#### ***Indications of Interest***

The disclosure on the cover page regarding indications of interest to purchase shares of common stock in this offering has been revised as follows:

Entities affiliated with Insight Venture Partners, an existing stockholder, have indicated an interest in purchasing up to an aggregate of \$15 million of shares of our common stock in this offering at the initial public offering price. In addition, certain of our directors, executive officers and key employees have indicated an interest in purchasing up to an aggregate of approximately \$3.3 million of shares of our common stock in this offering at the initial public offering price. Because these indications of interest are not binding agreements or commitments to purchase, these parties may elect not to purchase shares in this offering or the underwriters may elect not to sell any shares in this offering to such parties. The underwriters will receive the same discount from any shares of our common stock purchased by these parties as they will from any other shares of our common stock sold to the public in this offering.

If purchased by these parties, these shares will be subject to a 180-day lock-up restriction.

#### ***Beneficial Ownership***

Additional disclosure was added to footnote 4 to the beneficial ownership table in the section of the Preliminary Prospectus titled Principal Stockholders as follows:

Edgar Filing: INSTRUCTURE INC - Form FWP

Entities affiliated with Insight Venture Partners have indicated an interest in purchasing up to an aggregate of \$15 million of shares of our common stock in this offering at the initial public offering price. Because these indications of interest are not binding agreements or commitments to purchase, these parties may elect not to purchase shares in this offering or the underwriters may elect not to sell any shares in this offering to such parties. If these entities purchase all such shares of common stock in this offering at an assumed initial public offering price of \$17.00 per share, the aggregate beneficial ownership of these parties would increase by 3.3%.
