**Item 5.02. Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.**

**Retirement of Officer**

On January 22, 2013, Derek Bell, Vice President, Engineering of Power Integrations, Inc. (the Company), informed the Board of Directors of the Company that he intends to retire from the Company in the month of May 2013.

**Compensation Matters**

On January 22, 2013, the Compensation Committee of the Board of Directors of the Company took the following compensation actions with respect to the Company's chief executive officer, chief financial officer, and other named executive officers as defined in Rule 402 of SEC Regulation S-K (collectively, the Officers):

**2013 Bonus Plan**

Approved the 2013 Bonus Plan as follows:

Each Officer, as described below, was granted performance stock units, which will vest (referred to as a pay out or actual bonus below) based on Company performance as against the 2013 Bonus Plan's established net revenue targets, non-GAAP operating income targets and strategic goals, each as established by the Compensation Committee. The 2013 target levels are intended to have difficulty in attainment levels consistent with the 2012 Bonus Plan. Bonus amounts (the portion of the performance stock units that will vest) will be calculated independently for each of the net revenue, non-GAAP operating income and strategic goals components. Net revenue is as set forth in the Company's annual report for 2013 to be filed with the Securities and Exchange Commission (SEC). Non-GAAP operating income means operating income for 2013 determined in accordance with GAAP but excluding the following items: (i) stock-based compensation expenses recorded under Accounting Standard Codification 718-10; (ii) acquisition-related expenses; (iii) amortization of acquisition-related intangible assets and the fair-value write-up of acquired inventory; and (iv) any other adjustment made to arrive at the Company's Non-GAAP financial information as presented in the Company's SEC filings. In the event of any mergers, acquisitions or divestitures, the net revenue and non-GAAP operating income targets shall be adjusted based on an approved plan presented to the Board of Directors. The net revenue and non-GAAP operating income targets will be further adjusted for any patent or other litigation settlements or judgments should the effect of such events, if any, impact the Company's net revenue and non-GAAP operating income.

Weighting of the target components is as follows:

Net revenue	40%
Non-GAAP operating income	40%
Strategic Goals	20%
Total	100%

*Net Revenue Component of Officer's Bonus:*

No pay out will be made under the net revenue component of the 2013 Bonus Plan if the Company's 2013 actual net revenue does not exceed at least the established minimum amount of net revenue as set forth in the 2013 Bonus Plan. To the extent 2013 actual net revenue increases above the minimum amount of net revenue, the actual bonus increases linearly from zero at the minimum amount of net revenue as set forth in the 2013 Bonus Plan up to 100% of the net revenue component of the target bonus when actual net revenue equals target net revenue in the 2013 Bonus Plan, and continues increasing linearly thereafter as actual net revenue increases, up to a maximum of 200% of the net revenue component of the target bonus when actual net revenue equals or exceeds the established target to achieve the maximum amount bonus under the net revenue component of the 2013 Bonus Plan.

*Non-GAAP Operating Income Component of Officer's Bonus:*

No pay out will be made under the non-GAAP operating income component of the 2013 Bonus Plan if the Company's 2013 actual non-GAAP operating income does not exceed at least the established minimum amount of non-GAAP operating income as set forth in the 2013 Bonus Plan. To the extent 2013 actual non-GAAP operating income increases above the minimum amount of non-GAAP operating income, the actual bonus increases linearly from zero at the minimum amount of non-GAAP operating income as set forth in the 2013 Bonus Plan up to 100% of the non-GAAP operating income component of the target bonus when actual non-GAAP operating income equals target non-GAAP operating income in the 2013 Bonus Plan, and continues increasing linearly thereafter as actual non-GAAP operating income increases, up to a maximum of 200% of the non-GAAP operating income component of the target bonus when actual non-GAAP operating income equals or exceeds the established target to achieve the maximum amount bonus under the non-GAAP operating income component of the 2013 Bonus Plan.

*Strategic Goals Component of Officer's Bonus:*

The strategic goals portion of the 2013 Bonus Plan consists of eight strategic goals, each relating to either a technology, new product development, marketing and sales, operations or corporate development goal. Based upon the level of achievement of the strategic goals, anywhere between zero and a maximum of 200% of target bonus associated with the strategic goals component of the 2013 Bonus Plan would be paid out under this component of the plan.
