merger.

Information Reporting and Backup Withholding. Certain U.S. holders may be subject to information reporting with respect to any cash received in exchange for an interest in APIE or APIC, including cash received instead of a fractional share interest in shares of APSG common stock. U.S. holders who are subject to information reporting and who do not provide appropriate information when requested may also be subject to backup withholding. Any amount withheld under such rules is not an additional tax and may be refunded or credited against such U.S. holders federal income tax liability, provided that the required information is properly furnished in a timely manner to the Internal Revenue Service.

REGULATORY FILINGS AND APPROVALS REQUIRED TO COMPLETE

THE CONVERSION AND MERGER

As a Texas reciprocal insurance exchange, the conversion and merger must be approved by the Commissioner of the Texas Department of Insurance. APIE has filed a plan of conversion with the Commissioner and APIE policyholders, holders of refundable deposit certificates and other interested persons have the right to provide the Commissioner with comments on the plan of conversion and the merger. On September 13, 2006, the Commissioner held a hearing to consider the fairness of the exchange of the APIE policyholders interests for shares of APSG common stock and the rights to repayment from APIE s refundable surplus for shares of APSG Series A redeemable preferred stock, and to consider the testimony presented and information filed by interested parties, APSG and APIE. APIE provided advance written notice of the September 13, 2006 hearing to each APIE policyholder and each holder of a refundable deposit certificate. In addition, public notice of the hearing was made through publication by the Commissioner in the Texas Register. The hearing was held on September 13, 2006 in the public hearings room of the Texas Department of Insurance in Austin, Texas. In his opening remarks, the Commissioner indicated for the record that the Texas Department of Insurance would not make a decision on fairness at the conclusion of the hearing, but would solicit input on fairness and allow Texas Department of Insurance staff to ask questions of the representatives of the parties and any other persons who chose to speak. The Commissioner accepted testimony from representatives of the APIE board of directors and their legal counsel. The Commissioner questioned these representatives at some length concerning the rationale for the conversion and the merger and the determination and allocation of the purchase price. The Commissioner also questioned representatives of APIE s investment advisor, Raymond James & Associates, Inc., concerning the process utilized in analyzing the terms of the conversion and the merger for purposes of rendering their opinion thereon dated August 22, 2006 to the board of directors of APIE. The Commissioner also questioned representatives of APSG and its legal counsel. No one made an appearance to speak in opposition to the conversion and the merger, although Texas Department of Insurance staff indicated for the record that they had received some written comments in that regard. No rulings or indications of a decision were made by the Commissioner during or at the conclusion of the hearing. The approval of the plan of conversion by the Texas Department of Insurance and is a condition of the conversion.

APIE has been advised by legal counsel in Arkansas, Dover Dixon Horne PLLC, that approval by the Arkansas Insurance Department is not required for the conversion or merger.

We are not aware of any other material governmental or regulatory approval required for completion of the merger, other than compliance with the applicable corporate law of the State of Texas.

Notes to Unaudited Pro Forma Condensed Consolidated Financial Statements

1. Basis of Presentation

The accompanying unaudited pro forma balance sheet and statements of operations present the pro forma effects of the merger of APSG and APIE through the exchange of common and preferred shares of stock. The balance sheet is presented as though the merger occurred on September 30, 2006. The statements of operations for the nine months ended September 30, 2006 and the year ended December 31, 2005 are presented as though the merger occurred on January 1, 2005.

2. Method of Accounting for the Merger

APSG will account for the merger using the purchase method of accounting for business combinations. APSG is deemed to be the acquirer for accounting purposes based on a number of factors determined in accordance with accounting principles generally accepted in the United States of America (GAAP). The purchase method of accounting requires that APIE s assets acquired and liabilities assumed by APSG be recorded at their estimated fair values.

3. Adjustments to Historical Financial Statements for Comparability

APIE s balance sheet, in conformity with GAAP as applied to insurance companies, prepares its balance sheet without classification as to the short and long term nature of its assets and liabilities. Following the merger we will primarily be an insurance company and, accordingly, we have reclassified APSG s balance sheet and statements of operations in the unaudited pro forma financial information to conform to GAAP as applied to insurance companies.

4. Pro Forma Adjustments related to the Conversion

Pursuant to the plan of conversion, APIE will convert from a Texas reciprocal insurance exchange into a Texas stock insurance company called American Physicians Insurance Company, or APIC.

APIE eligible policyholders will receive their portion of the 10,000,000 shares of $1 par value APIC common stock as part of the conversion. Also, pursuant to the conversion, each holder of refundable deposit certificates representing unpaid surplus contributions which have not been fully refunded will receive one share of Series A redeemable preferred stock of APIC ($1 par value) for every $1,000 of unreturned surplus evidenced by the outstanding balance on the APIE s books as of the date of closing.

The pro forma adjustments related to the unaudited pro forma balance sheet and statements of operations as a result of the conversion are described below:

(a) Records the issuance of APIC common stock to eligible policyholders as a result of conversion

(b) Records the exchange of refundable subscriber deposits for APIC mandatory redeemable preferred stock as a result of the conversion

5. Pro Forma Adjustments Related to the Merger

Pursuant to the merger agreement, immediately following the conversion of APIE to APIC, APSG ACQCO, Inc., a newly formed, wholly owned subsidiary of APSG, will merge into APIC with APIC becoming a wholly owned subsidiary of APSG.

At the effective time of the merger, each share of common stock of APIC issued in the conversion will be converted into, and exchanged for, the right to receive the number of shares of APSG common stock based upon an exchange ratio to be calculated after the occurrence of certain events. The exchange ratio will be equal to a purchase price of $39,000,000 minus the agreed upon current value of the payments authorized by the Texas

Department of Insurance that must be made by APSG to comply with the mandatory redemption features of the APIC Series A redeemable preferred stock issued pursuant to the conversion in exchange for the APIE refundable deposit certificates, divided by $14.28 (see Note 5(i)), divided by the 10,000,000 shares of APIC common stock being issued in the conversion. The exchange ratio may be adjusted, as of the effective time of the merger, in the event the market price for APSG s common stock fluctuates over or under a certain range. See The Merger Merger Consideration on page 123 for examples of the impact of such fluctuation on the market price of APSG s common stock.

Each share of Series A redeemable preferred stock of APIC that would be issued in the conversion will be converted into the right to receive one share of APSG Series A redeemable preferred stock. The shares of APSG common stock and Series A redeemable preferred stock issued in the merger will be subject to a 180-day lock-up period in which the holders of such shares are prohibited from transferring their shares. See The Merger Merger Consideration on page 123 and The Merger Federal Securities Laws; Stock Transfer Restrictions on page 125.

The pro forma calculations regarding the number of APSG common and Series A redeemable preferred shares to be issued in the merger are based on the following assumptions: (i) the discounted present value of the payments to the holders of shares of APIC Series A redeemable preferred stock, based on the outstanding balance of unreturned surplus on APIE s books as of the closing date of the conversion, is $9,204,000, (ii) the closing market price of APSG stock as of the effective time of the merger will not be more than 15% higher or lower than $14.28, resulting in an assumed exchange ratio, for the purposes of these pro forma calculations, of 0.210 shares of APSG common stock for every share of APIC common stock, and an issuance of approximately 2,087,000 shares of APSG common stock in the merger.

The purchase accounting and pro forma adjustments related to unaudited pro forma balance sheet and statements of operations as a result of the merger are described below:

(c) Eliminates inter-company receivables between APSG and APIE as of September 30, 2006.

(d) As of and for the nine months ended September 30, 2006, APIE had recorded the pro-rata portion of the annual profit sharing component of the management fee expense to APSG. APSG has not historically recognized any of the profit sharing component of the management fee revenue until December of each year. Consequently, to make the historical statements consistent and comparable to each other, $1,514,000 of other underwriting expense related to the profit sharing component of management fees has been eliminated and federal income tax expense has been adjusted accordingly ($515,000) for the nine months ended September 30, 2006. The balance sheet has been adjusted to reflect the reduced payable of $1,514,000, additional income taxes payable of $515,000 and the net effect to retained earnings of $999,000.

(e) Records the elimination of the revenue component of management fee and sub-producer commissions by APSG, the management fee expense by APIE and the sub-producer expenses by APSG for the period ending September 30, 2006.

(f) Records the elimination of both the revenue component and the profit sharing component of management fee by APSG and the management fee expense by APIE for the year ending December 31, 2005.

(g) Records commissions expense incurred by APIE that is currently reimbursed by APSG. There will be no reimbursement following the merger. The reimbursement was eliminated in the APSG financial statements.

(h) Reclassifies the remaining expenses of the attorney-in-fact that would remain as part of the combined entity such as salaries, marketing, professional fees, etc.

(i) Records the APSG common stock and APSG preferred stock to be issued for APIC common stock and APIC preferred stock as part of the merger. Described below is the calculation of common stock as defined in The Merger Merger Consideration on page 123 and the basis of recording the APSG mandatorily redeemable preferred stock issued in the merger.

The APSG common stock component of the merger consideration, as follows:

Agreed price for APSG common and preferred stock:	$ 39,000,000
Less, value of the Series A preferred shares:	(9,204,000)
Value of the APSG common stock:	$ 29,796,000

The agreement specifies that the price per share of APSG common stock will be the average of the closing price of the stock over the twenty days including and preceding June 6, 2006, which was $14.28.

$$\frac{\$29,796,000}{\$14.28} = 2,087,000 \text{ shares}$$

Capital stock at $0.10 par value:	$ 209,000
Additional paid in capital:	
Value of the APSG common stock	$ 29,796,000
Less the par value	(209,000)
	$ 29,587,000

The value of the APSG Series A redeemable preferred stock is defined in the agreement as the value of the APIC Series A redeemable preferred stock, whose value in turn is based on the balance of APIE s refundable surplus at the closing date. Since payments on the refundable surplus are made only in limited circumstances, prior to the annual distribution proscribed by the Texas Department of Insurance, the amount of refundable surplus at closing is not expected to vary materially from the above example. More likely to vary over the period from the announcement of the merger until closing is the market value of the APSG common shares. The following table assumes the value of the APSG Series A convertible preferred to be $9,204,000 and shows a range of average market prices for the APSG common stock within the specified range of 25% above and below the $14.28 price defined in the Merger Agreement. For each value in the share price range the table discloses the impact on the number of shares issued, the value of the APSG common stock, and the total merger consideration. While the number of shares to be issued to each APIC shareholder may vary depending on the price of the APSG shares, the manner in which they are allocated will remain constant.

APSG will issue Series A redeemable preferred stock in exchange for APIC redeemable preferred stock as part of the consideration. APIC Series A redeemable preferred stock is created when holders of APIE refundable deposit certificates exchange those certificates for the Series A redeemable preferred at conversion. Under FAS 150, *Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity,* it requires an issuer to classify an instrument as a liability if it is issued in the form of shares that are mandatorily redeemable if it embodies an unconditional obligation that requires the issuer to redeem the shares by transferring the entity s assets at a specified or determinable date(s) or upon an event that is certain to occur. The preferred stock s mandatory cash redemption feature coupled with a fixed redemption date and fixed amount requires that it be classified as debt, rather than equity. Terms of the agreement call for the stock to be redeemed over ten years with a 3% dividend rate. The Texas Department of Insurance s approval of the conversion and merger is conditioned upon APSG maintaining certain funds in escrow. APSG will place $2,500,000 in an escrow account with a bank to remain until the aggregate remaining redemption obligation on the outstanding APSG Series A redeemable preferred stock is less than the amount of the escrow balance, with no withdrawals to be made from this escrow account without prior approval from the Texas Department of Insurance. Per FAS 150, the debt will be recorded at fair market value calculated at its present value of APSG s rate of return on investment assets, 5.35%, which is $9,204,000.

(j) Records the three percent (3%) dividend on the APSG Series A preferred stock and the imputed interest from recording the liability at fair value.

(k) Eliminates the beginning equity of APIC in consolidation.

(l) In June 2001, the Financial Accounting Standards Board issued Statement No. 141, *Business Combinations* and Statement 142, *Goodwill and Other Intangible Assets*. In accordance with these pronouncements, when there is an excess of fair value of acquired net assets over their cost, the excess shall be allocated as a pro rata reduction of the amounts that otherwise would have been assigned to the non-current assets, except financial assets, assets to be disposed of by sale, deferred tax assets, and prepaid assets relating to pension or other postretirement benefits.

The excess of fair value of acquired net assets over cost is as follows:

Merger consideration	$ 39,000,000
Transaction costs	850,000
Total purchase price	$ 39,850,000
APIC stated equity	$ 30,143,000
Add: Adjustment of assets to fair value	417,000
Debt to be replaced by APSG Series A preferred stock	10,295,000
Net assets acquired at fair value	40,855,000
Excess of fair value of acquired net assets over cost	$ 1,005,000

Note: Transaction costs of $850,000 above consist of $532,000 which has been incurred and capitalized as of September 30, 2006 and $318,000 of anticipated additional fees, which are to be capitalized.

The allocation of excess fair value over costs to acquired APIC assets is as follows:

Asset classification	**Total**	**Long-term**	**%**	**Adjustment**

		Portion		
Reinsurance recoverables	$ 29,674	$ 15,700	94%	($ 945)
Subrogation recoverables	761	761	5%	(50)
Other assets	818	236	1%	(10)
	$ 31,253	$ 16,697	100%	($ 1,005)

The adjustment of assets to fair value shown above represents the adjustment to present value of a receivable with an interest rate in excess of current market interest rates. The carrying value of all other assets and liabilities was reviewed and determined to be an accurate representation of fair value. APIE has no fixed assets, a common area for adjustments, its largest asset, its investment portfolio, is adjusted to market in its GAAP financial statements, and its other assets and liabilities are of short duration and will be realized/paid at the carrying value. We also reviewed APIE for intangible assets that could result from the merger. We reviewed trademarks and trade names and determined that they would not carry over to the new entity. We considered customer lists and determined that there was no information that was not readily available from the Texas Board of Medical Examiners. We examined customer relationships and, while we consider them good, we do not believe they provide an advantage over our two larger competitors in this highly competitive environment. No other intangibles, as defined in Statement of Financial Accounting Standards No. 141 *Business Combinations* were determined to be applicable.

(m) **Stock based compensation** As an inducement to attract and retain physician members of the Advisory Board to be formed in conjunction with the merger and to compensate that Advisory Directors for future services, 148,000 of APSG common stock options are to be issued as part of the merger.

For the year ended December 31, 2005, we applied the disclosure-only provisions of Statement of Financial Accounting Standards No. 123, *Accounting for Stock-Based Compensation* (Statement 123), but applied Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees , in accounting for our option plans.

On January 1, 2006 we adopted Statement of Financial Accounting Standards No. 123R, *Share-Based Payment* and included the fair value of stock options in our financial statements. The fair value of the common stock options was calculated using the Black-Scholes-Merton option pricing model, based on 148,000 options at an exercise price of $13.94, expected volatility of ..348, an expected life of 3.71 years, an expected dividend yield of 2.11%, a risk free rate of return of 4.69% and an estimated tax rate of 34%.

Fair value of options to be granted	$ 580,000
Tax at 34%	(197,000)
Fair value of options, net of related tax effects	$ 383,000

The net effect of $383,000 is recorded in the income statement and retained earnings.

(n) The Texas Department of Insurance s approval of the conversion and merger is conditioned upon APSG maintaining certain funds in escrow. APSG will place $2,500,000 in an escrow account with a bank to remain until the aggregate remaining redemption obligation on the outstanding APSG Series A redeemable preferred stock is less than the amount of the escrow balance, with no withdrawals to be made from this escrow account without prior approval from the Texas Department of Insurance.

Consideration to the APIE Board of Directors

Pursuant to the merger agreement, APSG will issue options to each of the current members of the APIE board of directors to purchase a total of 148,000 shares of APSG common stock as follows:

Name	# Shares
Duane Kenneth Boyd, Jr.	2,000
Freddie Lee Contreras, M.D.	5,000
Thomas William Eades, M.D.	27,000
Michael Lewis Green, Jr. M.D.	2,000
Gregory Mann Jackson, M.D.	16,000
Norris Crockett Knight, Jr., M.D.	22,000
William Joseph Peche, M.D.	29,000
Lawrence Scott Pierce, M.D.	17,000
Richard Samuel Shoberg, Jr., M.D.	28,000
	148,000

Each of the options will have an exercise price of $13.94**,** will be exercisable for a period of 5 years and will be fully vested as of the date of the grant.

Each member of the APIE board of directors except Duane K. Boyd are APIE policyholders and will receive APSG common stock pursuant to the conversion and merger in the same manner as other APIE policyholders.

As described further below, it is anticipated that most or all of the current members of the APIE board of directors will receive fees from APIC after the merger for advisory services under the terms of the advisory services agreement. Additionally it is expected that Dr. Jackson will be designated as the medical director under the advisory services agreement and will be compensated in the amount of approximately $15,417 per month for such duties.

Advisory Services Agreement

Pursuant to the merger agreement, APIC will enter into an Advisory Services Agreement with API Advisory, LLC, or API Advisor, an entity to be formed and owned in equal interests of 11.11% each by the nine current members of the APIE board of directors. The Advisory Services Agreement is described in greater detail in the section entitled, The Merger Agreement The Advisory Services Agreement on page 132. Pursuant to this agreement, certain directors of API Advisor will be compensated directly for providing advisory and consulting services to APIC. These advisory services will include participation in committee meetings regarding claims, underwriting, rates and risk management. The committee members will be selected based on the vote of a majority of the board of directors of APIC. While not required under the terms of the Advisory Services Agreement, it is anticipated that most or all of the current members of the APIE board of directors will be the persons designated to provide these services and receive the related compensation from APIC. The compensation will be payable on a per meeting basis, as described below, and may vary amongst directors depending on the number of board and committee positions held and the frequency of meetings. Furthermore, Dr. Knight, Dr. Peche, Dr. Shoberg and Dr. Pierce will own interests in API Advisor and will serve on the board of APIC after the merger. The Advisory Services Agreement requires APIC to maintain customary officers and directors liability insurance with an endorsement naming, as additional insureds thereunder, the persons designated by API Advisor to provide advisory and consulting services to APIC, with respect to their services as advisory directors of APIC.

Under the terms of the Advisory Services Agreement, compensation for the directors is $2,500 for each board meeting attended in person and $250 per hour if attended by telephone with the same rates applicable to each committee of the board. API Advisor will be reimbursed for its out of pocket costs incurred in connection with the provision of the services, plus any amount paid to directors for board and committee meetings, medical director, or executive secretary if those are not paid directly by APIC.

PROPOSALS TO AMEND THE

APSG 2005 INCENTIVE AND NON-QUALIFIED STOCK OPTION PLAN

APSG has adopted, with shareholder approval, the 2005 Incentive and Non-Qualified Stock Option Plan, which we refer to as the 2005 Incentive Plan. The 2005 Incentive Plan provides for the issuance of up to 350,000 shares of common stock to its directors, key employees and consultants and advisors. A total of 153,000 of these options have been granted as of November 6, 2006, 136,000 of which are currently exercisable.

In connection with the merger, APSG has agreed to grant options to purchase exactly 148,000 shares to the APIE board members, leaving only 49,000 options remaining to be granted under the terms of the current plan. The APSG board believes that it is in the best interests of the company to be able to continue to provide to the persons who are responsible for the continued growth of APSG s business an opportunity to acquire a proprietary interest in APSG, thereby creating an increased interest in and greater concern for the growth, success and welfare of the company.

APSG S BOARD OF DIRECTORS RECOMMENDS A VOTE FOR APPROVAL OF THE AMENDMENT TO INCREASE THE SHARES AVAILABLE FOR ISSUANCE UNDER THE 2005 INCENTIVE PLAN.

The 2005 Incentive Plan also currently provides for APSG to be able to, at any time, offer to exchange or buy out any previously granted stock option for a payment in cash, common stock of APSG or another stock option under the 2005 Incentive Plan. APSG s board of directors has determined that this exchange provision is deemed to be unfair to shareholders under current standards of corporate governance. The APSG board of directors has never utilized this provision and has no intention of doing so, but believes that deleting it from the 2005 Incentive Plan clarifies its position and better protects shareholders during the remaining life of the plan. The APSG board of directors continues to believe that it is in the best interests of all shareholders for employees and directors to have a direct financial stake in APSG through stock options and further believes that those option holders should share the same risks and rewards as all other shareholders.

APSG S BOARD OF DIRECTORS RECOMMENDS A VOTE FOR APPROVAL OF THE AMENDMENT TO ELIMINATE THE EXCHANGE PROVISION FROM THE 2005 INCENTIVE PLAN.

Therefore, the APSG board has determined that it is advisable, fair and in the best interests of APSG and its shareholders to amend the 2005 Incentive Plan to (i) provide for the issuance of up to an additional 300,000 shares of common stock to its directors, key employees and consultants and advisors; and (ii) eliminate the provision allowing APSG to exchange or buy out any previously granted stock option at any time.

The following is a brief summary of the 2005 Incentive Plan incorporating the proposed changes. The amendment is attached as Annex F to this joint proxy statement/prospectus and reference is made to such Appendix for a complete statement of the provisions of the amendment.

The 2005 Incentive Plan provides for the granting of options to purchase up to 650,000 shares of APSG common stock; provided that the maximum number of shares of common stock with respect to which options may be granted to any individual during any calendar year is 150,000. If any option expires or terminates prior to its exercise in full, the shares of APSG s common stock allocable to the unexercised portion of such option may again be available for options under the 2005 Incentive Plan. The plan will be administered by an administrative body, referred to as the Committee, designated by APSG s board of directors. The board may designate itself as the Committee or appoint two or more nonemployee and outside directors, within the meaning of the federal securities laws and the Internal Revenue Code of 1986, as amended, or the Code, to serve as the Committee. Participants under the 2005 Incentive Plan will be selected by the Committee upon the recommendation of APSG s management. All employees will be eligible for selection to participate in the 2005 Incentive Plan. The

Index to Financial Statements

Committee will determine the number of shares underlying options granted to any individual under the plan, and options will vest and become exercisable in the manner and within the periods specified by the Committee in its discretion. The number and kind of shares subject to the 2005 Incentive Plan can be appropriately adjusted in the event of any change in the capital structure of the APSG (such as a stock split, reverse stock split, stock dividend, combination or reclassification of APSG s common stock).

The 2005 Incentive Plan enables APSG to grant either incentive stock options , as defined in Section 422 of the Code, or options that are not intended to be incentive stock options . Options may be granted only to APSG s employees, directors and consultants and advisors. No options may be granted under the 2005 Incentive Plan later than April 6, 2015. Any options granted under the 2005 Incentive Plan must have an exercise period of no more than ten years.

The exercise price per share for each option may not be less than the fair market value on the date of grant, as fair market value is defined in the 2005 Incentive Plan. The plan provides that payment of the exercise price may be made in cash, by delivery of already owned shares of APSG s common stock, valued at its fair market value on the exercise date, or through such cashless exercise procedures that are deemed acceptable by the Committee. Proceeds received from the optioned shares will be used for general corporate purposes. To the extent that the aggregate fair market value (determined as of the time such option is granted) of the common stock for which any employee may have incentive stock options vest in any calendar year exceeds $100,000, such excess incentive stock options will be treated as non-qualified options.

No options are assignable or transferable by the optionee except by will or by the laws of descent and distribution or by Committee approved transfer to a family member as defined in the 2005 Incentive Plan, and each option is exercisable during the lifetime of an optionee only by the optionee or the optionee s guardian or legal representative.

Upon a Change in Control (as defined in the 2005 Incentive Plan), dissolution or liquidation, corporate separation or division, or sale of substantially all assets, the Committee may provide for (1) the continuation of the then outstanding options (if APSG is the surviving corporation), (2) the assumption of the 2005 Incentive Plan and the then outstanding options by the surviving entity or its parent, (3) the substitution by the surviving entity or its parent of options with substantially similar terms as the then outstanding options, (4) the cancellation of outstanding options for a cash payment equal to the in-the-money value thereof or (5) the cancellation of outstanding options without payment of consideration. If vested options would be cancelled without payment, the option holder would have the right to exercise such options before such cancellation. In connection with the alternatives described above, the Committee may in its discretion accelerate unvested options.

The APSG s board of directors, subject to certain exceptions, may suspend, terminate or amend the 2005 Incentive Plan at its discretion.

The following awards have been made under the 2005 Incentive Plan as of November 6, 2006: Mr. Shifrin, 15,000 shares; Mr. Magids, 25,000 shares; Mr. Hayes, 5,000 shares; Mr. Solimine, 5,000 shares; Mr. Searles, 10,000 shares; all executive officers as a group, 60,000 shares; all directors, who are not executive officers, as a group, 45,000 shares; and all employees, including current officers who are not executive officers, as a group, 48,000 shares. Except with respect to the issuance of options covering 148,000 shares to the current directors of APIE pursuant to the plan of conversion and merger agreement, no determination has been made with respect to future recipients of options under the 2005 Incentive Plan and it is not possible to specify the names or positions of the persons to whom options may be granted, or the number of shares, within the limitations of the 2005 Incentive Plan, to be covered by such options.

Under currently applicable provisions of the Code, an optionee will not be deemed to receive any income for federal income tax purposes upon the grant of any option under the 2005 Incentive Plan, nor will APSG be entitled to a tax deduction at that time. Upon the exercise of a non-incentive option, the optionee will be deemed to have

Table of Contents

Index to Financial Statements

received ordinary income in an amount equal to the difference between the exercise price and the market price of the shares on the exercise date. APSG will be allowed an income tax deduction equal to the excess of market value of the shares on the date of exercise over the cost of such shares to the optionee. No income will be recognized by the optionee at the time of exercise of an incentive stock option. If the stock is held at least one year following the exercise date and at least two years from the date of grant of the option, the optionee will realize a capital gain or loss upon sale, measured as the difference between the exercise price and the sale price. If both of these holding period requirements are not satisfied, ordinary income tax treatment will apply to the amount of gain at sale or exercise, whichever is less. If the actual gain exceeds the amount of ordinary income, the excess will be considered short-term or long-term capital gain depending on how long the shares are actually held. No income tax deduction will be allowed by APSG with respect to shares purchased by an optionee upon the exercise of an incentive stock option, provided such shares are held for the required periods as described above.

Under the Code, an option will generally be disqualified from receiving incentive stock option treatment if it is exercised more than three months following termination of employment. However, if the optionee is disabled, such statutory treatment is available for one year following termination. If the optionee dies while employed by APSG or within three months thereafter, the statutory time limit is waived altogether. In no event do these statutory provisions extend the rights to exercise an option beyond those provided by its terms.

FUTURE SHAREHOLDER PROPOSALS

Any APSG shareholders meeting certain minimum stock ownership and holding period requirements may present a proposal to be included in APSG s proxy statement for action at the APSG annual meeting of shareholders to be held in 2007 pursuant to Rule 14a-8 of the Exchange Act. Such shareholder must deliver such proposal to APSG s principal executive offices no later than January 6, 2007, unless APSG notifies shareholders otherwise. Only those proposals that are appropriate for shareholder action and otherwise meet the requirements of Rule 14a-8 of the Exchange Act may be included in APSG s proxy statement.

An APSG shareholder who otherwise intends to present business, other than for the nomination of a person for election to APSG s board of directors, at its 2007 annual meeting of shareholders must comply with the requirements set forth in APSG s bylaws, which require, among other things, that to bring business before the 2007 annual meeting, a shareholder must give written notice that complies with APSG s bylaws to its Secretary at APSG s principal executive offices. An APSG shareholder who intends to nominate a person for election to the APSG board of directors at the 2007 annual meeting must give written notice that complies with APSG s bylaws to its Secretary at APSG s principal executive offices no earlier then January 5, 2007 and no later than February 7, 2007, unless APSG notifies its shareholders otherwise.

As a result, a notice of an APSG shareholder proposal for the 2007 annual meeting, submitted other than pursuant to Rule 14a-8, will be untimely if not received by APSG within the time deadlines required by its bylaws as described above. As to any such proposals, the proxies named in management s proxy for that meeting will be entitled to exercise their discretionary authority on that proposal unless APSG receives notice of the matter to be proposed within the time deadlines required by APSG s bylaws as described above. Even if proper notice is received on a timely basis, the proxies named in management s proxy for that meeting may nevertheless exercise their discretionary authority with respect to such matter by advising shareholders of such proposal and how they intend to exercise their discretion to vote on such matter to the extent permitted under Rule 14a-4(c)(2) of the Exchange Act.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2006

(Unaudited)

1. General

The accompanying unaudited condensed consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) and pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. The consolidated financial statements as of and for the three and nine month periods ended September 30, 2006 and 2005 reflect all adjustments which are, in the opinion of management, necessary for a fair presentation of the financial position, results of operations and cash flows for the periods presented. Such adjustments consist of only items of a normal recurring nature. These consolidated financial statements have not been audited by our independent registered public accounting firm. The operating results for the interim periods are not necessarily indicative of results for the full fiscal year.

The notes to consolidated financial statements appearing in our Annual Report on Form 10-K for the year ended December 31, 2005 filed with the Securities Exchange Commission should be read in conjunction with this Quarterly Report on Form 10-Q. There have been no significant changes in the information reported in those notes other than from normal business activities.

2. Management s Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

3. Contingencies

We are involved in various claims and legal actions that have arisen in the ordinary course of business. Management believes that any liabilities arising from these actions will not have a significant adverse effect on our financial condition or results of operations.

4. Gain on Sale of Assets

During the three and nine month periods ended September 30, 2006, we recognized approximately $141,000 and $422,000, respectively, of deferred gain related to the November 2001 sale and subsequent leaseback of real estate to Prime Medical (now called HealthTronics, Inc.). Recognition of deferred gains was nearly identical in both periods in 2005 as well. Due to our continuing involvement in the property, we deferred recognizing approximately $2,400,000 of the approximately $5,100,000 gain and recognized it in earnings, as a reduction of rent expense, monthly through September 2006. As of September 30, 2006 no more of these deferred gains remain to be recognized. In addition, 15% of the gain ($760,000) related to our then 15% ownership in the purchaser, was deferred. As our ownership percentage in HealthTronics declines through our sales of HealthTronics common stock, we recognize these gains proportionately to our reduction of our interest in HealthTronics. During the three and nine month periods ended September 30, 2006 we recognized approximately $13,000 and $15,000, respectively, of these deferred gains as a result of HealthTronics common stock sold in these periods. As of September 30, 2006, there remained a balance of approximately $31,000 in deferred gains to be recognized in future periods.

5. Gain on Investments

Our gains resulted primarily from the sales of available-for-sale equity and fixed income securities. During the three and nine month periods ended September 30, 2006 we recognized gains of $90,000 and $110,000, respectively, resulting from sales of Healthtronics common stock and from scheduled maturities of fixed income securities. These gains are down substantially from the comparative periods in 2005 where we recognized $1,114,000 and $3,091,000 in the three and nine month periods, respectively, as a result of selling far fewer shares of an equity security in 2006 resulting from a drop in its market value.

6. Loss on Impairment of Investment

Although there has been no loss taken in 2006, we had a loss in 2005 due to the impairment in value of our investment in FIC common stock. During 2004, the value of our investment in FIC had declined significantly. In October 2004, we determined that this decline in market price should be considered other than temporary as defined in Statements of Financial Accounting Standards (SFAS) No. 115, *Accounting for Certain Investments in Debt and Equity Securities*, as amended. Consequently, we recorded pre-tax charges to earnings totaling $2,567,000 in 2004. These charges reduced our cost basis in FIC from $5,647,000, or $14.67 per share, to $3,080,000, or $8.00 per share which was equal to the quoted market price of FIC shares on December 31, 2004. During the first nine months of 2005, we took additional pre-tax charges to earnings totaling $135,000 further reducing our cost basis in FIC to $2,945,000, or $7.65 per share. While we continue to have the ability and the intent to hold the stock indefinitely, we concluded that the additional uncertainty created by FIC s late SEC filings, together with the lack of its current financial information, dictated that the 2004 and 2005 declines should be viewed as other than temporary. In July 2005, FIC was able to file its 2003 Form 10-K and in October, 2006 FIC filed its 2004 Form 10-K, but it still has yet to file any 2005 Forms 10-Q or 10-K and thus continues to be de-listed on the NASDAQ Stock Market.

7. Gain on Forgiveness of Debt

The gain of $24,000 during the three and nine months ended September 30, 2005 represents that amount of liability that was released in the respective periods by participants in our loan to a former affiliate, net of any interest due them from prior period payments made by that affiliate. Due to poor operating results, a former affiliate, Uncommon Care, was in default and not making scheduled payments under its loan agreement with us in which the participations had been sold. As a result, the loan participants released us from any obligations under the participation agreements. The $24,000 recorded in the third quarter of 2005 represents the final loan obligation to be released. Accordingly, no such gains were recorded during 2006.

8. Cash Restricted

Restricted cash represents cash deposits advanced from customers for trade claim transactions that do not close by the end of the period. It occurs when a customer remits payment for a transaction by check instead of via wire transfer. As checks of this size normally take several business days to clear, we ask our customers to pay in advance for transactions expected to close in the near future. At the time of receipt, Cash Restricted and Accounts Payable are increased for an equal amount as no part of this cash is ours until the transaction closes.

9. Investment in Available-For-Sale Equity Securities

A portion of this balance sheet account is comprised of our investment in FIC common stock. As mentioned in Note 6 above, during 2005 and 2004, we recognized other than temporary impairment losses and, accordingly,

(Unaudited)

our original cost basis in the 385,000 shares of FIC common stock we own has been reduced from $14.67 per share to $7.65 per share during 2004 and 2005. The effect of any other than temporary impairment loss is to reclassify from accumulated other comprehensive income (loss) the unrealized loss to realized loss in the statement of operations. We classify all of these shares as securities available-for-sale and record temporary unrealized changes in their value, net of tax, in our balance sheet as part of Accumulated Other Comprehensive Income (Loss) in Stockholders Equity. Changes in their fair market value deemed to be other than temporary are charged to earnings in the period that the determination was made. As FIC has traded above $7.65 per share throughout 2006, no impairment charges were necessary for either the three or nine month periods ended September 30, 2006.

10. Investment in Available-For-Sale Fixed Income Securities

We have invested primarily in U.S. government-backed securities with maturities varying from one to two years, as well as three corporate bonds with Standard and Poor s ratings of no lower than B (investment grade).

11. Prepaid and Other Current Assets

In June 2006 we announced plans for a strategic merger with our medical malpractice partner, American Physicians Insurance Exchange (APIE). Both ours and APIE s Boards of Directors voted to approve the transaction subject to approval by the Texas Department of Insurance, necessary filings with the SEC and the approval of the shareholders of APS and subscriber-policyholders of APIE. We account for this transaction consistent with Statement of Financial Standards No. 141, *Business Combinations*, whereby direct costs of the business combination are capitalized and become part of the total purchase price. Should the merger not take place, these direct costs would be expensed in the period that it is determined that the merger will not occur. As of September 30, 2006, we have capitalized a total of $532,000, comprised primarily of legal, accounting, auditing and tax consulting fees incurred by us related to this proposed, pending transaction.

12. Accrued Expenses and Other Liabilities

15. Stock-Based Compensation

In December 2004, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 123 (revised 2004), *Share-Based Payment* (SFAS 123 (R)). The standard amends SFAS 123, *Accounting for Stock-Based Compensation*, and concludes that services received from employees in exchange for stock-based compensation results in a cost to the employer that must be recognized in the financial statements. The cost of such awards should be measured at fair value at grant date.

On January 1, 2006 we adopted SFAS No. 123R. We use the Black-Scholes-Merton option-pricing model to determine the fair value of stock-based awards, consistent with that used for pro forma disclosures under SFAS No. 123, *Accounting for Stock-Based Compensation*. We have elected the modified prospective transition method as permitted by SFAS No, 123R and accordingly prior periods have not been restated to reflect the impact of SFAS No. 123R. SFAS No. 123R requires that stock-based compensation be recorded for all new and unvested stock options expected to vest as the requisite service is rendered beginning January 1, 2006, the first day of our 2006 fiscal year. Stock-based compensation expense for awards granted on or before December 31, 2005, but unvested as of that date, is based on the grant date fair value as determined under the pro forma provisions of

SFAS No. 123. For the three and nine months ended September 30, 2006 we recorded compensation cost related to stock options of $32,000 and $189,000 and a related reduction in income taxes of $11,000 and $64,000, respectively. The compensation cost is the total fair value, at date of grant, of shares that vested during the three and nine month periods. No compensation costs were capitalized in the three and nine month periods ended September 30, 2006.

During the three and nine month periods ended September 30, 2006, 48,000 and 159,000 options were exercised with an intrinsic value of $560,000 and $1,666,000, respectively. We received proceeds of $287,000 and $791,000 from the exercise of these options during the three and nine month periods ended September 30, 2006. Based on unvested options outstanding at September 30, 2006 compensation costs to be recorded in future periods are expected to be recognized as follows: 2006, $32,000; 2007, $21,000; 2008, $19,000; and 2009, $4,000.

We have adopted, with shareholder approval, the 2005 Incentive and Non-Qualified Stock Option Plan (Incentive Plan). The Incentive Plan provides for the issuance of up to 350,000 shares of common stock to our directors and key employees. A total of 153,000 of these options have been granted as of September 30, 2006 and 197,000 are available for grants. Of those granted, 5,000 shares have been exercised, 133,000 options are exercisable and 15,000 are not yet exercisable. The previous plan, 1995 Incentive and Non-Qualified Stock Option Plan , provided for the issuance of 1,600,000 shares of common stock to our directors and key employees. All of the approved options have been granted as of September 30, 2006, 1,136,000 shares have been exercized, 264,000 shares are exercisable, 41,000 are not yet exercisable and 159,000 options have been cancelled. Upon the exercise of an option we issue the shares from our authorized, but un-issued shares.

The exercise price for each non-qualified option share is determined by the Compensation Committee of the Board of Directors (the Committee). The exercise price of a qualified incentive stock option has to be at least 100% of the fair market value of such shares on the date of grant of the option. Under the Plans, option grants are limited to a maximum of ten-year terms; however, the Committee has issued all currently outstanding grants with five-year terms. The Committee also determines vesting for each option grant and traditionally has had options vest in three approximately equal annual installments beginning one year from the date of grant.

Presented below is a summary of the stock options held by our employees and our directors and the related transactions for the three and nine months ended September 30, 2006.

The weighted average fair value of Company stock options granted is $3.87 per option for the nine months ended September 30, 2006. No options were granted in the three month period ended September 30, 2006. The fair value of the options was calculated using the Black-Scholes-Merton option pricing model with the following assumptions:

	Nine months ended September 30, 2006
Expected option term:	3.7 years
Expected volatility	0.350
Expected dividend yield	2.01%
Risk-free rate of return	4.33%

The expected volatility assumptions we used are based on the historical volatility of our common stock over the most recent period commensurate with the estimated expected life of our stock options, such estimated life being based on the historical experience of our stock option exercises. The following table summarizes the Company s options outstanding and exercisable options at September 30, 2006:

Stock Options Outstanding				Stock Options Exercisable			
Shares	Weighted Average Exercise Price	Aggregate Intrinsic Value (1)	Average Remaining Contractual Life	Shares	Weighted Average Exercise Price	Aggregate Intrinsic Value (1)	Average Remaining Contractual Life
453,000	$ 9.49	$ 3,238,000	2.8 yrs.	397,000	$ 9.35	$ 2,892,000	2.8 yrs.

(1) Based on the $16.63 closing price of our stock at September 30, 2006.

Prior to the adoption of SFAS No. 123R, we adopted the disclosure-only provision of SFAS No. 123, but applied APB Option No. 25, Accounting for Stock Issued to Employees , in accounting for our stock option plans. No compensation expense was recognized for the three and nine months ended September 30, 2005 under the provisions of APB No. 25. If we had elected to recognize compensation expense for options granted based on their fair values at the grant dates, consistent with Statement 123, net income and earnings per share would have changed to the pro forma amounts indicated below:

	Three Months Ended September 30, 2005	Nine Months Ended September 30, 2005
Net income as reported	$ 1,395,000	$ 3,615,000
Deduct: Total additional stock-based employee compensation expense determined under fair value based method for all awards, net of related tax effects	(45,000)	(180,000)

16. Recent Accounting Pronouncements

In February, 2006 the Financial Accounting Standards Board issued Statement of Financial Accounting Standards, or SFAS, No. 155, *Accounting for Certain Hybrid Financial Instruments*, an amendment of FASB Statements No. 133 and 140. SFAS 155 becomes effective for all financial instruments acquired or issued after the beginning of an entity s first fiscal year that begins after September 15, 2006. This Statement permits fair value remeasurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation; clarifies which interest-only strips and principal-only strips are not subject to the requirements of Statement 133; establishes a requirement to evaluate interests in securitized financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an embedded derivative requiring bifurcation; clarifies that concentrations of credit risk in the form of subordination are not embedded derivatives; and amends Statement 140 to eliminate the prohibition on a qualifying special-purpose entity from holding a derivative financial instrument that pertains to a beneficial interest other than another derivative financial instrument. We do not expect the adoption of this standard to have a material effect on our financial position, results of operations or cash flows.

In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109* (FIN 48), which clarifies the accounting and disclosure for uncertainty in tax positions, as defined. FIN 48 seeks to reduce the diversity in practice associated with certain aspects of the recognition and measurement related to accounting for income taxes. This interpretation is effective for fiscal years beginning after December 15, 2006. We have not yet determined the impact this interpretation will have on our results from operations or financial position.

In September, 2006 the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards, or SFAS No. 157, *Accounting for Fair Value Measurements* , effective for fiscal years beginning after November 15, 2007. This Statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. This Statement applies under other accounting pronouncements that require or permit fair value measurements, the Board having previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. Accordingly, this Statement does not require any new fair value measurements. However, for some entities, the application of this Statement will change current practice. We do not expect the adoption of this standard to have a material effect on our financial position, results of operations or cash flows.

In September, 2006 the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards, or SFAS No. 158, *Accounting for Defined Benefit and Other Postretirement Plans* effective as of the end of the fiscal year ending after December 15, 2006. This Statement improves financial reporting by requiring an employer to recognize the overfunded or underfunded status of a defined benefit postretirement plan (other than a multiemployer plan) as an asset or liability in its statement of financial position and to recognize changes in that funded status in the year in which the changes occur through comprehensive income of a business entity. This Statement also improves financial reporting by requiring an employer to measure the funded status of a plan as of the date of its year-end statement of financial position, with limited exceptions. We do not expect the adoption of this standard to have a material effect on our financial position, results of operations or cash flows.

17. Plans for a Strategic Merger

On June 5, 2006 we announced plans for a strategic merger with our medical malpractice partner, American Physicians Insurance Exchange (APIE). Both APSG s and APIE s boards of directors voted to approve the transaction subject to approval by the Texas Department of Insurance, necessary filings with the SEC and the approval of the shareholders of APSG and subscriber-policyholders of APIE. The original purchase price was $33 million, comprised of approximately 1.7 million shares of APS common stock issued to the policyholders of APIE and the assumption of approximately $10.4 million in obligations, which will be converted to APS preferred stock with a cash redemption requirement. On August 24, 2006, we announced that we agreed to an increase in the purchase price of APIE, which was also approved by APIE. The revised purchase price is $39 million, comprised of approximately 2.1 million shares of APS common stock issued to the policyholders of APIE and the assumption of approximately $10.4 million in obligations, which will be converted to APS preferred stock with a 3% dividend and a cash redemption requirement payable over ten years. We can give no assurances that this merger will close, or if it does, that there will not be further changes to the terms of the deal. We will account for this transaction consistent with the Statement of Financial Standards No. 141, *Business Combinations* , whereby direct costs of the business combination are capitalized and become part of the total purchase price.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2005, 2004 and 2003

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) General

We, through our subsidiaries, provide financial services that include brokerage and asset management services to individuals and institutions, and insurance services that consist of management services for a malpractice insurance company. The financial services business has clients nationally. Insurance management is a service provided primarily in Texas, but is available to clients nationally. During the three years presented in the financial statements, financial services generated 54%, 52% and 64% of total revenues and insurance services generated 46%, 48% and 36% in 2005, 2004 and 2003, respectively.

(b) Management s Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(c) Principles of Consolidation

The consolidated financial statements include our accounts and the accounts of our subsidiary companies more than 50% owned. Investments in affiliated companies and other entities, in which our investment is less than 50% of the common shares outstanding and where we exert significant influence over operating and financial policies, are accounted for using the equity method. Investments in other entities in which our investment is less than 20%, and in which we do not have the ability to exercise significant influence over operating and financial policies, are accounted for using the cost method. In the event that we retain sufficient risk of loss in a disposed subsidiary to preclude us from recognizing the transaction as a divestiture, we would continue to consolidate the subsidiary as an entity in which we have a variable interest under the guidance of FIN 46R.

We own 100% of our insurance services segment after repurchasing the 20% formerly owned by Florida Physicians Insurance Group, Inc. (FPIC), on September 30, 2003 (see Note 14). Before this date, we recorded minority interest to reflect the 20% of its net income or loss attributable to the minority shareholder.

All significant intercompany transactions and balances have been eliminated from the accompanying consolidated financial statements.

(d) Revenue Recognition

Our investment services revenues related to securities transactions are recognized on a trade date basis. Asset management revenues are recognized monthly based on the amount of funds under management.

Our insurance services revenues related to management fees are recognized monthly as a percentage of the earned insurance premiums of the managed company. The profit sharing component of the management services agreement is recognized when it is reasonably certain that the managed company will have an annual profit, generally in the fourth quarter of each year.

(e) Marketable Securities

Our investments in debt and equity securities are classified in three categories and accounted for as follows:

Classification	**Accounting**
Held-to-maturity	Amortized cost
Trading securities	Fair value, unrealized gains and losses included in earnings
Available-for-sale	Fair value, unrealized gains and losses excluded from earnings and reported in equity as a component of accumulated other comprehensive income, net of applicable income taxes. Realized gains and losses are included in earnings.

We have included our marketable securities, held as inventory at our broker/dealer, in the trading securities category. We have included investments in marketable securities not held as inventory at our broker/dealer in the available-for-sale securities category.

We account for our equity and fixed income securities as available-for-sale. In the event a decline in fair value of an investment occurs, management may be required to determine if the decline in market value is other than temporary. Management s assessments as to the nature of a decline in fair value are based on the quoted market prices at the end of a period, the length of time an investment s fair value has been in decline and our ability and intent to hold the investment. If the fair value is less than the carrying value and the decline is determined to be other than temporary, an appropriate write-down is recorded against earnings.

(f) Property and Equipment

Property and equipment is stated at cost net of accumulated depreciation. Property and equipment is depreciated using the straight-line method over the estimated useful lives of the respective assets (3 to 5 years). Leasehold improvements are depreciated using the straight-line method over the life of the lease or their expected useful life, whichever is shorter.

(g) Long-Lived Assets

Long-lived assets, principally property and equipment, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. If the sum of the expected future undiscounted cash flows is less than the carrying amount of the asset, a loss is recognized if there is a difference between the fair value and carrying value of the asset.

Investments are evaluated for impairment in the event of a material change in the underlying business. Such evaluation takes into consideration our intent and time frame to hold or to dispose of the investment and takes into consideration available information, including recent transactions in the stock, expected changes in the operations or cash flows of the investee, or a combination of these and other factors. Management s evaluation of our investments resulted in impairment charges in both 2005 and 2004, as detailed in Note 5 to these consolidated financial statements.

(h) Goodwill and Other Intangible Assets

Goodwill represents the excess of cost over the fair value of net assets acquired. We account for goodwill and other intangible assets according to the Statement of Financial Accounting Standards (SFAS) No. 142,

Table of Contents

Index to Financial Statements

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Goodwill and Other Intangible Assets , which addresses financial accounting and reporting matters for acquired goodwill and other intangible assets. Under the provision of SFAS No. 142, goodwill is not amortized, but is evaluated annually for impairment or more frequently if circumstances indicate that impairment may exist. The goodwill valuation is largely influenced by projected future cash flows and, therefore, is significantly impacted by estimates and judgments.

We amortize other identifiable intangible assets on a straight-line basis over the periods expected to be benefited. The components of these other intangible assets, recorded in Other Assets in the accompanying consolidated balance sheets, consist primarily of a non-compete agreement.

(i) Allowance for Doubtful Accounts

When applicable, we record an allowance for doubtful accounts based on specifically identified amounts that we believe to be uncollectible. If our actual collections experience changes, revisions to our allowance may be required. We have a limited number of customers with individually large amounts due at any given balance sheet date. Any unanticipated change in one of those customers credit standing or rating could have a material affect on our results of operations in the period in which such changes or events occur. After all attempts to collect a receivable have failed, the receivable is written off against the allowance.

(j) Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is provided for deferred tax assets to the extent realization is not judged to be more likely than not.

(k) Cash and Cash Equivalents

Cash and cash equivalents include cash and highly liquid investments with a maturity date at purchase of 90 days or less. We deposit our cash and cash equivalents with high credit quality institutions. Periodically such balances may exceed applicable FDIC insurance limits. Management has assessed the financial condition of these institutions and believes the possibility of credit loss is minimal.

(l) Notes Receivable

Notes receivable are recorded at cost, less allowances for doubtful accounts when deemed necessary. Management, considering current information and events regarding the borrowers ability to repay their obligations, considers a note to be impaired when it is probable that we will be unable to collect all amounts due according to the contractual terms of the note agreement. When a loan is considered to be impaired, the amount of the impairment is measured based on the present value of expected future cash flows discounted at the note s effective interest rate. Impairment losses are included in the allowance for doubtful accounts through a charge to bad debt expense. The present value of the impaired loan will change with the passage of time and may change because of revised estimates of cash flows or timing of cash flows. Such value changes are reported as bad debt expense in the same manner in which impairment initially was recognized. No interest income is accrued on impaired loans. Cash receipts on impaired loans are recorded as reductions of the principal amount.

(m) Stock-Based Compensation

We have adopted the disclosure-only provisions of Statement of Financial Accounting Standards No. 123, *Accounting for Stock-Based Compensation* (Statement 123), but apply Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees, in accounting for our stock option plans. In 2003 we purchased 15,000 unexpired options from a grantee. This purchase in effect modified the terms of the option and, accordingly, we recognized $34,000 of compensation expense in 2003, as required for a modification of terms under FIN 44. No other compensation expense from stock-based compensation awards was recognized in 2005, 2004 and 2003. If we had elected to recognize compensation expense for options granted based on their fair values at the grant dates, consistent with Statement 123, net income and earnings per share would have changed to the pro forma amounts indicated below:

	Year Ended December 31,		
	2005	2004	2003
Net income, as reported	$ 5,460,000	$ 2,152,000	$ 2,799,000
Add: Stock-based employee compensation expense included in net income, net of tax			22,000
Deduct: Total stock-based employee compensation expense determined under the fair value based method for all awards, net of related tax effects	(421,000)	(550,000)	(241,000)
Pro forma net income	$ 5,039,000	$ 1,602,000	$ 2,580,000
Net income per share			
Basic as reported	$ 2.03	$ 0.85	$ 1.27
Basic pro forma	$ 1.87	$ 0.63	$ 1.17
Diluted as reported	$ 1.86	$ 0.76	$ 1.14
Diluted pro forma	$ 1.72	$ 0.56	$ 1.05

The stock-based employee compensation expense above was determined using the Black Scholes option- pricing model with the following assumptions:

	2005	2004	2003
Risk-free interest rate	4.33%	3.03%	2.44%
Expected holding period	3.6 years	3.8 years	3.8 years
Expected volatility	.363	.429	.407
Expected dividend yield	2.15%	-0-	-0-

(n) Recently Issued Accounting Pronouncements

In December 2004, the FASB issued SFAS 153, *Exchanges of Nonmonetary Assets*, an amendment of APB No. 29, Accounting for Nonmonetary Transactions. SFAS 153 requires exchanges of productive assets to be accounted for at fair value, rather than at carryover basis, unless (1) neither the asset received nor the asset surrendered has a fair value that is determinable within reasonable limits or (2) the transactions lack commercial substance. SFAS 153 is effective for nonmonetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. The Company does not expect the adoption of this standard to have a material effect on its financial position, results of operations or cash flows.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

December 31, 2005, 2004 and 2003

In December 2003, the Financial Accounting Standards Board published FIN No. 46-R, Consolidation of Variable Interest Entities (revised December 2003), superseding FIN 46, and exempting certain entities from the provisions of FIN 46. Generally, application of FIN 46-R is required in financial statements of public entities that have interests in structures commonly referred to as special-purpose entities for periods ending after December 15, 2003, and for other types of VIEs for periods ending after March 15, 2004. We currently do not have any variable interest entities therefore the adoption of this standard did not have a material effect on our financial position, results of operations or cash flows.

In December 2004, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards, or SFAS, No. 123 (revised 2004), *Share-Based Payment*. Statement 123(R) will provide investors and other users of financial statements with more complete and neutral financial information by requiring that the compensation cost relating to share-based payment transactions be recognized in financial statements. That cost will be measured based on the fair value of the equity or liability instruments used. Statement 123(R) covers a wide range of share-based compensation arrangements including share options, restricted share plans, performance-based awards, share appreciation rights, and employee share purchase plans. Statement 123(R) replaces FASB Statement No. 123, *Accounting for Stock-Based Compensation*, and supersedes APB Opinion No. 25, Accounting for Stock Issued to Employees . Statement 123, as originally issued in 1995, established as preferable a fair-value-based method of accounting for share-based payment transactions with employees. However, that Statement permitted entities the option of continuing to apply the guidance in Opinion 25, as long as the footnotes to financial statements disclosed what net income would have been had the preferable fair-value-based method been used. We are required to apply Statement 123(R) as of the first interim or annual reporting period that begins after December 15, 2005. We estimate that our pre-tax expense from applying 123 (R) in 2006 and 2007 will be $109,000 and $2,000 respectively, based on unvested options at December 31, 2005. We are unable to estimate the expense of any options that may be issued in 2006 and subsequent years due to the uncertainties of quantity, stock prices, and all other variables affecting such an estimate.

(o) Reclassification

Certain reclassifications have been made to amounts presented in 2004 and 2003 to be consistent with the 2005 presentation.

(2) MANAGEMENT FEES AND OTHER RECEIVABLES

Management fees and other receivables consist of the following:

	December 31,	
	2005	**2004**
Management fees receivable	$ 2,723,000	$ 1,667,000
Accrued interest receivable	125,000	67,000

We earn management fees by providing management services to American Physicians Insurance Exchange (APIE) under the direction of APIE s Board of Directors. APIE is a reciprocal insurance exchange, which is wholly owned by its subscriber physicians. Subject to the direction of APIE s Board, and subject to a management services agreement, FMI sells and issues medical insurance policies, investigates, settles and defends claims, and otherwise manages APIE s affairs. The management agreement with FMI obligates APIE to

pay management fees to FMI based on a percentage of APIE s earned premiums before payment of reinsurance premiums. In addition, the management agreement provides that any profits, as defined, of APIE will be shared equally with FMI so long as the total payment (fees and profit sharing) does not exceed a cap based on premium levels. Management fees attributable to profit sharing were $2,007,000, $1, 929, 000, and $722,000 for the years ended December 31, 2005, 2004 and 2003. We earned total management fees and other related income of $15,514,000, $15,316,000, and $10,826,000, including management fee income of $11,038,000, $10,609,000, and $7,276,000 and including expense reimbursements, principally for our independent agents commissions, of $4,376,000, $4,482,000, and $3,373,000 for the years ended December 31, 2005, 2004 and 2003, respectively, related to these agreements.

(4) FAIR VALUE OF FINANCIAL INSTRUMENTS

For financial instruments the estimated fair value equals the carrying value as presented in the consolidated balance sheets. Fair value estimates, methods, and assumptions are set forth below for our financial instruments.

Notes Receivable

The fair value of notes has been determined using discounted cash flows based on our management s estimate of current interest rates for notes of similar credit quality. The carrying value of notes receivable approximates their fair value.

Deposit with Clearing Organization

The carrying amounts approximate fair value because the funds can be withdrawn on demand and there is no unanticipated credit concern.

Limitations

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. Fair value estimates are based on existing financial instruments without attempting to estimate the value of anticipated future business and the value of assets and liabilities that are not considered financial instruments. In addition, the tax ramifications related to the realization of the unrealized gains and losses can have a significant effect on fair value estimates and have not been considered in the aforementioned estimates.

(5) MARKETABLE SECURITIES

The following table summarizes by major security type the cost, fair market value, and unrealized gains and losses of the investments that we have classified as available-for-sale:

2005 and 2004, respectively. At December 31, 2005 and 2004, amounts also include equity securities of Financial Industries Corporation (FIC) with a fair value of $3,196,000 and $3,080,000, respectively.

Maturities of fixed income securities were as follows at December 31, 2005:

	Cost	Fair Value
Due within one year	$ 9,689,000	$ 9,662,000
Due after one year	3,617,000	3,584,000
Total	$ 13,306,000	$ 13,246,000

HealthTronics is the largest provider of lithotripsy (a non-invasive method of treating kidney stones) services in the United States and is an international supplier of specialty vehicles for the transport of high technology medical, broadcast/communications and homeland security equipment. Through selling of shares since our initial investment of 3,540,000 shares in 1989, our holdings of common stock at December 31, 2005 stood at 143,000, or less than 1% of the common stock outstanding. We account for HealthTronics as an available-for-sale equity security and record changes in its value, net of tax, in our balance sheet as part of accumulated other comprehensive income.

Financial Industries Corporation (FIC) is a holding company primarily engaged in the life insurance business through ownership of several life insurance companies. In June 2003, we purchased from FIC and the Roy F. and Joann Mitte Foundation, 339,879 shares of FIC s common stock as an investment. Earlier in 2003 we had purchased 45,121 FIC shares in the open market. The 385,000 shares represented an approximate $5,647,000, which was all sourced from our cash reserves. During 2004, the value of our investment in FIC had declined significantly. In October 2004, we determined that this decline in market price was other than temporary as defined in Statements of Financial Accounting Standards (SFAS) No. 115, Accounting for Certain Investments in Debt and Equity Securities, as amended. Consequently, we recorded pretax charges to earnings totaling $2,567,000 in 2004. These charges reduced our cost basis in FIC from $5,647,000, or $14.67 per share, to $3,080,000, or $8.00 per share which was equal to the quoted market price of FIC shares on December 31, 2004. During 2005, we took additional pretax charges to earnings totaling $135,000, further reducing our cost basis in FIC to $2,945,000, or $7.65 per share. While we currently continue to have the ability and the intent to hold the stock indefinitely, we concluded that the additional uncertainty created by FIC s late filings, together with the lack of its current financial information, dictated that the 2004 and 2005 declines should be viewed as other than temporary. In July, 2005 FIC was able to file its 2003 Form 10-K but has yet to file any 2004 or 2005 Forms 10-Q or 10-K and thus continues to be de-listed on the NASDAQ Stock Market. We will continue to monitor and evaluate the situation at FIC and further determine if changes in fair market value of the investment are temporary or other than temporary .

The following table summarizes our recognized gains and losses on investments. Costs on assets sold were determined on the basis of specific identification.

	Year ended December 31,		
	2005	2004	2003

(6) PROPERTY AND EQUIPMENT

Property and equipment consists of the following:

	December 31,	
	2005	**2004**
Equipment	$ 1,289,000	$ 1,150,000
Furniture	647,000	628,000
Software	783,000	643,000
Leasehold improvements	332,000	332,000

Accumulated depreciation	(2,364,000)	(2,134,000)
	$ 687,000	$ 619,000

Property and equipment are stated at cost. Depreciation expense of $239,000, $181,000 and $173,000 in 2005, 2004 and 2003, respectively, is computed principally on the straight-line method over the estimated useful lives of the assets. The useful lives for equipment ranges from three to five years, furniture ranges from five to seven years, software is depreciated over three years, and leasehold improvements are depreciated over the life of the lease or their expected useful life, whichever is shorter.

(7) ACCRUED EXPENSES AND OTHER LIABILITIES

Accrued expenses and other liabilities consist of the following as of December 31:

	2005	**2004**
Commissions payable	$ 1,258,000	$ 1,260,000
Taxes payable	219,000	205,000
401(k) plan matching	208,000	169,000
Vacation payable	161,000	153,000
Other	66,000	55,000
	$ 1,912,000	$ 1,842,000

(8) DEFERRED GAIN

In November 2001 we sold all of the remaining 46,000 square feet of condominium space we owned in an office project located in Austin, Texas to our former affiliate, HealthTronics. In conjunction with the sale we leased back approximately 23,000 square feet that housed our operations prior to the sale. Gain on the sale amounted to approximately $5.1 million, of which $1.9 million was recognized in 2001 and the balance of gain was deferred. Deferred income of approximately $2.4 million related to our continuing involvement in 50% of the useable space was recorded

and is being recognized monthly over the five-year lease term through September 2006. Income recognition related to this deferral was $512,692 in 2005, and $488,000 in 2004 and 2003. In addition, 15% of the gain ($0.76 million) related to our then 15% ownership in the purchaser was deferred as we accounted for HealthTronics using the equity method of accounting through the year ended December 31, 2001. We reduced our investment in HealthTronics and subsequently recognized a proportionate percentage of the deferred gain, amounting to $133,000, $56,000 and $8,000 in 2005, 2004, and 2003, respectively. Recognition of the deferred gain is recorded as a reduction of rent expense in operating expenses in the accompanying financial statements.

(9) COMMITMENTS AND CONTINGENCIES

Rental expenses under all operating leases were $1,133,000, $1,098,000, and $997,000, for the years ended December 31, 2005, 2004 and 2003, respectively. We are involved in various claims and legal actions that have arisen in the ordinary course of business. Management believes that any liabilities arising from these actions will not have a significant adverse effect on our consolidated financial condition or results of operations.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

December 31, 2005, 2004 and 2003

The tax effect of temporary differences that gives rise to significant portions of deferred tax assets and deferred tax liabilities at December 31, 2005 and 2004 are presented below:

	Year Ended December 31,	
	2005	2004
Current deferred tax assets (liabilities):		
Accrued expenses	$ 334,000	$ 113,000
Allowance for doubtful accounts	21,000	11,000
Total current deferred tax asset	355,000	124,000
Non-current deferred tax assets (liabilities):		
Write-off of investment in excess of tax loss	946,000	873,000
Other investments		8,000
Sales/Leaseback deferred income	159,000	378,000
Investment in available-for-sale securities	(175,000)	(677,000)
Market value allowance on investments	(251,000)	(1,072,000)
Other	168,000	136,000
Tax depreciation in excess of book	(161,000)	(128,000)
Total non-current net deferred tax liability	686,000	(482,000)
Net deferred tax asset (liability)	$ 1,041,000	$ (358,000)

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based upon the level of historical taxable income and projections for future taxable income over the periods that the deferred tax assets are deductible, management believes it is more likely than not that we will realize the benefits of these deductible differences at December 31, 2005.

(11) EMPLOYEE BENEFIT PLANS

We have an employee benefit plan qualifying under Section 401(k) of the Internal Revenue Code for all eligible employees. Employees become eligible upon meeting certain service and age requirements. Employee deferrals may not exceed $14,000 in 2005 unless participant is over age 50, in which case the maximum deferral is $18,000. We may, at our discretion, contribute up to 200% of the employees deferred amount. For the years ended December 31, 2005, 2004 and 2003 our contributions aggregated $208,000, $170,000 and $176,000, respectively.

In December 2004, the Board of Directors approved the American Physicians Service Group, Inc. Affiliate Group Deferred Compensation Master Plan (Deferred Compensation Plan), a non-qualified compensation plan designed to give us more flexibility in compensating key employees and directors through ownership of our common stock. The adoption of the Deferred Compensation Plan was approved by our shareholders at the 2005 Annual Meeting. Under the Deferred Compensation Plan we may elect to defer a portion of an employee s incentive compensation or director s board compensation in the form of a deferred stock grant. Shares become eligible for withdrawal with the passage of

time and participants may withdraw eligible shares upon attaining the

age of sixty or upon leaving our service. Plan participants may withdraw all shares granted to them ratably over four years, provided they have entered into a non-competition agreement with us. We plan for this to be an unfunded plan. Shares to be withdrawn will be purchased in the open market or issued from the authorized shares. In 2005, a total of 21,108 shares were awarded, for which we recorded an expense of $252,000.

(12) STOCK OPTIONS

We have adopted, with shareholder approval, the 2005 Incentive and Non-Qualified Stock Option Plan (Incentive Plan). The Incentive Plan provides for the issuance of up to 350,000 shares of common stock to our directors and key employees. A total of 113,000 of these options have been granted as of December 31, 2005, all of which are exercisable. Simultaneously with shareholder approval of the Incentive Plan, we cancelled the 149,000 shares not granted under the 1995 Incentive and Non-Qualified Stock Option Plan (the 1995 Plan). Under the 1995 Plan 460,000 options remain unexercised, of which 370,000 are exercisable at December 31, 2005.

The exercise price for each non-qualified option share is determined by the Compensation Committee of the Board of Directors (the Committee). The exercise price of a qualified incentive stock option has to be at least 100% of the fair market value of such shares on the date of grant of the option. Under the Plans, option grants are limited to a maximum of ten-year terms; however, the Committee has issued all currently outstanding grants with five-year terms. The Committee also determines vesting for each option grant and substantially all outstanding options vest in two or three approximately equal annual installments beginning one year from the date of grant.

Presented below is a summary of the stock options held by our employees and our directors and the related transactions for the years ended December 31, 2005, 2004 and 2003.

	Years Ended December 31,					
	2005		2004		2003

The weighted average fair value (the theoretical option value calculated using the Black Scholes option pricing model) of Company stock options granted is $3.19, $3.58 and $2.20 per option during the years ended December 31, 2005, 2004 and 2003, respectively. In this case, as of December 31, 2005, the weighted average theoretical option value per share of Company stock options ($14.79) less the weighted average exercise price of options granted ($11.60) equals the weighted average fair value of options granted ($3.19).

(13) DISCONTINUED OPERATIONS

Effective November 1, 2002, we completed the sale of APS Consulting to its management as we determined the division s operations were not consistent with our long-term strategic plan. We sold all of our APS Consulting shares for a de minimus amount of cash plus a $250,000 seven-year term note at the prime rate plus 3%. Our existing contract, which was entered into October 1, 2002, provides administrative support services to APS Consulting for a period of approximately seven years, and remained in effect. Fees under this contract are dependent on APS Consulting s pre-tax earnings but may not be less than $200,000 or more than $518,000 over the life of the agreement. Because we were dependent upon the future successful operation of the division to collect our proceeds from the disposal and because we had a security interest in the assets of the division, we had retained a sufficient risk of loss to preclude us from recognizing the divestiture of APS Consulting under the guidance of FASB Interpretation No 46. Accordingly, we did not recognize the divestiture of APS Consulting and continued to consolidate the division as an entity in which we have a variable interest that will absorb the majority of the entity s operating losses if they occurred.

Effective November 1, 2003, APS Consulting was able to obtain third party financing and repay their note payable to us in exchange for our agreeing to discount the note by $35,000. We provided no guarantees or credit enhancements in connection with APS Consulting securing this financing. Accordingly, we no longer have a risk of loss related to these operations and have recognized the transaction as a divestiture. As a result, we ceased consolidation of APS Consulting financial statements effective November 1, 2003. In addition, we were able to recognize a gain of $27,000, net of tax, and administrative support fees totaling $84,000 for the period from November 1, 2002 through October 31, 2003 that had previously been eliminated as intercompany revenues. The accompanying financial statements reflect the financial position, results of operations and cash flows of APS Consulting as discontinued operations.

(14) REPURCHASE OF MINORITY INTEREST

On October 1, 2003 we purchased for $2,050,000 cash the 20% interest in APS Insurances Services, Inc., which was owned by FPIC Insurance Group, Inc. (FPIC). We believe the acquisition provided us more control over operating decisions and improved our earnings and return on capital with minimal risk. As a result of this transaction, we now own a 100% interest in APS Insurance Services. Prior to our repurchase of the minority interest, we consolidated the assets, liabilities and operations of APS Insurance Services and recorded 20% of its after tax net income as minority interest. As a part of the purchase agreement we maintained an agreement with FPIC that limits them from competing with us in Texas through February 2007. The Company has assigned a value of $410,000 to this non-compete agreement based on a determination by an outside consulting firm. The agreement is being amortized on the straight-line method through its expiration in 2007.

Purchase price of 20% interest	$ 2,050,000
Basis of recorded minority interest	(393,000)

Excess of purchase price over assets acquired (goodwill)	$ 1,247,000

(15) INVESTMENT IN UNCONSOLIDATED AFFILIATES

For the year ended December 31, 2005, 2004 and 2003, respectively, our equity in the earnings of unconsolidated affiliates consisted of the following:

	December 31,		
	2005	2004	2003
Prime Medical Services, Inc.	$	$	$
Uncommon Care			$ 260,000
Earnings	$	$	$ 260,000

On October 12, 1989, we purchased 3,540,000 shares (42%) of the common stock of Prime Medical. In the ensuing years, the sale of stock, stock exchanges and stock issuances reduced our ownership and at December 31, 2005 our holdings stood at 143,000 or less than 1% of the common stock outstanding.

In connection with the sales of Prime Medical (or HealthTronics as of 2004) shares during the year, we recognized gains of $3,020,000 in 2005, $245,000 in 2004, and $64,000 in 2003. The gains are classified as Gain on Sale of Investments in the accompanying consolidated financial statements. Changes in market value of our HealthTronics shares are included in shareholders equity as accumulated other comprehensive income.

HealthTronics is an SEC registrant and additional information on the company can be found on the SEC s web site at www.sec.gov.

On January 1, 1998 we invested approximately $2,078,000 in the convertible preferred stock of Uncommon Care, Inc. and extended notes totaling $4,430,000. Uncommon Care is a developer and operator of Alzheimer s care facilities. We accounted for Uncommon Care using the equity method.

Recording our share of Uncommon Care s accumulated losses had reduced the carrying value of our investment and our notes to zero by December 31, 2002. Following Uncommon Care s payment default to its senior lender in 2003 we sold our interest for a de minimus amount and wrote off the notes.

Some of our officers and directors participated in the $2,400,000 line of credit to Uncommon Care. For financial purposes this participation has been treated as a secured borrowing. In the aggregate, these officers and directors contributed approximately $259,000 to fund a 10.8% interest in the loan. They participate in the loan under the same terms as the Company.

We recorded $24,000 and $75,000 in 2005 and 2004, respectively, as gain on forgiveness of debt. These gains represent that amount of liability that was released in the respective periods by participants in our loan to a former affiliate, net of any interest due them fro prior period payments made by that affiliate. Due to poor operating results, Uncommon Care was in default and not making scheduled payments under its loan agreement with us in which the participations had been sold. As a result, the loan participants released us from any obligations under thee participation agreements. The $24,000 recorded in 2005 represents the final loan obligation to be released.

During 2003 we decided not to extend any future cash advances to Uncommon Care. Consequently, we took into income cash payments previously received from Uncommon Care. Total cash receipts recorded as equity in earnings of unconsolidated affiliates was $260,000 in 2003.

(16) SEGMENT INFORMATION

Our segments are distinct by type of service provided. Each segment has its own management team and separate financial reporting. Our Chief Executive Officer allocates resources and provides overall management based on the segments financial results.

Our financial services segment includes brokerage and asset management services to individuals and institutions.

Corporate is the parent company and derives its income from interest, investments and dividends paid by the other segments.

Income from the discontinued consulting segment was derived from operations in 2002 and from gains on disposal in 2003.

At December 31, 2005, 2004 and 2003 we had long-term contracts with that customer and were therefore not vulnerable to the risk of a near-term severe impact from a reasonably possible loss of the revenue. However, should that customer default or be unable to satisfy its contractual obligations, there would be a material adverse effect on our financial condition and results of operations.

Operating income (loss) is operating revenues less related expenses and is all derived from domestic operations. Identifiable assets are those assets that are used in the operations of each business segment (after elimination of investments in other segments). Corporate assets consist primarily of cash and cash equivalents, notes receivable, investments in available-for-sale securities, investments in affiliates and intangible assets.

(19) SUPPLEMENTAL CONSOLIDATED QUARTERLY FINANCIAL DATA (UNAUDITED)

Quarter to quarter comparisons of results of operations have been and may be materially impacted by bond market conditions and whether or not there are profits at the medical malpractice insurance company which we manage and whose profits we share. We believe that the historical pattern of quarterly sales and income as a percentage of the annual total may not be indicative of the pattern in future years. The following tables set forth selected quarterly consolidated financial information for the years ended December 31, 2005, 2004 and 2003:

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

December 31, 2005, 2004 and 2003

Results for the fourth quarter of 2005, 2004 and 2003 include profit sharing with APIE totaling $2,007,000, $1,929,000 and $722,000, respectively.

Certain amounts previously classified as cost of revenues at Insurance Services have been classified as general and administrative in the consolidated statements of income for the years ended 2004 and 2003. For the year ended December 31, 2004 the amount of reclassifications totaled $590,000. For the year ended December 31, 2003 the amount of reclassifications totaled $741,000.

(20) CONCENTRATION OF CREDIT RISK

Marketable securities

As of December 31, 2005 we owned marketable securities of HealthTronics and Financial Industries Corporation with a combined fair market value of $4,291,000, or approximately 13% of our total assets. An event having a material adverse effect on HealthTronics and/or Financial Industries, and resulting in a devaluation of their securities could also have a material adverse effect on our results of operations.

Geographic concentration of insurance services

Most of the managed insurance company s business is concentrated in Texas. Regulatory or judicial actions in that state that affected rates, competition, or tort law could have a significant impact on the insurance company s business. Consequently, our insurance management business, which is based on the premiums and profitability of the managed company, could be adversely affected.

Financial market concentration of investment services

Investment Services derives most of its revenue through commissions earned on the trading of fixed-income securities. Should conditions reduce the market s demand for fixed-income products, and should Investment Services be unable to shift it emphasis to other financial products, it could have a material adverse impact on our financial condition and results of operations.

AMERICAN PHYSICIANS INSURANCE EXCHANGE

NOTES TO CONDENSED FINANCIAL STATEMENTS

THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2006 AND 2005 (Unaudited)

1. NATURE OF OPERATIONS

American Physicians Insurance Exchange (APIE or the Exchange) is a reciprocal insurance exchange. The Exchange was organized in the State of Texas on November 23, 1975, and commenced operations on June 1, 1976. APIE is licensed as a multiple-line insurer under the provisions of the Texas Insurance Code.

A reciprocal insurance exchange is an organization under which policyholders (members) effectively exchange insurance contracts and thereby insure each other and become members of the Exchange. The Exchange is managed by its attorney-in-fact, APS Facilities Management, Inc. (FMI), subject to the direction of the Exchange s board of directors.

APIE principally writes professional liability insurance coverage for physician groups, individual physicians and other healthcare providers in the states of Texas (99%) and Arkansas (1%). Most of the Exchange s coverage is written on a claims-made and reported basis. The coverage is provided only for claims that are first reported to the Exchange during the insured s coverage period and that arise from occurrences during the insured s coverage period. The Exchange also makes extended or tail coverage available for purchase by policyholders in order to cover claims that arise from occurrences during the insured s coverage period, but that are first reported to the Exchange after the insured s coverage period and during the term of the applicable tail coverage.

2. BASIS OF PRESENTATION

The accompanying unaudited condensed financial statements include the accounts and operations of American Physicians Insurance Exchange. These statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information. Accordingly, they do not include all of the information and notes required by GAAP for complete financial statements. In the opinion of management, all adjustments, consisting of normal recurring accruals, considered necessary for a fair presentation have been included. Operating results for the three and nine months ended September 30, 2006 are not necessarily indicative of the results that may be expected for the year ended December 31, 2006. For example, the timing and magnitude in determining the claim losses incurred by our insurance operations due to the estimation process inherent in determining the liability for losses and loss adjustment expenses can be relatively more significant to results of interim periods than to results for a full year. The accompanying condensed financials statements should be read in conjunction with the December 31, 2005 audited financial statements and notes thereto.

3. PLAN OF CONVERSION AND PLAN OF MERGER

Effective June, 1 2006, the Board of Directors of the Exchange adopted a plan of conversion and a plan of merger with APS Facilities Management, Inc s. (FMI) parent company, American Physicians Service Group, Inc. (APSG), a publicly traded company on the National Association of Securities Dealer and Automated Quotation System (NASDAQ) under the NASDAQ symbol AMPH. The plan of conversion and plan of merger are subject to the approval by the Exchange s policyholders, APSG s shareholders and the Texas Department of Insurance.

	Three Months Ended		Nine Months Ended

Net investment income	$ 1,639	$ 1,469	$ 4,624	$ 3,883

The increases in gross unrealized losses from $2.8 million at December 31, 2005 to $3.6 million at September 30, 2006 in fixed maturity investments are primarily the result of rising interest rates. The fixed maturity investments are all investment grade securities. The Exchange has the ability and intent to hold securities with unrealized losses until they recover their value, which may be maturity. As of September 30, 2006 and December 31, 2005, there have been no impairments in value or write-downs for these securities. In the future, information may come to light or circumstances may change that would cause the Exchange to write-down or sell these securities and incur a realized loss.

Provided below is a summary of securities which were in an unrealized loss position at September 30, 2006 and December 31, 2005. The Exchange believes the deterioration in value is attributable to changes in market interest rates and not credit quality of the issuer and therefore considers these investments to be only temporarily impaired.

5. UNPAID LOSSES AND LOSS ADJUSTMENT EXPENSE RESERVES

The reserve for unpaid losses and loss adjustment expenses represent the estimated liability for unpaid claims reported to the Exchange, plus claims incurred but not reported (IBNR) and the related estimated loss adjustment expenses. The reserve for losses and loss adjustment expenses is determined based on the Exchange s actual experience, available industry data and projections as to future claims frequency, severity, inflationary trends and settlement patterns.

The Exchange writes medical malpractice policies which have a lengthy period for reporting a claim (tail coverage) and a long process of litigating a claim through the courts and whose risk factors expose its reserves for loss and loss adjustment expenses to significant variability. These conditions subject the Exchange s open reported claims and incurred but not reported claims to increases due to inflation, changes in legal proceedings, and changes in the law. While the anticipated effects of inflation is implicitly considered when estimating reserves for loss and loss adjustment expenses, the increase in average severity of claims is caused by a number

of factors. Future average severities are projected based on historical trends adjusted for changes in underwriting standards, policy provisions, and general economic trends. Those anticipated trends are monitored based on actual experience and are modified as necessary to reflect any changes in the development of ultimate losses and loss adjustment expenses to the Exchange. These specific risks, combined with the variability that is inherent in any reserve estimate, could result in significant adverse deviation from the Exchange s carried net reserve amounts. Settlement of the Exchange s claims is subject to considerable uncertainty. The Exchange s management believes the reserves for loss and loss adjustment expenses are reasonably stated for all obligations of the Exchange as of September 30, 2006 and December 31, 2005.

The following table reflects the activity in the liability for reserve for losses and loss adjustment expenses showing the changes for the twelve month periods beginning January 1, 2005 and ending December 31, 2005 and the nine month period ending September 30, 2006 (in thousands):

	September 30, 2006	2005
Reserve for losses and loss adjustment expenses January 1	$ 95,372	$ 69,445
Less reinsurance recoverable on paid losses and unpaid losses	27,850	11,203
Net balance January 1	67,522	58,242
Incurred net of reinsurance related to:		
Current years	31,081	28,261
Prior years	(1,202)	15,715
Net incurred	29,879	43,976
Paid net of reinsurance related to:		
Current years	3,361	4,062
Prior years	14,300	30,634
Net paid	17,661	34,696
Net balance September 30 and December 31	79,740	67,522
Plus reinsurance recoverable on paid losses and unpaid losses	29,674	27,850
Reserve for losses and loss adjustment expenses September 30 and December 31	$ 109,414	$ 95,372

After evaluation of open claims and trend assumptions, APIE recorded a decrease of $1,200,000 for the nine months ended September 30, 2006 for incurred loss and loss adjustment expenses for prior-year development as a result of favorable trends in the underlying claims data. The adjustment was due to accident years 2004 and 2005 developing favorably by $8,200,000 most of which is attributable to the passage of Texas tort reform effective September 1, 2003, offset by $7,000,000 of adverse development for pre-tort reform years which continue to develop unfavorably with increasing levels of severity and loss expenses.

6. REINSURANCE AGREEMENTS

Reinsurance Ceded Certain premiums are ceded to other insurance companies under various reinsurance agreements. These reinsurance agreements provide the Exchange with increased capacity to write additional risk and the ability to write specific risk within its capital resources and underwriting guidelines. The Exchange enters into reinsurance contracts, which provide coverage for losses in excess of the Exchange s retention of $250,000 on individual claims and beginning in 2002, $350,000 on multiple insured claims related to a single occurrence. The reinsurance contracts for 2002 through 2006 contain variable premium ceding rates based on loss experience. The ceded premium charged under these contracts will depend upon the development of ultimate

losses ceded to the reinsurers under their retrospective treaties. Estimates of ultimate reinsurance ceded premium amounts compared to the amounts paid on a provisional basis are reviewed by treaty year, with each treaty year giving rise to either an asset or liability on the balance sheet. For the nine months ended September 30, 2006, the Exchange recorded favorable net development reducing ceded premiums by $2,840,848. Additionally, each treaty year requires a 24 or 36-month holding period before any cash can be returned or paid. During the nine months ending September 30, 2006, the exchange received $6.1 million due to the expiration of the 2002 treaty year 36-month holding period. As a result, at September 30, 2006, the Exchange had an asset (Other Amounts Receivable Under Reinsurance Contracts) of $5,014,181 and a liability (Funds Held Under Reinsurance Treaties) of $3,738,103.

7. TRANSACTIONS WITH AFFILIATES AND RELATED PARTIES

The Exchange s management contract with its attorney-in-fact, FMI, is treated as an affiliated transaction. However, there is no ownership between the two entities. They have separate boards of directors and their duties to each other are based on the management contract. Transactions with parties related to FMI are also treated as affiliated transactions. American Physicians Insurance Agency, Inc. (APIA), and APS Financial Corporation (APS) are considered affiliates of FMI through common ownership.

FMI serves as the attorney-in-fact for the Exchange. In accordance with the terms of a management agreement, FMI performs the administrative functions related to the operations of the Exchange. FMI receives a management fee from the Exchange for providing these services. The management fee, which is calculated as a percentage of the direct gross earned premiums and statutory net income including contingent management fees of the Exchange, were $2,699,400 and $2,731,400 for the three months ended September 30, 2006 and 2005, respectively. Management fees for the nine months ended September 30, 2006 and 2005 were $6,814,500 and $6,833,200, respectively. Contingent management fees are based upon the financial performance of the Exchange. The Exchange recorded amounts payable to affiliates of $2,266,000 and $2,723,200 as of September 30, 2006 and December 31, 2005, respectively, and are included in other liabilities in the balance sheets.

In addition to the management fees paid to FMI, the Exchange received reimbursement of commission expenses from FMI in the amount of $375,000 in 2006 and 2005, respectively.

APS manages the bond portfolio within the investment guidelines established by the Board of Directors, provides advisory services on key investment decisions and manages accounting services for the Exchange. The Exchange pays APS standard markup fees on trades of fixed-income securities.

8. COMMITMENTS AND CONTINGENCIES

The Exchange is named as a defendant in various legal actions primarily arising from claims made under insurance policies and contracts. These actions are considered by the Exchange in estimating the loss and loss adjustment expense reserves. The Exchange s management believes that the resolution of these actions will not have a material adverse effect on the Exchange s financial position or results of operations. There are no other material commitments or contingencies as of September 30, 2006.

INDEPENDENT AUDITORS REPORT

To the Board of Directors of

American Physicians Insurance Exchange

Austin, Texas

We have audited the accompanying balance sheets of American Physicians Insurance Exchange (the Exchange) as of December 31, 2005 and 2004, and the related statements of operations, members equity, and cash flows for each of the three years in the period ended December 31, 2005. These financial statements are the responsibility of the Exchange s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2005 and 2004, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2005, in conformity with accounting principles generally accepted in the United States of America.

AMERICAN PHYSICIANS INSURANCE EXCHANGE

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2005 AND 2004, AND FOR THE YEARS ENDED DECEMBER 31, 2005, 2004, AND 2003

1. NATURE OF OPERATIONS

American Physicians Insurance Exchange (APIE or the Exchange) is a reciprocal insurance exchange. The Exchange was organized in the State of Texas on November 23, 1975, and commenced operations on June 1, 1976. APIE is licensed as a multiple-line insurer under the provisions of the Texas Insurance Code.

A reciprocal insurance exchange is an organization under which policyholders (members) effectively exchange insurance contracts and thereby insure each other and become members of the Exchange. The Exchange is managed by its attorney-in-fact, APS Facilities Management, Inc. (FMI), subject to the direction of the Exchange s board of directors.

APIE principally writes professional liability insurance coverage for physician groups, individual physicians and other healthcare providers in the states of Texas (99%) and Arkansas (1%). Most of the Exchange s coverage is written on a claims-made and reported basis. The coverage is provided only for claims that are first reported to the Exchange during the insured s coverage period and that arise from occurrences during the insured s coverage period. The Exchange also makes extended or tail coverage available for purchase by policyholders in order to cover claims that arise from occurrences during the insured s coverage period, but that are first reported to the Exchange after the insured s coverage period and during the term of the applicable tail coverage.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The preparation of GAAP financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates included in the accompanying financial statements are the reserve for losses and loss adjustment expenses, provision for federal income taxes, reinsurance premiums recoverable/payable, and premiums ceded. The significant accounting policies followed by the Exchange are summarized below:

Investments The Exchange classifies all of its investments in bonds or fixed maturity investments as available-for-sale. Investments classified as available-for-sale are reported at fair value, and unrealized gains and losses on such available-for-sale securities are excluded from earnings and included, net of related income tax effects, in equity as accumulated other comprehensive income (loss) until realized. Amortization of premium and accretion of discount are included in net investment income.

All single class and multi-class mortgage-backed and collateralized mortgage obligations (CMOs) are adjusted for the effects of changes in prepayment assumptions on the related accretion of discount or amortization of premium of such securities using the prospective method. If high credit quality securities are adjusted, the retrospective method is used. If it is determined that a decline in fair value is other-than-temporary, the cost basis of the security is written down to the undiscounted estimated future cash flows.

Investments in equity securities are carried at fair value based on publicly quoted markets. The change in fair value of common stocks, net of related tax effects, is recorded as a component of accumulated other comprehensive income (loss) .

Net realized gains or losses on investments sold are determined by the specific identification method and are recorded on the trade date. If it is determined that a decline in fair value is other-than-temporary, the cost basis of

the security is written down to the fair value at the time such determination is made. Bonds are considered impaired if it is probable that the Exchange will be unable to collect all amounts due according to the contractual terms of the security in effect at the date of acquisition of the bond. Common stocks are considered to be impaired if the decline in fair value of the stock is considered other-than-temporary. Impairment charges are recorded as realized losses in the period determined.

The Exchange owns a structured annuity which is classified as an other invested asset. During 1985, the Exchange purchased a structured annuity to settle a claim. Under the terms of the structured annuity, upon the death of the claimant, payments under the terms of the structured annuity are payable to the Exchange. As of December 31, 2005, the Exchange expects to receive future payments totaling $3,660,000 through 2043.

Cash equivalents are short-term highly liquid investments with original maturities of three months or less.

Premiums and Maintenance Fees Receivable The Exchange allows its policyholders to pay their premiums and maintenance fees in installments, recording the policy premium and maintenance fees in full at issue and collecting the premium over the policy term. Some of these receivables may not be collected due to policy cancellations or nonpayment by the policyholder. The Exchange records an allowance for doubtful premiums and maintenance fees that are past due. As of December 31, 2005 and 2004, the Exchange did not have any accounts over 90 days past due and management has determined that no allowance was necessary.

Reinsurance The Exchange enters into reinsurance agreements whereby other insurance entities agree to assume a portion of the risk associated with the policies issued by the Exchange. In return, the Exchange agrees to pay a premium to the reinsurers. The Exchange utilizes reinsurance to provide for greater diversification of business, which allows management to control exposure to potential losses arising from large risks, and allows APIE to have additional capacity for growth.

Reinsurance recoveries are the estimated amount of future loss payments that will be recoverable from reinsurers, and represent the portion of losses incurred during the period that are estimated to be allocable to reinsurers. Premiums ceded are the estimated premiums that will be due to reinsurers with respect to premiums earned and losses incurred during the period.

These estimates are based upon management s estimates of ultimate losses and loss adjustment expenses and the portion of those losses and loss adjustment expenses that are allocable to reinsurers under the terms of the related reinsurance agreements. Given the uncertainty of the ultimate amounts of losses and loss adjustment expenses, these estimates may vary significantly from the ultimate outcome. Management regularly reviews these estimates and any adjustments necessary are reflected in the period in which the change in estimate is determined. Adjustment to the estimated reinsurance recoverable balance could have a material effect on the Exchange s results of operations for the period in which the change is made.

Reinsurance contracts do not relieve the Exchange from its obligations to policyholders. The Exchange continually monitors its reinsurers to minimize its exposure to significant losses from reinsurer insolvencies. Any amount found to be uncollectible is written off in the period in which the uncollectible amount is identified. The Exchange requires letters of credit from any reinsurance company that does not meet certain regulatory requirements, and or credit ratings. As of December 31, 2005 and 2004, all of the Exchanges reinsurance contracts were with companies in strong financial condition, and management felt there was not any need to establish an allowance for uncollectible reinsurance recoverable.

NOTES TO FINANCIAL STATEMENTS (Continued)

AS OF DECEMBER 31, 2005 AND 2004, AND FOR THE YEARS ENDED DECEMBER 31, 2005, 2004, AND 2003

Deferred Policy Acquisition Costs The costs of acquiring and renewing insurance business that vary with and are directly related to the production of such business are deferred and amortized ratably over the period the related premiums are earned. Such costs include commissions, premium taxes, and certain underwriting and policy issuance costs. Deferred acquisition costs are recorded net of ceding commissions. Deferred policy acquisition costs are reviewed to determine if they are recoverable from future income, including investment income. If such costs are estimated to be unrecoverable, they are expensed in the period the determination is made.

Subrogation Recoverable A portion of the insurance claims settled by the Exchange are recoverable from third parties. The Exchange estimates the amount of the subrogation using a case-basis method. The recoverable amounts are reported net of an allowance for doubtful collections.

Reserve for Losses and Loss Adjustment Expenses Loss and loss adjustment expense reserves represent management s best estimate of the ultimate cost of all reported and unreported losses incurred. The reserves for unpaid losses and loss adjustment expenses are estimated using individual case-basis valuations and statistical analyses. Those estimates are subject to the effects of trends in loss severity and frequency. Although considerable variability is inherent in such estimates, management believes the reserves for losses and loss adjustment expenses are adequate. The estimates are continually reviewed and adjusted as necessary as experience develops or new information becomes known; such adjustments are included in income in the period the need for an adjustment is determined. The effects of inflation are implicitly considered in the reserving process and are part of the recorded reserve balance. Ceded reserves for loss and loss adjustment expenses are included within reinsurance recoverables. Additionally, the Exchange writes insurance coverage with claim deductibles for which the policyholder is liable. The Exchange pays all loss and loss adjustment expenses upfront in the process of litigating and settling claims against its policyholders. The deductible portion is then invoiced to the policyholder for collection. The Exchange is at risk of the policyholder defaulting on paying the deductible to the Exchange. The Exchange mitigates this risk by requiring letters of credit and escrow balances on any accounts with large deductibles therefore no allowance for doubtful accounts is needed. The Exchange also invoices and collects a majority of the deductibles prior to final settlement of a claim.

Death, Disability, and Retirement Reserves The Exchange has established a death, disability, and retirement reserve for policyholders, which is intended to set aside a portion of the policy premium to account for the coverage provided for the extended reporting period or tail coverage offered by the Exchange upon the death and/or disability and/or retirement of a policyholder which is provided at no additional cost to the policyholder. The death, disability, and retirement reserve is included in unearned premiums.

Funds Held or Retained by the Exchange The Exchange records as a liability funds received but not earned in advance of the policy coverage period. Additionally, the exchange holds certain funds under escrow agreements related to certain high-deductible policies. These escrow accounts will be held until all claims incurred under the agreement are settled.

Refundable Subscriber Deposits The Exchange was initially capitalized by contributions from the policy holders. While no new deposits have been required since 1992, the exchange has an obligation to repay these amounts and has classified these as a liability. As more fully described under new accounting standards, Statement of Financial Accounting Standards (SFAS) No. 150, *Accounting of Certain Financial Instruments with characteristics of both Liabilities and Equity* has been adopted. Additionally, see Note 8 for more complete information.

Revenue Recognition The Exchange issues policies written on a claims-made basis. A claims-made policy provides coverage for claims reported during the policy year. The Exchange charges both a base premium and a premium maintenance fee. Policies are written for a one-year term and premiums and maintenance fees are earned on a pro-rata basis over the term of the policy. Premium maintenance fees are charged to offset the costs incurred by the Exchange to issue and maintain policies. Unearned premiums and maintenance fees are determined on a monthly pro-rata basis. Upon termination of coverage, members may purchase an extended reporting period (tail) endorsement for additional periods of time. These extended reporting period coverage endorsement premiums are earned when written.

Income Taxes The Exchange computes income taxes utilizing the asset and liability method. The Exchange recognizes current and deferred income tax expense, which is comprised of estimated provisions for Federal income taxes. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis and operating loss and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance against deferred tax assets is recorded if it is more likely than not that all or some portion of the benefits related to the deferred tax assets will not be realized. The Exchange has not established a valuation allowance because it believes it is more likely than not the Exchange s deferred tax assets will be fully recovered.

Fair Values of Financial Instruments Fair value for cash, short-term investments, receivables and payables approximates carrying value. Fair values for investment securities are based on quoted market prices, where available. Otherwise, fair values are based on quoted market prices of comparable instruments. The fair value of the structured annuity is based upon the present value of the future payments discounted at current market interest rates for annuities.

Concentration of Credit Risk Financial instruments subject the Exchange to concentration of credit risk. These risks occur principally with fixed-maturity investments. Concentration of credit risk with respect to fixed maturities, are limited by the volume of such investments and their distribution across different issues and geographic areas.

The Exchange also has exposure to concentration of credit risk with its ceded reinsurance agreements. Ceded reinsurance is placed with a number of individual companies and also syndicates associated with Lloyd s of London to minimize the concentration of credit risk. A majority of the Exchange s reinsurance agreements are with companies that are rated A- or better by A.M. Best. Less than 1% of the recoverables are with lower rated reinsurance companies and the Exchange has letters of credit with these companies back their risk.

New Accounting Standards Since its inception in 1975 through March 1992, members of the Exchange were required to make refundable subscriber deposits to become eligible to purchase insurance issued by the Exchange. The Exchange adopted SFAS No. 150, *Accounting of Certain Financial Instruments with characteristics of both Liabilities and Equity* (SFAS No. 150), as of January 1, 2004, and recorded these subscriber deposits as a liability. SFAS No. 150 established standards as to how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. It requires that an issuer classify a financial instrument that is within its scope as a liability. The Exchange has determined that its refundable subscriber deposits fall within the scope of SFAS No. 150. The Exchange discontinued requiring refundable subscriber deposits in 1992. The exchange may return full subscriber deposits to active policyholders upon death,

disability, and retirement and may elect to refund up to $200,000 per year to former subscribers without approval from the Texas Department of Insurance (TDI) subject to Board of Director approval of the Exchange and specific TDI requirements.

In November 2005, the FASB issued Staff Position No. FSP 115-1 and 124-1, *The Meaning of Other-Than-Temporary Impairment and its Application to Certain Investments* (FSP 115-1 and 124-1). FSP 115-1 and 124-1 supersedes Emerging issues Task Force Issue No. 03-1, *The Meaning of Other-Than-Temporary Impairment and its Application to Certain Investments* and amends SFAS No. 115, *Accounting for Certain Investments in Debt and Equity Securities,* SFAS No. 124, *Accounting for Certain Investments Held by Not-for-Profit Organizations* and Accounting Principles Board No. 18, *The Equity Method of Accounting for Investments in Common Stock*. FSP 115-1 and 124-1 address the determination as to when an investment is considered impaired, whether that impairment is other-than-temporary and the measurement of an impairment loss. FSP 115-1 and 124-1 also includes provision for accounting considerations subsequent to the recognition of an other-than temporary impairment and requires certain disclosures about unrealized losses that have not been recognized as other-than-temporary impairments. FSP 115-1 and 124-1 is effective for periods beginning after December 15, 2005, with earlier adoption permitted. The Company adopted FSP 115-1 and 124-1 during the fiscal quarter ended December 31, 2005. The adoption of FSP 115-1 and 124-1 did not have a material effect on the Exchange s financial position or results of operations.

Statutory Accounting The Exchange is required to file statutory financial statements with state insurance regulatory authorities. Accounting principles used to prepare these statutory financial statements differ from GAAP. Statutory net income was $8,704,700, $4,296,200 and $1,299,400 for the years ended December 31, 2005, 2004, and 2003, respectively. The Exchange s members equity on a statutory basis was $29,789,100 and $21,237,800, at December 31, 2005 and 2004, respectively. Additionally under statutory accounting refundable subscriber deposits collected from current and former policyholders are treaty as a component of surplus. Under GAAP accounting, these refundable subscriber deposits are treated as liabilities of the Exchange (see Note 8).

AS OF DECEMBER 31, 2005 AND 2004, AND FOR THE YEARS ENDED DECEMBER 31, 2005, 2004, AND 2003

Provided below is a summary of securities which were in an unrealized loss position at December 31, 2005 and 2004 (in thousands). The unrealized losses are comprised of securities in a continuous loss position for less than 12 months, which consisted primarily of CMOs. The Exchange believes the decrease in fair value is attributable to changes in market interest rates and not credit quality of the issuer and therefore considers these investments to be only temporarily impaired. During 2005, 2004 and 2003, the Exchange did not record any impairments for other-than-temporary declines in the value of investments as the Exchange has the intent and ability to hold these securities until they recover their value, which may be maturity.

4. OTHER COMPREHENSIVE INCOME

Accumulated other comprehensive income (loss) shown in the statement of members equity is comprised of net unrealized gains (losses) on securities available for sale, net of taxes. The components of other comprehensive income (loss) at December 31, 2005, 2004, and 2003, (in thousands) are as follows:

5. UNPAID LOSSES AND LOSS ADJUSTMENT EXPENSE RESERVES

The reserve for unpaid losses and loss adjustment expenses represent the estimated liability for unpaid claims reported to the Exchange, plus claims incurred but not reported (IBNR) and the related estimated loss adjustment expenses. The reserve for losses and loss adjustment expenses is determined based on the Exchange s actual experience and available industry data.

The Exchange writes medical malpractice policies which have a lengthy period for reporting a claim (tail coverage) and a long process of litigating a claim through the courts and whose risk factors expose its reserves for loss and loss adjustment expenses to significant variability. These conditions subject the Exchange s open reported claims and incurred but not reported claims to increases due to inflation, changes in legal proceedings, and changes in the law. While the anticipated effects of inflation is implicitly considered when estimating

reserves for loss and loss adjustment expenses, the increase in average severity of claims is caused by a number of factors. Future average severities are projected based on historical trends adjusted for changes in underwriting standards, policy provisions, and general economic trends. Those anticipated trends are monitored based on actual experience and are modified as necessary to reflect any changes in the development of ultimate losses and loss adjustment expenses to the Exchange. These specific risks, combined with the variability that is inherent in any reserve estimate, could result in significant adverse deviation from the Exchange s carried net reserve amounts. Settlement of the Exchange s claims is subject to considerable uncertainty. Actual developments will likely vary, perhaps significantly, from the current estimated amounts reflected in the accompanying financial statements. The Exchange s management estimated the reserves for loss and loss adjustment expenses with the assistance of its independent actuaries. Management believes the reserves for loss and loss adjustment expenses are reasonably stated for all obligations of the Exchange as of December 31, 2005 and 2004.

Activity in the reserves for losses and loss adjustment expenses for the years ended December 31, 2005, 2004, and 2003, are summarized as follows (in thousands):

	2005	2004	2003
Reserve for loss and loss adjustment expenses January 1	$ 69,445	$ 63,713	$ 54,187
Less reinsurance recoverable on paid losses and unpaid losses	11,203	14,980	17,924
Net balance January 1	58,242	48,733	36,263
Incurred net of reinsurance related to:			
Current years	28,261	29,305	33,650
Prior years	15,715	19,350	10,896
Net incurred	43,976	48,655	44,546
Paid net of reinsurance related to:			
Current years	4,062	4,181	5,371
Prior years	30,634	34,965	26,705
Net paid	34,696	39,146	32,076
Net balance December 31	67,522	58,242	48,733
Plus reinsurance recoverable on paid losses and unpaid losses	27,850	11,203	14,980
Reserve for loss and loss adjustment expenses December 31	$ 95,372	$ 69,445	$ 63,713

The estimates used in establishing these reserves are continually reviewed and updated and any resulting adjustments are reflected in current operations. Due to the nature of insurance risks written, including the impact of changes in claims severity, frequency, and other factors, the reserves established for losses and loss adjustment expenses may be more or less than the amount ultimately paid upon settlement of the claims.

During 2004, after careful evaluation of open claims and trend assumptions, the Exchange determined that the length of time needed to litigate 2003 pre-tort reform claims would continue to increase due to the potential financial impact of these claims in relation to post-tort reform claims. As a result, the Exchange increased the estimate for ultimate losses and loss adjustment expenses for claims incurred in 2003 and prior years by

$19,350,000. During 2005, the Exchange continued to review the impact of tort reform and while current accident year reported claims were substantially lower, loss costs and legal expenses on prior-year claims continued to trend significantly higher. The Exchange determined that the effect of tort reform not only increased

AMERICAN PHYSICIANS INSURANCE EXCHANGE

the number of claims reported in 2003, but also increased the cost of litigating remaining open cases for other open prior accident years as well. As a result, during 2005, the Exchange continued to increase incurred loss and loss adjustment expense reserves related to prior accident years by $15,715,000. The net incurred increase in claim estimates related to prior years did not result in any direct accrual of additional premiums nor did it result in any additional ceded premiums during 2005 and 2004.

For the 2003 year, the Exchange increased incurred loss and loss adjustment expenses by $10,896,000 for prior-year development as a result of unfavorable trends in the underlying claims data including a slowdown in the overall closure rate of pending claims, and an increase in the severity of indemnity paid during 2003 relating to prior periods. Tort reform increased the number of claims reported during 2003 as many cases were filed to beat the filing deadline and made existing claims for prior years more difficult to settle due to the time devoted to the number of new filings. As a result, reserves for prior-year open accident years were increased to appropriately reflect the frequency and potential severity of claims filed prior to the passage of tort reform.

6. DEFERRED POLICY ACQUISITION COSTS

Underwriting and insurance costs directly related to the production of new and renewal premiums are considered as acquisition costs and are capitalized and amortized to expense over the period in which the related premiums are earned.

A summary of deferred acquisition costs deferred and amortized for the years ended December 31, 2005, 2004, and 2003, is as follows (in thousands):

	2005	2004	2003
Balance beginning of year	$ 2,410	$ 1,729	$ 1,623
Costs deferred	5,362	5,447	3,832
Costs amortized	(5,266)	(4,766)	(3,726)
Balance end of year	$ 2,506	$ 2,410	$ 1,729

7. REINSURANCE AGREEMENTS

Reinsurance Ceded Certain premiums and benefits are ceded to other insurance companies under various reinsurance agreements. These reinsurance agreements provide the Exchange with increased capacity to write additional risk and the ability to write specific risk within its capital resources and underwriting guidelines. The Exchange enters into reinsurance contracts, which provide coverage for losses in excess of the Exchange s retention of $250,000 on individual claims and beginning in 2002, $350,000 on multiple insured claims related to a single occurrence. The reinsurance contracts for 2002 through 2005 contain variable premium ceding rates based on loss experience. The actual percentage rate charged under these contracts will depend upon the development of ultimate losses ceded to the reinsurers under their retrospective treaties. Estimates of ultimate reinsurance ceded premium amounts compared to the amounts paid on a provisional basis, give rise to an asset or liability on the balance sheet. As a result, at December 31, 2005, the Exchange had an asset of $6,802,300 and a liability of $1,521,200. As of December 31, 2004, the Exchange recorded an asset of $4,959,400 and a liability of $64,600.

The Exchange has also entered into reinsurance agreements relating to its non-standard policies, legal defense endorsements, and certain dental policies. Reinsurance premiums ceded under these reinsurance agreements are $1,144,200, $798,000, and $319,800 for the years ended December 31, 2005, 2004, and 2003, respectively. Losses incurred were $445,909, $253,093, and $152,142 for 2005, 2004, and 2003, respectively.

In the course of assuming this business, the Exchange has established letters of credit for the benefit of those ceding companies in the amount of $3.0 million and pledged assets in the amount of $3.2 million to secure those letters of credit as of December 31, 2005. Losses and loss adjustment expenses assumed were $1,262,700, $6,259,900, and $2,576,500 for 2005, 2004, and 2003, respectively. Reserves for losses and loss adjustment expenses assumed were $2,228,900 and $5,409,100 at December 31, 2005 and 2004, respectively.

8. REFUNDABLE SUBSCRIBER DEPOSITS

From inception of the Exchange through March 1992, as periodically determined and approved by the Exchange s Board of Directors, eligible physicians desiring to purchase insurance through the Exchange were required to make a refundable subscriber deposit. For refundable deposits made to the Exchange prior to January 1, 1987, interest was accrued on the outstanding balance. Effective January 1, 1989, accrual of interest on refundable deposits was suspended by the Exchange s Board of Directors. Refundable deposits made subsequent to January 1, 1987, were noninterest bearing. As of December 31, 2005 and 2004, the Exchange had surplus deposits of $10,567,520 and $11,001,133, respectively, which included accrued interest of $45,600 and $45,900, respectively. These deposits are included in the accompanying financial statements as a liability in accordance with SFAS No. 150.

The Exchange requested authorization from the Texas Department of Insurance (TDI) to refund Subscriber Deposits for individuals who are no longer active policyholders. TDI has authorized partial pro-rata

distributions of subscriber deposits to former subscribers and the Exchange s Board of Directors elected to authorize maximum refunds of $200,000 and $250,000 for 2005 and 2004, respectively. The Board of Directors may elect to continue to refund up to $200,000 per year in the future contingent on specific TDI requirements. The TDI has authorized the Exchange to return full subscriber deposits to active policyholders upon death, disability, or retirement. Total refunds made in 2005, 2004, and 2003 were $324,900, $245,100, and $53,800, respectively.

Beginning in 1991, physicians who were previously members of the Exchange and subsequently return are allowed to apply their current refundable deposits against current premiums and to satisfy any current and future subscriber deposit requirements. The Exchange continues to allow existing subscribers to convert their refundable deposits in this manner. The amounts of such conversions were $108,800, $215,100, and $62,700 during 2005, 2004, and 2003, respectively.

9. MANAGEMENT AGREEMENTS

FMI serves as the attorney-in-fact for the Exchange. In accordance with the terms of a management agreement, FMI performs the administrative functions related to the operations of the Exchange. FMI receives a management fee from the Exchange for providing these services. The management fee, which is calculated as a percentage of the direct gross earned premiums and statutory net income including contingent management fees of the Exchange, were $11,038,400, $10,608,800, and $7,275,800 in 2005, 2004, and 2003, respectively. Contingent management fees are based upon the financial performance of the Exchange. The Exchange recorded amounts payable to affiliates of $2,723,200 and $1,667,200 as of December 31, 2005 and 2004, respectively, and are included in other liabilities in the balance sheets. Management fees were allocated as follows in the accompanying statements (in thousands):

Allocation of Management Fees	2005	2004	2003
Loss and loss adjustment expense	$ 4,592	$ 5,029	$ 3,354
Underwriting expenses	4,063	3,973	2,774

Investment expenses	405	165	119
Total management fees	$ 11,038	$ 10,609	$ 7,276

10. TRANSACTIONS WITH AFFILIATES AND RELATED PARTIES

The Exchange s management contract with its attorney-in-fact, FMI, is treated as an affiliated transaction. However, there is no ownership between the two entities. They have separate boards of directors and their duties to each other are based on the management contract. Transactions with parties related to FMI are also treated as affiliated transactions. American Physicians Insurance Agency, Inc. (APIA), and APS Financial Corporation (APS) are considered affiliates of FMI through common ownership.

In addition to the management fees paid to FMI described in Note 9, the Exchange received reimbursement of commission expenses from FMI in the amount of $375,000 in 2005, 2004, and 2003, respectively.

APS manages the bond portfolio within the investment guidelines established by the Board of Directors, provides advisory services on key investment decisions and manages investment accounting services for the Exchange. The Exchange pays APS standard markup fees on trades of bonds. Fees paid to APS for services were $654,900, $656,500, and $776,620 for 2005, 2004, and 2003, respectively.

11. INCOME TAXES

The components of the income tax expense (benefit) reported in the statements of operations at December 31, 2005, 2004, and 2003, are summarized as follows (in thousands):

	2005	2004	2003

The income tax expense (benefit) and the deferred income tax expense (benefit) incurred for the years ended December 31, 2005, 2004, and 2003 differs from the amount computed by applying the federal statutory rate of 34% to income before income tax as follows (in thousands):

Total income tax expense	$ 4,188	$ 3,421	$ 1,211

The Exchange filed its 2005 tax return with an 835 election which allowed it to consolidate its tax return with its attorney-in fact management company (FMI). This election had an unfavorable impact in 2003 on the Exchange s income. The Exchange petitioned the Internal Revenue Service to discontinue the 835 election and was granted permission to do so in 2005 and was effective for the 2004 and future tax years.

The main components of deferred tax assets and deferred tax liabilities at December 31, 2005 and 2004, are as follows (in thousands):

NOTES TO FINANCIAL STATEMENTS (Continued)

AS OF DECEMBER 31, 2005 AND 2004, AND FOR THE YEARS ENDED DECEMBER 31, 2005, 2004, AND 2003

At December 31, 2005, the Exchange did not have any unused operating loss carryforward to offset future taxable income. The Exchange has recorded income tax expense that will be available for recovery in the event of future net losses. The amount of federal income taxes incurred in the current and prior years that will be available for recovery in the event of future net losses is $4,611,800, $3,327,800, and $1,760,000 from 2005, 2004, and 2003, respectively.

The Exchange is required to establish a valuation allowance for any portion of the deferred tax asset that management believes will not be realized. In the opinion of management, it is more likely than not that the Exchange will have sufficient taxable income or carry-back potential plus feasible tax strategies to realize the net deferred tax asset and, therefore, no such valuation allowance has been established.

12. CONTINGENCIES

Various lawsuits against the Exchange have arisen in the normal course of the Exchange s business. It is management s opinion that liabilities, if any, arising from these claims will not have a significant adverse effect on the financial position, results of operations or cash flows of the Exchange.

ARTICLE 2.

THE MERGER

2.1 The Conversion.

Prior to the Effective Time, the Insurance Company will exercise its Best Efforts to effect the Conversion in accordance with the Plan of Conversion.

2.2 The Merger.

At the Effective Time, subject to this Agreement and the Corporate Laws, APSG Merger Sub will be merged with and into the Insurance Company, the separate corporate existence of APSG Merger Sub will cease, and the Insurance Company will continue as the surviving corporation and a wholly-owned Subsidiary of APSG Parent. The Insurance Company as the surviving corporation after the Merger is sometimes referred to as the ***Surviving Corporation***.

2.3 Closing.

The closing of the Merger (the ***Closing***) will take place at the offices of Akin, Gump, Strauss, Hauer & Feld, L.L.P. in Austin, Texas, commencing 10:00 am local time on the second business day following the satisfaction or waiver of all conditions to consummate the Merger (other than conditions with respect to actions the respective Parties will take at the Closing itself) or such other date as APSG Parent and the Insurance Company may mutually determine (the ***Closing Date***).

2.4 Actions and Deliveries at Closing.

On the Closing Date, the Parties will cause the Merger to be consummated by filing a Certificate of Merger with the Secretary of State of Texas and, if necessary, with TDI and AID, substantially in the form of *Exhibit B* (the ***Merger Certificate***), in accordance with the applicable Corporate Law. The date and time the Merger becomes effective as specified in the Merger Certificate or as otherwise provided in accordance with the applicable Corporate Law is referred to as the ***Effective Time***. In addition, at the Closing,

(i) An Officers certificate, substantially in the form of *Exhibit D*, duly executed on behalf of the APSG Parties, as to whether each condition specified in *Sections 6.2(a) (c)* has been satisfied in all respects.

(ii) A Secretary s certificate, substantially in the form of *Exhibit E*, duly executed on on behalf of the APSG Parties.

2.5 Effect of the Merger.

At the Effective Time, the effect of the Merger will be as provided in the applicable Corporate Law. At the Effective Time all the property, rights, privileges, powers, and franchises of APSG Merger Sub will vest in the Surviving Corporation, and all debts, liabilities, obligations, and duties of APSG Merger Sub, including the rights and obligations under the agreements, if any, of APSG Merger Sub, will become the Surviving Corporation s debts, liabilities, obligations, and duties. Notwithstanding anything to the contrary contained herein, the Merger will not affect the policy coverage of any policy of insurance issued by the Insurance Company. Additionally, all policies and obligations, if any, of APSG Merger Sub shall be assumed by the Surviving Corporation on the same terms as if such policies and obligations were still being carried by APSG Merger Sub.

2.6 Charter and Bylaws.

At the Effective Time, the Certificate of Formation of the Insurance Company in the form attached to this Agreement as *Exhibit F* will be the Surviving Corporation s Certificate of Formation until thereafter amended as provided by Law and such Certificate of Formation, and the Amended and Restated Bylaws of the Insurance Company in the form attached as *Exhibit G* to this Agreement, will be the bylaws of the Surviving Corporation until thereafter amended.

2.7 Directors and Officers.

(a) The individuals listed on *Schedule 2.7(a)* will be the initial director(s) and officers of the Surviving Corporation.

(b) At the Effective Time, the individuals listed on *Schedule 2.7(b)* will be elected by the Board of Directors of APSG Parent to serve on the Board of Directors of APSG Parent until the next annual meeting of shareholders of APSG Parent.

2.8 Effect on Capital Stock.

At the Effective Time, because of the Merger and without any action on the part of APSG Parent, APSG Merger Sub or the Insurance Company:

(a) **Conversion of Insurance Company Preferred Stock**. Each share of Insurance Company Preferred Stock issued pursuant to the Conversion and outstanding immediately prior to the Effective Time will be converted into a like number of shares of APSG Parent Preferred Shares. The APSG Parent Preferred Shares will have the same redemption provisions as the Insurance Company Preferred Stock. All Insurance Company Preferred Stock, when so converted, shall automatically be cancelled and shall cease to exist. There will not be any certificates issued to represent the outstanding Insurance Company Preferred Stock in the Conversion, and the holders of Insurance Company Preferred Stock, at the Effective Time of the Merger, will cease to have any rights with respect to the Insurance Company Preferred Stock except the right to receive APSG Parent Preferred Shares.

(b) **Conversion of Insurance Company Common Stock**. Subject to *Sections 2.10* and *2.12*, each share of Insurance Company Common Stock issued pursuant to the Conversion and outstanding immediately

A-8

prior to the Effective Time will be converted into the number of APSG Parent Common Shares equal to the Exchange Ratio. All Insurance Company Common Stock, when so converted, will no longer be outstanding and will automatically be canceled and retired and will cease to exist. There will not be any certificates issued to represent the outstanding Insurance Company Common Stock in the Conversion, and the holders of Insurance Company Common Stock, at the Effective Time of the Merger, will cease to have any rights with respect to the Insurance Company Common Stock except the right to receive: (i) the APSG Parent Common Shares as determined herein and (ii) cash in lieu of fractional APSG Parent Common Shares under *Section 2.10*, in each case without interest (together with the APSG Parent Preferred Shares, collectively, the ***Merger Consideration***).

(c) **Rights Associated with Insurance Company Common Stock and Insurance Company Preferred Stock**. Since there will not be any certificates issued to represent the outstanding Insurance Company Common Stock or Insurance Company Preferred Stock, the holders of Insurance Company Common Stock and Insurance Company Preferred Stock will have only the right to receive their respective Merger Consideration.

(d) **Certain Additional Definitions**. For this Agreement the following terms will have the indicated meanings:

Announcement Exchange Ratio means (a) the quotient of (i) the Purchase Price divided by (ii) the Announcement Market Price; divided by (b) the Insurance Company Common Equity. For instance, and purely by way of example, if the Present Value of the Redemption Obligation is $7 million (making the Purchase Price $26 million), the Announcement Market Price is $13 per share, and the Insurance Company Common Equity resulting from the Conversion is 10 million shares, then the Announcement Exchange Ratio would be:

$$\left(\frac{\$26,000,000}{\$13}\right) \div 10,000,000 = \frac{1}{5}$$

Therefore, five (5) shares of Insurance Company Common Stock issued in the Conversion would be exchanged for one (1) APSG Parent Common Share.

Announcement Market Price means the average closing market prices of APSG Parent Common Shares on the National Association of Securities Dealers Automated Quotation System, as reported in The Wall Street Journal, for the twenty (20) consecutive trading days immediately prior to the close of the full business day immediately prior to the date this Agreement is fully executed by all of the Parties and announced to the public by appropriate SEC filings and the issuance of the mutually agreed upon press release.

Closing Exchange Ratio means the Announcement Exchange Ratio; provided, however, that in the event the Closing Market Price is more than 115% of the Announcement Market Price or is less than 85% of the Announcement Market Price, the Closing Exchange Ratio shall equal:

(i) if the Closing Market Price is more than 115% of the Announcement Market Price, the Closing Exchange Ratio shall equal (A) the quotient of (i) the Purchase Price multiplied by 115% divided by (ii) the Closing Market Price; divided by (B) the Insurance Company Common Equity. For instance, and purely by way of example, if the Present Value of the Redemption Obligation is $7 million (making the Purchase Price $26 million), the Announcement Market Price is $10 per share, the Closing Market Price is $12 per share and the Insurance Company Common Equity resulting from the Conversion is 10 million shares, then the Closing Exchange Ratio would be:

$$\left(\frac{\$26,000,000 \text{ x } 115\%}{\$12}\right) \div 10,000,000 = \frac{1}{4}$$

[Table of Contents](#)

[Index to Financial Statements](#)

Therefore, four (4) shares of Insurance Company Common Stock issued in the Conversion would be exchanged for one (1) APSG Parent Common Share.

(ii) if the Closing Market Price is less than 85% of the Announcement Market Price, the Closing Exchange Ratio shall equal (A) the quotient of (i) the Purchase Price multiplied by 85% divided by (ii) the Closing Market Price; divided by (B) the Insurance Company Common Equity. For instance, and purely by way of example, if the Present Value of the Redemption Obligation is $7 million (making the Purchase Price $26 million), the Announcement Market Price is $10 per share, the Closing Market Price is $8 per share and the Insurance Company Common Equity resulting from the Conversion is 10 million shares, then the Closing Exchange Ratio would be:

$$\left(\frac{\$26{,}000{,}000 \text{ x } 85\%}{\$8}\right) \div 10{,}000{,}000 = \frac{1}{3.6}$$

Therefore, slightly more than three and one-half (3 1/2) shares of Insurance Company Common Stock issued in the Conversion would be exchanged for one (1) APSG Parent Common Share.

Closing Market Price means the average closing market prices of APSG Parent Common Shares on the National Association of Securities Dealers Automated Quotation System, as reported in The Wall Street Journal, for the twenty (20) consecutive trading days immediately prior to the close of the full business day immediately prior to the Closing Date.

Insurance Company Common Equity means the aggregate number of shares of Insurance Company Common Stock that the Subscribers and certain policyholders of the Insurance Company become entitled to receive in the Conversion.

Present Value of the Redemption Obligation means the net present value of the stream of payments authorized by TDI (as of the Closing) that must be made by the Insurance Company to comply with the mandatory redemption features of the Insurance Company Preferred Stock issued in the Conversion in full satisfaction of the Refundable Deposit determined on the basis of a constant discount rate of 5.35%.

Purchase Price means $33 million, less the Present Value of the Redemption Obligation.

2.9 Surrender of Insurance Company Common Stock.

(a) **Exchange Procedures**. As soon as practicable after Closing, (i) the holders of Insurance Company Common Stock and Insurance Company Preferred Stock shall be deemed to have surrendered such interests to APSG Parent (or, if applicable, APSG Parent s designated exchange agent), (ii) upon surrender of Insurance Company Common Stock and Insurance Company Preferred Stock the holder thereof will be entitled to receive, subject to the 180-Day Lock Up, the applicable Merger Consideration, and (iii) the Insurance Company Common Stock and Insurance Company Preferred Stock so surrendered will forthwith be canceled.

(b) **Transfers of Ownership**. APSG Parent will not issue any APSG Parent Common Shares or other Merger Consideration in any name other than the name of a holder of Insurance Company Common Stock. APSG Parent will not issue any APSG Parent Preferred Shares or other Merger Consideration in any name other than the name of a holder of Insurance Company Preferred Stock.

(c) **No Further Ownership Rights in Insurance Company Common Stock**. All Merger Consideration will be deemed to have been issued in full satisfaction of all rights pertaining to the Insurance Company Common Stock and Insurance Company Preferred Stock.

2.10 No Fractional Common Shares.

No fractional APSG Parent Common Shares will be issued in the Merger and fractional share interests will not entitle the owner thereof to vote or to any rights of an APSG Parent shareholder. All Shareholders that would be entitled to receive fractional APSG Parent Common Shares will be entitled to receive, in lieu thereof, an amount in cash determined by multiplying the fraction of an APSG Parent Common Share to which such holder would otherwise have been entitled by the Announcement Market Price or the Closing Market Price, as applicable.

2.11 Tax Treatment.

The Parties intend that the Conversion and the Merger will constitute a tax free reorganization under Code Section 368(a).

2.12 Shares of Dissenting Shareholders.

Any Insurance Company Common Stock or Insurance Company Preferred Stock held by a Person properly exercising its dissent or appraisal rights under the Corporate Law (a ***Dissenting Shareholder***) will be converted into the right to receive such consideration as may be determined to be due to such Dissenting Shareholder under the Corporate Law; except that Insurance Company Common Stock or Insurance Company Preferred Stock outstanding at the Effective Time that a Dissenting Shareholder holds for which, after the Effective Time, such Dissenting Shareholder withdraws its demand to exercise dissenters or appraisal rights or loses its right to exercise dissenters or appraisal rights as provided in the Corporate Law, will be deemed to be converted, as of the Effective Time, into the right to receive the Merger Consideration. The Insurance Company will give APSG Parent (a) prompt notice of any written demands for the exercise of dissenters or appraisal rights, withdrawals of demands for the exercise of dissenters or appraisal rights and any other instruments served under the Corporate Law, and (b) the opportunity to direct all negotiations and proceedings with respect to demands for exercise of dissenters or appraisal rights under the Corporate Law. The Insurance Company will not voluntarily make any payment with respect to any purchase demands and will not, except with APSG Parent s prior written consent, settle or offer to settle any such demands.

2.13 Taking of Necessary Action; Further Action.

If, at any time after the Effective Time, any such further action is necessary or desirable to carry out the purposes of this Agreement and to vest the Surviving Corporation with full right, title and possession to all assets, property, rights, privileges, powers, and franchises of the Insurance Company, the officers and directors of the Insurance Company and APSG Parent are fully authorized in the name of their respective corporations or otherwise to take, and the Insurance Company and APSG Parent will cause them to take, all such lawful and necessary action.

The Parties each acknowledge that this waiver is a material inducement to enter into a business relationship and that they will continue to rely on the waiver in their related future dealings. Each Party further represents and warrants that it has reviewed this waiver with its legal counsel, and that each knowingly and voluntarily waives its jury trial rights following consultation with legal counsel. NOTWITHSTANDING ANYTHING TO THE CONTRARY HEREIN, THIS WAIVER IS IRREVOCABLE, MEANING THAT IT MAY NOT BE MODIFIED ORALLY OR IN WRITING, AND THE WAIVER WILL APPLY TO ANY AMENDMENTS, RENEWALS, SUPPLEMENTS OR MODIFICATIONS TO THIS AGREEMENT OR TO ANY OTHER DOCUMENTS OR AGREEMENTS RELATING HERETO. In the event of an Action, this Agreement may be filed as a written consent to trial by a court.

9.8 Time.

Time is of the essence in the performance of this Agreement.

9.9 Counterparts.

This Agreement may be executed in two or more counterparts, each of which will be deemed an original but all of which together will constitute one and the same instrument.

9.10 Headings.

The article and section headings contained in this Agreement are inserted for convenience only and will not affect in any way the meaning or interpretation of this Agreement.

9.11 Governing Law.

This Agreement and the performance of the Transactions and obligations of the Parties hereunder will be governed by and construed in accordance with the laws of the State of Texas, without giving effect to any choice of Law principles.

foregoing, after the Subscribers approve and adopt this Agreement and the Transactions, no amendment to this Agreement may be made that would reduce the amount of or change the Merger Consideration or otherwise would require the Subscribers to approve such amendment under the Corporate Law, unless the Subscribers approve such amendment in accordance with the applicable Corporate Law. Amendments to this Agreement must be in writing that the Insurance Company and APSG Parties have signed.

9.13 Extensions; Waiver.

(a) At any time prior to the Effective Time, the APSG Parties, on the one hand, and the Insurance Company, on the other, to the extent legally allowed, may (i) extend the time for the performance of any of the obligations of the other Party, (ii) waive any inaccuracies in the representations and warranties made to such Party contained herein or in any document delivered pursuant hereto, and (iii) waive compliance with any of the agreements or conditions for the benefit of such Party contained herein. Any agreement on the part of a Party to any such extension or waiver will be valid only if set forth in an instrument in writing signed on behalf of such Party.

(b) No waiver by any Party of any default, misrepresentation, or breach of warranty or covenant hereunder, whether intentional or not, may be deemed to extend to any prior or subsequent default, misrepresentation, or Breach of warranty or covenant hereunder or affect in any way any rights arising because of any prior or subsequent such occurrence.

9.14 Severability.

The provisions of this Agreement will be deemed severable and the invalidity or unenforceability of any provision will not affect the validity or enforceability of the other provisions hereof; provided that if any provision of this Agreement, as applied to any Party or to any circumstance, is adjudged by a Governmental Body, arbitrator, or mediator not to be enforceable in accordance with its terms, the Parties agree that the Governmental Body, arbitrator, or mediator making such determination will have the power to modify the provision in a manner consistent with its objectives such that it is enforceable, and/or to delete specific words or phrases, and in its reduced form, such provision will then be enforceable and will be enforced.

Except as otherwise expressly provided in this Agreement, each Party will bear its own costs and expenses incurred in connection with the preparation, execution and performance of this Agreement and the Transactions including all fees and expenses of agents, representatives, financial advisors, legal counsel and accountants.

9.16 Construction.

The Parties have participated jointly in the negotiation and drafting of this Agreement. If an ambiguity or question of intent or interpretation arises, this Agreement will be construed as if drafted jointly by the Parties and no presumption or burden of proof will arise favoring or disfavoring any Party because of the authorship of any provision of this Agreement. Any reference to any federal, state, local, or foreign Law will be deemed also to refer to Law as amended and all rules and regulations promulgated thereunder, unless the context requires otherwise. The words include, includes, and including will be deemed to be followed by without limitation. Pronouns in masculine, feminine, and neuter genders will be construed to include any other gender, and words in the singular form will be construed to include the plural and vice versa, unless the context otherwise requires. The words this Agreement, herein, hereof, hereby, hereunder, and words of similar import refer to this Agreement as a whole and not to any particular subdivision unless expressly so limited. The Parties intend that each representation, warranty, and covenant contained herein will have independent significance. If any Party has breached any representation, warranty, or covenant contained herein in any respect, the fact that there exists another representation, warranty or covenant relating to the same subject matter (regardless of the

relative levels of specificity) which the Party has not breached will not detract from or mitigate the fact that the Party is in breach of the first representation, warranty, or covenant.

9.17 Incorporation of Exhibits, Annexes, and Schedules.

The Exhibits, Annexes, Schedules, and other attachments identified in this Agreement are incorporated herein by reference and made a part hereof.

9.18 Remedies.

Except as expressly provided herein, the rights, obligations and remedies created by this Agreement are cumulative and in addition to any other rights, obligations or remedies otherwise available at Law or in equity. Except as expressly provided herein, nothing herein will be considered an election of remedies.

9.19 Electronic Signatures.

(a) Notwithstanding the Electronic Signatures in Global and National Commerce Act (15 U.S.C. Sec. 7001 *et.seq.*), the Uniform Electronic Transactions Act, or any other Law relating to or enabling the creation, execution, delivery, or recordation of any Contract or signature by electronic means, and notwithstanding any course of conduct engaged in by the Parties, no Party will be deemed to have executed a Transaction Document or other document contemplated thereby (including any amendment or other change thereto) unless and until such Party shall have executed such Transaction Document or other document on paper by a handwritten original signature or any other symbol executed or adopted by a Party with current intention to authenticate such Transaction Document or such other document contemplated.

APIE PLAN FOR PARTIAL AND FULL REFUND OF SUBSCRIBER DEPOSITS

A. ***Partial Refund Program:***

1. All former subscribers with refundable deposits will participate in the partial refund program on a consistent and prorata basis.

2. All partial refunds of subscriber deposits from the exchange shall be subject to the Commissioner s prior written approval and the approval of the APIE Board of Directors.

3. APIE can make partial refunds in the aggregate amount of $200,000 in each year without prior approval of the Commissioner if the following criteria are met:

   a. The refund is approved by the APIE Board of Directors.

   b. APIE would be in compliance with all applicable law, before and after the refund is issued, including risk-based capital requirements.

   c. The refund is made only from earned surplus of APIE.

   d. The amount to be distributed must not cause a significant reduction in APIE s total adjusted capital for risk-based capital purposes.

   e. All former subscribers with a refundable deposit would have the right to participate in the refund.

4. APIE will distribute a minimum of $50.00 to each subscriber. APIE will also calculate an additional pro rata amount to add to each subscriber s distribution. This additional amount will be based on the difference between $200,000 and the total of all minimum $50.00 distributions to former subscribers eligible to receive a partial refund.

5. APIE may seek the Commissioner s approval to make total distributions in excess of $200,000, if the conditions set out in paragraph A(3) above are met:

6. If the death of a former subscriber occurs after termination of the policy, APIE will offer the estate a one-time settlement of the deposit account of 50% of the remaining refundable deposit or allow the estate to participate in partial refunds until the full deposit has been paid through partial refunds.

B. ***Full Refund Program:***

1. APIE will make a full refund of refundable deposits on-hand only to an individual who is a current subscriber/insured at the time coverage is terminated and only when the first four criteria listed under paragraph A(3) above are met. To qualify for a full refund, the reason for termination must be based on one of the following conditions:

   a. The subscriber/insured is retiring completely from the practice of medicine at the time of termination; or

   b. The reason for termination of the insured s policy is the death of the subscriber/insured; or,

   c. The reason for termination of the insured s policy is the total disability of the subscriber/insured.

2. For all subscriber/insureds who have refundable deposits on-hand with APIE at the time of termination but do not meet one of the criteria above, then the partial refund program will apply.

Findings of Fact

Based on information provided by AMERICAN PHYSICIANS, and with AMERICAN PHYSICIANS agreement, the Commissioner makes the following Findings of Fact:

1. American Physicians is a reciprocal exchange holding a license under Tex. Ins. Code Ann. Ch. 942, authorizing the Company to engage in the business of insurance in the State of Texas;

2. American Physicians is not currently in hazardous financial condition, as contemplated by Tex. Ins. Code Ann. § 1.32 or § 21.28-A;

3. American Physicians requires each subscriber to sign a subscriber s agreement before being eligible to purchase insurance;

4. between 1976 and 1993, the subscriber deposit agreement required each subscriber to make a refundable deposit to American Physicians; American Physicians provided a subscriber s certificate that detailed each subscriber s right to a refund and set out the following conditions:

   a. the subscriber cannot be an active policyholder;

   b. there must be a minimum period of 24 months from the date of deposit;

   c. American Physicians must have minimum surplus as approved by its board of directors and in excess of amounts specified in agreements reached with respective departments of insurance in which American Physicians is licensed; and

   d. the refundable interest shall be calculated at annualized simple rates with interest compounded annually;

6. as of September 30, 2003, American Physicians reported $11,468,727 in refundable subscriber deposits;

7. if American Physicians were required to refund subscriber deposits immediately and in full, it would no longer comply with the financial requirements set out in the Texas Insurance Code and Title 28 of the Texas Administrative Code;

8. in 1989, American Physicians developed and presented a plan for partial refunds eligible subscriber deposits, establishing minimum surplus requirements before refunds could be made. The Commissioner signed off on the plan indicating his approval. In 1990, the Commissioner extended approval of the plan for partial refunds and provided that American Physicians could make no refund that would reduce surplus below $5,000,000. American Physicians sought and received

the Commissioner s approval to make partial pro rata distributions to eligible subscribers in 1989, 1990, 1995, and 1999, and made these distributions in accordance with the Commissioner s approval; AMERICAN PHYSICIANS sought but did not receive the Commissioner s approval in 1992, and, therefore, did not make a distribution in 1992;

AMENDMENT TO MERGER AGREEMENT

AND

PLAN OF MERGER

This Amendment to Merger Agreement and Plan of Merger (this ***Amendment***) amends that certain Merger Agreement and Plan of Merger (the ***Merger Agreement***) by and among American Physicians Service Group, Inc., APSG ACQCO, Inc. and American Physicians Insurance Exchange dated June 1, 2006.

R E C I T A L S:

Each parties Board of Directors believes it is in its and its prospective owners best interests to amend the Merger Agreement as set forth in this Amendment.

A G R E E M E N T:

NOW, THEREFORE, in consideration of the premises and the mutual promises herein made each APSG Party and the Insurance Company agree as follows:

1. *Definitions*.

A. Unless otherwise specifically defined in this Amendment, capitalized terms shall have the definitions set forth in the Merger Agreement.

B. The definition of ***Expiration Date*** in *Article I* of the Merger Agreement is hereby amended to mean March 31, 2007.

2. *Charter and Bylaws*. The Certificate of Formation of the Insurance Company attached to the Merger Agreement as *Exhibit F* is hereby deleted and replaced in its entirety with the Certificate of Formation attached as *Exhibit F* to this Amendment. Furthermore, the Amended and Restated Bylaws of the Insurance Company attached to the Merger Agreement as *Exhibit G* are hereby deleted and replaced in their entirety with the Amended and Restated Bylaws attached as *Exhibit G* to this Amendment. Except for the substitution of these exhibits, *Section 2.6* of the Merger Agreement shall remain in full force and effect in accordance with its terms.

3. *Effect on Capital Stock*. *Section 2.8* of the Merger Agreement is hereby deleted in its entirety and replaced with the following:

2.8 **Effect on Capital Stock.**

At the Effective Time, because of the Merger and without any action on the part of APSG Parent, APSG Merger Sub or the Insurance Company:

(a) **Conversion of Insurance Company Preferred Stock**. Each share of Insurance Company Preferred Stock issued pursuant to the Conversion and outstanding immediately prior to the Effective Time will be converted into, and exchanged for, a like number of shares of APSG Parent Preferred Shares. The APSG Parent Preferred Shares will have the same redemption and dividend provisions as the Insurance Company Preferred Stock. There will not be any certificates issued to represent the outstanding Insurance Company Preferred Stock in the Conversion, and the holders of Insurance Company Preferred Stock, at the Effective Time of the Merger, will cease to have any rights with respect to the Insurance Company Preferred Stock except the right to receive APSG Parent Preferred Shares. Immediately following the Effective Time, APSG will be the holder of all of the issued and outstanding Insurance Company Preferred Stock.

Table of Contents

Index to Financial Statements

(b) **Conversion of Insurance Company Common Stock**. Subject to *Sections 2.10* and *2.12*, each share of Insurance Company Common Stock issued pursuant to the Conversion and outstanding immediately prior to the Effective Time will be converted into, and exchanged for, the number of APSG Parent Common Shares equal to the Exchange Ratio. There will not be any certificates issued to represent the outstanding Insurance Company Common Stock in the Conversion, and the holders of Insurance Company Common Stock, at the Effective Time of the Merger, will cease to have any rights with respect to the Insurance Company Common Stock except the right to receive: (i) the APSG Parent Common Shares as determined herein and (ii) cash in lieu of fractional APSG Parent Common Shares under *Section 2.10*, in each case without interest (together with the APSG Parent Preferred Shares, collectively, the ***Merger Consideration***). Immediately following the Effective Time, APSG will be the holder of all of the issued and outstanding Insurance Company Common Stock.

(c) **Rights Associated with Insurance Company Common Stock and Insurance Company Preferred Stock**. Since there will not be any certificates issued to represent the outstanding Insurance Company Common Stock or Insurance Company Preferred Stock, the holders of Insurance Company Common Stock and Insurance Company Preferred Stock will have only the right to receive their respective Merger Consideration.

(d) **Certain Additional Definitions**. For this Agreement the following terms will have the indicated meanings:

Announcement Exchange Ratio means (a) the quotient of (i) the Purchase Price divided by (ii) the Announcement Market Price; divided by (b) the Insurance Company Common Equity. For instance, and purely by way of example, if the Present Value of the Redemption Obligation is $9 million (making the Purchase Price $30 million), the Announcement Market Price is $14.28 per share, and the Insurance Company Common Equity resulting from the Conversion is 10 million shares, then the Announcement Exchange Ratio would be 0.210 APSG Parent Common Shares for every share of Insurance Company Common Stock issued in the Conversion, as follows:

$$\left(\frac{\$30,000,000}{\$14.28}\right) \div 10,000,000 = 0.210$$

Announcement Market Price means the average closing market prices of APSG Parent Common Shares on the National Association of Securities Dealers Automated Quotation System, as reported in The Wall Street Journal, for the twenty (20) consecutive trading days immediately prior to the close of the full business day immediately prior to the date this Agreement is fully executed by all of the Parties and announced to the public by appropriate SEC filings and the issuance of the mutually agreed upon press release, which price is $14.28 per share.

Closing Exchange Ratio means the Announcement Exchange Ratio; provided, however, that in the event the Closing Market Price is more than 115% of the Announcement Market Price or is less than 85% of the Announcement Market Price, the Closing Exchange Ratio shall equal:

(i) if the Closing Market Price is more than 115% of the Announcement Market Price, the Closing Exchange Ratio shall equal (A) the quotient of (i) the Purchase Price multiplied by 115% divided by (ii) the Closing Market Price; divided by (B) the Insurance Company Common Equity. For instance, and purely by way of example, if the Present Value of the Redemption Obligation is $9 million (making the Purchase Price $30 million), the Announcement Market Price is $14.28 per share, the Closing Market Price is $17.14 per share and the Insurance Company Common Equity resulting from the Conversion is 10 million shares, then the Closing Exchange Ratio would be 0.201 APSG Parent Common Shares for every share of Insurance Company Common Stock issued in the Conversion, as follows:

$$\left(\frac{\$30,000,000 \times 115\%}{\$17.14}\right) \div 10,000,000 = 0.201$$

Table of Contents

Index to Financial Statements

(ii) if the Closing Market Price is less than 85% of the Announcement Market Price, the Closing Exchange Ratio shall equal (A) the quotient of (i) the Purchase Price multiplied by 85% divided by (ii) the Closing Market Price; divided by (B) the Insurance Company Common Equity. For instance, and purely by way of example, if the Present Value of the Redemption Obligation is $9 million (making the Purchase Price $30 million), the Announcement Market Price is $14.28 per share, the Closing Market Price is $11.42 per share and the Insurance Company Common Equity resulting from the Conversion is 10 million shares, then the Closing Exchange Ratio would be 0.223 APSG Parent Common Shares for every share of Insurance Company Common Stock issued in the Conversion, as follows:

$$\left(\frac{\$30{,}000{,}000 \times 85\%}{\$11.42} \right) \div 10{,}000{,}000 = 0.223$$

Closing Market Price means the average closing market prices of APSG Parent Common Shares on the National Association of Securities Dealers Automated Quotation System, as reported in The Wall Street Journal, for the twenty (20) consecutive trading days immediately prior to the close of the full business day immediately prior to the Closing Date.

Insurance Company Common Equity means the aggregate number of shares of Insurance Company Common Stock that the Subscribers and certain policyholders of the Insurance Company become entitled to receive in the Conversion.

Present Value of the Redemption Obligation means the net present value of the stream of payments authorized by TDI (as of the Closing) that must be made by the Insurance Company to comply with the mandatory redemption features of the Insurance Company Preferred Stock issued in the Conversion in full satisfaction of the Refundable Deposit determined on the basis of a constant discount rate of 5.35%.

Purchase Price means $39 million, less the Present Value of the Redemption Obligation.

4. *Due Authorization*. Each of the Parties represents and warrants to the other Parties that it has the relevant entity power and authority to execute and deliver this Amendment and has taken all necessary action to authorize the execution and delivery of this Amendment.

5. *Merger Agreement*. Except as specifically amended hereby, the Merger Agreement shall remain binding and enforceable in accordance with its terms.

Section 4.2 *Common Shares*.

(a) The holders of Common Shares shall be entitled to one vote for each such share on each matter properly submitted to the shareholders on which the holders of Common Shares are entitled to vote. Notwithstanding the foregoing the holders of Common Shares shall be entitled to one vote per holder (and shall not be entitled to one vote per share) with respect to the approval of the acquisition of the Corporation by American Physicians Services Group, Inc. through the statutory merger of APSG ACQCO, INC. with and into the Corporation. Except as otherwise provided by law or these Articles, at any annual or special meeting of the shareholders the Common Shares shall have the exclusive right to vote for the election of directors and on all other matters properly submitted to a vote of the shareholders.

(b) Subject to the rights of the holders of Preferred Shares, the holders of Common Shares shall be entitled to receive such dividends and other distributions when, as and if declared thereon by the Board of Directors (the ***Board***) from time to time out of any assets or funds of the Corporation legally available therefor.

(c) In the event of any voluntary or involuntary winding-up or termination of the Corporation, after payment or provision for payment of the debts, liabilities and obligations of the Corporation and subject to the rights of the holders of Preferred Shares in respect thereof, the holders of Common Shares shall be entitled to receive all the remaining assets of the Corporation available for distribution to its shareholders, ratably in proportion to the number of Common Shares held by them.

Section 4.3 *Preferred Shares*.

(a) *General*.

The Preferred Shares shall consist of a series designated as the Series A Redeemable Preferred Stock (hereinafter referred to as the ***Series A Redeemable Preferred Stock***). Each share of Series A Redeemable Preferred Stock shall be identical in all respects with the other shares of the Series A Redeemable Preferred Stock subject to the provisions of *Sections 4.3(e)(v) and 4.3(e)(vi)*.

The number of authorized shares of the Series A Redeemable Preferred Stock shall initially be Fifteen Thousand (15,000) which number may from time to time be increased (but not above the total number of authorized Preferred Shares) or decreased (but not below the number of shares of the Series A Redeemable Preferred Stock then outstanding) by resolution of the Board. Series A Redeemable Preferred Stock may be issued in fractions of a share. Shares of Series A Redeemable Preferred Stock redeemed or purchased by the Corporation shall be cancelled and shall revert to authorized but unissued Preferred Shares, undesignated as to series.

Shares of Series A Redeemable Preferred Stock shall be non-certificated shares. The record holders of the shares of the Series A Redeemable Preferred Stock, the number of shares of the Series A Redeemable Preferred Stock held thereby, and the total number of outstanding shares of the Series A Redeemable Preferred Stock shall be recorded in the stock books of the Corporation.

Shares of Series A Redeemable Preferred Stock may not be sold or transferred to, or encumbered by, any person, but shall be subject to redemption in accordance with these Articles.

(b) *Dividends; No Preemptive Rights*.

The shareholders in whose name such Series A Redeemable Preferred Stock is registered in the stock books of the Corporation (the ***holders***) shall be entitled to receive, out of funds legally available for such purpose, dividends which shall accrue at the rate of 3.00% per annum of the Redemption Price of such stock and shall compound annually, payable upon: (i) liquidation as provided in *Section 4.3(c)(i)* or (ii) a redemption

pursuant to *Section 4.3(d)(i)* or *Section 4.3(d)(ii)*. Dividends shall be payable in cash to the holders entitled to the Liquidation Payment or Redemption payment, as the case may be. Dividends in arrears for any past dividend periods may be declared and paid at any time, without reference to any regular dividend payment date, to holders of record on a date not more than sixty (60) nor less then ten (10) days preceding the payment date thereof, as may be fixed by the Board. No interest, or sum of money in lieu of interest, shall be payable in respect of any dividend payment on the Series A Redeemable Preferred Stock which may be in arrears. Dividends on each share of Series A Redeemable Preferred Stock shall be cumulative and shall accrue beginning the third (3rd) calendar day following the date of issuance. The date on which the Corporation initially issues any share of Series A Redeemable Preferred Stock shall be its issue date, regardless of the number of times transfer of such shares is made on the stock records maintained by or for the Corporation and regardless of the number of certificates that may be issued to evidence such shares. No dividends may be paid with respect to any shares of Corporation Common Shares unless all accrued dividends have been paid at some point within the last twelve (12) months with respect to all shares of Series A Redeemable Preferred Stock.

The holders of shares of the Series A Redeemable Preferred Stock shall not be entitled to any preemptive or subscription right in respect of any securities of the Corporation.

(c) *Liquidation*.

In the event of any liquidation (complete or partial), dissolution or winding up of the affairs of the Corporation, whether voluntary or involuntary, after payment or provision for payment of the debts and other liabilities of the Corporation, each holder of Series A Redeemable Preferred Stock shall be entitled to receive an amount in cash equal to the Redemption Price of the shares of the Series A Redeemable Preferred Stock owned of record by such holder, plus accrued dividends (the ***Liquidation Payment***) before any distribution is made to holders of Common Shares (and any other class or series of shares of the Corporation hereafter authorized over which the Series A Redeemable Preferred Stock has preference or priority in the distribution of assets on any liquidation (complete or partial), dissolution or winding up of the affairs of the Corporation) upon any such liquidation (complete or partial), dissolution or winding up of the affairs of the Corporation. If, upon any liquidation (complete or partial), dissolution or winding up of the affairs of the Corporation, whether voluntary or involuntary, the assets of the Corporation, or proceeds thereof, distributable among the holders of the then outstanding shares of the Series A Redeemable Preferred Stock and the holders of any shares of capital stock ranking on a parity with the Series A Redeemable Preferred Stock with respect to any distribution of assets upon liquidation (complete or partial), dissolution or winding up of the affairs of the Corporation, whether voluntary or involuntary, are insufficient to pay in full all such preferential amounts payable to such holders, then all such assets and proceeds of the Corporation thus distributable shall be distributed among the holders of Series A Redeemable Preferred Stock and the holders of such capital stock so ranking on a parity with the Series A Redeemable Preferred Stock ratably in proportion to the respective aggregate amounts otherwise payable with respect thereto.

For the purposes of this *Section 4.3(c)*, neither the voluntary sale, lease, conveyance, exchange or transfer of all or substantially all the property or assets of the Corporation (whether for cash, shares of stock, securities or other consideration), nor the consolidation or merger of the Corporation with one or more other entities, shall be deemed to be a liquidation (complete or partial), dissolution or winding up of the affairs of the Corporation, unless such voluntary sale, lease, conveyance, exchange or transfer shall be in connection with a plan of liquidation (complete or partial), dissolution or winding up of the affairs of the Corporation.

After the payment in cash to the holders of shares of the Series A Redeemable Preferred Stock of the full amount of the Liquidation Payment with respect to outstanding shares of the Series A Redeemable Preferred Stock, (1) the holders of such shares shall cease to be shareholders with respect to such shares, (2) such shares shall no longer be deemed to be outstanding on the books of the Corporation and (3) such holders shall have no interest in or claim against the Corporation or any of the remaining assets of the Corporation.

(d) *Redemption*.

Subject to *Section 4.3(e)(v)*, at any time, the Corporation, at its option, may redeem outstanding shares of the Series A Redeemable Preferred Stock, in whole or in part, in accordance with *Section 4.3(e)* (each, an ***Optional Redemption***).

Subject to *Section 4.3(e)*, the Corporation shall redeem, by the end of each fiscal year of the Corporation during which there are shares of the Series A Redeemable Preferred Stock outstanding, a number of shares of the Series A Redeemable Preferred Stock outstanding on such redemption date with an aggregate Redemption Price equal to $1 million (each, a ***Mandatory Redemption***), in accordance with *Section 4.3(e)*. Notwithstanding the foregoing, the Corporation shall redeem all remaining outstanding shares of Series A Redeemable Preferred Stock on or before December 31, 2016. The Corporation s obligations under this *Section 4.3(d)* shall not be affected by any Optional Redemption.

The Series A Redeemable Preferred Stock shall not be redeemable except as set forth in *Sections 4.3(d)(i)* or *4.3(d)(ii)* above.

(e) *Terms of Redemption*. Any Optional Redemption or Mandatory Redemption (each, a ***Redemption***) shall be effected in the manner and with the effect set forth in this *Section 4.3(e)*.

The redemption price (the ***Redemption Price***) payable in respect of Series A Redeemable Preferred Stock redeemed pursuant to a Redemption shall be $1,000 per share, adjusted accordingly for fractions of a share.

The redemption price for any Redemption shall be paid in cash.

The Corporation shall give notice of any Optional Redemption by mail, postage prepaid, not less than twenty (20) days nor more than sixty (60) days prior to the date fixed for such redemption, to each holder of record of the shares of the Series A Redeemable Preferred Stock to be redeemed appearing on the stock books of the Corporation as of the date of such notice at the address of said holder shown therein. Such notice to any holder shall state the redemption date; the number of shares to be redeemed and, if less than all outstanding shares are to be redeemed, the number (and the identification) of shares to be redeemed from such holder; the Redemption Price; and the procedure for receiving payment of the Redemption Price therefor (including, the place at which the shareholders may obtain payment of the Redemption Price). Any notice that is mailed in the manner herein provided shall be conclusively presumed to have been duly given, whether or not the shareholder receives such notice, and failure duly to give such notice by mail, or any defect in such notice, to any holder of shares of the Series A Redeemable Preferred Stock to be redeemed shall not affect the validity of the proceedings for the redemption of any other shares of the Series A Redeemable Preferred Stock.

If notice of Redemption of shares of the Series A Redeemable Preferred Stock to be redeemed on a redemption date shall have been duly given, then upon such redemption date (if on or before such redemption date all funds in cash necessary for redemption of such shares shall have been set aside by the Corporation, separate and apart from its other funds, in trust for the pro rata benefit of the holders of such shares, so as to be and continue to be available therefor), (1) the holders of such shares shall cease to be shareholders with respect to such shares, (2) such shares shall no longer be deemed to be outstanding on the books of the Corporation, and (3) such holders shall have no interest in or claim against the Corporation with respect to such shares except only the right to receive from the Corporation the amount payable on redemption thereof, without interest (or, in the case of such deposit, from such bank or trust company the funds so deposited, without interest). Any funds so deposited in a bank or trust company and unclaimed at the end of two (2) years from the date fixed for redemption shall, to the extent permitted by law, be repaid to the Corporation upon its request, after which the holders of such shares shall look only to the Corporation for payment thereof.

Index to Financial Statements

Any Redemption shall be affected only out of funds legally available for such purpose. If on any date the Corporation is required to redeem any shares of the Series A Redeemable Preferred Stock pursuant to a Mandatory Redemption and does not have sufficient funds legally available to redeem all such shares on such date, the Corporation shall use any funds that are legally available to redeem such portion of all such shares pro rata (as nearly as may be) on such redemption date as such funds are sufficient therefor and shall redeem the remaining shares of the Series A Redeemable Preferred Stock (required to be redeemed pursuant to such Mandatory Redemption) on the earliest practicable date(s) next following the day on which the Corporation shall first have funds legally available for the redemption of such shares.

If less than all of the outstanding shares of the Series A Redeemable Preferred Stock are to be redeemed pursuant to any Optional Redemption or Mandatory Redemption, the shares of the Series A Redeemable Preferred Stock to be redeemed shall be determined pro rata (as nearly as may be, with adjustments to equalize for any prior Redemption that was not precisely pro rata) among all holders of Series A Redeemable Preferred Stock, according to the respective number of shares of the Series A Redeemable Preferred Stock held by such holders.

Upon any Redemption of shares of the Series A Redeemable Preferred Stock, the shares of the Series A Redeemable Preferred Stock so redeemed shall be cancelled and shall revert to authorized but unissued Preferred Shares, undesignated as to series, and the number of Preferred Shares that the Corporation shall have authority to issue shall not be decreased by such Redemption.

In any case where any redemption date shall not be a business day, then (notwithstanding any other provision of these Articles) payment of redemption price need not be made on such date, but may be made on the next succeeding Business Day with the same force and effect as if made on the redemption date; *provided*, *however*, that no interest shall accrue on such amount of redemption price for the period from and after such redemption date.

If on any date any Mandatory Redemption required to be effected on or prior to such date by *Section 4.3(d)(ii)* or *Section 4.3(d)(iii)*, respectively, (without giving effect to *Section 4.3(e)(v)*) shall not have been effected, the Corporation shall not on such date, directly or indirectly, redeem, purchase, or otherwise acquire for value, or set apart money for any discharge, any sinking or other similar fund for the redemption or purchase of, any shares of any class or series of stock of the Corporation ranking on a parity with Series A Redeemable Preferred Stock upon liquidation (complete or partial), dissolution or winding up of the affairs of the Corporation (except for shares of the Series A Redeemable Preferred Stock redeemed pursuant to the second sentence of *Section 4.3(e)(v)*).

(f) *Voting*. The holders of shares of the Series A Redeemable Preferred Stock shall not be entitled to vote on any matters, including without limitation, any matters described in Articles 4.03 or 5.01 5.20 of the Texas Business Corporation Act (**TBCA**) or any matters which are a fundamental action or a fundamental business transaction under the TBOC, as either may hereafter be amended from time to time.

(g) *No Other Rights*. The shares of the Series A Redeemable Preferred Stock shall not have any powers, designations, preferences or relative, participating, optional, or other special rights, nor shall there be any qualifications, limitations or restrictions of any powers, designations, preferences or rights of such shares, other than as set forth herein or as may be provided by law.

Any repeal or amendment of this *Section 8.1* by the shareholders of the Corporation or by changes in law, or the adoption of any other provision of these Articles inconsistent with this *Section 8.1* will, unless otherwise required by law, be prospective only (except to the extent such amendment or change in law permits the Corporation to further limit or eliminate the liability of directors) and shall not adversely affect any right or protection of a director of the Corporation existing at the time of such repeal or amendment or adoption of such inconsistent provision with respect to acts or omissions occurring prior to such repeal or amendment or adoption of such inconsistent provision.

Section 8.2 *Indemnification*.

(a) Each person who was or is a respondent or defendant, or is threatened to be made a respondent or defendant, or testifies or otherwise participates, in any threatened, pending, or completed action, suit or proceeding, whether civil, criminal, administrative, arbitrative or investigative, any appeal in such an action, suit or proceeding, and any inquiry or investigation that could lead to such an action, suit, or proceeding (any of the foregoing hereinafter called a ***proceeding***), whether or not by or in the right of the Corporation, because such person is or was a director of the Corporation or, while a director of the Corporation, is or was serving at the request of the Corporation as a director, officer, partner, venturer, proprietor, trustee, employee, administrator, agent or similar functionary of another foreign or domestic corporation, limited or general partnership, limited liability company, business trust, real estate investment trust, joint venture, joint stock company, cooperative, association, bank, insurance company, credit union, association, proprietorship, trust, employee benefit plan, other enterprise or other organization (hereinafter a ***Covered Person***) shall be indemnified by the Corporation to the fullest extent authorized or permitted by applicable law, as the same exists or may hereafter be changed, against all judgments (including arbitration awards), court costs, penalties, excise and similar taxes, fines, settlements, reasonable attorneys fees and other expenses (all of the foregoing hereinafter called ***expenses***) actually incurred by such person in connection with such proceeding, and such right to indemnification shall continue as to a person who has ceased to be a director, officer, partner, venturer, proprietor, trustee, employee, administrator, agent or similar functionary and shall inure to the benefit of his or her heirs, executors and administrators. 2.01 *Annual Meetings*. 2.02 *Special Meetings*. A special meeting of the shareholders may be called at any time by the president, the board of directors, or the holders of not less than ten percent of all shares entitled to vote at such meeting. Only business within the purpose or purposes described in the notice of special meeting may be conducted at such special meeting.

2.05 *Voting List*. At least ten days before each meeting of shareholders, the secretary shall prepare a complete list of shareholders entitled to vote at such meeting, arranged in alphabetical order, including the address of each shareholder and the number of voting shares held by each shareholder. For a period of ten days prior to such meeting, such list shall be kept on file at the registered office of the Corporation and shall be subject to inspection by any shareholder during usual business hours. Such list shall be produced at such meeting, and at all times during such meeting shall be subject to inspection by any shareholder. The original stock transfer books shall be prima facie evidence as to who are the shareholders entitled to examine such list.

2.06 *Voting of Shares*. Treasury shares, shares of the Corporation s own stock owned by another corporation the majority of the voting stock of which is owned or controlled by the Corporation, and shares of the Corporation s own Stock held by the Corporation in a fiduciary capacity shall not be shares entitled to vote or to be counted in determining the total number of outstanding shares. Shares standing in the name of another domestic or foreign corporation of any type or kind may be voted by such officer, agent, or proxy as the bylaws of such corporation may authorize or, in the absence of such authorization, as the board of directors of such corporation may determine. Shares held by an administrator, executor, guardian, or conservator may be voted by him, either in person or by proxy, without transfer of such shares into his name so long as such shares form a part of the estate served by him and are in the possession of such estate. Shares held by a trustee may be voted by him, either in person or by proxy, only after the shares have been transferred into his name as trustee. Shares standing in the name of a receiver may be voted by such receiver, and shares held by or under the control of a receiver may be voted by such receiver without transfer of such shares into his name if authority to do so is contained in the court order by which such receiver was appointed. A shareholder whose shares are pledged shall be entitled to vote such shares until they have been transferred into the name of the pledgee, and thereafter, the pledgee shall be entitled to vote such shares. The holders of shares of the Corporation s Series A Redeemable Preferred Stock shall not be entitled to vote on any matters, including without limitation, any matters described in Articles 4.03 or 5.01 through 5.20 of the Texas Business Corporation Act, or any matters which are a fundamental action or a fundamental business transaction under the Texas Business Organizations Code, as either may hereinafter be amended from time to time.

2.07 *Quorum*. The holders of at least fifty-one percent (51%) of the outstanding shares entitled to vote, present in person or represented by proxy, shall constitute a quorum at any meeting of shareholders, except as otherwise provided by law, the Articles of Incorporation, or these bylaws. If a quorum shall not be present or represented at any meeting of shareholders, a majority of the shareholders entitled to vote at the meeting, who are present in person or represented by proxy, may adjourn the meeting from time to time, without notice other than announcement at the meeting, until a quorum shall be present or represented. At any reconvening of an adjourned meeting at which a quorum shall be present or represented by proxy, any business may be transacted which could have been transacted at the original meeting, if a quorum had been present or represented.

2.08 *Majority Vote; Withdrawal of Quorum*. If a quorum is present in person or represented by proxy at any meeting, the vote of the holders of a majority of the outstanding shares entitled to vote, present in person or represented by proxy, shall decide any question brought before such meeting, unless the question is one on which, by express provision of the Texas Insurance Code, the Articles of Incorporation, or these bylaws, a different vote is required, in which event such express provision shall govern and control the decision of such question. The shareholders present at a duly convened meeting may continue to transact business until adjournment, notwithstanding any withdrawal of shareholders which may leave less than a quorum remaining.

2.09 *Method of Voting; Proxies*. Every shareholder of record shall be entitled at every meeting of shareholders to one vote on each matter submitted to a vote, for every share standing in his name on the original stock transfer books of the Corporation except, (a) to the extent that the voting rights of the shares of any class or classes are limited or denied by the Articles of Incorporation, or (b) if, and to the extent, the Articles of Incorporation of the Corporation provide for the holders of one or more classes of shares of stock of the Corporation to vote or consent as a class with respect to any particular matter or to have other special voting or consent rights. Such stock transfer books shall be prima facie evidence as to the identity of shareholders entitled to vote. At any meeting of shareholders, every shareholder having the right to vote may vote either in person or

by a proxy executed in writing by the shareholder or by his duly authorized attorney-in-fact. Each such proxy shall be filed with the secretary of the Corporation before, or at the time of, the meeting. No proxy shall be valid after eleven months from the date of its execution, unless otherwise provided in the proxy. If no date is stated on a proxy, such proxy shall be presumed to have been executed on the date of the meeting at which it is to be voted. Each proxy shall be revocable unless the proxy form conspicuously states that the proxy is irrevocable and the proxy is coupled with an interest.

2.10 *Closing of Transfer Books; Record Date*. For the purpose of determining shareholders entitled to notice of, or to vote at, any meeting of shareholders or any reconvening thereof, or entitled to receive a distribution (other than a distribution involving a purchase or redemption by the Corporation of any of its own shares) or a share dividend, or in order to make a determination of shareholders for any other proper purpose, the board of directors may provide that the stock transfer books of the Corporation shall be closed for a stated period but not to exceed in any event sixty days. If the stock transfer books are closed for the purpose of determining shareholders entitled to notice of, or to vote at, a meeting of shareholders, such books shall be closed for at least ten days immediately preceding such meeting. In lieu of closing the stock transfer books, the board of directors may fix in advance a date as the record date for any such determination of shareholders, such date in any case to be not more than sixty days and, in case of a meeting of shareholders, not less than ten days prior to the date on which the particular action requiring such determination of shareholders is to be taken. If the stock transfer books are not closed and if no record date is fixed for the determination of shareholders entitled to notice of, or to vote at, a meeting of shareholders or entitled to receive a distribution (other than a distribution involving a purchase or redemption by the Corporation of any of its own shares) or a share dividend, the date on which the notice of the meeting is mailed or the date on which the resolution of the board of directors declaring such distribution or share dividend is adopted, as the case may be, shall be the record date for such determination of shareholders.

2.11 *Officers Duties at Meetings*. The Chairman of the Board shall preside at, and the secretary shall prepare minutes of, each meeting of shareholders, and in the absence of either such officer, his duties shall be performed by some person or persons elected by the vote of the holders of a majority of the outstanding shares entitled to vote, present in person or represented by proxy.

ARTICLE THREE: DIRECTORS

3.01 *Management*. The business and property of the Corporation shall be managed by the board of directors, and subject to the restrictions imposed by law, the Articles of Incorporation, or these bylaws, the board of directors may exercise all the powers of the Corporation.

3.02 *Number; Election; Term; Qualification*. The number of directors which shall constitute the board of directors shall be not more than eleven (11) and shall never be less than seven (7). The number of directors which shall constitute the entire board of directors shall be as provided in the Articles of Incorporation, or, in absence of applicable provisions in the Articles of Incorporation, as determined by resolution of the board of directors at any meeting thereof or by the shareholders at any meeting thereof, but shall never be less than one. At each annual meeting of shareholders, directors shall be elected to hold office until the next annual meeting of shareholders and until their successors are elected and qualified. No director need be a shareholder, a resident of the State of Texas, or a citizen of the United States.

3.03 *Changes in Number*. No decrease in the number of directors constituting the entire board of directors shall have the effect of shortening the term of any incumbent director. Any directorship to be filled by reason of an increase in the number of directors may be filled by (i) the shareholders at any annual or special meeting of shareholders called for that purpose or (ii) the board of directors for a term of office continuing only until the next election of one or more directors by the shareholders; provided that the board of directors may not fill more than two such directorships during the period between any two successive annual meetings of shareholders.

Notwithstanding the foregoing, whenever the holders of any class or series of shares are entitled to elect one or more directors by the provisions of the Articles of Incorporation, any newly created directorship(s) of such class or series to be filled by reason of an increase in the number of such directors may be filled by the affirmative vote of a majority of the directors elected by such class or series then in office or by a sole remaining director so elected or by the vote of the holders of the outstanding shares of such class or series, and such directorship(s) shall not in any case be filled by the vote of the remaining directors or by the holders of the outstanding shares of the Corporation as a whole unless otherwise provided in the Articles of Incorporation.

3.04 *Removal*. At any meeting of shareholders called expressly for that purpose, any director or the entire board of directors may be removed, with or without cause, by a vote of the holders of a majority of the shares then entitled to vote on the election of such director.

3.05 *Vacancies*. Any vacancy occurring in the board of directors may be filled by (i) the shareholders at any annual or special meeting of shareholders called for that purpose or (ii) the affirmative vote of a majority of the remaining directors though less than a quorum of the board of directors. A director elected to fill a vacancy shall be elected to serve for the unexpired term of his predecessor in office. Notwithstanding the foregoing, whenever the holders of any class or series of shares are entitled to elect one or more directors by the provisions of the Articles of Incorporation, any vacancies in such directorship(s) may be filled by the affirmative vote of a majority of the directors elected by such class or series then in office or by a sole remaining director so elected or by the vote of the holders of the outstanding shares of such class or series, and such directorship(s) shall not in any case be filled by the vote of the remaining directors or the holders of the outstanding shares of the Corporation as a whole unless otherwise provided in the Articles of Incorporation.

3.06 *Place of Meetings*. The board of directors may hold its meetings and may have an office and keep the books of the Corporation, except as otherwise provided by law, in such place or places within or without the State of Texas as the board of directors may from time to time determine.

Each newly elected board of directors may hold its first meeting for the purpose of organization and the transaction of business, if a quorum is present, immediately after and at the same place as the annual meeting of shareholders, and notice of such meeting shall not be necessary.

3.08 *Regular Meetings*. Regular meetings of the board of directors may be held without notice at such times and places as may be designated from time to time by resolution of the board of directors and communicated to all directors.

3.09 *Special Meetings; Notice*. Special meetings of the board of directors shall be held whenever called by the president or by the chairman of the board, if any. The person calling any special meeting shall cause notice of such special meeting, including therein the time and place of such special meeting, to be given to each director at least two days before such special meeting. Neither the business to be transacted at, nor the purpose of, any special meeting of the board of directors need be specified in the notice or waiver of notice of any special meeting.

3.10 *Quorum; Majority Vote*. At all meetings of the board of directors, a majority of the directors, fixed in the manner provided in these bylaws, shall constitute a quorum for the transaction of business. If a quorum is not present at a meeting, a majority of the directors present may adjourn the meeting from time to time, without notice other than an announcement at the meeting, until a quorum is present. The act of a majority of the directors present at a meeting at which a quorum is in attendance shall be the act of the board of directors, unless the act of a greater number is required by law, the Articles of Incorporation, or these bylaws.

3.11 *Procedure; Minutes*. At meetings of the board of directors, business shall be transacted in such order as the board of directors may determine from time to time. The board of directors shall appoint at each meeting a

person to preside at the meeting and a person to act as secretary of the meeting. The secretary of the meeting shall prepare minutes of the meeting which shall be delivered to the secretary of the Corporation for placement in the minute books of the Corporation.

3.12 *Presumption of Assent*. A director of the Corporation who is present at any meeting of the board of directors at which action on any matter is taken shall be presumed to have assented to the action unless his dissent shall be entered in the minutes of the meeting or unless he shall file his written dissent to such action with the person acting as secretary of the meeting before the adjournment thereof or shall forward any dissent by certified or registered mail to the secretary of the Corporation immediately after the adjournment of the meeting. Such right to dissent shall not apply to a director who voted in favor of such action.

3.13 *Compensation*. Directors, in their capacity as directors, may receive, by resolution of the board of directors, a fixed sum and expenses of attendance, if any, for attending meetings of the board of directors or a stated salary. No director shall be precluded from serving the Corporation in any other capacity or receiving compensation therefor.

The number of committee members may be increased or decreased from time to time by resolution adopted by a majority of the entire board of directors. Each committee member shall serve as such until the earliest of (i) the expiration of his term as director, (ii) his resignation as a committee member or as a director, or (iii) his removal, as a committee member or as a director.

4.04 *Committee Changes; Removal*. Except as set forth in the Articles of Incorporation, the board of directors shall have the power at any time to fill vacancies in, to change the membership of, and to discharge any

5

4.05 *Regular Meetings*. Regular meetings of any committee may be held without notice at such time and place as may be designated from time to time by the committee and communicated to all members thereof.

4.06 *Special Meetings*. Special meetings of any committee may be held whenever called by any committee member. The president or any vice president of the Corporation shall have the power and authority to transfer, endorse for transfer, vote, consent, or take any other action with respect to any securities of another issuer which may be held or owned by the Corporation and to make, execute, and deliver any waiver, proxy, or consent with respect to any such securities.

8.09 *Amendment of Bylaws*. The power to amend or repeal these bylaws or to adopt new bylaws is vested in the board of directors, but is subject to the right of the shareholders to amend or repeal these bylaws or to adopt new bylaws.

8.10 *Invalid Provisions*. If any part of these bylaws is held invalid or inoperative for any reason, the remaining parts, so far as is possible and reasonable, shall remain valid and operative.

8.11 *Headings*. The headings used in these bylaws are for convenience only and do not constitute matter to be construed in the interpretation of these bylaws.

8.12 *Indemnification*. The Corporation shall indemnify any person who was, is, or is threatened to be made a named defendant or respondent in a proceeding (as hereinafter defined) because the person (i) is or was a director or officer of the Corporation or (ii) while a director or officer of the Corporation, is or was serving at the request of the Corporation as a director, officer, partner, venturer, proprietor, trustee, employee, agent, or similar functionary of another foreign or domestic corporation, partnership, joint venture, sole proprietorship, trust, employee benefit plan, or other enterprise, to the fullest extent that a corporation may grant indemnification to a director under the Texas Business Organizations Code, as the same exists or may hereafter be amended. Such right shall be a contract right and as such shall run to the benefit of any director or officer who is elected and accepts the position of director or officer of the Corporation or elects to continue to serve as a director or officer of the Corporation while this Section 8.12 is in effect. Any repeal or amendment of this Section 8.12 shall be prospective only and shall not limit the rights of any such director or officer or the obligations of the Corporation with respect to any claim arising from or related to the services of such director or officer in any of the foregoing capacities prior to any such repeal or amendment of this Section 8.12. Such right shall include the right to be paid or reimbursed by the Corporation for expenses incurred in defending any such proceeding in advance of its final disposition to the maximum extent permitted under the Texas Business Organizations Code, as the same exists or may hereafter be amended. If a claim for indemnification or advancement of expenses hereunder is not paid in full by the Corporation within 90 days after a written claim has been received by the Corporation, the claimant may at any time thereafter bring suit against the Corporation to recover the unpaid amount of the claim, and if successful in whole or in part, the claimant shall be entitled to be paid also the expenses of prosecuting such claim. It shall be a defense to any such action that such indemnification or advancement of costs of defense are not permitted under the Texas Business Organizations Code, but the burden of proving such defense shall be on the Corporation. Neither the failure of the Corporation (including its Board of Directors or any committee thereof, special legal counsel, or shareholders) to have made its determination prior to the commencement of such action that indemnification of, or advancement of costs of defense to, the claimant is permissible in the circumstances nor an actual determination by the Corporation (including its Board of Directors or any committee thereof, special legal counsel, or shareholders) that such indemnification or advancement is not permissible, shall be a defense to the action or create a presumption that such indemnification or advancement is not permissible. In the event of the death of any person having a right of indemnification under the foregoing provisions, such right shall inure to the benefit of his heirs, executors, administrators, and personal representatives. The rights conferred above shall not be exclusive of any other right which any person may have or hereafter acquire under any statute, bylaw, resolution of shareholders or directors, agreement, or otherwise.

The Corporation may additionally indemnify any person covered by the grant of mandatory indemnification contained above to such further extent as is permitted by law and may indemnify any other person to the fullest

extent permitted by law. To the extent permitted by then applicable law, the grant of mandatory indemnification to any person pursuant to this Section 8.12 shall extend to proceedings involving the negligence of such person.

As used herein, the term proceeding means any threatened; pending, or completed action, suit, or proceeding, whether civil, criminal, administrative, arbitrative, or investigative, any appeal in such an action, suit, or proceeding, and any inquiry or investigation that could lead to such an action, suit, or proceeding.

8.13 *Other Indemnification*. In addition to the indemnification provided for in Section 8.12 of these Bylaws and in the Articles of Incorporation, the Corporation may enter into agreements relating to indemnification with any person who is an officer or director of the Corporation, and any such agreement shall not be restricted, limited or impaired by any of the provisions of Section 8.12, and shall be enforceable against, and binding upon, the Corporation to the maximum extent permitted by law.

8.14 *Advisory Directors*. The Advisory Board to the Corporation shall meet concurrently with the Board of Directors. The Advisory Board shall not have any right to vote on matters before the Board, but the Advisory Board shall have the right to review information provided to the Board of Directors and to provide the Board with advice and counsel regarding such matters.

The Commissioner may hold a public hearing. If a hearing is held, the Exchange will provide you with no less than 30 days notice of the date, time, and location.

This letter provides you with background information regarding some of the reasons that the Board of Directors of the Exchange chose to pursue the Plan and a summary of the key provisions of the Plan that was approved by the Board.

BACKGROUND AND REASONS FOR THE PLAN

American Physicians Insurance Exchange (APIE or the Exchange) is a reciprocal exchange. The Exchange was organized in the State of Texas on November 23, 1975 and commenced operations on June 1, 1976. It is licensed as a multiple-line insurer under the provisions of the Texas Insurance Code. A reciprocal exchange is an organization under which policyholders (subscribers) effectively exchange insurance contracts and thereby insure each other and become members of the Exchange. As required by Chapter 942 of the Texas Insurance Code, the Exchange is managed by its attorney-in-fact, APS Facilities Management, Inc. (FMI), a wholly owned subsidiary of APSG, and is subject to the supervision of the Exchange s Board of Directors.

APIE writes professional liability insurance coverage for physician groups, individual physicians and other healthcare providers in the states of Texas and Arkansas. Most of the Exchange s coverage is written on a claims-made and reported basis. The coverage is provided only for claims that are first reported to the Exchange during the coverage period and that arise from occurrences during the coverage period. The Exchange also provides extended or tail coverage available for purchase in order to cover claims that arise from occurrences during the coverage period, but that are first reported to the Exchange after the coverage period and during the term of the applicable tail coverage.

The Exchange has provided medical malpractice insurance to physicians for 30 years and has demonstrated the ability to sustain and grow through the many cycles of the market. During this period of time, there have been numerous medical professional liability crises whereby carriers have entered the market only to quickly leave or raise rates substantially leaving physicians scrambling for coverage. The Exchange has consistently provided stability and dependability of coverage for the markets it serves.

The Board has spent considerable time and effort in carefully researching and exploring alternatives for growth to continue to strengthen the Exchange and continue to provide stability to marketplace, as in years past. As a reciprocal exchange, the Exchange cannot access capital through stock offerings. The Board believes that the Plan will allow the Exchange to continue to prosper through its ability to access capital through public markets and that the policyholders will benefit from outside capital, in addition to what is being generated by its stand-alone financial performance.

Several medical malpractice companies operating in other states have converted to stock companies for the purpose to access capital to support growth and provide financial stability. The Board views access to capital as a component for the Exchange to grow and to compete in a changing marketplace. Additional capital will only further strengthen the Exchange and provide a platform for growth by increasing market capacity. Furthermore, the Board anticipates that the Plan, if approved, will allow the Exchange to pursue and eventually achieve meaningful ratings with A.M. Best and other rating agencies. The Exchange believes the ability to achieve a meaningful A.M. Best rating will further enhance the converted company to write insurance for more medical professionals that may be required to purchase insurance from a Best rated carrier.

While the Exchange intends to convert to a Texas stock insurance company, it does not intend to change the overall philosophy of how services are provided to policyholders. The current physician members of the Exchange s Board of Directors will continue to be very involved in all areas of the insurance business including

claims, underwriting, and risk management. Under the Plan as approved by the Board, insured physicians will continue to have the opportunity to meet with the physician members of the Board of Directors through a Physician Liaison Committee.

The Board believes that approval of this Plan will enhance the ability of the Exchange to continue as a reliable, stable insurance market for physicians. The Exchange will also continue to maintain the high quality of services and insurance products for physicians. The Exchange is committed to maintaining its philosophy Physicians for Physicians within the fabric of the company.

CONCLUSION

This letter constitutes notice of (i) the adoption of the Plan by the Board of Directors of the Exchange, (ii) filing of the Plan for review and approval by the Commissioner, and (iii) your right to provide comments regarding the Plan to the Exchange and the Commissioner.

Please note that you are not being requested to vote on the Plan at this time. If the Plan is approved by the Commissioner, the Exchange will send you a copy of the Plan as approved by the Commissioner along with other information and notify you of the date, time and place of a special meeting to vote on the Plan.

We look forward to receiving any comments you may have on the Plan. It is requested that comments be provided within thirty (30) days of receipt of this letter.

Should you have any additional questions for the Exchange with regard to the Plan, please feel free to contact the Exchange at (800)252-3628.

Very truly yours,

We have not made or obtained an independent appraisal of the assets or liabilities (contingent or otherwise) of the Company. With respect to financial forecasts and other information and data provided to or otherwise reviewed by or discussed with us, we have, with your consent, assumed that such forecasts and other information and data have been reasonably prepared in good faith on bases reflecting the best currently available estimates and judgments of the Board of Directors of the Company, the Attorney in Fact, or APSG, and we have relied upon each party to advise us promptly if any information previously provided became inaccurate or was required to be updated during the period of our review. In addition, we have assumed that the final forms of all documents will not differ in any material respect form the drafts of such documents reviewed by us as of the date of this letter.

Our opinion is based upon market, economic, financial and other circumstances and conditions existing and disclosed to us as of August 22, 2006 and any material change in such circumstances and conditions would require a reevaluation of this opinion, which we are under no obligation to undertake.

We express no opinion as to the underlying business decision to effect the Plan or the Agreement, the structure or tax consequences of the Plan or Agreement or the availability or advisability of any alternatives to the Plan and Agreement. We did not structure the Plan or Agreement or negotiate the final terms of the Plan or Agreement. This letter does not express any opinion as to the likely trading range of APSG stock following the merger as contemplated in the Agreement, which may vary depending on numerous factors that generally impact the price of securities or on the financial condition of APSG at that time. Our opinion is limited to the fairness, from a financial point of view, of the aggregate consideration to be received by the Members in connection with the Plan and Agreement. We express no opinion with respect to any other reasons, legal, business, or otherwise, that may support the decision of the Board of Directors to approve or consummate the Plan or Agreement.

Our opinion does not constitute a recommendation to any Member as to how such Member should vote with respect to the Plan.

In conducting our investigation and analyses and in arriving at our opinion expressed herein, we have taken into account such accepted financial and investment banking procedures and considerations as we have deemed relevant, including the review of (i) historical and projected revenues, operating earnings, net income and capitalization of the Company and certain other publicly held companies in businesses we believe to be comparable to the Company; (ii) the current and projected financial position and results of operations of APSG;

(iii) financial and operating information concerning selected business combinations which we deemed comparable in whole or in part;
(iv) financial and operating information concerning selected insurance demutualizations which we deemed comparable in whole or in part; and
(v) the general condition of the securities markets.

In arriving at this opinion, Raymond James & Associates, Inc (Raymond James) did not attribute any particular weight to any analysis or factor considered by it, but rather made qualitative judgments as to the significance and relevance of each analysis and factor. Accordingly, Raymond James believes that its analyses must be considered as a whole and that selecting portions of its analyses, without considering all analyses, would create an incomplete view of the process underlying this opinion.

Raymond James is actively engaged in the investment banking business and regularly undertakes the valuation of investment securities in connection with public offerings, private placements, business combinations and similar transactions. Raymond James has been engaged to render financial advisory services to the Company in connection with the proposed Plan and Agreement and will receive a fee upon the delivery of this opinion. In addition, the Company has agreed to indemnify us against certain liabilities arising out of our engagement.

In the ordinary course of our business, Raymond James may trade in the securities of APSG for our own account or for the accounts of our customers and, accordingly, may at any time hold a long or short position in such securities.

It is understood that this letter is for the information of the Board of Directors of the Company in evaluating the proposed Plan and Agreement and does not constitute a recommendation to any Member of the Company regarding how said Member should vote on the proposed Plan or Agreement, nor is this letter intended to confer rights or remedies upon APSG, Members of the Company or other policyholders, or shareholders of APSG. Furthermore, this letter should not be construed as creating any fiduciary duty on the part of Raymond James to any such party. This opinion is not to be quoted or referred to, in whole or in part, without our prior written consent, which will not be unreasonably withheld.

Based upon and subject to the foregoing, it is our opinion that, as of August 22, 2006, the consideration to be received by the Members of the Company pursuant to the Plan and Agreement is fair, from a financial point of view, to the Members.

Very truly yours,

4.5 NONDISCLOSURE OF CONFIDENTIAL INFORMATION.

(a) During the Term, Advisor will have access to Confidential Information, including Confidential Information Advisor has not accessed prior to the date of this Agreement. Advisor recognizes that the Insurer s business interests require the fullest practical protection and confidential treatment of the Confidential Information. At all times during the Term and thereafter, Advisor will hold in strictest confidence and will not disclose, use, provide access to, or publish any Confidential Information, except as such disclosure, use or publication may be required in connection with Advisor s services for the Insurer or as required by law or legal process. Advisor agrees that all Confidential Information, whether prepared by Advisor or otherwise coming into Advisor s possession, shall remain the exclusive property of the Insurer during Advisor s employment with the Insurer. Advisor will obtain the Insurer s written approval before publishing or submitting for publication any material (written, oral, or otherwise) that relates to Advisor s work at the Insurer, any Confidential Information and/or any material that incorporates any Confidential Information. Advisor hereby assigns to the Insurer any rights Advisor may have or acquire in such Confidential Information and recognizes that all Confidential Information is the sole property of the Insurer and its assigns.

Advisor expressly acknowledges and agrees that Confidential Information constitutes trade secrets and/or confidential and proprietary business information of the Insurer (or its affiliates, customers or suppliers, as the case may be). Confidential Information shall not include information which is or becomes generally available to the public other than through disclosure by Advisor or by any other person or entity under a duty or obligation to maintain the confidentiality thereof.

(c) Advisor understands that violation of any non-disclosure provision of this Agreement shall be a material breach of this Agreement.

4.6 REASONABLENESS OF RESTRICTIONS. Advisor acknowledges and agrees that the restrictions imposed upon Advisor by this Article Iv and the purposes for such restrictions are reasonable and are designed to protect the trade secrets, confidential and proprietary business information and the future success of the Insurer and its affiliates without unduly restricting Advisor. Advisor specifically recognizes and affirms that the restrictive covenants contained in this ARTICLE IV are material and important terms of this Agreement.

4.7 SEVERABILITY. The covenants set forth in this ARTICLE IV each constitute separate agreements independently supported by good and adequate consideration. If a court of competent jurisdiction determines that any restriction in a clause or provision of this ARTICLE IV is void, illegal, or unenforceable, the other clauses and provisions of this ARTICLE IV shall remain in full force and effect.

4.8 RETURN OF THE INSURER PROPERTY. Upon termination or expiration of this Agreement for any reason, Advisor will promptly (within twenty-four (24) hours) deliver to the Insurer any and all Confidential Information, drawings, notes, memoranda, specifications, devices, formulas and documents, together with all

copies thereof and any other material containing or disclosing any works made for hire, or third party information. 4.9 APPLICABILITY TO REPRESENTATIVES. (a) The mutual agreement, in writing, of the parties hereto;

(b) A default in the performance or breach of any material term, condition, covenant, duty, responsibility, or function contained in this Agreement, which default or breach shall continue for a period of ninety (90) days after written notice to the party committing such default or breach by the other party stating the specific nature of such default or breach and requiring it to be remedied; provided, however, if such default cannot be reasonably cured within such 90-day period, the length of such cure period shall be extended for the period reasonably required therefor if the defaulting party commences covering such default within such 90-day period and continues the curing thereof with reasonable diligence and continuity.

(c) The giving of one hundred eighty (180) days written notice of termination by either party to the other (with or without cause) which notice may be given only during the ninety (90) day period that is between two hundred seventy (270) and one hundred eighty (180) days prior to expiration of the Initial Term of this Agreement (the Termination Notice Period); provided, however, if such notice is given by Insurer, such termination shall be conditioned upon Insurer s satisfaction of the requirements of Section 5.3.

In the event of a termination of this Agreement prior to the expiration of the Additional Term (as defined below), the party initiating such termination shall provide written notice to the Texas Department of Insurance simultaneous with such notice being provided to the other party to this Agreement.

5.2 TERM OF AGREEMENT. The term of this Agreement shall commence on , 2006, and end on December 31, 2011 (the **Initial Term**). Unless terminated as provided by Section 5.1(b) or (c), the term of the Agreement shall extend for a second five-year term, commencing on January 1, 2012 and ending on December 31, 2016 (**Additional Term** and together with the Initial Term, the **Term**). Without limiting the foregoing, the Insurer shall provide the Texas Department of Insurance notice at the end of the Termination Notice Period if this Agreement has not been terminated as provided herein. The parties acknowledge and agree that the Texas Department of Insurance shall have the right during the thirty (30) days following the end of the Termination Notice Period to provide notice of its intent to review and approve this Agreement prior to the commencement of the Additional Term.

5.3 NON-COMPETE AGREEMENTS UPON TERMINATION. Upon the termination of the Agreement for any reason other than termination pursuant to Section 5.1(a) or the expiration of the Additional Term without a written agreement between the Advisor and the Insurer to extend this Agreement, then the Advisor shall be required to execute a non-compete agreement in favor of Insurer and shall undertake best efforts to obtain written

ANNEX F

AMENDMENT TO

2005 INCENTIVE AND NON-QUALIFIED STOCK OPTION PLAN

This Amendment to the 2005 Incentive and Non-Qualified Stock Option Plan (this ***Amendment***) amends that certain 2005 Incentive and Non-Qualified Stock Option Plan (the ***2005 Incentive Plan***) adopted by the shareholders of American Physicians Service Group, Inc. (the ***Company***) on June 14, 2005.

R E C I T A L S:

The 2005 Incentive Plan currently provides for the issuance of up to 350,000 shares of common stock of the Company. The Company s Board of Directors has determined that it is advisable, fair and in the best interests of the Company and its shareholders to amend the 2005 Incentive Plan to provide for the issuance of up to an additional 300,000 shares of common stock, in order to continue to provide to the persons who are responsible for the continued growth of the Company s business an opportunity to acquire a proprietary interest in the Company.

The 2005 Incentive Plan currently provides for the Company to be able to, at any time, offer to exchange or buy out any previously granted Option for a payment in cash, common stock of the Company or another stock option under the 2005 Incentive Plan. The Company s Board of Directors has determined that it is advisable, fair and in the best interests of the Company and its shareholders to amend the 2005 Incentive Plan to delete this provision of the 2005 Incentive Plan, in order to better protect shareholders during the remaining life of the 2005 Incentive Plan.

A G R E E M E N T:

NOW, THEREFORE, the 2005 Incentive Plan is amended as follows:

1. *Definitions.*

A. Unless otherwise specifically defined in this Amendment, capitalized terms shall have the definitions set forth in the 2005 Incentive Plan.

2. *Stock Subject to the 2005 Incentive Plan*. *Article IV* of the 2005 Incentive Plan is hereby deleted in its entirety and replaced with the following:

IV. Stock Subject to Plan

The aggregate number of shares of Common Stock that may be issued pursuant to Options granted under this Plan shall not exceed 650,000 shares of Common Stock (subject to adjustment as provided in Article VIII). Such shares may consist of authorized but unissued shares of Common Stock or previously issued shares of Common Stock reacquired by the Corporation. Any of such shares which remain unissued and which are not subject to outstanding Options at the termination of this Plan shall cease to be subject to this Plan, but, until termination of this Plan, the Corporation shall at all times make available a sufficient number of shares to meet the requirements of this Plan. Should any Option hereunder expire or terminate prior to its exercise in full, the shares of Common Stock theretofore subject to such Option may again be subject to an Option granted under this Plan to the extent permitted under Rule 16b-3. The aggregate number of shares which may be issued under this Plan shall be subject to adjustment as provided in Article VIII hereof. Exercise of an Option in any manner pursuant to the terms of this Plan and the related Option Agreement shall result in a decrease in the number of shares of Common Stock which may thereafter be available, for purposes of the Plan, by the

number of shares as to which the Option is exercised. Separate stock certificates shall be issued by the Corporation for those shares acquired pursuant to the exercise of an Incentive Stock Option and for those shares acquired pursuant to the exercise of any Non-Qualified Stock Options.

PART II.

INFORMATION NOT REQUIRED IN PROSPECTUS

Item 20. Indemnification of Directors and Officers

Article 2.02-1 of the Texas Business Corporation Act, or the TBCA, provides that a Texas corporation shall have the power to indemnify anyone who was, is, or may become a defendant or respondent to any threatened, pending, or completed action, suit or proceeding, whether civil, criminal, administrative, arbitrative, or investigative, or any appeal in such an action, suit or proceeding, and any inquiry or investigation that could lead to such an action, suit, or proceeding, because such person is or was a director of the corporation, provided that (i) such person conducted himself in good faith, (ii) such person reasonably believed (A) that in the case of conduct in his official capacity as a director of the corporation that his conduct was in the corporation s best interests and (B) in all other cases, that his conduct was at least not opposed to the corporation s best interests, and (iii) in the case of a criminal proceeding, such person has no reasonable cause to believe his conduct was unlawful. The termination of a proceeding by judgment, order, settlement, or conviction, or on a plea of nolo contendere or its equivalent, is not of itself determinative that a director is not eligible for indemnification by a corporation. Instead, a person shall be deemed to be liable in respect of any claim, issue or matter only after a court of competent jurisdiction adjudges the person liable and the person has exhausted all available appeals. APSG may not indemnify a director as described above for obligations resulting from a proceeding (i) in which such person is liable on the basis that he improperly received personal benefit, whether or not the benefit resulted from an action taken in his official capacity, or (ii) in which such person is found liable to the corporation (except that in such cases APSG may indemnify such director against reasonable expenses the director actually incurs in connection with the proceeding unless the director s misconduct was willful, in which case APSG may not pay such indemnification).

A corporation may provide indemnification as described above only if a determination of indemnification is made: (i) by a majority vote of a quorum of directors who the proceeding does not name as defendants or respondents at the time of voting, regardless of whether the directors not named defendants or respondents constitute a quorum; (ii) by a majority vote of a committee of the board of directors, if (A) the committee is designated by a majority vote of the directors who at the time of the vote are not named defendants or respondents in the proceeding, regardless of whether the directors not named defendants or respondents constitute a quorum, and (B) the committee consists solely of one or more of the directors not named as defendants or respondents in the proceeding; (iii) by special legal counsel selected by the board of directors or a committee of the board by vote as set forth in (i) and (ii); or (iv) by the shareholders in a vote that excludes the shares held by the directors who are named defendants or respondents in the proceeding. A court may order indemnification even though APSG does not meet certain of these conditions, if the court deems indemnification proper and equitable; provided, however, that if the court determines that the indemnified person is liable to the corporation or that he improperly received a personal benefit, the court-ordered indemnification cannot exceed the reasonable expenses that the indemnified party actually incurred in connection with the proceeding.

A person may be indemnified by a corporation as previously described against judgments, penalties (including excise and similar taxes), fines, settlements, and reasonable expenses actually incurred by the person in connection with the proceeding, provided, that if such a person is found liable to the corporation or is liable on the basis that he or she improperly received a personal benefit, the indemnification shall be limited to reasonable expenses actually incurred by the person in connection with the proceeding and shall not be available in respect of any proceeding in which the person shall have been found liable for willful or intentional misconduct in the performance of his duty to the corporation.

A corporation shall indemnify a director against reasonable expenses incurred by him in connection with the proceeding in which he is a named defendant or respondent because he is or was a director if he has been wholly successful, on the merits or otherwise, in the defense of the proceeding. In addition, if a director sues a corporation to recover indemnification in such a case, the court, upon ordering the corporation to pay

Table of Contents

Index to Financial Statements

indemnification, shall also award the director his expenses incurred in securing the indemnification. A corporation may pay, or reimburse a director for, the director s reasonable expenses incurred because he or she was, is, or may become a defendant correspondent in a proceeding, in advance of any final disposition of the proceeding and without any determination that the director is entitled to such payment or reimbursement under the above-described standards after the corporation receives a written affirmation by the director of his or her good faith belief that he or she has met the standard of conduct necessary for indemnification under Article 2.02-1 of the TBCA and a written undertaking by or on behalf of the director (which must be an unlimited general obligation but that need not be secured, and that may be accepted without reference to the director s financial ability to pay) to repay the amount paid or reimbursed if it is ultimately determined that the director has not met that standard or if it is ultimately determined that indemnification of the director against expenses incurred by such director in connection with that proceeding is prohibited under the standards enumerated above. Notwithstanding the above, a corporation may pay or reimburse a director for expenses incurred in connection with the director s appearance as a witness or other participation in a proceeding at a time when the director is not a named defendant or respondent in the proceeding.

Article 2.02-1 of the TBCA permits the purchase and maintenance of insurance or another arrangement on behalf of directors, officers, employees and agents of the corporation against any liability asserted against or incurred by them in any such capacity or arising out of the person s status as such, whether or not the corporation itself would have the power to indemnify any such officer or director against such liability; provided, that if the insurance or other arrangement is with a person or entity that is not regularly engaged in the business of providing insurance coverage, the insurance or arrangement may provide for payment of a liability with respect to which the corporation would not have the power to indemnify the person only if the shareholders of the corporation have approved including coverage for the additional liability.

Any indemnification of, or advance of expenses to, a director must be reported in writing to shareholders with or before the notice or waiver of notice of the next shareholders meeting or before the next submission to shareholders of a consent to action without a meeting, and, in any case, within the 12-month period immediately following such indemnification or advance.

A corporation shall indemnify officers and others who are not officers, employees, or agents of the corporation, but who are serving at the corporation s request as a director, officer, partner, venturer, proprietor, trustee, employee, agent, or similar functionary for another entity, to the same extent that the corporation indemnifies directors. A corporation may indemnify and advance expenses to such officers and other persons to the same extent that it may indemnify, or advance expenses to, directors.

Article IX of APSG s restated articles of incorporation provides that, to the extent permitted by applicable law and by resolution or other proper action of the board of directors of APSG, APSG will indemnify its present and former directors and officers, its employees and agents and any other person serving at the request of APSG as a director, trustee, officer, employee or agent of another corporation, partnership, joint venture, association, trust or other enterprise, against expenses, including attorneys fees, judgments, fines and amounts paid in settlement actually and reasonably incurred in connection with any threatened, pending or completed action, suit or proceeding to which any such person is, or is threatened to be made, a party and which may arise by reason of the fact he is or was a person occupying any such office or position. In addition, APSG currently maintains directors and officers liability insurance.

Article XVI of APSG s restated articles of incorporation provides that APSG directors shall not be liable to APSG or its shareholders for monetary damages for an act or omission in the director s capacity as a director except for liability based upon (i) a breach of duty of loyalty to APSG or its shareholders, (ii) an act or omission not in good faith or that involves intentional misconduct or a knowing violation of law, (iii) a transaction from which a director received an improper benefit, whether or not the benefit resulted from an action taken within the scope of the director s office, or (iv) an act related to an unlawful stock repurchase or payment of a dividend.

Table of Contents

Index to Financial Statements

In addition to the indemnifications provided by APSG s restated articles of incorporation, APSG has entered into indemnity agreements with its officers and directors. The agreements generally provide that, to the extent permitted by law, APSG must indemnify each person for judgments, expenses, fines, penalties and amounts paid in settlement of claims that result from the fact that they were was an officer, director or employee of APSG.

The Texas Insurance Code does not contain express provisions providing indemnity to directors, officers or controlling persons of a Texas stock insurance company. However, Section 8.2 of the articles of incorporation of APIC, which have been submitted for approval by the Texas Commissioner of Insurance in the plan of conversion, contain provisions that would allow indemnification of persons who are a party to, testify or otherwise participate in, any pending or threatened proceeding because such person is or was a director of APIC or, while a director of APIC, is or was serving at the request of APIC in a representative capacity for another organization. Such indemnification is provided to the fullest extent authorized or permitted by applicable law and includes the right to be reimbursed by APIC for the reasonable expenses incurred in defending or otherwise participating in any such proceeding in advance of its final disposition. In addition, APIE currently maintains directors and officers liability insurance which will continue to provide coverage for APIC after the conversion.

Furthermore, Section 8.1 of the articles of incorporation of APIC provides that current and former directors of APIC will have no personal liability to APIC or any of its shareholders for monetary damages for any act or omission in such person s capacity as a director of APIC except to the extent such limitation or elimination of liability is not permitted by applicable law.

The preceding discussion of APSG indemnification agreements, APSG s restated articles of incorporation, APIC s articles of incorporation and Section 2.02-1 of the Texas Business Corporation Act is not intended to be exhaustive and is qualified in its entirety by the indemnity agreements, restated articles of incorporation and Section 2.02-1 of the Texas Business Corporation Act.

(iii) Include any additional or changed material information on the plan of distribution;

(2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities that remain unsold at the end of the offering.

(4) That, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant s annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan s annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(5) That prior to any public reoffering of the securities registered hereunder through use of a prospectus which is part of this registration statement, by any person or party who is deemed to be an underwriter within the meaning of Rule 145(c), the issuer undertakes that such reoffering prospectus will contain the information called for by the applicable registration form with respect to reofferings by persons who may be deemed underwriters, in addition to the information called for by the other Items of the applicable form.

(6) That every prospectus: (i) that is filed pursuant to paragraph 5 immediately preceding, or (ii) that purports to meet the requirements of Section 10(a)(3) of the Act and is used in connection with an offering of securities subject to Rule 415, will be filed as a part of an amendment to the registration statement and will not be used until such amendment is effective, and that, for purposes of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offering therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(7) If the registrant is subject to Rule 430C, each prospectus filed pursuant to Rule 424(b) of the Securities Act of 1933, as amended, as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.

(8) To respond to requests for information that are incorporated by reference into the prospectus pursuant to Item 4, 10(b), 11 or 13 of this Form, within one business day of receipt of such request, and to send the incorporated documents by first class mail or other equally prompt means. This includes information contained in the documents filed subsequent to the effective date of the registration statement through the date of responding to the request.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrants pursuant to the foregoing provisions, or otherwise, the registrants have been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable.

In the event that a claim for indemnification against such liabilities (other than the payment by a registrant of expenses incurred or paid by a director, officer or controlling person of such registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, such registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.
