Forward-looking Statements

This presentation contains forward-looking statements, including our financial guidance for 2014, the statements regarding our trust status; our ability to complete the REIT conversion effective for the taxable year beginning January 1, 2014; our intention to pay dividends to stockholders and make regular quarterly distributions to stockholders in 2014. These statements are subject to risks and uncertainties from those projected in these forward-looking statements. These risks and uncertainties include, among others: (1) that we may not qualify as a REIT beginning January 1, 2014 or at all, and, if we do qualify as a REIT, we may be unable to maintain that qualification (2) legisla

REITs, including positions taken by the IRS; (3) our significant indebtedness; (4) the state of the economy and financial market demand for advertising; (5) the continued popularity of outdoor advertising as an advertising medium; (6) our need for and ability to obtain financing, including refinancing or acquisitions; (7) the regulation of the outdoor advertising industry; (8) our ability to successfully implement our acquisitions and our ability to recognize cost savings or operating efficiencies as a result of these acquisitions. For additional information on the factors that could cause actual results to differ materially from those indicated in our forward-looking statements, we refer you to the risk factors included in our annual report for the year ended December 31, 2013. We caution investors not to place undue reliance on the forward-looking statements contained in this presentation, and we undertake no obligation to update or revise these statements, except as may be required by law.

#### Use of Non-GAAP Measures

Adjusted EBITDA, Funds From Operations, Adjusted Funds From Operations and Adjusted Funds From Operations Per Diluted Share are non-GAAP financial measures calculated in accordance with accounting principles generally accepted in the United States of America ( "GAAP" ). These measures should not be considered as a substitute for GAAP measures of operating activities or other GAAP figures as indicators of the Company's financial performance. Our management believes that Funds From Operations and Adjusted Funds From Operations Per Diluted Share are useful in evaluating the Company's performance and providing a better understanding of the Company's core operating results. Our presentations of these measures may not be comparable to those of other companies. See the appendix, which provide reconciliations of each of these measures to the most directly comparable GAAP measure.

#### Additional Information

In connection with the proposed REIT conversion, we plan to effect a merger with and into a wholly owned subsidiary, which we refer to as the "Merger." We will file a proxy statement to be used in connection with the stockholder vote on this merger. That proxy statement will be contained in the proxy statement of Lamar Advertising REIT Company, and both companies will file other relevant documents concerning the proposed merger transaction with the SEC. INVESTORS ARE URGED TO READ THE FORM S-4 AND PROXY STATEMENT (INCLUDING ALL AMENDMENTS) AS SOON AS THEY BECOME AVAILABLE AND ANY OTHER RELEVANT DOCUMENTS FILED WITH THE SEC BECAUSE THEY WILL CONTAIN IMPORTANT INFORMATION REGARDING THE PROPOSED MERGER. You will be able to obtain documents free of charge at the website maintained by the SEC at [www.sec.gov](http://www.sec.gov). You may also obtain the SEC by Lamar free of charge by contacting Secretary, 5321 Corporate Blvd., Baton Rouge, LA 70808.

We, our directors and executive officers and certain other members of management and employees may be deemed to be participants in the Merger. Information regarding the persons who may, under the rules of the SEC, be considered participants in the Merger will be included in the Form S-4 and proxy statement when they become available. Information about the ownership of Lamar Advertising stock is set forth in the proxy statement for our 2014 Annual Meeting of Stockholders, which will be filed with the SEC. Investors should read the Form S-4 and proxy statement carefully when they become available before making any voting or investment decisions. This communication does not constitute an offer to sell or the solicitation of an offer to buy any securities or a solicitation of an offer to buy any securities.

Out-of-home regulations provide high barriers to entry

10

Lamar typically owns permits that allow OOH advertising at each location

Control of permit protects current inventory and prevents encroachment from other players in local and national markets

Permits are the most valuable assets typically obtained in an acquisition

Lamar's permits have been collected over the course of its 110+ year history

Federal,

state

its

markets and provide high barriers to entry for new entrants

Rules govern where and how billboards may be built (i.e. typically cannot build new billboard within a certain distance of existing structures)

Many existing structures have been grandfathered in and cannot be rebuilt by another operator without obtaining zoning variance

No advertising tenant accounts for more than 1% of total revenue

Key business initiatives

21

Focus on financial discipline and capital allocation

Limited strategic acquisition activity

Continue to use free cash flow to reduce debt

Continue to invest in highly profitable digital billboards  
No approved stock buyback plan  
Focus on cost containment

No near term plans to increase headcount; headcount in 2008 was 3,500+ and currently stands at approximately 3,000

Focus on improving pricing and occupancy statistics

Expect to elect REIT status effective January 1, 2014

Through numerous initiatives, Lamar has demonstrated its prudent financial strategy, generated free cash flow and is well positioned as the economy accelerates

The calculation of FFO is based on the definition as set forth by the National Association of Real Estate Investment Trusts (NA

income (loss) to FFO and the calculation of AFFO are also presented above; FFO and AFFO, which are non-GAAP financial measures, are not necessarily comparable to those reported by REITs that do not compute these measures in accordance with NAREIT definitions, or that compute these measures differently than we do; our net loss for the three months ended March 31, 2014 reflects our current status as a regular domestic corporation for Federal Income Tax purposes; if we elect to qualify and elect to be taxed as a REIT, our tax expense would be lower than our current tax expense.
