In the context of the capital increase approved by the shareholders on January 20<sup>th</sup>, 2011, Banco de Chile announced today the timeline for the corresponding activities and steps to be carried out for the completion of the transaction. The first of these steps was concluded in February with the registration of the shares before the Chilean Superintendency of Banks and Financial Institutions (SBIF), and continued today with the filing of the corresponding forms and documentation before the Securities and Exchange Commission of the United States of America, the last of which will permit the offering in such market of the shares to be sold in the Chilean Market.

As mentioned above, the local and international filings are the first steps of a number of activities that will continue in the following days, which comprises a Local Road Show with investors to be held on March 15. In this road show, Pablo Granifo, Chairman of the Board of Directors of Banco de Chile, and Arturo Tagle, Chief Executive Officer, will explain the main features of the issuance.

Additionally, on March 15 and until March 30- the special auction book shall be opened at the Santiago Stock Exchange in relation to the shares of LQIF to which it has indicated its intention to waive its preemptive rights. The price per share fixed in such auction will serve as a basis for the determination of the subscription value of the shares to be included in the First Preemptive Right Period, which will begin on March 31 and will last for 30 days.

The financial advisors for the offering will be Banchile Citi Global Markets<sup>1</sup> and Larrain Vial.

The capital increase, which corresponds approximately to CLP\$240,000,000,000 (US\$500,000,000), looks for strengthening a robust capital basis that allows the funding of the relevant growing expected for the volume of our businesses in the next 3 years , indicated Pablo Granifo.

This transaction will be one of the most important capital increases of the last years, and represents a very attractive investment opportunity due to the solid competitiveness of the Bank, its ample growing plan and the attractive risk-return relationship, among other considerations , pointed out Jorge Muñoz, Investment Banking Manager of Banchile Citi Global Markets<sup>2</sup>.
