Item 7.01 Regulation FD Disclosure.

On March 7, 2013, Huntington Bancshares Incorporated (Huntington) released a shareholder letter included in Huntington's 2012 Annual Report. A copy of the shareholder letter is attached as Exhibit 99.1 to this report and is incorporated herein by reference. Also on March 7, 2013, Huntington made the 2012 Annual Report, including the shareholder letter, available on its website, www.huntington-ir.com.

Forward-Looking Statements

This report, including the letter to shareholders, contains certain forward-looking statements, including certain plans, expectations, goals, projections, and statements, which are subject to numerous assumptions, risks, and uncertainties. Statements that do not describe historical or current facts, including statements about beliefs and expectations, are forward-looking statements. The forward-looking statements are intended to be subject to the safe harbor provided by Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934, and the Private Securities Litigation Reform Act of 1995.

While there is no assurance that any list of risks and uncertainties or risk factors is complete, below are certain factors which could cause actual results to differ materially from those contained or implied in the forward-looking statements: 1) worsening of credit quality performance due to a number of factors such as the underlying value of collateral that could prove less valuable than otherwise assumed and assumed cash flows may be worse than expected; (2) changes in economic conditions, including impacts from the implementation of the Budget Control Act of 2011 and the American Taxpayer Relief Act of 2012 as well as the continuing economic uncertainty in the US, the European Union, and other areas; (3) movements in interest rates; (4) competitive pressures on product pricing and services; (5) success, impact, and timing of our business strategies, including market acceptance of any new products or services implementing our "Fair Play" banking philosophy; (6) changes in accounting policies and principles and the accuracy of our assumptions and estimates used to prepare our financial statements; (7) extended disruption of vital infrastructure; (8) the final outcome of significant litigation; (9) the nature, extent, timing and results of governmental actions, examinations, reviews, reforms, and regulations including those related to the Dodd-Frank Wall Street Reform and Consumer Protection Act; and (10) the outcome of judicial and regulatory decisions regarding practices in the residential mortgage industry, including among other things the processes followed for foreclosing residential mortgages.

All forward-looking statements speak only as of the date they are made and are based on information available at that time. We assume no obligation to update forward-looking statements to reflect circumstances or events that occur after the date the forward-looking statements were made or to reflect the occurrence of unanticipated events except as required by federal securities laws. As forward-looking statements involve significant risks and uncertainties, caution should be exercised against placing undue reliance on such statements.

Non-Regulatory Capital Ratios

In addition to capital ratios defined by banking regulators, the Company considers various other measures when evaluating capital utilization and adequacy, including:

- Tangible common equity to tangible assets,
- Tier 1 common equity to risk-weighted assets using Basel I and Basel III definitions, and
- Tangible common equity to risk-weighted assets using Basel I definition.

These non-regulatory capital ratios are viewed by management as useful additional methods of reflecting the level of capital available to withstand unexpected market conditions. Additionally, presentation of these ratios allows readers to compare the Company's capitalization to other financial services companies. These ratios differ from capital ratios

defined by banking regulators principally in that the numerator excludes preferred securities, the nature and extent of which varies among different financial services companies. These ratios are not defined in Generally Accepted Accounting Principles (“GAAP”) or federal banking regulations. As a result, these non-regulatory capital ratios disclosed by the Company may be considered non-GAAP financial measures.

Because there are no standardized definitions for these non-regulatory capital ratios, the Company’s calculation methods may differ from those used by other financial services companies. Also, there may be limits in the usefulness of these measures to investors. As a result, the Company encourages readers to consider the consolidated financial statements and other financial information contained in this Form 10-K in their entirety, and not to rely on any single financial measure.
