FUND DISTRIBUTIONS AND MANAGED DISTRIBUTION PLAN

The Board of Directors of the Virtus Global Multi-Sector Income Fund (the Fund) adopted a Managed Distribution Plan (the Plan) which provides for the Fund to make a monthly distribution rate of \$0.156 per share. Under the terms of the Plan, the Fund seeks to maintain a consistent distribution level that may be paid in part or in full from net investment income, realized capital gains, and a return of capital, or a combination thereof.

You should not draw any conclusions about the Fund s investment performance from the amount of the distributions or from the terms of the Fund s Managed Distribution Plan.

The Fund estimates that it has distributed more than its income and net realized capital gains in the fiscal year to date; therefore, a portion of your distributions may be a return of capital. A return of capital may occur, for example, when some or all of the money that you invested in the Fund is paid back to you. A return of capital distribution does not necessarily reflect the Fund s investment performance and should not be confused with yield or income.

The amounts and sources of distributions reported in Section 19(a) notices of the 1940 Act are only estimates and are not being provided for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund s investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. The Fund will send shareholders a Form 1099-DIV for the calendar year that will tell you how to report distributions for federal income tax purposes.

The Board may amend, suspend or terminate the Managed Distribution Plan at any time, without prior notice to shareholders, if it deems such action to be in the best interest of the Fund and its shareholders.

Information on the Virtus Global Multi-Sector Income Fund is available through the closed end fund section on the web at www.Virtus.com. Section 19(a) notices are posted on the website at https://www.virtus.com/our-products/closed-end-fund-details/VGI.

MESSAGE TO SHAREHOLDERS

Dear Virtus Global Multi-Sector Income Fund Shareholder:

I am pleased to share with you the semiannual report for the Virtus Global Multi-Sector Income Fund that discusses performance for the six months ended May 31, 2016. This report contains commentary from the portfolio management team at Newfleet Asset Management on how the fixed income markets performed during the period and how the options overlay strategy contributed to the Fund s performance. The results of the annual meeting of shareholders that was held on June 2, 2016 are also included in this report.

For the six months ended May 31, 2016, the Fund s Net Asset Value gained 4.57%, including \$0.94 in reinvested distributions. For the same period, the fund s benchmark, the Barclays Global Aggregate Bond Index, gained 6.43%, including reinvested dividends.

On behalf of Newfleet Asset Management and Virtus Investment Partners, I thank all shareholders for entrusting your assets to us. Should you have any questions or require support, the Virtus customer service team is ready to assist you at 1-866-270-7788 or through the closed-end fund section of our website, www.virtus.com.

Sincerely,

George R. Aylward

President and Trustee

Virtus Global Multi-Sector Income Fund

July 2016

This information does not represent an offer, or the solicitation of an offer, to buy or sell securities of the Fund.

Performance data quoted represents past results. Past performance is no guarantee of future results and current performance may be higher or lower than performance shown.

MANAGER S DISCUSSION OF FUND PERFORMANCE

MAY 31, 2016

(Unaudited)

About the Fund

The Virtus Global Multi-Sector Income Fund's (NYSE: VGI) (the Fund') investment objective is to maximize current income while preserving capital. The Fund seeks to achieve its investment objective by applying a time-tested approach and extensive credit research to capitalize on opportunities across undervalued areas of the global bond market. There is no guarantee that the Fund will achieve its objective.

The use of leverage enables the Fund to borrow at short-term rates and invest at higher yields on its investments. As of May 31, 2016, the Fund s leverage consisted of \$68 million of debt, which represented approximately 26% of the Fund s total assets.

Portfolio Review Newfleet Asset Management LLC (Newfleet)

Newfleet s Multi-Sector Fixed Income Strategies team manages the Fund, leveraging the knowledge and skill of investment professionals with expertise in every sector of the bond market, including evolving, specialized, and out-of-favor sectors. The team employs active sector rotation and disciplined risk management for portfolio construction, avoiding interest rate bets and remaining duration neutral. Newfleet also manages the Fund s options overlay strategy. The options overlay strategy seeks to generate additional income through the purchase and sale of paired out-of-the-money puts and calls. The following commentary discusses Newfleet s management of the Fund from December 1, 2015 through May 31, 2016.

How did the global fixed income markets perform during the six-month period ended May 31, 2016?

Most spread sectors outperformed U.S. Treasuries during the six-month period ended

May 31, 2016. The Federal Reserve s dovish stance in mid-February sparked a rally that turned around a volatile time period that began with fresh concerns over China, plummeting oil prices, and fears that the Fed had raised rates too soon. Easing by major central banks and a weaker U.S. dollar helped to improve global risk sentiment and stabilize markets by the end of the period.

China remained at the center of global volatility. A sharp devaluation of the yuan and two closings of the stock market in the first week of the year heightened investor fears of a hard landing for the world s second largest economy. While these fears have at least temporarily abated, both Standard & Poor s and Moody s have cut their outlook for the Chinese government s credit rating, citing lags in the transformation to a service-oriented economy and the dangers of high debt levels.

Brent crude oil plummeted to a low of \$27.88 per barrel on January 20 before peaking at \$49.76 on May 30, and ending at \$49.69 on May 31. Initially tumbling on China and global growth concerns, the commodity rose due to an improvement in the supply/demand imbalance and indications of willingness by major oil producers to restrict output. A weakening U.S. currency also supported oil s recovery.

Edgar Filing: Virtus Global Multi-Sector Income Fund - Form N-CSRS

The Federal Reserve left its key interest rate (Fed Funds rate) at a target range of 0.25%-0.50% after raising its target rate by 0.25% in December 2015 and became increasingly dovish, bringing down its projection for the number of rate increases during 2016.

Yields declined across the majority of the U.S. Treasury curve and the curve flattened.

For information regarding the indexes and certain key investment terms see the Key Investment Terms starting on page 7.

MANAGER S DISCUSSION OF FUND PERFORMANCE (Continued)

MAY 31, 2016

(Unaudited)

What factors affected the Fund s performance during the period?

The out-performance of most fixed income credit sectors relative to U.S. Treasuries was the key positive contributor to performance for the Fund.

The Fund s allocation to investment grade corporate bonds, corporate high yield bonds, emerging markets debt, and Yankee high quality bonds positively impacted performance.

The Fund s exposure to structured finance sectors such as asset-backed securities, commercial mortgage-backed securities, and residential mortgage-backed securities negatively impacted performance as those sectors underperformed.

How did the Fund s options overlay strategy perform over the period?

The options overlay strategy seeks to generate additional income through the use of index-based, out-of-the money put and call spreads. This strategy is driven by implied volatility, as measured by the CBOE Volatility Index (or VIX as it s also called), and seeks to exploit pricing inefficiencies in options on the S&P 500 Index.

From December 1, 2015 through May 31, 2016, the S&P 500 Index was higher on a total return basis by 1.92%, and the CBOE Volatility Index was lower by 12.03%. Despite the relatively small change in the S&P 500 over this period, the performance of the options overlay strategy was defined by the steep sell-off in the S&P 500 that occurred during the first two weeks of 2016. During that time the strategy experienced consecutive losses that resulted in approximately 3.0% in options settlement costs. Following two losses, the strategy adapted to the change in volatility and continued to achieve a high rate of success, with greater than 95% of trades successful over the history of the strategy,

and 92% of trades successful over the six-month period ended May 31, 2016. For the six-month period ended May 31, 2016, the strategy was down 1.11% (gross of fees). However, for the 12 months ended May 31, 2016, the strategy was up 1.04% (gross of fees).

What is your outlook for fixed income markets?

Although challenges remain in the global environment, a number of positive developments helped to calm markets as the period came to a close. These include a more dovish Fed that has taken global macro risks into greater consideration, global central bank easing, continued weakening of the U.S. dollar, a rally in oil and commodity prices, and evidence that growth in China is not weakening dramatically and its currency has stabilized. Technical conditions in the credit markets also have improved. Against the more positive global backdrop, better economic data in the U.S. have alleviated fears of an impending recession.

Edgar Filing: Virtus Global Multi-Sector Income Fund - Form N-CSRS

Our approach to investing in the global credit markets nonetheless requires caution as a number of the positive developments are still fluid situations—negative surprises and further currency devaluations are possible in China, oil likely will remain volatile, and the U.S. dollar could resume its ascent. All eyes will continue to be on the Fed. Though global concerns are a driving factor in its accommodating posture, it has to weigh a host of external concerns against a resilient U.S. economy. We enter the remainder of 2016 guided by a modest improvement in the global environment, but also aware of newer risks such as the repercussions of the U.K. s Brexit decision to leave the European Union and a divisive U.S. presidential election.

In this uncertain environment, we believe it is especially important to stay diversified, have granular positions, and emphasize

For information regarding the indexes and certain key investment terms see the Key Investment Terms starting on page 7.

4

MANAGER S DISCUSSION OF FUND PERFORMANCE (Continued)

MAY 31, 2016

(Unaudited)

liquid investments. We continue to look for opportunities in all sectors of the bond market, striving to uncover any out-of-favor or undervalued sectors and securities. We are constructive on spread sectors based on still solid fundamentals and attractive valuations. We continue to focus on higher quality credits within our below-investment grade allocation and are willing to give up some yield in order to avoid potential credit issues as we navigate through the credit cycle. With modest demand by investors and a supportive environment for fixed income, spread sectors continue to offer attractive investment opportunities to investors searching for total return and yield.

The preceding information is the opinion of portfolio management only through the end of the period of the report as stated on the cover. Any such opinions are subject to change at any time based upon market conditions and should not be relied upon as investment advice.

There can be no assurance that the Fund will achieve its investment objectives.

The Fund s portfolio holdings are subject to change and may not be representative of the portfolio managers current or future investments. The mention of individual securities held by the Fund is for informational purposes only and should not be construed as a recommendation to purchase or sell any securities. Investors seeking financial advice regarding the appropriateness of investing in any securities or investment strategies discussed should consult their financial professional.

Credit & Interest: Debt securities are subject to various risks, the most prominent of which are credit and interest rate risk. The issuer of a debt security may fail to make

interest and/or principal payments. Values of debt securities may rise or fall in response to changes in interest rates, and this risk may be enhanced with longer-term maturities.

Foreign & Emerging Markets: Investing internationally, especially in emerging markets, involves additional risks such as currency, political, accounting, economic, and market risk.

High Yield-High Risk Fixed Income Securities: There is a greater level of credit risk and price volatility involved with high yield securities than investment grade securities.

ABS/MBS: Changes in interest rates can cause both extension and prepayment risks for asset- and mortgage-backed securities. These securities are also subject to risks associated with the repayment of underlying collateral.

Bank Loans: Loans may be unsecured or not fully collateralized, may be subject to restrictions on resale and/or trade infrequently on the secondary market. Loans can carry significant credit and call risk, can be difficult to value and have longer settlement times than other investments, which can make loans relatively illiquid at times.

Leverage: When a fund leverages its portfolio, the value of its shares may be more volatile and all other risks may be compounded.

Edgar Filing: Virtus Global Multi-Sector Income Fund - Form N-CSRS

Call/Put Spreads: Buying and selling call and put option spreads on the SPX Index risks the loss of the premium when buying and may increase downside losses.

Market Price/NAV: Shares of closed-end funds often trade at a discount to their net asset value, which may increase investors risk of loss. At the time of sale, an investor s shares may have a market value that is above or below the fund s NAV.

For information regarding the indexes and certain key investment terms see the Key Investment Terms starting on page 7.

KEY INVESTMENT TERMS

MAY 31, 2016 (Unaudited)

Barclays Global Aggregate Bond Index

The Barclays Global Aggregate Bond Index is a market-weighted index of global government, government-related agencies, corporate and securitized fixed income investments.

The index is calculated on a total return basis. The index is unmanaged, its returns do not reflect any fees, expenses, or sales charges, and it is not available for direct investment.

Brent Crude

Roughly two-thirds of all crude contracts around the world reference Brent Blend, making it the most widely used marker of all. These days, Brent actually refers to oil from four different fields in the North Sea: Brent, Forties, Oseberg and Ekofisk. Crude from this region is light and sweet, making them ideal for the refining of diesel fuel, gasoline and other high-demand products. And because the supply is water-borne, it s easy to transport to a distant locations.

Chicago Board Options Exchange (CBOE) Volatility Index, (VIX CBOE)

The Chicago Board Options Exchange (CBOE) Volatility Index, which shows the market s expectation of 30-day volatility. It is constructed using the implied volatilities of a wide range of S&P 500 index options. This volatility is meant to be forward looking and is calculated from both calls and puts. The VIX is a widely used measure of market risk and is often referred to as the investor fear gauge.

Federal Reserve (the Fed)

The Central bank of the United States, responsible for controlling the money supply, interest rates and credit with the goal of keeping the U.S. economy and currency stable. Governed by a seven-member board, the system includes 12 regional Federal Reserve Banks, 25 branches and all national and state banks that are part of the system.

S&P 500® Index

The S&P 500® Index is a free-float market capitalization-weighted index of 500 of the largest U.S. companies. The index is calculated on a total return basis with dividends reinvested. The index is unmanaged, its returns do not reflect any fees, expenses, or sales charges, and it is not available for direct investment.

Yield Curve

A line that plots the interest rates, at a set point in time, of bonds having equal credit quality, but differing maturity dates. The most frequently reported yield curve compares the three-month, two-year, five-year and 30-year U.S. Treasury debt. This yield curve is used as a benchmark for other debt in the market, such as mortgage rates or bank lending rates. The curve is also used to predict changes in economic output and growth.

OUR PRIVACY COMMITMENT

The Virtus Global Multi-Sector Income Fund recognizes that protecting the privacy and security of the confidential personal information we collect about you is an important responsibility. The following information will help you understand our privacy policy and how we will handle and maintain confidential personal information as we fulfill our obligations to protect your privacy. Personal information refers to the nonpublic financial information obtained by us in connection with providing you a financial product or service.

Information We Collect

We collect personal information to help us serve your financial needs, offer new products or services, provide customer service and fulfill legal and regulatory requirements. The type of information that we collect varies according to the products or services involved, and may include:

Information we receive from you on applications and related forms (such as name, address, social security number, assets and income); and

Information about your transactions and relationships with us, our affiliates, or others (such as products or services purchased, account balances and payment history).

Information Disclosed in Administering Products and Services

We will not disclose personal information about current or former customers to non-affiliated third parties except as permitted or required by law. We do not sell any personal information about you to any third party. In the normal course of business, personal information may be shared with persons or entities involved in servicing and administering products and services on our behalf, including your broker, financial advisor or financial planner and other service providers and affiliates assisting us.

Procedures to Protect Confidentiality and Security of Your Personal Information

We have procedures in place that limit access to personal information to those employees and service providers who need to know such information in order to perform business services on our behalf. We educate our employees on the importance of protecting the privacy and security of confidential personal information. We also maintain physical, electronic and procedural safeguards that comply with federal and state regulations to guard your personal information.

We will update our policy and procedures where necessary to ensure that your privacy is maintained and that we conduct our business in a way that fulfills our commitment to you. If we make any material changes in our privacy policy, we will make that information available to customers through our Website and/or other communications.

FOOTNOTE LEGEND:

- (1) Federal Income Tax Information: For tax information at May 31, 2016, see Note 12 Federal Income Tax Information in the Notes to Financial Statements.
- (2) Variable or step coupon security; interest rate shown reflects the rate in effect at May 31, 2016.
- (3) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At May 31, 2016, these securities amounted to a value of \$119,624 or 64.7% of net assets.
- (4) Regulation S security. Security is offered and sold outside of the United States, therefore, it is exempt from registration with the SEC under Rules 903 and 904 of the Securities Act of 1933.
- (5) No contractual maturity date.
- (6) Interest payments may be deferred.
- (7) This Note was issued for the sole purpose of funding a loan agreement between the issuer and the borrower. As the credit risk for this security lies solely with the borrower, the name represented here is that of the borrower.
- (8) This loan will settle after May 31, 2016, at which time the interest rate, based on the London Interbank Offered Rate (LIBOR) and the agreed upon spread on trade date, will be reflected.
- (9) Value shown as par value.
- (10) All or a portion of the portfolio is segregated as collateral for borrowings.
- (11) All or a portion of the security is segregated as collateral for written options.
- (12) Illiquid security.

- (13) Non-income producing.
- (14) Security in default, no interest payments are being received.
- (15) Security in default, interest payments are being received during bankruptcy proceedings.
- (16) Coupon represents commitment fee for unfunded portion of the loan.

		,		
Balance as of May 31, 2016	\$ 1,818	\$ 420	\$ 643	\$ 755

None of the securities in this table are internally fair valued. The Fund s investments that are categorized as Level 3 were valued utilizing third party pricing information without adjustment. Such valuations are based on unobservable inputs. A significant change in third party information inputs could result in a significantly lower or higher value of Level 3 investments.

⁽a) Transfers into and/or from represent the ending value as of May 31, 2016, for any investment security where a change in the pricing level occurred from the beginning to the end of the period.

⁽b) Includes paydowns on securities.

⁽c) Amount is less than \$500.

⁽d) Included in the related net change in unrealized appreciation (depreciation) on investments in the Statement of Operations. The change in unrealized appreciation (depreciation) on securities still held at May 31, 2016, was \$10.

⁽e) The transfers are due to increase and/or (decrease) in trading activities at period end.

NOTES TO FINANCIAL STATEMENTS

MAY 31, 2016 (Unaudited)

Note 1. Organization

The Fund was incorporated as a statutory trust under the laws of the State of Delaware on November 9, 2011. The Fund commenced operations on February 23, 2012, as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the 1940 Act). The Fund s investment objective is to maximize current income while preserving capital.

Note 2. Significant Accounting Policies

The significant accounting policies consistently followed by the Fund in the preparation of its financial statements are summarized below and for derivatives, included in Note 3 below. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates, and those differences could be significant.

A. Security Valuation

Security valuation procedures for the Fund, which include nightly price variance, as well as back-testing such as bi-weekly unchanged price, monthly secondary source and transaction analysis, have been approved by the Board of Trustees (the Board , or the Trustees). All internally fair valued securities are approved by a valuation committee (the Valuation Committee) appointed by the Board. The Valuation Committee is comprised of certain members of management as identified to the Board and convenes independently from portfolio management. All internally fair valued securities are updated daily and reviewed in detail by the Valuation Committee monthly unless changes occur within the period. The Valuation Committee reviews the validity of the model inputs and any changes to the model. Quarterly fair valuations are reviewed by the Board.

The Fund utilizes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The Fund s policy is to recognize transfers between levels at the end of the reporting period.

Level 1 quoted prices in active markets for identical securities (security types generally include listed equities).

Level 2 prices determined using other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 prices determined using significant unobservable inputs (including the Valuation Committee s own assumptions in determining the fair value of investments).

A description of the valuation techniques applied to the Fund s major categories of assets and liabilities measured at fair value on a recurring basis is as follows:

Equity securities are valued at the official closing price (typically last sale) on the exchange on which the securities are primarily traded or, if no closing price is available, at the last bid price and are categorized as Level 1 in the hierarchy. Restricted equity

NOTES TO FINANCIAL STATEMENTS (Continued)

MAY 31, 2016 (Unaudited)

securities and private placements that are not widely traded, are illiquid, or are internally fair valued by the Valuation Committee, are generally categorized as Level 3 in the hierarchy.

Certain non-U.S. securities may be fair valued in cases where closing prices are not readily available or are deemed not reflective of readily available market prices. For example, significant events (such as movement in the U.S. securities market, or other regional and local developments) may occur between the time that non-U.S. markets close (where the security is principally traded) and the time that the Fund calculates its net asset value (NAV) (at the close of regular trading on the New York Stock Exchange (NYSE), generally 4 p.m. Eastern time) that may impact the value of securities traded in these non-U.S. markets. In such cases the Fund fair values non-U.S. securities using an independent pricing service which considers the correlation of the trading patterns of the non-U.S. security to the intraday trading in the U.S. markets for investments such as ADRs, financial futures, ETFs, and certain indexes, as well as prices for similar securities. Such fair valuations are categorized as Level 2 in the hierarchy. Because the frequency of significant events is not predictable, fair valuation of certain non-U.S. common stocks may occur on a frequent basis.

Debt securities, including restricted securities, are valued based on evaluated quotations received from independent pricing services or from dealers who make markets in such securities. For most bond types, the pricing service utilizes matrix pricing that considers one or more of the following factors: yield or price of bonds of comparable quality, coupon, maturity, current cash flows, type, and current day trade information, as well as dealer supplied prices. These valuations are generally categorized as Level 2 in the hierarchy. Structured debt instruments, such as mortgage-backed and asset-backed securities, may also incorporate collateral analysis and utilize cash flow models for valuation and are generally categorized as Level 2 in the hierarchy. Pricing services do not provide pricing for all securities and therefore indicative bids from dealers are utilized which are based on pricing models used by market makers in the security and are generally categorized as Level 2 in the hierarchy. Debt securities that are not widely traded, are illiquid, or are internally fair valued by the Valuation Committee, are generally categorized as Level 3 in the hierarchy.

Listed derivatives, such as options, that are actively traded are valued based on quoted prices from the exchange and are categorized as Level 1 in the hierarchy. Over-the-counter derivative contracts, which include forward currency contracts and equity-linked instruments, do not require material subjectivity as pricing inputs are observed from actively quoted markets and are categorized as Level 2 in the hierarchy.

Investments in open-end mutual funds are valued at NAV. Investments in closed-end funds are valued as of the close of regular trading on the NYSE each business day. Both are categorized as Level 1 in the hierarchy.

A summary of the inputs used to value the Fund s net assets by each major security type is disclosed at the end of the Schedule of Investments for the Fund. The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

B. Security Transactions and Investment Income

Security transactions are recorded on the trade date. Realized gains and losses from sales of securities are determined on the identified cost basis. Dividend income is

NOTES TO FINANCIAL STATEMENTS (Continued)

MAY 31, 2016 (Unaudited)

recognized on the ex-dividend date or, in the case of certain foreign securities, as soon as the Fund is notified. Interest income is recorded on the accrual basis. The Fund amortizes premiums and accretes discounts using the effective interest method.

C. Income Taxes

The Fund is treated as a separate taxable entity. It is the Fund s intention to comply with the requirements of Subchapter M of the Internal Revenue Code and to distribute substantially all of its taxable income to its shareholders. Therefore, no provision for federal income taxes or excise taxes has been made.

The Fund may be subject to foreign taxes on income, gains on investments or currency repatriation, a portion of which may be recoverable. The Fund will accrue such taxes and recoveries as applicable based upon current interpretations of the tax rules and regulations that exist in the markets in which it invests.

Management of the Fund has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. As of May 31, 2016, the tax years that remain subject to examination by the major tax jurisdictions under the statute of limitations are from the year 2013 forward (with limited exceptions).

D. Distributions to Shareholders

Distributions are recorded by the Fund on the ex-dividend date. Income and capital gain distributions are determined in accordance with income tax regulations that may differ from accounting principles generally accepted in the United States of America. These differences may include the treatment of non-taxable dividends, market premium and discount, non-deductible expenses, expiring capital loss carryovers, foreign currency gain or loss, operating losses and losses deferred due to wash sales. Permanent book and tax basis differences relating to shareholder distributions will result in reclassifications to capital paid in on shares of beneficial interest.

E. Foreign Currency Translation

Non-U.S. investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the foreign currency exchange rate effective at the end of the reporting period. Cost of investments is translated at the currency exchange rate effective at the trade date. The gain or loss resulting from a change in currency exchange rates between the trade and settlement date of a portfolio transaction is treated as a gain or loss on foreign currency. Likewise, the gain or loss resulting from a change in currency exchange rates between the date income is accrued and the date it is paid is treated as a gain or loss on foreign currency. The Fund does not isolate that portion of the results of operations arising from changes in foreign exchange rates on investments from the fluctuations arising from changes in the market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss on investments.

F. When-issued Purchases and Forward Commitments (Delayed-Delivery)

The Fund may engage in when-issued or forward commitment transactions. Securities purchased on a when-issued or forward commitment basis are also known as delayed delivery transactions. Delayed delivery transactions involve a commitment by the Fund to purchase or sell a security at a future date (ordinarily up to 90 days later). When-issued or forward commitments enable the Fund to lock in what is believed to be an

NOTES TO FINANCIAL STATEMENTS (Continued)

MAY 31, 2016 (Unaudited)

attractive price or yield on a particular security for a period of time, regardless of future changes in interest rates. The Fund records when-issued and delayed delivery securities on the trade date. The Fund maintains collateral for the securities purchased. Securities purchased on a when-issued or delayed delivery basis begin earning interest on the settlement date.

G. Loan Agreements

The Fund may invest in direct debt instruments which are interests in amounts owed by a corporate, governmental, or other borrower to lenders or lending syndicates. Loan Agreements are generally non-investment grade and often involve borrowers that are highly leveraged. The Fund may invest in obligations of borrowers who are in bankruptcy proceedings. Loan agreements are typically senior in the corporate capital structure of the borrower. A loan is often administered by a bank or other financial institution (the lender) that acts as agent for all holders. The agent administers the terms of the loan, as specified in the loan agreement. The Funds investments in loans may be in the form of participations in loans or assignments of all or a portion of loans from third parties. When investing in loan participations, the Fund has the right to receive payments of principal, interest and any fees to which it is entitled only from the lender selling the loan participation and only upon receipt by the lender of payments from the borrower. The Fund generally has no right to enforce compliance with the terms of the loan agreement with the borrower. As a result, the Fund may be subject to the credit risk of both the borrower and the lender that is selling the loan agreement. When the Fund purchases assignments from lenders it acquires direct rights against the borrower on the loan.

The Fund may invest in multiple series or tranches of a loan, which may have varying terms and carry different associated risks. Loan agreements may involve foreign borrowers and investments may be denominated in foreign currencies. Direct indebtedness of emerging countries involves a risk that the government entities responsible for the repayment of the debt may be unable, or unwilling, to pay the principal and interest when due.

The loan agreements have floating rate loan interests which generally pay interest at rates that are periodically determined by reference to a base lending rate plus a premium. The base lending rates are generally LIBOR (London Interbank Offered Rate), the prime rate offered by one or more U.S. banks or the certificate of deposit rate. When a loan agreement is purchased the Fund may pay an assignment fee. On an ongoing basis, the Fund may receive a commitment fee based on the undrawn portion of the underlying line of credit portion of a loan agreement. Prepayment penalty fees are received upon the prepayment of a loan agreement by a borrower. Prepayment penalty, facility, commitment, consent and amendment fees are recorded to income as earned or paid.

At May 31, 2016, all loan agreements held by the Fund are assignment loans.

H. Expenses

Expenses incurred together by the Fund and other affiliated mutual funds are allocated in proportion to the net assets of each such fund, except where allocation of direct expense to each fund or an alternative allocation method can be more appropriately used.

NOTES TO FINANCIAL STATEMENTS (Continued)

MAY 31, 2016 (Unaudited)

In addition to the net annual operating expenses that the Fund bears directly, the shareholders of the Fund indirectly bear the Fund s pro rata expenses of any underlying mutual funds in which the Fund invests.

Note 3. Derivative Financial Instruments and Transactions

(\$ reported in thousands)

Disclosures about derivative instruments and hedging activities are intended to enable investors to understand how and why the Fund uses derivatives, how derivatives are accounted for, and how derivative instruments affect the Fund s results of operations and financial position. Summarized below is a specific type of derivative instrument used by the Fund.

A. Options contracts

An options contract provides the purchaser with the right, but not the obligation, to buy (call option) or sell (put option) a financial instrument at an agreed upon price. The Fund pursues an option income strategy whereby it purchases and sells out-of-the-money puts and calls, creating an options spread designed to generate a consistent level of option cash flow which should result in additional yield. The Fund is subject to equity price risk in the normal course of pursuing its investment objectives.

When the Fund purchases an option, it pays a premium and an amount equal to that premium is recorded as an asset. When the Fund writes an option, it receives a premium and an amount equal to that premium is recorded as a liability. The asset or liability is adjusted daily to reflect the current market value of the option. Holdings of the Fund designated to cover outstanding written options are noted in the Schedule of Investments. Purchased options are reported as an asset within Investment in securities at value in the Statement of Assets and Liabilities. Options written are reported as a liability within Written options outstanding at value. Changes in value of the purchased option is included in Net change in unrealized appreciation (depreciation) on investments in the Statement of Operations. Changes in value of written options is included in Net change in unrealized appreciation (depreciation) on written options.

If an option expires unexercised, the Fund realizes a gain or loss to the extent of the premium received or paid. If an option is exercised, the premium received or paid is recorded as an adjustment to the proceeds from the sale or the cost basis of the purchase. The difference between the premium and the amount received or paid on effecting a closing purchase or sale transaction is also treated as a realized gain or loss. Gain or loss on purchased options is included in Net realized gain (loss) on investments in the Statement of Operations. Gain or loss on written options is presented separately as Net realized gain (loss) on written options in the Statement of Operations.

The risk in writing covered put options is that the Fund may incur a loss if the market price of the security decreases and the option is exercised. The risk in buying options is that the Fund pays a premium whether or not the option is exercised. The use of such instruments may involve certain additional risks as a result of unanticipated movements in the market. Writers (sellers) of options are normally subject to unlimited risk of loss, as the seller will be obligated to

deliver or take delivery of the security at a predetermined price which may, upon exercise of the option, be significantly different

NOTES TO FINANCIAL STATEMENTS (Continued)

MAY 31, 2016 (Unaudited)

from the then-market value. However, the Fund may limit its risk of loss when writing an option by purchasing an option similar to the one that is sold, except for the fact it is further out of the money.

The Fund invested in derivative instruments during the fiscal period in the form of writing put/call options and buying put/call options on the S&P 500[®] Index. The primary risk associated with these derivative instruments is equity risk.

The Fund had transactions in written options for the period ended May 31, 2016, as follows:

	Calls			Puts		
	Number of		miums	Number of	Premiums	
	Contracts	Re	ceived	Contracts	Re	eceived
Written Options outstanding at						
November 30, 2015	1,582	\$	50	1,582	\$	633
Options written	20,760		1,016	20,760		7,816
Options closed	(15,082)		(703)	(16,571)		(6,547)
Options expired	(5,432)		(279)	(3,943)		(1,334)
Options exercised						
Written Options outstanding at						
May 31, 2016	1,828	\$	84	1,828	\$	568

The following is a summary of the Fund s options contracts as presented in the Statement of Assets and Liabilities as of May 31, 2016:

Assets: Purchased options at value	\$	85(1)
Liabilities: Written options at value	((285)
Net asset (liability) balance	\$ ((200)

The following is a summary of the Fund s options contracts as presented in the Statements of Operations.

	2015
Net realized gain (loss) on purchased options	$(2,409)^{(2)}$
Net realized gain (loss) on written options	157
Net change in unrealized appreciation (depreciation) on purchased options	$(28)^{(3)}$
Net change in unrealized appreciation (depreciation) on written options	131

Total realized and unrealized gain (loss) on purchased and written options

\$ (2,149)

- (1) Amount included in Investment in securities at value.
- (2) Amount included in Net realized gain (loss) on investments.
- (3) Amount included in Net change in unrealized appreciation (depreciation) on investments.

For the period ended May 31, 2016, the average daily premiums paid by the Fund for purchased options was \$202 and the average daily premiums received by the Fund from written options was \$(535).

NOTES TO FINANCIAL STATEMENTS (Continued)

MAY 31, 2016 (Unaudited)

Note 4. Investment Advisory Fees and Related Party Transactions

(\$ reported in thousands)

A. Adviser

Virtus Investment Advisers, Inc. (the Adviser), an indirect wholly owned subsidiary of Virtus Investment Partners, Inc. (Virtus), is the adviser to the Fund. The Adviser manages the Fund s investment program and general operations of the Fund, including oversight of the Fund s subadviser.

As compensation for its services to the Fund, the Adviser will receive a monthly fee at an annual rate of 0.95% as a percentage of the average daily managed assets which is defined as the value of the total assets of the Fund minus the sum of all accrued liabilities of the Fund (other than the aggregate amount of any outstanding borrowings or other indebtedness, entered into for the purpose of constituting financial leverage).

B. Subadviser

Newfleet Asset Management, LLC (Newfleet), an indirect, wholly owned subsidiary of Virtus, is the subadviser for the Fund. The subadviser manages the investments of the Fund for which they are paid a fee by the Adviser.

C. Administrator

Virtus Fund Services, LLC (VFS), an indirect wholly owned subsidiary of Virtus, serves as administrator to the Fund.

For the six months (the period) ended May 31, 2016, the Fund incurred administration fees totaling \$160 which are included in the Statement of Operations.

D. Trustees

For the fiscal period ended May 31, 2016, the Fund incurred Trustees fees totaling \$41 which are included in the Statement of Operations.

Note 5. Purchases and Sales of Securities

(\$ reported in thousands)

Purchases and sales of securities (excluding U.S. Government and agency securities, and short-term investments) during the period ended May 31, 2016, were as follows:

Purchases	Sales
\$ 63,748	\$ 68,504

The purchases and sales of long term U.S. Government and agency securities for the fiscal period ended May 31, 2016, were as follows:

Purchases	Sales
\$ 15,286	\$ 13,037

Note 6. Illiquid and Restricted Securities

Investments generally are considered illiquid if they cannot be disposed of within seven days in the ordinary course of business at the approximate amount at which such securities have been valued by the Fund. Additionally, the following information is also considered in determining liquidity: the frequency of trades and quotes for the investment, whether the investment is listed for trading on a recognized domestic exchange and/or whether two or more brokers are willing to purchase or sell the security at a comparable price, the extent of

NOTES TO FINANCIAL STATEMENTS (Continued)

MAY 31, 2016 (Unaudited)

market making activity in the investment and the nature of the market for investment. Illiquid securities are footnoted as such at the end of the Fund s Schedule of Investments, where applicable. However, a portion of such footnoted securities could be liquid where it is determined that some, though not all, of the position could be disposed of within seven days in the ordinary course of business at the approximate amount at which such securities have been valued by the Fund.

Restricted securities are illiquid securities, as defined above, not registered under the Securities Act of 1933, as amended (the 1933 Act). Generally, 144A securities are excluded from this category, except where defined as illiquid.

The Fund will bear any costs, including those involved in registration under the 1933 Act, in connection with the disposition of such securities.

The Fund held securities considered to be illiquid at May 31, 2016, with an aggregate value of \$228 representing 0.1% of the Fund s net assets.

At May 31, 2016, the Fund did not hold any securities that are both illiquid and restricted.

Note 7. Credit Risk and Asset Concentrations

In countries with limited or developing markets, investments may present greater risks than in more developed markets and the prices of such investments may be volatile. The consequences of political, social or economic changes in these markets may have disruptive effects on the market prices of these investments and the income they generate, as well as the Fund s ability to repatriate such amounts.

High-yield/high risk securities typically entail greater price volatility and/or principal and interest rate risk. There is a greater chance that an issuer will not be able to make principal and interest payments on time. Analysis of the creditworthiness of issuers of high-yield/high-risk securities may be complex, and as a result, it may be more difficult for the Adviser and/or subadviser to accurately predict risk.

The Fund may invest a high percentage of its assets in specific sectors of the market in the pursuit of its investment objective. Fluctuations in these sectors of concentration may have a greater impact on the Fund, positive or negative, than if the Fund did not concentrate its investments in such sectors.

The Fund borrows through its line of credit for the purpose of leveraging. While leverage presents opportunities for increasing the Fund s total return, it also has the effect of potentially increasing losses. Accordingly, any event which adversely affects the value of an investment held by the Fund would be magnified to the extent the Fund is leveraged.

Note 8. Borrowings

(\$ reported in thousands)

The Fund has entered into a Credit Agreement (the Agreement) with a commercial bank (the Bank) that allows the Fund to borrow cash from the Bank, up to a limit of \$125,000, which may be increased to \$150,000 under certain circumstances (Commitment Amount). Borrowings under the Agreement are collateralized by investments of the Fund. The Agreement results in the Fund being subject to certain covenants including asset coverage and portfolio composition (among others). If the Fund fails to meet or maintain certain covenants as required under the Agreement, the Fund may be required to repay immediately, in part or in full, the loan balance outstanding under the credit agreement,

NOTES TO FINANCIAL STATEMENTS (Continued)

MAY 31, 2016 (Unaudited)

necessitating the sale of securities at potentially inopportune times. Interest is charged at LIBOR (London Interbank Offered Rate) plus an additional percentage rate on the amount borrowed. Commitment fees are charged on the undrawn balance, if less than 50% of the Commitment Amount is outstanding as a loan to the Fund. There were no commitment fees paid or accrued for the period ended May 31, 2016. The Agreement is renewable by the Fund with the Bank's consent. The Agreement can also be converted to a 364 day fixed term facility, one time at the Fund's option. The Bank has the ability to require repayment of outstanding borrowings under the Agreement upon certain circumstances such as an event of default. From December 1, 2015 May 31, 2016, the average daily borrowings under the Agreement and the weighted daily average interest rate were \$68,000 and 1.208%, respectively. At May 31, 2016, the amount of such outstanding borrowings was as follows:

Outstanding	Interest	
Borrowings	Rate	
\$ 68,000	1.175%	

Note 9. Indemnifications

Under the Fund s organizational documents, its Trustees and officers are indemnified against certain liabilities arising out of the performance of their duties to the Fund. Each Trustee has also entered into an indemnification agreement with the Fund. In addition, in the normal course of business, the Fund enters into contracts that provide a variety of indemnifications to other parties. The Fund s maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund and that have not occurred. However, the Fund has not had prior claims or losses pursuant to such arrangements and expects the risk of loss to be remote.

Note 10. Capital Transactions

At May 31, 2016, the Fund had one class of common stock, no par value shares, of which unlimited shares are authorized and 11,255,236 shares are outstanding. Registered shareholders may elect to have all distributions paid by check mailed directly to the shareholder by Computershare as dividend paying agent. Pursuant to the Automatic Reinvestment and Cash Purchase Plan (the Plan), shareholders not making such election will have all such amounts automatically reinvested by Computershare, as the Plan agent, in whole or fractional shares of the Fund, as the case may be. During the periods ended May 31, 2016, November 30, 2015, and December 31, 2014, there were no shares issued pursuant to the Plan.

On June 6, 2016, the Fund announced a distribution of \$0.156 to shareholders of record on July 11, 2016. This distribution has an ex-dividend date of July 7, 2016, and is payable on July 18, 2016.

Note 11. Regulatory Matters and Litigation

From time to time, the Fund, the Fund s investment adviser and/or subadvisers and/or their affiliates may be involved in litigation and arbitration as well as examinations and investigations by various regulatory bodies, including the SEC, involving compliance with, among other things, securities laws, client investment guidelines, laws governing the

activities of broker-dealers and other laws and regulations affecting their products and other activities. At this time, the Fund s investment adviser believes that the outcomes of such matters are not likely, either individually or in the aggregate, to be material to these financial statements.

NOTES TO FINANCIAL STATEMENTS (Continued)

MAY 31, 2016 (Unaudited)

Note 12. Federal Income Tax Information

(\$ reported in thousands)

At May 31, 2016, federal tax cost and aggregate gross unrealized appreciation (depreciation) of securities held by the Fund were as follows:

	Federal Tax Cost	Unrealized Appreciation	Unrealized (Depreciation)	Net Unrealized Appreciation (Depreciation)
Investments (including				
purchased options)	\$260,565	\$5,568	\$(16,614)	\$(11,046)
Written Options	(652)	372	(5)	367

The differences between book basis cost and tax basis cost were attributable primarily to the tax deferral of losses on wash sales.

Note 13. Subsequent Events

Management has evaluated the impact of all subsequent events on the Fund through the date the financial statements were issued, and has determined that there are no subsequent events requiring recognition or disclosure in these financial statements.

CERTIFICATION

The Fund s Chief Executive Officer (CEO) will file the required annual CEO certification regarding compliance with the NYSE s listing standards no more than 30 days after the Fund s annual shareholder meeting and the Fund also has included the certifications of the Fund s CEO and Principal Financial Officer required by Section 302 of the Sarbanes-Oxley Act in the Fund s Form N-CSR filed with the SEC for the period of this report.

KEY INFORMATION

Virtus Global Multi-Sector Income Fund Shareholder Relations: 1-866-270-7788

For general information and literature, as well as updates on net asset value, share price, major industry groups and other key information

REINVESTMENT PLAN

The Reinvestment Plan (the Plan) offers shareholders a convenient way to acquire additional shares of the Fund. Registered holders will be automatically placed in the Plan. If shares are held at a brokerage firm, contact your broker about participation in the Plan.

REPURCHASE OF SECURITIES

Notice is hereby given in accordance with Section 23(c) of the 1940 Act that the Fund may from time to time purchase its shares of common stock in the open market when Fund shares are trading at a discount from their net asset value.

PROXY VOTING INFORMATION (FORM N-PX)

The Adviser and subadviser vote proxies relating to portfolio securities in accordance with procedures that have been approved by the Fund s Board. You may obtain a description of these procedures, along with information regarding how the Fund voted proxies during the most recent 12-month period ended June 30, free of charge, by calling toll-free 1-866-270-7788. This information is also available through the SEC s website at http://www.sec.gov.

FORM N-Q INFORMATION

The Fund files a complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. Form N-Q is available on the SEC s website at http://www.sec.gov. Form N-Q may be reviewed and copied at the SEC s Public Reference Room. Information on the operation of the SEC s Public Reference Room can be obtained by calling toll-free 1-800-SEC-0330.

AMENDED AND RESTATED BYLAWS

Effective April 7, 2016, the Fund s Board amended and restated in its entirety the Bylaws of the Fund (the Amended and Restated Bylaws). The Amended and Restated Bylaws include, among other revisions, a revised advanced notice provision for shareholder nominees for Trustees and proposals for other business that provides for a window of 150 to 120 days prior to the anniversary of the prior year s proxy statement date. The foregoing description of any revisions made in the Amended and Restated Bylaws is qualified in its entirety by the full text of the Amended and Restated Bylaws effective as of April 7, 2016, which are available by writing to the Secretary of the Fund at 101 Munson Street, Greenfield, MA 01301-9668.

CONSIDERATION OF ADVISORY AND SUBADVISORY AGREEMENTS

BY THE BOARD OF TRUSTEES

The Board of Trustees (the Board) of Virtus Global Multi Sector Income Fund (the Fund) is responsible for determining whether to approve the continuation of the investment advisory agreement (the Advisory Agreement) between the Fund and Virtus Investment Advisers, Inc. (VIA) and of the subadvisory agreement with Newfleet Asset Management, LLC (Newfleet) (the Subadvisory Agreement) (together with the Advisory Agreement, the Agreements). At an in-person meeting held on December 3, 2015, the Board, including a majority of the Trustees who are not interested persons of the Fund as defined in Section 2(a)(19) of the Investment Company Act of 1940, as amended (the Independent Trustees), considered and approved the continuation of each Agreement due for renewal, as further discussed below.

In connection with the approval of the Agreements, the Board requested and evaluated information provided by VIA and Newfleet (the Subadviser) which, in the Board's view, constituted information necessary for the Board to form a judgment as to whether the renewal of each of the Agreements would be in the best interests of the Fund and its shareholders. The Board also considered information furnished throughout the year at regular Board meetings with respect to the services provided by VIA and the Subadviser, including quarterly performance reports prepared by management containing reviews of investment results and periodic presentations from the Subadviser with respect to the Fund. The Board noted the affiliation of the Subadviser with VIA and potential conflicts of interest.

The Board was separately advised by independent legal counsel throughout the process. For each Agreement, the Board considered all the criteria separately with respect to the Fund and its shareholders. In their deliberations, the Board considered various factors, including those discussed below, none of which were controlling, and each Trustee may have attributed different weights to the various factors. The Board also discussed the proposed approval of the Agreements in private sessions with their independent legal counsel at which no representatives of management were present.

In considering whether to approve the renewal of the Agreements with respect to the Fund, the Board reviewed and analyzed the factors it deemed relevant, including: (1) the nature, extent and quality of the services to be provided to the Fund by VIA and the Subadviser; (2) the performance of the Fund as compared to an appropriate peer group and an appropriate index; (3) the level and method of computing the Fund s advisory and subadvisory fees, and comparisons of the Fund s advisory fee rates with those of a group of funds with similar investment objectives; (4) the profitability of VIA under the Advisory Agreement; (5) any fall-out benefits to VIA, the Subadviser and their affiliates (*i.e.*, ancillary benefits realized by VIA, the Subadviser or their affiliates from VIA s or the Subadviser s relationship with the Fund); (6) the anticipated effect of growth in size on the Fund s performance and expenses; (7) fees paid to VIA and the Subadviser by comparable accounts, as applicable; (8) possible conflicts of interest; and (9) the terms of the Agreements.

Nature, Extent and Quality of Services

The Trustees received in advance of the meeting information in the form of questionnaires completed by VIA and the Subadviser, each concerning a number of topics, including such company s investment philosophy, resources, operations and compliance structure. The Trustees also received a presentation by VIA s senior management personnel, during which among other items, VIA s investment process, investment strategies, personnel, compliance procedures and the firm s overall performance were reviewed and discussed. In considering the Agreement with VIA, the Board considered VIA s process for supervising and managing the Fund s subadviser, including (a) VIA s ability to select and monitor the subadviser; (b) VIA s ability to provide the services necessary to monitor the subadviser s

compliance with the Fund s investment objectives, policies and restrictions as well as provide other oversight activities; and

CONSIDERATION OF ADVISORY AND SUBADVISORY AGREEMENTS

BY THE BOARD OF TRUSTEES (Continued)

(c) VIA s ability and willingness to identify instances in which the subadviser should be replaced and to carry out the required changes. The Trustees also considered: (a) the experience and capability of VIA s management and other personnel; (b) the financial condition of VIA, and whether it had the financial wherewithal to provide a high level and quality of services to the Fund; (c) the quality of VIA s own regulatory and legal compliance policies, procedures and systems; (d) the nature, extent and quality of administrative and other services provided by VIA and its affiliates to the Fund; (e) VIA s supervision of the Fund s other service providers; and (f) VIA s risk management processes. It was noted that an affiliate of VIA serves as administrator to the Fund. The Board also took into account its knowledge of VIA s management and the quality of the performance of VIA s duties through Board meetings, discussions and reports during the preceding year, as well as information from the Fund s Chief Compliance Officer regarding the Fund s compliance policies and procedures established pursuant to Rule 38a-1 under the Investment Company Act of 1940, as amdended (1940 Act).

With respect to the services provided by the Subadviser, the Board considered information provided to the Board by the Subadviser, including the Subadviser s Form ADV, as well as information provided throughout the past year. With respect to the Subadvisory Agreement, the Board noted that the Subadviser provided portfolio management, compliance with the Fund s investment policies and procedures, compliance with applicable securities laws and assurances thereof. The Board also noted that VIA s and the Subadviser s management of the Fund is subject to the oversight of the Board and must be carried out in accordance with the investment objectives, policies and restrictions set forth in the Fund s prospectus and statement of additional information. In considering the renewal of the Subadvisory Agreement, the Board also considered the Subadviser s investment management process, including (a) the experience and capability of the Subadviser s management and other personnel committed by the Subadviser to the Fund; (b) the quality of the Subadviser s regulatory and legal compliance policies, procedures and systems; and (c) the Subadviser s brokerage and trading practices, including with respect to best execution and soft dollars. The Board also took into account the Subadviser s risk assessment and monitoring process. The Board noted the Subadviser s regulatory history, including the fact that the Subadviser was not currently involved in any regulatory actions, investigations or material litigation.

After considering all of the information provided to them, the Trustees concluded that the nature, extent and quality of the services provided by VIA and the Subadviser were satisfactory and that there was a reasonable basis on which to conclude that each would continue to provide a high quality of investment services to the Fund.

Investment Performance

The Board considered performance reports and discussions at Board meetings throughout the year, as well as a report (the Broadridge Report) for the Fund prepared by Broadridge, an independent third party provider of investment company data, furnished in connection with the contract renewal process. The Broadridge Report presented the Fund s performance relative to a peer group of other mutual funds (the Performance Universe) and relevant indexes, as selected by Broadridge. The Board also considered performance information presented by management and took into account management s discussion of the same, including the effect of market conditions on the Fund s performance. The Board noted that it also reviews on a quarterly basis detailed information about both the Fund s performance results and portfolio composition, as well as the Subadviser s investment strategies. The Board noted VIA s expertise and resources in monitoring the performance, investment style and risk-adjusted performance of the Subadviser. The Board also took into account its discussions with management regarding factors that contributed to the performance of the Fund.

CONSIDERATION OF ADVISORY AND SUBADVISORY AGREEMENTS

BY THE BOARD OF TRUSTEES (Continued)

The Board considered, among other performance data, that the Fund performed above the median of its Performance Universe for the 1-, 3-, and year to date periods ended March 31, 2015, and that the Fund outperformed its benchmark for the 1-, 3-, and year to date periods ended March 31, 2015.

After reviewing these and related factors, the Board concluded that the Fund s overall performance was satisfactory.

Management Fees and Total Expenses

The Board considered the fees charged to the Fund for advisory services as well as the total expense levels of the Fund. This information included comparisons of the Fund s net management fee and total expense level to those of its peer group (the Expense Group). In comparing the Fund s net management fee to that of comparable funds, the Board noted that such fee includes both advisory and administrative fees. The Board also noted that the subadvisory fee was paid by VIA out of its management fees rather than paid separately by the Fund. In this regard, the Board took into account management s discussion with respect to the advisory/subadvisory fee structure, including the amount of the advisory fee retained by VIA after payment of the subadvisory fee. The Board also took into account the size of the Fund and the impact on expenses.

In addition to the foregoing, the Board considered, among other data, the information set forth below with respect to the Fund s fees and expenses. In each case, the Board took into account management s discussion of the Fund s expenses, including the type and size of the Fund relative to the other funds in its Expense Group.

The Board noted that the Fund s net management fee was above the median, and net total expenses were at the median of the Expense Group.

Based on the level and type of services provided, the Board determined that the Fund s fees and expenses were reasonable. The Board concluded that the advisory and subadvisory fees for the Fund were fair and reasonable in light of the usual and customary charges made for services of the same nature and quality and the other factors considered.

Profitability

The Board also considered certain information relating to profitability that had been provided by VIA. In this regard, the Board considered information regarding the overall profitability of VIA for its management of the Fund, as well as its profits and those of its affiliates for managing and providing other services to the Fund, such as administrative services provided to the Fund by a VIA affiliate. In addition to the fees paid to VIA and its affiliates, including the Subadviser, the Board considered other benefits derived by VIA or its affiliates from their relationship with the Fund. The Board reviewed the methodology used to allocate costs to the Fund, taking into account the fact that allocation methodologies are inherently subjective and various allocation methodologies may each be reasonable while producing different results. The Board concluded that the profitability to VIA and its affiliates from the Fund was reasonable in light of the quality of the services rendered to the Fund by VIA and its affiliates.

In considering the profitability to the Subadviser in connection with its relationship to the Fund, the Board noted that the fees under the Subadvisory Agreement are paid by VIA out of the fees that VIA receives under the Advisory Agreement, so that Fund shareholders are not directly impacted by those fees. In considering the reasonableness of the fees payable by VIA to the affiliated Subadviser, the Board noted that, because the Subadviser is an affiliate of VIA,

Edgar Filing: Virtus Global Multi-Sector Income Fund - Form N-CSRS such profitability might be directly or indirectly shared by VIA, and therefore the board considered the

CONSIDERATION OF ADVISORY AND SUBADVISORY AGREEMENTS

BY THE BOARD OF TRUSTEES (Continued)

profitability of VIA and the Subadviser together. For each of the above reasons, the Board concluded that the profitability to the Subadviser and its affiliates from their relationship with the Fund was not a material factor in approval of the Subadvisory Agreement.

Economies of Scale

The Board received and discussed information concerning whether VIA realizes economies of scale as the Fund s assets grow. The Board noted that due to the closed-end structure of the Fund, assets under management were unlikely to be able to grow through sales of the Fund s shares. The Board also took into account management s discussion of the Fund s management fee and subadvisory fee structure. The Board also took into account the current size of the Fund. The Board concluded that no changes to the advisory fee structure of the Fund were necessary at this time. The Board noted that VIA and the Fund may realize certain economies of scale if the assets of the Fund were to increase, particularly in relationship to certain fixed costs, and that shareholders of the Fund would have an opportunity to benefit from these economies of scale.

For similar reasons as stated above with respect to the Subadviser s profitability, and based upon the current size of the Fund managed by the Subadviser, the Board concluded that the potential for economies of scale in the Subadviser s management of the Fund was not a material factor in the approval of the Subadvisory Agreement at this time.

Other Factors

The Board considered other benefits that may be realized by VIA and the Subadviser and their respective affiliates from their relationships with the Fund. The Board noted that an affiliate of VIA also provides administrative services to the Fund. The Board noted management s discussion of the fact that, while the Subadviser is an affiliate of VIA, there are no other direct benefits to the Subadviser or VIA in providing investment advisory services to the Fund, other than the fee to be earned under the Subadvisory Agreement. There may be certain indirect benefits gained, including to the extent that serving the Fund could provide the opportunity to provide advisory services to additional portfolios affiliated with the Fund or certain reputational benefits.

Conclusion

Based on all of the foregoing considerations, the Board, comprised wholly of Independent Trustees, determined that approval of each Agreement was in the best interests of the Fund and its shareholders. Accordingly, the Board, and the Independent Trustees voting separately, approved the Agreements with respect to the Fund.

Report on Annual Meeting of Shareholders

The Annual Meeting of Shareholders of Virtus Global Multi-Sector Income Fund was held on June 2, 2016. The meeting was held for purposes of electing one (1) nominee to the Board of Trustees.

The results were as follows:

Election of Trustee	Votes For	Votes Withheld
Thomas F. Mann	9,207,567	676,600

Based on the foregoing, Thomas F. Mann was re-elected as Trustee. The Fund s other Trustees who continue in office are George R, Aylward, Philip R. McLoughlin, William R. Moyer and James M. Oates.

The foregoing description of any revisions made in the Amended and Restated Bylaws is qualified in its entirety by the full text of the Amended and Restated Bylaws effective as of April 7, 2016, which are available by writing to the Secretary of the Fund at 101 Munson Street, Greenfield, MA 01301-9668.

Item 11. Controls and Procedures.

- (a) The registrant s principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant s disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the 1940 Act) (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of the report that includes the disclosure required by this paragraph, based on their evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (17 CFR 240.13a-15(b) or 240.15d-15(b)).
- (b) There were no changes in the registrant s internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d)) that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant s internal control over financial reporting.

Item 12. Exhibits.

- (a)(1) Not applicable.
- (a)(2) Certifications pursuant to Rule 30a-2(a) under the 1940 Act and Section 302 of the Sarbanes-Oxley Act of 2002 are attached hereto.
- (a)(3) Not applicable.
- (b) Certifications pursuant to Rule 30a-2(b) under the 1940 Act and Section 906 of the Sarbanes-Oxley Act of 2002 are attached hereto.
- (c) Copies of the Registrant s notices to shareholders pursuant to Rule 19a-1 under the 1940 Act which accompanied distributions paid from March 4, 2016 through May 31, 2016 pursuant to the Registrant s Managed Distribution Plan are filed herewith as required by the terms of the Registrant s exemptive order issued on August 26, 2008.
