We are providing you with these proxy materials in connection with the solicitation by the Board of Directors of Pacific Biosciences of California, Inc. of proxies to be used at our 2014 Annual Meeting of Stockholders. The Annual Meeting will be held at the offices of Wilson Sonsini Goodrich & Rosati, 650 Page Mill Road, Palo Alto, California 94304 on May 22, 2014 at 9:00 a.m. Pacific Time. This proxy statement contains important information regarding our Annual Meeting, the proposals on which you are being asked to vote, information you may find useful in determining how to vote, and information about voting procedures. As used herein, “we,” “us,” “our,” “Pacific Biosciences” or the “Company” refers to Pacific Biosciences of California, Inc., a Delaware corporation.

This proxy statement, accompanying proxy card or voting instruction form, and our 2013 Annual Report to Stockholders will first be made available to our stockholders on or about April 16, 2014.

QUESTIONS AND ANSWERS ABOUT THE ANNUAL MEETING AND THESE PROXY MATERIALS

What matters will be voted on at the Annual Meeting?

The following matters will be voted on at the Annual Meeting:

- Proposal 1: To elect the three directors nominated by our Board of Directors and named in this proxy statement as Class I directors to serve for a three-year term;
- Proposal 2: To consider an advisory vote on our executive compensation;
- Proposal 3: The ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2014; and
- Such other business as may properly come before the Annual Meeting or any adjournment or postponement of the Annual Meeting.

How does the Board of Directors recommend that I vote?

The Board of Directors recommends that you vote:

- FOR the election of the three directors nominated by our Board of Directors and named in this proxy statement as Class I directors to serve for a three year term;
- FOR the approval, on an advisory basis, of our executive compensation; and

- FOR ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2014.

Will there be any other items of business on the agenda?

If any other items of business or other matters are properly brought before the Annual Meeting, your proxy gives discretionary authority to the persons named on the proxy card with respect to those items of business or other

1

matters. The persons named on the proxy card intend to vote the proxy in accordance with their best judgment. Our Board of Directors does not intend to bring any other matters to be voted on at the Annual Meeting. We are not currently aware of any other matters that may properly be presented by others for action at the Annual Meeting.

Who is entitled to vote at the Annual Meeting?

Holders of our common stock at the close of business on April 2, 2014, which we refer to as the record date, may vote at the Annual Meeting. Each stockholder is entitled to one vote for each share of our common stock held as of the record date.

A complete list of these stockholders will be available at our corporate offices at 1380 Willow Road, Menlo Park, California 94025 during regular business hours for the ten days prior to the Annual Meeting. This list also will be available during the Annual Meeting at the meeting location. A stockholder may examine the list for any legally valid purpose related to the Annual Meeting.

What is the difference between holding shares as a stockholder of record and as a beneficial owner?

Stockholders of Record. You are a stockholder of record if at the close of business on the record date your shares were registered directly in your name with Computershare Shareholder Services, our transfer agent.

Beneficial Owner. You are a beneficial owner if at the close of business on the record date your shares were held by a brokerage firm or other nominee and not in your name. Being a beneficial owner means that, like many of our stockholders, your shares are held in "street name." As the beneficial owner, you have the right to direct your broker or nominee how to vote your shares by following the voting instructions your broker or other nominee provides. If you do not provide your broker or nominee with instructions on how to vote your shares, your broker or nominee will not be able to vote your shares with respect to the proposals. Please see "What if I do not specify how my shares are to be voted?" for more information.

Do I have to do anything in advance if I plan to attend the Annual Meeting in person?

If you are a stockholder of record, you do not need to do anything in advance to attend or vote at the Annual Meeting in person. If you are a beneficial owner, you must bring a legal proxy from the organization that holds your shares in order to vote your shares at the Annual Meeting in person.

How do I vote and what are the voting deadlines?

Stockholders of Record. If you are a stockholder of record, there are several ways for you to vote your shares.

- By mail. If you received printed proxy materials, you may submit your vote by completing, signing and dating each proxy card received and returning it in the prepaid envelope. Sign your name exactly as it appears on the proxy card. Proxy cards submitted by mail must be received no later than May 21, 2014 to be voted at the Annual Meeting.
- By telephone or via the Internet. You may vote your shares by telephone or via the Internet by following the instructions provided in the proxy card. If you vote by telephone or via the Internet, you do not need to return a proxy card by mail. Internet and telephone voting are available 24 hours a day. Votes submitted by telephone or via the Internet must be received by 11:59 p.m. Eastern Time on May 21, 2014.
- In person at the Annual Meeting. You may vote your shares in person at the Annual Meeting. Even if you plan to attend the Annual Meeting in person, we recommend that you also submit your proxy card or voting instructions or vote by telephone or via the Internet by the applicable deadline so that your vote will be counted if you later decide not to attend the Annual Meeting.

Beneficial Owners. If you are a beneficial owner of your shares, you should have received the Proxy Materials and voting instructions from the broker or other nominee holding your shares. You should follow the voting instructions

provided by your broker or nominee in order to instruct your broker or other nominee on how to vote your shares. The availability of telephone and Internet voting will depend on the voting process of the broker or nominee. Shares held

2

beneficially may be voted in person at the Annual Meeting only if you obtain a legal proxy from the broker or nominee giving you the right to vote the shares.

Can I revoke or change my vote after I submit my proxy?

Stockholders of Record. If you are a stockholder of record, you may revoke your proxy at any time before it is voted at the Annual meeting by:

- Signing and returning a new proxy card with a later date;
- Entering a new vote by telephone or via the Internet by 11:59 p.m. Eastern Time on May 21, 2014;
- Delivering a written revocation to our Corporate Secretary at Pacific Biosciences of California, Inc., 1380 Willow Road, Menlo Park, California 94025, by 11:59 p.m. Eastern Time on May 21, 2014; or
- Attending the Annual Meeting and voting in person.

Beneficial Owners. If you are a beneficial owner of your shares, you must contact the broker or other nominee holding your shares and follow their instructions for changing your vote.

What if I do not specify how my shares are to be voted?

Stockholders of Record. If you are a stockholder of record and you submit a proxy, but you do not provide voting instructions, your shares will be voted:

- FOR the election of the three Class I directors nominated by our Board of Directors and named in this proxy statement (Proposal 1);
- FOR the approval, on an advisory basis, of our executive compensation (Proposal 2);
- FOR the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2014 (Proposal 3); and
- In the discretion of the named proxies regarding any other matters properly presented for a vote at the Annual Meeting.

Beneficial Owners. If you are a beneficial owner and you do not provide the broker or other nominee that holds your shares with voting instructions, the broker or other nominee will determine if it has the discretionary authority to vote on the particular matter. Under the NYSE's rules, brokers and other nominees do not have discretion to vote on non-routine matters such as Proposals 1 and 2. Therefore, if you do not provide voting instructions to your broker or other nominee, your broker or other nominee may not vote your shares on Proposals 1 and 2.

What constitutes a quorum, and why is a quorum required?

We need a quorum of stockholders to hold our Annual Meeting. A quorum exists when at least a majority of the outstanding shares entitled to vote at the close of business on the record date are represented at the Annual Meeting either in person or by proxy. As of the close of business on the record date April 2, 2014, we had 70,492,087 shares of common stock outstanding and entitled to vote at the Annual Meeting, meaning that 35,246,044 shares of common stock must be represented in person or by proxy to constitute a quorum.

Your shares will be counted towards the quorum if you submit a proxy or vote at the Annual Meeting. Abstentions and broker non-votes will also count towards the quorum requirement. If there is not a quorum, a majority of the shares present at the Annual Meeting may adjourn the meeting to a later date.

What is the effect of a broker non-vote?

Brokers or other nominees who hold shares of our common stock for a beneficial owner have the discretion to vote on routine proposals when they have not received voting instructions from the beneficial owner at least ten days prior to the Annual Meeting. A broker non-vote occurs when a broker or other nominee does not receive voting instructions

from the beneficial owner and does not have the discretion to direct the voting of the shares. Broker non-

3

votes will be counted for purposes of calculating whether a quorum is present at the Annual Meeting, but will not be counted for purposes of determining the number of votes present in person or represented by proxy and entitled to vote with respect to a particular proposal. Thus, a broker non-vote will not impact our ability to obtain a quorum and will not otherwise affect the outcome of the vote on a proposal that requires a plurality of votes cast (Proposal 1) or the approval of a majority of the votes present in person or represented by proxy and entitled to vote (Proposals 2 and 3).

What is the vote required for each proposal?

Proposal	Vote Required	Broker Discretionary Voting Allowed
Proposal 1 - Election of three Class I directors	Plurality of votes cast	No
Proposal 2 - Approval, on an advisory basis, of our executive compensation	Majority of the shares entitled to vote and present in person or represented by proxy	No
Proposal 3 - Ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm	Majority of the shares entitled to vote and present in person or represented by proxy	Yes

With respect to Proposal 1, you may vote FOR all nominees, WITHHOLD your vote as to all nominees, or FOR all nominees except those specific nominees from whom you WITHHOLD your vote. The three nominees receiving the most FOR votes will be elected. You may not cumulate votes in the election of directors. If you ABSTAIN from voting on Proposal 1, the abstention will not have an effect on the outcome of the vote.

With respect to Proposals 2 and 3, you may vote FOR, AGAINST or ABSTAIN. If you ABSTAIN from voting on this proposal, the abstention will have the same effect as an AGAINST vote.

Who will count the votes?

Computershare Shareowner Services, our transfer agent, has been engaged to receive and tabulate stockholder votes. Computershare will separately tabulate FOR, AGAINST and WITHHOLD votes, abstentions, and broker non-votes. Computershare will also certify the election results and perform any other acts required by the Delaware General Corporation Law.

Who is paying for the costs of this proxy solicitation?

Pacific Biosciences will bear the entire cost of proxy solicitation, including the preparation, assembly, printing, mailing and distribution of the proxy materials. Solicitations may be made personally or by mail, facsimile, telephone, messenger, or via the Internet by Pacific Biosciences personnel who will not receive additional compensation for such solicitation. In addition, we will reimburse brokerage firms and other custodians for their reasonable out-of-pocket expenses for forwarding the proxy materials to stockholders.

How can I find the results of the Annual Meeting?

Preliminary results will be announced at the Annual Meeting. Final results also will be published in a current report on Form 8-K to be filed with the SEC after the Annual Meeting.

CORPORATE GOVERNANCE

Overview

The Board oversees our Chief Executive Officer and other senior management in the competent and ethical operation of our business and affairs and assures that the long-term interests of the stockholders are being served. The key practices and procedures of the Board are outlined in the Corporate Governance Guidelines available on the Company's website at www.pacb.com, under "Corporate Governance."

Board Leadership Structure

Pursuant to our Corporate Governance Guidelines, the roles of Chairman and Chief Executive Officer may be filled by the same or different individuals. This allows the Board flexibility to determine whether the two roles should be combined or separated based upon the needs of the Company and the Board's assessment of our leadership from time to time. The Board believes that, at this time, it is in the best interests of Pacific Biosciences and its stockholders for Michael Hunkapiller, Ph.D., to serve as our Chairman and Chief Executive Officer, and William Ericson, an independent director, to serve as Lead Independent Director. Dr. Hunkapiller does not currently serve on any of the three standing Board committees in his capacity as a director.

Combining the roles of Chairman and Chief Executive Officer promotes unified leadership and direction for Pacific Biosciences, allowing for operational effectiveness and efficiencies that ensure the implementation of strategic initiatives and business plans to optimize stockholder value.

The Board believes the combined role of Chairman and Chief Executive Officer, together with the role of the Lead Independent Director, appropriately balances the Company's leadership. The role of our Lead Independent Director helps ensure a strong, independent, and active Board. The Lead Independent Director presides over executive sessions without the presence of the non-independent directors or members of the Company's management from time to time as deemed necessary or appropriate. The Lead Independent Director also has the authority to call meetings of the independent directors and is available for consultation or direct communication. The Board, including each of its committees, also has complete and open access to all members of management and the authority to retain independent advisors as members deem appropriate. In addition, the members of the Audit, Compensation, and Corporate Governance and Nominating Committees are independent directors, and the committee chairs regularly hold executive sessions without management, including the Chief Executive Officer, present.

The Board's Role in Risk Oversight

Our management has day-to-day responsibility for identifying risks facing the Company, including implementing suitable mitigating processes and controls, assessing risks in relation to Company strategies and objectives, and appropriately managing risks in a manner that serves the best interests of the Company, its stockholders, and other stakeholders. Our Board of Directors is responsible for ensuring that an appropriate culture of risk management exists within the Company and for setting the right "tone at the top," overseeing our aggregate risk profile, and assisting management in addressing specific risks.

Generally, various committees of our Board of Directors oversee risks associated with their respective areas of responsibility and expertise. For example, our Audit Committee oversees, reviews and discusses with management and the independent auditors, our major risk exposures and the steps management has taken to monitor and mitigate those exposures. Our Compensation Committee oversees risks associated with our compensation policies, plans and practices. Our Corporate Governance and Nominating Committee oversees the management of risks associated with director independence and Board composition and organization. Management and other employees report to the Board and/or relevant committee from time to time on risk-related issues.

Director Independence

Based upon information requested from and provided by each director concerning his or her background, employment and affiliations, including family relationships, our Board of Directors has determined that none of Messrs.

5

Byers, Ericson, Livingston and Mohr, and Drs. Botstein, Milligan and Shapiro, representing seven of our eight directors, has a relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director and that each of these directors is “independent” as that term is defined under the rules of The NASDAQ Stock Market.

Our Board of Directors also determined that Messrs. Livingston and Mohr and Dr. Milligan, who comprise our Audit Committee, Messrs. Ericson and Mohr and Dr. Milligan, who comprise our Compensation Committee, and Messrs. Byers and Ericson and Dr. Shapiro, who comprise our Nominating and Corporate Governance Committee, satisfy the independence standards for those committees established by applicable SEC rules, including Rule 10A-3 of the Exchange Act, and the rules of The NASDAQ Stock Market. In making this determination, our Board of Directors considered the relationships that each non-employee director has with our company and all other facts and circumstances our Board of Directors deemed relevant in determining their independence, including the beneficial ownership of our capital stock by each non-employee director.

The Board of Directors believes that the independence of the Board members satisfies the independence standards established by applicable SEC rules and the rules of The NASDAQ Stock Market.

Director Nominations

Candidates for nomination to our Board of Directors are selected by the Corporate Governance and Nominating Committee in accordance with the committee’s charter, our certificate of incorporation and bylaws, our Corporate Governance Guidelines, and the criteria adopted by the Board regarding director candidate qualifications. The Corporate Governance and Nominating Committee will evaluate all candidates in the same manner and using the same criteria, regardless of the source of the recommendation.

The Corporate Governance and Nominating Committee may retain recruiting professionals to assist in identifying and evaluating candidates for director nominees. The Corporate Governance and Nominating Committee considers factors such as character, integrity, judgment, diversity of experience (including age, gender, international background, race and professional experience), independence, area of expertise, corporate experience, length of service, potential conflicts of interest, other commitments and the like. The Corporate Governance and Nominating Committee considers the following minimum qualifications to be satisfied by any nominee to the Board: the highest personal and professional ethics and integrity; proven achievement and competence in the nominee’s field and the ability to exercise sound business judgment; skills that are complementary to those of the existing Board; the ability to assist and support management and make significant contributions to the Company’s success; and an understanding of the fiduciary responsibilities that is required of a member of the Board and the commitment of time and energy necessary to diligently carry out those responsibilities.

Based on the Corporate Governance and Nominating Committee’s recommendation, the Board selects director nominees and recommends them for election by our stockholders, and also fills any vacancies that may arise between annual meetings of stockholders.

The Corporate Governance and Nominating Committee will consider director candidates who are timely proposed by our stockholders in accordance with our bylaws and other procedures established from time to time by the Corporate Governance and Nominating Committee.

If you would like the Corporate Governance and Nominating Committee to consider a prospective director candidate, please follow the procedures in our bylaws and submit the candidate’s name and qualifications to: Corporate Secretary, Pacific Biosciences of California, Inc., 1380 Willow Road, Menlo Park, CA 94025.

Code of Business Conduct and Ethics

We have adopted a code of business conduct that is applicable to all of our employees, officers, and directors. In addition, we have adopted a code of ethics that is applicable to our chief executive and senior financial and legal officers. Our code of business conduct is available on the Investor Relations page of our website at www.pacb.com under “Corporate Governance.”

6

Communication with the Board of Directors

Any stockholder communication with our Board or individual directors should be directed to Pacific Biosciences of California, Inc., c/o Corporate Secretary, 1380 Willow Road, Menlo Park, CA 94025. The Corporate Secretary will forward these communications, as appropriate, directly to the director(s). The independent directors of the Board review and approve the stockholder communication process periodically in an effort to enable an effective method by which stockholders can communicate with the Board.

7

These initial awards will vest over three years, with one-third of the shares subject to the option vesting on the one year anniversary of the date of grant, and the remaining shares vesting monthly over the following two years, provided such non-employee director continues to serve as a director through each vesting date. In addition, each non-employee director automatically receives an annual stock option grant to purchase 25,000 shares of our common stock on the date of the annual meeting beginning on the date of the first annual meeting that is held at least four months after such non-employee director received his or her initial award, provided such non-employee director continues to serve as a director through such date. Such annual awards vest monthly over one year, provided such non-employee director continues to serve as a director through each vesting date.

In the event of a “change in control,” as defined in our Director Plan, with respect to awards granted under the Director Plan to non-employee directors, the participant non-employee director will fully vest in and have the right to exercise awards as to all shares underlying such awards and all restrictions on awards will lapse, and all performance goals or

other vesting criteria will be deemed achieved at 100% of target level and all other terms and conditions met.

PROPOSAL 2: ADVISORY VOTE ON EXECUTIVE COMPENSATION

As required by the SEC's proxy rules, we are seeking an advisory, non-binding stockholder vote with respect to compensation awarded to our named executive officers for 2013.

Our executive compensation program is designed to attract, retain, and motivate talented individuals with the executive experience and leadership skills necessary for us to increase stockholder value. In particular, our executive compensation philosophy is to promote long-term value creation for our stockholders by rewarding improvement in selected financial metrics, and by using equity incentives. Please see our "Compensation Discussion and Analysis" and related compensation tables for detailed information about our executive compensation programs.

We are asking our stockholders to indicate their support for our executive compensation as described in this proxy statement by voting "FOR" the following resolution:

"RESOLVED, that the stockholders approve, on an advisory basis, the compensation of the executive officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables and narrative discussion in this Proxy Statement."

The advisory vote is non-binding; however, our Board of Directors and the Compensation Committee will consider the opinions of our stockholders to the extent there is any significant vote against the executive officer compensation as disclosed in this Proxy Statement.

Recommendation of the Board

The Board of Directors recommends a vote "FOR" the approval of the compensation of each executive officer, as disclosed in this proxy statement pursuant to the compensation disclosure rules of the SEC.

PROPOSAL 3: RATIFICATION OF THE APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee has appointed Ernst & Young LLP, independent registered public accounting firm, to audit our consolidated financial statements for the fiscal year ending December 31, 2014. Ernst & Young LLP has audited our consolidated financial statements since 2011. Representatives of Ernst & Young LLP are expected to be present at the annual meeting, will have the opportunity to make a statement if they desire to do so, and are expected to be available to respond to appropriate questions.

Stockholder ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm is not required by our by-laws or otherwise. The Board, however, is submitting the appointment of Ernst & Young LLP to the stockholders for ratification as a matter of good corporate practice. If the stockholders fail to ratify the appointment, the Audit Committee and the Board will reconsider whether or not to retain the firm. Even if the appointment is ratified, the Audit Committee in its discretion may direct the appointment of a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of the Company and its stockholders.

Policy on Audit Committee's Pre-Approval of Audit and Permissible Non-Audit Services of Independent Registered Public Accounting Firm

The Audit Committee reviews and pre-approves all audit and permissible non-audit services provided by the independent registered public accounting firm. These services may include audit services, audit-related services and tax services, as well as specifically designated non-audit services which, in the opinion of the Audit Committee, will not impair the independence of the independent registered public accounting firm. Pre-approval generally is provided for up to one year, and any pre-approval is detailed as to the particular service or category of services and generally is subject to a specific budget. The independent registered public accounting firm and the Company's management are required to periodically report to the Audit Committee regarding the extent of services provided by the independent registered public accounting firm in accordance with this pre-approval, including the fees for the services performed to date. In addition, the Audit Committee also may pre-approve particular services on a case-by-case basis, as necessary or appropriate.

The following table sets forth the approximate aggregate fees billed to the Company by Ernst & Young in fiscal 2013 and 2012 of \$0.8 million and \$0.7 million, respectively, and by PricewaterhouseCoopers in fiscal 2012 of less than \$0.1 million:

Fee Category	2013	2012
	(in thousands)	
Audit Fees	\$ 811	\$ 724
Audit-related Fees	—	—
Tax Fees	—	—
All Other Fees	2	2
Total Fees	\$ 813	\$ 726

Audit Fees consisted of professional services rendered in connection with the audit of the Company's annual financial statements and quarterly review of financial statements included in the Company's Quarterly Reports on Form 10-Q. This category also includes advice on accounting matters that arose during the audit or the review of interim financial statements.

Audit-Related Fees comprise fees for professional services that are reasonably related to the performance of the audit or review of the Company's financial statements.

Tax Fees consisted of professional services rendered in connection with tax compliances and consulting services.

All Other Fees consisted of fees paid for a subscription to an accounting research database.

16

The Audit Committee has concluded that the provision of the non-audit services listed above was compatible with maintaining the independence of Ernst & Young.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE “FOR” THE RATIFICATION OF THE APPOINTMENT OF ERNST & YOUNG LLP AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE FISCAL YEAR ENDING DECEMBER 31, 2014.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

Policies and Procedures for Related Party Transactions

We have adopted a formal written policy that our executive officers, directors, nominees for election as directors, beneficial owners of more than 5% of any class of our common stock and any member of the immediate family of any of the foregoing persons, are not permitted to enter into a related party transaction with us without the prior consent of our Audit Committee, subject to the pre-approval exceptions described below. If advance approval is not feasible then the related party transaction will be considered at the Audit Committee's next regularly scheduled meeting. In approving or rejecting any such proposal, our Audit Committee considers the facts and circumstances available and deemed relevant by our Audit Committee, including, but not limited to, whether the transaction is on terms no less favorable than terms generally available to an unaffiliated third party under the same or similar circumstances and the extent of the related party's interest in the transaction. Our Board of Directors has delegated to the chair of our Audit Committee the authority to pre-approve or ratify any request for us to enter into a transaction with a related party, in which the amount involved is less than \$120,000 and where the chair is not the related party. Our Audit Committee has also reviewed certain types of related party transactions that it has deemed pre-approved even if the aggregate amount involved will exceed \$120,000 including, employment of executive officers, director compensation, certain transactions with other organizations, transactions where all stockholders receive proportional benefits, transactions involving competitive bids, regulated transactions and certain banking-related services. Certain of the transactions described below were entered into prior to the adoption of this policy. For those transactions, the Audit Committee retrospectively reviewed and ratified the transaction. If a member of the Audit Committee was related to the transaction in any way, that member recused himself from all discussions and ratification of the transaction.

Related Party Transactions

During 2013, we were party to the following transactions in which the amount involved exceeded or will exceed \$120,000, and in which any director, executive officer or holder of more than 5% of any class of our voting stock, or any member of the immediate family of or entities affiliated with any of them, had or will have a material interest.

Employment of Related Persons

We employ Kathryn Keho as our Director, Scientific Collaborations, who is the daughter of Dr. Michael Hunkapiller, our Chairman, Chief Executive Officer and President. Ms. Keho's compensation totaled \$198,800 in 2013 and her annual base salary was \$197,600 for the year ended December 31, 2013 and is \$202,046 for the year ending December 31, 2014. Ms. Keho was granted the following options to purchase shares of our common stock during 2011, 2012 and 2013:

Grant Date	All other option awards: number of securities underlying options (#)		Exercise or base price of option award (\$)
5/16/2011	5,000	(1)	11.70
11/15/2011	20,000	(1)	3.30
11/15/2012	14,000	(1)	1.16
11/15/2013	18,000	(2)	4.07

(1) Twenty percent of such options will vest on the first anniversary date of each grant, and the remaining options vest at a rate of 1/60th of the total number of shares subject to the option each month thereafter, subject to

continued service with us.

- (2) The options vest at a rate of 1/48th of the total number of shares subject to the option each month over the next four years, subject to continued service with us.

18

We believe that Ms. Keho's compensation, which is reviewed by the Compensation Committee, is comparable with compensation paid to other employees with similar levels of responsibility and years of experience.

During 2013, we recognized revenue relating to Stanford with a total value of approximately \$187,000. As of December 31, 2013, \$3,000 of our accounts receivable balance of \$2,746,000 related to Stanford University.

Compensation Discussion and Analysis

The following discussion and analysis of compensation arrangements of our named executive officers should be read together with the compensation tables and related disclosures set forth below. This discussion contains forward-looking statements that are based on our current considerations, expectations and determinations regarding future compensation programs. The actual amount and form of compensation and the compensation programs that we adopt may differ materially from current or planned programs as summarized in this discussion.

Overview

Our executive compensation program is overseen and administered by the Compensation Committee.

The guiding principle in the development of our compensation strategy is to create and nurture a pay-for-performance culture, where contributions to enhancing stockholder value have the potential to be matched with appropriate financial rewards. The objectives of our compensation program are to:

- align compensation practices with the creation of long-term value for our stockholders;
- attract the best and brightest employees;
- motivate successful execution of our corporate objectives;
- ensure that broad-based compensation programs are aligned with company objectives that when achieved will lead to an increase in value for our stockholders; and
- ensure retention of key staff.

Our current executive compensation programs consist primarily of salary, incentive cash bonuses and stock options. We anticipate making new equity awards and adjustments to the components of our executive compensation program in connection with our yearly compensation review, which will be based, in part, upon market analysis performed by

the compensation consultant retained by our Compensation Committee.

24

Compensation of the Chief Executive Officer and Chief Financial Officer

Our compensation strategy objectives relative to our Chief Executive Officer and Chief Financial Officer resulted from their willingness to forgo base salaries and incentive cash compensation in exchange for greater equity compensation in the form of stock options. In evaluating the compensation flexibility afforded by these executives, the Compensation Committee, in consultation with the independent compensation consultant, proposed, and the Board approved, compensation packages comprised of equity and the opportunity to participate in standard employee benefits with the intention of providing market level compensation and closely aligning the compensation of these executives to the value generated for stockholders. The structures negotiated and proposed by the Compensation Committee represent one year arrangements that will be assessed and revisited annually. The Board has the authority to approve changes to the compensation of the Chief Executive Officer and Chief Financial Officer at any time.

Role of Compensation Consultant

Our Compensation Committee selected and engaged Radford, an Aon Hewitt Consulting Company, as its compensation consultant to advise the Compensation Committee in matters related to executive compensation and broader employee compensation programs, including the prevailing market compensation environment, appropriate peer companies, compensation survey data, and compensation trends. Radford reports directly to the Compensation Committee and the Compensation Committee maintains sole authority to direct Radford's work. Radford provides general observations regarding our executive and broader employee compensation programs, but it does not determine or recommend the amount or form of compensation for our named executive officers.

Role of Executive Officers in Compensation Decisions

For executive officers other than our Chief Executive Officer, our Compensation Committee has historically sought and considered input from our Chief Executive Officer and Chief Financial Officer regarding our executive officers' responsibilities, performance, and compensation. Our Chief Executive Officer and Chief Financial Officer recommend base salary and equity award levels that are used throughout our compensation plans, and advised our Compensation Committee regarding the compensation program's ability to attract, retain and motivate executive talent. Our Compensation Committee considers our Chief Executive Officer's and Chief Financial Officer's recommendations, and approves the specific compensation for all the executive officers. Our Compensation Committee meets in executive session, without our Chief Executive Officer and Chief Financial Officer, when discussing or making recommendations regarding their compensation. Our Compensation Committee discusses with the Chief Executive Officer the core operational and financial metrics to drive the business forward, and how various forms of variable and incentive compensation can be applied at the executive level to achieve our goals.

Components of Our Executive Compensation Program

The components of our executive compensation program through fiscal 2013 have consisted, and during 2014 will consist, primarily of base salaries, incentive cash bonuses, equity awards and broad-based benefits programs. We combine short-term compensation components, namely base salaries and incentive bonuses with long-term equity incentive compensation components to provide an overall compensation structure that is designed to financially reward executives for creating additional value for our stockholders, attract and retain key executives and provide incentive for the achievement of short-term and long-term corporate objectives. The Compensation Committee and the Board of Directors believe these elements are appropriate components of executive compensation and are consistent in the technology and life sciences industries. We do not provide a pension plan for our named executive officers or for the majority of our employees and none of our named executive officers participate in a Company sponsored nonqualified deferred compensation plan. We provide a pension plan to employees at certain foreign subsidiaries in order to remain competitive or to conform with local statutory requirements.

Base Salary

The Compensation Committee determined base salaries for each of our named executive officers, other than our Chief Executive and Chief Financial Officers, based on the executive's role and responsibilities, a review of any applicable market data and individual job performance. In its review of applicable market data, the Committee utilized

25

compensation survey data provided by Radford for the technology and life sciences industries for companies of similar size to ours. In consideration of the market data and subjective assessments of each executive officer's position, experience, responsibilities, and performance, the Compensation Committee set annual base salaries for our named executive officers, other than our Chief Executive and Chief Financial Officers, at approximately the 50th to 75th percentile for 2013 and 2014 relative to the market data reviewed.

Incentive Bonus

Incentive cash bonuses, structured as a percentage of base salary, are intended to correlate executive compensation with important corporate objectives that the Board believes are aligned with stockholder interests for long-term value creation. The achievement of such objectives provides our executive officers the opportunity to earn total cash compensation at approximately the 50th percentile of the market data.

Incentive bonuses offered to our named executive officers during 2013 afforded the opportunity for executives to earn up to 40% of their base salary based on the achievement of certain corporate operational, product performance, and financial metrics. At the Chief Executive Officer's discretion, based on performance, the actual bonus paid for each named executive officer can then be adjusted up or down to reflect the individual's contributions to the Company's goals. During 2013 approximately 64% of the company objectives were achieved, resulting in executives receiving 51% of their target bonus opportunity.

Similar to 2013, 2014 incentive bonuses for all of our executive officers will be based on the achievement of corporate operational and financial metrics. The goals and objectives we have established are aggressive, but attainable, and are based on goals we believe align the compensation of our senior management team and executives with the priorities for the Company that we anticipate will drive additional value for our stockholders. The 2014 incentive bonuses have a minimum threshold of achievement, below which incentives will not be paid. Full achievement of corporate and personal goals and objectives would result in the potential incentive bonus payment of up to 32% of the named executive officer's base salary. Final bonus payments can be reduced subject to the discretion of the Company's Chief Executive Officer.

Equity Incentives

We believe that equity grants align the interests of our key employees with the development of long-term value for our stockholders. Our equity-based incentives, comprised of options to purchase shares of our common stock, are subject to vesting over four or five years in order to incentivize our executive officers and key employees to remain in our employ during the vesting period.

In determining equity awards for named executive officers, the Compensation Committee and the Board consider market data regarding the equity compensation practices in the technology and life sciences industries, including stock dilution, and the equity compensation for comparable positions among comparable companies. While the Compensation Committee reviews the realized or unrealized value of prior equity awards, it determines the annual target considering economic value, retention objectives, and dilution.

Stock option awards to executives, including our named executive officers, are granted annually. During the first quarters of 2013 and 2014, in consideration of the prior years' accomplishments and to provide ongoing long-term incentives and promote the retention of our executives, our Compensation Committee approved additional option grants to our executives. Refer to "Grants of Plan-Based Awards" section of this proxy statement for further details.

Benefits

We provide the following benefits to our named executive officers on the same basis provided to our employees:

- health, dental and vision insurance;
- life, travel accident, and accidental death and dismemberment insurance;

26

- a 401(k) plan;
- short-term and long-term disability insurance;
- health care, dependent care and commuter flexible spending accounts;
- an employee assistance program; and
- an employee stock purchase plan.

Tax Considerations

We have not provided any executive officer or director with a gross-up or other reimbursement for tax amounts the executive might pay pursuant to Section 280G or Section 409A of the Internal Revenue Code of 1986, as amended (or the “Code”). Section 280G and related Code sections provide that executive officers, directors who hold significant stockholder interests and certain other service providers could be subject to significant additional taxes if they receive payments or benefits in connection with a change in control that exceeds certain limits, and that we or our successor could lose a deduction on the amounts subject to the additional tax. Section 409A also imposes additional significant taxes on the individual in the event that an executive officer, director or service provider receives “deferred compensation” that does not meet the requirements of 409A.

Because of the limitations of Code Section 162(m), we generally receive a federal income tax deduction for compensation paid to our chief executive officer and to certain other highly compensated officers only if the compensation is less than \$1,000,000 per person during any fiscal year or is “performance-based” under Code Section 162(m). In addition to salary and bonus compensation, upon the exercise of stock options that are not treated as incentive stock options, the excess of the current market price over the option price, or option spread, is treated as compensation and accordingly, in any year, such exercise may cause an officer’s total compensation to exceed \$1,000,000. Option spread compensation from options that meet certain requirements will not be subject to the \$1,000,000 cap on deductibility, and in the past we have granted options that we believe met those requirements. Additionally, under a special Code Section 162(m) exception, any compensation paid pursuant to a compensation plan in existence before the effective date of our initial public offering will not be subject to the \$1,000,000 limitation until the earliest of: (i) the expiration of the compensation plan, (ii) a material modification of the compensation plan (as determined under Code Section 162(m)), (iii) the issuance of all the employer stock and other compensation allocated under the compensation plan or (iv) the first meeting of stockholders at which directors are elected after the close of the third calendar year following the year of our initial public offering. While our Compensation Committee cannot predict how the deductibility limit may impact our compensation program in future years, our Compensation Committee intends to maintain an approach to executive compensation that strongly links pay to performance. In addition, while our Compensation Committee has not adopted a formal policy regarding tax deductibility of compensation paid to our named executive officers, our Compensation Committee intends to consider tax deductibility under Code Section 162(m) as a factor in compensation decisions.

Compensation Risk Assessment

In establishing and reviewing our overall compensation program, the Compensation Committee considers whether the program and its various elements encourage or motivate executives or other employees to take inappropriate risks, or introduce excessive business risk. At the direction of the Compensation Committee, we reviewed our compensation practices and policies and our findings were presented to the Compensation Committee for consideration. After consideration of the information presented, the Compensation Committee concluded that our compensation programs, including our executive compensation program, do not encourage excessive risk taking by our executives or other employees. As a result, we concluded that our employee compensation program does not create risk that is reasonably likely to have a material adverse effect on Pacific Biosciences.

Compensation Committee Interlocks and Insider Participation

None of our Compensation Committee members is or had ever been one of our officers or employees until January 2012, when Dr. Hunkapiller was appointed Chief Executive Officer and President. Upon Dr. Hunkapiller’s

appointment as our Chief Executive Officer and President, he resigned from the Compensation Committee. In addition,

27

during the last fiscal year, none of our officers served as a member of the board of directors or the compensation committee of any other entity that has one or more executive officers serving on our Board of Directors or Compensation Committee.

The Audit Committee has certain duties and powers as described in its written charter adopted by the Board. A copy of the charter can be found on the Company’s website at www.pacb.com.

As described more fully in its charter, the purpose of the Audit Committee is to assist the Board of Directors with its oversight responsibilities regarding the integrity of our Company’s financial statements, our compliance with legal and regulatory requirements, assessing the independent auditor’s qualifications and independence, the performance and scope of independent audit procedures performed on the Company’s financial statements and internal control, and management’s process for assessing the adequacy of the Company’s system of internal control. Management is responsible for preparation, presentation, and integrity of our financial statements as well as our financial reporting process, accounting policies, internal control over financial reporting, and disclosure controls and procedures. The independent registered public accounting firm is responsible for performing an independent audit of our consolidated financial statements in accordance with generally accepted auditing standards and to issue a report thereon. The Audit Committee’s responsibility is to monitor and oversee these processes.

The Audit Committee has:

- reviewed and discussed our audited financial statements with management and Ernst & Young LLP, the independent auditors;
- discussed with Ernst & Young LLP the matters required to be discussed by the Statement on Auditing Standards No. 61, as amended (AICPA, Professional Standards, Vol. 1, AU section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T; and
- received from Ernst & Young LLP the written disclosures and the letter required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent auditors’ communications with the Audit Committee concerning independence, and discussed with the auditors their independence.

In addition, the Audit Committee has regularly met separately with management and with Ernst & Young LLP.

Based on the review and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in our Annual Report on Form 10-K for the year ended December 31, 2013 for filing with the Securities and Exchange Commission.

OTHER INFORMATION

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires our directors and executive officers, and persons who beneficially own more than 10% of our common stock, to file with the SEC reports about their ownership of common stock and other equity securities of the Company. Such directors, officers and 10% stockholders are required by SEC regulations to furnish the Company with copies of all Section 16(a) forms they file. Based solely on our review of the reports provided to us and on representations received from our directors and executive officers that no annual Form 5 reports were required to be filed by them, we believe that all of our executive officers, directors and persons who beneficially own more than 10% of our common stock complied with all Section 16(a) filing requirements applicable to them with respect to transactions during fiscal year 2013, except for a late Form 4 filed on behalf of each of Drs. Botstein and Shapiro and Messrs. Byers, Ericson, Livingston and Mohr, our non-employee directors, in connection with their annual stock option grants in May 2013.

Advance Notice Procedure for 2015 Annual Meeting

Under our Bylaws, director nominations and other business may be brought at an annual meeting of stockholders only by or at the direction of the Board of Directors or by a stockholder entitled to vote who has submitted a proposal in accordance with the requirements of our Bylaws as in effect from time to time. For the 2015 annual meeting of stockholders, a stockholder notice must be received by our Corporate Secretary at Pacific Biosciences of California, Inc., 1380 Willow Road, Menlo Park, CA 94025, no earlier than December 17, 2014 and no later than January 16, 2015. Please refer to the full text of our advance notice Bylaw provisions for additional information and requirements. A copy of our Bylaws may be obtained by writing to our Corporate Secretary at the address listed above.

Stockholders Sharing the Same Address

The SEC has adopted rules that allow a company to deliver a single proxy statement or annual report to an address shared by two or more of its stockholders. This method of delivery, known as "householding," permits us to realize significant cost savings, reduces the amount of duplicate information stockholders receive, and reduces the environmental impact of printing and mailing documents to our stockholders. Under this process, certain stockholders will receive only one copy of our proxy materials and any additional proxy materials that are delivered until such time as one or more of these stockholders notifies us that they want to receive separate copies. Any stockholders who object to or wish to begin householding may notify our Investor Relations Department at ir@pacificsciences.com or
